MESSAGES FROM HIS HONOR THE MAYOR.

The President laid before the Board the following message from his Honor the Mayor:

No. 2248.

City of New York—Office of the Mayor, }
October 5, 1905.

To the Honorable the Board of Aldermen of The City of New York:

Gentlemen—I return herewith, without my approval, a resolution passed by your Honorable Body September 26, 1905, entitled:

"Resolution Permitting C. Applebaum to Advertise with Horse and Wagon."

This resolution is objectionable, in my opinion, in that it fails to limit the privilege therein granted in respect to time. It has been the custom heretofore to grant such licenses for a certain definite period, such as a week or ten days, and I think it wise to adhere to this practice in passing resolutions of this character.

Furthermore, in view of the enactment of chapter 621 of the Laws of 1895, the exercise of this privilege should be made subject to the supervision of the Police Commissioner.

Respectfully,

GEO. B. McCLELLAN, Mayor.

Resolved, That permission be and the same is hereby given to C. Applebaum, of No. 525 Gates avenue, Borough of Brooklyn, for the purpose of advertising with a horse and wagon through the streets of the Borough of Brooklyn, the same to be under the direction of the President of the Borough of Brooklyn, and to continue only during the pleasure of the Board of Aldermen.

Which was laid over, ordered to be printed in the minutes and published in full in the CITY RECORD.

The President laid before the Board the following message from his Honor the Mayor:

Nos. 1759 and 2150.

City of New York, Office of the Mayor, }
October 13, 1905.

To the Honorable the Board of Aldermen of The City of New York:

Gentlemen—I return herewith, without my approval, two resolutions passed by your Honorable Body October 3, 1905, entitled:

"Resolution giving permission to Charles E. Ring to lay an eight-inch pipe under and across Kent avenue, Borough of Brooklyn;"

"Resolution, permitting the Kips Bay Brewing and Malting Company to lay pipe."

By the passage of chapter 629 of the Laws of 1905, the franchise granting power was transferred from the Board of Aldermen, in which it was formerly vested, to the Board of Estimate and Apportionment.

The constitutionality of that act is now being tested in the courts, but until they have decided that such law is unconstitutional the Board of Aldermen, in my opinion, cannot legally grant a franchise or permit of this character in the public streets.

Respectfully,

GEO. B. McCLELLAN, Mayor.

The Committee on Streets, Highways and Sewers, to whom was referred on April 4, 1905 (Minutes, page 64), the annexed resolution in favor of permitting Charles E. Ring to lay an eight-inch pipe under and across Kent avenue, Borough of Brooklyn, respectfully

REPORT:

That, having examined the subject, they recommend that the said resolution be adopted:

Resolved, That permission be and the same is hereby given to Charles E. Ring to lay and maintain an eight-inch cast-iron pipe under and across the carriageway of Kent avenue, in the Borough of Brooklyn, said pipe to be used for the purpose of conducting steam, and to connect the premises of the said Charles E. Ring, No. 429, on the one with his premises, No. 434, on the other side of said thoroughfare; provided that said Charles E. Ring shall pay to The City of New York, as compensation for the privilege, such amount as shall be ascertained, fixed, and determined by the Board of Estimate and Apportionment; and provided further that the said Charles E. Ring shall stipulate with the President of the Borough of Brooklyn to save The City of New York free and harmless from any loss or damage that may be occasioned during the progress or subsequent to the completion of the work of laying said pipe; the work of laying said pipe to be done in a manner approved by and under the direction and to the satisfaction of the President of the Borough of Brooklyn.

The permission hereby granted shall continue only during the pleasure of the Board of Aldermen, and anything hereinbefore contained to the contrary notwithstanding it is hereby expressly stipulated that the permit hereinbefore provided for shall take effect only upon and after the payment by the licensee herein of any sum or sums provided by the Board of Estimate and Apportionment, as the first monthly, quarterly or annual payment to be paid in consideration of said permit. And also it is expressly provided and stipulated that in the event of the Board of Estimate and Apportionment determining that the licensee herein shall make certain monthly, quarterly or annual payments, the licensee herein provided for shall cease and determine, without any action on the part of the Board of Aldermen, at the expiration of ninety days after any default in making any one of said payments.

FRANK L. DOWLING, ANDREW J. DOYLE, PATRICK CHAMBERS, JOHN WIRTH, JOSEPH SCHLOSS, Committee on Streets, Highways and Sewers.

The Committee on Streets, Highways and Sewers, to whom was referred on July 11, 1905 (Minutes, page 92), the annexed resolution in favor of permitting the Kips Bay Brewing Company to lay salt water pipe along East Thirty-eighth street, Borough of Manhattan, respectfully

REPORT:

That, having examined the subject, they recommend that the said resolution be adopted:

Resolved, That permission be and the same is hereby given to the Kips Bay Brewing and Malting Company to lay and maintain an eight-inch suction pipe, as shown in the accompanying diagram, for the purpose of conducting salt water from the East river, underneath and along East Thirty-eighth street, a distance of about three hundred feet, to its property on the southerly side of said East Thirty-eighth street, near First avenue, in the Borough of Manhattan; provided that the said Kips Bay Brewing and Malting Company obtain from the Commissioner of Docks his license or consent upon such terms as to the said Commissioner of Docks may seem meet and proper; and provided further, that the said Kips Bay Brewing and Malting Company shall pay to The City of New York, as compensation for the privilege hereby granted, such an amount as may be deemed an equivalent therefor by the Board of Estimate and Apportionment; and provided further, that the said Kips Bay Malting and Brewing Company shall stipulate with the President of the Borough of Manhattan and the Commissioner of Docks to save The City of New York free and harmless from any loss or damage that may be occasioned during the progress or subsequent to the completion of the work of laying said pipe; the work to be done at the expense of the said Kips Bay Malting and Brewing Company, under the direction and to the satisfaction of the President of the Borough of Manhattan and the Commissioner of Docks, respectively, as jurisdiction may apply, said permission to continue only during the pleasure of the Board of Aldermen.

FRANK L. DOWLING, PATRICK CHAMBERS, ANDREW J. DOYLE, JOHN WIRTH, JOHN J. BRIDGES, JOSEPH SCHLOSS, ANDREW M. GILLEN, Committee on Streets, Highways and Sewers.

Which was laid over, ordered to be printed in the minutes and published in full in the CITY RECORD.

COMMUNICATIONS FROM CITY, COUNTY AND BOROUGH OFFICERS.

The President laid before the Board the following communication from the Police Commissioner:

No. 2327—(S. O. No. 220).

Police Department of The City of New York,
No. 300 Mulberry Street,
New York, October 9, 1905.

To the Honorable Board of Aldermen:

Gentlemen—The Police Commissioner this day,

On the approval by the Board of Estimate and Apportionment and the Board of Aldermen of the expenditure of one thousand dollars (\$1,000) for the purpose of collating the election returns November 7, 1905.

Ordered, That the Chief Clerk be directed to make requisition for the necessary printing, the leasing of additional telephone wires, connecting Manhattan, Brooklyn and Queens, the carting of telephones, including an amount not to exceed two hundred and seventy-five dollars (\$275), for the furnishing of refreshments for the telegraph forces of Brooklyn and Queens and the officers, clerks and employees at Central Office; also the amount of fifty dollars (\$50) for the Chief Clerk to obtain the services of an expert accountant.

Which was made a Special Order for 2 o'clock p. m.

The President laid before the Board the following communication from the Fire Department:

No. 2328—(S. O. No. 221.)

Headquarters Fire Department, City of New York,
Nos. 157 and 159 East Sixty-seventh Street,
Borough of Manhattan, October 16, 1905.

Hon. CHAS. V. FORNES, President, Board of Aldermen, City Hall, Borough of Manhattan:

Sir—Under date of June 28, 1905, a communication was forwarded from this office to your Honorable Board, reading as follows:

Hon. TIMOTHY P. SULLIVAN, Vice-Chairman and Acting President, Board of Aldermen:

Sir—This office is to-day in receipt, through the Bureau of Chief of Department, of a report from the Chief of the Nineteenth Battalion, in command of the fireboat fleet, reading as follows:

Borough of Manhattan, June 27, 1905.

EDWARD F. CROKER, Chief of Department:

Sir—I have the honor to report that some time ago investigation showed that fireboat "The New Yorker" was in very bad condition. Accordingly, specifications were drawn up and bids for the necessary repair work advertised for and opened at public letting held in this Department on November 21, 1904. The lowest bidder for doing the work being John F. Walsh, Jr., of No. 136 Charlton street, Manhattan, the contract was awarded to him for the sum of \$8,437.

When "The New Yorker" was placed on the drydock and the work under way, the United States Government inspectors declared the boat to be unfit in other respects, to wit:

That frame 21 on the port side should be renewed and, if found necessary, any other defective frames in wake of new truss-bearing to be made good. The reverse frames 44, 68 and 69 on starboard side, and 67, 68 and 69 on port sides to be renewed and, if necessary, any other reverse frames that may be found defective, especially in wake of new truss-bearing, to be made good. The amidship butts of plates at stern to be carefully shipped and space filled and caulked watertight. The fitting-in post to be as long as possible, and secured firmly in place. The bow plates at water line for a distance aft of about 18 feet, and where they are of single thickness and worn to 5-16 inch thick or less, to be removed or set out to fair surface. Then this length of about 18 feet on each side of bow to be covered with a reinforced plate of steel, not less than 7-16 inch thick, and to be fitted accurately between the edges or upper and lower strakes, the reinforced plates to be riveted through frames at top and bottom, edge to edge under plate, and the reinforced plates thus fitted, riveted and caulked watertight. The stern-bearing bush to be removed and relined with end grain lignum vitae, and bored to fit ship sleeve. The manhole in collision bulkhead to be reinforced to make good; iron angle brace or brackets to be fitted if necessary. The angle iron on floors under new truss to be renewed where necessary to make good and sufficient fastening to truss bed; also lower part of bulkhead for same to be renewed. The waist aft, where damaged by collision to be made good and fair with balance of waist; all stanchions bent to be straightened.

My personal investigation disclosed also, after the boat was on the drydock, the necessity for other repairs beside those covered by the original specifications and required by the Federal Government.

In justification of myself in not reporting the condition discovered later, I have to say that while the boat was in the water the items covered by the additional specifications could not have been seen. It was necessary to get the boat on drydock in order to inspect the plates, and it was necessary that the machinery and boiler equipment be opened up in order to see the defects that are covered by the additional specifications.

I have been advised that the United States Government requirement will entail an expenditure of about \$4,000, and that the requirements suggested by me for the betterment of the boat, under the last specifications, will cost about \$5,000, making in all, approximately, \$9,000, that ought to be expended on the boat, in addition to the sum covered by the contract awarded as hereinbefore stated.

To go through the forms necessary, according to the usual custom, to wit, advertisement, and so on, with the possible necessity of selecting another man than the one now doing the work, would simply mean that the boat would be out of commission until about next December; whereas, if it were found practicable to give the additional work to the contractor now repairing the boat, she would be in the water ready for duty in six weeks, and I am of the opinion will be better fitted for fire service than at any time since first launched. Furthermore, it would seem impracticable to have another man do the work. The additional specifications are so dovetailed with the old specifications that it requires unity of effort, unity of work, as the work under the additional specifications would require the removal of all the work done under the original specifications, as to the fitting of truss block and lining of shaft, as the frames condemned by the United States Inspectors come directly in front of such truss block.

I cannot see how the work on the original specifications could be done by one contractor and the job completed, and the work on the additional specifications be done by another contractor and that job completed without waste of time, effort and money, and a poorer job at the end. I cannot too strongly recommend that the ordinary procedure of public letting for the additional work be dispensed with.

Very respectfully,

(Signed) JOHN KENLON, Chief Nineteenth Battalion.

I have therefore the honor to request that, in view of the conditions detailed in the above report, the Board of Aldermen, pursuant to the authority conferred upon it by the provisions of section 419 of the Greater New York Charter, authorize and empower

the Fire Commissioner to have such additional work done without contract at public letting and by the present contractor, the total expenditure thereof not to exceed the sum of nine thousand dollars (\$9,000).

I enclose draft of preamble and resolution necessary to accomplish the object in view, the prompt adoption of which, by the Board of Aldermen, in view of the exigencies of the case, will be greatly appreciated.

Respectfully,

(Signed) NICHOLAS J. HAYES, Commissioner.

It appears that action on the above matter has not been taken by your Honorable Board, and it is again brought before you with the request that early and favorable consideration be given to it.

Respectfully,

THOMAS W. CHURCHILL,
Deputy and Acting Commissioner.

Whereas, It appears by a communication from the Fire Commissioner to the Board of Aldermen, dated June 28, 1905, that he is advised by the Chief of the Nineteenth Battalion in charge of the Fire-boat Fleet that in addition to the alterations and repairs to fire-boat "The New Yorker" (Engine Company 57) of the Fire Department of The City of New York, boroughs of Manhattan and The Bronx, under contract dated January 10, 1905, certain additional work will be indispensably necessary in connection therewith; and

Whereas, It would be in the interest of the Department and The City of New York that said additional work be performed by the present contractor, to avoid delay; therefore

Resolved, That the Board of Aldermen, in pursuance of the authority conferred upon it by the provisions of section 419 of the Greater New York Charter, deeming such course to be for the best interests of the City, hereby authorizes and empowers the Fire Commissioner to have such additional work done without contract at public letting, and by the present contractor, the total expenditure therefor not to exceed the sum of nine thousand dollars (\$9,000).

Which was made a Special Order for 2.30 o'clock p. m.

The President laid before the Board the following communication from the Public Administrator:

The President laid before the Board the following communication from the Police Commissioner:

No. 2330.
Police Department of The City of New York,
No. 300 Mulberry Street,
New York, October 13, 1905.

To the Honorable Board of Aldermen:
Gentlemen—The Police Commissioner this day on reading and filing communication from Richard E. Enright, Inspector of Repairs and Supplies, dated October 12, 1905,

Ordered, That the Board of Aldermen be and are hereby respectfully requested to authorize the issue of Special Revenue Bonds in the sum of \$40,000, of which amount \$30,000 is to be applied to the appropriation for the year 1905, entitled "Supplies for Police," and the amount of \$10,000 to the appropriation for the year 1905, entitled "Police Station-houses, Alterations, Fitting Up, etc.," and that a copy of the said communication of Richard E. Enright be respectfully forwarded to the Board of Aldermen for consideration in connection with this request.

Ordered, That whenever the Board of Aldermen shall have authorized the issue of Special Revenue Bonds in the sum of \$40,000, of which amount \$30,000 is to be applied to the appropriation for the year 1905, entitled "Supplies for Police," and the amount of \$10,000 to the appropriation for the year 1905, entitled "Police Station-houses, Alterations, Fitting Up, etc.," the Board of Estimate and Apportionment be and is hereby respectfully requested to authorize the issue of such Revenue Bonds in said amount.

Very respectfully,
WM. H. KIPP, Chief Clerk.

(Copy.)

Police Department of The City of New York,
Bureau of Repairs and Supplies, No. 300 Mulberry Street,
New York, October 12, 1905.

Hon. WILLIAM McADOO, Police Commissioner:

Sir—I respectfully recommend that the Board of Aldermen and the Board of Estimate and Apportionment be requested to authorize the issuance of Special Revenue Bonds in the sum of \$40,000, of which \$30,000 be applied to the appropriation of this year, entitled "Supplies for Police," and \$10,000 to the appropriation for this year, entitled "Police Stations, Alterations, Fitting Up, etc."

In the annual Budget for the year 1905, prepared in September, 1904, an appropriation of \$534,484 was asked for "Supplies for Police," of which only the sum of \$424,000 was granted.

At the same time an appropriation of \$140,000 was asked for "Police Station-houses, Alterations, Fitting Up, etc.," of which only \$44,000 was granted, which amount has since been supplemented by the issuance of Corporate Stock for the sum of \$82,000 for "Permanent Betterment." The latter appropriation is being expended under contracts awarded and in preparation and cannot be diverted, while the original appropriation (\$44,000) is practically exhausted and no funds are available to meet the ordinary emergency repairs of the Department now known and anticipated.

After the Budget of 1905 had been passed upon and the appropriation fixed, contracts were awarded in the closing days of 1904 for the purchase of fifty-five (55) additional horses, and in January, 1905, contract was awarded for the purchase of seventy-five (75) additional horses (of which fifty-five (55) have been placed in the service), no provision or appropriation being made for the equipment and maintenance of these 110 horses, which has cost approximately \$27,100. The Budget appropriation, which did not contemplate these demands, and being reduced \$110,484 below the appropriation asked has proven entirely inadequate to meet even the most urgent demands of the service.

It is estimated that there will be a saving of \$35,681 on the contracts of this year. The strictest economy has prevailed, as will be shown by the following schedule of comparative open order expenditures for the year 1904, as against those of 1905, to date:

	Supplies. 1904.	1905.	Repairs. 1904.	1905.
January	\$24,986 32	\$2,046 94	\$2,981 00	\$1,023 00
February	10,101 22	7,110 97	1,323 45	2,877 44
March	8,460 72	9,472 94	2,739 66	1,377 12
April	9,038 82	11,490 22	421 50	2,351 51
May	14,673 75	12,927 60	1,144 95	698 59
June	7,236 06	5,849 08	2,068 99	1,114 82
July	5,465 45	7,053 30	2,436 09	1,267 00
August	7,202 25	4,509 97	7,604 19	1,088 30
September	12,674 33	1,618 85	8,427 44	878 00
October	2,171 72	3,715 68
November	7,623 54	11,714 45
December	25,620 17	9,416 02
	\$135,254 35	\$62,079 87	\$53,993 42	\$12,675 78
Contracts for supplies and repairs in 1905, which were purchased on open orders in 1904—				
Wagon repairs	8,985 05
House equipments	17,165 27
Alterations, repairs, painting, etc.	29,700 00
	\$135,254 35	\$88,230 19	\$53,993 42	\$42,375 78

Note—The expenditures for April and May, 1905, show larger than other months, for the reason that during the first three months requisitions were held pending investigations and were released in April. May account includes \$4,800 for automobile. Requisitions are now pending amounting to \$9,888.78 for "Supplies for Police," and \$1,494.38 for "Police Stations, Alterations, Fitting Up, etc.," and it is estimated that the amounts recommended will suffice to meet the above and additions for the balance of the year.

The savings under contracts mentioned have been considered and otherwise expended, and it is absolutely necessary that funds be procured to maintain this branch of the service for the remainder of the year.

Respectfully,
(Signed) RICHARD E. ENRIGHT,
Inspector, Repairs and Supplies.

Which was referred to the Committee on Finance.

The President laid before the Board the following communication from the Corporation Counsel, transmitting resolution:

No. 2331.
Law Department—Office of the Corporation Counsel,
New York, October 16, 1905.

To the Honorable the Board of Aldermen:

Gentlemen—On the 6th day of October, 1905, I addressed a communication to his Honor the Mayor, reading as follows:

"Since the last provisional estimate of this Department was acted upon by the Board of Estimate a situation has arisen to meet which the City will have to incur an additional expense not otherwise provided for, and I therefore submit the facts to you for appropriate action.

"The claims against the City for the service of gas and electric light for 1903, 1904 and 1905, exclusive of interest thereon, aggregate \$8,123,460.75. The City has refused payment of these claims, and suits have been brought to enforce it, and these suits the City has resisted.

"Some of the cases will soon be reached for trial, and because of the nature of the City's defense it will be necessary for me to engage competent engineers, thoroughly

familiar with this special business, for expert witnesses. As the chief source of employment of such men would naturally be the gas and electric lighting companies, no small difficulty confronts us.

"The position taken by the City will mark a departure from the attitude heretofore generally assumed by municipalities in dealing with public service corporations, and it is therefore of the greatest importance that it should, if possible, be sustained from the outset. To do so will involve long and determined struggle in the courts.

"The cases will be conducted by this office without any additional expense, and Mr. Burr, my assistant, is now preparing them for trial, but the City has no engineering force available as experts, and will, as explained, have to employ this indispensable assistance.

The questions raised by the answers which I have interposed will show the necessity of the course I propose.

We claim:

1. That the companies have formed a combination for the purpose of controlling and regulating, and did control and regulate as a monopoly the price of gas and electricity, commodities of common use for lighting and other purposes, and that such combination or consolidation is against public policy, illegal and void.

2. That because of such monopoly there is no standard or market price or value for either gas or electricity in The City of New York, and that the only manner in which such market value can be ascertained is to determine the cost of production and distribution, adding thereto a sum sufficient to return a fair profit upon the money actually invested in the business with due regard to the hazard involved.

3. That during the years named and for several years prior thereto there has been no competition for City lighting by gas and electricity, and that the prices bid or charged therefor have been in all cases the same for similar service, and that no two companies have bidden for the same service in the same district.

4. That the prices charged by the companies for gas and electric lighting are excessive and above the fair and reasonable value of such commodity and service.

5. That no contract existed between the companies and the City during the year 1903 as to the fair value of the services to be rendered by the said companies; that the proposals issued to all bidders for such year contained the following paragraph:

"20. The Commissioner reserved the right to reject any and all bids and estimates if the Board of Estimate and Apportionment shall determine it for the best interest of the City so to do."

That the Board of Estimate and Apportionment on the recommendation of the Commissioner of Water Supply, Gas and Electricity, dated March 12, 1903, did determine that all bids for public lighting should be so rejected, and so resolved on or about December 4, 1903, and that the said Commissioner did thereupon reject the companies' bids on or about December 8, 1903, on the ground that the prices charged by the companies were unreasonable and excessive.

6. That the Commissioner of Water Supply, Gas and Electricity had and has no power to execute a contract on behalf of The City of New York to pay unfair and unreasonable prices for such commodity and service rendered during the year 1904 or at any other time; that because of the unfairness and unreasonableness of the prices charged and the combination which existed to control and monopolize the price of gas and electricity, by direction of the Mayor all bids for gas and electric lighting for the year 1905 were rejected.

7. That the companies as public utility corporations were and are bound to furnish light and lighting service to the City and are entitled to recover only the fair value of the same, and that the City has at all times been able, ready and willing to settle claims duly filed for services rendered and commodities supplied at the reasonable and fair value thereof.

We compel these companies to continue to serve the City with gas and electric lighting and refuse to pay them the bills rendered for such service, forcing them to invoke the aid of the courts where the question will be finally determined as to what are the powers and duties of these public utility corporations in their relation to the City, and what is fair and reasonable compensation for their public service to the City. We contend that a public utility corporation is a creature of law and has no rights except those conferred upon it by the people, and that the people have the right to so control it as to make it subserve the public interest.

Before these questions are finally determined in the courts the amount claimed by these companies will probably amount, with interest, to about fifteen millions of dollars. So that this whole situation is of the utmost concern to the people of the City.

There are pending at the present writing more than twenty actions brought by these companies against the City, in each of which expert testimony will be required.

This Department will therefore need an appropriation of \$50,000 to properly defend these actions and secure the best and highest character of expert testimony on all the subjects involved in order to sustain the position taken by the City in this most important litigation."

I have just received the Mayor's answer to this communication, reading as follows:

"I beg to acknowledge receipt of your communication of the 7th inst.

"I approve of the appropriation asked for, and suggest that you apply at once to the Board of Aldermen for the necessary authority under the Charter.

"I am quite certain that the Board of Estimate will pass favorably on the question, and immediately on the passage of the resolution of the Board of Aldermen I shall present the matter to the Board of Estimate for action."

Accordingly I forward herewith form of resolution which, in view of the great importance of the matter and the imperative necessity imposed upon the City to vigorously defend the actions brought against it by the gas and electric light companies and now about to be reached for trial, I respectfully ask may be taken up and acted upon at your meeting on Tuesday, October 17, 1905.

Respectfully yours,

JOHN J. DELANY, Corporation Counsel.

Resolved, That, pursuant to subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment is hereby requested to authorize the Comptroller of The City of New York to issue Special Revenue Bonds to the amount of fifty thousand dollars (\$50,000) for the purpose of defraying the expenses of defending actions and proceedings brought by the gas and electric light companies, and now pending against the City, and securing experts to testify in support of the defense interposed by the City that the prices charged by said companies for public lighting service are unreasonable and excessive.

REPORTS OF STANDING COMMITTEES.

Report of Committee on Finance—

Nos. 2288 and 2299.

The Committee on Finance, to whom was referred on October 3, 1905 (Minutes, page 8), the annexed communication and ordinance in favor of an issue of Corporate Stock, \$21,100, for fire protection devices for Bellevue Hospital, respectfully

REPORT:

That, having examined the subject, they believe the proposed issue to be necessary. They therefore recommend that the said ordinance be adopted.

Bellevue and Allied Hospitals,
Bellevue Hospital, Foot East Twenty-sixth Street,
New York, September 8, 1905. }

Board of Aldermen, City Hall, New York City:

Gentlemen—The Board of Trustees of Bellevue and Allied Hospitals received on August 7 a special report rendered by Hugh Bonner, Esq., Advisory Member Upon Fire Protection, New York City Visiting Committee of the State Charities Aid Association on the subject of fire protection at Bellevue Hospital. This report indicated so alarming a state of affairs that the Fire Commissioner was requested to have the building inspected and report on its condition. The General Medical Superintendent requested the officer who made this inspection to bear in mind in his recommendations that provision had been made for a new Bellevue Hospital and that the present building would be occupied in all likelihood but six or eight years longer, so that any alterations would be in the nature of temporary advantage to the City. The representative of the Fire Department, however, has made recommendations that will entail extensive alterations and repairs, and, in view of the fact that it will be at least four or five years before the portion of the building criticised at present can be entirely vacated of patients, we feel that these recommendations should receive careful attention at your hands. A copy of the recommendations made by the Fire Department is herewith inclosed.

It is estimated that the following amounts will be required:

Putting in iron stairs complete with slate treads and platforms.....	\$9,000 00
Mason work	13,300 00
Carpentry and painting.....	485 00
Putting in five storage tanks with connections.....	2,500 00
Repairs to the present stand-pipes and connections.....	300 00
Permanent repairs to fire alarm system.....	450 00
Iron flooring put on balconies in place of present wood flooring.....	7,000 00
Metal ceiling in cellar and amphitheatre.....	600 00
Fire-escapes for dormitory building.....	700 00
	<u>\$34,335 00</u>

The Board of Trustees deems it its duty to present this matter for your immediate consideration, and would respectfully request that you make such appropriation as will be needed to make the alterations recommended so as to afford protection against loss of life in the event of fire.

Respectfully,

J. K. PAULDING,
Acting President, Board of Trustees.

Recommendations of Thomas King, Acting Chief of Battalion in Charge, Bureau of Violations and Auxiliary Fire Appliances, Fire Department, City of New York.

Under this heading the larger buildings, comprising the group are to be considered more so than the one and two story structures which are as a rule properly provided with necessary appliances.

Fire Escapes.

1. Remove wooden floors from present balcony fire escapes on main building and substitute iron or fireproof floors.
2. Provide iron balcony outside fire escapes on dispensary building.
3. All shafts, wooden stairs and stairway inclosures to be constructed of fireproof material.

All lath and plaster ceilings in cellars and other rooms, where necessary (especially where same is broken), be fire-stopped or sheathed with metal.

Have present elevator in main building inspected as to safety by the Department of Buildings.*

All openings around water, steam and gas pipes that pass through floors, partitions, walls and ceilings should be fire-stopped and provided with metal sleeves.

Fire doors in attic of main building should be made automatic or self-closing, as present arrangement of leaving same open is contrary to purpose intended to prevent the spread of fire over entire area; whitewash roof beams and side walls with two coats of rock lime.

Present electrical wiring should be placed in iron pipe, as same is not properly protected, particularly in attic, where it is strung along wooden beams and side wall.

Extend present standpipes to attic floors and provide hose to cover same.

Entire interior alarm in all buildings is defective and requires overhauling, or install a more improved system throughout.

Present dry system of standpipes is disapproved, and tanks of sufficient capacity should be placed on roofs of buildings having standpipe and connect standpipes to same, so as to have a constant supply of water at all times and avoid any delay that may occur through failure to notify Engineer of pumping station in the event of fire, and replace all nozzles wherever missing from hose connections.

Close up passageway in rear of amphitheatre seats or make same fireproof with metal sheathing.

Discontinue practice of placing cloth material on or near steam pipes, and clean up cellar used for storage of drugs, chemicals, etc.*

The building used by the Charities Department, drug store and cellar for storage of same in main building is more or less of a menace, and I would recommend that same be removed from present location to a point nearer the river's edge and separate from other buildings.

Provide time detectors to record movements of Watchmen.*

The fire hydrants on grounds, of which there are several, are supplied by 6-inch main which should be replaced with a main of larger capacity. I was informed that the Department of Water Supply had same under consideration.*

AN ORDINANCE providing for an issue of Corporate Stock in the sum of twenty-one thousand one hundred dollars (\$21,100); to provide means for making additions and alterations to the buildings and present fire protection devices of Bellevue Hospital.

Be it Ordained, by the Board of Aldermen of The City of New York, as follows:

Section 1. The Board of Aldermen hereby approves of and concurs in the following resolution adopted by the Board of Estimate and Apportionment September 29, 1905, and authorizes the Comptroller to issue Corporate Stock of The City of New York to the amount and for the purposes therein specified:

"Resolved, That, pursuant to the provisions of Section 47 of the Greater New York Charter, as amended, the Board of Estimate and Apportionment hereby approves of the issue of Corporate Stock of The City of New York, to an amount not exceeding twenty-one thousand one hundred dollars (\$21,100) to provide means for making additions and alterations to the buildings and present fire protection devices of Bellevue Hospital, and that when authority therefor shall have been obtained from the Board of Aldermen the Comptroller is authorized to issue Corporate Stock of The City of New York in the manner provided by section 169 of the Greater New York Charter to an amount not exceeding twenty-one thousand one hundred dollars (\$21,100), the proceeds whereof to be applied to the purposes aforesaid."

JOHN T. MCCALL, OWEN J. MURPHY, WILLIAM WENTZ, FERDINAND HAENLEIN, JAMES W. REDMOND, Committee on Finance.

Alderman McCall asked and obtained immediate consideration for this report.

The President put the question whether the Board would agree to accept said report and adopt said ordinance.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Ahner, Baldwin, Bennett, Boerner, Boyhan, Brenner, Callahan, Chambers, Coggey, Doull, Dowling, Flynn, Gaffney, Gass, Goodman, Grifenhagen, Haenlein, Harburger, Harnischfeger, Higgins, James, Jones, Kenney, Kline, McCall, Meyers, Morris, Arthur H. Whereas, Knowledge of the accidental and too untimely death of Armitage Mathews, one time an Assistant District Attorney and member of the Board of Aldermen of The City of New York during the years 1900, 1901, 1902 and 1903, has aroused a feeling of profound sorrow in the breasts of all who knew him as a public official; and

Whereas, This Board, most of whose members were his colleagues, and between whom and Armitage Mathews there had been formed, irrespective of political distinctions, sincere and lasting friendship, based on an amiability of character that under all conditions and circumstances attracted to his side a legion whose devotion was unquestioned, mourns with his many other friends over a most lamentable death; therefore

Resolved, That the Board of Aldermen of The City of New York hereby records its profound grief at the abrupt taking away of Park Commissioner Pallas, a faithful, alert and competent public servant, and extends to his surviving relatives sincere sympathy.

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application thereto at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
