Whereas, In a communication under date of April 29, 1904, copy of which is made part hereof, the Superintendent of Buildings for the Borough of Manhattan, writing to the President of the Borough of Manhattan, sets forth conditions and submits matters and suggestions relating to the conduct and organization of his bureau, which deserve and should receive more than passing consideration; and

Whereas, The increased detail work of said bureau, the more or less recent unfortunate events which it has experienced, the anticipated increase in building operations and the protection of business and realty interests, let alone the better protection

and safety of the community at large, demand a more drastic application of the provisions of the Building Code, and such other legal requirements surrounding the construction of buildings, and make it necessary that the Bureau of Buildings, in its operating office and otherwise, be made more effective and raised to a plane befitting The City of New York; therefore

Resolved, That the Superintendent of the Bureau of Buildings be and he is hereby authorized to prepare a comprehensive plan for the reorganization of said bureau, the salient points of which shall be:

1st. A numerical increase in the force of Inspectors commensurate with the needs of said bureau.

2d. The laying out of inspection districts, which shall cover reasonable territory, and in and for which an Inspector may be held to account for transgressions of the building rules and regulations.

3d. More reasonable compensation for Inspectors, so that the head of the bureau may be enabled to procure the services of the best informed, in relation to building requirements.

4th. A system of examinations under which appointments are to be made which will bring to the service practical and experienced men, rather than men whose qualifications are theoretical and academic.

Resolved, That when such plan shall have been prepared, the Board of Estimate and Apportionment be and hereby is requested to take under advisement and allow such additional and necessary appropriation as will be required to carry its provisions into effect.

Resolved further, That upon the adoption of said plan, the Municipal Civil Service Commission be and hereby is requested to modify or amend the rules, classification and examinations for appointments to positions in the Bureau of Buildings, so that the same may accord with the ideas hereinbefore set forth, and that, where necessary, the Municipal Civil Service Commission invoke the aid and approval of the State Civil Service Commission thereto.

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, the names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York, is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures. Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
