#### Rector Street Section, North River.

The work at this section is being done under authorization of the Commissioner of Docks of December 16, 1903, and is at the cost and expense of the owners of the property to be improved. During the quarter cobble and riprap have been inspected and deposited in rear of the bulkhead wall. Pier (old) 7 is being removed and a temporary approach is being built to Pier (new) 7.

#### Cedar Street Section, North River.

By action of the Commissioner of Docks of December 10, 1902, a section of the bulkhead wall was authorized in the vicinity of Cedar street, extending from the middle of the block between Carlisle and Albany streets northerly to a point about 40 feet southerly of the northerly line of Cedar street. This work includes the removal of the old structures and Piers (old) 13 and 14, together with the sheds thereon. The building of the wall proper was practically completed during the prior quarter, and during the present quarter joints in the granite have been pointed.

A pier to be known as Pier 11 had been finished by the Department force as far as it was intended at the time, and a ferry rack was constructed at the outer end of the pier preparatory to the work to be done by the Central Railroad Company of New Jersey on its new ferry. During the quarter just past the Department force has done some further work in the construction of this pier made possible by the removal of the old ferry rack at this locality.

#### Piers (New) 20 and 21, North River.

These piers are being extended out to the pierhead line by the force of the Department for the Erie Railroad Company, and the work has been in progress during the quarter.

#### Pier (New) 40, North River.

Large property interests in this vicinity have in the past been acquired and extensive work done towards the construction of the wall, until at the present time the wall proper has been practically completed for the entire length of the section. The actual wharfage room made during the quarter is 2,025 linear feet. Fire walls have been built across the platforms between Fifteenth and Sixteenth and between Seventeenth and Eighteenth streets. The companies affected by this fire immediately started to rebuild the destroyed structures, and during the quarter the work has been in progress. The charred timbers have been removed and the pier at Twenty-second street has been repaired. A temporary approach to the ferry has been built and a fire wall has been built across the pier at Twenty-second street.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done.
