MESSAGES FROM THE MAYOR.

The Vice-Chairman laid before the Board the following message from his Honor the Mayor:

No. 3137.

City of New York, Office of the Mayor, March 18, 1913.

To the Honorable The Board of Aldermen:

I herewith transmit to you for your consideration a revised ordinance concerning water rents, which I trust may be passed by your honorable body. With it I send a letter from the Water Commissioner showing the necessity for the revision. The present ordinance was passed in 1849. It provides a frontage rate of charges for buildings up to five stories high. At that time it was not anticipated that buildings would be erected of a greater height than that. This revised ordinance is to meet that case, and prescribe a rate for buildings over five stories in height. This is one of the things to be corrected. The Commissioner's letter will disclose to you the other things. Very truly yours,

W. J. GAYNOR, Mayor.

The City of New York, Department of Water Supply, Gas and Electricity, Commissioner's Office, 13-21 Park Row, New York, March 17, 1913.

Hon. WM. J. GAYNOR, Mayor, City of New York:

Sir—I am transmitting herewith proposed amendment to section 282 of the General Ordinances in relation to water rents and charges. Since 1849 there has been in force, without change, a scale of frontage rate charges for buildings having a frontage up to 50 feet and not exceeding five stories in height. When this scale was adopted it was probably thought that for many years no buildings would be erected over five stories in height and of a greater frontage than 50 feet. It is probably twenty years or more since buildings of greater dimensions than the schedule anticipated were constructed, and since that time there has never been any lawful rate for such buildings, although by custom the Department has arbitrarily fixed rates where a building was over five stories in height and exceeded 50 feet in frontage.

The proposed amendment to the existing ordinance permits of the establishment of a rate for any size building, regardless of the number of stories or its frontage. Of course, you understand that the frontage rate affects the business building the same as the premises used for domestic purposes, until such time as a meter is installed. From 1849 until 1910 the frontage rate for rear buildings was based upon a \$5.00 annual charge for each 25 feet frontage. This rate was probably established by one of the former Commissioners who had discovered that in the schedule of charges there was no provision for rear buildings. In 1910 a question arose regarding the rates for rear buildings and the Corporation Counsel stated that, owing to the fact that the ordinance fixed a rate for buildings without making any distinction between front and rear, the Department would have to apply a charge for all rear buildings on the same basis as front buildings were classed.

I am of the opinion that under section 473 of the Charter it was the intent to establish a different rate for rear buildings and I have accordingly incorporated in this proposed ordinance a rate for rear buildings, which will be on the same basis as existed in the former City of New York for sixty years. All of the other extra and miscellaneous rates are, with but few exceptions, the same as exist to-day and which have been in force for many years. The only material change affects the charge for water supplied to shipping and for water furnished to boilers used for hoisting, excavating, etc. The present rate for water supplied to boats is unreasonably small.

This draft of ordinance has been prepared by the Corporation Counsel and I have discussed it with the different Borough Deputy Commissioners, and it is agreed that it covers every possible use of water. Practically all of the miscellaneous and extra rates included in this schedule have never heretofore been covered by an ordinance, and it has been claimed that the Department has always been without any lawful authority to impose these rates and collect charges.

If, in your opinion, this schedule properly establishes a reasonable and uniform rate for water supplied by this City, I would ask that you kindly forward this schedule to the Board of Aldermen for adoption, pursuant to section 473 of the Charter. Respectfully,

HENRY S. THOMPSON, Commissioner.

P. S. For further information regarding this subject, and particularly the change in the schedule of frontage rates, see my communication of October 28, 1912.

H. S. T.

The Vice-Chairman laid before the Board the following communication from the Health Commission:

No. 3143.

City of New York, Department of Health, Office of the Secretary, March 14, 1913.
Hon. P. J. SCULLY, City Clerk, City Hall, New York:

Sir—Enclosed is a resolution adopted by the Board of Health March 11, 1913, petitioning the Board of Aldermen to request the Board of Estimate and Apportionment pursuant to the provisions of subdivision 8 of section 188 of the Greater New York Charter, to authorize the Comptroller to issue special revenue bonds in the sum of \$60,400 for the purpose of enabling the Department of Health to adequately maintain and extend the work of mosquito extermination in the Boroughs of Brooklyn, Queens and Richmond during the year 1913, as specified therein.

The amounts asked for maintenance for these boroughs are very much needed to continue the work so well begun four years ago. Owing to lack of funds many of the drainage trenches have become obstructed through various causes and up to a certain extent nullified what has been done.

Originally in the Boroughs of The Bronx and Queens, the work was done by the owners of land on orders issued by the Board of Health and this method required a great deal of time and effort to obtain results. It would be impossible to do effective maintenance work in this manner now, for the reason that the time required to ascertain the names of present owners to whom to issue the orders will be too great, so far as obtaining results within the breeding season is concerned. Many parcels of lands have changed hands and the only way to secure the best results is for the Department to perform the work in a thorough and comprehensive manner with its own help.

In addition to the work on the salt marsh areas, these laborers could be used when necessary to abate inland nuisances, many of which occur from time to time during the summer months. In the Boroughs of The Bronx and Queens are several parcels of land still undrained, while in the Borough of Brooklyn practically no work has been done. In the Borough of Richmond, the work is progressing nicely, but would be greatly accelerated by the employment of additional laborers, which, if secured, will be divided into squads of ten men each to cover widely separated areas, both for draining and oiling, and the island made virtually immune from mosquito breeding.

It is requested that you will submit the matter to the Board of Aldermen at its next meeting for consideration.

EUGENE W. SCHEFFER, Secretary.

Very truly yours,
City of New York, Department of Health, Office of the Secretary, March 14, 1913.

The Vice-Chairman laid before the Board the following communications from the Board of Estimate and Apportionment:

No. 3145.

City of New York, Board of Estimate and Apportionment, Office of the Secretary, 277 Broadway, March 10, 1913.

Hon. JOHN PURROY MITCHEL, President, Board of Aldermen:

Dear Sir—I transmit herewith certified copy of resolution adopted by the Board of Estimate and Apportionment March 6, 1913, disapproving the request of the Board of Aldermen for the issue of \$600 special revenue bonds, to be used by the Commissioner of Street Cleaning in increasing the salary of Edward P. Greene, Assistant Superintendent of Final Disposition, from \$1,500 to \$2,100 per annum.

The report of the Comptroller, presented at the same meeting, recommended the disapproval of the above request for the reason that this increase in salary would be in direct violation of the resolution adopted by the Board on January 30, 1913, relative to salary increases, and the Secretary was directed to notify the Board of Aldermen and the Commissioner of Street Cleaning to that effect. Very truly yours,

JOSEPH HAAG, Secretary.

Resolved, That the Board of Estimate and Apportionment hereby disapproves of the request of the Board of Aldermen, as set forth in a resolution adopted by said Board January 28, 1913, for the issue of six hundred dollars (\$600) special revenue bonds, the proceeds whereof to be used by the Commissioner of Street Cleaning for increasing the salary of Edward P. Greene, Assistant Superintendent of Final Disposition, from \$1,500 to \$2,100 per annum.

Hon. JOHN PURROY MITCHEL, President, Board of Aldermen:

Dear Sir—I transmit herewith certified copy of resolution adopted by the Board of Estimate and Apportionment March 6, 1913, disapproving the request of your Board for the issue of \$5,000 special revenue bonds to be used by the Fire Department for contingent expenses of the Bureau of Fire Prevention.

The report of the Comptroller, presented at the same meeting, recommended the disapproval of the above request for the reason that it appears there are sufficient funds in accounts available by transfer to meet the needs of said Bureau, and the Secretary was directed to notify your Board and the Fire Commissioner to that effect.

Very truly yours,
JOSEPH HAAG, Secretary.

Resolved, That the Board of Estimate and Apportionment hereby disapproves of the request of the Board of Aldermen, as set forth in a resolution adopted by said Board February 4, 1913, for the issue of five thousand dollars (\$5,000) special revenue bonds, the proceeds whereof to be used by the Fire Department for contingent expenses of the Bureau of Fire Prevention.

The Vice-Chairman laid before the Board the following communication from the Board of Assessors:

No. 3147.
Office Board of Assessors, No. 320 Broadway, New York, March 11, 1913.
Hon. JOHN PURROY MITCHEL, President, Board of Aldermen, 51 Chambers St., City:

Sir—The Board of Assessors respectfully requests that the Board of Aldermen issue special revenue bonds to the amount of \$1,462.50 to provide for the increase in salary of the following named employees in the Office of the Board of Assessors, to take effect April 1, 1913:

Title.	Rate Per Annum.	Proposed Rate Per Annum.	Number of Incumbents.

One Stenographer and Typewriter.....	1,800 00	2,100 00	1
One Topographical Draftsman.....	1,650 00	1,950 00	1

The three Clerks it is proposed to increase to \$1,800 per annum are John J. Sheehan, William H. Steffens and Adolph J. Cohn.

Mr. Sheehan was appointed to service with this Board January 23, 1908. He computes assessments after the Board has planned procedure and established rates and areas.

Mr. Steffens was appointed in June, 1907. He is a computer of assessments and his work has been found very satisfactory to the Board.

Mr. Cohn was appointed in January, 1908. Mr. Cohn is a computer of assessments and the Board deems his work such that he is entitled to the above increase.

Mr. Rauch, the Clerk who it is proposed to increase to \$1,650 per annum, was transferred from the Board of Water Supply to service with this Board in June, 1908. Mr. Rauch is a computer of assessments, and the Board deems his work of such a character that he deserves the increase requested.

Mr. Bostwick, the Clerk who it is proposed to increase to \$2,250 per annum, was appointed in March, 1894. Mr. Bostwick's work has been very satisfactory, and the fact of his long experience in the office makes him a very valuable man. He is a computer of assessments.

Mr. Parry, the Stenographer and Typewriter, was transferred to this office from the Board of Water Supply on June 1, 1906. The office of the Board of Assessors prior to February, 1910, had a Stenographer at a salary of \$2,250 per annum, whose duties consisted of the taking of testimony and keeping of papers in connection with claims for damages brought under special acts of the Legislature. Since the resignation of the above Stenographer, Mr. Parry has taken all testimony submitted in these special matters, in addition to his regular work. The position of Stenographer at \$2,250 per annum was stricken from the 1911 Budget. The Board thinks, in view of the volume and character of work done by Mr. Parry, that the increase requested is merited.

Mr. Wieder, the Draftsman who it is proposed to promote to a salary of \$1,950 per annum, was appointed February, 1907. He prepares all special maps for the use of the Board; calculates drainage areas in connection with assessment lists; engrosses titles for assessment lists and various other duties in connection with his position. The Board finds his work satisfactory and deems it fit to increase his salary to the above amount.

The character of the work which is done in this office calls for very careful men, as each assessment laid requires a consideration of previous assessments, the rates of same and also the future assessments which the property will be called upon to bear. The men whose salaries it is proposed to increase have been willing and faithful at all times to assist the Board of Assessors in their endeavor to keep the work of the office up to date, thus avoiding excessive interest charges.

We respectfully call your attention to our last annual report as bearing out the above statements. Respectfully submitted,
THOS. J. DRENNAN, Secretary.

The Vice-Chairman laid before the Board the following communication from the President, Borough of Queens:

No. 3148.
The City of New York, Office of the President of the Borough of Queens, Long Island City, February 21, 1913.
To the Honorable Board of Aldermen, City Hall, New York City:

Gentlemen—The Budget for 1913 provides, among other things, under line 3201, General Plant Equipment, for the purchase of Scarifiers by the Department of Highways, Borough of Queens.

The efficiency and quality of the work of the various types of scarifiers is so different that it will be impossible to obtain the best form of scarifier and the most economical scarifier by means of public letting.

I hereby make application to your Honorable Board, pursuant to the provisions of section 419 of the Greater New York Charter, for authority to purchase three (3) Scarifiers without public letting for the use of the Highway Bureau, Borough of Queens, the total cost not to exceed thirteen hundred and fifty (\$1,350) dollars.

I request that your Honorable Board grant this application at an early date so that we may be able to obtain the same for use during the early part of the coming working season. Yours very truly,

MAURICE E. CONNOLLY, President of the Borough of Queens.

No. 3149.
The City of New York, Department of Parks, Office of Commissioner for the Borough of The Bronx, Zbrowski Mansion, Claremont Park, March 12, 1913.
Hon. JOHN PURROY MITCHEL, President, Board of Aldermen, City Hall, New York City:

Dear Sir—Request is hereby made upon the Honorable Board of Aldermen for the issue of revenue bonds in the amount of \$8,500 for the purpose of resurfacing the roadway of Crotona ave., lying within the northerly and southerly boundaries of Crotona Park in the Borough of The Bronx.

The amount requested is based upon a careful estimate made by the Chief Engineer of this department. I urge your early and favorable consideration of this request, as the roadway in question is in very miserable shape, and the resurfacing which it is proposed to do is very urgently needed. Respectfully,

T. J. HIGGINS, Commissioner of Parks, Borough of The Bronx.

Hon. JOHN PURROY MITCHEL, President, Board of Aldermen, City Hall, New York City:

Sir—Request is hereby made upon the Honorable Board of Aldermen for the

issue of revenue bonds in the amount of \$974.25 to pay the wages of a Foreman Wheelwright at the rate of \$4.50 per diem, for 216½ days, between April 1 and December 31, 1913. This excludes Sundays and half Saturdays.

When the Budget for the current year was being made up, the Budget Committee struck out provision for Foreman Wheelwright, and it is to restore the position that this request is made. Respectfully,

T. J. HIGGINS, Commissioner of Parks, Borough of The Bronx.

The City of New York, Department of Parks, Office of Commissioner for the Borough of The Bronx, Zbrowski Mansion, Claremont Park, March 12, 1913.

Hon. JOHN PURROY MITCHEL, President, Board of Aldermen, City Hall, New York:

Sir—Request is hereby made upon the Honorable Board of Aldermen for the issue of Revenue Bonds to the extent of \$1,500 for the purpose of enabling the Engineering force of this department to properly catalogue and index several hundred maps, original drawings and tracings which are of great value to this department, and which I have been unable to have properly indexed.

In this connection, I desire to call your attention to Code 305B, authorized July 2, 1909, upon which final payment was made March 7, 1911. The appropriation of corporate stock was in the amount of \$5,000, "For Fireproofing Vault in the Office Building, Claremont Park." After building the vault and purchasing the necessary map and document files, there is remaining a balance of \$1,380.80 which will be returned to the general fund. It will, therefore, be seen that in making this request for revenue bonds to the extent of \$1,500, I am exceeding by but a very few dollars the original appropriation. It is an absolute necessity that this cataloging and filing be done, in order that the valuable maps and drawings belonging to the department may be properly safeguarded, and valuable time saved, when it is necessary to produce any certain map or drawing.

I respectfully urge that this request may receive your favorable attention at an early date. Respectfully,

T. J. HIGGINS, Commissioner of Parks, Borough of The Bronx.

The Vice Chairman laid before the Board the following communications from the President, Borough of Brooklyn.

No. 3153.

The City of New York, Office of the President of the Borough of Brooklyn, Brooklyn, March 18, 1913.

The Honorable, the Board of Aldermen:

Gentlemen—Recently the Sinking Fund Commission obtained quarters for the Corporation Counsel's office at 153 Pierrepont st., and an appropriation was also granted for removing their branch offices from the Borough Hall to the above address. The offices occupied by the Corporation Counsel in the Borough Hall are to be divided up for the use of the Appellate Division of the Supreme Court and our Bureau of Buildings. We estimate that it will cost about \$13,500 for altering the rooms in the Appellate Division to make them useful as a court room and judges' quarters, and the cost of altering the rooms for the use of the Bureau of Buildings will be \$3,300, making a total of \$16,800, and I would respectfully request that your Board authorize an issue of special revenue bonds in this amount for the alterations herein mentioned.

Yours very truly,

Reports of Committee on Finance—

No. 3024 (S. O. No. 208).

The Committee on Finance, to which was referred on March 11, 1913 (Minutes, page 984), the annexed request from the District Attorney of Kings County for

\$5,000 Special Revenue Bonds for expenses in extraditing fugitive criminals, respectfully

REPORTS:

That having examined the subject, it believes an allowance to be necessary for this purpose. The District Attorney stated that \$2,000 would suffice for the year 1913, and the Committee recommends that the accompanying resolution be adopted.

Resolved, That in pursuance of the provisions of Subdivision 8 of Section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue Special Revenue Bonds to the amount of two thousand dollars (\$2,000), the proceeds whereof to be used by the District Attorney of Kings County for the purpose of paying expenses of extraditing fugitive criminals. All obligations contracted for hereunder to be incurred on or before December 31, 1913.

District Attorney's Office, County of Kings, Brooklyn, New York, February 26, 1913.

Board of Aldermen, City Hall, New York City:

Dear Sirs—I hereby make application for an issue of revenue bonds for expenses in extraditing fugitive criminals from Kings County, and I suggest that the amount of the authorization be five thousand (\$5,000) dollars.

By resolution of the Board of May 10, 1910, an issue of such bonds in the sum of five thousand dollars was authorized for these expenses. This resolution was approved by the Mayor and later authorized by the Board of Estimate and Apportionment. The entire amount then authorized has been expended, except the sum of about one hundred and thirty-three (\$133) dollars, and the expenses of an extradition proceeding that is now being taken will practically exhaust that amount.

If such an issue is deemed to be proper, I trust it may be authorized promptly, for there are now several matters in this office in which extradition proceedings should be taken and which I am holding up until advised that the funds to meet the expenses will be available. Through an oversight on the part of this office, I was not advised sooner, as I should have been, that the fund available for such expenses was almost exhausted.

Respectfully, JAMES C. CROUSEY, District Attorney.

To the Honorable the Board of Aldermen:

Gentlemen—We would respectfully request that Special Revenue Bonds to the amount of \$7,350.00 be issued in order that the following persons may be employed by this Department for the new Children's Hospital, Kings County Hospital. The other employees (nine in number) will be transferred to the new Children's Hospital. This new building, five stories and basement, will have a capacity of at least 150 beds devoted to children requiring in the main special treatment, and will be ready for occupancy by June 1, 1913:

The Committee on Finance, to which was referred on March 11, 1913 (Minutes, page 987), the annexed resolution in favor of an issue of \$3,800 Special Revenue Bonds to be used by the Commissioner of Water Supply, Gas and Electricity for purchase of an auto and auto-truck, respectfully

REPORTS:

That having examined the subject, it believes the proposed auto and auto-truck to be necessary. The details of the application are set forth in the letter of request. It, therefore, recommends that the said resolution be adopted.

Resolved, That in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of Three Thousand Eight Hundred Dollars (\$3,800), the proceeds whereof to be used by the Commissioner of Water Supply, Gas and Electricity for the purpose of purchasing one (1) automobile truck at a cost not to exceed Two Thousand Dollars (\$2,000), and Eighteen Hundred Dollars (\$1,800) to be used in purchasing by exchange a passenger automobile.

HENRY H. CURRAN, JOHN DIEMER, ROBERT F. DOWNING, FRANCIS P. KENNEY, JAMES HAMILTON, FRANK J. DOTZLER, C. AUGUSTUS POST, Committee on Finance.

The City of New York, Department of Water Supply, Gas and Electricity, Commissioner's Office, 13-21 Park Row, New York, March 4, 1913.

Hon. JOHN P. MITCHEL, President, Board of Aldermen:

Dear Sir—The company in charge of the repair and maintenance of the water distribution system at Coney Island covers the largest territory, and for that reason has been selected to try out the advantages of transporting the men assigned thereto and for the carrying of the necessary tools and implements used by them in shutting off and repairing damaged mains and hydrants. Wagons are now employed for this purpose and it frequently occurs that the attention of the men is required at the most remote point in their district. Six or eight men respond to every such call. Their weight, in addition to that of the tools, etc., places a very heavy strain upon the horse and, consequently, it cannot travel at any great speed. In the case of a serious break every moment counts. The City is held liable for all damage to private property by water escaping from a broken main, or hydrant.

Aside from the damage to private property others, whose property is located beyond the point of danger of damage by water, are naturally inconvenienced by the lack of water, and in my opinion it is the duty of The City to use every means to respond to these emergency calls in the least possible time; to promptly repair the damage, and to restore the water supply. One means of accomplishing this would be the employment of a motor vehicle. This method of transportation, where prompt and quick delivery of goods is essential, is now generally recognized by most commercial houses, and the gas and lighting companies, whose work on emergency calls is

somewhat similar in their line to that performed by the Department repair companies, all use motor vehicles.

I would respectfully request, therefore, that the Board of Aldermen authorize an issue of special revenue bonds in the sum of \$2,000 for the purchase of an auto truck.

The automobile which I use has been in service three years. In my inspections of the watersheds and of the other properties under the control and management of this Department I have traveled many miles, and the automobile is not in very good condition. The expense of restoring it by purchasing new parts would not warrant the outlay. I can secure a new car by exchanging the old automobile upon the payment of \$1,800. The car to be obtained under this arrangement would be the latest model, and if properly handled should be serviceable for four or five years. I believe that The City should at all times keep its equipment in first-class condition and take advantage of every improvement in equipment which tends to render more efficient service.

I would request, therefore, that the Board of Aldermen authorize an issue of special revenue bonds in the sum of \$1,800 to purchase, by exchange, a new automobile.

Herewith I enclose draft of resolution, which I would ask that you kindly submit with this communication at the next meeting of the Board of Aldermen.

Yours truly,

HENRY S. THOMPSON, Commissioner.

The Committee on Finance, to which was referred on March 11, 1913 (Minutes, page 988), the annexed request from the Commissioner of Water Supply, Gas and Electricity for \$375 Special Revenue Bonds to meet deficit in salary of inspector omitted from the Budget, respectfully

REPORTS:

That having examined the subject, it believes the proposed appropriation to be necessary. This amount was by some error not requested in the tax levy budget, although the remainder of the salary was asked for and allowed in the Corporate Stock Budget.

The Committee recommends that the accompanying resolution be adopted.

Resolved, That in pursuance of the provisions of Subdivision 8 of Section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue Special Revenue Bonds to the amount of Three hundred and seventy-five dollars (\$375), the proceeds whereof to be used by the Commissioner of Water Supply, Gas and Electricity for the purpose of paying the tax levy portion of salary of Inspector Cornelius J. Burns for the year 1913, by replenishing account known as "Distribution—Salaries, Tax Levy and Corporate Stock Force" to said amount.

Department of Water Supply, Gas and Electricity, Commissioner's Office, 13-21 Park Row, City of New York, March 3, 1913.

Hon. JOHN PURROY MITCHEL, President, Board of Aldermen:

Dear Sir—In the budget for 1913, through an error made in setting up the schedules, the position of one Inspector at \$1,500 per annum, under "Distribution—Salaries, Tax Levy and Corporate Stock Force," was omitted. This position is held by Cornelius J. Burns, who for some years has been a regular employee in the Borough of Queens.

The tax levy portion of his salary for the year is \$375, and I therefore ask that your Honorable Board request the Board of Estimate and Apportionment to authorize the issue of revenue bonds in the said sum of \$375.

Hon. JOHN PURROY MITCHEL, President, Board of Aldermen, New York City:

Sir—Pursuant to section 188, subdivision 8, of the Greater New York Charter, I respectfully request that your honorable Board authorize the issue of revenue bonds of The City of New York in the sum of one hundred thirty-nine dollars (\$139), the proceeds thereof to be used for increased compensation for one Upholsterer, from \$4 to \$4.50 per day, for the year 1913.

Under date of April 18, 1912, the Board of Estimate and Apportionment adopted a resolution establishing the grade of Upholsterer at \$4.50 per day, and requested the several City departments to provide for said compensation.

I would, therefore, request your immediate action. Respectfully,

The Committee on Finance, to which was referred on March 11, 1913 (Minutes, page 988), the annexed request from the Commissioner of Water Supply, Gas and Electricity for \$2,920 special revenue bonds for wages of Foremen on a per diem basis, respectfully

REPORTS:

That the letter of request gives the details of this application. The Committee believes the proposed allowance to be an equitable one, and therefore recommends that the accompanying resolution be adopted.

Resolved, That in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of two thousand nine hundred and twenty dollars (\$2,920), the proceeds whereof to be used by the Commissioner of Water Supply, Gas and Electricity for the purpose of paying for temporary time due Foremen in said Department employed on a per diem basis during the year 1913.

HENRY H. CURRAN, JOHN DIEMER, ROBERT F. DOWNING, FRANCIS P. KENNEY, JAMES HAMILTON, FRANK DOTZLER, C. AUGUSTUS POST; Committee on Finance.

The City of New York, Department of Water Supply, Gas and Electricity, Commissioner's Office, 13-21 Park Row, New York, February 27, 1913.

Hon. JOHN PURROY MITCHEL, President, Board of Aldermen:

Dear Sir—In the departmental estimate of appropriations for this year the Foremen receiving a per diem wage were placed on an annual salary, but the Board of Estimate and Apportionment made provision for them instead at a per diem rate. They did not, however, make allowance necessary to provide for the temporary time to meet the requirements of the service, as shown by previous experience, and it is necessary that a further sum of \$2,920 be allowed.

I therefore respectfully request that your Honorable Board ask the Board of Estimate and Apportionment to authorize the issue of revenue bonds in that amount.

REPORTS:

That, having examined the subject, it believes the proposed appropriation to be necessary. The details are set forth in the application.

The Committee recommends that the accompanying resolution be adopted.

Resolved, That in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be

and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of five hundred and twenty-five dollars (\$525), the proceeds whereof to be used by the Commissioner of Water Supply, Gas and Electricity for the purpose of hire of horses and wagons in the Borough of Queens, as follows: Horse and wagon for Inspector, seventy-five days at \$3 per day, \$225; horse and wagon for Plumber, five months at \$60 per month, \$300. All obligations contracted for hereunder to be incurred on or before December 31, 1913.

HENRY H. CURRAN, JOHN DIEMER, ROBERT F. DOWNING, FRANCIS P. KENNEY, JAMES HAMILTON, FRANK DOTZLER, C. AUGUSTUS POST; Committee on Finance.

The City of New York, Department of Water Supply, Gas and Electricity, Commissioner's Office, 13-21 Park Row, New York, February 27, 1913.
Hon. JOHN PURROY MITCHEL, President, Board of Aldermen:

Dear Sir—There is occasional need in the Borough of Queens for the use of horses and wagons for an Inspector and Plumber, and a request was made for an appropriation for this year of \$525. There was not any appropriation, however, made for the purpose, presumably because this appeared as a new item, the expense in previous years having been paid out of the appropriation for contingencies. The necessity is just as pressing this year, and the appropriation for contingencies cannot be used for that purpose.

I therefore respectfully request that your Honorable Board ask the Board of Estimate and Apportionment to authorize the issue of revenue bonds to the amount of \$525 to provide:

Horse and Wagon for Inspector, 75 days, at \$3 per day.....	\$225 00
Horse and Wagon for Plumber, 5 months, at \$60 per month.....	300 00

The Committee on Finance, to which was referred on March 11, 1913 (Minutes, page 909), the annexed resolution in favor of an issue of \$5,000 special revenue bonds to be used by the President of the Borough of Queens for the purpose of removing encroachments from the property of the City, respectfully

REPORTS:

That, having examined the subject, it believes the proposed appropriation to be necessary. The details of the application are set forth in the letter accompanying the resolution. Other Boroughs are provided with facilities to do this work which is now becoming a serious question in the rapidly growing Borough of Queens. The Committee recommends that the said resolution be adopted.

Resolved, That, pursuant to the provisions of section 188, of the Charter of The City of New York, the Comptroller is hereby authorized to issue special revenue bonds to an amount not exceeding five thousand (\$5,000) dollars, proceeds whereof to be expended by the President of the Borough of Queens, for the purpose of removing encroachments from the property of The City of New York.

The City of New York, Office of the President of the Borough of Queens, Long Island City, February 26, 1913.

To the Honorable Board of Aldermen, City of New York:

Gentlemen—Pursuant to the provisions of section 188 of the Charter of The City of New York, application is hereby made for an issue of special revenue bonds to an amount not exceeding five thousand (\$5,000) dollars, proceeds whereof to be expended by the President of the Borough of Queens, for the removal of encroachments from the property of The City of New York.

In connection with the above application, I beg to call your attention to the fact that in the Borough of Queens there is no Bureau of Encumbrances, therefore, no moneys available for the purpose of removing buildings or parts of buildings encroaching on City property and in the way of public improvements, and as I am, from time to time, requested by the Commissioners of the Sinking Fund to demolish and remove such encroachments as are offered for sale at an upset price, but for which no bids have been received, I am unable to comply with the request of this Commission.

I would therefore request that your honorable Board give this matter your earnest consideration, in order that I can proceed with the demolition and removal of buildings now in the way of several public improvements in progress in this Borough.

Resolution herewith enclosed. Yours very truly,

MAURICE E. CONNOLLY, President of the Borough of Queens.

The Committee on Finance, to which was referred on March 11, 1913 (Minutes, page 989), the annexed request from the Park Commissioner of Manhattan and Richmond for \$25,000 special revenue bonds for repairs of streets under his jurisdiction, respectfully

REPORTS:

That the details of this request are fully set forth in the letter of application. The Commissioner appeared before the Committee and filed the accompanying statement and strongly urged favorable action, stating that the streets in question are getting in worse condition all the time. The Committee believes that \$15,000 will be sufficient for present needs, and therefore recommends that the accompanying resolution be adopted.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of fifteen thousand dollars (\$15,000), the proceeds whereof to be used by the Park Commissioner of Manhattan and Richmond for the purpose of repairing streets outside of the parks under his jurisdiction. All obligations contracted for hereunder to be incurred on or before December 31, 1913.

HENRY H. CURRAN, JOHN DIEMER, ROBERT F. DOWNING, FRANCIS P. KENNEY, JAMES HAMILTON, FRANK J. DOTZLER, C. AUGUSTUS POST; Committee on Finance.

The City of New York, Department of Parks, Boroughs of Manhattan and Richmond, Arsenal, Central Park, March 7, 1913.

To the Honorable the Board of Aldermen, The City of New York:

Gentlemen—I respectfully request that you ask the Board of Estimate and Apportionment to authorize an issue of special revenue bonds to an amount of twenty-five thousand dollars (\$25,000), the proceeds whereof to be applied to the repair of streets outside of the parks under my jurisdiction.

In the annual budget for the year 1913 an appropriation of \$12,000 was allowed for this purpose. A contract was entered into chargeable against this account on February 11, in which was included repairs to sheet asphalt and asphalt block pavement. The proportion of the contract which provided for repairs to sheet asphalt pavement is entirely used up, and the streets are still in a very bad condition. The expenditure made during the past two months for repairs to sheet asphalt pavement amounted to \$9,500.

I transmit the following list showing the streets and the number of square yards of sheet pavement laid on each:

Mail st., square yards.....	292.18
59th st. and 5th ave. circle, square yards.....	38.60
59th st. and 8th ave., square yards.....	322.20
86th st., between Central Park West and Amsterdam ave., square yards....	65.43
110th st. 7th ave. to 6th ave., square yards.....	2,061.49
110th st. and 7th ave. intersection, square yards.....	264.26
6th ave. intersection, square yards.....	301.08
110th st. 6th to 5th ave., square yards.....	654.14
110th st. and 5th ave. circle, square yards.....	1,084.32
110th st., between 7th ave. and Manhattan ave., square yards.....	930.34

Total square yards..... 6,014.04

Columbus Circle, at 59th st. and 8th ave., was in a deplorable condition, and, as it is subjected to heavy traffic, requires constant attention. 110th st., between 5th and 8th aves., will also need further attention to keep it in condition for the balance of the year.

In addition to the streets mentioned in the list submitted herewith there are a

number of other streets under the jurisdiction of this department which will have to be cared for at an early date.

If there are any further details required when this matter comes before the Finance Committee of your Board I will be pleased to furnish same.

Respectfully yours, CHARLES B. STOVER, Commissioner of Parks, Manhattan and Richmond.

Which was laid over.

REPORTS:

That, having examined the subject, it believes the proposed appropriation to be necessary. The details of the application are set forth in the letter of request and the copy of specifications hereto attached.

It therefore recommends that the accompanying resolution be adopted.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of five thousand dollars (\$5,000), the proceeds whereof to be used by the President of the Borough of The Bronx for the purpose of defraying the cost of taking down and rebuilding the parapet walls of the Borough Hall, Borough of The Bronx. City of New York, President of the Borough of The Bronx, 3d Avenue and 177th Street, Office of the President, February 27, 1913.

To the Honorable Board of Aldermen of The City of New York:

Gentlemen—Request is hereby made for an issuance of special revenue bonds to the extent of \$5,000 for defraying the cost of taking down and rebuilding the parapet walls of the Borough Hall, Borough of The Bronx.

These walls are in a very bad and dangerous condition, and need rebuilding immediately. During heavy storms, water leaks down the sides of the walls and destroys not only the walls themselves but other property in the building. Tracings on which men are at work on the drafting tables are very often destroyed by the dropping of water, which starts up so suddenly that it is impossible to remove them in time. During such storms, the men are also prevented from doing any work at all for the reason that no dry place can be found.

The contemplated work consists of taking down and rebuilding the existing walls down to the terra cotta coping, replacing all 12-ounce copper flashing under all parapet walls around the entire building, resetting all terra cotta and bluestone coping and the pointing up of all the stone work on the balustrade at the west side of the building.

I would urgently request that this appropriation be made in order that the building and other City property may be protected. Yours truly,

CYRUS C. MILLER, President of the Borough of The Bronx.

Specification for the Taking Down and Re-Building All Parapet Walls, Above the Roof of the Municipal Building, Located at S. E. Corner of 177th Street and Third Avenue, Borough of the Bronx, City of New York.

Furnish all labor and materials necessary for taking down the entire parapet walls of main building above the flashing and terracotta cornice, also the taking down of all brickwork of balustrade at west side of building at the second story and rebuilding all said work with front brick for facing these walls to be of the kind, color and quality as now existing in all face work of this building; the backing to be of good hard burned North River brick and all work to be laid up in Portland cement mortar made up of not more than 3 parts of good sharp sand and one part of portland cement thoroughly mixed, and all joints properly filled and grouted. Reset all terra cotta and blue stone coping and replace all anchors and provide new anchors where necessary, anchors of bluestone coping to be secured by leading in the same, also point up all stone work of balustrade at west side of building at the second story with portland cement mortar. Furnishing and set 12 ounce copper flashing to be placed under all parapet walls the entire width of wall and projecting one inch wider than wall on the outside of same and turned down over present roofing not less than 4 inches.

Also remove all debris and other materials from the premises at the completion of the work.

Which was laid over.

REPORTS:

That having examined the subject, and finding, after consultation with the several Borough Presidents, that a change is desirable in the existing ordinances relating to the subject in order that the fees provided for may be more proportionate and consistent, it, therefore, recommends that the annexed substitute ordinance be adopted. (SUBSTITUTE.)

AN ORDINANCE to rescind and repeat sections 158 and 159 of Article 5, Chapter 5, of Part 1, and Section 12 of Article 1, Chapter 1 of Part 14 of the Code of Ordinances of The City of New York, relating to "Sewers and Drains," and substituting in lieu thereof new sections 158 and 159.

Be it ordained, by the Board of Aldermen of The City of New York, as follows:

Section 158. Every sewer connection shall be made under the supervision of a City Inspector of Sewer Connections. [For the purpose of this section, a sewer connection shall consist of] all that portion of the house sewer service pipe lying between the main sewer and the property line or vault line (if there be a vault) of the property to be drained by said service pipe.

In the Boroughs of Manhattan and Brooklyn the fee to be paid to the President of the Borough for such inspection shall be ten (10) dollars; in the Boroughs of The Bronx, Queens and Richmond the fee shall be five (5) dollars.

Which was laid over.

All such fees shall be deposited with the Department of Finance and be credited to special funds entitled "Sewer Inspection and Repair" for the Borough in which the service is rendered.

No additional charge shall be made for the sewer connection to a building erected in place of one that has been removed, demolished or destroyed in whole or in part, or extensions or alterations made to same, unless actually a new connection be required.

Section 159. No person, firm or corporation shall permit any substance to flow or pass into any sewer, drain or receiving basin, connecting with a public sewer, which may form a deposit tending to choke said sewer, drain or basin—each violation shall be subject to a penalty of fifty (50) dollars.

All connections, with sewers or drains, used for the purpose of carrying off wastes from water closets, kitchen sinks, or otherwise, shall have facilities for a sufficiency of water to be properly discharged, so as to safely carry off such matters, under the penalty of five (5) dollars for each day the fixtures are permitted to remain without adequate means for supplying said water.

Section 2. This ordinance shall take effect immediately.

(ORIGINAL.)

Resolved, That section 158 of the Code of Ordinances be and it is hereby amended to read as follows:

Three (3) dollars shall be paid to the Borough President granting the permit in each Borough for permission to connect each house, store or building with any sewer or drain. for payment of salaries and wages of additional force on telegraph system of the Fire Department in the Boroughs of Brooklyn and Queens, respectfully

REPORTS:

That having examined the subject, it believes the proposed bond issue to be necessary to enable the Department to make the numerous changes constantly demanded in the outlying portions of these boroughs, and to properly care for the present equipment, the force now employed being entirely insufficient for the purpose. As the funds could not in the usual course be available until at least April 15, a reduction of one-half month has been made. The Committee recommends that the accompanying substitute be adopted.

Resolved, That, pursuant to the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Aldermen hereby requests the Board of Estimate and Apportionment to authorize the Comptroller to issue special revenue bonds in an amount not to exceed nineteen thousand four hundred and thirty-seven dollars (\$19,437), the proceeds to be applied to the payment for the period from April 1 to December 31, 1913, of the salaries and wages of the additional force required for the maintenance and inspection of the lines and equipment of the telegraph system of the Fire Department in the Boroughs of Brooklyn and Queens.

The Committee on Finance, to which was referred on February 25, 1913 (Minutes, page 649), the annexed resolution in favor of an issue of \$20,000 special revenue bonds for rebuilding a sea wall in the 1st Ward, Borough of Queens, respectfully

REPORTS:

That the reasons for this request are fully set forth in the letter of application. This matter has been pending for a long period and has now reached a stage where the work is imperative.

The Committee recommends that the said resolution be adopted.

Resolved, That pursuant to the provisions of section 188 of the Greater New York Charter, the Comptroller is hereby authorized to issue special revenue bonds to an amount not exceeding twenty thousand dollars (\$20,000), proceeds whereof to be expended by the President of the Borough of Queens, for the purpose of rebuilding sea wall on the westerly side of the Boulevard, from a point about 100 feet south of Jamaica ave. to a point about 200 feet north of Temple st., 1st Ward of the Borough of Queens.

HENRY H. CURRAN, ROBERT F. DOWNING, JOHN DIEMER, JAMES HAMILTON, THOS. J. MULLIGAN, C. AUGUSTUS POST, FRANCIS P. KENNEY, Committee on Finance.

The City of New York, Office of the President of the Borough of Queens, Long Island City, February 18, 1913.

To the Honorable Board of Aldermen, New York City:

Gentlemen—In accordance with the provisions of section 188 of the Greater New York Charter, it is respectfully requested that your Honorable Board approve of and recommend to the Board of Estimate and Apportionment the necessary authorization for the issue of special revenue bonds to an amount not exceeding twenty thousand dollars (\$20,000), for the rebuilding of a sea wall on the westerly side of the Boulevard, from a point about 100 feet south of Jamaica ave. to a point about 200 feet north of Temple st., 1st Ward, Borough of Queens.

On October 19, 1912, a like application was made to your Honorable Board, on which the Committee on Finance reported that the same required no further consideration, and recommended that the same be ordered on file.

Since making this application this sea wall, which acts as a retaining wall to the adjacent road, has actually failed, and, to prevent the street from caving in, the same should be given immediate attention, if not, I will be compelled to close off this part of the street to the public traffic, which will necessitate the stopping of trolley cars, etc.

I would therefore request that your Honorable Board give this application favorable consideration, as a recent inspection reveals the fact that the action of the elements has resulted in a deformation of the wall to such an extent that the only thing supporting it is the jamming of some of the bottom stones, and, should one of these stones become loosened, it is possible that there might be a general collapse of the wall and the Boulevard pavement. Such a collapse would result in carrying away the Boulevard area as far inshore as the car tracks or to the centre of the street.

Resolution enclosed herewith. Yours very truly,

MAURICE E. CONNOLLY, President of the Borough of Queens.

The Vice-Chairman put the question whether the Board would agree to accept said report and adopt said resolution.

Which was decided in the affirmative by the following vote:

4. Until the provisions of this ordinance shall have been complied with, no license shall be issued.

352d.

1. Plans—Before the erection, construction or alteration of a building, or part thereof, to be used as a motion picture theatre, there must be filed with the Superintendent of Buildings complete plans and detailed statement as set forth in section 4 of the Building Code. The plans must show clearly and fully the location and width of all exits, passageways, stairs, fire escapes, aisles, etc., arrangement of seats, size of floor beams, walls, supports, etc.; the location and construction of the inclosure for the motion picture light and machinery, and for other similar apparatus; a diagram of the lot or plot, showing outlets from all exits, and also such other statements, plans or details as may be required by the Superintendent of Buildings.

2. Prohibition—Motion picture theatres shall not be constructed in frame buildings within the fire limits, nor in hotels, tenement houses or lodging houses; nor in factories or workshops, except where the theatre is separated from the rest of the building by unpierced fireproof walls and floors, and in no case shall they be constructed or operated above or below the ground floor of any building.

3. Exits and Courts—All such buildings must be provided on the main floor of the theatre with at least two separate exits, one of which shall be in the front and the other in the rear, both leading to unobstructed outlets on the street. Where the main floor of the theatre accommodates more than 300 people there shall be at least three such exits, the aggregate width in feet of such exits shall not be less than one-twentieth of the number of persons to be accommodated thereby. No exits shall be less than 5 feet in width and there shall be a main exit not less than 10 feet in total width.

In all such buildings to be erected or to be altered so as to be used for a motion picture theatre, if unobstructed exit to a street cannot be provided at the rear of such buildings, as herein specified, either an open court or a fireproof passage or corridor must be provided from rear exit to the street front, of at least the following width: 4 feet in the clear for theatres accommodating 100 persons or less, for every additional 100 persons the width to be increased 8 inches. Such passage must be constructed of fireproof material and must be at least 10 feet high in the clear. The walls forming such passage must be at least 8 inches thick, of brick or other approved fireproof material, and if there be a basement the wall on the auditorium side should either run 1 foot below the cellar bottom or may be carried in the cellar on iron columns and girders properly fireproofed according to sections 106 and 107 of the Building Code.

The ceiling of said passage, and if there be a basement, the flooring must be constructed according to section 106 of the Building Code.

If unobstructed rear exit or exits to a street are provided the said exit or exits must be of the same total width required for the court or passage above mentioned.

Said passages and exits to the street, as above, must be used for no other purposes except for exit and entrance and must be kept free and clear.

The level of the open court or passage at the front of the building shall not

be greater than one step above the level of the sidewalk, and the grade shall not be more than 1 foot in 10, with no perpendicular rises.

All exit doors must be unlocked when building is open to the public. They must be fireproof and made to open outwardly and so arranged as not to obstruct the required width of exit or court when opened. All doors leading to fire escapes must be not less than 40 inches wide in the clear, and shall be located at the opposite side or end of the gallery, from other exit doors.

4. Galleries and Stairs—A gallery may be permitted, but it shall not include more than twenty-five per cent. of the total seating capacity of the theatre. Entrance to and exit from said gallery shall in no case lead to the main floor of the theatre, and the gallery shall be provided with a stair or stairs equipped with handrails on both sides. Stairs over 7 feet wide shall be provided with center handrail. The risers of the stairs shall not exceed 7¾ inches, and the treads, excluding nosings, shall be not less than 9½ inches. The total width of the stairs shall not be less than 8 feet in the clear where the gallery accommodates 150 people; for every 50 people less than 150 which the gallery accommodates said width may be reduced one foot.

Stairs shall be constructed of fireproof material, and such material and the bearing capacity of such stairs shall be approved by the Bureau of Buildings.

Galleries must also be provided with at least one line of fire escapes leading to an open court, fireproof passage or street without re-entering the same or any other building.

5. Fire Escapes—All fire escapes must have balconies not less than 3 feet 4 inches in width in the clear and not less than 4 feet 6 inches long, and from said balconies there shall be staircases extending to the ground level with a rise of not over 7¾ inches and a step of not less than 9½ inches, and the width of stairs must not be less than 3 feet 4 inches.

Auditorium and Other Rooms—If the walls of the auditorium contain wood studs, they shall be covered with either expanded metal lath or wire mesh and plastered with three coats of first class plaster, or may be covered with metal on one-half inch plaster boards. The joints shall be properly filled with mortar.

The ceilings of all such rooms shall be plastered with three coats of first class plaster on wire mesh or metal lath, or covered with one-half inch plaster boards and plastered or covered with metal.

If there be a basement or cellar, the ceiling under the auditorium floor must be plastered with three coats of first class plaster on wire mesh or expanded metal lath, or may be covered with metal on one-half inch plaster boards.

The basement or cellar under the auditorium shall be kept free and clear except the space used for the heating apparatus, for machinery connected with the theatre, and for coal.

7. Construction of Booths—Apparatus for projecting motion pictures shall be enclosed in a booth or enclosure constructed so as to be fireproof, in accordance with the specifications of chapter 756 of the Laws of 1911. Booths shall contain an approved fireproof box for the storage of films not on the projecting machine. Films shall not be stored in any other place on the premises; they shall be rewound and repaired either in the booth or in some other approved fireproof enclosure.

Where miniature motion picture machines are employed in connection with private exhibitions, the requirements of the above paragraph may be so modified as to permit instead of the regulation booth, an approved fireproof box, unventilated, and of a size only sufficient to properly enclose the machine.

8. Gradients—To overcome any difference of level in and between corridors, lobbies and aisles, gradients of not over one foot in ten feet, or steps having a rise not over eight inches and a width of not less than ten inches must be used.

9. Aisles—All aisles in the auditorium and gallery must not be less than three feet wide in the clear. No aisle, passageway or space in the rear of the auditorium shall be obstructed by any camp stool, chair, sofa or settee, nor shall any person be permitted to stand or sit therein.

10. Chairs—All chairs in the auditorium except those contained in the boxes, must not be less than 32 inches from back to back and must be firmly secured to the floor. No seat in the auditorium shall have more than seven seats intervening between it and an aisle. 13. Toilets—Toilets separate for sexes must be provided.

14. Fire Apparatus—Portable fire apparatus shall be provided of the following kind and number: Ten-quart capacity buckets, painted red with the word "Fire" in black, the letters four inches high, to the number of 6 for places seating less than 300 without a gallery, and two additional if there be a gallery; to the number of ten in places seating over 300 persons, and four additional if there be a gallery. If gas stoves, oil stoves or other apparatus throwing off products of combustion are used to heat motion picture theatres, said products of combustion must be carried to the outside air by means of a fireproof flue or flues.

No radiator shall be placed in the aisles so as to lessen the width below the minimum requirement.

Ventilation—Motion picture theatres having less than 200 cubic feet of air space for each person, or motion picture theatres in which the outside window and door area is less than one-eighth of the floor area, shall be provided with artificial means of ventilation which shall supply during the time the audience is present, at least 500 cubic feet of fresh air per hour for each person.

Motion picture theatres having more than 200 cubic feet of air space for each person or which have outside windows and doors, the area of which is equal to at least one-eighth of the floor area, shall be provided with artificial means of ventilation, which shall be in operation when the outside temperature requires the windows to be kept closed, and which shall supply during the time the audience is present, at least 500 cubic feet of fresh air per hour for each person. When the artificial ventilation is not in operation ventilation by means of open doors and windows shall be sufficient to provide each person with 500 cubic feet of fresh air per hour.

Motion picture theatres having more than 1,000 cubic feet of air space for each person and having outside windows and doors the area of which is equal to at least one-eighth of the total floor area, shall not be required to have artificial means of ventilation, provided the air is thoroughly changed by freely opening doors and windows immediately before the admission of the audience, and at least every 4 hours thereafter.

No part of the fresh air supply required by any of the above paragraphs of this section shall be taken from any source containing vitiated air.

The area of outside doors and windows shall mean the area capable of being freely opened to the outside air for ventilation purposes.

When fresh air is supplied by means of ventilating openings, at least one inlet

shall be situated at one end of the room, and at least one outlet at the other end of the room. Where exhaust or inlet fans are necessary, at least one of such fans shall be placed in an outlet opening. The inlet opening or openings shall be placed in the floor or within two feet from the floor, and the outlet opening or openings in the ceiling or within two feet of the ceiling. The inlet openings and their surroundings shall be kept free from dust so that the incoming air shall not convey dust nor stir up dust as it enters.

During the time the audience is present, the air in the theatres shall be kept continuously in motion by means of fans to the number of at least one to every 150 persons. Such fans shall be placed in positions remote from the inlet and outlet openings. No person shall be exposed to any direct draft from any air inlet.

The booth in which the picture machine is operated shall be provided with an opening in its roof or upper part of its side walls, leading to the outdoor air. The vent flue shall have a minimum cross sectional area of 50 square inches and shall be fireproof. When the booth is in use, there shall be a constant current of air passing outward through said opening or vent flue at the rate of not less than 30 cubic feet per minute.

Cards showing types 20, 30 and 40 shall be displayed on the side walls, together with a copy of this paragraph of the ordinance.

2. Heating—When the temperature of the outdoor air is below 60 degrees F. the air in the theatre, while an audience is present, shall be maintained at a temperature not lower than 62 degrees F. nor higher than 70 degrees F.

If gas stoves, oil stoves or other apparatus throwing off products of combustion are used to heat motion picture theatres, said products of combustion must be carried to the outside air by means of a fireproof flue or flues.

No radiator shall be placed in the aisles so as to lessen the width below the minimum requirement.

3. Ventilation—Motion picture theatres having less than 200 cubic feet of air space for each person, or motion picture theatres in which the outside window and door area is less than one-eighth of the floor area, shall be provided with artificial means of ventilation which shall supply during the time the audience is present, at least 500 cubic feet of fresh air per hour for each person.

Motion picture theatres having more than 200 cubic feet of air space for each person or which have outside windows and doors, the area of which is equal to at least one-eighth of the floor area, shall be provided with artificial means of ventilation, which shall be in operation when the outside temperature requires the windows to be kept closed, and which shall supply during the time the audience is present, at least 500 cubic feet of fresh air per hour for each person. When the artificial ventilation is not in operation ventilation by means of open doors and windows shall be sufficient to provide each person with 500 cubic feet of fresh air per hour.

Motion picture theatres having more than 1,000 cubic feet of air space for each person and having outside windows and doors the area of which is equal to at least one-eighth of the total floor area, shall not be required to have artificial means of ventilation, provided the air is thoroughly changed by freely opening doors and windows immediately before the admission of the audience, and at least every 4 hours thereafter.

No part of the fresh air supply required by any of the above paragraphs of this section shall be taken from any source containing vitiated air.

The area of outside doors and windows shall mean the area capable of being freely opened to the outside air for ventilation purposes.

When fresh air is supplied by means of ventilating openings, at least one inlet shall be situated at one end of the room, and at least one outlet at the other end of the room. Where exhaust or inlet fans are necessary, at least one of such fans shall be placed in an outlet opening. The inlet opening or openings shall be placed in the floor or within two feet from the floor, and the outlet opening or openings in the ceiling or within two feet of the ceiling. The inlet openings and their surroundings shall be kept free from dust so that the incoming air shall not convey dust nor stir up dust as it enters.

During the time the audience is present, the air in the theatres shall be kept continuously in motion by means of fans to the number of at least one to every 150 persons. Such fans shall be placed in positions remote from the inlet and outlet openings. No person shall be exposed to any direct draft from any air inlet.

The booth in which the picture machine is operated shall be provided with an opening in its roof or upper part of its side walls, leading to the outdoor air. The vent flue shall have a minimum cross sectional area of 50 square inches and shall be fireproof. When the booth is in use, there shall be a constant current of air passing outward through said opening or vent flue at the rate of not less than 30 cubic feet per minute.

Aisles must be 4 feet wide, or wider, in the discretion of the Bureau of Licenses. At least two separate exits, remote from each other, shall be provided, and no exit shall be less than 5 feet in width. For every 25 persons to be accommodated, in excess of 300, the total width of exits shall be increased 1 foot. All exits must be indicated by signs and red lights and the doors must open outwardly. The Bureau of Licenses shall issue all motion picture theatre licenses and all open air motion picture theatre licenses granted by the Mayor, and, by the authority of the Mayor, shall regulate all motion picture theatres and open air motion picture theatres, provided.

Ten days thereafter the Bureau of Licenses may disregard the failure of such departments to file written reports and in its discretion issue a license.

352D.

1. Plans—Before the erection, construction or alteration of a building, or part thereof, to be used as a motion picture theatre, there must be filed with the Superintendent of Buildings complete plans and detailed statement as set forth in section 4 of the Building Code. The plans must show clearly and fully the location and width of all exits, passageways, stairs, fire escapes, aisles, etc.; arrangement of seats, size of floor beams, walls, supports, etc.; the location and construction of the inclosure for the motion picture light and machinery, and for other similar apparatus; a diagram of the lot or plot, showing outlets from all exits, and also such other statements, plans or details as may be required by the Superintendent of Buildings.

2. Prohibition—Motion picture theatres shall not be constructed in frame buildings within the fire limits, nor in hotels, tenement houses or lodging houses, nor in factories or workshops, except where the theatre is separated from the rest of the building by unpierced fireproof walls and floors, and in no case shall they be constructed or operated above or below the ground floor of any building.

3. Exits and Courts—All such buildings must be provided on the main floor of the theatre with at least two separate exits, one of which shall be in the front and the other in the rear, both leading to unobstructed outlets on the street. The aggregate width of such exits shall be at least 18 feet where the main floor of the theatre accommodates 300 people or less. No exits shall be less than 5 feet in width, and there shall be a main exit not less than 10 feet in total width.

In all such buildings to be erected or to be altered so as to be used for a motion picture theatre, if unobstructed exit to a street cannot be provided at the rear of such buildings, as herein specified, either an open court or a fireproof passage or corridor must be provided from rear exit to the street front of at least the following width: 4 feet in the clear for theatres accommodating 100 persons or less; for every additional 100 persons the width to be increased 8 inches. Such passage must be constructed of fireproof material and must be at least 10 feet high in clear. The walls forming such passage must be at least 8 inches thick, of brick or other approved fireproof material, and if there be a basement the wall on the auditorium side should either run 1 foot below the cellar bottom or may be carried in the cellar on iron columns and girders properly fireproofed according to sections 106 and 107 of the Building Code. If unobstructed rear exit or exits to a street are provided, the said exit or exits must be of the same total width required for the court or passage above mentioned. Said passages and exits to the street, as above, must be used for no other purposes except for exit and entrance and must be kept free and clear.

The level of the open court or passage at the front of building shall not be greater than one step above the level of the sidewalk, and the grade shall not be more than 1 foot in 10, with no perpendicular rises.

A motion picture theatre may have a seating capacity of 450 persons, provided it has no gallery, provided it is located on the corner of a street and has three exits aggregating 28 feet, one of which shall be on the street side on which the main entrance is not located, there shall be an exit of not less than 10 feet, and provided that the booth and picture machine shall be located at the opposite end of the auditorium from its main entrance.

All exit doors must be unlocked when building is open to the public. They must be fireproof and made to open outwardly and so arranged as not to obstruct the required width of 40 inches exit or court when opened. All doors leading to fire escapes must be not less than 40 inches wide and shall be located at the opposite side or end of the gallery from other exit doors.

Where the ordinance to regulate aisles and passageways in the places of amusement or any other law permits the main floor of a motion picture theatre to accommodate, in addition to its seating capacity, standing room for more than 100 and less than 200 persons, there shall be at least 3 exits from the main floor, the aggregate width of which shall be at least 21 feet. Where there is standing room according to law for more than 200, the aggregate width shall be 24 feet.

Entrance to and exit from said gallery shall in no case lead to the main floor of the theatre, and the gallery shall be provided with a stair or stairs equipped with handrails on both sides. Stairs over 7 feet wide shall be provided with centre handrail. The risers of the stairs shall not exceed 7½ inches, and the treads, excluding nosings, shall not be less than 9 inches. There shall be no circular nor winding staircases.

The total width of the stairs shall not be less than 8 feet in the clear where the gallery accommodates 150 people; for every 50 people less than 150 which the gallery accommodates said width may be reduced 1 foot.

Stairs shall be constructed of fireproof material, and such material and the bearing capacity of such stairs shall be approved by the Bureau of Buildings.

Galleries must be provided with at least one line of fire escapes leading to an open court, fireproof passage or street without re-entering the same or any other building.

If the fire escape leads to a point in the court nearer the street than any exit, there must be a width of not less than 4 feet in the clear between the outer edge of the fire escape and the outer wall of the court.

5. Fire Escapes—All fire escapes must have balconies not less than 3 feet 4 inches in width in the clear and not less than 4 feet 6 inches long, and from said balconies there shall be staircases extending to the ground level with a rise of not over 7½ inches and a step of not less than 9 inches, and the width of the stairs must not be less than 3 feet 4 inches.

Construction of Booths—Apparatus for projecting motion pictures shall be enclosed in a booth or enclosure constructed so as to be fireproof, in accordance with the specifications of chapter 756 of the Laws of 1911. The booth shall be equipped with a vent flue as prescribed in section 352F, paragraph 2, of this ordinance. Booths shall contain an approved fireproof box for storage of films not on the projecting machine. Films shall not be stored in any other place on the premises; they shall be rewound and repaired either in the booth or in some approved fireproof enclosure.

When miniature motion picture machines are employed in connection with private exhibitions the requirements of the above paragraph may be so modified as to permit, instead of the regulation booth, an approved fireproof box, unventilated, and of a size only sufficient to properly enclose the machine.

8. Gradients—To overcome any difference of level in and between corridors, lobbies and aisles, gradients of not over 1 foot in 16 feet, or steps having a rise not over 8 inches and a width of not less than 10 inches must be used.

9. Aisles—All aisles in the auditorium and gallery must not be less than 3 feet wide in the clear. No aisle, passageway or space in the rear of the auditorium shall be obstructed by any camp stool, chair, sofa or settee, nor shall any person be permitted to sit therein.

10. Chairs—All chairs in the auditorium except those contained in the boxes, must not be less than 32 inches from back to back and must be firmly secured to the floor. No seat in the auditorium shall have more than seven seats intervening between it and an aisle. The space occupied by each person shall be separated from the adjoining space by means of an arm or other suitable device.

11. Signs Over Exits—Over every exit there must be painted on the inside in letters not less than 6 inches high, the word "Exit" in legible type, and one red light or illuminated sign must be placed inside over each exit, and illuminated while the audience is present.

Motion picture theatres having more than 200 cubic feet of air space for each person, or which have outside windows and doors, the area of which is equal to at least one-eighth of the floor area, shall be provided with artificial means of ventilation, which shall be in operation when the outside temperature requires the windows to be kept closed, and which shall supply, during the time the audience is present, at least 500 cubic feet of fresh air per hour for each person. When the artificial ventilation is not in operation, ventilation by means of open doors and windows shall be sufficient to provide each person with 500 cubic feet of fresh air per hour.

Motion picture theatres having more than 1,000 cubic feet of air space for each person and having outside windows and doors, the area of which is equal to at least one-eighth of the total floor area, shall not be required to have artificial means of ventilation, provided the air is thoroughly changed by freely opening doors and windows immediately before the admission of the audience, and at least every 4 hours thereafter.

No part of the fresh air supply required by any of the above paragraphs of this section shall be taken from any source containing vitiated air.

The area of outside doors and windows shall mean the area capable of being freely opened to the outside air for ventilation purposes.

When fresh air is supplied by means of ventilating opening, at least one inlet shall be situated at one end of the room, and at least one outlet at the other end of the room. Where exhaust or inlet fans are necessary, at least one such fan shall be placed in an outlet opening. The inlet opening or openings shall be placed in the floor or within 2 feet from the floor, and the outlet opening or openings in the ceiling or within 2 feet of the ceiling. The inlet openings and their surroundings shall be kept free from dust so that the incoming air shall not convey dust nor stir up dust as it enters.

During the time the audience is present, the air in the theatre shall be kept continuously in motion by means of fans to the number of at least 1 to every 150 persons. Such fans shall be placed in positions remote from the inlet and outlet openings. No person shall be exposed to any direct draft from any air inlet.

The booth in which the picture machine is operated shall be provided with an opening in its roof or upper part of its side walls, leading to the outdoor air. The vent flue shall have a minimum cross sectional area of 50 square inches and shall be fireproof. When the booth is in use, there shall be a constant current of air passing outward through said opening or vent flue, at the rate of not less than 30 cubic feet per minute.

The Commission may do the necessary work themselves or may authorize and direct it with such responsible assistants as may be willing to serve without pay and the Commission is authorized to engage a paid secretary and paid assistants, who, with the consent of the Municipal Civil Service Commission, may be exempted from the civil service rules, for the moral inspection, rejection or approval of motion picture films, as provided in the following sections of this ordinance.

352H.

Permits for Motion Picture Films After Official Moral Inspection.

1. It shall be unlawful for any person, firm or corporation to show or exhibit any motion pictures in any licensed place of public amusement, in any theatre, concert hall, motion picture theatre or in any open air motion picture theatre without first having obtained a permit therefor issued by the Motion Picture Commission as hereinafter provided. Every day's exhibition in any licensed place of public amusement without such permit therefor shall be deemed a distinct and separate violation of this ordinance.

2. The Motion Picture Commission shall not grant a permit to exhibit any motion picture until an application in writing shall have been made therefor to the Motion Picture Commission, nor until the plates, films, rolls, or other like apparatus by or from which such motion picture is shown or produced shall be inspected by the Motion Picture Commission.

3. If any motion picture for the exhibition of which an application for such permit is made is contrary to the Penal Law of the State of New York it shall be the duty of the Motion Picture Commission to refuse such permit. Otherwise it shall be the duty of the Motion Picture Commission to grant such permit.

4. In case the Motion Picture Commission shall refuse to issue such permit the applicant may appeal to the Mayor. Such appeal shall contain the statement of the grounds for the refusal of the Motion Picture Commission to grant a permit and shall be presented to the Mayor in the same manner as the original application to the Motion Picture Commission, and shown and exhibited in the same manner as before the Motion Picture Commission. If any motion picture for the exhibition of which such appeal is made to the Mayor for permit is forbidden by the Penal Laws of the State of New York it shall be the duty of the Mayor to refuse such permit. Otherwise, after he has received from the Motion Picture Commission a statement of the ground upon which a permit was refused by the censor or censors duly authorized by said board, it shall be the duty of the Mayor, in case he deems the decision of the Motion Picture Commission to be erroneous, to grant such permit, and he shall direct the Motion Picture Commission to issue it as ordered by him.

5. The permit provided for in this ordinance shall be obtained for each and every motion picture exhibited in any motion picture theatre, in any open air motion picture theatre, in every licensed theatre or concert, and every licensed place of public amusement, and shall be required in addition to any license now required by any other provision of this ordinance or by the City Charter. A fee of \$10 shall be paid to the Motion Picture Commission for each motion picture film when it is presented for moral inspection, and shall be retained by the Commission even if the application for a permit is denied. The fee for duplicate permits for films which have been approved shall be five dollars each. The receipts from the fees shall be paid to the treasury of The City of New York.

6. When such permit to show or exhibit a motion picture is once issued to any applicant, such motion picture may be shown in any duly licensed place, provided that such written permit clearly describing such motion picture is actually delivered to the licensee of such motion picture theatre or other licensed place of public amusement. Any number of transfers of such permit may be made, provided always that such permit is actually delivered to such transferee.

7. The permit provided for in this ordinance shall be posted at or near the entrance of the motion picture theatre or the open air motion picture theatre or any licensed place of public amusement where the motion picture permitted by such permit is being shown or exhibited at such a place and in such a position that such permit can easily be read by any person entering such theatre at any time when such motion picture is there being exhibited. The exhibition of any motion picture in any motion picture theatre or in any open air motion picture theatre or any licensed place of public amusement without the posting of such permit there-

for shall be considered a violation of this ordinance, and each day's exhibition of any motion picture in any motion picture theatre or open air motion picture theatre without the posting of such permit there shall be deemed a distinct and separate offense. Any manufacturer of films or his agent, or any proprietor of a film exchange or his agent, who delivers to any exhibitor for exhibition in a place of licensed amusement, without the proper written permit as provided herein, shall be guilty of a violation of this ordinance.

8. It shall be the duty of the Motion Picture Commission to number all permits for motion pictures and to keep a record of all permits for motion pictures issued, both numerically and alphabetically arranged.

9. After the exhibition of each motion picture there shall be thrown upon the screen for at least 10 seconds a fac simile of the permit for the picture just shown, giving the name of the manufacturer, the name of the picture and the number of the permit as recorded by the Motion Picture Commission. The license of each licensed place where motion pictures are exhibited shall keep a record book, open at all times to the public, in which shall be recorded, under the date or dates when it was shown, the name of each picture shown, the name of its manufacturer, the name and address of the owner of the film and the name and address of the person, firm or corporation from whom the film was rented or leased.

352I.

1. Existing places of entertainment where motion pictures are exhibited under a common show license must comply, before a reissuance of its license, with all the provisions of this ordinance, but the Bureau of Licenses shall have power, in its discretion, to enforce immediate compliance with the provisions of paragraph 3 of section 352D, as to exits and courts.

2. Existing places of entertainment seating 300 persons or less, where motion pictures are exhibited in conjunction with any other form of entertainment, shall not be entitled to a license, under the provisions of this ordinance, unless they shall discontinue all forms of entertainment, except motion pictures and songs, lectures and recitations.

352J.

With the exception of paragraph 7 of subsection "352D," subsections "352A" to "352F," inclusive, and subsections "352H," "352I," "352K" and "352L" of this ordinance shall not apply to motion picture exhibitions with or without charge for admission, conducted under the direct management of educational or religious institutions, nor to motion picture exhibitions without charge for admission given or held in private residences or bona fide social, scientific or political or athletic clubs. Before motion pictures shall be exhibited in any of the places above mentioned there shall be obtained from the Bureau of Licenses a permit for such exhibition. Before granting such permit the Bureau of Licenses shall cause to be inspected the premises where such proposed exhibition will be held, and shall grant the permit, if in its judgment the safety of the public be properly guarded. The inspection required in this subsection shall be renewed at least once each year in case an application is made for more than one permit.

352K.

The Bureau of Licenses, at its discretion, shall specify the seating capacity for each open air motion picture theatre. Aisles must be 4 feet wide, or wider, in the discretion of the Bureau of Licenses. At least two separate exits, remote from each other, shall be provided, and no exit shall be less than 5 feet in width; for every 25 persons to be accommodated in excess of 300, the total width of exits shall be increased 1 foot. All exits must be indicated by signs and red lights, and the doors must open outwardly. Seats must be stationary, with backs 32 inches apart, and so arranged that no seat shall have more than 7 seats intervening between it and an aisle. The floor must be constructed either of wood with sleepers or concrete, and must extend at least five feet from the seats on all sides, provided, however, that in the discretion of the Bureau of Licenses, a gravel floor may be substituted for wood or concrete. Chairs must be either securely fastened to wood or concrete floor, or all chairs in a row must be fastened together, and at least 4 rows must be securely fastened to one frame.

352L.

Only subsections "352A," "352B," "352C," "352D," paragraphs 7 and 13; "352K," paragraph 1, and "352J" and "352K" of this ordinance shall apply to open air motion picture theatres.

352M.

Places where motion pictures are exhibited indoors or outdoors, having seating capacity or accommodation for more than three hundred persons, are expressly excepted from the form of license provided for in this ordinance, and are declared to be theatres for all the purposes specified in sections 1472 and 1473 of the Greater New York Charter, and sections 108 and 109 of the Building Code of The City of New York, and being sections 108 and 109 of chapter 15, part 21.

Any license provided for by the preceding sections may be revoked and annulled by the Mayor or by any judge or justice of any court of record in said City upon proof of a violation of any of the provisions of this ordinance or upon conviction of any offense against the Penal Law, committed wholly or partly upon the premises.

352O.

Every proprietor, owner and manager who shall neglect to take out the license for such exhibition as is hereinbefore provided for, or who permits or allows the exhibition or performance without such license, and every owner or lessee of any building or part of the building, ground or grounds who shall lease or let the same for the purpose of such exhibition, shall be subject to a penalty of \$50 for each day such exhibition or performance shall be permitted. The action for penalty shall be sued for and prosecuted in the name of The City of New York, and the proceeds shall be paid to the Chamberlain of The City of New York, for the Treasury of said City.

352P.

Every proprietor, manager, agent, lessee and tenant, together with the person, firm or corporation to whom a license has been issued, who violates any of the provisions of this ordinance shall be jointly and severally liable to a penalty of \$25 for each day on which such violation shall continue, the action for penalty shall be sued for and prosecuted in the name of The City of New York, and the proceeds of which shall be paid to the Chamberlain of said City, for its Treasury.

352Q.

In addition to the penalties hereinbefore provided, any person, including the proprietor, owner, manager, lessee or tenant and the licensee, for a violation of any of the provisions of the foregoing sections of this ordinance shall be punished by imprisonment for not less than 10 days nor more than 20 days, and, upon a conviction of a second offense, imprisonment for 20 days and a fine of \$50.

352R.

This ordinance shall take effect sixty days after its approval by the Mayor. All other rules, regulations and ordinances inconsistent herewith and affecting buildings and places to be occupied as herein defined are hereby revoked.

Which was referred to the Committee on Laws and Legislation.

Proposed Form of Contract.

This Contract, made this day of

1913, by and between The City of New York (hereinafter called the City), party of the first part, by the Mayor of said City, acting for and in the name of said City, under and in pursuance of the authority of the Board of Estimate and Apportionment of said City (hereinafter called the Board), and The Stock Quotation Telegraph Company (hereinafter called the Company), party of the second part, witnesseth:

In consideration of the mutual covenants and agreements herein contained, the parties hereto do hereby covenant and agree as follows:

Section 1. The City hereby grants to the Company, subject to the conditions and provisions hereinafter set forth, the right and privilege to lay, construct, maintain and operate suitable wires or other electrical conductors under the streets and avenues within the Borough of Manhattan and the portion of the Borough of The Bronx lying west of the Bronx River, and to lay, construct, maintain and operate suitable wires or other electrical conductors, and the necessary conduits for the same, under the streets and avenues within the Borough of Brooklyn, and the Borough of Queens, for the purpose of electrically connecting its offices with each other and with other offices and with subscribers, so as to allow of the collection and exchange by means of telegraph instruments, commonly known as "Morse instruments," of general news, financial news and other matters of general interest, and the distribution of the same over the said wires and cables to printing telegraph instruments, commonly known as "stock tickers," and for no other purpose whatsoever.

Sec. 2. The grant of this privilege is subject to the following conditions, which shall be complied with by the Company:

First—The said right and privilege to lay, construct, maintain and operate wires or other electrical conductors in conduits, and on bridges, for the purposes aforesaid, shall be held and enjoyed by the Company for the term of fifteen (15) years from January 1, 1913, with the privilege of renewal of said contract for a further period of ten (10) years, upon a fair revaluation of said right and privilege.

If the Company shall determine to exercise its privilege of renewal, it shall make application to the Board, or any authority which shall be authorized by law to act for the City in place of the Board. Such application shall be made at any time not earlier than two (2) years and not later than one (1) year before the expiration of the original term of this contract.

The determination of the revaluation shall be sufficient if agreed to in writing by the Company and the Board, but in no case shall the annual rate of compensation to the City be fixed at a less amount than the sum required to be paid during the last year prior to the termination of the original term of this contract.

If the Company and the Board shall not reach such agreement on or before the day one (1) year after the expiration of the original term of this contract, then the annual rate of compensation for such succeeding ten (10) years shall be reasonable, and either the City (by the Board) or the Company shall be bound upon request of the other to enter into a written agreement with each other fixing the rate of such compensation at such amount as shall be reasonable, but in no case shall the annual rate so fixed be less than the sum required to be paid for the last year prior to the termination of the original term of this contract, and if the parties shall not forthwith agree upon what is reasonable, then the parties shall enter into a written agreement fixing such annual rate and at such amount as shall be determined by three disinterested freeholders selected in the following manner:

One disinterested freeholder shall be chosen by the Board; one disinterested freeholder shall be chosen by the Company; these two shall choose a third disinterested freeholder, and the three so chosen shall act as appraisers and shall make the revaluation aforesaid. Such ap-

praisers shall be chosen at least six (6) months prior to the expiration of this original contract, and their report shall be filed with the Board within three (3) months after they are chosen. They shall act as appraisers and not as arbitrators. They may base their judgment upon their own experience and upon such information as they may obtain by inquiries and investigations, without the presence of either party. They shall have the right to examine any of the books of the Company and its officers under oath. The valuations so ascertained, fixed and determined shall be conclusive upon both parties, but no annual sum shall, in any event, be less than the sum required to be paid for the last year of this original contract. If in any case the annual rate shall not be fixed prior to the termination of the original term of this contract, then the Company shall pay the annual rate therefore prevailing until the new rate shall be determined, and shall then make up to the City the amount of any excess of the annual rate then determined over the previous annual rate. The compensation and expenses of the said appraisers shall be borne jointly by the City and the Company, each paying one-half thereof.

Second—The Company shall pay to the City for the privilege hereby granted, the following sums of money:

1. The sum of ten thousand dollars (\$10,000) in cash within thirty (30) days after the date upon which this contract is signed by the Mayor.

2. The further sum of five thousand dollars (\$5,000) in cash for use and occupation of the streets of the City since October 4, 1911, to be paid within thirty (30) days after the signing of this contract by the Mayor.

3. During the first term of five years, an annual sum which shall in no case be less than forty-five hundred dollars (\$4,500), and which shall be equal to three (3) per cent. of its gross annual receipts within the City, exclusive of rentals from its building or buildings, if such percentage shall exceed the sum of forty-five hundred dollars (\$4,500).

4. During the second term of five (5) years, an annual sum which shall in no case be less than six thousand dollars (\$6,000), and which shall be equal to four (4) per cent. of its gross annual receipts within the City, exclusive of said rentals, if such percentage shall exceed the sum of six thousand dollars (\$6,000).

5. During the remaining term of this original contract, an annual sum which shall in no case be less than seventy-five hundred dollars (\$7,500), and which shall be equal to five (5) per cent. of its gross annual receipts within the City, exclusive of said rentals, if such percentage shall exceed the sum of seventy-five hundred dollars (\$7,500).

6. Such further sum or sums as may be imposed by the Bridge Commissioner for the use of such bridge or bridges under his jurisdiction as he may permit.

The annual charges shall commence from the date on which this contract is signed by the Mayor.

All annual charges as above shall be paid into the Treasury of the City on November 1 of each year and shall be for the amount due to September 30 next preceding. Provided that the moneys due when this contract is signed by the Mayor shall be paid into the Treasury of the City within thirty (30) days immediately following such date, and provided further that the first annual payment thereafter shall be only for that proportion of the first annual charge as the time between the date upon which this contract is signed by the Mayor and September 30 following shall bear to the whole of one year.

Whenever the percentage required to be paid shall exceed the minimum amount as above, then such sum over and above such minimum shall be paid on or before November 1 in each year for the year ending September 30 next preceding.

Any and all payments to be made by the terms of this contract to the City by the Company shall not be considered in any manner in the nature of a tax, but such payments shall be made in addition to any and all taxes of whatsoever kind or description now or hereafter required to be paid by any ordinance of the City, or resolution of the Board, or any law of the State of New York.

Third—The annual charges or payments shall continue throughout the whole term of this contract (whether original or renewal), notwithstanding any clause in any statute or in the charter of any other company providing for payment for similar rights or franchises at a different rate, and no assignment, lease or sublease of the rights or privileges hereby granted (whether original or renewal), or of any part thereof, shall be valid or effectual for any purpose, unless the said assignment, lease or sublease shall contain a covenant on the part of the assignee or lessee that the same is subject to all the conditions of this contract; and that the assignee or lessee assumes and will be bound by all of said conditions and especially said conditions as to payments, anything in any statute or in the charter of such assignee or lessee to the contrary notwithstanding, and that the said assignee or lessee waives any more favorable conditions created by such statute or its charter, and that it will not claim by reason thereof, or otherwise, exemption from liability to perform each and all of the conditions of this contract.

Fourth—The rights and privileges hereby granted shall not be assigned, either in whole or in part, or leased or sublet in any manner, nor shall the title thereto, or right, interest or property therein, pass to or vest in any other person or corporation whatsoever, either by the act of the Company or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations or otherwise, without the consent of the City, acting by the Board, evidenced by an instrument under seal, anything herein contained to the contrary thereof in any wise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents.

Fifth—Upon the termination of this original contract, or, if the same be renewed, then at the termination of the said renewal term, or upon the termination of the rights hereby granted for any cause, or upon the dissolution of the Company before such termination, the wires and equipment of the Company constructed pursuant to this contract within the streets and avenues shall become the property of the City without cost and the same may be used or disposed of by the City for any purpose whatsoever, or the same may be leased to any company or individual.

If, however, at the termination of this contract as above, the Board shall so order by resolution, the Company shall, upon thirty (30) days' notice from the Board, remove any and all of its wires and other equipment constructed pursuant to this contract and the said streets and avenues shall be restored to their original condition at the sole cost and expense of the Company.

Sixth—The Company shall construct, maintain and operate its electric system subject to the supervision and control of all the authorities of the City who have jurisdiction in such matters, as provided by the Charter of the City and in strict compliance with all laws or ordinances or departmental rules and regulations now in force,

or which may be adopted, affecting companies operating electrical conductors in the City.

No construction or repair of said electrical system shall be commenced until written permits have been obtained from the proper City officials. In any permit so issued, such officials may impose such conditions, as a condition of the granting of the same, as are necessary for the purpose of protecting any structures in the streets and avenues and the proper restoration of the surface of such streets and avenues over which such officials have jurisdiction, and the Company shall comply with such conditions. Upon completion of any work or construction, the Company shall furnish to the President of the Borough a plan of such character as he may direct, showing accurately and distinctly the location, size and type of construction and complete dimensions of the structures erected, installed or constructed under this contract, and the location and dimensions of all substructures encountered during the progress of the work; the depth below the street surface of the new structures and of the substructures encountered must be shown, also their location with reference to the nearest curb line and the nearest curb line intersection.

The electrical and other equipment to be installed by the Company, whether the same be under streets and avenues, in any department of the City or in private property, shall be constructed and maintained subject to the approval and under the supervision and control of the Commissioner of Water Supply, Gas and Electricity.

Seventh—The plant, conduits, wires, conductors, connections, instruments and all appurtenances thereto, shall be constructed, maintained and operated in the latest approved manner and with the most modern and improved appliances, and it is hereby agreed that the Board may require the Company to improve or add to its plant, conduits, wires, conductors, connections, instruments and appurtenances, from time to time, as such additions or improvements are necessary in the opinion of the Board. Upon failure on the part of the Company to comply with the direction of the Board within a reasonable time, the rights hereby granted shall cease and terminate.

Eighth—All cables and wires of the Company laid pursuant to this contract shall be placed in ducts, conduits or subways (referred to in this contract as subways). In the Borough of Manhattan and that portion of the Borough of The Bronx west of the Bronx River, such subways shall be leased from the company or companies having control thereof under the provisions of law, or from the City, should it succeed to the rights of such company or companies. In the other territory in which the Company is authorized to operate by virtue of this contract, it may construct such subways as are necessary for the accommodation of its cables and wires and no more. If the City shall construct or acquire subways for electrical conductors of the character or tension of those used by the Company or similar companies, in any or all of the Boroughs, the Company hereby agrees to lay its wires and conductors in such subways and the City agrees to lease to the Company such space as may be necessary and available for the operation of the system hereby authorized. No cables or wires shall, in the future, be strung above the surface of the streets and avenues by the Company, and those at present in existence shall be removed and placed underground when and where required by the Board or the Commissioner of Water Supply, Gas and Electricity.

Ninth—The use of any bridge under the jurisdiction of the Department of Bridges shall be at the discretion of the Bridge Commissioner and in accordance with such terms and conditions and upon such reasonable charges as he may prescribe.

Tenth—It is a condition of this contract that the Company shall bear the entire expense of all work undertaken by reason of this grant. Any alteration to the sewerage or drainage system, or to any other subsurface or to any surface structures in the streets required on account of the construction or operation of the underground conduits herein authorized to be placed in the streets, shall be made at the sole cost of the Company and in such manner as the proper City officials may prescribe.

Eleventh—It is agreed that the right hereby granted to lay and maintain conduits shall not be in preference or in hindrance to public works in the streets and avenues, whether the same is done by the City directly or by a contractor for the City, the Company shall, at its own expense, protect or move its conduits and their appurtenances in the manner directed by the City officials having jurisdiction over such public work.

Twelfth—Should the grades or lines of the streets and avenues in which the Company is hereby authorized to operate be changed at any time during the term of this contract, or any renewal thereof, the Company shall, at its own expense, change its conduits and appurtenances to conform with such new grades and lines, and during the construction of any public improvement upon said streets or avenues the Company shall take care of and protect its conduits and appurtenances at its own expense, all to be done subject to the direction of the City official having jurisdiction over the construction of such change.

Thirteenth—The Company shall, upon request from any individual or corporation occupying or owning premises in the territory in which the Company is authorized to operate, by this contract, not in arrears to it, service already rendered, extend its wires to such premises and furnish news or other service to such individual or corporation, provided that such premises are not more than one-half mile from any other premises in which the Company has its apparatus installed at the time such request is made.

Fourteenth—The Company shall file with the Board on the first day of November in each year a map or plan upon which shall be plainly and separately indicated the number of wires which were in use by the Company on September 30 preceding, and the streets in which the same are located, and also those which were put in use during the year preceding that date. It shall also file with the Department of Water Supply, Gas and Electricity, on or before the tenth day of each month, a map or plan of the locations in which wires have been placed by it during the preceding month.

Fifteenth—The rates to be charged by the Company shall not be in excess of the following, and it is agreed that the same may be altered or changed by the Board as hereinafter provided.

(a) For ordinary news service, including the rental of the printing telegraph or ticker, the sum of fifteen dollars (\$15) a month, or one hundred and eighty dollars (\$180) a year.

(b) For general news service, including the rental of the printing telegraph or ticker, the sum of twenty dollars (\$20) a month, or two hundred and forty dollars (\$240) a year.

(c) For financial news service, including the rental of the printing telegraph or ticker, the sum of forty dollars (\$40) a month or four hundred and eighty dollars (\$480) a year.

(d) For any other service furnished or to be furnished by the Company the rates charged shall be reasonable and fair and subject to the approval of the Board.

The Company agrees upon request of any Board, Department or Bureau of the City government, to furnish service to any and all buildings under the control of such Board, Department or Bureau, at one-half the rates above authorized to be charged by it for whatever class or classes of service may be required.

Sixteenth—During the term of this contract, or any renewal thereof, the Board shall have the power, by resolution, to regulate and fix the maximum and minimum rates to be charged by the Company in the City, provided such rates shall be reasonable and fair.

Seventeenth—The Company shall not require nor receive from its subscribers any deposit or advance payment in excess of what is reasonably necessary to insure payment of current bills, and on such amounts so paid the Company shall pay interest at the statutory rate whenever such money is held for more than one month. Unpaid bills, unless due from its owner, shall never be charged against property, and no person not himself in arrears shall be denied service because any previous occupant of the same premises is in arrears to the Company for service.

Eighteenth—The wires of the Company shall be employed for no other purposes than those explicitly set forth herein, and the Company binds itself not to lay, use, lease or operate wires for illegal purposes or to illegal places.

Nineteenth—The Company shall assume all liability to persons or property by reason of the construction or operation of the system authorized by this contract, and it is a condition of this contract that the City shall assume no liability whatsoever to either persons or property on account of the same, and the Company hereby agrees to repay to the City any damage which the City shall be compelled to pay by reason of any acts or defaults of the Company.

Twentieth—Nothing in this contract shall be deemed to affect in any way the right of the City to grant to any individual or other corporation a similar right or privilege upon the same or other terms and conditions in the territory covered by this contract, or any part thereof.

Twenty-first—If the Company shall fail to give efficient public service at the rates herein fixed, or fail to maintain its structures and equipment as herein provided in good condition throughout the whole term of this contract, the Board may give notice to the Company, specifying any default on the part of the Company, and requiring the Company to remedy the same within a reasonable time; and upon failure of the Company to remedy such default within a reasonable time, the Company shall, for each day thereafter during which the default or defect remains, pay to the City the sum of one hundred dollars (\$100) as fixed or liquidated damages, or the Board, in case such structures or equipment which may affect the surface of the streets shall not be put in good condition within a reasonable time after notice by the Board as aforesaid, shall have the right to make all needed repairs at the expense of the Company, in which case the Company shall pay to the City the amount of the cost of such repairs, with legal interest thereon, all of which sums may be deducted from the fund hereinbefore provided for.

Twenty-second—If for a period of twelve consecutive months, the system of the Company shall not be operated, or if the same shall not be operated for a period of eighteen months out of any consecutive twenty-four months, the Board may declare the right and franchise and this contract terminated without further proceedings at law or in equity.

Twenty-third—The Company shall at all times keep accurate books of account and shall, on or before November 1 in each year, make a verified report to the Comptroller of the City of the business done by the Company for the year ending September 30 next preceding. Such report shall contain a statement of the gross receipts received from the operation of the system hereby authorized from all subscribers served by the Company in the City, together with such other information and in such form and detail as the Comptroller may require. The Comptroller shall have access to all books of the Company for the purpose of ascertaining the correctness of its report and may examine its officers under oath.

Twenty-fourth—The Company shall submit to the Board a report not later than November 1 of each year for the year ending September 30 next preceding, and at any other time, upon request of the Board, which shall state:

—and such other information in regard to the business of the Company as may be required by the Board.

Twenty-fifth—This grant is upon the express condition that the Company, within thirty (30) days after the signing of this contract by the Mayor, and before anything is done in exercise of the rights conferred hereby, shall deposit with the Comptroller of the City the sum of twelve thousand dollars (\$12,000), either in money or securities, to be approved by him, which fund shall be security for the performance by the Company of all of the terms and conditions of this contract, especially those which relate to the payment of the annual charges for the privileges hereby granted, in default of which payment of the annual charges, the City shall collect the same, with interest, from the said fund after ten (10) days' notice to the Company.

In case of failure of the Company to comply with the terms of this contract relating to the filing of annual statements, furnishing of service to applicants as herein provided or its neglect or refusal to comply with any demand or direction of the Board or other municipal officials, made pursuant to the terms of this contract, or under the authority of any laws, ordinances or departmental regulations now or hereafter in force, in such case and in any of these events, the Company, except as herein otherwise provided, shall pay to the City a penalty of fifty dollars (\$50) for each violation.

The procedure for the imposition and collection of the penalties in this contract shall be as follows:

The Board, on complaint made, shall give notice to the Company, directing its President, or other officer, to appear before the Board on a certain day not less than ten (10) days after the date of such notice, to show cause why the Company should not be penalized in accordance with the foregoing provisions. If the Company fails to make an appearance, or after a hearing appears, in the judgment of the Board, to be in fault, said Board shall forthwith impose the prescribed penalty, or where the amount of the pen-

alty is not prescribed herein, such amount as appears to the Board to be just, and without legal procedure direct the Comptroller to withdraw the amount of such penalty from the security fund deposited with him. In case of any drafts made upon the security fund, the Company shall, upon ten (10) days' notice in writing, pay to the City a sum sufficient to restore said security fund to the original amount of twelve thousand dollars (\$12,000), and in default thereof this contract shall be cancelled and annulled at the option of the Board, acting in behalf of the City. No action or proceeding or right under the provisions of this contract shall affect any other legal rights, remedies or causes of action belonging to the City.

Twenty-sixth—In case of any violation or breach or failure to comply with any of the provisions herein contained, this contract may be forfeited by a suit brought by the Corporation Counsel, on notice of ten (10) days to the Company, or at the option of the Board, by resolution of said Board, which said resolution may contain a provision to the effect that the portion of its system constructed and in use by virtue of this contract and located in the public streets and avenues shall thereupon become the property of the City without proceedings at law or in equity. Provided, however, that such action by the Board shall not be taken until the Board shall give notice to the Company to appear before it on a certain day not less than ten (10) days after the date of such notice, to show cause why such resolution declaring the contract forfeited should not be adopted. In case the Company fails to appear, action may be taken by the Board forthwith.

Twenty-seventh—If at any time the powers of the Board or any other of the authorities herein mentioned, or intended to be mentioned, shall be transferred by law to any other board, authority, officer or officers, then and in such case such other board, authority, officer or officers shall have all the powers, rights and duties herein reserved to or prescribed for the Board or other authorities, officer or officers.

Twenty-eighth—The words "notice" or "direction" wherever used in this contract shall be deemed to mean a written notice or direction. Every such notice or direction to be served upon the Company shall be delivered at such office in the City as shall have been designated by the Company, or if no such office shall have been designated, or if such designation shall have for any reason become inoperative, shall be mailed in the City, postage prepaid, addressed to the Company at the City. Delivery or mailing of such notice or direction as and when above provided shall be equivalent to direct personal notice or direction, and shall be deemed to have been given at the time of delivery or mailing.

Twenty-ninth—The words "streets and avenues" or "streets or avenues" wherever used in this contract, shall be deemed to mean streets, avenues, highways, parkways, driveways, courses, boulevards, bridges, viaducts, tunnels, public places or any other property to which the City has title or over which the public has an easement, included within the limits of the territory in which the Company is hereby authorized to operate.

Thirtieth—The grant of this privilege is subject to whatever right, title or interest the owners of abutting property or others may have in and to the streets and avenues of the territory in which the Company is authorized to operate by this contract.

Sec. 3. It is understood that this contract is made without prejudice to any rights which the Company may have heretofore acquired, if any, to operate a telephone, telegraph or ticker business. However, the Company shall not exercise any right or privilege other than that herein authorized and recognized, and in accordance with the terms of this contract, except after final judicial determination in an action to which the City is made a party.

Sec. 4. Nothing in this contract shall be construed as in any way limiting the present or future jurisdiction of the Public Service Commission under the Laws of the State of New York.

Sec. 5. The Company promises, covenants and agrees on its part and behalf to conform to and abide by and perform all the terms, conditions and requirements in this contract fixed and contained, unless and until, in an action brought or conducted as hereinbefore provided, the courts shall finally determine that the Company had heretofore acquired the right to carry on its business as now conducted without the necessity of obtaining this franchise or consent from the City. The Company further promises, covenants and agrees that in the event of a decision in its favor in any action brought, as provided in section 3, it will not claim or attempt to claim or demand any damage, penalty or recompense from The City of New York for any expense, expenditures, suits or other disadvantage incurred by it because of the entering into this contract with The City of New York, and hereby expressly waives and surrenders to the City any such claim or demand.

In witness whereof, the party of the first part, by its Mayor, thereunto duly authorized by the Board of Estimate and Apportionment of said City, has caused the corporate name of said City to be hereunto signed and the corporate seal of said City to be hereunto affixed; and the party of the second part, by its officers, thereunto duly authorized, has caused its corporate name to be hereunto signed and its corporate seal to be hereunto affixed, the day and year first above written.

NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances, between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstance of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding and The City of New York will, without notice to the purchaser, cause the same to be removed and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furnishings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam-holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids, and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money or corporate stock or certificates of indebtedness of any nature issued by The City of New York, which the Comptroller shall approve as of equal value with the security required in the advertisement, to the amount of not less than three nor more than five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The amount shall be as specified in the proposals or instructions to bidders and shall not be in excess of 5 per cent.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures. Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
