MESSAGES FROM THE MAYOR.

The President laid before the Board the following communication from his Honor the Mayor:

No. 2441.

City of New York—Office of the Mayor, }
November 28, 1905.

To the Honorable the Board of Aldermen:

Gentlemen—I return herewith, without my approval, resolution passed by your Honorable Board November 14, 1905, as follows:

"Resolution permitting use of Aldermanic Chamber by Spanish War Veterans." I base my refusal to approve this resolution upon the ground that permission to use a room in the City Hall on the first Sunday in each month would obviously necessitate the opening of the building on one Sunday out of four. This would entail a great hardship upon the employees of the building, who have the right to regard their Sundays as days of rest, and who should not be compelled to remain on duty for this purpose alone.

Furthermore, the public offices of the City are maintained solely for the transaction of public business, and I doubt whether the Board of Aldermen has the right to divert them to any other use.

In any event it would be most unwise, in my judgment, to establish a precedent upon which further requests could be predicated by associations of like character, and which might lead to a general use of City buildings as meeting places for various societies and associations.

Respectfully,

GEO. B. McCLELLAN, Mayor.

Resolved, That permission be and the same hereby is granted to the Joint City Board of the United Spanish War Veterans in and for The City of New York to meet in the Aldermanic Chamber in the City Hall of this City on the first Sunday of each month, subject to the approval of the President of the Borough of Manhattan.

Which was laid over, ordered to be published in the CITY RECORD, and printed in full in the minutes.

COMMUNICATIONS FROM CITY, COUNTY AND BOROUGH OFFICERS.

The President laid before the Board the following communications from the Board of Estimate and Apportionment, transmitting ordinances:

No. 2465.

Department of Finance—City of New York, }
November 27, 1905.

Hon. CHARLES V. FURNES, President, Board of Aldermen:

Dear Sir—I send you herewith certified copy of resolution adopted by the Board of Estimate and Apportionment November 24, 1905, authorizing the issue of Corporate Stock to an amount not exceeding \$25,000, for the purpose of providing means for constructing, improving, permanently bettering and equipping buildings under the jurisdiction of the Department of Correction; together with copies of communications from the Commissioner and Supervising Inspector of the Department of Correction, and report of the Engineer of the Department of Finance, all relative thereto.

I also inclose form of ordinance for adoption by the Board of Aldermen to indicate its concurrence therein.

Very truly yours,

J. W. STEVENSON, Deputy Comptroller.

Department of Correction of The City of New York, }
Commissioner's Office, No. 148 East Twentieth Street,
New York, October 31, 1905.

Hon. GEORGE B. McCLELLAN, Mayor, and Chairman of the Board of Estimate and Apportionment:

Dear Sir—I beg to inclose herewith copy of a report from Mr. Charles Jammer, Inspector, of this Department, recommending the putting in thorough order of all cell doors, locks, locking devices, etc., at the Penitentiary, in order to provide for the rapid unlocking of the cells in case of fire.

I have approved the suggestion of the Inspector, and would respectfully ask your Honorable Board to authorize the issue of Corporate Stock of The City of New York to the amount of twenty-five thousand dollars (\$25,000) to permit me to have this work done at the New York County Penitentiary, Blackwell's Island.

Very respectfully yours,

(Signed) FRANCIS J. LANTRY, Commissioner.

A true copy.

John B. Fitzgerald, Secretary.

New York, October 30, 1905.

Hon. FRANCIS J. LANTRY, Commissioner of Correction, No. 148 East Twentieth Street, City:

Dear Sir—Replying to your letter of October 10, 1905, requesting me to make a tour of the cells at the penitentiary, Blackwell's Island, and report to you the present condition of the locking device, locks, etc., would say that after a careful examination of the old locking device on the cells of the old prison, beg to submit the following as my report, viz:

North wing, old prison, four tiers high, total of two hundred and fifty-six cells (256).

West wing, old prison, four tiers high, total of two hundred and forty cells (240).

South wing, old prison, female, four tiers high, total of two hundred and forty cells (240).

Making a grand total of seven hundred and thirty-six cells (736).

In my examination of the locks of the above cells I found in a great many instances that when the cells were locked the locks could be opened again without the aid of a key. This exists principally in the north wing on the east side, on all four tiers, but the general condition of the locks all the way through are pretty well worn out from the constant use they have had since the inception of this institution in 1840; the tumblers of these locks are so worn away that it would be useless to expend any money trying to repair them, and further, it appears to me that in case of fire the present locking system would be a menace to the inmates as well as the keepers in charge. Each individual cell would have to be unlocked separately and in their present wornout condition may not respond to the key as promptly as the conditions may demand; they are just as liable to refuse unlocking as they would locking, and continuous use will not improve their present imperfection.

I most respectfully submit several suggestions which, in my judgment, might be well to consider, viz:

Remove all the locks from the cells of the north and west wings of the old prison building and replace same with new non-picking tumbler locks, altering the present lever system, fitting the new locks to same so that all the cells on each tier can be opened at once by means of the lever, also so arranged that any individual cell may be dead locked or opened by a master key; those in charge would be able to turn out, almost instantly, all the prisoners in the entire building in case of fire. The number of cells in these two wings are 496, and this change can be made at a cost not exceeding \$30 a cell, using the present cell doors.

You will note that I make no mention of the south wing which is occupied by female prisoners; there are 240 cells in this wing and but half of them are in use, and the locks are in fairly good shape at the present time.

Another suggestion I offer is this, renew the entire iron cell doors and locks in the three wings, only using that part of the present lever system which is practical; in this way the greater portion of the work of building the doors and the locking device could be done at the factory, and shipped to the ground ready to put up, thereby avoiding the unsafe condition of the prisoners while the work of overhauling the locking device is in progress, and by the time the old locks are removed and the necessary patching to fit the new locks is made it will cost almost as much as entire new doors, when you figure that at least \$12 a ton can be obtained for the old doors, etc.

With the practical and varied experience I gained while supervising the construction of the locking device in the new City Prison, just recently completed, I feel confident that the suggestions herein offered would, if carried out accordingly, put the penitentiary cells in as good and practical operating condition for the safe keeping of prisoners, as far as the locking device is concerned, and the rapid unlocking of cells in case of fire as any institution of its kind in the United States.

I respectfully recommend that an appropriation be asked for to the amount of \$25,000 to install this work.

Respectfully submitted,

(Signed) CHAS. JAMMER, Supervising Inspector.

November 8, 1905.

Hon. EDWARD M. GROUT, Comptroller:

Sir—Hon. Francis J. Lantry, Commissioner, Department of Correction, in communication under date of October 31, 1905, requests the Board of Estimate and Apportionment to authorize the issue of Corporate Stock to the amount of \$25,000, to provide for the putting in thorough order all cell doors, locks, locking devices, etc., at the Penitentiary, Blackwell's Island.

I would report that the Supervising Inspector, in his report to the Commissioner, after stating the condition of the present cell doors and locking system, submit two suggestions for the Commissioner's consideration.

The first plan suggested by Mr. Jamer, Supervising Inspector, is to equip two wings, 496 cells, with new locks, and altering the present lever system to fit these locks by using the present doors would cost about \$30 per cell, \$15,000.

Mr. Jamer's alternative suggestion calls for a complete installation of new doors, new locks and altering the present lever system to fit new locks for the entire 736 new cells in the three wings comprising the old Penitentiary.

From an examination that I have had made of the premises, I am of the opinion that this new installation is necessary and is justified, as the present doors and locks have been in use since 1840, when the Penitentiary was built.

The work being necessary, I think the Board of Estimate and Apportionment may properly authorize the Comptroller, pursuant to section 47 of the Amended Greater New York Charter, as amended by chapter 409 of the Laws of 1904, to issue Corporate Stock to the amount of \$25,000, for the purpose of improving and permanently bettering the New York County Penitentiary, Blackwell's Island, by the installation of new doors and new locking system for the entire cells in the three wings comprising the old Penitentiary.

Respectfully,
(Signed) EUG. E. McLEAN, Engineer.

AN ORDINANCE providing for an issue of Corporate Stock in the sum of twenty-five thousand dollars (\$25,000) for the purpose of providing means for constructing, improving, permanently bettering and equipping buildings under the jurisdiction of the Department of Correction.

Be it Ordained by the Board of Aldermen of The City of New York:

Section 1. The Board of Aldermen hereby approves of and concurs in the following resolution adopted by the Board of Estimate and Apportionment November 24, 1905, and authorizes the Comptroller to issue Corporate Stock of The City of New York to the amount and for the purpose therein specified.

"Resolved, That, pursuant to the provisions of section 47 of the Greater New York Charter, as amended by chapter 409 of the Laws of 1904, the Board of Estimate and Apportionment hereby approves of the issue of Corporate Stock of The City of New York to an amount not exceeding twenty-five thousand dollars (\$25,000) for the purpose of providing means for constructing, improving, permanently bettering and equipping buildings under the jurisdiction of the Department of Correction, and that when authority therefor shall have been obtained from the Board of Aldermen the Comptroller is authorized to issue Corporate Stock of The City of New York, in the manner provided by section 169 of the Greater New York Charter, to an amount not exceeding twenty-five thousand dollars (\$25,000), the proceeds whereof to be applied to the purposes aforesaid."

Hon. CHARLES V. FORNES, President, Board of Aldermen:

Dear Sir—I send you herewith certified copy of a resolution adopted by the Board of Estimate and Apportionment November 24, 1905, approving of the issue of Corporate Stock to the amount of \$264,000 for the purpose of providing means for the improvement of Seventh avenue, between One Hundred and Tenth and One Hundred and Fifty-third streets, Borough of Manhattan, together with copy of a report of the Engineer of the Department of Finance relative thereto.

I also inclose form of ordinance for adoption by the Board of Aldermen to indicate its concurrence therein.

Yours very truly,
J. W. STEVENSON, Deputy Comptroller.

October 16, 1905.

Hon. EDWARD M. GROUT, Comptroller:

Sir—In reference to the accompanying application of the Hon. John F. Ahearn, President of the Borough of Manhattan, for an appropriation of \$264,000 Corporate Stock of The City of New York, for the improvement of Seventh avenue, between One Hundred and Tenth and One Hundred and Fifty-third streets, I have the honor to report the following:

It is proposed to repave this avenue with asphalt blocks on a concrete foundation, arranging for tree planting spaces in the centre of the carriageway on each block to feet wide by approximately 200 feet long, leaving two sidewalks of 35 feet each, and two carriageways of 35 feet each—the planting spaces to be planted with trees, sodded, curbed and inclosed with an iron railing. The cost of these tree planting spaces, or parkways, is approximately \$53,752, and the cost of repaving the avenue with asphalt blocks on a concrete foundation, resetting and renewing the curb when necessary, is \$209,838. The avenue is at present paved with telford macadam pavement, which is difficult to maintain in good condition, owing to the character and amount of traffic on this avenue, which causes the pavement to be muddy in wet weather and very dusty in dry weather.

In my judgment, the proposed improvement is a desirable one, and I would therefore recommend that the Board of Estimate and Apportionment authorize the Comptroller, pursuant to section 47 of the Greater New York Charter, as amended by chapter 409 of the Laws of 1904, to issue Corporate Stock to the amount of \$264,000 for the improvement of Seventh avenue, between One Hundred and Tenth and One Hundred and Fifty-third streets.

Respectfully,
(Signed) EUG. E. McLEAN, Engineer.

Be it Ordained by the Board of Aldermen of The City of New York as follows:

Section 1. The Board of Aldermen hereby approves of and concurs in the following resolution adopted by the Board of Estimate and Apportionment November 24, 1905, and authorizes the Comptroller to issue Corporate Stock of The City of New York to the amount and for the purposes therein specified:

"Resolved, That, pursuant to the provisions of section 47 of the Greater New York Charter, as amended, the Board of Estimate and Apportionment hereby approves of the issue of Corporate Stock of The City of New York, to an amount not exceeding two hundred and sixty-four thousand dollars (\$264,000), for the purpose of providing means for the improvement of Seventh avenue, between One Hundred and Tenth and One Hundred and Fifty-third streets, Borough of Manhattan, and that when authority therefor shall have been obtained from the Board of Aldermen, the Comptroller is authorized to issue Corporate Stock of The City of New York, in the manner provided by section 169 of the Greater New York Charter, to an amount not exceeding two hundred and sixty-four thousand dollars (\$264,000), the proceeds whereof to be applied to the purposes aforesaid."

erection of a drinking fountain at the junction of Boston road and Prospect avenue, Borough of The Bronx, together with copies of communications from the President of the Borough of The Bronx and the Engineer of the Department of Finance relative thereto.

New York, September 28, 1905.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman Board of Estimate and Apportionment:

Dear Sir—I transmit herewith black print of plan and elevation of drinking fountain to be erected at the junction of Boston road and Prospect avenue, in the Borough of The Bronx, for the consideration and approval of the Board of Estimate and Apportionment, and the setting apart of the necessary funds for its construction, which have been estimated to be \$650.

Yours truly,
(Signed) LOUIS F. HAFEN,
President of the Borough of The Bronx.

October 6, 1905.

Hon. EDWARD M. GROUT, Comptroller:

Sir—Hon. Louis F. Haffen, President of the Borough of The Bronx, in communication under date of September 28, 1905, requests the Board of Estimate and Apportionment to authorize the issue of Corporate Stock to the amount of \$650 to provide for the erection of a drinking fountain to be erected at the junction of Boston road and Prospect avenue, Borough of The Bronx.

I would report that I consider this improvement very meritorious, and while I think the Municipal Art Commission should pass upon the design, in my opinion \$650 is a reasonable figure for a drinking fountain suitable for the location.

If the financial condition of the City warrants the expenditure, I think the Board of Estimate and Apportionment may properly authorize the Comptroller, pursuant to section 47 of the Greater New York Charter, as amended by chapter 409 of the Laws of 1904, to issue Corporate Stock to the amount of \$650 to provide for the erection of a drinking fountain at the junction of Boston road and Prospect avenue, Borough of The Bronx.

Hon. CHARLES V. FORNES, President, Board of Aldermen:

Dear Sir—I send you herewith certified copy of a resolution adopted by the Board of Estimate and Apportionment November 24, 1905, authorizing the issue of \$10,000 Corporate Stock, in addition to the amount heretofore authorized, to provide means for the acquisition of land and the construction of a municipal electric lighting plant for The City of New York, together with copy of a communication from the Chief Engineer, Board of Estimate and Apportionment, relative thereto.

I also inclose form of ordinance for adoption by the Board of Aldermen to indicate its concurrence therein.

Very truly yours,
J. W. STEVENSON, Deputy Comptroller.

Board of Estimate and Apportionment—The City of New York,
November 21, 1905.

Hon. GEORGE B. McCLELLAN, Mayor of The City of New York:

Sir—The Commission which is preparing plans and estimates for electric lighting plants for the different boroughs has endeavored to secure a proper site for the Borough of Richmond, and of those which it has considered the most desirable appears to be one at the foot of Elm street, at Port Richmond. The owner of this property has submitted alternative propositions, one for the sale of the water front property, including land under water, and an excellent dock, at which vessels of deep draught could lie, together with a strip twenty feet in width, by which access could be had from Richmond terrace, but reserving to himself the property fronting on the last-named street, on which he now lives. The price for this is \$32,000. His alternative proposition is to sell the entire plot, including his home, for \$55,000.

It seems to the Commission that this is an exceedingly favorable offer, and that the City could undoubtedly make very profitable use of the area not needed for the lighting plant. It has been recommended to the Comptroller that options be secured covering both of these propositions. If the recommendation that the entire plot be acquired is approved it will be necessary to provide about \$10,000 in addition to the money now available, there being a balance of the former bond issue of some \$48,000. If the recommendation that the entire plot be bought meets with your approval, I would suggest that a resolution be adopted at the next meeting of the Board of Estimate and Apportionment providing for an issue of Corporate Stock in the sum of \$10,000, to meet the expense of securing this site.

It may be proper for me to state that the Appraiser of Real Estate of the Department of Finance assures me that the City could undoubtedly dispose of the site already purchased for the plant for the boroughs of Brooklyn and Queens at an advance of some \$50,000.

I submit herewith a form of resolution providing for the issue of Corporate Stock, should you approve of this action. The resolution is in the same form as that adopted on February 24, 1905, when an issue of \$500,000 was authorized.

Respectfully,
(Signed) NELSON P. LEWIS, Chief Engineer.

AN ORDINANCE providing for an issue of Corporate Stock in the sum of ten thousand dollars (\$10,000), in addition to the amount heretofore authorized, to provide means for the acquisition of land and the construction of a municipal electric lighting plant for The City of New York.

Be it Ordained by the Board of Aldermen of The City of New York as follows:

Section 1. The Board of Aldermen hereby approves of and concurs in the following resolution adopted by the Board of Estimate and Apportionment November 24,

1905, and authorizes the Comptroller to issue Corporate Stock of The City of New York to the amount and for the purposes therein specified:

"Resolved, That, pursuant to the provisions of section 47 of the Greater New York Charter, as amended, the Board of Estimate and Apportionment hereby approves of the issue of Corporate Stock of The City of New York to an amount not exceeding ten thousand dollars (\$10,000), in addition to the amount heretofore authorized, to provide means for the acquisition of land and the construction of a municipal electric lighting plant for The City of New York, and that when authority therefor shall have been obtained from the Board of Aldermen, the Comptroller is authorized to issue Corporate Stock of The City of New York, in the manner provided by section 169 of the Greater New York Charter, to an amount not exceeding ten thousand dollars (\$10,000), the proceeds whereof to be applied to the purposes aforesaid."

Hon. CHARLES V. FORNES, President, Board of Aldermen:

Dear Sir—I send you herewith certified copy of resolution adopted by the Board of Estimate and Apportionment November 24, 1905, authorizing the issue of Corporate Stock to an amount not exceeding \$175,000, to provide means for the placing of electrical conductors underground in various streets and avenues in the Borough of Brooklyn; together with copies of communications from the Deputy Fire Commissioner, Borough of Brooklyn; Deputy Fire Commissioner, boroughs of Brooklyn and Queens; Electrical Engineer, Fire Department, and the Engineer, Department of Finance, all relative thereto.

I also inclose form of ordinance for adoption by the Board of Aldermen to indicate its concurrence therein.

Very truly yours,

J. W. STEVENSON, Deputy Comptroller.

November 17, 1905.

Hon. EDWARD M. GROUT, Comptroller:

Sir—Hon. Thomas W. Churchill, Deputy and Acting Fire Commissioner, in communication under date of November 3, 1905, requests the Board of Estimate and Apportionment, pursuant to section 47 of the Greater New York Charter, as amended by chapter 409 of the Laws of 1904, to authorize the issue of Corporate Stock to an amount not to exceed \$175,000, for the purpose of placing electrical conductors underground in various streets and avenues in the Borough of Brooklyn. I would report:

At meeting of the Board of Estimate and Apportionment held January 29, 1903, a bond issue of \$40,000 was authorized for the purpose of placing wires and conduits for the fire alarm system underground in the Borough of Brooklyn; and at meeting of January 13, 1905, \$100,000 was authorized by the Board for the same purpose, making a total of \$140,000; of this amount there remains an available balance of about \$50,000.

I have been informed by the Fire Department that it would cost about \$225,000 to complete all of the work of placing wires underground within a circle whose radius is from Jay street to Prospect Park.

The additional work proposed I consider necessary and can probably be done within the next year.

Therefore, if the financial condition of the City warrants the expenditure, I think the Board of Estimate and Apportionment may properly authorize the Comptroller to issue Corporate Stock, pursuant to section 47 of the Amended Greater New York Charter, as amended by chapter 409 of the Laws of 1904, to the amount of \$175,000, for the purpose of placing electrical conductors underground in the various streets and avenues in the Borough of Brooklyn.

Respectfully,

Hon. WM. A. DOYLE, Deputy Fire Commissioner:

Sir—I have the honor to return inclosed communication from Hon. Thomas H. Farrell, Deputy Commissioner of Department of Water Supply, Gas and Electricity, Borough of Brooklyn, relative to additional lines that have been fixed within which the electrical conductors of this Department shall be placed underground in accordance with the resolution of the Board of Estimate and Apportionment adopted July 14, 1905.

In order that this Department may comply with the provisions of the resolution and place their conductors underground in the sections specified and by the dates allotted, it becomes necessary that the Commissioner, as early as possible, request the Board of Estimate and Apportionment to allot the sum of \$175,000 for the purpose of providing means to comply with the resolution before mentioned.

Appended hereto is a communication from the Citizens' Association of Bay Ridge and Fort Hamilton, dated October 5, 1905:

"That the president of this association be requested to communicate with the Honorable Park Commissioner of the Borough, requesting him to apply to the Board of Estimate and Apportionment for sufficient funds to complete the Shore road in its entirety, and to acquire title to the park at Owl's Head in order that the entire improvement may be made systematically; and further,

"That he be requested to send copies of this resolution to the Mayor, the Comptroller and the President of the Borough of Brooklyn, asking them as members of the Board of Estimate and Apportionment to see that the request of the Commissioner is granted."

This reasonable request from the representative association of Bay Ridge and Fort Hamilton districts should be granted to its fullest extent.

That the improvement should be immediately undertaken and carried to successful conclusion is evidenced and demanded in a good many ways. That part of the borough known as Bay Ridge has a smaller proportion of park areas than any other portion of the borough, and for that matter, The City of New York. Should the growth of this section, which has been remarkable in the past years, continue, and it certainly will with the advent of the proposed tunnel and transportation facilities, the demand in this section for more park areas will become almost irresistible. This improvement, if finished, will afford to that section a park area of two hundred and fifty acres situated in the finest and most picturesque portion of the City's borders. The improvement should be carried to a speedy and final conclusion now, if for no other reason than that with the increased use of automobiles and carriages, the present road has become, by its narrowness, a source of danger to the users of it, and a great worry to the Department controlling it. The ever increasing use of automobiles has made this roadway a very popular part of the parkway system of this borough, and unless the work of constructing and completing this drive be undertaken and finished soon, dangers will exist that this Department will be unable to prevent or cope with.

The City's neglect to build and complete this roadway since its initial undertaking some years ago has worked some detriment to the locality. Owing to the partly completed and seemingly neglected condition of the project for some years by, an inferior class of houses has been erected along the line of this drive. Had this neglected condition been obviated by the speedy completion of this project when started, we would have lining the borders of this drive residences that for cost and elegance would compare favorably with those along Riverside drive in Manhattan, and the beauty of the drive and its value would be enhanced just that much. There is also a strong reason why this work should now be undertaken and vigorously prosecuted. In the last ten years and up to the present day the value of labor and materials around New York and the adjacent country has risen enormously. There is no reason to think that this increase will not continue in the future. Had this road been built and finished some years ago the cost would be much less than the cost will be a year from now or two years hence. The increasing market values of materials required for the completion of this road are becoming higher and higher every day owing to the growing scarcity of those materials in the vicinity, and this must tend to greatly enlarge the cost of the work, should it be further delayed.

Other large cities in the United States have appropriated large sums of money for the construction and completion of drives of a somewhat similar character, and in none of these cities can be found a location that has so many points in its favor as a parkway, and of which so little advantage has been taken. Commanding a view of the upper harbor, the picturesque Narrows and an almost unbroken view of the Atlantic for many miles, this drive, with its winding lines and grades and country aspect, presents to The City of New York a superb opportunity for the building and completing of the most beautiful and picturesque drive in the country.

Owl's Head Park—To properly carry to completion the construction of the Bay Ridge parkway and to make it useful and its future safe as a park and parkway, it will be very necessary that the land known as Owl's Head, situated at Bay Ridge parkway, First avenue and Bay Ridge avenue, be immediately acquired for park purposes. The initial steps toward the acquisition of this property have been taken, and on February 17, 1905, it was placed on the map, and upon February 28, 1905, was approved by the Mayor. This land is in two parcels and lies on both sides of the present Bay Ridge parkway. Should this land remain unacquired by the City it will make possible the erection of factories, wharves, buildings, etc., for commercial purposes that will disfigure and injure to an irreparable extent the drive in that vicinity.

This site is also possessed of great natural landscape features that are second only to those possessed by the Bay Ridge parkway. Its importance as a public park can hardly be estimated at this time, and its relation to the Bay Ridge parkway in its construction and development is very great and also indispensable.

There are at present on this land three or four houses of very costly construction and ornamental design. These houses are modern and up-to-date in every respect and appointment, and could be put to use without one cent of expenditure.

It is therefore urged that steps be taken immediately to acquire title to these grounds, so that the work of completing the Shore road and this proposed park can be carried on simultaneously and systematically.

I respectfully submit for the favorable consideration of your Honorable Board the foregoing, and hope that sufficient funds will be granted to enable this Department to at once begin the work of building this parkway, and would urge that steps be taken to immediately acquire title to lands for park purposes at Owl's Head so that same may be turned over to the Department of Parks, and thereby enable this Department to complete the Shore road proposition in its entirety.

November 16, 1905.

Hon. EDWARD M. GROUT, Comptroller:

Sir—In communication to the Board of Estimate and Apportionment of November 6, 1905, Hon. M. J. Kennedy, Commissioner of the Department of Parks, Boroughs of Brooklyn and Queens, presents an application for the authorization and issue of Corporate Stock of The City of New York, to the amount of \$1,874,904.30, to be expended for improving and completing the Bay Ridge parkway, from First avenue to Fort Hamilton, Borough of Brooklyn.

The estimate of cost of construction of the improvement is based on the plan, prepared by the "Public Driveway and Parkway Commission of Kings County under Laws of New York, of 1894, chapter 758," filed with the County Clerk and Department of Parks, in accordance with the laws of the State, providing for the Shore road of Brooklyn, under chapter 456 of the Laws of 1892, chapter 758 of 1894, chapter 931 of 1895, and chapter 857 of the Laws of 1896, through which the several Commissions appointed by the Mayors of the former City of Brooklyn have operated.

The plan, as filed, provides a continuous parkway from the intersection with Fort Hamilton avenue, between Sixty-sixth and Sixty-seventh streets, to the foot of Fort Hamilton avenue, at the Government Reservation, having a length of about four miles in all, including 2.6 miles of shore frontage.

The City has acquired all of the land needed for this improvement, with the exception of one parcel, between Ninth avenue and Fort Hamilton avenue, appraised at less than \$20,000. A total of \$3,300,000 has been expended for such lands with the riparian rights, which are complete from the E. W. Bliss property on the extreme northerly end of the shore front improvement, southerly to the Government Reservation.

Previous to consolidation, the Shore Road Commission carried out a portion of the construction work in accordance with the filed plan, expending about \$115,000, and within the last year a contract of about \$50,000 has been made by the Park Department to protect the roadway at contracted points along the outer edge. This work, with the exception of temporary protection at the foot of the slopes, has been in accordance with the requirements of the authorized plan.

Under present conditions, as stated by Commissioner Kennedy, the roadway is very narrow at several points along the bluff. The conditions which have existed since 1898, when the Shore Road Commission effected the small part of the improvement possible under the limited appropriation available, have been unsatisfactory to the general public interested in the driveways and parks of Brooklyn, and to the property owners who transferred to the City the frontages on the bay and riparian rights in deeds citing the completion of the Shore road improvement by the City as a part of the consideration for transfer.

This improvement will give a continuous and broad drive from Prospect Park, through Fort Hamilton avenue and the Shore road, following the bay, from Sixty-sixth street to about One Hundredth street, with unsurpassed facilities for the driving public, while the extensive parkway along the outer water front, below the driveway, with convenient entrances, will give exceptional recreation opportunities to the population east of the parkway and to the north where the mammoth improvements in the great railroad terminal yards and the extensive factory and shipping industries will draw a dense population within a few years.

Recommendation is made by Commissioner Kennedy to the effect that the City should immediately acquire what is now shown on the map as "Owl's Head Park," embraced by the turn of the Shore road, First avenue and Bay Ridge avenue. This matter is now before the Board of Estimate for action, the map of the land to be acquired having been filed in the Registrar's office July 18, 1905.

This elevated property is a superb, natural park, on which permanent and extensive park-like improvements have been made. The relation of this plot of land cannot be dissociated from the Shore road improvement, especially as the Bliss property embraces considerable area on the northwest side of the Shore road and includes considerable frontage on the bay, which would undoubtedly be acquired and used for commercial purposes, unless the City takes control.

On your request for a comparison of cost with other parkways acquired and constructed by the City, and, after considering the investment the former City of Brooklyn has made of \$3,300,000 for the land necessary to construct the Shore road, which sum has not been made use of to any considerable extent for the last seven years, the following comparisons of cost of land required and cost on construction accounts are presented:

Cost of Land Per Mile of Driveway.

Riverside Drive Improvement, One Hundred and Thirty-fifth street to One Hundred and Fifty-eighth street only.....	\$2,339,040 00
Grand Boulevard and Concourse, The Bronx.....	654,487 00
Harlem River Speedway.....	242,514 00
The Shore Road, Brooklyn.....	825,870 00

To utilize this property the City has expended on construction account and contracted for work at the following rate per mile of driveway:

Riverside Drive Improvement, One Hundred and Thirty-fifth street to One Hundred and Fifty-eighth street only.....	\$2,936,508 00
Grand Boulevard and Concourse, preliminary work only.....	249,070 00
Harlem River Speedway.....	1,500,643 00
Proposed for the Shore Road.....	723,938 00

In considering the rates for land acquired, total areas taken are not available, but are extensive outside of the limits of the parkways on the Riverside drive and the Shore road only.

The Riverside drive has been improved under serious disadvantages on account of the steam railroad and commercial interests controlling the shore front, necessitating expensive masonry, retaining walls and road crossings; while on the Harlem River Speedway the construction account has been high owing to great depths of shore front protection and filling necessary in the loose silt of the river bed.

On the Bay Ridge shore, for the 2.6 miles to be improved, the physical conditions are such as to allow inexpensive construction, the plan embracing merely a low rough-stone filling to about six feet above high water, behind which the park is to be level for a considerable width, extending generally to the foot of the natural earth slopes from the outer edge of the roadway and sidewalks at the present grade. The main feature in the cost is the earth filling, which, on competitive bidding, may be secured from the Government dredging of the ship channel lying within a few hundred feet of the improvement, and possibly from the Fourth avenue subway excavation, involving a comparatively short haul, which would reduce very materially not only the cost of the subway but also that of the Shore road improvement.

A feature of the Shore road plan along New York Bay is that the improvement will render available for park purposes about 53 acres of land, covered at high water, and on the rough, steep slopes now useless for any purpose.

If this reclaimed land is worth one-third of the more elevated property fronting the Shore road, the cost of this improvement will be more than covered by the value of the park property so acquired, and without any corresponding diminution in taxable values due to the withdrawal from private holders as is ordinarily the case.

The plan prepared by the Commissioners has embraced, in accordance with the laws mentioned, provision for four commercial wharves where it will be advisable to arrange convenient access without crossing the park drive at grade. One of these wharves is now constructed at the foot of Bay Ridge avenue, and the Shore road has been partially improved from Fourth avenue to Fort Hamilton.

Section 7, chapter 758 of the Laws of 1894 provided that:

"Upon the acquisition of the lands, property, estate and riparian rights required for the development of the plans, said department of parks shall proceed to lay out and construct such public driveway and parkway with such public places, borders and appurtenances, wharves and piers as may be fixed by the plans filed in said department of parks."

Under this provision and the succession of Department of Parks to the former Shore Road Commission, the appropriation is reasonably requested under the direct provisions of the Charter. The amount requested is sufficient to carry out the plan, except in the landscape gardening work, and I believe that the request may be favorably acted upon without injustice to the rights of the City at large.

Section 7 of the act provided for the issuance of Certificates of the County to an amount not exceeding \$250,000. From the records and such information as can be obtained from the Department of Parks it would appear that the amount expended, or for which contract liability has been incurred, has reached this sum, and that any further appropriation must be made under the provisions of the Charter covering such improvements by the City.

I would therefore recommend that the Board of Estimate and Apportionment authorize the Comptroller, pursuant to section 47 of the Greater New York Charter, as amended by chapter 409 of the Laws of 1904, to issue Corporate Stock to the amount of \$1,875,000 for the purpose of completing the Shore road, between First avenue and Fort Hamilton, in accordance with the plan filed by the Public Driveway and Parkway Commission of Kings County, Laws of New York, 1894, chapter 758, provided that if not legally prevented, the said plan be so modified as to eliminate grade crossings of traffic from the water front, and that plans for these modifications be subsequently submitted to the Board of Estimate and Apportionment for approval.

Respectfully,

(Signed) E. E. McLEAN, Engineer.

Hon. CHARLES V. FORNES, President, Board of Aldermen:

Dear Sir—I send you herewith certified copy of resolution adopted by the Board of Estimate and Apportionment November 24, 1905, approving of the establishment of the position of Stenographer and Typewriter in the office of the Commissioner of Jurors of the County of Queens, and recommending the fixing of the salary of said position at the rate of \$600 per annum, together with copy of communication from the Commissioner of Jurors relative thereto.

I also inclose form of resolution for adoption by the Board of Aldermen to indicate its concurrence therein.

Very truly yours,

J. W. STEVENSON, Deputy Comptroller.

Office of the Commissioner of Jurors,
Queens County Courthouse, Long Island City,
November 21, 1905.

To the Honorable Board of Estimate and Apportionment, Hon. GEORGE B. McCLELLAN, Chairman:

GENTLEMEN—It is absolutely necessary that the position of Stenographer and Typewriter be permanently established in the office of the Commissioner of Jurors for Queens County for the following reasons:

Since February, 1905, there were twenty thousand five hundred jury qualification notices sent out from this office to date. It will be necessary to send out about twenty-two thousand notices in all to complete the general call for this jury year, in regard to the notifying of persons to appear and qualify for jury duty in the County of Queens.

On the first of September this office furnished the three Municipal Courts of the borough a typewritten list of six hundred names of each juror, his address and other necessary information as to his qualification, taken for their respective districts; and on or about the first of December the Commissioner of Jurors must furnish the County Clerk a typewritten list of jurors, consisting of some twenty-five hundred names, and the necessary information as to their qualifications. He must also file duplicate and additional lists in this office, also Grand Jury lists by the end of December.

Owing to the recent criticism by the Supreme Court Judge, sitting during the April term of the Supreme Court in this county, of the management of this office in the past, it seems that it would or should be necessary to perform our work in a more efficient or effective manner. At present the Stenographer in this office is employed at intermittent times, for which she is paid at the rate of \$3 per day, or at an average of \$35 per month, out of our contingent fund, amounting to only \$600, which fund has to meet postage, telephoning, printing, disbursements and such similar contingencies, as applies to this office during the year.

This being a county office, the State Civil Service Commission has refused to consider or recognize the position of Stenographer in this office an emergency position after May 1, 1905, and has held an examination and placed the position in the classified list, and has furnished this office with a list of applicants who have passed such examination, with the request that the Commissioner name an appointee, and fix the necessary salary for the said position, and in a communication dated May 23, 1905, the State Civil Service Commission, through the Secretary, Mr. John C. Birdseye, informed this office that an appointment be made from the list sent us before another account is submitted for certification, which request has been complied with by making a temporary appointment.

It is impossible to do without a Stenographer and Typewriter in this office for the above reasons. The addressing of envelopes, making up of jury lists and answering all necessary communications devolves on just such a position.

I therefore would ask your honorable body to name and fix the sum of \$600 as an appropriation towards such salary fund, to commence from the 1st of January, 1906.

Respectfully submitted,

(Signed) JOHN P. BALBERT, Commissioner of Jurors.

Whereas, The Board of Estimate and Apportionment at a meeting held November 24, 1905, adopted the following resolution:

"Resolved, That the Board of Estimate and Apportionment hereby approves of the establishment of the position of Stenographer and Typewriter in the office of the Commissioner of Jurors of the County of Queens, and recommends to the Board of Aldermen, in accordance with the provisions of section 56 of the Greater New York Charter, that the salary of said position be fixed at the rate of six hundred dollars (\$600) per annum."

Resolved, That the Board of Aldermen hereby concurs in said resolution and fixes the salary of the position of Stenographer and Typewriter in the office of the Commissioner of Jurors of the County of Queens at the rate of six hundred dollars (\$600) per annum.

Alderman McCarthy moved the adoption of this resolution.

The President put the question whether the Board would agree with said resolution.

Which was unanimously decided in the affirmative by the following vote:

Affirmative—Aldermen Ahner, Baldwin, Bennett, Boerner, Brenner, Chambers, Coggey, Collins, Donohue, Doull, Dowling, Gaffney, Gass, Goodman, Grifenhagen, Haenlein, Haggerty, Harburger, Hann, Higgins, James, Jones, Keely, Kline, Lochner, McCall, McCarthy, Marks, Morris, Arthur H. No. 32 Nassau Street, New York, }
November 28, 1905. }

Hon. CHARLES V. FORNES, President of the Board of Aldermen:

My Dear Sir—Colonel Kline, the Alderman from the Fifty-fifth Aldermanic District, is about to present a resolution to the Board, granting to the estate of Henry Offermann permission to build a tunnel under Duffield street, in order to carry steam pipes, etc., from a building, which the estate has bought, on one side of the street, to a building, which they already own, on the other.

The reason why this is desired is that in the construction of the Brooklyn-Manhattan Subway in Fulton street the vaults which they now occupy for steam boilers are to be taken by the City. The only place where they can put new boilers is in this building which they have acquired in Duffield street.

The prompt passage of such a resolution as Colonel Kline intends to offer will, I think, greatly facilitate the early completion of the rapid transit railroad and be of benefit to the entire Borough of Brooklyn.

Very truly yours,

G. L. RIVES.

Every building hereafter erected or altered, to be used as a hotel, lodging-house, school, theatre, jail, police station, hospital, asylum, institution for the care or treatment of persons, the height of which exceeds thirty-five feet, excepting all buildings for which specifications and plans have been heretofore submitted to and approved by the Bureau of Buildings, and every other building the height of which exceeds seventy-five feet, except as herein otherwise provided, shall be built fireproof, that is to say, they shall be constructed with walls of brick, stone, Portland cement concrete, iron or steel, in which wood beams or lintels shall not be placed, and in which the floors and roofs shall be of materials provided for in section 106 of this Code. Alderman Harburger asked and obtained immediate consideration for this report.

The Vice-Chairman put the question whether the Board would agree to accept said report and adopt said ordinance.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Baldwin, Boerner, Boyhan, Brenner, Callahan, Chambers, Coggey, Davies, Donohue, Doull, Dowling, Downing, Gillen, Goldwater, Gunther, Haenlein, Haggerty, Harburger, Harnischfeger, Hann, James, Jones, Keely, Kevin, Kline, Koch, Lochner, McCall, McCarthy, Marks, Morris, Arthur H. Murphy, Owen J. Murphy, Owens, Poole, Redmond, Richter, Robinson, Schappert, Shea, Sheil, Stumpf, Twomey, Ware, Wafer, Wentz and President Cromwell—47.

SPECIAL ORDERS.

Alderman Harburger called up Special Order No. 170, being a report and ordinance, as follows:

No. 35—(S. O. No. 170).

The Committee on Codification, to whom was referred on June 12, 1904 (Minutes, page 46), the annexed ordinance establishing a code of ordinances, respectfully

REPORT:

That, having examined the subject, they believe the proposed annexed code to be necessary.

The amended code is in no sense a revision but is a codification of existing ordinances with those clearly obsolete, illegal and unnecessary omitted.

The ordinances have been rearranged in nine chapters as follows:

1. The Executive and Administrative Departments.
2. The Legislative Department.
3. The Finance Department.
4. The Sinking Fund of The City of New York.
5. Licenses.
6. Contracts.
7. Ordinances and by-laws relating to territory less in extent than the entire City.
8. Traffic regulations.
9. Miscellaneous.

To these must be added the Park Ordinances, Building Code and Sanitary Code, as provided by chapter 628 of the Laws of 1904, passed at the request of your committee.

Your committee further recommends that the regulations of the Municipal Explosive Commissions and the section of the chapter contained in section 3, schedule 2, of chapter 466, Laws of 1901, be added as chapters and report herewith an ordinance so providing.

If the recommendations of your committee are accepted, and the ordinances proposed by it adopted, all of the most important municipal legislation relating to this City will be found in two books, the Charter and the Code of Ordinances. This will be of great importance to citizens generally and of special importance to judges and lawyers.

If to the adoption of this code is added care in the future to make ordinances amendments of it, the preservation of our local laws in a comparatively small compass will have been obtained.

They therefore recommend that the said ordinance be adopted.

The Code of Ordinances of The City of New York.

Be it Ordained by the Board of Aldermen of The City of New York as follows:

Chapter 1—The Executive and Administrative Departments.

(R. O. 1897, sec. 125, with verbal changes.)

Sec. 10. He shall thereupon receive from the Chamberlain duplicate vouchers for the payment thereof, one of which he shall on the same day file in the office of the Comptroller. (Adapted from R. O. 1897, ch. 5, art. I, sec. 140.)

Sec. 14. He may direct the removal of any article or thing whatsoever which may encumber or obstruct a street or avenue in the City of New York, under the penalties prescribed by law. (R. O. 1897, ch. 5, art. I, sec. 141.)

(R. O. 1897, sec. 233, in part.)

Sec. 24. It shall be the duty of the Borough President receiving such notice forthwith to cause one of the City Surveyors or an Engineer in his Department to take the necessary measures to raise or lower such monument to the proper grade of the City, and to cause such alteration to be noted on maps to be kept in his office for that purpose. The Mayor shall from time to time issue licenses under his hand and seal to so many and such persons as he shall think proper, to keep for hire, in the said City, horseless coaches, carriages and cabs, designed for propulsion by electricity supplied by an electric storage battery or batteries, and may revoke any and all of said licenses for cause.

Sec. 205. The provisions and penalties of the ordinance relating to the licensing of hacking coaches or cabs and of the driving thereof and the rates and prices of fares, so far as the same may be consistent, shall apply to coaches, carriages and cabs, to be licensed hereunder and to the owners and drivers thereof.

Sec. 206. Every such horseless coach, carriage or cart shall be equipped with a bell to be used to signal its approach to pedestrians and to other vehicles.

Sec. 207. The Chief of the Bureau of Licenses of The City of New York shall from time to time furnish to the Police Commissioner of said City a list of unexpired licenses and permits, such list to contain the names of the persons to whom licenses were issued, the place and business for which issued, and the date of expiration of such license or permit, and thereafter, during the first week of each month, the said Police Board shall send to the Captains of Police of the various precincts of The City of New York, a list of licenses and permits granted affecting their respective precincts, with the names of persons to whom granted, location of stand or business, and date of expiration of such permit or license, and also a list of all licenses or permits expiring the month for which the report is sent.

Sec. 208. No cask, bale, bundle, box, crate or any other goods, wares or merchandise, or any boards, planks, joists or other timber, or anything whatsoever, shall be raised from any street on the outside of any building, or to be lowered on the outside of any building, by means of any rope, pulley, tackle or windlass, under the penalty of one hundred dollars, to be recovered in an action by The City of New York against any person, agent, owner or employer violating the provisions of this section, in any court of competent jurisdiction, unless a permit shall be first obtained from the Bureau of Licenses upon the payment of a fee of one dollar, upon such conditions and with such security, by bond or otherwise, as may be approved by the Chief of the Bureau of Licenses, to save the City harmless from any loss that may occur or damages that may be done while exercising the privilege granted in such permit.

Sec. 209. To persons, firms or corporations engaged in a business requiring the frequent or constant hoisting or lowering of merchandise or materials, the Bureau of Licenses shall, on the filing of such satisfactory security, to be approved by the Chief of the Bureau of Licenses as aforesaid, and on the payment of a fee of twenty-five dollars, grant a general permit to such persons, firms or corporations, permitting them to hoist, raise or lower the goods, property, merchandise or materials therein described on the outside of any and all buildings for the term of one year thereafter. Nothing in this subdivision contained shall affect the right, in any case, to obtain a single permit under subdivision.

Sec. 210. In every case, it shall be the duty of all persons, firms or corporations, while engaged in such hoisting or lowering over any sidewalk, roadway or public place, to give warning on such sidewalk, roadway or public place, by two conspicuous flags or placards, on which shall be inscribed in letters at least six inches long, the word "danger." For every failure to comply with this provision, there shall be a penalty of twenty-five dollars, recoverable by The City of New York in any court of competent jurisdiction, against any person, firm or corporation guilty of such violation. (R. O., 1897, sec. 205, with verbal changes.)

Chapter 6.—Contracts.

Sec. 211. All supplies to be furnished or work to be done for the Corporation of The City of New York, whether to be paid for out of the City Treasury or out of trust moneys under the control of or to be assessed or collected by the Corporation, shall be furnished or performed by contract, except as is otherwise provided by law. (R. O., 1897, sec. 344, amended.)

Sec. 212. The several departments and officers empowered by law to make contracts on the part of the Corporation shall issue invitations for bids or proposals therefor by public notices, and shall advertise the same as provided by law when and after the said public notice and the terms of the said contract shall have been approved as to form by the Corporation Counsel. There shall be kept by each of said departments an appropriate box, to be designated "bid box," with a proper opening in the top thereof to receive bids or proposals for which invitations have

been issued. Such "bid box" shall be locked, except at such times as it may be necessary to open the same to examine and decide upon bids or proposals, and the key thereof shall be retained by the head of the department. It shall be the duty of the head of the department to deposit in said box the bids or proposals duly presented to him for work to be done or supplies to be furnished, under the direction of the department, immediately on the receipt thereof by him. (Id., sec. 345, amended.)

Sec. 213. The invitations for bids or proposals shall be in such form as may be prescribed by the department making the same, and as shall be approved as to form by the Corporation Counsel, and they shall contain the following particulars:

1. They shall require that the person making the bid or proposal shall furnish the same in a sealed envelope to the head of the appropriate department, at his office, on or before a day and hour herein named, not less than ten (10) days from the first publication thereof.

2. They shall state the quantity and quality of supplies, or the nature and extent, as near as possible, of the work required, or a reference to specifications or schedules where the quantity and quality of supplies, or the nature and extent, as near as possible, of the work, is stated.

3. They shall state that the bids or proposals received will be publicly opened by the head of the department issuing the public notice, at his office, at a day and hour therein mentioned.

4. They shall state the amount in which security is required for the performance of the contract.

5. They shall state the time or period within which the work must be done or the supplies furnished. (Id., sec. 346, amended.)

Sec. 214. Each bid or proposal shall contain:

1. The name and place of residence of the person or party making the same.

2. The names of all persons or parties interested with the bidder therein, and if no other person or party be so interested the bid or proposal shall distinctly state that fact.

3. A statement that the bid or proposal is made without any connection with any other person or party making the bid or proposal for the same purpose, and that the bid or proposal is in all respects fair and without collusion or fraud.

4. A statement that no member of the Board of Aldermen, head of a Department, chief of a Bureau, deputy thereof, or Clerk therein, School Commissioner or other officer of the corporation is directly or indirectly interested therein, or in the supplies or the work to which it relates, or any portion of the profits thereof, either as principal, surety or otherwise. (Id., sec. 347, amended.)

Sec. 215. Each bid or proposal shall be verified by the oath or affirmation, in writing, of the party making the bid or proposal, that the several matters stated therein are in all respects true, and if the bid or proposal be made by a firm it shall be verified by each and every member of the firm. (Id., sec. 348, amended.)

Sec. 216. Each bid or proposal shall be accompanied by the consent, in writing, of two (2) householders or freeholders in The City of New York, or of a responsible guaranty or surety company duly authorized by law to act as surety, to the effect that if the contract be awarded to the person or party making the bid or proposal they or it will, upon its being so awarded, become bound as his or its sureties for its faithful performance, and that if he shall omit or refuse to execute the same they or it will pay to the corporation any difference between the sum to which he would be entitled upon its completion and that which the corporation may be obliged to pay to the person to whom the contract shall be awarded at any subsequent letting; the amount of security in each case to be calculated upon the estimated cost of the work to be done or of the supplies to be furnished by which the bids are tested. (Id., sec. 349, amended.)

Sec. 217. The consent mentioned in the last section shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same that he is a householder or freeholder in The City of New York and is worth the amount of the security required for the completion of the contracts and stated in the bids or proposals, over and above all his debts of every nature, and over and above his liabilities as bail, surety or otherwise, and that he has offered himself as a surety in good faith and with an intention to execute the bond required by law; and a like affidavit shall be required of the proper officers of any such guaranty or surety company, setting forth the name of the company, the title of the act or laws under which it is incorporated, the date when incorporated, a statement that it is authorized to do business under the laws of the State of New York and is authorized under its charter to execute the said bond or undertaking and to guarantee the obligations assumed in the bid or proposal and according to the contract and referred to in the bids or proposals; a true and correct statement of the financial condition of the company at its last accounting, which shall have been made within a period of one year, and of any changes in its condition that impairs or affects its financial liability or status. (Id., sec. 350, amended.)

Sec. 218. The sealed envelope containing the bid or proposal shall be indorsed with the name or names of the person or party presenting the same, the date of its presentation and a statement of the work to which it relates; and no bid or proposal shall be taken from the "bid box," or the sealed envelope thereof opened by any one, except at the time and in the manner herein designated for deciding on such bids or proposals. At the same time and place appointed for that purpose in the public notice as prescribed in this ordinance, the head of the Department, or other officers empowered to make the contract, in the presence of the Comptroller or his duly authorized representative, and such of the parties making the said bid or proposals as may desire to be present, shall then and there open the said bid box, and the bids or proposals to be examined at that time, as may appear from the indorsements thereon, shall be taken from said box. The said head of Department, or his deputy, shall then and there publicly open and read all bids or proposals which may have been received for the contract mentioned in such public notice, and shall reject all bids or proposals not furnished in conformity with the law and the ordinances relating thereto and the requirements thereof. The award of the contract shall be made according to law (Id., sec. 351, amended.)

Sec. 219. When public notices are issued for a contract to furnish any article of which a sample can conveniently be furnished or for which specifications and plans can be prepared and furnished within the time allowed, the head of the department issuing the same may require that such sample or specifications and plans be delivered at his office or at the office of the head of the appropriate bureau of the department within such time before the opening of the bids or proposals as he may prescribe; and if it or they be not so furnished, or do not conform to the requirements of the public notices and of the specifications and requirements issued by the department for the said article, the bid or proposal delivered by the person or party furnishing or omitting to furnish the same, as the case may be, shall be rejected. Wherever samples are required to be prepared and furnished to the head of the department, at least ten (10) days shall be given for the furnishing of such sample and for the preparation and furnishing of such specifications and plans (Id., sec. 352, amended.)

Sec. 220. Except as herein otherwise provided, in all contracts for work for the corporation where provision is made for the payment of the contract price by installments, a provision shall be inserted that the corporation may retain, and the contractor shall allow to be retained, at least ten (10) per cent. of the contract price of the work actually done as security until the whole work shall be completed and the contract shall be fully and completely performed (Id., sec. 353, amended.)

Sec. 221. In all contracts for the performance of work or the furnishing of supplies, the time or period for the completion of such work and the furnishing and delivery of such supplies shall be specified and inserted therein (Id., sec. 354, amended.)

Sec. 222. In all contracts for public works or supplies, and agreements in relation thereto, by which the City shall be liable to pay money, the award, if any, must be to the lowest bidder unless the Board of Estimate, by the vote of three-quarters of its members, shall determine that it is for the public interests that a bid other than the lowest should be accepted. No contract shall be made until the Comptroller certifies thereon that the necessary funds are provided and applicable thereto (sec. 419, the Greater New York Charter).

Sec. 223. In all contracts for work for the corporation upon any public building, or in any public street or place, in the performance of which accidents or injuries may happen to the person or property of another, a provision shall be inserted that the contractor shall place proper guards for the prevention of accidents, and shall put up and keep at night suitable and sufficient lights during the performance of the work; and that he will indemnify the corporation for damages or costs to which it may be put by reason of injury to the person or property of another result-

ing from negligence or carelessness in the performance of the work (Id., sec. 355, amended.)

Sec. 224. Every contract for supplies or work for the corporation shall be executed by the contractor or contractors to whom the same may be awarded, and shall be accompanied by a bond in the amount mentioned in the public notice therefor, executed by the persons or company consenting to become bound as sureties, or by such other persons or company as shall be substituted therefor, with the consent of the Comptroller, conditioned for the faithful performance of the contract and of every provision therein contained, and which bond shall be accompanied by the oath in writing of the person signing the same that each is a householder or freeholder in The City of New York, and of the person or any officer of such company that he or it is worth the amount of the security required for the completion of the contract, and stated in the public notice as hereinbefore prescribed. And it shall be the duty of the Comptroller to require such sureties to be further examined before himself or an officer authorized to administer oaths, deputed by him, in respect to the items and details of their property, before approving the adequacy and sufficiency of such sureties, and the several departments of the City government and officers aforesaid by which every and each contract for work to be done or supplies to be furnished for the corporation shall be made in pursuance of this ordinance, shall have power and it shall be their duty to require and enforce the faithful execution of each and every contract so made by them; and in case the contractor or contractors shall fail in any respects to perform the work or to furnish the supplies which he or they have contracted to render or furnish within the time limited for the performance of the same, then it shall be the duty of such department or officers aforesaid to do and complete the same work or to furnish and deliver the said supplies in the manner provided for the performance of the same in the contract, and the cost of the same shall be charged against the delinquent contractor or contractors; provided, however, that the head of any department or officer aforesaid by whom any such contract shall be made may, on good and sufficient cause, extend for a reasonable time the period fixed for the completion thereof (Id., sec. 356, amended.)

Sec. 225. Whenever any contract shall be made hereafter by any of the departments or officers aforesaid of the corporation, the amount whereof is to be afterward collected by assessment from the property benefited by the work to be done under said contract, it shall be the duty of the head of department or officers aforesaid making such contracts to cause to be inserted therein a clause that, as the work progresses, payments will be made to the contractors by monthly installments of seventy per cent. (70%) on the work performed, provided the amount of work done on each installment shall amount to one thousand five hundred dollars (\$1,500); and the head of department making such contracts shall forthwith file a copy thereof with the Comptroller (Id., sec. 357.)

Sec. 226. The amount due contractors on all contracts, and on work now in progress under contracts, on account of regulating and paving streets, building sewers, ordered to be done by contract, by virtue of the provisions of law or ordinance, the expense whereof is to be assessed upon property locally benefited thereby, shall be paid by the Comptroller from the Street Improvement Fund; but no money shall be paid on account of said assessments or contracts until a copy of the original contracts has been filed with the Comptroller of the City by the head of the Department having such work in charge, with a certificate in writing from the head of such Department, stating the amount of work that has been completed and the amount due the contractor for such work according to the terms of the original contract; upon the amount thus certified and ascertained to be due to the contractor, the Comptroller shall pay seventy per cent. (70 per cent.). The remaining thirty per cent. (30 per cent.) shall be reserved until thirty days after the final completion and acceptance of the work. (Id., sec. 358, amended.)

Sec. 227. Whenever any payment shall become due upon any contract, according to the provisions thereof or in accordance with any of the provisions of this ordinance, it shall be the duty of the head of Department or officer aforesaid having such work in charge to furnish to the person or party entitled to such payments a certificate, in writing, specifying the contract upon which such payment is due and the amount due under such contract (Id., sec. 360, amended.)

Sec. 228. It shall be the duty of the Comptroller on the presentation of such certificate to him to pay the amount thereof and indorse such payment upon the contract on account of which such payment is made; but no payment shall be made under such contract beyond the amount of such certificate, and the final payment thereon shall not be made until the head of Department or officer aforesaid having such work in charge shall furnish the Comptroller, who shall file the same in his office, a certificate signed by the head of such Department or officer aforesaid, that the work mentioned in such contract has been completed according to the terms of said contract, and to the satisfaction of the head of Department giving such certificate (Id., sec. 361, amended.)

Sec. 229. Each and every contractor shall be required to have an affidavit from the surveyor, setting forth the amount of work done of every description that may be charged in each bill or assessment list of said contract, and said affidavit shall be attached to said assessment list. The Inspector shall also furnish an affidavit attached to each contract that the work is done according to the plans and specifications, said affidavit to be attached to each assessment list before presented for confirmation (Id., sec. 363.)

Sec. 230. No payment shall be made by the Comptroller for work done or supplies furnished except upon proper vouchers rendered by the head of the appropriate Department, or other proper officer, Board or Commission for whom such work was done or supplies furnished. Such vouchers shall be made out in duplicate, and shall contain the certificates of such subordinate officers as the head of the Department and the Comptroller may require, and shall be of such form and purport as the Comptroller shall prescribe, and also a certificate of the head of the Department. One of the duplicate vouchers shall be retained in the Department or office by which the vouchers are rendered, and the other shall be transmitted to the Department of Finance for payment. A receipt for the amount paid shall be taken upon the vouchers sent to the Department of Finance (Id., sec. 367, amended.)

Sec. 231. All old and waste material under the care of any Department shall be sold from time to time, as it may be deemed best for the public interest so to do, in accordance with the provisions of law, the sale of such material to be under the immediate supervision of the head of the Department or Bureau having charge of such material, the proceeds therefor to be collected by said head of Department or Bureau and transmitted within twenty-four hours by him to the Comptroller for deposit in the City Treasury, except as otherwise specially provided (Id., sec. 368, amended.)

Sec. 232. All meetings of the Boards or Commissions constituting Departments of the City Government of The City of New York for the transaction of public business, shall be held openly, and shall in all cases be accessible to the public. Such meetings shall be held at such times and places as may be determined upon by each of such departments, and due notice thereof shall be published daily in the "City Record" (Id., sec. 369.)

Every street railroad corporation in the boroughs of Richmond and Queens shall sprinkle the pavement between its tracks and rails when and as often as directed so to do by the Superintendent of Highways. Water shall be furnished for this purpose free of charge by The City of New York.

Sec. 356. The Commissioner of Street Cleaning or Borough President of Queens or Richmond shall, as soon as possible, after the work is done, certify to the Corporation Counsel the amount of the expense chargeable against each piece of property, with a description of said property as assessed on the last preceding assessment roll, and the name or names of the owner or owners, lessee, or lessees, occupant or occupants of the property, where possible to obtain the same. The Corporation Counsel is hereby directed and authorized to sue for and recover the amount of this expense, together with \$10 penalty for each offense, and when so recovered the amount shall be turned over to the City Chamberlain to be deposited to the credit of the general fund of The City of New York for the reduction of taxation.

Every street railroad corporation shall remove all the snow and ice from its tracks and the spaces between, and shall not throw the same on either side thereof, and shall immediately carry away and dispose of the same under the direction of the Commissioner of Street Cleaning, or the Borough President of Queens or Richmond under a fine of one hundred dollars for every city block in length, in which the said corporation shall fail to so remove and dispose of the same, as aforesaid; provided,

however, that for the more speedy and effective removal of snow and ice from the paved streets, avenues and public places of the city, the Commissioner of Street Cleaning and the Borough Presidents of Queens and Richmond shall have power and authority in their respective boroughs to enter into agreements for the entire winter season, or part thereof, with any street surface railroad or other railroad having tracks in the city for the removal of snow and ice for the entire width of the street, avenue or public place, from house-line to house-line, at any part of the route of the said railroad, provided that nothing in said agreements shall be inconsistent with any law of the State of New York or with any right of The City of New York.

Sec. 363. It shall not be lawful for any surface railroad company or other company, or any corporation of persons whatever, or the officers, agents or servants thereof, to cause or allow any snow plow, sweeping machine or other similar instrument to pass over the tracks or lines used by them within the limits of the city unless by the written permit of the Commissioner of Street Cleaning or the Borough President of Queens or Richmond; any violation of this section shall be punished by a fine not exceeding one hundred dollars for each such offense.

Sec. 364. Projections.

Sec. 440. The Borough Presidents and the Park Commissioners having jurisdiction shall, subject to the restrictions of this ordinance, issue permits for the construction of ornamental projections which project beyond the building line; provided, in the opinion of the officer having jurisdiction no injury will come to the public thereby. Permits for the construction of such projections, lying within any park, square or public place, or within a distance of three hundred and fifty feet from the outer boundaries thereof, shall be issued by the Park Commissioner having jurisdiction, as provided in section 612 of the Charter, as amended by section 1, chapter 723, of the Laws of 1901. Permits for the erection of all other ornamental projections shall be issued by the Borough President having jurisdiction.

Sec. 441. For the purposes of this ordinance, "an ornamental projection" shall be taken to mean and include all decorative projections on the face of a building beyond the building line, in the nature of porches, arches, porticos, columns and pillars, which are erected purely for the enhancement of the beauty of the building from an artistic standpoint.

Sec. 442. Before the erection of any such ornamental projections shall be commenced the owner of the building, or his duly authorized agent, shall make application in writing to the said Borough President or Park Commissioner having jurisdiction, on suitable blanks furnished by him, for the permit herein provided for, and shall file a plan and drawing showing the nature of the proposed ornament with the dimensions thereof, the number of stories through which it is intended to be carried and the number of square feet of area covered by that portion of the ornamentation projecting beyond the building line.

Each application shall be accompanied by the amount of compensation due the City for the privilege of erecting said ornamentation, as hereinafter provided.

Sec. 443. Each application for the erection of an ornamental projection, which projects more than one foot beyond the building line, shall be accompanied by a certified copy of the last assessed valuation of the property on which said ornamental projection is to be erected, which appears upon the books of the Department of Taxes and Assessments. Except as hereinafter provided, the amount that shall be paid as a compensation to the City for the privilege of erecting each ornamental projection shall be, for each and every square foot or fraction thereof of area extending more than one foot beyond the building line, at the rate of ten per cent, per square foot of the assessed value of the property on which the said ornamental projection is to be erected.

Sec. 444. Ornamental projections which shall extend not more than two feet beyond the building line may hereafter be erected on buildings in the Borough of Manhattan, situated on Broadway to the south of Fifty-ninth street; on Fourteenth street, between Broadway and Sixth avenue; on Twenty-third street, between Third and Sixth avenues; on Thirty-fourth street, between Third and Ninth avenues; on Fifty-ninth street, between Third and Ninth avenues, and on Fifth avenue, between Fourteenth street and Fifty-ninth street, and on all other streets in The City of New York ornamental projections may be erected, provided they shall extend not more than one-fifteenth part of the width of the street they are upon, nor in any case more than five feet beyond the building line.

Sec. 445. The permits mentioned herein shall be issued in duplicate, one of which shall be retained by the applicant and kept at the building during the erection of the projection, and the other shall be filed by him with the plans for the building in the Bureau of Buildings. If it shall appear upon completion that the ornamental projection occupies a greater number of square feet than shall have been paid for, the applicant shall pay twice the sum previously paid for each square foot of area occupied by said projection, over and above the number of square feet paid for originally, but in no case shall said ornamental projection exceed the limit allowed by law.

Sec. 446. Permits granted pursuant to the provisions of this ordinance are revocable permits, and shall have the following clause printed thereon, viz.: "This permit is issued subject to revocation thereof, at any time hereafter by the Board of Aldermen of The City of New York, upon the recommendation of the officer having jurisdiction, when the space occupied by said ornamental projection or any portion thereof, may be required for any public improvement, or upon any violation of any of the terms or conditions upon which this permit is issued." A permit for the erection of an ornamental projection shall be deemed to have expired when such projection is taken down, and the space formerly occupied thereby shall no longer be used for the

purpose for which the permit was issued, unless a permit for its reconstruction shall have been granted, as provided in section 448 of this ordinance. In case it is thereafter desired to erect an ornamental projection on the said property, the applicant shall comply with all of the provisions of this ordinance.

Sec. 447. Permits as hereinbefore described, and subject to the conditions therein attached, may be issued to the owners of all buildings having ornamental projections, which buildings have been erected or are being erected, and have ornamental projections thereon beyond the building line, without any authorization therefor.

Sec. 448. No fees shall be charged for granting a permit to reconstruct an ornamental projection within the limitations imposed by an original permit therefor.

Sec. 449. Nothing herein contained shall be deemed to conflict with the provisions of the Building Code. No plans for the construction of a building having ornamental projections thereon, beyond the building line, as defined in this ordinance, shall be approved by the Superintendent of Buildings until the permit therefor is filed, as provided by section 445 of this ordinance.

Section 450. All fees received by the Borough Presidents or Park Commissioners for the issuing of permits provided by this ordinance shall be accounted for in proper books kept for that purpose and shall be turned over by them to the City Treasury.

Section 451. Any person, firm or corporation violating any of the provisions of the preceding eleven sections of these ordinances shall be guilty of a misdemeanor, and shall in addition thereto be liable to a penalty of ten dollars for each offense and ten dollars for each and every day that such offense shall continue. (Ordinance approved April 20, 1903.)

Bay Windows.

Section 452. The Borough Presidents and the Park Commissioners having jurisdiction shall issue permits for the erection of bay-windows, projecting beyond the building line, provided, in the opinion of the officer having jurisdiction, no injury will come to the public thereby. Permits for the erection of bay-windows laying within any park, square or public place within a distance of three hundred and fifty feet from the outer boundaries thereof shall be issued by the Park Commissioner having jurisdiction as provided in section 612 of the Charter, as amended by section one, chapter 723 of the Laws of 1901; permits for the erection of all other bay-windows shall be issued by the Borough President having jurisdiction. (Ordinance approved January 30, 1903, first paragraph of section one.)

Sec. 453. In case a Borough President or Commissioner of Public Works refuses to grant a license for the erection of a bay window, the applicant may appeal to the Local Board for the district in which the bay window is to be erected, and its decision shall be final.

Sec. 454. For the purposes of this ordinance a "bay window" shall be taken to mean and include all projections on the face of a building in the nature of windows, such as are commonly called bay windows, oriel windows and bow windows, without regard to the material of which they are constructed or to the purposes for which they are to be used. (Ord., June 30, 1903, part of sec. 1.)

Sec. 455. Before the erection of any bay window projecting beyond the building line shall have been commenced, the owner, or his duly authorized agent, shall make application in writing to the Borough President, Commissioner of Public Works or Department of Parks having jurisdiction, on suitable blanks furnished by him, and shall state the length and width of the proposed bay window, the number of stories through which it is intended to be carried and the number of square feet of area covered by that portion of the bay window projecting beyond the building line. Each application shall have indorsed thereon the consent of all the adjoining property owners within a distance of one hundred and fifty feet from the centre line of the bay window, on the same side of the street (meaning thereby so much of the side of a street as is unintersected by any other street) on which it is proposed to be erected.

A drawing showing the size of and area covered by the bay window, the number of stories through which it is proposed to be carried, and its location in reference to the lot and building lines, shall be submitted with each application.

Each application shall be accompanied by a certified check for the amount of the compensation due the City for the privilege of erecting said bay window, as hereinafter provided. (Id., sec. 2.)

Sec. 456. The amount that shall be paid to the Commissioner of Public Works for the Borough of Manhattan, as a compensation to the City for the privilege of erecting each bay window in that borough shall be two dollars (\$2) for each and every square foot, or fraction thereof, of area covered by said bay window beyond the building line, for each and every story through which it is carried. For the boroughs of Brooklyn and The Bronx one and one-half dollars (\$1.50), and for the boroughs of Queens and Richmond one dollar (\$1) shall be paid for each and every square foot, or fraction thereof, of area covered by said bay window beyond the building line for each and every story through which it is carried.

Sec. 457. For the purpose of computing the area covered by a bay window projecting beyond the building line, the outside face of the bay, exclusive of cornices, pilasters, trim, etc., shall be the line taken as a basis of computation.

Sec. 458. Bay windows may be erected with a projection of not more than three (3) feet beyond the building line, provided that when the projection exceeds one (1) foot beyond the building line, the total number of feet in width occupied by all the bay windows on the same frontage of the same building shall not exceed fifty per cent. of the width of the frontage of the building on which they are located.

Sec. 459. No bay window shall be erected projecting more than one (1) foot beyond the building line, or carried higher than the sill course of the second story windows on a street forty (40) feet or less in width, or on any street south of Twenty-fourth street in the Borough of Manhattan.

Sec. 460. Permits for the erection of bay windows shall be issued in duplicate, one of which shall be retained by the applicant and kept at the building during the erection of the window, and the other shall be filed by him, with the plans for the construction of the window in the Department of Buildings.

Sec. 461. It shall be the duty of the applicant, upon the completion of the bay window, to file with the Borough President or Commissioner of Public Works issuing the permit, a certificate from a City Surveyor stating the dimensions of said window, the number of square feet contained therein and the number of stories through which it has been carried as erected. If it shall appear by said certificate or otherwise that the bay window occupies a greater number of square feet, or has been carried through a greater number of stories than shall have been paid for, the applicant, in addition to the penalty imposed by this ordinance, shall pay twice the sum previously paid for each square foot of area occupied by said bay window over and above the number of square feet paid for originally.

Sec. 462. Permits granted, pursuant to the provisions of this ordinance shall be revocable permits, and shall have the following clause printed thereon, viz.: "This permit is issued subject to revocation thereof at any time hereafter by the Board of Aldermen of The City of New York, upon recommendation of the Borough President or Commissioner of Public Works having jurisdiction, when the space occupied by said bay, or any portion thereof, may be required for any public improvement, or upon any violation of any of the terms or conditions upon which this permit is issued."

Sec. 463. A permit issued for the erection of a bay window shall be deemed to have expired when the bay window shall be taken down for any cause whatever, except that a bay window may be rebuilt if damaged by fire or by other cause, through no fault of the owner, without the issuing of a new permit, provided that the bay window when reconstructed shall conform to the bay window as originally constructed in all particulars.

Sec. 464. Nothing herein contained shall be deemed to conflict with any of the provisions of the Building Code, and all bay windows for which permits are issued under the provisions of this ordinance shall be erected in accordance with all the provisions of said code in regard to kind and quality of materials used.

Sec. 465. All fees received by the Borough Presidents, Commissioner of Public Works or Department of Parks for the issuing of permits for the erection of bay windows shall be accounted for in proper books kept for that purpose, and shall be turned over by them to the City Treasury.

Sec. 466. A permit for the continuance of any now existing bay window which projects beyond the building line may be issued by the officer who, according to section 452 of this ordinance, has jurisdiction over the erection of bay windows at the same place. Application for such permit must be in writing and must be accompanied by a certified copy of the last assessed valuation of the property on which such bay window stands, which appears upon the books of the Department of Taxes and Assessments, and must also be accompanied by a survey showing the dimensions of such bay window and the number of stories through which it is carried. The

application shall be accompanied by the amount of the compensation due the City for the privilege of continuing the bay window, calculated in the same manner and at the same rate as provided in sections 455 and 456 of this ordinance. Permits shall be issued under this section without consent of adjoining property owners. Permits issued under this section shall be subject to all the provisions of sections 462 and 463 of this ordinance in like manner as are permits for the erection of bay windows. Permits issued under this section shall be issued in duplicate, and one of such duplicates shall be filed in the Department of Buildings. All fees received under this section shall be accounted for and paid over as provided in section 465 of this ordinance. Nothing herein contained shall be construed to revoke any permit or authority heretofore lawfully issued or given.

Sec. 467. Any person, firm or corporation violating any of the provisions of this ordinance relating to bay windows, shall be liable to a fine of one hundred dollars (\$100) for each offense, and for ten dollars (\$10) for each and every day that such offense shall continue.

Sec. 468. No person or persons shall hereafter construct, in the boroughs of Manhattan, Brooklyn or The Bronx, any porch over a cellar-door, under the penalty of one hundred dollars. (R. O. 1897, sec. 181.)

Sec. 469. No person or persons shall construct or continue any platform, stoop or step in any street in The City of New York, which shall extend more than one-tenth part of the width of the street, nor more than seven feet, nor with any other than with open backs or side railings, nor of greater width than is necessary for the purpose of a convenient passageway into the house or building; nor, in the boroughs of Manhattan, Brooklyn or The Bronx, any stoop or step which shall exceed five feet in height, under the penalty of one hundred dollars. (R. O. 1897, sec. 182, with verbal changes.)

Sec. 470. Nothing contained in the preceding sections of this article shall be deemed to prohibit the continuance of any porches, doors, stoops, platforms or steps which were heretofore erected, unless the same shall be complained of to the Board of Aldermen, which may direct their removal or alteration within a reasonable time. (R. O., 1897, sec. 183.)

Balustrades.

Sec. 472. No balustrade shall hereafter be erected, excepting from the second story of any house, nor shall it project more than one-twentieth of the width of the street wherein it may be erected, nor more than three feet in any case whatever. (R. O., 1897, sec. 185.)

Sec. 473. None but iron braces and railings shall be used for balustrades; the strength and firmness shall be tested by the Superintendent of Buildings and in case he objects to the strength of the same it shall be made as he shall direct or be removed under the penalty of five dollars for each day during which it remains after such direction. (R. O. 1897, sec. 186.)

Sec. 474. No posts shall be erected or put up in any of the streets, roads, lanes or highways in The City of New York, unless under the direction of the President of the Borough in which such post is to be erected, under the penalty of five dollars for every such post so erected. (R. O., 1897, sec. 187, with verbal changes.)

No person, firm or corporation shall hereafter erect, place, keep or maintain any sign, sign post, awning or marquee, awning-post, horse-trough or storm-door, or exhibit any banner, placard or flag in or across any street or thoroughfare, or from houses or other buildings, unless a license therefor shall have been granted as hereinafter more specifically provided.

Sec. 477. All such licenses shall be granted by authority of the Mayor and issued by the Bureau of Licenses, for such terms as are hereinafter named, and shall be in force and effect for the term specified, unless sooner suspended or revoked by the Mayor. The Chief of the Bureau of Licenses shall have power to hear and determine complaints against any of the licensees hereunder, and impose a fine of two dollars (\$2) for any violation of the regulations herein provided, and, subject to the approval of the Mayor, shall have power to suspend the license pending payment of such fine.

Awnings (or marquees) of tin or other light metal or canvas, or of iron and glass, may be erected across the sidewalks of any of the streets of The City of New York, except Broadway, Fifth avenue, Lexington avenue, Madison avenue and the Bowery, in the Borough of Manhattan, provided any and every such awning shall not be higher than the floor of the second story of the building (the ground floor being considered the first floor), but in no case to be covered with wood, and every awning or watershed of any kind covering one-half or less than the full width of the sidewalk shall have connected therewith a gutter and leader of material and size sufficient for conducting the water from the same to the outer line of the curbstone. Drop awnings, without vertical supports, may be erected within the stoop lines, but in no case to extend beyond six feet from the house line, and to be at least eight feet in the clear above the sidewalk.

Sec. 481. All posts fixed in any street for the purpose of supporting any awning shall be of iron not exceeding six inches in diameter, and the rail crossing the same shall be also of iron; the said posts shall be placed next to and along the inside of the curbstone, and the cross rail, which is intended to support the awning, shall not be less than eight, nor more than ten, feet in height above the sidewalk, and the said cross rail shall be strongly secured to the upright posts. Sec. 484. Horse troughs may be placed on sidewalks, adjacent to the curb, provided they be of a size and pattern approved by the President of the Borough in which they are located, and shall in no way prove an impediment to pedestrians. For each horse trough located in The City of New York the licensee therefor shall stipulate with the Commissioner of Water Supply, Gas and Electricity to pay as compensation such amount as shall be deemed an equivalent to or as may be provided by the scale of water rents for the water supplied.

Sec. 485. No horse trough shall be placed except as prescribed in section 484, and for each horse trough so placed a license fee of one dollar (\$1) shall be paid.

Sec. 486. Temporary open structures for the shelter of relays of horses in use by street surface railroad companies may be erected in the centre of the carriageway of thoroughfares where the width thereof is sufficient to allow it, and in the carriageway, near the curb, with the consent of the abutting property owner; they shall be permitted only during the months of June, July, August and September of each year, and shall be removed at once thereafter at licensee's expense. The President of the Borough in which the shelter is to be erected shall determine as to whether the width of the street is sufficient.

Sec. 491. No temporary open structures for the shelter of relays of horses shall be erected except as prescribed in section 490, and for each structure so erected a license fee of five dollars (\$5) shall be paid.

Sec. 495. All licenses granted under the provisions of sections 476 to 493, inclusive, shall be for the term of one year from the date of issue thereof, except as otherwise provided, and any license before its expiration or within fifteen days thereafter may be renewed for another term, upon the payment of one-half the license fee designated therefor. Notices of expiration of licenses shall be served upon licensees by the Police Department, upon information furnished by the Chief of the Bureau of Licenses. Failure to renew a license within the time herein prescribed shall be forthwith reported by the Police Department to the President of the Borough, who shall at once direct that the encroachment, whatever it may be, shall be removed.

Sec. 496. Any person, firm or corporation engaging in or attempting that which is contrary to the provisions of sections 476 to 493, inclusive, shall be deemed guilty of a misdemeanor and upon conviction thereof by any Magistrate, either upon confession of the party or competent testimony, may be fined the sum of five dollars (\$5) for each offense, and one dollar (\$1) in addition for every day during which such misconduct is persisted in, and in default of payment of such fine may be committed to the City Prison by such Magistrate until the same be paid; but such imprisonment shall not exceed ten days.

Goods when exhibited shall not be placed more than three feet from the building line, and not to a greater height than five feet above the level of the sidewalk.

Barber poles not exceeding five feet in height and other emblematic signs may be placed within the stoop line, or fastened to the railing of any stoop, under the same conditions as to dimensions, consent and so forth, as hereinabove provided for show cases. (R. O. 1897, sec. 199.)

LEOPOLD W. HARBURGER, ISAAC MARKS, REGINALD S. DOULL, PIERCE N. POOLE, Committee on Codification.

Alderman Ware moved the following amendment: Strike out sections 452 to 467, inclusive, of the proposed Code and insert in lieu and stead thereof the following:

Sec. 452. The Borough Presidents and the Park Commissioners having jurisdiction, shall issue permits for the erection of bay windows projecting beyond the building line, provided in the opinion of the officer having jurisdiction no injury will come to

the public thereby. Permits for the erection of bay windows lying within any park, square or public place, or within a distance of three hundred and fifty feet from the outer boundaries thereof, shall be issued by the Park Commissioner having jurisdiction, as provided in section 612 of the Charter, as amended by section 1, chapter 723 of the Laws of 1901. Permits for the erection of all other bay windows shall be issued by the Borough President having jurisdiction.

For the purpose of this ordinance a "bay window" shall be taken to mean and include all projections on the face of a building in the nature of windows, such as are commonly called bay windows, show windows, oriel windows and bow windows, without regard to the material of which they are constructed or to the purpose for which they are to be used.

Sec. 453. Before the erection of any bay window projecting beyond the building line shall have been commenced, the owner or his duly authorized agent shall make application in writing to the officer having jurisdiction, on suitable blanks furnished by him, and shall state the length and width of the proposed bay window, the number of stories through which it is intended to be carried, and the number of square feet of area covered by that portion of the bay window projecting beyond the building line. Drawings showing the size of and area covered by the bay window, the number of stories through which it is proposed to be carried and its location in reference to the lot and building lines shall be submitted with each application, and for the purpose of computing the area covered by a bay window projecting beyond the building line the outside face of the bay, exclusive of cornices, pilasters, trims, etc., shall be the line taken as a basis of computation.

Each application for the erection of a bay window projecting more than one foot beyond the building line shall have indorsed thereon the consent of all the adjoining property owners within a distance of fifty feet from the centre of the bay window, on the same side of the street; meaning thereby so much of the side of a street as is unintersected by any other street on which it is proposed to be erected.

Each application shall be accompanied by the amount of the compensation due the City for the privilege of erecting said bay window, as hereinafter provided.

Sec. 454. Each application for the erection of a bay window projecting more than one foot beyond the building line shall be accompanied by a certified copy of the last assessed valuation of the property on which said bay window is to be erected, which appears upon the books of the Department of Taxes and Assessments. Except as hereinafter provided the amount that shall be paid as a compensation to the City for the privilege of erecting each bay window shall be at the rate of ten per cent. of the assessed valuation per square foot of the property on which the said bay window is to be erected, for each and every square foot, or fraction thereof, of area covered by said bay window beyond the building line for each and every story through which it is carried.

If the projection of a bay window does not exceed one foot beyond the building line, and it is not carried higher than the sill of the second-story windows, the rate throughout The City of New York shall be ten cents for each square foot or fraction thereof of horizontal area covered by said bay windows beyond the building line.

Sec. 455. Bay windows may be hereafter erected with a projection of not more than three feet beyond the building line, provided that when the projection exceeds one foot beyond the building line the total number of feet in width occupied by all the bay windows on the same frontage of the same building shall not exceed seventy-five per cent. of the width of the frontage of the building on which they are located. When the total number of feet to width occupied by all the bay windows on the same frontage of the same building exceeds seventy-five per cent. of the width of the frontage of the building on which they are located, the projection shall not exceed one foot beyond the building line, nor shall the bay window be carried higher than the sill course of the second-story windows.

Sec. 456. Permits for the erection of bay windows shall be issued in duplicate, one of which shall be retained by the applicant, and kept at the building during the erection of the window, and the other shall be filed by him, with the plans for the construction of the window, in the Department of Buildings. If it shall appear, upon completion, that the bay window occupies a greater number of square feet, or has been carried through a greater number of stories than shall have been paid for, the applicant shall pay twice the sum previously paid for each square foot of area occupied by said bay window over and above the number of square feet paid for originally.

Sec. 457. Permits granted pursuant to the provisions of this ordinance are revocable permits, and shall have the following clause printed thereon, viz.: "This permit is issued subject to revocation thereof at any time hereafter by the Board of Aldermen of The City of New York, upon the recommendation of the officer having jurisdiction, when the space occupied by said bay, or any portion thereof, may be required for any public improvement, or upon any violation of any of the terms or conditions upon which this permit is issued." A permit for the erection of a bay window shall be deemed to have expired when the bay window is taken down, and the space formerly occupied thereby shall no longer be used for the purpose for which the permit was issued, unless a permit for its reconstruction shall have been granted, as provided in section 7 of this ordinance. In case it is thereafter desired to erect a bay window on the said property, the applicant shall comply with all the provisions of this ordinance.

Sec. 458. Permits for the reconstruction of now existing bay windows as defined by this ordinance, and for the reconstruction of all bay windows which shall be hereafter erected under the provisions of this ordinance, shall be issued by the officer having jurisdiction, without the applicant's obtaining the consent of adjoining property owners, as provided in section 453 of this ordinance; provided that the bay window, when reconstructed, shall have no greater projection or width, nor be carried through a greater number of stories, nor cover a greater area, than the window as originally constructed. And, further, provided that no fee shall be charged for the reconstruction of bay windows which have been erected under the provisions of this ordinance, or for which a fee has been paid for the privilege of erecting the same under the provisions of the laws in force at the time of the erection of the said bay window. The restrictions specified under section 455 of this ordinance shall not apply to the reconstruction of now existing bay windows; but permits issued for the reconstruction of now existing bay windows, for which no fee has heretofore been paid, shall be paid for as provided in section 454 of this ordinance.

Sec. 459. Nothing herein contained shall be deemed to conflict with the provisions of the Building Code, and all bay windows for which permits are issued, under the provisions of this ordinance, shall be erected in accordance with all the provisions of said Code in regard to the kind and quality of materials used. No plans for the construction of a bay window as defined in this ordinance shall be approved by the Superintendent of Buildings until the permit is filed, as provided by section 456 of this ordinance.

Sec. 460. All fees received by the Borough Presidents or the Park Commissioners for the issuing of permits for the erection of bay windows shall be accounted for in proper books kept for that purpose, and shall be turned over by them to the City Chamberlain and credited to the General Fund.

Sec. 461. Any person, firm or corporation violating any of the provisions of the preceding nine sections of this ordinance shall be liable to a fine of ten dollars (\$10) for each offense, and one dollar (\$1) for each and every day that such offense shall continue, which shall be duly sued for and collected.

Sec. 462. A permit for the continuance of any now existing bay window which projects beyond the building line may be issued by the officer who, according to section 452 of this ordinance, has jurisdiction over the erection of bay windows at the same place. Application for such permit must be in writing and must be accompanied by a certified copy of the last assessed valuation of the property on which such bay window stands, which appears upon the books of the Department of Taxes and Assessments, and must also be accompanied by a survey showing the dimensions of such bay window and the number of stories through which it is carried. The application shall be accompanied by the amount of the compensation due the City for the privilege of continuing the bay window, calculated in the same manner and at the same rate as are provided in sections 453 and 454 of this ordinance. Permits shall be issued under this section without consent of adjoining property owners. Permits issued under this section shall be subject to all of the provisions of section 457 of this ordinance, in like manner as are permits for the erection of bay windows. Permits issued under this section shall be issued in duplicate, and one of such duplicates shall be filed in the Department of Buildings. All fees received under this section shall be accounted for and paid over

as provided in section 460 of this ordinance. Nothing herein contained shall be construed to revoke any permit or authority heretofore lawfully issued or given.

(Ordinance approved January 30, 1903, as amended by ordinance approved June 25, 1903.)

SPECIAL ORDERS RESUMED.

Alderman Owens called up Special Order No. 168, being a communication and resolution, as follows:

No. 2377.

Department of Public Charities, }
October 9, 1905.

To the Honorable the Board of Aldermen:

Gentlemen—The Board of Estimate and Apportionment of the last administration in its allowance to this Department for the year 1904 reduced the departmental estimate of supplies \$135,650.41. This, of course, greatly crippled the Department, but by deferring action upon everything which would admit of delay without detriment to the service and by the exercise of the strictest economy the deficiency for the year was kept below \$25,000 which your Honorable Board subsequently voted for the relief of the Department. Now another year has passed away and the conditions are financially much worse. The effect of the past two winters, very unusual as they were for length and severity, has been to largely increase the cares and responsibilities of the Department. For instance: The departmental estimate of supplies for 1905 was based upon an approximated census of 9,755, when in fact, the average daily census for the first six months of 1905 was 10,127, or 372 persons more than the number approximated. On that basis and for that purpose the Department should receive \$38,313.46 more than it asked. The Board of Estimate and Apportionment had of course no reason to contemplate or anticipate the conditions which so largely increased the burdens of the Department and did in fact, reduce the original amount asked for supplies \$121,318.69.

Increase in the census causes corresponding increase in other directions for supplies, salaries, equipments, etc.

No provision has been made for the board of New York City patients at the New York State Hospital for Incipient Tuberculosis at Raybrook, N. Y., established last year by authority of the Legislature, and the sum of \$12,000 is needed for that purpose.

The fund for donations to Grand Army Veterans was only \$18,000, while the actual expenditures amounted to \$23,164.64 for the year 1904, hence about \$6,000 is needed to make good the deficit.

Supplementary contracts for flour, provisions, vegetables, coffee and other supplies were opened August 4 and 21, but in the absence of funds applicable thereto, cannot be certified.

Your Honorable Body is therefore most urgently requested to appropriate the sum of \$120,000 and have the same added to the appropriations to this Department for the year 1905 as follows:

Salaries	\$15,000 00
Supplies and Contingencies.....	99,000 00
Donations to Grand Army Veterans.....	6,000 00
	<hr/>
	\$120,000 00

Respectfully,

JAMES H. TULLY, Commissioner.

No. 2436.

The Committee on Salaries and Offices, to whom was referred on November 14, 1905 (Minutes, page 432), the annexed resolution in favor of an issue of Special Revenue Bonds, \$6,000, for use of the Brooklyn Disciplinary Training School, respectfully

REPORT:

That, having examined the subject, they recommend that the said resolution be adopted.

Office of the Brooklyn Disciplinary Training School for Boys,
Eighteenth Avenue, Between Fifty-sixth and Fifty-eighth streets,
Brooklyn, November 13, 1905.

To the Hon. Board of Aldermen of The City of New York:

Gentlemen—The inclosed statement and request for the sum of \$6,000 was presented to the Board of Estimate and Apportionment at a meeting in September last, which was accepted and referred to the Department of Finance, who verbally informed us there were no available funds to meet this necessary demand, and requested that the same be presented to your Honorable Board for action; hence we respectfully and urgently request that, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, to have the sum of \$6,000 added to the appropriation of this institution for the year 1905, and to authorize the Comptroller to issue Special Revenue Bonds to the amount of \$6,000, the proceeds whereof shall be applied to meet the deficiency in the expense account of the Brooklyn Disciplinary Training School for Boys for the balance of the year 1905.

Very respectfully,

EPHRAIM BYK, Chairman of Finance Committee.

Office of the Brooklyn Disciplinary Training School for Boys,
Eighteenth Avenue, Between Fifty-sixth and Fifty-eighth Streets,
Brooklyn, September 9, 1905.

To the Hon. GEORGE B. MCLELLAN, Chairman of Board of Estimate and Apportionment, City Hall, New York City:

Sir—We respectfully submit the following resolution referring to the necessity of applying to the Honorable Board of Estimate and Apportionment for the sum of \$6,000, in addition to the sum of \$48,000 allowed for the year 1905, or a sum amounting to \$1,600 in excess of the amount allowed for the year 1904, \$52,400:

Whereas, The Special Finance Committee appointed at the last meeting of the Board of Management of this institution, having carefully investigated the expenditures submitted by the Superintendent, finds that the sum left to our credit in the Finance Department is inadequate to discharge the financial obligations of this institution up to January 1, 1906;

Resolved, That the Finance Committee of the Board of Management present the inclosed detailed statement of expenditures for the first six months of the present year at the first meeting of the Board of Estimate and Apportionment, and respectfully impress his Honor the Mayor and the gentlemen of the Board of Estimate and Apportionment with the importance of taking immediate action in granting us an amount of not less than \$6,000 over the sum of \$48,000 appropriated for the support and maintenance of this institution during the year 1905.

This extra appropriation is made necessary by the large increase in the cost of supplies, a few of which are as follows: Bread, 40 per cent.; sugar, 20 per cent.; clothing material, 25 per cent., and many other items over 10 per cent., found in our competitive bids on our duly advertised proposals, over which we have no control.

We trust the foregoing facts will be accepted and supported by the accompanying financial statement, which explains conditions in detail, and that the Honorable Board of Estimate and Apportionment will furnish the necessary amount of \$6,000 herewith applied for, to liquidate necessary expenditures for the balance of the year 1905.

Respectfully submitted,

EPHRAIM BYK, Chairman, Finance Committee.

(The statement herein referred to has already been published in the Departmental Estimates.)

Resolved, That, upon the annexed request of the Board of Management of the Brooklyn Disciplinary Training School, the Board of Estimate and Apportionment be and hereby is requested, in pursuance to subdivision 8 of section 188 of the Greater New York Charter, to authorize the Comptroller to issue Special Revenue Bonds to the amount of six thousand dollars (\$6,000), the proceeds whereof shall be applied to meet the deficiency in the following expense account of the Brooklyn Disciplinary Training School for the year 1905:

Salaries	\$1,850 00
Supplies	4,150 00

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.
