Dr. S. T. Armstrong, the General Medical Superintendent, reported as follows:  
From February 24 to March 2, inclusive, 41 operations were performed at Bellevue Hospital, 8 at Gouverneur Hospital, 10 at Harlem Hospital, and 3 at Fordham Hospital, at all of which the attending surgeons or their assistants were present.

Referring to the recommendation of the Executive Committee of Bellevue Hospital in regard to access to histories, it is recommended that the rule be made for all the hospitals, so that no physician who is not actively connected with the hospital shall be allowed access to any history of a patient without the written consent of a member of the Executive Committee, or the attending physician or surgeon in whose service the patient was treated, or the General Medical Superintendent or his representative.

The terms of the lease for the building occupied by the Harlem Hospital provide that sixty days' notice be given to the owner for the termination of the lease, and that thirty days' notice must be given to the owner on the termination of the lease of the building occupied as the Out Patient Department.

In order to meet the arrangement for the outside service at Bellevue Hospital, it is necessary to have several substitutes constantly. It would be possible to have two one-year men reside in the hospital and it is recommended that the Fourth Division be requested to examine and recommend two additional men for one year's service on the house staff, such men to act on the house staff at large and not to be attached to any particular division.

On motion, duly seconded, it was  
Resolved, That action on the matter of the physicians having access to the records of patients be deferred until the General Medical Superintendent can communicate with the Executive Committees of the various hospitals of the Department.

On motion, duly seconded, it was  
Resolved, That the Commissioners of the Sinking Fund be informed, in accordance with the terms of the lease of Harlem Hospital, of the intention of the Trustees to occupy the new Harlem Hospital within sixty days.

On motion, duly seconded, it was  
Resolved, That the General Medical Superintendent be authorized to request the Fourth Division to examine and recommend for appointment two additional men as substitutes on the various divisions of the hospital.

#### Reports of Committees.

Dr. Brannan, to whom was referred the letter from Mr. Freedlander, dated February 23, with the report of Mr. S. J. Jones, the Supervising Engineer, reported that the explanation offered by Mr. Freedlander was satisfactory.

Dr. Brannan reported receipt of one bid on horses (March 5) from the Fiss, Doerr & Carroll Horse Company, at \$325.

On motion, duly seconded, it was  
Resolved, That the General Medical Superintendent be requested to find out what other City Departments are at present paying for their horses; further

Resolved, That the subject of finding a fitting disposition of the old ambulance horses of the Department be referred to the President for investigation.

#### Communications.

A notice of a lien was received on March 5 from the J. W. Fiske Iron Works for \$305.50 on labor and materials furnished the H. Becker Iron Works, subcontractors to Messrs. Luke A. Burke & Sons, contractors for the ambulance station and power house of the new Harlem Hospital.

On motion, duly seconded and carried, this notice was referred to the architect, Mr. J. H. Freedlander.

A communication was received from Dr. T. A. Smith, Acting Secretary of the Medical Board of Bellevue Hospital, transmitting the minutes of the Board for the meeting held on Friday, March 1, 1907.

On motion, duly seconded, it was  
Resolved, That the matter of appointing pathological externes be referred back to the Executive Committee, with the suggestion that the scheme recommended be combined with the one providing for externes in the outlying service as previously suggested by the Board of Trustees.

The matter of establishing a department of motor therapy in Bellevue Hospital, together with the engagement of an instructor to take charge of the work, was referred to the Conference Committee on Medical Affairs for further discussion. The resignation of Dr. G. R. Satterlee, Physician to Out Patients, Fourth Division (tuberculosis), was accepted, dating from March 1, 1907. The resignation of Dr. James R. A communication dated March 2 was received from Messrs. Parish & Schroeder, asking for information on the matter of providing for certain extras on the new Nurses' Home building.

On motion, duly seconded, it was  
Resolved, That Messrs. Parish & Schroeder be requested to send a representative to the Board of Trustees at its next meeting, on Thursday, March 14, 1907, in regard to this matter.

A communication, dated March 1, was received from Mr. Raymond F. Almirall, informing the Board that the final inspection of Fordham Hospital would take place on Wednesday, March 6, 1907, at 2 o'clock.

On motion, duly seconded and carried, this communication was placed on file.

Three communications, dated February 26, February 28, and March 5, were received from Mrs. William Church Osborn, President of the Bellevue Training School for Nurses, in regard to creating new titles, new grades of salaries, the need of additional Nurses for the new Harlem Hospital, and accommodations for sixteen Nurses, and a schedule of a two years' and a two and a half years' course for Nurses.

On motion, duly seconded, it was  
Resolved, That the titles, with the exception of that of "Directress of Nurses," be approved; that the matter of additional Nurses, together with the request for an appropriation to provide for their salaries, be referred to the President, with power; and that copies of the schedule of the two courses for Nurses be sent to each member of the Board of Trustees.

A communication, dated March 1, was received from Messrs. Candee, Smith & Howland Company, informing the Board that application to the Dock Department had been made by the company and that when the Dock Department acted upon the request the offices would be moved to the front of the dock.

On motion, duly seconded and carried, this communication was placed on file, Messrs. Candee, Smith & Howland being informed that the Trustees would insist upon occupying the premises whenever the contractors are ready to begin work.

A communication, dated March 1, was received from Dr. James C. Ayer, applying for a leave of absence from his duties as Assistant Surgeon from April 1 to June 15.

On motion, duly seconded, it was  
Resolved, That leave of absence be granted Dr. Ayer from April 1 to June 15.

#### Unfinished Business.

On motion, duly seconded, it was  
Resolved, That the rules for the admitting physicians, having received the approval of the Committee on Rules, be and they are hereby adopted by the Board.

On motion, duly seconded, it was  
Resolved, That the rules for the Out-Patient Department be laid over for consideration at the next meeting.

On motion, duly seconded, it was  
Resolved, That the matter of appointing an Inspector of Construction for the new Nurses' Training School building be deferred, there being no necessity for such an appointment until the tearing down of the present buildings is completed and the erection of the new building is begun.

On motion, duly seconded, it was  
Resolved, That a letter be sent to the Secretary of the Board of Estimate and Apportionment setting forth the fact that in all the other hospitals constructed by the Board of Trustees the policy has been followed of erecting a power plant in connection with the hospital, and asking the decision of the Board of Estimate and Apportionment in the case of the power plant for the new Bellevue Hospital.

On motion, duly seconded, it was further  
Resolved, That copies of the letters from the architects and engineers urging the erection of a power plant be attached to the request.

On motion, duly seconded, it was  
Resolved, That the plans for a new dormitory building upon the grounds of Bellevue Hospital be and they are hereby referred to the President for further suggestion and investigation.

## INVITATION TO CONTRACTORS.

(CENTRE STREET, FROM PEARL TO CANAL.)

THE CITY OF NEW YORK (HEREIN-after called the City) acting by its Board of Rapid Transit Commissioners (hereinafter called the Board) contemplates building a certain Rapid Transit Railroad, known as Route No. 9, in Centre street (Manhattan) and other streets in the Boroughs of Manhattan and Brooklyn, including ultimately Delancey street, Grand street, Desbrosses street, Canal street and William street in Manhattan, and Fulton street, Lafayette avenue and Broadway in Brooklyn.

By this advertisement, the City invites proposals to construct that part of said Railroad which is situated in Centre street between Pearl street and Canal street, and in Walker street and Canal street between Centre street and Chrystie street, in accordance with the detailed plans and specifications adopted therefor.

The general plan of construction calls for a subsurface railroad. There will be four tracks in Centre street and two tracks in Walker street and Canal street, and provisions for spurs turning west into Canal street.

A station between Leonard and White streets will be constructed, and suitable cross-overs, turn-outs and sidings are also to be provided, all as shown in the detailed plans of construction. The tunnels are to have a height of not less than thirteen (13) feet in the clear, and a maximum width of fifteen (15) feet for each track, except at curves, etc., where the width may be increased. The roof of the tunnels is generally to be as near the surface of the street as street conditions and grades will permit, but will be depressed whenever necessary to avoid grade crossings. The roof and sides of the tunnels will be of iron or steel and masonry. Entrances to the stations are intended to be placed within private property, rights in which will be acquired for the purpose.

The manner of construction shall be, in Centre street, by excavation under cover, and in Walker street and Canal street also by excavation under cover unless otherwise directed by the Board.

In the detailed plans for construction, provisions for pipe galleries through Centre street from Pearl street to Canal street are included. Bids for the construction of the railroad must be accompanied by a separate bid for the construction of the pipe galleries above referred to, as it is essential for the City to separate the cost of the railroad from the cost of the pipe galleries. The Board reserves the right to accept a bid for construction of the railroad and at the same time to reject the accompanying bid for pipe galleries. The price stated for railroad construction is to include the furnishing of all materials and the performance of all labor requisite to the complete construction of that part of the proposed railroad which is to be built under this contract, including all sewer and street construction and reconstruction and other work caused by or incidental to the construction of the same as set out in the proposed form of contract.

A fuller description of the work to be done is set forth, and other requirements, provisions, details and specifications are stated in the printed form of contract now on file in the office of the Board, No. 320 Broadway, Borough of Manhattan, and in the detailed drawings therein referred to, at which office copies of the contract and of the form of bond and contractor's proposal may be had on application. The contract drawings may be inspected at the same office. The printed form of contract and the detailed drawings are to be deemed a part of this invitation.

Partial payments to the contractor will be made monthly as the work proceeds, as provided in the form of contract.

The work of construction (including pipe galleries) is to be completed as soon as practicable, and within twenty-one months from the date of delivery of the contract.

SEALED BIDS OR PROPOSALS WILL BE RECEIVED AT THE SAID OFFICE OF THE BOARD, NO. 320 BROADWAY, BOROUGH OF MANHATTAN, CITY OF NEW YORK, UNTIL

THURSDAY, APRIL 11, 1907,

AT 12 O'CLOCK NOON, AT WHICH TIME OR AT A LATER DATE TO BE FIXED BY THE BOARD THE PROPOSALS WILL BE PUBLICLY OPENED.

Proposals must be in the form prescribed by the Board, copies of which may be obtained at the office of the Board.

Each proposal must be signed and acknowledged and also verified by an affidavit of the bidder (or if it be a corporation then by an officer thereof) to the effect that the several matters therein stated are in all respects true. If the proposal is made by a firm, it will be sufficient if the proposal is signed and acknowledged, and the affidavit sworn to, by one member of the firm.

Each proposal must specify an office within The City of New York at which notices may be delivered; and delivery of a notice at such office shall be deemed a sufficient delivery and notice to the bidder.

Each proposal or bid must contain the name and place of residence of the person or persons making the same, the names of all persons interested with him therein, and if no other person be so interested, it shall distinctly state that fact; and if the bidder shall be a corporation, there shall be submitted a certified copy of its certificate of incorporation, with a certificate of the amount of stock paid in in cash, and the names and business addresses of all officers and directors of the corporation shall be stated; also, that it is made without any connection with any other person making a proposal or bid for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of Department, chief of Bureau, deputy thereof or clerk therein, or other officer of the corporation, or any member or employee of the Board, is interested, directly or indirectly, as contracting party, partner, stockholder, or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof.

No proposal will be allowed to be withdrawn for any reason whatever after it shall have been deposited with the Board.

The Board is not obliged by law to accept any of the proposals received by it, but may reject all such proposals and readvertise, or may accept any of such proposals as will in the judgment of the Board best promote the public interest and award a contract accordingly, subject to approval by the Board of Estimate and Apportionment, as required by law.

The award of the contract or contracts (if awarded) will be made by the Board within ten days after the opening of the proposals. The bidder or bidders whose proposal shall be accepted shall in person or by duly authorized representative attend at the said office of the Board within ten days after the delivery of a notice by the Board that the proposal is accepted and that the contract is approved by the Board of Estimate and Apportionment; and such bidder or bidders shall then deliver a contract in the form referred to, duly executed with its execution duly provided.

At the time of the delivery of a contract, the contractor will be required to furnish security to the City by giving a bond in the penalty of three hundred thousand dollars. At the option of the successful bidder cash or approved securities may be deposited instead of giving a bond. If securities are deposited in place of a bond under this contract, they must be of the character of securities in which savings banks may invest their funds and must be approved by the Board. The contractor's bond must be in the form annexed to the form of contract.

In addition and as further security to the City, 10 per cent. of each amount certified from time to time to be due to the contractor will be retained until the work is fully completed.

Each bidder must state in his proposal the names and places of business of the proposed sureties on the bond and describe any securities proposed to be deposited.

Bidders whose proposals are otherwise satisfactory to the Board may, in case the sureties or securities named by them are not approved by the Board, substitute in their proposals the names of new sureties or a different schedule of securities approved by the Board; but such substitution must be made within five days after notice of disapproval by the Board, unless this period is extended by the Board.

In case of failure or neglect to execute and deliver the contract or to make the required deposit or to execute and deliver the required bond, such bidder or bidders will, at the option of the Board, be deemed either to have made the contract or to have abandoned the contract. In the latter case the Board will give notice thereof to the defaulting bidder or bidders. And the Board may thereupon proceed to make another contract with such, if any, of the original bidders as, in the opinion of the Board, it will be to the best interest of the City to contract with, or may by new advertisement invite further proposals. The defaulting bidder or bidders shall thereupon be liable to the City for all loss and damage by it sustained, including the excess, if any, of the amount it shall pay any other contractor over the amount of the bid of such defaulting bidder or bidders.

Every proposal must, when submitted, be enclosed in a sealed envelope indorse "Proposal for Constructing Rapid Transit Railroad—(Centre street, from Pearl to Canal)" and must be delivered to the Board or to its Secretary; and in the presence of the person offering the proposal it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received or deposited unless accompanied by a certified check drawn upon a national or State bank or trust company within The City of New York and satisfactory to the Board, payable to the order of the Comptroller of The City of New York, for the sum of twenty-five thousand dollars.

If the Board shall give notice to any bidder that his or its proposal is accepted and the contract is approved by the Board of Estimate and Apportionment, and if the bidder shall fail within ten days thereafter or within such further period, if any, as may be prescribed by the Board, to execute and deliver the contract and make the deposit in cash or securities, and to execute and deliver the bond with sureties, then this invitation to contractors and proposal accepted as aforesaid shall be a contract binding the bidder to pay to the City the damages by it sustained by reason of such failure; and in such case the bidder hereby absolutely assigns to the City the ownership of the check accompanying his or its proposal as a payment on account of such damages.

Such check must not be inclosed in the sealed envelope containing the proposal, but must be separately delivered to the Board or to its Secretary, who will give a proper voucher for the deposit.

All such deposits made by bidders whose proposals shall not be accepted by the Board will be returned to the person or persons making the same within five days after the contract shall be executed and delivered. The deposit of the successful bidder or bidders will be returned when the contract is executed and its provisions as to security are complied with. #### GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done.
