- The accounts of all charitable institutions receiving public moneys shall be so kept as to show the receipts of and disbursements from public moneys separately from the other funds of such institutions, and all institutions shall keep an exact record, to be corrected from time to time, in a form to be approved by the Comptroller, showing the addresses of the parents, guardians, or nearest relatives of inmates, and other information designed to facilitate inquiry into their financial inability to provide for such inmates.

- Moneys received from the City Treasury shall be used by such institutions only for recurring expenses of "care, support and maintenance."

- All institutions receiving public moneys shall be at all reasonable times open to the visitation and inspection of duly authorized representatives of the Department of Public Charities and the Department of Finance.

- Upon it appearing to the satisfaction of the Comptroller that it would be to the public interests to withhold payments to any charitable institution for which an appropriation has been made, he shall give written notice to such institution of his intention to apply to the Board of Estimate and Apportionment for authority to so withhold such payments, and upon the determination of said Board that such payments should terminate, the right of any such institution to receive payment for services rendered thereafter shall thereupon cease.

- Except where appropriations are made in bulk and not upon a per capita basis, no payment shall be made for inmates of private charitable institutions unless the same shall have been accepted by the proper Commissioner of the Department of Public Charities as a proper charge against the City, and, except in emergency cases, Commissioners of Charities shall not accept as proper charges against the City inmates capable of paying for their own support or for whose care adequate provision can be made in public institutions. THE CITY OF NEW YORK, November 20, 1901.

## MUNICIPAL ASSEMBLY.

### PUBLIC NOTICE.

AN ORDINANCE granting to the Union Railway Company of New York City the right or franchise to construct and operate a street surface railway as an extension of its existing railway in, upon and along the surface of certain streets, avenues and highways and to, upon and across a bridge and viaduct constructed in and owned and maintained by The City of New York.

Be it Ordained by the Municipal Assembly of The City of New York, as follows:

WHEREAS, THE UNION RAILWAY COMPANY of New York City has duly presented to the Municipal Assembly of The City of New York, by presenting and filing with each house thereof, its application, in writing, for a grant of the franchise or right to use the streets, avenues and highways, bridge and viaduct in and owned and maintained by The City of New York hereinafter mentioned, and for the construction, maintenance and operation of a double-track street surface railway, as an extension of its existing railway in, upon and along the surface of the same; and

Whereas, The said Municipal Assembly, by resolution adopted on the 25th day of June, 1901, approved by the Mayor on the 5th day of July, 1901, gave public notice of such application, and that at the Councilmanic Chambers in the City Hall of The City of New York, on the 25th day of July, 1901, at 2.30 o'clock in the afternoon, such application of said railway company would be first considered and a public hearing had thereon, which notice was published daily, for at least fourteen (14) days prior to the hearing, in two daily newspapers published in the City of New York, viz.: The "New York Herald," and the "New York Journal and Advertiser," which papers were first designated in writing by the Mayor of said city, on the said 5th day of July, 1901; and

Whereas, After public notice given as aforesaid, and at a public hearing duly held in pursuance of such notice, whereat all persons so desiring were given an opportunity to be heard and were heard, such application was first considered by the Railroad Committees of both houses of said Municipal Assembly; and

Whereas, It is apparent from the proofs submitted and from satisfactory evidence presented that there is a public demand and desire that said railway company extend its railway and construct and operate the same upon and along the streets, avenues and highways and across the bridge and viaduct hereinafter named, which said bridge and viaduct is adjacent to or within one-half mile of its existing railway, for the purpose of reaching the depot, station and terminus of other railroads, not more than one-half mile distant from such bridge and viaduct, and to establish by the construction of said extension a new route for public travel, and the said applicant having consented to operate such extension as a continuous route for one fare; and it further appearing that such extension cannot be operated as an independent railroad without inconvenience to the public, but that it is to the public advantage that the same should be operated as a continuous line or route of the existing railway of the applicant;

Section 1. The Municipal Assembly of The City of New York hereby grants to the Union Railway Company of New York City, subject to the conditions and provisions hereinafter set forth, the franchise or right to extend its railway and to use the streets, avenues, highways, bridge and viaduct of the city, and to construct, maintain, and operate a double-track street surface railway, as an extension of its existing railway, in, upon and along the following-named streets, avenues, highways, bridge and viaduct, viz.:

Commencing at the intersection of Jerome and Sedgwick avenues at the terminus of the tracks of this

company's Jerome avenue line; thence upon and along the westerly approach, known as the Sedgwick avenue approach, formerly called Ogden avenue approach, to Central or Macomb's Dam Bridge; thence southerly upon and along said bridge and the One Hundred and Fifty-fifth Street Viaduct and Macomb's Dam road to the terminus of the railway of the Eighth Avenue Railroad Company, between West One Hundred and Fifty-fourth and West One Hundred and Fifty-fifth streets; also from the intersection of said Central or Macomb's Dam Bridge and the One Hundred and Fifty-fifth Street Viaduct; thence westerly upon and along said viaduct to the station, depot or terminus of the Manhattan Elevated Railway Company, situated between said bridge and Bradhurst avenue, together with the necessary connections, switches, sidings, turnouts, turn-tables, cross-overs and suitable stands necessary for the accommodation and operation of said railroad by the overhead system of electricity or any other motive power which may be lawfully employed upon the same; all in the Borough of Manhattan and The Bronx, City, County and State of New York.

Sec. 2. The grant of said franchise or right to use said streets, avenues, highways, bridge and viaduct is made subject to the following conditions:

First—That the said right, privilege and franchise to construct and operate said extension shall be held and enjoyed by said railway company, its lessee or successors, for the term of twenty-five years, with the privilege of a renewal of said grant for the further period of twenty-five years upon a fair revaluation of the right, such revaluation to be of the right, privilege and franchise to maintain and operate said extension by itself, and not to include any value derived from the ownership, control or operation of any other railroad, line or tracks of the grantee, its successors or assigns; provided, however, that the consent of the owners of one-half in value of the property bounded on such streets, avenues, highways, bridge and viaduct shall be first obtained, or in lieu thereof the favorable determination of three commissioners, approved by the Appellate Division of the Supreme Court, that such extension should be constructed and operated.

Second—Upon the termination of the said franchise or right, whether original or renewed, there shall be a fair valuation of the plant and property of the applicant in the streets, avenues, highways, and upon the bridge and viaduct aforesaid, with its appurtenances, and the said plant and property shall be and become the property of the City of New York at the termination of the grant, on paying the grantee such valuation. Such payment shall be at a fair valuation of the said plant and property, as property, excluding any value derived from the franchise.

Third—The mode of determining the valuations and revaluations herein provided for shall be as follows: One disinterested freeholder shall be chosen by the Board of Estimate and Apportionment; one disinterested freeholder shall be chosen by the railway company; these two shall choose a third disinterested freeholder; the three so chosen shall act as appraisers, and shall make the valuation and revaluations aforesaid. Such appraisers shall be chosen at least sixty days prior to the expiration of the grant, or of the renewal thereof, and their report shall be filed with the Comptroller of the City not more than thirty days thereafter. They shall act as appraisers and not as arbitrators; they may base their judgment upon their own experience and upon such information as they may obtain by inquiries and investigations without the presence of either party; they shall have the right to examine the books of the railway company. The valuations so ascertained, fixed and determined shall be conclusive upon both parties.

Fourth—The said Union Railway Company of New York City shall pay into the treasury of the city the percentages required to be paid by section four of chapter three hundred and forty of the Laws of eighteen hundred and ninety-two, said percentages not to be less in any one year, however, than one thousand dollars (\$1,000).

Fifth—The said railway may be operated by overhead electrical power substantially similar to the system of overhead electrical traction now in use on other portions of the existing road of said company and by any other motive power, except locomotive steam-power, which may be approved by the Board of Railroad Commissioners and consented to by the owners of property, in accordance with the provisions of the Railroad Law.

Sixth—The said extension shall be constructed and maintained subject to the supervision and control of the Commissioner of Highways, Commissioner of Bridges and the Commissioner of Public Buildings, Lighting and Supplies of The City of New York, in all matters with respect to which said Commissioners are respectively invested with the power of regulation and control by the Charter of said city.

Sec. 3. The said grant is also upon the further conditions, namely:

First—The said extension shall be constructed and operated in the latest improved manner of street railway construction, and the railway and property on said extension shall be maintained in good condition throughout the full term of this grant.

Second—The rate of fare for any passenger upon said extension shall be five cents; and said company shall not charge any passenger more than said sum for one continuous ride from any point on said extension on any road, line or branch operated by it, under its control to any other point thereof or any connecting branch thereof within the limits of The City of New York. The cars on said extension shall be run as often as the public convenience may require.

Third—The said railway company shall apply to each car run over said extension a proper fender and wheel guard in conformity to such laws and ordinances as may hereafter be enacted or adopted by the State or city authorities.

Fourth—All cars on said extension shall be heated during cold weather in conformity to such laws and ordinances as are now in force or may hereafter be enacted or adopted by the State or city authorities, and each car shall be well lighted either by the Pintsch gas system or by electricity, or by some system of lighting equally efficient.

Fifth—In case of any violation or breach of, or failure to comply with, any of the provisions of this section, this grant may be forfeited by suit brought by the Corporation Counsel on notice of ten days to the said railway company.

Sec. 4. This grant is also upon the further and expressed condition that the provisions of Article IV. of the Railroad Law applicable thereto be complied with.

Sec. 5. The said company shall at all times keep the street between its tracks and for a distance of two feet beyond the rails upon either side of said extension free and clear from ice and snow.

Sec. 6. The said railway company, so long as it shall continue to use any of the tracks upon said streets, avenues, highways, bridge and viaduct, shall have and keep in permanent repair that portion of such streets, avenues, highways, bridge and viaduct between its tracks, the rails of its tracks and two feet in width outside of its tracks, under the supervision of the proper local authorities, and whenever required by them to do so, and in such manner as they may prescribe.

Sec. 7. This grant shall not become operative unless, within ten days after the approval thereof by the Mayor of said city or the final passage thereof succeeding the return with the disapproval thereof, or subsequent to the taking effect of said grant by reason of the failure of said officer to return the same with his disapproval, the said railway company shall duly execute under its corporate seal an instrument in writing wherein said company shall promise, covenant, and agree on its part and behalf to pay the compensation, and to conform to, abide by and perform all the conditions and requirements in this ordinance fixed and contained, and within the said period file the said instrument in the office of the Comptroller of The City of New York.

Sec. 8. This ordinance shall take effect immediately. Published in accordance with a resolution adopted by the Municipal Assembly of The City of New York

on the 26th day of November, 1901, and approved by his Honor the Mayor on the same date.
