## EXECUTIVE DEPARTMENT.

### PROCLAMATION.

To the People of The City of New York:

Pursuant to the request of the Honorable the Board of Aldermen, as expressed in a resolution offered by the Hon. Reginald S. Doull, I hereby direct that none but patriotic airs be played by the bands of music in the public parks and on the public piers on July 4.

I further direct all heads of Departments of the City Government to display the national ensign on their respective buildings from sunrise to sunset of that day.

And I urge, as the most appropriate manner of celebrating the anniversary of the Declaration of Independence, that every citizen of New York display the national colors at his residence and his place of business.

To which I have set my hand and affixed my seal of office this 25th day of June, nineteen hundred and eight.

(Signed) GEO. B. McCLELLAN, Mayor.

Tribune Building, No. 154 Nassau Street,  
New York, June 27, 1908.

P. J. SCULLY, Clerk, Board of Aldermen, City Hall, New York City:

Dear Sir—I beg to acknowledge receipt of a certified copy of a resolution of the Board of Aldermen on June 23, 1908, requesting the Public Service Commission to establish in the section of Greater New York known as Kingsbridge, a public telegraph station.

To direct the establishment of such an office would require authority which this Commission does not as yet possess. The Public Service Commissions Law does not include telephone or telegraph companies within the jurisdiction of the Commission.

Yours very truly,

TRAVIS H. WHITNEY, Secretary.

Which was ordered on file.

### COMMUNICATIONS FROM CITY, COUNTY AND BOROUGH OFFICERS.

The Vice-Chairman laid before the Board the following communications from the Board of Estimate and Apportionment, transmitting ordinances:

No. 968.

Hon. PATRICK F. McGOWAN, President, Board of Aldermen:

June 11, 1908.

Hon. HERMAN A. METZ, Comptroller:

Sir—Hon. Robert W. Hebbard, Commissioner, Department of Public Charities, in communication under date of April 10, 1908, requests the Board of Estimate and Apportionment to authorize an issue of Corporate Stock to the amount of \$4,553,830 for new buildings and apparatus, and additions, alterations, repairs, etc., to buildings and apparatus as set forth in detail in said communication.

I would report that I have investigated in detail the statement of the Commissioner, and in a general way I consider all the improvements requested would add to the efficiency of the Department, but I hardly consider them all necessary at this time.

If the financial condition of the City warrants the expenditure I think the Board of Estimate and Apportionment may properly authorize the Comptroller, pursuant to section 47 of the Greater New York Charter, as amended by chapter 409 of the Laws of 1904, to issue Corporate Stock to the amount of \$1,169,000 for the purpose of erecting new buildings, additions, improvements and permanently bettering and equipping existing buildings and new steamboats under the jurisdiction of the Commissioner of Public Charities. This will provide means for the following, which I consider urgent and necessary, namely:

Heating plant, Metropolitan Hospital, Blackwells Island	\$100,000 00
Furniture and fixtures, new Nurses' Home, Metropolitan Hospital, Blackwells Island	50,000 00
Pathological laboratory, City Hospital, Blackwells Island	50,000 00

—and that when authority therefor shall have been obtained from the Board of Aldermen, the Comptroller is authorized to issue Corporate Stock of The City of New York, in the manner provided by section 169 of the Greater New York Charter, to an amount not exceeding one million one hundred and sixty-nine thousand dollars (\$1,169,000), the proceeds whereof to be applied to the purposes aforesaid.

On motion of Alderman Dowling this ordinance was made a Special Order for 2 o'clock p. m.

Office of the Secretary, No. 277 Broadway,

Hon. PATRICK F. McGOWAN, President, Board of Aldermen:

Dear Sir—I send you herewith certified copy of a resolution adopted by the Board of Estimate and Apportionment June 26, 1908, approving of the issue of Corporate Stock to the amount of \$130,000 to provide means for a pumping plant, with the necessary equipment and appurtenances, including the construction of a building for this station near the head of Gowanus Canal, Borough of Brooklyn, together with copy of a report of the Comptroller, to whom this matter was referred, relative thereto.

I also enclose form of ordinance for adoption by the Board of Aldermen to indicate its concurrence therein.

Yours very truly,

JOSEPH HAAG, Secretary.

June 19, 1908.

Hon. HERMAN A. METZ, Comptroller:

Sir—Hon. Bird S. Coler, President of the Borough of Brooklyn, under date of June 16, 1908, makes application to the Board of Estimate and Apportionment for the issuance of \$130,000 Corporate Stock "for the purpose of providing a pumping plant with the necessary equipment and appurtenances, including the construction of a building for this station near the head of the Gowanus Canal."

This work is necessary in order to utilize the tunnel, now nearing completion, extending from near Buttermilk Channel to the head of the Canal.

Studies and plans for the work have advanced to a stage that within the summer period contracts can be drawn and the work advertised and let.

The utilization of this tunnel for the flushing purposes intended will therefore be expedited by now granting the appropriation asked.

Therefore, pursuant to section 47 of the Greater New York Charter, as amended by chapter 409 of the Laws of 1904, I believe the Board of Estimate and Apportionment may properly authorize the Comptroller to issue Corporate Stock to the

amount of \$130,000, the proceeds whereof to be applied for "the purpose of providing a pumping plant, with the necessary equipment and appurtenances, including the construction of a building for this station near the head of the Gowanus Canal," as outlined in the request of the Borough President of Brooklyn.

Respectfully,

CHANDLER WITHINGTON, Chief Engineer.

Be it Ordained by the Board of Aldermen of The City of New York as follows:

Section 1. The Board of Aldermen hereby approves of and concurs in the following resolution adopted by the Board of Estimate and Apportionment June 26, 1908, and authorizes the Comptroller to issue Corporate Stock of The City of New York to the amount and for the purposes therein specified:

Hon. PATRICK F. McGOWAN, President, Board of Aldermen:

Dear Sir—I transmit herewith certified copy of a resolution adopted by the Board of Estimate and Apportionment June 26, 1908, authorizing an issue of \$18,000 Corporate Stock to provide means for making alterations and improvements to the Pergola building in the DeWitt Clinton Park, under the jurisdiction of the Commissioner of Parks, Boroughs of Manhattan and Richmond; together with copy of the report of the Comptroller, to whom on April 3, 1908, this matter was referred.

I also inclose form of ordinance for adoption by the Board of Aldermen to indicate its concurrence therein.

Very truly yours,

JOSEPH HAAG, Secretary.

June 13, 1908.

Hon. HERMAN A. METZ, Comptroller:

Sir—At a meeting of the Board of Estimate and Apportionment, held April 3, 1908, there was received and referred to the Comptroller for consideration and report a communication from the Commissioner of Parks, Boroughs of Manhattan and Richmond, requesting an appropriation of \$18,000 to make necessary repairs to the Pergola building in the DeWitt Clinton Park. The matter having been assigned by you to the Bureau of Municipal Investigation and Statistics for examination, I beg to make the following report:

As will be seen by reference to the communication of the Commissioner of Parks, addressed to the Board of Estimate and Apportionment under date of March 26, 1908, the Pergola building in DeWitt Clinton Park is in a deteriorated condition, which condition has been caused by the roof leaking in many places. The roof referred to also serves as the main floor of the Pergola building, thus forming a roof over the basement where is stored a large quantity of departmental supplies and in which is also located an office and tool rooms of the Children's School Farm attached to the DeWitt Clinton Park. The present condition of the Pergola floor, or roof of the basement, as it might be called, has resulted in considerable damage to the building generally, and it is the judgment of your Examiner that something should be done towards putting the building in good repair.

One of the principal causes of the leaking condition of the floor is the fact that there is no roof or covering over the Pergola building proper, it being of open beam construction, after the Grecian style of architecture.

The proposition of the Commissioner, as will be seen from the following memorandum specially prepared by him for the purposes of this report, is to erect a shelter roof over the entire Pergola building to replace the present beam construction, which affords no shelter from sun or rain. The present columns will be utilized to support the new shelter roof, but the Pergola framework is to be discarded.

The City of New York, Department of Parks,  
Boroughs of Manhattan and Richmond,  
The Arsenal, Central Park,  
June 6, 1908.

Hon. HERMAN A. METZ, Comptroller.

Sir—Referring to the application of this Department, dated March 26, addressed to the Board of Estimate and Apportionment, in relation to the Pergola building in DeWitt Clinton Park, and which has been referred to you, I give you below the following reasons why, in the opinion of this Department, the work should be paid for by Corporate Stock:

First—The laying of a new tile floor on the roof over the basement in order to provide a floor which will not be subject to the expansion and contraction of the present concrete which has developed defects over all portions, and will be an entire new floor serving as a roof for the basement of the building.

Second—In order to provide proper drainage for this new floor, a stone coping with stone bases under the present columns will be necessary, this also serving to cover the open joint between the present stone belt course and the concrete construction, which is a continuous source of leaks. This is also new construction.

Both of these items should have been provided for in the original construction of the building, and is wholly new work.

Third—In order to insure the roof being water tight, it is proposed to rewaterproof the entire roof instead of attempting to repair the breaks in the existing waterproofing, which is of such a type of construction that it is impossible to remedy it by any ordinary repairs.

Fourth—It is proposed to erect a shelter roof over the entire Pergola to replace the present Pergola beam construction which affords no shelter from sun and rain. The present columns will be utilized to support the new shelter roof but the Pergola framework will be discarded. This item is entirely additional to the original intention of the building and will be a decided improvement.

All of these items mean new and permanent construction instead of making part repairs which could only be temporary at best. This work, therefore, is really new work, improves the value and condition of the building and, therefore, this Department assumed it to be a proper charge against the Corporate Stock account.

Respectfully,

(Signed) HENRY SMITH,

Commissioner of Parks, Boroughs of Manhattan and Richmond.

It having appeared from examination made in this matter that the report of the condition of the Pergola building in DeWitt Clinton Park as made by the Commissioner of Parks is confirmed, and it having also appeared that the character of the alterations proposed to be made is such as to come fairly under the head of "Betterments," I would respectfully recommend that in the event that the application of the Commissioner is approved by the Board of Estimate and Apportionment, that the appropriation made for this purpose shall be of Corporate Stock.

Appended hereto is a resolution authorizing a Corporate Stock appropriation to the amount of \$18,000 to provide means for the improvement herein previously described.

Yours respectfully,  
(Signed) CHAS. S. HERVEY,  
Supervising Statistician and Examiner.

Approved:

(Signed) H. A. Metz, Comptroller.

Section 1. The Board of Aldermen hereby approves of and concurs in the following resolution adopted by the Board of Estimate and Apportionment June 26, 1908, and authorizes the Comptroller to issue Corporate Stock of The City of New York to the amount and for the purposes therein specified:

Hon. PATRICK F. McGOWAN, President, Board of Aldermen:

Dear Sir—I send you herewith certified copy of a resolution adopted by the Board of Estimate and Apportionment June 26, 1908, approving of the issue of Corporate Stock to the amount of \$450,000 to provide means for the new boiler house and coaling station and their equipment, including Architects' fees, in connection with the construction and equipment of the new Bellevue Hospital, together with report of the Comptroller, to whom this matter was referred, relative thereto.

I also enclose form of ordinance for adoption by the Board of Aldermen to indicate its concurrence therein.

June 19, 1908.

Hon. HERMAN A. METZ, Comptroller:

Sir—Under date of May 18, 1908, the Hon. John W. Brannan, President of the Board of Trustees of Bellevue and Allied Hospitals, asks the Board of Estimate and Apportionment for an issue of Corporate Stock to the amount of \$500,000 to provide for the construction of a boiler house and coaling station for the New Bellevue Hospital.

Dr. Brannan submits with his application a detailed statement of the character of the building and its equipment, together with an itemized estimate of the cost.

I have examined the plans submitted and have conferred with the Architects and Engineers responsible for the plans and specifications, and it would seem that the equipment provided is quite equal to the work to which it is intended, and of a substantial and permanent character; it would appear, however, that the estimate submitted is at least \$50,000 too high.

If the financial condition of the City warrants the expenditure, I think the Board of Estimate and Apportionment may properly authorize the Comptroller, pursuant to section 47 of the Greater New York Charter, as amended by chapter 409, of the Laws of 1904, to issue Corporate Stock to the amount of \$450,000 for the purpose of providing funds for the erection, equipment and furnishing of New Bellevue Hospital; such amount being, in my opinion, quite sufficient to provide for the new boiler house and coaling station and their equipment, including Architects' fees.

Respectfully,

CHANDLER WITHINGTON, Chief Engineer.

Be it Ordained by the Board of Aldermen of The City of New York, as follows:

Dear Sir—I send you herewith certified copy of a resolution adopted by the Board of Estimate and Apportionment June 26, 1908, approving of the issue of Corporate Stock in the sum of \$25,000, to provide means for the improvement of the New York Botanical Garden in Bronx Park, together with report of the Comptroller, to whom this matter was referred, relative thereto.

I also inclose form of ordinance for adoption by the Board of Aldermen to indicate its concurrence therein.

Hon. HERMAN A. METZ, Comptroller:

Sir—In a letter dated March 18, 1908, the Hon. Joseph I. Berry, Commissioner, Department of Parks, Borough of The Bronx, forwards to the Board of Estimate and Apportionment a request of the Managers of the New York Botanical Garden, Borough of The Bronx, for an appropriation of \$40,000, itemized as follows:

4,000 cubic yards rock excavation and disposal, at \$1.25 per cubic yard...	\$5,000 00
6,000 cubic yards earth excavation and disposal, at 60 cents per cubic yard	3,600 00

50 hose-taps, at \$15 each.....	750 00

2,000 linear feet 1-inch galvanized iron water pipe, at 40 cents per linear foot laid.....	800 00
1,500 linear feet of guard rail for paths, at 30 cents per linear foot.....	450 00
3,000 cubic yards topsoil, at \$1.50 per cubic yard.....	4,500 00
1,200 linear feet 6-inch vitrified drain pipe, at 50 cents per linear foot laid	600 00

Hemlock grove fencing.....	1,500 00
Total.....	\$40,000 00

This amount will suffice for the following improvements:

4,000 cubic yards rock excavation and disposal, at \$1.25 per cubic yard...	\$5,000 00
6,000 cubic yards earth excavation and disposal, at 60 cents per cubic yard	3,600 00

Hon. PATRICK F. McGOWAN, President, Board of Aldermen:

Dear Sir—I transmit herewith certified copy of a resolution adopted by the Board of Estimate and Apportionment, June 26, 1908, authorizing an issue of \$550,000 Corporate Stock to provide means for the reconstruction of the bulkhead forming the easterly wall of the Speedway or Harlem River Driveway, on the Harlem River, between One Hundred and Fifty-fifth street and Dyckman street, Borough of Manhattan, together with copy of the report of the Comptroller, to whom, on January 24, 1908, this matter was referred.

I also enclose form of ordinance for adoption by the Board of Aldermen to indicate its concurrence therein.

Very truly yours,

JOSEPH HAAG, Secretary.

June 13, 1908.

Hon. HERMAN A. METZ, Comptroller:

Sir—Hon. Henry Smith, Commissioner, Department of Parks, Boroughs of Manhattan and Richmond, in communication under date of January 22, 1908, requests the Board of Estimate and Apportionment to authorize an issue of Corporate Stock to the amount of \$550,000, for reconstructing the wooden bulkhead forming the easterly wall of the Speedway or Harlem River Driveway on the Harlem River, between One Hundred and Fifty-fifth street and Dyckman street, Borough of Manhattan, I would report:

In the report of Chief Engineer Miller (copy of which is herewith returned), it is stated that that portion of the old bulkhead referred to, built of wood, is generally in a bad condition; that where above mean low water, it has decayed or rotted considerably, and that there is grave danger of sections of the same falling in the near future. He submits three propositions for the repairing or reconstructing of this bulkhead. The first consists of simple repairs where now considered absolutely necessary. The second consists of tearing down and removing all of the old wooden bulkhead and replacing the same with a new one composed of timbers treated with a wood preserving process. He states that he is of the opinion that the old crib work has reached its final settlement, and that a new wooden bulkhead, built as described, will probably last for ten or fifteen years. The cost of a new bulkhead, built in this manner, he estimates would be about \$370,000.

The third proposition of Engineer Miller is to remove the face work of existing bulkhead and as much of the cribs as will be necessary, and to construct on the existing cribs a retaining wall of stone, the face of which is to be of either gneiss or granite. This bulkhead, which it is considered will be a permanent structure, it is estimated will cost about \$550,000.

The Harlem River Driveway, on which it is asserted that this new bulkhead is necessary, begins at One Hundred and Fifty-fifth street, at the westerly end of the One Hundred and Fifty-fifth street viaduct, and extends north along the Harlem River front to Dyckman street. Several hundred yards north of its commencement, at One Hundred and Fifty-fifth street, it joins the Harlem River, and for the remaining distance the bulkhead described, and which now requires replacing, was constructed, extending the entire distance to Dyckman street.

The total length of this bulkhead along the river front is about 8,211 feet, of which about 6,100 feet is composed of wood, the remainder being a retaining wall with a front composed of coursed and uncoursed gneiss or granite masonry. I have examined this bulkhead along the top and also the face of it in a boat throughout its entire length.

It is found that in many places this wooden bulkhead, which was originally built with a considerable inward batter, now has an overhang at the top, sometimes as much as six or eight inches. In other places it is found to be bulging some three or four feet down from the top, due, evidently, to the giving way of the crib work underneath, and rotting away of the dovetails which hold the face timbers to the transverse timbers composing the crib.

Examining the face of the bulkhead from the water it is found that the timbers composing the lower portion thereof were in better condition than above, where more exposed to the action of the weather. Many of the cross timbers of the crib, however, where dovetailed into the face, showed evidence of serious decay and rot, which, without doubt, results in a tendency to weaken the structure.

As regards the breaking down or giving way of this bulkhead in places, as suggested by President Smith, possibly resulting in accidents or loss of life as suggested by him, now or at any time in the near future, I would say that, in my opinion, this is entirely problematical. While the bulkhead has the appearance in some places of having a dangerous overhang and being weak, it is possible that it may stand for a year or even more without giving way so as to require more than some slight repairs.

In the case of heavy loading of the walk on the easterly top of the bulkhead, as in the event of a boat race on the Harlem River, when large crowds gather along this water-front, it might be dangerous, and it would probably be wise to prevent such gatherings at the weak points by policing or roping off until such times as the bulkhead has been rebuilt.

It is my opinion that all of this old wooden bulkhead should be reconstructed, however, at as early a date as is consistent with the financial ability of the City to provide the means.

To make temporary repairs in line with the first proposition made by Mr. Miller I would say that, from investigation of the weak points, I have estimated that this would cost at least \$25,000 at the present time, and would at the best be only a temporary makeshift and a needless waste of money.

The second proposition, that of replacing the old wooden structure with a new one of wood chemically treated, I would say this, in my opinion, would also be only putting off or deferring the permanent structure, which must eventually be placed at this point. A wooden bulkhead, such as is described by Engineer Miller, he states would cost approximately \$370,000, and this would probably last from ten to fifteen years.

The Speedway, which was originally built ten or twelve years ago, at great expense, must be maintained. When built a large portion of it was constructed with a wooden bulkhead, which is placed on the channel line, as laid out by the United States Government, the idea at that time being that the crib work composing the foundation would require a number of years to reach its final settlement.

Chief Engineer Miller now considers that its final settlement has been reached, and that a stone bulkhead may safely be constructed on it, the estimated cost of which is only about \$180,000 more than the cost of a wooden structure which might only last for ten or fifteen years.

I agree with Engineer Miller as regards the treatment of this subject, and believe that when the bulkhead is reconstructed it should be substantially built of stone, so that it would be practically a permanent structure, which would require but small, if any, repairs.

As regards the cost of the improvement, I would say that I made a careful estimate of the quantities and cost of the work, and do not consider that the amount asked for is excessive.

Recommendation is therefore made, that if the financial condition of the City warrants the expenditure, I think the Board of Estimate and Apportionment may properly authorize the Comptroller, pursuant to section 47 of the Greater New York Charter, to issue Corporate Stock to the amount of \$550,000 to provide for the reconstruction of the bulkhead forming the easterly wall of the Speedway or Harlem River Driveway on the Harlem River, between One Hundred and Fifty-fifth street and Dyckman street, Borough of Manhattan.

Respectfully,

CHANDLER WITHINGTON, Chief Engineer.

Be it Ordained by the Board of Aldermen of The City of New York, as follows:

Hon. PATRICK F. McGOWAN, President, Board of Aldermen:

Dear Sir—I send you herewith certified copy of a resolution adopted by the Board of Estimate and Apportionment June 26, 1908, approving of the issue of Corporate Stock of The City of New York to the amount of \$33,000 to provide means for the erection of two new buildings for the use of the Fire Department in the Borough of Richmond, together with report of the Comptroller, to whom this matter was referred, relative thereto.

June 19, 1908.

Hon. HERMAN A. METZ, Comptroller:

Sir—Under date of May 11, 1908, the Hon. Nicholas J. Hayes, Fire Commissioner, asks the Board of Estimate and Apportionment for an appropriation of \$33,000, to be expended as follows:

1. New building for Engine Company 206, to be located on the west side of Broadway, West New Brighton, Borough of Richmond, \$23,000.
2. For new building for quarters of members of the Fire Department who serve on a fireboat to be located at St. George, Borough of Richmond, \$10,000.

I have looked into the matter, and I find that the new building for Engine Company 206 is urgently needed to provide quarters for the firemen now located in rented building.

The completion of the fireboats now under construction is so near, that there is urgent need for quarters for members of the crew of the boat to be located at St. George, Borough of Richmond.

If the financial condition of the City warrants the expenditure, I therefore recommend that the Board of Estimate and Apportionment authorize the Comptroller, pursuant to section 47 of the Greater New York Charter, as amended by chapter 409, of the Laws of 1904, to issue Corporate Stock to the amount of \$33,000 for new building for Engine Company 206, West New Brighton, Borough of Richmond, and for a new building for the members of the Fire Department who are to serve on the fireboat to be located at St. George, Borough of Richmond.

Respectfully,

CHANDLER WITHINGTON, Chief Engineer.

The resolution as adopted and now in force, limits the number of incumbents of the grade of \$1,650 per annum in the position of Examining Inspector to four. \$1,350 per annum, for one incumbent, in his office, which matter was referred to a Select Committee, consisting of the Comptroller and the President of the Board of Aldermen, for consideration.

In view of the facts contained in said report the adoption of the attached resolution is recommended, establishing a grade of Stenographer in the office of the District Attorney of Richmond County at the rate of \$1,350 per annum.

June 17, 1908.

Hon. HERMAN A. METZ, Comptroller:

Sir—In the matter of a communication from the District Attorney of Richmond County requesting an increase of salary to \$1,500 per annum for the Stenographer in his office, which was referred to a Select Committee, consisting of the Comptroller and the President of the Board of Aldermen, for consideration, and by you to the Bureau of Municipal Investigation and Statistics for examination, I beg to report as follows:

The Stenographer whose salary it is proposed to increase to \$1,500 per annum, has been employed in the office for upwards of three years at a salary of \$1,000. The District Attorney states his duties, which include not only the stenographic work but also the clerical work of the office, have been performed in a most competent manner. The amount required to provide for the proposed increase was allowed in the Budgets of 1907 and 1908, but owing to the fact that the grade of Stenographer at \$1,500 has not been established the increased salary cannot be paid.

I would therefore respectfully recommend the establishment of the grade of position of Stenographer in the office of the District Attorney of Richmond County at the rate of \$1,350 per annum.

Yours respectfully,  
(Signed) CHARLES S. HERVEY,  
Supervising Statistician and Examiner.

Whereas, The Board of Estimate and Apportionment, at a meeting held June 26, 1908, adopted the following resolution:

Resolved, That the Board of Aldermen hereby approves of and concurs in the above resolution and fixes the salary of said position as set forth therein.

JOSEPH HAAG, Secretary.

Department of Finance—City of New York,  
Bureau of Municipal Investigation and Statistics,  
June 25, 1908.

To the Honorable the Board of Estimate and Apportionment:

Gentlemen—Transmitted herewith is a report of the Bureau of Municipal Investigation and Statistics, dated June 25, 1908, relative to the recommendation of the Board of Aldermen that the salary of the two Elevatormen employed at Police Headquarters be increased from \$840 to \$900 each per annum, which matter was referred to a Select Committee, consisting of the Comptroller and the President of the Board of Aldermen for consideration.

In view of the facts contained in said report, the adoption of the attached resolution is recommended, establishing the grade of Elevatorman in the Police Department for two incumbents at the rate of \$900 per annum each.

Yours respectfully,  
(Signed) H. A. METZ, Comptroller,  
Select Committee.

June 25, 1908.

Hon. HERMAN A. METZ, Comptroller:

Sir—In the matter of the resolution of the Board of Aldermen, adopted April 28, 1908, recommending "to the Board of Estimate and Apportionment that the salary of the two Elevatormen in the employ of the Police Department be increased from \$840 to \$900 per annum," referred to the Comptroller and the President of the Board of Aldermen, and referred by you to the Bureau of Municipal Investigation and Statistics for examination, I beg to report as follows:

The Elevatormen employed at Police Headquarters have received pay at the rate of \$70 per month or \$840 per annum for the past eight years. They are employed six days every week. They work holidays, Sundays being the only days they are not employed. They have been faithful in the discharge of their duties, and the Police Commissioner has approved of their request for an increase of \$60 per annum each in their salaries. The Board of Estimate and Apportionment included in the Budget of the Police Department for the years 1907 and 1908 a sum sufficient to meet an increase in their salaries, but the Elevatormen have never received the increased amount because the salary of the position has not been established at \$900 per annum.

Your Examiner recommends that the salary of the two Elevatormen employed by the Police Department be fixed at \$900 per annum.

Yours respectfully,  
(Signed) CHAS. S. HERVEY,  
Supervising Statistician and Examiner.

Whereas, The Board of Estimate and Apportionment, at a meeting held June 26, 1908, adopted the following resolution:

Resolved, That the Board of Estimate and Apportionment, in accordance with the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen, the establishment of the grade of position of Elevatorman in the Police Department, in addition to those already existing therein, with salary at the rate of nine hundred dollars (\$900) per annum for two (2) incumbents.

Resolved, That the Board of Aldermen hereby approves of and concurs in the above resolution and fixes the salary of said position as set forth therein.

Which were severally referred to the Committee on Salaries and Offices.

The Vice-Chairman laid before the Board the following communication from the President, Borough of Manhattan:

No. 980.

Board of Estimate and Apportionment, City of New York,  
Office of the Secretary, No. 277 Broadway,  
June 29, 1908.

Hon. PATRICK F. McGOWAN, President, Board of Aldermen:

Dear Sir—I transmit herewith certified copy of a resolution adopted by the Board of Estimate and Apportionment June 26, 1908, recommending that the Board of Aldermen authorize the President, Borough of Manhattan, to provide in contracts for sheet

asphalt and asphalt block pavement for the retention, on completion of the work, of 8 per cent. of its cost as a guarantee for repairs, etc., etc., together with copy of communication from the said President relative thereto.

I also inclose form of resolution for adoption by the Board of Aldermen to indicate its concurrence therein.

Very truly yours,  
JOSEPH HAAG, Secretary.

Office of the President of the Borough of Manhattan,  
City Hall,  
New York, June 25, 1908.

Mr. JOSEPH HAAG, Secretary, Board of Estimate and Apportionment:

Dear Sir—Request is hereby made that the Board of Estimate and Apportionment, pursuant to section 422 of the Greater New York Charter, recommend to the Board of Aldermen that authority be conferred upon the President of the Borough of Manhattan to provide in contracts for sheet asphalt, asphalt block pavement and wood block pavement, for retention, on completion of the work, of 8 per cent. of its cost as a guarantee for repairs; the moneys so retained to be payable on contracts for sheet asphalt pavement and asphalt block pavement in equal installments at the end of the second, third, fourth and fifth years respectively, and on contracts for wood block pavement in equal installments at the end of the seventh, eighth, ninth and tenth years respectively.

You will find inclosed a communication from the Chief Engineer of Highways explaining in detail the reasons for this request.

Yours very truly,  
(Signed) JOHN F. AHEARN, President.

Bureau of Highways for Manhattan,  
Chief Engineer,  
New York, June 25, 1908.

Mr. JOHN CLOUGHEN, Commissioner of Public Works:

Dear Sir—Referring to the report of the Chief Engineer of the Department of Finance on the proposition to retain a certain sum of money to the end of the guarantee period on contracts for paving with sheet asphalt, asphalt block and wood pavement, I would say that my previous recommendation was that 10 per cent. should be retained when the contract is completed, 2 per cent. to be paid at the end of the first, second, third, fourth and fifth years, respectively.

At the present time 20 per cent. of the contract price is retained for a period of twelve months, when it is then paid and no further moneys retained on the contract. So that, if the contractor should refuse to make repairs when ordered by the Borough President, there would be no money available for these repairs and the President could not make them without getting a special appropriation from the Board of Estimate and Apportionment.

The proposition of the Chief Engineer of the Department of Finance is that no money should be withheld after the end of the first year but that a fund should be provided by the Board of Estimate and Apportionment amounting to \$15,000 with which the necessary repairs could be made.

After giving the matter careful consideration, it seems to me that it would be better if we did away entirely with the proposition for retaining 20 per cent. twelve months and, instead of retaining 10 per cent., say, retained 8 per cent. of the cost of the contract; 2 per cent. to be paid at the end of the second year, 2 per cent. at the end of the third, 2 per cent. at the end of the fourth and the remaining 2 per cent. at the end of the fifth. In this way we would be retaining an equivalent of 28 per cent. for one year, when under the present plan, 20 per cent. is retained one year. But the money would be retained for the period of time when repairs would be more apt to be necessary to the pavement, and consequently available for making said repairs.

I would therefore recommend that the Board of Estimate and Apportionment be asked to authorize the retention of 8 per cent. as above specified and do away with the retaining of 20 per cent. for one year as at present.

Regarding wood pavements no money whatever is retained at the present time as the maintenance period runs for ten years while in asphalt it runs only for five. If this 8 per cent. shall be applied to wood pavement as well as asphalt, the 2 per cent. should be paid at the end of the seventh, eighth, ninth and tenth years.

Respectfully,  
(Signed) GEO. W. TILLSON, Chief Engineer.

Resolved, That the Board of Aldermen hereby approves of and concurs in the following resolution adopted by the Board of Estimate and Apportionment June 26, 1908:

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 422 of the amended Greater New York Charter, hereby recommends that the Board of Aldermen confer authority upon the President of the Borough of Manhattan to provide in contracts for sheet asphalt and asphalt block pavement for the retention, on completion of the work, of 8 per cent. of its cost as a guarantee for repairs, the moneys so retained to be payable on said contracts in equal installments at the end of the second, third, fourth and fifth years, respectively; said system to be used in lieu of the present system of retaining 20 per cent. of the contracts for one year.

Alderman Dowling moved the adoption of this resolution.

The Vice-Chairman put the question whether the Board would agree with said resolution.

Which was unanimously decided in the affirmative by the following vote:

Affirmative—Aldermen Cole, Colgan, Collins, Crowley, Delaney, Diemer, Doull, Dowling, Drescher, Finnigan, Flynn, Gaynor, Gunther, Handy, Hines, Hochdorffer, Hogan, Kavanagh, Kenneally, Kenney, Levine, Loos, Martyn, Marx, McCann, McDonald, Moskowitz, Muhlbauer, Mulligan, Mulvaney, Murphy, Nagle, O'Reilly, Potter, Redmond, Rendt, Schloss, Stapleton, Velten, Walsh, President Gresser, by A. The Vice-Chairman laid before the Board the following communication from the Department of Street Cleaning:

No. 982.  
Department of Street Cleaning of The City of New York,  
Nos. 13 to 21 Park Row,  
New York, June 26, 1908.

Hon. P. F. McGOWAN, President, Board of Aldermen, City Hall, New York:

Dear Sir—I respectfully request that your Board, pursuant to subdivision 8 of section 188 of the Greater New York Charter, recommend to the Board of Estimate and Apportionment the issue of Revenue Bonds to the amount of seventy-five thousand dollars (\$75,000) for the payment of expenses incident to the cleaning of eighty-seven (87) miles of macadamized streets in the Borough of Brooklyn, from April 1, 1908, to January 1, 1909.

Previous to the 1st of April of this year the cleaning of these streets had been taken care of by the Bureau of Highways of the Borough of Brooklyn, but, as it appears, without authority of law, as, according to the opinion of the Corporation Counsel, all of these streets are under the cognizance and control of the Commissioner of Street Cleaning and should be cleaned by the Department of Street Cleaning.

I inclose copies of two reports dated June 16, 1908, one by Chas. S. Hervey, Supervising Statistician and Examiner, to the Hon. H. A. Metz, Comptroller, the other from the Hon. H. A. Metz, Comptroller, to the Board of Estimate and Apportionment.

Respectfully,  
FOSTER CROWELL, Commissioner.

June 16, 1908.

Hon. HERMAN A. METZ, Comptroller:

Sir—Regarding the matter of the request of the Commissioner of Street Cleaning for an appropriation of \$135,000 to enable him to provide for the cleaning of 87 miles of macadamized streets in the Borough of Brooklyn from April 1 to the end of the year, which matter was laid over pending the receipt of an opinion of the Corporation Counsel, I beg to report as follows:

The opinion referred to, which has just been received, seems to place the work of cleaning these streets finally in the hands of the Department of Street Cleaning and leaves only the question of the expense necessarily attending the work to be considered.

As has been pointed out in previous reports of this Department on the subject, the Bureau of Highways estimates the extra cost of properly cleaning these streets in connection with its work of maintenance at about \$100,000 per annum, or almost 25 per cent. less than the amount now requested by the Commissioner of Street Cleaning for three-fourths of the year.

It would seem to your Examiner, judging from the facts at his disposal, that this estimate of the Bureau of Highways should be ample for the purpose if placed in the hands of the Commissioner of Street Cleaning.

At least one-half of these streets are travelled little more than country roads and should not need cleaning more than once a month. For the remaining 43 miles one-half should not require more than weekly attention and for the other half semi-weekly cleaning should suffice. Allowing for an average daily allotment of 400 linear yards of these roads to each Sweeper, 55 Sweepers would be sufficient to do the entire work. These at an annual salary of \$780 each would cost \$42,900 per annum, which is a reduction of almost 45 per cent. on the estimate of the Street Cleaning Commissioner for this item, and applying the same rate of reduction to the Commissioner's total annual estimate of \$175,000 per annum, the result is found to be well within the estimate of the Bureau of Highways or about \$96,000.

It would therefore seem that if these streets had been receiving proper attention during the past year, an allowance of \$50,000 would have been sufficient to continue the work during the remainder of the year, but owing to the long continued doubt as to proper jurisdiction they have been very much neglected, with the result that an extra initial expenditure will be necessary to compensate for this neglect.

It is claimed by the Commissioner that in view of all the circumstances and the fact that the general appropriation for Brooklyn, already too small, has been further reduced by such macadam cleaning as has been done since the first of the year, an amount of \$100,000 for the remaining half of the year would be only fair, because, if not entirely absorbed in this particular work, it could be used elsewhere to great advantage.

The question of the general appropriation, however, is one to be decided on its own merits, and it seems to your Examiner that an addition of \$25,000 should be sufficient to reimburse the general appropriation for the admittedly slight and occasional macadam cleaning so far done and provide as well for the extra work occasioned by past neglect.

It is therefore respectfully recommended that the additional appropriation to the Commissioner of Street Cleaning to enable him to provide for the cleaning of macadam streets in the Borough of Brooklyn be limited to the sum of \$75,000. The appropriation, however, involving as it does an issue of Special Revenue Bonds, must be passed upon by the Board of Aldermen, and the matter should therefore be returned to the Commissioner of Street Cleaning in order that he may make proper application to that body for the necessary action.

Yours respectfully,  
(Signed) CHAS. S. HERVEY,  
Supervising Statistician and Examiner.

Department of Finance,  
Bureau of Municipal Investigation and Statistics,  
June 16, 1908.

To the Honorable the Board of Estimate and Apportionment:

Gentlemen—I transmit herewith a report of the Bureau of Municipal Investigation and Statistics relative to the request of the Commissioner of Street Cleaning for an appropriation of \$135,000 to enable him to provide for the cleaning of 87 miles of macadam streets in the Borough of Brooklyn from April 1 to the end of the year.

In view of the statements made in said report, it appears that an allowance of \$75,000 will be sufficient for this purpose during the present year, and I therefore recommend that the appropriation be limited to that sum and that the matter be referred back to the Commissioner of Street Cleaning with the suggestion that he apply to the Board of Aldermen for the adoption of the necessary resolution to provide for an issue of Special Revenue Bonds in the required amount.

Yours respectfully,  
(Signed) H. A. METZ, Comptroller.

Which was referred to the Committee on Finance.

The Vice-Chairman laid before the Board the following communication from the Department of Water Supply, Gas and Electricity:

No. 983.  
Department of Water Supply, Gas and Electricity,  
Commissioner's Office, Nos. 13 to 21 Park Row,  
City of New York, June 26, 1908.

Hon. PATRICK F. McGOWAN, President, Board of Aldermen:

Sir—The Corporation Counsel has advised me that this Department will be able to take physical possession of the Crystal and Staten Island Water Supply Companies on the first proximo. The City has already agreed upon the purchase price of the plants and franchises operated by these companies, and the Law Department, for some months past, has been examining into the title and ownership of the properties which the companies have agreed to turn over to the City. The deeds to the companies' stations, distributing mains, hydrants, pipes, etc., and franchises will be delivered about July 1.

Enclosed you will please find an estimate which I have prepared giving the amount required for the proper operation and maintenance of the water companies' plants for the balance of this year.

I would respectfully request that the Honorable Board of Aldermen provide for an issue of Special Revenue Bonds in the sum of \$144,704.46 for the works and purposes referred to in the above mentioned estimate.

Respectfully,  
JOHN H. O'BRIEN, Commissioner.

The Vice-Chairman laid before the Board the following communication from the Department of Docks and Ferries:

No. 984.

Department of Docks and Ferries, }  
Pier "A," North River, }  
New York, June 29, 1908. }

Hon. PATRICK F. McGOWAN, President, Board of Aldermen:

Sir—On June 9, 1908, this Department forwarded to you a communication asking authority to make repairs to ten (10) parcels of water-front property without advertising for bids or contracting for the same, the work to be done by the force of this Department. I understand that this communication has not reached you, and I am, therefore, sending you herewith a copy of the same, with the request that early action be taken thereon.

Yours respectfully,

ALLEN N. SPOONER, Commissioner.

June 9, 1908.

Hon. PATRICK F. McGOWAN, President of the Board of Aldermen:

Sir—An examination of the various properties owned by the City along the water-front shows repairs required thereto, the cost of which, in each case, will exceed the sum of \$1,000.

I therefore respectfully beg to request that a resolution be adopted by the Board of Aldermen, authorizing and empowering this Department, without advertising for bids or contracting for same, to do the following work by the force of this Department:

1. Repairs to pier foot of West Thirty-fifth street, North River.
2. Repairs to pier foot of West Thirty-ninth street, North River.
3. Repairs to pier foot of West Forty-fifth street, North River.
4. Repairs to Pier 5, East River.
5. Repairs to Pier 6, East River.
6. Repairs to pier foot of East Ninety-first street, East River.
7. Repairs to ferry racks at Manhattan terminal of Thirty-ninth Street Ferry.
8. Repairs to ferry racks at Manhattan terminal of Staten Island Ferry.

9. Repairs to ferry racks at ferry terminal at St. George, in the Borough of Richmond.
10. Repairs to ferry racks at ferry terminal foot of Thirty-ninth street, in the Borough of Brooklyn.

The above request is made with the understanding that the work of dredging shall be done and all materials and supplies necessary for the prosecution of the work shall be purchased by contract as provided for in section 419 of the Greater New York Charter.

In making this recommendation it is found that on account of the nature of the repairs required to timber piers, the work can be more economically done by the force of this Department than it can be done under contract.

The estimated cost of the work to be done, as required herein, is as follows:

1. West Thirty-fifth Street Pier.....	\$40,000 00
2. West Thirty-ninth Street Pier.....	5,000 00
3. West Forty-fifth Street Pier.....	12,000 00
4. Pier 5, East River.....	25,000 00
5. Pier 6, East River.....	25,000 00
6. East Ninety-first Street Pier.....	20,000 00
7. Ferry racks, Manhattan terminal, Thirty-ninth Street Ferry.....	5,000 00
8. Ferry racks, Manhattan terminal, Staten Island Ferry.....	5,000 00
9. Ferry racks, St. George terminal, Staten Island Ferry.....	5,000 00
10. Ferry racks, foot of Thirty-ninth street, Brooklyn.....	5,000 00

Yours respectfully,

The Vice-Chairman laid before the Board the following communication from the Board of Estimate and Apportionment:

No. 985.

Board of Estimate and Apportionment, City of New York, }  
Office of the Secretary, No. 277 Broadway, }  
June 27, 1908. }

Hon. PATRICK F. McGOWAN, President, Board of Aldermen:

Dear Sir—At a meeting of the Board of Estimate and Apportionment, held June 26, 1908, a report was presented from the Comptroller, relative to two resolutions of the Board of Aldermen, previously referred to him, one requesting that the property owned by the City, located at Avenue A, Ninetieth and Ninety-first streets and the East River, Manhattan, be turned over to the Park Department to be used for gymnasium purposes in connection with the East River Park, and the other requesting that an appropriation be granted for the construction and maintenance of a high pressure service pumping station on property owned by the City located on the East River, between Ninetieth and Ninety-first streets, Manhattan, which was ordered filed and copy sent to the Commissioner of the Department of Water Supply, Gas and Electricity and the President of the Board of Aldermen.

I transmit herewith copy of said report for the information of your Honorable Board.

Yours very truly,

WILLIAM M. LAWRENCE, Assistant Secretary.

June 22, 1908.

To the Board of Estimate and Apportionment:

Gentlemen—At a meeting of the Board of Estimate and Apportionment, held April 3, 1908, a resolution was presented from the Board of Aldermen, requesting that property now owned by the City, located at Avenue A, Ninetieth and Ninety-first streets, East River, Borough of Manhattan, be turned over to the Park Department as part and parcel of the East River Park, to be used as a gymnasium and playground, and at the same meeting another resolution was presented from the Board of Aldermen, requesting that the Board of Estimate and Apportionment grant an appropriation for the construction and maintenance of a high pressure service pumping station on property now owned by the City on the East River, between Ninetieth and Ninety-first streets, Manhattan. Both of these propositions were referred to me for consideration and report.

The closing paragraph of the resolutions of the Board of Aldermen in each case reads:

"Resolved, That the Board of Estimate and Apportionment be and they are hereby requested to take the necessary action to authorize the use of this property for a gymnasium and playground, and also to authorize the appropriation of funds for the construction and maintenance of a high pressure service pumping station."

The assignment of this property for both the pumping station and the Park Department is a matter that lies entirely within the province of the Commissioners of the Sinking Fund, and not with the Board of Estimate and Apportionment. The matter of the appropriation of funds sufficient for the construction and maintenance of a high pressure service station on the property, does lie within the province of the Board of Estimate and Apportionment.

I am of the opinion, in the first place, that the property is too valuable for playground purposes.

Second—It adjoins a park which can be utilized, if it is not now, for playground purposes, and the City has an additional playground on Avenue A, between Seventy-sixth and Seventy-seventh streets.

To utilize a portion of this property 100 feet square for a pumping station would practically destroy the value for other purposes which in the near future may be necessary.

I am of the opinion that there is sufficient room under the Blackwells Island Bridge as a site for a pumping station, and would suggest that the Department of Water Supply, Gas and Electricity make application to the Commissioner of the Department of Bridges for sufficient ground for the purpose. When the Commissioners of the Sinking Fund have assigned the property to the Department of Water Supply, it will be sufficient time for the Board of Estimate and Apportionment to authorize the appropriation of funds for the construction of the plant.

Respectfully submitted,

(Signed) H. A. METZ, Comptroller.

Which was ordered on file.

Alderman Dowling moved that the Board proceed to the order of business of General Orders.

Alderman Dowling called up General Order No. 75, being a report and ordinance, as follows:

No. 161.

The Committee on Laws and Legislation, to which was referred on February 4, 1908 (Minutes, page 914), the annexed communication from the Corporation Counsel directing attention to a condition owing to a lapse in the Code of Ordinances, and suggesting that the position of Pound Master be reestablished, respectfully

#### REPORTS:

It appears that prior to consolidation and up to the time of the adoption of the Code of Ordinances in 1906, the ordinances and by-laws of the several municipal and public corporations consolidated into the Greater City contained provisions respecting the impounding of animals. Either through inadvertence or the mistaken notion that such duty devolved upon a semi-public society, all the provisions of these several ordinances and by-laws were eliminated from the Code and repealed. The opinion of the Corporation Counsel seems to show a strong need of the position of Pound Master, and the Committee recommends the adoption of the annexed ordinance, which is in effect a re-enactment of the ordinance heretofore existing and governing the former City of New York.

AN ORDINANCE to amend the Code of Ordinances of The City of New York, in relation to "Animals running at large and impounding the same."

Be it Ordained by the Board of Aldermen of The City of New York, as follows: Section 1. Chapter 13 of part 1 of the Code of Ordinances of The City of New York, is hereby amended by adding at the end thereof a new subdivision to be known and titled as follows:

16—Animals Running at Large, and Impounding the Same.

Sec. 532. The Mayor shall appoint proper persons as masters of the public pounds, who, before entering upon the duties of their office, shall take and subscribe an oath or affirmation well and truly to execute the duties of their office.

Sec. 533. All horses, swine or neat cattle found at large in violation of this article may be taken by any person or persons and driven or carried to such place as may be designated by the Board of Aldermen as a public pound. It shall be the duty of the Pound Master or person having charge of such public pound to enter in a book, to be kept by him for that purpose, the names and places of abode of all persons who may bring any such horses, swine or neat cattle to such pound and the time of bringing the same respectively; no person shall receive any compensation for driving or bringing any horse, neat cattle or swine to any of the public pounds.

Sec. 534. If the owner of any such horse, swine or neat cattle, or any other person entitled to redeem the same, shall appear and claim the same at any time before a sale thereof, it shall be the duty of the Pound Master to deliver the same on receiving the amount of his fee for keeping and feeding the same, not exceeding one dollar for each beast for every twenty-four hours, and at that rate for any less period of time.

Sec. 535. It shall be the duty of the Pound Master, on making any delivery of swine or neat cattle before sale, or on payment of surplus money after sale, to obtain from the person or persons claiming the same, his, her or their name or names and residence; and once in each month to report to the Corporation Counsel the same, and the name or names of all persons claiming horse, swine or neat cattle, and their places of residence, the date when the same were sold or redeemed, and the names of the persons leaving the same at the pound.

Sec. 536. If no person shall appear to claim such horses, swine or neat cattle within three days after the same may have been impounded, it shall be the duty of the Pound Master to give three days' notice of the sale thereof.

Sec. 537. Such notice shall contain some general description of the beasts impounded, and shall be posted up in some conspicuous place at said public pound and in the City Hall of The City of New York, and shall also be inserted in two or more of the public newspapers published in the City.

Sec. 538. In case of the sale of any impounded horses, swine or neat cattle, the said Pound Master shall retain, out of the proceeds of such sale, sufficient to pay the amount of his fees and all charges incurred by him on account of said horse, swine or neat cattle.

Sec. 539. If, after any such sale, and whilst the proceeds thereof remain in the hands of the said Pound Master, the former owner of any horse, swine or neat cattle shall appear and claim the same, it shall be the duty of the said Pound Master to deduct from the proceeds of such sale the fees and charges as provided in the last preceding section, to ascertain the name and residence of such owner, and to pay over the residue of the proceeds of such sale to the person so claiming to be the owner.

Sec. 540. It shall be the duty of the said Pound Master, once in every month, to account to the Comptroller of The City of New York for all moneys received or expended by him by virtue of this article, and to pay over to the said Comptroller all such moneys remaining in his hands, after deducting his legal fees and charges.

Sec. 2. This ordinance shall take effect immediately.

T. P. SULLIVAN, JOHN DIEMER, R. S. DOULL, JOHN J. COLLINS, FRANK L. DOWLING, JOHN MULVANEY, Committee on Finance.

Office of the President of the Borough of Richmond,  
Borough Hall, New Brighton, New York City,  
May 20, 1908.

To the Board of Aldermen, Mr. P. J. SCULLY, City Clerk, City Hall, New York:

Gentlemen—I would ask that you authorize an issue of Revenue Bonds to the extent of \$20,000 to meet deficiency in appropriation for 1908 for my Bureau of Engineering, Construction Division, Salaries and Wages. The appropriation for this division of our work was \$30,000, of which about \$8,000 was estimated as needed for instruments, materials, supplies, traveling expenses, care of horses, wagons, etc.

Though using the most rigid economy, consistent with demands on the Bureau for Surveys, Maps and Information, there remained for salaries and wages on May 1, 1908, a balance of less than \$10,000, which will be entirely exhausted on or about August 1 next.

Petitions for assessable improvements are constantly being received by the Local Board, which require surveys, estimates and preliminary plans prior to the registration of contracts, all cost of which has to be met from "appropriation." In addition, we have to keep one or two parties constantly employed making borings for contemplated sewers. The expenditures for these purposes in 1907 were approximately as follows, viz.:

From appropriation .....	\$21,000 00
From Revenue Bonds to make up deficiency.....	10,000 00
By transfers from Street Improvement Fund under special arrangement with the Department of Finance.....	14,000 00

To do the work in hand and keep pace with new applications, we cannot decrease the number of employees to any material extent, and, therefore, shall need the additional sum of money asked for to carry through the year.

As above stated, we received last year the sum of \$14,000 transferred from the Street Improvement Fund, but the Comptroller has since then decided not to make transfers from that fund to reimburse an appropriation for further use, even though such sums are later collected in the assessments levied. We do not agree with that view, but the Comptroller's decision is final.

It is probably not generally understood by the City Departments that in Richmond the Bureau of Engineering renders all engineering services required for the Bureaus of Highways, Sewers, Street Cleaning and Public Buildings and Offices in addition to repavement matters and all street improvement work. This results in far greater economy than having separate engineer corps connected with each Bureau as in other Boroughs.

In each of the last three Departmental Estimates we have shown need for fully \$50,000 direct appropriation and each year have been cut down to \$30,000, and each year have been provided with additional funds, it being generally conceded that the engineering work in this Borough is marked by great efficiency and is decidedly necessary to the Boroughs best interests.

We would renew, therefore, and urge our request for the early granting of \$20,000 in Revenue Bonds.

Yours respectfully,

GEORGE CROMWELL, President of the Borough.

The Vice-Chairman put the question whether the Board would agree to accept such report and adopt said resolution.

Reports of Committee on Public Letting—

Nos. 558 and 649.

The Committee on Public Letting, to which was referred on April 7, 1908 (Minutes, page 69), the annexed resolution in favor of authorizing the Department of Water Supply, Gas and Electricity to pay for extra work at Ridgewood Pumping Station without public letting, respectfully

#### REPORTS:

That Engineer McKay and Architect Parfitt appeared before the Committee, and stated that this extra work was caused by the discovery of quicksand after the work on original plans had been started, and which had not been disclosed by the preliminary borings. That the contractors had their plant on the spot and were much better able to do the work than if it were secured by a bidder after advertising, besides which it would be extremely difficult to draw a line dividing the responsibility. The Committee therefore recommends that the said resolution be adopted.

The Committee on Public Letting, to which was recommitted on April 21 and 28, 1908 (Minutes, pages 146 and 183), the annexed resolution in favor of authorizing the payment of extra work at Ridgewood Pumping Station by the Department of Water Supply, Gas and Electricity, and communication from the Merchants' Association, respectfully

#### REPORTS:

That this resolution was originally received and referred to the Committee on Public Letting on April 7, 1908. That on April 21, 1908, it was reported to the Board for adoption by a favorable report of seven members of the Committee. That on the latter date it was recommitted to the Committee on Public Letting upon objections by several of the members of the Board. That subsequent to this latter date your Committee held several public hearings on the matter, to which all those members of the Board who had objected on the floor were invited, and at which hearings but one of the objectors appeared and stated his reasons in detail. So far as the Committee is able to learn none of the experts who have examined this situation thoroughly seems able to assign a cause for the shift in foundations which renders it necessary to do over that portion of the work for which this additional authorization is asked. As it is this change which makes it necessary to authorize this supplementary work, and as none of those who appeared in opposition took issue with the former report of this Committee in which it was stated that the work could be done better, quicker and cheaper by the present contractor than if the long drawn out system of advertising for bids and drawing up specifications were pursued, and as it is vitally important that the Borough of Brooklyn, every car or other vehicle between said hours, while moving earliest possible moment, your Committee again recommends this resolution to the Board for adoption. The Committee also recommends that the communication from the Merchants' Association be placed on file.

Resolved, That the Commissioner of Water Supply, Gas and Electricity be and is hereby authorized to expend, without the formality of advertising for bids and proposals, the sum of sixty-five thousand dollars (\$65,000), to be applied to extra work made necessary by a change in the original design and plans of the Ridgewood North Side Pumping Station.

The Merchants' Association of New York,  
Nos. 66 to 72 Lafayette Street,  
April 25, 1908.

Hon. PATRICK F. MCGOWAN, President, Board of Aldermen, City Hall, City:

Dear Sir—A contract for the construction of an addition to the Ridgewood Pumping Station was some time ago entered into by the Department of Water Supply, Gas and Electricity.

The Chief Engineer of the Department, for Brooklyn, has reported that the excavations for the foundations have developed quicksands, which make necessary a material modification of the plans, and a consequent increase of cost to the extent of about \$65,000. As you are aware, a material change in the terms of a City contract can only be made by agreement, and with the assent of the Board of Aldermen, and further, that any increase of outlay in such case is not protected by competitive bidding.

There is some question as to the necessity of this outlay, and we think that before it is authorized a further examination into the facts should be made. We therefore respectfully request that you will cause action by the Board of Aldermen upon the subject to be suspended for two weeks in order that this association may have a competent engineering examination made, the result of which will be duly submitted for your information.

Trusting that you will grant this request, we remain,

Yours very respectfully,

THE MERCHANTS' ASSOCIATION OF NEW YORK,  
By Henry R. Towne, President.

The Vice-Chairman put the question whether the Board would agree to accept such report and adopt said resolution, and place communication from Merchants' Association on file.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Baldwin, Barton, Bent, Beyer, J. W. Brown, Cole, Coleman, Colgan, Collins, Corbett, Crowley, Delaney, Doull, Dowling, Downing, Drescher, Emener, Finnigan, Flynn, Gaynor, Goldschmidt, Gunther, Handy, Heffernan, Hickey, Hines, Hochdorffer, Hogan, Johnson, Kavanagh, Kenneally, Kenney, Levine, Loos, Marx, McAleer, McCann, McDonald, Moskowitz, Muhlbauser, Mulligan, Murphy, Nagle, Nugent, O'Reilly, Potter, Quinn, Reardon, Redmond, Rendt, Schloss, Schneider, Smith, Stapleton, Stormont, Walsh, President Cromwell, President Haffen, President Ahern and the Vice-Chairman—60.

The Committee on Public Letting, to which was referred on June 23, 1908 (Minutes, page 742), the annexed resolution authorizing the Department of Health to purchase in the open market, fixtures, furniture and apparatus to equip the Measles Pavilion, Brooklyn, to an amount not to exceed \$15,000, respectfully

#### REPORTS:

That the details of this application are set forth in the annexed communication from Dr. Bense, Sanitary Superintendent. The Committee feels that work of this nature which tends to safeguard the health of our citizens should be facilitated, and it therefore recommends that the annexed resolution be adopted.

Resolved, That, in pursuance of the provisions of section 419 of the Greater New York Charter, the Board of Health be and hereby is authorized and empowered to contract for and purchase in the open market, without public letting, at the lowest price obtainable, such furniture, fixtures and apparatus as are necessary or required to completely equip the Measles Pavilion located on the grounds of the Kingston Avenue Hospital, at Kingston avenue and Fennimore street, in the Borough of Brooklyn, to an amount not exceeding fifteen thousand dollars (\$15,000).

The Committee on Public Letting, to which was referred on June 23, 1908 (Minutes, page 747), the annexed resolution in favor of authorizing the Commissioner of Public Charities to purchase patent davits for new steamboats at a cost not to exceed \$1,630, without public letting, respectfully

#### REPORTS:

That, having examined the subject, it believes the proposed improvement to be necessary, owing to the limited force used to man this vessel and the large passenger list it always carries. These davits are approved and used by the United States Government.

The Committee recommends that the annexed resolution be adopted.

Resolved, That, in pursuance of the provisions of section 419 of the Greater New York Charter, the Commissioner of Public Charities be and he is hereby authorized and empowered to contract for and purchase in the open market, without public letting, four sets of Welin Quadrant Davits for the new steamboat "The Lowell," at a cost not to exceed one thousand six hundred and thirty dollars (\$1,630).

Reports of Committee on Finance—

Nos. 430 and 653—(G. O. No. 81).

The Committee on Finance, to which was referred on March 24 and April 28, 1908 (Minutes, pages 1239 and 653), the annexed communications in favor of an issue of \$500,000 Special Revenue Bonds for the installation of flushing machines in the Department of Street Cleaning, respectfully

#### REPORTS:

That, having examined the subject, it believes the proposed experiment to be one that will tend to decrease the discomfort of our citizens and improve the conditions in regard to the public health, but at the same time as it is but an experiment the Committee does not feel that so large an amount should be authorized until some trial of the system may be made, and therefore submits for adoption the annexed resolution for \$200,000.

Resolved, That, pursuant to the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue Special Revenue Bonds to the amount of two hundred thousand dollars (\$200,000), the proceeds whereof to be applied by the Commissioner of Street Cleaning for the purpose of experimenting with a new system of washing the streets by means of flushing machines and supplemental hand sweeping.

Department of Street Cleaning of The City of New York,  
Nos. 13-21 Park Row, New York,  
March 19, 1908.

Hon. PATRICK F. MCGOWAN, President, Board of Aldermen, City of New York:

Sir—I propose to introduce into this Department a new system of washing and cleaning the streets by means of flushing machines. It is desired to make a trial of the proposed system on a sufficiently large scale to practically demonstrate its value, and this would, in my judgment, require one entire season, or, say, two hundred days, and should be applied to the various classes of streets in order to demonstrate its usefulness.

It is proposed to have the machine flushing done by contract, supplemented by hand sweeping.

I estimate that for these purposes five hundred thousand dollars (\$500,000) will be required.

The water to be used is to be paid for by the party securing the contract, which should produce a very considerable offset revenue to the Department of Water Supply, Gas and Electricity, which would materially reduce the net cost to the City.

In order that the above plans can be carried out I would respectfully request that your Honorable Board, in accordance with subdivision 8 of section 188 of the Greater New York Charter, request the Board of Estimate and Apportionment to authorize the issue of Special Revenue Bonds to the amount of five hundred thousand dollars (\$500,000) to cover the expense of washing and cleaning the streets according to the above plan during the present year.

I further respectfully request that this issue be made to take effect on and after May 1, 1908.

Respectfully,  
FOSTER CROWELL, Commissioner of Street Cleaning.

Department of Street Cleaning of The City of New York,  
Nos. 13-21 Park Row, New York,  
April 24, 1908.

Hon. P. J. SCULLY, City Clerk, City Hall, New York:

Dear Sir—My attention has been called to the fact that there is a misunderstanding on the part of some Aldermen in regard to the import of the resolution now before your Honorable Board of Aldermen, embodying my request for an issue of Revenue Bonds to provide for cleaning the streets of the City by the use of flushing machines.

The impression seems to prevail that the machines will render hand sweeping unnecessary, and that in consequence the street cleaning force is to be reduced.

This impression is entirely erroneous, for, on the contrary, the request, as you will observe, states that it is proposed to have the machine flushing supplemented by hand sweeping, and this will require a large number of additional sweepers, so that the funds asked for are to be utilized to extend the work of cleaning and not as a substitute for the present method. The work performed by the hand sweepers will be materially expedited.

In addition to the extra number of men to be employed by the Department will be the men employed by the contractor to drive and operate the machine.

It is greatly to be desired that the action taken by the Board of Aldermen in this matter should be prompt, as the time is slipping by and it is important to begin the work before the hot weather.

Respectfully,  
FOSTER CROWELL, Commissioner.

That, having examined the subject, it believes the proposed request should come from the Surrogate, and therefore recommends that the said resolution be placed on file.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, as amended, the Board of Estimate and Apportionment be and is hereby requested to authorize the Comptroller to issue Special Revenue Bonds to the amount of eighteen hundred and thirty-eight dollars (\$1,838), the proceeds whereof to be used by the Surrogate of Kings County for the purpose of equalizing the salaries of the Special Officer, Court Officers and Messenger of the Kings County Surrogate's Court, with the Court Attendants and Special Officers of the Supreme Court, such equalization to begin April 1, 1908.

Office of the Secretary, No. 277 Broadway,  
June 23, 1908.

Hon. PATRICK F. McGOWAN, President, Board of Aldermen:

Dear Sir—I send you herewith certified copy of resolution adopted by the Board of Estimate and Apportionment June 19, 1908, rescinding resolution adopted December 6, 1907, authorizing an issue of \$170,000 Corporate Stock to provide means for the construction of a water main for delivering water from the proposed pumping station on Trotting Course lane, between Metropolitan and Myrtle avenues, to the main located at the corner of Myrtle and Cypress avenues, Borough of Queens.

Very truly yours,

JOSEPH HAAG, Secretary.

City of New York, Office of the Mayor. }  
June 23, 1908.

To the Honorable the Board of Aldermen of The City of New York:

Gentlemen—I regret that it is necessary again to urge upon your Honorable Body the importance of action on the several applications before you, mentioned in my messages of June 2 and June 8, and not yet acted upon.

The issue of \$2,500,000 Corporate Stock for the improvement of the water supply of the Borough of Brooklyn is not only essential to the sufficiency of water for that Borough in connection with other measures now under way, but will almost at once increase the revenues of the City. It seems superfluous to argue for the establishment of the position of Supervising Electrical Engineer in charge of the high pressure pumping stations, to point out the business reasons for establishing a scale of water rents and charges, or to advocate the payment by the City of its bills for lighting the Brooklyn Bridge, for water bought by the City and sold by the City at a profit, or for the sanitary washing of the public streets, or for the payment of the salaries of the Metropolitan Sewerage Commission.

As your Honorable Body will shortly adjourn for the summer vacation, I deem it my duty to urge you to pass these measures.

Respectfully,

GEO. B. McCLELLAN, Mayor.

Which report was accepted.

The City of New York, Department of Parks,

June 16, 1908.

To the Honorable the Board of Aldermen, The City of New York:

Gentlemen—In accordance with subdivision 8, section 188, of the Charter, inclosed herewith I beg to transmit copy of application of the New York Zoological Society for the sum of five thousand dollars (\$5,000) for alterations and repairs to the Aquarium building in Battery Park, mainly for new roof and skylights.

Inclosed also is a copy of a letter of the Director of the Aquarium giving the detail in relation to the necessity for the improvements.

Respectfully,

HENRY SMITH,

Commissioner of Parks, Boroughs of Manhattan and Richmond.

New York Zoological Society,  
New York, March 27, 1908.

Hon. HENRY SMITH, President, Park Department, Central Park, City:

Dear Sir—The New York Zoological Society respectfully makes application through the Park Department of the Borough of Manhattan, to the Board of Estimate and Apportionment, for the sum of \$5,000, which is required for the alteration and extension of the Aquarium building in Battery Park. The purposes for which the above amount is required are as follows:

A new roof.

Twenty-four new roof skylights to replace the old ones rusted out and falling apart.

Nine new skylights to admit additional light through the ceiling.

Painting, etc., made necessary by the above repairs.

Also a gallery in the main floor office.

I inclose herewith a letter from the Director of the Aquarium setting forth the necessity for the above alterations to the Aquarium building.

Respectfully yours,

MADISON GRANT.

New York Aquarium,  
Battery Park, New York City,  
March 27, 1908.

Mr. MADISON GRANT, No. 11 Wall Street, New York City:

Dear Sir—In view of the fact that the old tin roof on the Aquarium, put on about seven years ago, has become so rusted that further repairs on it amount to a considerable annual drain on our maintenance fund, a new roof is necessary. At the same time the Aquarium very much needs twenty-four new roof skylights. These are the original high ventilating skylights, the metal of which is rusted out and falling apart. They will have to be replaced with new ones at a very early date.

The new skylights should be simpler in construction, being similar to the new flat skylights put on the roof three years ago.

The interior of the building is still dark owing to the presence of the ceiling which has only eight skylights. Conditions for lighting the building will be very unsatisfactory until we can have as many more. It will in fact be necessary to put in nine to secure symmetry. These nine will be oval skylights between the others and at the end of the line.

It will be necessary to paint the vertical portions of the roof and some interior painting in connection with the above alterations.

We need very much some additional office space for the storing of records, etc.; this can be readily secured by placing a gallery against one end of the lower office which has a very high ceiling.

I have secured estimates on all of this work, the lowest bids being set forth in the following list.

In regard to a roof it seems advisable to put on what is known as a slag roof as a roof of tin does not wear well in the salt air of this location. The slag roof is also cheapest and is guaranteed for five years.

The item of \$250 in the above for interior painting is very desirable as our paint work has to be washed frequently and is wearing off.

Very respectfully yours.

CHARLES H. TOWNSEND,  
Director, New York Aquarium.

T. P. SULLIVAN, R. S. DOULL, JOHN J. COLLINS, JOHN DIEMER, JOHN D. GUNTHER, JOHN MULVANEY, Committee on Finance.

June 17, 1908.

Hon. THOS. R. FARRELL, Commissioner, Public Works, Brooklyn:

Dear Sir—I return herewith communication addressed to Borough President Coler by James F. Magee, Chief Clerk of Supreme Court, in which request is made to have the Justices' chambers in the Kings County Court Building restored to their original condition, as before the fire, as soon as possible, so that the inconvenience and expense of hiring chambers outside of the Court House be avoided.

Upon receipt of this communication I caused an investigation to be made of that portion of the County Court House Building referred to, and found that to put the premises in proper condition the sum of \$15,000 will be required, this expenditure to cover:

New roof, the beams of which are in a badly charred state;  
Installation of new electric fixtures, wiring and call bell system;  
New metal ceilings, plaster ceilings and side walls, and painting and decorating;  
New linoleum, shades, carpets, etc.;  
Rebind and repair law books where required;  
General carpentry work, including repairs to doors, windows, floors, etc., and all other necessary repairs.

I will, therefore, thank you to have prepared a resolution asking for the above-named sum, so that this work may be commenced at the earliest possible date.

Yours truly,

JOSEPH M. LAWRENCE,  
Superintendent of Bureau of Public Buildings and Offices.

Which was laid over.

Reports of Committee on Laws and Legislation—

No. 578.

The Committee on Laws and Legislation, to which was referred on April 7, 1908 (Minutes, page 100), the annexed ordinance regulating the sale, possession and use of deadly weapons, respectfully

#### REPORTS:

That the ordinance as proposed has received careful and earnest attention, and argument has been heard for and against it. In its present shape it appears too drastic, sweeping and confused, while a strong objection is that it would infallibly operate in restraint of trade, while the traffic in such weapons as are reprobated might be carried on freely in neighboring States, with no effectual remedy for the evil. It therefore recommends that the said ordinance be placed on file.

AN ORDINANCE to amend section 434 of the Code of Ordinances of The City of New York and to provide for the purchase, sale, carrying and registration of deadly weapons.

Be it enacted and ordained by the Board of Aldermen of The City of New York.

Sec. 2. That it shall be unlawful for any person, firm or corporation to purchase, borrow, or receive by barter or gift any pistol, revolver, derringer, bowie knife, dirk or other deadly weapon of like character without a license, but such license shall not authorize the carrying thereof.

Seventh—Whenever any person, firm or corporation shall purchase or receive, gift or barter as herein provided, such person, firm or corporation shall forthwith and within five days register with the Department of Police and with the City Clerk, as hereinbefore provided for, as in the case of ownership of such weapons.

Sec. 6. Every person on compliance with the aforesaid requirement shall receive a license under the corporate seal, signed by the Mayor of The City of New York and countersigned by the City Clerk, which shall authorize the person therein named to purchase, own or keep one or more pistols, revolvers, derringers, bowie knives, dirks or other deadly weapons of like character at the place designated on the license, which license shall be kept in the possession of the person so licensed, ready to be exhibited when required by the proper authorities.

Sec. 9. This ordinance shall not apply to Sheriffs, Coroners, Constables, Police-men or other peace officers while engaged in the discharge of their official duties, or to any person summoned by any such officers to assist in making an arrest, or preserving the peace, while such person so summoned is engaged in assisting the officers, or to persons not domiciled in The City of New York. Any person violating any of the provisions of the ordinance, in addition to suffering the revocation of the license, shall be subject to a penalty of not more than two hundred dollars (\$200).

Sec. 10. The Mayor of The City of New York shall, from time to time, grant licenses for selling, loaning, bartering or giving away pistols, revolvers, derringers, bowie knives, dirks or other deadly weapons of like character to persons, firms or corporations who shall apply to him in writing therefor, and in case of individuals, shall furnish evidence satisfying him of their good character, in cases of corporations shall furnish evidence satisfying him of the good character of its officers. #### MOTIONS, ORDINANCES AND RESOLUTIONS.

No. 986.

By the President—

The Board of Aldermen of The City of New York has learned with profound sorrow of the death of Grover Cleveland, the twenty-second President of the United States of America.

From the time of his election to the office of Mayor of the City of Buffalo every official act was characterized by an unselfish devotion to public duty.

His rugged and manly honesty of purpose, his fearlessness in discharging his full duty as he saw it while Governor of the State of New York distinguished him for selection to the Chief Magistracy of the United States. His first term in that high office marked the completion of a century of constitutional government in this nation.

Elevated twice to that exalted position, his administration of public affairs was characterized by unswerving integrity and a broad and comprehensive grasp of the foreign and domestic policies of our national government.

The life and achievements of such a man, who rose from humble station to the highest position in the gift of the nation, and whose firm and resolute conception of official duty was epitomized in his own and courageous and patriotic declaration: "To protect the rights of the people, to answer their needs as they arise, and to expend for their benefit the money drawn from them by taxation," should ever be a stimulus and an example to the youth of this country.

To-day a whole people mourns the loss of Grover Cleveland. Citizens of every political faith unite in paying tribute to his character and achievements.

The Board of Aldermen of The City of New York hereby spreads upon the minutes its expression of profound sorrow for the death of this distinguished citizen, and extends to his bereaved family its deepest sympathy for their irreparable loss.

Resolved, That a copy of this Memorial, suitably engrossed and properly authenticated, be transmitted to the family of the deceased President.

Which was unanimously adopted by a rising vote.

The matter was referred to the President.

A letter was presented from B. J. Corcoran, No. 171 East One Hundred and Eleventh street, Manhattan, requesting that he be marked "qualified" on the list for Janitor-Engineer and Stationary Engineer, on the ground that prior to the holding of the physical examination he had furnished a United States license as engineer of ocean steamers, dated March 22, 1884, and also a first class license issued April 13, 1898, by the Police Department; and stating that as he had not been employed as an engineer since 1899, it was impossible for his certificate to be of more recent date as such licenses could not be renewed unless the persons applying for the same were employed at the time in that capacity. The request was granted.

A communication was presented from Messrs. Leventritt, Cook & Nathan, Attorneys, No. 111 Broadway, Manhattan, requesting that the name of Miss Katherine Frankel, No. 321 East Tenth street, Manhattan, be placed upon a preferred list of Stenographer and Typewriter. After careful consideration of the matter, the Secretary was directed to place all of the said names upon a preferred list of Searcher, in accordance with section 1543 of the Charter.

The request of Joseph Smith, No. 157 East Seventy-fifth street, Manhattan, that his name be restored to the eligible list of Chainman and Rodman, was granted upon his statement that his resignation from the office of the President of the Borough of Richmond on September 7, 1907, before the completion of his probationary period, had been due to the fact that he desired to return to college and complete his course.

The request of John J. Rush, No. 324 Franklin avenue, Brooklyn, that his name be restored to the list of Inspector of Tenements, was denied for lack of power, it appearing from the records that he had been dismissed from the Tenement House Department at the completion of his probationary period, for unsatisfactory services.

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay immediately cash or a certified check drawn to the order of the Comptroller of The City of New York, and must also, at the time of the sale, give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of Fifty Dollars the sum of fifty dollars shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City of New York to the cost of completing any other work required under the contract, but unfinished at the expiration of the contract period.

All the materials of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the sidewalk and curb in front of said buildings extending within the described area and down to the level of the cellar bottom, shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises except old mortar or plaster only which may be left, but not higher at any point than two feet below the curb opposite that point; also the foundation walls of all classes shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed in compliance with the direction of the Bureau of Sewers, Borough of Manhattan, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permits for all openings in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any portion thereof within sixty days from the day of the sale, will work forfeiture of ownership of such buildings, appurtenances or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidders' assent to the above conditions being understood to be implied by the act of bidding, and the City of New York will, without notice to the purchaser, cause the same to be removed and the costs and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner and must be completed within sixty days from the day of sale, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the personal property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of the said buildings.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furnishings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam-holes, etc., ripped up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs of the adjacent buildings shall be properly flashed and painted and made water tight where they have been disturbed by the operation of the contractor.

The Public Service Commission for the First District reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids.

### NOTICE TO CONTRACTORS.

#### GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
