## DEPARTMENT OF FINANCE.

WARRANTS MADE READY FOR PAYMENT IN DEPARTMENT OF FINANCE  
FRIDAY, MAY 29, 1914.

Below is a statement of warrants made ready for payment on the above date, showing therein the Department of Finance voucher number, the dates of the invoices or the registered number of the contract, the date the voucher was filed in the Department of Finance, the name of the payee and the amount of the warrant.

Where two or more bills are embraced in the warrant, the dates of the earliest and latest are given, excepting that when such payments are made under a contract, the registered number of the contract is shown in the place of the second invoice date.

Where the word "final" is shown after the name of the payee, payment will not be made until thirty days after the completion and acceptance of the work, but all of the other warrants mentioned will be forwarded through the mail unless some reason exists why payment is to be made in person, in which event written notice will be promptly given to the claimant.

In making a written or verbal inquiry at this office for any of the above mentioned warrants, it is requested that reference be made by the Department of Finance voucher number.

WILLIAM A. PRENDERGAST, Comptroller.

## VOUCHERS RECEIVED IN DEPARTMENT OF FINANCE FRIDAY, MAY 29, 1914.

A statement is herewith submitted of all vouchers filed in the Department of Finance on this date, in which is shown the Department of Finance voucher number, the date of the invoices or the registered number of the contract, the name of the payee and the amount of the claim. Where two or more bills are embraced in one voucher the date of the earliest is given, excepting that when such vouchers are submitted under a contract the registered number of the contract is shown instead.

If the vouchers are found to be correct and properly payable to the respective claimants it will be my endeavor to have the warrants therefor made ready for payment within the next seven days.

If any claimant within the time stated does not receive his warrant or a written notice in relation thereto then written or verbal inquiry may be made at this office, using the Department of Finance voucher number as a ready means of reference.

WILLIAM A. PRENDERGAST, Comptroller.

### DEPARTMENT OF HEALTH.

#### REPORT FOR THE WEEK ENDING MAY 23, 1914.

##### TO PHYSICIANS.

The Department frequently experiences considerable difficulty in finding cases of infectious diseases reported by physicians. For example, in one day recently, out of twenty reported cases of diphtheria and ten cases of scarlet fever, five of the former and one of the latter, after diligent inquiry, could not be found by the nurses. To a considerable extent this is due to illegible writing and to the inaccuracy of the information furnished by physicians. The Department feels sure that the mere statement of these facts will lead physicians to exercise greater care in future in reporting their cases.

ANTI-TYPHOID VACCINATION.

The Department desires to promote the practice of anti-typhoid immunization and calls attention to the free distribution of the typhoid vaccine to physicians for use in their practice.

In the presence of any illness suspected of being an early stage of typhoid fever, prompt immunization of other members of the family is of great advantage. According to the Department's records most of the secondary or direct contact cases become infected while the physician is waiting for more definite symptoms in the original case. Those who develop the disease after immunization invariably show evidence of having contracted the infection before the immunizing injection. With very rare exceptions, such cases run a milder course than cases not immunized.

Typhoid vaccine may be obtained by personal application to the Department of Health, 149 Centre st., or if the physician will telephone or write, the vaccine will be forwarded directly by mail.

VISITORS TO THE HOSPITALS OF THE DEPARTMENT OF HEALTH.

Early in the present administration, the New York City Visiting Committee of the State Charities Aid Association, which has been extremely useful in the past to the Department of Charities and to Bellevue and Allied Hospitals, was invited by the Commissioner of Health to extend its work to Willard Parker, Riverside and Kingston Avenue Hospitals. The invitation was promptly and cordially accepted.

The Committee, which has now completed its arrangements for the proposed visiting, announces the following list of volunteers:

Mrs. William K. Draper, Mrs. John Lapsley, Mrs. Charles L. Tiffany, Miss Alice E. Mauran, Mrs. Arthur C. Jacobson, Mr. Homer Folks, Mr. J. F. Thomas, Miss Ruth Twombly, Miss Annie Goodrich, Mrs. Russell Hibbs, Mrs. F. L. Cranford, Miss Daisy Gaus, Miss Marion R. Taber.

Among the volunteer visitors here named are men and women who through long experience, have acquired an intimate knowledge of hospital work. Their interest in the hospital activities of the Department is bound to yield valuable results. The Department bespeaks for them a cordial reception by everybody connected with the hospitals.

REMOVAL OF BROOKLYN ANTI-RABIC CLINIC.

The Brooklyn Anti-Rabic Clinic now conducted at the Brooklyn Borough Office, will be transferred on June 1, 1914, to 29 3d ave., Brooklyn. It will be open on week days from 10 a. m. to 1 p. m., and on Sundays and holidays, for all cases from all Boroughs, from 10 a. m. to noon.

The present quarters at the Brooklyn Borough Office, Fleet and Willoughby sts., are entirely too small. The waiting room cannot accommodate the large number of patients that attend on Sundays and holidays, when patients from all Boroughs are referred to this clinic.

MODEL DAIRY AT OTISVILLE SANATORIUM.

In connection with the Sanatorium at Otisville, the Department of Health maintains a model dairy in which all the cattle are high grade Holsteins and tuberculin tested. With the establishment of a bacteriological laboratory at the Sanatorium, arrangements have been completed for regular weekly examinations of the milk supplied to the patients. The first bacterial count showed that the milk dispensed from the Sanatorium dairy contained less than 10,000 bacteria per cubic centimeter.

HOW TO WRITE PROPER DEATH CERTIFICATES.

(Article No. 3.)

Importance of Attention to Details.

In writing death certificates, great care should be exercised in seeing that the name is properly spelled and legibly written. The deceased's correct age is a matter of considerable importance. We are repeatedly confronted with applications for the correction of age as given upon the original certificates of death on file in this office. Such applications entail considerable trouble for the family of the deceased, for, in order to obtain any such correction, documentary evidence must be produced as to the correct age of the deceased. In some instances, this is extremely difficult to obtain.

Trade organizations who pay death benefits insist upon the production of a transcript of the certificate of death, and refuse such transcript if the data thereon are at all incompatible with the statements made by the deceased at the time of his entrance into the association. If a man's occupation is that of a bricklayer, it should be so stated upon the certificate of death, otherwise there is a possibility of the refusal of the transcript by the organization with which deceased has been affiliated in his lifetime.

In some of the foreign countries, especially Germany and France, the most careful attention is paid to the accuracy of the information given upon transcripts of certificates of death. We have often had transcripts returned to us with requests for correction as to the name of the parents, and very often as to the birthplace of the deceased and of his parents.

Taking these points into consideration it will be seen that the physician owes it as a duty to his clientele as well as to the community, to prepare a certificate that will be correct in all its details.

REJECTED SANATORIUM APPLICANTS.

In order to determine the ultimate disposition of applicants who are refused admission to tuberculosis sanatoria, and thereby to arrive at an approximate estimate of any bearing such cases may have upon the spread of tuberculosis, the following data concerning 165 rejected applicants who sought admission to the Otisville Sanatorium have been collected.

Of the total of 165 cases, 66 had negative sputum and do not play an important part in the spread of tuberculosis. A majority of these negative sputum cases were rejected because careful and repeated examination showed that they either did not have any clinical tuberculosis or were suffering from some other disease which overshadowed an insignificant tuberculous lesion.

The remaining 99 rejected cases all had positive sputum and were too far advanced to be admitted to Otisville (although Otisville accepts more advanced cases than are usually admitted to other sanatoria). All of these sputum-positive cases were urged by the physician in charge of the Tuberculosis Hospital Admission Bureau to enter the hospital, but only 62 of the 99 entered hospitals, or said they would enter. The actual number who found their way into a hospital within one month after being rejected was sixty-two.

Thirty-seven out of ninety-nine positive-sputum cases remained at large, at home, in streets, in cars and in parks—known active distributors of tubercle bacilli. Only nine of the number could be induced to attend day camps, where a moderate degree of control could be exercised. Nothing but an increase in the infirmary capacity of our sanatoria will provide for and protect the community from cases of this class.

OUTFITS OF CLOTHING FOR OTISVILLE PATIENTS.

In a communication recently addressed to the Department, the Charity Organization Society, the United Hebrew Charities and the New York Association for Improving the Condition of the Poor jointly call upon the City to assume the duty of supplying outfits of clothing for needy patients admitted to the Otisville Sanatorium. This function was voluntarily assumed by the societies named some years ago, and they now propose to relinquish it. Their reasons for desiring to discontinue the work are stated in the communication which follows:

"New York, May 13, 1914.

"Hon. S. S. Goldwater, Commissioner, Department of Health, New York City:

"Dear Sir—May we respectfully call your attention to the fact that each year the Charity Organization Society, the United Hebrew Charities and the New York Association for Improving the Condition of the Poor are together spending approximately \$5,000 for special clothing outfits used by patients while undergoing treatment at the New York Municipal Sanatorium for Tuberculosis, Otisville, New York. The societies have willingly carried this burden during the seven years that Otisville has been in operation, believing it a field for private societies to do all in their power to assist the municipal authorities in thoroughly establishing the need and the efficacy of such an experiment. That stage is of course now passed and we feel that the City should assume the full burden of caring for patients admitted to Otisville, the necessary clothing being considered as part of the treatment administered, and that the amount of money necessary for this should be included in the appropriation allowed by the City for the maintenance of the institution. This will release for other purposes such expenditure from our budgets, which are being increasingly hard pressed to meet demands made upon them.

"As you probably know, the Department of Charities is already supplying such necessary clothing to all of the patients admitted to the institutions under its jurisdiction such as Sea View, Raybrook, the Metropolitan Hospital, etc., and our societies are no longer being required to meet these needs.

"We shall of course be glad to continue our co-operation in furnishing your Department with any information in our possession that will help you to determine the ability of patients entering Otisville to pay for the outfits needed in their treatment. Most sincerely yours,

"(Signed) W. FRANK PERSONS, Director of General Work, Charity Organization Society.

"(Signed) MORRIS D. WALDMAN, Manager, The United Hebrew Charities of The City of New York.

"(Signed) BAILEY B. BURRITT, General Director, The New York Association for Improving the Condition of the Poor."

#### Notice of Public Hearing.

#### FRANCHISE MATTERS.

PUBLIC NOTICE IS HEREBY GIVEN THAT at the meeting of the Board of Estimate and Apportionment held on May 28, 1914, the following communication was received:

To the Board of Estimate and Apportionment of The City of New York:

The Park Place, William and Clark Street Route, as heretofore adopted and approved, which was adopted to provide the tunnel connection between the Seventh Avenue Line of the Interborough Rapid Transit Company in the Borough of Manhattan and the present Subway in the Borough of Brooklyn near Borough Hall, passes in part under the property occupied by the General Post-Office Building in the block bounded by Broadway, Mail Street and Park Row. An Act (entitled "An Act to permit the construction of a subway and the maintenance of a railroad under the post office building at or near Park Place in the City of New York," approved August 9, 1912) was passed by the Congress of the United States of America and approved by the President authorizing the Secretary of the Treasury to grant to The City of New York the necessary rights and easements for the construction of the rapid transit railroad through this property. Negotiations have been taken up with the Secretary of the Treasury, but as yet the Commission has not been able to come to a satisfactory agreement. The Commission accordingly deems it advisable, in order to minimize delay in construction in the event that it should ultimately be found impossible to reach an agreement, to provide for a new route under City Hall Park, Spruce and William Streets, so as to avoid passing under the Post-Office Building. The Commission has accordingly adopted a route and general plan of construction for a proposed rapid transit railroad to be known as the City Hall Park Spruce and William Street Route (Route No. 60) and now transmits to your Honorable Board for your approval and the approval of the Mayor, as required by law, a certified copy of resolutions adopted by it on the 26th day of May, 1914, determining and establishing the route and general plan of construction for such new rapid transit railroad. This route begins in Park Place near Broadway, where a connection can be made with the Park Place, William and Clark Street Route, and thence runs under City Hall Park, Spruce Street and William Street to a point south of Beekman Street where a connection can again be made with the Park Place, William and Clark Street Route.

The method of construction will be by trench excavation under cover, unless otherwise permitted by the Commission.

Bidders must examine the form of contract and the specifications and contract drawings, must visit the location of the work and inform themselves of the conditions along the line of the work and make their own estimates of the facilities and difficulties attending the execution of the work.

A fuller description of the work and other requirements, provisions, details and specifications are given in the form of contract and in the contract drawings therein referred to. Copies of the form of contract, bond and contractor's proposal and of the contract drawings may be inspected and purchased at the office of the Commission, No. 154 Nassau Street, Borough of Manhattan, New York City. Proposals must be in the form prescribed by the Commission.

A statement based upon the estimate of the Chief Engineer of the Commission, of the quantities of the various classes of the work and of the nature and extent as near as practicable of the work is to be found in the schedule in the form of contractor's proposal. The quantities given in such schedule are approximate only, being given as a basis for the uniform comparison of bids, and no claim is to be made against the City on account of any excess or deficiency, absolute or relative, in the same, except as provided in the specifications and form of contract.

Every proposal must, when submitted, be enclosed in a sealed envelope endorsed "Proposal for Constructing Part of Rapid Transit Railroad—Route No. 12, Section No. 1," and must be delivered to the Commission or its Secretary; and in the presence of the person submitting the proposal, it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received unless accompanied by a separate certified check for twenty-five thousand dollars (\$25,000) payable to the order of the Comptroller of the City and drawn upon a national or state bank or trust company satisfactory to the Commission and having its principal office in the City of New York. ## NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstances of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in

the street and the openings of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances, or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam-holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the Contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

The contract must be bid for separately.

The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done.
