Sec. 205. The provisions and penalties of the ordinance relating to the licensing of hacking coaches or cabs and of the driving thereof and the rates and prices of fares, so far as the same may be consistent, shall apply to coaches, carriages and cabs, to be licensed hereunder and to the owners and drivers thereof.

To persons, firms or corporations engaged in a business requiring the frequent or constant hoisting or lowering of merchandise or materials, the Bureau of Licenses shall, on the filing of such satisfactory security, to be approved by the Chief of the Bureau of Licenses as aforesaid, and on the payment of a fee of twenty-five dollars, grant a general permit to such persons, firms or corporations, permitting them to hoist, raise or lower the goods, property, merchandise or materials therein described on the outside of any and all buildings for the term of one year thereafter. Nothing in this subdivision contained shall affect the right, in any case, to obtain a single permit under subdivision.

Sec. 210. For every failure to comply with this provision, there shall be a penalty of twenty-five dollars, recoverable by The City of New York in any court of competent jurisdiction, against any person, firm or corporation guilty of such violation. (R. O., 1897, sec. 205, with verbal changes.)

#### Chapter 6.—Contracts.

Sec. 211. All supplies to be furnished or work to be done for the Corporation of The City of New York, whether to be paid for out of the City Treasury or out of trust moneys under the control of or to be assessed or collected by the Corporation, shall be furnished or performed by contract, except as is otherwise provided by law. (R. O. 1897, sec. 344, amended.)

Sec. 212. The several departments and officers empowered by law to make contracts on the part of the Corporation shall issue invitations for bids or proposals therefor by public notices, and shall advertise the same as provided by law when and after the said public notice and the terms of the said contract shall have been approved as to form by the Corporation Counsel. There shall be kept by each of said departments an appropriate box, to be designated "bid box," with a proper opening in the top thereof to receive bids or proposals for which invitations have been issued. Such "bid box" shall be locked, except at such times as it may be necessary to open the same to examine and decide upon bids or proposals, and the key thereof shall be retained by the head of the department. It shall be the duty of the head of the department to deposit in said box the bids or proposals duly presented to him for work to be done or supplies to be furnished, under the direction of the department, immediately on the receipt thereof by him. (Id., sec. 345, amended.)

Sec. 213. The invitations for bids or proposals shall be in such form as may be prescribed by the department making the same, and as shall be approved as to form by the Corporation Counsel, and they shall contain the following particulars:

1. They shall require that the person making the bid or proposal shall furnish the same in a sealed envelope to the head of the appropriate department, at his office, on or before a day and hour herein named, not less than ten (10) days from the first publication thereof.
2. They shall state the quantity and quality of supplies, or the nature and extent, as near as possible, of the work required, or a reference to specifications or schedules where the quantity and quality of supplies, or the nature and extent, as near as possible, of the work, is stated.
3. They shall state that the bids or proposals received will be publicly opened by the head of the department issuing the public notice, at his office, at a day and hour therein mentioned.
4. They shall state the amount in which security is required for the performance of the contract.
5. They shall state the time or period within which the work must be done or the supplies furnished. (Id., sec. 346, amended.)

Sec. 214. Each bid or proposal shall contain:

1. The name and place of residence of the person or party making the same.
2. The names of all persons or parties interested with the bidder therein, and if no other person or party be so interested the bid or proposal shall distinctly state that fact.
3. A statement that the bid or proposal is made without any connection with any other person or party making the bid or proposal for the same purpose, and that the bid or proposal is in all respects fair and without collusion or fraud.
4. A statement that no member of the Board of Aldermen, head of a Department, chief of a Bureau, deputy thereof, or Clerk therein, School Commissioner or other officer of the corporation is directly or indirectly interested therein, or in the supplies or the work to which it relates, or any portion of the profits thereof, either as principal, surety or otherwise. (Id., sec. 347, amended.)

Sec. 215. Each bid or proposal shall be verified by the oath or affirmation, in writing, of the party making the bid or proposal, that the several matters stated therein are in all respects true, and if the bid or proposal be made by a firm it shall be verified by each and every member of the firm. (Id., sec. 348, amended.)

Sec. 216. Each bid or proposal shall be accompanied by the consent, in writing, of two (2) householders or freeholders in The City of New York, or of a responsible

guaranty or surety company duly authorized by law to act as surety, to the effect that if the contract be awarded to the person or party making the bid or proposal they or it will, upon its being so awarded, become bound as his or its sureties for its faithful performance, and that if he shall omit or refuse to execute the same they or it will pay to the corporation any difference between the sum to which he would be entitled upon its completion and that which the corporation may be obliged to pay to the person to whom the contract shall be awarded at any subsequent letting; the amount of security in each case to be calculated upon the estimated cost of the work to be done or of the supplies to be furnished by which the bids are tested. (Id., sec. 349, amended.)

Sec. 217. The consent mentioned in the last section shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same that he is a householder or freeholder in The City of New York and is worth the amount of the security required for the completion of the contracts and stated in the bids or proposals, over and above all his debts of every nature, and over and above his liabilities as bail, surety or otherwise, and that he has offered himself as a surety in good faith and with an intention to execute the bond required by law; and a like affidavit shall be required of the proper officers of any such guaranty or surety company, setting forth the name of the company, the title of the act or laws under which it is incorporated, the date when incorporated, a statement that it is authorized to do business under the laws of the State of New York and is authorized under its charter to execute the said bond or undertaking and to guarantee the obligations assumed in the bid or proposal and according to the contract and referred to in the bids or proposals; a true and correct statement of the financial condition of the company at its last accounting, which shall have been made within a period of one year, and of any changes in its condition that impairs or affects its financial liability or status. (Id., sec. 350, amended.)

Sec. 218. The sealed envelope containing the bid or proposal shall be indorsed with the name or names of the person or party presenting the same, the date of its presentation and a statement of the work to which it relates; and no bid or proposal shall be taken from the "bid box," or the sealed envelope thereof opened by any one, except at the time and in the manner herein designated for deciding on such bids or proposals. At the same time and place appointed for that purpose in the public notice as prescribed in this ordinance, the head of the Department, or other officers empowered to make the contract, in the presence of the Comptroller or his duly authorized representative, and such of the parties making the said bid or proposals as may desire to be present, shall then and there open the said bid box, and the bids or proposals to be examined at that time, as may appear from the indorsements thereon, shall be taken from said box. The said head of Department, or his deputy, shall then and there publicly open and read all bids or proposals which may have been received for the contract mentioned in such public notice, and shall reject all bids or proposals not furnished in conformity with the law and the ordinances relating thereto and the requirements thereof. The award of the contract shall be made according to law (Id., sec. 351, amended.)

Sec. 219. When public notices are issued for a contract to furnish any article of which a sample can conveniently be furnished or for which specifications and plans can be prepared and furnished within the time allowed, the head of the department issuing the same may require that such sample or specifications and plans be delivered at his office or at the office of the head of the appropriate bureau of the department within such time before the opening of the bids or proposals as he may prescribe; and if it or they be not so furnished, or do not conform to the requirements of the public notices and of the specifications and requirements issued by the department for the said article, the bid or proposal delivered by the person or party furnishing or omitting to furnish the same, as the case may be, shall be rejected. Wherever samples are required to be prepared and furnished to the head of the department, at least ten (10) days shall be given for the furnishing of such sample and for the preparation and furnishing of such specifications and plans (Id., sec. 352, amended.)

Sec. 220. Except as herein otherwise provided, in all contracts for work for the corporation where provision is made for the payment of the contract price by installments, a provision shall be inserted that the corporation may retain, and the contractor shall allow to be retained, at least ten (10) per cent. of the contract price of the work actually done as security until the whole work shall be completed and the contract shall be fully and completely performed (Id., sec. 353, amended.)

Sec. 221. In all contracts for the performance of work or the furnishing of supplies, the time or period for the completion of such work and the furnishing and delivery of such supplies shall be specified and inserted therein (Id., sec. 354, amended.)

Sec. 222. In all contracts for public works or supplies, and agreements in relation thereto, by which the City shall be liable to pay money, the award, if any, must be to the lowest bidder unless the Board of Estimate, by the vote of three-quarters of its members, shall determine that it is for the public interests that a bid other than the lowest should be accepted. No contract shall be made until the Comptroller certifies thereon that the necessary funds are provided and applicable thereto (sec. 419, the Greater New York Charter).

Sec. 223. In all contracts for work for the corporation upon any public building, or in any public street or place, in the performance of which accidents or injuries may happen to the person or property of another, a provision shall be inserted that the contractor shall place proper guards for the prevention of accidents, and shall put up and keep at night suitable and sufficient lights during the performance of the work; and that he will indemnify the corporation for damages or costs to which it may be put by reason of injury to the person or property of another resulting from negligence or carelessness in the performance of the work (Id., sec. 355, amended.)

Sec. 224. Every contract for supplies or work for the corporation shall be executed by the contractor or contractors to whom the same may be awarded, and shall be accompanied by a bond in the amount mentioned in the public notice therefor, executed by the persons or company consenting to become bound as sureties, or by such other persons or company as shall be substituted therefor, with the consent of the Comptroller, conditioned for the faithful performance of the contract and of every provision therein contained, and which bond shall be accompanied by the oath in writing of the person signing the same that each is a householder or freeholder in The City of New York, and of the person or any officer of such company that he or it is worth the amount of the security required for the completion of the contract, and stated in the public notice as hereinbefore prescribed. And it shall be the duty of the Comptroller to require such sureties to be further examined before himself or an officer authorized to administer oaths, deputed by him, in respect to the items and details of their property, before approving the adequacy and sufficiency of such sureties, and the several departments of the City government and officers aforesaid by which every and each contract for work to be done or supplies to be furnished for the corporation shall be made in pursuance of this ordinance, shall have power and it shall be their duty to require and enforce the faithful execution of each and every contract so made by them; and in case the contractor or contractors shall fail in any respects to perform the work or to furnish the supplies which he or they have contracted to render or furnish within the time limited for the performance of the same, then it shall be the duty of such department or officers aforesaid to do and complete the same work or to furnish and deliver the said supplies in the manner provided for the performance of the same in the contract, and the cost of the same shall be charged against the delinquent contractor or contractors; provided, however, that the head of any department or officer aforesaid by whom any such contract shall be made may, on good and sufficient cause, extend for a reasonable time the period fixed for the completion thereof (Id., sec. 356, amended.)

Sec. 225. Sec. 358. Every owner or lessee of any building or lot of ground in the City abutting upon any street, avenue or public place where the sidewalk is paved, shall, within four hours after the snow ceases to fall, or after the deposit of any dirt upon said sidewalk, remove the snow, ice or dirt from the sidewalk and gutter, the time between 9 p. m. and 7 a. m. not being included in the above period of four hours; provided, however, that such removal shall in all cases be made before the removal of snow and ice from the roadway by the Commissioner of Street Cleaning, or by the Borough President of Queens or Richmond for the removal of snow, ice or dirt, except that in the boroughs of Queens or Richmond any owner or lessee of any ground abutting upon any paved street, avenue or public place for a linear distance of 500 feet or more, shall be considered to have complied with this ordinance, if such person shall have begun to remove the snow and ice from the sidewalk and gutter before the expiration of the said four hours, and shall continue such removal and shall complete it within a reasonable time.

Sec. 359. In case the snow and ice on the sidewalk shall be frozen so hard that it cannot be removed without injury to the pavement, the owner, lessee, tenant, occupant or other person having charge of any building or lot of ground as aforesaid, shall, within the time specified in the last preceding section, cause the sidewalk abutting on the said premises to be strewn with ashes, sand, sawdust, or some similar suitable material, and shall, as soon thereafter as the weather shall permit, thoroughly clean said sidewalk.

Sec. 360. Whenever any owner, lessee, tenant, occupant or other person having charge of any building or lot of ground abutting upon any street or public place, where the sidewalk is paved, shall fail to comply with the provision of any ordinance of the City for the removal of snow and ice, dirt, or other material from the sidewalk or gutter in the street, on the side of the street on which such building or lot abuts, the Commissioner of Street Cleaning, or the Borough President of Queens or Richmond may cause such removal to be made, meeting such expense from any suitable Street Cleaning or Highway Fund, and thereafter the expense of such removal as to each particular lot of ground, shall be ascertained and certified by the said Commissioner of Street Cleaning or by the President of Queens or Richmond to the Comptroller of the City and the Board of Estimate and Apportionment may authorize such additional expenditures as may be required for the said removal of such ice and snow, dirt or other material, to be repaid to the fund from which the payments were made, or instead in the boroughs of Queens or Richmond to the special funds "Restoring and Repaving" in said boroughs, if the Presidents of these boroughs so elect, with proceeds from the issue and sale of revenue bonds which shall be sold by the Comptroller, as provided by law.

The Commissioner of Street Cleaning or Borough President of Queens or Richmond shall, as soon as possible, after the work is done, certify to the Corporation Counsel the amount of the expense chargeable against each piece of property, with a description of said property as assessed on the last preceding assessment roll, and the name or names of the owner or owners, lessee, or lessees, occupant or occupants of the

property, where possible to obtain the same. The Corporation Counsel is hereby directed and authorized to sue for and recover the amount of this expense, together with \$10 penalty for each offense, and when so recovered the amount shall be turned over to the City Chamberlain to be deposited to the credit of the general fund of The City of New York for the reduction of taxation.

Sec. 361. Sec. 362. Sec. 363. It shall not be lawful for any surface railroad company or other company, or any corporation of persons whatever, or the officers, agents or servants thereof, to cause or allow any snow plow, sweeping machine or other similar instrument to pass over the tracks or lines used by them within the limits of the city unless by the written permit of the Commissioner of Street Cleaning or the Borough President of Queens or Richmond; any violation of this section shall be punished by a fine not exceeding one hundred dollars for each such offense.

Sec. 364. No such permit or renewal thereof shall be granted except upon the condition and agreement upon the part of the company applying for such permit or renewal that the party to whom the said permit has been granted shall and will, at his own expense, promptly remove and carry away the snow thrown up by such plow or machine, and that such snow plow, sweeping machine or other instrument shall be so constructed as not to throw any slush or snow upon the sidewalks or buildings, under a penalty of ten dollars for every house, or sidewalk in front thereof, upon which slush or snow shall be thrown.

Sec. 365. No such permit or renewal shall be granted unless the party to whom granted shall expressly covenant, stipulate and agree that in case of its failure, neglect or omission to promptly remove and carry away the snow and ice thrown up by such snowplow or other instrument, then the same may be removed under the direction of the Commissioner of Street Cleaning or the Borough President of Queens or Richmond, and the expense of removing the same shall be paid by the said party to the said Commissioner or the Borough President of Queens or Richmond, on demand, and the Board of Estimate and Apportionment may authorize that the amount or amounts of money so paid shall be credited to the appropriation for Street Cleaning, in the respective boroughs, for the removal of snow and ice; but nothing herein contained shall be deemed to prohibit said Commissioner or Borough Presidents from demanding, before issuing said permit, and as a condition thereof, the deposit of such sum of money or other security as in their judgment may be necessary to pay the cost of properly performing the work above mentioned, together with the expense of the inspection thereof.

Sec. 366. In case of neglect or refusal or omission of the party to whom such permit may be granted promptly to remove and to carry away the snow and ice thrown up by such plow or instrument, then the Commissioner of Street Cleaning or the Borough President of Queens or Richmond may forthwith cause the same to be removed at the public expense, and all expenditures made or incurred therefor shall be chargeable upon the party so neglecting, refusing or omitting to perform its agreement, and shall be recoverable by an action at law on behalf of The City of New York, and when so recovered shall be placed to the credit of the Department of Street Cleaning or the Bureau of Street Cleaning in the boroughs of Queens or Richmond, as the case may be, to supply the deficiency occasioned by such additional expenditure.

Sec. 367. #### Projections.

Sec. 440. The Borough Presidents and the Park Commissioners having jurisdiction shall, subject to the restrictions of this ordinance, issue permits for the construction of ornamental projections which project beyond the building line; provided, in the opinion of the officer having jurisdiction no injury will come to the public thereby. Permits for the construction of such projections, lying within any park, square or public place, or within a distance of three hundred and fifty feet from the outer boundaries thereof, shall be issued by the Park Commissioner having jurisdiction, as provided in section 612 of the Charter, as amended by section 1, chapter 723, of the Laws of 1901. Permits for the erection of all other ornamental projections shall be issued by the Borough President having jurisdiction.

Sec. 441. For the purposes of this ordinance, "an ornamental projection" shall be taken to mean and include all decorative projections on the face of a building beyond the building line, in the nature of porches, arches, porticos, columns and pillars, which are erected purely for the enhancement of the beauty of the building from an artistic standpoint.

Sec. 442. Before the erection of any such ornamental projections shall be commenced the owner of the building, or his duly authorized agent, shall make application in writing to the said Borough President or Park Commissioner having jurisdiction, on suitable blanks furnished by him, for the permit herein provided for, and shall file a plan and drawing showing the nature of the proposed ornament with the dimensions thereof, the number of stories through which it is intended to be carried and the number of square feet of area covered by that portion of the ornamentation projecting beyond the building line.

Each application shall be accompanied by the amount of compensation due the City for the privilege of erecting said ornamentation, as hereinafter provided.

Sec. 443. Each application for the erection of an ornamental projection, which projects more than one foot beyond the building line, shall be accompanied by a certified copy of the last assessed valuation of the property on which said ornamental projection is to be erected, which appears upon the books of the Department of Taxes and Assessments. Except as hereinafter provided, the amount that shall be paid as a compensation to the City for the privilege of erecting each ornamental projection shall be, for each and every square foot or fraction thereof of area extending more than one foot beyond the building line, at the rate of ten per cent. per square foot of the assessed value of the property on which the said ornamental projection is to be erected.

Sec. 444. Ornamental projections which shall extend not more than two feet beyond the building line may hereafter be erected on buildings in the Borough of Manhattan, situated on Broadway to the south of Fifty-ninth street; on Fourteenth street, between Broadway and Sixth avenue; on Twenty-third street, between Third and Sixth

avenues; on Thirty-fourth street, between Third and Ninth avenues; on Fifty-ninth street, between Third and Ninth avenues, and on Fifth avenue, between Fourteenth street and Fifty-ninth street, and on all other streets in The City of New York ornamental projections may be erected, provided they shall extend not more than one-fifteenth part of the width of the street they are upon, nor in any case more than five feet beyond the building line.

Sec. 445. The permits mentioned herein shall be issued in duplicate, one of which shall be retained by the applicant and kept at the building during the erection of the projection, and the other shall be filed by him with the plans for the building in the Bureau of Buildings. If it shall appear upon completion that the ornamental projection occupies a greater number of square feet than shall have been paid for, the applicant shall pay twice the sum previously paid for each square foot of area occupied by said projection, over and above the number of square feet paid for originally, but in no case shall said ornamental projection exceed the limit allowed by law.

Sec. 446. Permits granted pursuant to the provisions of this ordinance are revocable permits, and shall have the following clause printed thereon, viz.: "This permit is issued subject to revocation thereof, at any time hereafter by the Board of Aldermen of The City of New York, upon the recommendation of the officer having jurisdiction, when the space occupied by said ornamental projection or any portion thereof, may be required for any public improvement, or upon any violation of any of the terms or conditions upon which this permit is issued." A permit for the erection of an ornamental projection shall be deemed to have expired when such projection is taken down, and the space formerly occupied thereby shall no longer be used for the purpose for which the permit was issued, unless a permit for its reconstruction shall have been granted, as provided in section 448 of this ordinance. In case it is thereafter desired to erect an ornamental projection on the said property, the applicant shall comply with all of the provisions of this ordinance.

Sec. 447. Permits as hereinbefore described, and subject to the conditions therein attached, may be issued to the owners of all buildings having ornamental projections, which buildings have been erected or are being erected, and have ornamental projections thereon beyond the building line, without any authorization therefor.

Sec. 448. No fees shall be charged for granting a permit to reconstruct an ornamental projection within the limitations imposed by an original permit therefor.

Sec. 449. Nothing herein contained shall be deemed to conflict with the provisions of the Building Code. No plans for the construction of a building having ornamental projections thereon, beyond the building line, as defined in this ordinance, shall be approved by the Superintendent of Buildings until the permit therefor is filed, as provided by section 445 of this ordinance.

Section 450. All fees received by the Borough Presidents or Park Commissioners for the issuing of permits provided by this ordinance shall be accounted for in proper books kept for that purpose and shall be turned over by them to the City Treasury.

Section 451. Any person, firm or corporation violating any of the provisions of the preceding eleven sections of these ordinances shall be guilty of a misdemeanor, and shall in addition thereto be liable to a penalty of ten dollars for each offense and ten dollars for each and every day that such offense shall continue. (Ordinance approved April 20, 1903.)

#### Bay Windows.

Sec. 452. The Borough Presidents and the Park Commissioners having jurisdiction, shall issue permits for the erection of bay windows projecting beyond the building line, provided in the opinion of the officer having jurisdiction no injury will come to the public thereby. Permits for the erection of bay windows lying within any park, square or public place, or within a distance of three hundred and fifty feet from the outer boundaries thereof, shall be issued by the Park Commissioner having jurisdiction, as provided in section 612 of the Charter, as amended by section 1, chapter 723 of the Laws of 1901. Permits for the erection of all other bay windows shall be issued by the Borough President having jurisdiction.

For the purpose of this ordinance a "bay window" shall be taken to mean and include all projections on the face of a building in the nature of windows, such as are commonly called bay windows, show windows, oriel windows and bow windows, without regard to the material of which they are constructed or to the purpose for which they are to be used.

Sec. 453. Before the erection of any bay window projecting beyond the building line shall have been commenced, the owner or his duly authorized agent shall make application in writing to the officer having jurisdiction, on suitable blanks furnished by him, and shall state the length and width of the proposed bay window, the number of stories through which it is intended to be carried, and the number of square feet of area covered by that portion of the bay window projecting beyond the building line. Drawings showing the size of and area covered by the bay window, the number of stories through which it is proposed to be carried and its location in reference to the lot and building lines shall be submitted with each application, and for the purpose of computing the area covered by a bay window projecting beyond the building line the outside face of the bay, exclusive of cornices, pilasters, trims, etc., shall be the line taken as a basis of computation.

Each application for the erection of a bay window projecting more than one foot beyond the building line shall have indorsed thereon the consent of all the adjoining property owners within a distance of fifty feet from the centre of the bay window, on the same side of the street; meaning thereby so much of the side of a street as is unintersected by any other street on which it is proposed to be erected.

Each application shall be accompanied by the amount of the compensation due the City for the privilege of erecting said bay window, as hereinafter provided.

Sec. 454. Each application for the erection of a bay window projecting more than one foot beyond the building line shall be accompanied by a certified copy of the last assessed valuation of the property on which said bay window is to be erected, which appears upon the books of the Department of Taxes and Assessments. Except as hereinafter provided the amount that shall be paid as a compensation to the City for the privilege of erecting each bay window shall be at the rate of ten per cent. of the assessed valuation per square foot of the property on which the said bay window is to be erected, for each and every square foot, or fraction thereof, of area covered by said bay window beyond the building line for each and every story through which it is carried.

If the projection of a bay window does not exceed one foot beyond the building line, and it is not carried higher than the sill of the second-story windows, the rate throughout The City of New York shall be ten cents for each square foot or fraction thereof of horizontal area covered by said bay windows beyond the building line.

Sec. 455. Bay windows may be hereafter erected with a projection of not more than three feet beyond the building line, provided that when the projection exceeds one foot beyond the building line the total number of feet in width occupied by all the bay windows on the same frontage of the same building shall not exceed seventy-five per cent. of the width of the frontage of the building on which they are located. When the total number of feet to width occupied by all the bay windows on the same frontage of the same building exceeds seventy-five per cent. of the width of the frontage of the building on which they are located, the projection shall not exceed one foot beyond the building line, nor shall the bay window be carried higher than the sill course of the second-story windows.

Sec. 456. Permits for the erection of bay windows shall be issued in duplicate, one of which shall be retained by the applicant, and kept at the building during the erection of the window, and the other shall be filed by him, with the plans for the construction of the window, in the Department of Buildings. If it shall appear, upon completion, that the bay window occupies a greater number of square feet, or has been carried through a greater number of stories than shall have been paid for, the applicant shall pay twice the sum previously paid for each square foot of area occupied by said bay window over and above the number of square feet paid for originally.

Sec. 457. Permits granted pursuant to the provisions of this ordinance are revocable permits, and shall have the following clause printed thereon, viz.: "This permit is issued subject to revocation thereof at any time hereafter by the Board of Aldermen of The City of New York, upon the recommendation of the officer having jurisdiction, when the space occupied by said bay, or any portion thereof, may be required for any public improvement, or upon any violation of any of the terms or conditions upon which this permit is issued." A permit for the erection of a bay window shall be deemed to have expired when the bay window is taken down, and the space formerly occupied thereby shall no longer be used for the purpose for which the permit was issued, unless a permit for its reconstruction shall have been granted, as provided in section 7 of this ordinance. In case it is thereafter desired to erect a bay window on the said property, the applicant shall comply with all the provisions of this ordinance.

Sec. 458. Permits for the reconstruction of now existing bay windows as defined by this ordinance, and for the reconstruction of all bay windows which shall be hereafter erected under the provisions of this ordinance, shall be issued by the officer having jurisdiction, without the applicant's obtaining the consent of adjoining property owners, as provided in section 453 of this ordinance; provided that the bay window, when reconstructed, shall have no greater projection or width, nor be carried through a greater number of stories, nor cover a greater area, than the window as originally constructed. And, further, provided that no fee shall be charged for the reconstruction of bay windows which have been erected under the provisions of this ordinance, or for which a fee has been paid for the privilege of erecting the same under the provisions of the laws in force at the time of the erection of the said bay window. The restrictions specified under section 455 of this ordinance shall not apply to the reconstruction of now existing bay windows; but permits issued for the reconstruction of now existing bay windows, for which no fee has heretofore been paid, shall be paid for as provided in section 454 of this ordinance.

Sec. 459. Nothing herein contained shall be deemed to conflict with the provisions of the Building Code, and all bay windows for which permits are issued, under the provisions of this ordinance, shall be erected in accordance with all the provisions of said Code in regard to the kind and quality of materials used. No plans for the construction of a bay window as defined in this ordinance shall be approved by the Superintendent of Buildings until the permit is filed, as provided by section 456 of this ordinance.

Sec. 460. All fees received by the Borough Presidents or the Park Commissioners for the issuing of permits for the erection of bay windows shall be accounted for in proper books kept for that purpose, and shall be turned over by them to the City Chamberlain and credited to the General Fund.

Sec. 461. Any person, firm or corporation violating any of the provisions of the preceding nine sections of this ordinance shall be liable to a fine of ten dollars (\$10) for each offense, and one dollar (\$1) for each and every day that such offense shall continue, which shall be duly sued for and collected.

Sec. 462. A permit for the continuance of any now existing bay window which projects beyond the building line may be issued by the officer who, according to section 452 of this ordinance, has jurisdiction over the erection of bay windows at the same place. Application for such permit must be in writing and must be accompanied by a certified copy of the last assessed valuation of the property on which such bay window stands, which appears upon the books of the Department of Taxes and Assessments, and must also be accompanied by a survey showing the dimensions of such bay window and the number of stories through which it is carried. The application shall be accompanied by the amount of the compensation due the City for the privilege of continuing the bay window, calculated in the same manner and at the same rate as are provided in sections 453 and 454 of this ordinance. Permits shall be issued under this section without consent of adjoining property owners. Permits issued under this section shall be subject to all of the provisions of section 457 of this ordinance, in like manner as are permits for the erection of bay windows. Permits issued under this section shall be issued in duplicate, and one of such duplicates shall be filed in the Department of Buildings. All fees received under this section shall be accounted for and paid over as provided in section 460 of this ordinance. Nothing herein contained shall be construed to revoke any permit or authority heretofore lawfully issued or given.

(Ordinance approved January 30, 1903, as amended by ordinance approved June 25, 1903.)

Drop awnings, without vertical supports, may be erected within the stoop lines, but in no case to extend beyond six feet from the house line, and to be at least eight feet in the clear above the sidewalk.

(R. O. 1897, sec. 694, with verbal changes.)

Sec. 685. All the interments in any of the city cemeteries shall be in trenches, to be numbered consecutively, commencing with number one; every such trench shall contain one hundred and fifty bodies and no more, and each coffin shall be numbered by figures to be made of iron or other metal, or branded into the lid or cover of said coffin so as to be indelible, in the following manner, viz.: Each trench shall be constructed running in a direction from east to west; shall be of a size sufficient to contain the said number of one hundred and fifty bodies, which shall be laid therein in the order following, to wit: No. 1 at the northeast corner, No. 2 adjoining, and so on in regular order until No. 25 is deposited, when a layer of earth shall be placed on the twenty-five coffins thus deposited; No. 26 shall then be placed at the southeast corner, directly in the rear and in a line with No. 1, No. 27 adjoining, and so on until No. 50 is interred, which will be directly in the rear and on a straight line with No. 25; then covered with a layer of earth similar to those numbered 1 to 25, thus completing the first stratum of coffins in the trench. At the head of each tier of coffins shall be placed a proper and durable board or stone, with the numbers corresponding with the numbers on such coffins placed therein, with figures made of iron or other durable metal, or branded thereon in such a manner as to be indelible. Each trench, when completed and the number placed at the head of each tier of coffins, shall be inclosed by a substantial fence, leaving a space sufficient to pass between it and the head-boards to admit of the passage of two persons, to afford an opportunity to inspect each head-board to ascertain the numbers thereon. The President laid before the Board the following communication from the Police Department:

No. 30.

Police Department,  
No. 300 Mulberry Street,  
New York, December 30, 1905.

To the Honorable Board of Aldermen:

Gentlemen—The Police Commissioner this day,

Ordered, That the proceedings of June 6, 1904, requesting the Board of Aldermen to authorize the Police Commissioner to accept estimate of Charles H. Peckworth for extra work required in the construction of a station house for the Seventy-first Precinct, in the sum of \$1,432.90, be and is hereby rescinded, it appearing that such amount is less than 5 per cent. of the cost of the erection of such station house, and payment therefore being provided under the conditions of the contract.

Very respectfully,

WM. H. KIPP, Chief Clerk.

Police Department,  
No. 300 Mulberry Street,  
New York, December 30, 1905.

To the Honorable Board of Aldermen:

Gentlemen—The following proceedings were this day directed by Police Commissioner William McAduo:

Whereas, Contract was entered into with Charles H. Peckworth by the Police Commissioner for the Police Department of The City of New York, dated February 4, 1904, for the construction of a station house for the Seventy-first Precinct, for the sum and price of \$81,195, and it appearing from the reports of the architect for the said building (Walter E. Parfitt) that it was necessary to perform additional work on account of the character of the ground where the foundations of said building were to be dug and built, and it also appearing from the estimates received by Mr. Walter E. Parfitt, the architect for the said building, from Charles H. Peckworth, contractor for the erection of same, that the cost of such extra work was \$1,432.90, and that such estimate is not only fair and reasonable, but very low in price for the work performed,

Ordered, That the said Charles H. Peckworth be directed to perform the work;

and Ordered, That vouchers for the said amount of \$1,432.90 be prepared by the Auditor and forwarded to the Comptroller for payment, such amount being less than 5 per cent. of the cost of the erection of said building under such contract and payable from such appropriation as extra work; it is further

Ordered, That vouchers be prepared for the sum of \$71.65 to Walter E. Parfitt as architect's fees, being 5 per cent. of the said amount of \$1,432.90.

Very respectfully,

WM. H. KIPP, Chief Clerk.

Which was ordered on file.

The President laid before the Board the following communication from the President, Borough of Richmond:

No. 31.

The City of New York,  
Office of the President of the Borough of Richmond,  
New Brighton, N. Y., December 28, 1905.

P. J. SCULLY, Esq., Clerk, Board of Aldermen, City Hall, New York, N. Y.:

Dear Sir—As Richmond Borough Hall nears completion, the subject of furniture and furnishings comes up for attention. Of the \$90,000 recently secured for the Borough Hall, a portion thereof is to be used for such furniture and furnishings, which will include desks, tables, chairs, office stools, window screens, water coolers, carpets, mats, window shades, wardrobes, telephone booths, railings, wire screens, mirrors and various other miscellaneous furnishings and fittings.

In furnishing fittings for each of the offices of the building, the requirements of the head of each office will govern the style required to meet the necessities of each particular office or department. As can be imagined, the necessities of each office will vary the kind and style of furnishings and fittings to be used.

It will be seen, therefore, owing to the diversity of the articles needed, how absolutely difficult it will be to draw specifications that will apply to the supplies needed. In this connection, too, the drawing of such specifications and their approval through the various channels of the City will consume at least two or three months. This time, together with the time necessary for the advertising of bids, execution of contracts, registration of contracts, manufacture of the goods and probable delays in their delivery, would mean a further delay of at least six months, making in all at least eight or nine months. We expect now to get into the building about the 1st of April, and it is absolutely necessary, of course, that the offices be furnished and fitted up, ready for use at that time. Such occupancy and use at that time will be absolutely impossible if I am obliged to advertise for the furnishings and fittings.

Owing to the nature of the articles to be purchased, they can be best bought without advertising, because it is impossible, as stated above, to specify most of them satisfactorily, and therefore any competition of prices would to a great extent eliminate the comparison of quality. This would be true, for instance, of all the floor coverings and of much of the furniture. It would be to the advantage of the City, both as to quality and cost, if we can shop for these goods and buy them as the result of personal inspection and personal selection; beside personal selection will make it easier to fill the requirements of the various offices to be fitted.

It is very difficult to state the probable cost of the furnishings and fittings, but it will, beyond any doubt, exceed the sum of \$1,000. I therefore beg to respectfully ask that I be authorized and empowered to purchase without public letting the necessary furnishings and fittings of Richmond Borough Hall at an amount which will exceed \$1,000, but not exceeding the sum of \$30,000.

Very truly,

GEORGE CROMWELL, President of the Borough.

Which was referred to the Committee on Public Letting, when appointed.

The President laid before the Board the following communication from the District Attorney of Richmond:

No. 32.

District Attorney's Office of Richmond County,  
New Brighton, N. Y., January 2, 1906.

The Board of Aldermen of The City of New York, New York City, New York:

Gentlemen—I hereby request the adoption by your Board of the proper resolution or ordinance, authorizing the appointment by me of an Assistant District Attorney for the County of Richmond.

This request is made because there is not at present anyone authorized to act for me in case of sickness, or in case two Courts happen to be in session at the same time at which the District Attorney is required to be present. The latter frequently happens, and embarrasses the Court as well as this office, in the performance of duty.

Under section 202 of the County Law, and the Greater New York Charter, authority is vested in your Board to grant this request, and I respectfully ask that it be done at your earliest convenience.

Yours very truly,

JOHN J. KENNEY, District Attorney, Richmond County.

Which was referred to the Committee on Salaries and Offices when appointed.

The President laid before the Board the following communication from the President, Borough of The Bronx:

No. 33.

The City of New York,  
Office of the President of the Borough of The Bronx,  
Municipal Building, Crotona Park,  
January 3, 1906.

Hon. PATRICK F. MCGOWAN, President of the Board of Aldermen, The City of New York:

Dear Sir—I transmit herewith resolution in duplicate, providing that contractors constructing vaults in front of any municipal or public building in the Borough of The Bronx shall be exempt from paying the usual fee for vaults, and would respectfully

recommend that the same be placed before the Board of Aldermen at the earliest possible date.

Yours truly,

LOUIS F. HAFFEN, President of the Borough of The Bronx.

Resolved, That all contractors constructing vaults in front of any municipal or public building in the Borough of The Bronx shall be exempt from paying the usual fee for said vaults by the President of said Borough, or the Commissioner of Public Works of same, except a nominal charge of — per square foot (superficial measurement) for each such municipal or public building owned by The City of New York, providing, however, that this resolution shall not affect any existing contract.

Which was referred to the Committee on Laws and Legislation when appointed.

The President laid before the Board the following communications from the Board of Estimate and Apportionment transmitting resolutions:

No. 34.

Board of Estimate and Apportionment,  
(Financial Branch), No. 280 Broadway,  
January 9, 1906.

Hon. PATRICK F. MCGOWAN, President, Board of Aldermen:

Dear Sir—I send you herewith certified copy of resolution adopted by the Board of Estimate and Apportionment November 10, 1905, authorizing the Police Department to expend \$9,258.74 for the building of the Thirty-sixth, Thirty-ninth and Forty-first Precinct station houses out of the appropriation for the construction of the Fortieth Precinct station house, being in addition to the amount heretofore authorized for the former purposes, together with copy of a communication from the Police Department relative thereto.

I also inclose form of resolution for adoption by the Board of Aldermen to indicate its concurrence therein.

Very truly yours,

JOSEPH HAAG, Secretary.

Police Department,  
No. 300 Mulberry Street,  
New York, October 23, 1905.

Hon. EDWARD M. GROUT, Comptroller:

Sir—The following proceeding was this day directed by Police Commissioner William McAduo:

Whereas, Appropriation was made to the Police Department by the issue of Corporate Stock for the construction of the Fortieth Precinct station house; and

Whereas, There is an unexpended balance in such appropriation of \$9,258.74, which is in excess of the amount required for the purposes and objects thereof; and

Whereas, The appropriation by the issue of Corporate Stock for the construction of the Thirty-sixth, Thirty-ninth and Forty-first Precincts station houses is insufficient for the purposes and objects thereof,

Ordered, That the Board of Aldermen and the Board of Estimate and Apportionment be and are hereby respectfully requested to authorize the transfer of \$9,258.74 from the appropriation for the construction of the Fortieth Precinct station house to the appropriation for the construction of the Thirty-sixth, Thirty-ninth and Forty-first Precincts station houses.

Very respectfully,

WM. H. KIPP, Chief Clerk.

Resolved, That the Board of Aldermen hereby approves of and concurs in the following resolution adopted by the Board of Estimate and Apportionment November 10, 1905:

Hon. JAMES W. STEVENSON, Secretary, Board of Estimate and Apportionment,  
No. 280 Broadway, New York City:

Sir—On December 18, 1905, the Board of Estimate and Apportionment passed a resolution authorizing the Comptroller to acquire by private purchase a certain tract of land on East Twenty-sixth street, south of Bellevue Hospital, at a cost not to exceed two hundred and forty-four thousand dollars (\$244,000), but no provision was made for the issue of Corporate Stock.

I therefore respectfully request that the Board authorize the issue of Corporate Stock to the amount of two hundred and forty-four thousand dollars (\$244,000), to provide for the purchase of the said land.

Respectfully,

(Signed) JOHN W. BRANNAN, President, Board of Trustees.

AN ORDINANCE providing for an issue of Corporate Stock in the sum of two hundred and forty-four thousand dollars (\$244,000), to provide means for the payment of expenses in connection with the acquisition of land and the erection of buildings thereon for the Bellevue Hospital Training School for Women Nurses.

Be it Ordained by the Board of Aldermen of The City of New York as follows:

Section 1. The Board of Aldermen hereby approves of and concurs in the following resolution adopted by the Board of Estimate and Apportionment December 29, 1905, and authorizes the Comptroller to issue Corporate Stock of The City of New York to the amount and for the purposes therein specified:

Hon. PATRICK F. MCGOWAN, President, Board of Aldermen:

Dear Sir—I send you herewith certified copy of a resolution adopted by the Board of Estimate and Apportionment December 5, 1905, authorizing the issue of \$500,000 Corporate Stock for the purpose of providing means for the erection of a new municipal building for the Borough of Brooklyn; together with copy of report of the Engineer, Department of Finance, relative thereto.

I also inclose form of ordinance for adoption by the Board of Aldermen to indicate its concurrence therein.

Very truly yours,

JOSEPH HAAG, Secretary.

City of New York—Department of Finance,  
Comptroller's Office,  
November 24, 1905.

Hon. EDWARD M. GROUT, Comptroller:

Sir—Hon. Martin W. Littleton, President of the Borough of Brooklyn, in communication under date of October 31, 1905, requests the Board of Estimate and Apportionment to authorize the issue of Corporate Stock to the amount of \$3,000,000, for the purpose of providing means to erect a "municipal building" in the Borough of Brooklyn; the President also asks that proceedings be instituted at once looking to the acquisition of the Polytechnic property and a fringe of buildings on Court street, between Joralemon and Livingston streets. I would report:

The site upon which the proposed building is to be erected is on Court street, south of the present Borough Hall, between Joralemon and Livingston streets; the dimensions of the plot are approximately as follows: Three hundred and ten feet on Joralemon street, 306 feet on Court street and 309 feet on Livingston street. A space averaging 24 feet in width is left between the County Court House and the proposed new building. On Livingston street the building is placed four feet back from the building line, except at the corners, which come out to the building line; on the other streets the building follows the building line.

The proposed building, designed by McKim, Mead & White, consists of a basement, three principal stories and an attic story, and the heights from floor to floor are as follows: Basement, 14 feet; first floor, 18 feet; second floor, 16 feet; third floor, 16 feet, and attic, 10 feet in the clear. The court rooms extend through two stories and thus have a clear height of 30 feet.

In the basement are located the heating and ventilating plant, power and electric light plants, elevator machinery, coal storage, lavatories, storerooms, vaults, cells for prisoners, the License Bureau and a part of the Police Department.

On the first floor are located the offices of the Receiver of Taxes, the Registrar of Arrears, the Registrar of Water Rates, Department of Taxes and Assessments, Janitor's office, the remaining rooms the offices of the Police Department.

On the second story are the Department of Water Supply, Gas and Electricity, Bureau of Highways, Topographical Bureau and map room, Bureau of Sewers, Department of Street Cleaning and Tenement House Department.

The third story contains one court room, Civil Branch; court room, Criminal Branch; County Court, Naturalization Bureau; Court of Special Sessions; First District Municipal Court; Coroners' Court and offices; District Attorney's office; Grand Jury rooms, all with the necessary rooms for Judges, juries, Clerks, lavatories, etc., and Bureau of Buildings.

The attic or fourth floor is occupied by a portion of the Bureau of Buildings, and contains all rooms for photographing, blue printing, etc.

The room area of the building is divided as follows:

	Square Feet.
Basement .....	60,480
First floor .....	55,860
Second floor .....	41,483

Third floor .....	41,483
Attic .....	24,100
Total .....	223,406

For the exterior, the materials proposed are a granite base course and steps, with Kentucky limestone above on the three street fronts; the fourth side will be of brick with cement coating.

The roof is intended to be covered with Akron roofing tile on the flat portions, and with copper on the slopes. The construction is to be thoroughly fireproof in accordance with the best modern methods.

For the interior finish, it is proposed to use hardwood floors throughout the offices, terrazzo or composition floors in all public spaces, corridors, etc., except the main hall of the principal floor, where marble will be used.

The cabinet trim throughout is to be of quartered American oak, and all of the more important rooms, such as court rooms, offices of the heads of the various Departments, etc., to have an oak wainscoting.

The walls of the entrance vestibules are to be faced with Kentucky limestone like the exterior. The principal corridors up to and including the court-room floor are to have a wainscoting of marble. Wherever terrazzo or composition of marble floors are used, a marble base is also proposed; elsewhere the base will be of oak.

All walls and ceilings are to be plastered, the offices having a simple coved cornice and public spaces, halls, etc., moulded cornices in plaster. All toilet rooms and lavatories to have tiled floors and tiled wainscoting six feet high. All public stairways to be of iron with marble treads.

The architect's estimate of \$3,000,000 is based upon the cubical contents of the building, namely, 6,589,000 cubic feet, at 50 cents per cubic foot, equals \$3,294,500. This form of estimating is not very reliable, but for an appropriation, I think it can be taken as an approximate cost of the building.

The plans prepared by McKim, Mead & White, the architects directed by the Hon. Martin W. Littleton, President of the Borough of Brooklyn, to prepare preliminary elevations, cross-sections, etc., show a stately structure. The arrangements of the different Departments have been worked out with good results, and I consider the building well adapted for the purposes for which it is designed. I would, however, suggest that the building line on Court street be moved about 15 feet easterly, in order to allow for the widening of Court street at this point.

The proposed site includes the plot occupied by the present "Municipal Building," Municipal Park on Joralemon street, Brooklyn Collegiate Polytechnic and a narrow strip on Court street, occupied by a number of small buildings. The land and buildings not owned by the City will cost between \$650,000 and \$750,000.

In connection with the "Municipal Building" proposed by President Littleton, I think it well that the Board should be reminded of a "Municipal Building" proposed by J. Edward Swanstrom, President of the Borough of Brooklyn, in communication addressed to the Board of Estimate and Apportionment, under date of November 30, 1903. The site of this building includes the site of the present "Municipal Building" on Joralemon street, which is to be taken down, the park adjacent thereto and a small strip on Court street, which is not owned by the City. This building was to have a frontage of 266 feet on Joralemon street and 160 feet on Court street, and was to be eight (8) stories high.

During the spring of 1903, President Swanstrom requested Despradelle, an architect of Boston, Mass., to prepare a programme in order that the architects might compete for the design and plans of a "Municipal Building" in the Borough of Brooklyn, and upon the recommendation contained in the report of Despradelle, under date of November 7, 1903, the President of the Borough of Brooklyn accepted the plans of Washington Hull, and on November 30, 1903, President Swanstrom requested the Board of Estimate and Apportionment to authorize an issue of Corporate Stock to the amount of \$1,500,000, to provide for the construction of this building; nothing was done by the Board in relation to this report.

I would note that at meeting of the Municipal Art Commission, held on November 28, 1903, all the plans of Washington Hull were approved, except the Joralemon street facade. After certain modifications by the architect (Washington Hull), the preliminary sketches for the Joralemon street facade were approved by the Commission on February 9, 1904.

The two designs are not comparable; the relative sizes of the two plots are so different that a fair comparison of the two designs, in my opinion, is impossible. It must be admitted by all that the interior arrangements and heights of ceiling of a building upon a larger plot can be worked out with far better results than upon a plot one-half the size. The larger area permits of placing on the same floor all offices that necessarily have business with each other, also permitting of the arrangement and of placing of all the offices that the public come in direct contact with on the first floor; for example, Taxes and Assessments, Receiver of Taxes, Registrar of Arrears, Registrar of Water Rates; by this arrangement, the public can obtain and pay their bill for assessments, water taxes, etc., without going from one floor to the other.

For comparison as to the relative cost and floor area of the respective schemes, I submit the following. The estimates of the cost of each building I figured upon the same basis, that is, 50 cents per cubic foot:

Large Low Building, Four Stories, Designed by McKim, Mead & White (Floor Area 233,000 Square Feet).	
Cost of building, 6,589,000 cubic feet, at 50 cents per cubic foot.....	\$3,294,500 00
Architects' fees .....	164,725 00
Surveys .....	450 00
Inspection by City .....	5,000 00
Cost of additional land .....	700,000 00
Total.....	\$4,164,675 00

High Building, Eight (8) Stories, Designed by Washington Hull (Floor Area 200,000 Square Feet).	
Cost of building, 4,056,225 cubic feet, at 50 cents per cubic foot.....	\$2,028,112 00
Architects' fees .....	101,406 00
Surveys .....	450 00
Inspection by City .....	4,500 00
Cost of additional land .....	50,000 00
Total.....	\$2,184,468 00

As noted above, the more expensive proposition covering the entire plot on the easterly side of Court street, between Joralemon and Livingston streets, extending back to the Court-house, I consider by far the better and more economical in the end, and in my opinion the needs and requirements of the Borough of Brooklyn warrant the larger expenditure.

While this to me seems evident, at the same time a step in the direction of obtaining a suitable "Municipal Building" for one of the boroughs of The City of New York is a matter of such decided importance that a decision relative thereto should not be arrived at until after a most careful consideration, and, in my judgment, no definite action should be taken by the Board of Estimate and Apportionment until the Municipal Art Commission have been given an opportunity to consider the matter and express its opinion upon the proposition.

Respectfully,

CHANDLER WITHINGTON, Principal Assistant Engineer.

Dear Sir—I send you herewith certified copy of a resolution adopted by the Board of Estimate and Apportionment December 8, 1905, approving of the issue of Corporate Stock of The City of New York to the amount of \$115,000 for the purpose of providing means for the construction of a bridge to carry Jerome avenue over the Moshulu parkway drive and approaches, in the Borough of The Bronx, together with copy of a report from the Engineer of the Department of Finance relative thereto.

Hon. EDWARD M. GROUT, Comptroller:

Sir—In reference to the accompanying communication of Hon. Louis F. Haffen, President of the Borough of The Bronx, addressed to the Hon. George B. McClellan, Mayor, requesting the Board of Estimate and Apportionment to appropriate \$115,000 to defray the expenses of constructing a bridge to carry Jerome avenue over Moshulu parkway drive and approaches, I beg to submit the following report:

The proposed improvement is to be located at the intersection of Jerome avenue with Moshulu parkway, in the Borough of The Bronx, and is for the purpose of avoiding a grade crossing at this point, the idea being to carry the traffic on Jerome avenue, including the surface railroads, by means of a bridge over the parkway.

Accompanying the Borough President's letter is a communication from Mr. Josiah A. Briggs, Chief Engineer of the Borough of The Bronx, giving the quantities of work to be done, in order to carry out the proposed plan, and an estimate of the cost of the same based upon prevailing prices, including engineering, inspection and contingencies. Accompanying this communication is a plan showing the general scheme, but no detailed design for the bridge has, as yet, been prepared.

It undoubtedly is desirable to avoid grade crossings of this character, as the driveway and avenue cross at right angles, and the crossing at grade would be attended with both danger and inconvenience, and the more so as commercial and other traffic increases at this point.

I am of the opinion that the general scheme is a desirable one, and the amount requested for the purpose of carrying it out not excessive. I would therefore recommend that, if the financial condition of the City permits, the Board of Estimate and Apportionment authorize the Comptroller, pursuant to section 47 of the Greater New York Charter, as amended by chapter 409 of the Laws of 1904, to issue Corporate Stock to the amount of one hundred and fifteen thousand dollars (\$115,000), for the construction of a bridge to carry Jerome avenue over the Moshulu parkway drive and approaches, in the Borough of The Bronx.

Respectfully,

MERRITT H. SMITH, Principal Assistant Engineer.

REPORT NO. 3421.

BOARD OF ESTIMATE AND APPORTIONMENT,  
OFFICE OF THE CHIEF ENGINEER,  
December 5, 1905.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir—At the meeting of the Board of Estimate and Apportionment held on November 24, 1905, the Commissioner of Bridges submitted with the accompanying communication, dated November 13, 1905, general plans for the proposed Hudson Memorial Bridge over the Harlem river at Spuyten Duyvil Heights.

The project of building such a bridge was brought to the attention of the Board of Estimate and Apportionment on May 13, 1904, when a communication was submitted from the Hudson Tri-Centennial Association, through Mr. T. P. Fowler, its president, urging that the three hundredth anniversary of the discovery of the Hudson river, which will occur on September 12, 1909, be properly commemorated, and suggesting as a proper means of doing so the dedication on that date of a monumental bridge across Spuyten Duyvil creek, connecting Inwood Heights, in the Borough of Manhattan, with Spuyten Duyvil Heights, in the Borough of The Bronx. The communication was referred to the President of the Borough of Manhattan and the Engineer of the Board, and a report was submitted by them under date of June 24, 1904. As a result of the recommendations contained in this report, the Board authorized an issue of Corporate Stock in the sum of ten thousand dollars to provide for preliminary surveys, borings and plans. The Department of Bridges was subsequently authorized to retain the services of Messrs. Boller & Hodge, consulting engineers, to prepare plans for such a

structure, and these plans the Commissioner of Bridges has submitted with his communication now under consideration.

The plans are accompanied by a diagram showing the proposed location of the bridge, this location having been determined upon as the most feasible one after careful surveys and borings to determine the character of the foundation. Its axis will be nearly parallel with the shore line of the Hudson river, and it will admirably fit the topography of the hills on either side of the Harlem river. The plans provide for a steel arch, with a span of eight hundred feet, this length of span being deemed advisable to secure solid rock foundations and avoid the difficulties and uncertainties of deep foundations constructed by the use of pneumatic caissons. The approaches to the main arch are by a series of masonry arches of dignified and imposing design. The plans provide for a bridge 100 feet in width, while the present Washington Bridge has a width of but 80 feet. The estimate of cost is as follows:

If built with granite facings, parapet walls and coping.....	\$2,925,000 00
If built of concrete, with granite coping and parapet walls.....	2,450,000 00

I have requested of the Engineers who prepared the designs an estimate of the saving which would be effected in reducing the width of the bridge from 100 to 80 feet, and they advise me that the estimated difference is \$236,000, of which the

Saving in steel would be.....	\$99,000 00
In masonry .....	80,700 00
In roadway paving.....	27,000 00

The difference is relatively slight, as the expensive work will all be retained, and only the filling between the faces will be diminished.

I cannot but believe that a width of 80 feet would be sufficient for this structure, allowing a roadway of 50 feet and two sidewalks of 15 feet each. This roadway would be greater than that of either the proposed Manhattan Bridge or the Blackwell's Island Bridge. It has been said that the contraction of the roadway on a structure of this size and importance would create an unpleasant impression, but a glance at the diagram accompanying the communication will make it apparent that these approaches are all curved roadways with an open space at each end of the bridge, so that no contraction of the driveways need be apparent.

The consideration which should be given due weight in determining whether or not this structure should be built are sentiment, the present need of such a connection, the needs of the immediate future, and the desirability of carrying the Riverside drive to the northerly limits of the City.

Centenaries, bi-centenaries and tri-centenaries of important events in the history of this City are occurring with increasing frequency, and it has been thought proper to observe them with appropriate ceremonies. Such an observance of the three hundredth anniversary of the discovery of the Hudson river might certainly be desirable if it took the form of some improvement essential to the proper development of the City.

As to the present need of such a bridge—the Inwood Heights are now practically inaccessible, one narrow and steep road known as the Bolton road, winding from Dyckman street up to the summit occupied by the Episcopal House of Mercy. It is probable that few of the residents of New York City have ever visited these heights, but the situation is a commanding one and the view probably surpasses that from any other point in New York City. The nearest high-level crossing between the two boroughs is that at Washington Bridge on the line of West One Hundred and Eighty-first street, between two and a half and three miles distant, measured along the Harlem river. The opening of the Rapid Transit Railroad has resulted in a phenomenal development of the northerly end of Manhattan Island and of the adjacent sections of The Bronx, and I believe it safe to predict that by the time this bridge would be completed it would be extensively used.

This structure should also be considered in connection with the probable, if not inevitable, extension of the Riverside drive. An extension of this drive from One Hundred and Thirty-fifth street to the Boulevard Lafayette is now being constructed. The Boulevard Lafayette, the name of which has recently been changed to Riverside drive, furnishes a further extension to Dyckman street, from which the only means of reaching Spuyten Duyvil parkway or the extensive park system of the Borough of The Bronx is by way of Broadway and the bridge across the Harlem River Ship Canal on the line of that street, which bridge is a low-level bridge to be occupied by surface railroad tracks, with a second story accommodating the Rapid Transit Railroad. Broadway will doubtless be taxed to its full capacity by trucking and heavy teaming of all kinds, so that within a short time the demand for an extension of the Riverside drive along or over the Inwood Heights and across the Harlem river to Spuyten Duyvil will be irresistible.

It seems clear, therefore, that this proposed viaduct is one which must be built to build a proper road along the Inwood hill from the end of the bridge to Dyckman can be completed in time for the Three Hundredth Anniversary of the event which it is designed to commemorate.

The bridge itself will be of no use without proper connections. These are practically already established in the Borough of The Bronx, but in Manhattan it will be necessary to build a proper road along the Inwood Hill from the end of the bridge to Dyckman street, a distance of about 340 feet. It is proposed to place the roadway of this bridge at an elevation of 175 feet above mean high water, which would be about 30 feet higher than that of the Washington Bridge, but it will be possible to reach this elevation by a road the grade of which will not exceed 5 per cent.

The Inwood hill is at present occupied by a few houses which are almost inaccessible. Owing to the precipitous sides of this hill it does not seem possible to lay out a street system which will permit of the utilization of the property for residences or for any purposes unless it be divided into large plots to be occupied by public or semi-public institutions. The value of the land is not, therefore, great at the present time, and it is in my judgment to be regretted that this entire hill was not purchased by the City at the time when the large parks in the Borough of The Bronx were secured and set aside for park purposes. The City will probably secure it and devote it to such purposes at some future time, if not at present, and I would suggest that serious consideration be given to the idea of buying it before its values are seriously affected by the building up of the adjacent territory, a substantial increase of these values being inevitable.

If the Board decides to authorize the construction of this viaduct, it will be necessary to provide a certain sum of money at once in order that a beginning may be made. The engineers who prepared the design estimate the cost of the steel structure at \$800,000, the remainder being for foundations and masonry. Foundations for the abutments could be put in at once, and I believe that if the Board of Estimate and Apportionment were to authorize an issue of Corporate Stock in the sum of \$1,000,000 it would provide all the funds which would be needed for the coming year.

As to the use of granite facing, I believe that while concrete would doubtless answer the purpose, this structure would be so monumental in character, forming as it will a conspicuous feature of what will doubtless be the greatest driveway in the world, that it would be wise to use granite facings in accordance with the first estimate of the engineers.

I believe, however, that there is no necessity of making the bridge more than eighty feet in width, and would recommend the approval of the plans on this basis.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

BOARD OF EDUCATION,  
PARK AVENUE AND FIFTY-NINTH STREET,  
NEW YORK, November 13, 1905.

Hon. GEORGE B. McCLELLAN, Mayor of The City of New York:

DEAR SIR—Permit me to submit to you the following brief summary of the financial status of the Board of Education, as far as Corporate Stock is concerned, for the erection of buildings and the acquisition of sites:

On the 6th of November this year the balance available to the credit of the Building Committee was ..... \$34,362 73  
On September 29 the Board of Estimate and Apportionment authorized the issue of Corporate Stock to the amount of ..... 3,000,000 00  
—which became available through the approval of the Board of Aldermen on October 24.

Total ..... \$3,034,362 73  
Contracts were let on November 6 amounting to ..... 341,646 53  
Leaving a balance of ..... \$2,692,716 20

The Building Bureau have plans and specifications in an advanced stage of preparation so that the contracts can be let before January 1, 1906, for the following work:

#### BOROUGH OF MANHATTAN.

Addition to Public School 135, First avenue and Fifty-first street.  
Addition to Public School 68, No. 116 West One Hundred and Twenty-eighth street.  
Addition to Public School 32, No. 357 West Thirty-fifth street.  
Addition to Public School 121, No. 227 East One Hundred and Second street.  
Addition to Public School 27, No. 206 East Forty-second street.  
Addition to Public School 172, One Hundred and Ninth street, east of Second avenue.  
Hall of the Board of Education, Fifty-ninth street and Park avenue.  
Estimated value of the above work ..... \$605,000 00

#### BOROUGH OF THE BRONX.

Addition to Public School 54, Amethyst avenue, Van Nest.  
Estimated value ..... 115,000 00

#### BOROUGH OF BROOKLYN.

Addition to Public School 24, Arion place and Beaver street.  
Addition to Public School 8, Hicks and Middagh streets.  
Addition to Public School 30, Wolcott street.  
Addition to Public School 114, Canarsie.  
Addition to Public School 83, Bergen street and Schenectady avenue.  
Addition to Public School 150, Sixth avenue and Fiftieth street.  
Estimated value ..... 1,024,200 00

#### BOROUGH OF QUEENS.

Public School 25, Jamaica avenue, Flushing.  
Public School 66, Union place, Brooklyn Hills.  
Public School 85, De Bevoise avenue, Long Island City.  
Estimated value ..... 596,000 00

Total ..... \$2,340,200 00

In addition to the above we will need for equipment of schools, contracts for the general construction of which have been let:

Borough of Manhattan ..... \$390,925 00  
Borough of The Bronx ..... 50,000 00  
Borough of Brooklyn ..... 166,800 00  
Borough of Queens ..... 50,450 00  
Borough of Richmond ..... 25,000 00  
683,175 00

Total ..... \$3,023,375 00

The deficit therefore on January 1, 1906, will be about ..... \$330,659 00

Or, in other words, operations in the letting of contracts must cease prior to that date unless more funds are made available.

In addition to the above the Sites Committee is in an equal if not worse condition.

On October 11 the balance available for the Committee on Sites was ..... \$3,394,721 63

All this amount is at least mortgaged by the sites selected and approved by the Board of Education and now either in the hands of the Comptroller or the Corporation Counsel, and I am very much afraid that the figures which will ultimately cover the cost to the City of school property as above referred to will, by far, exceed the above-mentioned amount.

Therefore, it appears to me absolutely necessary that some additional funds should be turned over to the Committee on Sites, so that they will be in a position to acquire more sites in the congested districts.

All of which is respectfully submitted.

Yours respectfully,  
RICHARD H. ADAMS,  
Chairman, Committee on Buildings.

CITY OF NEW YORK—DEPARTMENT OF FINANCE,  
COMPTROLLER'S OFFICE,  
December 6, 1905.

Hon. EDWARD M. GROUT, Comptroller:

I would report:

For your information, I give a statement of the School Building Fund, etc., for the year 1905, as furnished by the Board of Education:

January 5, 1905—Balance ..... \$4,990,648 29

Mr. Snyder, Superintendent of School Buildings, informs me that he has the following improvements under way:

New buildings and additions ..... \$2,340,200 00  
Equipment ..... 683,175 00

Total ..... \$3,023,375 00  
Estimated cost of sites decided upon by the Committee on Sites ..... 2,100,000 00

Total required for all purposes ..... \$5,123,375 00  
Available balance ..... 2,532,249 53

Deficit ..... \$2,591,175 47

In view of the large deficit of \$2,591,175.47 shown by the Board of Education, if the financial condition of the City warrants the expenditure, I think, the Board of Estimate and Apportionment may properly authorize a substantial appropriation to provide means for constructing, improving, permanently bettering and equipping public school buildings and additions thereto and the acquisition of sites therefor, in The City of New York.

Respectfully,  
CHANDLER WITHINGTON,  
Principal Assistant Engineer.

AN ORDINANCE providing for an issue of Corporate Stock in the sum of three million dollars (\$3,000,000) for the purpose of providing means for the construction, permanently bettering and equipping of school buildings and additions thereto and the acquisition of sites therefor in The City of New York.

Be it Ordained by the Board of Aldermen of The City of New York as follows: Section 1. Hon. PATRICK F. McGOWAN, President, Board of Aldermen:

Dear Sir—I send you herewith certified copy of a resolution adopted by the Board of Estimate and Apportionment November 24, 1905, authorizing the issue of \$10,000 Corporate Stock, in addition to the amount heretofore authorized, to provide means for the acquisition of land and the construction of a municipal electric lighting plant for The City of New York, together with copy of a communication from the Chief Engineer, Board of Estimate and Apportionment, relative thereto.

I also inclose form of ordinance for adoption by the Board of Aldermen to indicate its concurrence therein.

Yours very truly,  
JOSEPH HAAG, Secretary.

Board of Estimate and Apportionment—The City of New York,  
November 21, 1905.

Hon. GEORGE B. McCLELLAN, Mayor of The City of New York:

Sir—The Commission which is preparing plans and estimates for electric lighting plants for the different boroughs has endeavored to secure a proper site for the Borough of Richmond, and of those which it has considered the most desirable appears to be one at the foot of Elm street, at Port Richmond. The owner of this property has submitted alternative propositions, one for the sale of the water front property, including land under water and an excellent dock at which vessels of deep draught could lie, together with a strip twenty feet in width by which access could be had from Richmond terrace, but reserving to himself the property fronting on the last named street, on which he now lives. The price for this is \$32,000. His alternative proposition is to sell the entire plot, including his home, for \$55,000.

It seems to the Commission that this is an exceedingly favorable offer, and that the City could undoubtedly make very profitable use of the area not needed for the lighting plant. It has been recommended to the Comptroller that options be secured covering both of these propositions. If the recommendation that the entire plot be acquired is approved, it will be necessary to provide about \$10,000 in addition to the money now available, there being a balance of the former bond issue of some \$48,000. If the recommendation that the entire plot be bought meets with your approval, I would suggest that a resolution be adopted at the next meeting of the Board of Estimate and Apportionment providing for an issue of Corporate Stock in the sum of \$10,000 to meet the expense of securing this site.

It may be proper for me to state that the Appraiser of Real Estate of the Department of Finance assures me that the City could undoubtedly dispose of the site already purchased for the plant for the boroughs of Brooklyn and Queens at an advance of some \$50,000.

I submit herewith a form of resolution providing for the issue of Corporate Stock should you approve of this action. The resolution is in the same form as that adopted on February 24, 1905, when an issue of \$600,000 was authorized.

Respectfully,  
NELSON P. LEWIS, Chief Engineer.

AN ORDINANCE providing for an issue of Corporate Stock in the sum of ten thousand dollars (\$10,000), in addition to the amount heretofore authorized, to provide means for the acquisition of land and the construction of a municipal electric lighting plant for The City of New York.

Be it Ordained by the Board of Aldermen of The City of New York as follows: Section 1. The Board of Aldermen hereby approves of and concurs in the following resolution adopted by the Board of Estimate and Apportionment November 24, 1905, and authorizes the Comptroller to issue Corporate Stock of The City of New York to the amount and for the purposes therein specified:

"Resolved, That, pursuant to the provisions of section 47 of the Greater New York Charter, as amended, the Board of Estimate and Apportionment hereby approves of the issue of Corporate Stock of The City of New York to an amount not exceeding ten thousand dollars (\$10,000), in addition to the amount heretofore authorized, to provide means for the acquisition of land and the construction of a municipal electric lighting plant for The City of New York, and that when authority therefor shall have been obtained from the Board of Aldermen, the Comptroller is authorized to issue Corporate Stock of The City of New York in the manner provided by section 169 of the Greater New York Charter, to an amount not exceeding ten thousand dollars (\$10,000), the proceeds whereof to be applied to the purposes aforesaid."

(Financial Branch), No. 280 Broadway,  
January 9, 1906.

Hon. PATRICK F. McGOWAN, President, Board of Aldermen:

Dear Sir—I send you herewith certified copy of resolution adopted by the Board of Estimate and Apportionment November 24, 1905, authorizing the issue of Corporate Stock to an amount not exceeding \$175,000, to provide means for the placing of electrical conductors underground in various streets and avenues in the Borough of Brooklyn; together with copies of communication from the Deputy and Acting Commissioner of the Fire Department and report of the Engineer, Department of Finance, relative thereto.

I also inclose form of ordinance for adoption by the Board of Aldermen to indicate its concurrence therein.

Very truly yours,  
JOSEPH HAAG, Secretary.  
City of New York—Department of Finance,  
Comptroller's Office,  
November 17, 1905.

Hon. EDWARD M. GROUT, Comptroller:

Sir—Hon. Thomas W. Churchill, Deputy and Acting Fire Commissioner, in communication under date of November 3, 1905, requests the Board of Estimate and Apportionment, pursuant to section 47 of the Greater New York Charter, as amended by chapter 409 of the Laws of 1904, to authorize the issue of Corporate Stock to an amount not to exceed \$175,000 for the purpose of placing electrical conductors underground in various streets and avenues in the Borough of Brooklyn. I would report:

At meeting of the Board of Estimate and Apportionment held January 29, 1903, a bond issue of \$40,000 was authorized for the purpose of placing wires and conduits for the fire alarm system underground in the Borough of Brooklyn, and at meeting of January 13, 1905, \$100,000 was authorized by the Board for the same purpose, making a total of \$140,000; of this amount there remains an available balance of about \$50,000.

I have been informed by the Fire Department that it would cost about \$225,000 to complete all of the work of placing wires underground within a circle whose radius is from Jay street to Prospect Park.

The additional work proposed I consider necessary and can probably be done within the next year.

Therefore, if the financial condition of the City warrants the expenditure, I think the Board of Estimate and Apportionment may properly authorize the Comptroller to issue Corporate Stock, pursuant to section 47 of the Greater New York Charter, as amended by chapter 409 of the Laws of 1904, to the amount of \$175,000, for the purpose of placing electrical conductors underground in the various streets and avenues in the Borough of Brooklyn.

Respectfully,  
EUG. E. McLEAN, Engineer.

AN ORDINANCE providing for an issue of Corporate Stock in the sum of one hundred and seventy-five thousand dollars (\$175,000) to provide means for the placing of electrical conductors underground in various streets and avenues, in the Borough of Brooklyn.

Be it Ordained by the Board of Aldermen of The City of New York as follows: Section 1. The Board of Aldermen hereby approves of and concurs in the following resolution adopted by the Board of Estimate and Apportionment November 24, 1905, and authorizes the Comptroller to issue Corporate Stock of The City of New York to the amount and for the purposes therein specified:

"Resolved, That, pursuant to the provisions of section 47 of the Greater New York Charter, as amended, the Board of Estimate and Apportionment hereby approves of the issue of Corporate Stock of The City of New York, to an amount not exceeding one hundred and seventy-five thousand dollars (\$175,000), for the purpose of placing electrical conductors underground in the various streets and avenues, in the Borough of Brooklyn, and that when authority therefor shall have been obtained from the Board of Aldermen, the Comptroller is authorized to issue Corporate Stock of The City of New York, in the manner provided by section 169 of the Greater New York Charter, to an amount not exceeding one hundred and seventy-five thousand dollars (\$175,000), the proceeds whereof to be applied to the purposes aforesaid."

No. 44.  
Board of Estimate and Apportionment,  
(Financial Branch), No. 280 Broadway,  
January 9, 1906.

Hon. PATRICK F. McGOWAN, President, Board of Aldermen:

Dear Sir—I send you herewith certified copy of a resolution adopted by the Board of Estimate and Apportionment June 23, 1905, approving of the issue of Corporate

Stock in the sum of \$5,640,000, to provide means for the improvement of the water supply system of The City of New York, as set forth in section 178 of the Charter, together with copy of report of the Engineer of the Department of Finance relative thereto.

I also inclose form of ordinance for adoption by the Board of Aldermen to indicate its concurrence therein.

Yours very truly,  
JOSEPH HAAG, Secretary.  
City of New York—Department of Finance,  
Comptroller's Office,  
June 2, 1905.

Hon. EDWARD M. GROUT, Comptroller:

Sir—Hon. John T. Oakley, Commissioner, Department of Water Supply, Gas and Electricity, in communication under date of May 16, 1905, transmits to the Board of Estimate and Apportionment report from the office of the Chief Engineer of the Department, showing the estimate of money required to carry out the improvements to the water supply system in the Greater City.

The Commissioner states that the proposed work affecting each borough is as follows:

Manhattan and The Bronx.....	\$3,665,000 00
Queens .....	230,000 00
Richmond .....	151,000 00
Brooklyn .....	5,090,000 00
Total .....	\$9,136,000 00

The Commissioner also requests the Board to authorize the issue of bonds to the amount of \$9,136,000, to provide means to carry out the improvements as noted in the Chief Engineer's report.

I would report:

First—Borough of Manhattan and The Bronx..... \$3,665,000 00

For convenience, I will eliminate some of the detailed items as shown in the Chief Engineer's report and divide the application into the following heads:

(a) One Hundred and Seventy-ninth Street Pumping Station—Enlarging and repairing certain appliances.....	\$255,000 00
(b) High Bridge Station—New boilers and engines, laying new mains in connection with enlarged pumping station.....	175,000 00
(c) 36-inch main from One Hundred and Seventy-ninth Street Pumping Station to Eighty-sixth street, Central Park.....	175,000 00
(d) Jerome Park Reservoir—New mains in order to use the reservoir when complete, one section could probably be used within a year .....	2,285,310 00
(e) 48-inch main from Old Reservoir, Central Park, to Eighth avenue, south to West Tenth street.....	350,000 00
(f) Mains for local distribution.....	364,690 00
(g) Bronx, Byran Water Shed.....	60,000 00
Total .....	\$3,665,000 00

From a careful examination of these items, in consultation with the Chief Engineer and Consulting Engineer Birdsall, I am led to believe that all of these items are necessary and eventually will have to be done, in order to provide an adequate water supply; but I do not think that all the work can be contracted for within a year, and would suggest the following allowances, which, in my opinion, are urgent and should be started as soon as possible, viz.:

One Hundred and Seventy-ninth Street Pumping Station—Enlarging and repairing certain appliances.....	\$200,000 00
Jerome Park Reservoir—New mains, etc., in order to use the reservoir when completed.....	1,400,000 00
48-inch main from Old Reservoir, Central Park, to Eighth avenue, and on Eighth avenue south to Tenth street.....	350,000 00
Mains for local distribution.....	200,000 00
Total .....	\$2,150,000 00

Second—Borough of Queens..... \$230,000 00

Engineer's Estimate:

Extension of water mains, Third Ward.....	\$118,316 00
Extension of water mains, First Ward.....	111,684 00
Total .....	\$230,000 00

In the Engineer's estimate the number of houses on the proposed lines are given. While all lines may eventually be required, in my opinion, I think it will be sufficient at present to lay mains in streets, avenues and roads that have ten or more houses upon them. To provide for the laying of these mains, according to the Engineer's estimate, it would cost about \$100,000. I would recommend that this allowance be made.

Third—Borough of Richmond..... \$151,000 00

Engineer's estimate for additional water supply (City's plant) at Tottenville:

(a) New wells and an air-lift system complete, including all necessary air and water piping, air receiver and air compressor.....	\$20,000 00
(b) Two new pumping engines (low duty, triple type), each 1,500,000 gallons capacity .....	10,000 00
(c) Two new boilers, piping, etc.....	6,000 00
(d) New engine house.....	12,000 00
(e) Drain through grounds.....	3,000 00
(f) Water mains .....	100,000 00
Total.....	\$151,000 00

In view of the contract authorized by the Board of Estimate and Apportionment to purchase water from the Hudson County Water Company of New Jersey to supply the Borough of Richmond with filtered water, and the authorization by the Board of \$1,500,000 to provide for the laying of mains upon the island, I would recommend that no action be taken upon the application at present.

Fourth—Borough of Brooklyn..... \$5,090,000 00

The Chief Engineer in his report says:

"After making due allowance for the appropriation granted in 1904, the following is an estimate of the work to be done and the probable cost of the same:"

1. New conduit from Massapequa to Ridgewood reservoir.....	\$2,750,000 00
2. Remodeling Ridgewood engine house.....	650,000 00
3. Extension of distribution.....	200,000 00
4. A driven-well plant within the borough limits, including a connecting main with the distribution system.....	275,000 00
5. Watts Pond infiltration gallery.....	100,000 00
6. Infiltration gallery at Oconee.....	200,000 00
7. Removing and relaying small tuberculated mains.....	200,000 00
8. Boundary trunk mains for the Mount Prospect system.....	170,000 00
9. Trunk mains through the old Long Island water supply system in the Twenty-sixth Ward.....	70,000 00
10. Additional hydrants on existing large mains.....	50,000 00
11. Filter beds for Valley Stream.....	75,000 00
12. Filter beds for Shodack brook and Pines pond.....	50,000 00
13. Land on the watershed for protection from pollution.....	200,000 00
14. Coal sheds for the Millburn pumping station.....	100,000 00
Total estimated cost.....	\$5,090,000 00

I have taken up these items with the Chief Engineer and concur in his report that all of this work is necessary to provide for safely maintaining the water supply in an efficient and economical manner; but, in my opinion, a portion of the work may be deferred for an appropriation in 1906, and I would recommend the following be allowed at present:

New conduit from Massapequa to Ridgewood reservoir.....	\$1,500,000 00
Remodeling Ridgewood engine house.....	650,000 00
Extension of distribution.....	200,000 00
A driven-well plant within the borough limits, including a connecting main with distribution system.....	275,000 00
Infiltration gallery at Ozone.....	200,000 00
Removing and relaying small tuberculated mains.....	100,000 00
Boundary trunk mains for the Mount Prospect system.....	170,000 00
Trunk mains through old Long Island water supply system in the Twenty-sixth Ward.....	70,000 00
Additional hydrants on existing large mains.....	50,000 00
Filter beds for Valley Stream.....	75,000 00
Land on the watershed for protection from pollution.....	100,000 00
Total.....	\$3,390,000 00

In conclusion, if the financial condition of the City warrants the expenditure, I would recommend that the Board of Estimate and Apportionment authorize the Comptroller to issue Corporate Stock, pursuant to section 178 of the amended Greater New York Charter, to the amount of five million six hundred and forty thousand dollars (\$5,640,000), to provide for the improvements of the water supply system in the Greater City, estimated as follows:

Manhattan and The Bronx.....	\$2,150,000 00
Queens.....	100,000 00
Brooklyn.....	3,390,000 00
Total.....	\$5,640,000 00

Respectfully,  
EUG. E. McLEAN, Engineer.

## No. 63—(S. O. No. 1).

The Committee on Rules respectfully reports the following rules for adoption by the Board:

## RULES OF THE BOARD OF ALDERMEN.

## CHAPTER I.

## Meetings.

1. The Board shall hold its regular meetings on Tuesday of each and every month at 1 o'clock p. m., unless otherwise ordered. Special meetings may be called as provided in section 37 of the Charter. The Board may adjourn to a day certain other than the date of a regular meeting, and notice of such change shall be mailed to each member by the Clerk at least twenty-four hours before the time set therefor.

## CHAPTER II.

## Powers and Duties of the President.

2. The President, and, in his absence, the Vice-Chairman, shall take the chair at the hour of meeting. He shall call the Board to order, and, except in the absence of a quorum, shall proceed to business in the manner prescribed by these rules.

3. He shall preserve order and decorum. In case of disturbance or disorderly conduct in the lobby or gallery he may cause the same to be cleared. He shall decide all questions of order, subject to appeal, which appeal shall be decided without debate. On every appeal, he shall have the right, in his place, to assign his reasons for his decision, allowing the appellant an opportunity to present his reasons for appealing. In the absence of the Vice-Chairman he may substitute any member to perform the duties of the chair for a period not exceeding the legislative day on which such substitution is made, but for no longer period except by special consent of the Board.

4. He shall assign to the Sergeant-at-Arms and Assistant Sergeant-at-Arms their respective duties and stations, but such assignments may be changed and rules for the conduct of such officials may be established by a majority vote of the Board.

## CHAPTER III.

## Of the Vice-Chairman.

5. The Vice-Chairman, when acting as President, shall be invested with all the powers and duties conferred upon the President. When the Board shall decide to go into the Committee of the Whole, the Vice-Chairman shall be the Chairman of said Committee, and in his absence the President shall call to the Chair the member moving the resolution to go into the Committee of the Whole.

## CHAPTER IV.

## Order of Business.

6. The order of business shall be as follows:

1. Reading of the minutes.
2. Messages and papers from the Mayor.
3. Presentation of petitions and communications.
4. Communications from city, county and borough officers.
5. Reports of special committees.
6. Reports of standing committees.
7. Special orders.
8. General orders.
9. Motions, ordinances and resolutions in the following manner:

The names of the members of the Board of Aldermen shall be called in alphabetical order, except that at every alternate meeting of the Board the names shall be called in reverse order, commencing at the end of the roll and calling the names in succession to the beginning of the roll; and in case an adjournment shall take place, pending the call, the roll shall, at the next meeting, be resumed where it was discontinued.

Messages from the Mayor and communications or reports from city or borough officers may, however, be received at any time. The Committee on Rules or the Committee on Engrossed Resolutions and Ordinances, or (when the report involves the

right of a member of the Board to his seat) the Committee on Privileges and Elections may likewise meet and report at any time. It shall also always be in order to call up for consideration a report from the Committee on Rules.

#### CHAPTER V.

##### Rights and Duties of Members.

7. A member presenting a paper shall indorse the same as follows: If a petition, memorial or report to the Board, with a brief statement of the subject of its contents, adding his name; if a notice or resolution, with his name; if a report of a committee, a statement of such report, with the name of the committee and member presenting the same.

8. No member rising to debate, make a motion or report or present a petition or paper, shall proceed, unless in his place, nor until he shall have been recognized by the President. While a member is speaking no other member shall entertain any private discourse or disturb another in his speech in any manner whatever. Unless otherwise provided by law, ordinance or these rules, the roll shall not be called upon a vote unless two members demand it.

9. No member shall speak more than once on the same general question until every other member desiring to be heard upon the question shall have spoken. No member may speak upon any matter for more than ten minutes at any time, except by permission of the Board.

10. A member desiring to be excused from voting or to explain his vote, may, when his name is called, make a brief statement, not occupying more than five minutes, of the reasons for making such request, or for voting in the manner he does. If he make a request to be excused, the question of excusing him shall then be taken without debate by a vote without a roll call, and if his request be not granted he must vote.

11. In case a less number than a quorum shall convene, those present are authorized to send the Sergeant-at-Arms or any other person for the absent members.

12. In all cases of absence of members during the session of the Board, or of the violations of any of the rules of the Board, the members present may take such measures as they may deem necessary, and, in addition to suspension for a given period, may inflict such censure as they may deem just on those who shall not render sufficient excuse. No member shall leave during a meeting without permission of the President of the Board.

#### CHAPTER VI.

##### Duties of the Clerk.

13. It shall be the duty of the Clerk to have the journals containing the proceedings of each meeting printed and copies thereof and of the calendar in the next paragraph referred to placed on the files of and mailed to the President and other members within four days after such meeting; also to have the calendar, copies of the journal and all approved papers placed on the files of the President and other members weekly. All reports of committees submitted shall constitute a part of the proceedings of each meeting.

14. He shall prepare and cause to be printed for each meeting a list in detail of all matters ready for consideration at such meeting. Said list shall be known as the Calendar, and shall include all vetoes, messages from the Mayor and other city and borough officials and departments that have been laid over for future consideration, special orders and general orders, and any other matters which have been presented to the Board and which remain undetermined. In case any matters on the calendar of a particular meeting are not acted upon, they shall be continued upon the calendar of the next meeting and of each succeeding meeting, in their order, until finally disposed of. The calendar shall state, in regard to any ordinance or resolution, the vote required to pass it, and if it be a matter referred to in section 48 of the Charter, then also the day when the time limitation in said section contained will expire. The calendar shall state as to any pending veto of the Mayor, the date of the regular meeting of the Board at which it is required by section 40 of the Charter to reconsider and vote upon the ordinance or resolution so vetoed. The Clerk shall see that all proposed ordinances and resolutions are acted upon in the order in which they are reported and stand upon the calendar, unless otherwise directed by the Board in the manner hereinafter provided.

15. The certificate of the Clerk of the Board shall be attached to every proposed ordinance or resolution, to the effect that the same has been duly passed or is deemed to have been duly passed by a vote, as required by the provisions of the Charter of The City of New York, and he shall transmit the proposed ordinance or resolution by message to the Mayor.

16. He shall keep index records convenient for reference of all ordinances, resolutions, petitions and other matters introduced in or presented to the Board.

17. He shall prepare and furnish to each member, in printed form, copies of the regular rules of the Board.

18. This Committee shall be charged with the duties imposed upon the Board of Aldermen by section 5 of article 3 of the Constitution of the State of New York, and shall prepare and report to the Board a plan of division into Assembly Districts of the counties comprised within The City of New York.

20a. The first names of each of the foregoing committees shall be the chairman thereof and such chairman shall not be removed, nor shall any member thereof be removed, except by the vote of two-thirds of the members of the Board. Vacancies in the Committees caused by death, resignation, removal or otherwise shall be filled by a majority vote of the Board.

20b. Resolutions calling for the appointment of Special Committees shall be referred to the Committee on Rules, and if such Committee reports favorably thereon it shall embody in its report the names of the members who shall constitute such Special Committee.

21. Committees shall report, in writing, on all matters referred to them, with a brief statement of facts and their opinion in relation thereto, and a resolution or ordinance proposing the necessary action by the Board. The report itself shall not be subject to amendment. Every report shall state the time when the subject matter of such report was referred to the committee by the Board, and the action, if any, taken by the committee pursuant to any instructions of the Board. Every report shall lay over until the next regular meeting, unless otherwise ordered by a majority vote of all the members present. Consideration of a report at the meeting of its introduction, if ordered, shall be deferred until after all reports of committees shall have been received and read.

22. It shall require a two-thirds vote of all the members present to discharge a committee from further consideration of any matter referred to such committee. No matter that has been referred to a committee shall be acted upon by the Board until the committee has reported thereon or has been discharged. A committee, however, to whom there shall have been referred any such matter as is specified in section 48 of the Charter, or any matter in regard to which any law or ordinance fixes a time limit for the consideration thereof by the Board, shall at the last regular meeting of the Board preceding the expiration of such time limit be deemed to be discharged from the further consideration thereof. A committee which shall have been instructed to report at a certain meeting shall be deemed to be discharged from further consideration of the matter referred to it unless it shall report at such meeting or shall receive from the Board a further extension of time to report.

(Take in section 48 of the Charter as amended.)

#### CHAPTER IX.

##### The Introduction and Passage of Ordinances and Resolutions.

23. All enactments shall be by ordinance, so far as practicable.

24. Every proposed ordinance or resolution introduced shall, on its introduction, unless otherwise ordered, be referred by the President to a standing committee to consider and report thereon. At any time during the meeting of introduction the disposition of any ordinance or resolution by the President may be changed by a majority vote.

25. There shall be two classes of unfinished business, known respectively as General Orders and Special Orders. All motions, resolutions, ordinances, reports of committees, etc., not otherwise disposed of on the legislative day introduced, shall be placed on the list of General Orders.

26. The list of General Orders shall be prepared in the numerical order of their introduction. Each Alderman, in his alphabetical turn, may call up two general orders.

27. Any ordinance or resolution may, upon introduction, be immediately considered, provided such action is not in conflict with the provisions of the Charter. shall not be so immediately considered except by unanimous consent. Other ordinances or resolutions shall not be so immediately considered except by the consent of a majority of the members present. In the event that immediate consideration is proper, the proposed ordinance or resolution shall be read section by section and shall be subject to amendment and debate before being adopted. No ordinance which is amended shall be adopted until it has been reprinted as amended, except by a two-thirds vote.

(Take in Section 30 of the Charter.)

28. When a special order is under consideration it shall take precedence of any other special order set for a subsequent hour of the same day, but such other special order may be taken up immediately after the previous special order has been disposed of. Any such matter as is specified in section 48 of the Charter shall at the last regular meeting of the Board preceding the expiration of the time limit in said section contained be deemed to be a special order and shall take precedence of all other special orders. Such matters among themselves shall take precedence according to their order of introduction.

29. When any proposed ordinance or resolution requiring the concurrence of two-thirds, three-fourths, four-fifths or five-sixths of the members, as provided in the Charter, is under consideration, such concurrence shall not be requisite except on the question of its final passage.

(Take in Section 39 of the Charter.)

30. All proposed ordinances and resolutions may be reconsidered by a vote of the majority of all the members present and voting.

All ordinances introduced shall be in writing. Ordinances which are amendatory of or repeal any existing law, code or ordinance, or any part of either thereof, shall contain in parenthesis the part amended or repealed and shall have the new part which is to be inserted marked by underscoring. When the ordinance is printed in the minutes the new part shall be in italics instead of underscored.

#### CHAPTER X.

##### Motions and Their Precedence.

31. When a question is before the Board, only the following motions shall be received, and such motions shall have precedence in the order stated here, viz.: (1) for adjournment; (2) for a call of the Board; (3) to lay on the table; (4) for the previous question; (5) to postpone indefinitely; (6) to postpone to a day certain; (7) to refer; (8) to amend.

The motion to adjourn, or for a call of the Board, or to lay on the table, shall be decided without debate, and shall always be in order. Upon motions not debatable no member shall be allowed to explain his vote or give his reasons for asking to be excused.

32. All motions shall be reduced to writing, if desired by the President or any member of the Board, delivered to the Clerk and read before the same shall be debated; any motion may, by general consent, be withdrawn at any time before decision or amendment.

If the question in debate contains several points, a member may have the same divided, provided the sense will admit thereof.

A motion to postpone, commit or refer, until it is decided, shall preclude all debate of the main question.

When a blank is to be filled, and different sums and time shall be proposed, the question shall be first taken on the highest sum and the longest time.

33. When a question has once been put and decided, it shall be in order for any member of the Board who voted in the majority to move for the reconsideration thereof; but no motion for the reconsideration of any vote shall be in order after the proposed ordinance, resolution, message, report, amendment, or motion upon which the vote was taken, shall have gone out of the possession of the Board; nor shall any motion for reconsideration be in order unless made on the same day on which the vote was taken, or on the legislative day next succeeding. But when a proposed ordinance or resolution shall have been recalled from the Mayor, a motion for reconsideration may be made at any time thereafter, and all resolutions recalling a proposed ordinance or resolution from the Mayor shall be regarded as privileged. No vote shall be reconsidered upon either of the following motions:

To adjourn.

To lay on the table.

## CHAPTER XI.

## Questions of Order.

34. When a roll call shall have been ordered the absentees shall not be called more than once on the same motions unless requested by at least five members. After two calls for absentees a motion to discontinue the roll call shall be in order and may be adopted by a majority vote.

35. All questions relating to the priority of business shall be decided without debate.

When the reading of a paper (other than a petition) is called for, and the same is objected to by any member of the Board, it shall be determined by a vote without debate.

36. When a point of order is raised, the member speaking shall take his seat until the President shall have determined whether he is in order or not. Every question of order shall be decided by the President, subject to an appeal by any member of the Board. No second appeal shall be determined until the original appeal shall have been decided. If a member shall be called to order for words spoken, the words excepted to shall be immediately taken down in writing by the Clerk.

## CHAPTER XII.

## Attendance of Quorum—Call of the Board.

37. If at any time during a session a question shall be raised by any member of the Board as to the presence of a quorum, the presiding officer shall forthwith direct the Clerk to call the roll, and shall announce the result, and such proceeding shall be without debate; but no member, while speaking, shall be interrupted by raising the question of a lack of a quorum, and the question as to the presence of a quorum shall not be raised oftener than once in every hour, unless the lack of a quorum shall be disclosed upon a roll call of the ayes and noes. Whenever, upon a roll call, any member who is upon the floor of the Aldermanic Chamber refuses to make response when his name is called, it shall be the duty of the presiding officer, either upon his own motion, or upon the suggestion of any member of the Board, to request the member so remaining silent to respond to his name, and if such member fails to do so, the fact of such request and the refusal shall be entered in the journal, and such member shall be counted as present for the purpose of constituting a quorum.

38. For the purpose of securing the attendance of members a call of the Board may be ordered at any time, but such call shall not be in order when the voting on any question has begun, unless it shall appear upon an actual count by the President that a quorum is not present. If demanded by two members, the roll shall be called upon a demand for a call of the Board, and if a majority be recorded in the negative a call of the Board shall not again be in order except by unanimous consent until an hour has elapsed.

## CHAPTER XIII.

## Miscellaneous Provisions.

39. The roll call of the Board shall be in alphabetical order, except that the Presidents of the Boroughs, the Vice-Chairman and the President of the Board shall be called last, and in the following order:

President of the Borough of Richmond, President of the Borough of Queens, President of the Borough of The Bronx, President of the Borough of Brooklyn, President of the Borough of Manhattan, the Vice-Chairman, and the President of the Board. They shall be called by their respective titles instead of by their names.

40. Whenever a claim is referred to a committee, and the committee reports that the claim ought not to be allowed, and the report is adopted by the Board, it shall not be in order to move to take the papers from the files for the purpose of subsequent introduction, unless the claimants shall present a memorial for that purpose, stating in what manner the committee has erred in its report, or that new evidence has been discovered since the report, and setting forth the same in the memorial.

41. The following persons only shall be admitted to the floor of the Aldermanic Chamber during its sessions:

1. The Mayor, his Private Secretary and Chief Clerk.
2. Heads of Departments and their Deputies.
3. Reporters of the Public Press.
4. The employees of the Board and of the City Clerk's office.
5. Such other persons as may by resolution be granted the courtesy of admission to the floor.

6. Members may by card admit persons to that part of the Chamber in the rear of the railing, former members of the Board of Aldermen or Municipal Assembly to be admitted without card. No such privilege shall, however, extend beyond the legislative day for which it is given.

42. The rules of parliamentary practice comprised in "Reed's Rules" shall govern the Board in all cases to which they are applicable, and in which they are not inconsistent with the standing rules and orders of the Board.

43. A rule of the Board may be altered, suspended or rescinded, or a new rule may be added, by a two-thirds vote of all the members elected and not otherwise. A motion to suspend, alter or rescind any rule or to add a new rule, shall not be in order without a unanimous vote of the Board, unless one week's previous notice in writing shall have been given, specifying the purpose of the proposed suspension, alteration, rescission or addition.

44. Except by unanimous consent a motion to adjourn shall not be put to a viva voce vote, but a roll-call thereon shall be ordered.

Respectfully submitted,

JAMES COWDEN MEYERS,  
ELIAS GOODMAN,

Gentlemen—The following proceedings were this day directed by Police Commissioner Theodore A. Bingham:

Whereas, The resolution adopted by the Board of Aldermen December 26, 1905, and approved by the Mayor December 30, 1905, as follows:

Resolved, That, upon the annexed request of the Police Commissioner, the Board of Estimate and Apportionment be and hereby is requested, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, to authorize the Comptroller to issue Special Revenue Bonds to the amount of forty thousand dollars (\$40,000), the proceeds whereof shall be applied to the benefit of the Police Department in the following manner: Thirty thousand dollars (\$30,000) to be applied to the appropriation for the year 1905, entitled Supplies for Police, and ten thousand dollars (\$10,000) to the appropriation for the year 1905, entitled Police Station Houses, Alterations, Fitting Up, etc., was adopted too late in the year for action by the Board of Estimate and Apportionment to make available the proceeds of the sale of bonds for the accounts named for the year 1905; and

Whereas, The necessities for such action still exist, as stated in communication ordered by the Police Commissioner to the Board of Aldermen, dated October 13, 1905, copy of which is herewith submitted,

Ordered, That the Board of Aldermen be and are hereby respectfully requested to amend the resolution of December 26, 1905, by striking out the words "for the year 1905," so that the same shall read as follows:

Resolved, That, upon the annexed request of the Police Commissioner, the Board of Estimate and Apportionment be and hereby is requested, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, to authorize the Comptroller to issue Special Revenue Bonds to the amount of forty thousand dollars (\$40,000), the proceeds whereof shall be applied to the benefit of the Police Department in the following manner: Thirty thousand dollars (\$30,000) to be applied to the appropriation entitled Supplies for Police, and ten thousand dollars (\$10,000) to the appropriation entitled Police Station Houses, Alterations, Fitting Up, etc.

Very respectfully,

WM. H. KIPP, Chief Clerk.

Police Department of The City of New York,  
Bureau of Repairs and Supplies, No. 300 Mulberry Street,  
New York, October 12, 1905.

Hon. WILLIAM McADOO, Police Commissioner:

Sir—I respectfully recommend that the Board of Aldermen and the Board of Estimate and Apportionment be requested to authorize the issuance of Special Revenue Bonds in the sum of \$40,000, of which \$30,000 be applied to the appropriation of this year entitled Supplies for Police, and \$10,000 to the appropriation for this year entitled Police Stations, Alterations, Fitting Up, etc.

In the annual Budget for the year 1905, prepared in September, 1904, an appropriation of \$534,484 was asked for Supplies for Police, of which only the sum of \$424,000 was granted.

At the same time an appropriation of \$140,000 was asked for Police Station House Alterations, Fitting Up, etc., of which only \$44,000 was granted, which amount has since been supplemented by the issuance of Corporate Stock for the sum of \$82,000 for Permanent Betterment. The latter appropriation is being expended under contracts awarded and in preparation and cannot be diverted, while the original appropriation (\$44,000) is practically exhausted and no funds are available to meet the ordinary emergency repairs of the Department now known and anticipated.

After the Budget for 1905 had been passed upon and the appropriation fixed, contracts were awarded in the closing days of 1904, for the purchase of fifty-five (55) additional horses, and in January, 1905, contract was awarded for the purchase of seventy-five (75) additional horses (of which fifty-five (55) have been placed in the service), no provision or appropriation being made for the equipment and maintenance of these 110 horses, which has cost approximately \$27,100. The Budget appropriation which did not contemplate these demands and being reduced \$110,484 below the appropriation asked, has proven entirely inadequate to meet even the most urgent demands of the service.

It is estimated that there will be a saving of \$35,681 on the contracts of this year. The strictest economy has prevailed as will be shown by the following schedule of comparative open order expenditures for the year 1904 as against those of 1905 to date:

	Supplies.		Repairs.	
	1904.	1905.	1904.	1905.

	\$135,254 35	\$88,230 19	\$53,993 42	\$42,375 78

Note—The expenditures for April and May, 1905, show larger than other months for the reason that during the first three months requisitions were held pending investigations and were released in April. May account includes \$4,800 for automobile.

Requisitions are now pending amounting to \$9,888.78 for Supplies for Police, and \$1,494.38 for Police Stations, Alterations, Fitting Up, etc., and it is estimated that the amounts recommended will suffice to meet the above and additions for the balance of the year.

The savings under contracts mentioned have been considered and otherwise expended, and it is absolutely necessary that funds be procured to maintain this branch of the service for the remainder of the year.

Respectfully,

(Signed) RICHARD E. ENRIGHT, Inspector, Repairs and Supplies.

Which was referred to the Committee on Streets, Highways and Sewers.

Alderman Wentz moved that the Board do now adjourn.

The President put the question whether the Board would agree with said motion.

Which was decided in the affirmative.

And the President declared that the Board stood adjourned until Tuesday, January 16, 1906, at 1 o'clock p. m.

P. J. SCULLY,

City Clerk and Clerk of the Board of Aldermen.

Dr. S. T. Armstrong, the General Medical Superintendent, reported as follows: The counsel for the purchaser of the property now occupied by Harlem Hospital does not know whether the new owner will care to lease the building to the City for any part or all of the year and has been requested to ascertain this as soon as possible. In the event that the new owner does not care to lease the property after February 1, it is recommended that the contractors for the new Harlem Hospital, whose work should have been completed according to contract on March 21, 1905, be urged to expedite the work as much as possible so as to prepare the building for occupation at an early date.

The contract of John R. Sheehan & Co. for the completion of Gouverneur Hospital expired on September 3, 1905.

It is recommended that in the forthcoming annual report the ground plans and elevation of the new Harlem Hospital and of the new Gouverneur Hospital be printed. Such data are of considerable interest to those engaged in hospital administration and construction and add materially to the value of the report. It is also recommended that the statistics of this hospital be so prepared that the annual report shall give by diseases and sex the number of patients remaining at the beginning of the year, the number admitted during the year, the number discharged, cured, improved and not improved, the number that died, and the number remaining at the end of the year.

The Bureau of Lamps and Gas (Department of Water Supply, Gas and Electricity) takes the position that gas pipes and electric wires must not convey gas or electric current both for illuminating and heating purposes. At the present time we use gas for heating in the diet kitchens and in several of the ward operating rooms. In order to comply with these directions it will be necessary to install new gas connections and gas pipes in all of the buildings of the Department.

On motion, duly seconded, it was

Resolved, That Messrs. John R. Sheehan & Co., contractors for the construction of the new wing of Gouverneur Hospital, and Messrs. P. J. Carlin & Co., contractors for the new Harlem Hospital, be again notified, respectively, that the time upon their contracts has expired and that they will be held accountable for this and for all further delay.

On motion, duly seconded, it was

Resolved, That the matter of using electric wires and gas pipes for both illuminating and heating purposes be referred to the Superintendent for further investigation and report.

Kirby, architect, No. 452 Fifth avenue, who has written that the surveys for such drainage are now being made and that the work will be pushed as rapidly as possible. The correspondence concerning this matter was, on motion, duly seconded and carried, ordered placed on file.

#### Unfinished Business.

On motion, duly seconded, it was

Resolved, That the bids for erecting balconies at the new Harlem Hospital, opened September 12 last, be and the same are hereby rejected in order to admit of new advertisement by which these balconies may be built eight instead of six feet wide.

#### I. Why the Bureau Was Created.

That the Bureau was needed was evident from the number of complaints which in times past were received at the office of the Mayor, complaints of short weight made by persons who had been fleeced when purchasing the necessities of life.

The public generally had little knowledge of the fact that there were attached to the office of the City Clerk some Sealers and Inspectors of Weights and Measures, and the ordinances under which the Sealers and Inspectors were appointed required so little work from them that their operations were seldom heard of.

Reports were required only every three months, and were made to the City Clerk, who disclaimed any jurisdiction.

To produce order out of chaos your Honor caused a new ordinance to be framed and passed, and in and by it provided for the creation of a bureau in the office of the Executive called the "Mayor's Bureau of Weights and Measures." This ordinance went into effect March 14, 1904.

On April 19, 1904, when by your Honor's appointment I assumed charge of the Bureau, I found absolutely no provision made for equipping an office or establishing a headquarters for the Bureau. I accordingly made the best of the situation and used the basement corridors of the City Hall as a headquarters until an office was provided in Room 7, adjoining the Mayor's office.

This office was fitted up and equipped by funds provided by an issue of Special Revenue Bonds, and the same fund also afforded money for supplies and immediately necessary equipment.

It was not until January 9, 1905, that the books, forms, blanks and stationery, made by the ordinance necessary for the proper carrying out of its provisions, were received, and consequently this report deals only with the workings of the Bureau since about that date.

At that time the Sealers and Inspectors were each supplied with complete sets of books and forms to enable them to make reports in a full and systematic manner, and this they have been required to do regularly.

Their reports when made are transcribed in registers and are open to public inspection.

No better illustration of the fact that such a bureau is necessary can be furnished than is contained in the summary of the work performed by it, and a comparison of that summary with the statement of the work performed by the Inspectors and Sealers during the years 1902 and 1903.

In the year 1902 the amount collected for violations of the ordinance then existing was \$421, and in 1903, under the same ordinance, \$2,020 was collected, which may be contrasted with the figures set forth in the tabulated summary of this year's work. The chief causes of the necessity are the

#### Dishonest Tradesmen.

The general public, it seems, possesses little knowledge of scales or weights, and people are often cheated by the most glaringly clumsy methods of dishonest dealers, who give them shorter weight than they expect and pay for.

These dealers are usually found in the neighborhoods populated by people of small means, and the greatest outrages are perpetrated against the very poor.

#### Much Needed Protection to Public Generally.

Food is not cheap, and a pound for the price of a pound is only what a poor man or woman should receive from a butcher or a grocer, but, by use of spring scales adjusted for the purpose, or light weights on counter balances, some unfortunate people received only fifteen, some fourteen, some others even as little as ten and one-half ounces when they supposed they were receiving and actually paid for a pound.

If the evil was confined to the practices of a few dealers the wrong would not be so great, but because of their nefarious practices the people, attracted by the seemingly low prices charged by the robbers, gave them their custom to such an extent that more honest dealers felt almost a diluted kind of justification for imitating the example of the men who gave so little for the people's money, and the practice of giving light weight and measure became almost the rule and not the exception.

#### HOW THE PUBLIC IS CHEATED.

##### Butchers.

Butchers in the retail trade as a rule use spring scales, most of which present to the view of the purchaser a dial upon which a moving hand indicates the weight of the object being sold.

By removing the glass front and loosening a little screw, adjusting the hand a trifle, tightening the screw again and replacing the glass front, the butcher may rob hundreds of people out of an ounce or more in every pound of meat he is paid for.

Some spring scales do not require this labor to enable the butcher to steal his customers' money.

The scale manufacturer provides at the side or back or top of the scale, a little adjusting thumb screw which by a touch sets the scale against the customer.

Some butchers have their scales set properly and conforming when empty to the standards, but each day when commencing business a strip of fat or a slice or two of salt pork or bacon is attached to the under side of the pan of the scale, some "artists" use putty to enable the proprietor to rob his customers of from seven to fifteen per cent. of the money they pay for meat.

Some butchers with neat looking places have a sheet of paper on the scale and under it a dozen or so ten penny nails or a couple of S hooks innocently hanging from the slide, or upon the hook properly belonging to the scale hang a pad of memorandum sheets or "tickets," any of which devices serve to rob the customer.

Any of these different knavish tricks would be apparent to an observant customer, but apparently the people do not seem to notice that the hand on the scale does not stand at nor start from the zero mark but from one ounce or two, three, four, five or more ounces past the zero, they only notice that the hands point to the two pounds or so they want to get and are satisfied.

Some butchers have been reported as requiring their benchmen to make their wages in short-weighting the customers.

This they do by means of well lubricated slides on the spring scales which keeps the pan jumping quickly up and down when meat is dropped upon it, and catching the weight at the lowest drop of the pan, quickly take off the meat, announce the false weight to the customer, write out a memorandum ticket and pass meat and ticket to proprietor or foreman who weighs the meat upon a scale not subject to customers' scrutiny, and credits the benchman with the amount he has defrauded the customer of.

If some customer does make a protest a quick and abject expression of sorrow at the "mistake" and the adjustment of the cash rectifies the error and prosecution rarely, if ever, follows.

"Computing scales" set wrong by means of "adjusting screws" often enable butchers and delicatessen store keepers to defraud customers of an ounce or two on every purchase.

##### Grocers.

The scales generally used by grocers are of the "counter balance" type requiring the use of weights.

The weights used are ordinarily lying in full view upon the counter and are usually of iron and stamped by the manufacturer with the supposed weight.

A half-inch drill or reamer will, if used in two or three places on the bottom, remove enough iron from a "one pound weight" to reduce its actual weight one or two ounces, or even more.

Such weights have been frequently found as also some which had been planed or sawed off the bottom so that it weighed only a trifle over one-half the indicated weight.

Some grocers have been reported as having as many as fifteen out of twenty-three weights, respectively from one-quarter ounce to three and one-half ounces light through such tampering.

Some grocers attach to the cradle of the scoop or pan a little scrap of "tea lead" which destroys the balance of the scale and helps defraud the customer of perhaps an ounce or more every time the scale is used.

In neighborhoods where poor people live, people who buy tea, coffee, butter, etc., by the half pound or pound, such frauds make a terrible percentage against the customer.

Butter is ordinarily sold in the back and darker portions of the store and the customer may be defrauded quite neatly, thus:

The grocer takes from a tub of water a large wooden "plate" of the size called four pound, kept soaking "so that the butter will not stick to it," places it upon the scale and weighs one pound or two pounds or even half a pound as requested by the customer, gives it a pat or two, places it on a "one pound plate" and sends the customer on his or her way rejoicing, unconscious that the large water-soaked "plate" robbed him or her of an ounce or more weight.

The public is also robbed by means of light weight "packages."

Grocers put up during dull times coffee, tea, sugar, flour, etc., in packages or bags to permit of quick sales when business is brisk.

These packages are very often light as much as three and one-half ounces in as many pounds, and it is done by placing upon the cradle of the scoop or pan two and sometimes three heavy straw paper bags and another empty bag is placed upon the scoop and on the counterpoise the weights. The sugar or other commodity is poured into the empty bag until the scale balances, and as the two or three bags on the cradle and the bag on the scoop have all been weighed, the customer pays for them at the price of the commodity he wants to buy.

The Inspectors visit groceries where such things are suspected on Friday nights, and finding the scales out of balance because of the bags tied upon the scale prosecute the proprietors for violation of the ordinance, but cannot cause their punishment criminally for the short weight packages because he would have to purchase such packages and comply with many formalities required by the domestic commerce law to make a case, and the Inspector has no money to spend for such purchases unless he spends his own salary; however, some such purchases were made, and a few cases are now pending in the criminal courts against vendors of short weight packages. It is hoped that the expected convictions will put a stop to this species of fraud.

##### Fish Peddlers.

Upon several occasions the whole working force of the Bureau has without warning made inspection of the scales, etc., of the fish peddlers doing business at the Delancey Street Market under the Williamsburg Bridge, and on one occasion in the month of May twenty-eight spring balance scales were destroyed, each being from four ounces to three pounds out of balance.

At a second visit in October only ten complaints were filed, and it is gratifying to know that of the thirty or more prosecutions arising from these two inspections the City has recovered judgment in each case for the full penalties provided by the ordinance.

#### Retail Poultry Dealers in Markets.

When the Bureau was established my attention was attracted to the many complaints, some anonymous, made against retail poultry dealers in the various City markets, Washington Market particularly, and I caused several Inspectors to visit that market and look at conditions, and as a result some twenty complaints were in the month of June filed against dealers, and every week since the market scales have been inspected by different Inspectors or Sealers, and scales conforming to the standard established by law are the rule now and not the exception; but, nevertheless, the people still receive short weight, for on Saturday night, December 23, two Inspectors found in the market and in stores on the immediately surrounding street ten violations of law.

Some of the scales complained of were set against the customer from four ounces to two pounds.

In one case a sixty-pound spring scale in perfect order was hung high at the back of the stand and nearly screened from the customers' gaze by the poultry hanging from the racks in front.

On that scale was placed a piece of wrapping paper and beneath lay a brass padlock, and some customers present caused the goods just bought to be reweighed and learned that they had just escaped being defrauded of the price of from one-half pound to two pounds of poultry, nine to twenty cents.

The customers received the cash necessary to adjust the fraud and refused to prosecute criminally.

On another such scale the Inspectors found the blade of a butcher's cleaver, having no handle it lay very flat and was hidden by paper.

On this last scale the brass dial was polished so much and so often that the marks on the face were almost invisible and customers could not see whether it indicated what the dealer announced or not.

One thirty-pound spring scale was so rigged that it indicated as much as seven-teen ounces more than the actual weight.

The various pieces of hardware thus used were promptly seized and will be used as evidence in the prosecution of the violation of the ordinance.

#### Coal Dealers.

There has been no general inspection of coal dealers' scales although there are probably as many as five hundred in the City.

To inspect these scales the use of heavy weights is necessary and no provision for conveying the weights has been made; not one dollar has been appropriated which the Bureau could use for the purpose.

It is true some few dealers have asked to have their scales tested and sent their own carts to carry the weights.

The weights belonging to one inspection district are still lying on the East river dock where they were brought to test scales for one of the City departments.

One "public coal scale" was found incorrect and the owner refusing to have it repaired, the Corporation Counsel has been notified and asked to prosecute. The penalty if the prosecution is successful is the forfeiture of a five hundred dollar bond.

#### Produce Merchants.

The attention of the Bureau has been directed to berry and fruit consignees who handle "berries, etc.," in "quart" boxes, which do not conform to the standard, and some dealers whose boxes were short three and a half cubic inches of the standard fixed by law are now being prosecuted.

#### Dry Goods and Department Stores.

Because of the magnitude of their business, perhaps, department store proprietors look upon the inspections by this Bureau almost as an impertinence, and the proprietors of one of the largest of these establishments had to be haled to court to allow inspection by the Bureau.

The counter nails used as marks for measuring dry goods sold by the yard are somewhat archaic, and as the counters themselves are very often cut and transposed, or transferred from one "stock" to another, the nail-marked yard measures are very frequently worthless.

Some dealers use what they call "yard sticks" and "yard measures" which do not measure thirty-six inches.

One dealer was sued this very month because the Inspector found three short yard measures in his store, and the proprietor brought one of the measures to court and there materially aided in the securing of the judgment against himself, as the measure, one presented by a wholesale satin manufacturer, was, when measured in court, found short.

#### How Persons Who Violate the Ordinance Are Proceeded Against.

When an inspection is made the Sealer or Inspector makes a full list of the scales, weights, measures or other instruments used in the store for weighing or measuring merchandise, and, upon the blanks furnished them for the purpose, indicate the number and size or capacity of each and how many are found correct and how many condemned.

If any are found not conforming to the standard, and the use thereof observed or admitted, a complaint, stating all the facts, is filed, and the Corporation Counsel sues for the penalty in a Municipal District Court, the Inspector or Sealer appearing as complaining witness.

So careful have been the Sealers and Inspectors that not one single case where complaint was made of violation of this ordinance relating to weights and measures has been lost by the City.

#### The Cost of the Bureau.

The net cost of the Bureau to the people of the City is, per capita, less than four cents and a half per annum, and will be even less this year to come.

#### Difficulty in Inspection in Suburban Districts.

Sealers and Inspectors in the boroughs of Richmond, Queens and The Bronx in order to reach some of the stores in the outlying villages in their territory use a horse and wagon, and the City is fortunate to have employees so circumstanced as to have such means of conveyance and willing to use same for the work.

#### Needs of the Bureau.

With fifteen to seventeen Sealers and Inspectors making daily reports which have to be transcribed in registers and filing complaints which have to be noted, scheduled and forwarded for prosecution to the Attorneys for the Collection of Penalties, with letters coming in from citizens making complaints or asking information, with letters from different associations and public or semi-public bodies asking for copies of reports, with communications transmitted from City Departments and by the Mayor, all of which require clerical help to handle, this Bureau, not provided with Clerks, has been compelled to utilize some of the Inspectors or Sealers to do clerical work, and as a result the inspections which these men should make are devolved upon others.

If no Clerks can be obtained for the year 1906 the Bureau will be hampered in its work, for in the Bronx and in Brooklyn, in the Twenty-sixth Ward and the Eighth Ward, the stores have doubled in number in a year.

It is unfortunate that the Bureau has no "contingent account."

Some Sealers or Inspectors have to cover territory nearly ten miles in length and pay their own car fare, yet cannot test large scales, for they have no means of transporting the half-ton of fifty-pound block weights needed for such tests.

Nor can they, without depriving themselves or their families, purchase "short-weight packages."

That there should be money for car fare, postage, etc., and wagons provided for transporting large weights and measures can hardly be disputed, and it does not seem that much loss would result if the Sealers and Inspectors made occasional purchases of packages suspected of being short in weight, as all such packages could, when no longer needed as evidence, be turned over to some of the City institutions or sold and the proceeds returned to the City treasury.

Respectfully submitted,

PATRICK DERRY,  
Chief of Bureau of Weights and Measures.

Gotshall, Chief Engineer, and Francis Blanchard, Secretary, under seal and which maps and profiles were filed in the office of the County Clerk of the City and County of New York on the 6th day of May, 1904, or any lawful amendment thereof, which may be consented to by the Board of Estimate and Apportionment, or its successors in authority.

Branch Line—Beginning at a point at or near the southeast corner of Bronx Park, in the Borough of The Bronx; thence across or along Bronx Park avenue, East One Hundred and Eighty-first street, East One Hundred and Eighty-first street, Lebanon street, Morris Park avenue, at or near its intersection with West Farms road; thence across or along West Farms road, at or near its intersection with Morris Park avenue; thence across the Southern turnpike, or Westchester avenue, at or near its intersection with Clason's Point road; thence across Clason's Point road, near its intersection with the Southern turnpike, or Westchester avenue, being the route shown on a map entitled "Map and profile of branch line extending from main line (Bronx Park) to Clason's Point, New York City," forming part of the maps filed with the County Clerk of the City and County of New York, referred to in the preceding paragraph, or any lawful amendment thereof, which may be consented to by the Board of Estimate and Apportionment, or their successors in authority. The "Survey Map and Profiles" are heretofore referred to solely for the purpose of indicating the route of the railroad and not the profile thereof.

General—And such other streets, avenues, highways, public places, etc. (named and unnamed), as may be hereafter opened or encountered, in such routes or amended routes; and also such other streets, avenues, highways, public places, etc. (named and unnamed), now open or in use, or as may be hereafter opened or put in use, which it may be necessary for said railroad to cross, in order to make connections with any other railway within two thousand (2,000) feet of said routes; provided that the Board of Estimate and Apportionment shall first have given permission for such connection or connections; and provided, further, that such connections shall be limited to two (2) in number.

Section 2. The grant of this privilege is subject to the following conditions:

1. The provisions of section 6 of the Railroad Law shall be fully complied with, and in addition to the maps required to be filed with the Railroad Commissioners, it shall be incumbent upon the Railroad Company to file with the Comptroller of The City of New York a map or maps showing the number of tracks and length of same, including crossovers, switches, turnouts, sidings and stands within the present limits of The City of New York, such lengths to be accurately determined by measurements to be taken after the commencement of the operation of any portion of the railroad within the present limits of The City of New York.

2. The said right to cross the streets and the privilege to construct and operate said railroad shall be held and enjoyed by said Railroad Company, its lessee or successors, for the term of twenty-five years from the date when this con-

tract is signed by the parties hereto, with the privilege of renewal of said grant for a further period of twenty-five years upon a fair revaluation of said right and privilege. In the determination of the said revaluation may be considered and included the extension of the provisions of this agreement contained in the paragraphs numbered 7 and 8 herein, and the payment of the costs and expenses therein provided for by the Railroad Company, or otherwise.

If the Railroad Company shall determine to exercise its privilege of renewal, it shall make application to the Board of Estimate and Apportionment of The City of New York, or any authority which shall be authorized by law to act for the City in place of the said Board. Such application shall be made at any time not earlier than two years and not later than one year before the expiration of the original term of this grant. The determination of the revaluation shall be sufficient, if agreed to in writing by the Railroad Company and the Board of Estimate and Apportionment or such other authority in its place. If the Railroad Company and the Board, or such other authority in its place for the City, shall not reach such agreement on or before the day one year before the expiration of the original term of this grant, then the annual rate of compensation for such succeeding twenty-five years shall be reasonable; and either the City (by the Board, or such other authority in its place) or the Railroad Company shall be bound upon request of the other to enter into a written agreement with such other authority fixing the rate of such compensation at such amount as shall be reasonable; and if the parties shall not forthwith agree upon what is reasonable, then the parties shall enter into a written agreement fixing such annual rate at such amount as shall be determined by three disinterested freeholders selected in the following manner:

One disinterested freeholder shall be chosen by the Board of Estimate and Apportionment or its successors in authority; one disinterested freeholder shall be chosen by the Railroad Company; these two shall choose a third disinterested freeholder; and the three so chosen shall act as appraisers and shall make the revaluations aforesaid. Such appraisers shall be chosen at least six months prior to the expiration of the contract, and their report shall be filed with the Comptroller or his successor in authority, within three months after they are chosen. They shall act as appraisers and not as arbitrators. They may base their judgment upon their own experience, and upon such information as they may obtain by inquiries and investigations without the presence of either party. They shall have the right to examine the books of the Railroad Company and its officers under oath. The valuations so ascertained, fixed and determined shall be conclusive upon both parties, but shall not in any event be less than the minimum amount fixed as the sum to be paid annually for the last year of this original grant. If, in any case, the annual rate shall not be fixed prior to the termination of the original term of this grant, then the Railroad Company shall pay the annual rate theretofore prevailing until the new rate shall be determined, and shall then make up to the City the amount of any excess of the annual rate then determined over the previous annual rate.

3. Upon the termination of this grant, if it be not renewed, or, in case of a renewal thereof, upon the termination of such renewal, all rights and privileges hereby granted to cross the said streets shall cease and determine, unless the said Railroad Company, its successors or assigns, shall have previously procured a new grant for the same from The City of New York.

4. The Railroad Company, its successors or assigns, shall pay to The City of New York, for the rights and privileges hereby granted, the following sums of money:

During the first five years commencing from the day when this contract is signed, an annual sum of eight thousand dollars (\$8,000), and during the next succeeding five years an annual sum of thirteen thousand dollars (\$13,000), and during the next succeeding fifteen years an annual sum of thirty-five thousand dollars (\$35,000).

From the date of the commencement of the operation of any portion of the railroad until the end of the first five years of this grant, an additional sum of five and four-tenths cents per linear foot per annum of single track, including all crossovers, switches, turnouts, sidings and stands, within the present boundaries of The City of New York, and for the next succeeding five years an additional sum of seven and seven-tenths cents per linear foot per annum of single track, as aforesaid, in lieu of said sum of five and four-tenths cents, and for the next succeeding fifteen years an additional sum of twenty cents per linear foot per annum, as aforesaid, in lieu of said sum of seven and seven-tenths cents.

All such payments shall be made to the Comptroller of the City, in equal payments at the end of each quarter year, on the first day of January, April, July and October of each year.

Any and all payments to be made by the terms of this contract to The City of New York by the Railroad Company shall not be considered in any manner in the nature of a tax, but such payments shall be in addition to any and all taxes of whatsoever kind or description, now or hereafter required to be paid by any ordinance of The City of New York or by any law of the State of New York.

5. The annual charges or payments shall continue throughout the whole term of the privilege hereby granted, whether original or renewal, notwithstanding any clause in any statute or in the charter of any other railroad company providing for payments for railroad rights or franchises at a different rate, and no assignment, lease or sub-lease of the rights or privileges hereby granted, whether original or renewal, or of any part thereof, or of any of the routes mentioned herein, or of any part thereof, shall be valid or effectual for any purpose unless the said assignment, lease or sub-lease shall contain a covenant on the part of the assignee or lessee that the same is subject to all the conditions of this grant; and that the assignee or lessee assumes and will be bound by all of said conditions, and especially said condition as to payments, anything in any statute or in the charter of such assignee or lessee to the contrary notwithstanding, and that the said assignee or lessee waives any more favorable conditions created by such statute or its charter, and that it will not claim by reason thereof or otherwise, exemption from liability to perform each and all of the conditions of this grant. Nothing herein contained shall apply to any mortgagee or mere lienor, but shall apply to any purchaser upon foreclosure or under or by virtue of any provision of a mortgage or lien.

6. The rights and privileges granted hereby shall not be assigned either in whole or in part, or leased or sublet in any manner, nor shall title thereto, or right, interest or property therein pass to or vest in any other person or corporation whatsoever, either by the act of the New York and Port Chester Railroad Company, its successor or assigns, or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations, or otherwise, without the consent of The City of New York, acting by the Board of Estimate and Apportionment, or its successor in authority, evidenced by an instrument under seal, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents. This provision, however, shall not apply to the making of a mortgage nor to a sale under foreclosure, provided that no sale under foreclosure shall be made to any person or corporation owning, operating or controlling any other railroad in The City of New York.

7. The grade of the railroad has not yet been established. Profile maps definitely showing such grade within the present limits of The City of New York shall be filed with the Board of Estimate and Apportionment by the Railroad Company before beginning the construction of its railroad within the present limits of The City of New York. A duplicate thereof shall at the same time be filed with the Board of Rapid Transit Railroad Commissioners of The City of New York. The Board of Estimate and Apportionment, after a public hearing, of which ten days' notice shall be given by publication, shall then approve or disapprove the said profile map and grades, and upon the Board approving the same the Railroad Company may thereupon proceed with the construction of its railroad within the present limits of The City of New York.

If said Board disapproves the same it shall within 30 days after said hearing prescribe such changes in said map as it may deem necessary. Within the present limits of The City of New York no street or railroad shall be crossed by the railroad at grade, and no existing park or parkway shall be crossed by the railroad at or above the grade of said park or parkway. All streets now open or in use and streets hereafter opened within the present limits of The City of New York, crossing the line of the railroad, shall be carried over or under the said railroad by the Railroad Company, at the sole cost and expense of the Railroad Company. The cost of all changes in grades of all approaches to such crossings within the present limits of The City of New York shall likewise be borne and paid by the Railroad Company, and The City of New York assumes no liability for any damages to property injured thereby, or by said railroad crossings, or any damages to property along the line of said railroad or contiguous thereto, caused by reason of the construction or operation of the said railroad, and the Railroad Company hereby agrees to indemnify and save harmless The City of New York of and from all such liability.

The City shall have the right at any time it so desires to open across the route of the Railroad Company within the present limits of The City of New York any new streets other than those now open or in use, and the Railroad Company hereby gives its consent to said opening. 8. Within the present limits of The City of New York all viaducts over streets and all tunnels under streets and all bridges necessary to carry the streets over an open cut, shall be constructed and maintained at the expense of the Railroad Company. All viaducts over streets within the present limits of The City of New York shall have a height of at least sixteen feet in the clear throughout, and in the case of arch construction not less than sixteen feet in the clear at the centre and ten feet in the clear on the building or side line of said street, and in the case of tunnel construction under a street there shall be at least four feet between the grade of the street and the exterior surface of the arch of said tunnel.

9. Within the present limits of The City of New York any superstructure of the railroad crossing a street and having a length of seventy-five (75) feet or less, shall be constructed in a single span. If more than seventy-five (75) feet in length, intermediate columns to support the structure may be placed in the street in such manner as may be approved by the Board of Estimate and Apportionment. The width of such superstructure of the railroad shall not exceed sixty (60) feet when measured over all.

10. The plans for all structures over or under any street within the present limits of The City of New York must first be submitted to and approved by the Board of Estimate and Apportionment, and all such structures shall be constructed of steel, concrete or masonry, or a combination of these materials. Such structures over streets shall be floored and shall be water-tight.

11. The railroad shall be constructed in the most modern and approved manner of railroad construction. Unless otherwise authorized by the Board of Estimate and Apportionment, the roadbed shall be ballasted throughout its entire length within the present limits of The City of New York, with a sufficient quantity of either blast furnace slag or broken trap rock of a hard and durable quality, and no dirt, sand, gravel or cinders shall be used in such ballast. The Board of Estimate and Apportionment may, however, at any time require a portion of the road not theretofore ballasted to be ballasted.

12. The roadbed within the limits of The City of New York as now fixed or hereafter extended shall be watered daily whenever the thermometer is above 35 degrees Fahrenheit. Should, however, watering the roadbed in any way injure electric line equipment which has been approved by the Board of Estimate and Apportionment, or its successors in authority, then other means of preventing dust shall be used, which shall be first approved by the Board of Estimate and Apportionment. For any failure to comply with the foregoing, the Railroad Company shall be liable to a penalty of fifty dollars (\$50) per day.

13. The entire right of way of the company within the present limits of The City of New York, except at stations, shall be fenced throughout.

14. Within the present limits of The City of New York, all abutments or foundations for bridges, viaducts and stations and the stations proper, except intermediate supports for viaducts, as heretofore provided, shall be placed on the land of the company.

15. There shall be constructed along the line of the route of the main line of the railroad as proposed, for the accommodation of local passenger traffic, at least six stations between the Harlem river and the Bronx river, at least six stations between the Bronx river and the northern line of The City of New York, as now fixed. On the branch line there shall be constructed at least three stations east of Morris Park avenue, unless otherwise authorized by the Board of Estimate and Apportionment.

16. Said railroad may be operated by electric power or by any other mechanical motive power, which may be lawfully employed upon the same, except locomotive steam power. If electrical power is used, the Railroad Company shall, before the commencement of any of the construction of the electrical line equipment, within the present limits of The City of New York, file with the Board of Estimate and Apportionment plans showing such proposed construction, within the present limits of The City of New York, including all methods of insulation, position of contact conductor and all feed wires, conductors or cables, with method of carrying the same, and said plans must be approved by the said Board before construction thereof shall begin. The Board of Estimate and Apportionment hereby retains the right to make such conditions relative to construction of such line equipment within the present limits of The City of New York as it may see fit at the time of the approval of such plan.

17. No wires for the transmission of power shall be permitted within the present limits of The City of New York unless they be placed in

conduits or carried in a manner which shall have been approved by the Board of Estimate and Apportionment. The City may use the structure of the Railroad Company for carrying wires or cables for the use of the City within the present limits of The City of New York not exceeding such a quantity as might be carried in two conduits each of not more than three inches in diameter, without charge to the City. If the Railroad Company shall place its wires for the transmission of power in conduits, then the Railroad Company shall construct and permit the City to use without charge two conduits each of not more than three inches in diameter for carrying wires or cables for the use of the City.

18. The Railroad Company shall not carry wires or conduct power on its structures or along its right of way within the present limits of The City of New York for any purpose except for the operation of its railroad and except, as provided above, for the use of the City.

19. The Railroad Company shall maintain throughout the term of this grant or any renewal thereof a train schedule on the main line within the limits of The City of New York of at least sixty (60) trains in either direction daily, stopping at all of the stations within the City limits, and at no time, either day or night, shall there be greater headway within the City limits between such trains than thirty (30) minutes; provided, however, that said Railroad Company shall not be required to operate its trains within the City limits between the hours of 1 o'clock and 5 o'clock a. m., each day, unless the Board of Estimate and Apportionment shall determine, after a hearing had thereon, that public convenience requires the operation of its cars during such hours.

The Board of Estimate and Apportionment may require, from time to time, as it may see fit, such number of trains to be run on the branch line—not exceeding 60 trains a day.

20. All cars on said railroad shall be heated during the cold weather in conformity to such laws and ordinances as are now in force, or may hereafter be enacted or adopted by the State or City authorities, and any failure to keep the temperature of any of the cars of the company above 50 degrees Fahrenheit, shall make the company liable for a penalty of fifty dollars (\$50) per day for each offense.

21. All cars operated by the company shall be vestibuled and the system of lighting same shall be adequate and be made satisfactory to the Board of Estimate and Apportionment. For any failure to comply herewith the Railroad Company shall be liable to a penalty of fifty dollars (\$50) per day for each violation.

22. The Railroad Company shall light the space beneath any superstructure which it shall erect across streets and the approaches to stations, within the limits of The City of New York, in a manner which shall be satisfactory to the Board of Estimate and Apportionment.

23. During the term of this grant the rate of fare upon said railroad within the limits of The City of New York, as now fixed, shall not exceed five cents for any passenger. The said company shall not charge any passenger more than such sum for one continuous ride from any point on said railroad, or a line or branch operated in connection therewith, and controlled by it, to any point thereof or of any such connecting line, or branch thereof, within the present limits of The City of New York during such term. The New York and Port Chester Railroad Company shall operate cars over the route hereby authorized, and shall not operate cars over the route of any other railroad company within the present limits of The City of New York until it shall have received authority for such operation from the Board of Estimate and Apportionment, and it shall not, without like authority, permit any other company within the present limits of The City of New York to run cars over the railroad hereby authorized. The Board of Estimate and Apportionment reserves the right to fix the compensation to be paid for such privilege to The City of New York by such other company as shall be authorized to run cars over the route hereby authorized, and said Board further reserves the right to fix the compensation to be paid to The City of New York by the New York and Port Chester Railroad Company for the privilege of operating cars over the route of any other railroad company within the present limits of The City of New York.

Whenever the New York and Port Chester Railroad Company shall have entered into a contract with another railroad company within the limits of The City of New York permitting the cars of such other company to run over the route hereby authorized, in pursuance of authority from the Board of Estimate and Apportionment, or its successors in authority, the Board of Estimate and Apportionment may prescribe the maximum fare which may be charged by either company within the limits of The City of New York during the continuance of such contract to a passenger desiring to make a continuous trip in either direction between any point on the railroad of the New York and Port Chester Railroad Company and any point on the railroad of such other railroad company within the present limits of The City of New York. For their refusal to comply with the requirements of this section, the corporation so refusing shall forfeit fifty dollars (\$50) to the aggrieved party. Two or more penalties may be recovered in one action.

The rates for carrying of property upon the routes of the Railroad Company within the present limits of The City of New York shall, in all cases, be reasonable in amount, and shall be subject to the control of the Board of Estimate and Apportionment, or its successors in authority, and may be fixed by such Board after notice and hearing to the Railroad Company, and when so fixed such rate shall be binding upon the Railroad Company, its successors or assigns, and no greater sums shall be charged for such service than provided for by said Board of Estimate and Apportionment.

24. The said Railroad Company shall carry free within the present limits of The City of New York during the existence of this grant members of the Police and Fire Departments of The City of New York, when such employees are in full uniform.

25. The said railway shall be constructed, maintained and operated subject to the supervision and control of all the authorities of The City of New York who have jurisdiction in such matters, under the Charter of the City.

26. In case of any violation or breach or failure to comply with any of the provisions herein contained this grant may be forfeited and avoided by The City of New York by a suit brought by the Corporation Counsel, provided that in case of any such violation, breach or failure to comply with any of said provisions the said City shall cause notice in writing thereof to be served upon said company, and said company shall remedy such violation, breach or failure within ten (10) days thereafter, and in default thereof, then, and not otherwise, said right of forfeiture shall accrue and may be enforced by the said City; provided, further, that if the said Railroad Company, grantee hereunder, shall within said ten (10) days commence to remedy said violation, breach or failure, and shall prosecute the work of completing such remedy with diligence and with the utmost practicable dispatch until the same shall be completed, then no right of

forfeiture shall accrue. The right of action as herein provided shall not affect or limit any other rights of the City.

27. The grant of this privilege shall not affect in any way the right of The City of New York to grant a similar privilege upon the same or other terms and conditions to any other person or corporation.

28. The Railroad Company shall commence actual construction within one year from the date of the signing of this contract, and shall complete and have in operation a four-track railroad upon the main line, from the northern line of the City to a point at or near the intersection of One Hundred and Seventy-seventh street with the Bronx river, and a railroad of at least two tracks from a point at or near the intersection of One Hundred and Seventy-seventh street with the Bronx river to the southerly terminus as aforesaid at or near the intersection of Southern Boulevard with Willis avenue, and a railroad on the branch line of at least two tracks, all within five years from the date of the signing of this contract, otherwise this grant shall cease and determine.

The Board of Estimate and Apportionment may require the construction of two additional tracks on that portion of the route between One Hundred and Seventy-seventh street and the southerly terminus, as aforesaid, at or near the intersection of Southern Boulevard and Willis avenue so as to make a railroad of four tracks on such portion of the route, whenever public convenience and necessity shall require the construction thereof; and in case the construction of such two additional tracks is so required by the Board of Estimate and Apportionment, the Railroad Company shall complete the construction thereof within five (5) years after such requirement, otherwise this grant may be forfeited; and the Railroad Company is hereby authorized to construct a railroad of four tracks on the entire route authorized by this contract; if, in its judgment, public convenience and necessity shall require the construction thereof.

The Railroad Company shall actually expend or cause to be so expended the sum of at least eight hundred thousand dollars (\$800,000) within two years after the date of the signing of this contract, upon the actual construction of said railroad between the northern line of The City of New York and Westchester avenue, at or near One Hundred and Sixty-seventh street, and shall also actually expend or cause to be so expended an additional sum of two hundred thousand dollars (\$200,000) within three years after the date of the signing of this contract, upon the actual construction of the railroad between Westchester avenue as above and Willis avenue at or near the Southern Boulevard, which sums shall be exclusive of any moneys expended for land acquired for the right of way. The reason why The City of New York assents to the difference in the times and amounts for the portions of the railroad north and south of Westchester avenue is that the Railroad Company represents that it is or will be able to procure by private purchase most of its right of way north of such avenue, and will have to resort to condemnation proceedings for its right of way south thereof.

Verified statements of moneys so expended for construction shall be submitted, on demand, to the Comptroller of The City of New York, who shall, after investigation, report to the Board of Estimate and Apportionment his opinion as to whether such sums have been actually expended, and if in the opinion of the said Board an expenditure of the said sum within the time given is not proven, then said Board may declare that this grant has ceased and determined, and the said action of said Board shall be prima facie evidence of said forfeiture.

Any portion of the route covered by this grant which shall not be completed and in full operation within said five years from the date of the signing of this contract shall be deemed to have been abandoned, and all rights hereby granted in and to such route shall cease and determine, and in such case, all structures erected by the Railroad Company, its successors or assigns, upon any portion of the route so forfeited within the lines of any street within said City, shall become the property of The City of New York.

A majority vote of the members of the Board of Estimate and Apportionment shall be prima facie evidence in regard to the forfeiture of any or all the rights under this grant, as provided for in this section. Before action is taken by the Board of Estimate and Apportionment, under the provisions of this section, the Railroad Company shall have at least thirty (30) days' notice of the intention of said Board to take action, and at such time as is appointed shall be allowed a hearing.

The Board of Estimate and Apportionment shall extend the time provided for in this section for the completion of the railroad and for the work to be performed and expenditures to be made, as above, for a period or periods not exceeding in the aggregate two years if the reasons given by the Railroad Company for non-fulfillment are for causes over which the Railroad Company had no control and was in nowise responsible.

29. The Railroad Company shall assume all liability by reason of the construction and operation of the railroad, and the City shall assume no liability whatsoever to either persons or property by reason of said construction, maintenance or operation, and the Railroad Company hereby agrees to indemnify and save harmless the said City from all liability whatsoever by reason of the construction, maintenance and operation of said railroad.

As a condition of this grant, the Railroad Company, its successor or assigns, hereby agrees to repay to the City any damages which the City shall be compelled to pay by reason of any acts or defaults of the Railroad Company, its successor or assigns.

30. Any portion of the right of way of the said Railroad Company falling within the lines of a street now shown on the map of The City of New York, which it may be necessary for the City to subsequently acquire, shall be ceded to the City, without cost to it, subject to the company's easement therein.

31. The Railroad Company shall not operate cars over any extension of any length whatsoever within the present limits of The City of New York not specifically hereby authorized, and shall not make any connection within the present limits of The City of New York with any other railroad, either by means of extensions or branches or by means of a platform building, unless it shall have received authority therefor from said Board of Estimate and Apportionment or its successors in authority, and upon such terms as shall be fixed by the Board. In the event that the provisions of this section cause a conflict because of the lawful right of any other railroad to compel a connection with the Railroad Company, the City agrees that it may be made a party to any legal proceedings between the said companies and its rights and duties therein determined.

32. In case any of the streets as now shown on the map of The City of New York and crossed by the said railroad above grade are altered or widened after the Railroad Company has completed its railroad, and such widening requires the alteration of the superstructure of the railroad, the Railroad Company and The City of New York shall each pay one-half of the cost of such alteration as may be necessary.

33. In case the route as laid out shall make it necessary, in the opinion of the Board of Esti-

mate and Apportionment, to change the map of The City of New York in order to avoid impracticable, unnecessary or undesirable crossings, purely by reason of the location of the railroad, and by reason of such change additional or substitute streets crossing the railroad are determined upon, then the Railroad Company shall pay to the City the additional cost thus made necessary, or may, at its own expense, acquire the lands necessary and cede them to the City without cost, provided, however, that the lands so to be acquired or paid for shall not extend more than 400 feet upon each side of said railroad.

34. Any alterations which may be required to the sewerage or drainage system, or to any sub-surface structures, pipes, etc., laid in the streets, on account of the construction or operation of the railroad, shall be made at the sole cost of the Railroad Company and in such manner as the proper City officials may prescribe.

35. In case the Board of Estimate and Apportionment shall, in order to avoid impracticable, unnecessary and undesirable crossings purely on account of the location of the railroad, within one year from the date of the signing of this contract, adopt a map or a change in the map laying out a street or streets bounding or adjoining the right of way of the Railroad Company, on either or both sides thereof, from the easterly line of the White Plains road to the northerly line of the City, or any part thereof, then the Railroad Company shall acquire the lands necessary for such streets and cede them to the City without cost, or will pay to the City the cost of acquiring such lands, provided that it shall not be required to acquire and cede or pay for an amount of land which in the aggregate will exceed a strip fifty feet in width and in length the distance between the easterly side of White Plains road and the northerly line of the City. The Railroad Company, at its own expense, shall regulate and grade said strips of land to such grade as shall be hereafter fixed by the City authorities, such regulating and grading to be done, from time to time, as directed by the Board of Estimate and Apportionment. On notice to the City by the Railroad Company that said Railroad Company cannot acquire such lands, the City covenants to use all possible diligence in acquiring the actual possession of the lands necessary for such streets to the end that the Railroad Company may regulate and grade the same while it is grading its railroad within the present limits of The City of New York.

36. All construction of railroad crossings shall be done in such manner as shall not substantially interfere with the ordinary use of any street as a public highway, and all streets in any way disturbed by such construction shall be restored to their original condition. In case of failure on the part of the Railroad Company to restore such streets within a reasonable length of time, The City of New York shall have the right, under resolution of the Board of Estimate and Apportionment, to cause the work to be done and the materials to be furnished after due notice and shall collect the reasonable cost thereof from the fund hereinafter provided.

37. The company's property and structures within the present limits of The City of New York shall not be used for advertising purposes in any way, under a penalty of fifty dollars (\$50) per day for each offense. Such restriction shall not apply to stations or cars nor to the interior of fences or walls.

38. The City, the Board and all duly authorized representatives of the City shall have the right at all reasonable times, as well during construction as afterwards, to inspect the railroad and any part thereof, and to enter thereon when necessary for the examination, supervision or care of any property of the City or of abutting property owners or for any proper purpose. Nothing in this contract shall be deemed to diminish or affect the sanitary or police jurisdiction which the public authorities shall lawfully have over property in the City.

39. The Railroad Company shall deposit with the Comptroller, within six months after the date of signing this contract, the sum of \$100,000, either in money or in securities to be approved by him, which fund shall be security for the construction of the road authorized hereby, and which the Railroad Company is under obligation to construct, and said fund shall be repaid to the Railroad Company only as hereby specified. If the City exercises its option to require the construction of the additional two tracks south of One Hundred and Seventy-seventh street, the Railroad Company shall, within three months after notification thereof, make a like deposit of \$25,000 as security for such construction. Whenever and as often as the Railroad Company shall have actually constructed one mile of single track, a certificate showing the construction of such track shall be prepared by the engineer of the Railroad Company, and such certificate shall be delivered to the Board of Estimate and Apportionment. The said Board shall, as soon as practicable thereafter, verify the correctness of such certificate and either accept such certificate as correct, or if it finds it to be incorrect, return said certificate to the Railroad Company, specifying in writing the respects in which it finds such certificate to be incorrect. Upon the verification of the correctness of any such certificate, or if any such certificate shall be found to be incorrect, upon its being corrected, and subsequently verified, the said Board of Estimate and Apportionment shall thereupon prepare and certify a voucher in due form for payment to said company of the sum of \$2,500, and the amount so certified by said Board shall be forthwith paid by said Comptroller from said fund to the Railroad Company, upon the construction of the said mile of single track. This procedure shall be followed by the Railroad Company and by said Comptroller as often as the Railroad Company shall construct an additional mile of single track.

Upon the completion of the construction of the entire track authorized hereby, which the Railroad Company shall remain under obligation to construct, a final certificate shall be prepared by the engineer of said company and approved by the president thereof, showing the fact of such completion and the fact that the road is ready for operation. Such final certificate shall be delivered to the said Board of Estimate and Apportionment of The City of New York, and shall be subject to a like verification as the certificate hereinbefore mentioned. Upon the verification of the correctness of such final certificate, or if such final certificate shall be found to be incorrect, upon being corrected the said Board of Estimate and Apportionment shall thereupon prepare and certify a voucher in due form for the payment by the Comptroller to the said company of the balance of said funds remaining in his hands.

If such final certificate, certifying to the completion of the entire construction of the road, which the Railroad Company shall be under obligation to construct, shall not be delivered to the Board of Estimate and Apportionment on or before the expiration of the time at which the Railroad Company shall be under obligation to complete the road, under and in pursuance of the terms and conditions of this contract, and if the construction of the entire road authorized hereby, which the Railroad Company shall be under obligation to construct, shall not have been completed by said time, the balance of said fund shall be forthwith delivered by the Comptroller of The City of New York and thereafter said company shall have no claim or cause of action therefor.

The word completion, as used herein, shall include the laying of tracks, electrical conductors and all structures necessary to the operation of trains over the route authorized hereby, and which the Railroad Company shall be under obligation to construct and shall include also such street bridges or other structures as the company is required hereby to make, and such final certificate shall include proof that all of the antecedent acts required by this contract have been performed by said company, in so far as their completion is required hereby.

40. This grant is upon the express condition that within thirty days after the date of the signing of this contract and before anything is done in exercise of the rights conferred thereby, the Railroad Company shall deposit with the Comptroller of The City of New York the sum of twenty-five thousand dollars (\$25,000), either in money or in securities, to be approved by him, which fund shall be security for the performance by the Railroad Company of all the terms and conditions of this contract, especially those which relate to the payment of the annual charge for the franchise granted, in default of which payment of the annual charge, the Comptroller, acting in behalf of the City, shall collect same with interest from such fund after five days' notice in writing to the president of said company. In case of failure of the said company to comply with any of the terms of this contract, or its neglect or refusal to comply with any demand or direction of the Board of Estimate and Apportionment, or other municipal officials, made pursuant to the terms of the contract, or under the authority of any laws or ordinances now or hereafter in force, in such case and in any of these events, if no other money penalty is provided therefor, the said company shall pay to the Comptroller of The City of New York a penalty of \$50 for each violation; and in case of any violation of the provisions of this contract for which money penalties are provided, the said company shall pay to the Comptroller of said City the penalties so provided.

The procedure for the imposition and collection of penalties provided in this contract shall be as follows:

The Comptroller of The City of New York, on complaint made, shall, in writing, notify said company through its president to appear before him on a certain day not less than ten days after the date of such notice, to show cause why it should not be penalized in accordance with the foregoing provisions. If said company fail to make an appearance or, after a hearing, appear in the judgment of the Comptroller to be in fault, said Comptroller shall forthwith impose the prescribed penalty, and without legal procedure withdraw the amount of such penalty from the security fund deposited with him. In case of any drafts made upon the security fund, the said company shall, upon ten days' notice in writing, pay to the Comptroller of The City of New York a sum sufficient to restore said security fund to the original amount of \$25,000 and in default thereof the said company shall pay to the Comptroller of The City of New York the sum of one hundred dollars for each day of such default in addition to the amount necessary to restore said fund to the original amount of \$25,000. No action or proceeding or rights under the provisions of this contract shall affect any other legal rights, remedies or causes of action belonging to The City of New York.

The right of the City to collect any penalties imposed for non-compliance with the terms of this contract, or with any law or ordinance now in force or hereafter adopted, shall not be limited to the said sum of \$25,000, and the enumeration or reservation of any rights by the City herein shall not operate to the exclusion of any other rights belonging to the City, either in law or at equity. Nor shall the imposition of any penalty by the terms of this contract interfere with or diminish the right of the City specifically to enforce any of the terms or conditions of this contract.

41. If the Railroad Company, its successors and assigns, shall fail to give efficient public service at the rates herein fixed, or fail to maintain its structures and all street crossings within the present limits of The City of New York in good condition throughout the full term of its occupancy of said streets, the Board of Estimate and Apportionment of the City may give written notice to said Company specifying any default on the part of said Company, and requiring the said Company to remedy the same within a reasonable time, and upon the failure of the said Company to remedy its said fault within a reasonable time said Company shall for each day thereafter during which said fault or defect remains pay to The City of New York the sum of two hundred and fifty dollars (\$250) as fixed and liquidated damages, or the said City in case said structures over or under streets shall not be put in good condition within a reasonable time after notice by the Board as aforesaid, shall have the right to make all needed repairs at the expense of the Company, in which case the said Company shall pay to the City the amount of the cost of such repairs, with legal interest thereon; all of which sums may be deducted from the fund hereinbefore provided.

42. The Railroad Company promises, covenants and agrees on its part and behalf to conform to and abide by and perform all the terms, conditions and requirements in this contract fixed and contained.

In witness whereof the party of the first part, by its Mayor, thereunto duly authorized by the Board of Estimate and Apportionment of said City, has caused the corporate name of said City to be hereunto signed, and the corporate seal of said City to be hereunto affixed, and the party of the second part, by its officers, thereunto duly authorized, has caused its corporate name to be hereunto signed, and its corporate seal to be hereunto affixed, the day and year first above written.

## PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

### NOTICE TO CONTRACTORS.

### GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
