Second—The amount estimated to be the deficiency on January 1, 1916, in the product of taxes heretofore levied, deemed to be uncollectible and not otherwise provided for, as required by chapter 209 of the Laws of 1906, being section 248 of the Greater New York Charter, Five million dollars ($5,000,000).

Third—The amounts estimated to be required to pay the charges and expenses of the Counties of New York, Bronx, Kings, Queens and Richmond for the year one thousand nine hundred and seventeen: Seven million three hundred and fourteen thousand three hundred and seventeen dollars and twenty-three cents ($7,314,317.23).

TERMS AND CONDITIONS.

Resolved, That this, the Budget of The City of New York, as hereby made in pursuance of section 226 of the Greater New York Charter, shall be administered under the following terms and conditions:

First—

(a) That no transfers shall be made from appropriations or schedules of "Salaries Regular Employees," to any appropriation or schedule other than "Salaries Regular Employees."

(b) That no transfers shall be made from appropriations or schedules of "Salaries Temporary Employees," to any appropriation or schedule other than "Salaries Temporary Employees."

(c) That no transfers shall be made from appropriations or schedules of "Wages Regular Employees," to any appropriation or schedule other than "Wages Regular Employees."

(d) That no transfers shall be made from appropriations or schedules of "Wages Temporary Employees," to any appropriation or schedule other than "Wages Temporary Employees."

Provided, however, that in the case of the appropriation schedules of the uniformed force of the Department of Street Cleaning the prohibitions contained in (a), (b), (c) and (d) may be waived when authorized by twelve votes of the Board of Estimate and Apportionment.

(e) That no transfers shall be made from or to appropriations classified as "Hire of Horses and Vehicles with Drivers," "Hire of Horses and Vehicles without Drivers" or "Hire of Automobiles," except to or from an appropriation classified as "Hire of Horses and Vehicles with Drivers," "Hire of Horses and Vehicles without Drivers" or "Hire of Automobiles," except where the work to be done and paid for from the account to which the transfer is made is a substitute for work or service intended to have been done and paid for from the account from which the transfer is made.

(f) That no transfers shall be made from appropriations or schedules of "Fees and Commissions" to any appropriation or schedule other than "Fees and Commissions."

(g) That no transfers shall be made from any of the appropriations made herein under any classification other than "Personal Service" to any appropriation classified as "Personal Service," except in cases where the title of appropriation specifically provides for transfers herein forbidden, or in cases where appropriations were made under the classification of "General Repairs," if, upon the written statement of the Department Head, the Board of Estimate and Apportionment finds that the repair work can be done more economically by departmental labor.

(h) That no transfers shall be made from any of the appropriations made herein under any classification where the appropriation is made under conditions which prohibit such transfer or when the appropriation is made for the purchase of some stated article or articles or for the payment of taxes, although otherwise the transfer might be proper under the budget resolutions in the budget for 1917.

Second—That no change shall be made by any Board or head of an Office, Bureau or Department in the City or County Governments in the schedules of "Salaries Regular Employees"; "Salaries Temporary Employees"; "Wages Regular Employees"; "Wages Temporary Employees"; "Fees and Commissions," herein contained, except when authorized thereto by twelve (12) votes of the Board of Estimate and Apportionment, and that no requests for changes shall be considered except as follows:

(a) In the case of schedules or appropriations of "Salaries Regular Employees," where the proposed change will not increase the amounts expendable in any month to more than one-twelfth of the total amount herein appropriated for "Salaries Regular Employees."

(b) In the case of schedules or appropriations of "Wages Regular Employees," where the proposed change will not increase the amounts expendable in any week to more than the pro rata of the number of working days in such week to the total number of working days provided for such schedule line for the whole year.

(c) That vacancies existing on January 1, 1917, or occurring thereafter in schedules supporting appropriations in this budget for "Salaries Regular Employees," or for "Salaries Temporary Employees," excepting uniformed forces of the Departments of Police, Fire and Street Cleaning, positions in the labor class and, where emergency conditions exist in either of the following cases, *i. e.:*

Custodial forces in penal and correctional institutions,
Nurses in Hospitals,
Institutional helpers, and
Positions involving the actual operation of machinery or mechanical plants,

—shall be filled only after certificate by the Committee on Salaries and Grades of the Board of Estimate and Apportionment:

(1) That the position is required;

(2) That the title and compensation for such vacant position conform to the standard titles, work specifications and compensation grades fixed by the Board of Estimate and Apportionment where there has been such fixation; or

(3) In the event of there having been no such fixation by the Board of Estimate and Apportionment, that the title and compensation for such vacant position are apparently proper.

Provided that in the cases where an appointment is made pursuant to the exceptions hereinbefore set forth permitting an appointment where emergency conditions exist, in the custodial forces in penal and correctional institutions, nurses in hospitals, institutional helpers, and positions involving the actual operaton of machinery or mechanical plants, it shall only be made where it shall be impracticable to obtain a certificate as herein provided with such expedition as not to interfere with the public interest.

(d) That appointments to vacant positions, for which standard titles and compensations have been fixed by this board shall be made at the lowest rate within the standard grade for such position unless this requirement is specifically waived by resolution of the Board.

The procedure under this section is subject to revision by a majority vote of the Board of Estimate and Apportionment.

(e) That no modification of any schedule supporting an appropriation for "Salaries Regular Employees" or "Salaries Temporary Employees" in the Budget of The City of New York for the year 1917 which affects the compensation of any position included in the budget as passed by the Board of Estimate and Apportionment, shall be made except when authorized by resolution of the Board of Estimate and Apportionment in conformity with standard titles, work specifications and compensation grades which may be or have been approved by said Board.

The procedure under this section is subject to revision by a majority vote of the Board of Estimate and Apportionment.

(f) There shall be credited to the "Funds for Salary and Wage Accruals from Schedule-supported Appropriations to be Expended as Provided in the Budget Resolutions Herewith" established in this budget for The City of New York and for each of the five counties therein, as soon as practicable after the expiration of each salary or wage period, the accruals during such period of "Salaries Regular Employees" and "Wages Regular Employees," but these credits shall be made only upon the submission of reports thereon by the Comptroller to the Board of Estimate and Apportionment pursuant to section 237 of the Greater New York Charter.

Transfers from the credits so set up shall be made only to the divisions of government (the City and the respective counties) from which the credits were originally transferred, and only by the unanimous vote of all the members of the Board of Estimate and Apportionment. Subject to these conditions such transfers may be made for any tax-budget purpose.

Third—That in case of modifications of schedules or transfers within appropriations classified as "Personal Service," where one of the appropriations is a Tax Levy Part appropriation, the full amount of cash necessary to pay the total salaries or wages of the incumbents transferred for the balance of the year 1917 shall be transferred to the appropriation to which the incumbents are transferred.

Fourth—

(a) That the heads of the several Boards, Offices, Bureaus and Departments of the City and County Governments shall prepare their several payrolls for audit by the Department of Finance in accordance with the items of the aforesaid schedules, entitled "Salaries Regular Employees," "Salaries Temporary Employees," "Wages Regular Employees," "Wages Temporary Employees," "Fees and Commissions," or in case these items have been changed by twelve (12) votes of the Board of Estimate and Apportionment, in accordance with the items of the schedules as changed, *and that no payroll shall be passed by the Department of Finance unless the incumbents and the rate of individual compensation shall not exceed, but may be less than such schedule lines* as originally adopted or as hereafter modified by the Board of Estimate and Apportionment provided the lesser salary or wage grade has been approved pursuant to Section 56 of the Charter. Upon the issuance of the certificate authorizing the filling of vacant positions, as provided in the second section, subdivision (c) of this resolution, the Committee on Salaries and Grades of the Board of Estimate and Apportionment shall submit to the said Board a modification of

the salary schedule to conform to the payroll condition as modified by the filling of such vacancies.

(b) That each payroll of any Department, in addition to any other departmental number, shall be numbered during the year serially, beginning with number one for each specific account, and such payroll shall bear a certificate signed by a person cognizant of the fact, stating that the recapitulation attached thereto is the correct recapitulation for the payroll bearing said number.

(c) That on all payrolls against schedules entitled "Salaries Regular Employees" and "Wages Regular Employees" there shall be set forth the monthly or weekly pro rata expenditures against such schedules, or in case the items on such schedules have been changed by twelve (12) votes of the Board of Estimate and Apportionment, the monthly or weekly pro rata expenditures against such schedules as changed.

(d) That there shall be affixed to all payrolls a certificate made by the person preparing such payroll to the effect that there is a time record on file in said Board, Office, Bureau or Department, certified by the person or persons having knowledge of the facts, showing the character of service and the exact time of employment of such person or persons, except heads of departments, and excepting bureau and division heads relieved by the head of their department from the duty of keeping such record on said payrolls, and that the distribution or division of the time of such person or persons as shown on such payrolls is in accordance with such time record.

(e) Before advertising for proposals for work to be performed under contract and chargeable to the 1917 budget, where the cost thereof is estimated to be one thousand dollars ($1,000) or more, the proposed contract and specifications shall be submitted for approval to the Board of Estimate and Apportionment

(b) That, in so far as such standard specifications may be established by this Board, the Comptroller at the time of certifying to the sufficiency of appropriations out of which such contracts are to be paid shall also certify that the specifications for such supplies or materials, fuel or forage or other articles for which standard specifications have been prescribed, are in conformance with such standard specifications.

(c) That all open market orders issued by any Department for supplies and materials, for which standard specifications shall have been prescribed, shall contain a description of the goods ordered, conforming with such standard specifications.

*Conditions Governing Payments to Charitable Institutions.*

*Preamble.*

All appropriations made in this budget to charitable institutions are hereby declared to be subject to the following regulations:

1. The accounts and records of all such institutions shall be kept so as to show their receipts and expenditures pertaining to all institutional activities, and a record shall be maintained in which their expenses shall be recorded under the following classifications:

A. Expenses incurred in the operation of institution, as follows:
   a. Food stuffs.
   b. Clothing.
   c. Linen and bedding.
   d. Fuel.

   h. Salaries and wages.
   i. Professional services.
   j. Light.
   k. Forage and care of animals.
   l. Telephone.
   m. Printing, stationery and advertising.
   n. Postage and telegrams.
   o. Hospital and sanitarium charges.
   p. Funerals.
   q. Recreation expense.
   r. Miscellaneous expenses.
   s. Expense for boarded-out children.

B. Expenses incurred in the maintenance of plant and equipment, as follows:
   a. Repairs and renewals of plant and fixed equipment.
   b. Repairs and renewals of furniture and movable equipment.
   c. Interest on bonds and mortgages on corporate real estate used exclusively for the charitable purposes of the institution, taxes and water rates, if any, thereon, fire insurance premiums on buildings on such real estate, together with their contents.

In all other respects such accounts and records shall be in the form required by the Comptroller of The City of New York, and as far as practicable such accounts shall be kept on an income and expense basis.

2. All payments made to charitable institutions in pursuance of the said appropriations shall be used by such institutions only for expenses incurred by the institution for the care, support, maintenance and education of inmates duly committed by the courts or the Commissioner of Charities or accepted by said Commissioner as public charges, but they shall not include any expense for improvements or additions to plant or equipment, except as stated, or any payments on account of principal of mortgages. Expenses for education shall be taken to mean expenses incurred in providing suitable education for properly committed or accepted inmates, and shall include the salaries of instructors and expenses incurred for supplies for use in instruction.

3. All institutions receiving funds by appropriation from The City of New York and their books of record and account, so far as they relate to institutional activities, shall be open at reasonable times to the visitation, inspection and examination of the Board of Estimate and Apportionment, the Department of Finance and the Department of Public Charities, by their duly authorized Commissioners, officers or inspectors, excepting, however, that the accounts pertaining to the activities of any religious order which may be in charge of any such institution shall be segregated from the other accounts and shall not be subject to this regulation.

4. All such institutions shall prepare and file with the Department of Finance as of a date to be fixed by said department, a report of the condition of the institution and its operations during the previous fiscal year upon forms prescribed and furnished for the purpose under the provisions of these regulations by the Department of Finance.

5. Upon its appearing to the satisfaction of the Comptroller that it would be to the public interest to withhold payments out of any appropriation made to any charitable institution, he may, in his discretion, withhold the same, immediately giving written notice thereof to such institution and of his intention to apply to the Board of Estimate and Apportionment for authority to cease further payments. Upon the determination of said board that such payments shall terminate, the right of any such institution to receive payment from any such appropriation shall thereupon end.

6. The names and ages of inmates with a statement of the period for which payment is claimed must be placed on all bills rendered by such institutions for their care, support and maintenance prior to the presentation of such account for payment to the Department of Finance. The certificate of the Commissioner of Public Charities under regulation two hereof must also be attached to such bills. Except in emergency cases the Commissioner of Public Charities shall not accept as proper charges persons capable of paying for their own support or for whose care adequate provision can be made in the public hospitals.

7. The City shall not be liable for any claim by any charitable institution which shall be in excess of the amount apportioned to such institution in this budget, notwithstanding the acceptance of the Commissioner of Public Charities or any per capita rates of payment that may have been fixed for various classes of inmates thereof.

8. No money shall be paid to any institution which
   pays any salary to,
   gives any consideration for services (financial or otherwise) by,
   has any business dealing with, or
   secures goods or merchandise (directly or indirectly) from
any officer or trustee or member of its board of managers, or where any such person othewise receives any pecuniary profit from the operation of such institution.

9. Child-caring institutions not sending their inmates to the public schools, and not sharing in the corporate school fund, and not receiving teachers and school supplies from the Board of Education, but giving in their own buildings secular education to the children resident in the institution for five (5) hours daily for a period equal to the public school year, shall be paid a per capita of 7 cents per day for five (5) school days in the week, for each child of five years of age and over receiving such instruction except that for abnormal or atypical children, a special rate in excess of this amount may be made by the Comptroller. Institutions receiving a per capita allowance for the education of their inmates shall be under the general supervision of the Board of Education, as required by the general conditions relating to institutions receiving corporate school money, provided in Section 1154 of the Charter of The City of New York.

10. No dependent child under 16 years of age shall be accepted as a proper charge upon the City, and no money shall be paid for the care, support, maintenance or education of such child unless it shall have been lawfully committed to a suitable

private charitable institution having its own plant and equipment for the proper protection and care of children and being under the supervision of the State Board of Charities and which has been placed in this budget by the Board of Estimate and Apportionment.

11. The Department of Health shall maintain in all child-caring institutions receiving funds by appropriation from The City of New York for each inmate accepted as a public charge under the rules of the State Board of Charities, and as herein provided, a complete physical and health record in which shall be recorded the name, age, sex, height and weight, time of admission, general physical condition, including the presence or absence of defects in eyesight, breathing teeth, or any organic defect, in a manner to conform as nearly as practicable with the records maintained by the Department of Health for children in the public schools in the City of New York. It shall also record the dietary actually employed in such institutions for the feeding of its inmates. Such statistics and records shall be made and revised by the Board of Health once in each six months.

12. Each institution is to notify the Commissioner of Public Charities in writing on the forms prescribed by him of the reception or discharge of any person for whose care city or county funds are to be paid. This notice must be given within twenty-four hours thereafter, and no claim shall be paid for such service unless this rule is strictly complied with.

13. The rates of payments to private charitable institutions, unless otherwise specifically provided for, are fixed for the various classes of inmates as follows: Provided that where the Comptroller finds, after proper investigation, that any per capita rate hereinafter stated is too high, he is hereby authorized, on the approval of the Board of Estimate and Apportionment, to reduce such per capita rate for any or all institutions.

## NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

### TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of $50, the sum of $50 will be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchman or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstances of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area, shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level.
