#### Special Permits by the Board of Standards and Appeals

## SPECIAL PERMIT USES

## Ambulatory diagnostic or treatment health care

In R3A, R3X, R3-1, R4A, R4B or R4-1 Districts, the Board of Standards and Appeals may permit ambulatory diagnostic or treatment health care facilities listed in Use Group 4, limited in each case to a maximum of 10,000 square feet of #floor area#, provided that the Board finds that the amount of open area and its distribution on the #zoning lot# conform to standards appropriate to the character of the neighborh where such facilities are located in #lower density growth management areas#, such facilities are located on #zoning lots# that comply with the minimum #lot area# and #lot width# regulations of Section 23-35 (Special Provisions for Zoning Lots Containing Certain Community Facility Uses in Lower Density Growth Management Areas)

In addition, for #buildings# in R3, R4, and R5 Districts in #lower density growth management areas# subject to the provisions of paragraph (b) of Section 24-013 (Exceptions to the bulk regulations of this Chapter) the Board may permit the #development# of a #building# pursuant to the #bulk# regulations of Article II, Chapter 4 (Bulk Regulations for Community Facility Buildings in Residence Districts).

In order to grant such special permit, the Board shall find that the amount of open area and its distribution on the #zoning lot# conform to standards appropriate to the character of the neighborhood.

Additionally, in #lower density growth management areas#, the Board shall find that:

- the distribution of #bulk# on the #zoning lot# will not unduly obstruct access of light and air to adjoining properties or #streets#; and
- the scale and placement of the #building# on the #zoning lot# relates harmoniously with surrounding #buildings#.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

#### Residential Use in C4-1 Districts in Staten Island In the Borough of Staten Island, in C4-1 Districts that occupy at least four acres within a #block# and in other C4-1

Districts for #zoning lots# that, on December 21, 2005 reater than 20,000 square feet, had a #lot area# greater than 20,000 square feet on December 21, 2005, or on any subsequent date, the City Planning Commission may permit #residences#, provided such #residences# comply with the #bulk# regulations for R5 Districts as set forth in Article II, Chapter 3, or, for #mixed buildings#, Article III, Chapter 5.

#### Certain community facility uses in R1 and R2 Districts and certain Commercial Districts

In R1 and R2 Districts, and in C1 and C2 Districts mapped within such #Residence Districts# for any #development#, #extension# or #enlargement# or change of #use# involving any #community facility uses# other than domiciliary care facilities for adults or those for which a permit is required by the Board of Standards and Appeals pursuant to Sections 73-12 (Community Facility Uses in R1 or R2 Districts) or 73-13 (Open Uses in R1 or R2 Districts), the City Planning Commission may permit the allowable community facility #floor area ratio# and #lot coverage# of Section 24-11 (Maximum Floor Area Ratio and Percentage of Lot Coverage) to apply to all such #uses#, provided that the following findings are made:

- that the distribution of the #bulk# of the total #development# will not unduly obstruct the access of light and air in and to adjoining properties or public #streets#, and will result in satisfactory site planning and satisfactory urban design relationships of #buildings# to adjacent #streets# and surrounding #developments#;
- (b) that the architectural and landscaping treatment and the height of the proposed #building# containing such #uses# blends harmoniously with the topography and the surrounding area;
- (c) that the proposed #development# will not require any significant additions to the supporting services of the neighborhood or that provision for adequate supporting services has been made; and
- (d) that the #streets# providing access to such #use# are adequate to handle the traffic generated thereby or provision has been made to handle such traffic.

The Commission may request a report from appropriate governmental agencies with respect to #community facility uses# requesting a special permit under this Section. To minimize traffic congestion in the area, the Commission may require where necessary off-street parking facilities and #accessory# off-street loading berths beyond the amount required by the district regulations.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

- (b)
- such modification is the least modification required to achieve the purpose for which it is granted; the requested modification will not disturb the (c) drainage pattern and soil conditions of the area: (d) the requested modification has minimal impact on the existing natural topography and vegetation and

#### Statement of Basis and Purpose

The Environmental Control Board is amending its Health Code and Miscellaneous Food Vendor Violations Penalty Schedule found in Section 3-110 of Subchapter G of Chapter 3 of Title 48 of the Rules of the City of New York.

In January of 2009, the Board of Health changed Article 151 of the Health Code. These changes allow various City agencies to issue violations under Article 151. These agencies include the Department of Health and Mental Hygiene (DOHMH), the Department of Buildings, the Department of Housing Preservation and Development and the Department of Sanitation.

To better protect the public health, ECB is adding penalties for violations under Article 151. The separate charges will help inform the public of what needs to be done to prevent pests and other rodents. These violations include:

- Failure to comply with DOHMH orders
- Maintaining or failing to correct nuisances Violations relating to rodents, bed bugs and other
- Maintaining conditions conducive to pest harborage Failure to develop and maintain pest management

The penalty amounts for some of these charges are found in Health Code section 3.11. Penalties for rat violations are found in Administrative Code section 17-133.1

In Section 4, ECB is amending the section of law for failing to remove a lock from a discarded refrigerator. ECB is also deleting the charge for section 131.11. These changes are needed because Article 131 of the Health Code was amended in October of 2009.

34 and No. 37 take effect on December 16, 2010. Local Law No. 34 deals with recycling outreach, education and enforcement. Local Law No. 37 deals with yard waste.

Local Law No. 34

- establishes two different levels of penalties based on the number of dwelling units in a building
- increases the fines for commercial and industrial buildings
- states that people may not be ticketed if they incorrectly place a rigid plastic container that is not recyclable into the recycling stream
- creates a presumption that the number of dwelling units written on a ticket is the correct number of dwelling units in the building.
  - The person or business receiving the violation may challenge this fact.
  - If the amount of dwelling units listed on the ticket is incorrect, the ticket will be changed to show the correct number of dwelling units.
  - It will not be dismissed for that reason.

Section 1 of the proposed rule changes the definition of "Persistent Violator" found in the head note of the Recycling-Sanitation Collection Rules Penalty Schedule. Only persons in charge of buildings with nine or more dwelling units may be charged as persistent violators.

Section 2 of the proposed rule:

- Adds charges for owners of residential buildings with 1 to 8 dwelling units.
- Changes the descriptions and penalties of the remaining charges for residential buildings. These charges and penalties now apply to residential buildings with nine or more dwelling units.
- Changes the penalties for all charges relating to "Institutions/Agencies" and "Private Carter-Collected Waste." These charges reflect the higher penalties required under the new law.

Both Local Law 34 and Local Law 37 make changes in relation to leaf and yard waste composting. Local Law 34 establishes two different levels of penalties for section 16-308(f). Like the recycling rules, the amount of the penalty is now based on the number of dwelling units in a building. Only a person in charge of a building with nine or more dwelling units may be charged as a persistent violator. Local Law 37 amends the sections numbers for Administrative Code 16-308. Section 16-308 (g) is being changed to section 16-308(f). Section 16-308(h) is being changed to section 16-308(f).

Sections 3 and 4 of the proposed rule reflect these changes by amending the Sanitation Penalty Schedule. Section 3 amends the head note labeled "\*\*\*" by changing the section numbers and adding the definition of "Persistent Violator."

Section 4 of the proposed rule:

- Adds a charge for owners of residential buildings with 1 to 8 dwelling units
- Changes the charging section, description and penalties for owners of residential buildings with nine or more dwelling units
- Changes the section numbers for improper dispersal and disposal of yard waste.

#### Statement of Basis and Purpose of Final Rule

The Environmental Control Board held a Public Hearing on October 5, 2010 on amendments to ECB's Department of Transportation (DOT) Penalty Schedule found in Section 3-124 of Subchapter G of Chapter 3 of Title 48 of the Rules of the City of New York. Three members of the public attended the Public Hearing on October 5, 2010 and two of them testified. The Board carefully considered the testimony presented at the Public Hearing held on October 5, 2010. No written comments were received. As a result of the testimony received at the October 5, 2010 Public Hearing, the Board has adopted this new rule as set forth above.

Sections 1 and 2 of the rule add six new charges to the Penalty Schedule. The first new charge is for the failure to obtain a permit for the storage of a commercial refuse container on the street. Carting companies must obtain permits because doing so provides a way for the DOT to track the locations of containers. This is necessary in order to help avoid conflicts with other street uses such as special events, moratoriums, and construction embargoes. In addition, knowing where commercial refuse containers are placed throughout the city will allow DOT to coordinate street opening work and other construction with contractors, utilities, DOT crews, and other city agencies. Knowing they might face a penalty for failing to get a permit provides an incentive to carting companies that otherwise might neglect to secure a permit.

The second new charge is for placing a commercial refuse container in a crosswalk or pedestrian ramp. This charge will help discourage contractors from placing containers in a manner that blocks the crosswalk, a pedestrian safety zone that is designed to give the public a safe way to cross from one side of the street to the other. Likewise, pedestrian ramps must remain unobstructed to allow members of the public who have mobility impairments to access sidewalks and streets safely.

The third new charge is for placing a commercial refuse container in a manner that causes an obstruction or interference. Ensuring commercial refuse containers do not cause obstructions or interfere with access points, bus stops, shelters and shut off valves is essential to public safety. The inaccessibility of these elements can cause a dangerous situation

The fourth new charge is for a contractor's failure to have its business information on its container. This section applies to container owners. Placing contractor business information on refuse containers will enable the DOT to identify parties responsible for said containers and will be particularly useful if a container must be removed relatively quickly.

The fifth new charge would be issued when a commercial refuse container is not parallel to the curb or is extended more than nine (9) feet into the roadway. Containers that are not parallel to the curb or that extend out more than nine (9) feet impede the flow of traffic on the street.

The sixth new charge would be issued when a carting company has failed to use the proper street protection under a commercial refuse container. Heavy containers placed directly on the street for even short periods do considerable damage to the street surface. This charge will help discourage damage to roadways by imposing penalties against carting companies that fail to provide the necessary protection, such as  $1\,\%$  inch pieces of wood under the wheels of refuse containers.

Section 3 of the rule includes modifications to four existing entries in ECB's DOT penalty schedule. These modifications reflect where within the revised rules the cited codes will now appear. The penalties listed for these sections of law are unchanged.

### Statement of Basis and Purpose

These rules amend the provisions of Chapters 8 (Taxicab), 9 (For-hire Vehicle and Base), 10 (Paratransit Vehicle and Base) and 11 (Commuter-Van Vehicle and Authorization) of the New York City Taxi and Limousine's newly revised rules chapters, which will become effective April 1, 2011, with respect to the collection of certain fees authorized by sections 19-504(h) and (k) of the New York City Administrative Code.

These fee provisions were previously the subject of rule-making amending the TLC's current rule book. Amendments to the old rule book implementing these fee rules were approved by the TLC at a meeting held on July 15, 2010 and take effect on August 20, 2010. This rule-making is necessary to update the new rule book to account for the new rules passed amending the existing rules after the new, revised rules chapters were proposed and approved but which become effective before the new rules take effect on April 1, 2011.

### Statement of Basis and Purpose

These rules amend the provisions of the Taxi & Limousine Commission's recently promulgated new rule book, which will take effect on April 1, 2011, to impose the requirement that owners of commuter vans post passenger bills of rights in their vehicles for the benefit of the riding public. These rules implement the requirements of local law 73 of 2009 which amends section 19-537 of the New York City Administrative Code.

The bill of rights requirement resulting from the statute was previously the subject of rule-making amending the TLC's current rule book. Amendments to the old rule book were approved by the TLC at a meeting held on July 15, 2010 and take effect on August 26, 2010. This rule-making is necessary to update the new rule book to account for the new rules passed, based on the legislative requirement, after the new commuter van rules chapters were proposed and approved but which become effective before the new rules take effect on April 1, 2011.

PUBLIC NOTICE OF A CONCESSION OPPORTUNITY FOR THE OPERATION, MANAGEMENT AND MAINTENANCE OF PEDESTRIAN PLAZAS LOCATED AT NINTH AVENUE FROM GANSEVOORT STREET TO 14TH STREET, BOROUGH OF MANHATTAN

Pursuant to the Concession Rules of the City of New York, the Department of Transportation ("DOT") intends to enter into a concession for the operation, management, and maintenance of pedestrian plazas located at Ninth Avenue from Gansevoort Street to 14th Street in Manhattan ("Licensed Plaza"), including through DOT-approved events, sponsorships, and subconcessions including but not limited to providing for the sale of any of the following: prepared food, flowers, locally grown produce or locally manufactured products, merchandise (such as souvenirs or T-shirts) that helps brand or promote the neighborhood or the concessionaire, and other similar merchandise.

Subconcessions would be awarded based on solicitations issued by the concessionaire in the basic form of Request for Proposals or Request for Bids, subject to DOT's prior written approval of both solicitation and award.

The concession agreement will provide for one (1) five-year term, with four (4) one-year renewal options. The renewal

options shall be exercisable at DOT's sole discretion. DOT has identified the Meatpacking Improvement Association as a potential concessionaire, but DOT will consider additional expressions of interest from other potential not-for-profit concessionaires for the operation, management, and maintenance of the Licensed Plaza. In order to qualify, interested organizations should be active in the neighborhood of the Licensed Plaza and have demonstrated experience in the management, operation and maintenance of publicly accessible facilities, including but not limited to programming/events management and concession or retail operation/management.

Not for profit organizations may express interest in the proposed concession by contacting Andrew Wiley-Schwartz, Assistant Commissioner for Public Spaces, by email at <a href="mailto:awileyschwartz@dot.nyc.gov">awileyschwartz@dot.nyc.gov</a> or in writing at 55 Water Street, 9th Floor, New York, NY 10041 by November 8, 2010. Mr. Wiley-Schwartz may also be contacted with any questions relating to the proposed concession by email or by telephone at (212) 839-6678.

Please note that the New York City Comptroller is charged with the audit of concession agreements in New York City. Any person or entity that believes that there has been unfairness, favoritism or impropriety in the concession process should inform the Comptroller, Office of Contract Administration, 1 Centre Street, New York, New York 10007, telephone number (212) 669-2323.
