THE CITY RECORD. OFFICIAL JOURNAL.

NEW YORK, MONDAY, OCTOBER 6, 1873.

REPORT

OF THE

DEPARTMENT OF PUBLIC WORKS FOR THE THREE MONTHS ENDING JULY 31, 1873.

DEPARTMENT OF PUBLIC WORKS, COMMISSIONER'S OFFICE, ROOM 19, CITY HALL, New York, September 30, 1873.

Hon. Wm. F. Havemeyer, Mayor of the City of New York :

SIR :- In accordance with section 27, of the Charter, and with your communication of July 16, I have the honor to submit herewith a report of the transactions of the Department of Public Works for the three months ending July 31, 1873, consisting of the reports of the various Bureaux in this Department, and of the statements "A" and "B," exhibiting the amounts appropriated for the use of this Department, the expenditures incurred under the several appropriations, and the balances remaining unexpended.

Very respectfully,

VOL. I.

GEO. M. VAN NORT,

Commissioner of Public Works.

NEW YORK CITY, DEPARTMENT OF PUBLIC WORKS, BUREAU OF WATER PURVEYOR, July 31st, 1873.

George M. Van Nort, Esq., Commissioner of Public Works : SIR-In accordance with your instructions of July 17th, I have to submit the following report of the transactions of this Bureau for the three months ending July 31st, 1873: NEW PAVEMENTS.

The following contracts for laying Belgian or Stone Block Pavements were executed May

The following contracts for laying Belgian or Stone Block Pavements were executed May 26th, 1873: For paving Seventieth from the East side of the Fourth avenue to the Fifth avenue, Edward Bradburn, contractor, at \$2.45 per square yard for new stone block pavement, and 68 cents per square foot for new bridge stones. Time for completion of work, thirty days. For paving Eighty-third street from Third to Fifth avenues, Edward Bradburn, contractor, at \$2.44 per square yard for new stone block pavement, and 65 cents per square foot for new bridge stones. Time for completion of work, forty days. For paving Eighty-sixth street from Third to Fifth avenues. Edward Bradburn, contractor, at \$2.50 per square yard for new stone block pavement, and 68 cents per square foot for new bridge stones. Time for completion of work, fifty days. For paving Eighty-seventh street from the Second to the Fourth avenues, Edward Bradburn, contractor, at \$2.45 per square yard for new stone block pavement, and 68 cents per square foot for new bridge stones. Time for completion of work, fifty days. The tollowing contracts for new stone pavements have been completed : Location of Work.

Seventieth street, between Fourth and Fifth avenues	July 10th, 1873.

LAYING CROTON PIPES.

The work of laying Croton pipes for the distribution and circulation of water, charged to Croton Water-Main Fund, has been prosecuted by five gangs of men amounting at this date to the aggregate number of three hundred and twenty-three. The length of pipes, sizes, &c., are given in the report of the Chief Engineer of the Croton Aqueduct. The laying of large pipes for the better supply of water to the lower portion of the city has been completed, and the men will be transferred to laying 20-inch in Boulevard from 104th street, working south.

REPAIRING SIX-FEET PIPES.

A gang of men has been employed at the work of repairing six-feet pipes, a continuation of the Aqueduct in Eighth avenue from Eighty-sixth street, working north.

REPAIRING PIPES, STOP-COCKS, &c.

The three gangs of men employed on this branch of work has been further reduced since the Annual Report May 1st, 1873. They now number in the aggregate forty-four men.

REPAIRS TO STREET PAVEMENTS.

 IDEMARTMENT OF STREET PAVEMENTS.

 DEFARTMENT OF PUBLIC WORKS, Bureau of Street Improvements, has been prosecuted to the extent that the decreased appropriation would admit of, and the means for paying the men for the work of the regular season. Numerous complaints are accumulating, owing to the force of men not being sufficient to increased at least fifty per cent.
 DEFARTMENT OF PUBLIC WORKS, Bureau of Street Improvements, NEW YORK, August 5th, 1873.

 REPAIRS TO WOOD AND CONCRETE PAVEMENTS.
 Signed to make repairs in this manner, without delay, to the appropriation.
 Defartment of all contracts completed during the expenditures of this Bureau for the three months of May, June and July, 1873.

 Mokes developed payements have been commenced during the month of July, and Murray for the appropriation.
 Signed to make repairs in this manner, without delay, to the sure of the appropriation.

 Madde by men employed by days' work, and Belgian blocks are used in places where the wooder blocks have been destroyed. It is intended to make repairs in this manner, without delay, to the appropriation.
 Signed to supervise the same, also if the extent of the appropriation.

 Make definition of the appropriation.
 Respectfully submitted, W. M. Lockwood, Water Purveyor.
 New York Added to make repairs in this manner, without delay, to the supervise the same, also lease manner, without delay, to the supervise the same, also been repaired, broken stone at asphalt being used to fill up the irregularities.
 New York, August 5th, 1873.

 Madde to fill up the irregularities.
 Market definition I also remit statement showing the amount of work done.
 Ne

BUREAU OF WATER RENTS,)

August 4th, 1873. HON. GEORGE M. VAN NORT,

HON. GEORGE M. VAN NORI, Commissioner Department of Public Works. SIR,—In compliance with your request of July 17th, 1873, for a report of the transactions of this Bureau for the quarter ending July 31st, 1873. I have the honor to submit the following :

extra rents, for the months of May, June and July, 1873	\$885,201 41 1,726 00
Received for taps	1,720 00

\$886,927 41

Amount received for same period, 1871 For taps	2,920	50	
For taps	1,971	50	
The excess of 1873 over 1872 Amount received for 1873, as above Excess of 1873 over 1871 Respectfully, yours, &c., H. N. Sh	ERWOOD,	72 71,422 41 115,181 ter Register	

ENGINEER'S OFFICE, New York, July 6, 1873.

DEPARTMENT OF PUBLIC WORKS,

She, - In answer to your communications taking the try processing of the quarter ending 31st July,
I have to report,
Ist. That a centract was made on the 22d July for 200 tons of refined lead with the Schoenberg Smelting and Refining Company, at \$7.35 per pound.
The aqueduct has been kept in repair, and delivered its supply of water uninterruptedly during this time. On the 28th June the water became so low in the Croton River that recourse was had to the storage reservoir at Boyd's Corners, from which reservoir an average of 50,000,000 gallons daily has since been drawn, the rains in the drainage area of the Croton having been very light. The tower at the High Bridge has been brought into use, and pipes have been extended from it northward, to supply the grounds on the upper portion of the island that are too high to be supplied from the high service reservoir. There has been laid for distribution of water from the high service reservoir. There has been laid for distribution of water from the high ground below Manhattanville, has been pushed forward as rapidly as the nature of the ground would permit ; 3,950 feet of 20-inch, and 1,500 feet of 12-inch mains have been laid during the last quarter.
The work of extending the distribution of the Croton water, and increasing the supply in the lower part of the City has been vigorously prosecuted.
1,626 lineal feet of 24-inch pipe has been laid.
6,875 " 20 " " "

72	new	fire	hydrants	have been	placed.
10,342		"	6	**	**
0,875		"	12	"	**
0.875			20		

73 new fire hydrants have been placed. Table marked A gives the number of pipes and the supplies received and delivered at the pipe yard, Twenty-fourth street, East River. I would recommend that the bulkhead and wharf belong-ing to the City be extended, to give increased facilities for the reception and storage of pipes and materials for repairs and supplies. The work of preparing for the removal of the aqueduct between Ninety-third and One hundred and Thirteenth streets has been vigorously pushed forward; 11,376 lineal feet of 48-inch pipe has been laid since 1st May; 500 cubic yards masonry placed under them; 280 lineal feet of sewer built.

The sewers and pavements have been carefully examined during the progress of the work, and are built strictly in accordance with the specifications and terms of the contract. Respectfully yours, built.

EDWARD H. TRACY, Chief Engineer, Croton Aqueduct.

BUREAU OF INCUMBRANCES NEW YORK, August 1st, 1873.

Hon. GEORGE M. VAN NORT, Commissioner of Public Works.

OCTOBER 6.

SIR,—In compliance with your request, I herewith submit the following statement showing the operations and expenses of the Bureau of Incumbrances during the quarter ending July 31, 1873. (May, June and July, 1873.) Received from institutions, corporations, citizens and police, 240 complaints of obstructions and incumbrances on streets and sidewalks. There was issued from this Bureau 425 permits to builders to temporarily place building material works.

terial upon streets. There was also issued 42 permits to erect signs across sidewalk ; 3 permits to erect awnings ; .82 notices to repair sidewalks. There was expended by the superintendent \$62.50 for traveling expenses, and \$2 for incidental

expenses.

Received by superintendent as corporation fees, 30 cts. All of which is respectfully submitted.

E. B. SHAFER, Superintendent of Incumbrances.

DEPARTMENT OF PUBLIC WORKS, BUREAU OF SEWERS, NEW YORK, August 1, 1873.

Hon. George M. Van Nort, Commissioner of Public Works:

SIR :-In compliance with your instructions of the 17th inst. I beg leave to submit a report of the transactions of the Bureau of Sewers for the three months ending July 31, 1873. The present state of the most important contracts that have been in progress is as follows : *East Side.*-The contract for an outlet sewer in 89th street from Second avenue to East river, with branches, have recently been fully completed, giving an outlet to an area of over a hundred

acres. The outlet sewer in 110th street from Fifth avenue to Harlem river, &c., has been built through 110th street, and in Fifth avenue from 108th to 112th streets, where very rapid progress

through 110th street, and in 1 this avenue in sixth and Seventh and St. Nicholas avenues, &c.,
Work has been resumed on the sewers in Sixth and Seventh and St. Nicholas avenues, &c.,
between 110th street and the Harlem river, at several different points.
The sewer in avenue A, between 59th and 61st streets, with branch in 59th street is about

The sewer in avenue A, between 59th and old back, has made some progress in the most being completed. West Side.—The outlet sewer in 17th street, &c., has made some progress in the most important parts; the granite facing at the mouth and the connection of the collective sewer in 23rd street. It is expected that in a very short time the 23rd street work will be entirely done. Three of the large contracts for underground drains above 59th street and west of Eighth avenue are almost completed, requiring only a few feet of drain to be built and some additional

earth filling. The outlet sewer in 80th street, &c., has been rapidly built, having reached through its ramifications the last section of the main trunk. A district of several hundred acres can now be provided with sewerage by means of this main. The outlet sewer in goth street is near its completion, but will require extension before the district dependent upon it can be relieved. The outlet sewer in 108th street makes necessarily slow progress by reason of the heavy prochest acaystion required.

rock excavation required. The outlet sewer in Manhattan street, &c., has advanced very satisfactorily in the face of immense difficulties, and may be considered one third done. This sewer in connection with others, for which proposals are now invited, will fully provide for all the region lying north of 110th street and west of Seventh avenue up to 140th street. Surveys of the unreserved portions of the City have been energetically continued and examina-tions made of the defective sewers, demanding immediate attention, for alteration or repair. Plans have been already made for new additional outlet sewers in Harlem and in the upper part of the city on the west side, and for various other main and collective sewers and underground drains. The necessity for and value of the last named description of work cannot be overrated. In the localities where the work has already been done the residents are always ready to testify their satisfaction at the improvement following such construction. This work will be continued as rapidly as possible until the under drainage of the whole city shall have been provided for.

This work which we have a standard of the several standard of the several standard of the several standard and the several standard of the several sta

efficiently, and the utmost attention has been greated and repairing sewers, referred to in the last an-The economy of the present system of cleaning and repairing sewers, referred to in the last an-nual report, has been abundantly proven. Eighteen contracts for work (a number of which were for small improvements, involving an expense less than \$1,000 in each case) have been fully completed and assessment lists have been transmitted for approval and acceptance of the work. Following is a statement of the receipts and expenditures ; the work done ; the contracts exe-cuted and the new work for which proposals are invited :

RECEIPTS

The receipts of this Bureau are classed under the heads of : Permits for sewer connections, and sewer pipe furnished contractor.

PERMITS FOR CONNECTION WITH SEWER.

SEWERS-REPAIRING AND CLEANING. The expenditures under this head are for the repairing and cleaning of sewers and their appurtenances. The cleaning of the sewers is done by day's work, by persons employed by this department. The receiving basins are cleaned in accordance with a contract entered into by the late Commissioner of Public Works on behalf of the city. During the period referred to, three and a half miles of sewers and 3,961 receiving basins were cleaned.

Balance of account, May 1, 1873.....\$66,801 52

uning receiving basins \$10,800 00 5,230 00 3,332 00 eaning sewers..... \$19,362 00 47,439 52 Unexpended balance, July 31, 1873..... \$66,801 52

EXPENDITURES.

SEWER REPAIR STOCK.—This fund is applied to the payment of the rebuilding of the whole or a portion of any existing sewer, or in making material repairs to the same, and the Comptroller is required to raise from time to time the amount of money necessary for that purpose, on bonds of the city of New York, not exceeding, in any one year, the sum of \$100,000. The labor em-ployed in the repairing and in the reconstructing and rebuilding of defective sewers is done by day's work, and the materials required are furnished at their lowest market value.

CONTRACTS ENTERED INTO BY BUREAU OF SEWERS.

May 29, 1873—Sewer in Lexington avenue, between 69th and 70th streets, and in 69th street to a point 70 feet west of Lexington avenue and connecting with the present sewer in 69th street. Christopher Keyes, contractor.

John Nesbit, surety.

John Nesolt, surely. For sewer, four 15-100 dollars per lineal foot. For rock excavation, four dollars per cubic yard. For rock excavation without blasting, five dollars per cubic yard.

June 2, 1873—Sewer in Pearl street, between Old slip and a point 180 feet south of Old slip. Thomas and John D. Crimmins, contractors. Thomas E. Crimmins, surety. For sewer, five dollars per lineal foot. For rock excavation, four dollars per cubic yard. For rock excavation without blasting, five dollars per cubic yard.

EXTENT OF SEWERAGE IN THE CITY OF NEW YORK.

Total length, including sewer drains and culverts, 1,632,986 lineal feet (312.56 miles). Total number of receiving vaults, 3,891.

NEW WORK.

Following is a list of sewers ordered, for which proposals are advertised, to be received until Following is a list of sewers ordered, for which proposals are advertised, to be received unite Tuesday, August 12, 1873. No. 1—Outlet sewer from end of present sewer in Manhattan street, to and through One hundred and thirtieth street to the Hudson river, and sewer in New avenue between Eighth and Ninth avenues, from One hundred and fifth to Manhattan streets, and in One hundred and twenty-fourth street, between Seventh avenue and Manhattan street, with branches. No. 2—Sewers in Eighty-third and Eighty-fourth streets, with branches in Eighty-fourth and in Ninth avenue, between Eighty-third and Eighty-fourth streets, with branch in Eighty-fourth

street.
No. 3—Sewer in Fortieth street, between First and Second avenues.
No. 4—Sewer in Horatio street, from the end of present sewer to and through Greenwich avenue to near Jane street.
No. 5—Sewers in Dry Dock street between Tenth and Twelfth streets.
No. 6—Sewers in First avenue between Third and Sixth streets and between Ninth and Tenth

streets.
No. 7—Sewer in One Hundred and Fourth street between Second and Third avenues.
No. 8—Sewers in Avenue A between One Hundred and Twentieth and One Hundred Twenty-third streets, with branch in One Hundred and Twenty-third Street.
No. 9—Sewers in Broadway between Thirty-second and Fifty-ninth streets.
No. 10—Sewer in Broadway between Twenty-seventh and Twenty-eighth streets.
No. 11—Sewer in Fifty-sixth street between Sixth and Second avenues.
No. 12—Sewer in Seventy-fifth street between First and Second avenues.
No. 13—Underground drains between Fifty-sixth and Fifty-seventh streets and between Fourth and Lexington avenues.

Lexington avenues. No. 14-Underground drains between One Hundred and Tenth and One Hundred and No. 14-Underground drains between Fight avenues.

No. 14—Underground drains between One Hundred and Tenth and One Hundred and Twenty-fourth streets and between Fifth and Eighth avenues.
 No 15—Alteration of sewer in Thomas street between Church street and West Broadway.
 No. 16—Sewer in Fifty-sixth street between Eleventh avenue and Hudson River.
 This list represents in the aggregate 23,050 lineal feet of sewer (of which a large proportion will be brick or large trunk sewers, located principally in the upper part of the city), Soo lineal feet of underground drains under the several science of 657 lineal feet of underground drains under the several drains.

will be brick or large trank sewers, located principally in the upper part of the city), soo inear feet of culvert and 40 receiving basins; also 6,687 lineal feet of underground drains, under re-quisition of the Board of Health, and in accordance with Chap. 566, Laws 1871. These contracts comprise the most urgent cases for which application had been made in time or the accordance with the part of the part of the part of the contract of the c for the necessary preparations. Others equally urgent are being arranged for putting under con-

struction as soon as possible. All of which is respectfully submitted.

\$260,255 77

STEVENSON TOWLE, Engineer in Charge of Sewers.

DEPARTMENT OF PUBLIC WORKS, BUREAU OF CONSTRUCTION OF ROADS AND AVENUES, OFFICE OF ENGINEER IN CHIEF, CITY HALL, NEW YORK, August 1, 1873.

Hon. Geo. M. Van Nort, Commissioner of Public Works : SIR :-In compliance with your instructions of the 17th of July, 1873, requesting a report so the transactions of this Bureau for the three months ending July 31st, 1873, I respectfully submit

tures and liabilities in the statement being for work done and material furnishe the following report of the operations and progress of the work done for the improvement of the Bonlevard, streets, roads and avenues in all that part of the city above Fifty-ninth street, which are under the charge of this Bureau.

THE BOULEVARD FROM THE CIRCLE AT FIFTY-NINTH STREET TO 155TH STREET.

At the date of my last report, April 30th, 1873, the entire regulating and grading was com-pleted, and the principal work remaining to be done was the completion of the superstructure of 0470-1000 miles of carriageway, the laying of the flagging, and the trimming and finishing of the

Indewalks.
This work has been vigorously prosecuted, and the carriageways are all completed, except
about 150 lineal feet 40 feet in width, and the laying of the flagging is well advanced, and it is
expected that the whole will be completed early in September.
The principal items of work done since April 30th are:
28,671 square yards roadway finished and completed.
50,400 square feet flagging, 4 feet in width, laid, and sidewalks and cross-streets trimmed and finished.

- finished
- 2.734 cubic yards broken stone of trap rock furnished and delivered.
 763 cubic yards screenings of trap rock furnished and delivered.
 188 trees, American elms, planted on centre strip extending from the Circle to Seventyeighth street.

THE SEWERS ON THE BOULEVARD.

This work has been prose **u** ed at several points, viz.: Between Sixtieth and Sixty-third streets, at Seventieth street, at Eighty-first street, at Ninety-sixth street, and between 122d and 136th streets.

- The following are the quantities of work done : 1,872 lineal feet earth trench excavated.
- rock " " " brick sewer built. 990
- ** 1,235 " 12 and 15, laid.
- 773 " pipe 11 manholes built.
- 11 manuales built.
 1,622 lineal feet curb reset.
 384,000 bricks furnished and delivered.
 6 basin heads furnished and delivered.
 715 barrels cement furnished and delivered.
 - - SEVENTH AVENUE FROM HOTH STREET TO THE HARLEM RIVER.

The superstructure of this avenue was completed just previous to May 1st, and the laying of the flagging and trimming of sidewalks (the only work remaining to be done) was in progress, and **6,545** square feet of flagging has been furnished and delivered, and 36,050 square feet laid, and about two miles of side-walks and cross-streets shaped and trimmed. The whole work can be completed on or before August 20th next. The Harlem Gaslight Company has laid about 10,000 lineal feet of gas pipe, and 77 lamp-posts have been set and lamps placed thereon.

AVENUE ST. NICHOLAS, FROM HOTH STREET TO 155TH STREET.

AVENUE ST. NICHOLAS, FROM 110TH STREET TO 155TH STREET. On the 1st of May last about 5000 cubic yards of filling were required to complete the grading, the superstructure of the carriageway from 121st street to 148th street was incomplete, a small por-tion of the curb and gutter, and all the flagging remained to be laid. The filling has been done, and the carriageway from 128th street to 148th street (about one mile) has been completed and opened for use. The principal items of work done since May 1st are : 5,300 cubic yards of filling furnished. 32,500 square yards roadway finished and completed. 4,500 lineal feet curb set. 11,325 lineal feet gutter laid. 3 receiving basins built.

11,325 inheat teer gutter tand.
3 receiving basins built.
230 lineal feet drain pipe waid.
9,324 cubic yards screened gravel furnished.
19,600 square feet flagging laid.
11 the materials are supplied at the present rate, the carriageway will be completed by the 15th of September. The laying of the flagging is also in progress.

THE TENTH AVENUE FROM 155TH STREET TO 194TH STREET.

Since the first of May the superstructure of the carriage way has been completed and opened for use from 162nd street to 175th street, a distance of 0 655-1000 miles, and the rock excavation has been nearly completed. The work done is as follows:

- The work done is as follows: 3,000 cubic yards rock excavated. 13,100 " " earth filling furnished from sources outside the work. 26,804 square yards roadway finished and completed. 8,180 lineal feet curb set. 11,560 " " furnished. 115 pieces circular corners furnished. 18,280 square feet flagging furnished. 3 silt basins built. 4,371 cubic vards stone broken.

3 silt basins built.
4,371 cubic yards stone broken.
The carriage way is now completed and opened for use from 155th street to 175th street,
about 500 feet beyond High Bridge, and a total length of one mile. The entire work is expected to be completed during the present season.

MANHATTAN STREET FROM 12TH AVENUE TO ITS INTERSECTION WITH AVENUE ST. NICHOLAS BETWEEN THE 8TH AND 9TH AVENUES.

No work has been done upon this street under this Bureau during the past three months on account of the construction of the large outlet sewer which is in progress, and the paving with granite block pavement on the northerly side of the street is also in progress. The setting of the curb and laying of the flagging on the southerly side will be prosecuted as fast as the sewer is completed and the filling becomes settled.

155TH STREET FROM THE EXTERIOR STREET ALONG THE HUDSON RIVER TO THE EXTERIOR STREET ALONG THE HARLEM RIVER.

The regulating and grading west of the 9th avenue is being done by contract, and between avenue St. Nicholas and the Boulevard is so far advanced as to permit the construction of the superstructure of the carriage way, which is being prosecuted on the southerly half, so as to make a connection between the above named avenues, the northerly portion being omitted until the

sewer is built.

12 pieces circular corners. 72ND STREET FROM 8TH AVENUE TO THE HUDSON RIVER. Since May 1st the carriage way between the Bouvelard and 8th avenue has been completed, thereby forming a connection between the Boulevard and the Central Park drives at the 72nd street and 8th avenue entrance, and was opened June 18th, 1873. The work upon the portion from the Boulevard to Riverside avenue is well advanced, and can be completed by the 1st of October next. The quantities of work done since May 1st, 1873, are :---1,500 cubic yards rock excavation. 2,600 cubic yards earth and loose rock.

- 2,600 cubic yards earth and loose rock.
- 7.000 ıр

- 7,500 square feet flagging relaid.
 2,350 cubic yards Macadam stone broken.
 2,222 cubic yards broken stone of trap rock furnished.

2,222 cubic yards broken stone of trap rock luministed.
 611 cubic yards gravel furnished.
 13,133 square yards roadway finished and completed, or 1970 lineal feet opened and in use.
 173RD STREET FROM 10TH AVENUE TO KINGSBRIDGE ROAD.
 Work was commenced thereon the latter part of April, but the force being required to facili-

- " " earth
- retaining wall built.
- 25 lineal feet culvert built.

THE AVENUE WEST OF MORNINGSIDE PARK-THE AVENUE EAST OF MORNINGSIDE PARK, 123RD STREET BETWEEN 9TH AND 10TH AVENUES, AND THE AVENUE ALONG THE EASTERLY SIDE OF RIVERSIDE PARK.

No work has been done upon these avenues an l streets since the 30th of April, the expendi-

MAINTENANCE OF THE BOULEVARD, STREETS AND AVENUES NORTH OF FIFTY-NINTH STREET.

The maintenance of the finished portions of the streets and avenues, consisting of the repairs, sprinkling, cleaning, etc., has very largely increased in extent since the transfer of the work to this Department in June, 1872, at which time there were only 251,039 square yards of roadway to be maintained.

be maintained. On April 30, 1873, it had increased to 467,746 square yards, an increase of 216,707 square yards, or 86 1-3 per cent. At the present time there are 568,078 square yards, an increase of 317,039 square yards, or 126 3-10 per cent. since June 17th, 1872. The amount appropriated for the six and one-half months in 1872 was \$35,000, while for the year 1873 only \$40,000 has been appropriated, while the area to be cared for has increased 126 3-10 per cent.

year 1873 only \$40,000 has been appropriated, while the about \$4,800 per month, and since The expenditures for the ten months ending April 30th was about \$4,800 per month, and since Jan. 1, 1873, has averaged \$4,580 per month, the force having been reduced to the least number practicable, consisting of three foremen, twenty-three laborers, and twenty-six carts and teams. The present force is entirely inadequate to keep the Boulevard, avenues and streets in proper repair and order, and so moistened as to prevent the dust from rising and causing continual com-plaint from those who use them as well as the residents adjacent ; while the amount appropriated will not be sufficient to retain the present labor force (without the supply of materials which should at all times be in reserve for repairs) longer than 10th of September next. At least \$25,000 more will be required to carry the work until January I, 1874. FORCE EMPLOYED.

FORCE EMPLOYED. The force employed upon all the works under the direction of this Bureau on the 1st of May was 1,330 men and teams. The present force is 1,142 men and teams. The number of men and teams placed upon the work by appointment has been 30. The number discharged for inefficiency, neglect of duty, and other causes, has been 21 men and teams.

and

The remainder of the decrease have left the work of their own accord, or have been suspended account of their services being no longer required, caused by the completion of the work upon

which they were engaged. The following statements show the number of days of the force employed upon the several works in each month, and the average working force per day, and the expenditures and liabilities incurred.

Respectfully submitted,

Kespectually submitted, M. A. KELLOGG, Engineer in Chief, Bureau Constructing Roads and Avenues. STATEMENT showing, in Number of Days, the Force employed on the Boulevard and Avenues during each Month, from April 30th, 1873, to August 1st, 1873.

PROCLAMATION. \$1,000 REWARD.

the week is \$127,879.23.

MAYOR'S OFFICE,

New York, September 23, 1873.) WHEREAS, On the 22d day of August

last, a fiendish outrage was committed on the person of Mr. Walter Gibson, proprietor of the Harlem Local, by throwing a large quantity of vitrolic acid Attorney in his face, destroying the sight of the right eye, and endangering the sight of the other ; and whereas active but unsuccess-ful efforts have been made to discover the ful efforts have been made to discover the perpetrators of the assault.

Bureau Now, I, W. F. Havemeyer, Mayor of the city of New York, do hereby offer a Commi Chief (reward of one thousand dollars for the apreward of one thousand dollars for the ap-prehension and conviction of the person or persons who were guilty of the offense ; the said reward to be paid on their con-Bureau Bureau Bureau viction and the certificate of the District Attorney that such conviction was had upon the testimony of the person or persons claiming the reward. But all claims not presented to the Mayor within twenty days after such conviction shall be disregarded.

W. F. HAVEMEYER, Mayor.
