BOARD OF ESTIMATE AND APPORTIONMENT.

CITY OF NEW YORK, BOARD OF ESTIMATE AND APPORTIONMENT.

PUBLIC NOTICE IS HEREBY GIVEN that at a meeting of the Board of Estimate and Apportionment, held September 14, 1906, the following petition was received:

To the Honorable the Board of Estimate and Apportionment:

The New York Central and Hudson River Railroad Company, for itself and as lessee of the New York and Harlem Railroad Company, being about to change the motive power used upon the said New York Central and Hudson River Railroad and the said New York and Harlem Railroad, within The City of New York, from steam to electricity, and having

erected at Port Morris, in the Borough of The Bronx, a power house for the purpose of generation of such electricity, applies for a franchise for the construction of ducts or subways through the following streets and between the following points:

Beginning at the point in Webster avenue where East One Hundred and Ninety-fourth street, if prolonged across Webster avenue, would touch the right of way of the New York and Harlem Railroad Company; thence substantially northwesterly across Webster avenue to One Hundred and Ninety-fourth street; thence substantially northwesterly through One Hundred and Ninety-fourth street to the point between Valentine avenue and the Concourse where East One Hundred and Ninety-fourth street joins the Kingsbridge road; thence substantially northwesterly through the Kingsbridge road to the point or place where Heath avenue crosses Kingsbridge road; thence substantially southwesterly through the Kingsbridge road to a point where said Kingsbridge road touches the tracks of the New York and Putnam Railroad.

Beginning at a point at the westerly line of the right of way of the Spuyten Duyvil and Port Morris Railroad situated on Exterior street, at a point about 300 feet south of West One Hundred and Ninety-fourth street; thence substantially westerly across said Exterior street.

Being the route shown on the white prints hereto annexed, marked "A," "B" and "C."

The purpose of these ducts or subways is to transmit electricity from the said power house to the lines of the New York Central and Hudson River Railroad Company and of the New York and Harlem Railroad Company.

The New York Central and Hudson River Railroad Company is a corporation, formed by the consolidation on the 1st day of November, 1869, of the railroads known as the New York Central Railroad and the Hudson River Railroad. The Hudson River Railroad was chartered by chapter 216 of the Laws of 1846, with power to build a railroad and transport, take or carry any property or persons upon the same by the power and force of steam, animals, or of any mechanical or other power, or by any combination of them. The New York and Harlem Railroad Company was chartered by chapter 263 of the Laws of 1831, with power to build a railroad and carry property and persons upon the same, by the power and force of steam, animals or of any mechanical or other power, or by any combination of them.

By chapter 425 of the Laws of 1903 the New York Central and Hudson River Railroad Company, for itself and as lessee of the New York and Harlem Railroad Company, were forbidden, after the expiration of five years from the passage of said act, to operate trains by steam locomotives in Park avenue, in The City of New York, south of the Harlem river. Both railroad companies enter The City of New York, passing through Park avenue, in said City, with a terminus at Forty-second street. They were further authorized to run their trains by electricity or by compressed air, or by any motive power other than steam, and it was further specified in the said act that no power house, constructed to supply electricity for the purpose of said act, should be placed upon Manhattan Island more than two blocks from the water front, except with the consent of the Board of Estimate and Apportionment.

The power house has been constructed at Port Morris, in the Borough of The Bronx.

The franchise asked for is a necessary incident to the operation of the trains of the New York Central and Hudson River Railroad, for itself and as lessee of the New York and Harlem Railroad Company, in carrying out the purposes of the said act of 1903, and in carrying out the purpose of changing its motive power from steam to electricity, within The City of New York.

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or her name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 430 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
