HHS ACCELERATOR PREQUALIFICATION

To respond to human services Requests for Proposals (RFPs), in accordance with Section 3-16 of the Procurement Policy Board Rules of the City of New York ("PPB Rules"), vendors must first complete and submit an electronic HHS Accelerator Prequalification Application using the City's PASSPort system. The PASSPort system is a web-based system maintained by the City of New York for use by its Mayoral Agencies to manage procurement. Important business information collected in the Prequalification Application is required every three years. Documents related to annual corporate filings must be submitted on an annual basis to remain eligible to compete. Prequalification applications will be reviewed to validate compliance with corporate filings and organizational capacity. Approved organizations will be eligible to compete and would submit electronic proposals through the PASSPort system. The PASSPort Public Portal, which lists all RFPs, including HHS RFPs that require HHS Accelerator Prequalification, may be viewed, at https://passport.cityofnewyork.us/page.aspx/en/rfp/request_browse_public. All current and prospective vendors should frequently review information listed on roadmap to take full advantage of upcoming opportunities for funding. For additional information about HHS Accelerator Prequalification and PASSPort, including background materials, user guides and video tutorials, please visit <https://www1.nyc.gov/site/mocs/systems/about-go-to-passport.page>.

PRE-QUALIFIED LIST (PQL) PROGRAM FOR VARIOUS TRADES

NYCHA is currently accepting applications for Pre-Qualified List (PQL) program for various trades.

A PQL is a tool that NYCHA will use to qualify vendors and contract goods or services for its developments, streamlining the process for both vendors and NYCHA. NYCHA will publish contracting opportunities, and the PQL will predominantly be used to procure goods or services for those contracts. Vendors who apply to those bids must pre-qualify according to specific criteria, and vendors who are admitted to the PQL can bid on contracts.

Currently NYCHA has established six (6) PQL lists for the Closed-Circuit Television (CCTV), Carpentry, Painting, Lead Based Paint (Assessment and Abatement, Inspection and Assessment & Lab Analysis), Plumbing and Electrical.

All vendors interested in NYCHA's PQLs must follow two (2) important steps:

First, vendors must prepare and submit applications to the PQL: To pre-qualify, vendors must meet the minimum requirements listed on the Request for Qualification of the select PQL. Applications will be evaluated by NYCHA on a rolling basis.

Second, vendors who are admitted to the PQL can then bid on solicitations for services on the PQL: Vendors must bid on each contract award, as these are not guaranteed.

For more information regarding PQLs and to obtain applications, please visit NYCHA's website at: <https://www.nyc.gov/site/nycha/business/nycha-pql.page>

MAYOR'S OFFICE OF CRIMINAL JUSTICE

EFFECTIVE PRACTICES IN COMMUNITY SUPERVISION ("EPICS")

The Mayor's Office of Criminal Justice (MOCJ) intends to enter into a sole source contract with UCCI to conduct Effective Practices in Community Supervision (hereinafter "EPICS") trainings in furtherance of SRP's upcoming Intensive Case Management Pilot Program (hereinafter the "ICM Pilot Program"). SRP is a court-mandated supervision program that reasonably assures a participant's return to court. This program has successfully helped thousands of people make their court appearances while also connecting them to much needed services, including employment, mental health, substance use, and

other social services. However, despite how successful traditional SRP methods have been with most SRP participants, data reveals that SRP participants who have a recent persistent pattern of crime or noncompliance with conditions of release need care beyond the traditional SRP capabilities. Accordingly, MOCJ and the SRP providers are working together to launch the ICM Pilot Program, creating a dedicated track for participants with high needs and thus providing stronger and better trained support for these participants. To help SRP's high needs participants as effectively and efficiently as possible, the ICM Pilot Program will begin in January 2024. One core component of the ICM Pilot Program is UCCI's EPICS training.

The EPICS training model, created by the University of Cincinnati, combines foundational correctional intervention research with recent findings in community supervision. Using the EPICS model, UCCI teaches case managers how to apply the principles of effective intervention and core correctional practices to community supervision practices and client sessions. In doing so, the EPICS model helps people such as parole and probation officers improve their targeting of criminogenic needs of medium to high-risk clients using cognitive-behavioral interventions. When a staff member trained in EPICS and a person under supervision have a collaborative relationship, the opportunity can be much more impactful in modeling and shaping healthy behavior. UCCI will use the EPICS model to teach case managers in the ICM Pilot Program a structured approach to client sessions and how to apply the principles of effective intervention and core correctional practices to their client sessions in order to hopefully model and shape healthy behavior in the ICM Pilot Program participants. With this knowledge, case managers will be better equipped to handle the high needs of the ICM Pilot Program participants so that these participants can better work through their behaviors and choose healthier ones that lead to long-term change.

The EPICS training will be administered by UCCI, the Corrections Institute arm of the University of Cincinnati. Founded in 2002, UCCI has spent over 20 years working on issues related to criminal justice, helping those in the criminal justice system by researching, developing, disseminating, and implementing evidence-based practices in corrections. UCCI's team of expert researchers, clinicians and practitioners have worked closely with hundreds of profit and non-profit agencies as well as federal, state, local, and international governments, serving over 35,000 staff worldwide. UCCI is committed to the development and implementation of best practices to communities, facilities, and agencies seeking to change behaviors in criminal justice involved individuals. UCCI has demonstrated its commitment to improve the services and outcomes for high needs individuals, much like those found in the ICM Pilot Program. UCCI's proprietary EPICS model is comprised of a 13-module curriculum, with modules focused on various aspects of effective methods of intervention, including how to build a collaborative relationship, structured skill building, identifying targets for change, and more.

The EPICS model requires that the individual client and case manager sessions all follow the same general structure: 1) check-in, 2) review, 3) intervention, and 4) homework. The end user session for the EPICS model consists of three days of training, structured to include demonstrations, teach backs, and discussions regarding implementation. After formal training, UCCI follows up with the trainees for the following five months to review practices and provide coaching to the trainees. During the coaching sessions, UCCI provides individual written feedback to the trainees and helps them break down and reinforce the material learned in training, helping with long-term sustainability of the model and initial skill acquisition. The EPICS model has been applied in many criminal justice contexts and has helped agencies identify how to improve linkages to care that is responsive to an individual's needs. Research has shown that staff trained in the EPICS model demonstrated more consistent use of core correctional practices and became more proficient in their use of the skills learned in the EPICS trainings over time as a result of participation in additional practice sessions.

The University of Cincinnati serves as the sole owner and proprietor of the copyright in the EPICS model, as well as the corresponding manual and training program. The EPICS program is one of high-fidelity - UCCI's curriculum, trainings, and interventions can be acquired for a fee, and, while copyrighted property of the University of Cincinnati, training materials received in UCCI's trainings include permission to photocopy resources needed to facilitate interventions. SRP requires this proprietary material for the ICM Pilot Program, as UCCI is the only organization with an evidence-based supervision model training of this kind, and incorporating EPICS into the ICM Pilot Program is a key component for the pilot's success.

Therefore, MOCJ acquiring UCCI's proprietary material is a necessary next step for the ICM Pilot Program. Following the Office of Management and Budget's granting of funding for the ICM Pilot Program in June 2023, during the third and fourth quarters of 2023, following research and confirmation that UCCI's EPICS training model was necessary for the ICM Pilot Program's success, MOCJ conducted

further research to determine whether there were other models targeted at community supervision that MOCJ should incorporate into the ICM Pilot Program instead of EPICS. While doing so, MOCJ searched for such models that were consistent with the premier paradigm of offender rehabilitation: the risk-need-responsivity ("RNR") model. MOCJ found that there were an extremely small number of other evidence-based supervision training models, with few organizations in the world capable of conducting the requisite trainings, let alone in the mode and timeframe necessary for the ICM Pilot Program.

The following are other such supervision training models that MOCJ considered and the reasons they were ultimately found to be inadequate for this initiative: 1. The Strategic Training Initiative in Community Supervision ("STICS") is a supervision model designed to target medium and high risk offenders, wherein probation and parole officers are trained to identify the pro-criminal attitudes and other problematic thoughts of their clients, and then are trained in cognitive-behavioral intervention techniques to assist clients to see that such pro-criminal and other problematic thoughts need to be replaced with prosocial thoughts if they are to act more pro-socially. a. STICS was found to be inadequate because, in addition to being less applicable to the ICM Pilot Program in comparison to EPICS as well as being less in line with the overall goals of the pilot, STICS has not been tested in the United States. As such, using STICS would require its application here to be one of first impression and would require MOCJ to coordinate with Canadian authorities, which would likely severely and unnecessarily complicate the ICM Pilot Program's execution. 2. Staff Training Aimed at Reducing Re-arrest ("STARR") consists of a training curriculum that follows many of the modules and exercises found in STICS, but with more of an emphasis on learning skills, with less emphasis on targeting pro-criminal attitudes and other criminogenic needs. a. STARR was found to be inadequate because, in addition to not being a direct fit for the purposes of the ICM Pilot Program in comparison to EPICS, STARR is a federal model of supervision in the United States that is only available to federal probation entities and thus would not be available to MOCJ for a city-based supervision pilot program. 3. Skills for Effective Engagement, Development, and Supervision ("SEEDS") is a model developed in the United Kingdom that devotes a significant amount of time to motivational interviewing, in addition to teaching intervention skills such as problem-solving, prosocial modelling, and the challenging function in motivational interviewing as expressed by reflection. a. SEEDS was found to be inadequate because, in addition to not being a direct fit for the purposes of the ICM Pilot Program in comparison to EPICS, like STICS, SEEDS is not conducted in the United States, and thus using SEEDS would require its application here to be one of first impression and would require MOCJ to coordinate with UK authorities, which would likely severely and unnecessarily complicate the ICM Pilot Program's execution.

Statement of Basis and Purpose of Adopted Rule

The Commissioner of the New York City Department of Transportation (DOT) is authorized to issue rules regarding parking and traffic operations in the City pursuant to Section 2903(a) of the New York City Charter.

In accordance with Local Law 55 of 2021, DOT is adopting rules relating to its permanent Open Streets program. In 2020, DOT retooled its partner-based Weekend Walk program to create Open Streets as a temporary program in response to the COVID-19 pandemic. During the height of the pandemic, Open Streets was a critical lifeline for communities and businesses as they navigated this devastating crisis by providing safe socially distanced outdoor space for recreation, dining, and other activities. The program quickly evolved from solely being a pandemic management tool to a successful public space management tool that has prioritized pedestrians and cyclists and has received strong support to continue on a long-term basis.

This adopted rule will codify the Open Streets application process and many of the requirements that DOT utilized during the pandemic, as well as clarify criteria for eligible open streets partners and corridors and establish a regulatory framework for how the program will be managed and operated.

Specifically, the amendments to the DOT Traffic Rules are as follows:

- Amend Section 4-01 relating to the establishment of a definition of a shared street
- Add new Section 4-21 relating to open streets. Specifically, among other things, the rule:
 - o Establishes application requirements, including notification to the public, community organizations, and the affected City Council member, Community Board, and Borough President; and
 - o Establishes requirements for the operation and management of open streets, including accessibility and conduct regulations for the public.
- Adds new penalty to Section 3-01 relating to open streets.

New material is underlined.

Section 1. Subdivision (b) of section 4-01 of Chapter 4 of Title 34 of the Rules of the City of New York is amended by adding a new definition, in alphabetical order, to read as follows:

Shared street. The term “shared street” means a street that is designed for slow travel speeds where pedestrians, cyclists, and motorists all share the right of way. Shared streets are typically implemented on low vehicle volume and/or high pedestrian volume streets where drivers of vehicles are encouraged to drive five miles per hour and the roadway portion of the street may be flush from building line to building line (i.e., no curb), separated by bollards or pedestrian amenities rather than the typical curb line grade separation. Slow speeds are encouraged through traffic control devices and/or calming measures (e.g., signage, markings, use of distinctive materials, furnishings, plantings, and other visual cues) in the roadway that caution drivers.

Section 2. Chapter 4 of Title 34 of the Rules of the City of New York is amended by adding a new section 4-21, to read as follows:

**Section 4-21
OPEN STREETS**

(a) Definitions. For purposes of this section, the terms below are defined as follows:

Community organization or open streets partner. The term “community organization” or “open streets partner” means any formal or informal group of people or businesses with ties to the community who collaborate to manage or participate in the operations of an open street, including but not limited to schools, business improvement districts, civic associations, houses of worship, block associations, and merchant groups.

Open street. The term “open street” means a street or segment of a street within the jurisdiction of the Commissioner, designated by the Department as such, on which motor vehicle access is controlled by barriers and signage or other traffic calming measures, and on which priority is given to pedestrians, individuals using bicycles, and other non-vehicular street users. Open streets may be designated on a variety of street types, including shared streets. Open streets may be described as one of the following:

(i) Limited Local Access

The term “limited local access” means signage and traffic calming measures are used to discourage the use of vehicles except the following: (1) vehicles parking on the open street (all parking regulations apply); (2) vehicles collecting or dropping passengers on the open street; (3) vehicles making deliveries to residents, businesses, and institutions on the open street; (4) emergency vehicles; (5) Access-A-Ride vehicles; (6) public utility vehicles; and (7) City government service vehicles. Drivers are encouraged to drive five (5) miles per hour or slower while traversing the open street.

(ii) Full Closure

The term “full closure” means temporary closure of an open street to motor vehicle traffic, including motor vehicles intending to park, subject to Administrative Code section 19-107, to allow for a range of car-free activities that support local businesses, community organizations, and schools, to create a space for the public to gather. Emergency access and an emergency lane must be clear at all times for emergency vehicle access.

(b) Applications to Designate Open Streets. In addition to streets or segments of streets selected by the Department to be designated as open streets pursuant to § 19-107.1 of the Administrative Code, the Department will accept applications to become an open streets partner for the purpose of managing and participating in the operation of open streets designated in areas under the Department’s jurisdiction.

(1) Applications.

(i) Applicant. Only an entity operating within the City may apply to become an open streets partner. An applicant must have strong ties to the community where the open street is being proposed. Groups of three or more eligible organizations may submit a joint application, but any such group must identify one organization to apply for and represent the group. Applications submitted on behalf of a school, including but not limited to daycares, Pre-K, primary and secondary schools, colleges, and universities, must be submitted by the administration of such school.

(ii) Submission. Open streets applications may be submitted by mail or electronically. Electronic submissions are preferred.

(iii) Required Documentation. Applicants must submit the following documents in accordance with subparagraph (ii) of this paragraph:

(A) A completed application in a form prescribed by the Department, which will be posted each year on the Department’s website, and which may require applicants to submit information including, but not limited to, the mission of the applicant; the geographic bounds of the proposed open street; proposed duration and daily hours of operation; potential uses and programming for the proposed open street; and a description of measures to facilitate use of the proposed open street by people with disabilities;

(B) The applicant’s contact information, including a contact for emergencies;

(C) A site plan as provided in the application that clearly indicates all expanded business footprints; all areas of the proposed open streets corridor designated for programming; operational elements; any spaces on the roadway designated for use in the management of such proposed open street; unobstructed emergency access and an unobstructed emergency access lane throughout the proposed open streets corridor; and barrier placement;

(D) A management, staffing and operations plan that details how barricades and any other traffic control devices, as applicable, will be managed and monitored, including the moving of barricades in the event of an emergency; how the applicant will ensure that the proposed open street is clear and roadway reopened at the conclusion of open street hours, as applicable; how the applicant will ensure programming providers and businesses will comply with the site plan; and, for full closure open streets, the proposed cleaning and trash disposal procedures;

(E) A community outreach plan detailing how the applicant will regularly notify businesses, residents, and other relevant stakeholders about the proposed open street and its operation and programming;

(F) At least three (3) letters of support from community stakeholders including, but not limited to, property owners and businesses on the proposed open street; nearby institutions, such as churches and schools; elected officials; other not-for-profit groups, neighborhood and block associations; and neighborhood residents; and

(G) Proposed operational resources needed to manage the proposed open street, including but not limited to a projected operating budget for the management of

the proposed open street (if any), financial materials, maintenance and operation services and programming.

(iv) The application form and guidelines regarding the management and operation of open streets are available on the Department's website.

(v) Selection.

(A) The Department will consider the following factors when reviewing an application to designate an open street:

- 1. Safety of all street users;
- 2. Equitable distribution of open streets throughout the city;
- 3. Site context, including but not limited to:
 - a. Existing parks, open streets or other open spaces and their current utilization;

 - c. Integration with existing pedestrian and bicycle infrastructure.
- 4. Presence of bus routes, truck routes or medical facilities; and
- 5. Access for commercial deliveries and emergency vehicles.

(B) If the Department approves an application, it will notify the selected community organization and any affected City Council members, Community Boards, and Borough Presidents, and will notify the public by posting on its website, at least 45 days before designating the proposed open street.

(C) Limited local access open streets cannot be designated along a bus route or truck route.

(2) Management Agreement. A management agreement between the Department and the selected community organization may be required where the Department does not provide for the management of the open street. A community organization that does not enter into such a management agreement may nonetheless partner with the Department for purposes of providing programming or volunteers at an open street.

(3) List of Designated Open Streets. A list of all open streets shall be posted on the Department's website.

(4) Renewal. An open streets partner may renew its application for the management of its previously approved open street on a short-form application prescribed by the Department annually and posted on the Department's website. - (v) Consideration of conversion of such open street to a shared street;

(5) Rescinding Open Streets Designations. The Department may, at its discretion, rescind the designation of any open street if such rescission is necessary to facilitate construction or emergency services, or if the Department determines that public safety requires it or that such rescission would benefit the community.

- (i) At least 30 days before the Department's proposed date of rescission of the designation of an open street, the Department will notify the affected open streets partner, which may submit a written statement to the Department within ten (10) days of such notification.
- (ii) The Department will consider any comments set forth in a timely delivered written statement before rescinding such designation.
- (iii) Upon such rescission, the Department will notify any affected City Council members or Community Boards,

(c) Operation and Management of Open Streets. An open streets partner must operate and manage all aspects of an open street, including but not limited to the following:

- (i) the management of barricades and any other traffic control devices and/or calming measures as required by the Department;

- (v) setting up and breaking down any movable tables and chairs for public seating.

(2) An open street may be maintained for up to 24 hours per day and up to 366 days per year, subject to the Department's discretion.

(3) The Department may, subject to Administrative Code section 19-107, close an open street to all motor vehicle traffic except as required for emergency access where the Department determines that such closure would benefit the community.

(4) An open streets partner may operate a full closure open street, in addition to the hours of operation approved by the Department, on the following holidays upon written consent from the Department: New Year's Day (observed), Martin Luther King Jr.'s Day, President's Day, Memorial Day, Juneteenth (observed), Independence Day, Labor Day, Columbus Day, Veteran's Day, Thanksgiving Day, and Christmas Day (observed).

(5) The Department may temporarily suspend an open street as necessary, including for safety, special events, severe weather events, construction, or any other purpose for which the Department determines a suspension will benefit the community. The Department will provide the open streets partner with reasonable notice to the extent practicable and post on its social media accounts that such open street is temporarily suspended. The open streets partner may be required to secure all barricades, signage, and other furniture and materials associated with the open street.

(6) Open streets are subject to inspections by the Department and/or its contractor(s).
