DEPARTMENT OF HEALTH.

Report for Week Ending March 15, 1913.

COUNTRY MILK INSPECTION SUSTAINED BY COURT OF APPEALS.

On February 25, 1913, another decision in favor of the Department of Health of far-reaching importance in upholding the legality of the present methods of dairy inspection, was handed down by the Court of Appeals. A dairyman outside The City of New York had sued the Chief of the Division of Food Inspection for damages sustained through his official action in notifying a creamery company not to include the plaintiff's milk in its shipments to the City, the officer in question having acted on the report to his department by its inspectors that the conditions of the plaintiff's dairy

were insanitary. This complaint was dismissed in the Supreme Court of Delaware County about two years ago. The plaintiff then appealed. The decision of the Court of Appeals, which follows, was written by Justice Gray, all the other justices concurring. It sustains the right of the Department of Health to prevent shipments from the country into the City of milk produced under insanitary conditions at the dairy, and also points out that an action for injuries resulting from proceedings by the Department of Health or its officers in the proper performance of their duties must be brought against the City. The full decision follows:

Decision.

The plaintiff claims damages from the defendant for having, as he alleges, trespassed upon "his property rights." The plaintiff, being engaged in dairy farming and being a member of a creamery company, complains that in the year 1909 the defendant, through his agents and employees wrongfully and unlawfully entered upon his premises and interfered with his business. More particularly he alleges that on December 6, 1909, "the said defendant, assuming to be a public officer and chief of the division of sanitary inspection of public health, and assuming to have the power and authority to prevent the sale of milk supplies in The City of New York * * * unlawfully and wrongfully * * * stopped the delivery of plaintiff's milk product to the creamery, * * * ordered and directed said creamery company not to receive the milk of said plaintiff; and, further, directed that if said creamery company did receive the same, the right to dispose of said product in The City of New York would be stopped and the permit, or license, to sell the same would be revoked, and that * * * because of such directions and threats, so made by said defendant assuming to act as said chief of division of sanitary inspection, said plaintiff was obliged to and did discontinue the delivery of his dairy product to said creamery." The answer of the defendant, not admitting all that was alleged against him, in substance, justified what action he may have taken in the premises, as having been done "as a health officer of The City and State of New York, in good faith and on behalf of and under the Department of Health, pursuant to its regulations, ordinances and health laws." When the case came to be tried, it appeared by the plaintiff's evidence that in October, 1909, he had received a letter, purporting to come from the Department of Health of The City of New York and signed by the defendant as "Chief of the Division of General Sanitary Inspection," in which he was informed, in substance, that, as the result of an inspection of his dairy farm, certain insanitary conditions were found to exist, which, if not improved within a certain time, would require notice to be given to the vendors of his milk in The City of New York that it was produced in violation of the terms of their permit. This was followed by a letter from the defendant addressed to the creamery company dated December 6 and signed as in the previous letter. It informed the company that "the rules of the department for the production of clean and wholesome milk were still being violated" by the plaintiff and gave notice not to include his milk in future shipments. Recognizing this communication as one from the Department of Health of The City of New York, the plaintiff addressed a reply to the department on December 9, referring to the letter of December 6 and stating that he had been making improvements to his premises; that he was willing to comply with any reasonable demands, if informed as to the changes desired, and that he was interested with all the patrons of the creamery in the effort "to produce a wholesome milk product." On December 11 specifications concerning plaintiff's stable, dairy and herd were sent him by the department. On January 14, 1910, the plaintiff, being notified by the manager of the creamery to that effect, recommenced his delivery of milk and the damage, alleged to have been sustained by him was for the interruption of his sales between December 8, 1909, and January 14, 1910.

The evidence showed that the defendant was never upon the plaintiff's premises and that those who went there as inspectors for the Department of Health were received without objection by the plaintiff and conducted by him over his farm and through his buildings. It showed that all communications from the defendant to the plaintiff were official in their form and character. At the conclusion of the plaintiff's case his complaint was dismissed, and the judgment thereupon entered in favor of the defendant was affirmed at the Appellate Division.

I think that the plaintiff was properly nonsuited, for upon this state of facts what cause of action against the defendant was apparent? If the plaintiff's complaint was in trespass, the evidence failed to show an unauthorized entry upon his premises, either by the defendant or by any agent. If, however, the alleged "trespass upon the property rights of the plaintiff" consisted in causing the interruption in the sale of his milk product, then no cause of action was made out. It will be observed that the complaint charged the defendant with doing the acts complained of, while "assuming to be a public officer and chief of the division of sanitary inspection of the Department of Health." It is clear, if the defendant was not an officer of the Health Department, that no act of his could have prevented the shipment by the creamery of plaintiff's milk to New York City. If, as is probably true, what the plaintiff intended was to charge an illegal exercise by the defendant of official power, or of the powers conferred upon the Board of Health, then I find no cause of action established. The complaint does not allege that the defendant acted in excess of his authority as an officer of the Department of Health, nor that he acted in bad faith, or without due care, or maliciously, and, therefore, in what he did as such officer he was protected by the statute against the consequences. Section 1196 of the Greater New York Charter provides in substance, that no member, officer or agent of the Department of Health shall be sued or held to liability for any act done in good faith and with ordinary discretion on behalf of the department or pursuant to its regulations, ordinances or health laws. "And any person whose property may have been * * * injured, pursuant to any * * * action of said Department of Health or its officers, for which no personal liability may exist," is remitted by the statute to "an action against the City for the recovery of the proper compensation or damage." Acting as an officer of the Department of Health, in good faith, if the defendant's acts caused any loss to the plaintiff the latter's exclusive remedy, upon the ground of an illegal exercise of power, was by an action against the City. The case shows that the defendant did nothing except as an officer of the department, taking action upon the reports made by agents as to the insanitary conditions under which the plaintiff's milk was produced.

The argument that the Department of Health of The City of New York exceeded its lawful powers "in assuming to regulate the method of the production of milk by the plaintiff and in prohibiting the creamery company from including plaintiff's milk in its shipments" is unsound, as is the argument that the statute, if conferring such an authority, was invalid, as delegating to the officers of the municipality jurisdiction over the affairs of another locality. The Department of Health of The City of New York is charged by law with the responsibility of preventing pestilence and disease in The City of New York. Its duty is to enforce all laws applicable to the preservation of human life and the promotion of health and such as relate to the use or sale of unwholesome, deleterious or adulterated food. In the faithful and efficient performance of that duty, the whole State, as well as the City, is concerned, and the department must be deemed to possess whatever power is needed to make effective the express powers conferred. So broad is the responsibility with which the Department of Health is charged, that it is to give all information in its possession relating to the existence and cause of disease to the local health authorities of any city, village or town which may request the same, and to "add thereto such useful suggestions" as experience may supply. Of the food supplies introduced into The City of New York, milk is one of the most important. It is now a matter of common knowledge that, if infected, it carries with it the germs or bacilli of dangerous and epidemic diseases. It is the food of the infant and it is an important element of the food of the adult. It may be infected as it comes from the cow or it may be contaminated by reason of the insanitary conditions of the dairy. Whatever, therefore, the Department of Health may do towards preventing the introduction of milk into The City of New York, which its officers have reason to believe to be unwholesome and deleterious, is in the performance of a statutory duty. It is unreasonable to say that the Department of Health, in exercising such a power, renders itself amenable to the charge of exercising an extraterritorial jurisdiction. In notifying the creamery company not to include the plaintiff's milk in its shipments to the City, it was acting for the protection of the inhabitants of The City of New York, and, therefore, for local interests. There was no interference with the plaintiff's conduct of his farm or business except as he proposed to supply milk to The City of New York; there was simply an embargo laid upon the introduction within The City of New York of any milk not produced by him under conditions specified by the department. It had the right to exact from all shippers of milk a com-

pliance with such conditions as would reasonably tend to a pure product for the use of the citizens, as a condition of permitting its sale in The City of New York. In exercising the supervision and in taking the preventive measures, which appear in the evidence, the Department of Health was properly and reasonably executing the duty imposed upon it by the statute of conserving the public health; in which, as I have already observed, the State at large is equally interested with the City.

For these reasons I advise that the judgment appealed from be affirmed.

INCREASE IN DEATHS FROM INFLUENZA.

A dispatch from Vienna to the "New York Times," dated March 14, states that the worst epidemic of influenza on record is afflicting the Austrian capital. Half a million cases have been reported during the past three months, and the epidemic is still raging so severely as to tax the capacity of the doctors, public hospitals and nursing institutions. Whole families appear to be attacked simultaneously and persons of all ages are equally affected. The disease appears to be of a peculiarly virulent type with serious after effects, such as inflammation of the lungs, bronchitis, indigestion and general debility. Recent reports also state that the disease is very prevalent in Boston, Rochester, and other cities in the eastern part of the United States.

In New York City, an increase in the number of cases of influenza has unquestionably occurred during the past five weeks accompanied by a decided increase in the number of deaths from those diseases with which influenza is so often complicated, bronchitis, lobar pneumonia and broncho pneumonia. Influenza is especially fatal at the extremes of life, and we find, during the past five weeks, a marked increase in the number of deaths occurring under five years of age and at sixty-five years and over. These features are shown in the following mortality tables, which cannot fail to be of interest to physicians and sanitarians:

	Week Ending Feb. 10. 1912.	Week Ending Feb. 17. 1912.	Week Ending Feb. 24. 1912.	Week Ending Mar. 2. 1912.	Week Ending Mar. 9. 1912.	Week Ending Mar. 16. 1912.	Week Ending Mar. 23. 1912.	Week Ending Mar. 30. 1912.	Week Ending Apr. 6. 1912.

Deaths 65 years and over	297	267	320	335	297	356	280	329	339

Since the great pandemic of 1890 and 1891, influenza has been mildly endemic in New York City, manifesting every now and then exacerbations in severity. A fatal result, except in the very young or very old, is almost always occasioned by complications, usually those involving the respiratory apparatus. It is very evident from the mortality statistics cited above that New York has recently experienced one of the periodic increases of the diseases both in severity and extent. With the approaching advent of warmer weather, accompanied by the free ventilation of dwellings, it is not likely that any further increase in the extent and severity of the disease will take place, and a severe epidemic resembling that of 1890 is certainly not to be apprehended.

MORTALITY OF THE WEEK.

There were 1,848 deaths and a rate of 17.94 per 1,000 reported during the week ending March 15, 1913, as against 1,602 deaths and a rate of 16.15, an increase of 246 deaths and 1.79 points. This increased mortality prevailed at all ages. Among children it was caused by an increase of 13 deaths from measles, 9 from diphtheria and croup and 7 from whooping cough. The most prominent factor in the increased mortality was due to the presence of influenza as shown by the increased mortality from pneumonia (93), organic heart diseases (41), Bright's disease and nephritis (21), digestive diseases (18), and all other causes (64). There were 19 more deaths reported among children under 5, 143 more deaths between the ages of 5 and 65, and 84 more deaths at the ages of 65 and over.

The death rate for the first 11 weeks of 1913 was 15.79, as against 15.68 in the corresponding period of 1912, an increase of .11 of a point.

Resolved, That the Board of Estimate and Apportionment hereby grants to The Stock Quotation Telegraph Company the franchise or right fully set out and described in the following form of proposed contract for the grant thereof, embodying all of the terms and conditions, including the provisions as to rates and charges upon and subject to the terms and conditions in said proposed form of contract contained, and that the Mayor of The City of New York be and he hereby is authorized to execute and deliver such contract in the name and on behalf of The City of New York, as follows, to wit:

Proposed Form of Contract.

This Contract, made this day of 1913, by and between The City of New York (hereinafter called the City), party of the first part, by the Mayor of said City, acting for and in the name of said City, under and in pursuance of the authority of the Board of Estimate and Apportionment of said City (hereinafter called the Board), and The Stock Quotation Telegraph Company (hereinafter called the Company), party of the second part, witnesseth:

In consideration of the mutual covenants and agreements herein contained, the parties hereto do hereby covenant and agree as follows:

Section 1. The City hereby grants to the Company, subject to the conditions and provisions hereinafter set forth, the right and privilege to lay, construct, maintain and operate suitable wires or other electrical conductors under the streets and avenues within the Borough of Manhattan and the portion of the Borough of The Bronx lying west of the Bronx River, and to lay, construct, maintain and operate suitable wires or other electrical conductors, and the necessary conduits for the same, under the streets and avenues within the Borough of Brooklyn, and the Borough of Queens, for the purpose of electrically connecting its offices with each other and with other offices and with subscribers, so as to allow of the collection and exchange by means of telegraph instruments, commonly known as "Morse instruments," of general news, financial news and other matters of general interest, and the distribution of the same over the said wires and cables to printing telegraph instruments, commonly known as "stock tickers," and for no other purpose whatsoever.

Sec. 2. The grant of this privilege is subject to the following conditions, which shall be complied with by the Company:

First—The said right and privilege to lay, construct, maintain and operate wires or other electrical conductors in conduits, and on bridges, for the purposes aforesaid, shall be held and enjoyed by the Company for the term of fifteen (15) years from January 1, 1913, with the privilege of renewal of said contract for a further period of ten (10) years, upon a fair revaluation of said right and privilege.

If the Company shall determine to exercise its privilege of renewal, it shall make application to the Board, or any authority which shall be authorized by law to act for the City in place of the Board. Such application shall be made at any time not earlier than two (2) years and not later than one (1) year before the expiration of the original term of this contract. Determination of the revaluation shall be sufficient if agreed to in writing by the Company and the Board, but in no case shall the annual rate of compensation to the City be fixed at a less amount than the sum required to be paid during the last year prior to the termination of the original term of this contract.

If the Company and the Board shall not reach such agreement on or before the day one (1) year after the expiration of the original term of this contract, then the annual rate of compensation for such succeeding ten (10) years shall be reasonable, and either the City (by the Board) or the Company shall be bound upon request of the other to enter into a written agreement with each other fixing the rate of such compensation at such amount as shall be reasonable, but in no case shall the annual rate so fixed be less than the sum required to be paid for the last year prior to the termination of the original term of this contract, and if the parties shall not forthwith agree upon what is reasonable, then the parties shall enter into a written agreement fixing such annual rate and at such amount as shall be determined by three disinterested freeholders selected in the following manner:

One disinterested freeholder shall be chosen by the Board; one disinterested freeholder shall be chosen by the Company; these two shall choose a third disinterested freeholder, and the three so chosen shall act as appraisers and

shall make the revaluation aforesaid. Such appraisers shall be chosen at least six (6) months prior to the expiration of this original contract, and their report shall be filed with the Board within three (3) months after they are chosen. They shall act as appraisers and not as arbitrators. They may base their judgment upon their own experience and upon such information as they may obtain by inquiries and investigations, without the presence of either party. They shall have the right to examine any of the books of the Company and its officers under oath. The valuations so ascertained, fixed and determined shall be conclusive upon both parties, but no annual sum shall, in any event, be less than the sum required to be paid for the last year of this original contract. If in any case the annual rate shall not be fixed prior to the termination of the original term of this contract, then the Company shall pay the annual rate theretofore prevailing until the new rate shall be determined, and shall then make up to the City the amount of any excess of the annual rate then determined over the previous annual rate. The compensation and expenses of the said appraisers shall be borne jointly by the City and the Company, each paying one-half thereof.

Second—The Company shall pay to the City for the privilege hereby granted, the following sums of money:

1. The sum of ten thousand dollars (\$10,000) in cash within thirty (30) days after the date upon which this contract is signed by the Mayor.

2. The further sum of five thousand dollars (\$5,000) in cash for use and occupation of the streets of the City since October 4, 1911, to be paid within thirty (30) days after the signing of this contract by the Mayor.

3. During the first term of five years, an annual sum which shall in no case be less than forty-five hundred dollars (\$4,500) and which shall be equal to three (3) per cent. of its gross annual receipts within the City, exclusive of rentals from its building or buildings, if such percentage shall exceed the sum of forty-five hundred dollars (\$4,500).

4. During the second term of five (5) years, an annual sum which shall in no case be less than six thousand dollars (\$6,000), and which shall be equal to four (4) per cent. of its gross annual receipts within the City, exclusive of said rentals, if such percentage shall exceed the sum of six thousand dollars (\$6,000).

5. During the remaining term of this original contract, an annual sum which shall in no case be less than seventy-five hundred dollars (\$7,500), and which shall be equal to five (5) per cent. of its gross annual receipts within the City, exclusive of said rentals, if such percentage shall exceed the sum of seventy-five hundred dollars (\$7,500).

6. Such further sum or sums as may be imposed by the Bridge Commissioner for the use of such bridge or bridges under his jurisdiction as he may permit.

The annual charges shall commence from the date on which this contract is signed by the Mayor.

All annual charges as above shall be paid into the Treasury of the City on November 1 of each year and shall be for the amount due to September 30 next preceding. Provided that the moneys due when this contract is signed by the Mayor shall be paid into the Treasury of the City within thirty (30) days immediately following such date, and provided further that the first annual payment thereafter shall be only for that proportion of the first annual charge as the time between the date upon which this contract is signed by the Mayor and September 30 following shall bear to the whole of one year.

Whenever he percentage required to be paid shall exceed the minimum amount as above, then such sum over and above such minimum shall be paid on or before November 1 in each year for the year ending September 30 next preceding.

Any and all payments to be made by the terms of this contract to the City by the Company shall not be considered in any manner in the nature of a tax, but such payments shall be made in addition to any and all taxes of whatsoever kind or description now or hereafter required to be paid by any ordinance of the City, or resolution of the Board, or any law of the State of New York.

Third—The annual charges or payments shall continue throughout the whole term of this contract (whether original or renewal), notwithstanding any clause in any statute or in the charter of any other company providing for payment for similar rights or franchises at a different rate, and no assignment, lease or sublease of the rights or privileges hereby granted (whether original or renewal), or of any part thereof, shall be valid or effectual for any purpose, unless the said assignment, lease or sublease shall contain a covenant on the part of the assignee or lessee that the same is subject to all the conditions of this contract; and that the assignee or lessee assumes and will be bound by all of said conditions and especially said conditions as to payments, anything in any statute or in the charter of such assignee or lessee to the contrary notwithstanding, and that the said assignee or lessee waives any more favorable conditions created by such statute or its charter, and that it will not claim by reason thereof, or otherwise, exemption from liability to perform each and all of the conditions of this contract.

Fourth—The rights and privileges hereby granted shall not be assigned, either in whole or in part, or leased or sublet in any manner, nor shall the title thereto, or right, interest or property therein, pass to or vest in any other person or corporation whatsoever, either by the act of the Company or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations or otherwise, without the consent of the City, acting by the Board, evidenced by an instrument under seal, anything herein contained to the contrary thereof in any wise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents.

Fifth—Upon the termination of this original contract, or, if the same be renewed, then at the termination of the said renewal term, or upon the termination of the rights hereby granted for any cause, or upon the dissolution of the Company before such termination, the wires and equipment of the Company constructed pursuant to this contract within the streets and avenues shall become the property of the City without cost and the same may be used or disposed of by the City for any purpose whatsoever, or the same may be leased to any company or individual.

If, however, at the termination of this contract as above, the Board shall so order by resolution, the Company shall, upon thirty (30) days' notice from the Board, remove any and all of its wires and other equipment constructed pursuant to this contract and the said streets and avenues shall be restored to their original condition at the sole cost and expense of the Company.

Sixth—The Company shall construct, maintain and operate its electric system subject to the supervision and control of all the authorities of the City who have jurisdiction in such matters, as provided by the Charter of the City and in strict compliance with all laws or ordinances or departmental rules and regulations now in force,

or which may be adopted, affecting companies operating electrical conductors in the City.

No construction or repair of said electrical system shall be commenced until written permits have been obtained from the proper City officials. In any permit so issued, such officials may impose such conditions, as a condition of the granting of the same, as are necessary for the purpose of protecting any structures in the streets and avenues and the proper restoration of the surface of such streets and avenues over which such officials have jurisdiction, and the Company shall comply with such conditions.

Upon completion of any work or construction, the Company shall furnish to the President of the Borough a plan of such character as he may direct, showing accurately and distinctly the location, size and type of construction and complete dimensions of the structures erected, installed or constructed under this contract, and the location and dimensions of all substructures encountered during the progress of the work; the depth below the street surface of the new structures and of the substructures encountered must be shown, also their location with reference to the nearest curb line and the nearest curb line intersection.

The electrical and other equipment to be installed by the Company, whether the same be under streets and avenues, in any department of the City or in private property, shall be constructed and maintained subject to the approval and under the supervision and control of the Commissioner of Water Supply, Gas and Electricity.

Seventh—The plant, conduits, wires, conductors, connections, instruments and all appurtenances thereto, shall be constructed, maintained and operated in the latest approved manner and with the most modern and improved appliances, and it is hereby agreed that the Board may require the Company to improve or add to its plant, conduits, wires, conductors, connections, instruments and appurtenances, from time to time, as such additions or improvements are necessary in the opinion of the Board. Upon failure on the part of the Company to comply with the direction of the Board within a reasonable time, the rights hereby granted shall cease and determine.

Eighth—All cables and wires of the Company laid pursuant to this contract shall be placed in ducts, conduits or subways (referred to in this paragraph as subways). In the Borough of Manhattan and that portion of the Borough of The Bronx west of the Bronx River, such subways shall be leased from the Company or companies having control thereof under the provisions of law, or from the City, should it succeed to the rights of such company or companies. In the other territory in which the Company is authorized to operate by virtue of this contract, it may construct such subways as are necessary for the accommodation of its cables and wires and no more. If the City shall construct or acquire subways for electrical conductors of the character or tension of those used by the Company or similar companies, in any or all of the Boroughs, the Company hereby agrees to lay its wires and conductors in such subways and the City agrees to lease to the Company such space as may be necessary and available for the operation of the system hereby authorized. No cables or wires shall, in the future, be strung above the surface of the streets and avenues by the Company, and those at present in existence shall be removed and placed underground when and where required by the Board or the Commissioner of Water Supply, Gas and Electricity.

Ninth—The use of any bridge under the jurisdiction of the Department of Bridges shall be at the discretion of the Bridge Commissioner and in accordance with such terms and conditions and upon such reasonable charges as he may prescribe.

Tenth—It is a condition of this contract that the Company shall bear the entire expense of all work undertaken by reason of this grant. Any alteration to the sewerage or drainage system, or to any other subsurface or to any surface structures in the streets required on account of the construction or operation of the underground conduits herein authorized to be placed in the streets, shall be made at the sole cost of the Company and in such manner as the proper City officials may prescribe.

Eleventh—It is agreed that the right hereby granted to lay and maintain conduits shall not be in preference or in hindrance to public work of the City, and should the said conduits in any way interfere with the construction of public works in the streets and avenues, whether the same is done by the City directly or by a contractor for the City, the Company shall, at its own expense, protect or move its conduits and their appurtenances in the manner directed by the City officials having jurisdiction over such public work.

Twelfth—Should the grades or lines of the streets and avenues in which the Company is hereby authorized to operate be changed at any time during the term of this contract, or any renewal thereof, the Company shall, at its own expense, change its conduits and appurtenances to conform with such new grades and lines, and during the construction of any public improvement upon said streets or avenues the Company shall take care of and protect its conduits and appurtenances at its own expense, all to be done subject to the direction of the City officials having jurisdiction over the construction of such change.

Thirteenth—The Company shall, upon request from any individual or corporation occupying or owning premises in the territory in which the Company is authorized to operate, by this contract, not in arrears to it for service already rendered, extend its wires to such premises and furnish news or other service to such individual or corporation, provided that such premises are not more than one-half mile from any other premises in which the Company has its apparatus installed at the time such request is made.

Fourteenth—The Company shall file with the Board on the first day of November in each year a map or plan upon which shall be plainly and separately indicated the number of wires which were in use by the Company on September 30 preceding, and the streets in which the same are located, and also those which were put in use during the year preceding that date. It shall also file with the Department of Water Supply, Gas and Electricity, on or before the tenth day of each month, a map or plan of the locations in which wires have been placed by it during the preceding month.

Fifteenth—The rates to be charged by the Company shall not be in excess of the following, and it is agreed that the same may be altered or changed by the Board as hereinafter provided.

The Company agrees upon request of any Board, Department or Bureau of the City government, to furnish service to any and all buildings under the control of such Board, Department or Bureau, at one-half the rates above authorized to be charged by it for whatever class or classes of service may be required.

Seventeenth—The Company shall not require nor receive from its subscribers any deposit or advance payment in excess of what is reasonably necessary to insure payment of current bills, and on such amounts so paid the Company shall pay interest at the statutory rate whenever such money is held for more than one month. Unpaid bills, unless due from its owner, shall never be charged against property, and no person not himself in arrears shall be denied service because any previous occupant of the same premises is in arrears to the Company for service.

Eighteenth—The wires of the Company shall be employed for no other purposes than those explicitly set forth herein and the Company binds itself not to lay, use, lease or operate wires for illegal purposes or to illegal places.

Nineteenth—The Company shall assume all liability to persons or property by reason of the construction or operation of the system authorized by this contract, and it is a condition of this contract that the City shall assume no liability whatsoever to either persons or property on account of the same, and the Company hereby agrees to repay to the City any damage which the City shall be compelled to pay by reason of any acts or defaults of the Company.

Twentieth—Nothing in this contract shall be deemed to affect in any way the right of the City to grant to any individual or other corporation a similar right or privilege upon the same or other terms and conditions in the territory covered by this contract, or any part thereof.

Twenty-first—If the Company shall fail to give efficient public service at the rates herein fixed, or fail to maintain its structures and equipment as herein provided in good condition throughout the whole term of this contract, the Board may give notice to the Company, specifying any default on the part of the Company, and requiring the Company to remedy the same within a reasonable time; and upon failure of the Company to remedy such default within a reasonable time, the Company shall, for each day thereafter during which the default or defect remains, pay to the City the sum of one hundred dollars (\$100) as fixed or liquidated damages, or the Board, in case such structures or equipment which may affect the surface of the streets shall not be put in good condition within a reasonable time after notice by the Board as aforesaid, shall have the right to make all needed repairs at the expense of the Company, in which case the Company shall pay to the City the amount of the cost of such repairs, with legal interest thereon, all of which sum may be deducted from the fund herein-after provided for.

Twenty-second—If for a period of twelve consecutive months, the system of the Company shall not be operated, or if the same shall not be operated for a period of eighteen months out of any consecutive twenty-four months, the Board may declare the right and franchise and this contract terminated without further proceedings at law or in equity.

Twenty-third—The Company shall at all times keep accurate books of account and shall, on or before November 1 in each year, make a verified report to the Comptroller of the City of the business done by the Company for the year ending September 30 next preceding. Such report shall contain a statement of the gross receipts received from the operation of the system hereby authorized from all subscribers served by the Company and in any form and detail as the Comptroller may require. The Comptroller shall have access to all books of the Company for the purpose of ascertaining the correctness of its report and may examine its officers under oath.

Twenty-fourth—The Company shall submit to the Board a report not later than November 1 of each year for the year ending September 30 next preceding, and at any other time, upon request of the Board, which shall state:

Twenty-fifth—This grant is upon the express condition that the Company, within thirty (30) days after the signing of this contract by the Mayor, and before anything is done in exercise of the rights conferred hereby, shall deposit with the Comptroller of the City the sum of twelve thousand dollars (\$12,000), either in money or securities, to be approved by him, which fund shall be security for the performance by the Company of all of the terms and conditions of this contract, especially those which relate to the payment of the annual charges for the privileges hereby granted, in default of which payment of the annual charges, the City shall collect the same, with interest, from the said fund after ten (10) days' notice to the Company.

In case of failure of the Company to comply with the terms of this contract relating to the filing of annual statements, furnishing of service to applicants as herein provided or its neglect or refusal to comply with any demand or direction of the Board or other municipal officials, made pursuant to the terms of this contract, or under the authority of any laws, ordinances or departmental regulations now or hereafter in force, in such case and in any of these events, the Company, except as herein otherwise provided, shall pay to the City a penalty of fifty dollars (\$50) for each violation.

The procedure for the imposition and collection of the penalties in this contract shall be as follows:

The Board, on complaint made, shall give notice to the Company, directing its President, or other officer, to appear before the Board on a certain day not less than ten (10) days after the date of such notice, to show cause why the Company should not be penalized in accordance with the foregoing provisions. If the Company fails to make an appearance, or after a hearing appears, in the judgment of the Board, to be in fault, said Board shall forthwith impose the prescribed penalty, or where the amount of the pen-

alty is not prescribed herein, such amount as appears to the Board to be just, and without legal procedure direct the Comptroller to withdraw the amount of such penalty from the security fund deposited with him. In case of any drafts made upon the security fund, the Company shall, upon ten (10) days' notice in writing, pay to the City a sum sufficient to restore said security fund to the original amount of twelve thousand dollars (\$12,000), and in default thereof this contract shall be cancelled and annulled at the option of the Board, acting in behalf of the City. No action or proceeding or right under the provisions of this contract shall affect any other legal rights, remedies or causes of action belonging to the City.

Twenty-sixth—In case of any violation or breach or failure to comply with any of the provisions herein contained, this contract may be forfeited by a suit brought by the Corporation Counsel, on notice of ten (10) days to the Company, or at the option of the Board, by resolution of said Board, which said resolution may contain a provision to the effect that the portion of its system constructed and in use by virtue of this contract and located in the public streets and avenues shall thereupon become the property of the City without proceedings at law or in equity. Provided, however, that such action by the Board shall not be taken until the Board shall give notice to the Company to appear before it on a certain day not less than ten (10) days after the date of such notice, to show cause why such resolution declaring the contract forfeited should not be adopted. In case the Company fails to appear, action may be taken by the Board forthwith.

Twenty-seventh—If at any time the powers of the Board or any other of the authorities herein mentioned, or intended to be mentioned, shall be transferred by law to any other board, authority, officer or officers, then and in such case such other board, authority, officer or officers shall have all the powers, rights and duties herein reserved to or prescribed for the Board or other authorities, officer or officers.

Twenty-eighth—The words "notice" or "direction" wherever used in this contract shall be deemed to mean a written notice or direction. Every such notice or direction to be served upon the Company shall be delivered at such office in the City as shall have been designated by the Company, or if no such office shall have been designated, or if such designation shall have for any reason become inoperative, shall be mailed in the City, postage prepaid, addressed to the Company at the City. Delivery or mailing of such notice or direction as and when above provided shall be equivalent to direct personal notice or direction, and shall be deemed to have been given at the time of delivery or mailing.

Twenty-ninth—The words "streets and avenues" or "streets or avenues," wherever used in this contract, shall be deemed to mean streets, avenues, highways, parkways, driveways, courses, boulevards, bridges, viaducts, tunnels, public places or any other property to which the City has title or over which the public has an easement, included within the limits of the territory in which the Company is hereby authorized to operate.

Thirtieth—The grant of this privilege is subject to whatever right, title or interest the owners of abutting property or others may have in and to the streets and avenues of the territory in which the Company is authorized to operate by this contract.

Sec. 3. It is understood that this contract is made without prejudice to any rights which the Company may have heretofore acquired, if any, to operate a telephone, telegraph or ticker business. However, the Company shall not exercise any right or privilege other than that herein authorized and recognized, and in accordance with the terms of this contract, except after final judicial determination in an action to which the City is made a party.

Sec. 4. Nothing in this contract shall be construed as in any way limiting the present or future jurisdiction of the Public Service Commission under the Laws of the State of New York.

Sec. 5. The Company promises, covenants and agrees on its part and behalf to conform to and abide by and perform all the terms, conditions and requirements in this contract fixed and contained, unless and until, in an action brought or conducted as hereinbefore provided, the courts shall finally determine that the Company had heretofore acquired the right to carry on its business as now conducted without the necessity of obtaining this franchise or consent from the City. The Company further promises, covenants and agrees that in the event of a decision in its favor in any action brought, as provided in section 3, it will not claim or attempt to claim or demand any damage, penalty or recompense from The City of New York for any expense, expenditures, suits or other disadvantage incurred by it because of the entering into this contract with The City of New York, and hereby expressly waives and surrenders to the City any such claim or demand.

In witness whereof, the party of the first part, by its Mayor, thereunto duly authorized by the Board of Estimate and Apportionment of said City, has caused the corporate name of said City to be hereunto signed and the corporate seal of said City to be hereunto affixed; and the party of the second part, by its officers, thereunto duly authorized, has caused its corporate name to be hereunto signed and its corporate seal to be hereunto affixed, the day and year first above written.

NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstance of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding and The City of New York will, without notice to the purchaser, cause the same to be removed and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam-holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids, and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.
