MESSAGES FROM HIS HONOR THE MAYOR.

The President laid before the Board the following message from his Honor the Mayor:

No. 2010.

City of New York—Office of the Mayor, }
May 27, 1907.

To the Honorable the Board of Aldermen of The City of New York:

Gentlemen—I return herewith, with my disapproval, a resolution adopted by your Honorable Board, May 14, 1907, entitled "Resolution permitting A. Edwards to operate an advertising wagon."

This resolution is defective in that it fails to provide for proper supervision by the Police Department, in accordance with the provisions of chapter 621 of the Laws of 1905.

Respectfully,

GEO. B. McCLELLAN, Mayor.

Resolved, That Albert Edwards, of Ocean avenue and Church avenue, in the Borough of Brooklyn, City of New York, be given, and hereby is given, permission to run and operate a wagon displaying advertising signs for the sale of real estate, in, upon and through the streets, avenues, and public places and highways of the Boroughs of Brooklyn and Manhattan, in The City of New York, for the period of sixty days from May 17, 1907.

Which was laid over, ordered to be printed in the minutes and published in full in the CITY RECORD.

PETITIONS AND COMMUNICATIONS.

The President laid before the Board the following communication from the Presidents of the Select Council and Common Council of Philadelphia, Pa.:

No. 2060.

To the Hon. PATRICK F. McGOWAN, President, and the Board of Aldermen of New York City:

Fellow law makers of the Knickerbocker Village by the Hudson—We, City Fathers of the goodly and humble town of Brotherly Love, send greetings. Yet we also have a concern to inform thee that whilst we have heard that thou movest with more celerity of mind and of body than we, thou canst not play baseball.

We are strongly inclined, therefore, to try conclusions with thee on the diamond. We are willing to teach thee, benighted as thou art, how the trick is done.

For that reason we send thee this our challenge. We shall see that thou art safely brought to Philadelphia, and given the freedom of the City. Then we propose to smite thee, hip and thigh, and to send thee back to thy people with experience.

We have arranged for some merry making to lighten the sting of thy defeat. Between the several stages of thy undoing there will be worldly "stunts" by actor folks, bestowal of flowers upon worthy hitters by fair women and much feasting and entertaining, when battle armor is put aside. All this in the name of charity, for we would turn the proceeds of the game over to a worthy institution founded here to benefit the public.

We suggest some day in June at thy convenience, and we wait with interest thy acceptance of this gage of battle.

(Signed)

JAS. M. HAZLETT,

President of Select Council.

GEORGE McCURDY,

President of Common Council.

May 23, 1907.

Alderman Davies moved that the challenge be accepted and a Committee be appointed by the President to make proper arrangements for the contest.

Which motion was unanimously adopted, and the President appointed as such Committee the Vice-Chairman, Aldermen Sullivan, Meyers, Dowling, Davies, Haggerty and Leverett, with power to add to their number.

The said drinking fountain to be erected under the supervision of the Commissioner of Water Supply, Gas and Electricity, and the water therefor shall be supplied by the Department of Water Supply, Gas and Electricity, without expense to the said society.

Yours very truly,

ALFRED WAGSTAFF, President.

Which was referred to the Committee on Streets, Highways and Sewers.

COMMUNICATIONS FROM CITY, COUNTY AND BOROUGH OFFICERS.

The President laid before the Board the following communications from the Board of Estimate and Apportionment transmitting ordinances:

No. 2062.

Board of Estimate and Apportionment, City of New York, }
Office of the Secretary, No. 277 Broadway, }
May 27, 1907.

Hon. PATRICK F. McGOWAN, President, Board of Aldermen:

Dear Sir—I transmit herewith certified copy of a resolution adopted by the Board of Estimate and Apportionment May 24, 1907, authorizing the issue of \$3,000,000 to provide means for the improvement of the water supply system in the Borough of Brooklyn, as set forth in section 178 of the Charter; together with copy of communication from the Commissioner of Water Supply, Gas and Electricity, and copy of report of the Comptroller, to whom this matter was referred on April 19, 1907.

I also transmit form of ordinance for adoption by the Board of Aldermen to indicate its concurrence therein.

Very truly yours,

JOSEPH HAAG, Secretary.

Department of Water Supply, Gas and Electricity, }
Nos. 13 to 21 Park Row, }
March 10, 1907.

JOSEPH HAAG, Esq., Secretary, Board of Estimate and Apportionment, City:

Dear Sir—The construction of the 72-inch pipe line which the Department intends to place from Clear Stream, L. I., to the county line of Nassau, between Massapequa and Amityville, will complete a very important work in connection with Brooklyn's water supply system. By July next, under the first installment of this work (authorized by my predecessor), there will have been laid about eight and a half miles of this pipe line, from Ridgewood to Clear Stream.

There is yet to be procured the property between Clear Stream and Amityville to accommodate this line, and, in addition, a new contract must be awarded for the laying of the 72-inch steel riveted pipe between these locations. Figuring on the prices awarded on condemnation proceedings on land already acquired for this improvement and on the bid under which the present eight and a half miles of pipe was furnished, the Acting Chief Engineer of the Borough of Brooklyn estimates that four million dollars will be required, this to cover the cost of the entire strip of land between Ridgewood and Amityville, and the furnishing and laying of the pipe line in the unfinished section.

The inclosed map is submitted for the purpose of assisting your Engineers in determining the amount of money necessary for this work, and should not be considered as being before your Board for approval, as the Department has not yet pre-

pared its official map with all its many details as to exact area of parcels, owners' names, etc.

An additional appropriation of \$400,000 is requested for the purpose of building a new pumping station at Wantagh Infiltration Gallery, to consist of a new building, high lift, high duty pumping machinery, boilers and all appurtenances complete. The present pumping plant at this location is operated by the City under a lease with the New York Continental Jewell Filtration Company, who have developed the water supply at that point by the building of an infiltration gallery. At the expiration of one year, if the Department has not provided for its own plant and machinery, it will become necessary to negotiate with these contractors for the purchase of the present plant, which is entirely inadequate for the purposes of this Department, or for a renewal of the present lease. In the opinion of the Acting Chief Engineer, this plant should not be held in service by the City any longer than is absolutely necessary.

Another item of appropriation desired is \$450,000 to replace the present pumping station built by M. J. Dady, who has constructed the infiltration gallery at Massapequa. The present plant is equipped with low lift machinery, and is only capable of delivering water into the masonry conduit, and as the 72-inch steel pipe line is to practically replace the old Brooklyn Conduit, and through which water will be forced under a heavy pressure, the water from the Massapequa gallery cannot be utilized until improved machinery has been placed and a proper station constructed.

The above remarks regarding the advisability of discontinuing the services of the pumping station built in connection with the New York Continental Jewell Filtration Company's contract with this Department applies also to the station at Massapequa.

Respectfully,

JOHN H. O'BRIEN, Commissioner.

May 15, 1907.

Hon. HERMAN A. METZ, Comptroller:

Sir—Hon. John H. O'Brien, Commissioner, Department of Water Supply, Gas and Electricity, in communication under date of March 10, 1907, requests the Board of Estimate and Apportionment for an authorization of Corporate Stock for the following purposes:

- | | |
|--|----------------|
| 1. Acquisition of land between Ridgewood reservoir and Amityville, and furnishing and laying of a 72-inch line in the unfinished section | \$4,000,000 00 |
| 2. New pumping station at Wantagh infiltration gallery..... | 400,000 00 |
| 3. New pumping station at Massapequa infiltration gallery..... | 450,000 00 |

1. I would report that it is proposed to purchase a strip of land to continue the 72-inch line from Clear Stream to the Suffolk County line (a short distance east of Massapequa); the land, furnishing pipe, laying same a distance of about fifteen and one-half (15½) miles, is estimated at \$4,000,000.

2. It is proposed to erect a building, including high duty pumping engines at Wantagh infiltration to take the place of the plant now being operated for the City by the New York Continental Jewell Filtration Company; this plant is estimated at \$400,000.

3. An appropriation of \$450,000 to erect a building containing high duty pumping engines at Massapequa to take the place of the low duty plant.

I have gone over the matter in detail with the Commissioner of Water Supply, Gas and Electricity, the Deputy Commissioner and the Acting Chief Engineer for the Borough of Brooklyn, and while the amount requested will eventually be needed for the work specified, it is my opinion that \$3,000,000 will be sufficient to carry on the work properly for at least one year.

I would therefore suggest that if the financial condition of the City warrants the expenditure, I think the Board of Estimate and Apportionment, pursuant to the provisions of section 178 of the Greater New York Charter, may authorize the Comptroller to issue Corporate Stock to the amount of \$3,000,000, to provide means for the improvement of the water supply system of The City of New York in the Borough of Brooklyn.

Respectfully,

CHANDLER WITHINGTON, Chief Engineer.

Approved:

H. A. Metz, Comptroller.

AN ORDINANCE providing for an issue of Corporate Stock in the sum of three million dollars (\$3,000,000), to provide means for the improvement of the water supply system in the Borough of Brooklyn, as set forth in said section 178 of the Charter.

Be it Ordained by the Board of Aldermen of The City of New York as follows:

Section 1. The Board of Aldermen hereby approves of and concurs in the following resolution, adopted by the Board of Estimate and Apportionment May 24, 1907, and authorizes the Comptroller to issue Corporate Stock of The City of New York to the amount and for the purposes therein specified:

"Resolved, That, pursuant to the provisions of section 178 of the Greater New York Charter, the Board of Estimate and Apportionment hereby approves of the issue of Corporate Stock of The City of New York to the amount of three million dollars (\$3,000,000), to provide means for the improvement of the water supply system in the Borough of Brooklyn, as set forth in said section 178 of the Charter, and that, when authority therefor shall have been obtained from the Board of Aldermen, the Comptroller is authorized to issue Corporate Stock of The City of New York in the manner provided by section 169 of the Greater New York Charter, to an amount not exceeding three million dollars (\$3,000,000), the proceeds whereof to be applied to the purposes aforesaid."

Board of Estimate and Apportionment, City of New York,
Office of the Secretary, No. 277 Broadway,
May 27, 1907.

Hon. PATRICK F. MCGOWAN, President, Board of Aldermen:

Dear Sir—I transmit herewith certified copy of a resolution adopted by the Board of Estimate and Apportionment May 24, 1907, authorizing the issue of \$350,000 Corporate Stock for the purpose of providing means for the construction of a new women's prison in Raymond street; the construction in connection therewith of an administration building for the Raymond Street Jail; the painting of cells and interior walls of the present men's prison and the making of certain alterations in the civil prison of said jail; together with copy of communication from the President, Borough of Brooklyn, and copy of report of the Comptroller, to whom, on March 1, 1907, this matter was referred.

I also enclose form of ordinance for adoption by the Board of Aldermen to indicate its concurrence therein.

Very truly yours,

JOSEPH HAAG, Secretary.

The City of New York,
Office of the President of the Borough of Brooklyn,
Brooklyn, May 16, 1907.

To the Honorable Board of Estimate and Apportionment:

Gentlemen—A request of mine for the issue of \$500,000 of Corporate Stock for the construction of the new men's prison and administration building and the alteration and partial reconstruction of the men's prison in Raymond street, in this borough, was referred, on March 1, to the Comptroller. His report was submitted to the Board on April 26, and with it was transmitted a report of the Chief Engineer of his department. In the report he suggests that for the present the new women's prison be constructed, together with the administration building, that the cells and interior walls of the men's prison be painted and that certain alterations be made in the civil prison, all the work to be done at a cost of \$360,000, including the architect's fees.

In accordance with the Comptroller's suggestion, therefore, I ask that the matter be placed on the calendar of May 17, 1907, and I forward you herewith a copy of resolution for adoption:

Resolved, That, pursuant to the provisions of section 47 of the Greater New York Charter, as amended, the Board of Estimate and Apportionment hereby approve the issue of Corporate Stock of The City of New York for the amount of \$360,000, to provide means for the construction of a new women's prison in Raymond street, in the Borough of Brooklyn; the construction in connection therewith of an administration building for the Raymond Street Jail, and the painting of cells and interior walls of the present men's prison, and the making of certain alterations in the civil prison of the said Raymond Street Jail, the work to be done under the supervision and direction of the President of the Borough; and that when authority shall be obtained from the Board of Aldermen, the Comptroller is authorized to issue Corporate Stock of The City of New York, in the manner provided by section 169 of the Greater New York Charter, to an amount not exceeding \$360,000, the proceeds to be applied to the purposes aforesaid.

Yours truly,

BIRD S. COLER,

President of the Borough of Brooklyn.
City of New York,
Department of Finance,
April 25, 1907.

JOSEPH HAAG, Esq., Secretary, Board of Estimate and Apportionment:

Dear Sir—I herewith transmit original papers and report of the Chief Engineer of the Department of Finance, in relation to the request of the President of the Borough of Brooklyn for an issue of Corporate Stock of The City of New York to the amount of \$500,000, for the construction of a new women's prison and administration building and the alteration and partial reconstruction of the present men's prison in Raymond street, Borough of Brooklyn, which was referred to me at a meeting of the Board of Estimate and Apportionment held March 1, 1907.

In view of the suggestions contained in said report, I recommend that a copy of the same be sent to the President of the Borough of Brooklyn for his consideration.

Respectfully,

H. A. METZ, Comptroller.

April 20, 1907.

Hon. HERMAN A. METZ, Comptroller:

Sir—Hon. Bird S. Coler, President of the Borough of Brooklyn, in communication under date of February 15, 1907, requests the Board of Estimate and Apportionment to authorize the issue of Corporate Stock of The City of New York to the amount of \$500,000, the proceeds to be used for the purpose of constructing a new Women's Prison and Administration Building, and the alteration and partial reconstruction of the present Men's Prison, in Raymond street, Borough of Brooklyn.

I would report that preliminary plans for the work above outlined have been prepared, and have received the approval of the Municipal Art Commission.

In my opinion, the cost of the work contemplated (including architects' fees) will be nearer \$800,000, instead of \$500,000 requested, but all of the work I do not consider an urgent necessity at the present time. The alterations, completed recently, in the plumbing of the Men's Prison have made it possible to keep it in a sanitary condition.

I would suggest for the present the construction and completion of a new Women's Prison, and in connection therewith the erection of the Administration Building, cells and interior walls of the Men's Prison to be painted, and certain alterations to the civil prison; this will probably cost \$350,000, including architects' fees.

If these suggestions meet with your approval, I would advise that this request, with the above recommendations, be returned to the President of the Borough of Brooklyn for his consideration and action in the matter.

Respectfully,

CHANDLER WITHINGTON, Chief Engineer.

AN ORDINANCE providing for an issue of Corporate Stock in the sum of three hundred and fifty thousand dollars (\$350,000) for the purpose of providing means for the construction of a new Women's Prison in Raymond street; the construction, in connection therewith, of an Administration Building for the Raymond Street Jail; the painting of cells and interior walls of the present Men's Prison, and the making of certain alterations in the civil prison of said jail, said work to be done under the jurisdiction of the President, Borough of Brooklyn.

Be it Ordained by the Board of Aldermen of The City of New York as follows:

Section 1. The Board of Aldermen hereby approves of and concurs in the following resolution, adopted by the Board of Estimate and Apportionment May 24, 1907, and authorizes the Comptroller to issue Corporate Stock of The City of New York to the amount and for the purposes therein specified:

"Resolved, That, pursuant to the provisions of section 47 of the Greater New York Charter, as amended, the Board of Estimate and Apportionment hereby approves of the issue of Corporate Stock of The City of New York to an amount not exceeding three hundred and fifty thousand dollars (\$350,000) for the purpose of providing means for the construction of a new Women's Prison in Raymond street; the construction, in connection therewith, of an Administration Building for the Raymond Street Jail; the painting of cells and interior walls of the present Men's Prison, and the making of certain alterations in the civil prison of said jail; said work to be done under the jurisdiction of the President of the Borough of Brooklyn; and that, when authority therefor shall have been obtained from the Board of Aldermen, the Comptroller is authorized to issue Corporate Stock of The City of New York, in the manner provided by section 169 of the Greater New York Charter, to an amount not exceeding three hundred and fifty thousand dollars (\$350,000), the proceeds whereof to be applied to the purposes aforesaid."

Hon. PATRICK F. MCGOWAN, President, Board of Aldermen:

Dear Sir—I transmit herewith certified copy of resolution adopted by the Board of Estimate and Apportionment May 24, 1907, recommending the establishment of various grades of positions in the Department of Water Supply, Gas and Electricity, together with copy of report of the Committee on Salaries and Offices, Board of Aldermen, relative thereto.

The Committee on Salaries and Offices, to whom was referred on March 26, 1907 (Minutes, page 740), the annexed resolution in favor of fixing salaries of positions in the Department of Water Supply, Gas and Electricity, respectfully

REPORTS:

Before taking final action upon the accompanying resolution affecting the Department of Water Supply, Gas and Electricity the Committee desires its amendment in certain respects by the Board of Estimate and Apportionment. It is represented to the Committee that it is the intention of the Commissioner to appoint to the position of Chief Clerk and Auditor, at \$4,000, when created, Mr. Beardsley, who is now the general Bookkeeper, at a salary of \$3,000, and that in addition to his present duties Mr. Beardsley will assume those of Chief Clerk. This arrangement would result in the combination of two positions, with salaries of \$3,000 and \$2,700, respectively, involving a saving of \$1,700. It may well be doubted whether in case Mr. Beardsley ceases to hold the position the same arrangement could be maintained as to his successor. The Committee thinks, therefore, that the resolution should be framed so as to cover Mr. Beardsley only. Similarly it has been demonstrated to the Committee that Mr. Cozier, the Deputy Commissioner of the Borough of Brooklyn, is an exceptional official and is deserving of an increase from \$4,500 to \$5,500. The Committee thinks that as a general rule \$5,000 would be a proper maximum salary for the position, but is willing to have the salary of \$5,500 made to apply to the present incumbent only. The Committee desires also that the resolution should be amended so that it should take effect when approved by the Mayor. The mere omission of the date as now stated would be sufficient.

In order that the resolution may be amended in the three respects indicated above, the Committee recommends that it be returned to the Board of Estimate and Apportionment.

Whereas, The Board of Estimate and Apportionment at a meeting held March 22, 1907, adopted the following resolution:

Resolved, That the Board of Estimate and Apportionment, in accordance with the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen, the establishment of the following grades of positions in the Department of Water Supply, Gas and Electricity, in addition to those already existing therein, to take effect April 1, 1907:

JAMES COWDEN MEYERS, LEONARD L. JACOBSON, M. D., JOHN J. CRONIN, MICHAEL J. CARTER, FRANK D. STURGES, CHARLES KUNTZE, Committee on Salaries and Offices.

Whereas, The Board of Estimate and Apportionment at a meeting held April 24, 1907, adopted the following resolution:

Resolved, That the Board of Estimate and Apportionment, in accordance with the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen the establishment of the following grades of positions in the Department of Water Supply, Gas and Electricity, in addition to those already existing therein:

Resolved, That the Board of Aldermen hereby concurs in said resolution and fixes the salaries of the above positions as set forth therein.

Alderman Dowling moved the adoption of this resolution.

The President put the question whether the Board would agree with said resolution.

Which was unanimously decided in the affirmative by the following vote:

Affirmative—Aldermen Ahner, Brown, Callahan, Collins, Cronin, Davies, Dinwoodie, Doull, Dowling, Downing, Doyle, Ellery, Everson, Farrell, Freeman, Griffenhagen, Gunther, Haggerty, C. Hahn, J. J. Hahn, Harnischfeger, Hatton, Jacobson, Kenneally, Kline, Krulish, Kuck, Lawlor, Linde, Moffitt, Mulligan, Murphy, Olvany, O'Neill, Peters, Reardon, Rendt, Richter, Schneider, Smith, Sturges, Wafer, Wright; President Bermel, by Lawrence Gresser, Commissioner of Public Works; President Haffen and the Vice Chairman—46.

No. 2067.

Department of Water Supply, Gas and Electricity,
Nos. 13 to 21 Park Row,
City of New York, May 25, 1907.

Hon. PATRICK F. MCGOWAN, President, Board of Aldermen, City Hall:

Dear Sir—The Department has for some years past used patented devices for making connections with large distributing mains without shutting down the flow of water, and your Board has from time to time authorized the Commissioner of this Department to spend, without public letting, a certain sum of money for this purpose. The last authorization of your Board for this purpose was adopted November 29, 1904, and permitted the purchase of these patented devices in the sum of \$10,000.

The Department finds it necessary to again make application to your Board for the privilege of buying these articles without the necessity of competitive bids or proposals, and request is hereby made that you submit to the Board of Aldermen for adoption the inclosed resolution, which authorizes the purchase of these patented connections in the sum not to exceed \$10,000.

Without the use of these patented devices the Department would be obliged, in many cases, to shut down a long stretch of mains in order to make the changes in the distributing system, and this would inconvenience the water consumers and at the same time put out of commission a line of fire hydrants which might be needed.

Respectfully,

JOHN H. O'BRIEN, Commissioner.

Resolved, That, in accordance with the provisions of section 419 of the amended Greater New York Charter, the Commissioner of Water Supply, Gas and Electricity be and is hereby authorized to purchase, without public letting, certain patented devices for connecting water mains at an expense not to exceed ten thousand dollars (\$10,000).

To the Honorable Board of Aldermen:

Gentlemen—The Police Commissioner this day

Ordered, That the Board of Aldermen be and are hereby respectfully requested to authorize the Police Commissioner to purchase not exceeding fifteen motor cycles for the use of the Police Department of The City of New York, without advertising for competing bids, the cost of such cycles not to exceed the sum of \$3,000, and to be payable from an appropriation available for that purpose.

Very respectfully,

THEO. A. BINGHAM, Police Commissioner.

The President laid before the Board the following communication from the Corporation Counsel:

No. 2069.

Law Department,
Office of the Corporation Counsel,
New York, May 27, 1907.

The Honorable the Board of Aldermen:

Gentlemen—I am in receipt of the resolution passed by your Board on May 21, 1907, which reads as follows:

"Whereas, A general demand has long existed for public shelters upon the Williamsburg plaza of the Williamsburg Bridge; and

"Whereas, For three years this demand has remained unheeded by the Commissioner of Bridges, and waiting passengers are exposed to sun and rain; and

"Whereas, The said plaza is being disfigured by the erection of unsightly shanties and structures which are special privileges accorded corporations and individuals for which the City receives no revenue; and

"Whereas, The Alderman of the district affected, on the 13th inst., addressed a communication to the Corporation Counsel, requesting an opinion as to the powers of the Bridge Commissioner in granting said special privileges; and

"Whereas, No response has been received by the aforesaid Alderman to his request for an early opinion; therefore be it

"Resolved, That the Corporation Counsel be requested to render such opinion to this Board at as early a date as possible."

The following communication was received from Alderman Peters:

"Some few weeks ago a news-stand was erected upon the Brooklyn Plaza of the Williamsburg Bridge. For a year past I had been refusing permits to all applicants for privileges on this plaza (which is in my Aldermanic district), believing that special privileges at this point should not be given to anyone. When this stand was erected I wrote to the Bridge Commissioner about it. I to-day had a talk with Mr. Stevenson, and in reply to my inquiry as to what compensation the City was receiving from this privilege, and under what authority he granted the privilege, he gave negative or uncertain answers. I would like to ask for your official opinion on this question, covering answers to the following queries: Has the Commissioner the right

to give this valuable privilege without any return to the City? Has the Commissioner the right to commit the City to charity or philanthropy for the benefit of a single individual at the expense of the whole community? The beneficiary under this privilege is a blind man already enjoying two valuable privileges without cost on account of his affliction. His fellow unfortunates, jealous of his monopoly, are making it very interesting for me. Kindly favor me with your answer before noon tomorrow, as I wish the Board of Aldermen to take action on this matter. Please send answer in care of City Clerk."

In my opinion the Commissioner of Bridges has no power to authorize the erection of a news-stand upon the Brooklyn Plaza of the Williamsburg Bridge, nor has he the right to commit the City to charity or philanthropy for the benefit of a single individual at the expense of the whole community.

I know of no provision of law which would authorize the Commissioner of Bridges to permit the use of the plaza for the purpose of vending merchandise, and in the absence of such provision no such authority can be presumed.

Respectfully yours,

G. L. STERLING, Acting Corporation Counsel.

Which was ordered on file.

The President laid before the Board the following communication from the Board of Education:

No. 2072.

Board of Education,
Park Avenue and Fifty-ninth Street,
New York, May 23, 1907.

Hon. PATRICK F. MCGOWAN, President, Board of Aldermen:

Dear Sir—I have the honor to transmit herewith a certified copy of report and resolution adopted by the Board of Education at a meeting held on the 22d inst., requesting the Board of Aldermen to consent to the purchase of an automobile by the Board of Education, without public letting, at a price not to exceed the sum of \$4,000.

Respectfully yours,

A. EMERSON PALMER, Secretary, Board of Education.

To the Board of Education:

The Committee on Supplies, acting for the Committee on Care of Buildings in the matter of the purchase of an automobile for the Department of Education, respectfully reports that it caused the usual advertisement to be inserted in the City Record for bids for said machine.

Four bids were received on seven machines. Three of the machines offered, the prices being under \$4,000, did not comply with the requirements, in the opinion of the Comptroller's expert. The prices of the other machines offered were considered too high. Many reputable makers, who claimed they could furnish first-class machines, refused to bid because of what they considered the red tape involved in the submission of regular bids.

After due investigation by the Committee on Supplies, in conjunction with the Committee on Care of Buildings, it was decided to reject all bids, for the reason that the machines offered for less than \$4,000 would not meet the requirements of the Department, and those over \$4,000 were considered excessive in price.

The Committee on Supplies believes that the best interests of the Department and the City would be subserved if the Board of Aldermen would consent to the purchase by the Board of Education of an automobile in the open market at a price not to exceed \$4,000.

In connection with this matter it is respectfully brought to the notice of the Board of Aldermen that the Board of Education has financial ability to purchase an automobile, as funds have been reserved and set aside for this purpose, and the Board of Aldermen will not be called upon to provide means therefor, and, further, that an automobile is necessary for the use of the various committees and officers of the Board of Education, whose official duties require them to travel extensively throughout the City from time to time.

The following resolution is therefore submitted for adoption:

Resolved, That the Board of Aldermen be and it is hereby respectfully requested, in accordance with the provisions of section 419 of the Revised Charter, to consent to the purchase of an automobile by the Board of Education without public letting, at a price not to exceed the sum of four thousand dollars (\$4,000).

No. 1819.

The Committee on Finance, to whom was referred, on April 9, 1907 (Minutes, page 57), the annexed resolution in favor of an issue of Corporate Stock, \$12,000, for purchase of automobiles for use of the Street Cleaning Department, respectfully

REPORTS:

Deputy Commissioners Reilly and Edwards appeared before the Committee and urged the adoption of this ordinance, and said that the automobiles requested were to replace a number of old ones which were now used by the Department. They submitted a list, showing the age and condition, together with repair bills of the various automobiles which it is proposed to replace, one or two of which average over \$400 per month per machine.

The Street Cleaning Department seems to have been the dump heap for the old machines of every Department.

The Committee have had a very striking illustration during the past week of the danger caused by the use of improper machines, and they feel that, while all such applications should be carefully inquired into, when such facts are found that relief should be given. It is proposed to buy four automobiles with this money, one for the use of the Commissioner, and the other three for the three Deputies.

As this Department requires automobiles as much, if not more than any other Department, your Committee recommends the adoption of the ordinance.

Resolved, That the Board of Aldermen hereby approves of and concurs in the following resolution, adopted by the Board of Estimate and Apportionment April 5, 1907:

"Whereas, The Commissioner of the Department of Street Cleaning, in a communication dated March 23, 1907, has made requisition for the issue of bonds to the amount of twelve thousand dollars (\$12,000), to provide means for the purchase of three or more automobiles in connection with stock or plant for the Department of Street Cleaning, as provided by section 546 of the Greater New York Charter; therefore be it

"Resolved, That, subject to the concurrence herewith by the Board of Aldermen, the Comptroller is authorized to issue Corporate Stock of The City of New York, in the manner provided by section 169 of the Greater New York Charter, to the amount of twelve thousand dollars (\$12,000), the proceeds whereof to be applied to the purposes aforesaid."

JOHN R. DAVIES, JOHN DIEMER, B. W. B. BROWN, THOS. J. MULLIGAN, A. L. KLINE, Committee on Finance.

Under Rule 21, consideration of this report was deferred. Subsequently Alderman Davies moved the adoption of this report.

The President put the question whether the Board would agree to accept said report and adopt said resolution.

Which was decided in the negative by the following vote, a majority of all the members elected failing to vote in favor thereof:

Affirmative—Aldermen Ahner, Brown, Callahan, Carter, Collins, Davies, Diemer, Dinwoodie, Doull, Dowling, Downing, Doyle, Everson, Farrell, Griffenhagen, Gunther, C. Hahn, Hann, Harnischfeger, Hatton, Jacobson, Kline, Kuck, Linde, Mulligan, Rendt, Richter, Schloss, Stapleton, Sturges, Torpey, Wafer, Wentz; President Bermel, by Lawrence Gresser, Commissioner of Public Works; President Haffen and the Vice-Chairman—37.

The Committee on Finance, to whom was referred on April 23, 1907 (Minutes, page 539), the annexed ordinance in favor of an issue of Corporate Stock, \$150,000, for construction of trolley railway approaches to the Brooklyn Bridge, Borough of Brooklyn, respectfully

REPORTS:

The details of this application are fully set forth in the accompanying letter and reports from the Board of Estimate, and Commissioner Stevenson and Engineer Johnston of the Bridge Department appeared before the committee and explained the object of the appropriation.

It is proposed to construct two elevated approaches leading to the Brooklyn Bridge for the exclusive use of the surface cars crossing the bridge, the purpose being to relieve the congestion of cars that now exists at Sands street, both going and coming off the bridge.

Various members of the committee, acting as a sub-committee, went over the ground and from their investigations believe that it will afford some relief to the present Brooklyn Bridge congestion. It was suggested that the railroad companies should pay part of the expense but the Commissioner raised the point that this was an addition to the permanent bridge structure and therefore became bridge property, and the companies would pay in the increased car fees.

Your committee believes that any relief to the present dreadful conditions on the Brooklyn Bridge should be tried and therefore recommend the adoption of the ordinance.

AN ORDINANCE providing for an issue of Corporate Stock in the sum of one hundred and fifty thousand dollars (\$150,000) to provide means for the construction of trolley railway approaches to the Brooklyn Bridge in the Borough of Brooklyn.

Be it Ordained by the Board of Aldermen of The City of New York, as follows:

Section 1. The Board of Aldermen hereby approves of and concurs in the following resolution adopted by the Board of Estimate and Apportionment April 19, 1907, and authorizes the Comptroller to issue Corporate Stock of The City of New York to the amount and for the purposes therein specified:

"Resolved, That, pursuant to the provisions of section 47 of the Greater New York Charter, as amended, the Board of Estimate and Apportionment hereby approves of the issue of Corporate Stock of The City of New York to an amount not exceeding one hundred and fifty thousand dollars (\$150,000) to provide means for the construction of trolley railway approaches to the Brooklyn Bridge in the Borough of Brooklyn, and that when authority therefor shall have been obtained from the Board of Aldermen, the Comptroller is authorized to issue Corporate Stock of The City of New York, in the manner provided by section 169 of the Greater New York Charter, to an amount not exceeding one hundred and fifty thousand dollars (\$150,000), the proceeds whereof to be applied to the purposes aforesaid."

No. 1909.

The Committee on Finance, to whom was referred on April 23, 1907 (Minutes, page 549), the annexed request of the President of the Borough of The Bronx for \$140,000 Special Revenue Bonds, for repairing macadam streets, Borough of The Bronx, respectfully

REPORTS:

Chief Engineer Briggs of the Borough of The Bronx appeared before the committee and said that there were a great many streets in the borough which formed connecting links between much travelled thoroughfares, but that owing to the present

unbuilt condition along these streets it would not be proper to permanently regulate, pave and flag them so as to bring large assessments on the abutting property owners, but that there should be some steps taken to make these streets usable for traffic between the principal thoroughfares of the borough. Most of these thoroughfares are in the upper part of the borough and the Engineer submitted a list of those proposed to be improved with a macadam strip. The Comptroller's Bureau of Investigations has also rendered a report to the committee in which they recommend that the sum of \$70,000 be allowed for this purpose.

Your committee believes this to be a sensible proposition and therefore recommends the adoption of the annexed resolution.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the amended Greater New York Charter, the Board of Estimate and Apportionment be and is hereby requested to authorize the Comptroller to issue Special Revenue Bonds to an amount not to exceed seventy thousand dollars (\$70,000), the proceeds whereof to be applied to the purpose of macadamizing certain outlying connecting thoroughfares in the Borough of The Bronx.

REPORTS:

That, having examined the subject, they recommend that the said resolution be adopted.

Resolved, That permission be and the same is hereby given to Isaac Marx to place and keep a stand for the sale of newspapers and periodicals, upon payment therefor of an annual license fee equal to that exacted for a stand of the same character within the stoop-lines, in front of the property of The City of New York at the Subway station at One Hundred and Third street and Broadway, in the Borough of Manhattan; such permission to continue only during the pleasure of the Board of Aldermen.

Reports of Committee on Public Letting—

No. 1349—(G. O. No. 296).

The Committee on Public Letting, to which was referred on December 11, 1906 (Minutes, page 1580), the annexed resolution, authorizing the Commissioner of Water Supply, Gas and Electricity to purchase apparatus, etc., to be used in the photometric stations without public letting, respectfully

REPORTS:

That Deputy Commissioner Goodwin appeared before the committee and stated that the only standard machine used for the testing of gases was made by one manufacturer, and therefore public letting would be inexpedient and impracticable.

Your committee therefore recommends the adoption of said resolution.

Resolved, That the Commissioner of Water Supply, Gas and Electricity is hereby authorized and empowered, pursuant to chapter 419 of the Greater New York Charter, to expend without public letting the sum of fourteen thousand two hundred and fifty dollars (\$14,250) for the purchase of apparatus and supplies to be used in the photometric stations.

A. L. KLINE, DAVID S. RENDT, F. J. O'NEILL, JOSEPH SCHLOSS, Committee on Public Letting.

Which was laid over.

No. 1389—(G. O. No. 297).

The Committee on Public Letting, to which was referred on December 21, 1906 (Minutes, page 1629), the annexed communication from the Commissioner of Water Supply, Gas and Electricity, requesting permission to purchase a second hand automobile without public letting, respectfully

REPORTS:

That at a hearing on the above matter Deputy Commissioner Goodwin appeared before the committee and stated that when this automobile was procured it was to be assigned for the official use of Chief Engineer Lacombe of Light and Power of that department. It is his duty to travel all over the city making inspections. As it is the open season at present, when most of the work has to be done, these inspections must of necessity be of frequent occurrence. If the Commissioner cannot secure this automobile he will have to hire one for the use of the Engineer, so as to insure that the work of this branch of his department may be done in as proper and speedy a way as possible.

Your committee therefore recommends the adoption of the annexed resolution.

Resolved, That, pursuant to the provisions of section 419 of the Greater New York Charter, the Commissioner of Water Supply, Gas and Electricity be and he hereby is authorized to purchase without public letting an automobile at a cost not to exceed the sum of ten hundred and fifty dollars (\$1,050).

A. L. KLINE, DAVID S. RENDT, F. J. O'NEILL, JOSEPH SCHLOSS, Committee on Public Letting.

Which was laid over.

No. 1677—(G. O. No. 298).

The Committee on Public Letting, to which was referred on March 12, 1907 (Minutes, page 640), the annexed resolution, authorizing the Commissioner of Water Supply, Gas and Electricity to purchase an automobile without public letting, respectfully

REPORTS:

That Deputy Commissioner Goodwin appeared before the committee and stated that this automobile is to be used for the purposes of the department in the Borough of Brooklyn. The different places under the jurisdiction of the department which require constant official visits and inspections are scattered all over the said borough.

Your committee, believing that anything which will expedite the business of the City is for the best interest of the same, recommends the adoption of said resolution.

Resolved, That, in pursuance of section 419 of the Greater New York Charter, the Commissioner of Water Supply, Gas and Electricity be and is hereby authorized and empowered to purchase in the open market, instead of by contract at public letting, for the official use of his department, an automobile at an expense not to exceed four thousand dollars (\$4,000).

A. L. KLINE, DAVID S. RENDT, F. J. O'NEILL, JOSEPH SCHLOSS, Committee on Public Letting.

Which was laid over.

No. 1799—(G. O. No. 299).

The Committee on Public Letting, to which was referred on April 2, 1907 (Minutes, page 9), the annexed communication from the Police Commissioner requesting authority to purchase coal without public letting, respectfully

REPORTS:

That Colonel Kipp, representing the Police Department, appeared before the Committee and explained the reasons for the making of this request. He said that the

contracts for coal were awarded January 23, 1907, but did not become valid contracts until the middle of February. This forced the Department to purchase coal in the open market for the month of January and part of February for the use of the station-houses, etc.

Your Committee recommends the adoption of the annexed resolution:

Resolved, That, pursuant to section 419 of the Greater New York Charter, the Police Commissioner be and he hereby is authorized to purchase in the open market from time to time during the year 1907, without public letting, coal to an extent not to exceed in cost the sum of twelve hundred and thirty-seven dollars and six cents (\$1,237.06).

A. L. KLINE, F. J. O'NEILL, DAVID S. RENDT, JOSEPH SCHLOSS, Committee on Public Letting.

Which was laid over.

No. 1973—(G. O. No. 300).

The Committee on Public Letting, to which was referred on May 7, 1907 (Minutes, page 697), the annexed resolution to authorize the Fire Commissioner to purchase ten automobiles without public letting, respectfully

REPORTS:

That Fire Chief Croker appeared before the Committee and urged the necessity of these machines. He said they were to be used by the higher officials in the outlying districts of the Boroughs of The Bronx, Queens and Richmond. The districts to be covered by these officers are so extensive that a horse and wagon are impracticable. At present the officers have two horses and a wagon apiece, which costs more than what they intend to pay for these automobiles. In addition, the horses soon get played out and are rendered useless for the purposes of the Department.

Your Committee recommends the adoption of said resolution.

Resolved, That, pursuant to the provisions of section 419 of the Greater New York Charter, the necessary funds being available for the purpose, and the Board of Aldermen deeming such course to be in the public interest, hereby authorizes the purchase by the Fire Commissioner of The City of New York, in the open market, instead of by contract at public letting, of ten 4-cylinder automobiles for use by the various Chief Officers of the uniformed force of the Fire Department, in the outlying districts of the City, at a cost not to exceed nine hundred dollars (\$900) each, a total of nine thousand dollars (\$9,000).

A. L. KLINE, F. J. O'NEILL, DAVID S. RENDT, WILLIAM CLIFFORD, Committee on Public Letting.

Which was laid over.

No. 1975—(G. O. No. 301).

The Committee on Public Letting, to which was referred on May 7, 1907 (Minutes, page 699), the annexed resolution authorizing the Commissioner of Water Supply, Gas and Electricity to contract for certain alterations in his office without public letting, respectfully

REPORTS:

That Deputy Commissioner Goodwin appeared before the committee and stated that Rooms 913 to 931, inclusive, in the Park Row Building, had been assigned by the Commissioners of the Sinking Fund for the purposes of the Department since then. It has become necessary to make certain alterations consisting mainly of removing partitions, doors, etc. The owner of the building has agreed to do this work for the sum of \$1,450. The owner of the building has his own contractor and will not allow any one else to alter or disturb the building in any respect.

Your committee therefore recommend the adoption of said resolution.

Resolved, That the Commissioner of Water Supply, Gas and Electricity be and is hereby authorized to expend the sum of \$1,450 to pay for the removal and building of partitions, doors, carpentry work, painting and varnishing of Rooms 915 to 931, inclusive, of the Park Row Building, Nos. 13 to 21 Park row, without obtaining competitive bids or proposals.

A. L. KLINE, DAVID S. RENDT, F. J. O'NEILL, JOSEPH SCHLOSS, Committee on Public Letting.

Which was laid over.

No. 1974—(G. O. No. 302).

The Committee on Public Letting, to which was referred on May 7, 1907 (Minutes, page 698), the annexed resolution to authorize the Fire Commissioner to contract for repairs to certain fire houses in the Borough of Queens without public letting, respectfully

REPORTS:

That at a hearing on the above matter, Fire Chief Croker appeared before the committee. He said that the citizens of certain towns in the Borough of Queens were very anxious to have the paid department extend to them as soon as possible. These houses are the property of The City of New York, having come into the City's possession at the time of consolidation. They had formerly been used for the housing of the volunteer fire companies. Most of the money is to be spent for the removal of the wooden flooring which is too weak to bear the weight of heavy engines, and the laying of concrete flooring in place thereof, the erection of stalls for the horses, what plumbing is necessary and minor other repairs.

Your committee recommends the adoption of said resolution.

Resolved, That, pursuant to the provisions of section 419 of the Greater New York Charter, the necessary funds being available and deeming such course to be in the public interest, the Board of Aldermen hereby authorizes the Fire Commissioner to have done, otherwise than by contract at public letting, the work of additions and alterations to several houses owned by the City, and occupied by volunteer companies in the territory covered by Flushing, Jamaica, College Point and Whitestone, Borough of Queens, for the purpose of fitting them for use by companies of the paid system, which it is in contemplation soon to install in said places, to an amount not exceeding twenty-five thousand dollars (\$25,000).

A. L. KLINE, F. J. O'NEILL, DAVID S. RENDT, JOSEPH SCHLOSS, Committee on Public Letting.

Which was laid over.

No. 1999—(G. O. No. 303).

The Committee on Public Letting, to which was referred, on May 14, 1907 (Minutes, page 763), the annexed communication from the Commissioner of Public Charities, requesting permission to purchase two automobiles without public letting, respectfully

REPORTS:

That at a hearing on the above matter, Deputy Commissioner McInerney appeared before the Committee and stated that for the efficient carrying on of the work of this Department the use of automobiles for the speedy transportation of the Commissioner in his travels necessitated by his official duties was imperative. The Commissioner and First Deputy look after the Boroughs of Manhattan, The Bronx and Richmond. All charitable institutions, both public and private, come under the jurisdiction of this Department and require frequent visits. These places are scattered all over the sections of these boroughs. The same conditions exist in the Boroughs of Brooklyn and Queens, with their vast extent of territory. These two boroughs are under the jurisdiction of the Second Deputy. Annexed is a letter from Mr. McInerney with fuller details, and is hereby made part of this report. Your Committee recommends the adoption of the annexed resolution.

Resolved, That, pursuant to the provisions of section 419 of the Greater New York Charter, the Commissioner of Public Charities be and he hereby is authorized to purchase in open market, without public letting, two automobiles, at a cost not to exceed the sum of three thousand dollars (\$3,000) each.

Department of Public Charities,
Foot of East Twenty-sixth Street,
May 9, 1907.

Hon. P. F. McGOWAN, President, Board of Aldermen:

Dear Sir—The undersigned, Commissioner of Public Charities, very respectfully requests that permission be granted to the said Department to purchase, without public letting, two automobiles, at a cost not to exceed \$3,000 each, complete; one for the use of the Commissioner, mainly in the Boroughs of Manhattan, The Bronx

and Richmond, and the other for the use of the Second Deputy Commissioner in the Boroughs of Brooklyn and Queens.

In my opinion, the business of the Department will be greatly facilitated if this permission is granted, particularly as large building operations are to be carried on in the near future looking to the necessary improvement and upbuilding of the Department.

Respectfully submitted,

ROBT. W. HEBBERD, Commissioner.

Department of Public Charities,
Nos. 327 to 331 Schermerhorn Street,
Brooklyn, May 17, 1907.

Hon. A. L. KLINE, Board of Aldermen, New York, N. Y.:

Dear Colonel—I inclose herewith a statement which I have prepared in connection with the request of Commissioner Hebbard that he be allowed to purchase two automobiles without advertising. If you will kindly let me know what day your Committee meets, I would like to appear in favor of this request. If you desire any information which is not contained in the statement inclosed, kindly let me know and I will be only too glad to furnish the same.

Yours very truly,

JAMES J. MCINERNEY,

Second Deputy Commissioner of Public Charities.

Hon. A. L. KLINE, Chairman, Committee on Public Letting:

Dear Sir—The Department of Public Charities is probably the only Department in the City which is without automobiles. The Commissioner has never applied for any, for the very good reason that the Department has never had sufficient funds until the present time to permit of purchasing them.

The need of an automobile for Manhattan and one for Brooklyn and Queens in the Department of Public Charities is very evident to any one who will give the subject just a little study. The Manhattan Central Office is located on the dock or pier at the foot of East Twenty-sixth street. To reach this office from the surface cars, the elevated trains or the subway, it is necessary to walk several blocks, and a wagon is always kept at the dock to take the office employees to the cars. There are also three other offices of the Department: One at Third avenue and Eleventh street, Manhattan; another at No. 327 Schermerhorn street, Brooklyn, and another at St. George, Staten Island.

The Department has under its charge the following institutions:

City Hospital, Blackwell's Island.
Metropolitan Hospital, Blackwell's Island.
Municipal Lodging House, No. 398 First avenue.
Training School for Nurses, Blackwell's Island.
Maternity Hospital, Blackwell's Island.
Home for Aged, Blackwell's Island.
Harlem Morgue, foot of East One Hundred and Twentieth street.
Children's Hospital, Randall's Island.
School for Feeble-minded, Randall's Island.
Custodial Asylum, Randall's Island.
Farm Colony, Castleton Corners, Staten Island.
Cumberland Street Hospital, Brooklyn.
Bradford Street Hospital, Brooklyn.
Coney Island Emergency Hospital, Brooklyn.
Kings County Hospital, Brooklyn.
Home for Aged, Brooklyn.
Observation Pavilion for Insane, Brooklyn.
Kings County Morgue, Brooklyn.

The Commissioner is also, ex-officio, a member of the Board of Trustees of Bellevue Hospital, which Board has charge of Bellevue Hospital, Fordham Hospital, Harlem Hospital, Gouverneur Hospital and the Emergency Hospital on East Twenty-sixth street.

The Commissioner and the First Deputy Commissioner look after the Boroughs of Manhattan, The Bronx and Richmond. The Second Deputy Commissioner is in charge for the Boroughs of Brooklyn and Queens.

Under section 661 of the Charter, no payment shall be made by the City to any charitable, eleemosynary or reformatory institution, wholly or partly under private control, for the care, support, secular education or maintenance of any child surrendered to such institution, or committed to, or received or retained therein, except upon the certificate of the Commissioner of Public Charities.

Under this section the Commissioner of Public Charities passes on all bills from private institutions, and certifies the same to the Comptroller before payment can be made. Disputes often arise, and it is frequently found necessary to visit these institutions to straighten out complaints.

Under the Charter sections 663, 664, 665 and 666, the Commissioner of Public Charities has to investigate the circumstances of every person admitted to an institution under his charge, and the near relatives of such person. This necessitates the sending of investigators all over The City of New York, and often the Commissioner has to send a personal investigator to examine into complaints made as to the treatment received by the City wards in the various institutions. As these institutions are scattered all over the various boroughs, an automobile would often be the means of saving considerable time and would greatly expedite the transaction of the work of the Department.

It is apparent from the foregoing that the head of the Department has very grave responsibilities, and the need of an automobile for his use in Manhattan, The Bronx and Richmond is evident. There should also be one for the use of the Department in the Boroughs of Brooklyn and Queens. The provisions of the Charter above stated apply equally to the duties of the Deputy in charge of these boroughs, and in order to give your Committee an idea of the various public offices the Deputy has to visit on departmental business, the following are mentioned:

The Manhattan office of the Charities Department, foot of East Twenty-sixth street; the Department of Finance; the State Board of Charities, No. 287 Fourth avenue, Manhattan; the Corporation Counsel's offices in Brooklyn and in Long Island City; the Society for the Prevention of Cruelty to Children, No. 105 Schermerhorn street; the District Attorney's offices in Kings County and in Queens County; the Children's Court, No. 102 Court street; the Court of Special Sessions, No. 171 Atlantic avenue; the County Court of Kings County, and the County Court of Queens County. The Department also prosecutes abandonment proceedings in all the Police Courts in Brooklyn and in Queens; also brings actions in the various Municipal Courts in Brooklyn and in Queens on the bonds furnished to the Commissioner of Public Charities in bastardy and abandonment cases.

Under the rules of the Department, the Deputy in charge for Brooklyn and Queens is also required to make frequent inspections of the following institutions under the jurisdiction of the Department:

The County Buildings at Flatbush, the Cumberland Street Hospital, the Bradford Street Hospital, the Coney Island Hospital and the Kings County Morgue on Wiloughby street.

I trust your Committee can see its way clear to approve the request of Commissioner Hebbard that he be allowed to purchase the two machines, in accordance with his communication of May 9.

Respectfully submitted,

JAMES J. MCINERNEY,

Second Deputy Commissioner of Public Charities.

Which was laid over.

MOTIONS, ORDINANCES AND RESOLUTIONS.

At this point Alderman Dowling moved that the courtesies of the floor be extended to Messrs. Thomas F. Armstrong, Edwin S. Ward, George D. Porter and Charles F. Hall, members of the Common Council of the City of Philadelphia, Pa.

Which was unanimously adopted, and the gentlemen were welcomed by President McGowan and escorted to seats beside the President.

Subsequently felicitous addresses were made by ex-President Thomas F. Armstrong and Councilman George D. Porter.

GENERAL ORDERS.

Alderman Fried called up General Order No. 284, being a report and resolution, as follows:

No. 1877.

The Committee on Finance, to whom was referred on April 16, 1907 (Minutes, page 200), the annexed resolution in favor of an issue of Special Revenue Bonds, to meet expense of moving and sorting records in the office of the County Clerk, County of Kings, respectfully

REPORTS:

That Deputy County Clerk Tokaji appeared before your committee and stated that this money is needed to continue the dusting, cleaning and sorting of all of the records in the office of the County Clerk of the County of Kings. The Deputy assured your committee that this amount would be the last that would be required by this office for this purpose, and in view of this fact your committee favors the application.

They, therefore, recommend that the said resolution be adopted.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and hereby is requested to authorize the Comptroller to issue Special Revenue Bonds to the amount of fifteen thousand dollars (\$15,000), the proceeds whereof shall be applied to meet the expenses in moving and sorting the various records in the office of the County Clerk of Kings County, in the Hall of Records, in the Borough of Brooklyn.

Alderman Fried called up General Order No. 269, being a report and resolution, as follows:

No. 1665.

REPORTS:

That having examined the subject, they recommend that the said resolution be adopted.

JOHN R. DAVIES, JOHN DIEMER, JAMES W. REDMOND, A. L. KLINE, JOSEPH FALK, Committee on Finance.

The President put the question whether the Board would agree to accept said report and adopt said resolution.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Ahner, Brown, Bunting, Callahan, Carter, Clifford, Collins, Cronin, Davies, Diemer, Doull, Dowling, Downing, Doyle, Ellery, Everson, Farrell, Fried, Grifenhagen, Gunther, Haggerty, C. Alderman Grifenhagen called up General Order No. 270, being a report and resolution, as follows:

No. 1456—(G. O. No. 270).

The Committee on Public Letting, to which was referred on January 23, 1907 (Minutes, page 96), the annexed resolution authorizing the Mayor to expend \$6,000 for the purpose of erecting signal towers or triangulation stations without public letting, respectfully

REPORTS:

That at a hearing on the above matter Mr. Lewis, the Chief Engineer of the Board of Estimate and Apportionment, appeared before the Committee and stated that it was the intention to erect these towers in the Borough of Queens. These observing stations are needed at once and should be erected immediately. It has been found in the past that in the erection of a number of towers, under public contract, much trouble was experienced in dealing with contractors who had no idea of the nature of the work to be done; by private contract these towers can be built at a saving of both time and money to the City. Most satisfactory work has been done by a man who has built most of the towers in the Borough of The Bronx, and who understands this line of work thoroughly. In view of the statements made by Mr. Lewis, your Committee believes it necessary, and therefore recommends that the said resolution be adopted.

Resolved, That the Mayor of The City of New York be and he hereby is authorized to expend without public letting a sum not to exceed six thousand dollars (\$6,000) for the purpose of providing for the erection of signal towers, or triangulation stations for the purpose of completing the triangulation of The City of New York.

A. L. KLINE, JACOB BARTSCHERER, WILLIAM CLIFFORD, DAVID S. RENDT, JOSEPH SCHLOSS, Committee on Public Letting.

The President put the question whether the Board would agree to accept said report and adopt said resolution.

Which was decided in the negative by the following vote, three-fourths of all the members elected failing to vote in favor thereof:

Affirmative—Aldermen Ahner, Brown, Bunting, Callahan, Carter, Clifford, Collins, Davies, Diemer, Doull, Dowling, Downing, Doyle, Ellery, Everson, Farrell, Freeman, Fried, Gunther, Haggerty, C. Hahn, J. J. Hahn, Hann, Harnischfeger, Hatton, Herold, Keely, Kenneally, Kline, Krulish, Kuck, Lawlor, Linde, Moffitt, Monahan, Murphy, Olvany, Reardon, Rendt, Richter, Schloss, Smith, Stapleton, Sturges, Sullivan, Torpey, Wafer, Wentz, Wright, President Cromwell, President Bermel, by Lawrence Gresser, Commissioner of Public Works; President Haffen and the Vice-Chairman—53.

On motion of Alderman Hann the above vote was reconsidered and the paper laid over and restored to the list of General Orders.

Alderman Grifenhagen called up General Order No. 290, being a report and resolution, as follows:

No. 1952.

The Committee on Streets, Highways and Sewers, to which was referred on April 30, 1907 (Minutes, page 680), the annexed resolution in favor of permitting the O'Neill-Adams Company to erect two awnings, respectfully

Resolved, That permission be and the same is hereby given to the O'Neill-Adams Company to place and keep two awnings of iron and glass, one in front of their premises on the north side and the other in front of their premises on the south side of West Twenty-first street, each respectively about fifty feet west of Sixth avenue, in the Borough of Manhattan, provided that said awnings shall be erected so as to conform in all respects with the provisions of the ordinance in such case made and provided; the work to be done at their own expense, under the direction of the President of the Borough, such permission to continue only during the pleasure of the Board of Aldermen.

FRANK L. DOWLING, HARRY L. LEVERETT, MAX S. GRIFENHAGEN, C. D. NOONAN, PATRICK S. KEELY, THOMAS D. DINWOODIE, Committee on Streets, Highways and Sewers.

REPORTS:

That having examined the subject they recommend that the said resolution be adopted.

Resolved, That permission be and the same is hereby given to John T. Brady & Co. to erect a temporary sidewalk and street bridge over Liberty street, from the Singer Building on the north side of the street to the south curb from Broadway to a point one hundred and twenty-five feet west of Broadway, in the Borough of Manhattan; said bridge to be so constructed as not to interfere with pedestrian or vehicular traffic and being for the purpose of safeguarding against dangers attending building construction; the said John T. No. 2084.

By Alderman Kline—
To the Honorable Board of Aldermen, City of New York:
Sirs—We, the undersigned, employees of the Department of Water Supply, Gas and Electricity, engaged in the various watersheds on Long Island, from Matawa to Massapequa, and classified as Engineers and Firemen, respectfully petition your Honorable Board to request the Commissioner of Water Supply, Gas and Electricity to furnish us with transportation to and from the city limits to our respective places of employment on Long Island.

We submit herewith a monthly individual outlay in railroad expenses, as follows:

To Massapequa	\$9 20
To Seaford	9 00
To Wantagh	8 85
To Agawa	8 75
To Merrick	8 75
To Matawa	8 50

These high rates of transportation serve to considerably diminish our well-earned and lawful income, naturally are the first and direct causes for many deprivations, and often result in the elimination of many necessities in our households.

Aside from this, it will be seen that even among our own workers discrimination in the matter of railroad rates is shown in favor of all those employed in towns west of Massapequa.

It might also be stated that other employees in this department, comprising Engineers, Surveyors, etc., all commanding emoluments of greater proportions, are now enjoying the privileges from the City which your humble servants, in their belief, rightfully petition for.

Praying for a favorable and early consideration of this appeal to your Honorable Assembly, and that the relief we seek may soon be granted, we respectfully submit our respective names hereto:

Captain Miles O'Reilly, Sixteenth Precinct, having been tried before a Deputy Commissioner upon the charge of failing to enforce the provisions of General Order No. 6 of 1907, the following is his finding thereon:

"While to my mind the evidence shows clearly that the defendant, Captain Miles O'Reilly, made no effort to enforce the General Order and is guilty of the charge of neglect of duty and disobedience of orders as set forth in the complaint, still I am inclined to think that his actions were due to his failure to understand the necessity of obeying General Orders. Of course, such action on the part of a Captain is absolutely inexcusable; but to an extent it may be due to laxity of discipline which has heretofore existed in the Department. In view of the fact that no penalty has been imposed upon the defendant during his service of over thirty-three years, I recommend that the complaint be dismissed."

The foregoing finding is approved and the complaint dismissed.

Captain Denis J. Brennan, Thirty-sixth Precinct, having been tried before a Deputy Commissioner upon the charge of failing to enforce the provisions of General Order No. 6 of 1907, the following is his finding thereon:

"While to my mind the evidence shows clearly that the defendant, Captain Denis J. Brennan, made no effort to enforce the General Order and is guilty of the charge of neglect of duty and disobedience of orders as set forth in the complaint, still I am inclined to think that his actions were due to his failure to understand the necessity of obeying General Orders. Of course, such action on the part of a Captain is absolutely inexcusable; but to an extent it may be due to laxity of discipline which has heretofore existed in the Department. In view of the defendant's record, having been fined only one-half day in over twenty-four years of service, I recommend that the complaint be dismissed."

The foregoing finding is approved and the complaint dismissed.

So much of Special Order No. 108, c. s., paragraph No. 2, as reads "Jacob Bauerschmidt," is hereby amended to read "John J. Bauerschmidt."

So much of Special Order No. 108, c. s., paragraph No. 2, as reads "Patrolman Herman Schiefer, Twelfth Precinct," is hereby amended to read "Patrolman Herman Schiefer, Fourteenth Precinct."

The resignations of the following Special Patrolmen are hereby accepted:

BOARD OF RAPID TRANSIT RAILROAD COMMISSIONERS.

INVITATION TO CONTRACTORS.

Delancey Street, between the Bowery and Norfolk Street.

THE CITY OF NEW YORK (HEREIN after called the City) acting by its Board of Rapid Transit Commissioners (hereinafter called the Board) contemplates building a certain rapid transit railroad, known as Route No. 9, in Delancey street (Manhattan) and other streets in the boroughs of Manhattan and Brooklyn, including ultimately Centre street, Grand street, Desbrosses street, Canal street and William street.

The time to time to be due to the contractor will be retained until the work is fully completed.

Each bidder must state in his proposal the names and places of business of the proposed sureties on the bond and describe any securities proposed to be deposited.

Bidders whose proposals are otherwise satisfactory to the Board may, in case the sureties or securities named by them are not approved by the Board, substitute in their proposals the

in Manhattan, and Fulton street, Lafayette avenue and Broadway in Brooklyn.

By this advertisement, the City invites proposals to construct that part of said railroad which is situated in Delancey street, between the Bowery and Norfolk street, in accordance with the detailed plans and specifications adopted therefor.

The general plan of construction calls for a subsurface railroad with four tracks. Suitable cross-overs, turn-outs and sidings are also to be provided, all as shown in the detailed plans of construction. The tunnels are to have a height of not less than thirteen (13) feet in the clear, and a maximum width of fifteen (15) feet for each track, except at curves, etc., where the width may be increased. The roof of the tunnels is generally to be as near the surface of the street as street conditions and grades will permit, but will be depressed whenever necessary to avoid grade crossings. The roof and sides of the tunnels will be of iron or steel and masonry. The manner of construction shall be by excavation under cover, unless otherwise directed by the Board.

In the detailed plans for construction, provisions for pipe galleries through Delancey street are included. Bids for the construction of the railroad must be accompanied by a separate bid for the construction of the pipe galleries above referred to, as it is essential for the City to separate the cost of the railroad from the cost of the pipe galleries. The Board reserves the right to accept a bid for construction of the railroad and at the same time to reject the accompanying bid for pipe galleries.

The price stated for railroad construction is to include the furnishing of all materials and the performance of all labor requisite to the complete construction of that part of the proposed railroad which is to be built under this contract, including all sewer and street construction and reconstruction and other work caused by or incidental to the construction of the same as set out in the proposed form of contract.

A fuller description of the work to be done is set forth, and other requirements, provisions, details and specifications are stated in the printed form of contract now on file in the office of the Board, No. 320 Broadway, Borough of Manhattan, and in the detailed drawings therein referred to, at which office copies of the contract and of the form of bond and contractor's proposal may be had on application. The contract drawings may be inspected at the same office. The printed form of contract and the detailed drawings are to be deemed a part of this invitation.

Partial payments to the contractor will be made monthly as the work proceeds, as provided in the form of contract.

The work of construction (including pipe galleries) is to be completed as soon as practicable, and within twenty months from the date of delivery of the contract.

SEALED BIDS OR PROPOSALS WILL BE RECEIVED AT THE SAID OFFICE OF THE BOARD, AT NO. 320 BROADWAY, BOROUGH OF MANHATTAN, CITY OF NEW YORK UNTIL

THURSDAY, JUNE 13, 1907.

AT 12 O'CLOCK NOON, AT WHICH TIME OR AT A LATER DATE TO BE FIXED BY THE BOARD THE PROPOSALS WILL BE PUBLICLY OPENED.

Proposals must be in the form prescribed by the Board, copies of which may be obtained at the office of the Board.

Each proposal must be signed and acknowledged and also verified by an affidavit of the bidder (or if it be a corporation then by an officer thereof) to the effect that the several matters therein stated are in all respects true. If the proposal is made by a firm it will be sufficient if the proposal is signed and acknowledged and the affidavit sworn to by one member of the firm.

Each proposal must specify an office within The City of New York at which notices may be delivered; and delivery of a notice at such office shall be deemed a sufficient delivery and notice to the bidder.

Each proposal or bid must contain the name and place of residence of the person or persons making the same, the names of all persons interested with him therein, and if no other person be so interested, it shall distinctly state that fact; and if the bidder shall be a corporation there shall be submitted a certified copy of its certificate of incorporation, with a certificate of the amount of stock paid in in cash, and the names and business addresses of all officers and directors of the corporation shall be stated; also, that it is made without any connection with any other person making a proposal or bid for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of department, chief of bureau, deputy thereof or clerk therein, or other officer of the corporation, or any member or employee of the Board, is interested, directly or indirectly, as contracting party, partner, stockholder or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof.

No proposal will be allowed to be withdrawn for any reason whatever after it shall have been deposited with the Board.

The Board is not obliged by law to accept any of the proposals received by it, but may reject all such proposals and readvertise, or may accept any of such proposals as will, in the judgment of the Board, best promote the public interest, and award a contract accordingly, subject to approval by the Board of Estimate and Apportionment, as required by law.

The award of the contract or contracts (if awarded) will be made by the Board within ten days after the opening of the proposals. The bidder or bidders whose proposal shall be accepted shall in person or by duly authorized representative attend at the said office of the Board within ten days after the delivery of a notice by the Board that the proposal is accepted and that the contract is approved by the Board of Estimate and Apportionment; and such bidder or bidders shall then deliver a contract in the form referred to, duly executed with its execution duly proved.

At the time of the delivery of a contract, the contractor will be required to furnish security to the City by giving a bond in the penalty of one hundred and eighty thousand dollars. At the option of the successful bidder cash or approved securities may be deposited instead of giving a bond. If securities are deposited in place of a bond under this contract they must be of the character of securities in which savings banks may invest their funds and must be approved by the Board. The contractor's bond must be in the form annexed to the form of contract.

In addition, and as further security to the City, 10 per cent. of each amount certified from time to time to be due to the contractor will be retained until the work is fully completed.

Each bidder must state in his proposal the names and places of business of the proposed sureties on the bond and describe any securities proposed to be deposited.

Bidders whose proposals are otherwise satisfactory to the Board may, in case the sureties or securities named by them are not approved by the Board, substitute in their proposals the

names of new sureties or a different schedule of securities approved by the Board; but such substitution must be made within five days after notice of disapproval by the Board, unless this period is extended by the Board.

In case of failure or neglect to execute and deliver the contract or to make the required deposit or to execute and deliver the required bond, such bidder or bidders will, at the option of the Board, be deemed either to have made the contract or to have abandoned the contract. In the latter case the Board will give notice thereof to the defaulting bidder or bidders. And the Board may thereupon proceed to make another contract with such, if any, of the original bidders as, in the opinion of the Board, it will be to the best interest of the City to contract with, or may, by new advertisement, invite further proposals. The defaulting bidder or bidders shall thereupon be liable to the City for all loss and damage by it sustained, including the excess, if any, of the amount it shall pay any other contractor over the amount of the bid of such defaulting bidder or bidders.

Every proposal must, when submitted, be enclosed in a sealed envelope endorsed "Proposal for Constructing Rapid Transit Railroad—(Delancey Street)" and must be delivered to the Board or to its Secretary; and in the presence of the person offering the proposal it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received or deposited unless accompanied by a certified check drawn upon a National or State bank or trust company within The City of New York and satisfactory to the Board, payable to the order of the Comptroller of The City of New York, for the sum of fifteen thousand dollars.

If the Board shall give notice to any bidder that his or its proposal is accepted and the contract is approved by the Board of Estimate and Apportionment, and if the bidder shall fail within ten days thereafter or within such further period, if any, as may be prescribed by the Board, to execute and deliver the contract and to execute and deliver the bond with sureties, or make a deposit in cash or securities, then this invitation to contractors and proposal accepted as aforesaid shall be a contract binding the bidder to pay to the City the damages by it sustained by reason of such failure; and in such case the bidder hereby absolutely assigns to the City the ownership of the check accompanying his or its proposal as a payment on account of such damages.

Such check must not be enclosed in the sealed envelope containing the proposal, but must be separately delivered to the Board or to its Secretary, who will give a proper voucher for the deposit.

All such deposits made by bidders whose proposals shall not be accepted by the Board will be returned to the person or persons making the same within five days after the contract shall be executed and delivered. The deposit of the successful bidder or bidders will be returned when the contract is executed and its provisions as to security are complied with.

INVITATION TO CONTRACTORS.

Pearl Street to Park Row.

THE CITY OF NEW YORK (HEREIN after called the City), acting by its Board of Rapid Transit Commissioners (hereinafter called the Board), contemplates building a certain rapid transit railroad, known as Route No. 9, in Centre street (Manhattan) and other streets in the Boroughs of Manhattan and Brooklyn, including ultimately Delancey street, Grand street, Desbrosses street, Canal street and William street, in Manhattan, and Fulton street, Lafayette avenue and Broadway, in Brooklyn.

By this advertisement the City invites proposals to construct that part of said railroad which is situated between a line crossing Centre street about forty feet north of Pearl street, and the southeasterly side of Park row, in accordance with the detailed plans and specifications adopted therefor. This part will consist principally of an underground railway station, together with the railroad tracks running through it and extending for short distances northerly and southerly from it. Suitable cross-overs, turn-outs and sidings are also to be provided, all as shown in the detailed plans of construction. The railway tunnels are to have a height of not less than thirteen (13) feet in the clear, and a maximum width of fifteen (15) feet for each track, except at curves, etc., where the width may be increased. The roof of the tunnels is generally to be as near the surface of the street as street conditions and grades will permit. The roof and sides of the tunnels will be of iron or steel and masonry. Entrances to the station are intended to be placed on property acquired or to be acquired by the City.

The manner of construction shall be by excavation under cover within the lines of Centre, Pearl, Duane, Reade and New Chambers streets and Park row; within the lines of Park street and City Hall place, and, except as noted above, by open excavation, unless otherwise directed by the Board.

In the detailed plans for construction, provisions for pipe galleries on the westerly side of Centre street are included, as indicated on the detailed plans. Bids for the construction of the station and railroad tracks must be accompanied by a separate bid for the construction of the pipe galleries above referred to, as it is essential for the City to separate the cost of railroad construction from the cost of the pipe galleries. The Board reserves the right to accept a bid for the railroad construction, and at the same time to reject the accompanying bid for pipe galleries.

The price stated for railroad construction is to include the furnishing of all materials and the performance of all labor requisite to the complete construction of that part of the proposed railroad which is to be built under this contract, including the station, and all sewer and street construction and reconstruction and other work caused by or incidental to the construction of the same as set out in the proposed form of contract.

A fuller description of the work to be done is set forth, and other requirements, provisions, details and specifications are stated in the printed form of contract now on file in the office of the Board, No. 320 Broadway, Borough of Manhattan, and in the detailed drawings therein referred to, at which office copies of the contract and of the form of bond and contractor's proposal may be had on application. The contract drawings may be inspected at the same office. The printed form of contract and the detailed drawings are to be deemed a part of this invitation.

Partial payments to the contractor will be made monthly as the work proceeds, as provided in the form of contract.

The work of construction (including pipe galleries) is to be completed as soon as practicable, and within twenty months from the date of delivery of the contract.

SEALED BIDS OR PROPOSALS WILL BE RECEIVED AT THE SAID OFFICE OF THE BOARD, AT NO. 320 BROADWAY, BOROUGH OF MANHATTAN, CITY OF NEW YORK, UNTIL

THURSDAY, JUNE 13, 1907,

AT 12 O'CLOCK NOON, AT WHICH TIME OR AT A LATER DATE TO BE FIXED BY THE BOARD THE PROPOSALS WILL BE PUBLICLY OPENED.

Proposals must be in the form prescribed by the Board, copies of which may be obtained at the office of the Board.

Each proposal must be signed and acknowledged and also verified by an affidavit of the bidder (or if it be a corporation, then by an officer thereof) to the effect that the several matters therein stated are in all respects true. If the proposal is made by a firm, it will be sufficient if the proposal is signed and acknowledged, and the affidavit sworn to, by one member of the firm.

Each proposal must specify an office within The City of New York at which notices may be delivered, and delivery of a notice at such office shall be deemed a sufficient delivery and notice to the bidder.

Each proposal or bid must contain the name and place of residence of the person or persons making the same, the names of all persons interested with him therein, and if no other person be so interested, it shall distinctly state that fact; and if the bidder shall be a corporation, there shall be submitted a certified copy of its certificate of incorporation, with a certificate of the amount of stock paid in cash, and the names and business addresses of all officers and directors of the corporation shall be stated; also, that it is made without any connection with any other person making a proposal or bid for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of department, chief of bureau, deputy thereof or clerk therein, or other officer of the corporation, or any member or employee of the Board, is interested, directly or indirectly, as contracting party, partner, stockholder, or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof.

No proposal will be allowed to be withdrawn for any reason whatever after it shall have been deposited with the Board.

The Board is not obliged by law to accept any of the proposals received by it but may reject all such proposals and readvertise, or may accept any of such proposals as will in the judgment of the Board best promote the public interest, and award a contract accordingly, subject to approval by the Board of Estimate and Apportionment as required by law.

The award of the contract or contracts (if awarded) will be made by the Board within ten days after the opening of the proposals. The bidder whose proposal shall be accepted shall in person or by duly authorized representative attend at the said office of the Board within ten days after the delivery of a notice by the Board that his proposal is accepted and that the contract is approved by the Board of Estimate and Apportionment; and such bidder shall then deliver a contract in the form referred to, duly executed with its execution duly proved.

At the time of the delivery of a contract, the contractor will be required to furnish security to the City by giving a bond in the penalty of one hundred and sixty thousand dollars. At the option of the successful bidder cash or approved securities may be deposited instead of giving a bond. If securities are deposited in place of a bond under this contract, they must be of the character of securities in which savings banks may invest their funds and must be approved by the Board. The contractor's bond must be in the form annexed to the form of contract.

In addition and as further security to the City, ten per cent. of each amount certified from time to time to be due to the contractor will be retained until the work is fully completed.

Each bidder must state in his proposal the names and places of business of the proposed sureties on the bond and describe any securities proposed to be deposited.

A bidder whose proposals are otherwise satisfactory to the Board may, in case the sureties or securities named by him are not approved by the Board, substitute the names of new sureties or a different schedule of securities approved by the Board; but such substitution must be made within five days after notice of disapproval by the Board, unless this period is extended by the Board.

In case of failure or neglect to execute and deliver the contract or to make the required deposit or to execute and deliver the required bond, the bidder whose proposal was accepted will, at the option of the Board, be deemed either to have made the contract or to have abandoned the contract. In the latter case the Board will give notice thereof to such defaulting bidder. And the Board may thereupon proceed to make another contract with such, if any, of the original bidders as, in the opinion of the Board, it will be to the best interest of the City to contract with, or may by new advertisement invite further proposals. The defaulting bidder shall thereupon be liable to the City for all loss and damage by it sustained, including the excess, if any, of the amount it shall pay any other contractor over the amount of the bid of such defaulting bidder.

Every proposal must, when submitted, be inclosed in a sealed envelope indorsed "Proposal for Constructing Rapid Transit Railroad—(Pearl Street to Park Row)," and must be delivered to the Board or to its Secretary; and in the presence of the person offering the proposal it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received or deposited unless accompanied by a certified check drawn upon a National or State bank or trust company within The City of New York and satisfactory to the Board, payable to the order of the Comptroller of The City of New York, for the sum of twelve thousand five hundred dollars.

If the Board shall give notice to any bidder that his or its proposal is accepted and the contract is approved by the Board of Estimate and Apportionment, and if the bidder shall fail within ten days thereafter or within such further period, if any, as may be prescribed by the Board, to execute and deliver the contract and to execute and deliver the bond with sureties, or make a deposit in cash or securities, then this invitation to contractors and proposal accepted as aforesaid shall be a contract binding such bidder to pay to the City the damages by it sustained by reason of such failure; and in that case the bidder absolutely assigns to the City the ownership of the check accompanying his or its proposal as a payment on account of such damages.

Such check must not be inclosed in the sealed envelope containing the proposal, but must be separately delivered to the Board or to its Secretary, who will give a proper voucher for the same.

All such deposits made by bidders whose proposals shall not be accepted by the Board will be returned to the person or persons making the same within five days after the contract shall be awarded and delivered. The deposit of the successful bidder will be returned when the contract

is executed and its provisions as to security are complied with.

THE BOARD OF RAPID TRANSIT RAILROAD COMMISSIONERS FOR THE CITY OF NEW YORK.

President.

INVITATION TO CONTRACTORS.

Centre Street to the Bowery.

THE CITY OF NEW YORK (HEREIN after called the City), acting by its Board of Rapid Transit Commissioners (hereinafter called the Board), contemplates building a certain rapid transit railroad, known as Route No. 9, in Delancey street, Manhattan, and other streets in the boroughs of Manhattan and Brooklyn, including ultimately Centre street, Grand street, Desbrosses street, Canal street and William street, in Manhattan, and Fulton street, Lafayette avenue and Broadway, in Brooklyn.

By this advertisement the City invites proposals to construct that part of said railroad which begins at the northerly side of Broome street and curves through Cleveland place (formerly Marion street) and private property into the new Delancey street extension, and runs thence under said extension and under and across the Bowery and under Delancey street to a point about 225 feet east of the centre line of the Bowery.

The general plan of construction calls for a four-track sub-surface railroad. A station at the Bowery and extending to points between Elizabeth and Chrystie streets will be constructed, and suitable cross-overs, turnouts and sidings are also to be provided, all as shown in the detailed plans of construction. The tunnels are to have a height of not less than thirteen (13) feet in the clear, and a maximum width of fifteen (15) feet for each track, except at curves, etc., where the width may be increased. The roof of the tunnels is generally to be as near the surface of the street as street conditions and grades will permit, but will be depressed at the Bowery in order to avoid a grade crossing with a subway to be hereafter built. The roof and sides of the tunnels will be of iron or steel and masonry. Entrances to the station are intended to be placed within private property, rights in which will be acquired for the purpose.

The manner of construction shall be by excavation under cover, unless otherwise directed by the Board.

In the detailed plans for construction, provisions for pipe galleries through Delancey street and the new extension are included. Bids for the construction of the railroad must be accompanied by a separate bid for the construction of the pipe galleries above referred to, as it is essential for the City to separate the cost of the railroad from the cost of the pipe galleries. The Board reserves the right to accept a bid for construction of the railroad and at the same time to reject the accompanying bid for pipe galleries.

Bidders must visit the location of the railroad and station to be built under this contract and note the present conditions, especially along the line of the new Delancey street extension. The buildings standing within the lines of the said new street on May 1, 1907, are to be demolished and the materials removed by other contractors.

A fuller description of the work to be done is set forth, and other requirements, provisions, details and specifications are stated in the printed form of contract now on file in the office of the Board, No. 320 Broadway, Borough of Manhattan, and in the detailed drawings therein referred to, at which office copies of the contract and of the form of bond and contractor's proposal may be had on application. The contract drawings may be inspected at the same office. The printed form of contract and the detailed drawings are to be deemed a part of this invitation.

Partial payments to the contractor will be made monthly as the work proceeds, as provided in the form of contract.

The work of construction (including pipe galleries) is to be completed as soon as practicable, and within twenty months from the date of delivery of the contract.

SEALED BIDS OR PROPOSALS WILL BE RECEIVED AT THE SAID OFFICE OF THE BOARD, AT NO. 320 BROADWAY, BOROUGH OF MANHATTAN, CITY OF NEW YORK, UNTIL

THURSDAY, JUNE 13, 1907,

AT 12 O'CLOCK NOON, AT WHICH TIME OR AT A LATER DATE TO BE FIXED BY THE BOARD THE PROPOSALS WILL BE PUBLICLY OPENED.

Proposals must be in the form prescribed by the Board, copies of which may be obtained at the office of the Board.

Each proposal must be signed and verified by an affidavit of the bidder (or if it be a corporation, then by an officer thereof) to the effect that the several matters therein stated are in all respects true. If the proposal is made by a firm, it will be sufficient if the proposal is signed and the affidavit sworn to by one member of the firm.

Each proposal must specify an office within The City of New York at which notices may be delivered; and delivery of a notice at such office shall be deemed a sufficient delivery and notice to the bidder.

Each proposal or bid must contain the name and place of residence of the person or persons making the same, the names of all persons interested with him therein, and if no other person be so interested, it shall distinctly state that fact; and if the bidder shall be a corporation, there shall be submitted a certified copy of its certificate of incorporation, with a certificate of the amount of stock paid in cash, and the names and business addresses of all officers and directors of the corporation shall be stated; also, that it is made without any connection with any other person making a proposal or bid for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of department, chief of bureau, deputy thereof or clerk therein, or other officer of the corporation, or any member or employee of the Board, is interested, directly or indirectly, as contracting party, partner, stockholder or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof.

No proposal will be allowed to be withdrawn for any reason whatever after it shall have been deposited with the Board.

The Board is not obliged by law to accept any of the proposals received by it, but may reject all such proposals and readvertise, or may accept any of such proposals as will, in the judgment of the Board, best promote the public interest, and award a contract accordingly, subject to approval by the Board of Estimate and Apportionment, as required by law.

The award of the contract or contracts (if awarded) will be made by the Board within

ten days after the opening of the proposals. The bidder or bidders whose proposal shall be accepted shall in person or by duly authorized representative attend at the said office of the Board within ten days after the delivery of a notice by the Board that the proposal is accepted and that the contract is approved by the Board of Estimate and Apportionment; and such bidder or bidders shall then deliver a contract in the form referred to, duly executed with its execution duly proved.

At the time of the delivery of a contract, the contractor will be required to furnish security to the City by giving a bond in the penalty of one hundred and fifty thousand dollars. At the option of the successful bidder cash or approved securities may be deposited instead of giving a bond. If securities are deposited in place of a bond under this contract they must be of the character of securities in which savings banks may invest their funds and must be approved by the Board. The contractor's bond must be in the form annexed to the form of contract.

In addition, and as further security to the City, 10 per cent. of each amount certified from time to time to be due to the contractor will be retained until the work is fully completed.

Each bidder must state in his proposal the names and places of business of the proposed sureties on the bond and describe any securities proposed to be deposited.

Bidders whose proposals are otherwise satisfactory to the Board may, in case the sureties or securities named by them are not approved by the Board, substitute in their proposals the names of new sureties or a different schedule of securities approved by the Board; but such substitution must be made within five days after notice of disapproval by the Board, unless this period is extended by the Board.

In case of failure or neglect to execute and deliver the contract or to make the required deposit or to execute and deliver the required bond, such bidder will, at the option of the Board, be deemed either to have made the contract or to have abandoned the contract. In the latter case the Board will give notice thereof to the defaulting bidder. And the Board may thereupon proceed to make another contract with such, if any, of the original bidders as, in the opinion of the Board, it will be to the best interest of the City to contract with, or may by new advertisement invite further proposals. The defaulting bidder shall thereupon be liable to the City for all loss and damage by it sustained, including the excess, if any, of the amount it shall pay any other contractor over the amount of the bid of such defaulting bidder.

Every proposal must, when submitted, be inclosed in a sealed envelope indorsed "Proposal for Constructing Rapid Transit Railroad—(Centre Street to the Bowery)," and must be delivered to the Board or to its Secretary; and in the presence of the person offering the proposal it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received or deposited unless accompanied by a certified check drawn upon a National or State bank or trust company within The City of New York and satisfactory to the Board, payable to the order of the Comptroller of The City of New York, for the sum of twelve thousand five hundred dollars.

If the Board shall give notice to any bidder that his or its proposal is accepted and the contract is approved by the Board of Estimate and Apportionment, and if the bidder shall fail within ten days thereafter or within such further period, if any, as may be prescribed by the Board, to execute and deliver the bond with sureties, or make a deposit in cash or securities, then this invitation to contractors and proposal accepted as aforesaid shall be a contract binding the bidder to pay to the City the damages by it sustained by reason of such failure; and in such case the bidder hereby absolutely assigns to the City the ownership of the check accompanying his or its proposal as a payment on account of such damages.

Such check must not be inclosed in the sealed envelope containing the proposal, but must be separately delivered to the Board or to its Secretary, who will give a proper voucher for the deposit.

All such deposits made by bidders whose proposals shall not be accepted by the Board will be returned to the person or persons making the same within five days after the contract shall be executed and delivered. The deposit of the successful bidder will be returned when the contract is executed and its provisions as to security are complied with.

PUBLIC NOTICE.

AT A MEETING OF THE BOARD OF Estimate and Apportionment held May 10, 1907, in the Old Council Chamber, City Hall, Borough of Manhattan, the following proceedings were had:

Whereas, The City of New York by an ordinance adopted by the Board of Aldermen March 16, 1903, and approved by the Mayor March 31, 1903, granted to the New York City Interborough Railway Company the right to construct, maintain and operate a street surface railroad upon certain routes particularly set forth in Section I. of said ordinance, and which ordinance, including all the terms and conditions thereof, was accepted by said Company by an instrument in writing duly filed with the Comptroller of The City of New York on April 3, 1903; and

Whereas, The said Company has petitioned the Board of Estimate and Apportionment under dates of June 26, 1905; June 21, 1906, and March 12, 1907, for the consent of The City of New York to certain modifications and alterations in said routes, as is fully set forth in said petitions; and

Whereas, The Board of Estimate and Apportionment has, in accordance with the provisions of law, held public hearings on the several petitions, to wit: On September 15, 1905; September 28, 1906, and on April 12, 1907, respectively; due notice of such applications and of such dates for public hearings having been published according to law; and

Whereas, It was provided by Section VI. of said ordinance that the said Company should complete the construction of at least twenty-four miles of double-track railroad on or before July 1, 1905; and

Whereas, Said Company has petitioned this Board under date of May 18, 1906, for an extension of time in which to complete the construction of said twenty-four miles of railroad; and

Whereas, This Board has made inquiry as to the proposed modifications and alterations in the said routes of said Company, and as to the extension of time applied for, and has reached the conclusion that certain of such modifications and alterations are desirable and in the public interest, and that an extension of time is warranted in order to permit of the construction of twenty-four miles of double-track railroad, including such modified or altered routes; now therefore it is

Resolved, That the following form of resolution for the consent or right applied for by the New York City Interborough Railway Company containing the form of proposed contract for the grant of such right be hereby introduced and entered in the minutes of this Board, as follows:

Resolved, That the Board of Estimate and Apportionment hereby consents to certain modifications and alterations in the route of the New York City Interborough Railway Company as granted by an ordinance adopted by the Board of Aldermen on March 16, 1903, and approved by the Mayor March 31, 1903, and hereby consents to an extension of time in which to complete twenty-four miles of double-track railroad, including such modified or altered routes, such modifications and alterations in said routes and such extension of time being fully set forth and described in the following form of proposed contract for the granting thereof, embodying such terms and conditions as modify or alter said ordinance as approved March 31, 1903; which said ordinance otherwise remains unchanged as to all the other terms and conditions expressed therein; and be it further

Resolved, That the Mayor of The City of New York be and he hereby is authorized to execute and deliver such contract in the name and on behalf of The City of New York, as follows, to wit:

NEW YORK CITY INTERBOROUGH RAILWAY COMPANY.

Proposed Form of Contract for Alterations in Routes and Extension of Time for Completion of Construction.

This contract, made the day of , 1907, by and between The City of New York (hereinafter called the City), party of the first part, by the Mayor of the said City, acting for and in the name of said City, under and in pursuance of the authority of the Board of Estimate and Apportionment of said City (hereinafter called the Board), and the New York

City Interborough Railway Company (hereinafter called the Company), party of the second part, witnesseth:

Whereas, A certain ordinance, entitled: "An ordinance granting to the New York City Interborough Railway Company the right or franchise to construct and operate a street surface railroad in, upon and along certain streets, avenues, parkways, highways and bridges of The City of New York," was heretofore adopted by the Board of Aldermen, March 16, 1903, and approved by the Mayor of The City of New York on March 31, 1903; and

Whereas, Thereafter the Company on April 3, 1903, filed with the Comptroller of said City a written acceptance, executed March 31, 1903, of said ordinance, and of the terms, conditions and provisions thereof, and an agreement to perform and observe the same; and

Whereas, In and by said ordinance the consent of the corporation of The City of New York was granted to the Company for the construction, maintenance and operation of the railroad of said railway company upon certain enumerated streets, avenues, highways, etc., within said City, and across certain streets, avenues, highways, etc., as may be encountered in its route; and

Whereas, It is the intention of said railway company when the consent of the City has been obtained to relinquish part of the routes as originally granted by the ordinance above referred to, and to substitute such changed or altered routes therefor; and

Whereas, The said Company has applied to the Board of Estimate and Apportionment as the local authorities of The City of New York by verified petitions dated June 26, 1905, June 21, 1906, and March 12, 1907, for the consent of such local authorities for such alterations and for the modification of the said ordinance in accordance therewith; and
