To the Honorable Board of Estimate and Apportionment :

GENTLEMEN—I have the honor to inform you of the adoption by the Board of Fire Commissioners of the following resolution, requesting transfer of appropriation to enable the repairing of the fire-boat "William F. Havemeyer" :

Resolved, That the Board of Estimate and Apportionment be and is hereby requested to authorize the transfer of twelve thousand five hundred (\$12,500) dollars from the appropriation "For Salaries—Engine and Hook and Ladder Companies Pay-rolls," for the current year, to the appropriation "For Apparatus, Supplies, etc.," for the current year, which is insufficient to provide for the cost of the necessary repairs required to the fire-boat "William F. Havemeyer" (Engine 43).

To enable this transfer to be made the Fire Commissioners have been obliged to materially reduce the number of appointments to the uniformed force which they shortly contemplated making, as they deem the immediate repair of the "Havemeyer" even more necessary than the increase of the force, which is usual prior to the severe work of the winter.

Copies of the report of the Chief of the Department as to the necessity for the repairs, and of the report of the naval architect, are herewith enclosed for the information of your Honorable Board, and your early and favorable action upon the application for a transfer is requested.

Very respectfully,

HENRY D. PURROY, President.

HEADQUARTERS FIRE DEPARTMENT,
NOS. 157 AND 159 EAST SIXTY-SEVENTH STREET,
NEW YORK, September 19, 1888.

Hon. HENRY D. PURROY, President :

DEAR SIR—The fire-boat "Havemeyer" is now out of service and plans and specifications for the repairs will be immediately submitted.

It is very necessary that these repairs be made as speedily as possible, as the entire water-front is now protected by only one fire-boat, the "Zophar Mills," and the time has expired for her inspection by the United States authorities. They will, no doubt, order repairs on the boat, which will then leave us, for a time, without any protection on the entire water-front. Since the inspection of the "Havemeyer," when her boiler was condemned by the United States authorities, we have had an inspection made by an expert marine architect, who has decided that the boiler is unsafe, and also that the engine and hull of the boat (having been continuously in service for thirteen years) require extensive repairs. This was all foreseen last year when a new fire-boat was asked for, but, as the authorities failed to allow it, we find ourselves in the condition herein shown, with cold weather approaching, the number of fires increasing, and the entire water-front of both rivers (many of the piers, as well as the vessels containing large and valuable cargoes of merchandise) depending on one fire-boat for protection.

With this state of affairs confronting us, I would earnestly recommend your Honorable Body to take action in the matter at the earliest moment.

Very respectfully,

(Signed) CHARLES O. SHAY, Chief of Department.

OFFICE OF WILLIAM COWLES, CONSTRUCTING ENGINEER AND NAVAL ARCHITECT,
ALDRICH COURT, NO. 45 BROADWAY, NEW YORK CITY,
September 10, 1888.

The Board of Fire Commissioners, Fire Department Headquarters, No. 157 East Sixty-seventh street, New York City :

GENTLEMEN—After a thorough examination of the boiler, fire-pumps, engines, machinery, hull and fittings of your fire-boat "William F. Havemeyer," I beg to make the following statement :

The boat, although thirteen years old, does not seem to be past her usefulness as a fire-boat. Of course, no reasonable amount of repairs or improvements could bring her up to the power and efficiency of modern fire-boats, but with a new boiler, the addition of two more double fire-pumps (which the Department now has on hand), the overhauling and lining up of the engine and machinery and the making of a number of minor repairs, alterations and improvements, all as set forth in a list or outline specification hereto attached, the boat could be made a valuable and efficient auxiliary at fires in the vicinity of the water-front for a number of years to come.

In any way of looking at this boat the boiler is the first thing demanding attention. Even in an ordinary harbor boat the possible quantity of steam and its pressure limits and governs the capabilities of the boat as nothing else does ; in a fire-boat the importance of this feature outweighs all others, and it is safe to say that the "Havemeyer" has always been handicapped by the shortness of her steam supply. The present boiler in the "Havemeyer" has been in use thirteen years ; this is remarkable, as it is much beyond the average lifetime of marine boilers. The condition of the boiler is now such as to render it absolutely dangerous, to say nothing of its inefficiency as a steam producer. In my inspection of this boiler I found a number of places where with one slight blow with an ordinary chipping hammer I made a crack or hole through which water immediately ran out. The boiler cannot be made safe to use, even at the extremely low pressure of forty-five pounds, without an entirely new set of water legs and furnace sheets. With only forty-five pounds steam pressure the boat would be of very little, if any, use as a fire-boat, and I cannot advise or suggest that the Fire Department put any more money in this old and unsuitable boiler. With a suitable form of water-tube boiler, capable of raising steam quickly and furnishing all the steam that the main engine and the four sets of fire-pumps could use, when all are running together at full speed, the "Havemeyer" could be relied upon to do far better service at a fire than she could do even when new. The engine and shaft seems to be quite badly out of line, but with this defect corrected and the minor repairs suggested in the specification, the machinery would be capable of efficient service.

The suction and discharge pipes connecting the fire-pumps can be so rearranged and enlarged as to greatly increase the efficiency of the pumps—suggestions are made in the specifications to effect this, and these alterations and the increase in sizes are especially important in view of the proposed addition of fire-pumps.

With the increased steam pressure and the ample supply of steam proposed, it may be assumed without question that the boat will throw much larger and stronger fire streams than ever before ; furthermore, the engine can be run faster and can also turn a screw of increased pitch, which will result in a most important increase of speed (a weak feature in the "Havemeyer" heretofore) ; the new screw propeller necessary should therefore be specially designed to fit the new conditions.

The deck-room forward is now too small and cramped for working the boat ; the suggestion of shifting the present large reel aft and placing a smaller or more compact reel forward, will remedy this defect to a great extent.

The suggestions referring to small repairs and some slight alterations in hull and about joiner work are only such as seem reasonable and necessary in order to put the boat in suitable condition for service.

(Signed) Very respectfully,
WILLIAM COWLES.

POSTSCRIPT.—I estimate the cost of the proposed repairs, alterations and additions to be about twelve thousand five hundred dollars (\$12,500).

(Signed) Very respectfully,
WILLIAM COWLES.

And offered the following preamble and resolution :

Whereas, The Fire Commissioners have requested the transfer of twelve thousand five hundred dollars (\$12,500) for the purpose of making repairs to the fire-boat "William F. Havemeyer" (Engine 43), which upon inspection by experts is reported as absolutely necessary to render her serviceable for the protection of the water-front of the city :

Resolved, That the sum of twelve thousand five hundred dollars (\$12,500) be and is hereby transferred from the appropriation entitled "Fire Department Fund—For Salaries, Engine and Hook and Ladder Companies Pay-rolls," for 1888, which is in excess of the amount required for the purpose thereof, to the appropriation entitled "Fire Department Fund—For Apparatus, Supplies, etc.," for 1888, which is insufficient for the purposes thereof, the amount so transferred to provide for the cost of the necessary repairs to the fire-boat "William F. Havemeyer."

Which were adopted by the following vote :

Affirmative—The Mayor, Comptroller, President of the Board of Aldermen and President of the Department of Taxes and Assessments—4.

The Comptroller presented the following :

HEADQUARTERS FIRE DEPARTMENT,
NOS. 157 AND 159 EAST SIXTY-SEVENTH STREET,
NEW YORK, September 10, 1888.

To the Honorable Board of Estimate and Apportionment :

GENTLEMEN—I am instructed by President Purroy to inclose herewith a resolution adopted by the Board of Fire Commissioners, at a meeting held on the 5th instant, requesting the transfer of two thousand (2,000) dollars, appropriated for salary of Instructor of the Corps of Sappers and Miners, and of five hundred (500) dollars remaining unexpended of the salary of one Commissioner, aggregating twenty-five hundred (2,500) dollars, to the appropriation for "New Houses for Engine and Hook and Ladder Companies" for the current year, for which the sum is required. The amount asked for is needed in order that the award may be made to the lowest bidder of the contract to erect two apparatus houses (one on the south side of West Eighty-third street, two hundred feet west of Ninth avenue, and the other at No. 120 East One Hundred and Twenty-fifth street) of this department, and in order to cover the fees of the architect who drew the plans for them and under whose supervision both houses will be erected.

Very respectfully,
JOHN P. DUNN, Assistant Secretary.

Resolved, That the Board of Estimate and Apportionment be and is hereby requested to authorize the transfer of the sum of twenty-five hundred (\$2,500) from the appropriation for "Salaries—Headquarters Pay-roll," for the current year, viz. :

From the salary Instructor Corps Sappers and Miners.....	\$2,000 00
From the salary one Commissioner.....	500 00
	<hr/>
	\$2,500 00

—remaining unexpended, to the appropriation for "New Houses for Engine and Hook and Ladder Companies" for the current year, for which the said sum is required.

And offered the following resolution :

Resolved, That the sum of two thousand five hundred dollars (\$2,500) be and is hereby transferred from the appropriation made to the Fire Department, entitled "Fire Department Fund—For Salaries—Headquarters Pay-roll, etc.," for 1888, which is in excess of the amount required for the purposes thereof, to the appropriation entitled "Fire Department Fund—For New Houses for Engine and Hook and Ladder Companies," for 1888, which is insufficient for the purposes thereof, as follows : "For Houses for new Company in West Eighty-third street, and Hook and Ladder Company, No. 120 East One Hundred and Twenty-fifth street."

Hon. ABRAM S. HEWITT, Mayor and Chairman, Board of Estimate and Apportionment :

SIR—In the excavations made under the direction of the Aqueduct Commissioners for the purpose of laying conduit pipes for the New Aqueduct on Manhattan avenue, between One Hundred and Sixth and One Hundred and Tenth streets, the sewer in the avenue has been uncovered, and was found to have so badly settled for the greater portion of the distance, and broken in several places, as to require almost complete reconstruction. This is an unforeseen work, which cannot be met from the available balance in the appropriation for "Sewers—Repairing and Cleaning," all of that balance being needed for ordinary repairs and cleaning. The sewer should be rebuilt and repaired at once before the four lines of conduit pipes for the New Aqueduct are laid, so that these pipes may not be endangered or disturbed by future excavations. The estimated cost of the work

is \$11,000. I, therefore, respectfully request the Board of Estimate and Apportionment to transfer the sum of \$11,000 to the appropriation for "Sewers—Repairing and Cleaning," for 1888, from the appropriation for "Repaving Streets and Avenues," for 1888, from which the said amount can be spared.

Very respectfully,

D. LOWBER SMITH,
Deputy and Acting Commissioner of Public Works.

And offered the following resolution:

Resolved, That the sum of eleven thousand dollars (\$11,000) be and is hereby transferred from the appropriation to the Department of Public Works, entitled "Repaving Streets and Avenues," for 1888, which is in excess of the amount required for the purposes thereof, to the appropriation entitled "Sewers—Repairing and Cleaning," for 1888, which is insufficient for the purposes thereof.

Which was adopted by the following vote:

Affirmative—The Mayor, Comptroller, President of the Board of Aldermen and President of the Department of Taxes and Assessments—4.

CHARLES DE F. BURNS, Secretary, Department of Public Parks.

And offered the following resolution:

To the Board of Estimate and Apportionment:

GENTLEMEN—I am directed by the Board of Commissioners of this Department to respectfully request that the resolution adopted by your Board on June 22, 1888, approving plans for a "gentlemen's cottage" in Mount Morris Park, and authorizing the issue of bonds to the amount of \$6,000 for the purpose of erecting the building, be so amended as to increase the amount of the bonds to the sum of \$6,250. In explanation of this request I beg to state that the first-named sum, although approximate, was thought to be sufficient at the time the plans were submitted to your Board.

Upon the receipt of estimates or proposals for doing the work, however, it is found that the additional sum of \$250 will be required.

Yours, very respectfully,

CHARLES DE F. BURNS, Secretary, Department of Public Parks.

Resolved, That the Comptroller be and is hereby authorized to issue the further sum of two hundred and fifty dollars (\$250) Consolidated Stock of the City of New York, bearing interest not exceeding three per cent. per annum, and redeemable in not less than twenty years from the date of issue, for application to the same purpose.

Hon. ABRAM S. HEWITT, Mayor and Chairman, Board of Estimate and Apportionment:

SIR—I have the honor to transmit herewith a copy of a letter from the Comptroller, dated 18th inst., with a copy of a report from the Clerk of Markets, specifying certain repairs required on market buildings. The Comptroller states that it is urgently necessary that these repairs be made very soon, and before the winter sets in, in which this Department concurs. The cost of the repairs is estimated at \$3,000, over and above the amount available for the purpose in the appropriation for "Public Buildings—Construction and Repairs."

I, therefore, respectfully request, that the sum of \$3,000 be transferred to the appropriation "Public Buildings—Construction and Repairs," for 1888, from the appropriation "Lamps and Gas and Electric Lighting—Allowance for 1,000 additional Electric-lights," for 1888, for the purposes of which said amount is not needed.

Very respectfully,

Deputy and Acting Commissioner of Public Works.

Gen. JOHN NEWTON, Commissioner of Public Works:

SIR—I beg to call your attention to the several requisitions made upon the Department of Public Works for repairs of public markets, which have not been made by the Superintendent of Repairs and Supplies, as stated by the Clerk of Markets, a copy of whose report is herewith transmitted.

The reason assigned by the Superintendent of Repairs and Supplies, as stated, is that "the appropriation for this year is exhausted," and that "the work cannot be done unless a transfer is made for the purpose."

The necessity for the repairs of the markets being made very soon, and before the winter sets in, is urgent, and I respectfully request that you will have an estimate made of the cost, and advise me whether it will not be possible to make a transfer of the amount from some appropriation to your Department, from which it can be spared.

(Signed)

Respectfully, yours,

THEO. W. MYERS, Comptroller.

(Copy.)

In conclusion permit me to state that the complaints of stand-holders are loud and numerous about not having these much needed repairs made, and I must admit that these complaints are well founded. These repairs should all be done as soon as possible, at all events before the commencement of winter; some stand-holders have made threats to commence suits against the City for damages sustained at each rain-storm, and to lodge complaints against Mr. Walsh, Clerk of Washington Market, for neglect of duty, as also against myself.

Respectfully,

HENRY WOLTMAN, Clerk of Markets.

Resolved, That, in pursuance of the provisions of chapter 545 of the Laws of 1888, the Board of Estimate and Apportionment hereby appropriates the sum of nine thousand two hundred dollars (\$9,200) for the purpose of providing for lectures for workmen and workingwomen, during the current year, and to provide the means to meet such appropriation, the Board of Estimate and Apportionment hereby authorizes a transfer of said sum of nine thousand two hundred dollars from an unexpended balance of an appropriation made to the Board of Education for the year 1887, entitled "Public Instruction—For Salaries of Teachers in Grammar and Primary Schools," which is in excess of the amount required for the purpose thereof, to an appropriation made under the authority of said act of the Legislature, and in accordance with the opinion of the Counsel to the Corporation, dated August 16, 1888, to be entitled "Public Instruction—For Free Lectures to Workmen and Workingwomen," for 1888.

Which was laid over on the ground that, according to the opinion of the Counsel to the Corporation, dated August 16, 1888, the Board of Education should request this Board to authorize the said transfer of the appropriation.

The Comptroller presented the following:

Resolved, That the Board of Estimate and Apportionment be and they hereby are requested to transfer the sum of five hundred dollars (\$500) from the unexpended balance of the fund apportioned for 1887, "For Salaries of Teachers in Grammar and Primary Schools," to the fund apportioned for 1888, "For Incidental Expenses of Evening Schools."

CITY OF NEW YORK—FINANCE DEPARTMENT,
COMPTROLLER'S OFFICE,
September 25, 1888.

To the Board of Estimate and Apportionment :

On July 26 last, the petition of Bankson T. Morgan for payment of costs, counsel fees and expenses incurred by him in the action of The People on the relation of Edward Hogan vs. Morgan, brought in the year 1874, together with a copy of an act (chapter 574) passed June 9, 1888, was referred to the Comptroller for investigation.

This action was brought against Mr. Morgan in the Court of Common Pleas, to test the question of his title to the office of Police Justice, to which he had been duly appointed on or about October 25, 1873, and on trial, judgment was directed in favor of the defendant, which on appeal to the General Term, was unanimously affirmed. The Court of Appeals also affirmed the judgment of the lower court, thus determining that Mr. Morgan was entitled to the office to which he had been appointed.

According to a bill of particulars attached to his petition it appears that he has expended for counsel fees in defending his title to the office, the sum of \$5,294.90, which he asks this Board to audit and allow as provided by chapter 574 of the Laws of 1888, amending section 196 of the New York City Consolidation Act of 1882.

By this act the Board of Estimate and Apportionment is authorized to audit and allow, as charges against the City, the reasonable costs, counsel fees, with interest and expenses, paid or incurred by any Police Justice, who shall have been a successful party in any proceedings to remove him from office, or to review or prohibit any such removal, or to obtain possession of his office, and the Board is authorized and directed to include the amount so audited and allowed in the taxes to be levied and raised for the year following such audit.

By an examination of the claim of the petitioner, pursuant to section 123 of chapter 410, Laws of 1882, it is shown by the evidence of the claimant in person, duly sworn to, that he paid the sum of \$5,294.90 as counsel fees in the said proceedings against him as a Police Justice, the several checks therefor drawn by him during the years 1875 and 1876, being exhibited at said examination, the record of which is herewith submitted.

In pursuance of the provision of section 211 of the Consolidation Act of 1882, as amended by chapter 246 of the Laws of 1886, which provides that no appropriation or payment for the contesting of the office of public officers whose salary is paid from the City Treasury, shall be made to any but the prevailing party, nor unless the chief officer of the Law Department and the Chief Justice of the Court of Common Pleas of the City and County of New York certify in writing who is the prevailing party and the value of the services rendered in the case; the certificates to that effect are also herewith submitted of Hon. Henry R. Beekman, Counsel to the Corporation, and R. L. Larremore, Chief Judge of the Court of Common Pleas, New York, both dated September 18, 1888.

I also submit a communication from the Counsel to the Corporation explaining the legal points involved in this matter, from which it appears that it is competent for this Board to audit and allow the claim of the petitioner with interest on the amount, as provided by chapter 574, Laws of 1888, provided the counsel fees paid by him are reasonable.

I therefore submit a resolution providing for the audit of said claim and the allowance of such an amount, with interest, as the Board of Estimate and Apportionment may deem proper.

Respectfully,

THEO. W. MYERS, Comptroller.

LAW DEPARTMENT,
OFFICE OF THE COUNSEL TO THE CORPORATION,
NEW YORK, September 13, 1888.

Hon. THEODORE W. MYERS, Comptroller :

SIR—I am in receipt of your communication of the 4th ultimo, transmitting petition of Bankson T. Morgan to the Board of Estimate and Apportionment, for payment of costs, counsel fees and expenses incurred by him in the action of The People on the relation of Edward Hogan vs. Morgan, in or about the year 1874. You state that these papers are submitted to me for such action and legal advice as are required in the case, for the guidance of the Board of Estimate and Apportionment.

The petition of Mr. Morgan shows that he was duly appointed a Police Justice on or about the 25th day of October, 1873; that while he was engaged in the performance of his duties, as such justice, an action was begun against him in the name of the People on the relation of Edward Hogan, in the Court of Common Pleas, for the City and County of New York, calling in question his title to the office; that the action was brought to trial, and a verdict directed in favor of the defendant.

Upon an appeal, taken from the judgment entered on this verdict, to the General Term of the Court of Common Pleas, the judgment was unanimously affirmed. An appeal was taken thence to the Court of Appeals, which court also affirmed the judgment of the court below, thus determining that Mr. Morgan was entitled to the office to which he had been so appointed.

It also appears from the petition that Mr. Morgan, in defending his title to the office, has expended for counsel fees, according to a bill of particulars attached to the petition, the sum of \$5,294.90.

The prayer of the petition is, that the Board of Estimate and Apportionment audit and allow these expenses.

The application is based upon the authority of chapter 574 of the Laws of 1888, amending section 196 of the New York City Consolidation Act of 1882.

By this act, Police Justices who have been successful parties in proceedings to remove them from office, or to review or prohibit any such removal, or to obtain possession of their offices, are included within the jurisdiction conferred upon the Board of Estimate and Apportionment, by the section in question, to audit and allow, as charges against the City, the reasonable costs, counsel fees, with interest, and expenses heretofore paid and incurred, or which shall hereafter be paid or incurred by the persons therein named, in the course of any such proceedings.

It is, therefore, competent for the Board of Estimate and Apportionment to entertain the application now made by Judge Morgan, and to audit and allow, as charges against the City, the counsel fees, with interest, stated in the petition to have been paid by him in the defense of his title to his office, provided the counsel fees so paid are reasonable.

Section 211 of the Consolidation Act, as amended by chapter 246, Laws of 1886, provides that no appropriation or payment for the contesting of the office of Mayor, or any seat in the Board of Aldermen, or office in any department, or the office of any officer, whose salary is paid from the City Treasury, shall be made to any but the prevailing party; nor unless the chief officer of the Law Department and the Chief Justice of the Court of Common Pleas of the City and County of New York certify in writing who is such prevailing party and the value of the services rendered in the case.

This section should be read in connection with section 196, and therefore requires in the present case the production before the Board of Estimate and Apportionment of the above-mentioned certificates as a condition of the right of said Board to make the desired appropriation.

Should the Board of Estimate and Apportionment audit these charges, it will then become its duty to cause the amount to be included in the final estimates for 1889.

I am not aware that there are any other points upon which it is probable that the Board of Estimate and Apportionment will desire my advice.

Yours, respectfully,

HENRY R. BEEKMAN, Counsel to the Corporation.

BEFORE THE BOARD OF ESTIMATE AND APPORTIONMENT.

In the Matter
of

The claim of Bankson T. Morgan, for the audit and allowance, as charges against the City, of the reasonable costs, counsel fees, etc., paid and incurred by him in defense of his title to the office of Police Justice, in proceedings instituted to oust him therefrom, in the suit of The People ex rel. Hogan against Morgan.

In pursuance of the provisions of section 196 of the New York City Consolidation Act of 1882, as amended by chapter 574 of the Laws of 1888, and of section 211 of said act, as amended by chapter 246 of the Laws of 1886, which provides that no appropriation or payment for the testing of the office of Mayor, or any seat in the Board of Aldermen, or office in any department, or the office of any officer, whose salary is paid from the City Treasury, shall be made to any but the prevailing party, nor shall any such appropriation or payment be made to such prevailing party, except upon the written certificates of the chief officer of the Law Department, and of the Chief Justice of the Court of Common Pleas, for the City and County of New York, certifying who is such prevailing party, and the value of the services rendered in the case.

I do hereby certify that in the proceedings and action above referred to, wherein the People of the State of New York, on the relation of Edward Hogan, were plaintiffs, and said Bankson T. Morgan, the claimant above mentioned, was the defendant, the said Bankson T. Morgan was the

prevailing party in said action, which was instituted for the purpose of testing the title of said defendant to the office of Police Justice in the City of New York.

I do further certify that, in my opinion, the professional services rendered in said case, on behalf of the said Bankson T. Morgan, were reasonably worth the sum of \$5,294.90.

N.B.—As the above-mentioned quantities, though stated with as much accuracy as is possible, in advance, are approximate only, bidders are required to submit their estimates upon the following express conditions, which shall apply to and become a part of every estimate received:

(1.) Bidders must satisfy themselves, by personal examination of the location of the proposed work, and by such other means as they may prefer, as to the accuracy of the foregoing Engineer's estimate, and shall not, at any time after the submission of an estimate, dispute or complain of the above statement of quantities, nor assert that there was any misunderstanding in regard to the nature or amount of the work to be done.

(2.) Bidders will be required to complete the entire work, to the satisfaction of the Department of Docks, and in substantial accordance with the specifications of the contract and the plans therein referred to. No extra compensation, beyond the amount payable for the work before-mentioned, which shall be actually performed, at the price therefor, to be specified by the lowest bidder, shall be due or payable for the entire work.

The work to be done under the contract is to be commenced within five days after the date of the contract, and all the work contracted for is to be fully completed on or before the 21st day of December, 1888, and the damages to be paid by the contractor for each day that the contract may be unfulfilled, after the time fixed for the fulfillment thereof has expired, are, by a

clause in the contract, determined, fixed and liquidated at Fifty Dollars per day.

All the old material taken from the said pier to be removed under this contract will be relinquished to the Contractor, and bidders must estimate the value of such material when considering the price for which they will do the work under the contract.

Bidders will state in their estimates a price for the whole of the work to be done in conformity with the approved form of agreement and the specifications therein set forth, by which price the bids will be tested. This price is to cover all expenses of every kind involved in or incidental to the fulfillment of the contract, including any claim that may arise through delay, from any cause, in the performing of the work thereunder.

Bidders will distinctly write out, both in words and in figures, the amount of their estimates for doing the work.

The person or persons to whom the contract may be awarded will be required to attend at this office with the sureties offered by him or them, and execute the contract within five days from the date of the service of a notice to that effect; and in case of failure or neglect so to do, he or they will be considered as having abandoned it, and as in default to the Corporation; and the contract will be readvertised and relet, and so on until it be accepted and executed.

Bidders are required to state in their estimates their names and places of residence; the names of all persons interested with them therein; and if no other person be so interested, the estimate shall distinctly state the fact; also that the estimate is made without any connection with any other person making an estimate for the same work, and that it is in all respects fair, and without collusion or fraud; and also that no member of the Common Council, Head of a Department, Chief of a Bureau, Deputy thereof, or Clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof; which estimate must be verified by the oath, in writing, of the party making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed to by all the parties interested.

Each estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person or persons making the estimate, they will, upon its being so awarded, become bound as his or their sureties for its faithful performance; and that if said person or persons shall omit or refuse to execute the contract, they will pay to the Corporation of the City of New York any difference between the sum to which said person or persons would be entitled on its completion, and that which said Corporation may be obliged to pay to the person to whom the contract may be awarded at any subsequent letting; the amount, in each case, to be calculated upon the estimated amount of the work to be done by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of the contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety and otherwise; and that he has offered himself as surety in good faith and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered will be subject to approval by the Comptroller of the City of New York, after the award is made and prior to the signing of the contract.

No estimate will be received or considered unless accompanied by either a certified check upon one of the State or National Banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the Estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same, within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited and retained by the City of New York, as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Bidders are informed that no deviation from the specifications will be allowed, unless under the written instructions of the Engineer-in-Chief.

No estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation, upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The right to decline all the estimates is reserved, if deemed for the interest of the Corporation of the City of New York.

Bidders are requested, in making their bids or estimates, to use the blank prepared for that purpose by the Department, a copy of which, together with the form of the agreement, including specifications, and showing the manner of payment for the work, can be obtained upon application therefor at the office of the Department.

The person or persons making any bid or estimate shall furnish the same in a sealed envelope indorsed, "Bid or Estimate for Groceries, Dry Goods, Hardware, Leather and Lumber," with his or their name or names, and the date of presentation, to the head of said Department, at the said office, on or before the day and hour above named, at which time and place the bids or estimates received will be publicly opened by the President of said Department and read.

THE BOARD OF PUBLIC CHARITIES AND CORRECTION RESERVES THE RIGHT TO REJECT ALL BIDS OR ESTIMATES IF DEEMED TO BE FOR THE PUBLIC INTEREST, AS PROVIDED IN SECTION 64, CHAPTER 410, LAWS OF 1882.

No bid or estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The award of the contract will be made as soon as practicable after the opening of the bids.

Delivery will be required to be made from time to time, and in such quantities as may be directed by the said Commissioners.

Any bidder for this contract must be known to be engaged in and well prepared for the business, and must have satisfactory testimonials to that effect, and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract by his or their bond, with two sufficient sureties, in the penal amount of fifty (50) per cent. of the ESTIMATED amount of the contract.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same; the names of all persons interested with him or them therein; and if no other person be so interested, it shall distinctly state that fact; also that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud; and that no member of the Common Council, Head of a Department, Chief of a Bureau, Deputy thereof or Clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for its faithful performance, and that if he shall omit or refuse to execute the same, they shall pay to the Corporation any difference between the sum to which he would be entitled on its completion, and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety and otherwise; and that he has offered himself as a surety in good faith and with the intention to execute the bond required by section 12 of chapter 7 of the Revised Ordinances of the City of New York, if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of this security shall, in addition to the justification and acknowledgment, be approved by the Comptroller of the City of New York.

No bid or estimate will be considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the Estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited and retained by the City of New York, as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it, and as in default to the Corporation, and the contract will be readvertised and relet, as provided by law.

The quality of the articles, supplies, goods, wares, and merchandise must conform in every respect to the samples of the same on exhibition at the office of the said Department. Bidders are cautioned to examine the specifications for particulars of the articles, etc., required, before making their estimates.

Bidders will state the price for each article, by which the bids will be tested.

Bidders will write out the amount of their estimate in addition to inserting the same in figures.

Payment will be made by a requisition on the Comptroller, in accordance with the terms of the contract, or from time to time, as the Commissioners may determine.

Bidders are informed that no deviation from the specifications will be allowed, unless under the written instruction of the Commissioners of Public Charities and Correction.

The form of the agreement, including specifications, and showing the manner of payment, can be obtained at the office of the Department.

SEALED BIDS OR ESTIMATES FOR THE aforesaid work and materials, in accordance with the specifications and plans, will be received at the office of the Department of Public Charities and Correction, No. 66 Third Avenue, in the City of New York, until 9.30 o'clock A. M. of Friday, September 28, 1888. The person or persons making any bid or estimate shall furnish the same in a sealed envelope, indorsed "Bid or Estimate for Fitting up Iron Cresting, etc., Bellevue Hospital, New York," and with his or their names or names, and the date of presentation, to the head of said Department, at the said office, on or before the day and hour above named, at which time and place the bids or estimates received will be publicly opened by the President of said Department and read.

THE BOARD OF PUBLIC CHARITIES AND CORRECTION RESERVES THE RIGHT TO REJECT ALL BIDS OR ESTIMATES IF DEEMED TO BE FOR THE PUBLIC INTEREST, AS PROVIDED IN SECTION 64, CHAPTER 410, LAWS OF 1882.

No bid or estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The award of the contract will be made as soon as practicable after the opening of the bids.

Any bidder for this contract must be known to be engaged in and well prepared for the business, and must have satisfactory testimonials to that effect; and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract by his or their bond, with two sufficient sureties, each in the penal amount of FIVE HUNDRED (\$500) dollars.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same; the names of all persons interested with him or them therein; and if no other person be so interested, it shall distinctly state that fact; also that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud; and that no member of the Common Council, Head of a Department, Chief of a Bureau, Deputy thereof, or Clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the VERIFICATION be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for its faithful performance; and that if he shall omit or refuse to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled on its completion, and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety or otherwise; and that he has offered himself as a surety in good faith and with the intention to execute the bond required by section 12 of chapter 7 of the Revised Ordinances of the City of New York, 1880, if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of this security shall, in addition to the justification and acknowledgment, be approved by the Comptroller of the City of New York.

No bid or estimate will be received or considered unless accompanied by either a certified check upon one of the State or National Banks of the City of New York, drawn to the order of the Comptroller, or money, to the amount of FIVE PER CENTUM OF THE AMOUNT OF SECURITY REQUIRED FOR THE FAITHFUL PERFORMANCE OF THE CONTRACT. Such check or money must not be enclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the Estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited and retained by the City of New York, as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same, within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited and retained by the City of New York, as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept but do not execute the contract and provide such proper security as has been heretofore stated to be requisite, he or they shall be considered as having abandoned it and as in default to the Corporation, and the contract will be readvertised and relet as provided by law.

Bidders will write out the amount of their estimate in addition to inserting the same in figures.

Payment will be made by a requisition on the Comptroller, in accordance with the terms of the contract.

BIDDERS ARE INFORMED THAT NO DEVIATION FROM THE SPECIFICATIONS WILL BE ALLOWED, UNLESS UNDER THE WRITTEN INSTRUCTIONS OF THE COMMISSIONERS OF PUBLIC CHARITIES AND CORRECTION.

The form of the agreement, including specifications, and showing the manner of payment, can be obtained at the office of the Department, where the plans will be on exhibition for the information of bidders.

JURORS. NOTICE IN RELATION TO JURORS FOR STATE COURTS.

OFFICE OF THE COMMISSIONER OF JURORS,
ROOM 127, STEWART BUILDING,
CHAMBERS STREET AND BROADWAY
NEW YORK, June 1, 1888.

APPLICATIONS FOR EXEMPTIONS WILL BE heard here, from 9 o'clock daily, from all persons hitherto liable or recently serving who have become exempt, and all needed information will be given.

Those who have not answered as to their liability, or proved permanent exemption, will receive a "jury enrollment notice," requiring them to appear before me this year. Whether liable or not, such notices must be answered (in person, if possible, and at this office only) under severe penalties. If exempt, the party must bring proof of exemption; if liable, he must also answer in person, giving full and correct name, residence, etc., etc. No attention paid to letters.

Persons "enrolled" as liable must serve when called or pay their fines. No mere excuse will be allowed or interference permitted. The fines if unpaid will be entered as judgments upon the property of the delinquents.

All good citizens will aid the course of justice, and secure reliable and respectable juries, and equalize their duty by serving promptly when summoned, allowing their clerks or subordinates to serve, reporting to me any attempt at bribery or evasion, and suggesting names for enrollment. Persons between sixty and seventy years of age, summer absentees, persons temporarily ill, and United States jurors are not exempt.

Every man must attend to his own notice. It is a misdemeanor to give any jury paper to another to answer. It is also punishable by fine or imprisonment to give or receive any present or bribe, directly or indirectly, in relation to a jury service, or to withhold any paper or make any false statement, and every case will be fully prosecuted.

That no member of the Common Council, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation, is directly or indirectly interested in the estimate or in the work to which it relates or in the profits thereof.

Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the Estimate-book, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. GRANTS OF LANDS UNDER WATER.

THE OWNERS OF LANDS IN THE CITY OF New York, which were formerly under water, and which were granted by the City of New York, are notified that nearly all of the grants of such lands contain covenants, on the part of the grantees, and their successors and assigns, to maintain and keep in repair the adjacent streets. The condition of many of these streets is such as to make it necessary that they should be repaired and repaved, and that the obligation resting upon the present owners of adjacent lots to do this work should now be enforced. Many of such owners have requested that such covenants be commuted, and wholly released, upon the payment by them of a certain sum per lot.

The matter will shortly be presented to the Commissioners of the Sinking Fund for their consideration, and the adjustment of the basis of commutation, and application for releases should therefore be made at once. They may be sent to the undersigned.

Dated NEW YORK CITY, August 7, 1888.

JOHN NEWTON,
Commissioner of Public Works.

REGULATIONS ESTABLISHING A SCALE OF WATER RENTS AND RULES GOVERNING THE USE OF WATER, FOR THE CITY OF NEW YORK, BY ORDER OF JOHN NEWTON, COMMISSIONER OF PUBLIC WORKS.

All extra charges for water shall be deemed to be included in the regular rents, and shall become a charge and lien upon the buildings upon which they are respectively imposed, and, if not paid, shall be returned as arrears to the clerk of arrears. Such regular rents, including the extra charges above mentioned, shall be collected from the owners or occupants of all such buildings respectively, which shall be situated upon lots adjoining any street or avenue in said city in which the distributing water-pipes are or may be laid, and from which they can be supplied with water. In all such cases the charge for water shall be determined only by the quantity of water actually used as shown by said meters."

Urinals shall be charged two dollars per annum each.

WATER-CLOSET RATES.—For hoppers of any form, when water is supplied direct from the Croton supply, through any form of the so-called single or double valves, hopper-cocks, stop-cocks, self-closing cocks, or any valve or cock of any description attached to the closet, each, per year, twenty dollars.

For any form of hopper or water-closet, supplied from any of the forms of waste-preventing cisterns, that are approved by the Engineer of the Croton Aqueduct, which are so constructed that not more than three gallons of water can be drawn at each lift of the handle, or depression of the seat, if such cisterns are provided with an overflow pipe, such overflow pipe must not connect with the water-closet, but be carried like a safe-waste, as provided by the Board of Health regulations, per year, two dollars.

Cistern answering this description can be seen at this Department.

Under the provisions of section 352, Consolidated Act 1882, water-meters, of approved pattern, shall be hereafter placed on the pipes supplying all stores, workshops, hotels, manufactories, public edifices, at wharves, ferry-houses, stables, and in all places where water is furnished for business consumption, except private dwellings.

It is provided by section 352, Laws of 1882, that "all expenses of meters, their connections and setting, water rates, and other lawful charges for the supply of Croton water, shall be a lien upon the premises where such water is supplied, as now provided by law."

All manufacturing and other business requiring a large supply of water will be fitted with a meter.

The rate charged for steam-vessels taking water daily or belonging to daily lines, is one-half cent per ton (Custom House measurement) for each time they take water.

Steamers taking water other than daily, one cent per ton (Custom House measurement).

Water supplied to sailing vessels and put on board, twenty-five cents per hundred gallons.

All matters not hereinbefore embraced are reserved for special contract by and with the Commissioner of Public Works.

HYDRANTS, HOSE, TROUGHS, FOUNTAINS, ETC., ETC.

No owner or tenant will be allowed to supply water to another person or persons.

All persons taking water from the City must keep their own service-pipes, street tap, and all fixtures connected therewith, in good repair, protected from frost, at their own risk and expense, and shall prevent all waste of water.

The use of hose to wash coaches, omnibuses, wagons, railway cars or other vehicles or horses, cannot be permitted.

No horse-troughs or horse-watering fixtures will be permitted in the street or on the sidewalk, except upon a license or permit taken out for that purpose. All licenses or permits must be annually renewed on the first of May. Such fixtures must be kept in good order and the water not allowed to drip or waste by overrunning the sidewalk or street, or to become dangerous in winter by freezing in and about such troughs or fixtures.

No hydrant will be permitted on the sidewalk or in the front area, and any hydrant standing in a yard or alley, attached to any dwelling or building, must not be left running when not in actual use, and if the drip or waste from such hydrant freezes and becomes dangerous in winter, the supply will be shut off in addition to the penalty of five dollars imposed.

Taps at wash-basins, water-closets, baths and urinals, must not be left running, under the penalty of five dollars for each offense, which will be strictly enforced.

Fountains or jets in hotels, porter-houses, eating-saloons, confectioneries or other buildings are strictly prohibited.

The use of hose for washing sidewalks, stoops, areas, house-fronts, yards, court-yards, gardens, and about stables, is prohibited. Where premises are provided with wells, special permits will be issued for the use of hose, in order that the police or inspectors of this department may understand that the permission is not for the use of Croton water.

Opening fire-hydrants to fill hand sprinklers or other vessels will not be allowed.

The penalty for a violation of any of the preceding rules and regulations will be five dollars for each offense, and if not paid when imposed will become a lien on the premises in like manner as all other charges for unpaid water rates.

By order,
JOHN NEWTON,
Commissioner of Public Works.

DEPARTMENT OF PUBLIC WORKS,
COMMISSIONER'S OFFICE,
NO. 31 CHAMBERS STREET,
NEW YORK, June 21, 1887.

PUBLIC NOTICE AS TO WATER RATES.

PUBLIC NOTICE IS HEREBY GIVEN THAT in compliance with the provisions of chapter 550, Laws of 1887, amending sections 350 and 321 of the New York City Consolidation Act of 1882, passed June 9, 1887, the following changes are made in charging and collecting water rents:

1st. All extra charges for water incurred from and after June 9, 1887, shall be treated, collected and returned in arrears in the same manner as regular rents have heretofore been treated.

2d. In every building where a water meter or meters are now, or shall hereafter be in use, the charge for water by meter measurement shall be the only charge against such building, or such part thereof as is supplied through meter.

3d. The returns of arrears of water rents, including the year 1887, shall be made as heretofore on the confirmation of the tax levy by the Board of Aldermen, and shall include all charges and penalties of every nature.

4th. A penalty of five dollars (\$5) is hereby established, and will be imposed in each and every case where the rules and regulations of the Department prohibiting the use of water through hose, or in any other wasteful manner, are violated, and such penalties will be entered on the books of the Bureau against the respective buildings or property, and, if not collected, be returned in arrears in like manner as other charges for water.

5th. Charges for so-called extra water rents of every nature, imposed or incurred prior to June 9, 1887, will be canceled of record on the books of the Department.

D. LOWBER SMITH,
Deputy and Acting Commissioner of Public Works.

DEPARTMENT OF PUBLIC WORKS,
COMMISSIONER'S OFFICE,
NO. 31 CHAMBERS STREET,
NEW YORK, September 29, 1886.

PUBLIC NOTICE.

PERSONS HAVING ANY BUSINESS IN THIS Department which is not assigned to or transacted by the several Bureaux in the Department, and which should come under the immediate notice of the Commissioner of Public Works, are requested to communicate directly in person, or by letter, with the Commissioner.

JOHN NEWTON,
Commissioner of Public Works.

DEPARTMENT OF PUBLIC WORKS,
COMMISSIONER'S OFFICE,
NO. 31 CHAMBERS STREET,
NEW YORK, November 10, 1886.

NOTICE TO CROTON WATER CONSUMERS.

NUMEROUS APPLICATIONS HAVE BEEN made to this Department by citizens claiming reductions or rebates on bills for water supplied through meters, on the alleged ground of leakage caused by defective plumbing and worn-out service pipes, or by willful waste of water by tenants allowing the faucets to be turned on in full force in water-closets, sinks, etc., without the knowledge or consent of the owners of the premises.

The main object of the use of water-meters is to enable this Department to detect and check the useless and unwarrantable waste of an element so valuable and essential to the health and comfort of all the citizens, and this object can only be accomplished by enforcing payment for the water wasted.

Under the law all charges for water supplied through meters are a lien against the respective premises, and the law therefore holds the owner of the premises responsible for the amount of water used or wasted.

Notice is therefore given to all householders that, in all further applications for reduction of water rents, no allowance will be made on account of waste of water occurring through leaks, from defective service pipes or plumbing, or wasteful use of water by tenants or occupants of buildings, though such leakage or waste may have occurred without the knowledge or consent of the owners of the buildings.

House-owners are further notified that whenever their premises become vacant, and are likely to remain vacant, they must notify this Department in writing, and that unless this requirement is complied with no deductions in extra water rents will be allowed for any portion of one year.

JOHN NEWTON,
Commissioner of Public Works.
