The President laid before the Board the following communication from the Comptroller:

No. 670.

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE,
May 28, 1902.

To the Honorable the Board of Aldermen:

GENTLEMEN—Section 900 of the amended Greater New York Charter provides as follows:

"It shall be the duty of the Comptroller of said city to prepare and submit to the Board of Aldermen, at least four weeks before its annual meeting in each and every year, for the purpose of imposing the annual taxes, a statement setting forth the amounts by law authorized to be raised by tax in that year, on account of the corporation of The City of New York, as hereby constituted, or for city purposes within said city as created by this act, and purposes for which said city is liable, and on account of the counties of New York, Kings, Queens and Richmond, and also an estimate of the probable amount of receipts into the City Treasury during the then current year from all the sources of revenue of the general funds, including surplus revenue from the sinking funds of the Mayor, Aldermen and Commonalty of The City of New York, and of any of the municipal and public corporations, or parts of municipal and public corporations, by this act consolidated with the municipal corporation known as the Mayor, Aldermen and Commonalty of The City of New York, other than the surplus of revenues of any such sinking funds for the payment of interest on the City Debt of the municipal corporation known as the Mayor, Aldermen and Commonalty of The City of New York, or the like debts of the municipal and public corporations by this act consolidated as aforesaid, and the said Board of Aldermen is hereby authorized and directed to deduct the total amount of such estimated receipts from the aggregate amount of all the various sums which, by law, they are required to order and cause to be raised by tax in said year, for the purposes aforesaid, and to cause to be raised by tax only the balance of such aggregate amount after making such deductions."

Section 902 of the amended Greater New York Charter provides as follows: "In the statement submitted by the Comptroller to the Board of Aldermen, as above provided in this chapter, he shall each year include and state specifically the sum or sums necessary to be raised to pay during the current year the salaries of the county officers and the other county charges and expenses in the counties of New York, Kings, Queens and Richmond, respectively, and the Board of Aldermen is hereby authorized and directed to levy upon and collect from the taxable property within each of said counties, respectively, the sum or sums so necessary to be raised to pay the salaries of county officers and other county charges and expenses of such county; to the end that each of said counties shall ultimately bear and pay all expenses necessary to be incurred within the county for county, as distinguished from city purposes."

FOR CHARITABLE INSTITUTIONS.

All such appropriations being made subject to the following con-
ditions:

1. The accounts of all charitable institutions receiving public moneys shall be so kept as to show the receipts of and disbursements from public moneys separately from the other funds of such institutions, and all institutions shall keep an exact record, to be corrected from time to time, in a form to be approved by the Comptroller, showing the addresses of the parents, guardians, or nearest relatives of inmates, and other information designed to facilitate inquiry into their financial inability to provide for such inmates.

2. Moneys received from the City Treasury shall be used by such institutions only for recurring expenses of "care, support and maintenance."

3. All institutions receiving public moneys shall be at all reasonable times open to the visitation and inspection of duly authorized representatives of the Department of Public Charities and the Department of Finance.

4. Upon it appearing to the satisfaction of the Comptroller that it would be to the public interests to withhold payments to any charitable institution for which an appropriation has been made, he shall give written notice to such institution of his intention to apply to the Board of Estimate and Apportionment for authority to so withhold such payments, and upon the determination of said Board that such payments should terminate, the right of any such institution to receive payment for services rendered thereafter shall thereupon cease.

5. Except where appropriations are made in bulk and not upon a per capita basis, no payment shall be made for inmates of private charitable institutions unless the same shall have been accepted by the proper Commissioner of the Department of Public Charities as a proper charge against the City, and, except in emergency cases, Commissioners of Charities shall not accept as proper charges against the City inmates capable of paying for their own support, or for whose care adequate provision can be made in public institutions. The City shall not become liable for any payment to a charitable institution in excess of the appropriation which may have been made to such institution, notwithstanding any per capita rates of payment that may have been fixed for the inmates thereof.

6. All Institutions receiving money from the City are required to state specifically the amount so received, as, from the City Treasury, in their printed annual reports.

Washburne of April 23, 1902, requesting information concerning the Frost burial plot at Golden's Bridge, N. Y.; also that the Secretary had communicated with Mr. Washburne on May 7, 1902, relative to the matter.

On motion of Commissioner Windolph, the action of the President and Secretary was approved.

The following communication was received from the President:

May 13, 1902.

To the Aqueduct Commissioners:

GENTLEMEN—I respectfully report that, in accordance with your direction of May 6, 1902, I addressed a communication to the Commissioner of the Department of Water Supply, Gas and Electricity in the following words:

"NEW YORK, May 13, 1902.

"Hon. J. HAMPDEN DOUGHERTY, Commissioner of the Department of Water Supply, Gas and Electricity:

"SIR—The construction of the overflow and blow-off sewer, water pipes and their appurtenances, in Two Hundred and Fourth street (Potter Place), in connection with the Jerome Park Reservoir of the New Croton Aqueduct, in the Twenty-fourth Ward, Borough of The Bronx, of The City of New York, under the Kelly & Kelley contract, is completed, the final estimate for this work having been accepted.

"I, therefore, pursuant to a resolution adopted by the Aqueduct Commissioners on May 6, 1902, (a copy of which is herewith inclosed), hereby formally transfer to the Department of Water Supply, Gas and Electricity the overflow and blow-off sewer, water pipes and their appurtenances, in said Two Hundred and Fourth street (Potter Place), in connection with the Jerome Park Reservoir of the New Croton Aqueduct, in the Twenty-fourth Ward, Borough of The Bronx of the City of New York; and I also deliver to you herewith the detail plan and profile of the said sewer, water pipes and their appurtenances as constructed and accepted by the Aqueduct Commissioners.

"Respectfully,

"WM. H. TEN EYCK, President."

Respectfully,

WM. H. TEN EYCK, President.

Which was ordered spread on the minutes and filed.

The President presented the following communications received from Messrs. Coleman, Breuchaud & Coleman:

CROTON-ON-HUDSON, N. Y., April 2, 1902.

Hon. WILLIAM H. TEN EYCK, President, Aqueduct Commissioners, No. 280 Broadway, New York City:

DEAR SIR—Referring to your conversation with our Mr. Breuchaud yesterday concerning the possibility of the taking down and removal of a portion of the core wall masonry directly south of the main dam section, we would say that our understanding regarding the payment for this work is that the excavation and disposal of the

said masonry is covered by our contract under the clause for Rock Excavation, page 20 of the original print of the specifications, and also under item "f," page 39 of the same.

Very respectfully yours,

COLEMAN, BREUCHAUD & COLEMAN.

CROTON-ON-HUDSON, N. Y., April 28, 1902.

Hon. WILLIAM H. TEN EYCK, President, Aqueduct Commissioners, New York City:

DEAR SIR—Referring to our letter which we wrote you on the 2d instant, in reference to the payment for an item in the proposed change of plan of the main masonry dam in our contract with The City of New York, we beg to say further, in relation to said change of plan, that our construction and understanding of said contract, as to "the quantities of the various classes of work to be done and materials to be furnished under the agreement" is governed by paragraph D, page 12 of the contract and specifications (second edition).

Also as stated in paragraph F, section 3, page 15 (second edition).

"All work — — — must be built in accordance with the plans and directions, which shall be given by him (the Engineer) from time to time, subject to such modifications and additions as said Engineer shall deem necessary during the prosecution of the work."

The paragraphs referred to above, as we accept and interpret their meaning, empowers the Aqueduct Commissioners of The City of New York and their Chief Engineer to change the plans of the work from time to time and to make such modifications and additions as they deem necessary, paying for the additional quantities of work done at the prices named in our contract, for such items as may be increased.

This, with a reasonable and proportionate allowance of time to complete such additional work, is quite satisfactory to us and we will accordingly proceed with the work of the extension of the stone dam, which is covered by the terms of our contract.

Respectfully yours,

COLEMAN, BREUCHAUD & COLEMAN.

On motion of Commissioner Windolph the same were ordered filed.

The President verbally reported that—under date of May 9, 1902, he had requested the Municipal Civil Service Commission to place the position of Secretary to the President in Schedule A, exempt class.

On motion of Commissioner Windolph, the action of the President was approved.

The following communications were received from the Acting Chief Engineer:

REPORT No. 365.

NEW YORK, May 13, 1902.

To the Aqueduct Commissioners:

GENTLEMEN—During the past three years it has been your custom to sell at public auction the grass on lands acquired by The City of New York under your control, and I therefore recommend that an auction sale be held about June 3, 1902. There having been no report received as to the sale of grass on the New Croton Dam Division, I have only submitted to you that which is to be sold on the Croton River Division.

I transmit herewith a form of poster and advertisement giving the parcel numbers upon which the grass is to be sold, with the upset price; also the terms of sale.

Respectfully,

F. S. COOK, Acting Chief Engineer.

REPORT No. 370.

NEW YORK, May 13, 1902.

To the Aqueduct Commissioners:

GENTLEMEN—There are a number of parcels on the New Croton Dam Division upon which the grass can be sold at auction; the numbers are as follows: 70, 78, 100, 150, 169 and 160. It might be arranged to sell the grass on these parcels at the same auction as that on the Croton River Division reported on previously.

Very respectfully,

F. S. COOK, Acting Chief Engineer.

On motion of Commissioner Windolph, the President and Secretary were directed to take the necessary steps to perfect the sale at public auction of the grass above mentioned.

The following communication was also received from the Acting Chief Engineer:

REPORT No. 366.

NEW YORK, May 12, 1902.

To the Aqueduct Commissioners:

GENTLEMEN—Mr. Hill, before leaving, requested me to bring to your attention the question of the unfinished condition of the blow-off vaults at Shaft No. 24, Harlem River Syphon. He was desirous last fall of completing this structure, but owing to the approach of winter, or the frosty weather, it was necessary to abandon the work until spring. The completion of this blow-off vault and its superstructure will doubtless cost about \$4,700. He requested me to ask permission to procure bids for the construction and completion of said work so that the work may be finished during the summer.

Most respectfully yours,

F. S. COOK, Acting Chief Engineer.

Commissioner Windolph moved that the authority asked for by the Acting Chief Engineer in the above report be granted.

Which was carried by the following vote:

Affirmative—Commissioners Ten Eyck, Ryan, Power and Windolph—4.

The following communication was also received from the Acting Chief Engineer:

REPORT No. 367.

NEW YORK, May 12, 1902.

To the Aqueduct Commissioners:

GENTLEMEN—In accordance with authority granted to the Chief Engineer on April 8, 1902, to ask proposals for drilling in the basin at Jerome Park Reservoir to ascertain the depth of rock, I most respectfully report the following bids:

American Diamond Rock Drill Company—\$6.75 per linear foot, measured from the surface of existing ground to a depth of 15 feet or more;

Phillips & Worthington—\$7 per linear foot, measured from the surface of existing ground to a depth of 15 feet or more;

A. W. Drake Drilling Company—\$7.80 per linear foot, measured from the surface of existing ground to a depth of 15 feet or more.

The above bids are based on 15 holes or more at a depth of 15 feet minimum each, making a total of 225 feet. At the lowest price of \$6.75 per linear foot it would amount to \$1,518.75. I would therefore recommend that it be awarded to the American Diamond Rock Drill Company.

Very respectfully,

F. S. COOK, Acting Chief Engineer.

Commissioner Windolph moved that the work above set forth be given to the American Diamond Rock Drill Company, at the price bid by said company.

Which was carried by the following vote:

Affirmative—Commissioners Ten Eyck, Ryan, Power and Windolph—4.

The following communication was also received from the Acting Chief Engineer:

REPORT No. 368.

NEW YORK, May 12, 1902.

To the Aqueduct Commissioners:

GENTLEMEN—Mr. Hill, before leaving, requested me to bring to your attention the question of an amount of split stone masonry required on the New Croton Dam Division in the building of road culverts. This stone is to be used for the covering of culverts in lieu of concrete, at \$6 per yard. This quantity of stone includes some that has already been furnished by the Contractors and used in the work. Mr. Hill wished me to get authority and approval of the use of this amount of stone, owing to the fact that there is no item in the contract for payment; I therefore ask for said authority.

Most respectfully yours,

F. S. COOK, Acting Chief Engineer.

Commissioner Power moved that the above report (No. 368) be approved, and the authority therein requested granted.

Which was carried by the following vote:

Affirmative—Commissioners Ten Eyck, Ryan, Power and Windolph—4.

The following communication was also received from the Acting Chief Engineer: REPORT No. 369.

NEW YORK, May 13, 1902.

To the Aqueduct Commissioners:

GENTLEMEN—On the Croton River Division there are a number of fences that need repair, in order to keep the cattle from getting on the City's land. The cost of repairing these fences will not exceed \$100.

I would most respectfully request authority for repairing these fences, as it should be done immediately.

Very respectfully,

F. S. COOK, Acting Chief Engineer.

Which was adopted by the following vote:

Commissioners Ten Eyck, Ryan, Power and Windolph—4.

By Commissioner Power—

Whereas, On April 1, 1902, the Aqueduct Commissioners adopted a resolution authorizing the removal of certain bodies and tombstones from the Katonah Cemetery, which cemetery was included in lands acquired under chapter 490 of the Laws of 1883 and the amendments thereto, for aqueduct purposes, and the removal of the bodies and tombstones as provided for in said resolution of April 1, 1902, being the cause of many inquiries and suggestions as to when and under what conditions other bodies, tombstones, etc., are to be removed; therefore be it

Resolved, That the Aqueduct Commissioners will not make or order any further removal of bodies or tombstones, etc., from any of the cemeteries or private burying grounds in which they are now interred in lands acquired under chapter 490 of the Laws of 1883 of the State of New York, and the amendments thereto, until after the first day of October, 1902; and that it is the policy of the Aqueduct Commission that hereafter removals of bodies to other cemeteries or private burying grounds will be made for a distance of not more than ten miles; and that the friends or relatives of deceased persons whose bodies are interred in lands acquired for aqueduct purposes shall be allowed to make such removals at a fair and reasonable price, to be agreed upon; and further

Resolved, That the removal and resetting of all monuments, corner-stones, railings, fences, etc., within the distance of ten miles, be made by this Commission under a general contract, and that the Acting Chief Engineer be directed to advertise in the local papers the towns or places affected, or in some other public manner make known the purport of the foregoing.

The grade in each case will be the same as it is at present end of the filling, and will be filled at ten feet above Mean Low Water at its outshore end, and will be placed so that the foot of the bank on 1 to 1 slopes will not extend outside of the outside lines of the streets.

after receipt of notification from the Engineer that the work or any part of it is ready to be begun, and shall be carried on to the satisfaction of the Engineer.

If at any time during the progress of the work it shall be deemed necessary to order the suspension of the whole or any part of the filling, the purchaser shall immediately stop and not commence the filling until ordered so to do.

The privilege to fill in the said described area will be sold to the highest bidder, but the Commissioner reserves the right to reject all bids if deemed for the interest of the City so to do. One-half the purchase price for such right or privilege must be paid at the time of award of privilege, and the remaining half when one-half of the work of filling in has been completed.

In case the purchaser at any time does not proceed with the work of filling in to the satisfaction of the Commissioner of Docks, the said Commissioner will at once revoke the privilege of filling in and have the remainder of the filling in done by other parties in such a way as he deems proper.

The purchaser will be required to furnish a bond in double the amount of the purchase price as security for the satisfactory performance of the said work, in accordance with the terms and conditions hereof.

Dated, THE CITY OF NEW YORK, June 6, 1902.
McDOUGALL HAWKES,
Commissioner of Docks.

DEPARTMENT OF DOCKS AND FERRIES, PIER "A," FOOT OF BATTERY PLACE, BOROUGH OF MANHATTAN, THE CITY OF NEW YORK.

SEALED BIDS OR ESTIMATES WILL BE received by the Commissioner of Docks at the above office until 12 o'clock m., on

FRIDAY, JUNE 20, 1902.

until 12 o'clock, noon, for the right to dump and fill in behind the crib bulkhead recently built along Lexington avenue and One Hundred and Thirty-second street, on the westerly side of the Harlem river, between said crib work and the upland banks within the lines of said streets.

Conditions of the right to dump and fill in on westerly side of Harlem river, between Lexington avenue and One Hundred and Thirty-second street, in the Borough of Manhattan.

The filling will be put in to a height of about five feet or less above mean high water mark over the above described area.

The privilege to fill in the said described area will be sold to the highest bidder, but the Commissioner reserves the right to reject all bids if deemed for the interest of the City so to do. One-half the purchase price for such right or privilege must be paid at the time of award of privilege, and the remaining half when one-half of the work of filling in has been completed.

The total estimated quantity to be filled in is about 16,500 cubic yards, more or less. This total estimated quantity is approximate only and is estimated without allowance for sinkage or settlement below the mud line. The Department is not bound in any way by such estimate and bidders must satisfy themselves of the actual quantity required to fill in the above described area by examination of the premises or such other means as they may prefer. The intention of the Department being to fill in the whole of the said premises behind the crib bulkhead to the westerly line of Lexington avenue and to the southerly line of One Hundred and Thirty-second street, and no allowance will be made to the purchaser from the purchase money on account of any discrepancy which may be found between the above estimated quantity and the actual amount of filling required. The purchaser will be required to place the filling in accordance with the specifications:

All the filling shall be placed directly in the rear of the crib and carried from the crib toward the shore until the bank of same has been carried out at the finished grade for a distance of about 40 feet from the face of the crib, at which time it so directed by the Engineer, the filling may be commenced from the shore toward the crib.

Owing to the fact that a portion of the crib work has already shown a movement, and that it is likely that it will settle further to some extent, the work of filling in will have to be conducted with much care, and for that reason the purchaser will estimate upon being delayed on the work, which it is not expected will be carried on continuously to completion from the time it is commenced.

All material must be dumped and filled in only in such manner, at such points and in such order of procedure and at such times and seasons as may from time to time be directed and the work of filling in may be entirely suspended for short periods of time as may be directed. The purchaser shall have no claim for damage or for any allowance from the purchase money on account of such suspension of the work.

All directions shall be given by the Engineer, and wherever the word Engineer is used in these specifications it refers to and designates the Engineer-in-Chief of the Department of Docks and Ferries, or such officer or employee as may be designated by him.

No filling shall be placed directly on the top of the crib until all the remainder of the filling is done, unless specially so directed by the Engineer.

All the filling except as otherwise specified herein shall be of ashes, cellar dirt, broken stone, etc., entirely free from garbage or any other organic matter objectionable in the opinion of the Engineer.

No piece of rip rap stone coming directly on or against the crib work shall be greater than about three feet in its largest dimension and must be deposited carefully in such manner as will not injure the crib work.

At any section of the crib the filling shall be brought up level with the under side of the backing log of the crib at such section and no higher unless otherwise directed.

The filling shall be commenced within five days after the date of the receipt of a notification from the Engineer that the work or any part of it is ready to be begun and shall be completed on or before November 1, 1902. If at any time during the progress of the work it shall be deemed necessary to order the suspension of the whole or any part of the filling, the time for completing said filling shall be extended so much as it may have been delayed by such suspension.

The purchaser shall, during the work of filling in and at all times until the completion thereof, take all necessary precautions and place proper guards for the prevention of accidents, and put up and maintain at night sufficient lights, and he shall indemnify and save harmless The City of New York from all damages and costs to which it may be put by reason of injury to the person or property of another resulting from negligence or carelessness in the performance of the work or guarding the same.

In case the purchaser at any time does not proceed with the work of filling in to the satisfaction of the Commissioner of Docks, the said Commissioner will at once terminate the privilege of filling in and proceed to have the remainder of the filling in done by other parties in such way and manner as he deems proper.

The purchaser will be required to furnish a bond in double the amount of the purchase price, as security for the satisfactory performance of the said work, in accordance with the terms and conditions hereof.

Dated, THE CITY OF NEW YORK, June 6, 1902.

Each bid or estimate shall contain the name and place of residence of the person making the same, the names of all persons interested with him therein, and if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the board of aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The contracts must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of The City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by The City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the department for which the work is to be done.
