Jeff Mulligan, Executive Director

REGULAR MEETING
TUESDAY MORNING, JANUARY 8, 2013
10:00 A.M.

Present: Chair Srinivasan, Vice-Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez.

SPECIAL ORDER CALENDAR

743-59-BZ
APPLICANT – Peter Hirshman for VM 30 Park, LLC, owner.
SUBJECT – Application June 14, 2012 – Extension of Term of a previously approved variance (Section 7e 1916 zoning resolution and MDL Section 60 (1d)), which permitted 20 attended transient parking spaces, which expired on June 14, 2011; Waiver of the Rules. R10/R9X zoning district.
PREMISES AFFECTED – 30 Park Avenue, southwest corner of East 36th Street and Park Avenue. Block 865, Lot 40. Borough of Manhattan.
COMMUNITY BOARD #6M
ACTION OF THE BOARD – Application granted on condition.
THE VOTE TO GRANT –
Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5
Negative:.....0
THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure, a re-opening and an extension of term for a previously granted variance to allow transient parking in an accessory garage, which expired on June 14, 2011; and

WHEREAS, a public hearing was held on this application on November 27, 2012, after due notice by publication in *The City Record*, and then to decision on January 8, 2013; and

WHEREAS, Community Board 6, Manhattan, states that it has no objection to this application, but requests that the term be limited to five years; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, the subject site is located on the southwest corner of Park Avenue and East 36th Street, partially within an R10 zoning district and partially within an R9X zoning district; and

WHEREAS, the site is occupied by a 20-story residential building; and

WHEREAS, the first floor, cellar, and sub-cellar are occupied by an accessory garage, with 45 spaces at the first floor, 48 spaces at the cellar level, and 49 spaces at the sub-cellar level; and

WHEREAS, on July 12, 1960, under the subject calendar number, the Board granted an application pursuant to Section 60(1)(d) of the Multiple Dwelling Law ("MDL"), to permit a maximum of 20 surplus parking spaces to be used for transient parking, for a term of 21 years; and

WHEREAS, subsequently, the grant was amended and the term extended at various times; and

WHEREAS, most recently, on October 30, 2001, the Board granted a ten-year extension of term, which expired on June 14, 2011; and

WHEREAS, in response to concerns raised by the Community Board, the applicant submitted revised plans reflecting that the signage on the site will be modified to comply with C1 district regulations, and the applicant states that the hours of illumination of the signage will be limited to 7:00 a.m. to 10:00 p.m.; and

WHEREAS, based upon its review of the record, the Board finds that the requested extension of term is appropriate with certain conditions set forth below.

Therefore it is Resolved that the Board of Standards and Appeals *waives* the Rules of Practice and Procedure, *reopens* and *amends* the resolution pursuant to Section 60(1)(d) of the MDL, said resolution having been adopted on July 12, 1960, as subsequently extended, so that as amended this portion of the resolution shall read: "granted for a term of ten (10) years from June 14, 2011, to expire on June 14, 2021; *on condition* that all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked 'Received June 14, 2012' – (2) sheets and 'October 15, 2012'-(1) sheet; and *on further condition*;

THAT this term will expire on June 14, 2021;

THAT the number of daily transient parking spaces will be no greater than 20;

THAT all residential leases will indicate that the spaces devoted to transient parking can be recaptured by residential tenants on 30 days notice to the owner;

THAT a sign providing the same information about tenant recapture rights be placed in a conspicuous place within the garage;

THAT the above conditions will be listed on the certificate of occupancy;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT the layout of the parking garage shall be as approved by the Department of Buildings;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted."
(DOB Application No. 102136886)

Adopted by the Board of Standards and Appeals, January 8, 2013.

165-91-BZ
APPLICANT – Law Offices of Stuart A. Klein, for United Talmudical Academy, owner.
SUBJECT – Application August 17, 2012 – Extension of Term of approved Special Permit (§73-19) which permitted the construction and operation of a school (UG 3) which expires on September 15, 2012. M1-2 zoning district.
PREMISES AFFECTED – 45 Williamsburg Street West, aka 32-46 Hooper Street, Block 2203, Lot 20, Borough of Brooklyn.
COMMUNITY BOARD #1BK
ACTION OF THE BOARD – Application granted on condition.
THE VOTE TO GRANT –
Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5
Negative:.....0
THE RESOLUTION –

WHEREAS, this is an application for a reopening and an extension of the term for a previously granted special permit for the operation of a school within an M1-2 zoning district, which expired on September 15, 2012; and

WHEREAS, a public hearing was held on this application on December 4, 2012, after due notice by publication in *The City Record*, and then to decision on January 8, 2013; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson and Commissioner Montanez; and

WHEREAS, Community Board 1, Brooklyn, recommends approval of this application; and

WHEREAS, the site is located on an irregularly-shaped corner lot bounded by Hooper Street to the west, Wythe Avenue to the north, and Williamsburg Street West to the east, within an M1-2 zoning district; and

WHEREAS, the site is occupied by a one-story and mezzanine school building; and

WHEREAS, on September 15, 1992, under the subject calendar number, the Board granted a special permit pursuant to ZR § 73-19 to permit the construction of a school within the subject M1-2 zoning district for a term of 20 years, which expired on September 15, 2012; and

WHEREAS, the applicant now seeks to extend or eliminate the term of the variance; and

WHEREAS, the Board notes that no term is required under ZR § 73-19, and considers the elimination of the term appropriate for the site; and

WHEREAS, in response to the concerns raised by the Board, the applicant submitted revised plans reflecting the existing rooftop play area on the building; and

WHEREAS, based upon its review of the record, the Board finds the elimination of the term is appropriate with certain conditions as set forth below.

Therefore it is Resolved that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated September 15, 1992, so that as amended this portion of the resolution shall read: "to grant approval of the elimination of the term of the variance; *on condition* that any and all work shall substantially conform to drawings filed with this application marked 'Received August 17, 2012'-(7) sheets and 'December 24, 2012'-(1) sheet; and *on further condition*:

THAT a new certificate of occupancy will be obtained by January 8, 2014;

THAT all conditions from the prior resolution not specifically waived by the Board remain in effect; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted."

Adopted by the Board of Standards and Appeals, January 8, 2013.

107-06-BZ
APPLICANT – Rothkrug Rothkrug & Spector LLP, for Barbizon Hotel Associates, LP, owner; Equinox 63rd Street, Inc. lessee.
SUBJECT – Application September 14, 2012 – Amendment to previously granted Special Permit (§73-36) for the increase (693 square feet) of floor area of an existing Physical Culture Establishment (*Equinox)*. C10-8X/R8B zoning district.
PREMISES AFFECTED – 140 East 63rd Street, southeast corner of intersection of East 63rd Street and Lexington Avenue, Block 1397, Lot 7505, Borough of Manhattan.
COMMUNITY BOARD #8M
ACTION OF THE BOARD – Application granted on condition.
THE VOTE TO GRANT –
Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5
Negative:.....0
THE RESOLUTION –

WHEREAS, this is an application for a reopening and an amendment to a previously granted special permit for a physical culture establishment ("PCE"), to permit a 693 sq. ft. expansion of the PCE; and

WHEREAS, a public hearing was held on this application on December 11, 2012, after due notice by publication in *The City Record*, and then to decision on January 8, 2013; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Vice-Chair Collins and Commissioner Montanez; and

WHEREAS, Community Board 8, Manhattan, recommends approval of this application; and

WHEREAS, the subject site is located on the southeast corner of Lexington Avenue and East 63rd Street, partially within a C1-8X zoning district and partially within an R8B

zoning district; and

WHEREAS, the applicant notes that, because more than 50 percent of the lot area is located in the C1-8X zoning district and the greatest distance from the district boundary to any lot line does not exceed 25 feet, the C1-8X zoning district regulations may apply to the entire site, pursuant to ZR § 77-11; and

WHEREAS, the site is occupied by a 22-story mixed-use commercial/residential building; and

WHEREAS, the PCE occupies 18,471 sq. ft. of floor area on the first and second floors, with an additional 19,738 sq. ft. of floor space located on the sub-cellar and cellar levels; and

WHEREAS, the Board has exercised jurisdiction over the subject site since February 27, 2007 when, under the subject calendar number, the Board granted a special permit for the operation of a PCE at the subject site; and

WHEREAS, the applicant now requests an amendment to permit an expansion of the PCE use to an additional 693 sq. ft. of floor area, for a total PCE floor area of 19,164 sq. ft.; and

WHEREAS, the applicant states that the PCE will be expanded into an existing vacant space on the first floor which will be used as a pilates studio and will be accessed from a new opening created within the existing facility; and

WHEREAS, the applicant further states that the proposed expansion will not result in any new storefront space or signage; and

WHEREAS, based upon its review of the record, the Board finds that the requested amendment to the grant is appropriate with certain conditions as set forth below.

Therefore it is Resolved that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated February 27, 2007, so that as amended this portion of the resolution shall read: "to permit a 693 sq. ft. expansion of the PCE on the first floor; *on condition* that any and all work shall substantially conform to drawings filed with this application marked 'Received December 24, 2012'- (1) sheet; and *on further condition*:

THAT the term of this grant will expire on February 27, 2017;

THAT there will be no change in ownership or operating control of the PCE without prior approval from the Board;

THAT all conditions from the prior resolution not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted."
(DOB Application No. 104405038)

Adopted by the Board of Standards and Appeals, January 8, 2013.

39-65-BZ
APPLICANT – Eric Palatnik, P.C., for SunCo. Inc. (R & M), owners.

R3-1 zoning district.
PREMISES AFFECTED – 204-18 46th Avenue, south side of 46th Avenue 142.91' east of 204th Street. Block 7304, Lot 17, Borough of Queens.
COMMUNITY BOARD #11Q
ACTION OF THE BOARD – Laid over to February 5, 2013, at 10 A.M., for decision hearing closed.

189-03-BZ
APPLICANT – Eric Palatnik, P.C., for 830 East 233rd Street Corp., owner.
SUBJECT – Application November 21, 2011 – Extension of Term of a previously granted special permit (§73-211) for the continued operation of an automotive service station (*Shell*) with an accessory convenience store (UG 16B) which expires on October 21, 2013; Extension of Time to obtain a Certificate of Occupancy which expired on October 21, 2008; Waiver of the Rules. C2-2/R-5 zoning district.
PREMISES AFFECTED – 836 East 233rd Street, southeast corner of East 233rd Street and Bussing Avenue, Block 4857, Lot 44, 41, Borough of Bronx.
COMMUNITY BOARD #12BX
ACTION OF THE BOARD – Laid over to February 12, 2013, at 10 A.M., for decision, hearing closed.

136-06-BZ
APPLICANT – Law Office of Fredrick A. Becker, for Fulton View Realty, LLC, lessee.
SUBJECT – Application August 24, 2012 – Extension of Time to complete construction of a previously approved variance (§72-21) which permitted the residential conversion and one-story enlargement of three, four-story buildings. M2-1 zoning district.
PREMISES AFFECTED – 11-15 Old Fulton Street, between Water Street and Front Street, Block 35, Lot 7, 8 & 9, Borough of Brooklyn.
COMMUNITY BOARD #2BK
THE VOTE TO CLOSE HEARING –
Affirmative: Chair Srinivasan, Vice Chair Collin, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez.....5
Negative:.....0
ACTION OF THE BOARD – Laid over to January 29, 2013, at 10 A.M., for decision, hearing closed.

197-08-BZ
APPLICANT – Stuart Klein, Esq., for Carroll Gardens Realty, LLC, owner.
SUBJECT – Application April 27, 2012 – Amendment to an approved variance (§72-21) to permit a four-story and penthouse residential building, contrary to floor area and open space (§23-141), units (§23-22), front yard (§23-45), side yard (§23-462), and height (§23-631). Amendment seeks to reduce the number of units and parking and increase the size of the rooftop mechanical equipment. R4 zoning district.
PREMISES AFFECTED – 341-349 Troy Avenue aka 1515 Carroll Street, north east corner of Troy Avenue and Carroll Street, Block 1407, Lot 1, Borough of Brooklyn.
COMMUNITY BOARD #9BK
ACTION OF THE BOARD – Laid over to February 26, 2013, at 10 A.M., for adjourned hearing.

208-08-BZ
APPLICANT – Law Office of Fredrick A. Becker, for Desiree Eisenstadt, owner.
SUBJECT – Application October 25, 2012 – Extension of Time to Complete Construction of an approved special permit (§73-622) to permit the enlargement of an existing single family residence which expired on October 28, 2012. R2 zoning district.
PREMISES AFFECTED – 2117-2123 Avenue M, northwest corner of Avenue M and East 22nd Street, Block 7639, Lot 1 &3(tent.1), Borough of Brooklyn.
COMMUNITY BOARD #14BK
THE VOTE TO CLOSE HEARING –
Affirmative: Chair Srinivasan, Vice Chair Collin, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez.....5
Negative:.....0
ACTION OF THE BOARD – Laid over to January 29, 2013, at 10 A.M., for decision, hearing closed.

APPEALS CALENDAR

255-84-A
APPLICANT – Gary Lenhart, R.A., for The Breezy Point Cooperative, Inc., owner.
SUBJECT – Application May 23, 2012 – Proposed enlargement of a community center (*Administration Security Building*) located partially in the bed of the mapped Rockaway Point Blvd, contrary to Article 35 of the General City Law. R4 zoning district.
AFFECTED PREMISES – 95 Reid Avenue, East side Reid Avenue at Rockaway Point Boulevard. Block 16350, Lot p/o300. Borough of Queens.
COMMUNITY BOARD #14Q
ACTION OF THE BOARD – Application granted on condition.
THE VOTE TO GRANT –
Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5
Negative:.....0
THE RESOLUTION –
WHEREAS, the decision of the Queens Borough Commissioner, dated May 4, 2012, acting on Department of Buildings Application No. 420372698, reads in pertinent part:
A1- The existing building to be altered lies within the bed of a mapped street contrary to Article 3, Section 35 of the General City Law; and
WHEREAS, a public hearing was held on this application on January 8, 2013, after due notice by publication in the *City Record*, and then to decision on the same date; and
WHEREAS, this is an application to reopen and amend a previously approved GCL 35 to allow for the enlargement of an existing community facility; and
WHEREAS, by letter dated October 25, 2012, the Fire Department states that it has reviewed the subject proposal and has no objections; and
WHEREAS, by letter dated July 27, 2012, the Department of Environmental Protection states that it has no objection to the subject proposal; and
WHEREAS, by letter dated September 12, 2012, the Department of Transportation ("DOT") states that it has no objection to the subject proposal; and
WHEREAS, DOT states that the subject lot is not currently included in the agency's Capital Improvement Program; and
WHEREAS, accordingly, the Board has determined that the applicant has submitted adequate evidence to warrant this approval under certain conditions.
Therefore it is Resolved that the decision of the Queens Borough Commissioner, dated May 4, 2012 , acting on Department of Buildings Application No. 420372698 is modified by the power vested in the Board by Section 35 of the General City Law, and that this appeal is granted, limited to the decision noted above; *on condition* that construction shall substantially conform to the drawing filed with the application marked "Received May 23, 2012"-one (1) sheet; that the proposal shall comply with all applicable zoning district requirements; and that all other applicable laws, rules, and regulations shall be complied with; and *on further condition*:
THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;
THAT DOB will review the proposed plans to ensure compliance with all relevant provisions of the Zoning Resolution;
THAT the approved plans will be considered approved only for the portions related to the specific relief granted;
THAT the community facility shall be provided with interconnected smoke alarms in accordance with the BSA-approved plans;
THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.
Adopted by the Board of Standards and Appeals, January 8, 2013.

95-12-A & 96-12-A
APPLICANT – Fried Frank by Richard G. Leland, Esq., for Van Wagner Communications, LLC.
OWNER OF PREMISES – Calandra LLC.
SUBJECT – Application April 11, 2012 – Appeal from determination of the Department of Buildings regarding right to maintain existing advertising sign. M1-2 zoning district.
PREMISES AFFECTED – 2284 12th Avenue, west side of 12th Avenue between 125th and 131st Streets, Block 2004, Lot 40, Borough of Manhattan.

COMMUNITY BOARD #9M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5

Negative:.....0

THE RESOLUTION –

WHEREAS, the subject appeal comes before the Board in response to two Notice of Sign Registration Rejection letters from the Manhattan Borough Commissioner of the Department of Buildings ("DOB"), dated March 12, 2012, denying registration for two signs at the subject site (the "Final Determinations"), which read, in pertinent part:

> The Department of Buildings is in receipt of additional documentation submitted in response to the Deficiency Letter from the Signs Enforcement Unit and in support of the legal establishment of this sign. Unfortunately, a tax photo of this location during the relevant period shows no sign structure. As such the sign is rejected from registration. This sign will be subject to enforcement action 30 days from the issuance of this letter; and

WHEREAS a public hearing was held on this application on October 30, 2012, after due notice by publication in *The City Record*, with a continued hearing on November 15, 2012, and then to decision on January 8, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson and Commissioner Ottley-Brown; and

WHEREAS, the subject site is located at the west side of 12th Avenue between 125th Street and 131st Street, in an M1-2 zoning district within the Special Manhattanville Mixed Use District; and

WHEREAS, the site is occupied by a two-story building which has two advertising signs located on the roof of the building, one facing north (the "North-Facing Sign") and one facing south (the "South-Facing Sign") (collectively, the "Signs"); and

WHEREAS, on December 31, 2003, DOB issued Permit Nos. 103635210-01-SG and 103635229-01-SG to "replace existing non-conforming illuminated advertising sign" for both the North-Facing Sign and South-Facing Sign (the "2003 Permits"), and on January 2, 2004, DOB issued Permit No. 103634989-01-ET to "repair or rebuilt existing steel structure of existing non-conforming illuminating advertising sign" (collectively, the "Permits"); and

WHEREAS, this appeal is brought on behalf of the lessee of the sign structure (the "Appellant"); and

WHEREAS, the Appellant states that the Signs are rectangular advertising signs each measuring 20 feet in height by 60 feet in length for a surface area of 1,200 sq. ft., with the North-Facing Sign located 40'-5" from the Henry Hudson Parkway and the South-Facing Sign located 41'-10" from the Henry Hudson Parkway; and

WHEREAS, the Appellant states that when the Signs were installed, the site was within an M2-3 zoning district, but that pursuant to a 2007 rezoning, the site is now zoned M1-2 within the Special Manhattanville Mixed use District; and

WHEREAS, the Appellant seeks a reversal of DOB's rejection of the registration of the Signs based on DOB's determination that the Appellant (1) failed to provide evidence of the establishment of the advertising signs and (2) failed to establish that such use has, if established prior to the relevant date, continued without an interruption of two years or more; and

WHEREAS, DOB appeared and made submissions in opposition to this appeal; and

REGISTRATION REQUIREMENT

WHEREAS, the Appellant identifies the relevant statutory requirements related to sign registration in effect since 2005; and

WHEREAS, the Appellant states that under Local Law 31 of 2005, the New York City Council enacted certain amendments to existing regulations governing outdoor advertising signs; and

WHEREAS, the amendments are codified under Articles 501, 502, and 503 of the 2008 Building Code and were enacted to provide DOB with a means of enforcing the sign laws where signs had been erected and were being maintained without a valid permit; and

WHEREAS, pursuant to Article 502 (specifically, Building Code § 28-502.4), an outdoor advertising company is required to submit to DOB an inventory of:

> all signs, sign structures and sign locations located (i) within a distance of 900 linear feet (274 m) from and within view of an arterial highway; or (ii) within a distance of 200 linear feet [60.96 m] from and within view of a public park with an area of ½ acre (5000 m) or more; and

WHEREAS, further, Local Law 31 authorized the Commissioner of DOB to promulgate rules establishing permitting requirements for certain signs; the DOB rules, enacted under Rule 49, provide specific procedures for registration of advertising signs; Rule 49-15(5) reads in pertinent part:

> Each sign shall be identified as either "advertising" or "non-advertising." To the extent a sign is a non-conforming sign, it must further be identified as "non-conforming advertising" or "non-conforming non-advertising." A sign identified as "non-conforming advertising" or "non-conforming non-advertising" shall be submitted to the Department for confirmation of its non-conforming status, pursuant to section 49-16 of this chapter; and

WHEREAS, subchapter B of Rule 49 (Registration of Outdoor Advertising Companies), (specifically, Rule 49-15(d)(15)(b)), sets forth the acceptable forms of evidence to establish the size and the existence of a non-conforming sign

on the relevant date set forth in the Zoning Resolution; and

WHEREAS, the Appellant asserts that the acceptable forms of evidence set forth at Rule 49 are, in pertinent part as follows:

> Acceptable evidence may include permits, sign-offs of applications after completion, photographs and leases demonstrating that the non-conforming use existed prior to the relevant date; and

WHEREAS, the Appellant notes that affidavits are also listed as an acceptable form of evidence; and

WHEREAS, a DOB guidance document sets forth the instructions for filing under Rule 49 and states that any one of the following documents would be acceptable evidence for sign registration pursuant to Rule 49: (1) DOB issued permit for sign erection; (2) DOB-approved application for sign erection; (3) DOB dockets/permit book indicating sign permit approval; and (4) publicly catalogued photograph from a source such as NYC Department of Finance, New York Public Library, Office of Metropolitan History, or New York State Archives; and

REGISTRATION PROCESS

WHEREAS, the Appellant states that on September 1, 2009, pursuant to the requirements of Article 502 and Rule 49, it submitted an inventory of outdoor signs under its control and a Sign Registration Application for the Signs and completed an OAC3 Outdoor Advertising Company Sign Profile, attaching the following documentation: (1) a diagram of the Signs; (2) photographs of the Signs; and (3) the Permits, along with Letters of Completion for each application; and

WHEREAS, on October 3, 2011, DOB issued two Notices of Sign Registration Deficiency, stating that it is unable to accept the Signs for registration due to "Failure to provide proof of legal establishment – No proof prior to 2003 rebuild Permit…;" and

WHEREAS, by letter dated January 6, 2012, the Appellant submitted a response to DOB, arguing that the issuance of the 2003 Permits alone, without any further information, is sufficient "proof of legal establishment," and that the Appellant had operated the Signs for more than a decade in reliance on the DOB permits; and

WHEREAS, by letter dated January 30, 2012, the Appellant supplemented its Sign Registration Applications with an affidavit attesting to the uninterrupted and continuing presence and use of the Signs from 1963 until 1989; and

WHEREAS, DOB determined that the additional material submitted was inadequate, and issued the Final Determinations on March 12, 2012; and

RELEVANT STATUTORY PROVISIONS

> ZR § 12-10 *Definitions*
>
> Non-conforming, or non-conformity
>
> A "non-conforming" #use# is any lawful #use#, whether of a #building or other structure# or of a #zoning lot#, which does not conform to any one or more of the applicable #use# regulations of the district in which it is located, either on December 15, 1961 or as a result of any subsequent amendment thereto. . .

ZR § 52-83

Non-Conforming Advertising Signs

In all Manufacturing Districts, or in C1, C2, C4, C5-4, C6, C7 or C8 Districts, except as otherwise provided in Section…42-55, any non-conforming advertising sign except a flashing sign may be structurally altered, reconstructed, or replaced in the same location and position, provided that such structural alteration, reconstruction or replacement does not result in:

(a) The creation of a new non-conformity or an increase in the degree of non-conformity of such sign;
(b) An increase in the surface area of the sign; or
(c) An increase in the degree of illumination of such sign; and

* * *

Building Code § 28-502.4 – Reporting Requirement

An outdoor advertising company shall provide the department with a list with the location of signs, sign structures and sign locations under the control of such outdoor advertising company in accordance with the following provisions:

(1)The list shall include all signs, sign structures and sign locations located (i) within a distance of 900 linear feet (274 m) from and within view of an arterial highway; or (ii) within a distance of 200 linear feet (60 960 mm) from and within view of a public park with an area of ½ acre (5000 m) or more…

* * *

RCNY § 49-15 – Sign Inventory to be Submitted with Registration Application

…(d)(5) Each sign shall be identified as either "advertising" or "non-advertising." To the extent a sign is a non-conforming sign, it must further be identified as "non-conforming advertising" or "non-conforming non-advertising." A sign identified as "non-conforming advertising" or "non-conforming non-advertising" shall be submitted to the Department for confirmation of its non-conforming status, pursuant to section 49-16 of this chapter.

* * *

RCNY § 49-16 – Non-conforming Signs

(a) With respect to each sign identified in the sign inventory as non-conforming, the registered architect or professional engineer shall request confirmation of its non-conforming status from the Department based on evidence submitted in the registration application. The Department shall review the evidence submitted and accept or deny the request within a reasonable period of time. A sign that has been identified as non-conforming on the initial registration application may remain erected unless and until the Department has issued a determination that it is not non-conforming; and

THE APPELLANT'S POSITION

A. Establishment Prior to November 1, 19791 and Continuous Use

WHEREAS, the Appellant contends that the Final Determinations should be reversed because (1) the Signs were established as advertising signs prior to November 1, 1979 and may therefore be maintained as legal non-conforming advertising signs pursuant to ZR § 52-11, and (2) the Signs have operated as advertising signs with no discontinuance of two years or more since their establishment; and

WHEREAS, in support of its assertion that the Signs were established prior to November 1, 1979 and have been in continuous use to the present, the Appellant relies on: (1) a May 24, 1978 lease between the owner of the building and Miller Outdoor Advertising, an outdoor advertising company, which states that Miller had the right to maintain a sign structure on the roof of the building beginning in 1978 (the "1978 Lease"); (2) an Application for Reconsideration dated November 10, 1999 requesting that the Signs be permitted as an existing non-conforming structure and have legal non-conforming use as an advertising sign, and signed off on by the then-Manhattan Borough Commissioner, noting "OK to accept existing roof sign 20 ft. x 60 ft., per ES 234/88 and in continuous use per lease dated May 24, 1978" (the "1999 Reconsideration"); and (3) an affidavit dated January 21, 2012 from Donald Robinson, an employee of various outdoor advertising companies from 1963 through 1989, which states that the Signs were existing in 1963 and that they were being used from 1963 to 1989 as advertising signs (the "Robinson Affidavit"); and

WHEREAS, as to the continuous use of the Signs since November 1, 1979, at the outset DOB states that the Appellant

1 DOB acknowledges that the surface area of the Signs do not exceed 1,200 sq. ft. on their face, 30 feet in height, or 60 feet in length, and therefore the Signs may have legal non-conforming status if erected prior to November 1, 1979 pursuant to ZR § 42-55(c).

has submitted sufficient evidence to demonstrate continuity of the Signs from 1992 through the filing of the subject appeal; and

WHEREAS, accordingly, the Board finds it appropriate to limit its review of the continuity of the Signs to the period from 1979 through 1992, which is the only time period for which DOB has alleged a discontinuance of the Sign for a period in excess of two years, contrary to ZR § 52-61; and

WHEREAS, in support of the existence of the Signs as advertising signs from 1979 through 1992, the Appellant relies on: (1) the 1978 Lease; (2) the 1999 Reconsideration; (3) a 2003 photograph showing advertising copy on the sign structure and a "Miller Outdoor" placard at the bottom of one of the signs (the "2003 Photograph"); (4) an affidavit dated August 10, 2012 from the owner of the site, stating that the Signs continued to be leased to Miller Outdoor Advertising through 2003 under the 1978 Lease (the "Owner's Affidavit"); and (5) the Robinson Affidavit; and

WHEREAS, the Appellant asserts that the 1999 Reconsideration reflects DOB's acknowledgement that the use of the Signs as advertising signs had been legally established prior to November 1, 1979 and continued to be leased under the 1978 Lease until at least 1999; and

WHEREAS, the Appellant contends that the 2003 Photograph, which shows a "Miller Outdoor" placard at the bottom of one of the signs, in combination with the Owner's Affidavit, which states that it assumed the 1978 Lease upon acquisition of the site in 1999 and that the Signs were leased to Miller Outdoor Advertising at the time it took over the site until November 30, 2003 with a continuous advertising display during that time, reflect that the Miller Advertising Company continued to lease the Signs from May 24, 1978 until at least November 30, 2003; and

WHEREAS, the Appellant asserts that DOB's issuance of the 2003 Permits is further evidence that DOB accepted the establishment and continuous use of the Signs since November 1, 1979; and

WHEREAS, a representative of the Appellant provided testimony at the hearing stating that she conducted an extensive search for additional type (a) and (b) evidence pursuant to TPPN 14/1988 (the "TPPN") to prove the continuity of the non-conforming sign, but that no additional evidence was available; and

WHEREAS, as to the Department of Finance ("DOF") tax photograph taken between 1982 and 1987 submitted by DOB (the "1980's DOF Photograph"), which shows no sign structure on the roof of the building and which DOB claims is evidence of discontinuance of the Signs at the site, the Appellant argues that DOB has not provided any proof that the advertising use of the Signs was discontinued for two years or more, and one single photograph from a single moment in time is not in and of itself sufficient to establish discontinuance for a period of two years or more; and

WHEREAS, the Appellant states that pursuant to ZR §§ 42-55 and 52-83, the Signs and supporting sign structure could have been temporarily removed for a period of less than two years in accordance with ZR § 52-61 or replaced without affecting the non-conforming use status of the Signs; and

WHEREAS, the Appellant argues that the temporary removal of the Signs to restore and refurbish the sign structure did not divest them of their legal non-conforming status, and the evidence provided by the Appellant indicates that Miller Outdoor Advertising maintained a lease for the Signs through the 1980's and continued to display advertising copy throughout this time period; and

WHEREAS, the Appellant argues that the subject case is distinguishable from similar cases cited by DOB due to the 1999 Reconsideration, which should be afforded more weight than a DOB-issued permit based on self-certified plans because it reflects that the then-Borough Commissioner reviewed and approved the specific issue of establishment and continuous use of the Signs, and DOB has not provided sufficient evidence to support its conclusion that the 1999 Reconsideration was issued in error, as the only evidence they rely on is the 1980's DOF Photograph which, as noted above, merely reflects the absence of the Signs for one point in time, not for two years continuously; and

B. Ability to Rely on 2003 Permits Alone

WHEREAS, the Appellant asserts that the Signs qualify as non-conforming advertising signs under ZR § 42-55 because the 2003 Permits issued by DOB establish that DOB has already accepted the legal non-conforming status of the Signs; and

WHEREAS, the Appellant further contends that the 2003 Permits specifically provide for the replacement of "existing non-conforming illuminated advertising sign[s]" and DOB has never alleged that the 2003 Permits were issued for anything other than advertising signs; therefore, the fact that DOB issued the 2003 Permits (and the 1999 Reconsideration) establishes that DOB has sufficient evidence that advertising signs have continuously been maintained on the site prior to November 1, 1979; and

WHEREAS, the Appellant asserts that DOB had the opportunity to evaluate the legality of the Signs at the time it issued the 2003 Permits to allow for the repair of the existing advertising signs on the site, and the applicable provisions of the Zoning Resolution have not changed since that time; and

WHEREAS, the Appellant represents that it has relied in good faith on DOB's approval of the Signs, has made investments in maintaining and marketing in reliance on the approvals, and equity does not allow DOB to revise its prior approvals and require the removal of the Signs; and

DOB'S POSITION

A. Establishment of the Signs Prior to November 1, 1979

WHEREAS, DOB contends that the Appellant has failed to provide adequate evidence that the Signs were established as advertising signs prior to November 1, 1979; and

WHEREAS, DOB states that in order to show proof of establishment of the advertising signs under the non-conforming use provisions of ZR § 42-55(c), the Appellant would need to demonstrate that the Signs were installed

prior to November 1, 1979; and

WHEREAS, DOB further states that if the Appellant produced a permit for the Signs prior to November 1, 1979, DOB would accept the Signs as being established prior to the relevant date; further, if the Appellant is unable to produce a permit for the Signs, DOB states that it would also look at additional evidence indicated in RCNY 49(d)(15)(b), including, but not limited to, photographs, affidavits, leases, and receipts which indicate that Signs were installed prior to November 1, 1979; and

WHEREAS, DOB argues that the only evidence the Appellant has produced to show establishment of the Signs prior to November 1, 1979 is the 1978 Lease for "maintenance of a roof sign" and the Robinson Affidavit, which is uncorroborated and questionable at best; and

WHEREAS, DOB contends that the 1999 Reconsideration cannot be relied on for the establishment of the Signs prior to November 1, 1979 because, as discussed in greater detail below, it was issued in error; and

WHEREAS, DOB asserts that the Appellant's evidence of photographs from the 1990's, 2000's, and 2010's, and the 2003 Permits also do not establish that the Signs were erected prior to November 1, 1979; and

WHEREAS, DOB states that, based on the lack of evidence indicating the Signs were installed prior to November 1, 1979, it is unable to conclude that the Signs were established and therefore it cannot consider the Signs to be non-conforming advertising signs, consistent with ZR § 42-55(c); and

B. The Evidence of Continuity Fails to Satisfy the Standard Set Forth in the TPPN

WHEREAS, DOB asserts that even if the Appellant has established the Signs as non-conforming advertising signs, the Appellant must also submit sufficient evidence to establish that the Signs have been continuously used as advertising signs since November 1, 1979, without any two-year period of discontinuance, as required by ZR § 52-61; and

WHEREAS, DOB contends that the Appellant's evidence of continuity of the Signs fails to satisfy the TPPN, which sets forth guidelines for DOB's review of whether a non-conforming use has been continuous; the TPPN includes the following types of evidence, which have been accepted by the Borough Commissioner: (1) Item (a): City agency records; (2) Item (b): records, bills, documentation from public utilities; (3) Item (c): other documentation of occupancy including ads and invoices; and (4) Item (d): affidavits; and

WHEREAS, DOB notes that additional forms of evidence not described in the TPPN are accepted and are given due consideration and weight depending on the nature of the evidence, including the following: (1) a lawfully issued permit from DOB is given substantial weight; (2) other government records, recorded documents and utility bills are generally considered high value evidence; and (3) photographic evidence is also given substantial weight; and

WHEREAS, in contrast, DOB states that uncorroborated testimonial evidence that a sign was established or has existed continuously is not considered sufficient because testimony may be tainted by memory lapses, bias and misperception, and leases and other contracts that are not corroborated by independently verifiable evidence may not be sufficient because they can be fabricated or materially altered and because they do not demonstrate the actual existence of a sign; and

WHEREAS, DOB states that the Appellant has not provided any relevant records from any City agency (Item (a) evidence), except for the 2003 Permits and the 1999 Reconsideration; and

WHEREAS, DOB notes that no public utility bills or records (Item (b) evidence) and no other bills indicating the use of the building (Item (c) evidence) were submitted by the Appellant; and

WHEREAS, DOB states that the only other evidence provided by the Appellant can be categorized as TPPN (d) evidence, including the 1978 Lease (for a term of five years), photographs from 1992, 1996, the multiple photographs from the 2000's, and the multiple photographs from the 2010's, the Owner's Affidavit, and the Robinson Affidavit; and

WHEREAS, DOB acknowledges that the evidence of continuity submitted by the Appellant, specifically the numerous photographs, sufficiently establishes that the Signs were continuously used for advertising from 1992 until the filing of the application; however, DOB asserts that the Appellant has not provided sufficient evidence to show that the Signs were continuously used for advertising without an interruption of two years or more from November 1, 1979 until 1992; and

WHEREAS, as to the 1999 Reconsideration, DOB states that although it gives substantial weight to reconsiderations, if there is evidence that the reconsideration was issued in error, DOB will not rely on it; and

WHEREAS, DOB asserts that the 1999 Reconsideration indicates that the then-Borough Commissioner based the decision solely on the 1978 Lease, and that DOB has now reviewed the lease and deemed it insufficient evidence that the Signs were established prior to November 1, 1979 and continued until at least 1992, particularly in light of the 1980's DOF Photograph which clearly shows that there were no Signs or sign structure on the building at that time; and

WHEREAS, DOB argues that the Appellant has not provided any evidence to explain or rebut the absence of the Signs and sign structure in the 1980's DOF Photograph, and therefore DOB considers the 1999 Reconsideration to have been issued in error; and

WHEREAS, DOB asserts that the only other evidence submitted by the Appellant for this time period is the 1978 Lease, which was only for a term of five years and does not by itself prove that the Sign was in existence during the term of the lease, and the Robinson Affidavit, which is uncorroborated and questionable at best given the fact that the 1980's DOF Photograph clearly shows the lack of Signs or a sign structure; and

WHEREAS, DOB contends that the veracity of the Robinson Affidavit is also questionable because of a similarly questionable affidavit submitted by the same affiant to DOB in

a prior Sign Registration Application denial case, in which the Board upheld DOB's denial for signs at 653 Bruckner Boulevard, Bronx (BSA Cal. Nos. 83-12-A and 84-12-A); and

WHEREAS, DOB states that in the 653 Bruckner Boulevard case the Appellant submitted an affidavit from Mr. Robinson attesting to the display of off-premise advertising signs from 1963 through 1989, just as his affidavit does in this case; however, DOB produced evidence, including a photograph, which clearly indicated that one of the signs was used as an accessory sign during the time period Mr. Robinson claimed that off-premises advertising signs existed at the location; and

WHEREAS, DOB further states that, based on Mr. Robinson's inaccurate affidavit in the 653 Bruckner Boulevard case, and the fact that the 1980's DOF Photograph shows the absence of the Signs or a sign structure on the site, DOB is not able to rely on the Robinson Affidavit; and

WHEREAS, DOB asserts that even if it did find the Robinson Affidavit credible, the submission of affidavits without further corroborating evidence does not establish that the use of the Signs was continuous from November 1, 1979 until 1992 without an interruption of two years; and

WHEREAS, accordingly, DOB concludes that the Appellant has not established that the Signs were continuously used as advertising signs from November 1, 1979 until 1992 without any interruption of two years or more; and

CONCLUSION

WHEREAS, the Board finds that the Appellant has met its burden of establishing that the Signs were established prior to November 1, 1979 and have been in continuous use as advertising signs without any two-year interruption since 1979; and

WHEREAS, as noted above, DOB acknowledges that the Appellant has submitted sufficient evidence to demonstrate continuity of the Signs from 1992 through the filing of the subject appeal; thus, only the establishment of the Signs prior to November 1, 1979 and their continuous use until 1992 are contested; and

WHEREAS, the Board agrees with the Appellant that the 1999 Reconsideration reflects DOB's acknowledgement that the use of the Signs as advertising signs had been legally established prior to November 1, 1979 and that the Signs continued to be leased under the 1978 Lease until at least 1999; and

WHEREAS, the Board finds that the 1999 Reconsideration is compelling and that it should not be disturbed or disregarded as DOB suggests; and

WHEREAS, the Board agrees with the Appellant that the subject case is distinguishable from similar cases cited by DOB because of the 1999 Reconsideration, which should be afforded more weight than a DOB-issued permit based on self-certified plans because it reflects that the then-Borough Commissioner reviewed and approved the specific issue of establishment and continuous use of the Signs; and

WHEREAS, the Board acknowledges the principle that government agencies, like DOB, maintain the ability to correct mistakes and that DOB is not estopped from correcting an erroneous approval of a building permit (see Charles Field Delivery v. Roberts, 66 N.Y. 2d 516 (1985) and Parkview Associates v. City of New York, 71 N.Y.2d 274, cert. denied, 488 U.S. 801 (1988)); however, the Board finds that in this case DOB has not established that the 1999 Reconsideration was issued in error; and

WHEREAS, specifically, DOB states that leases are listed among the type of evidence it considers for establishment of signs under RCNY 49(d)(15)(b), and further states that it categorizes leases as type (d) evidence under the TPPN which was in effect at the time of the 1999 Reconsideration and which sets forth guidelines for DOB's review of whether a non-conforming use has been continuous; and

WHEREAS, the Board notes that the TPPN states that type (d) evidence is acceptable "only after satisfactory explanation or proof that the documentation pursuant to a, b, or c does not exist"; here, the Appellant has submitted type (a) evidence in the form of the 1999 Reconsideration, and a representative of the Appellant provided testimony detailing the extensive search that was conducted for additional type (a) and (b) evidence pursuant to the TPPN and determined that it does not exist; and

WHEREAS, accordingly, the Board finds that even if the then-Borough Commissioner relied solely on the 1978 Lease in approving the 1999 Reconsideration, as DOB claims, DOB has not provided sufficient evidence that the determination was made in error as it acknowledges that leases are among the types of evidence that can be considered for both the establishment and continuous use of the Signs; and

WHEREAS, while DOB may not currently consider a lease, standing alone, to be sufficient evidence of establishment and continuous use of a sign, the Board does not find that to be a sufficient basis to invalidate the 1999 Reconsideration, given that the analysis of what constitutes sufficient evidence of establishment and continuous use is, to a large degree, subjective and based on the totality of the Borough Commissioner's review, and DOB has acknowledged that leases are among the type of evidence that can be considered under RCNY 49(d)(15)(b) as well as the TPPN; therefore it is not clear that the then-Borough Commissioner erred in approving the 1999 Reconsideration; and

WHEREAS, the Board distinguishes the subject facts from cases where the reconsideration at issue was based on an objective interpretation question and where DOB clearly established that the reconsideration was approved in error and should be disregarded; and

WHEREAS, further, the Board disagrees with DOB that merely because the 1999 Reconsideration states "OK to accept existing roof sign 20 ft. x 60 ft., per ES 234/88 and in continuous use per lease dated May 24, 1978," it establishes that the then-Borough Commissioner relied solely on the 1978 Lease in making his determination; rather, it is possible that there was additional evidence that he relied upon but did not memorialize in the hand-written, one-sentence sign-off of the

1999 Reconsideration, and the Board considers the fact that it is unclear whether additional evidence was relied on by the then-Borough Commissioner to weigh in favor of upholding his determination unless it was clearly issued in error; and

WHEREAS, as to DOB's submission of the 1980's DOF Photograph as proof that the 1999 Reconsideration was issued in error, the Board notes that the 1980's DOF Photograph only establishes that the Signs did not exist at that moment in time, and the Board does not find it sufficient, without more, to invalidate the 1999 Reconsideration as it does not prove that the use of the Signs was discontinued for two years or more, and, as noted above, there may have been additional evidence that the then-Borough Commissioner relied upon in approving the 1999 Reconsideration; and

WHEREAS, the Board disagrees with DOB's contention that there is no evidence of the dimensions of the Signs as they existed prior to November 1, 1979, since the 1999 Reconsideration refers to 20'-0" by 60'-0" roof signs; and

WHEREAS, accordingly, the Board finds that the 1999 Reconsideration establishes the existence of the Signs with dimensions of 20'-0" by 60'-0" prior to November 1, 1979 and their continuous use from 1979 through 1992, after which date DOB has accepted that the use of the Signs was continuous.

Therefore it is Resolved that this appeal, challenging a Final Determination issued on March 12, 2012, is granted.

Adopted by the Board of Standards and Appeals, January 8, 2013.

THE RESOLUTION –

WHEREAS, the subject appeal comes before the Board in response to a Notice of Sign Registration Rejection letter from the Borough Commissioner of the Department of Buildings ("DOB"), dated March 12, 2012, denying registration for a sign at the subject site (the "Final Determination"), which reads, in pertinent part:

> The Department of Buildings is in receipt of additional documentation submitted in response to the Deficiency Letter from the Signs Enforcement Unit, and asserting that this sign is not intended to be seen from the arterial and as such has the appropriate non-arterial permit for construction. Unfortunately, the intent of viewing is not relevant in this assessment and as such, the sign is rejected from registration. While we recognize your assertion that the sign was not intended to be visible from arterial, we affirm our rejection. This sign will be subject to enforcement action 30 days from the issuance of this letter; and

WHEREAS a public hearing was held on this application on October 30, 2012, after due notice by publication in *The City Record*, with a continued hearing on November 15, 2012, and then to decision on January 8, 2013; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, the subject site is located on the north side of Canal Street between West Broadway and Thompson Street, within an M1-5B zoning district; and

WHEREAS, the site is occupied by a two-story building with a south-facing sign located on the southern exterior wall of the building on the second floor (the "Sign"); and

WHEREAS, the Appellant originally filed a companion application under BSA Cal. No. 99-12-A for a

separate sign located on the roof of the subject building, which was subsequently withdrawn; and

WHEREAS, on January 12, 2001, DOB issued Permit No. 102929431-01-SG for installation of an "illuminated advertising sign on wall structure" at the site (the "2001 Permit"); and

WHEREAS, the Appellant states that the Sign is a rectangular advertising sign measuring 14 feet in height by 48 feet in length for a surface area of 672 sq. ft.; and

WHEREAS, the Appellant states that the Sign faces Sixth Avenue and is located approximately 431'-4" east of the nearest boundary of the exit roadway from the Holland Tunnel, which emerges above ground south of Canal Street near Hudson Street; and

WHEREAS, this appeal is brought on behalf of the owner of the sign structure (the "Appellant"); and

WHEREAS, the Appellant seeks a reversal of DOB's rejection of its sign registration based on the fact that (1) the exit roadway of the Holland Tunnel is not a "designated arterial highway" and therefore ZR § 42-55 does not apply to the Sign; (2) even if the Holland Tunnel exit is considered a "designated arterial highway," the Sign is not "within view" of such arterial highway and therefore is not subject to the limitations associated with signs within view of arterial highways; (3) the Sign was constructed pursuant to DOB-issued permits, which reflects DOB's acceptance that the Sign is not "within view" of a designated arterial highway; and (4) the Sign is a conforming use pursuant to current-ZR § 42-53; and

WHEREAS, DOB appeared and made submissions in opposition to this appeal; and

REGISTRATION REQUIREMENT

WHEREAS, the Appellant identifies the relevant statutory requirements related to sign registration in effect since 2005; and

WHEREAS, the Appellant states that under Local Law 31 of 2005, the New York City Council enacted certain amendments to existing regulations governing outdoor advertising signs; and

WHEREAS, the amendments are codified under Articles 501, 502, and 503 of the 2008 Building Code and were enacted to provide DOB with a means of enforcing the sign laws where signs had been erected and were being maintained without a valid permit; and

WHEREAS, pursuant to Article 502 (specifically, Building Code § 28-502.4), an outdoor advertising company is required to submit to DOB an inventory of:

> all signs, sign structures and sign locations located (i) within a distance of 900 linear feet (274 m) from and within view of an arterial highway; or (ii) within a distance of 200 linear feet [60.96 m] from and within view of a public park with an area of ½ acre (5000 m) or more; and

WHEREAS, further, Local Law 31 authorized the Commissioner of DOB to promulgate rules establishing permitting requirements for certain signs; the DOB rules, enacted under Rule 49, provide specific procedures for registration of advertising signs; Rule 49-15(5) reads in pertinent part:

> Each sign shall be identified as either "advertising" or "non-advertising." To the extent a sign is a non-conforming sign, it must further be identified as "non-conforming advertising" or "non-conforming non-advertising." A sign identified as "non-conforming advertising" or "non-conforming non-advertising" shall be submitted to the Department for confirmation of its non-conforming status, pursuant to section 49-16 of this chapter; and

REGISTRATION PROCESS

WHEREAS, the Appellant states that on September 1, 2009, pursuant to the requirements of Article 502 and Rule 49, it submitted an inventory of outdoor signs under its control and a Sign Registration Application for the Sign and completed an OAC3 Outdoor Advertising Company Sign Profile, attaching the following documentation: (1) a diagram of the Sign; (2) photographs of the Sign; (3) the 2001 Permit; and (4) Letters of Completion from DOB recognizing that work was completed according to DOB's Rules and Regulations; and

WHEREAS, on October 3, 2011, DOB issued a Notice of Sign Registration Deficiency, stating that it is unable to accept the Sign for registration due to "Failure to provide proof of legal establishment – 2001 Permit No. 102929431 states not adjacent to arterial;" and

WHEREAS, by letter, dated November 17, 2011, the Appellant submitted a response to DOB, noting that DOB had issued permits for the Sign in 2001 and that the Appellant had operated the Sign for more than a decade in reliance on DOB's permits; and

WHEREAS, the Appellant also included evidence demonstrating that the Sign was installed to be visible to traffic heading northbound on Sixth Avenue and that there are at least two surface streets and a public park (less than one-half acre in size) that separate the Sign from the Holland Tunnel exit, and therefore the Sign is not "adjacent" to the Holland Tunnel exit ramp; and

WHEREAS, by letter, dated March 12, 2012, DOB issued the Final Determination which forms the basis of the appeal, stating that it found the "documentation inadequate to support the registration and as such the sign is rejected from registration;" and

RELEVANT STATUTORY PROVISIONS

> ZR § 42-53
> Surface Area and Illumination Provisions
> M1 M2 M3
> In all districts, as indicated, all permitted #signs# shall be subject to the restrictions on surface area and illumination as set forth in this Section…
>
> * * *
>
> ZR § 42-55
> Additional Regulations for Signs Near Certain Parks and Designated Arterial Highways

M1 M2 M3
In all districts, as indicated, the provisions of paragraphs (a), (b) and (c), or paragraph (d), of this Section, shall apply for #signs# near designated arterial highways or certain #public parks#.
(a) Within 200 feet of an arterial highway or a #public park# with an area of one-half acre or more, #signs# that are within view of such arterial highway or #public park# shall be subject to the following provisions:
(1) no permitted #sign# shall exceed 500 square feet of #surface area#; and
(2) no #advertising sign# shall be allowed; nor shall an existing #advertising sign# be structurally altered, relocated or reconstructed.
(b) Beyond 200 feet from such arterial highway or #public park#, the #surface area# of such #signs# may be increased one square foot for each linear foot such sign is located from the arterial highway or #public park#.
(c) The more restrictive of the following shall apply:
(1) any #advertising sign# erected, structurally altered, relocated or reconstructed prior to June 1, 1968, within 660 feet of the nearest edge of the right-of-way of an arterial highway, whose message is visible from such arterial highway, shall have legal #non-conforming use# status pursuant to Section 52-83 (Non-Conforming Advertising Signs), to the extent of its size existing on May 31, 1968; or
(2) any #advertising sign# erected, structurally altered, relocated or reconstructed between June 1, 1968, and November 1, 1979, within 660 feet of the nearest edge of the right-of-way of an arterial highway, whose message is visible from such arterial highway, and whose size does not exceed 1,200 square feet in #surface area# on its face, 30 feet in height and 60 feet in length, shall have legal #non-conforming use# status pursuant to Section 52-83, to the extent of its size existing on November 1, 1979. All #advertising signs# not in conformance with the standards set forth herein shall terminate.

Building Code § 28-502.4 – Reporting Requirement
An outdoor advertising company shall provide the department with a list with the location of signs, sign structures and sign locations under the control of such outdoor advertising company in accordance with the following provisions:
(1)The list shall include all signs, sign structures and sign locations located (i) within a distance of 900 linear feet (274 m) from and within view of an arterial highway; or (ii) within a distance of 200 linear feet (60 960 mm) from and within view of a public park with an area of ½ acre (5000 m) or more…

* * *

RCNY § 49-15 – Sign Inventory to be Submitted with Registration Application
…(d)(5) Each sign shall be identified as either "advertising" or "non-advertising." To the extent a sign is a non-conforming sign, it must further be identified as "non-conforming advertising" or "non-conforming non-advertising." A sign identified as "non-conforming advertising" or "non-conforming non-advertising" shall be submitted to the Department for confirmation of its non-conforming status, pursuant to section 49-16 of this chapter; and

THE APPELLANT'S POSITION

WHEREAS, the Appellant contends that the Final Determination should be reversed because (1) ZR § 42-55 does not apply to the Sign because pursuant to the plain language of the statute the Sign is neither near an "arterial highway," nor "within view" of such arterial highway; (2) the Sign was constructed pursuant to DOB-issued permits, which reflects DOB's acceptance that the Sign is not "within view" of an arterial highway; and (3) the Sign is a conforming use under current-ZR § 42-53; and

1. ZR § 42-55 Does Not Apply to the Sign

WHEREAS, the Appellant asserts that DOB committed an error of law and abused its discretion because it misconstrued and misapplied the plain language of ZR § 42-55, which only regulates advertising signs that are (a) "near" an "arterial highway" and (b) "within view" of such arterial highway; and

WHEREAS, the Appellant argues that in interpreting ZR § 42-55 the Board must give effect to the intention of the Department of City Planning in drafting ZR § 42-55, including the specific language contained therein and its plain meaning if no definition is provided; and

WHEREAS, in support of this position, the Appellant cites to Kramer v. Phoenix Life Insurance Co., 15 N.Y.3d 539, 550-51 (N.Y. 2010) (noting that "courts must give effect to [a statute's] plain meaning," and applying a Merriam Webster's Collegiate Dictionary definition to interpret and undefined term), and Samiento v. World Yacht Inc., 10 N.Y.3d 70, 77-80, 80 n.2-3 (N.Y.2008) (noting that the "primary consideration [in statutory interpretation] is to ascertain and give effect to the intention of the Legislature" so as to give statutory language "its natural and most obvious sense…in accordance with its ordinary and accepted meaning, unless the Legislature by definition or from the rest of the context of the statute provides a special meaning") and notes that in both of those cases the court applied a Merriam Webster's Collegiate Dictionary definition to interpret undefined terms; and

WHEREAS, accordingly, the Appellant contends that because there are no definitions for the terms "arterial

highway" and "within view" in the Zoning Resolution, effect must be given to the plain meaning of those terms, which leads to a conclusion that ZR § 42-55 does not apply to the Sign because the exit roadway to the Holland Tunnel is not an "arterial highway," and even if the Holland Tunnel exit were considered an "arterial highway," the Sign is not "within view" of such arterial highway; and

a. The Holland Tunnel Exit is not an "Arterial Highway"

WHEREAS, the Appellant asserts that DOB committed an error of law and abused its discretion because the exit roadway of the Holland Tunnel is not an arterial highway for the purposes of ZR § 42-55; and

WHEREAS, the Appellant notes that ZR § 42-55 provides guidance regarding the classification of arterial highways:

> arterial highways shall include all highways that are shown on the Master Plan of Arterial Highways and Major Streets as "principal routes," "parkways" or "toll crossings," and that have been designated by the City Planning Commission as arterial highways to which the provisions of this Section shall apply; and

WHEREAS, the Appellant states that arterial highways designated by the City Planning Commission are listed in Appendix H of the Zoning Resolution, and includes "Holland Tunnel and Approaches" on a list of arterial highways "which appear on the City Map and which are also indicated as Principal Routes, Parkways and Toll Crossings on the duly adopted Master Plan of Arterial Highways and Major Streets"; and

WHEREAS, the Appellant contends that while the Zoning Resolution does not define what constitutes the "approaches" to the Holland Tunnel, additional points of reference for which roadways are covered are: (1) arterial highways identified as "principal routes," "parkways," or "toll crossings" on the City's Master Plan of Arterial Highways and Major Streets; and (2) arterial highways which appear on the City Map; and

WHEREAS, the Appellant represents that the Master Plan does not identify the exit roadway from the Holland Tunnel as part of the "toll crossings" that are covered by ZR § 42-55, and the City Map similarly does not identify the exit roadway of the Holland Tunnel as an arterial highway; and

WHEREAS, the Appellant argues that a plain language interpretation of "approach" would also not include the exit roadway of the Holland Tunnel as an "approach," and cites to Webster's Dictionary which defines the noun "approach," in relevant part, as "a drawing near in space or time" or "the ability to approach," and the definition of "approaches," in relevant part, as "the means of approaching an area" or "an embankment, trestle, or other construction that provides access at either end of a bridge or tunnel"; and

WHEREAS, the Appellant asserts that the exit roadway of the Holland Tunnel, therefore, may not be identified as an "approach" because, by its very nature, the exit roadway takes traffic away from the Holland Tunnel; and

WHEREAS, the Appellant notes that in Rule 49, DOB provides its own definition of "approach" for guidance in interpreting the relevant provisions of the Zoning Resolution, and asserts that DOB's definition in Rule 49 comports with the plain language meaning that an "approach" would not include an exit:

> The term "approach" as found within the description of arterial highways indicated within appendix C of the Zoning Resolution, shall mean that portion of a roadway *connecting the local street network to a bridge or tunnel* and from which there is no entry or exit to such network. (Emphasis added).

WHEREAS, the Appellant contends that a plain language interpretation of Rule 49's definition of "approach" would also not include the exit roadway of the Holland Tunnel because an exit does not connect the local street network to the tunnel; rather, an exit connects *from* the tunnel to the local street network; and

WHEREAS, the Appellant asserts that if DOB had intended for an exit to be included in this definition, it would have used express language, such as "connecting the local street network to *or from* a bridge or tunnel"; and

WHEREAS, accordingly, the Appellant argues that because neither the plain language of ZR § 42-55, the Master Plan of Arterial Highways and Major Streets, nor the City Map in any way includes exit roadways (such as the one from the Holland Tunnel) as arterial highways, ZR § 42-55 does not apply to the Sign; and

b. The Sign is Not "Within View" of an Arterial Highway

WHEREAS, the Appellant asserts that even if the exit roadway of the Holland Tunnel is considered a designated arterial highway, DOB misinterprets the meaning of "within view" under ZR § 42-55; and

WHEREAS, the Appellant notes that the Zoning Resolution does not define "within view," however they look to ZR § 42-55 subsections (c)(1) and (c)(2), which include in their criteria for coverage by the regulations that the sign's "message is visible" from an arterial highway; and

WHEREAS, additionally, the Appellant notes that the Zoning Resolution does not define what constitutes a "message" being "visible," so they find that a plain language interpretation is required; and

WHEREAS, the Appellant cites to Webster's Dictionary which defines "message," as "a written or oral communication or other transmitted information sent by messenger or by some other means (as by signals)" or "a group of words used to advertise or notify;" and

WHEREAS, the Appellant also cites to the dictionary for the definition of "visible," which states "capable of being seen," "easily seen," or "capable of being perceived mentally;" and

WHEREAS, the Appellant concludes that according to the definitions, the intent of the zoning is to limit the

applicability of ZR § 42-55 to signs that actually communicate their message to persons that are on an arterial highway and would not be applicable to a sign that is substantially obstructed such that the message of the obstructed sign cannot be communicated to a person on the arterial highway; and

WHEREAS, in contrast, the Appellant asserts that ZR § 42-55 does not apply to a sign that does not face an arterial highway or a sign that is obstructed by objects between the sign and the arterial highway because those signs are incapable of communicating or advertising; and

WHEREAS, the Appellant submitted photographs and maps in support of its position that the orientation and position of the Sign make it is impossible to see the Sign from the exit roadway of the Holland Tunnel because the permanent installations between the two (including, but not limited to, the roadway's concrete barrier wall and fence) completely obstruct the view of the Sign from the roadway; and

WHEREAS, the Appellant notes that DOB provides its own definition of "within view" in Rule 49 as follows: "the term 'within view' shall mean that part or all of the sign copy, sign structure, or sign location that is discernible;" and

WHEREAS, the Appellant asserts that through Rule 49, DOB exceeded its authority by creating a new definition of "within view" which DOB has construed otherwise since December 15, 1961; and

WHEREAS, the Appellant contends that the intent of ZR § 42-55 was clearly to regulate only signs whose message is visible from an arterial highway, and if the Rule 49 definition of "within view" is upheld, then a sign that faces directly away from an arterial highway, with no part of its message visible to the arterial highway, would be prohibited; and

WHEREAS, accordingly, the Appellant asserts that DOB's definition of "within view" under Rule 49 far exceeds its authority to interpret the Zoning Resolution and must be disregarded; and

WHEREAS, the Appellant further asserts that if the Rule 49 definition is disregarded, and only the plain language interpretation of the "within view" standards of ZR § 42-55 is applied, the message of the Sign is not visible from the exit roadway of the Holland Tunnel and ZR § 42-55 does not apply to the Sign; and

2. The Sign was Constructed Pursuant to DOB-Issued Permits

WHEREAS, the Appellant asserts that the Sign was constructed pursuant to DOB-issued permits, which reflects DOB's agreement at the time of permit issuance that the Sign was not "within view" of an "arterial highway" and that DOB's reversal of position with respect to its prior confirmation of the legality of the Sign is improper; and

WHEREAS, the Appellant asserts that it provided DOB with evidence of permits, which demonstrate that the Sign was installed pursuant to lawfully-issued permits and DOB was aware of its location vis a vis the Holland Tunnel, but permitted the Sign pursuant to its interpretation of then-ZR § 42-53 (which has been recodified as ZR § 42-55); and

WHEREAS, the Appellant asserts that DOB has changed its position with regard to the application of ZR § 42-55 and that Local Law 31 did not give DOB the authority to create a new interpretation of long-standing language requiring that a sign be "within view" of an "arterial highway" and at the time of the permit issuance, DOB did not consider the Sign to be "within view" of any "arterial highway"; and

WHEREAS, the Appellant represents that it has relied in good faith on DOB's approval of the Sign, has made investments in maintaining and marketing in reliance on the approvals, and equity does not allow DOB to revise its prior approvals and require the removal of the Sign; and

3. The Sign is a Conforming Use Pursuant to ZR § 42-53

WHEREAS, the Appellant asserts that the Sign is clearly a conforming use pursuant to ZR § 42-53, such that further documentation is not required under Rule 49; and

WHEREAS, specifically, the Appellant contends that pursuant to ZR § 42-53, advertising signs are permitted uses in an M1 zoning district, and therefore the Sign is a conforming use; and

DOB'S POSITION

WHEREAS, DOB asserts that it rejected the Sign Registration Applications because the 2001 Permit was unlawful and improperly issued since the surface area of the Sign did not comply with the requirements of former-ZR § 42-53, which regulated advertising signs that were within view of arterial highways in Manufacturing Districts and stated, in pertinent part:

> No advertising sign shall be located, nor shall an advertising sign be structurally altered, relocated or reconstructed, within 200 feet of an arterial highway or of a public park with an area of one-half acre or more, if such advertising sign is within view of such arterial highway . . . Beyond 200 feet from such arterial highway or public park, an advertising sign shall be located at a distance of at least as many linear feet therefrom as there are square feet of surface are on the face of such sign; and

WHEREAS, therefore, DOB states that signs in manufacturing districts, like the subject M1-5B district, advertising signs were and still are permitted as-of-right under the current ZR § 42-55 (under which the former ZR § 42-53 was recodified) with certain restrictions, when located more than 200 feet from an arterial highway; and

WHEREAS, however, DOB states that such signs were and still are limited in surface area based on their distance from the arterial highway; and

WHEREAS, DOB asserts that it is undisputed that the "Holland Tunnel and Approaches" is considered an arterial highway within the meaning of then-ZR § 42-53, as indicated in Appendix H of the Zoning Resolution; and

WHEREAS, DOB disagrees with the Appellant's position that the definition of an approach under Rule 49 as

"a roadway connecting the local street network to a bridge or tunnel and from which there is no entry or exit to such network" was meant to exclude exit roadways merely because the definition does not state "to or from" a bridge or tunnel; and

WHEREAS, DOB asserts that the text of the Rule 49 definition does not support the Appellant's position, as the text simply defines an approach as "a portion of a roadway connecting an arterial highway to the local street network" and the reason the definition does not state "to or from" a bridge or tunnel is because the use of "to or from" in the sentence would be improper grammar, not because it was meant to exclude exit roadways from the definition; and

WHEREAS, DOB further asserts that the definition does not state which direction the traffic needs to flow from the "roadway" in order to be an "approach"; rather, it clearly states that if a roadway connects a local street to a tunnel without any exit to the street, it shall be considered an "approach"; and

WHEREAS, DOB argues that the exit roadway of the Holland Tunnel at issue is a "roadway connecting the local street network" to the Holland Tunnel and "from which there is no entry or exit to such network," and therefore it fits within the definition of an "approach"; and

WHEREAS, DOB also disagrees with the Appellant's position that, assuming the exit roadway of the Holland Tunnel is an "approach," the Sign is not subject to the restrictions on surface area set forth in the former ZR § 42-53 because it is not "within view" of the arterial highway – the Holland Tunnel and approaches; and

WHEREAS, DOB states that it has examined photographs of the Sign taken from the approaches and finds that the Sign is clearly visible and thus "within view" of the approach to the tunnel; and

WHERWEAS, DOB notes that the Appellant's effort to register the Sign reflects a concession on the Appellant's part that the Sign is within view of the arterial highway since Rule 49-15 specifically requires "a sign inventory that shall include all signs, sign structures and sign locations located (1) within a distance of 900 linear feet from and within view of an arterial highway; or (2) within 200 linear feet from and within view of a public park of one half acre or more;" and

WHEREAS, DOB asserts that since the Sign is within view of the arterial highway and located 431 feet from it, the maximum permitted surface area of the Sign was 431 sq. ft. when the 2001 Permit was erroneously issued; DOB notes that the 2001 Permit indicates a surface area of 518 sq. ft. and the Sign Registration Application indicates a surface area of 672 sq. ft., both of which exceeded the limits set forth at the then-ZR § 42-53 and still exceed the permitted surface area per the current ZR § 42-55; and

WHEREAS, accordingly, DOB states that the 2001 Permit was unlawful and improperly issued and the Sign must comply with the surface area requirement of 431 sq. ft. pursuant to ZR § 42-55 in order to be registered with DOB; and

CONCLUSION

WHEREAS, the Board agrees with DOB that (1) the exit roadway to the Holland Tunnel qualifies as an "approach," and as such is a designated arterial highway under ZR § 42-55, and (2) that the Sign is "within view" of the Holland Tunnel approach and thus subject to the restrictions of ZR § 42-55; and

WHEREAS, on the analysis of the meaning of an "approach," the Board finds that the exit roadway to the Holland Tunnel fits within the Rule 49 definition of an "approach" and therefore is considered an arterial highway within the meaning of former ZR § 42-53 (and current ZR § 42-55), as indicated in Appendix H of the Zoning Resolution which includes "Holland Tunnel and Approaches" among the designated arterial highways; and

WHEREAS, the Board finds the Appellant's position that the definition of an "approach" under Rule 49 was meant to exclude exit roadways because the definition does not state "to or from" a bridge or tunnel to be misguided, and agrees with DOB that the definition does not state which direction the traffic needs to flow from the "roadway" in order to be an "approach"; and

WHEREAS, the Board finds that the Rule 49 definition of "approach" is clear and that the exit roadway to the Holland Tunnel meets the relevant criteria of the definition, in that it is a "roadway connecting the local street network to a bridge or tunnel and from which there is no entry or exit to such network"; and

WHEREAS, the Board notes that the Rule 49 definition of "approach" makes no distinction as to whether traffic is entering or exiting the tunnel via the roadway, and the Board does not find the Appellant's attempt to insert the direction of the traffic as an additional criteria in the definition to be compelling; and

WHEREAS, as noted above, the Board considers the Rule 49 definition of "approach" to be clear and unambiguous, and therefore does not find it necessary to resort to dictionary definitions in order to ascertain the intent of the Zoning Resolution; and

WHEREAS, on the analysis of the meaning of "within view," the Board finds that the Appellant's assertions about intent are misplaced and the Appellant's interpretation of the meaning of the term is strained; and

WHEREAS, the Board notes that (1) there is not any indication in the text that the intended audience for signs is relevant, and (2) the plain meaning of "within view" is a more objective and less-nuanced concept than the Appellant proposes; and

WHEREAS, the Board finds that regardless of whether travelers on the approach to the Holland Tunnel were the intended audience for the Sign, if they are within the travelers' view, ZR § 42-55 must apply; and

WHEREAS, the Board finds that the goal of the statute was to regulate signs within view of arterial highways and that enforcement is best-served by applying an objective standard, rather than a subjective standard involving a scale of the levels of visibility; and

WHEREAS, the Board finds that the Appellant's

approach and emphasis on discernibility of a message is untenable due to the individuality associated both with the sense of sight and the amount of time it takes to communicate a message as well as the broad range of advertising messages, which can include large logos and illustrations or smaller text; and

WHEREAS, similarly, the Board is not persuaded that obstructions (like a barrier wall and fence) along the arterial highway at certain points along the traveler's path renders the Sign outside of view; and

WHEREAS, contrary to the Appellant's assertion that the obstructions render the Sign impossible to see from the exit roadway of the Holland Tunnel, the Board notes that DOB submitted four photographs which clearly reflect that the Sign can be viewed from different points along the exit roadway of the Holland Tunnel; and

WHEREAS, as to the Appellant's contention that DOB has inequitably changed its position on the meaning of "within view," the Board notes that there is no indication that DOB formerly had a different interpretation of "within view," or that it relies on the definition set forth in Rule 49; but, even if DOB did change its position, it has the ability to correct erroneous determinations; and

WHEREAS, the Board declines to take a position on the fairness of DOB's rejection of the registration after erroneously issuing the 2001 Permit, but it does note that the Appellant has enjoyed the benefit of the Sign since that time; and

WHEREAS, the Board disagrees with the Appellant that the Sign is a conforming use under current ZR § 42-53, which is titled "Surface Area and Illumination Provisions" and states that within manufacturing districts, such as the subject M1-5B district, "all permitted signs shall be subject to the restrictions on surface area and illumination as set forth in this Section…"; and

WHEREAS, the Board finds the Appellant's analysis of current ZR § 42-53 misguided, as it disregards more specific provisions of the Zoning Resolution which clearly indicate that the Sign, at its current size, is not permitted; and

WHEREAS, specifically, ZR § 42-55 ("Additional Regulations for Signs Near Certain Parks and Designated Arterial Highways") clarifies that there are additional regulations for signs located near arterial highways, including that no advertising signs are permitted within 200 feet and within view of an arterial highway, and beyond 200 feet of an arterial highway "[b]eyond 200 feet from such arterial highway…the #surface area# of such #signs# may be increased one square foot for each linear foot such sign is located from the arterial highway…; and

WHEREAS, because the Sign is located approximately 431 feet from an approach to the Holland Tunnel, it is limited to a maximum of 431 sq. ft. in surface area, and therefore the current size of 672 sq. ft. is not permitted; and

WHEREAS, accordingly, the Board finds that DOB appropriately applied ZR § 42-55 to the Sign and properly rejected the Appellant's registration of the Sign.

Therefore it is resolved that the subject appeal, seeking a reversal of the Final Determination of the Department of Buildings, dated March 12, 2012, is hereby denied.

Adopted by the Board of Standards and Appeals, January 8, 2013.

101-12-A

APPLICANT – Fried Frank by Richard G. Leland, Esq. for Take Two Outdoor Media LLC c/o Van Wagner Communications.

OWNER OF PREMISES – Mazda Realty Associates.

SUBJECT – Application April 11, 2012 – Appeal from determination of the Department of Buildings regarding right to maintain existing advertising sign. M1-5 zoning district.

PREMISES AFFECTED – 13-17 Laight Street, south side of Laight Street between Varick Street and St. John's Lane, Block 212, Lot 18, Borough of Manhattan.

COMMUNITY BOARD #1M

ACTION OF THE BOARD – Application Denied.

THE VOTE TO GRANT –

Affirmative: 0

Negative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5

THE RESOLUTION –

WHEREAS, the subject appeal comes before the Board in response to a Notice of Sign Registration Rejection letter from the Manhattan Borough Commissioner of the Department of Buildings ("DOB"), dated March 12, 2012, denying registration for a sign at the subject site (the "Final Determination"), which reads, in pertinent part:

> The Department of Buildings is in receipt of additional documentation submitted in response to the Deficiency Letter from the Signs Enforcement Unit, and asserting that this sign is not intended to be seen from the arterial and as such has the appropriate non-arterial permit for construction. Unfortunately, the intent of viewing is not relevant in this assessment and as such, the sign is rejected from registration. While we recognize your assertion that the sign was not intended to be visible from arterial, we affirm our rejection. This sign will be subject to enforcement action 30 days from the issuance of this letter; and

WHEREAS a public hearing was held on this application on October 30, 2012, after due notice by publication in *The City Record*, with a continued hearing on November 15, 2012, and then to decision on January 8, 2013; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, and Commissioner Ottley-Brown; and

WHEREAS, the subject site is located on the south side of Laight Street between Varick Street and St. John's

Lane, in a C6-2A zoning district within the Special Tribeca Mixed Use ("TMU") District; and

WHEREAS, the site is occupied by a six-story building with a north-facing sign located on the roof of the building (the "Sign"); and

WHEREAS, on October 4, 1998, DOB issued Permit Nos. 101827114-01-SG and 101985827-01-AL for installation of an "illuminated advertising billboard roof sign" at the site (the "1998 Permits"), and on October 20, 2000, DOB issued Permit No. 102743435-01-SG for the installation of an "illuminated sign on roof structure at the site (the "2000 Permit"); and

WHEREAS, this appeal is brought on behalf of the owner of the sign structure (the "Appellant"); and

WHEREAS, the Appellant states that the Sign is a rectangular advertising sign measuring 19.5 feet in height by 48 feet in length for a surface area of 936 sq. ft.; and

WHEREAS, the Appellant states that the Sign faces Varick Street and is located one block south of Canal Street and approximately 317'-6" east of the nearest boundary of the exit roadway from the Holland Tunnel, which emerges above ground south of Canal Street near Hudson Street; and

WHEREAS, the Appellant states that when the Sign was installed the site was in an M1-5 zoning district within the TMU District, but that pursuant to a 2010 rezoning, the site is now zoned C6-2A within the TMU District; and

WHEREAS, the Appellant seeks a reversal of DOB's rejection of its sign registration based on the fact that (1) the exit roadway of the Holland Tunnel is not a "designated arterial highway" and therefore ZR § 42-55 does not apply to the Sign; (2) even if the Holland Tunnel exit is considered a "designated arterial highway," the Sign is not "within view" of such arterial highway and therefore is not subject to the limitations associated with signs within view of arterial highways; and (3) the Sign was constructed pursuant to DOB-issued permits, which reflects DOB's acceptance that the Sign is not "within view" of a designated arterial highway; and

WHEREAS, DOB appeared and made submissions in opposition to this appeal; and

REGISTRATION REQUIREMENT

WHEREAS, the Appellant identifies the relevant statutory requirements related to sign registration in effect since 2005; and

WHEREAS, the Appellant states that under Local Law 31 of 2005, the New York City Council enacted certain amendments to existing regulations governing outdoor advertising signs; and

WHEREAS, the amendments are codified under Articles 501, 502, and 503 of the 2008 Building Code and were enacted to provide DOB with a means of enforcing the sign laws where signs had been erected and were being maintained without a valid permit; and

WHEREAS, pursuant to Article 502 (specifically, Building Code § 28-502.4), an outdoor advertising company is required to submit to DOB an inventory of:

> all signs, sign structures and sign locations located (i) within a distance of 900 linear feet (274 m) from and within view of an arterial highway; or (ii) within a distance of 200 linear feet [60.96 m] from and within view of a public park with an area of ½ acre (5000 m) or more; and

WHEREAS, further, Local Law 31 authorized the Commissioner of DOB to promulgate rules establishing permitting requirements for certain signs; the DOB rules, enacted under Rule 49, provide specific procedures for registration of advertising signs; Rule 49-15(5) reads in pertinent part:

> Each sign shall be identified as either "advertising" or "non-advertising." To the extent a sign is a non-conforming sign, it must further be identified as "non-conforming advertising" or "non-conforming non-advertising." A sign identified as "non-conforming advertising" or "non-conforming non-advertising" shall be submitted to the Department for confirmation of its non-conforming status, pursuant to section 49-16 of this chapter; and

WHEREAS, subchapter B of Rule 49 (Registration of Outdoor Advertising Companies), (specifically, Rule 49-15(d)(15)(b)), sets forth the acceptable forms of evidence to establish the size and the existence of a non-conforming sign on the relevant date set forth in the Zoning Resolution; and

WHEREAS, the Appellant asserts that the acceptable forms of evidence set forth at Rule 49 are, in pertinent part as follows:

> Acceptable evidence may include permits, sign-offs of applications after completion, photographs and leases demonstrating that the non-conforming use existed prior to the relevant date; and

WHEREAS, the Appellant notes that affidavits are also listed as an acceptable form of evidence; and

REGISTRATION PROCESS

WHEREAS, the Appellant states that on September 1, 2009, pursuant to the requirements of Article 502 and Rule 49, it submitted an inventory of outdoor signs under its control and a Sign Registration Application for the Sign and completed an OAC3 Outdoor Advertising Company Sign Profile, attaching the following documentation: (1) a diagram of the Sign; (2) photographs of the Sign; and (3) Permit Nos. 1018227114-01-SG and 101985827-01-AL; and

WHEREAS, on October 3, 2011, DOB issued a Notice of Sign Registration Deficiency, stating that it is unable to accept the Sign for registration due to "Failure to provide proof of legal establishment;" and

WHEREAS, by letter, dated November 4, 2011, the Appellant submitted a response to DOB, providing evidence that the Sign was installed within the requisite time period; and

WHEREAS, the Appellant also included evidence demonstrating that the Sign was installed to be visible to traffic heading southbound on Varick Street and is not

within view of vehicles exiting the Holland Tunnel; and

WHEREAS, by letter, dated February 9, 2012, the Appellant made a submission to DOB of photographs to support its position that the Sign is directed toward Varick Street and is not within view of vehicles exiting the Holland Tunnel; and

WHEREAS, by letter, dated March 12, 2012, DOB issued the Final Determination which forms the basis of the appeal, stating that it found the "documentation inadequate to support the registration and as such the sign is rejected from registration;" and

RELEVANT STATUTORY PROVISIONS

ZR § 42-55

Additional Regulations for Signs Near Certain Parks and Designated Arterial Highways

M1 M2 M3

In all districts, as indicated, the provisions of paragraphs (a), (b) and (c), or paragraph (d), of this Section, shall apply for #signs# near designated arterial highways or certain #public parks#.

(a) Within 200 feet of an arterial highway or a #public park# with an area of one-half acre or more, #signs# that are within view of such arterial highway or #public park# shall be subject to the following provisions:
  (1) no permitted #sign# shall exceed 500 square feet of #surface area#; and
  (2) no #advertising sign# shall be allowed; nor shall an existing #advertising sign# be structurally altered, relocated or reconstructed.

(b) Beyond 200 feet from such arterial highway or #public park#, the #surface area# of such #signs# may be increased one square foot for each linear foot such sign is located from the arterial highway or #public park#.

(c) The more restrictive of the following shall apply:
  (1) any #advertising sign# erected, structurally altered, relocated or reconstructed prior to June 1, 1968, within 660 feet of the nearest edge of the right-of-way of an arterial highway, whose message is visible from such arterial highway, shall have legal #non-conforming use# status pursuant to Section 52-83 (Non-Conforming Advertising Signs), to the extent of its size existing on May 31, 1968; or
  (2) any #advertising sign# erected, structurally altered, relocated or reconstructed between June 1, 1968, and November 1, 1979, within 660 feet of the nearest edge of the right-of-way of an arterial highway, whose message is visible from such arterial highway, and whose size does not exceed 1,200 square feet in #surface area# on its face, 30 feet in height and 60 feet in length, shall have legal #non-conforming use# status pursuant to Section 52-83, to the extent of its size existing on November 1, 1979. All #advertising signs# not in conformance with the standards set forth herein shall terminate.

* * *

ZR § 42-58

Signs Erected Prior to December 13, 2000

M1 M2 M3

In all districts, as indicated, a #sign# erected prior to December 13, 2000, shall have #non-conforming use# status pursuant to Sections 52-82 (Non-Conforming Signs Other Than Advertising Signs) or 52-83 (Non-Conforming Advertising Signs) with respect to the extent of the degree of #non-conformity# of such #sign# as of such date with the provisions of Sections 42-52, 42-53 and 42-54, where such #sign# shall have been issued apermit by the Department of Buildings on or before such date.

* * *

Building Code § 28-502.4 – Reporting Requirement

An outdoor advertising company shall provide the department with a list with the location of signs, sign structures and sign locations under the control of such outdoor advertising company in accordance with the following provisions:

(1) The list shall include all signs, sign structures and sign locations located (i) within a distance of 900 linear feet (274 m) from and within view of an arterial highway; or (ii) within a distance of 200 linear feet (60 960 mm) from and within view of a public park with an area of ½ acre (5000 m) or more…

* * *

RCNY § 49-15 – Sign Inventory to be Submitted with Registration Application

…(d)(5) Each sign shall be identified as either "advertising" or "non-advertising." To the extent a sign is a non-conforming sign, it must further be identified as "non-conforming advertising" or "non-conforming non-advertising." A sign identified as "non-conforming advertising" or "non-conforming non-advertising" shall be submitted to the Department for confirmation of its non-conforming status, pursuant to section 49-16 of this chapter.

* * *

RCNY § 49-16 – Non-conforming Signs

(a) With respect to each sign identified in the sign inventory as non-conforming, the registered architect or professional engineer shall request confirmation of its non-conforming status from the

> Department based on evidence submitted in the registration application. The Department shall review the evidence submitted and accept or deny the request within a reasonable period of time. A sign that has been identified as non-conforming on the initial registration application may remain erected unless and until the Department has issued a determination that it is not non-conforming; and

THE APPELLANT'S POSITION

WHEREAS, the Appellant contends that the Final Determination should be reversed because (1) ZR § 42-55 does not apply to the Sign because, pursuant to the plain language of the statute, the Sign is neither near an "arterial highway," nor "within view" of such arterial highway; (2) the Sign was constructed pursuant to DOB-issued permits, which reflects DOB's acceptance that the Sign is not "within view" of an arterial highway; and

4. ZR § 42-55 Does Not Apply to the Sign

WHEREAS, the Appellant asserts that DOB committed an error of law and abused its discretion because it misconstrued and misapplied the plain language of ZR § 42-55, which only regulates advertising signs that are (a) "near" an "arterial highway" and (b) "within view" of such "arterial highway"; and

WHEREAS, the Appellant argues that in interpreting ZR § 42-55 the Board must give effect to the intention of the Department of City Planning in drafting ZR § 42-55, including the specific language contained therein and its plain meaning if no definition is provided; and

WHEREAS, in support of this position, the Appellant cites to Kramer v. Phoenix Life Insurance Co., 15 N.Y.3d 539, 550-51 (N.Y. 2010) (noting that "courts must give effect to [a statute's] plain meaning," and applying a Merriam Webster's Collegiate Dictionary definition to interpret an undefined term), and Samiento v. World Yacht Inc., 10 N.Y.3d 70, 77-80, 80 n.2-3 (N.Y.2008) (noting that the "primary consideration [in statutory interpretation] is to ascertain and give effect to the intention of the Legislature" so as to give statutory language "its natural and most obvious sense…in accordance with its ordinary and accepted meaning, unless the Legislature by definition or from the rest of the context of the statute provides a special meaning") and notes that in both of those cases the court applied a Merriam Webster's Collegiate Dictionary definition to interpret undefined terms; and

WHEREAS, accordingly, the Appellant contends that because there are no definitions for the terms "arterial highway" and "within view" in the Zoning Resolution, effect must be given to the plain meaning of those terms, which leads to a conclusion that ZR § 42-55 does not apply to the Sign because the exit roadway to the Holland Tunnel is not an "arterial highway," and even if the Holland Tunnel exit were considered to be an arterial highway, the Sign is not "within view" of such arterial highway; and

a. The Holland Tunnel Exit is not an "Arterial Highway"

WHEREAS, the Appellant asserts that DOB committed an error of law and abused its discretion because the exit roadway of the Holland Tunnel is not an "arterial highway" for the purposes of ZR § 42-55; and

WHEREAS, the Appellant notes that ZR § 42-55 provides guidance regarding the classification of arterial highways:

> arterial highways shall include all highways that are shown on the Master Plan of Arterial Highways and Major Streets as "principal routes," "parkways" or "toll crossings," and that have been designated by the City Planning Commission as arterial highways to which the provisions of this Section shall apply; and

WHEREAS, the Appellant states that arterial highways designated by the City Planning Commission are listed in Appendix H of the Zoning Resolution, and includes "Holland Tunnel and Approaches" on a list of arterial highways "which appear on the City Map and which are also indicated as Principal Routes, Parkways and Toll Crossings on the duly adopted Master Plan of Arterial Highways and Major Streets"; and

WHEREAS, the Appellant contends that while the Zoning Resolution does not define what constitutes the "approaches" to the Holland Tunnel, additional points of reference for which roadways are covered are: (1) arterial highways identified as "principal routes," "parkways," or "toll crossings" on the City's Master Plan of Arterial Highways and Major Streets; and (2) arterial highways which appear on the City Map; and

WHEREAS, the Appellant represents that the Master Plan does not identify the exit roadway from the Holland Tunnel as part of the "toll crossings" that are covered by ZR § 42-55, and the City Map similarly does not identify the exit roadway of the Holland Tunnel as an arterial highway; and

WHEREAS, the Appellant argues that a plain language interpretation of "approach" would also not include the exit roadway of the Holland Tunnel as an "approach," and cites to Webster's Dictionary which defines the noun "approach," in relevant part, as "a drawing near in space or time" or "the ability to approach," and the definition of "approaches," in relevant part, as "the means of approaching an area" or "an embankment, trestle, or other construction that provides access at either end of a bridge or tunnel"; and

WHEREAS, the Appellant asserts that the exit roadway of the Holland Tunnel, therefore, may not be identified as an "approach" because, by its very nature, the exit roadway takes traffic away from the Holland Tunnel; and

WHEREAS, the Appellant notes that in Rule 49, DOB provides its own definition of "approach" for guidance in interpreting the relevant provisions of the Zoning Resolution, and asserts that DOB's definition in Rule 49 comports with the plain language meaning that an "approach" would not include an exit:

> The term "approach" as found within the description of arterial highways indicated within

appendix C of the Zoning Resolution, shall mean that portion of a roadway *connecting the local street network to a bridge or tunnel* and from which there is no entry or exit to such network. (Emphasis added); and

WHEREAS, the Appellant contends that a plain language interpretation of Rule 49's definition of "approach" would also not include the exit roadway of the Holland Tunnel because an exit does not connect the local street network to the tunnel; rather, an exit connects *from* the tunnel to the local street network; and

WHEREAS, the Appellant asserts that if DOB had intended for an exit to be included in this definition, it would have used express language, such as "connecting the local street network to *or from* a bridge or tunnel"; and

WHEREAS, accordingly, the Appellant argues that because neither the plain language of ZR § 42-55, the Master Plan of Arterial Highways and Major Streets, nor the City Map in any way includes exit roadways (such as the one from the Holland Tunnel) as arterial highways, ZR § 42-55 does not apply to the Sign; and

b. The Sign is Not "Within View" of an Arterial Highway

WHEREAS, the Appellant asserts that even if the exit roadway of the Holland Tunnel is considered a designated arterial highway, DOB misinterprets the meaning of "within view" under ZR § 42-55; and

WHEREAS, the Appellant notes that the Zoning Resolution does not define "within view," however they look to ZR § 42-55 subsections (c)(1) and (c)(2), which include in their criteria for coverage by the regulations that the sign's "message is visible" from an arterial highway; and

WHEREAS, additionally, the Appellant notes that the Zoning Resolution does not define what constitutes a "message" being "visible," so they find that a plain language interpretation is required; and

WHEREAS, the Appellant cites to Webster's Dictionary which defines "message," as "a written or oral communication or other transmitted information sent by messenger or by some other means (as by signals)" or "a group of words used to advertise or notify;" and

WHEREAS, the Appellant also cites to the dictionary for the definition of "visible," which states "capable of being seen," "easily seen," or "capable of being perceived mentally;" and

WHEREAS, the Appellant concludes that according to the definitions, the intent of the zoning is to limit the applicability of ZR § 42-55 to signs that actually communicate their message to persons that are on an arterial highway and would not be applicable to a sign that is substantially obstructed such that the message of the obstructed sign cannot be communicated to a person on the arterial highway; and

WHEREAS, in contrast, the Appellant asserts that ZR § 42-55 does not apply to a sign that does not face an arterial highway or a sign that is obstructed by objects between the sign and the arterial highway because those signs are incapable of communicating or advertising; and

WHEREAS, the Appellant submitted photographs and maps in support of its position that the orientation and position of the Sign make it extremely difficult to view it from the exit roadway, let alone understand what it is communicating as the roadway abruptly veers away from the Sign, which is approximately 70 feet in the air; and

WHEREAS, the Appellant asserts that the view of the Sign is further obstructed by numerous permanent installations located between the Sign and the roadway, including buildings, light poles, and a traffic sign; and

WHEREAS, the Appellant notes that DOB provides its own definition of "within view" in Rule 49 as follows: "the term 'within view' shall mean that part or all of the sign copy, sign structure, or sign location that is discernible;" and

WHEREAS, the Appellant asserts that through Rule 49, DOB exceeded its authority by creating a new definition of "within view" which DOB has construed otherwise since December 15, 1961; and

WHEREAS, the Appellant contends that the intent of ZR § 42-55 was clearly to regulate only signs whose message is visible from an arterial highway, and if the Rule 49 definition of "within view" is upheld, then a sign that faces directly away from an arterial highway, with no part of its message visible to the arterial highway, would be prohibited; and

WHEREAS, accordingly, the Appellant asserts that DOB's definition of "within view" under Rule 49 far exceeds its authority to interpret the Zoning Resolution and must be disregarded; and

WHEREAS, the Appellant further asserts that if the Rule 49 definition is disregarded, and only the plain language interpretation of the "within view" standards of ZR § 42-55 is applied, the message of the Sign is not visible from the exit roadway of the Holland Tunnel and ZR § 42-55 does not apply to the Sign; and

5. The Sign was Constructed Pursuant to DOB-Issued Permits

WHEREAS, the Appellant asserts that the Sign was constructed pursuant to DOB-issued permits, which reflects DOB's agreement at the time of permit issuance that the Sign was not "within view" of an "arterial highway" and that DOB's reversal of position with respect to its prior confirmation of the legality of the Sign is improper; and

WHEREAS, the Appellant asserts that it provided DOB with evidence of permits, which demonstrate that the Sign was installed pursuant to lawfully-issued permits, which were issued when the Sign was permitted in the underlying M1-5 zoning district and DOB was aware of its location vis a vis the Holland Tunnel, but permitted the Sign pursuant to its interpretation of then-ZR § 42-53 (which has been recodified as ZR § 42-55); and

WHEREAS, the Appellant asserts that DOB has changed its position with regard to the application of ZR § 42-55 and that Local Law 31 did not give DOB the authority to create a new interpretation of long-standing language requiring that a sign be "within view" of an "arterial

highway" and at the time of the permit issuance, DOB did not consider the Sign to be "within view" of any "arterial highway"; and

WHEREAS, the Appellant represents that it has relied in good faith on DOB's approval of the Sign, has made investments in maintaining and marketing in reliance on the approvals, and equity does not allow DOB to revise its prior approvals and require the removal of the Sign; and

DOB'S POSITION

WHEREAS, DOB asserts that it rejected the Sign Registration Applications because the 1998 Permits and 2000 Permit were unlawful and improperly issued since the surface area of the Sign did not comply with the requirements of then-ZR § 42-53; ZR § 42-53, in effect at the time the permits were issued, regulated advertising signs that were within view of arterial highways in Manufacturing Districts and stated, in pertinent part:

> No advertising sign shall be located, nor shall an advertising sign be structurally altered, relocated or reconstructed, within 200 feet of an arterial highway or of a public park with an area of one-half acre or more, if such advertising sign is within view of such arterial highway . . . Beyond 200 feet from such arterial highway or public park, an advertising sign shall be located at a distance of at least as many linear feet therefrom as there are square feet of surface area on the face of such sign; and

WHEREAS, therefore, DOB states that signs in manufacturing districts, like the M1-5 district the Sign was in at the time of its installation until 2010 when the area was rezoned to be within a C6-2A zoning district, were and still are permitted as-of-right under the current ZR § 42-55 (under which the former ZR § 42-53 was recodified) with certain restrictions, when located more than 200 feet from an arterial highway; and

WHEREAS, however, DOB states that such signs are limited in surface area based on their distance from the arterial highway; and

WHEREAS, DOB asserts that it is undisputed that the "Holland Tunnel and Approaches" is considered an arterial highway within the meaning of then-ZR § 42-53, as indicated in Appendix H of the Zoning Resolution; and

WHEREAS, DOB disagrees with the Appellant's position that the definition of an approach under Rule 49 as "a roadway connecting the local street network to a bridge or tunnel and from which there is no entry or exit to such network" was meant to exclude exit roadways merely because the definition does not state "to or from" a bridge or tunnel; and

WHEREAS, DOB asserts that the text of the Rule 49 definition does not support the Appellant's position, as the text simply defines an approach as "a portion of a roadway connecting an arterial highway to the local street network" and the reason the definition does not state "to or from" a bridge or tunnel is because the use of "to or from" in the sentence would be improper grammar, not because it was meant to exclude exit roadways from the definition; and

WHEREAS, DOB further asserts that the definition does not state which direction the traffic needs to flow from the "roadway" in order to be an "approach"; rather, it clearly states that if a roadway connects a local street to a tunnel without any exit to the street, it shall be considered an "approach"; and

WHEREAS, DOB argues that the exit roadway of the Holland Tunnel at issue is a "roadway connecting the local street network" to the Holland Tunnel and "from which there is no entry or exit to such network," and therefore it fits within the definition of an "approach"; and

WHEREAS, DOB also disagrees with the Appellant's position that, assuming the exit roadway of the Holland Tunnel is an "approach," the Sign is not subject to the restrictions on surface area set forth in the former ZR § 42-53 because it is not "within view" of the arterial highway – the Holland Tunnel and approaches; and

WHEREAS, DOB states that it has examined photographs of the Sign taken from the approaches and finds that the Sign is clearly visible and thus "within view" of the approach to the tunnel; and

WHERWEAS, DOB notes that the Appellant's effort to register the Sign reflects a concession on the Appellant's part that the Sign is within view of the arterial highway since Rule 49-15 specifically requires "a sign inventory that shall include all signs, sign structures and sign locations located (1) within a distance of 900 linear feet from and within view of an arterial highway; or (2) within 200 linear feet from and within view of a public park of one half acre or more;" and

WHEREAS, DOB asserts that since the Sign is within view of the arterial highway and located 317 feet from it, the maximum permitted surface area of the Sign was 317 sq. ft. when the 1998 Permits and 2000 Permit were erroneously issued; DOB notes that the 1998 Permits indicate a surface area of 560 sq. ft., the 2000 Permit indicates a surface area of 1,600 sq. ft., and the Sign Registration Application indicates a surface area of 936 sq. ft., which exceeded the then-ZR § 42-53 and still exceeds the permitted surface area per the current ZR § 42-55; and

WHEREAS, accordingly, DOB finds that the 1998 Permits and the 2000 Permit for the Sign were unlawful and improperly issued and the Sign must be removed since no advertising sign is permitted as-of-right in the current C6-2A zoning district pursuant to ZR § 32-63; and

WHEREAS, DOB states that the Appellant cites to ZR § 42-58 but does not make an argument that the Sign should be granted non-conforming use status pursuant to ZR § 42-58 and any such future claim that the Sign should be granted non-conforming use status is without merit; and

WHEREAS, DOB cites to ZR § 42-58, which states in pertinent part:

> A sign erected prior to December 13, 2000, shall have non-conforming use status pursuant to Section 52-82 (Non-Conforming Sings Other Than Advertising Signs) or 52-83 (Non-Conforming Advertising Signs) with respect to the extent of the

degree of non-conformity of such sign as of such date with the provisions of Section 42-52, 42-53, and 42-54, where such sign shall have been issued a permit by the Department of Buildings on or before such date; and

WHEREAS, DOB concludes that the 1998 Permits and the 2000 Permit for the Sign were unlawful and improperly issued since the proposed sign did not comply with the surface area requirements of then- ZR § 42-53; therefore, the sign cannot be granted non-conforming use status under ZR § 42-58; and

CONCLUSION

WHEREAS, the Board agrees with DOB that (1) the exit roadway to the Holland Tunnel qualifies as an "approach," and as such is a designated arterial highway under ZR § 42-55, and (2) that the Sign is "within view" of the Holland Tunnel approach and thus subject to the restrictions of ZR § 42-55; and

WHEREAS, on the analysis of the meaning of an "approach," the Board finds that the exit roadway to the Holland Tunnel fits within the Rule 49 definition of an "approach" and therefore is considered an arterial highway within the meaning of former ZR § 42-53 (and current ZR § 42-55), as indicated in Appendix H of the Zoning Resolution which includes "Holland Tunnel and Approaches" among the designated arterial highways; and

WHEREAS, the Board finds the Appellant's position that the definition of an "approach" under Rule 49 was meant to exclude exit roadways because the definition does not state "to or from" a bridge or tunnel to be misguided, and agrees with DOB that the definition does not state which direction the traffic needs to flow from the "roadway" in order to be an "approach"; and

WHEREAS, the Board finds that the Rule 49 definition of "approach" is clear and that the exit roadway to the Holland Tunnel meets the relevant criteria of the definition, in that it is a "roadway connecting the local street network to a bridge or tunnel and from which there is no entry or exit to such network"; and

WHEREAS, the Board notes that the Rule 49 definition of "approach" makes no distinction as to whether traffic is entering or exiting the tunnel via the roadway, and the Board does not find the Appellant's attempt to insert the direction of the traffic as an additional criteria in the definition to be compelling; and

WHEREAS, as noted above, the Board considers the Rule 49 definition of "approach" to be clear and unambiguous, and therefore does not find it necessary to resort to dictionary definitions in order to ascertain the intent of the Zoning Resolution; and

WHEREAS, on the analysis of the meaning of "within view," the Board finds that the Appellant's assertions about intent are misplaced and the Appellant's interpretation of the meaning of the term is strained; and

WHEREAS, the Board notes that (1) there is not any indication in the text that the intended audience for signs is relevant, and (2) the plain meaning of "within view" is a more objective and less-nuanced concept than the Appellant proposes; and

WHEREAS, the Board finds that regardless of whether travelers on the approach to the Holland Tunnel were the intended audience for the Sign, if they are within the travelers' view, ZR § 42-55 must apply; and

WHEREAS, the Board finds that the goal of the statute was to regulate signs within view of arterial highways and that enforcement is best-served by applying an objective standard, rather than a subjective standard involving a scale of the levels of visibility; and

WHEREAS, the Board finds that the Appellant's approach and emphasis on discernibility of a message is untenable due to the individuality associated both with the sense of sight and the amount of time it takes to communicate a message as well as the broad range of advertising messages, which can include large logos and illustrations or smaller text; and

WHEREAS, similarly, the Board is not persuaded that obstructions (like light poles and traffic signs) along the arterial highway at certain points along the traveler's path renders the Sign outside of view; and

WHEREAS, contrary to the Appellant's assertion that the orientation and position of the Sign combined with the aforementioned obstructions render the Sign extremely difficult, if not impossible, to view from the exit roadway of the Holland Tunnel, the Board notes that DOB submitted two photographs which clearly reflect that the Sign can be viewed from different points along the exit roadway of the Holland Tunnel; and

WHEREAS, as to the Appellant's contention that DOB has inequitably changed its position on the meaning of "within view," the Board notes that there is no indication that DOB formerly had a different interpretation of "within view," or that it relies on the definition set forth in Rule 49; but, even if DOB did change its position, it has the ability to correct erroneous determinations; and

WHEREAS, the Board declines to take a position on the fairness of DOB's rejection of the registration after erroneously issuing the 1998 Permits and the 2000 Permit, but it does note that the Appellant has enjoyed the benefit of the Sign since that time; and

WHEREAS, the Board also declines to take a position on whether the Sign could be established as a legal non-conforming sign because that alternate relief was not at issue in the appeal; and

WHEREAS, accordingly, the Board finds that DOB appropriately applied ZR § 42-55 to the Sign and it is not permitted; and

WHEREAS, therefore, the Board finds that DOB properly rejected the Appellant's registration of the Sign.

Therefore it is resolved that the subject appeal, seeking a reversal of the Final Determination of the Department of Buildings, dated March 12, 2012, is hereby denied.

Adopted by the Board of Standards and Appeals, January 8, 2013.

213-12-A
APPLICANT – Gary Lenhart, R.A., for The Breezy Point Cooperative, owner; Linda McDermott-Paden, lessee.
SUBJECT – Application July 20, 2012 – Proposed reconstruction and enlargement of existing single family dwelling located partially within the bed of the mapped street, contrary to Section 35 of the General City Law. R4 zoning district.
AFFECTED PREMISES – 900 Beach 184th Street, east side Beach 184th Street, 240' north of Rockaway Point Boulevard. Block 16340, Lot p/o50. Borough of Queens.

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5
Negative:.....0
THE RESOLUTION –

WHEREAS, the decision of the Queens Borough Commissioner, dated June 28, 2012, acting on Department of Buildings Application No. 420566541, reads in pertinent part:

A1- The existing building to be altered lies within the bed of a mapped street, contrary to General City Law Article 3 , Section 35 ; and

WHEREAS, a public hearing was held on this application on January 8, 2013, after due notice by publication in the *City Record*, and then to decision on the same date; and

WHEREAS, by letter dated January 7, 2013, the Fire Department states that it has no objection to the subject proposal; and

WHEREAS, by letter dated July 20, 2012, the Department of Environmental Protection states that it has no objection to the subject proposal; and

WHEREAS, by letter dated September 12, 2012, the Department of Transportation ("DOT") states that it has no objection to the subject proposal; and

WHEREAS, DOT states that the subject lot is not currently included in the agency's Capital Improvement Program; and

WHEREAS, accordingly, the Board has determined that the applicant has submitted adequate evidence to warrant this approval under certain conditions.

Therefore it is Resolved that the decision of the Queens Borough Commissioner, dated June 28, 2012, acting on Department of Buildings Application No. 420566541, is modified by the power vested in the Board by Section 35 of the General City Law, and that this appeal is granted, limited to the decision noted above; *on condition* that construction shall substantially conform to the drawing filed with the application marked "Received July 10, 2012"-one (1) sheet; that the proposal shall comply with all applicable zoning district requirements; and that all other applicable laws, rules, and regulations shall be complied with; and *on further condition*:

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT DOB will review the proposed plans to ensure compliance with all relevant provisions of the Zoning Resolution;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted;

THAT the home shall be sprinklered in accordance with the BSA-approved plans; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, January 8, 2012.

THE RESOLUTION –

WHEREAS, the decision of the Queens Borough Commissioner, dated July 20, 2012, acting on Department of Buildings Application No. 420583915, reads in pertinent part:

A1- The street giving access to the existing building to be altered is not duly placed on the map of the City of New York, therefore:
A) A Certificate of Occupancy may not be issued as per Article 3, Section 36 of the General City Law.
B) Existing dwelling to be altered does not have at least 8% of total perimeter of building fronting directly upon a legally mapped street or frontage space and therefore contrary to Section 27-291 of the Administrative Code of the City of

New York; and

A2 - The proposed upgraded private disposal system in the bed of the service lane is contrary to the Department of Buildings policy; and

WHEREAS, a public hearing was held on this application on January 8, 2013, after due notice by publication in the *City Record*, and then to decision on the same date; and

WHEREAS, by letter dated October 25, 2012, the Fire Department states that it has reviewed the subject proposal and requires that the applicant provide a revised site plan showing the building to be fully sprinklered; and

WHEREAS, accordingly, the Board has determined that the applicant has submitted adequate evidence to warrant this approval under certain conditions.

Therefore it is Resolved that the decision of the Queens Borough Commissioner, dated April 5, 2012, acting on Department of Buildings Application No. 420583915, is modified by the power vested in the Board by Section 36 of the General City Law, and that this appeal is granted, limited to the decision noted above; *on condition* that construction shall substantially conform to the drawing filed with the application marked "Received August 1, 2012 - one (1) sheet; that the proposal shall comply with all applicable zoning district requirements; and that all other applicable laws, rules, and regulations shall be complied with; and *on further condition*:

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT DOB will review the proposed plans to ensure compliance with all relevant provisions of the Zoning Resolution;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted;

THAT the home shall be sprinklered in accordance with the BSA-approved plans;

and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

THE RESOLUTION –

WHEREAS, the decision of the Queens Borough Commissioner, dated March 9, 2012, acting on Department of Buildings Application No. 420527111, reads in pertinent part:

> Physical Culture Establishment is not permitted as per Section of Code ZR 32-31; and

WHEREAS, this is an application under ZR §§73-36 and 73-03, to permit, on a site partially within a C2-2 (R6B) zoning district and partially within a C8-1 zoning district, the legalization of a physical culture establishment (PCE) on the cellar level, first floor, and mezzanine of a one-story building contrary to ZR § 32-31; and

WHEREAS, a public hearing was held on this application on August 14, 2012, after due notice by publication in *The City Record*, with continued hearings on October 23, 2012 and November 27, 2012, and then to decision on January 8, 2013; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 11, Queens, recommends approval of this application on condition that (1) the gate in the driveway be removed, (2) exposed wires on the outside of the building be removed, and (3) the PCE take additional steps to reduce vibrations and noise felt by the adjacent building at 41-23 Bell Boulevard; and

WHEREAS, the Queens Borough President recommends approval of the application and supports the Community Board's conditions; and

WHEREAS, the owner of the adjacent building at 41-23 Bell Boulevard (the "Neighbor") provided written and oral testimony in opposition to the application, expressing concerns about (1) noise and vibration from the PCE use, (2) the live load capacity of the subject building, and (3) the history of illegal use of the building as a PCE without the required special permit; and

WHEREAS, specifically, the Neighbor asserts that it is unable to keep tenants in all of its three units due to complaints about sound and vibration and its existing tenants are significantly disturbed by the sound and vibration from the PCE; and

WHEREAS, the subject site is located on the east side of Bell Boulevard, between 41st Avenue and 42nd Avenue in a C2-2 (R6B) zoning district; a small portion at the back of the lot is within the adjacent C8-1 zoning district; and

WHEREAS, the PCE occupies 6,848 sq. ft. of floor area on the first floor and mezzanine and 4,700 sq. ft. of floor space in the cellar; and

WHEREAS, the PCE is operated as a Lucille Roberts Health Club; and

WHEREAS, the PCE began operation at the site in 1993 when the site was within a C4-2 zoning district, a district where PCE's are allowed by special permit; and

WHEREAS, accordingly, the applicant filed an application for a special permit at the Board pursuant to BSA Cal. No. 132-93-BZ; and

WHEREAS, however, while the application was pending, the site and surrounding area was rezoned from C4-2 to C1-2 (R6B); the special permit is not available in C1-2 zoning districts; and

WHEREAS, thus, because the special permit was not available to the PCE at the site after the rezoning, the Board dismissed the application in 1995 for lack of jurisdiction; and

WHEREAS, the applicant subsequently sought a variance to legalize the PCE, pursuant to BSA Cal. No. 393-04-BZ, but ultimately withdrew the application; and

WHEREAS, the applicant states that it pursued other avenues for legalizing the PCE but was only successful after filing an application for an amendment of the zoning map (C080293ZMQ) in 2008 to rezone a portion of one block along Bell Boulevard, between 42nd Avenue and the Long Island Railroad right-of-way from a C1-2 to a C2-2 commercial overlay district within the underlying R6B zoning district; and

WHEREAS, on December 15, 2010, the City Planning Commission (CPC) approved the zoning map amendment and on January 18, 2011, the City Council ratified CPC's resolution; and

WHEREAS, finally, the applicant filed the subject application for a special permit to legalize the PCE as it is once again within a zoning district which allows the special

permit; and

WHEREAS, the applicant represents that the services at the PCE include facilities for instruction and programs for physical improvement; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, in response to the Neighbor's concerns, the applicant consulted a sound expert who visited the subject building and the Neighbor's building to observe the conditions and make recommendations; and

WHEREAS, the sound expert concluded that the sound levels comply with Noise Code requirements and recommended sound control measures to ensure continued compliance and to protect the Neighbor from excessive noise; and

WHEREAS, specifically, the sound expert identified the sound system, performed sound testing within the building during the loudest class with high enrollment, and found that the sound system at its typical maximum level measured 95 dBc in the center of the gym area; and then tested the sound in the adjacent building; and

WHEREAS, the test reflected that the sound was slightly to faintly audible on the first and second floors of the adjacent building and inaudible on the third floor; and

WHEREAS, the tests conclude that (1) the tested low-frequency sound levels are lower than the Noise Code 45 dB limit; (2) the dBA levels were below 42 dBA; (3) the music is inaudible in the third floor unit; and (4) the third floor unit is occupied by a school and is not "a receiving property dwelling unit" as described in the Noise Code; and

WHEREAS, the consultant made the following recommendations: (1) remount the existing speakers using spring mounts to reduce the transfer of bass vibration to building walls; (2) the system should be set up in stereo; and (3) the system should include a recommended sound limiter to be locked with a security cover; and

WHEREAS, the Neighbor called the applicant's sound study into question and performed its own informal analysis of the sound and vibration, which concluded that the sound and vibration where excessive; and

WHEREAS, the Neighbor suggests that the applicant maintain lower dB emission and/or include sound-deadening materials; and

WHEREAS, the applicant's sound consultant asserts that sound-deadening materials would not be effective in reducing sound or vibration, given the existing wall construction and adjacency of the two buildings' walls and that installing new concrete walls would be an extreme measure with considerable hardship, which is not warranted for the level of sound and vibration which comply with the Noise Code parameters; and

WHEREAS, the Neighbors maintain their opposition to the PCE use even with the noted conditions; and

WHEREAS, the applicant has agreed to implement all of the Community Board's conditions and all of its acoustic consultant's recommendations; and

WHEREAS, the Board notes that the applicant has modified its sound transmission in response to the concerns raised by the Neighbor, but that the PCE and the Neighbor have been unable to resolve their differences; and

WHEREAS, the Board notes that four commissioners visited the site and the adjacent building at different times and did not observe the conditions the Neighbor describes; and

WHEREAS, the Board also is not persuaded by the Neighbor's and its tenants' unspecific complaints about the sound and vibration and the absence of a professional sound study like that produced by the applicant's sound expert, which the Board finds to be credible; and

WHEREAS, the Board concludes that the measures to be installed appear to address the primary concerns and are consistent with the measures the Board has seen proposed for similar facilities; and

WHEREAS, with regard to the noise and live load concerns, the Board notes that the applicant is required to comply with all Building Code, Noise Code, and all other regulations; and

WHEREAS, as far as the Neighbor's concerns about the history of illegality of the PCE use, the Board notes that the applicant has made efforts during its history to obtain a special permit and legalize a use that would have been legal by special permit at the beginning of its existence there; and

WHEREAS, the Board notes that due to the applicant's significant efforts, the PCE use is now within a zoning district where it is permitted; and

WHEREAS, the Board notes that the site is within an active commercial strip directly adjacent to Long Island Railroad tracks; and

WHEREAS, the Board also notes that the PCE's hours of operation are reasonable and significantly shorter than those for other PCE's; and

WHEREAS, the Board has taken care to visit the site unannounced at various times to observe conditions, visit the Neighbor's building, and to review all of the Neighbor's concerns and the applicant's responses, and is satisfied that the applicant has sufficiently addressed sound and vibration matters; and

WHEREAS, accordingly, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings

pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 617.2 and

WHEREAS, the New York City Department of City Planning ("DCP") has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement, CEQR No. 08DCP044Q, dated August 26, 2009; and

WHEREAS, the EAS documents that the operation of the PCE would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

Therefore it is Resolved that the Board of Standards and Appeals adopts the Negative Declaration issued by the Department of City Planning on July 23, 2010, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to permit, on a site partially within a C2-2 (R6B) zoning district and partially within a C8-1 zoning district, the legalization of a physical culture establishment on the cellar level, first floor, and mezzanine of a one-story building contrary to ZR § 32-31; *on condition* that all work shall substantially conform to drawings filed with this application marked "Received December 21, 2012" - Four (4) sheets and *on further condition*:

THAT the term of this grant will expire on January 8, 2023;

THAT the hours of operation will be limited to Monday to Thursday 8:00 a.m. to 9:00 p.m.; Friday 9:00 a.m. to 8:00 p.m.; Saturday 9:00 a.m. to 2:00 p.m.; and Sunday 9:00 a.m. to 1:00 p.m.;

THAT the sound limiter will be placed with a secure lock and in a location not accessible to the public;

THAT the speakers will hang from the mezzanine, padded carpeting will be maintained throughout the club, and other acoustical attenuation measures will be installed and maintained as reflected on the BSA- approved plans;

THAT there will be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT Local Law 58/87 compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, January 8, 2013.

110-12-A

APPLICANT – Greenberg Traurig, LLP by Deirdre A. Carson, Esq., for 100 Varick Realty, LLC, AND 66 Watts Realty LLC, owners.

SUBJECT – Application January 19, 2012 – Variance to §§26(7) and 30 of the Multiple Dwelling Law (pursuant to §310) to facilitate the new building, contrary to court regulations. M1-6 zoning district.

PREMISES AFFECTED – 100 Varick Street, east side of Varick Street, between Broome and Watts Streets, Block 477, Lot 35, 42, 44 & 76, Borough of Manhattan.

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated April 17, 2012, acting on Department of Buildings Application No. 320373742, reads in pertinent part:

> Proposed inner court for the residential portion of proposed 'mixed building' does not comply with minimum required dimensions; contrary to ZR 23-851; and

WHEREAS, this is an application under ZR § 72-21, to permit, on a site within an C1-4 (R7A) zoning district, a five-story mixed-use commercial/residential building with UG 6 on the ground floor and eight affordable housing units, which does not comply with the requirements for inner courts, contrary to ZR § 23-851; and

WHEREAS, a public hearing was held on this application on November 27, 2012, after due notice by publication in the *City Record*, and then to decision on January 8, 2013; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by Commissioner Montanez; and

WHEREAS, Community Board 8, Brooklyn, recommends approval of this application; and

WHEREAS, Councilmember Letitia James submitted a letter in support of the application; and

WHEREAS, the subject premises is a corner lot bounded by Washington Avenue to the east and St. John's Place to the north, within an C1-4 (R7A) zoning district; and

WHEREAS, the site is irregular in shape with approximately 22'-6" of frontage on Washington Avenue and 87'-10" of frontage on St. John's Place, with a total lot area of 3,972 sq. ft.; and

WHEREAS, the site is currently vacant, as a fire in June 2011 destroyed the mixed-use four-story building previously on the site; and

WHEREAS, the applicant proposes to construct a five-story and cellar mixed-use building, with Use Group 6 commercial use on the first floor and Use Group 2 affordable housing units on the second through fifth floors; and

WHEREAS, the proposed building will measure approximately 15,700 sq. ft. in floor area, with an FAR of 3.95 (the zoning district permits 15,888 sq. ft. and a maximum allowable FAR of 4.0), and will contain a total of eight residential units; and

WHEREAS, however, ZR § 23-851 requires a minimum inner court dimension of 30 feet and a minimum area of 1,200 sq. ft.; and

WHEREAS, the applicant proposes an inner court with dimensions of 23'-10" by 19'-7 1/8" and 730 sq. ft. of area, a reduction of 7'-0" and approximately 10'-0" in dimensions, and 472 sq. ft. of area; and

WHEREAS, the applicant asserts that the irregular shape of the lot and the history of the site contribute to the unique physical condition, which creates an unnecessary hardship in developing the site in compliance with applicable regulations; and

WHEREAS, the applicant states that the site has an irregular trapezoid shape, with a depth ranging from 22'-6" along Washington Avenue to 63'-3" at the rear of the site; and

WHEREAS, the applicant's land use map reflects that due to the angle at which Washington Avenue intersects St. John's Place and other parallel streets within the 400-ft. radius, there are approximately seven sites within the area that are of similar shape and size, but only the subject site is vacant; and

WHEREAS, as to the history of the site, in June 2008, the applicant purchased the mixed-use four-story building on the site in foreclosure as part of the Department of Housing Preservation and Development's (HPD) Third Party Transfer Program; and

WHEREAS, the applicant states that the program requires developers to temporarily relocate existing tenants while the building is being rehabilitated and reinstall the tenants in units of the same size once the restoration of the building is complete; and

WHEREAS, further, the applicant states that the owner entered into a regulatory agreement with the City of New York which requires compliance with certain restrictions for a 30-year period, including mandated residential rent levels and minimum household sizes; and

WHEREAS, the applicant submitted a letter from HPD reflecting that it supports the proposal and has given the applicant a low-interest rate loan through the Third Party Transfer Program, which dictates unit sizes and number of dwelling units for each proposed project; and

WHEREAS, the applicant states that the former building was occupied by three four-bedroom units with floor areas of 1,223 sq. ft. each and three three-bedroom units with floor area of 1,007 sq. ft. each; and

WHEREAS, the proposed building will have four four-bedroom units with floor area of 1,286 sq. ft. each and four three-bedroom units with floor area of 1,040 sq. ft. each; and

WHEREAS, the applicant's analysis reflects that the complying building can accommodate units with 998 sq. ft. and 1,185 sq. ft., which can accommodate two and three bedrooms, respectively, rather than three and four bedrooms in the former building; and

WHEREAS, accordingly, the applicant states that a fully complying building would only accommodate smaller units with fewer bedrooms or fewer units and would not satisfy the requirement to replace the former units; and

WHEREAS, the applicant notes that a complying building may be able to accommodate more units, but they would not be able to replace the existing ones without creating duplexes which are impractical and inefficient for such a small building due to the introduction of individual circulation space; and

WHEREAS, the applicant states that to reflect the conditions of the prior building on the site, to be re-occupied by former tenants, the proposal includes four three-bedroom units and four four-bedroom units, similar in size to the prior

units; and

WHEREAS, the applicant represents that due to the irregular shape of the lot and the court requirements, no complying building can be accommodated that would meet both inner court and HPD requirements regarding restoration of former tenants to dwelling units with identical room counts; and

WHEREAS, further, the applicant provided an analysis of a similar sized lot that is regular and rectangular in shape that showed that a conforming building accommodates and satisfies all HPD requirements regarding restoration of former tenants to dwelling units with former sizes and room counts; and

WHEREAS, the applicant states that the analysis confirms that the irregular shape of the site, which is a unique condition, creates a hardship for a conforming proposal to comply with zoning regulations and meet the programmatic needs established by HPD; and

WHEREAS, the applicant represents that the proposed inner court dimensions are the minimum needed to create units that meet HPD requirements; and

WHEREAS, the Board notes that the floor plate is dictated by the prior conditions and irregular lot and, thus there is little flexibility in satisfying the required quantity and size of units, but that because additional floor area was available, it allowed for another floor in the same footprint as the required floors; and

WHEREAS, further, the Board notes that it is not feasible to create duplex units to replace existing single floor units in such a small building; and

WHEREAS, the Board agrees that the unique shape, and history of the building on the site, with related HPD requirements, creates practical difficulties and unnecessary hardship in developing the site in compliance with the applicable zoning regulations; and

WHEREAS, the applicant submitted a feasibility study analyzing (1) an as-of-right scenario with mixed-use and a complying inner court; (2) an as-of-right scenario with mixed-use and a side yard with a width of eight feet; (3) an as-of-right scenario with an outer court; and (4) the proposed scenario; and

WHEREAS, the study concluded that the only scenario which would result in a reasonable return is the proposed; and

WHEREAS, based upon its review of the applicant's submissions, the Board has determined that because of the subject lot's unique physical conditions and history, there is no reasonable possibility that development in strict compliance with applicable zoning requirements will provide a reasonable return; and

WHEREAS, the applicant represents that the proposed variance will not negatively affect the character of the neighborhood, nor impact adjacent uses; and

WHEREAS, the applicant states that the court is not required on the ground floor, which will be occupied by commercial use, thus, the waiver only applies to floors two through five; and

WHEREAS, the applicant states that on both the Washington Avenue and St. John's Place sides of the building, a fully complying court would result in the building abutting the adjacent buildings for a greater depth than they do in the proposed scenario; and

WHEREAS, the applicant notes that the new building will replace the former building, which was constructed in approximately 1920 and did not provide a complying inner court, or required egress or fire safety measures; and

WHEREAS, accordingly, the applicant asserts that the proposed building will comply with all egress and fire safety requirements and will therefore provide increased safety to residents of the building as well as adjacent buildings; and

WHEREAS, the applicant represents that the impacts of the proposed waiver of inner court regulations on adjacent properties will be negligible when compared to available as-of-right scenarios; and

WHEREAS, based upon the above, the Board finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the applicant represents that the hardship was not created by the owner or a predecessor in title, but that the irregular shape of the lot is a historic condition; and

WHEREAS, based on the above, the Board agrees that the hardship herein was not created by the owner or a predecessor in title; and

WHEREAS, the applicant states that the proposal complies with all bulk regulations except inner court dimensions and that it is the minimum variance needed to allow for a reasonable and productive use of the site; and

WHEREAS, thus, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as an Unlisted action pursuant to Section 617 of 6NYCRR; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 12BSA137K, dated May 17, 2012; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21, to permit, on a site within an C1-4 (R7A) zoning district, a five-story mixed-use commercial/residential building with UG 6 on the ground floor and eight affordable housing units, which does not comply with the requirements for inner courts, contrary to ZR § 23-851; *on condition* that any and all work will substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received January 3, 2013"– eleven (11) sheets; and *on further condition*:

THAT the parameters of the building will be: five stories, a total height of 52'-1/2" without bulkhead, a total floor area of 15,700 sq. ft. (3.95 FAR), an inner court with the minimum dimensions of 23'-9" by 19'-7", and a lot coverage of 79 percent, as illustrated on the Board-approved plans;

THAT the internal floor layouts on each floor of the proposed building will be as reviewed and approved by DOB;

THAT this approval is limited to the relief granted by the Board, in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted;

THAT substantial construction will proceed in accordance with ZR § 72-23; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, January 8, 2013.

189-12-BZ

APPLICANT – Michael T. Sillerman, Kramer Levin et al., for the Wachtower Bible and Tract Society, Inc., owner; Bossert, LLC, lessees.

SUBJECT – Application June 12, 2012 – Variance (§72-21) to permit the conversion of an existing building into a transient hotel (UG 5), contrary to use regulations (§22-00). C1-3/R7-1, R6 zoning districts.

PREMISES AFFECTED – 98 Montague Street, east side of Hicks Street, between Montague and Remsen Streets, on block bounded by Hicks, Montague, Henry and Remsen Streets, Block 248, Lot 15, Borough of Brooklyn.

COMMUNITY BOARD #2BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Executive Zoning Specialist, dated May 30, 2012 acting on Department of Buildings Application No. 320374304, reads in pertinent part:

> Proposed transient hotel use (UG 5) is not permitted in R6 (LH-1) lot portion; contrary to ZR 22-10.
>
> Proposed transient hotel use (UG 5) is not permitted in C1-3/R7-1 (LH-1) lot portion; contrary to ZR 32-14; and

WHEREAS, this is an application under ZR § 72-21, to permit, on a site partially within an R6 zoning district and partially within a C1-3 (R7-1) zoning district within the Special Limited Height (LH-1) District and the Brooklyn Heights Historic District, the modification and conversion of an existing building into a transient hotel (Use Group 5) with 280 rooms, accessory hotel use (Use Group 5), and commercial use (Use Group 6), which does not conform with use regulations pursuant to ZR §§ 22-10 and 32-14; and

WHEREAS, a public hearing was held on this application on September 11, 2012, after due notice by publication in the *City Record*, with continued hearings on October 23, 2012 and November 27, 2012, and then to decision on January 8, 2013; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 2, Brooklyn, recommends approval of the application; and

WHEREAS, the Montague Street BID, Court/Livingston/Schermerhorn BID, the Brooklyn Chamber of Commerce, and certain community members and representatives of local businesses provided testimony in support of the proposal; and

WHEREAS, certain community members (including some represented by counsel) provided written and oral testimony in opposition to the proposal (the "Opposition"); their primary concerns are related to (1) increased vehicle traffic to the site; (2) potential for noise from the hotel and specifically the rooftop restaurant to be heard in nearby residential buildings; (3) the absence of a hardship associated with an as-of-right residential development; (4) the operation plan for the hotel and specifically the rooftop restaurant to minimize impact on nearby uses; and (5) the enforcement of the conditions imposed to improve the operation plan; and

WHEREAS, the existing building has 14 stories (the "Existing Building") and is located on the block bounded by Montague Street, Hicks Street, Remsen Street, and Henry Street, occupying the entire blockfront of Hicks Street between Montague and Remsen streets; the northern half of the site is within a C1-3 (R7-1) zoning district, and the southern half is within an R6 zoning district, within the Special Limited Height (LH-1) District and the Brooklyn Heights Historic District; and

WHEREAS, the site has 200 feet of frontage on Hicks Street, 78 feet of frontage on each of Montague and Remsen streets, and a total lot area of 15,635 sq. ft.; and

WHEREAS, the applicant states that the C1-3 (R7-1) zoning district permits residential use with a maximum FAR of 3.44, subject to the height factor and open space regulations, and community facility floor area of up to 4.8 FAR; commercial use of up to 2.0 FAR is permitted, but in a building containing residences or community facility uses, commercial uses are permitted only on the first floor of the building; and

WHEREAS, the applicant states that the R6 zoning district permits residential use with a maximum 2.43 FAR, subject to the height factor and open space regulations, and community facility floor area of up to 4.8 FAR; and

WHEREAS, the entire site is located within a Special Limited Height (LH-1) District, which limits the height of new buildings to 50 feet, pursuant to ZR § 23-691; the Existing Building is a contributing building in the Brooklyn Heights Historic District; and

WHEREAS, the Existing Building has the following non-complying bulk conditions: (1) a floor area of 180,533 sq. ft. (11.55 FAR) (approximately 75,000 sq. ft. would be permitted for community facility uses); (2) a streetwall height of 147 feet (50 feet is the maximum permitted) and a total height of 172 feet (50 feet is the maximum permitted); and (3) does not provide a setback (a setback with a depth of 20 feet is required); and

WHEREAS, the Board notes that the proposed building will maintain existing non-compliances; and

WHEREAS, the applicant proposes to restore and reconvert the Existing Building to Use Group 5 hotel use, with Use Group 6 restaurant use on the ground floor, and with limited accessory hotel signage; the existing floor area will be retained and converted to hotel use; and

WHEREAS, the first floor will be occupied by accessory hotel use, including meeting space limited to hotel guests, and a restaurant; the second through 13th floors will be occupied by guest rooms, and the partial 14th floor will be occupied by the rooftop restaurant; and

WHEREAS, the proposal reflects 280 hotel units, an approximately 2,884 square-foot restaurant on the ground floor, and a 2,953 square-foot accessory hotel restaurant and lounge in the 14th floor penthouse (the "Proposed Building"); and

WHEREAS, the Board notes that the use of the Existing Building includes four rent-stabilized units, which will remain; and

WHEREAS, the entrance to the hotel lobby would be located on Montague Street, and a complying restaurant space would also be entered from Montague Street; the existing loading entrance on Hicks Street would remain to service the hotel, and a conveyor belt system would be added to bring deliveries to the cellar and speed hotel deliveries; the height of the Proposed Building is approximately 172 feet, as at present, exclusive of mechanical space; and

WHEREAS, the applicant states that the current certificate of occupancy indicates community facility use, which is permitted in the subject zoning districts, although until 1997, the certificates of occupancy showed Use Group 5 transient hotel use, which was a pre-existing non-conforming use, and also Use Group 2 residential use; and

WHEREAS, the applicant adds that the latest Department of Housing Preservation & Development Multiple Dwelling Registration for the building shows 51 "Class A" units and 221 "Class B" units, which indicates that the building has been primarily used for transient occupancy; and

WHEREAS, the use of the Proposed Building as a hotel does not conform with the use regulations of the Zoning Resolution governing C1-3(R1-7) and R6 zoning districts, thus, the requested variance is required; and

WHEREAS, the applicant states that the following are unique physical conditions which create an unnecessary hardship in developing the site in conformance with applicable zoning district regulations: the building's historic use and configuration as a transient hotel and transient community facility accommodations; and

WHEREAS, as to the Existing Building, the applicant states that the original portion of the hotel was constructed in 1909 and as the Hotel Bossert, and has been used as a residence hall and Class "B" transient hotel throughout its history; and

WHEREAS, the building was built in two phases, with the first half (occupying the portion of the site within 100 feet of Montague Street) completed in 1909, and the latter half (toward Remsen Street) completed in 1912; and

WHEREAS, the applicant states that hotel was formerly occupied by the "Marine Roof," a two-level restaurant at the 14th floor; and

WHEREAS, the building deteriorated in the 1960s and 1970s, and was used as a single-room-occupancy hotel until it was acquired by the Jehovah's Witnesses in 1983; the Jehovah's Witnesses' restoration of the building earned a "Preservation Award" from the New York Landmarks Conservancy in 1991 and a Special Award for Architectural Excellence from the Brooklyn Heights Association in 1993; and

WHEREAS, the applicant asserts that Pre-1961 certificates of occupancy list the building as a Class "B" transient hotel containing guest rooms, a dining room, bar, lounge, ballroom, cabaret, and hotel support features; and

WHEREAS, certificates of occupancy in 1968, 1983, 1992, and 1995 showed both Use Group 2 "apartments" and also Use Group 5 "guest rooms" on each of the upper floors, with continued use of the lower floors for dining rooms, a lounge, and a kitchen; and

WHEREAS, most recently, the Watchtower Bible and Tract Society (the Jehovah's Witnesses) began to occupy the Existing Building in 1983, and converted it to community facility use in 1997; the Jehovah's Witnesses currently use the building for both long-term and short-term stays by their members; and

WHEREAS, the most recent certificate of occupancy for the building, which indicates "J-2 non-profit institution with sleeping accommodations," with both "apartments" and "guest rooms" on each of the upper floors; and

WHEREAS, the applicant states that the Existing Building is configured with four narrow "fingers" extending off of its main hallway; the rooms located in these fingers have windows facing an inner court with pre-Multiple Dwelling Law ("MDL"), tenement-like dimensions, which does not meet modern standards for legal light and air, at some places with a width as narrow as 12 feet; and

WHEREAS, the Existing Building is currently arranged with 224 rooms, including several one- and two-bedroom suites; and

WHEREAS, the applicant asserts that given its current use and layout, with relatively small rooms and a noncomplying inner court, the building is best suited for transient hotel use; conversion to a complying residential use would require extensive demolition and rebuilding in the rear to create a complying inner court, which is highly visible at the building's eastern façade and would be subject to LPC's review and approval; and

WHEREAS, specifically, the applicant states that the construction of the building in two phases resulted in many redundancies in the building's systems, including four separate egress stairs, two passenger elevator shafts, and a very long hallway that shifts by approximately five feet at the junction between the first and the second building segments; thus, the Existing Building is uniquely inefficient, even by the standards of its time; and

WHEREAS, the consulting architect provided a statement which asserts that as a result of the historic conditions, development of the Existing Building for residential use, in compliance with the Zoning Resolution, would require substantial demolition and reconstruction in the rear of the building to create a complying inner court; and

WHEREAS, the architect states that conversion of this non-residential building to residential use may be done in accordance with Article 1, Chapter 5 of the Zoning Resolution, which substitutes MDL § 277 standards for light and air in place of the Zoning Resolution Article 2 requirements; however, the Existing Building's courts measure 12 to 13 feet in width, which do not meet the minimum width court dimension of 15 feet required by MDL § 277 for legal windows, so a complying court would need to be constructed for a complying residential scheme; and

WHEREAS, the architect concludes that the area in the rear of the building would constitute an inner court, as defined in the MDL, but does not have a minimum dimension of 15 feet for all of the windows facing the court; some windows face a court with a dimension of as little as 12 feet; thus, the Existing Building does not meet even the more liberal court standards of MDL § 277; and

WHEREAS, the applicant submitted a plan scheme for a complying residential building, which reflects that the "fingers" in the rear of the Existing Building would be cut back, and certain areas of the existing court would be filled in, to create a regularly shaped, rectangular inner court with dimensions of 30 feet by 78 feet; and

WHEREAS, the applicant notes that the Existing Building has floor plate widths of approximately 36 feet to 39 feet as compared to the 60-ft. width of the typical modern residential building with a double-loaded corridor, so the reconfiguration of the court and the additions to the floor slab would allow for a more efficient internal layout, although, the layout would still be less efficient than in a modern residential building; and

WHEREAS, the applicant submitted a report which describes the extensive structural work that would be required in order to create the complying court shown in the as-of-right residential scheme drawings; and

WHEREAS, the applicant asserts that the required work would include: (1) demolition of the existing masonry façade, cladding, windows and interior partitions in the area of the rear half of the building; (2) demolition of the portion of the building protruding into the new proposed court yard area, at floors 2-14 and the roof, including existing elevator shafts and general floor framing; (3) installation of new floor framing plus concrete on metal deck within the "old/existing" light well area which would become new enclosed space, upon floors two through the roof; (4) construction of the new façade around the new proposed courtyard area; (5) upgrading the existing columns along the "old/existing" light well area, via the concrete encapsulation or plating with new steel; (6) upgrading of the portion of the existing columns which are within the existing building below the second floor; and (7) upgrading of the foundation supporting the columns as required for the new loads; and

WHEREAS, the applicant represents that the premium costs associated with the reconfiguration of the Existing Building to comply with minimum court regulations amount to $4 million; and

WHEREAS, the applicant notes that the need to add kitchens to all of the rooms and reconfigure the bathrooms with new plumbing would further add to the cost of this work; and

WHEREAS, the applicant asserts that even with the noted reconfiguration of the Existing Building, inefficiencies in the layout would remain; specifically, the apartment units along the street-side perimeter of the building would be too narrow for well-designed, marketable apartment units and the inefficiency results in a reduction in the number of units from the existing 224 down to 137 in the as-of-right residential scheme; and

WHEREAS, the applicant has documented the additional costs associated with demolishing the interior portion of the building in order to provide the courtyard; and

WHEREAS, the Board notes that that the demolished floor area cannot be replaced as of right because the building would still be overbuilt and the heights of both wings of the existing building exceed the height limits set forth in the Limited Height District; and

WHEREAS, thus, the applicant asserts that the layout of the floors is more compatible with the proposed use and requires less significant modifications to accommodate the proposed use than would be required to accommodate a conforming residential use; and

WHEREAS, as noted, the applicant represents that the considerable costs associated with converting the building to a conforming residential use cannot be overcome because the building cannot feasibly accommodate residential units that would be marketable; and

WHEREAS, the applicant states that the configuration and history of development of the building are unique and create hardships that are not found on other sites in the neighborhood; and

WHEREAS, based upon the above, the Board finds that the aforementioned unique physical conditions, when considered in the aggregate, create unnecessary hardship and practical difficulty in developing the site in conformance and compliance with the applicable zoning district regulations; and

WHEREAS, the applicant assessed the financial feasibility of three scenarios: (1) the as-of-right residential scheme involving the conversion of the Existing Building to residential use with 137 units, in compliance with the use regulations of the C1-3 (R7-1) and R6 districts with a ground-floor restaurant, an accessory restaurant in the penthouse, and community facility spaces on the ground-floor and in the basement; (2) a lesser variance residential scheme, which would involve the conversion of the Existing Building to residential use, in compliance with the applicable use regulations, but without the demolition in the rear of the building to create a complying court; the lesser variance scheme requires a variance pursuant to MDL § 310 to allow residential units to have windows facing the existing noncomplying inner court; and (3) the Proposed Building, with 302 transient hotel rooms; and

WHEREAS, during the hearing process, and in response to the Board's and the Oppositions questions, the applicant clarified certain points including condominium valuation, the value of the four rent-regulated units, and hotel comparables; and

WHEREAS, ultimately, at the Board's direction, the applicant reduced the number of hotel rooms from 302 to 280 and explained that it could still achieve a reasonable rate of return by offsetting the reduction in rooms by an increase in premium suite-type units; and

WHEREAS, the applicant concluded that only the transient hotel scheme would result in a sufficient return; and

WHEREAS, the applicant revised the proposal to its current iteration as a 280-room transient hotel with accessory uses and has submitted evidence reflecting that it achieves a reasonable return; and

WHEREAS, based upon its review of the applicant's submissions, the Board has determined that because of the subject site's unique physical conditions, there is no reasonable possibility that development in strict conformance with applicable zoning requirements will provide a reasonable return; and

WHEREAS, the applicant represents that the proposed use will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare; and

WHEREAS, the applicant notes that the Existing Building, designed for and used as a hotel and, later, a community facility, with transient sleeping accommodations, has not been used for conforming residential use; and

WHEREAS, the applicant represents that the immediate area is a mix of commercial, residential, and institutional uses; and

WHEREAS, the applicant states that the block on which the site is located is improved with retail and other buildings of between one and eight stories along Montague Street and four- to five-story brownstone buildings along Remsen Street; and

WHEREAS, the applicant notes that the proposed commercial use is permitted by underlying zoning district regulations; and

WHEREAS, the applicant states that Montague Street, where the hotel's entrance is located, is an active retail corridor, with mostly restaurants, cafes, clothing stores, and personal service establishments in one- to two-story retail buildings or four- to eight-story mixed residential and commercial buildings; immediately to the east of the site, on Montague Street, is a single-story supermarket building and the building to the east of the site on Remsen Street is a four-story, multi-family brownstone building; and

WHEREAS, the applicant represents that the building is among a diverse collection of brownstones, 6-12-story multi-family apartment building, retail, and institutional uses; the office district of Downtown Brooklyn and Borough Hall lies three blocks to the east of the site; the Proposed Building will continue to have its entrance on Montague Street, which is an active retail street between Hicks Street and Cadman Plaza; and

WHEREAS, the alterations necessary to reconvert the Proposed Building to hotel use are subject to approval by the LPC; and by letter dated September 7, 2012, LPC issued a Certificate of No Effect; and

WHEREAS, the applicant asserts that the Proposed Building will be operated in a very similar manner to the Existing Building, which, although it is classified on its certificate of occupancy as a community facility use, in practice operates very much like a typical transient hotel; and

WHEREAS, the applicant asserts that the Jehovah's Witnesses' use of the Existing Building includes many rooms used for short-term stays by their members who are visiting New York City from out of town and generally stay in the hotel for one to three nights; and

WHEREAS, the applicant states that although the Existing Building is currently configured with 224 rooms, with some one- and two-bedroom suites, the Jehovah's Witnesses have historically operated it to maximize occupancy, and have unrelated individuals in a single room,

akin to a dormitory; and

WHEREAS, thus, the applicant asserts, the hotel has been operated, in practice, like a hotel with more than 224 rooms; and

WHEREAS, the applicant states that the Jehovah's Witnesses use the dining rooms on the ground floor and basement level as a commissary, to feed staff from many different facilities in the Brooklyn Heights neighborhood, accommodating several hundred people for lunch at the site, with meals prepared in the large commercial kitchen in the building's cellar; and

WHEREAS, the applicant asserts that the layout of the Proposed Building, with 280 rooms, results from breaking up the existing multi-room suites into individual rooms according to natural room partitions; and

WHEREAS, the applicant asserts that this reconfiguration will effectively accommodate the same number of people who are currently accommodated by the Jehovah's Witnesses, but in a more traditional hotel layout, with individual, private rooms and bathrooms; and

WHEREAS, the applicant states that the Proposed Building will include a (1) ground-floor restaurant, entered from Montague Street, which will be an elegant, "white table cloth" restaurant and (2) a penthouse restaurant and lounge on the 14th floor of the building, with indoor and outdoor dining; and

WHEREAS, during the hearing process, the applicant provided several iterations of an operation plan to address the Opposition's concerns related to: (1) increased vehicle traffic to the site; (2) potential for noise from the hotel and specifically the rooftop restaurant to be heard in nearby residential buildings; (3) the absence of a hardship associated with an as-of-right residential development; (4) the operation plan for the hotel and specifically the rooftop restaurant to minimize impact on nearby uses; and (5) the enforcement of the conditions imposed to improve the operation plan; and

WHEREAS, as to traffic, the applicant states that its EAS analysis shows that there will be fewer than 50 incremental vehicle trips and fewer than 200 incremental pedestrian trips in any intersection in any peak hour as a result of the proposed project; therefore, a detailed traffic study is not warranted for CEQR purposes, as the additional traffic generated by the project would not exceed the applicable CEQR thresholds; and

WHEREAS, the applicant represents that the hotel will actively manage its taxi traffic and loading operations to avoid any potential traffic conflicts in the surrounding area; a hotel loading zone is designated in front of the hotel on Montague Street, which allows for efficient taxi drop-off and pick-ups; and

WHEREAS, in addition, the entire block of Hicks Street adjacent to the hotel, between Remsen and Montague streets, is designated as a loading zone, with no parking during daytime hours; this loading zone is adjacent to the hotel's dedicated loading entrance on Hicks Street; and

WHEREAS, the applicant states that it has developed a traffic management plan for the project, which includes the following elements: (1) taxis and cars will drop off in the hotel loading zone on Montague Street, which can accommodate two parked vehicles; (2) the hotel will contract with Quik Park to valet any private vehicles to the facility at 360 Furman Street, which is a 10-minute walk from the site; (3) the hotel loading zone on Hicks Street of 140-150 feet in length will accommodate several small trucks at any time; (4) it is anticipated that there will be mostly two small trucks at any given time for the deliveries to the hotel, which will be primarily food and beverage, some laundry, and private trash carting; and (5) take all reasonable measures to limit deliveries to 7:00 a.m. – 10:00 a.m., and will consult with the Community Board concerning delivery hours and any related issues; and

WHEREAS, additionally, the applicant asserts that the planned modifications to the loading area in the Proposed Building will improve the hotel's loading operations; and

WHEREAS, the applicant proposes the following additional measures: (1) dedicated staff of at least two door/bellman at the entrance to manage taxi and auto traffic, to do the following: (i) enforce double-parking prohibition, (ii) unload guest vehicles as promptly as practicable, (iii) take vehicles to the off-site parking garage as soon as the guest's luggage has been unloaded, and (iv) summon radio cars when needed by guests, using a dispatch system; (2) to provide additional staffing as required to prevent traffic congestion and adjust doormen and parking staff schedule daily based on guests' transportation data collected from advanced reservations; and (3) to develop projections of guest transportation needs for the days ahead by asking guests to identify their means of transportations in and out of the hotel; and

WHEREAS, the applicant also (1) proposes to maintain a "No Standing Hotel Loading Zone" regulation in front of the hotel on Montague Street, and a "No Standing Except Trucks" regulation on Hicks Street; (2) has requested that DOT extend the hotel loading zone on Montague Street for one additional space to the east, in an area that is currently a metered space so that the resulting loading zone will accommodate three vehicles; and (3) will not allow tour or charter buses to load or unload at the hotel; and

WHEREAS, the applicant notes that the Existing Building currently contains a small loading area at the ground-floor level, which leads directly to the building's freight elevator and the limited size of this loading area limits the ability to stage deliveries in this area; and

WHEREAS, the applicant states that it will install a conveyer belt system in this loading area to bring deliveries directly to the cellar as well as a trash compactor in the building to minimize waiting times for trash carting by reducing the volume of trash to be collected; and

WHEREAS, the applicant asserts that these improvements will speed the unloading of deliveries and loading of trash, and minimize truck waiting time along Hicks Street; and

WHEREAS, as to the use of the rooftop restaurant, the applicant proposes (1) that no music will be permitted on the

outdoor terrace or in any other outdoor location; (2) indoor rooftop restaurant music will be developed with noise abatement measures and will be limited to 69 dbA at all times; (3) the proposed outdoor terrace measures a maximum of 11 feet by 159 feet; (4) maximum occupancy at any given time in the rooftop restaurant and on the terrace will not exceed 120 in total, of which not more than 40 at any given time may occupy the terrace; (5) no opening of the walls or windows of the rooftop restaurant, whether permanent or temporary, will be permitted; (6) the rooftop restaurant and terrace will include (i) vestibules at each exit point onto the terrace, (ii) soundproofing material on the exterior walls of the restaurant and walls of the terrace, (iii) sound-absorbing finishes for the exterior areas, and (iv) insulated glass; (7) the rooftop terrace will close at 10:00 pm on all nights (meaning that no patrons will be allowed on the terrace after this time, except on New Year's Eve); (8) the indoor rooftop restaurant will close by 11:00 pm on weekdays, and 12:00 am on Fridays and Saturdays; and (9) that no additional occupiable outdoor space shall be developed on any floor, including the 13th and 14th floors, except as may be required by code for egress from terrace; and

WHEREAS, the Board notes that restaurant closure means closure of the entire restaurant and not just the kitchen; and

WHEREAS, as to other event and restaurant space, the applicant states that (1) the meeting rooms on the ground floor and in the basement will be restricted to use by registered hotel guests, and may not be rented to or used by non-guests; (2) there are no event spaces in the hotel available for rental by non-hotel guests; (3) the applicant will not apply for a DCA Cabaret license or enter into any special events contracts with third-party booking agents advertising events to the public for any of the spaces in the hotel; (4) sound-absorbing interior finishes will be used for the meeting rooms and the ground-floor restaurant; (5) total capacity of ground-floor restaurant spaces will be 240 persons, which may be distributed between the Montague Street (C1-3) restaurant and the rear restaurant/lounge; (6) no rope lines, checkpoints, or check-in tents will be established at any time outside of the hotel; (7) the applicant agrees to use all reasonable measures to ensure that all people waiting to use the hotel facilities will be accommodated within the hotel building; and (8) the applicant will post a sign outside the hotel, near the Montague Street entrance, stating: "This is a residential neighborhood. Please respect our neighbors." and will instruct hotel staff to take all reasonable measures to reduce noise by patrons outside of the hotel and restaurants; and

WHEREAS, the applicant proposes the following additional conditions: (1) to make improvements to the HVAC systems, including central air, which will help to reduce noise in the surrounding area; (2) to establish a Community Liaison to respond to all community concerns; (3) to hold monthly meetings with community members through the Community Board; (4) to focus lighting away from neighboring buildings, and provide very soft and not obtrusively bright lighting; and (5) to limit the use the Remsen Street entrance to required egress; and

WHEREAS, the applicant notes that any noise levels generated by all units and ventilation systems provided are dictated by the Building Code, and as such will operate within the maximum 45 dB (decibel) level prescribed by the Building Code; and

WHEREAS, the Board notes that the applicant and the Opposition had a series of conversations about the operation plan and that both parties appeared at the hearings on the matter; and

WHEREAS, the Board is pleased that the parties have come to a resolution on nearly all of the conditions that caused concern to the Opposition; and

WHEREAS, the Board notes that only the following issues remain unresolved, per the Opposition's requests: (1) no music be permitted within the rooftop restaurant, and no sound amplification system of any kind be installed or used in such space; (2) no parties or other loud events be permitted on the rooftop terrace; (3) no cabaret, dance, DJ or other loud event be permitted on the rooftop, whether indoors or on the outdoor terrace; (4) an 11:00 p.m. closure time for the indoor rooftop restaurant on all days; (5) to have its acoustic consultant review the plans for baffling and make recommendations; (6) that the hotel be limited to a maximum of 225 guest rooms in order to minimize adverse traffic impacts; and (7) that the variance not be effective until the applicant has entered into an agreement with the Casino Mansion Company (CMC), requiring it to observe all restrictions and allowing CMC to enforce such restrictions directly; and

WHEREAS, the Board finds that the applicant has committed to institute numerous measures to satisfy the Opposition's concerns; and

WHEREAS, the Board notes that the applicant will impose significant mitigation to prevent the sound from reaching nearby uses, which is supported by the applicant's acoustical consultant and is consistent with the measures employed in other similar cases; and

WHEREAS, accordingly, the Board finds the applicant's proposal satisfactorily addresses the Opposition's concerns related to the use of the rooftop and other noise; and

WHEREAS, the Board finds that the applicant similarly proposes significant mitigation measures to address the Opposition's concerns about traffic; and

WHEREAS, with regard to the Opposition's proposal that the applicant enter an agreement which would allow CMC to directly enforce any non-compliance with the conditions of the grant, the Board does not take a position as to the appropriateness of such a proposal, but notes that the Department of Buildings enforces the conditions of the Board's grants and that in the event of non-compliance, the Board may ultimately review the use and evaluate the compliance with its conditions; and

WHEREAS, the Board notes that the Opposition

raised several supplemental issues concerning the applicant's methodology and other matters and that the applicant provided responses to clarify its analysis, which the Board accepts as rational and thorough; and

WHEREAS, thus, the Board supports the applicant's proposed conditions, but notes that it finds 11:00 p.m. to be a more appropriate closure time for the restaurant during the week and it finds a limitation on the ground floor restaurant use to an occupancy of 240 to be more compatible with the surrounding area; and

WHEREAS, the Board agrees that the proposed use has been designed to minimize any effect on nearby conforming uses; and

WHEREAS, accordingly, the Board finds that this action will neither alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the applicant states that the practical difficulties and unnecessary hardships associated with the development of the Proposed Building result from the history of development of the Existing Building, its purpose-built character, and its incompatibility with a conforming use; and

WHEREAS, the Board finds that the hardship herein was not created by the owner or a predecessor in title, but is rather a function of the unique physical characteristics of the Existing Building; and

WHEREAS, the applicant asserts that the lesser variance residential scenario, which requires a waiver for inner court dimensions required pursuant to ZR § 15-112, for residential conversions, does not realize a reasonable rate of return; and

WHEREAS, further, the applicant asserts that the residential units would have diminished marketability due to the conditions associated with the insufficient court dimensions and other compromised layout conditions; and

WHEREAS, the Board notes that the applicant initially proposed 302 transient hotel rooms and certain other conditions related to the restaurant uses to overcome the hardship at the site; and

WHEREAS, the Board notes that the current proposal reflects fewer units than the original proposal and many conditions to increase compatibility with nearby conforming uses; and

WHEREAS, accordingly, the Board finds that the current proposal is the minimum necessary to offset the hardship associated with the uniqueness of the site and to afford the owner relief; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as a Type I action pursuant to Sections 617.2 and 617.6 of 6NYCRR; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 12BSA143K, dated September 21, 2012; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

Therefore it is Resolved that the Board of Standards and Appeals issues a Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 and grants a variance, to permit, on a site partially within an R6 zoning district and partially within a C1-3 (R7-1) zoning district within the Special Limited Height (LH-1) District and the Brooklyn Heights Historic District, the modification and conversion of an existing building into a transient hotel (Use Group 5) with 280 rooms and accessory hotel use (Use Group 5) and commercial use (Use Group 6), which does not conform with use regulations pursuant to ZR §§ 22-10 and 32-14, *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received January 7, 2013" – twenty-four (24) sheets; and *on further condition*:

THAT the following will be the bulk parameters of the Proposed Building: 14 stories, a wall height of 147 feet, and a total height of 172 feet; a total floor area of 180,533 sq. ft. (11.55 FAR); transient hotel floor area of 177,649 sq. ft.; commercial floor area of 2,884 sq. ft.; and a maximum of 280 hotel rooms (including suites);

<u>14th Floor Restaurant and Terrace</u>

THAT no music, amplified or unamplified, and no sound amplification system of any kind will be permitted on the outdoor terrace;

THAT the 14th floor restaurant and terrace will contain sound attenuation measures as shown on the approved plans and indoor music will be limited to 69 dbA at all times;

THAT the maximum occupancy at any given time both in the 14th floor restaurant and on the terrace will comply with Building Code occupancy regulations and not exceed 120 persons in total, of which not more than 40 patrons at any given time may occupy the terrace;

THAT the 14th floor restaurant will close by 11:00 p.m. on weekdays, and by 12:00 a.m. on Fridays and

Saturdays (i.e., no patrons will be allowed in the restaurant after these times);

THAT the 14th floor terrace will close at 10:00 p.m. on all nights (i.e., no patrons will be allowed on the terrace after this time), except that the 14th floor terrace may remain open beyond 10:00 p.m. on New Year's Eve;

Ground Floor Restaurant and Meeting Rooms

THAT the meeting rooms on the ground floor and in the basement will be restricted to use by registered hotel guests, and may not be rented to or used by non-hotel guests;

THAT the meeting rooms and the ground-floor restaurant will contain sound attenuation measures as shown on the approved plans;

THAT the capacity of both ground-floor restaurant spaces shall be limited to a combined total of 240 persons;

Pedestrian and Vehicular Traffic

THAT the hotel will provide 75 to 100 spaces dedicated for use by the hotel at the parking garage at 360 Furman Street, which will be available for parking 24 hours a day, seven days a week;

THAT at least two dedicated staff at the hotel entrance will manage taxi and other vehicle traffic, including enforcing double-parking prohibition, unloading guest vehicles, taking vehicles to the off-site parking garage, and summoning radio cars when needed by guests, using a dispatch system;

THAT no rope lines, checkpoints, or check-in tents will be permitted at any time outside of the hotel;

THAT no tour or charter buses will be permitted to load or unload in front of the hotel;

THAT deliveries will be limited to hours between 7:00 a.m. and 7:00 p.m.;

THAT the Remsen Street entrance will only be used for required egress;

Other Conditions

THAT no cabaret license will be issued for any space in the hotel;

THAT no occupancy will be permitted in any other outdoor space, other than the 14th floor terrace except as may be required by code for egress from terrace;

THAT a sign will be posted outside the hotel, near the Montague Street entrance, stating: "This is a residential neighborhood. Please respect our neighbors";

THAT any exterior lighting will at all times be directed away from neighboring buildings;

THAT the all of the above conditions will be listed on the certificate of occupancy;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT this grant is contingent upon final approval from the Department of Environmental Protection before issuance of construction permits other than permits needed for soil remediation; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, January 8, 2013.

200-12-BZ
CEQR #12-BSA-148M
APPLICANT – Sheldon Lobel, P.C., for Oversea Chinese Mission, owner.
SUBJECT – Application June 26, 2012 – Variance (§72-21) to permit the enlargement of UG4 house of worship (*The Overseas Chinese Mission*), contrary floor area (§109-121), lot coverage (§109-122) and enlargement of non-complying building (§54-31). C6-2 zoning district.
PREMISES AFFECTED – 154 Hester Street, southwest corner of Hester Street and Elizabeth Street, Block 204, Lot 16, Borough of Manhattan.
COMMUNITY BOARD #2M
ACTION OF THE BOARD – Application granted on condition.
THE VOTE TO GRANT –
Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5
Negative:.....0
THE RESOLUTION:

WHEREAS, the decision of the Manhattan Borough Commissioner, dated May 31, 2012, acting on Department of Buildings Application No. 121048801 reads, in pertinent part:

ZR 109-121 - The existing floor area exceeds the 4.8 permitted by this section with Preservation Area A.

ZR 109-122 - The proposed enlargement exceeds lot coverage permitted by this section.

1. ZR 54-31 – In a C6-2G Zoning District within Preservation Area A, the existing bulk and lot coverage are non-complying, therefore the proposed enlargement increases the non-compliance and is not permitted; and

WHEREAS, this is an application for a variance pursuant to ZR § 72-21 to permit, on a site in a C6-2G zoning district within the Special Little Italy District (LI) Area A the enlargement of an existing nine-story community facility building (Use Group 4), which does not comply with the underlying zoning district regulations for floor area and lot coverage and increases the degree of non-complying floor area and lot coverage conditions, contrary to ZR §§ 109-121, 109-122, and 54-31; and

WHEREAS, a public hearing was held on this application on December 4, 2012, after due notice by publication in *The City Record*, and then to decision on January 8, 2013; and

WHEREAS, the premises and surrounding area had

site and neighborhood examinations by Commissioner Hinkson and Commissioner Ottley-Brown; and

WHEREAS, Community Board 2, Manhattan, recommends approval of the application; and

WHEREAS, the applicant submitted approximately 70 letters in support of the application from community members and businesses in the area; and

WHEREAS, this application is being brought on behalf of Oversea Chinese Mission ("OCM"), a non-profit religious entity; and

WHEREAS, the subject site is located on the southwest corner of Hester Street and Elizabeth Street, within a C6-2G zoning district with the Special Little Italy District (LI) Area A; and

WHEREAS, the subject site has a width ranging from 54'-7" to 55'-1", a depth of 99'-10", and a lot area of 5,473 sq. ft.; and

WHEREAS, the subject site is currently occupied by a pre-existing non-complying nine-story building built in 1912, which was used as a school when OCM purchased it in 1966 and is now occupied by OCM for its house of worship and ancillary uses; and

WHEREAS, the cellar and first floor are built full to the lot lines and floors two through eight are built full with the exception of a light well located along the western lot line measuring approximately three feet by 40 feet for a total of approximately 320 sq. ft. per floor; the ninth floor is a partial floor along the north half of the building; and

WHEREAS, the applicant proposes to undertake a full renovation of the building to accommodate its growing needs and to enlarge the building by filling in the light well on floors two through eight; and

WHEREAS, the applicant states that the existing building has the following non-complying parameters: a total floor area of 43,650 sq. ft. (8.39 FAR) (which exceeds the maximum permitted 26,270 sq. ft. and 4.8 FAR for community facility use); a total lot coverage of 95 percent (which exceeds the maximum permitted 70 percent); and a height of 126'-6" (which exceeds the maximum permitted height of 75'-0"); and

WHEREAS, the applicant proposes to enlarge the building to the following parameters: a floor area of 45,959 sq. ft. (8.5 FAR); and a lot coverage of 100 percent; and

WHEREAS, the applicant notes that the enlargement increases the degree of non-compliance of the floor area and lot coverage, but does not affect any other bulk parameters; and

WHEREAS, the proposal provides for the following uses: (1) a multipurpose room/chapel at the first floor; (2) the main sanctuary on the second floor; (3) a multipurpose room/chapel and a nursery on the third floor; (4) a children's library and classrooms on the fourth floor; (5) classrooms, a computer lab, and a youth worship room on the fifth floor; (6) classrooms, offices, and a conference room on the sixth floor; (7) classrooms on the seventh floor; (8) classrooms and two accessory apartments on the eighth floor; and (9) classrooms and a rooftop terrace on the ninth floor; and

WHEREAS, the applicant states that due to the building's non-complying bulk, without a variance, no enlargement of the building envelope would be allowed; and

WHEREAS, the applicant states that the following are the primary programmatic needs of OCM which necessitate the requested variances: (1) to increase the seating capacity of the sanctuary space; (2) to provide additional classroom space; (3) to provide improved and increased ADA-compliant facilities; (4) to provide additional office and support space; (5) to provide additional mechanical space without disrupting floor plans; and (6) to improve the efficiency of the building, its security, access, and circulation; and

WHEREAS, the applicant states that the congregation's size has grown consistently and continues to grow, but the building has never undergone any significant renovations and thus, some worship services overflow into different floors due to high attendance and members must participate remotely via audiovisual equipment; and

WHEREAS, the applicant states that the number of existing classrooms limits the number of fellowship activities that can be offered, particularly on Friday evenings and Sunday afternoons; and

WHEREAS, the applicant states that OCM has had to rent auditorium, gymnasium, and classroom space from a nearby public school to accommodate its programmatic needs; and

WHEREAS, the applicant states that the proposed floor area and lot coverage waivers will allow OCM to increase its floor area while allowing for more program space, improved interior layouts and circulation, and ADA-compliant restrooms and elevator; and

WHEREAS, the applicant represents that OCM also requires additional and improved space for its many community-based programs including language classes and activities for children; and

WHEREAS, the applicant provided a chart which analyzes the existing, as-of-right, and proposed conditions, which includes that (1) the existing sanctuary space accommodates 704 occupants, the as-of-right would accommodate 966, and the proposed will accommodate 1,018; and (2) the existing number of classrooms is 23, the as-of-right would accommodate 24, and the proposed reflects 28; and

WHEREAS, further, the chart reflects that the current building does not provide central HVAC or sprinklers, there are not any Code- or ADA-compliant restrooms, and that the existing stair tower is exposed to the elements; and

WHEREAS, the proposal reflects adding HVAC and sprinklers, providing complying restrooms, and enclosing the stair tower to enhance comfort and promote building-wide vertical circulation; and

WHEREAS, as to the existing conditions, the applicant notes that the building is nearly 100 years old and was formerly occupied by a school with many small offices and classrooms; and

WHEREAS, the applicant asserts that the pre-existing

non-complying conditions of the 1912 building cannot accommodate modern use and the programmatic needs of OCM including large assembly areas, useful classroom configurations, required mechanicals, and circulation space; and

WHEREAS, the Board acknowledges that OCM, as a religious institution, is entitled to significant deference under the law of the State of New York as to zoning and as to its ability to rely upon programmatic needs in support of the subject variance application; and

WHEREAS, specifically, as held in Westchester Reform Temple v. Brown, 22 NY2d 488 (1968), a religious institution's application is to be permitted unless it can be shown to have an adverse effect upon the health, safety, or welfare of the community, and general concerns about traffic and disruption of the residential character of a neighborhood are insufficient grounds for the denial of an application; and

WHEREAS, based upon the above, the Board finds that the programmatic needs of OCM coupled with the constraints of the existing buildings create unnecessary hardship and practical difficulty in developing the site in compliance with the applicable zoning regulations; and

WHEREAS, the applicant need not address ZR § 72-21(b) since OCM is a not-for-profit organization and the proposed development will be in furtherance of its not-for-profit mission; and

WHEREAS, the applicant represents that the proposed enlargement will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare; and

WHEREAS, the applicant states that that the proposed use is permitted in the subject zoning district; and

WHEREAS, the applicant notes that OCM has occupied the building for more than 50 years and, thus, its use is established in the community and will not change; and

WHEREAS, the applicant states that the existing light well to be enclosed cannot be viewed from three sides of the building, including both street frontages; and

WHEREAS, the applicant states that no other changes are proposed to the envelope of the existing nine-story building and that the pre-existing non-complying height will not change; and

WHEREAS, as to bulk, the applicant submitted a 400-ft. radius diagram which reflects that the area is developed primarily with mixed-use commercial/residential buildings and multiple dwellings between five and seven stories; and

WHEREAS, the applicant asserts that the enlargement will not have a negative impact on the light and air accessed by the adjacent seven-story commercial building or eight-story apartment building; and

WHEREAS, the applicant performed a shadow study which reflects that the incremental increase in shadows associated with the enlargement is negligible; and

WHEREAS, with regard to noise, the applicant states that the new windows proposed for the enlargement will be inoperable on the first through third floors, which will be occupied by large assembly spaces, and will only be operable on the fourth through eighth floors; additionally, the wall construction and new windows will have higher STC ratings than the existing wall and windows, and provide a greater level of noise attenuation; and

WHEREAS, accordingly, the Board finds that this action will neither alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the applicant states that the hardship was not self-created and that no development that would meet the programmatic needs of OCM could occur in its existing building; and

WHEREAS, accordingly, the Board finds that the hardship herein was not created by the owner or a predecessor in title; and

WHEREAS, the applicant notes that the application reflects an increase in the total floor are of only approximately 2,300 sq. ft. (a five percent increase over the existing floor area) and an increase in lot coverage of approximately five percent; and

WHEREAS, the applicant notes that the building envelope will be unchanged except for the enclosure of the existing light well; otherwise, the renovation is within the envelope of the building; and

WHEREAS, accordingly, the Board finds the requested waivers to be the minimum necessary to afford OCM the relief needed to meet its programmatic needs; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No.12BSA148M, dated June 26, 2012; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved that the Board of Standards and Appeals issues a Negative Declaration prepared in

accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 and grants a variance to permit, on a site in a C6-2G zoning district within the Special Little Italy District (LI) Area A, the enlargement of an existing nine-story community facility building (Use Group 4), which does not comply with the underlying zoning district regulations for floor area and lot coverage and increases the degree of non-complying floor area and lot coverage conditions, contrary to ZR §§ 109-121, 109-122, and 54-31; *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received December 21, 2012" – Thirteen (13) sheets, and *on further condition*:

THAT the building parameters will include: a maximum floor area of 45,959 sq. ft. (8.5 FAR); and a maximum height of 126'-6", as illustrated on the BSA-approved plans;

THAT any change in control or ownership of the building will require the prior approval of the Board;

THAT the use will be limited to a house of worship (Use Group 4);

THAT no commercial catering will take place onsite;

THAT the above conditions will be listed on the certificate of occupancy;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT construction shall proceed in accordance with ZR § 72-23;

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, January 8, 2013.

CEQR #13-BSA-002K
APPLICANT – The Law Offices of Stuart Klein, for 910 Manhattan Avenue Realty Corp., owner.
SUBJECT – Application July 6, 2012 – Special Permit (§73-36) to permit the operation of a physical culture establishment. C4-3A zoning district.
PREMISES AFFECTED – 910 Manhattan Avenue, north east corner of Greenpoint and Manhattan Avenues, Block 2559, Lot 4, Borough of Brooklyn.
COMMUNITY BOARD #1BK
ACTION OF THE BOARD – Application granted on condition.
THE VOTE TO GRANT –
Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5
Negative:.....0
THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated June 7, 2012, acting on Department of Buildings Application No. 320299663, reads in pertinent part:

> #Physical Culture or health establishments#, including gymnasiums (not permitted under Use Group 9) will require a special permit by the Board of Standards and Appeals as per ZR 32-31; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site within a C4-3A zoning district, the operation of a physical culture establishment (PCE) on a portion of the first, second, and third floors of a three-story commercial building contrary to ZR § 32-31; and

WHEREAS, the Board notes that the proposal also includes an enlargement to the existing two-story and mezzanine building to create a third floor; and

WHEREAS, the Board has not reviewed and does not take a position as to the zoning compliance of the enlargement, which the applicant represents is as-of-right; any such enlargement is subject to DOB review and approval; and

WHEREAS, a public hearing was held on this application on November 15, 2012, after due notice by publication in *The City Record*, and then to decision on January 8, 2013; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Montanez and Commissioner Ottley-Brown; and

WHEREAS, Community Board 1, Brooklyn, recommends approval of this application on condition that (1) the hours of operation be limited to 10:00 p.m., rather than midnight on weeknights, and (2) the PCE provide bicycle parking; and

WHEREAS, the subject site is located on the northeast corner of Manhattan Avenue and Greenpoint Avenue in a C4-3A zoning district; and

WHEREAS, the PCE will occupy approximately 16,567.54 sq. ft. of floor area on a portion of the first, second, and third floors; and

WHEREAS, the PCE will be operated as G Energy; and

WHEREAS, the applicant represents that the services at the PCE include facilities for instruction and programs for physical improvement; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, at hearing, the Board inquired about the sound attenuation measures proposed to mitigate any impact on residential uses in adjacent buildings; and

WHEREAS, in response, the applicant described the following sound attenuation plan: (1) the floor plan is designed in a way to locate the group exercise space and open gym areas away from the residential use by installing closet space, locker rooms, and staircases along much of the lot line walls to serve as a sound buffer; (2) the lot line walls are independent non-combustible walls constructed of brick and masonry with a Sound Transmission Class of 59 that exceeds the Building Code requirement of 50; and (3) the majority of the interior walls will be insulated and furred to provide additional buffering; and

WHEREAS, the applicant proposes the following hours of operation: Monday through Friday, 5:00 a.m. to midnight and Saturday and Sunday, 7:00 a.m. to midnight; and

WHEREAS, as to the hours of operation, at the Board's request, the applicant performed an analysis of area businesses which reflects that within a one-block radius there are ten establishments that are open daily until 10:00 p.m. and five of those ten are open 24 hours a day; and

WHEREAS, further, the adjacent McDonald's is open weekdays until 12:00 a.m. and open 24 hours a day on the weekend; and

WHEREAS, the applicant adds that two other PCE's in the area – Otom Gym and the YMCA – are open daily until midnight; and

WHEREAS, accordingly, the applicant states that the proposed hours of operation are compatible with nearby uses and that it requires the proposed hours to remain competitive in the PCE market; and

WHEREAS, in response to community feedback, the applicant reduced the size of the PCE so that an existing business on the first floor can remain; and

WHEREAS, the Board concludes that the measures to be installed appear to address the primary concerns and are consistent with the measures the Board has seen proposed for similar facilities; and

WHEREAS, the Board also notes that the PCE's hours of operation are consistent with other businesses in the area; and

WHEREAS, accordingly, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 617.2 and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement, CEQR No. 13BSA002K, dated June 5, 2012; and

WHEREAS, the EAS documents that the operation of the PCE would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved that the Board of Standards and Appeals issues a Negative Declaration action prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to permit, on a site within a C4-3A zoning district, the operation of a physical culture establishment on a portion of the first, second, and third floors of a three-story commercial building contrary to ZR § 32-31; *on condition* that all work shall substantially conform to drawings filed with this application marked "Received December 24, 2012" - Five (5) sheets and "Received January 4, 2013" - One (1) sheet and *on further condition*:

THAT the term of this grant will expire on January 8, 2023;

THAT the hours of operation will be limited to Monday through Friday, 5:00 a.m. to midnight and Saturday and Sunday, 7:00 a.m. to midnight;

THAT acoustical attenuation measures will be installed and maintained as reflected on the Board-approved plans;

THAT massages may only be performed by New York State-licensed masseurs;

THAT there will be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT DOB will review the building enlargement for full zoning compliance;

THAT Local Law 58/87 compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, January 8, 2013.

APPLICANT – Gerald J. Caliendo, R.A., AIA, for Conver Realty/Pat Pescatore, owners; Sun Star Services, LLC, lessee.
SUBJECT – Application July 9, 2012 – Special Permit (§73-36) to permit a physical culture establishment (*Massage Envy*) in the cellar and first floor of the existing commercial building. C2-2/R6B zoning district.
PREMISES AFFECTED – 38-03 Bell Boulevard, east side of Bell Boulevard, 50.58' south of intersection formed by Bell Boulevard and 38th Avenue, Block 6238, Lot 18, Borough of Queens.
COMMUNITY BOARD #11Q
ACTION OF THE BOARD – Application granted on condition.
THE VOTE TO GRANT –
Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5
Negative:.....0
THE RESOLUTION –

WHEREAS, the decision of the Queens Borough Commissioner, dated November 7, 2012, acting on Department of Buildings Application No. 420293346, reads in pertinent part:

Proposed Physical Culture Establishment not permitted in R6B with C2-2 overlay; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site within a C2-2 (R6B) zoning district, the operation of a physical culture establishment (PCE) on the cellar level and first floor of a one-story commercial building contrary to ZR § 32-31; and

WHEREAS, a public hearing was held on this application on December 11, 2012, after due notice by publication in *The City Record*, and then to decision on January 8, 2013; and

WHEREAS, Community Board 11, Queens, recommends approval of this application; and

WHEREAS, the subject site is located on the east side of Bell Boulevard, 50 feet from the intersection at 38th Avenue, within a C2-2 (R6B) zoning district; and

WHEREAS, the PCE will occupy approximately 1,623 sq. ft. of floor area on the first floor and 1,623 sq. ft. of floor space in the cellar; and

WHEREAS, the PCE will be operated as Massage Envy; and

WHEREAS, the applicant represents that the services at the PCE will include massage; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, the applicant proposes the following hours of operation: Monday through Friday, 9:00 a.m. to 9:00 p.m.; Saturday 9:00 a.m. to 8:00 p.m.; and Sunday, 10:00 a.m. to 6:00 p.m.; and

WHEREAS, at the Board's direction, the applicant analyzed the underlying parking requirements; and

WHEREAS, the applicant concluded that the parking requirement is three spaces and, thus, can be waived pursuant to ZR § 36-231, which allows waiver for fewer than 15 spaces; and

WHEREAS, accordingly, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 617.2 and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement, CEQR No.13BSA003Q, dated July 5, 2012; and

WHEREAS, the EAS documents that the operation of the PCE would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality;

Noise; Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved that the Board of Standards and Appeals issues a Negative Declaration action prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to permit, on a site within a C2-2 (R6B) zoning district, the operation of a physical culture establishment on the cellar level and first floor of a one-story commercial building contrary to ZR § 32-31; *on condition* that all work shall substantially conform to drawings filed with this application marked "Received January 2, 2013" - Five (5) sheets and *on further condition*:

THAT the term of this grant will expire on January 8, 2023;

THAT the hours of operation will be limited to Monday through Friday, 9:00 a.m. to 9:00 p.m.; Saturday 9:00 a.m. to 8:00 p.m.; and Sunday, 10:00 a.m. to 6:00 p.m.;

THAT massages may only be performed by New York State-licensed masseurs;

THAT there will be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT Local Law 58/87 compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, January 8, 2013.

CEQR #13-BSA-024M

APPLICANT – Holland & Knight, LLP, for Old Firehouse No. 4 LLC, owner.

SUBJECT – Application August 29, 2012 – Variance (§72-21) to permit the conversion of two buildings into a single-family residence, contrary to lot coverage, minimum distance between buildings and minimum distance of legally required windows. R8B zoning district.

PREMISES AFFECTED – 113 East 90th Street, north side of East 90th Street, 150' west of the intersection of 90th Street, and Park Avenue, Block 1519, Lot 7, Borough of Manhattan.

COMMUNITY BOARD #8M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5

Negative:.....0

THE RESOLUTION –

WHEREAS, the decisions of the Manhattan Borough Commissioner dated July 21, 2012 acting on Department of Buildings Application No. 121133308, read in pertinent part:

ZR 23-155 The proposed conversion creates a non-compliance with respect to allowable lot coverage

ZR 23-711 The proposed residential buildings do not comply with the minimum distance between buildings

ZR 23-861 The proposed legally required windows do not comply with the required distance from the lot line; and

WHEREAS, this is an application under ZR § 72-21, to permit, in an R8B zoning district, the conversion of two existing buildings into a single-family home that exceeds the allowable lot coverage, minimum distance between buildings, and minimum distance from windows to lot line/wall, contrary to ZR §§ 23-155, 23-711, and 23-861; and

WHEREAS, a public hearing was held on this application on December 4, 2012 after due notice by publication in *The City Record*, and then to decision on January 8, 2013; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Ottley-Brown and Commissioner Hinkson; and

WHEREAS, Community Board 8, Manhattan, recommends approval of this application; and

WHEREAS, the site is located on the north side of East 90th Street between Park and Lexington avenues, within an R8B zoning district; and

WHEREAS, the subject site is a rectangular shaped zoning lot with 25 feet of frontage along East 90th Street, a depth of 100.71 feet, and a total lot area of 2,517.75 sq. ft.; and

WHEREAS, the zoning lot is occupied by two buildings; in the front and extending for a depth of 60 feet is a

three-story building (the "Front Building"), while the rear portion is occupied by a two-story building (the "Rear Building") with a depth of 15 feet; an open area of approximately 25 feet separates the two buildings; and

WHEREAS, the existing buildings were constructed around 1880 to serve as the quarters for New York Fire Patrol 4 which served the Upper East Side; and

WHEREAS, the applicant states that after the fire patrol disbanded in the 1940s, the site was purchased by the American Alpine Club and used as a private club and museum; and

WHEREAS, in April 1994, the Board approved a variance (BSA Cal. No. 165-93-BZ) to permit a Use Group 6 commercial art gallery on the ground floor of the Front Building with two apartments on the upper floors and a Use Group 3 museum in the Rear Building; and

WHEREAS, most recently, on June 16, 2009, the Board granted an additional 15-year term for the art gallery and museum; and

WHEREAS, the subject proposal is for the conversion of all floors of both buildings to residential use as a single-family home; and

WHEREAS, the Front Building would have a vestibule, living room and kitchen on the first floor, with living quarters on the second and third floor, and the rear building would have guest quarters with a vestibule on the ground floor and bedroom on the second floor; and

WHEREAS, the applicant does not propose any changes to the buildings' envelopes, but will excavate below the open area separating the two buildings and underneath the Rear Building to create a cellar; and

WHEREAS, the application does not propose any increase in floor area above the existing conditions; and

WHEREAS, the combined floor area for the buildings is 5,317.25 sq. ft. (2.11 FAR) which is less than the 10,071 sq. ft. (4.0 FAR) permitted by the R8B zoning; and

WHEREAS, however, the applicant proposes to maintain the following historic conditions which are non-complying for residential use: (1) lot coverage of 1,899.75 square feet or 75.4 percent (70 percent is the maximum permitted); (2) distance between front and rear buildings of 24.72 feet (a minimum distance of 35 feet is required); and (3) distance between a legally required window and a wall of 24.72 feet (30 feet is required); and

WHEREAS, the applicant states that the requested relief is necessary for the reasons stated below; and

WHEREAS, the applicant states that the configuration of the historic buildings on the lot is a unique physical condition, which creates practical difficulties and unnecessary hardship in converting the existing buildings to a conforming use in a manner that is in full compliance with underlying district regulations; and

WHEREAS, the applicant states that the buildings were designed and built in 1880 for use by the old New York City Fire Patrol; and

WHEREAS, the applicant states that the Front Building housed the actual firefighting equipment and the rear building was a horse stable and, thus, the buildings were designed to function together on the same lot; and

WHEREAS, the applicant states that two buildings located on a site with a width of 25 feet is a condition that occurs very infrequently, if at all, in this neighborhood; and

WHEREAS, the applicant notes that the Fire Patrol buildings where permitted to be converted to commercial and museum use by the 1994 variance, but both uses have ceased and the art gallery is no longer in business; and

WHEREAS, the applicant represents that due to the significant increase in property values, the art gallery was unable to generate sufficient income; and

WHEREAS, the Board's resolution approving the 1994 variance found that "[T]he history of development of this small lot with two (2) separate buildings not designed or used for residential uses creates a unique condition and an unnecessary hardship in now utilizing both buildings [for] a conforming use . . . ."; and

WHEREAS, the applicant asserts that in order to satisfy lot coverage and distance between buildings, and distance between window and wall regulations, the Rear Building would have to be demolished as its depth (measured from exterior walls) would only be approximately five feet if the full 35-ft. distance between the Front Building and wall of the Rear Building were provided; and

WHEREAS, based upon the above, the Board finds that the cited unique physical conditions create practical difficulties in developing the site in strict compliance with the applicable regulations; and

WHEREAS, the applicant submitted an Economic Analysis Report analyzing the feasibility of two alternative development scenarios; and

WHEREAS, specifically, the applicant submitted a feasibility study which analyzed: (1) the Front Building with a Use Group 3 medical office on the first floor and residential uses on floors two and three and medical use in the entire Rear Building; and (2) a commercial art gallery on the first floor with residential uses on floors two and three of the Front Building and a museum in the entire Rear Building; and

WHEREAS, the study concluded that the two alternative scenarios would not result in a reasonable return; and

WHEREAS, the Board has determined that because of the subject site's unique condition, there is no reasonable possibility that compliance with applicable zoning regulations will result in a reasonable return; and

WHEREAS, the applicant represents that the proposed variance will not negatively affect the character of the neighborhood, or impact adjacent uses; and

WHEREAS, the applicant states that both buildings will be used as a single-family residence, which is a conforming use in the zoning district, and would remove a non-conforming commercial use; and

WHEREAS, the applicant notes that the remainder of the block is entirely occupied by residential use and the proposed variance would be consistent with the existing character of the neighborhood; and

WHEREAS, specifically, there is a nine-story apartment

building to the east of the site and then a group of six five-story buildings; to the west, and extending to Park Avenue is a 14-story apartment building, which is separated from the subject site by an open space with a width of 9'-6"; and

WHEREAS, the south side of East 90th Street is characterized by nine- to 15-story apartment buildings; and

WHEREAS, the applicant states that the distance between the two buildings on the site is 24.72 feet which is not significantly less than the required 30 feet; and

WHEREAS, the applicant asserts that there will be substantial light and air available to all rooms fronting on the areas where the two buildings are adjacent; and

WHEREAS, specifically, the applicant notes that the Front Building has a height of 39.54 feet and the Rear Building has a height of 20 feet, so only the lower portion of the Front Building is even within the scope of the non-complying distance between buildings; the remainder of the Front Building overlooks the open area above the Rear Building; and

WHEREAS, therefore, the Board finds that this action will neither alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the applicant states that the unnecessary hardship encountered by compliance with the zoning regulations have existed since the 19th century when the two buildings were constructed by the New York Fire Patrol; and

WHEREAS, accordingly, the Board finds that the hardship herein was not created by the owner or a predecessor in title, but is a result of the historic development and use of the zoning lot; and

WHEREAS, the Board finds that this proposal is the minimum necessary to afford the owner relief; and

WHEREAS, thus, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21.

Therefore it is Resolved that the Board of Standards and Appeals issues a Type II Declaration under 6 NYCRR Part 617.5 and 617.13, §§ 5-02(a), 5-02(b)(2), and 6-15 of the Rules of Procedure for City Environmental Quality Review, and makes the required findings under ZR § 72-21 to permit, in an R8B zoning district, the conversion of two existing buildings into a single-family home that does not provide the allowable lot coverage, minimum distance between buildings, and minimum distance from windows to lot lines, contrary to ZR §§ 23-155, 23-711, and 23-861; *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received December 19, 2012"- eleven (11) sheets; and *on further condition*:

THAT the parameters of the proposed home will be as follows: 5,317.25 sq. ft. of floor area (2.11 FAR); and a minimum distance of 24.72 feet between the Front Building and Rear Building, as illustrated in the BSA-approved plans;

THAT the internal floor layouts on each floor of the proposed home shall be as reviewed and approved by DOB;

THAT this approval is limited to the relief granted by the Board, in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted;

THAT substantial construction will proceed in accordance with ZR § 72-23; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, January 8, 2013.

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated August 23, 2012, acting on Department of Buildings Application No. 320534720, reads in pertinent part:

Proposed Physical Culture Establishment in a C2-4 (R7A) zoning district is contrary to Section 32-10 ZR; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site partially within a C2-4 (R7A) zoning district and partially within an R6B zoning district, the operation of a physical culture establishment (PCE) on a portion of the first floor and second floor of a two-story commercial building contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on November 27, 2012, after due notice by publication in *The City Record*, and then to decision on January 8, 2013; and

WHEREAS, Community Board 14, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the northeast

corner of Flatbush Avenue and Linden Boulevard, partially within a C2-4 (R7A) zoning district and partially within an R6B zoning district; and

WHEREAS, the PCE will occupy approximately 15,436 sq. ft. of floor area on the first and second floors; and

WHEREAS, the applicant notes that the segment of the building at the corner of Flatbush Avenue and Linden Boulevard (formerly Lot 13) was constructed pursuant to a variance to permit a residence in a business district which exceeded the permitted floor area (BSA Cal. No. 498-48-BZ) and an appeal related to egress (BSA Cal. No. 1128-48-A); and

WHEREAS, the building segment on Lot 8 was constructed prior to 1921; and

WHEREAS, subsequently, the variance building was occupied by a bank and, most recently, a store and a restaurant; and

WHEREAS, the PCE will be operated as Blink Fitness; and

WHEREAS, the applicant represents that the services at the PCE include facilities for instruction and programs for physical improvement; and

WHEREAS, the applicant represents that the PCE use is limited to the portion of the site within the C2-4 (R7A) zoning district; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, the applicant proposes the following hours of operation: Monday through Saturday, 5:30 a.m. to 11:00 p.m. and Sunday, 7:00 a.m. to 9:00 p.m.; and

WHEREAS, accordingly, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 617.2 and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement, CEQR No.13BSA031K, dated September 10, 2012; and

WHEREAS, the EAS documents that the operation of the PCE would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved that the Board of Standards and Appeals issues a Negative Declaration action prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to permit, on a site partially within a C2-4 (R7A) zoning district and partially within an R6B zoning district, the operation of a physical culture establishment on a portion of the first floor and second floor of a two-story commercial building contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked "Received January 7, 2013" - Four (4) sheets and *on further condition*:

THAT the term of this grant will expire on January 8, 2023;

THAT the hours of operation will be limited to Monday through Saturday, 5:30 a.m. to 11:00 p.m. and Sunday, 7:00 a.m. to 9:00 p.m.;

THAT massages may only be performed by New York State-licensed masseurs;

THAT there will be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT PCE use is not permitted within the portion of the site in the R6B zoning district;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT Local Law 58/87 compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other

relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, January 8, 2013.

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure, a reopening, and an extension of time to obtain a certificate of occupancy; and

WHEREAS, a public hearing was held on this application on October 23, 2012, after due notice by publication in *The City Record*, and then to decision on December 4, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Montanez and Commissioner Ottley-Brown; and

WHEREAS, the premises is located on the south side of St. John's Place, between Classon Avenue and Franklin Avenue, within an R7-1 zoning district; and

WHEREAS, the Board has exercised jurisdiction over the subject site since April 29, 1919 when, under BSA Cal. No. 263-19-BZ, the Board granted a variance to permit the construction of a one-story building to be used for the storage of more than five motor vehicles; and

WHEREAS, subsequently, the grant was amended and the term extended by the Board at various times; and

WHEREAS, on January 18, 1966, under BSA Cal. No. 327-63-BZ, the Board granted a change in use to permit the assembly of mirrors into frames, the storage and cutting of sheet glass, the manufacturing of plastic and wood frames and novelties, with an off-street loading berth; and

WHEREAS, on March 18, 1997, under the subject calendar number, the Board reinstated the expired variance and legalized a change in use to a public parking garage for not more than 150 cars (Use Group 8), for a term of ten years; and

WHEREAS, most recently, on February 2, 2010, the Board granted a ten year extension of term, to expire March 18, 2017, an extension of time to obtain a certificate of occupancy to February 10, 2011, and an amendment to the previously approved plans to legalize the modification of the parking layout and the installation of 75 two-level automobile stacking devices; and

WHEREAS, the applicant now requests an additional extension of time to obtain a certificate of occupancy; and

WHEREAS, the applicant states that the requested extension of time is necessary to resolve the open violations issued against the site; and

WHEREAS, at hearing, the Board questioned whether the automobile stacking requirements comply with Materials and Equipment Acceptance Division ("MEA") requirements, in accordance with the prior grant; and

WHEREAS, in response, the applicant submitted a letter from the architect stating that the Office of Technical Certification and Research ("OTCR") has replaced the MEA division, but that the substantive MEA conditions have been adequately addressed; and

WHEREAS, specifically, the architect states that the ceiling height, which is a minimum of 12'-0" in height, provides adequate height for the stackers and sprinkler coverage, the floor loads are not an issue because the stackers are located on the ground floor, the garage is sprinklered, and the parking spaces comply with the DOB standard size of 8'-6" by 18'-0"; and

WHEREAS, based upon its review of the record, the Board finds the requested extension of time to obtain a certificate of occupancy is appropriate with certain conditions as set forth below.

Therefore it is Resolved that the Board of Standards and Appeals *waives* the Rules of Practice and Procedure, *reopens,* and *amends* the resolution, as adopted on March 18, 1997, so that as amended this portion of the resolution shall read: "to grant an extension of time to obtain a certificate of occupancy to December 4, 2014; *on condition* that all work and the site layout shall substantially conform to drawings as filed with this application; and *on further condition*:

THAT the term of this grant will expire on March 18, 2017;

THAT the above conditions will be listed on the certificate of occupancy;

THAT a new certificate of occupancy will be obtained by December 4, 2014;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted."
(DOB App. No. 310233841)

Adopted by the Board of Standards and Appeals, December 4, 2012.

***The resolution has been amended. Corrected in Bulletin Nos. 1-2, Vol. 98, dated January 16, 2013.**

Negative:.....0
THE RESOLUTION –

WHEREAS, the decision of the Bronx Borough Commissioner, dated September 28, 2011, acting on Department of Buildings Application No. 220137233, reads, in pertinent part:

1. Proposed floor area ratio (FAR) exceeds the maximum permitted pursuant to ZR 23-145, 24-161, and 77-22
2. Proposed lot coverage exceeds the maximum permitted pursuant to ZR 23-145
3. Proposed Quality Housing building does not provide required setbacks of 10 and 15 feet above maximum base height in an R8 district along wide and narrow streets respectively, pursuant to ZR 23-633(b)
4. Proposed number of dwelling units exceeds maximum permitted pursuant to ZR 23-22 and 24-20; and

WHEREAS, this is an application under ZR § 72-21, to permit, on a site within an R8 zoning district, a proposed 12-story community facility (UG 4) and affordable housing (UG 2) building, which does not comply with floor area ratio ("FAR"), lot coverage, setback, and density regulations and is contrary to ZR §§ 23-22, 23-145, 23-633, 24-161, 24-20 and 77-22; and

WHEREAS, the application is brought on behalf of St. Simeon's Episcopal Church and the Canterbury Heights Development Corporation (CHDC) a not-for-profit organization affiliated with St. Simeon's, the owner of the site and the occupant of the proposed house of worship; and

WHEREAS, a public hearing was held on this application on September 11, 2012, after due notice by publication in the *City Record*, with a continued hearing on October 16, 2012, and then to decision on November 20, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 4, Bronx, recommends approval of the application and cites the need for affordable housing in the area; and

WHEREAS, the applicant submitted letters of support from New York State Assemblywoman Vanessa Gibson and the Mount Hermon Baptist Church; and

WHEREAS, the subject site is located on a triangular corner lot, which is its own small city block, bounded by East 165th Street, Carroll Place, and Sheridan Avenue and has a total area of 5,154 sq. ft.; and

WHEREAS, the majority of the zoning lot (95.8 percent) is located within 100 feet of East 165th Street; and

WHEREAS, the site was formerly occupied by St. Simeon's Episcopal Church, in a building that was deemed unsafe in 1998 and, despite attempts to rehabilitate it, was eventually demolished in 2003 due to withdrawal of insurance coverage; the site is currently vacant; and

WHEREAS, the applicant proposes to occupy the 12-story building (with a total height of 117 feet) with community facility use at the cellar and ground floor level, for St. Simeon's, including the church sanctuary and an accessory pastor's apartment; and the 11 upper floors will be occupied by residential use, including 50 affordable dwelling units ranging from studios to three-bedroom units; and

WHEREAS, the applicant states that ten of the residential units (20 percent) will provide supportive housing for the formerly homeless; supportive social services will be provided by Comunilife, an institution that provides supportive services including those for mental health counseling and benefits management for the formerly homeless; and

WHEREAS, the conditions which trigger the need for the variance are (1) floor area of 49,072 sq. ft. (9.52 FAR) (36,851 sq. ft. (7.15 FAR) is the maximum permitted); (2) the portion of the first floor occupied by community facility use complies with lot coverage regulations, but the residential floors above have a lot coverage of 85 percent (80 percent is the maximum permitted lot coverage); (3) the absence of setbacks above the maximum permitted base height of 85 feet (setbacks of 10 feet from the wide street and 15 feet from the narrow streets are required above the base height); and (4) the provision of 50 dwelling units (density regulations limit the number of units to 44); and

WHEREAS, the applicant states that the following are unique physical conditions which create an unnecessary hardship in developing the site in compliance with

applicable regulations: (1) the triangular shape; and (2) the slope and poor soil conditions; and

WHEREAS, as to the shape, the applicant states that the site is irregularly-shaped with three frontages; and

WHEREAS, specifically, the applicant states that the odd shape of the site constrains the floor plate because the ratio of street frontage is so high and the angles of the intersections of the streets do not support efficient standard building design; and

WHEREAS, the applicant asserts that there are premium façade costs associated with having all of the exterior surface area of the building be a street frontage such as the need for a greater degree of fenestration; and

WHEREAS, the applicant asserts that due to inefficiencies of constructing on an irregularly-shaped site, the lot area of 5,154 sq. ft. could accommodate approximately three fewer dwelling units than if the lot were regularly-shaped; and

WHEREAS, the applicant represents that the as of right alternative would only allow for 37 dwelling units which is well below the minimum 50 units required to qualify for Low-Income Affordable Marketplace Program (LAMP) financing, as will be discussed in more detail below; and

WHEREAS, additionally, the applicant represents that if the lot coverage and setback regulations were followed strictly, the as of right floorplate would narrow significantly above a height of 85 feet and allow for only one unit on floors nine through twelve; and

WHEREAS, due to the shape and the requirement for setbacks at each of the three frontages, the upper floors of any building would be significantly constrained as at a height of 85 feet, a setback of 10'-0" is required at East 165th Street and setbacks of 15'-0" are required at Carroll Place and Sheridan Avenue; and

WHEREAS, the applicant asserts that a standard shaped lot with only one or two street frontages would not be similarly constrained by the setback requirements; and

WHEREAS, the applicant proposes a larger floor plate, in conflict with lot coverage requirements so that a larger amount of floor area can be accommodated on the lower floors, where a setback would not be required; and

WHEREAS, as to the uniqueness of the shape, the 400-ft. radius diagram reflects that the site is one of two triangular sites in the area and is the smaller of the two; and

WHEREAS, the diagram reflects that the subject site is the only site so affected by the curve of Carroll Place which, along with the intersections of Sheridan Avenue and East 165th Street, creates the unique triangular block, with one curved side that is occupied solely by the subject site; the subject site is the only such triangular block and the smallest block in the study area; and

WHEREAS, as to the slope and soil, the applicant asserts that the site has a change in grade varying in elevation from 72 feet to 82 feet and with bedrock encountered at varying depths of 12 feet to 28 feet below grade; and

WHEREAS, the applicant asserts that the presence of bedrock makes construction of the foundation more costly as the removal of bedrock is more expensive than typical soil excavation; and

WHEREAS, the applicant states that the geotechnical report indicates a variety of sub-grade conditions including areas of pre-existing fill and old concrete foundations; and

WHEREAS, the applicant represents that there are additional costs associated with the labor and materials for an uneven foundation and the removal of unsuitable fill materials below proposed footings; and

WHEREAS, the applicant asserts that it will employ a slab on grade foundation with spread footing, a strategy that requires the minimization of the differential settlement; and

WHEREAS, the applicant asserts that additional floor area is required to help balance out the premium costs associated with construction on the triangular lot with compromised soil conditions; and

WHEREAS, the applicant states that in addition to the site's unique physical conditions, CHDC has specific programmatic needs, which require (1) a permanent house of worship for St. Simeon's, (2) community services, and (3) affordable housing; and

WHEREAS, CHDC's mission as set forth in its mission statement is to "support and strengthen individuals, families, neighborhoods and communities with the means that would enable them to live their lives in the best way possible" through affordable and better housing, child care and educational services, and social and psychological services; and

WHEREAS, the applicant states that it will receive financing for the proposal from the New York City Housing Development Corporation, LAMP, as well as New York City Department of Housing Preservation and Development's Low Income Program (LIP); and

WHEREAS, the applicant states that the proposal will also be partially funded by grants from the Office of the Bronx Borough President and Councilmember Helen Foster; and

WHEREAS, the applicant represents that the building program is determined in part by the requirements of the government funding sources concerning building design and unit count; and

WHEREAS, the applicant states that in order to be eligible for financing from LAMP, the minimum number of residential units is 50, of which 50 percent must be two-bedroom units or larger and each unit must comply with HPD's design guidelines, including suggested minimum floor area per unit type; and

WHEREAS, accordingly, the proposal reflects a total of 50 affordable housing units, including one, two, and three-bedroom apartments and studios for low-income families and single adults; and

WHEREAS, of the 50 units, seven will be studio apartments, 18 will be one-bedroom apartments, 21 will be two-bedroom apartments and four will be three-bedroom apartments; and

WHEREAS, as noted, an as-of-right building at the

site that complies with floor area, lot coverage and height and setback regulations would allow for only 37 dwelling units, 13 units below the minimum required to qualify for LAMP financing; and

WHEREAS, accordingly, the applicant requires the waivers of residential floor area, setback, lot coverage, and density regulations; and

WHEREAS, the applicant states that LIP financing requires that at least 20 percent of the units be set aside for formerly homeless households and that a social services plan be approved to serve such residents; and

WHEREAS, the applicant states that, in accordance with LIP financing, ten of the 50 units will be designated for formerly homeless and Comunilife and CHDC will provide social services for building residents and the broader East Concourse community; and

WHEREAS, the applicant states that St. Simeon's need to rebuild its house of worship on the historic site of its church is fulfilled through its partnership with CHDC and the plan to construct a building which can accommodate both the new church space and the affordable housing; and

WHEREAS, the space available for church use includes a 1,081 sq. ft. multipurpose room in the cellar, which will accommodate meetings and social gatherings that may not be appropriate in the sanctuary; and

WHEREAS, the proposal also reflects that the first floor will contain a pastor's apartment, giving the church's pastor full-time access to church facilities and supporting his role in helping the church and building residents; and

WHEREAS, the cellar will be occupied by mechanical rooms and the tenants' laundry room, church offices, and a church multipurpose room; and

WHEREAS, the Board accepts the applicant's assertion that there are mutual benefits of St. Simeon's and CHDC occupying the same building due to an overlap of uses, programming, and leadership; and

WHEREAS, the Board agrees that the unique physical conditions cited above, when considered in the aggregate and in light of St. Simeon's and CHDC's programmatic needs, create practical difficulties and unnecessary hardship in developing the site in strict compliance with the applicable zoning regulations; and

WHEREAS, the applicant need not address ZR § 72-21(b) since CHDC and St. Simeon's are both not-for-profit organizations and the proposed development will be in furtherance of their not-for-profit missions; and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare; and

WHEREAS, the applicant states that the proposed 12-story community facility and residential building is consistent with the character of the surrounding area as the use and total height of the proposed building are permitted as-of-right; and

WHEREAS, the applicant asserts that the proposed bulk results in an envelope that is consistent with existing development within the neighborhood; and

WHEREAS, the applicant notes that the site occupies its own block and the proposed building with its non-complying lot coverage and setback conditions is, thus, not immediately adjacent to any other sites; and

WHEREAS, specifically, the applicant states that there are several tall buildings within 400 feet of the site, including a 23-story multiple dwelling building located at 1020 Grand Concourse and a ten-story multiple dwelling building located at 1000 Grand Concourse across Carroll Place; and

WHEREAS, additionally, the applicant states that ten of the 21 multiple dwelling buildings located within a 400-ft. radius have floor area well above the 49,072 sq. ft. for the proposed building; and

WHEREAS, the applicant also asserts that the percentage by which the proposed 9.52 FAR exceeds the maximum permitted FAR is consistent with the bulk of other buildings in the study area that exceed their maximum allowable FAR; and

WHEREAS, the applicant states that of the 26 buildings located within 400 feet of the site, 16 exceed the maximum permitted FAR and nine exceed the maximum allowable FAR in their respective districts by more than 20 percent; and

WHEREAS, the applicant submitted photographs and a 400-ft. radius diagram to support these assertions; and

WHEREAS, based upon the above, the Board finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, at hearing, the Board asked the applicant to provide additional evidence that the proposed floor area is compatible with the surrounding area; and

WHEREAS, in response, the applicant stated that there is a 23-story building complex (Executive Towers) at 1020 Grand Concourse on the corner of East 165th Street with an FAR their architect consultant assesses to be 9.10 (although Oasis notes it be 6.92); and

WHEREAS, the Board finds that the hardship herein was not created by the owner or a predecessor in title, but is rather a function of the unique physical characteristics of the site and the programmatic needs of CHDC and St. Simeon's; and

WHEREAS, the applicant states that there is no viable lesser variance that would allow for 50 units that conform to certain size and design requirements required by funding sources, particularly since the as of right scenario would only allow for 37 units; and

WHEREAS, accordingly, the Board finds that the proposal reflects the minimum necessary to accommodate the applicant's programmatic needs; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as an Unlisted action pursuant to Sections 617.2 of 6NYCRR; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 12BSA028X, dated July 24, 2012; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved that the Board of Standards and Appeals issues a Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 and grants a variance to permit, on a site within an R8 zoning district, a proposed 12-story community facility (UG 4) and affordable housing (UG 2) building, which does not comply with floor area ratio, lot coverage, setback, and density regulations and is contrary to ZR §§ 23-22, 23-145, 23-633, 24-161, 24-20 and 77-22, *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received November 19, 2012" - Sixteen (16) sheets; and *on further condition*:

THAT the following shall be the bulk parameters of the building: a maximum of 12 stories, a residential floor area of 44,988 sq. ft., a community facility floor area of 4,084 sq. ft., and a total floor area of 49,072 sq. ft. (9.52 FAR), a total height of 117 ft., and lot coverage of 85 percent above the first floor, all as illustrated on the BSA-approved plans;

THAT there will be no change in use or ownership of the building without the prior review and approval of the Board;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, November 20, 2012.

***The resolution has been amended. Corrected in Bulletin Nos. 1-2, Vol. 98, dated January 16, 2013.**

***CORRECTION**

This resolution adopted on November 20, 2012, under Calendar No. 151-12-A and printed in Volume 97, Bulletin Nos. 46-48, is hereby corrected to read as follows:

151-12-A
APPLICANT – Christopher M. Slowik, Esq./Law Office of Stuart Klein, for Paul K. Isaacs, owner.
SUBJECT – Application May 9, 2012 –
Appeal challenging the Department of Buildings' determination that a roof antenna is not a permitted accessory use pursuant to ZR § 12-10. R8 zoning district.
PREMISES AFFECTED – 231 East 11th Street, north side of E. 11th Street, 215' west of the intersection of Second Avenue and E. 11th Street, Block 467, Lot 46, Borough of Manhattan.
COMMUNITY BOARD #3M
ACTION OF THE BOARD – Application granted on condition.
THE VOTE TO GRANT –
Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown and Commissioner Hinkson……..….4
Negative: Commissioner Montanez 1
THE RESOLUTION –

WHEREAS, this is an appeal of a Department of Buildings ("DOB") final determination dated April 10, 2012, issued by the First Deputy Commissioner (the "Final Determination"); and

WHEREAS, the Final Determination reads in pertinent part:

> The request to lift the Stop Work Order associated with application no. 120213081 to legalize a ham radio antenna above the existing 5 story residential building is hereby denied.
>
> As per ZR 22-21, radio or television towers, non-accessory, are permitted by special permit of the BSA.
>
> The proposed ham radio antenna, approximately 40 feet high, is not customarily found in connection with residential buildings and is therefore not an accessory use to the building; and

WHEREAS, the appeal was brought on behalf of the owner of 231 East 11th Street (hereinafter the "Appellant"); and

WHEREAS, a public hearing was held on this application on August 21, 2012 after due notice by publication in *The City Record*, with a continued hearing on October 16, 2012, and then to decision on November 20, 2012; and

WHEREAS, DOB appeared and made submissions in opposition to this appeal; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, the subject site is located on the north side of East 11th Street between Second Avenue and Third Avenue, within an R8B zoning district; and

WHEREAS, the site has approximately 25'-6" of frontage of East 11th Street, a depth of 100 feet, and a total lot area of 2,550 sq. ft.; and

WHEREAS, the site is occupied by a five-story residential building with a height of approximately 58'-0" (the "Building"); a radio tower with a height of approximately 40'-0" is located on the rooftop of the Building (the "Radio Tower"); and

PROCEDURAL HISTORY

WHEREAS, on November 2, 2009 DOB issued Notice of Violation No. 34805197M charging work without a permit for the Radio Tower contrary to Administrative Code Section 28-105.1; the violation was sustained by an Administrative Law Judge of the Environmental Control Board on October 26, 2010; and

WHEREAS, on or about November 30, 2009, the Appellant filed Job Application No. 120213081 for a permit to legalize the Radio Tower, and on September 30, 2010 DOB issued Permit No. 120213081-01-AL for the Radio Tower; and

WHEREAS, on or about December 16, 2010, DOB reexamined the application and determined that it was approved in error contrary to the Zoning Resolution and on January 13, 2011, DOB issued an Intent to Revoke Approval(s) and Permit(s), Order(s) to Stop Work Immediately letter with an objection that "Proposed antenna is not accessory to the function or principal use of the building"; on or about February 9, 2011, a stop work order was served upon the Appellant and the Radio Tower permit was revoked; and

WHEREAS, on July 12, 2011, DOB denied the Appellant's request to reinstate the permit and rescind the stop work order; the July 12, 2011 determination was renewed by DOB on April 10, 2012, and forms the basis of the Final Determination; and

RELEVANT ZONING RESOLUTION PROVISIONS

WHEREAS, the Appellant and DOB cite the following Zoning Resolution provisions, which read in pertinent part:

> ZR § 12-10 (Accessory Use, or accessory)
>
> An "accessory use":
>
> (a) is a #use# conducted on the same #zoning lot# as the principal #use# to which it is related (whether located within the same or an #accessory building or other structure#, or as an #accessory use# of land) . . .; and
>
> (b) is a #use# which is clearly incidental to, and customarily found in connection with, such principal #use#; and
>
> (c) is either in the same ownership as such principal #use#, or is operated and maintained on the same #zoning lot# substantially for the benefit or convenience of the owners, occupants, employees, customers, or visitors of the principal #use# . . .

An #accessory use# includes…

(16) #Accessory# radio or television towers…

* * *

ZR § 22-21 (By the Board of Standards and Appeals)

In the districts indicated, the following #uses# are permitted by special permit of the Board of Standards and Appeals, in accordance with standards set forth in Article VII, Chapter 3…

R1 R2 R3 R4 R5 R6 R7 R8 R9 R10

Radio or television towers, non-#accessory#...

* * *

ZR § 73-30 (Radio or Television Towers)

In all districts, the Board of Standards and Appeals may permit non-#accessory# radio or television towers, provided that it finds that the proposed location, design, and method of operation of such tower will not have a detrimental effect on the privacy, quiet, light and air of the neighborhood.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

THE APPELLANT'S POSITION

WHEREAS, the Appellant makes the following primary arguments: (1) the Radio Tower meets the ZR § 12-10 definition of accessory use; and (2) the Zoning Resolution is preempted by federal law and regulation from precluding international communications, and to the extent DOB maintains the Radio Tower is impermissible due to its height, DOB's interpretation is subject to limited preemption because it has not "reasonably accommodated" the Appellant's needs; and

1. Accessory Use

WHEREAS, as to the definition of accessory use, the Appellant asserts that the proposed Radio Tower meets the criteria as it is: (a) located on the same zoning lot as the principal use (the residential building), (b) the Radio Tower use is incidental to and customarily found in connection with a residential building, and (c) the Radio Tower is in the same ownership as the principal use and is proposed for the benefit of the owner of the Building; and

WHEREAS, the Appellant notes that DOB acknowledges that the principal use of the site is as a residential building, and that the owner maintains a residence at the Building; and

WHEREAS, the Appellant states that the owner has been a licensed "ham" radio operator since 1957, and is in frequent contact with other amateur radio operators around the world; and

WHEREAS, the Appellant notes that the owner is an amateur radio operator (amateur radio license No. W2JGQ) and is not engaged in a commercial use of the Radio Tower; and

WHEREAS, the Appellant submitted a needs analysis prepared by an engineer which concludes that, based on the owner's desired use of the ham radio to engage in communication to Israel and the Middle East, "a significantly taller tower should be utilized to provide optimal coverage," however the proposed Radio Tower with a height of 40 feet "is an acceptable compromise adequate for moderate needs of the amateur radio operator when measured against commonly used engineering metrics;" and

WHEREAS, the Appellant cites to 7-11 Tours, Inc. v. Board of Zoning Appeals of Town of Smithtown, 454 N.Y.S.2d 477, 478 (2d Dept. 1982) for the following discussion of the definition of "accessory use":

> "[I]ncidental", when used to define an accessory use, must also incorporate the concept of reasonable relationship with the primary use. It is not enough that the use be subordinate; it must also be attendant or concomitant…The word "customarily" is even more difficult to apply. Courts have often held that the use of the word "customarily" places a duty on the board or court to determine whether it is usual to maintain the use in question in connection with the primary use. The use must be further scrutinized to determine whether it has commonly, habitually and by long practice been established as reasonably associated with the primary use; and

WHEREAS, the Appellant asserts that the owner's use of the Radio Tower is clearly that of a hobbyist engaged in an avocation from his own residence, and that the owner's hobby as an amateur ham radio operator is both "attendant to" and "commonly, habitually, and by long practice reasonably associated with" the primary use of the Building as a residence; and

WHEREAS, as to whether amateur radio antennas are customarily found in New York City, the Appellant notes that the FCC website lists the names of all amateur radio licensees in the country, and as of May 7, 2012 the site listed a total of 1,086 active amateur radio licensees in Manhattan, while at least 2,235 additional licensees are located in the other four boroughs of New York City; and

WHEREAS, the Appellant asserts that almost all of the licenses reflected on the FCC website are issued to natural persons who enjoy long distance amateur radio communications from their residences; thus, the outdoor radio antennas are commonly in use by radio amateurs in New York City to support international communications; and

WHEREAS, in support of its position that ham radio antennas are customarily found in connection with residences, the Appellant cites to the Oxford English Dictionary definition of "customarily" as "in a way that follows customs or usual practices; usually"; and

WHEREAS, the Appellant contends that a use can be "customary" without being very common, such as swimming pools and tennis courts, which are undoubtedly "customarily" found as accessories to residences, regardless of the frequency with which they so appear; and

WHEREAS, the Appellant argues that it is clear that ham radio antennas are "usually" found as accessories to residences, in that when such antennas are found, they are found appurtenant to residences, and the fact that amateur

radio towers may be a relatively rare use is irrelevant to the consideration of whether such use is accessory to a residence; and

WHEREAS, at the Board's request and to support its contention that ham radio antennas are "customarily found in connection with" a residence, the Appellant submitted a series of photographs depicting similar antennas maintained throughout New York City, which provides the borough, underlying zoning district, size, and use group of the residence to which the antenna is accessory, and where available and to the extent possible to obtain such information, it also provides the height of the antennas pictured; and

WHEREAS, specifically, the Appellant submitted photographs of nine other antennas found in Manhattan, the Bronx, Brooklyn, and Queens, which are associated with various types of buildings, from single-family homes to 19-story apartment buildings, and which are found in residential, commercial and manufacturing zoning districts; and

WHEREAS, the Appellant asserts that despite the diversity amongst the buildings depicted, they are all residences, and the ham radio antennas attached to each residence is an accessory use to the main use of the building as a residence; and

WHEREAS, the Appellant represents that the antennas pictured in the photograph array are comparable in size to the Radio Tower, and in some cases, larger than the Radio Tower; and

WHEREAS, the Appellant further represents that there are many more such antennas annexed to other residences throughout the City, however, given the time constraints of the Board's hearing process and the reluctance of some ham radio operators to expose themselves to possible enforcement action by DOB, the Appellant provided the aforementioned photographs as representative of the type of antenna systems found throughout the City; and

WHEREAS, the Appellant also submitted an array of 23 photographs of antennas from other jurisdictions, many of which are significantly taller than the subject Radio Tower with a height of 40 feet, which the Appellant argues reflects that the subject Radio Tower is modest in size and scope; and

WHEREAS, the Appellant also submitted a copy of a memorandum from then-DOB Commissioner Bernard J. Gillroy, dated November 22, 1955, on the subject of radio towers (the "1955 Memo"), which states that "[n]umerous radio towers have been erected throughout the city for amateur radio stations," and further states that such towers "may be accepted in residence districts as accessory to the dwelling;" and

WHEREAS, the Appellant contends that the 1955 Memo serves as evidence that amateur radio towers were numerous throughout New York City and DOB customarily found them as accessory to residences since at least 1955; and

2. Preemption

WHEREAS, the Appellant argues that the Zoning Resolution is preempted by federal law and regulation from precluding international communications, and to the extent DOB maintains the Radio Tower is impermissible due to its height, DOB's interpretation of the Zoning Resolution as it applies to the site is subject to limited preemption because DOB has not "reasonably accommodated" the owner's needs; and

WHEREAS, the Appellant states that federal laws and FCC regulations strongly favor the maintenance of ham radio equipment such as the Radio Tower, and pre-empt local ordinances which prohibit the maintenance of such equipment, either on their face or as applied; and

WHEREAS, specifically, the Appellant asserts that FCC Opinion and Order PRB-1, Federal Preemption of State and Local Regulations Pertaining to Amateur Radio Facilities, 101 FCC 2d 952, 50 Fed. Reg. 38813 (Sept. 25, 1985) ("PRB-1"), requires local authorities to reasonably accommodate amateur radio; and

WHEREAS, the Appellant notes that PRB-1 was codified as a regulation of the FCC at 47 CFR § 97.15(b)(2006), which states:

> Except as otherwise provided herein, a station antenna structure may be erected at heights and dimensions sufficient to accommodate amateur service communications. (State and local regulation of a station antenna structure must not preclude amateur service communications. Rather, it must reasonably accommodate such communications and must constitute the minimum practicable regulation to accomplish the state or local authority's legitimate purpose. See PRB-1, 101 FCC 2d 952 (1985) for details.); and

WHEREAS, the Appellant further notes that PRB-1 explains that antenna height is important to effective radio communications as follows:

> Because amateur station communications are only as effective as the antennas employed, antenna height restrictions directly affect the effectiveness of amateur communications. Some amateur antenna configurations require more substantial installations than others if they are to provide the amateur operator with the communications that he/she desires to engage in…Nevertheless, local regulations which involve placement, screening, or height of antennas based on health, safety, or aesthetic considerations must be crafted to accommodate reasonably amateur communications, and to represent the minimum practicable regulation to accomplish the local authority's legitimate purpose; and

WHEREAS, the Appellant states that the needs analysis it submitted reflects that the proposed Radio Tower with a height of 40 feet is the minimum bulk necessary to accommodate the owner's desired communications; and

WHEREAS, accordingly, the Appellant argues that DOB's position that the Radio Tower is impermissible as an accessory use due to its height fails to reasonably accommodate the international amateur service communications that the owner desires to engage in, and therefore DOB's position is subject to the limited preemption

of PRB-1 and 47 CFR § 97.15(b), and is preempted as applied; and

DOB'S POSITION

WHEREAS, DOB makes the following primary arguments in support of its revocation of the Permit for the Radio Tower: (1) the Radio Tower is not accessory to the principal residential use and therefore requires a special permit from the Board as a non-accessory radio tower; and (2) the Zoning Resolution provides a "reasonable accommodation" in accordance with federal law; and

WHEREAS, DOB asserts that pursuant to ZR § 22-21, in R8B zoning districts, "radio or television towers, non-accessory" are permitted only "by special permit of the Board of Standards and Appeals," and because no special permit has been issued for the Appellant's radio tower, it must satisfy the ZR § 12-10 definition of "accessory use"; and

WHEREAS, DOB contends that the Radio Tower does not satisfy the ZR § 12-10 definition of accessory use primarily because it does not satisfy the criteria that such a radio tower be "customarily found in connection with" the principal use of the site as a residence; and

WHEREAS, specifically, DOB argues that the proposed Radio Tower is significantly taller and more elaborate than the traditional accessory radio towers (or "aerials") that have been found atop residences for decades in New York City, which are typically used to receive remotely broadcast television and/or AM/FM signals for at-home private listening or viewing and are usually 12 feet or less in height and often affixed directly to chimneys or roof bulkheads; and

WHEREAS, DOB distinguishes traditional "aerials" with the proposed Radio Tower which extends 40 feet above the roof of the Building and must be secured to the roof at multiple points by one-half inch steel wires; and

WHEREAS, DOB further distinguishes the proposed Radio Tower because it functions differently than traditional aerials in that it both receives and transmits radio signals (as opposed to traditional aerials which merely receive radio signals) and is powerful enough to communicate with people living in South America and the Middle East; and

WHEREAS, accordingly, DOB considers the proposed Radio Tower to be categorically distinct from the aerials that are "customarily found in connection with" New York City residences, and argues that the plain text of the Zoning Resolution does not support its use as accessory to the principal use of the zoning lot as a residence; and

WHEREAS, DOB asserts that while the Appellant has cited a number of cases from other states that support the general notion that ham radio use may be permitted as accessory to a residence, the subject case is controlled by the Court of Appeals decision in Matter of New York Botanical Garden v. Board of Standards and Appeals of the City of New York, 91 N.Y.2d 413 (1998); and

WHEREAS, DOB notes that in Botanical Garden the Board agreed with DOB's determination that a 480-ft. radio tower on the campus of Fordham University adjacent to the New York Botanical Garden was a permitted accessory use for an educational institution that operated a radio station, finding that the radio tower was clearly incidental to and customarily found in connection with an educational institution; and

WHEREAS, DOB states that, in upholding the Board's determination, the Court of Appeals explained that there was "more than adequate evidence to support the conclusion that [the operation of a 50,000 watt radio station with a 480-ft. radio tower] is customarily found in connection with a college or university" and articulated the following standard for determining whether a use is accessory under the Zoning Resolution:

> [w]hether a proposed accessory use is clearly incidental to and customarily found in connection with the principal use depends on an analysis of the nature and character of the principal use of the land in question in relation to the accessory use, taking into consideration the over-all character of the particular area in question. Botanical Garden, 91 N.Y.2d at 420; and

WHEREAS, DOB notes that the Court also stressed that the accessory use analysis is fact-based and that "[t]he issue before the [Board] was: is a station of this particular size and power, with a 480-foot tower, customarily found on a college campus or is there something inherently different in this radio station and

tower that would justify treating it differently" Botanical Garden, 91 N.Y.2d at 421; and

WHEREAS, DOB argues that, based on the standard set forth in Botanical Garden, the proposed Radio Tower is not permitted as accessory to the Building; and

WHEREAS, specifically, DOB asserts that the Radio Tower is incompatible with the principal use and the surrounding area, in that it adds an additional 40 feet of height to the Building and its supporting wires and structures, which are permanently affixed, occupy a substantial portion of the roof; thus, when measured by its size in relation to the Building, the Radio Tower is not clearly incidental; and

WHEREAS, DOB further asserts that the Radio Tower is out of context with the subject residential neighborhood, as it is located on an interior lot situated mid-block in a contextual, medium-density residential district on a narrow street of a quintessential East Village block on which no other buildings have aerials approaching the size and complexity of the proposed Radio Tower; and

WHEREAS, DOB argues that, even if the proposed Radio Tower were considered "clearly incidental" to the residential building, the Appellant has also not demonstrated that the Radio Tower of this size and power is "customarily found in connection with" New York City residences; and

WHEREAS, as to the photographs and evidence submitted by the Appellant of other radio towers within New York City, DOB asserts that they do not constitute sufficient evidence to establish that a rooftop radio tower with a height of 40 feet is customarily found in connection with the principal use of a residential building located in an R8B zoning district; and

WHEREAS, specifically, DOB states that of the nine

photographs provided by the Appellant, five photographs show rooftop radio towers which are not comparable to the subject Radio Tower because they are located on buildings which are 11 to 19 stories tall, and none of which appear to be close to the height of the residential building below the tower; and

WHEREAS, DOB further states that of the remaining four photographs that show radio towers that are located on or near buildings less than 11 stories, only one is located on the roof of a building and that radio tower appears to be approximately half the height of the two-story dwelling; the other three photographs do not appear to show radio towers located on the roofs of the buildings, and the only one of those three that appears to be more than 40 feet in height is a stand-alone radio tower with a height of 80 feet associated with a two-story residential building, and DOB represents that it would not consider such a radio tower to be an accessory use; and

WHEREAS, DOB contends that in order for the subject Radio Tower to satisfy the "customarily found in connection with" criteria, it is not sufficient to provide evidence of other radio towers with similar heights as the subject Radio Tower; rather, the Appellant would have to provide evidence that it is customary to have a radio tower with a height of 40 feet on the rooftop of a four-story building of similar height as the Building, within an R8B zoning district; and

WHEREAS, accordingly, DOB asserts that the evidence submitted by the Appellant is insufficient to establish that a rooftop radio tower with a height of 40 feet located on a four-story residential building in an R8B zoning district is customary, and therefore it does not meet the ZR § 12-10 definition of accessory use; and

WHEREAS, DOB argues that the evidence submitted by the Appellant reflects a similarity between the facts in the subject case and those of BSA Cal. No. 14-11-A (1221 East 22nd Street, Brooklyn), which involved a challenge to DOB's denial of a permit for an accessory cellar that was nearly as large as the single-family residence to which it was to be appurtenant; and

WHEREAS, DOB asserts that the Board affirmed DOB's denial in that case, in part, because the appellant failed to demonstrate that such oversized, non-habitable cellars were customarily found in connection with residences, and that in the subject case the Appellant's evidence similarly fails to demonstrate that a rooftop radio tower with a height of 40 feet is customarily found on a four-story residential building; and

WHEREAS, by letter dated November 8, 2012, the Department of City Planning ("DCP") states that it expresses no opinion regarding the merits of the subject case but requests that the Board take the height of the antenna into account in determining whether it is accessory, as it did in BSA Cal. No. 14-11-A, because the size of a use can be relevant to whether it is "incidental to" and "customarily found in connection with" a principal use; and

WHEREAS, as to the 1955 Memo submitted by the Appellant, DOB asserts that the 1955 Memo merely deals with the permitting safety requirements, and specifications for the construction of radio towers, and does not indicate that radio towers are necessarily accessory uses to residences; and

WHEREAS, DOB acknowledges that the Zoning Resolution is clear that some radio towers are accessory, however it is also clear that some radio towers are not accessory, and the 1955 Memo does not state which type of radio towers could be considered accessory or non-accessory; and

WHEREAS, in response to the Appellant's preemption argument, DOB contends that the Zoning Resolution does provide a "reasonable accommodation" in accordance with federal law; and

WHEREAS, DOB asserts that PRB-1 is a declaratory ruling issued by the FCC requiring that "local regulations which involve placement, screening, or height of antennas based on health, safety, or aesthetic considerations must be crafted to accommodate reasonably amateur communications;" and

WHEREAS, DOB contends that its interpretation of the Zoning Resolution to prohibit the proposed radio tower as accessory to the subject residence as-of-right was proper and consistent with PRB-1, and that it has reviewed the proposal at the highest level and determined that it had no authority to allow the radio tower because a special permit is required pursuant to ZR §§ 22-21 and 73-30; and

WHEREAS, DOB further contends that ZR § 73-30, which authorizes the radio tower by special permit, contemplates the sort of fact-finding and analysis required by PRB-1; accordingly the Zoning Resolution as interpreted by DOB is consistent with the FCC's "reasonable accommodation" requirement; and

THE APPELLANT'S RESPONSE

WHEREAS, in response to the arguments set forth by DOB, the Appellant asserts that DOB's reliance on Botanical Garden and BSA Cal. No. 14-11-A are misplaced; and

WHEREAS, as to Botanical Garden, the Appellant first notes that that case involved a radio tower that was accessory to an educational institution rather than an amateur radio tower that is accessory to a residence, and that to the extent that case is comparable to the subject case, a clear reading shows that it actually supports the Appellant's position; and

WHEREAS, at the outset, the Appellant states that in Botanical Garden, DOB, the Board, the Supreme Court, the Appellate Division, and the Court of Appeals all found that the Fordham antenna was an accessory use, using arguments similar to those advanced by the Appellant; and

WHEREAS, the Appellant notes that, in upholding the lower courts in Botanical Garden, the Court of Appeals rejected the appellant's contention that it is not customary for universities to maintain radio towers of such height, stating that "[t]his argument ignores the fact that the Zoning Resolution classification of accessory uses is based upon functional rather than structural specifics." Botanical Garden, 91 N.Y.2d at 421; and

WHEREAS, the Appellant contends that Botanical Garden therefore reflects that DOB's contention that the Radio Tower is not an accessory use because of its size

conflates use regulation and bulk regulation in a way that is not contemplated by the Zoning Resolution; and

WHEREAS, the Appellant asserts that Botanical Garden also supports its position that the Radio Tower is an accessory use because it is "customarily found in connection with" the principal use, as the Court of Appeals observed:

> The specifics of the proper placement of the station's antenna, particularly the height at which it must be placed, are dependent on site-specific factors such as the surrounding geography, building density and signal strength. This necessarily means that the placement of antennas will vary widely from one radio station to another. Thus, the fact that this specific tower may be somewhat different does not render the Board's determination unsupported as a matter of law, since the use itself (i.e., radio operations of this particular size and scope) is one customarily found in connection with an educational institution. Moreover, Fordham did introduce evidence that a significant number of other radio stations affiliated with educational institutions in this country utilize broadcast towers similar in size to the one it proposes. Botanical Garden, 91 N.Y.2d at 422; and

WHEREAS, finally, the Appellant notes that in Botanical Garden the Court of Appeals recognized that, unlike other examples of accessory uses listed in ZR § 12-10, there is no height restriction associated with accessory radio towers and that it would be inappropriate for DOB to arbitrarily restrict the height of such radio towers, as the Court stated that:

> Accepting the Botanical Garden's argument would result in the judicial enactment of a new restriction on accessory uses not found in the Zoning Resolution. Zoning Resolution § 12-10 (accessory use) (q) specifically lists "[a]ccessory radio or television towers" as examples of permissible accessory uses (provided, of course that they comply with the requirements of Zoning Resolution § 12-10 [accessory use] [a], [b] and[c]). Notably, no height restriction is included in this example of a permissible accessory use. By contrast, other examples of accessory uses contain specific size restrictions. For instance, Zoning Resolution § 12-10 defines a "home occupation" as an accessory use which "[o]ccupies not more than 25 percent of the total floor area and in no even more than 500 square feet of floor area" (§ 12-10 [accessory use][b][2]). The fact that the definition of accessory radio towers contains no such size restrictions supports the conclusion that the size and scope of these structures must be based upon an individualized assessment of need. Botanical Garden, 91 N.Y.2d at 422-23; and

WHEREAS, accordingly, the Appellant asserts that Botanical Garden reflects that there is no "bright line" height restriction in the Zoning Resolution beyond which an accessory antenna becomes non-accessory, and since there is no law, rule, or regulation which permits DOB to deem the Radio Tower non-accessory on the grounds of its purportedly excessive height, DOB thus makes an error of law in trying to forbid the Appellant's maintenance of the Radio Tower as non-accessory in the absence of a guiding statute; and

WHEREAS, the Appellant contends that DOB's reliance on BSA Cal. No. 14-11-A to support the position that size of a use can be relevant to whether it is "incidental to" and "customarily found in connection with" a principal use is similarly misguided; and

WHEREAS, specifically, the Appellant notes that in that case, in a discussion of the Botanical Garden case, the Board expressly rejected the use of size as a criterion in evaluating whether radio antennas are accessory uses, noting that "size can be a rational and consistent form of establishing the accessory nature of certain uses such as home occupations, caretaker's apartments, and convenience stores on sites with automotive use, but may not be relevant for other uses like radio towers…"; and

WHEREAS, the Appellant also distinguishes BSA Cal. No. 14-11-A from the subject case in that in the former there was an attempt to promulgate and follow universally applicable standards for determining accessory use in cellars, while in the subject case DOB's determination is limited to this single antenna and not based on any articulated standard; and

WHEREAS, finally, the Appellant argues that BSA Cal. No. 14-11-A is only implicated if it is conceded that the Radio Tower is somehow "too big" for the Building; however, the Appellant asserts that the Radio Tower is in no way "too big" for the site, as it is a standard-sized, if not smaller than standard-sized, amateur radio antenna chosen specifically for the types of communications that the amateur operator desires to engage in, the intended distance of communications, and the frequency band; and

WHEREAS, the Appellant also refutes DOB's contention that, because the Radio Tower both receives and transmits signals (as opposed to merely receiving signals) the subject Radio Tower is somehow not an accessory use; and

WHEREAS, the Appellant asserts that there is absolutely no support in any statute for this proposition, and the Zoning Resolution does not treat antennas differently depending on whether or not they transmit; and

CONCLUSION

WHEREAS, the Board has determined that the subject Radio Tower satisfies the ZR § 12-10 definition of an accessory use to the subject four-story residential building, such that the maintenance of the Radio Tower at the site does not require a special permit from the Board under ZR § 73-30; and

WHEREAS, specifically, the Board finds that the Radio Tower meets the criteria of an accessory use to the residence because it is: (a) located on the same zoning lot as the principal use (the residential building), (b) the Radio Tower use is clearly incidental to and customarily found in connection with a residential building, and (c) the Radio

Tower is in the same ownership as the principal use and is proposed for the benefit of the owner of the Building; and

WHEREAS, the Board agrees with the Appellant that the owner's hobby as an amateur ham radio operator is clearly incidental to the principal use of the site as a residence, and is not persuaded by DOB's argument that the Radio Tower is not clearly incidental to the Building merely because the height of the Radio Tower (40 feet) is comparable to that of the Building (58 feet); and

WHEREAS, the Board finds that the Appellant has submitted sufficient evidence reflecting that, when amateur radio antennas are found, they are customarily found appurtenant to residences, and agrees with the Appellant that the fact that amateur radio antennas are not a common accessory use is not dispositive as to whether or not such use is accessory to a residential building; and

WHEREAS, as to DOB's contention that the subject Radio Tower does not qualify as an accessory use because it functions differently than traditional aerials in that it both receives and transmits radio signals (as opposed to traditional aerials which merely receive radio signals), the Board agrees with the Appellant that the fact that the Radio Tower transmits radio signals is of no import as to whether or not it qualifies as an accessory use; and

WHEREAS, the Board notes that DOB has acknowledged that amateur ham radio antennas can qualify as accessory uses, and since all ham radio operators by definition both receive and transmit radio signals, it appears that DOB has accepted certain amateur radio towers which both receive and transmit radio signals as accessory uses; and

WHEREAS, as to DOB's contention that the subject Radio Tower does not qualify as an accessory use because it is significantly taller and more elaborate than traditional accessory radio towers, the Board finds that the Appellant has submitted sufficient evidence to establish that radio towers similar to the subject Radio Tower are customarily found in connection with residential buildings in New York City; and

WHEREAS, specifically, the Appellant submitted photographs of nine other ham radio towers maintained throughout the City, and the Board notes that several of the photographs depict radio towers similar in size to the subject Radio Tower; and

WHEREAS, the Board further notes that the Appellant was able to ascertain the height of five of the radio towers for which it submitted photographs, which include: (1) a radio tower with a height of approximately 40 feet located on the rooftop of an 11-story residential building with ground floor commercial use within an M1-5M zoning district in Manhattan; (2) a radio tower with a height of approximately 50 feet located on the rooftop of a 13-story residential building with ground floor commercial use within an R10-A zoning district in Manhattan; (3) a radio tower with a height of approximately 28 feet located on the rooftop of a nine- story residential building within an R8B zoning district in Manhattan; (4) a radio tower with a height of approximately 80 feet located in the backyard of a two-story residential building within an R4-1 zoning district in Brooklyn; and (5) a radio tower with a height of 15 feet located on the rooftop of a two-story residential building within an R2A zoning district in Queens; and

WHEREAS, the Board considers the photographs submitted by the Appellant to be a representative sample of the amateur ham radio antennas maintained by the approximately 3,321 licensed ham radio operators located throughout the City, and finds that the photographs submitted to the Board, in particular those of the rooftop radio towers in Manhattan with heights of 40 feet and 50 feet, respectively, serve as evidence that radio towers similar in height to the subject Radio Tower with a height of 40 feet are customarily found in connection with residential buildings in the City; and

WHEREAS, the Board is not convinced by DOB's argument that these radio towers cannot be relied upon as evidence that radio towers similar in size to the subject Radio Tower are customarily found in connection with residential buildings merely because they are located on taller buildings than the subject Building; and

WHEREAS, the Board does not find the height of the building upon which a radio tower is to be located to be the controlling factor as to whether or not that radio tower is deemed to be an accessory use; and

WHEREAS, as to DOB's contention that the subject case is controlled and consistent with Botanical Garden, the Board acknowledges that the case reflects that it is appropriate to take the overall character of the particular area into consideration when determining whether an accessory use is clearly incidental to and customarily found in connection with the principal use, however, the Board agrees with the Appellant that the facts of the case actually weigh in favor of the Appellant's position; and

WHEREAS, in particular, the Board notes that DOB is requesting that the Board rely on Botanical Garden to support the position that the subject Radio Tower is not an accessory use, despite the fact that the ultimate holding in Botanical Garden was that the radio tower in question qualified as an accessory use based on similar arguments advanced by the Appellant in the subject case; and

WHEREAS, the Board agrees with the Appellant that the Court's determination that "the Zoning Resolution classification of accessory uses is based upon functional rather than structural specifics" Botanical Garden, 91 N.Y.2d at 421, and "[t]he fact that the definition of accessory radio towers contains no such size restrictions supports the conclusion that the size and scope of these structures must be based upon an individualized assessment of need" Botanical Garden, 91 N.Y.2d at 422-23, weighs in favor of the Radio Tower as an accessory use, as the Appellant submitted a needs analysis which reflects that the antenna height of 40 feet is based upon an individualized assessment of the owner's needs to communicate with Israel and the Middle East and is the minimum necessary height required for the ham radio tower to function properly in communicating with these areas of the world; and

WHEREAS, the Board also does not find support in Botanical Garden for DOB's contention that the Radio Tower

is non-accessory merely because there are no similarly-sized radio towers located on similarly-sized buildings in the immediately surrounding block, as in that case Fordham was the only university in the surrounding area and the Court supported the Board's consideration of the custom and usage of other universities which were not located near the site in reaching its determination that such radio antennas were customarily found as accessory uses to universities; and

WHEREAS, accordingly, the Board notes that while Botanical Garden set forth a standard that the overall character of the area should be taken into consideration in the accessory use analysis, the facts of that case itself reflect that such a standard does not require that there be an identical radio tower accessory to an identical building in the immediately surrounding area, as DOB appears to be requiring in the instant case; and

WHEREAS, the Board agrees with the Appellant that the fact that no other buildings on the immediate block have similar radio towers is not dispositive of whether the subject Radio Tower is an accessory use, and finds that the Appellant has submitted evidence that rooftop radio towers with heights of 40 feet are "customarily found in connection with" residential buildings in New York City; and

WHEREAS, as to BSA Cal. No. 14-11-A, the Board agrees with the Appellant that that case is also distinguishable from the subject case, as it was based on significantly different facts and in its decision the Board specifically noted that "size can be a rational and consistent form of establishing the accessory nature of certain uses such as home occupations, caretaker's apartments, and convenience stores on sites with automotive use, but may not be relevant for other uses like radio towers…"; and

WHEREAS, the Board further agrees with the Appellant that, unlike the subject case, BSA Cal. No. 14-11-A involved DOB's attempt to promulgate and follow a universally applicable standard for determining whether a cellar was an accessory use, which has since been memorialized in Buildings Bulletin 2012-008; and

WHEREAS, specifically, the Board notes that in BSA Cal. No. 14-11-A, DOB sought to apply a single objective standard to all cellars in every zoning district, while in the subject case DOB is proposing to make a case-by-case analysis of each amateur ham radio tower that is constructed in the City and make a discretionary determination as to whether it is accessory based upon factors such as the height of the radio tower, the height of the associated building, the prevalence of similar radio towers on similar buildings in the immediately surrounding area, the character of the surrounding area, and other subjective criteria; and

WHEREAS, the Board agrees with the Appellant that DOB has provided no provision of the Zoning Resolution or any other law, rule, or regulation which sets forth a standard for finding the subject Radio Tower non-accessory solely based upon its height; and

WHEREAS, the Board considers the lack of an objective standard for determining whether an amateur ham radio tower of a given height is accessory to be problematic and prone to arbitrary results, and while the Board does not make a determination as to whether amateur ham radio towers of any height may qualify as accessory, it recognizes that establishing a bright line standard for the permissible height of accessory radio towers may require an amendment to the Zoning Resolution or the promulgation of a Buildings Bulletin, as was the case in BSA Cal. No. 14-11-A; and

WHEREAS, the Board agrees with DCP that the size of a use can be relevant to whether it is "incidental to" and "customarily found in connection with" a principal use; however, it finds that in the case of amateur radio towers, unlike cellars and certain other uses, there is no articulated standard to guide DOB in determining at what height a particular radio tower becomes non-accessory; and

WHEREAS, as to the Appellant's argument that in not accepting the Radio Tower as an accessory use DOB has failed to "reasonably accommodate" the owner's needs contrary to federal laws and regulations, the Board recognizes that federal laws and FCC regulations favor the maintenance of ham radio equipment such as the Radio Tower and pre-empt local ordinances which prohibit the maintenance of such equipment; and

WHEREAS, however, because the Board has determined that the subject Radio Tower satisfies the ZR § 12-10 definition of accessory use, the Board deems it unnecessary to make a determination on the preemption issue in order to reach a decision on the merits of the subject appeal; therefore, the Board finds it appropriate to limit the scope of its determination accordingly; and

WHEREAS, the Board concludes that, based upon the above, the Radio Tower satisfies the ZR §12-10 criteria for an accessory use to the subject residential building.

Therefore it is Resolved that the subject appeal, seeking a reversal of the Final Determination of the Manhattan Borough Commissioner, dated April 10, 2012, is hereby granted.

Adopted by the Board of Standards and Appeals, November 20, 2012.

The resolution has been revised to correct the amateur radio license No. which read "WTJGQ***" now reads "***W2JGQ***". Corrected in Bulletin Nos. 1-2, Vol. 98, dated January 16, 2013.**

***CORRECTION**

This resolution adopted on December 11, 2012, under Calendar No. 232-10-A and printed in Volume 97, Bulletin No. 51, is hereby corrected to read as follows:

232-10-A
APPLICANT – OTR Media Group, Incorporated, for 4th Avenue Loft Corporation, owner.
SUBJECT – Application December 23, 2010 – An appeal challenging Department of Buildings' denial of a sign permit on the basis that the advertising sign had not been legally established and not discontinued as per ZR §52-83. C1-6 zoning district.
PREMISES AFFECTED – 59 Fourth Avenue, 9th Street & Fourth Avenue. Block 555, Lot 11. Borough of Manhattan.
COMMUNITY BOARD #3M
ACTION OF THE BOARD – Appeal granted.
THE VOTE TO GRANT –
Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5
Negative:.....0
THE RESOLUTION –

WHEREAS, this is an appeal of a final determination, issued by the First Deputy Commissioner of the Department of Buildings ("DOB") on November 23, 2010 (the "Final Determination"), which states, in pertinent part:

> The request to establish legality for a nonconforming advertising sign on the subject premises is hereby denied.
>
> The evidence submitted fails to establish that a lawful advertising sign was established and not discontinued as per 52-831; and

WHEREAS, a public hearing was held on this appeal on August 13, 2011 after due notice by publication in *The City Record*, with a continued hearing on October 23, 2012, and then to decision on December 11, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, the subject site is located on the east side of Fourth Avenue, between East Ninth Street and East Tenth Street, within a C6-2A zoning district; and

WHEREAS, the site is occupied by an eight-story mixed-use commercial/residential building (the "Building"); the southern façade of the Building (the "Wall") has been used to display signage since approximately 1900, including a painted advertising sign on the upper corner of the Wall (the "Sign"), which is the subject of this appeal; and

WHEREAS, this appeal is brought on behalf of the lessee of the Sign (the "Appellant"); and

WHEREAS, DOB appeared and made submissions in opposition to this appeal; and

PROCEDURAL HISTORY

WHEREAS, on January 26, 2009, DOB issued a stop work order for "outdoor advertising company sign on display structure without permit…"; and

WHEREAS, on May 24, 2010, the Appellant filed a permit application (Job No. 120353606) with DOB for a 1,000 sq. ft. (25'-0" by 40'-0") non-illuminated painted advertising wall sign; the application stated that the sign complied with the non-conforming advertising sign regulations; and

WHEREAS, on June 8, 2010, DOB denied the permit application, finding that there was insufficient evidence that the sign was lawfully established and not discontinued; and

WHEREAS, on October 23, 2010, the Appellant filed a Zoning Resolution Determination Form ("ZRD1") with the Manhattan Borough Office requesting an override of all objections and a determination that the Sign is permitted as a legal non-conforming advertising sign; and

WHEREAS, on November 23, 2010, DOB issued the Final Determination denying the Appellant's ZRD1 request; and

WHEREAS, the Appellant initially sought a determination from the Board that signage located on the lower portion of the Wall was also permitted as a legal non-conforming advertising sign; however, the Appellant did not pursue its arguments with respect to the lower portion of the Wall; and

RELEVANT ZONING RESOLUTION PROVISIONS

> ZR § 12-10 (*Definitions)*
> Non-conforming, or non-conformity
> A "non-conforming" #use# is any lawful #use#, whether of a #building or other structure# or of a #zoning lot#, which does not conform to any one or more of the applicable #use# regulations of the district in which it is located, either on December 15, 1961 or as a result of any subsequent amendment thereto. . .
>
> * * *
>
> ZR § 52-11 (*Continuation of Non-Conforming Uses)*
> General Provisions
> A #non-conforming use# may be continued, except as otherwise provided in this Chapter.
>
> * * *
>
> ZR § 52-61 (*Discontinuance)*
> General Provisions
> If, for a continuous period of two years, either the #nonconforming use# of #land with minor improvements# is discontinued, or the active operation of substantially all the #non- conforming uses# in any #building or other structure# is

1 DOB notes that the Final Determination improperly cites ZR § 52-83 as the basis for the denial, and that ZR §§ 52-11 and 52-61 should have been cited, as DOB's determination was that insufficient evidence had been submitted to demonstrate that a painted wall advertising sign was lawfully established at the subject site and never discontinued for a period of two or more years.

discontinued, such land or #building or other structure# shall thereafter be used only for a conforming #use#. Intent to resume active operations shall not affect the foregoing . . . ; and

THE APPLICABLE STANDARD FOR NON-CONFORMING USES

WHEREAS, DOB and the Appellant agree that the site is currently within a C6-2A zoning district and that the Sign is not permitted as-of-right within the zoning district; and

WHEREAS, accordingly, in order to establish the affirmative defense that the non-conforming signs are permitted to remain, the Appellant must meet the Zoning Resolution's criteria for a "non-conforming use" as defined at ZR § 12-10; and

WHEREAS, ZR § 12-10 defines "non-conforming" use as "any lawful *use*, whether of a *building or other structure* or of a tract of land, which does not conform to any one or more of the applicable *use* regulations of the district in which it is located, either on December 15, 1961 or as a result of any subsequent amendment thereto"; and

WHEREAS, additionally, the Appellant must comply with ZR § 52-61 (*Discontinuance, General Provisions)* which states that: "[i]f, for a continuous period of two years, either the *non-conforming use* of *land with minor improvements* is discontinued, or the active operation of substantially all the *non-conforming uses* in any *building or other structure* is discontinued, such land . . . shall thereafter be used only for a conforming *use*"; and

WHEREAS, in this case, the Appellant must also show that advertising signage existed on the Wall prior to June 28, 1940, the date the 1916 Zoning Resolution was amended to restrict advertising signage in the district where the subject site is located; and

WHEREAS, accordingly, DOB asserts that as per the Zoning Resolution, the Appellant must establish that the use was lawfully established before it became unlawful, by zoning, on June 28, 1940 as well as on December 15, 1961, the date the 1961 Zoning Resolution was enacted, and it must have continued without any two-year period of discontinuance since December 15, 1961; and

WHEREAS, thus, the Board notes that the standard to apply to the subject sign is (1) the sign existed lawfully on June 28, 1940 and December 15, 1961, and (2) that the use did not change or cease for a two-year period since December 15, 1961. See ZR §§ 12-10, 52-61; and

LAWFUL ESTABLISHMENT

WHEREAS, the Appellant states that a sign has existed on the Wall since at least 1900, originally as a painted advertising sign; and

WHEREAS, the Appellant contends that advertising signage existed on the Wall prior to June 28, 1940, the date the 1916 Zoning Resolution was amended to define and distinguish "advertising" signs from "accessory" signs; and

WHEREAS, the Appellant states that while the 1940 text amendment restricted advertising signage in the district where the subject site is located, by that time the Wall had been used to display signage, including advertising signage, for approximately 40 years; and

WHEREAS, the Appellant asserts that the Wall continued to be used for advertising signage prior to and after December 15, 1961; and

WHEREAS, in support of the existence of advertising signage on the Wall prior to June 28, 1940, the Appellant submitted photographs, copies of the business directory for the City of New York, and newspaper/magazine articles; and

WHEREAS, in support of the existence of the signage on the Wall prior to and since December 15, 1961, the Appellant submitted photographs reflecting that a "Hebrew National" painted advertising sign was located on the upper portion of the Wall from at least June 1, 1960 through 1965 or later; and

WHEREAS, accordingly, the Appellant states that a painted advertising sign was lawfully established on the upper portion of the Wall prior to the enactment of the 1961 Zoning Resolution; and

WHEREAS, DOB states that it accepts the Appellant's photographic and documentary evidence of the existence of advertising signage prior to June 28, 1940 through 1960; and

WHEREAS, DOB further states that it accepts the Appellant's evidence demonstrating the "Hebrew National" painted advertising sign existed prior to 1961 through 1965; and

WHEREAS, accordingly, DOB agrees that an advertising sign was lawfully established at the site prior to December 15, 1961 and lawfully existed on December 15, 1961, and therefore the owner of the site achieved a right to maintain a painted advertising sign in the same location and position of the "Hebrew National" sign, provided that such sign was not discontinued for a period of two or more years; and

CONTINUITY OF THE SIGN

WHEREAS, at the outset, DOB states that the Appellant has submitted sufficient evidence to demonstrate continuity of the non-conforming advertising sign on the top portion of the Wall from 1961 through 1992 and from 2005 until the filing of subject appeal; and

WHEREAS, accordingly, the Board finds it appropriate to limit its review of the continuity of the Sign to the period from 1992 through 2005, which is the only time period for which DOB has alleged a discontinuance of the Sign for a period in excess of two years, contrary to ZR § 52-61; and

- Appellant's Position

WHEREAS, the Appellant submitted photographs, leases, and letters as primary evidence to establish the continuity of use of the Sign between 1992 and 2005; and

WHEREAS, the Appellant also submitted an affidavit from Patrick Curley, a resident of the Building and President of the 4th Avenue Loft Corporation stating that a sign has been located on the south facing wall from 1978 continuously through the present (the "Curley Affidavit"), and an affidavit from Chris Mitrofanis, the owner of the adjacent retail establishment at 59 Fourth Avenue, stating that the upper wall has been used for advertising signs continuously from 1984 through 2009, with no two-year period of discontinuance

during that time (the "Mitrofanis Affidavit") (collectively, the "Affidavits"); and

WHEREAS, in support of the existence of the Sign in 1992, the Appellant submitted: (1) a photograph of a painted advertising sign for "Tower Records" on the upper portion of the Wall, along with evidence that the photograph was taken in approximately 1992; and (2) the Affidavits; and

WHEREAS, in support of the existence of the Sign in 1993, the Appellant submitted: (1) the 1992 photograph of the Tower Records advertising sign; and (2) the Affidavits; and

WHEREAS, in support of the existence of the Sign in 1994, the Appellant submitted: (1) the 1992 photograph of the Tower Records advertising sign; (2) an option agreement dated July 14, 1994 between the owner and Transportation Displays Incorporated/TDI ("TDI") granting the exclusive option for TDI to lease the south wall of the Building for the purpose of affixing advertising copy thereto for one year (the "1994 Option Agreement"); and (3) the Affidavits; and

WHEREAS, in support of the existence of the Sign in 1995, the Appellant submitted: (1) a photograph showing the Building with the same painted advertising sign for "Tower Records" which it asserts was taken in June 1995 (the "Appellant's June 1995 Photograph"); (2) the 1994 Option Agreement; and (3) the Affidavits; and

WHEREAS, in support of the existence of the Sign in 1996, the Appellant submitted: (1) the June 1995 Photograph of the "Tower Records" sign; (2) the 1994 Option Agreement; and (3) the Affidavits; and

WHEREAS, in support of the existence of the Sign in 1997, the Appellant submitted: (1) a photograph showing a sign with illegible copy on the upper portion of the Wall, dated October 1997; and (2) the Affidavits; and

WHEREAS, in support of the existence of the Sign in 1998, the Appellant submitted: (1) the 1997 photograph; and (2) the Affidavits; and

WHEREAS, in support of the existence of the Sign in 1999, the Appellant submitted: (1) a photograph showing an advertising sign for "Fetch-O-Matic" on the upper portion of the Wall, along with evidence that the photograph was taken in 1999 or 2000 (the "1999/2000 Fetch-O-Matic Photograph"); and (2) the Affidavits; and

WHEREAS, in support of the existence of the Sign in 2000, the Appellant submitted: (1) the 1999/2000 Fetch-O-Matic Photograph; (2) an October 6, 2000 letter from Vista Media Group, Inc., stating that it assumed the lease rights and obligations under the lease with TDI/Outdoor Systems/Infinity, and noting that the monthly lease payment was enclosed (the "October 6, 2000 Letter"); and (3) the Affidavits; and

WHEREAS, in support of the existence of the Sign in 2001, the Appellant submitted: (1) the 1999/2000 Fetch-O-Matic Photograph; (2) the October 6, 2000 Letter; (3) a "Wallscape Rental Agreement" dated August 27, 2001 granting Vista Media Group, Inc., the use of a portion of the south wall of the property for the display of signage, for a term of five years, commencing on January 15, 2002 (the "August 27, 2001 Five-Year Lease"); and (4) the Affidavits; and

WHEREAS, in support of the existence of the Sign from 2002 through 2005, the Appellant submitted: (1) the 1999/2000 Fetch-O-Matic Photograph; (2) the August 27, 2001 Five-Year Lease; and (3) the Affidavits; and

WHEREAS, based on the above, the Appellant asserts that it has established that the Sign was continuously in existence as an advertising sign from 1992 through 2005, without any two-year period of discontinuance; and

- Department of Buildings' Position

WHEREAS, DOB asserts that there is insufficient evidence to show continuity of the non-conforming advertising sign on the upper portion of the Wall from 1992 through 2005; and

WHEREAS, DOB states that its Sign Enforcement Unit discovered a photograph dated 1995 on a website called nycsubway.org, which shows only the faded remnants of a painted sign on the upper portion of the Wall (the "1995 DOB Photograph"); and

WHEREAS, DOB further states that it is unable to reconcile the fact that the photograph allegedly taken in June 1995 submitted by the Appellant shows only a slightly faded painted advertising sign for Tower Records while the 1995 DOB Photograph shows a significantly faded painted advertising sign; and

WHEREAS, DOB notes that the Appellant's June 1995 Photograph was originally submitted at the Board's October 23, 2012 hearing as taken in June 1993, and asserts that if the photograph was taken in June 1995 then the Appellant is claiming that the Tower Records painted sign existed from 1987 to June 1995 with only slight fading, but from June 1995 until the time when the 1995 DOB Photograph was taken, the painted Tower Records advertising sign faded away significantly; and

WHEREAS, DOB notes that the 1997 photograph submitted by the Appellant similarly shows only the faded remnants of a painted sign on the upper portion of the Wall; and

WHEREAS, DOB states that its Sign Enforcement Unit also discovered a photograph on the flickr.com website dated September 10, 2001, which again shows only the faded remnants of a painted sign on the upper portion of the Wall (the "September 10, 2001 DOB Photograph"), which is consistent with the 1995 DOB Photograph and the Appellant's 1997 photograph; and

WHEREAS, DOB further states that the September 10, 2001 DOB Photograph shows the identical advertising sign on the lower portion of the Wall (entitled "Rivet Up") as existed on the Appellant's June 1995 Photograph; and

WHEREAS, DOB asserts that the September 10, 2001 DOB Photograph calls into question the authenticity of the Appellant's June 1995 Photograph because it is not plausible that an advertising copy for "Rivet Up" existed both in June 1995 and on September 10, 2001, particularly when there are several photographs between that time period which show a different advertising copy on the lower portion of the Wall; and

WHEREAS, DOB notes that the Appellant's June 1995

Photograph and the 1999/2000 Fetch-O-Matic Photograph are from "private collections" and that the Appellant has not submitted affidavits from the photographer attesting to the date they were taken, and indicates that as such they should be given less weight than the 1995 DOB Photograph and the September 10, 2001 DOB Photograph, both of which are publicly available; and

WHEREAS, accordingly, based on the photographs from 1995, 1997, and 2001 which DOB contends show only the faded remnants of a painted sign, and the questionable credibility of the Appellant's June 1995 Photograph, DOB concludes that the Appellant has failed to establish the continuity of the advertising sign on the upper portion of the Wall, as required by ZR § 52-61; and

APPELLANT'S RESPONSE TO DEPARTMENT OF BUILDINGS' ARGUMENTS

WHEREAS, in response to DOB's position regarding the authenticity of the Appellant's June 1995 Photograph, the Appellant asserts that 1995 is the most likely year that the photograph was taken; and

WHEREAS, the Appellant states that the date of this photograph was determined by scrutinizing the details of the photograph, including: (1) a scaffolding in front of the building located at 21 Astor Place (Block 545, Lot 7503), and that DOB records indicate that Permit No. 101007928 was approved on March 13, 1995 for a sidewalk shed at the site; (2) the building at 770 Broadway is boarded with a sidewalk shed and therefore the Kmart store that currently occupies the space, and which the Appellant established through a newspaper article opened in November 1996, had not yet opened; and (3) a 23-story building that was constructed on East 12th Street between Third Avenue and Fourth Avenue in 1996 is not visible in the photograph, and therefore was not constructed yet; and

WHEREAS, therefore, Appellant argues that the photograph was clearly taken prior to the 1996 opening of Kmart at 770 Broadway and the completion of the 23-story building, and the existence of the sidewalk shed at 21 Astor Place indicates that it was taken after March 13, 1995; and

WHEREAS, the Appellant states that the 1995 DOB Photograph shows that the lower portion of the Wall was occupied by an advertisement for an Old Navy store that the Appellant contends did not open until November of 1995, and therefore argues that the photograph was more likely taken in 1996 or later, because there are leaves on the trees in the photograph; and

WHEREAS, as to the September 10, 2001 DOB Photograph, the Appellant contends that the date on the photograph is likely incorrect, as the photograph is from flickr.com, and the dating system for the website relates to the date the photograph was uploaded, not necessarily the date it was taken; and

WHEREAS, the Appellant provides an example of a photograph on flickr.com that was taken in 1978 but for which the website states "this photo was taken on July 16, 2006"; therefore, the Appellant asserts that the date listed on the website for the photograph is not necessarily an accurate depiction of the date the photograph was taken; and

WHEREAS, as to DOB's concerns regarding the 1999/2000 Fetch-O-Matic Photograph, the Appellant submitted an affidavit from the photographer (the Mitrofanis Affidavit) which states that the photograph was taken in or around 1999, and the Appellant also submitted an August 29, 2000 press release for FetchOMatic.com, announcing an upcoming advertising campaign for the new company; and

WHEREAS, in response to DOB's indication that the photographs submitted by the Appellant should be given less weight because they are from private collections rather than publicly accessible sources, the Appellant notes that DOB Technical Policy and Procedure Notice 14/1988, which DOB issued to establish guidelines for DOB's review of whether a non-conforming use has been continuous, does not state that an appellant must provide publicly accessible photographs, or that such photographs are given more weight than photographs from private collections; and

WHEREAS, accordingly, the Appellant claims that the dates of the photographs it submitted from 1995, 1997, and 1999/2000 are credible, and along with the Affidavits, the 1994 Option Agreement, the 2000 Letter, and the 2001 Five-Year Lease, are sufficient to establish the continuous use of the advertising sign on the upper portion of the Wall from 1992 through 2005; and

CONCLUSION

WHEREAS, the Board finds that the Appellant has met its burden of establishing that the Sign was lawfully established prior to December 15, 1961 and has been in continuous use, without any two-year interruption since that date; and

WHEREAS, specifically, the Board finds the evidence submitted by the Appellant sufficient to establish the continuous use of the Sign on the upper portion of the Wall from 1992 through 2005, the only time period contested by DOB; and

WHEREAS, as to the evidence submitted by the Appellant to establish the continuous use of the Sign during this time period, the Board notes that the Appellant provided evidence in the form of photographs, leases, option agreements, letters, and affidavits, and that some combination of this evidence was provided for each year beginning from 1992 through 2005; and

WHEREAS, as to the credibility of the Appellant's June 1995 Photograph, the Board finds the Appellant's methodology for determining the date of the photograph compelling, in that it clearly was taken prior to 1996, and the presence of the sidewalk shed in front of the 21 Astor Place building, for which the Appellant found a permit was issued by DOB on March 13, 1995, indicates that it was likely taken in 1995; and

WHEREAS, the Board does not consider the fact that the Appellant originally presented the photograph at the Board's October 23, 2012 hearing as being taken in June 1993 to undermine the credibility of the photograph; and

WHEREAS, specifically, the Board notes that even if

the photograph was taken in June 1993, it still serves as relevant evidence of the continuity of the Sign, as it reflects that the same Tower Records sign that is shown in the 1992 photograph remained in place in 1993; and

WHEREAS, as to the 1995 DOB Photograph, the Board notes that it shows a faded sign on the upper portion of the Wall, similar to that shown in the 1997 photograph submitted by the Appellant; however, the Board does not find that these photographs necessarily contradict the Appellant's June 1995 Photograph; and

WHEREAS, as to the 1999/2000 Fetch-O-Matic Photograph, the Board finds the Mitrofanis Affidavit combined with the August 29, 2000 press release submitted by the Appellant to be sufficient evidence to establish that the photograph was taken in 1999 or 2000; and

WHEREAS, as to the September 10, 2001 DOB Photograph, the Board agrees with the Appellant that the dating system for the website flickr.com is not reliable, in that it does not conclusively reflect the date the photograph was actually taken; and

WHEREAS, the Board disagrees with DOB's contention that the September 10, 2001 DOB Photograph necessarily calls into question the authenticity of the Appellant's June 1995 Photograph because there is an identical advertising sign for "Rivet Up" on the lower portion of the Building in both photographs; rather, the Board finds that the presence of the "Rivet Up" sign in both photographs actually makes it more likely that the September 10, 2001 DOB Photograph was actually taken closer to the date of the Appellant's June 1995 Photograph, since the Board finds the Appellant's evidence that the latter photograph was taken prior to 1996 to be compelling and because there is no "Rivet Up" sign in the 1999/2000 Fetch-O-Matic Photograph; and

WHEREAS, the Board agrees with the Appellant that the fact that the Appellant's June 1995 Photograph and 1999/2000 Fetch-O-Matic Photograph are from private collections while the photographs submitted by DOB are publicly accessible does not automatically entitle the latter to more weight; and

WHEREAS, accordingly, the Board finds that the Appellant has submitted sufficient evidence to establish that the Sign has been in continuous use from 1992 through 2005, without any two-year interruption; and

WHEREAS, the Board accepts DOB's determination that the painted advertising sign was lawfully established prior to June 28, 1940 as well as December 15, 1961 and has been in continuous use without any two-year interruption from 1961 through 1992 and from 2005 until the date the subject application was filed; and

WHEREAS, the Board notes that while the Appellant is requesting that the Board permit a 25'-0" by 40'-0" (1,000 sq. ft.) painted advertising sign on the upper portion of the Wall, the permitted size and location of the Sign is limited to the dimensions and location of the Hebrew National sign which existed on the site from 1960 through 1965; and

WHEREAS, while no evidence has been submitted as to the exact dimensions of the Hebrew National sign, the Board notes that if DOB determines that the Appellant's requested dimensions of 25'-0" by 40'-0" (1,000 sq. ft.) exceed the dimensions of the Hebrew National sign, the latter will be controlling; and

Therefore it is Resolved that this appeal, challenging a Final Determination issued on November 23, 2010, is granted.

Adopted by the Board of Standards and Appeals, December 11, 2012.

***The resolution has been amended. Corrected in Bulletin Nos. 1-2, Vol. 98, dated January 16, 2013.**

***CORRECTION**

This resolution adopted on October 16, 2012, under Calendar No. 168-11-BZ and printed in Volume 97, Bulletin Nos. 41-43, is hereby corrected to read as follows:

168-11-BZ
CEQR #12-BSA-037K
APPLICANT – Sheldon Lobel, P.C., for Congregation Bet Yaakob, Inc., owner.
SUBJECT – Application October 27, 2011 – Variance (§72-21) to permit, on a site within R5 (Special Ocean Parkway District), R6A (Special Ocean Parkway District), and R5 (Special Ocean Parkway Subdistrict) zoning districts, the construction of a four-story building to be occupied by a synagogue, which does not comply with the underlying zoning district regulations for floor area ratio, open space ratio, lot coverage, front yard, side yard, rear yard, height and setback, side and rear setback, front yard planting, special landscaping, and parking, contrary to ZR §§ 23-131, 23-141, 23-45, 23-451, 23-461, 23-464, 23-471, 23-53, 23-543, 23-631, 23-633, 23-662, 24-11, 24-17, 24-351, 24-593, 25-31, 25-35, 113-11, 113-12, 113-30, 113-503, 113-543, 113-544, and 113-561.
PREMISES AFFECTED – 2085 Ocean Parkway, L-shaped lot on the corner of Ocean Parkway and Avenue U, Block 7109, Lot 50 (tentative), Borough of Brooklyn.
COMMUNITY BOARD #15BK
ACTION OF THE BOARD – Application granted on condition.
THE VOTE TO GRANT –
Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5
Negative:.....0
THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated August 1, 2012, acting on Department of Buildings Application No. 320345710 reads, in pertinent part:

> Proposed community facility (Use Group A-3 house of worship) building in an R5 (OP Special District), R6A (OP Special District) and R5 (Subdistrict within OP Special District) does not comply with the following bulk regulations:
> 1. Proposed Floor Area Ratio (FAR) exceeds the maximum permitted pursuant to ZR Sections 113-11, 23-141, 24-11 and 24-17
> 2. Proposed Open Space Ratio (OSR) is less than minimum required pursuant to ZR Sections 113-11, 23-141, 24-11, 113-503
> 3. Proposed lot coverage exceeds the maximum permitted pursuant to ZR Sections 113-11, 23-141, 24-11, 24-17, 113-503, 23-131
> 4. Proposed front yard is less than front yard required pursuant to ZR Sections 113-12, 23-45, 23-451, 113-11, 24-351, 23-633
> 5. Proposed side yards are less than side yards required pursuant to ZR Sections 113-11, 23-464, 113-543 and 23-461
> 6. Proposed rear yard is less than rear yard required pursuant to ZR Sections 113-11, 23-471, 23-543, 113-544, 23-53
> 7. Proposed height and setback exceeds the minimum required pursuant to ZR Sections 113-11, 23-631, 24-593, 23-633
> 8. Proposed side and rear yard setbacks exceed the minimum required pursuant to ZR Sections 113-11 and 23-662
> 9. Proposed development violates front yard planting requirements as per ZR Sections 113-12, 23-45 and 23-451
> 10. Proposed development violates special landscaping regulations as per ZR 113-30
> 11. Proposed development provides less than required parking spaces as per ZR Sections 113-561, 25-31 and 25-35; and

WHEREAS, this is an application for a variance pursuant to ZR § 72-21 to permit, on a site within R5 (Special Ocean Parkway District), R6A (Special Ocean Parkway District), and R5 (Special Ocean Parkway Subdistrict) zoning districts, the construction of a four-story building to be occupied by a synagogue, which does not comply with the underlying zoning district regulations for floor area ratio, open space ratio, lot coverage, front yard, side yard, rear yard, height and setback, side and rear setback, front yard planting, special landscaping, and parking, contrary to ZR §§23-131, 23-141, 23-45, 23-451, 23-461, 23-464, 23-471, 23-53, 23-543, 23-631, 23-633, 23-662, 24-11, 24-17, 24-351, 24-593, 25-31, 25-35, 113-11, 113-12, 113-30, 113-503, 113-543, 113-544, and 113-561; and

WHEREAS, a public hearing was held on this application on June 12, 2012, after due notice by publication in *The City Record*, with continued hearings on July 24, 2012 and August 21, 2012, and then to decision on October 16, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 15, Brooklyn, recommends approval of the application; and

WHEREAS, City Council Member Domenic Recchia provided testimony in support of the proposal; and

WHEREAS, a neighbor initially provided opposition to the proposal, but did not submit continued testimony; and

WHEREAS, this application is being brought on behalf of Congregation Bet Yaakob (the "Synagogue"), a non-profit religious entity which will occupy the proposed Edmond J. Safra Synagogue building; and

WHEREAS, the subject site is an L-shaped corner lot fronting Ocean Parkway and Avenue U, with frontages of approximately 50 feet along Ocean Parkway and 143 feet along Avenue U within R5 (Special Ocean Parkway District), R6A (Special Ocean Parkway District), and R5 (Special

Ocean Parkway Subdistrict) zoning districts; and

WHEREAS, the subject site has a lot area of 8,840 sq. ft. with 6,500 sq. ft. in the R5 (Special Ocean Parkway District), 1,800 sq. ft. in the R6A (Special Ocean Parkway District), and 540 sq. ft. in the R5 (Special Ocean Parkway Subdistrict); and

WHEREAS, the subject site, which was formerly two separate lots – 48 and 50 – was occupied by two two-story homes, which were demolished in anticipation of construction at the site; and

WHEREAS, the applicant proposes the following parameters: four stories; a floor area of 20,361 sq. ft. (2.30 FAR) (a maximum community facility floor area of 14,335 sq. ft. and an aggregate between the R5 and R6A zoning districts of 1.62 FAR is permitted); a lot coverage of 79 percent (maximum permitted lot coverage ranges from 55 to 60 percent); an open space of 21 percent (the minimum required open space ranges from 40 to 45 percent); a maximum wall height of 60'-0" and a maximum total height of 62'-4" (the maximum permitted height ranges from 35'-0" (R5) to 50'-0" (R6A)); and no parking spaces (a minimum of 17 parking spaces are required); and

WHEREAS, as to yards, the applicant notes that the site is partially a corner lot and partially an interior lot, thus the yard requirements vary across the site; however, it will provide a front yard with the required depth of 30'-0" along Ocean Parkway but no front yard along Avenue U (a front yard with a depth of 10'-0" is required); a rear yard with a depth of 4'-0" on the corner portion (a rear yard with a depth of 8'-0" is required on the corner portion); the required rear yard with a depth of 30'-0" on the interior portion of the lot, but no front yard in the interior portion of the lot (a front yard with a depth of 10'-0" is required); and

WHEREAS, the proposal provides for the following uses: (1) a social hall and small kitchen at the cellar level; (2) the daily sanctuary and men's mikvah at the first floor; (3) the main sanctuary on the second floor; (4) additional worship area, including a worship gallery for female congregants at the third floor; and (5) a board room and two offices on the fourth floor; and

WHEREAS, the applicant states that the following are the primary programmatic needs of the Synagogue which necessitate the requested variances: (1) to accommodate the growing congregation currently of approximately 600 worshippers; (2) to provide a separate worship space for male and female congregants; (3) to provide sufficient separation of space so that multiple activities may occur simultaneously; and (4) to provide accessory space including offices and a social hall; and

WHEREAS, the applicant states that the as-of-right building would allow for a social hall of only 1,197 sq. ft. (to accommodate 80 people); a daily sanctuary of only 542 sq. ft. (to accommodate 37 people); and a main sanctuary of only 1,183 sq. ft. (to accommodate 95 people) – all of which are far too small to accommodate the Congregation; and

WHEREAS, further, the applicant asserts that the necessary women's balcony and men's mikvah could not be provided in an as-of-right scheme; and

WHEREAS, the applicant states that the height and setback waivers permit the double-height ceiling of the second floor main synagogue which is necessary to create a space for worship and respect and an adequate ceiling height for the third floor women's balcony; and

WHEREAS, the applicant states that the parking waiver is only related to the portion of the site within the R5 zoning district and that there is not a parking requirement for a house of worship under R6A zoning district regulations; and

WHEREAS, the applicant notes that approximately 95 percent of congregants live within walking distance of the site and must walk for reasons of religious observance; and

WHEREAS, the applicant states that 76 percent of the congregation lives within a three-quarter-mile radius of the site, which exceeds the 75 percent required under ZR § 25-35 to satisfy the City Planning Commission certification for a locally-oriented house of worship; and

WHEREAS, the applicant states that it requests a waiver of the Special Ocean Parkway District's special landscaping requirements for the front yard along Ocean Parkway as the front yard is necessary for a ramp and the main entrance; and

WHEREAS, the applicant notes that the site will be landscaped with trees and shrubbery along Avenue U, where the proposed building has 113'-0" of frontage, as well as along Ocean Parkway; and

WHEREAS, the applicant states that the congregation has occupied a nearby rental space for the past three years, which accommodates only 275 seats and is far too small to accommodate the current membership of 600 adults; and

WHEREAS, the applicant states that the requested waivers enable the Synagogue to construct a building that can accommodate its growing congregation as well as provide a separate worship space for men and women, as required by religious doctrine, space for religious counseling, and a multipurpose room for educational and social programming; and

WHEREAS, the applicant states that the requested waivers are necessary to provide enough space to meet the programmatic needs of the congregation; and

WHEREAS, the Board acknowledges that the Synagogue, as a religious institution, is entitled to significant deference under the law of the State of New
York as to zoning and as to its ability to rely upon programmatic needs in support of the subject variance application; and

WHEREAS, specifically, as held in Westchester Reform Temple v. Brown, 22 NY2d 488 (1968), a religious institution's application is to be permitted unless it can be shown to have an adverse effect upon the health, safety, or welfare of the community, and general concerns about traffic and disruption of the residential character of a neighborhood are insufficient grounds for the denial of an application; and

WHEREAS, in addition to its programmatic needs, the applicant states that there are unique physical conditions of the site – including its L-shape; the narrow yet deep easternmost portion (formerly Lot 48); the location of multiple zoning

district and special district boundary lines within the site; and the high groundwater condition contribute to the hardship at the site; and

WHEREAS, based upon the above, the Board finds that the programmatic needs of the Synagogue create unnecessary hardship and practical difficulty in developing the site in compliance with the applicable zoning regulations; and

WHEREAS, the Board notes that certain of the site conditions contribute to the hardship associated with the site such as the irregularity of the long narrow easternmost portion; and

WHEREAS, the applicant need not address ZR § 72-21(b) since the Synagogue is a not-for-profit organization and the proposed development will be in furtherance of its not-for-profit mission; and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare; and

WHEREAS, the applicant states that that the proposed use is permitted in the subject zoning districts; and

WHEREAS, as to bulk, the applicant performed a study of buildings within approximately a ½-mile radius of the site, which reflects that there are 18 buildings that are taller, contain more floor area and/or have a higher FAR than the proposed building; and

WHEREAS, further, the applicant notes that DOB has approved plans for a six-story 20-unit apartment building with a height of 70'-0" for the site adjacent to the east at 623 Avenue U; and

WHEREAS, as to yards, the applicant notes that the side yard and front yard conditions were existing longstanding non-compliances with the historic residential use of the site; and

WHEREAS, specifically, the applicant notes that the homes had non-complying yard conditions, including that the home on Lot 50 was built to the front lot line along Avenue U and the home on Lot 48 only provided a front yard with a depth of 1'-11" on Avenue U and was built to the side lot line; and

WHEREAS, further, the applicant notes that although the yards do not meet the minimum yard requirements for a community facility, the proposal does reflect a front yard with a depth of 30'-0" along Ocean Parkway, a side yard with a width of 4'-0" adjacent to the neighboring site on Ocean Parkway, and a rear yard with a depth of 30'-0" is provided on former Lot 48; and

WHEREAS, as to the Special Ocean Parkway District's landscaping and front yard planting requirements, the applicant asserts that it will maintain landscaping and provide trees and shrubbery along Avenue U, where the Synagogue has 113'-0" of frontage, as well as plantings along Ocean Parkway; and

WHEREAS, as to parking, the applicant notes that the majority of congregants will walk to the site and that there is not any demand for parking; and

WHEREAS, further, as noted above, the applicant represents that 76 percent of congregants live within a three-quarter-mile radius of the site and thus are within the spirit of City Planning's parking waiver for houses of worship; and

WHEREAS, the Board notes that, based on the applicant's representation, this proposal would meet the requirements for a parking waiver at the City Planning Commission, pursuant to ZR § 25-35 – Waiver for Locally Oriented Houses of Worship - but for the fact that a maximum of ten spaces can be waived in the subject R5 zoning district under ZR § 25-35; and

WHEREAS, in support of this assertion, the applicant submitted evidence reflecting that at least 75 percent of the congregants live within three-quarters of a mile of the subject site; and

WHEREAS, during the hearing process, the Board directed the applicant to review the design of the rear of the building to determine if it could be shortened and to explain the mechanical space needs; and

WHEREAS, in response, the project architect explained how each element of the building design is required; specifically, he explained that as much mechanical use as possible had been relocated to the mechanical mezzanine and that it would not be able to relocate additional use from the rear of the building to the roof of the building above the fourth floor; and

WHEREAS, accordingly, the Board finds that this action will neither alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the applicant states that the hardship was not self-created and that no development that would meet the programmatic needs of the Synagogue could occur on the existing lot; and

WHEREAS, accordingly, the Board finds that the hardship herein was not created by the owner or a predecessor in title; and

WHEREAS, the Board finds the requested waivers to be the minimum necessary to afford the Synagogue the relief needed to meet its programmatic needs; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 12BSA037K, dated May 31, 2012; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials;

Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 and grants a variance, to permit, on a site within R5 (Special Ocean Parkway District), R6A (Special Ocean Parkway District), and R5 (Special Ocean Parkway Subdistrict) zoning districts, the construction of a four-story building to be occupied by a synagogue, which does not comply with the underlying zoning district regulations for floor area ratio, open space ratio, lot coverage, front yard, side yard, rear yard, height and setback, side and rear setback, front yard planting, special landscaping, and parking, contrary to ZR §§ 23-131, 23-141, 23-45, 23-451, 23-461, 23-464, 23-471, 23-53, 23-543, 23-631, 23-633, 23-662, 24-11, 24-17, 24-351, 24-593, 25-31, 25-35, 113-11, 113-12, 113-30, 113-503, 113-543, 113-544, and 113-561; *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received August 8, 2012" – (16) sheets; and *on further condition*:

THAT the building parameters will be: four stories; a maximum floor area of 20,361 sq. ft.; a maximum wall height of 60'-0" and total height of 62'-4"; a minimum open space of 1,866 sq. ft.; and a maximum lot coverage of 6,968 sq. ft. (79 percent), as illustrated on the BSA-approved plans;

THAT any change in control or ownership of the building shall require the prior approval of the Board;

THAT the use will be limited to a house of worship (Use Group 4);

THAT no commercial catering shall take place onsite;

THAT the above conditions shall be listed on the certificate of occupancy;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT construction shall proceed in accordance with ZR § 72-23;

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, October 16, 2012.

***The resolution has been amended**. **Corrected in Bulletin Nos. 1-2, Vol. 98, dated January 16, 2013.**

COMMUNITY BOARD #5BX

Jeff Mulligan, Executive Director

REGULAR MEETING
TUESDAY MORNING, JANUARY 15, 2013
10:00 A.M.

Present: Chair Srinivasan, Vice-Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez.

SPECIAL ORDER CALENDAR

812-61-BZ
APPLICANT – Peter Hirshman, for 80 Park Avenue Condominium, owner.
SUBJECT – Application June 28, 2012 – Extension of Term (§11-411) of approved variance permitting the use of accessory multiple dwelling garage for transient parking, which expires on October 24, 2012. R10, R8B zoning district.
PREMISES AFFECTED – 74-82 Park Avenue, southwest corner of East 39th Street and Park Avenue, Block 868, Lot 7502, Borough of Manhattan.
COMMUNITY BOARD #6M
ACTION OF THE BOARD – Application granted on condition.
THE VOTE TO GRANT –
Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5
Negative:.....0
THE RESOLUTION –

WHEREAS, this is an application for a reopening and an extension of the term for a previously granted variance for a transient parking garage, which expired on October 24, 2012; and

WHEREAS, a public hearing was held on this application on December 4, 2012, after due notice by publication in *The City Record*, and then to decision on January 15, 2013; and

WHEREAS, Community Board 6, Manhattan, does not object to this application; and

WHEREAS, the subject site is located on the southwest corner of Park Avenue and East 39th Street, partially within an R8B zoning district and partially within an R10 zoning district; and

WHEREAS, portions of the cellar and first floor are occupied by a 91-space accessory parking garage; and

WHEREAS, on October 24, 1961, under the subject calendar number, the Board granted a variance pursuant to Section 60(3) of the Multiple Dwelling Law ("MDL") to permit a maximum of 149 surplus parking spaces to be used for transient parking for a term of 21 years; and

WHEREAS, most recently, on August 5, 2003, the Board granted a ten-year extension of term, which expired on October 24, 2012; and

WHEREAS, the applicant now requests an additional extension of term; and

WHEREAS, the applicant submitted a photograph of the sign posted onsite, which states building residents' right to recapture the surplus parking spaces; and

WHEREAS, based upon its review of the record, the Board finds that the requested extension of term is appropriate with certain conditions set forth below.

Therefore it is Resolved that the Board of Standards and Appeals *reopens* and *amends* the resolution having been adopted on October 24, 1961, so that, as amended, this portion of the resolution shall read: "to permit an extension of term for an additional 10 years from the expiration of the prior grant, to expire on October 24, 2022; *on condition* that the use and operation of the site shall substantially conform to the previously approved plans and that all work shall substantially conform to drawings filed with this application and marked 'Received June 18, 2012-(2) sheets and 'December 31, 2013'-(1) sheet; and *on further condition*:

THAT this term will expire on October 24, 2022;

THAT a sign stating that the spaces devoted to transient parking can be recaptured by residential tenants on 30 days' notice to the owner be located in a conspicuous place within the garage, permanently affixed to the wall;

THAT the above conditions and all relevant conditions from the prior resolutions will appear on the certificate of occupancy;

THAT the layout of the parking lot shall be as approved by the Department of Buildings;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted."
(DOB Application No. 100493814)

Adopted by the Board of Standards and Appeals, January 15, 2013.

135-01-BZ
APPLICANT – Rothkrug Rothkrug & Spector, LLP, for Go Go Leasing Corp., owner.
SUBJECT – Application November 29, 2011 – Extension of Term (§11-411) of an approved variance which permitted a high speed auto laundry (UG 16B) which expired on October 30, 2011; Extension of Time to obtain a Certificate of Occupancy which expired on October 30, 2002; Waiver of the Rules. C1-2(R5) zoning district.
PREMISES AFFECTED – 1815/17 86th Street, 78'-8.3"northwest 86th Street and New Utrecht Avenue, Block 6344, Lot 69, Borough of Brooklyn.
COMMUNITY BOARD #11BK
ACTION OF THE BOARD – Application granted on condition.
THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5
Negative:.....0
THE RESOLUTION –

WHEREAS, this is an application for a reopening, an extension of term, and an extension of time to obtain a certificate of occupancy for a high speed auto laundry (Use Group 16), which expired on October 30, 2011; and

WHEREAS, a public hearing was held on this application on February 7, 2012, after due notice by publication in *The City Record*, with continued hearings on May 1, 2012 and June 5, 2012, and then to decision on January 15, 2013; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 11, Brooklyn, recommends approval of this application; and

WHEREAS, the site is an irregularly-shaped through lot with 71.3 feet of frontage on the west side of New Utrecht Avenue and 42.25 feet of frontage on the north side of 86th Street, within a C1-2 (R5) zoning district; and

WHEREAS, the Board has exercised jurisdiction over the subject site since April 30, 1957 when, under BSA Cal. No. 318-56-BZ, the Board granted a variance to permit the construction of a high speed auto laundry, for a term of ten years; and

WHEREAS, subsequently, the grant was amended and the term extended at various times, until its expiration on October 25, 1997; and

WHEREAS, on October 30, 2001, under the subject calendar number, the Board granted an application under ZR § 11-411 to re-establish the expired variance for a high speed auto laundry, for a term of ten years, which expired on October 30, 2011; and

WHEREAS, a condition of the grant was that a certificate of occupancy be obtained by October 30, 2002; and

WHEREAS, the applicant now seeks an additional extension of the term and extension of time to obtain a certificate of occupancy; and

WHEREAS, pursuant to ZR § 11-411, the Board may permit an extension of term; and

WHEREAS, at hearing, the Board raised concerns about the canopy on the building, which was not reflected on the previously-approved plans, and questioned whether the signage on the site was in compliance with C1 district regulations; and

WHEREAS, in response, the applicant submitted a photograph from October 9, 2000 which reflects that the canopy on the building has been in place since the previous approval and that its omission on the previously-approved plans was an oversight; and

WHEREAS, the applicant also submitted photographs reflecting that the signage that exceeded the C1 surface area requirements has been removed, and states that the site will comply with C1 district signage regulations; and

WHEREAS, based upon its review of the record, the Board finds that the requested extension of term and extension of time are appropriate with certain conditions as set forth below.

Therefore it is Resolved that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated October 30, 2001, so that as amended this portion of the resolution shall read: "to extend the term for a period of ten years from October 30, 2011, to expire on October 30, 2021; *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked 'Received May 31, 2012'-(1) sheet; and *on further condition*:

THAT the term of this grant will expire on October 30, 2021;

THAT the signage on the site will comply with C1 district regulations;

THAT the above conditions will appear on the certificate of occupancy;

THAT a new certificate of occupancy will be obtained by January 15, 2014;

THAT all conditions from the prior resolution not specifically waived by the Board remain in effect; and

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted."
(Alt. No. 535)

Adopted by the Board of Standards and Appeals, January 15, 2013.

551-37-BZ
APPLICANT – Eric Palatnik, P.C., for Manocher M. Mehrfar, owner.
SUBJECT – Application October 12, 2012 – Extension of Term (§11-411) of approved variance for the continued operation of an automobile repair shop (*Red's Auto Repair*) which expired on July 15, 2012; Waiver of the Rules. R1-2 zoning district.
PREMISES AFFECTED – 233-02 Northern Boulevard, between 234th and 233rd Street, Block 8166, Lot 20, Borough of Queens.
COMMUNITY BOARD #11Q

ACTION OF THE BOARD – Laid over to February 12, 2013, at 10 A.M., for continued hearing.

APPEALS CALENDAR

85-12-A
APPLICANT – Fried Frank by Richard G. Leland, Esq., for Take Two Outdoor Media LLC c/o Van Wagner Communication LLC.
OWNER OF PREMISES – G.A.L. Manufacturing Company
SUBJECT – Application April 6, 2012 – Appeal from determination of the Department of Buildings regarding right to maintain existing advertising signs. M1-1 zoning district.
PREMISES AFFECTED – 50 East 153rd Street, bounded by Metro North and the Metro North Station; an off ramp to the Major Deegan Expressway, E. 157th Street, E. 153rd Street and the Bronx Terminal Market, Block 2539, Lot 132, Borough of Bronx.
COMMUNITY BOARD #4BX
ACTION OF THE BOARD – Appeal Denied.
THE VOTE TO GRANT –
Affirmative: 0
Negative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5
THE RESOLUTION –

WHEREAS, the subject appeal comes before the Board in response to a Notice of Sign Registration Rejection letter from the Bronx Borough Commissioner of the Department of Buildings ("DOB"), dated March 7, 2012, denying registration for a sign at the subject site (the "Final Determination"), which reads, in pertinent part:

> The Department of Buildings is in receipt of additional documentation submitted in response to the Deficiency Letter from the Signs Enforcement Unit and in connection with the application for registration of the above-referenced sign. Unfortunately, we find this documentation inadequate to support the registration of the sign and, as such, the sign is rejected from registration. This sign will be subject to enforcement action 30 days from the issuance of this letter; and

WHEREAS a public hearing was held on this application on November 27, 2012, after due notice by publication in *The City Record*, and then to decision on January 15, 2013; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by Commissioner Ottley-Brown; and

WHEREAS, the subject site is located on East 153rd Street, on the block bounded by Metro North railroad tracks/the Metro North East 153rd Street Station to the west, Exit 5 off-ramp from the Major Deegan Expressway to the northwest, East 157th Street to the northeast, East 153rd Street to the east, and the Bronx Terminal Market to the south, within an M1-1 zoning district; and

WHEREAS, the subject sign (the "Sign") is a south-facing advertising sign measuring 14 feet by 48 feet (672 sq. ft.) posted on a pylon approximately 57'-9" in height; and

WHEREAS, the Sign is located 128 feet from the Major Deegan Expressway and approximately 850 feet from the United States Bulkhead Line running along the Bronx shoreline of the Harlem River (the "Bulkhead Line"); and

WHEREAS, the Sign was installed pursuant to permits issued by DOB on August 10, 2004 under Application Nos. 200867507-01-SG and 200867062-01-AL for an "indirectly illuminated advertising sign"; and

WHEREAS, this appeal is brought on behalf of the owner of the sign structure (the "Appellant"); and

WHEREAS, the Appellant seeks a reversal of DOB's rejection of its sign registration based on the fact that (1) the Sign lies within one-half mile of a boundary of the City of New York and is a permitted advertising sign pursuant to ZR § 42-55(d); (2) DOB's failure to accept the Appellant's evidence reflects an arbitrary change in its application of the Zoning Resolution provisions under which DOB originally granted a permit for the Sign; and (3) DOB's issuance of permits for the Sign in 2004, without more, constitutes sufficient proof of legal establishment for DOB to accept the Sign for registration; and

WHEREAS, DOB appeared and made submissions in opposition to this appeal; and

REGISTRATION REQUIREMENT

WHEREAS, the Board notes that under Local Law 31 of 2005, the New York City Council enacted certain amendments to existing regulations governing outdoor advertising signs; and

WHEREAS, the amendments are codified under Articles 501, 502, and 503 of the 2008 Building Code and were enacted to provide DOB with a means of enforcing the sign laws where signs had been erected and were being maintained without a valid permit; and

WHEREAS, pursuant to Article 502 (specifically, Building Code § 28-502.4), an outdoor advertising company is required to submit to DOB an inventory of:

> all signs, sign structures and sign locations located (i) within a distance of 900 linear feet (274 m) from and within view of an arterial highway; or (ii) within a distance of 200 linear feet [60.96 m] from and within view of a public park with an area of ½ acre (5000 m) or more; and

WHEREAS, further, Local Law 31 authorized the Commissioner of DOB to promulgate rules establishing permitting requirements for certain signs; the DOB rules, enacted under Rule 49, provide specific procedures for registration of advertising signs; Rule 49-15(5) reads in pertinent part:

> Each sign shall be identified as either "advertising" or "non-advertising." To the extent a sign is a non-conforming sign, it must further be identified as "non-conforming advertising" or "non-conforming non-advertising." A sign identified as "non-conforming advertising" or "non-conforming non-advertising" shall be submitted to the Department for confirmation of its non-conforming status, pursuant to section 49-16 of this chapter; and

WHEREAS, subchapter B of Rule 49 (Registration of Outdoor Advertising Companies), (specifically, Rule 49-15(d)(15)(b)), sets forth the acceptable forms of evidence to establish the size and the existence of a non-conforming sign on the relevant date set forth in the Zoning Resolution; and

WHEREAS, the acceptable forms of evidence set forth at Rule 49 are, in pertinent part as follows:

> Acceptable evidence may include permits, sign-offs of applications after completion, photographs and leases demonstrating that the non-conforming use existed prior to the relevant date; and

WHEREAS, a DOB guidance document sets forth the instructions for filing under Rule 49 and asserts that any one of the following documents would be acceptable evidence for sign registration pursuant to Rule 49: (1) DOB –issued permit for sign erection; (2) DOB-approved application for sign erection; (3) DOB dockets/permit book indicating sign permit approval; and (4) publicly catalogued photograph from a source such as NYC Department of Finance, New York Public Library, Office of Metropolitan History, or New York State Archives; and

REGISTRATION PROCESS

WHEREAS, the Appellant states that on September 1, 2009, pursuant to the requirements of Article 502 and Rule 49 with respect to signs within 900 feet of arterial highways, it submitted an inventory of outdoor signs under its control and a Sign Registration Application for the Sign and completed an OAC3 Outdoor Advertising Company Sign Profile, attaching the following documentation: (1) a diagram of the Sign; (2) photographs of the Signs; and (3) Permit Nos. 200867507-01-SG, 200867062-01-AL, issued August 10, 2004; (4) an approved application drawing with DOB audit stamp dated October 6, 2004; and (5) letters of completion from DOB, dated May 17 and 23, 2005; and

WHEREAS, on October 3, 2011, DOB issued two Notices of Sign Registration Deficiency, stating that it is unable to accept the Signs for registration due to "[f]ailure to provide proof of legal establishment Permit No. 200867507 is for ½ mile boundary sign;" and

WHEREAS, by letter, dated December 13, 2011 the Appellant submitted a response to DOB, stating that the Sign is located within a half-mile of a boundary of the City of New York and meets the criteria of ZR § 42-55(d), which allows advertising signs along certain designated arterial highways; the Appellant also noted that DOB had audited the file in 2004 and had verified that the permit was properly issued; and

WHEREAS, by letter, dated March 7, 2012, DOB issued the determination which forms the basis of the appeal; and

RELEVANT STATUTORY PROVISIONS

> ZR § 42-55
> Additional Regulations for Signs Near Certain Parks and
> Designated Arterial Highways

M1 M2 M3
In all districts, as indicated, the provisions of paragraphs (a), (b) and (c), or paragraph (d), of this Section, shall apply for #signs# near designated arterial highways or certain #public parks#.
(a) Within 200 feet of an arterial highway or a #public park# with an area of one-half acre or more, #signs# that are within view of such arterial highway or #public park# shall be subject to the following provisions:
(1) no permitted #sign# shall exceed 500 square feet of #surface area#; and
(2) no #advertising sign# shall be allowed; nor shall an existing #advertising sign# be structurally altered, relocated or reconstructed.
(b) Beyond 200 feet from such arterial highway or #public park#, the #surface area# of such #signs# may be increased one square foot for each linear foot such sign is located from the arterial highway or #public park#.
(c) The more restrictive of the following shall apply:
(1) any #advertising sign# erected, structurally altered, relocated or reconstructed prior to June 1, 1968, within 660 feet of the nearest edge of the right-of-way of an arterial highway, whose message is visible from such arterial highway, shall have legal #non-conforming use# status pursuant to Section 52-83 (Non-Conforming Advertising Signs), to the extent of its size existing on May 31, 1968; or
(2) any #advertising sign# erected, structurally altered, relocated or reconstructed between June 1, 1968, and November 1, 1979, within 660 feet of the nearest edge of the right-of-way of an arterial highway, whose message is visible from such arterial highway, and whose size does not exceed 1,200 square feet in #surface area# on its face, 30 feet in height and 60 feet in length, shall have legal #non-conforming use# status pursuant to Section 52-83, to the extent of its size existing on November 1, 1979. All #advertising signs# not in conformance with the standards set forth herein shall terminate.
(d) Within one-half mile of any boundary of the City of New York, permitted signs and advertising signs may be located along any designated arterial highway . . . that crosses a boundary of the City of New York, without regard to the provisions of paragraphs (a), (b) and (c) of this Section, provided any such permitted or advertising sign otherwise conforms to the regulations of this Chapter including, with respect to an advertising sign, a location not less than 500 feet from any other advertising sign, except that, in the case of any such permitted or advertising sign erected prior to August 7, 2000, such sign shall have non-conforming use status pursuant to Sections 52-82 . .

* * *

Building Code § 28-502.4 – Reporting Requirement
An outdoor advertising company shall provide the department with a list with the location of signs, sign structures and sign locations under the control of such outdoor advertising company in accordance with the following provisions:
(1)The list shall include all signs, sign structures and sign locations located (i) within a distance of 900 linear feet (274 m) from and within view of an arterial highway; or (ii) within a distance of 200 linear feet (60 960 mm) from and within view of a public park with an area of ½ acre (5000 m) or more…

* * *

RCNY § 49-15 – Sign Inventory to be Submitted with Registration Application
…(d)(5) Each sign shall be identified as either "advertising" or "non-advertising." To the extent a sign is a non-conforming sign, it must further be identified as "non-conforming advertising" or "non-conforming non-advertising." A sign identified as "non-conforming advertising" or "non-conforming non-advertising" shall be submitted to the Department for confirmation of its non-conforming status, pursuant to section 49-16 of this chapter.

* * *

RCNY § 49-43 – Advertising Signs
Absent evidence that revenue from the sign is clearly incidental to the revenue generated from the use on the zoning lot to which it directs attention, the following signs are deemed to be advertising signs for the purposes of compliance with the Zoning Resolution:
(a) Signs that direct attention to a business on the zoning lot that is primarily operating a storage or warehouse use for business activities conducted off the zoning lot, and that storage or warehouse use occupies less than the full building on the zoning lot; or
(b) All signs, other than non-commercial, larger than 200 square feet, unless it is apparent from the copy and/or depictions on the sign that it is used to direct the attention of vehicular and pedestrian traffic to the business on the zoning lot; and

THE APPELLANT'S POSITION

WHEREAS, the Appellant contends that the Final Determination should be reversed because (1) the Sign is legal pursuant to ZR § 42-55(d); (2) DOB's rejection of the Sign is an arbitrary and capricious departure from its prior

approval; and (3) DOB's permit issuance constitutes sufficient proof of legal establishment; and

A. The Sign is Legal Pursuant to ZR § 42-55(d)

WHEREAS, the Appellant asserts that advertising signs are permitted within 200 feet of an arterial highway pursuant to the following criteria of ZR § 42-55(d); and

(1) The advertising sign must be located within one-half mile from a boundary of the City of New York

WHEREAS, the Appellant cites to the permit application that was approved by DOB, on the basis that the Sign is within a half-mile of the Bulkhead Line, which is a "boundary of the City of New York;" and

WHEREAS, the Appellant notes that the issue is whether ZR § 42-55(d) includes as a boundary of the City of New York the jurisdictional boundary along the Bulkhead Line, separating the City of New York from the navigable waters under federal and/or state jurisdiction; and

WHEREAS, the Appellant asserts that "any" boundary includes the boundary created along the Bulkhead Line and therefore, ZR § 42-55(d) allows the Sign to remain; and

WHEREAS, the Appellant asserts that a plain language reading of ZR § 42-55(d) supports the conclusion that the Bulkhead Line is a "boundary of the City of New York;" and

WHEREAS, the Appellant asserts that the phrase "any boundary of the City of New York" is broad and that a boundary is something that indicates a limit; and

WHEREAS, further, the Appellant states that the Bulkhead Line delineates waters within federal and/or state jurisdiction, from those pertaining to the City; limits the City's jurisdiction; and creates a boundary of the City of New York; and

WHEREAS, the Appellant asserts that since DOB has not disputed that the Bulkhead Line is a boundary line, the Board should conclude that there exists along the East River a boundary of the City of New York for the purposes of ZR § 42-55(d); and

WHEREAS, the Appellant asserts that if it were intended that this provision of the Zoning Resolution allows advertising signs only within a one-half mile of a particular boundary, then the Zoning Resolution should state which boundary; for instance, the Zoning Resolution could have been written to limit advertising signs to one-half mile of a county or state boundary; and

WHEREAS, the Appellant cites to the Court of Appeals' decision in Raritan Development Corp. v. Silva, 91 N.Y.2d 98, 100 (N.Y. 1997) for the point that where the Board's interpretation of the Zoning Resolution conflicts with the plain statutory language, it may not be sustained and unintended consequences of overly broad provisions should be resolved by the legislature; and

WHEREAS, additionally, the Appellant asserts that its reading of "any boundary" at ZR § 42-55(d) would not create an expansive exception to the general prohibition on advertising signs along arterial highways, but applies only to a small subset of highways; and

WHEREAS, specifically, the Appellant notes that the arterial highway at issue must also be a "principal route" or "toll crossing" that prohibits direct vehicular access to abutting land and provides complete separation of conflicting traffic flows (ZR § 42-55(d)(1)), which excludes, for example, the West Side Highway; and

WHEREAS, the Appellant asserts that if the arterial highway in question must also be a through truck route designated by DOT (ZR § 42-55(d)(2)) and it must cross a boundary of the City of New York (ZR § 42-55(d)(3)), the applicability of the provision is limited to a narrow set of routes, which includes the Major Deegan Expressway; and

(2) The advertising sign must be located along a designated arterial highway that meets the criteria of ZR §§ 42-55(d)(1), (d)(2), and (d)(3)

WHEREAS, the Appellant asserts that the Major Deegan Expressway is listed as a designated arterial highway in Appendix H of the Zoning Resolution, a condition which satisfies the second requirement of ZR § 42-55(d); and

WHEREAS, further, the Appellant states that in accordance with requirements of ZR § 42-55(d), the Major Deegan Expressway (1) is a principal route that prohibits direct access to abutting land and provides complete separation of traffic flows, (2) is a through truck route designated by DOT, and (3) crosses a boundary of the City of New York (into Westchester County); and

(3) The advertising sign must be located not less than 500 feet from any other advertising sign

WHEREAS, the Appellant represents that there are not any advertising signs within 500 feet of the Sign and, thus, ZR § 42-55(d)(3) is not in dispute; and

WHEREAS, accordingly, since all the conditions of ZR § 42-55(d) are met, the Appellant asserts that the evidence presented to DOB shows that the Sign is a permitted advertising sign and must be granted

B. DOB May Not Reverse its Prior Determination

WHEREAS, the Appellant asserts that DOB has inexplicably reversed its prior interpretation of the law under which it approved the Sign pursuant to ZR § 42-55(d) in 2004 and a failure to accept the Sign for registration as a conforming advertising sign is an arbitrary and capricious reversal of its prior decision; and

WHEREAS, the Appellant states that following the issuance of the permits, but prior to completion of the work, DOB audited Application No. 200867507-01-SG for compliance with applicable regulations; the audit included review and approval of a drawing dated May 21, 2004 and included: a diagram of the Sign, an area map showing the Sign's location 128 feet from the Major Deegan Expressway and 850 feet from the Harlem River; a note that the "Sign is within 0.5 miles from boundary of the City of New York," and a note that "there is no other sign within 500' from the proposed sign per Section 42-55(d);" and

WHEREAS, the Appellant states that DOB stamped the drawing as part of an audited folder and signed off on

the drawing and application as being accepted; on May 15, 2005 and May 23, 2005, the Bronx Borough Commissioner issued letters of completion for each of the applications; and

WHEREAS, the Appellant represents that the Sign has been in continuous use as an advertising sign since the issuance of the letters of completion through the present time; and

WHEREAS, the Appellant finds that the Final Determination is in direct contravention of DOB's prior approvals, without setting forth any basis or justification for the reversal of position; and

WHEREAS, the Appellant adds that the location of the Sign has not changed since DOB's 2004 approvals and DOB's audit and approval of a drawing that clearly indicates the Bulkhead Line in proximity to the Subject Sign, reflecting DOB's acceptance that such boundary line falls within the meaning of "any boundary of the City of New York" under ZR § 42-55(d); and

WHEREAS, the Appellant asserts that DOB reviewed and approved the file based on a reasonable interpretation of the plain meaning of the Zoning Resolution and it cannot now deny Appellant's registration based on a contrary reading; and

WHEREAS, the Appellant states that as a matter of public policy, property owners must be able to rely on DOB's actions interpreting the Zoning Resolution; and

C. DOB's Permit Issuance

WHEREAS, the Appellant asserts that DOB's issuance of permits for the Sign, without more, constitutes sufficient proof of legal establishment for DOB to accept the Sign for registration; and

WHEREAS, specifically, the Appellant states that in 2004, DOB issued permits for the Sign, which were upheld following an audit; and

WHEREAS, the Appellant asserts that DOB had the opportunity to evaluate the legality of the Sign at that time and, absent a rejection, the Appellant reasonably relied on DOB's determination, built the Sign and has continued to make substantial investments in the Sign including investments in repairs and maintenance along with the marketing costs involved in placing advertisements; and

WHEREAS, the Appellant states that for eight years, it has continued to invest in the Sign in reliance on DOB's previous determination that the Sign was legal under applicable laws; and

WHEREAS, the Appellant notes that the laws have not changed since 2004 when DOB determined that the Sign was legal; and

WHEREAS, the Appellant asserts that as a matter of public policy, DOB cannot now be allowed to change its position on the legality of the Sign to the detriment of Appellant's business; and

WHEREAS, accordingly, the Appellant asserts that the permits are sufficient proof of legal establishment for the Sign to be registered; and

WHEREAS, further, the Appellant cites to Rule 49 for the provision that no requirement for the submission of documentation to substantiate the legality of a "conforming" sign is required and that the request for substantiating information is overreaching the enforcement authority granted to DOB under Local Law 31 and Rule 49; and

WHEREAS, the Appellant represents that it has relied in good faith on DOB's approval of the Sign, has made investments in maintaining and marketing in reliance on the approvals, and equity does not allow DOB to revise its prior approvals and require the removal of the Sign; and

DOB'S POSITION

WHEREAS, DOB states that it rejected the Sign Registration Application because (1) the Appellant has failed to establish that the Sign is within one-half mile of the boundary of the City of New York and (2) the permit was issued in error; and

WHEREAS, DOB asserts that since the Sign is not within one-half mile of the City boundary, ZR § 42-55(d) is not applicable, and review of the three ZR § 42-55(d) criteria is not warranted; and

WHEREAS, DOB contends that the permit was issued in error and it cannot be estopped from correcting its error; and

WHEREAS, DOB notes that it has not yet revoked the permit, but it has determined that the Sign is not lawful because, contrary to Appellant's argument, it is not located within one-half mile of the boundary of the City of New York City; and

A. The United States Bulkhead Line is Not a Boundary of the City of New York

WHEREAS, specifically, DOB states that contrary to the Appellant's assertion, the Bulkhead Line along the Harlem River, as shown on Zoning Resolution Map 6a, is not a City boundary; and

WHEREAS, DOB finds that while the Harlem River does create a boundary between the boroughs of Manhattan and the Bronx, it does not create a City boundary; and

WHEREAS, DOB states that the boundaries of the City are found in the Administrative Code ("AC") and per AC § 2–201, the City contains "all that territory within the boroughs;" and

WHEREAS, further, DOB asserts that AC § 2-202, is titled "Division into boroughs and boundaries thereof" and the border of the Bronx is specifically described as the area "bounded on the west by the borough of Manhattan and county of New York….;" and

WHEREAS, DOB states that the AC delineates the Bulkhead Line as a borough boundary and thus a City boundary at some locations (in the Long Island Sound for example), but this is not the case for the Bulkhead Line near the site; and

WHEREAS, DOB concludes that at the subject site, the borough of Manhattan is the western boundary of the borough of the Bronx and since the City includes all that is "contained within the boroughs" and the borough of the Bronx abuts the borough of Manhattan, there is no gap between Manhattan and the Bronx where a City boundary could possibly exist; and

WHEREAS, DOB states that therefore, the Bulkhead Line is not a City boundary at this location, and the Sign is not located within one-half mile of a boundary of the City of New York; and

B. The Purpose of the Bulkhead Line

WHEREAS, DOB asserts that the Bulkhead Line merely represents the farthest offshore line to which a structure may be constructed without interfering with navigation in the Harlem River; and

WHEREAS, DOB cites to People v. Delaware & Hudson Co., 107 N.E. 506, 507 [1914], in which the Court of Appeals declared that "[t]he bulkhead line…determines the point beyond which wharves, docks, and piers cannot be lawfully erected, and it fixes the boundaries to be devoted to navigable channel;" and

WHEREAS, further DOB cites to the Department of City Planning's (DCP) Zoning Handbook which states that the "bulkhead line is a line shown on zoning maps which divides the upland and seaward portions of waterfront zoning lots" and the "pierhead line is a line shown on the zoning maps which defines the outermost seaward boundary of the area regulated by the ZR;" and

WHEREAS, accordingly, DOB concludes that unless specifically designated as a City boundary in the Code, the Bulkhead Line solely affects the interplay between waterfront property rights and the rights to navigable water; the intent of the Bulkhead Line is to balance such property owners' rights to water areas with the right of the general population's right to use such body of water for commercial or recreational purposes; and

WHEREAS, DOB adds that acceptance of the Bulkhead Line between Manhattan and the Bronx as a City boundary would lead to absurd results; and

WHEREAS, for example, DOB states that such an interpretation would permit advertising signs along the entire portion of the Major Deegan Expressway bounded by the Harlem River; and

WHEREAS, DOB asserts that an expansive interpretation which would allow for dozens more signs within 200 feet of this arterial is contrary to the intent of the Zoning Resolution provision, which was to "aid New York City outdoor advertisers in maintaining a competitive equality with advertisers that operate immediately outside of the City's boarders [sic]." Clear Channel v. City of New York, 608 F.Supp.2d 477, 491 (2010); and

WHEREAS, DOB concludes that the subject site not only fails to meet the criteria set forth at ZR § 42-55(d), it also fails to serve the purposes and intent of that section; and

WHEREAS, further, DOB states that there are several bridges that connect Manhattan and the Bronx by crossing the Harlem River and are identified as part of the local street network and that following Appellant's arguments, these bridges would exit and reenter the City along their courses, which is contrary to DOT's description of local streets (which cannot traverse City boundaries); and

WHEREAS, finally, DOB states that if the Harlem River bridges cross City boundaries as the Appellant's logic suggests, the middle spans of these bridges, from bulkhead line to bulkhead line, would be considered locations outside the boundaries of the City of New York, but not located in any other municipality; and

WHEREAS, thus, DOB contends, the middle span of such bridges would not be maintained because they would be outside the jurisdiction of the DOT, which only has jurisdiction over bridges and roadways within the City and such portions of the bridge would be outside the jurisdiction of the New York City Police and Fire Departments responding to an accident on that portion of the bridge; and

CONCLUSION

WHEREAS, the Board notes that the only interpretation that the Appellant and DOB debate is whether the Bulkhead Line is a boundary of the City of New York to satisfy ZR § 42-55(d); and

WHEREAS, the Board agrees with DOB that the Bulkhead Line is not a boundary of the City of New York as contemplated by ZR § 42-55(d) and thus the ZR § 42-55(d) exception does not apply to the Sign; and

WHEREAS, the Board agrees with DOB that the Administrative Code, at Section 2-201, et seq, clearly describes the boundaries of the City of New York as that which contains the territory of all the boroughs without exception and that the boundaries of the City are the outermost borders; and

WHEREAS, accordingly, the Board finds that a boundary of the City of New York means the boundary surrounding the entire City; a boundary of the City of New York can be distinguished from a boundary within the City of New York such as a borough, community district, or bulkhead or pierhead line; and

WHEREAS, the Board notes that there is a hierarchy of boundary lines related to the City, which includes zoning district boundary lines, boundary lines between boroughs and Community Board districts, boundary lines for legislative districting, and, ultimately boundary lines that separate the City from other counties/municipalities/states that are outside the City's jurisdiction; and

WHEREAS, the Board notes that the hierarchy of boundary lines allows different lines to serve different, sometimes overlapping, purposes, but that all boundaries are not relevant in all situations; and

WHEREAS, the Board finds that the Appellant's reading of "any boundary of the City of New York" is overly broad in including boundaries within the City, which are not boundaries of the City; and

WHEREAS, the Board notes that the Zoning Resolution only applies to the City of New York and its application is clearly limited by the boundary around the perimeter of the City, "the boundary of the City of New York"; and

WHEREAS, the Board notes that as per ZR § 11-16 (Pierhead Lines, Bulkhead Lines and Marginal Streets), the bulkhead lines on the zoning maps are the lines adopted by the United States Army Corps of Engineers and that such lines primarily relate to regulating waterfront uses; the

Board finds that the Bulkhead Line has no relevance to ZR § 42-55(d), except where a bulkhead line and the boundary of the City of New York are coincident; and

WHEREAS, the Board does not find that the Bulkhead Line in the Harlem River, 850 feet from the subject site has any bearing on the regulation of the Sign, particularly in light of the fact that, as DOB asserts, the purpose of the exception for signs within a half-mile of a boundary of the City of New York was to improve the market for signs within and near to City boundaries as compared to those just across the boundary into other jurisdictions outside of the City; no such concern was articulated for benefitting signs near to bulkhead lines, pierhead lines, or other kinds of boundaries within the City; and

WHEREAS, the Board finds that just because the Bulkhead Line is a boundary (as are zoning district boundary lines, legislative district lines, etc.) it does not mean that it is a boundary of the City of New York as contemplated by ZR § 42-55(d); and

WHEREAS, the Board finds that the plain meaning of "boundary of the City of New York" is clear, and that ZR § 42-55(d) contemplates those connected lines which form the perimeter of the City rather than the expansive list of boundaries within the City; the use of "any boundary" recognizes that the boundaries of the City of New York take multiple forms on land and in the water; and

WHEREAS, as to DOB's 2004 approval of the Sign, the Board notes that DOB concedes that it was erroneous and agrees that DOB has the authority to correct its error; and

WHEREAS, the Board distinguishes DOB's action to correct its error in the subject case from the facts in BSA Cal. Nos. 95-12-A and 96-12-A (2284 12th Avenue) in that in the subject case there is a clear meaning of "boundary of the City of New York," which was misapplied to the Bulkhead Line; and

WHEREAS, the Board finds that it is clear that DOB's auditor did not have the authority to deem the Bulkhead Line a boundary of the City of New York for satisfaction of ZR § 42-55(d); and

WHEREAS, the Board notes that, in contrast, in the 12th Avenue case, it determined that DOB had not established that a Borough Commissioner's reconsideration, based on an evaluation of the sufficiency of evidence within the context of a somewhat subjective analysis, had been in error; and

WHEREAS, the Board finds that DOB does not have the duty to explain, in the subject case, why the error was made in 2004 and why it accepted the Bulkhead Line as a boundary of the City of New York; the Board recognizes that, regardless of how the error occurred, DOB was clearly wrong in 2004 and has the authority to correct its error now; and

WHEREAS, the Board considers that the Appellant's survey associated with the 2004 audit may be the source of the error as it identified the Bulkhead Line as a boundary of the City, a mistake which DOB did not realize in 2004; and

WHEREAS, the Board declines to take a position on the fairness of DOB's rejection of the registration after erroneously issuing the 2004 permits, but it does note that the Appellant has enjoyed the benefit of the Sign pursuant to erroneously-issued permits since that time; and

WHEREAS, accordingly, the Board finds that DOB appropriately applied ZR § 42-55 to the Sign, which does not conform with zoning regulations; and

WHEREAS, therefore, the Board finds that DOB properly rejected the Appellant's registration of the Sign.

Therefore it is resolved that the subject appeal, seeking a reversal of the Final Determination of the Department of Buildings, dated March 7, 2012, is hereby denied.

Adopted by the Board of Standards and Appeals, January 15, 2013.

90-12-A

APPLICANT – Fried Frank by Richard G. Leland, Esq., for Van Wagner Communication LLC.

OWNER OF PREMISES – Robal Arlington Corporation.

SUBJECT – Application April 11, 2012 – Appeal from determination of the Department of Buildings regarding right to maintain existing advertising signs. M1-6 zoning district.

PREMISES AFFECTED – 111 Varick Street, between Broome and Dominick Street, Block 578, Lot 71, Borough of Manhattan.

COMMUNITY BOARD #2M

ACTION OF THE BOARD – Appeal Denied.

THE VOTE TO GRANT –

Affirmative: 0

Negative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5

THE RESOLUTION –

WHEREAS, the subject appeal comes before the Board in response to a Notice of Sign Registration Rejection letter from the Manhattan Borough Commissioner of the Department of Buildings ("DOB"), dated March 12, 2012, denying registration for a sign at the subject site (the "Final Determination"), which reads, in pertinent part:

> The Department of Buildings is in receipt of additional documentation submitted in response to the Deficiency Letter from the Signs Enforcement Unit. As evidence related to the sign points to its having been of various sizes, orientations, and even removed, the sign is rejected from registration. This sign will be subject to enforcement action 30 days from the issuance of this letter; and

WHEREAS a public hearing was held on this application on November 27, 2012, after due notice by publication in *The City Record*, and then to decision on January 15, 2013; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, and Commissioner Ottley-Brown; and

WHEREAS, the subject site is located at the northwest corner of Varick Street and Broome Street, within an M1-6 zoning district; and

WHEREAS, the site is occupied by a six-story parking garage (the "Building") with a 58'-0" high by 78'-3" wide sign located on the south wall of the Building (the "Sign"); and

WHEREAS, the Sign faces Broome Street and is located approximately 57'-0" from the northern boundary of the Holland Tunnel approaches, a designated arterial highway pursuant to Zoning Resolution Appendix H; and

WHEREAS, this appeal is brought on behalf of the owner of the sign structure (the "Appellant"); and

WHEREAS, DOB appeared and made submissions in opposition to this appeal; and

REGISTRATION REQUIREMENT

WHEREAS, the Appellant identifies the relevant statutory requirements related to sign registration in effect since 2005; and

WHEREAS, the Appellant states that under Local Law 31 of 2005, the New York City Council enacted certain amendments to existing regulations governing outdoor advertising signs; and

WHEREAS, the amendments are codified under Articles 501, 502, and 503 of the 2008 Building Code and were enacted to provide DOB with a means of enforcing the sign laws where signs had been erected and were being maintained without a valid permit; and

WHEREAS, pursuant to Article 502 (specifically, Building Code § 28-502.4), an outdoor advertising company is required to submit to DOB an inventory of:

> all signs, sign structures and sign locations located (i) within a distance of 900 linear feet (274 m) from and within view of an arterial highway; or (ii) within a distance of 200 linear feet [60.96 m] from and within view of a public park with an area of ½ acre (5000 m) or more; and

WHEREAS, further, Local Law 31 authorized the Commissioner of DOB to promulgate rules establishing permitting requirements for certain signs; the DOB rules, enacted under Rule 49, provide specific procedures for registration of advertising signs; Rule 49-15(5) reads in pertinent part:

> Each sign shall be identified as either "advertising" or "non-advertising." To the extent a sign is a non-conforming sign, it must further be identified as "non-conforming advertising" or "non-conforming non-advertising." A sign identified as "non-conforming advertising" or "non-conforming non-advertising" shall be submitted to the Department for confirmation of its non-conforming status, pursuant to section 49-16 of this chapter; and

WHEREAS, subchapter B of Rule 49 (Registration of Outdoor Advertising Companies), (specifically, Rule 49-15(d)(15)(b)), sets forth the acceptable forms of evidence to establish the size and the existence of a non-conforming sign on the relevant date set forth in the Zoning Resolution; and

WHEREAS, the Appellant asserts that the acceptable forms of evidence set forth at Rule 49 are, in pertinent, part as follows:

> Acceptable evidence may include permits, sign-offs of applications after completion, photographs and leases demonstrating that the non-conforming use existed prior to the relevant date; and

WHEREAS, the Appellant notes that affidavits are also listed as an acceptable form of evidence; and

REGISTRATION PROCESS

WHEREAS, the Appellant states that on April 4, 2011, pursuant to the requirements of Article 502 and Rule 49, it submitted a Sign Registration Application for the Sign and completed an OAC3 Outdoor Advertising Company Sign Profile, attaching the following documentation: (1) a diagram of the Sign; (2) photographs of the Sign; and (3) 1953 plans associated with BSA Cal. No. 796-53-A which showed an "advertising wall sign" taking up the second through sixth floors of the south wall of the building; and

WHEREAS, on September 12, 2011, DOB issued a Notice of Sign Registration Deficiency, stating that it is unable to accept the Sign for registration due to "Failure to provide proof of legal establishment;" and

WHEREAS, by letter, dated November 30, 2011, the Appellant submitted a response to DOB, referencing the previously-submitted evidence that the Sign has existed as an advertising sign since the 1920's, and providing three additional photographs in support of the establishment of the Sign; and

WHEREAS, by letter dated January 30, 2012, the Appellant submitted to DOB an affidavit from Donald Robinson, an employee of various outdoor advertising companies from 1959 until 1989, stating that there was an advertising wall sign on the Building from 1963 through 1989; and

WHEREAS, by letter, dated March 12, 2012, DOB issued the determination which forms the basis of the appeal, stating that "the sign is rejected from registration;" and

RELEVANT STATUTORY PROVISIONS

> ZR § 12-10 *Definitions*
>
> Sign
>
> A "sign" is any writing (including letter, word, or numeral), pictorial representation (including illustration or decoration), emblem (including device, symbol, or trademark), flag, (including banner or
>
> pennant), or any other figure of similar character, that:
>
> (a) Is a structure or any part thereof, or is attached to, painted on, or in any other manner represented on a #building or other structure#;
> (b) Is used to announce, direct attention to, or advertise; and
> (c) Is visible from outside a #building#. A #sign# shall include writing, representation or other

figures of similar character, within a #building#, only when illuminated and located in a window…

* * *

Sign, advertising

An "advertising sign" is a #sign# that directs attention to a business, profession, commodity, service or entertainment conducted, sold, or offered elsewhere than upon the same #zoning lot# and is not #accessory# to a #use# located on the #zoning lot#.

* * *

Non-conforming, or non-conformity

A "non-conforming" #use# is any lawful #use#, whether of a #building or other structure# or of a #zoning lot#, which does not conform to any one or more of the applicable #use# regulations of the district in which it is located, either on December 15, 1961 or as a result of any subsequent amendment thereto. . .

ZR § 42-55

Additional Regulations for Signs Near Certain Parks and Designated Arterial Highways

M1 M2 M3

In all districts, as indicated, the provisions of paragraphs (a), (b) and (c), or paragraph (d), of this Section, shall apply for #signs# near designated arterial highways or certain #public parks#.

(a) Within 200 feet of an arterial highway or a #public park# with an area of one-half acre or more, #signs# that are within view of such arterial highway or #public park# shall be subject to the following provisions:

(1) no permitted #sign# shall exceed 500 square feet of #surface area#; and

(2) no #advertising sign# shall be allowed; nor shall an existing #advertising sign# be structurally altered, relocated or reconstructed.

(b) Beyond 200 feet from such arterial highway or #public park#, the #surface area# of such #signs# may be increased one square foot for each linear foot such sign is located from the arterial highway or #public park#.

(c) The more restrictive of the following shall apply:

(1) any #advertising sign# erected, structurally altered, relocated or reconstructed prior to June 1, 1968, within 660 feet of the nearest edge of the right-of-way of an arterial highway, whose message is visible from such arterial highway, shall have legal #non-conforming use# status pursuant to Section 52-83 (Non-Conforming Advertising Signs), to the extent of its size existing on May 31, 1968; or

(2) any #advertising sign# erected, structurally altered, relocated or reconstructed between June 1, 1968, and November 1, 1979, within 660 feet of the nearest edge of the right-of-way of an arterial highway, whose message is visible from such arterial highway, and whose size does not exceed 1,200 square feet in #surface area# on its face, 30 feet in height and 60 feet in length, shall have legal #non-conforming use# status pursuant to Section 52-83, to the extent of its size existing on November 1, 1979. All #advertising signs# not in conformance with the standards set forth herein shall terminate.

* * *

ZR § 52-11 *Continuation of Non-Conforming Uses*

General Provisions

A #non-conforming use# may be continued, except as otherwise provided in this Chapter; and

* * *

ZR § 52-61 *Discontinuance*

General Provisions

If, for a continuous period of two years, either the #nonconforming use# of #land with minor improvements# is discontinued, or the active operation of substantially all the #non-conforming uses# in any #building or other structure# is discontinued, such land or #building or other structure# shall thereafter be used only for a conforming #use#. Intent to resume active operations shall not affect the foregoing . . . ; and

ZR § 52-83

Non-Conforming Advertising Signs

In all Manufacturing Districts, or in C1, C2, C4, C5-4, C6, C7 or C8 Districts, except as otherwise provided in Section…42-55, any non-conforming advertising sign except a flashing sign may be structurally altered, reconstructed, or replaced in the same location and position, provided that such structural alteration, reconstruction or replacement does not result in:

(a) The creation of a new non-conformity or an increase in the degree of non-conformity of such sign;

(b) An increase in the surface area of the sign; or

(c) An increase in the degree of illumination of such sign; and

* * *

Building Code § 28-502.4 – Reporting Requirement

An outdoor advertising company shall provide the department with a list with the location of signs, sign structures and sign locations under the control of such outdoor advertising company in accordance

with the following provisions:

(1) The list shall include all signs, sign structures and sign locations located (i) within a distance of 900 linear feet (274 m) from and within view of an arterial highway; or (ii) within a distance of 200 linear feet (60 960 mm) from and within view of a public park with an area of ½ acre (5000 m) or more…

* * *

RCNY § 49-15 – Sign Inventory to be Submitted with Registration Application

…(d)(5) Each sign shall be identified as either "advertising" or "non-advertising." To the extent a sign is a non-conforming sign, it must further be identified as "non-conforming advertising" or "non-conforming non-advertising." A sign identified as "non-conforming advertising" or "non-conforming non-advertising" shall be submitted to the Department for confirmation of its non-conforming status, pursuant to section 49-16 of this chapter.

* * *

RCNY § 49-16 – Non-conforming Signs

(a) With respect to each sign identified in the sign inventory as non-conforming, the registered architect or professional engineer shall request confirmation of its non-conforming status from the Department based on evidence submitted in the registration application. The Department shall review the evidence submitted and accept or deny the request within a reasonable period of time. A sign that has been identified as non-conforming on the initial registration application may remain erected unless and until the Department has issued a determination that it is not non-conforming…

* * *

RCNY § 49-43 – Advertising Signs

Absent evidence that revenue from the sign is clearly incidental to the revenue generated from the use on the zoning lot to which it directs attention, the following signs are deemed to be advertising signs for the purposes of compliance with the Zoning Resolution:

(a) Signs that direct attention to a business on the zoning lot that is primarily operating a storage or warehouse use for business activities conducted off the zoning lot, and that storage or warehouse use occupies less than the full building on the zoning lot; or

(b) All signs, other than non-commercial, larger than 200 square feet, unless it is apparent from the copy and/or depictions on the sign that it is used to direct the attention of vehicular and pedestrian traffic to the business on the zoning lot; and

THE APPELLANT'S POSITION

WHEREAS, the Appellant contends that the Final Determination should be reversed because (1) the Sign was established as an advertising sign prior to June 1, 1968, as required under ZR § 42-55, and may therefore be maintained as a legal non-conforming advertising sign pursuant to ZR § 52-11, and (2) the Sign has operated as an advertising sign with no discontinuance of two years or more since its establishment; and

WHEREAS, as to the establishment of the Sign prior to June 1, 1968, at the outset DOB states that it does not contest the Appellant's claim that the Sign existed on May 31, 1968; however, DOB asserts that the use was discontinued and must terminate per ZR § 52-61 because the wall was used to display artwork for a period of approximately ten years; and

WHEREAS, the Appellant contends that the art installation at the site from approximately 1979 to 1989 (the "Art Installation") constituted an "advertising sign" within the meaning of ZR § 12-10, and therefore the use of the Sign as an advertising sign was continuous during that time period; and

WHEREAS, the Appellant notes that ZR § 12-10 defines the term "sign" as follows:

> any writing (including letter, word, or numeral), pictorial representation (including illustration or decoration), emblem (including device, symbol, or trademark), flag, (including banner or pennant), or any other figure of similar character, that: (a) is a structure or any part thereof, or is attached to , painted on, or in any other manner represented on a #building or other structure#; (b) is used to announce, direct attention to, or advertise; and (c) is visible from outside a #building#; and

WHEREAS, the Appellant argues that the Art Installation met the ZR § 12-10 definition of a "sign," in that (1) it was a pictorial representation (including illustration or decoration), (2) it was attached to the Building; (3) it was used to direct attention to and advertise the artist Terry Fugate-Wilcox and his works; and (4) it was visible from outside the Building; and

WHEREAS, as to the requirement that a "sign" be "used to announce, direct attention to, or advertise," the Appellant asserts that as with any other type of business an artist must develop his or her brand in order to be successful in the marketplace, and that the Art Installation served to direct attention to the artist and his work by attracting attention to the Art Installation itself; and

WHEREAS, the Appellant argues that many other types of advertisements are similarly abstract and do not explicitly direct viewers to a particular location; the Appellant points to the example of advertisements for the chain-store Target, which often contain representation of the retailer's logo, building awareness of the brand but not necessarily displaying any particular products or directing viewers to any particular store; and

WHEREAS, the Appellant notes that ZR § 12-10 further defines an "advertising sign" as "a #sign# that directs attention to a business, profession, commodity, service or entertainment conducted, sold, or offered elsewhere than upon the same #zoning lot# and is not #accessory# to a use located on the #zoning lot#"; and

WHEREAS, the Appellant argues that the Art Installation "direct[ed] attention to a business, profession, commodity, service or entertainment" by directing attention to the artist and his work, which can be construed as a "business" (the business of creating artwork), a "profession" (being an artist), a "service" (providing commissioned works) or "entertainment" (the viewing and enjoyment of artwork); and

WHEREAS, the Appellant asserts that the fact that the artist was not paid for posting the Art Installation and that the work included his signature reflects that the Art Installation was posted as an opportunity to promote his brand and his work; and

WHEREAS, the Appellant contends that many other types of advertisements, such as the Target bullseye logo, are abstract representations that direct attention to a brand and do not explicitly direct viewers to a particular product or location; and

WHEREAS, the Appellant argues that the Art Installation also met the criteria that the business, profession, commodity, service or entertainment be "conducted, sold, or offered elsewhere than upon the same #zoning lot#" in that the work of the artist was not performed on the zoning lot and his other works were offered and sold elsewhere as well; and

WHEREAS, the Appellant argues that, based on the Board's decision in BSA Cal. Nos. 88-12-A and 89-12-A, it is not the intent but the effect of a sign that is relevant in reviewing the applicability of the Zoning Resolution, and the effect of posting the Art Installation in a high traffic area on a wall that had been used for advertising signs for more than 50 years was that the artist and his work received publicity because the Art Installation directed attention to the artist and his work; and

WHEREAS, the Appellant contends that the context and circumstances applicable to the Sign make it clear that the Art Installation was simultaneously used for artistic and advertising purposes; and

WHEREAS, specifically, the Appellant asserts that the Sign has a long history of use as an advertising sign from as early as the 1920's, the Art Installation was affixed in the exact same position and location as advertising signs that had been posted on the Building for six decades prior, and that it met all of the elements of the definition of a "sign," and based on this context the Art Installation may properly be construed as an advertising sign for the purposes of establishing a history of continuous use under the Zoning Resolution; and

WHEREAS, the Appellant acknowledges that not every public art installation qualifies as an advertising sign, but where an art installation is displayed in a space typically and historically used for advertising, is signed and identified with the name of the artist and takes the shape of an advertising billboard, context dictates that it should be considered an advertising sign; and

WHEREAS, the Appellant notes that DOB has previously issued Technical Policy and Procedure Notice ("TPPN") # 8/96 to establish DOB's policy that abstract architectural features of buildings are subject to sign regulations, and argues that DOB cannot consider certain abstract representations to be signs while denying other abstract representations constitute signs; and

DOB'S POSITION

WHEREAS, DOB states that it does not contest the Appellant's claim that the Sign existed prior to June 1, 1968; however, DOB asserts that during the time the building wall was used to display the Art Installation, the non-conforming advertising sign use was discontinued, and therefore the use must terminate pursuant to ZR § 52-61; and

WHEREAS, DOB states that pursuant to ZR § 12-10, a non-conforming "sign" must continue to be used to "announce, direct attention to or advertise," and a non-conforming "advertising sign" must continue to be used as a sign that "directs attention to a business, profession, commodity, service or entertainment conducted, sold, or offered elsewhere than upon the same zoning lot"; and

WHEREAS, DOB notes that the Wikipedia website states that the artist, Terry Fugate-Wilcox, was commissioned to create the Art Installation, identified as the "Holland Tunnel Wall," as an art piece; and

WHEREAS, DOB states that the webpage describes the artwork as a 60'-0" by 80'-0" billboard covered in layers of different colors of paint that would be revealed in patterns as the work weathered, and notes that the Art Installation was dismantled and the plywood panels were reclaimed by the artist as individual works of art; and

WHEREAS, DOB further states that a New York Times article dated August 7, 1981 titled "Outdoor-Sculpture Safari Around New York," describes the Art Installation as "sheets of plywood painted yellow" covering the façade; and

WHEREAS, DOB asserts that painted plywood, whether visible in solid colors or eroded into patterns, does not announce, direct attention to or advertise a business, profession, commodity, service or entertainment conducted, sold, or offered elsewhere than upon the same zoning lot, and therefore, does not constitute a "sign" or "advertising sign" pursuant to the ZR § 12-10 definitions of those terms; and

WHEREAS, DOB further asserts that the Art Installation is a creative expression that attracts attention to itself rather than directing attention to a use or product off the site, and therefore it lacks the message element of the ZR § 12-10 definition of "sign"; and

WHEREAS, DOB argues that murals similar to the Art Installation are displayed throughout the City and none are subject to the sign regulations of the Zoning Resolution; and

WHEREAS, DOB contends that, contrary to the Appellant's argument, the Art Installation cannot be compared with the Target bullseye logo because (1) the purpose of the Art Installation is to be art while the purpose of the logo is to promote Target products, (2) the Target bullseye design is a registered trademark of Target Brands, Inc., and is the distinctive symbol used to distinguish products from those of another manufacturer, and (3) there is no indication that the Art Installation was installed to reference the product of the artist, his studio, the source of the work, or the availability of his artwork for purchase; and

WHEREAS, as to the Appellant's argument that TPPN

8/96 supports the notion that abstract representations are signs and therefore the Art Installation should be recognized as a Sign, DOB asserts that TPPN # 8/96 incorrectly allowed the display of a corporate logo to be exempt from sign regulations if it could be treated as a "distinctive architectural feature", and it was rescinded on July 14, 1998 by TPPN # 6/98; and

WHEREAS, accordingly, DOB concludes that during the approximately ten years that the Art Installation was displayed, the non-conforming advertising sign use was discontinued and must be terminated pursuant to ZR § 52-61; therefore the sign registration application was properly denied because the sign is not entitled to non-conforming use status per ZR § 42-55; and

CONCLUSION

WHEREAS, the Board agrees with DOB that the non-conforming advertising sign use was discontinued during the approximately ten years that the Art Installation was displayed on the Building, and therefore the use must be terminated pursuant to ZR § 52-61; and

WHEREAS, the Board finds that the Art Installation, which consisted of sheets of plywood painted in layers of solid colors, did not meet the ZR § 12-10 definition of a "sign" or an "advertising sign" because it did not announce, direct attention to, or advertise a business, profession, commodity, service, or entertainment conducted, sold, or offered elsewhere than upon the same zoning lot; and

WHEREAS, the Board agrees with DOB that the Art Installation is a creative expression that attracts attention to itself rather than directing attention to a use or product off the site, and therefore it lacks the message element of the ZR § 12-10 definition of "sign"; and

WHEREAS, the Board finds that in order to satisfy the ZR § 12-10 definition of "sign" or "advertising sign," the sign must announce, direct attention to, or advertise something outside of the sign itself, and that interpreting the definition otherwise would lead to absurd results, as any object that is visible could be argued to direct attention to itself by the mere act of being seen; and

WHEREAS, the Board disagrees with the Appellant that the Art Installation is comparable to other types of abstract advertisements that do not explicitly direct viewers to a particular location, in that the Art Installation is not an advertisement and does not provide any information that would direct attention to products or uses found off the site; and

WHEREAS, the Board agrees with distinctions made by DOB between the Art Installation and the Target bullseye logo; and

WHEREAS, the Board disagrees with the Appellant that, merely because the artist was not paid for creating the Art Installation and because his signature was on the work, the purpose of the Art Installation was to promote the artist's business and his other work; rather, the Board finds the primary purpose of the Art Installation to be one of creative expression and aesthetic appreciation; and

WHEREAS, the Board finds the fact that the Art Installation is similar to many other murals displayed throughout the City, which DOB noted are not subject to the sign regulations of the Zoning Resolution, to be further evidence that an artist's signature is not sufficient to transform a piece of art into an advertising sign, since it is standard practice for artists to sign their work; and

WHEREAS, the Board disagrees with the Appellant's contention that context dictates that the Art Installation be construed as an advertising sign, and does not find the fact that the Art Installation was displayed in a space that was previously used for advertising or that it takes the shape of an advertising billboard to be relevant to the Board's determination; and

WHEREAS, the Board finds the Appellant's reliance on BSA Cal. Nos. 88-12-A and 89-12-A, for the proposition that the relevant consideration is not the intent of the sign but the effect of the sign, to be misplaced; and

WHEREAS, specifically, the Board notes that BSA Cal. Nos. 88-12-A and 89-12-A concerned an analysis of the meaning of "within view" in the context of whether the signs at issue were within view of an arterial highway pursuant to ZR § 42-55, and the Board's discussion of intent was limited to a determination that the intended audience of the signs was not relevant in determining whether the signs were "within view" of the arterial highway; the Board did not make a broad determination that the intent of a sign is never a relevant consideration; and

WHEREAS, notwithstanding the above, the Board finds that regardless of whether it reviews the Art Installation based on its intent or effect, it does not meet the ZR § 12-10 definition of an advertising sign; and

WHEREAS, therefore, the Board finds that the non-conforming advertising sign use was discontinued for more than two years and must be terminated pursuant to ZR § 52-61, and as such, DOB properly rejected the Appellant's registration of the Sign.

Therefore it is resolved that the subject appeal, seeking a reversal of the Final Determination of the Department of Buildings, dated March 12, 2012, is hereby denied.

Adopted by the Board of Standards and Appeals, January 15, 2013.

142-12-A

APPLICANT – Sheldon Lobel, P.C., for 108-59 Ditmas Boulevard, owner.

SUBJECT – Application May 3, 2012 – Amendment of a previously approved (BSA Cal No. 187-99-A) waiver of the General City Law Section 35 which permitted the construction of a two family dwelling in the bed of a mapped street (24th Avenue). The amendment seeks to construct a community facility building. R3-2 zoning district.

PREMISES AFFECTED – 24-02 89th Street, between Astoria Boulevard and 23rd Avenue, Block 1100, Lot 101, Borough of Queens.

COMMUNITY BOARD #3Q

ACTION OF THE BOARD – Application granted on

condition.
THE VOTE TO GRANT –
Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5
Negative:.....0
THE RESOLUTION –

WHEREAS, the decision of the Queens Borough Commissioner, dated September 21, 2012 acting on Department of Buildings Application No.420356741, reads:

> The proposed development at the premises is located partially within the bed of a mapped street, which is contrary to General City Law § 35. Refer to BSA for approval; and

WHEREAS, this is an application under General City Law ("GCL") § 35, to permit the construction of a two-story community facility building within the bed of 24th Avenue, a mapped but unbuilt street; and

WHEREAS, the proposed building will contain a house of worship and school uses; and

WHEREAS, a public hearing was held on this application on November 20, 2012, after due notice by publication in *The City Record*, with a continued hearing on December 12, 2012, and then to decision on January 15, 2013; and

WHEREAS, the subject site is located on the west side of 89th Street approximately 522 feet north of the intersection of 89th Street and Astoria Boulevard, within an R3-2 zoning district; and

WHEREAS, on May 2, 2000, under BSA Cal. No. 187-99-BZ, the Board granted a waiver under GCL § 35 to permit the construction of a two-family home at the site, within the bed of 24th Avenue; the applicant states that the approved home was never constructed; and

WHEREAS, the applicant notes that in 2008 the City Planning Commission ("CPC") and City Council approved an application seeking to eliminate, discontinue, and close a portion of 24th avenue located between 88th Street and 90th Place from the City Map (ULURP Application No. C060466MMQ), and that this application includes the portion of 24th Avenue that is mapped across the site; and

WHEREAS, the applicant states that despite the CPC and City Council approval, the post-ULURP steps necessary to effectuate the change to the City Map have not been completed, and therefore the applicant desires to continue with the instant GCL § 35 application to allow construction of the proposed community facility building to commence prior to finalizing the City Map change; and

WHEREAS, by letter dated October 2, 2012, the Fire Department states that it has no objections to the subject proposal; and

WHEREAS, by letter dated June 27, 2012, the Department of Environmental Protection states that it has no objection to the subject proposal; and

WHEREAS, by letter dated December 13, 2012, the Department of Transportation ("DOT") states that the improvement of 24th Avenue, which would involve the taking of a portion of the applicant's property, is not presently included in DOT's Capital Improvement Program, however, according to City records it appears that the lot was acquired from the City subject to a "Dollar Condemnation" recapture clause for the portion of the property lying in the street bed; and

WHEREAS, therefore, because the City has no plans to improve or widen the referenced street, the applicant requests that the Board approve the subject application to permit construction in the bed of the mapped but unbuilt street pursuant to GCL § 35; and

WHEREAS, accordingly, the Board has determined that the applicant has submitted adequate evidence to warrant this approval under certain conditions.

Therefore it is Resolved that the decision of the Queens Borough Commissioner, dated September 21, 2012, acting on Department of Buildings Application No. 420356741, is modified by the power vested in the Board by Section 35 of the General City Law, and that this appeal is granted, limited to the decision noted above; *on condition* that construction shall substantially conform to the drawing filed with the application marked "Received January 14, 2013" – (1) sheet; that the proposal shall comply with all applicable zoning district requirements; and that all other applicable laws, rules, and regulations shall be complied with; and *on further condition*:

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT DOB will review the proposed plans to ensure compliance with all relevant provisions of the Zoning Resolution;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted;

THAT the building be fully sprinklered as noted in the BSA approved plan; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals January 15, 2013.

THE RESOLUTION –

WHEREAS, the decision of the Bronx Borough Commissioner, dated July 11, 2011, acting on Department of Buildings Application No. 220069146, reads in pertinent part:

> ZR 24-382. Proposed rear yard equivalent or lack of one is contrary to the stated section of the code; and

WHEREAS, this is an application under ZR § 72-21, to permit the enlargement of an existing nursing home (Use Group 3), which does not comply with the required rear yard equivalent, contrary to ZR § 24-382; and

WHEREAS, a public hearing was held on this application on July 17, 2012, after due notice by publication in the *City Record*, with a continued hearing on December 11, 2012, and then to decision on January 15, 2013; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commissioner Hinkson, and Commissioner Ottley-Brown; and

WHEREAS, this application is brought on behalf of St. Patrick's Home for the Aged and Infirm ("St. Patrick's"), a not-for-profit institution; and

WHEREAS, Community Board 8, Bronx, recommends approval of this application; and

WHEREAS, the adjacent property owner to the south, represented by counsel, provided testimony at the hearing requesting (1) lighting be provided around the landscaping for security purposes, and (2) certain aesthetic improvements to the facade; and

WHEREAS, the site is an irregularly-shaped corner through lot located on the south side of Van Cortlandt Park South, the east side of Saxon Avenue, and the west side of Dickinson Avenue, within an R7-1 zoning district; and

WHEREAS, the site has 289 feet of frontage along Van Cortlandt Park South, 155 feet of frontage along Saxon Avenue, and 236 feet of frontage along Dickinson Avenue, and has a total lot area of 54,708 sq. ft.; and

WHEREAS, the site is currently occupied by two buildings: an eight-story Use Group 3 nursing home containing approximately 118,547 sq. ft. of floor area (the "Nursing Home"), and a seven story Use Group 3 convent containing approximately 14,472 sq. ft. of floor area; and

WHEREAS, the site is also occupied by a 38-space accessory parking lot for the Nursing Home; and

WHEREAS, the applicant states that the Nursing Home contains 264 beds, areas for physical and occupational therapy, a wellness center, recreation area, a chapel, gift shop, and a resident coffee shop; and

WHEREAS, the applicant proposes to construct a four-story structure in the area currently occupied by the accessory parking lot, which will include 104 self-parking spaces on three-levels, as well as space for storage, a recreation room, and an outdoor terrace (the "Proposed Facility"); and

WHEREAS, the Proposed Facility will have approximately 20,845 sq. ft. of floor area (0.3 FAR), increasing the total floor area on the site from 133,019 sq. ft. (2.5 FAR) to 153,864 sq. ft. (2.8 FAR) (the maximum permitted floor area for the site is 188,196 sq. ft. (3.44 FAR), and will provide a non-compliant 30'-0" rear yard equivalent; and

WHEREAS, the applicant states that the Proposed Facility will have direct connections to the Nursing Home and will have the following uses: (1) parking for 32 cars and storage space for St. Patrick's records and housekeeping on level one, which will align with the Nursing Home's basement level; (2) parking for 35 cars and no access to the Nursing Home on level two; (3) parking for 37 cars and storage for the Nursing Home on level three, which will align with the ground floor lobby level of the Nursing Home; and (4) a recreation room and an open space terrace on level four, which will align with the second floor of the Nursing Home; and

WHEREAS, the applicant states that construction of the Proposed Facility will also require a special permit from the City Planning Commission ("CPC") pursuant to ZR § 74-90, to permit the enlargement of an existing nursing home located within Community District 8 in the Bronx; the applicant notes that it has simultaneously filed the required application with CPC; and

WHEREAS, because the Proposed Facility does not comply with the rear yard equivalent requirement in the underlying R7-1 zoning district, the applicant requests the subject variance; and

WHEREAS, the applicant represents that the following are unique physical conditions inherent to the subject building and zoning lot, which create practical difficulties and unnecessary hardship in developing the site in strict conformance with underlying zoning regulations: (1) the programmatic needs of St. Patrick's; (2) the irregular shape of the lot; (3) the existence and configuration of the existing buildings on the lot; and (4) the inability of a complying facility to satisfy New York State Department of Health ("DOH") regulations; and

WHEREAS, the applicant states that the following are the programmatic needs of St. Patrick's which require the requested waiver: (1) locating the Proposed Facility on the same site as the Nursing Home; (2) improving the effectiveness of St. Patrick's employee recruitment and retention programs by creating a safe, secure, and convenient parking area; (3) providing a parking area for the family and visitors of the residents; (4) relocating the existing Physical Therapy Department ("PTD") into a larger area and providing additional space for the Occupational Therapy Department ("OTD"); (5) enhancing resident activities programs and creating the opportunity to broaden and upgrade the scope of other resident services; and (6) providing sufficient storage space for the Nursing Home; and

WHEREAS, as to the location of the Proposed Facility, the applicant states that St. Patrick's existing facilities have been located entirely on the site since 1931, and in order for St. Patrick's to satisfy its need of delivering quality resident services, improving the effectiveness of its employee recruitment and retention programs, as well as improving St. Patrick's competiveness as a destination of choice for individuals seeking skilled and rehabilitative care, the Proposed Facility must be located on the site; and

WHEREAS, as to the need to improve the employee recruitment and retention programs, the applicant states that St. Patrick's employs approximately 375 full- and part-time individuals, and that the existing 38-space accessory parking lot and the extremely limited supply of off-street parking in the surrounding neighborhood is insufficient to handle St. Patrick's current demand for employee parking; and

WHEREAS, the applicant represents that one of the defining factors in the recruitment and retention of high quality nursing home staff is the availability of safe and secure on-site parking or, in the alternative, safe, secure and easily accessible off-street parking, and the lack of adequate parking on the site has negatively impacted the success of its employee recruitment and retention programs; and

WHEREAS, the applicant states that St. Patrick's is not easily accessible from public transportation, as the closest subway station to the site is over a half-mile away, and although there is a nearby bus stop, certain employee shifts end and begin late at night and early in the morning; therefore, without adequate on-site parking, employees must wait for the bus during late night and early hours in this fairly remote area of the Bronx, potentially creating a dangerous condition; and

WHEREAS, in response to the Board's question whether stackers and attended parking could be provided to reduce the amount of space required to satisfy St. Patrick's parking needs, the applicant states that St. Patrick's employees work on three shifts (a day shift, night shift, and overnight shift) and during these shifts all the employees arrive and depart at approximately the same time, such that the use of stackers would disrupt the traffic flow and create congestion during the change of shifts and forcing employees to wait lengthy durations while their vehicle is being parked or removed from the Proposed Facility, which could further impact St. Patrick's employee recruitment and retention efforts; and

WHEREAS, the applicant represents that many of St. Patrick's approximately 260 residents receive visitors daily and the lack of on-site parking is frustrating and inconvenient to the visitors, a majority of whom do not live in the five boroughs of New York City, such that public transportation is not an option; and

WHEREAS, as to the need to relocate the PTD into a larger area and provide additional space for the OTD, the applicant states that doing so is necessary to deliver a wider range of modern, more sophisticated sub-acute physical therapy services and to provide additional space for the delivery of enhanced occupational therapy services allowing the Nursing Home the opportunity to more favorably address the ongoing needs of its residents; and

WHEREAS, specifically, the applicant states that the construction of the Proposed Facility, including the recreation room and open air terrace, will permit St. Patrick's to reallocate program space within the Nursing Home, and the PTD and OTD will be redesigned resulting in the delivery of improved services to the residents; and

WHEREAS, the applicant states that currently the PTD shares space with the OTD and the existing space is crowded and has limited maneuverability as well as storage areas for wheelchairs and other ambulation equipment; therefore the redesign and relocation of group activities to the new proposed rooftop terrace and recreation room will free up space for physical therapy activities and make the space accessible to residents utilizing wheelchairs; and

WHEREAS, the applicant further states that the relocation of the PTD will further enhance the usable space of the OTD and permit the improved delivery of occupational therapy services, and the enhanced scope of physical therapy and occupational therapy services will allow St. Patrick's to maintain a competitive operating profile necessary to ensure its ongoing operational viability and improve the general effectiveness of St. Patrick's on-site training and instruction programs; and

WHEREAS, as to the need for the proposed recreation room and open air terrace, the applicant states that the size and configuration of the Nursing Home has constrained St. Patrick's ability to optimize the range of care it can offer to its evolving resident population, and the Proposed Facility will include an approximately 10,186 sq. ft. recreation room and an approximately 7,137 sq. ft. open-air terrace for its residents, which will become the focal point of its enhanced resident activities program and create the opportunity to

broaden and upgrade the scope of other resident services; and

WHEREAS, the applicant states that, due to the volume of wheelchairs and other ambulation aids required by St. Patrick's typical resident population, there is a lack of adequate space in St. Patrick's existing building to accommodate a facility-wide event or planned activity and as a consequence, programs or events specifically designed to promote interaction and socialization within and among large resident groups are located in the main entrance creating a confined condition, or must be limited, and in some cases, simply set aside; and

WHEREAS, the applicant represents that the Proposed Facility will satisfy St. Patrick's need of improving its activities department by providing a variety of stimulating activities available to each and every resident on a personal, family or group basis, and the daily life of each of St. Patrick's residents will be enhanced by the availability of secure, accessible space in the recreation room and on the open-air terrace and will improve St. Patrick's outreach programs; and

WHEREAS, as to the Nursing Home's need for storage space, the applicant states that as St. Patrick's has evolved over the years, it has had to lease appropriate off-site space for record storage and the storage of various items of furniture and other seasonal items due to the lack of on-site storage; and

WHEREAS, the applicant represents that under these conditions, whenever a set of stored items has to be retrieved, and ultimately returned, St. Patrick's must employ additional labor, incur fees and address operational coordination, which results in St. Patrick's bypassing opportunities to purchase operating supplies and materials in lower-costing bulk quantities, due to the general lack of storage space; and

WHEREAS, the applicant states that the Proposed Facility will address this problem by providing a secure storage space on two levels, sufficient in size to allow St. Patrick's to retain materials currently stored off-site, and permit it to make cost-saving bulk purchases in the future; and

WHEREAS, the applicant represents that the programmatic needs cannot be accommodated within a complying development based on the unique conditions on the lot, including (1) the irregular shape of the lot and (2) the configuration of the existing building; and (3) the DOH regulations; and

WHEREAS, as to the irregular shape of the lot, the applicant states that the polygonal shape of the site creates a practical difficulty in constructing a compliant facility; and

WHEREAS, the applicant submitted a drawing reflecting that if the site consisted of a regularly-shaped lot the Proposed Facility could be located at the site while providing a compliant rear yard equivalent; and

WHEREAS, the applicant states that because the site is occupied by two existing buildings, the only location that the Proposed Facility can be located is the site of the existing parking lot, and the irregular shape of the lot combined with the configuration of the existing buildings precludes the construction of a complying facility that can satisfy St. Patrick's programmatic needs as well as the applicable DOH regulations; and

WHEREAS, as to the DOH regulations, the applicant states that it has analyzed a compliant design which satisfies its programmatic needs, however, such compliant design is contrary to DOH regulations as referenced in Title 10 of the New York Codes, Rules and Regulations ("NYCRR") § 713-3.4; and

WHEREAS, the applicant states that pursuant to NYCRR § 713-3.4, public resident spaces, such as the proposed recreation room and outdoor space, are not permitted to be accessed via nursing units; and

WHEREAS, the applicant submitted plans of a complying facility, which reflects that in order to accommodate a compliant rear yard equivalent and 96 parking spaces (which is less than the proposed 104 spaces), the facility would need to be increased from four to five levels; and

WHEREAS, the applicant states that the fifth level of the complying facility, which includes the outdoor terrace, would align with the existing third floor of St. Patrick's instead of the second floor, and because the third floor is a nursing unit area, when residents access the proposed recreation room and outdoor space at the fifth level of the complying facility, they would have to utilize a nursing unit area, contrary to New York State's "Standards of Construction for Nursing Homes"; and

WHEREAS, the applicant represents that because the Proposed Facility provides access to the recreation room and outdoor space from the second floor of the Nursing Home, which contains the physical and occupational therapy public spaces and is not a nursing unit area, it complies with NYCRR § 713-3.4; and

WHEREAS, the Board notes that the applicant also asserts that St. Patrick's is an educational institution, and as such is entitled to significant deference under the law of the State of New York as to zoning and as to its ability to rely upon programmatic needs in support of the subject variance application, pursuant to Cornell Univ. v. Bagnardi, 68 N.Y.2d 583 (1986); and

WHEREAS, the Board finds that the applicant did not submit sufficient evidence into the record to establish that St. Patrick's is an educational institution as contemplated by the courts, and as such, it cannot rely solely on the programmatic needs of St. Patrick's to support the subject variance application; and

WHEREAS, accordingly, based upon the above, the Board finds that the irregularity of the subject lot, the configuration of the existing buildings on the site, and the need to comply with DOH regulations, when considered in conjunction with the programmatic needs of St. Patrick's, creates unnecessary hardship and practical difficulty in developing the site in compliance with the applicable zoning regulations; and

WHEREAS, since St. Patrick's is a non-profit institution and the variance is needed to further its non-profit mission, the finding set forth at ZR § 72-21(b) does not have to be made in order to grant the variance requested in this application; and

WHEREAS, the applicant represents that the variance, if granted, will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare; and

WHEREAS, the applicant states that St. Patrick's has existed on the site since 1931; and

WHEREAS, the applicant notes that Van Cortlandt Park is located directly north of the site across Van Cortlandt Park South, to the south of the site are the Amalgamated Houses (two separate 20-story buildings, providing affordable housing for 1500 moderate-income families), directly to the west of the site is a six-story residential building, with single- and two-family detached buildings to the southwest, and to the east of the site is an open space owned by the New York City Department of Environmental Protection; and

WHEREAS, the applicant notes that the Proposed Facility complies with all use and bulk regulations of the underlying R7-1 zoning district, with the exception of rear yard equivalent; and

WHEREAS, the applicant submitted plans reflecting that it will landscape the area of the Proposed Facility adjacent to Van Cortlandt Park South, providing a soft transition between the Proposed Facility and the sidewalk, and the applicant states that along Saxon Avenue and Van Cortlandt Park South, the existing mature street trees will remain; and

WHEREAS, in response to the concerns raised by the adjacent property owner, the applicant submitted a revised plan reflecting that lighting will be provided for the proposed landscaping; and

WHEREAS, accordingly, the Board finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the applicant states that the hardship was not self-created and that no development that would meet the programmatic needs of St. Patrick's could occur on the existing lot; and

WHEREAS, accordingly, the Board finds that the hardship herein was not created by the owner or a predecessor in title; and

WHEREAS, as noted above, the Proposed Facility complies with all regulations of the R7-1 zoning district with the exception of rear yard equivalent; and

WHEREAS, accordingly, the Board finds that the requested relief is the minimum necessary; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR §72-21; and

WHEREAS, the project is classified as a Type I Action pursuant to 6 NYCRR, Part 617; and

WHEREAS, the Department of City Planning, as Lead Agency, has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 11DCP043X, dated September 28, 2012; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable.

Therefore it is Resolved that the Board of Standards and Appeals adopts the CEQR determination of the Department of City Planning and makes each and every one of the required findings under ZR § 72-21 and grants a variance, to permit the enlargement of an existing nursing home (Use Group 3), which does not comply with the required rear yard equivalent, contrary to ZR § 24-382; *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received January 7, 2013"– (11) sheets; and *on further condition;*

THAT the following shall be the bulk parameters of the building: 20,845 sq. ft. of floor area (0.3 FAR) for a total floor area on the site of 153,864 sq. ft. (2.8 FAR), a minimum rear yard equivalent of 30'-0", a total height of 48'-0", and 104 accessory parking spaces, as indicated on the BSA-approved plans;

THAT prior to the issuance of any DOB permits, the applicant shall obtain a special permit from the City Planning Commission pursuant to ZR § 74-90;

THAT substantial construction shall be completed pursuant to ZR § 72-23;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, January 15, 2013.

CEQR #12-BSA-051X
APPLICANT – Sheldon Lobel, P.C., for 1197 Bryant Avenue Corp., owner.
SUBJECT – Application December 15, 2011 – Variance (§72-21) to legalize Use Group 6 retail stores, contrary to use regulations (§22-10). R7-1 zoning district.
Community Board #3BX
PREMISES AFFECTED – 1197 Bryant Avenue, northwest corner of the intersection formed by Bryant Avenue and Home Street. Block 2993, Lot 27, Borough of Bronx.
COMMUNITY BOARD #3BX
ACTION OF THE BOARD – Application granted on condition.
THE VOTE TO GRANT –
Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5
Negative:.....0
THE RESOLUTION –

WHEREAS, the decision of the Bronx Borough Commissioner, dated November 15, 2011, acting on Department of Buildings Application No. 210044708, reads in pertinent part:

> Proposed use of existing building at the premises for Use Group 6 commercial use is not permitted as-of-right in the R7-1 district pursuant to ZR Section 22-10; and

WHEREAS, this is an application under ZR § 72-21, to permit, within an R7-1 zoning district, the legalization of the use of an existing one-story building for Use Group 6 retail, which does not conform to district use regulations, contrary to ZR § 22-10; and

WHEREAS, a public hearing was held on this application on September 25, 2012, after due notice by publication in *The City Record*, with continued hearings on October 30, 2012, and December 11, 2012, and then to decision on January 15, 2013; and

WHEREAS, the site and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 3, Bronx, recommends approval of this application; and

WHEREAS, a neighbor provided testimony expressing a concern that businesses at the site attract too many visitors and the number of businesses should be limited; and

WHEREAS, the subject site is located on the northwest corner of Bryant Avenue and Home Street within an R7-1 zoning district; and

WHEREAS, the site has approximately 91 feet of frontage on Bryant Avenue and 25 feet of frontage on Home Street, with a total lot area of 2,328 sq. ft.; and

WHEREAS, the site is currently occupied by a one-story formerly manufacturing building currently occupied by three commercial uses (Use Group 6), with a floor area of 2,328 sq. ft. (1.0 FAR); and

WHEREAS, the building was constructed in 1931 and formerly occupied by a legal non-conforming meat processing plant (Use Group 18); and

WHEREAS, the applicant states that the building was renovated and three retail spaces were created pursuant to an Alteration Type 2 application; during a subsequent review, DOB determined that there had been a discontinuance of the former non-conforming use which precluded the applicant from occupying the building with the proposed use; and

WHEREAS, the applicant now proposes to legalize the use of the subject building to commercial use (Use Group 6); and

WHEREAS, because the commercial use is not permitted in the subject zoning district, the applicant seeks a use variance to permit the proposed Use Group 6 use; and

WHEREAS, the applicant states that the following are unique physical conditions which create unnecessary hardship and practical difficulties in developing the site with a conforming development: (1) the history of use of the site for non-residential use; (2) the obsolescence of the subject building for conforming use; (3) the small, narrow lot configuration that limits the size and layout of any permitted residential development; and (4) the cost of demolishing the existing building and excavating the site; and

WHEREAS, as to the history of use and the existing building, the applicant states that the building was designed for manufacturing uses and operated as a meat processing plant from approximately 1931 until the late 1990s; and

WHEREAS, the applicant states that the building is not suited for residential use and any renovation of the building to accommodate such a use is impractical and cost-prohibitive; and

WHEREAS, the applicant contends that the building is also not well-suited for as-of-right community facility uses due to its small size and narrow floor plan and that the retrofit required for the building to meet the requirements of the 2008 Fire Code for community facility uses further burdens any use of the building for as-of-right use; and

WHEREAS, the applicant submitted a letter from a contractor which estimates the cost for the installation of an interior fire alarm system and automatic wet sprinkler system, both of which are required for community facility use, will be approximately $41,000; and

WHEREAS, as to lot configuration, the applicant states that the lot is small and narrow with a width of 25 feet, a depth of only 91 feet, and a lot area totaling 2,328 sq. ft.; and

WHEREAS, the applicant notes that the R7-1 zoning district lot coverage restrictions combined with the site's narrow lot width results in a floor plate that is only able to accommodate two small residential apartments per floor; and

WHEREAS, the applicant states that the as-of-right building's interior circulation space includes an entrance lobby, stairwell, and common hallways that represent a significant amount of non-rentable floor area given the small size of the building; and

WHEREAS, the applicant asserts that the development potential of the site is also limited by the R7-1 zoning district

parking regulations, which requires parking spaces for 30 percent of all dwelling units; because the site can only accommodate a maximum of two parking spaces on-site, only eight dwelling units can be accommodated; and

WHEREAS, the applicant asserts that the rental values of the building's apartment units are unable to offset the development costs associated with the project; and

WHEREAS, as to premium demolition costs, the applicant asserts that the surrounding built conditions are highly sensitive due to age and construction compounded by the existing building's full lot coverage condition; specifically, its western wall abuts the eastern wall of the two-story frame residential home to the west (1005 Home Street), which is a two-family home originally built as long ago as 1901 with unknown foundation depth and conditions, and its northern wall abuts the garage located on the property to the north along Bryant Avenue (1209 Bryant Avenue); and

WHEREAS, the applicant asserts that the presence of older buildings on the lot line will significantly increase the cost associated with demolishing the existing one-story and cellar building and excavating the entire site to prepare it for as-of-right development while also requiring underpinning and shoring; and

WHEREAS, as to the uniqueness of the conditions, the applicant performed an analysis to determine whether there are other similarly-situated properties that are underbuilt (less than 50 percent of permitted FAR) and have a narrow lot width within a 600-ft. radius of the site; and

WHEREAS, the applicant states that the results of this study show that the site is one of only six similarly situated properties in the study area (narrow, underbuilt and not part of a mass subdivision development) that have been developed since 1930, which amounts to 2.5 percent of all properties within the study area; and

WHEREAS, additionally, the site is one of only two of these similarly situated properties that are occupied by a non-conforming building; and

WHEREAS, the Board is not persuaded by the assertions that the demolition costs, which are reasonably common in New York City, constitute a unique conditions that create practical difficulty or unnecessary hardship; and

WHEREAS, however, based upon the above, the Board finds that the history of the site, and the characteristics of the 1931 building and its use as well as the lot's configuration are unique condition which create unnecessary hardship and practical difficulty in developing the site in conformance with the applicable zoning regulations; and

WHEREAS specifically, the Board notes that the building was constructed approximately 80 years ago for a legal Use Group 18 use which would now be non-conforming, and that its conversion to a conforming use either residential or community facility would require significant retrofitting costs that create a hardship; and

WHEREAS, the applicant submitted a feasibility study which analyzed: (1) a conforming scenario of a four-story multi-family residential building; (2) a conversion of the existing building to community facility use; (3) a lesser variance residential scenario with a waiver for parking; and (4) the proposed legalization of the use of the existing building for commercial use; and

WHEREAS, the study concluded that the conforming scenarios would not result in a reasonable return, but that the proposed building would realize a reasonable return; and

WHEREAS, based upon the above, the Board has determined that because of the subject lot's unique physical conditions, there is no reasonable possibility that development in strict compliance with zoning will provide a reasonable return; and

WHEREAS, the applicant represents that the proposal will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare; and

WHEREAS, the applicant represents that the surrounding area is predominantly occupied by a mix of residential and community facility uses; however, there are six non-conforming commercial uses located within a two-block radius of the site; and

WHEREAS, the applicant states that ZR § 52-332 would allow for the continuation of a non-conforming use at the site, except that the Use Group 18 meat processing use discontinued for a period greater than two years and the rights to the non-conforming use no longer exist, pursuant to ZR § 52-61; and

WHEREAS, the applicant represents that the former meat processing business occupied the building from approximately 1931 until sometime in the late 1990s and that commercial uses have occupied the site since 2007; and

WHEREAS, the applicant asserts that the commercial uses are significantly more compatible with the surrounding area than the meat processing business; and

WHEREAS, the applicant asserts that the use of the existing building for commercial uses will not result in noise levels that will adversely affect the adjacent residential uses in part because the existing building is constructed of 12-in. masonry block and has an interior wall consisting of a stud and drywall assembly, both of which serve to prevent noise transmission; and

WHEREAS, further, the applicant notes that the building's uses include a deli/convenience store and beauty salon, neither of which generates any significant amount of noise and the building does not have any rooftop HVAC units that generate unwanted noise; and

WHEREAS, the applicant proposes the following hours of operation: (1) for the deli/store – 7:00 a.m. to 10:00 p.m., seven days a week and (2) for the beauty salon – 10:00 a.m. to 9:00 p.m., Monday through Saturday and 10:00 a.m. to 5:00 p.m., Sunday; and

WHEREAS, at hearing, a neighbor provided testimony raising concerns about the amount of visitors generated by the uses at the site; and

WHEREAS, in response, the applicant states that due to the small size of the businesses, traffic is not significant and only the deli/store has one small truck delivery per day, while

the beauty salon owner picks up all her own products; and

WHEREAS, the applicant concedes that the shipping business that formerly occupied the site generated considerably more traffic but that that has now vacated the third storefront; and

WHEREAS, based upon the above, the Board finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Board finds that the hardship herein was not created by the owner or a predecessor in title, but is the result of the site's unique physical conditions; and

WHEREAS, the Board finds that this proposal is the minimum necessary to afford the owner relief; and

WHEREAS, based upon the above, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as unlisted Action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 12BSA051X dated May 17, 2011; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration under 6 NYCRR Part 617 and §6-07(b) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR § 72-21 and grants a to permit, within an R7-1 zoning district, the legalization of the use of an existing one-story building for Use Group 6 retail, which does not conform to district use regulations, contrary to ZR § 22-10; *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received January 7, 2013" – (5) sheets; and *on further condition*:

THAT the following are the bulk parameters of the building: a total floor area of 2,328 sq. ft. (1.0 FAR); and a maximum of three commercial businesses, as indicated on the Board-approved plans;

THAT the maximum hours of operation will be 7:00 a.m. to 10:00 p.m.;

THAT signage on the site will comply with C1 district regulations;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, January 15, 2013.

CEQR #12-BSA-076Q

APPLICANT – Eric Palatnik, P.C., for Don Ricks Associates, owner; New York Mart Group, Inc., lessee.

SUBJECT – Application February 8, 2012 – Special Permit (§73-49) to permit accessory parking on the roof of an existing one-story supermarket, contrary to §36-11. R6/C2-2 zoning district.

PREMISES AFFECTED – 142-41 Roosevelt Avenue, northwest corner of Roosevelt Avenue and Avenue B, Block 5020, Lot 34, Borough of Queens.

COMMUNITY BOARD #7Q

ACTION OF THE BOARD – Application Denied.

THE VOTE TO GRANT –

Affirmative: 0

Negative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5

THE RESOLUTION –

WHEREAS, the decision of the Queens Borough Commissioner, dated January 24, 2012, acting on Department of Buildings Application No. 420501095, reads in pertinent part:

Board of Standards and Appeals required for rooftop parking in C2-2 as per ZR § 73-49; and

WHEREAS, this is an application under ZR §§ 73-49 and 73-03 to allow rooftop parking above the first floor of an existing one-story commercial building located in a C2-2 (R6) zoning district, contrary to ZR § 36-11; and

WHEREAS, a public hearing was held on this application on June 5, 2012, after due notice by publication in the *City Record*, with continued hearings on August 21, 2012, October 23, 2012, and December 11, 2012, and then to decision on January 15, 2013; and

WHEREAS, the site and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 7, Queens, recommends conditional approval of this application; and

WHEREAS, Queens Borough President Helen Marshall recommends approval of the application; and

WHEREAS, the Board notes that the applicant has provided a Memorandum of Understanding with the adjacent building at 142-05 Roosevelt Avenue (the "Residential Building") reflecting conditions the parties agreed to as evidence of the Residential Building's conditional support of the proposal; and

WHEREAS, the subject site is located on the northwest corner of Roosevelt Avenue and Avenue B, within a C2-2 (R6) zoning district; and

WHEREAS, the site is occupied by a one-story commercial building occupied by a grocery store and a pharmacy; and

WHEREAS, the applicant proposes accessory rooftop parking for 49 parking spaces for grocery store customers and would relocate the required parking from the current location at the cellar and sub-cellar of the adjacent six-story Residential Building; and

WHEREAS, the applicant represents that 41 parking spaces are the minimum required for the commercial use of the building; and

WHEREAS, in order to meet its needs, the applicant seeks a special permit pursuant to ZR § 73-49, to permit rooftop parking at the site; and

WHEREAS, pursuant to ZR § 73-49, the Board may permit parking spaces to be located on the roof of a building in a C2-2 zoning district if the Board finds that the parking is located so as not to impair the essential character or the future use or development of the adjacent areas; and

WHEREAS, the applicant represents that the rooftop parking will not impair the essential character or future use or development of adjacent areas; and

WHEREAS, the applicant notes that the adjacent uses include the Residential Building, which is six stories and separated from the subject site by an alleyway with a width of 25 feet; the 12-story nursing home at 38-20 Bowne Street (the "Nursing Home"), approximately 34 feet from the site; and several multi-story mixed-use commercial/residential buildings approximately 70 feet from the site; and

WHEREAS, further, the applicant asserts that it proposes conditions which fit into the special permit provision that the Board "may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area, including requirements for setback of roof parking areas from lot lines or for shielding floodlights;" and

WHEREAS, the applicant states that the availability of additional off-street parking for grocery store customers will be advantageous to the community; and

WHEREAS, the applicant performed a noise study and a traffic study to support its claim that (1) any potential sound from cars on the roof will not be noticeable to surrounding residents due to the fact that the site is within a flight path to LaGuardia Airport and (2) there will be no significant adverse impacts related to street conditions, transportation, roadway conditions, or parking; and

WHEREAS, the applicant identifies the primary concerns of the Residential Building, the Nursing Home, and the Community Board as being related to (1) security, (2) traffic, (3) hours of operation, (4) lighting, (5) aesthetics, and (6) odors; and

WHEREAS, the applicant states that it has entered into a Memorandum of Understanding with the Residential Building regarding mitigation conditions; and

WHEREAS, the applicant proposes conditions for the parking facility to address: (1) hours of operation; (2) entrance and egress; (3) lighting; (4) noise and light buffering; and (5) odor diffusion; and

WHEREAS, additionally the applicant proposes safety measures through (1) signage; (2) roll down gates; (3) security cameras; and (4) monitoring personnel; and

WHEREAS, the applicant notes that its proposed conditions are intended to safeguard the community and have been negotiated with its neighbors and the Community Board; and

WHEREAS, in support of its assertion that the special permit is appropriate at the subject site and that it meets the required findings, the applicant cites to the Board's prior decision under BSA Cal. No. 319-06-BZ, which also involved rooftop parking adjacent to residential uses; and

WHEREAS, at hearing, the Board raised concerns about the appropriateness of the proposed rooftop parking facility at the subject site with adjacency to a significant number of residential units; and

WHEREAS, specifically, the Board notes that the potential impacts of rooftop parking are different from surface (at-grade) parking lots, and that, as a result, the Zoning Resolution requires the Board's special permit for approval of rooftop accessory parking; and

WHEREAS, in order to approve such special permit, the Board must find that the rooftop parking is located in such a manner that it does not change the essential character of the neighborhood, nor impair future use of the surrounding properties; and

WHEREAS, the Board must also find under ZR § 73-03 (general special permit findings) that the hazards or disadvantages to the community at large of such special permit at the particular site are outweighed by the advantages to be derived by the community by the grant of such special permit; and

WHEREAS, based on the record, the Board believes that it cannot make such findings, and several factors regarding this application and the surrounding context render the proposed rooftop parking inappropriate; and

WHEREAS, specifically the factors that contribute to the Board's conclusion include: (1) the location of the rooftop parking facility; (2) the nature and intensity of the use; (3) the nature of and proximity to surrounding uses; (4) limitations related to the proposed safeguards; and (5) Board precedent; and

WHEREAS, as to the first factor, the Board notes that the proposed rooftop parking is located in a C2-2 (R6) zoning

district, immediately adjacent to an R6 district to the north and across the street from an R6 district to the east, and that the area is a predominantly residential neighborhood with local retail; and

WHEREAS, the Board notes that the only open parking facility which is located above grade in the general vicinity of the site is a municipal parking garage, which is located approximately 700'-0" to the west; and

WHEREAS, the Board notes that the municipal parking garage occupies nearly an entire block, is surrounded by streets on three and one-half sides, and is opposite to a mix of uses, including commercial and community facility buildings; and

WHEREAS, further, the Board notes that all other parking facilities in the blocks surrounding the site are surface parking lots, and many of them are accessory to residential and community facility buildings, which typically do not draw a significant number of vehicles and in and out trips; and

WHEREAS, as to the second factor, the Board notes that the proposed rooftop parking would be accessory to an existing grocery store, a use that draws vehicle trips throughout the day, including (according to the applicant's traffic consultant) an estimated 22 vehicles during the morning peak hour, 46 during the midday peak hour, 57 during the evening peak, and 78 during the weekend peak; further, the grocery store is open until 10:30 p.m. and likely attracts increased activity during evening hours when residents of nearby buildings have returned home; and

WHEREAS, as to the third factor, the Board notes that the proposed parking would be unenclosed and located on top of the grocery store, on the equivalent of a second floor; and

WHEREAS, the Board notes that the uses immediately adjacent to the grocery store are the six-story Residential Building to the west and the 12-story Nursing Home to the north, and the uses to the east and south, on the opposite sides of Bowne Street and Roosevelt Avenue, are a church, a seven-story apartment building and a six-story apartment building; and

WHEREAS, further, the Board notes that residential buildings adjacent to and across the street from the grocery store all have rows of windows that would face directly onto the rooftop parking, and the Board believes that the number of residential units that would be impacted by noise, lighting, and security issues related to the proposed rooftop parking is significant; and

WHEREAS, the Board is especially troubled by the proximity of the six-story Residential Building to the west, which has more than 66 windows facing directly onto the grocery store's roof and where use of the roof for parking would diminish the privacy and general quality of life for the residents of these units; and

WHEREAS, as to the fourth factor, the Board notes that the applicant has recommended sound attenuation measures, including a sound barrier wall with a height of 4'-6" along the north and west sides to screen sound and light, signs to patrons to be respectful to adjacent residents, lower lighting to be placed in the middle of the parking area, security cameras, and the closing and securing of the roof parking at 9:00 p.m.; and

WHEREAS, however, the Board concludes that such measures fail to fully address the potential impacts on residential units, specifically, the impact of sound and light on the adjacent residential windows located above the sound barrier, and the general ineffectiveness of signs; and

WHEREAS, the Board also notes that any relocation of rooftop equipment (including mechanicals) away from the adjacent apartment building, as stated in the Memorandum of Understanding, would then have an impact on the residential building to the south; and

WHEREAS, finally, the Board has reviewed its history of special permit approvals in the past decade, and none of the grants presented similar factors, primarily the extent of surrounding residential uses, and the nature of such rooftop parking; and

WHEREAS, the Board has granted nine rooftop parking special permits since 1998, which can all be distinguished from the subject facts; most of the sites were either in manufacturing districts or concerned rooftop parking associated with colleges or hospitals within a campus setting; and

WHEREAS the applicant has argued that the Board's grant under BSA Cal. No. 316-06-BZ is similar, and that the applicant is providing similar measures as in that case (including sound attenuating and screening wall and limiting the hours); and

WHEREAS, the Board disagrees with the applicant that BSA Cal. No. 316-06-BZ is similar to the subject rooftop parking; in that case, the roof top parking was for automotive storage space for an automotive service facility in an M1-1 zoning district with use and access restricted to employees of the service facility and did not anticipate constant activity of cars entering and existing the rooftop parking; and

WHEREAS, further, the Board notes that the site was in a manufacturing district and bordered a few semi-detached homes to the rear, but the other adjacent buildings to the sides were occupied by industrial use; additionally, the homes were a total of ten and the roof parking could not be viewed from the adjacent residential windows and the hours were limited to 7:00 p.m., Monday through Friday and closed on weekends; and

WHEREAS, the Board concludes that unlike any of the other special permits, the impacts associated with the proposed rooftop parking are much more significant and have the potential to affect many more residential units; and

WHEREAS, finally, the Board finds that the applicant has failed to establish that the advantages to the community off set the disadvantages to the surrounding neighborhood; the Board notes that the grocery store already provides required parking to its patrons on the subject zoning lot and, thus, the applicant's assertion that the rooftop parking would be a benefit to its patrons and surrounding community by providing parking and reducing congestion on the streets, is unavailing: and

WHEREAS, the Board finds that the applicant's assertions about the grocery store's benefits to the community

are misplaced as the Board's rejection of the rooftop parking facility is not a rejection of the existing as-of-right grocery store; and

WHEREAS, as to the community's involvement, the Board notes that the Community Board's conditions do not relate to the actual rooftop conditions and that the Board has the authority to determine that the conditions set forth in the Memorandum of Understanding do not mitigate the impacts of the parking facility to the extent that the special permit findings are satisfied; and

WHEREAS, based upon the above, the Board concludes that the findings required under ZR § 73-49 have not been met; and

WHEREAS, the Board does not find that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, the Board has also determined that the evidence in the record fails to support the findings required to be made under ZR § 73-03.

Therefore it is Resolved that the objection of the Borough Commissioner, dated January 24, 2012, acting on Department of Buildings Application No. 420501095, is sustained and the subject application is hereby denied.

Adopted by the Board of Standards and Appeals, January 15, 2013.

APPLICANT – Watchel, Masyr & Missry LLP by Ellen Hay for EQR-600 Washington LLC, owner; Gotham Gym 1 LLC, lessee.
SUBJECT – Application August 8, 2012 – Special Permit (§73-36) to allow a physical culture establishment (*Gotham Gym*). M1-5 zoning district.
Special Permit (§73-36) to permit a physical culture
PREMISES AFFECTED – 600 Washington Street, west side of Washington Street between Morton and Leroy Streets, Block 602, Lot 10, Borough of Manhattan.
COMMUNITY BOARD #2M
ACTION OF THE BOARD – Application granted on condition.
THE VOTE TO GRANT –
Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5
Negative:.....0
THE RESOLUTION –

WHEREAS, the decision of the Manhattan Borough Commissioner, dated January 15, 2013, acting on Department of Buildings Application No. 120918436, reads in pertinent part:

> Proposed change of use to a physical culture establishment, as defined by ZR 12-10, is contrary to ZR 42-10 and must be referred to the Board of Standards and Appeals for approval pursuant to ZR 73-36; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site within an M1-5 zoning district, the legalization of a physical culture establishment (PCE) on the first floor of a mixed-use commercial/residential building contrary to ZR § 42-10; and

WHEREAS, a public hearing was held on this application on December 4, 2012, after due notice by publication in *The City Record*, and then to decision on January 15, 2013; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 2, Manhattan, recommends approval of this application; and

WHEREAS, the subject site is located on the west side of Washington Street between Leroy and Morton Streets within an M1-5 zoning district; and

WHEREAS, the site was the subject of a prior variance pursuant to BSA Cal. No. 287-00-BZ, which allowed for the construction of a six-, seven-, and 14-story mixed-use commercial/ residential building contrary to underlying use regulations; and

WHEREAS, the PCE will occupy approximately 3,925 sq. ft. of floor area on a portion of the first floor; and

WHEREAS, the PCE will be operated as Gotham Gym; and

WHEREAS, the applicant represents that the services at the PCE include facilities for instruction and programs for physical improvement; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, the applicant notes that the PCE began operating at the site in February 2011 and that there have not been any complaints about noise; and

WHEREAS, the applicant asserts that the building is constructed of steel and concrete with concrete floors with a thickness of seven inches, and double pane windows, which satisfies the DEP noise abatement levels; and

WHEREAS, the applicant proposes the following hours of operation: Monday through Friday, 6:00 a.m. to 10:00 p.m. and Saturday and Sunday, 6:00 a.m. to 8:00 p.m.; and

WHEREAS, accordingly, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the

community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the Board notes that the term of the special permit will be reduced for the period from the PCE's opening in February 2011 to the date of this grant; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.3 and 617.5; and

Therefore it is Resolved that the Board of Standards and Appeals issues a Type II Determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to permit, on a site within an M1-5 zoning district, the legalization of a physical culture establishment (PCE) the first floor of a mixed-use commercial/residential building contrary to ZR § 42-10; *on condition* that all work shall substantially conform to drawings filed with this application marked "Received January 3, 2013" - Four (4) sheets and "Received November 20, 2012" - One (1) sheet and *on further condition*:

THAT the term of this grant will expire on February 1, 2021;

THAT there will be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT Local Law 58/87 compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, January 15, 2013.

APPLICANT – Lewis E. Garfinkel, for Solomon Friedman, owner.

SUBJECT – Application August 13, 2012 – Special Permit (§73-622) for the enlargement of an existing single family home, contrary to floor area and open space (§23-141(a); side yards (§23-461(a)) and rear yard (§23-47) regulations. R-2 zoning district.

PREMISES AFFECTED – 1320 East 27th Street, west side of East 27th Street, 140' south of Avenue M, Borough of Brooklyn.

COMMUNITY BOARD #14BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5
Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated August 9, 2012, acting on Department of Buildings Application No. 320518828, reads in pertinent part:

1. Proposed plans are contrary to ZR 23-141(a) in that the proposed floor area ratio (FAR) exceeds the permitted 50%
2. Proposed plans are contrary to ZR 23-141(a) in that the proposed open space ratio (OSR) is less than the required 150%
3. Plans are contrary to ZR 23-461(a) in that the existing minimum side yard is less than the required minimum 5'-0"
4. Proposed plans are contrary to ZR 23-47 in that the proposed rear yard is less than 30'-0"; and

WHEREAS, this is an application under ZR §§ 73-622 and 73-03, to permit, in an R2 zoning district, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for floor area ratio, open space ratio, side yards, and rear yard, contrary to ZR §§ 23-141, 23-461 and 23-47; and

WHEREAS, a public hearing was held on this application on November 20, 2012, after due notice by publication in *The City Record*, with a continued hearing on December 4, 2012, and then to decision on January 15, 2013; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 14, Brooklyn, recommends approval of this application; and

WHEREAS, certain community members provided written testimony in opposition to the proposal based on general concerns including incompatibility with

neighborhood character; and

WHEREAS, the subject site is located on the west side of East 27th Street, 140 feet south of Avenue M, within an R2 zoning district; and

WHEREAS, the subject site has a total lot area of 4,000 sq. ft., and is occupied by a single-family home with a floor area of 2,402 sq. ft. (0.60 FAR); and

WHEREAS, the premises is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant seeks an increase in the floor area from 2,402 sq. ft. (0.60 FAR) to 4,000 sq. ft. (1.0 FAR); the maximum permitted floor area is 2,000 sq. ft. (0.50 FAR); and

WHEREAS, the applicant proposes to provide an open space ratio of 58 percent (150 percent is the minimum required); and

WHEREAS, the applicant proposes to maintain the existing side yard along the northern lot line with a width of 3'-11" and to provide a side yard along the southern lot line with a width of 9'-9" (two side yards with minimum widths of 5'-0" each and a total width of 13'-0" are required); and

WHEREAS, the proposed enlargement will provide a rear yard with a depth of 20'-0" (a minimum rear yard depth of 30'-0" is required); and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood, and will not impair the future use or development of the surrounding area; and

WHEREAS, based upon its review of the record, the Board finds that the proposed enlargement will neither alter the essential character of the surrounding neighborhood, nor impair the future use and development of the surrounding area; and

WHEREAS, the Board finds that the proposed project will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under ZR §§ 73-622 and 73-03.

Therefore it is resolved, that the Board of Standards and Appeals issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR §§ 73-622 and 73-03, to permit, in an R2 zoning district, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for floor area ratio, open space ratio, side yards, and rear yard, contrary to ZR §§ 23-141, 23-461 and 23-47; *on condition* that all work shall substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked "Received November 28, 2012"-(12) sheets; and *on further condition*:

THAT the following will be the bulk parameters of the building: a maximum floor area of 4,000 sq. ft. (1.0 FAR); a minimum open space ratio of 58 percent; a side yard along the southern lot line with a minimum width of 9'-9" and a side yard along the northern lot line with a width of 3'-11"; and a rear yard with a minimum depth of 20'-0", as illustrated on the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s) only; no approval has been given by the Board as to the use and layout of the cellar;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted;

THAT substantial construction be completed in accordance with ZR § 73-70; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, January 15, 2013.

CEQR #13-BSA-026Q
APPLICANT – John M. Marmora, Esq., c/o K & L Gates LLP, for McDonald's Corporation, owner.
SUBJECT – Application August 30, 2012 – Special Permit (§73-243) to permit an accessory drive-through facility to an eating and drinking establishment (McDonald's) within the portion of the lot located in a C1-3/R5D zoning district contrary to §§32-15 & 32-32 as well as a Special Permit (§73-52) to extend the commercial use by 25' into the R3A portion of the lot contrary to § 22-10.
PREMISES AFFECTED – 114-01 Sutphin Boulevard, north side of Sutphin Boulevard between Linden Boulevard and 114th Road, Block 12184, Lot 7, Borough of Queens.
COMMUNITY BOARD #12Q
ACTION OF THE BOARD – Application granted on condition.
THE VOTE TO GRANT –
Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5
Negative:.....0
THE RESOLUTION –

WHEREAS, the decision of the Executive Zoning Specialist, dated August 6, 2012, acting on Department of Buildings Application No. 420603644, reads:

> Accessory parking for proposed eating and drinking establishment (Use Group 6A) is not permitted in R3A zoned lot portion; contrary to ZR 22-10.

Proposed eating and drinking establishment with accessory drive-through facility in the C1-3/R5D lot portion requires BSA special permit pursuant to ZR 73-243; contrary to ZR 32-15, and ZR 32-31; and

WHEREAS, this is an application under ZR §§ 73-243, 73-52, and 73-03, to permit, on a site partially within a C1-3 (R5D) zoning district and partially within a R3A zoning district, the operation of an accessory drive-through facility on the site in conjunction with an as-of-right eating and drinking establishment (Use Group 6), and the extension of the C1-3 (R5D) zoning district regulations 25 feet into the R3A zoning district, contrary to ZR §§ 22-10, 32-15, and 32-31; and

WHEREAS, a public hearing was held on this application on November 27, 2012, and then to decision on January 15, 2013; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 12, Queens, recommends approval of this application; and

WHEREAS, the subject site is located on the southeast corner of Sutphin Boulevard and Linden Boulevard; and

WHEREAS, the site is divided by a zoning district boundary line, with the majority of the site located within a C1-3 (R5D) zoning district, and a narrow strip along the eastern side of the site located within an R3A zoning district; and

WHEREAS, the site has a total lot area of 29,430 sq. ft. and is occupied by a McDonald's restaurant with an accessory drive-thru; and

WHEREAS, the applicant proposes to demolish the existing restaurant and construct a new 3,911 sq. ft. McDonald's restaurant with an accessory tandem drive-thru; and

WHEREAS, a special permit is required for the proposed accessory drive-through facility in the C1-3 (R5D) zoning district, pursuant to ZR § 73-243; and

WHEREAS, under ZR § 73-243, the applicant must demonstrate that: (1) the drive-through facility provides reservoir space for not less than ten automobiles; (2) the drive-through facility will cause minimal interference with traffic flow in the immediate vicinity; (3) the eating and drinking establishment with accessory drive-through facility complies with accessory off-street parking regulations; (4) the character of the commercially-zoned street frontage within 500 feet of the subject premises reflects substantial orientation toward the motor vehicle; (5) the drive-through facility will not have an undue adverse impact on residences within the immediate vicinity; and (6) there will be adequate buffering between the drive-through facility and adjacent residential uses; and

WHEREAS, the applicant submitted a site plan indicating that the drive-through facility provides reservoir space for at least 13 vehicles; and

WHEREAS, the applicant represents that the facility will cause minimal interference with traffic flow in the immediate vicinity of the subject site; and

WHEREAS, in support of this representation, the applicant notes that the existing restaurant has a drive-thru, and therefore the proposed drive-thru does not function as a new facility but rather as a substantial improvement of the existing facility; and

WHEREAS, the applicant represents that the reorientation of the drive-thru will likely improve circulation by relocating the primary access to the Sutphin Boulevard entrance, while under the existing arrangement the primary access for the drive-thru is from Linden Boulevard, which is more residential in character than Sutphin Boulevard; and

WHEREAS, the applicant states that the curb cuts utilized for the drive-thru customers are located 122 feet and 139 feet, respectively, from the intersection of Sutphin Boulevard and Linden Boulevard, which is substantially more than the required 50 feet; and

WHEREAS, the applicant represents that the facility fully complies with the accessory off-street parking regulations for the C1-3 (R5D) zoning district; and

WHEREAS, in support of this representation, the applicant submitted a proposed site plan providing 14 accessory off-street parking spaces, which satisfies the requirement of ten parking spaces pursuant to ZR § 36-21; and

WHEREAS, the applicant represents that the facility conforms to the character of the commercially zoned street frontage within 500 feet of the subject premises, which reflects substantial orientation toward the motor vehicle; and

WHEREAS, the applicant states that Sutphin Boulevard contains a mix of uses in the area which stretches from Jamaica Station to Rockaway Boulevard, however, the area surrounding the subject site is characterized by auto-oriented commercial uses; and

WHEREAS, the applicant further states that there are several uses to the north of the site which actually contain curb cuts and parking areas in the front yards (e.g., Family Dollar, Port Royal Restaurant, Western Union, and a nail salon), and a health services facility with an 18-space parking area is located to the south of the site along Sutphin Boulevard; therefore, the applicant represents that the character of the Sutphin Boulevard frontage in the vicinity of the site reflects substantial orientation to the motor vehicle; and

WHEREAS, the Board notes that the applicant has submitted photographs of the site and the surrounding streets, which supports this representation; and

WHEREAS, the applicant represents that the drive-through facility will not have an undue adverse impact on residences within the immediate vicinity of the subject premises; and

WHEREAS, the applicant states that a drive-thru facility has been in operation on the site for at least the past four decades, and the proposed new drive-thru facility will substantially improve current conditions; and

WHEREAS, specifically, the applicant states that the new facility will mitigate the possible visual impacts of the drive-thru with a fence, and the design and orientation of the drive-thru menu boards and sound system are state-of-the-art

and intended to reduce the acoustical/noise impacts on surrounding areas; and

WHEREAS, the applicant represents that the decibel levels for the proposed drive-thru, as measured from the nearest house approximately 90 feet from the drive-thru, will be approximately 46 dBA without activating "automatic voice control," which adjusts the outbound volume based on the outdoor ambient noise level, and 22 dBA with automatic voice control active; and

WHEREAS, the applicant further represents that the proposed drive-thru will lessen the impacts on surrounding residences by relocating the primary entrance to the drive-thru from the more residential Linden Boulevard to the more commercial Sutphin Boulevard; and

WHEREAS, the applicant represents that there will be adequate buffering between the drive-thru facility and adjacent residential uses; and

WHEREAS, the applicant states that there will be a fence with a height of six feet and landscaping along the lot lines adjacent to residential uses, which will provide a sufficient buffer to address possible visual impacts associated with the drive-thru facility; and

WHEREAS, the applicant further states that the open areas adjacent to residential uses exceed the minimum open area requirements of ZR § 33-392; and

WHEREAS, accordingly, the applicant represents that the proposed drive-thru facility satisfies each of the requirements for a special permit under ZR § 73-243; and

WHEREAS, the applicant also requests a special permit pursuant to ZR § 73-52 to extend the C1-3 (R5D) zoning district regulations 25 feet into the portion of the zoning lot located within an R3A zoning district; and

WHEREAS, the applicant states that the majority of the zoning lot is located within the C1-3 (R5D) zoning district, but that a narrow strip along the eastern side of the zoning lot is within an R3A zoning district; and

WHEREAS, the portion of the site that is within the C1-3 (R5D) zoning district occupies approximately 25,422 sq. ft. (86 percent) of the zoning lot, and the portion of the site that is within the R3A zoning district occupies approximately 4,008 sq. ft. (14 percent) of the zoning lot, and ranges in width from approximately 23'-6" to 25'-2"; and

WHEREAS, the C1-3 (R5D) zoning district permits the proposed accessory drive-thru facility pursuant to ZR § 73-243; the R3A district permits only residential uses; and

WHEREAS, the applicant notes that if the maximum width of the R3A portion of the lot was less than 25 feet, the proposed extension of the C1-3 (R5D) zoning district would be permitted as-of-right pursuant to ZR § 77-11; and

WHEREAS, the applicant represents that by allowing the C1-3 (R5D) use regulations to apply to 25 feet of the total width of the R3A portion of the lot, the proposed accessory drive-thru facility use will be contained entirely within the portion of the lot subject to C1-3 (R5D) regulations; and

WHEREAS, however, an approximately two-inch sliver over a portion of the lot will remain solely within the R3A zoning district, even after the boundary line is moved 25 feet, and may only be used for residential uses; and

WHEREAS, ZR § 73-52 provides that when a zoning lot, in single ownership as of December 15, 1961, is divided by district boundaries in which two or more uses are permitted, the Board may permit a use which is permitted in the district in which more than 50 percent of the lot area of the zoning lot is located to extend not more than 25 feet into the remaining portion of the zoning lot where such use is not permitted, provided: (a) that, without any such extension, it would not be economically feasible to use or develop the remaining portion of the zoning lot for a permitted use; and (b) that such extension will not cause impairment of the essential character or the future use or development of the surrounding area; and

WHEREAS, as to the threshold single ownership requirement, the applicant submitted deeds establishing that the subject property has existed in single ownership since prior to December 15, 1961; and

WHEREAS, accordingly, the Board finds that the applicant has provided sufficient evidence showing that the zoning lot was in single ownership prior to December 15, 1961 and continuously from that time onward; and

WHEREAS, as to the threshold 50 percent requirement, 25,422 sq. ft. (86 percent) of the site's total lot area of 29,430 sq. ft. is located within the C1-3 (R5D) zoning district, which is more than the required 50 percent of lot area; and

WHEREAS, as to the finding under ZR § 73-52(a), the applicant represents that it would not be economically feasible to use or develop the R3A portion of the zoning lot for a permitted use; and

WHEREAS, the applicant states that the R3A portion of the lot is a very narrow and relatively small area located between a commercial-zoned tract and Augusta Court, a dead-end street; and

WHEREAS, the applicant represents that when viewed as a potential development parcel, the R3A portion of the site has no utility for residential uses under the R3A district requirements due to its size and shape; and

WHEREAS, specifically, the applicant states that the R3A portion of the site would (1) be deficient with respect to lot width, because the minimum width of the R3A area is approximately 23'-6" (a minimum lot width of 25'-0" is required), (2) constitute a corner lot which requires 10'-0" front yards along Linden Boulevard and August Court, resulting in a developable width of approximately 13 feet, and (3) need to provide at least one off-street parking space in the side or rear yard, which would be impractical given the site constraints; and

WHEREAS, as to the finding under ZR §73-52(b), the applicant states that the proposed development is consistent with existing land use conditions and anticipated projects in the immediate area; and

WHEREAS, as noted above, the portion of the Sutphin Boulevard corridor which includes the subject site has an auto-oriented commercial character, and the R3A portion of the site has been utilized as a parking area for the existing

McDonald's restaurant for many years; and

WHEREAS, the applicant represents that the proposed project will substantially improve upon the existing conditions by providing a fence and landscaped area to help screen the restaurant and drive-thru from the residences located across Augusta Court; and

WHEREAS, accordingly, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, the proposed project will not interfere with any pending public improvement project; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-243, 73-52, and 73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 617.2 and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 13BSA026Q dated August 30, 2012; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

Therefore it is Resolved that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-243, 73-52, and 73-03 to permit, on a site partially within a C1-3 (R5D) zoning district and partially within an R3A zoning district, the operation of an accessory drive-through facility on the site in conjunction with an as-of-right eating and drinking establishment (Use Group 6), and the extension of the C1-3 (R5D) zoning district regulations 25 feet into the R3A zoning district, contrary to ZR §§ 22-10, 32-15, and 32-31; *on condition* that all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received January 11, 2013"- (7) sheets; and *on further condition*:

THAT the term of this grant will expire on January 15, 2018;

THAT the premises will be maintained free of debris and graffiti;

THAT parking and queuing space for the drive-through will be provided as indicated on the BSA-approved plans;

THAT all landscaping and/or buffering will be maintained as indicated on the BSA-approved plans;

THAT exterior lighting will be directed away from the nearby residential uses;

THAT the above conditions shall appear on the certificate of occupancy;

THAT all signage shall conform to C1 zoning district regulations;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT substantial construction be completed in accordance with ZR § 73-70; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted."

Adopted by the Board of Standards and Appeals, January 15, 2013.

CEQR #13-BSA-033K

APPLICANT – John M. Marmora, Esq. for Robert J. Panzarella, BSB Real Estate Holdings LLC. J & J Real Estate Holdings LLC., owner, McDonald's USA, LLC, lessee.

SUBJECT – Application September 18, 2012 – Special Permit (§73-52) to extend by 25'-0" a commercial use into a residential zoning district to permit the development of a proposed eating and drinking establishment *(McDonald's*) with accessory drive thru. C8-2 and R5 zoning district.

PREMISES AFFECTED – 3143 Atlantic Avenue, northwest corner of Atlantic Avenue between Hale Avenue and Norwood Avenue. Block 3960, Lot 58. Borough of Brooklyn.

COMMUNITY BOARD #5BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Executive Zoning Specialist, dated August 22, 2012, acting on Department of Buildings Application No. 320375287, reads in pertinent part:

Parking spaces and portion of drive-through

facility, both accessory to the proposed eating and drinking establishment (Use Group 6A), are not permitted in R5 zoned lot portion; contrary to ZR § 22-10; and

WHEREAS, this is an application under ZR §§ 73-52 and 73-03, to permit, on a site partially within a C8-2 zoning district and partially within an R5 zoning district, the extension of the C8-2 zoning district regulations 25 feet into the R5 zoning district, to allow for vehicular maneuvering associated with the proposed accessory drive-thru facility located in the C8-2 portion of the site, contrary to ZR § 22-10; and

WHEREAS, a public hearing was held on this application on November 27, 2012 after due notice by publication in *The City Record*, and then to decision on January 15, 2013; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by Commissioner Ottley-Brown; and

WHEREAS, Community Board 5, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located at the southwest corner of Atlantic Avenue and Norwood Avenue, with approximately 156.82 feet of frontage on Atlantic Avenue, 130.33 feet of frontage on Norwood Avenue, and a total lot area of 22,138 sq. ft.; and

WHEREAS, the site is currently occupied by a vacant one-story building formerly utilized as a KFC restaurant with an accessory drive-thru, which is proposed to be demolished; and

WHEREAS, the applicant proposes to construct a new one-story building with a floor area of 3,534 sq. ft., to be occupied by a McDonald's restaurant with an accessory drive-thru facility and nine parking spaces; and

WHEREAS, the applicant requests a special permit pursuant to ZR § 73-52 to extend the C8-2 zoning district regulations 25 feet into the portion of the zoning lot located within an R5 district; and

WHEREAS, the applicant states that the extension of the C8-2 district would allow for the usage of the R5 portion of the lot for vehicular maneuvering connected with the proposed accessory drive-thru (i.e., the drive-thru lane); and

WHEREAS, the applicant further states that the remainder of the R5 portion of the lot will remain entirely open and landscaped; and

WHEREAS, the applicant notes that the portion of the site that is within the C8-2 zoning district occupies 15,626 sq. ft. (71 percent) of the zoning lot, and the portion of the site that is within the R5 zoning district occupies 6,512 sq. ft. (29 percent) of the zoning lot; and

WHEREAS, the R5 portion fronts on Norwood Avenue and occupies an irregularly-shaped portion of the site, located to the north of the C8-2 portion of the site; and

WHEREAS, the C8-2 district permits the Use Group 6 eating and drinking establishment with accessory drive-thru facility; the R5 district permits only residential or community facility uses; and

WHEREAS, ZR § 73-52 provides that when a zoning lot, in single ownership as of December 15, 1961, is divided by district boundaries in which two or more uses are permitted, the Board may permit a use which is permitted in the district in which more than 50 percent of the lot area of the zoning lot is located to extend not more than 25 feet into the remaining portion of the zoning lot where such use is not permitted, provided: (a) that, without any such extension, it would not be economically feasible to use or develop the remaining portion of the zoning lot for a permitted use; and (b) that such extension will not cause impairment of the essential character or the future use or development of the surrounding area; and

WHEREAS, as to the threshold single ownership requirement, the applicant submitted deeds and a Sanborn Map establishing that the subject property has existed in single ownership since prior to December 15, 1961; and

WHEREAS, accordingly, the Board finds that the applicant has provided sufficient evidence showing that the zoning lot was in single ownership prior to December 15, 1961 and continuously from that time onward; and

WHEREAS, as to the threshold 50 percent requirement, 15,626 sq. ft. (71 percent) of the site's total lot area of 22,138 sq. ft. is located within the C8-2 zoning district, which is more than the required 50 percent of lot area; and

WHEREAS, as to the finding under ZR § 73-52(a), the applicant represents that it would not be economically feasible to use or develop the R5 portion of the zoning lot for a permitted use; and

WHEREAS, specifically, the applicant states that the R5 portion of the site is burdened by a trapezoid shape with only 28 feet of frontage along Norwood Avenue, while a minimum lot width of 40 feet is required for a detached home in an R5 district; and

WHEREAS, the applicant further states that there is no potential to create a regular lot by expanding into the C8-2 portion of the site because that zoning district does not permit any residential uses; and

WHEREAS, the applicant provided a drawing illustrating the development potential for a complying building in the R5 portion of the lot with identical dimensions to the adjacent home, which reflects that the home would have to be set back to the very rear portion of the property in order to comply with the side yard requirements, which would result in a non-complying rear yard; and

WHEREAS, the applicant states that in addition to the inability to meet the rear yard requirement, the home would also have to be set back approximately 87 feet from the street, which would result in the front façade of the home nearly aligning with the rear façade of the adjacent home; and

WHEREAS, the applicant represents that the result would be a highly impractical and poorly planned home that would create a major gap in the existing pattern of residential development along Norwood Avenue; and

WHEREAS, as to the finding under ZR §73-52(b), the applicant states that the proposed development is consistent with existing land use conditions and anticipated projects in the immediate area; and

WHEREAS, the applicant states that Atlantic Avenue is an auto-oriented corridor with a commercial character; and

WHEREAS, the applicant notes that there are a number of gas stations and fast food restaurants in the immediate vicinity of the site, and that the property has been utilized as a KFC restaurant with a drive-thru facility for many years; thus, the proposed restaurant with accessory drive-thru use would be consistent with the character of the surrounding area; and

WHEREAS, the applicant represents that the extension of the C8-2 district facilitates a substantial buffer area between the restaurant and drive-thru and the surrounding residences which would not otherwise exist; and

WHEREAS, specifically, the applicant states that no structures will be developed within the 25-ft. extension and the only activity that will occur is vehicular circulation related to the drive-thru; and

WHEREAS, the applicant further states that the remainder of the R5 portion of the lot will be left open and landscaped and the design and orientation of the drive-thru menu boards and sound system are state-of-the-art and intended to reduce the acoustical/noise impacts on surrounding areas; and

WHEREAS, the applicant represents that the decibel levels for the proposed drive-thru, as measured from the nearest residential property, will be approximately 50 dBA without activating "automatic voice control," which adjusts the outbound volume based on the outdoor ambient noise level, and 30 dBA with automatic voice control active; and

WHEREAS, accordingly, the Board finds that the proposed extension of the C8-2 zoning district portion of the lot into the R5 portion will not cause impairment of the essential character or the future use or development of the surrounding area, nor will it be detrimental to the public welfare; and

WHEREAS, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the proposed action will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-52 and 73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 617.2 and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement, CEQR No.13BSA033K, dated September 18, 2012; and

WHEREAS, the EAS documents that the operation of the bank would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-52 and 73-03, to permit, on a site partially within a C8-2 zoning district and partially within an R5 zoning district, the extension of the C8-2 zoning district regulations 25 feet into the R5 zoning district, to allow for vehicular maneuvering associated with the proposed accessory drive-thru facility located in the C8-2 portion of the site, contrary to ZR § 22-10; *on condition* that all work shall substantially conform to drawings filed with this application marked "Received December 19, 2012" – (7) sheets; and *on further condition*:

THAT landscaping and trees will be planted in accordance with the BSA-approved plans;

THAT all lighting will be directed down and away from adjacent residential uses;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT substantial construction will be completed in accordance with ZR § 73-70;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals,

January 15, 2013.

CEQR #13-BSA-038M
APPLICANT – Sheldon Lobel, P.C., for 440 Broadway Realty Associates, LLC, owner.
SUBJECT – Application September 24, 2012 – Variance (§72-21) to permit a UG 6 retail use on the first floor and cellar of the existing building, contrary to Section 42-14D(2)(b). M1-5B zoning district.
PREMISES AFFECTED – 440 Broadway, between Howard Street and Grand Street, Block 232, Lot 3, Borough of Manhattan.
COMMUNITY BOARD #2M
ACTION OF THE BOARD – Application granted on condition.
THE VOTE TO GRANT –
Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5
Negative:.....0
THE RESOLUTION –

WHEREAS, the decision of the Manhattan Borough Commissioner, dated August 23, 2012, acting on Department of Buildings Application No. 121324655, reads in pertinent part:

> Proposed retail (Use Group 6) below the floor level of the second story is not permitted; contrary to ZR 42-14(D)(2)(b); and

WHEREAS, this is an application under ZR § 72-21, to permit in an M1-5B zoning district within the SoHo-Cast Iron Historic District, the legalization of the first floor of an existing two-story building to a commercial retail use (UG 6) with accessory retail use in the cellar, contrary to ZR § 42-14(d)(2)(b); and

WHEREAS, a public hearing was held on this application on December 11, 2012, after due notice by publication in the *City Record*, and then to decision on January 15, 2013; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 2, Manhattan, recommends approval of this application, with the condition that eating and drinking establishments not be permitted; and

WHEREAS, the subject site is located on the east side of Broadway, between Grand Street and Howard Street, in an M1-5B zoning district within the SoHo-Cast Iron Historic District; and

WHEREAS, the site has 30'-5" feet of frontage on Broadway, a depth of 98'-0", and a lot area of 2,989 sq. ft.; and

WHEREAS, the site is currently occupied by a two-story commercial building with a floor area of 5,771 sq. ft. (1.93 FAR); and

WHEREAS, the applicant proposes to legalize the Use Group 6 retail store on the first floor, with accessory retail use in the cellar; and

WHEREAS, the applicant states that the first floor will operate as the main retail space, the second floor will provide additional retail space, and the cellar will provide additional retail space and an accessory storage area; and

WHEREAS, because Use Group 6 retail is not permitted below the second floor in the subject M1-5B zoning district, the applicant seeks a use variance to permit the proposed legalization of the first floor and cellar level; and

WHEREAS, the applicant states that the following are unique physical conditions, which create practical difficulties and unnecessary hardship in developing the subject site in conformance with underlying district regulations: (1) the existing building is obsolete for manufacturing use; and (2) the existing building is significantly underbuilt; and

WHEREAS, as to the obsolescence of the building, the applicant states that it was constructed more than 125 years ago, lacks a loading dock or the space to install a loading dock, and has limited space to install any equipment to accommodate light manufacturing uses due to a line of columns running the length of the building from front to back; and

WHEREAS, the applicant states that the building also has a small floor plate, with only approximately 2,605 sq. ft. of usable floor area at the ground floor, which is not conducive to a conforming manufacturing use; and

WHEREAS, the applicant represents that the small floor plate, along with the presence of columns throughout the building and the absence of a loading dock create inefficiencies in operating the building for a conforming use; and

WHEREAS, further, the applicant states that the building is significantly underbuilt, with only two stories above ground and an FAR of 1.93; and

WHEREAS, the applicant states that the small building presents difficulties to the owner, as there are only two floors to generate income for the site, and the building is dwarfed by much larger buildings in the immediate area, including a nine-story building adjacent to the south of the site; and

WHEREAS, as to the uniqueness of this condition, the applicant represents that there is only one other building on the subject block which is two stories or less, at 454 Broadway; and

WHEREAS, the applicant provided a 1,000-ft. radius study which indicated that of the 267 buildings located within the study area, only 16 maintain an FAR less than 1.93, and only 20 are two stories or less, placing the subject building in the lowest six percent in terms of FAR and the lowest seven percent in terms of building height; and

WHEREAS, the applicant notes that of the other small buildings in each category, only three are occupied with conforming uses on the ground floor and each of these buildings is located well beyond a 400-ft. radius of the site; and

WHEREAS, the applicant represents that while the building may enlarge as-of-right, an enlargement above the existing building would be structurally infeasible; and

WHEREAS, the applicant represents that, even if an enlargement was structurally feasible, it would be unlikely that LPC would approve an enlargement due to the site's location in the SoHo-Cast Iron Historic District; and

WHEREAS, the Board agrees that the unique physical conditions cited above, when considered in the aggregate, create practical difficulties and unnecessary hardship in developing the site in conformance with the applicable zoning regulations; and

WHEREAS, the applicant submitted a feasibility study analyzing the following scenarios: (1) conforming use at the first floor and cellar; and (2) the proposed ground floor and cellar retail use; and

WHEREAS, the study concluded that the conforming scenario would not result in a reasonable return, but that the proposal would realize a reasonable return; and

WHEREAS, based upon its review of the applicant's submissions, the Board has determined that because of the subject lot's unique physical conditions, there is no reasonable possibility that development in strict compliance with applicable zoning requirements will provide a reasonable return; and

WHEREAS, the applicant represents that the proposed variance will not negatively affect the character of the neighborhood, nor impact adjacent uses; and

WHEREAS, the applicant notes that many of the buildings in the immediate vicinity contain ground floor retail uses, particularly along Broadway; and

WHEREAS, the applicant cites to the Landmark Preservation Commission's ("LPC") 1973 designation report for the SoHo-Cast Iron Historic District, which states that "Broadway was primarily a residential street until the late 1820s and early 1830s…Rapid commercial development soon followed and continued into the early 20th century. Today the street still retains a commercial character;" and

WHEREAS, the applicant states that the commercial character recognized by LPC in 1973 is still prevalent today; and

WHEREAS, the applicant represents that the proposal will not affect the historical integrity of the property; and

WHEREAS, the applicant submitted a Certificate of No Effect from LPC, approving the proposal on November 28, 2012; and

WHEREAS, in response to questions raised by the Board regarding whether the existing facade and signage had been approved by LPC, the applicant also submitted a Notice of Compliance from LPC dated November 28, 2012, stating that the work completed at the site, "including the installation of new storefront infill, has been completed in compliance with Certificate of Appropriateness…"; and

WHEREAS, based upon the above, the Board finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Board finds that the hardship herein was not created by the owner or a predecessor in title; and

WHEREAS, the applicant represents that the proposal represents the minimum variance needed to allow for a reasonable and productive use of the site; and

WHEREAS, the applicant notes that there is no proposed increase in the bulk of the building; and

WHEREAS, accordingly, the Board finds that this proposal is the minimum necessary to afford relief; and

WHEREAS, thus, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as a Type I action pursuant to 6 NYCRR, Sections 617.6(h) and 617.2(h) of 6 NYCRR; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 13BSA038M, dated October 3, 2012; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 to permit, in an M1-5B zoning district within the SoHo-Cast Iron Historic District, the legalization of the first floor of an existing two-story building to a commercial retail use (UG 6) with accessory retail use in the cellar, contrary to ZR § 42-14(d)(2)(b); *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received January 11, 2013"–(8) sheets; and *on further condition*:

THAT no eating and drinking establishment will be permitted on the site;

THAT this approval is limited to the relief granted by the Board, in response to specifically cited and filed

DOB/other jurisdiction objection(s) only;

THAT substantial construction shall be completed pursuant to ZR § 72-23;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, January 15, 2013.

16-12-BZ

APPLICANT – Eric Palatnik, P.C., for Congregation Adas Yereim, owner.

SUBJECT – Application January 23, 2012 – Special Permit (§73-19) to allow for a school (*Congregation Adas Yereim*) contrary to use regulations (§42-00). M1-2 zoning district.

PREMISES AFFECTED – 184 Nostrand Avenue, northwest corner of Nostrand Avenue and Willoughby Avenue, Block 1753, Lot 42, 43, Borough of Brooklyn.

COMMUNITY BOARD #4BK

ACTION OF THE BOARD – Laid over to February 12, 2013, at 1:30 P.M., for continued hearing.

43-12-BZ

APPLICANT – Raymond H. Levin, Wachtel & Masyr, LLP, for SDS Great Jones, LLC, owner.

SUBJECT – Application February 17, 2012 – Variance (§72-21) to permit a residential building, contrary to use regulations (§42-00). M1-5B zoning district.

PREMISES AFFECTED – 25 Great Jones Street, lot fronting on both Great Jones and Bond Street, between Lafayette and Bowery Streets, Block 530, Lot 19, Borough of Manhattan.

Present: Chair Srinivasan, Vice-Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez.

SPECIAL ORDER CALENDAR

548-69-BZ
APPLICANT – Eric Palatnik, P.C., for BP North America, owner.
SUBJECT – Application March 27, 2012 – Extension of Term for a previously granted variance for the continued operation of a gasoline service station (*BP North America*) which expired on May 25, 2011; Waiver of the Rules. R3-2 zoning district
PREMISES AFFECTED – 107-10 Astoria Boulevard, southeast corner of 107th Street, Block 1694, Lot 1, Borough of Queens.
COMMUNITY BOARD #3Q
ACTION OF THE BOARD – Application granted on condition.
THE VOTE TO GRANT –
Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5
Negative:.....0
THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure, a reopening, and an extension of term of a prior grant for an automotive service station, which expired on May 25, 2011; and

WHEREAS, a public hearing was held on this application on August 7, 2012, after due notice by publication in *The City Record*, with continued hearings on September 25, 2013, October 30, 2012 and January 8, 2013, and then to decision on January 29, 2013; and

WHEREAS, Community Board 3, Queens, recommends approval of this application with the following conditions: (1) the surface mounted refueling caps on the underground gasoline storage tanks be lowered to minimize scraping to the underside of cars and possible tripping hazards; and (2) curb cuts and sidewalk flags at 108th Street be repaired and resurfaced; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, and Commissioner Montanez; and

WHEREAS, the subject site is an irregularly-shaped corner through lot bounded by 107th Street to the west, Astoria Boulevard to the north, and 108th Street to the east, within an R3-2 zoning district; and

WHEREAS, the site is occupied by a one-story automotive service station with an accessory convenience store; and

WHEREAS, the Board has exercised jurisdiction over the subject site since May 25, 1971 when, under the subject calendar number, the Board granted a variance to permit the construction of an automotive service station with accessory signs restricted to the pumping of gasoline, which omitted automotive service and repair, for a term of ten years; and

WHEREAS, subsequently, the term was extended and the grant amended by the Board at various times; and

WHEREAS, most recently, on August 12, 2003, the Board granted a ten-year extension of term and an amendment to legalize a change of use from an accessory storage building to an accessory convenience store, to expire on May 25, 2011; and

WHEREAS, the applicant now seeks an extension of term for ten years; and

WHEREAS, at hearing, the Board directed the applicant to provide landscaping on the site, replace the slatted fencing, clean the dumpster area, remove the ice box, and relocate the shed so it is not visible; and

WHEREAS, in response, the applicant submitted photographs reflecting that landscaping has been planted on the site, the fence has been repaired, the dumpster area has been cleaned, and the ice box has been removed; and

WHEREAS, as to the Board's request to relocate the shed from the northeast corner of the site, the applicant states that the 10'-0" by 10'-0" shed is currently located in the most concealed position possible and it cannot be placed behind the convenience store, as requested, because there is only 8'-0" separating it from the fencing along the rear lot line; and

WHEREAS, in response to the concerns raised by the Community Board, the applicant submitted a letter from the project manager stating that (1) it is essential that the gas tanks remain elevated in order to prevent water from seeping into the tank manways, and (2) the change in grade at the 108th Street exit is necessary for on-site draining and that it acts as traffic control (like a speed bump) to ensure drivers do not "shoot out" of the site which could be potentially dangerous due to the close proximity of the curb cut to the intersection; and

WHEREAS, the Board accepts the applicant's explanations in response to the conditions proposed by the Community Board, and agrees that the shed on the site is not significantly visible from the street due to the topography on that portion of the site; and

WHEREAS, accordingly, based upon the submitted evidence, the Board finds that the requested extension of term is appropriate, with certain conditions as set forth below.

Therefore it is Resolved that the Board of Standards and Appeals *waives* the Rules of Practice and Procedure, *reopens*, and *amends* the resolution, as adopted on May 25, 1971, as subsequently extended and amended, so that as amended this portion of the resolution shall read: "to permit an extension of term for an additional period of ten years from the expiration of the prior grant, to expire on May 25, 2021; *on condition* that the use shall substantially conform to drawings as filed with this application, marked 'Received October 18, 2013"–

(3) sheets, and *on further condition*:

THAT the term of this grant will be for ten years from the expiration of the prior grant, to expire on May 25, 2021;

THAT landscaping will be maintained in accordance with the BSA-approved plans;

THAT the site will be maintained free of debris and graffiti;

THAT signage will comply with C1 district regulations;

THAT the above conditions will be listed on the certificate of occupancy;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted."

(DOB Application No. 401636510)

Adopted by the Board of Standards and Appeals, January 29, 2013.

136-06-BZ

APPLICANT – Law Office of Fredrick A. Becker, for Fulton View Realty, LLC, lessee.

SUBJECT – Application August 24, 2012 – Extension of Time to complete construction of a previously approved variance (§72-21) which permitted the residential conversion and one-story enlargement of three, four-story buildings. M2-1 zoning district.

PREMISES AFFECTED – 11-15 Old Fulton Street, between Water Street and Front Street, Block 35, Lot 7, 8 & 9, Borough of Brooklyn.

COMMUNITY BOARD #2BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure, a reopening, and an extension of time to complete construction of a previously granted variance to permit the residential conversion and one-story enlargement of three existing four-story buildings, which expired on May 8, 2011; and

WHEREAS, a public hearing was held on this application on January 8, 2013, after due notice by publication in *The City Record*, and then to decision on January 29, 2013; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, the subject site is located on the north side of Old Fulton Street, between Front Street and Water Street, in an M2-1 zoning district within the Fulton Ferry Historic District; and

WHEREAS, on May 8, 2007, under the subject calendar number, the Board granted a variance to permit the proposed residential conversion and one-story enlargement of three adjacent four-story buildings, with ground floor retail and 15 dwelling units, contrary to ZR §§ 42-10, 43-12, 43-26, and 54-31; and

WHEREAS, substantial construction was to be completed by May 8, 2011, in accordance with ZR § 72-23; and

WHEREAS, the applicant states that due to financing delays, additional time is necessary to complete the project; thus, the applicant now requests an extension of time to complete construction; and

WHEREAS, the applicant represents that the owner is now prepared to proceed with construction; and

WHEREAS, based upon its review of the record, the Board finds that the requested extension of time to complete construction is appropriate with certain conditions as set forth below.

Therefore it is Resolved that the Board of Standards and Appeals *waives* the Rules of Practice and Procedure, *reopens*, and *amends* the resolution, dated May 8, 2007, so that as amended this portion of the resolution shall read: "to grant an extension of the time to complete construction for a term of four years, to expire on January 29, 2017; *on condition*:

THAT substantial construction will be completed by January 29, 2017;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted."

(DOB Application No. 301564162)

Adopted by the Board of Standards and Appeals, January 29, 2013.

208-08-BZ
APPLICANT – Law Office of Fredrick A. Becker, for Desiree Eisenstadt, owner.
SUBJECT – Application October 25, 2012 – Extension of Time to Complete Construction of an approved special permit (§73-622) to permit the enlargement of an existing single family residence which expired on October 28, 2012. R2 zoning district.
PREMISES AFFECTED – 2117-2123 Avenue M, northwest corner of Avenue M and East 22nd Street, Block 7639, Lot 1 &3(tent.1), Borough of Brooklyn.
COMMUNITY BOARD #14BK
ACTION OF THE BOARD – Application granted on condition.
THE VOTE TO GRANT –
Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5
Negative:.....0
THE RESOLUTION –

WHEREAS, this is an application for a reopening and an extension of time to complete construction of a previously granted special permit for the enlargement of a single-family home, which expired on October 28, 2012; and

WHEREAS, a public hearing was held on this application on January 8, 2013, after due notice by publication in *The City Record*, and then to decision on January 29, 2013; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Montanez and Commissioner Ottley-Brown; and

WHEREAS, the subject site is located at the northwest corner of the intersection of Avenue M and East 22nd Street, within an R2 zoning district; and

WHEREAS, on October 28, 2012, under the subject calendar number, the Board granted a special permit pursuant to ZR § 73-622 to allow the enlargement of a single-family home, contrary to ZR §§ 23-141 and 23-461; and

WHEREAS, substantial construction was to be completed by October 28, 2012, in accordance with ZR § 73-70; and

WHEREAS, the applicant states that due to financing delays, additional time is necessary to complete the project; thus, the applicant now requests an extension of time to complete construction; and

WHEREAS, based upon its review of the record, the Board finds that the requested extension of time to complete construction is appropriate with certain conditions as set forth below.

Therefore it is Resolved that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated October 28, 2008, so that as amended this portion of the resolution shall read: "to grant an extension of the time to complete construction for a term of four years, to expire on January 29, 2017; *on condition*:

THAT substantial construction will be completed by January 29, 2017;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted."
(DOB Application No. 310165335)

Adopted by the Board of Standards and Appeals, January 29, 2013.

THE RESOLUTION –

WHEREAS, the decision of the Staten Island Commissioner Borough Commissioner, dated September 9, 2011, acting on Department of Buildings Application Nos. 520066945, 520066963,5200666954,520067025,520067105, 520067098, 520067089, 520067070, 520067061, 520067052, 520067043, 520067034, 520067258, 520067267, 520067276, 520067285, 520067588, 520067294, and 520067301, reads in pertinent part:

1. The streets giving access to proposed new building is not duly placed on the official map of the City of New York therefore:
   a. No Certificate of Occupancy can be issued pursuant to Article 3, Section 36 of the General City Law.
   b. Proposed construction does not have at least 8% of the total perimeter of building fronting directly upon a legally mapped street or frontage space contrary to Section 501.3.1 of the New York City Building Code.
2. Proposed development including site appurtenances is located in the bed of streets duly placed on the official map of the City of New York therefore:
   a. No permit can be issued pursuant to Article 3, Section 35 of the General City Law.

Therefore refer to the Board of Standards and Appeals for further review; and

WHEREAS, this is an application to amend previously approved General City Law ("GCL") §§ 35 and 36 applications which allowed for construction in the bed of a mapped street; and

WHEREAS, a public hearing was held on this application on September 25, 2012, after due notice by publication in *The City Record*, and then to decision January 29, 2013; and

WHEREAS, Community Board 2, Staten Island, recommends disapproval of this application; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Montanez and Commissioner Ottley-Brown; and

WHEREAS, the subject site is located on the north side of Hall Avenue, between WIllowbrook Road and Hawthorne Avenue, within an R3-1 zoning district; and

WHEREAS, on May 11, 2004, the Board granted an application under GCL §§ 35 and 36 to permit the construction of 20 three-story one-family semi-detached homes in the bed of a mapped street, Hall Avenue; and

WHEREAS, the applicant states that the approved homes have not been constructed and subsequent to the Board's grant the proposal has been revised; and

WHEREAS, on August 14, 2009, the Board issued a letter of substantial compliance approving (1) the modification of the site plan to reflect the construction of one two-family home on tax lots 60 and 61 instead of two semi-detached single-family homes as previously approved, (2) the merger of tax lots 60 and 61 into one tax lot (tax lot 60) on which the two-family home would be built, and (3) the subdivision of the

single zoning lot that was approved for the entire project (Lot 80) into 19 individual zoning lots; and

WHEREAS, the applicant now seeks to construct 18 one-family, three-story semi-detached homes and one two-family, three-story, detached home located in the bed of Hall Avenue; and

WHEREAS, on August 24, 2010, the Fire Department approved a site plan for access on locations of hydrants; and

WHEREAS, by letter dated November 23, 2011, the Department of Environmental Protection ("DEP") states that (1) there are no existing City sewers or existing City water mains at the site, (2) Amended Drainage Plan No. D-9 (R-16), dated April 10, 1979, calls for two future ten-inch diameter sanitary sewers and a 13'-6" by 5'-6" storm sewer in Hall Avenue between Hawthorne Avenue and Willowbrook Road, and (3) the applicant submitted a drawing showing a 30'-0" wide sewer easement on the south side of Hall Avenue; and

WHEREAS, DEP further states that it requires the applicant to submit a survey/plan showing the sewer corridor in the bed of Hall Avenue for the installation, maintenance, and/or reconstruction of the future 13'-6" by 5' 6" storm sewer and two ten-inch diameter sanitary sewers; and

WHEREAS, in response to DEP's request the applicant submitted a drawing showing a 30'-0" wide sewer easement along the northerly portion of the development for the installation, maintenance and or reconstruction of the future 13'-6" by 5'-6" storm sewer, and a 38'-0" wide easement on the south side of Hall Avenue, which will be available for the installation, maintenance, and/or reconstruction of the two future ten-inch diameter sanitary sewers and other utilities; and

WHEREAS, by letter dated January 6, 2012, DEP states that, based on the drawing submitted by the applicant, it has no objection to the proposed application; and

WHEREAS, by letter dated December 6, 2011, the Department of Transportation ("DOT") requested that the applicant provide the following information: (1) a title search to determine the ownership of Darcy Lane, a record street; (2) a site plan clearly displaying the mapped street right-of-way and the property lines of the applicant's property (Block 2090, Lot 110 & Block 2091, Lot 11), and of the northern boundary of Block 2040, Lot 1; and (3) a traffic study; and

WHEREAS, by letter dated February 1, 2012, DOT states that at the applicant's request it has reconsidered the request for a traffic study and instead will accept a site plan that clearly displays curb cut locations and dimensions, and roadway and sidewalk widths; and

WHEREAS, by letter dated July 25, 2012, DOT states that the Law Department has reviewed the title search provided by the applicant and determined that the northern half of Darcy Lane is owned by the City, however the southern half of Darcy Lane is under the jurisdiction of the Dormitory Authority of the State of New York; therefore, DOT requests that the applicant revise the application, plans, and related document accordingly and submit for further review; and

WHEREAS, in response to DOT's request the applicant submitted revised plans which include a survey of Hall Avenue, an approved Builder's Pavement Plan, and a map of the property, and which show the correct location of Darcy Lane as it relates to the subject site and the adjacent lot (the College of Staten Island); and

WHEREAS, by letter dated January 9, 2013 DOT states that the revised plan submitted by the applicant reflects that the southern half of Darcy Lane is within Block 2040 Lot 1 under the jurisdiction of the Dormitory Authority of the State of New York, and the improvement of Hall Avenue and a portion of Darcy Lane at this location, which would involve the taking of a portion of the applicant's property (Block 2091, lot 11 and Block 2090, lot 110) is not presently included in DOT's Capital Improvement Program; and

WHEREAS, accordingly, the Board has determined that the applicant has submitted adequate evidence to warrant this approval under certain conditions.

Therefore it is Resolved that the decision of the Staten Island Borough Commissioner, dated September 9, 2011, acting on Department of Buildings Application Nos. 520066945, 520066963, 5200666954, 520067025, 520067105, 520067098, 520067089, 520067070, 520067061, 520067052, 520067043, 520067034, 520067258, 520067267, 520067276, 520067285, 520067588, 520067294, 520067301, is modified by the power vested in the Board by Sections 35 and 36 of the General City Law, and that this appeal is granted, limited to the decision noted above; *on condition* that construction shall substantially conform to the drawing filed with the application marked "Received January 24, 2013" (1) sheet; that the proposal shall comply with all applicable zoning district requirements; and that all other applicable laws, rules, and regulations shall be complied with; and *on further condition*:

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT DOB shall review the proposed plans to ensure compliance with all relevant provisions of the Zoning Resolution;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals January 29, 2013

117-12-A, 118-12-A, 125-12-A, 126-12-A, 128-12-A, 129-12-A, 131-12-A, 132-12-A, 133-12-A, 182-12-A, 186-12-A, 187-12-A, 188-12-A

APPLICANT –

Stroock & Stroock & Lavan, LLP, for CBS Outdoor Inc., lessee

Davidoff Hutcher & Citron LLP, for Lamar Advertising, lessee.

Herrick Feinstein, LLP for Clear Channel Outdoor, Inc.

OWNER OF PREMISES – MTA

SUBJECT – Application April 25, 2012 and June 11, 2012 – Appeal challenging Department of Buildings' determination that multiple signs located on railroad properties are subject to the NYC Zoning Resolution.

PREMISES AFFECTED –

QUEENS:

Van Wyck Expressway and Atlantic Avenue (Block 9989, Lot 70);

Brooklyn Queens Expressway and Queens Boulevard (Block 1343, Lots 129 and 139);

Long Island Expressway/east of 25th Street (Block 110, Lot 1);

Queens Boulevard and 74th Street (Block 2448, Lot 213);

Van Wyck Expressway/north of Roosevelt Avenue (Block 1833, Lot 230);

Woodhaven Boulevard/north of Elliot Avenue (Block 3101, Lot 9)

BRONX:

Major Deegan Expressway (Block 2539, Lot 506 and Block 2541, Lot 8900)

Major Deegan Expressway and 161st Street, (Block 2493, Lot 1)

COMMUNITY BOARD #1/2/4/6/12Q and 4BX

ACTION OF THE BOARD – Appeal Denied.

THE VOTE TO GRANT –

Affirmative: Vice Chair Collins and Commissioner Ottley-Brown.....2

Negative: Chair Srinivasan, Commissioner Hinkson and Commissioner Montanez 3

THE RESOLUTION –

WHEREAS, the subject appeal comes before the Board in response to a total of 13 Notice of Sign Registration Rejection letters from the Queens and Bronx Borough Commissioners of the Department of Buildings ("DOB"), dated March 26, 2012 and May 10, 2012, denying registration for signs at the subject sites (the "Final Determination"), which read, in pertinent part:

> The Department of Buildings is in receipt of additional documentation submitted in response to the Deficiency Letter from the Signs Enforcement Unit and in connection with the application for registration of the above-referenced sign. Unfortunately, we find this documentation inadequate to support the registration of the sign and, as such, the sign is rejected from registration.
>
> This sign will be subject to enforcement action 30 days from the issuance of this letter; and

WHEREAS a public hearing was held on this application on October 17, 2012, after due notice by publication in *The City Record*, with a continued hearing on December 11, 2012, and then to decision on January 29, 2013; and

WHEREAS, the subject appeal concerns 13 signs located on numerous sites in the Bronx and Queens within C2, C2-3, C4-4, M1-1, M3-1, M3-2, R3A, R4, R4-1, R5B, R7A, and R7X zoning districts (the "Signs"); and

WHEREAS, the sites are all occupied by advertising signs on Metropolitan Transportation Authority (MTA) property; and

WHEREAS, this appeal is part of a larger body of appeals brought by CBS, Lamar Advertising and Clear Channel, all outdoor advertising sign companies that are subject to registration requirements under Local Law 51 of 2005; and

WHEREAS, the Board notes that under Local Law 31 of 2005, the New York City Council enacted certain amendments to existing regulations governing outdoor advertising signs as a means for DOB to enforce the sign laws where signs had been erected and were being maintained without a valid permit; and

WHEREAS, pursuant to Article 502 (specifically, Building Code § 28-502.4), an outdoor advertising company is required to submit to DOB an inventory of all signs, sign structures and sign locations (i) within a distance of 900 linear feet (274 m) from and within view of an arterial highway; or (ii) within a distance of 200 linear feet [60.96 m] from and within view of a public park with an area of one-half acre (5,000 m) or more; and

WHEREAS, pursuant to the requirements of Article 502 and Rule 49 with respect to signs within 900 feet of arterial highways, each of the Appellants submitted an inventory of outdoor signs under its control and completed a Sign Registration Application for each sign and an OAC3 Outdoor Advertising Company Sign Profile; and

WHEREAS, DOB, by letters, dated March 26, 2012 and May 10, 2012, issued the determination related to 13 signs on MTA property within CBS, Lamar Advertising, and Clear Channel's inventory, which form the basis of the appeal; and

WHEREAS, at the consent of the three Appellants – one representing signs operated by CBS, one representing signs operated by Clear Channel, and one representing signs operated by Lamar Advertising, the Board heard and reviewed a total of 38 appeal applications (for 38 permits and 38 rejection letters) on the same hearing calendar; on January 29, 2013, the Board rendered a decision related to the applicability of the Zoning Resolution on Amtrak properties (BSA Cal. Nos. 130-12-A and 171-12-A through 179-12-A), CSX properties (BSA Cal. Nos. 119-12-A through 124-12-A, 127-12-A, 134-12-A, 135-12-A, 180-12-A, 273-12-A, and 274-12-A), and property formerly

controlled by the Department of Ports and Trade (BSA Cal. Nos. 183-12-A through 185-12-A); and

WHEREAS, the companion decisions cover the 25 applications not addressed in this resolution, which is solely for the 13 MTA signs; and

WHEREAS, DOB appeared and made submissions in opposition to this appeal; and

THE APPELLANT'S POSITION

WHEREAS, the Appellant contends that DOB's enforcement against the Signs is preempted by (1) the clear language of the MTA enabling statute; (2) New York State case law that addresses commercial enterprises on government property; and (3) the fact that the New York City Transit Authority (NYCTA) has the explicit right to signage that is inconsistent with zoning; and

A. Signs on MTA Properties are Exempt from Signage Regulations

1. A Plain Reading of the Public Authorities Law (PAL) § 1266(8) Sets Forth the Exemption

WHEREAS, the Appellant asserts that as a public benefit corporation created under State law, the MTA has a statutory exemption from local regulation, which is set forth at Public Authorities Law (PAL) § 1266(8) (*Metropolitan Commuter Transportation Authority/Special Powers of the Authority*); and

WHEREAS, the Appellant cites to PAL § 1266(8):

> The authority may do all things it deems necessary, convenient or desirable to manage, control and direct the maintenance and operation of transportation facilities, equipment or real property operated by or under contract, lease or other arrangement with the authority and its subsidiaries, and New York city transit authority and its subsidiaries; and

WHEREAS, the Appellant asserts that the enabling statute grants it broad special powers to effectuate its goals and to "do all the things necessary, convenient or desirable to carry out its purposes;" and

WHEREAS, further, PAL § 1266(8) provides that:

> local laws, resolutions, ordinances, rules and regulations of a municipality . . . conflicting with this title or any rule or regulation of the authority … shall not be applicable to the activities or operations of the authority … or the facilities of the authority and its subsidiaries … except such facilities that are devoted to purposes other than transportation or transit purposes; and

WHEREAS, the Appellant asserts that PAL § 1266(8) expressly preempts the City's signage regulations because the signs serve a transportation purpose under the plain statutory terms; and

WHEREAS, the Appellant contends that the MTA enabling statute states that local regulations are not applicable to MTA if it conflicts with the MTA's enabling statute, except those that are not devoted to transportation or transit purposes; and

WHEREAS, the Appellant asserts that the Zoning Resolution is a local regulation that conflicts with the MTA's enabling statute and therefore, is inapplicable to MTA unless the facilities owned, used, or leased by MTA are not for transportation or transit purposes; and

WHEREAS, the Appellant asserts that the Signs, by generating significant revenues for MTA, serve a transportation purpose; and

WHEREAS, in support of its assertion that "transportation or transit purposes" should be interpreted broadly, the Appellant cites to PAL § 1261(13)'s definition of railroad facilities, which reads in pertinent part:

> buildings, structures, and areas notwithstanding that portions thereof may not be devoted to any railroad purpose other than the production of revenues available for the costs and expenses of all or any facilities of the authority; and

WHEREAS, the Appellant states that "transportation purpose" is as broad as "railroad facilities" and this includes portions of railroad facilities, like signs, devoted only to revenue, because the same word or phrase used in different parts of a statute will be presumed to be used in the same sense throughout, and the same meaning will be attached to similar expressions in the same or a related statute, except if the statute provides otherwise (N.Y.Stat. Law 236 (McKinney 1971)); and

WHEREAS, the Appellant asserts that MTA's purpose includes the continuance, development and improvement of commuter transportation, and the legislature expressly declared that such purpose is for the benefit of all people of the State and that MTA is performing an essential governmental function (see PAL § 1264); the Appellant asserts that the goals and purposes of MTA are clear that any attempt to regulate Signs on MTA properties by the City would directly contravene MTA's on-going effort to provide an essential governmental function and fulfill the legislature's purpose and goals given to MTA; and

WHEREAS, the Appellant states that even if incidental uses, like the Signs, must provide a public benefit, the Board must still find the Signs to be exempt since the Signs provide a public benefit and serve a public purpose similar to how other commercial establishments in guiding case law were found to have some benefit as they are used in part by commuters and employees of the public authorities; and

WHEREAS, the Appellant asserts that the Signs provide a public benefit in that they make available to the commuters and the general public valuable information about products so that commuters and the public can make informed decisions about the marketplace; and

WHEREAS, further, the Appellant asserts that the Signs' service is akin to and greater than the benefits conferred by the restaurants and other commercial enterprises on governmental authorities' property recognized by New York State courts; and

2. The Signs are Exempt Pursuant to the Holdings of New York State Courts

WHEREAS, the Appellant cites to two primary cases to support its claim that the MTA is exempt from sign

regulations: MTA v. City of New York, 70 A.D.2d 551 (1st Dept 1979) ("Grand Central") and Penny Port v. NYC Dept of Health, 276 A.D.2d 1014, (1st Dept 2000); and

WHEREAS, the Appellant asserts that the fact that MTA properties are exempt from local law and regulation is a long-standing, well-established proposition of law, held most prominently in Grand Central in which the Appellate Division held that the commercial enterprises at Grand Central Station (*e.g*., food stores and drug stores) were "incidental to transportation upon railroad facilities," and therefore exempt from local taxes, pursuant to PAL § 1275 (*Exemptions from Taxation)*; and

WHEREAS, the Appellant asserts that the meaning given "transportation purpose" in Grand Central applies to PAL § 1266(8) (*Special Powers of the Authority)*, which preempts the City's laws, rules and regulations that conflict with MTA's enabling statute to the extent that it serves a transportation purpose; and

WHEREAS, the Appellant looks to Penny Port, in which the court determined that the City could not enforce its anti-smoking law against a restaurant in Grand Central Station because the restaurant within the station serves a transportation purpose as contemplated by PAL § 1266(8); and

WHEREAS, the Appellant states that Grand Central and Penny Port held that commercial enterprises create revenue for the MTA and are incidental to transportation facilities and that Grand Central and Penny Port are consistent with the "railroad facilities" definition at PAL § 1261(13), which recognizes that buildings, structures and areas, even if they are not devoted to any railroad purpose other than the production of revenue, are railroad facilities and serve a transportation purpose; and

WHEREAS, the Appellant likens the commercial enterprises at Grand Central Station to the Signs on MTA properties, because they are "incidental to transportation upon railroad facilities," and serve a transportation purpose in that revenues generated from the Signs support MTA's operation and finds that there is no distinction between the Signs and the commercial enterprises in the station just because they are in the station; and

WHEREAS, the Appellant asserts that the signs and the railroad tracks and related facilities form a single transportation facility with the income derived from the Signs applied toward defraying the costs and expenses of the entire facility; and

WHEREAS, in support of its position about sites with co-existing government and revenue-generating purposes, the Appellant cites to (1) Bush Terminal v. City of New York, 282 N.Y. 306 (1st Dept 1940) in which the court found that a commercial tower above a terminal base was exempt since the use of that building was "purely incidental to the purpose of the Port Authority to operate a terminal facility;" (2) NYC Transit Authority v. NYC Department of Finance, NYLJ 18, August 7, 2002 in which the court found that "agencies or public authorities do not lose their tax exemption simply because they derived incidental revenue in connection with their use of the property"; and (3) Hotel Dorset v. Trust for Cultural Resources of the City of New York, 46 N.Y.2d 358, 371 (1978) citing Bush Terminal stated that "property held by a State agency primarily for a public use does not lose immunity because the State agency incidentally derives income from the property" and further that the term incidental "does not mean that the public use must . . . outweigh the private use to which the facility is put;" and

WHEREAS, the Appellant asserts that in cases where preemption was found, the commercial enterprise or establishment was deemed incidental to transportation or other governmental purposes (a restaurant inside Grand Central Station, other commercial establishments within Grand Central Station, office and retail tenants in a headquarters building for certain public authorities); and

WHEREAS, the Appellant contrasts its guiding case law with that introduced by DOB; and

WHEREAS, specifically, the Appellant asserts that DOB ignores decades of law and relies on outmoded authority, namely People v. Witherspoon, 52 Misc.2d 320 (N.Y.Dist.Ct. 1966); a 1982 Attorney General's Opinion (1982 N.Y. Op. Atty. Gen. (Inf.) 107, 1982 WL 178319) (the "1982 Attorney General Opinion); and a 1979 N.Y.S. Comptroller Opinion (the "1979 Comptroller Opinion"); and

WHEREAS, as to Witherspoon, the Appellant asserts that it is not binding on the Board as it has effectively been overruled by Grand Central and Matter of County of Monroe, 72 N.Y.2d 338, 341 and 345 (1988) in which the court applied a balancing of public interests test and found that, under the balancing test, an airport terminal, parking facilities, and freight facility at an airport were immune from local land use regulations because they were incidental to an airport operation; and

WHEREAS, further, the Appellant asserts that the governmental/proprietary function test employed in Witherspoon to establish whether laws could be enforced against signs on MTA property is no longer applicable and that the court today would not reach the same conclusion as it did in Witherspoon that the signs served a proprietary rather than a governmental purpose and may be regulated; and

WHEREAS, the Appellant asserts that subsequent Attorney General and court opinions rely on the "balancing of public interests test for analyzing which governmental interest should prevail when there is a conflict" and that a 1996 Attorney General's Opinion (N.Y. Op. Atty Gen. 1120, (1996 WL 785984)) (adopting Monroe) labeled the governmental/proprietary function test "outmoded and difficult to apply;" and

WHEREAS, accordingly, the Appellant asserts that the Board can find no valid support in Witherspoon's ultimate ruling even if the issue is directly analogous to the facts in this appeal, as DOB contends; and

WHEREAS, the Appellant asserts that the 1982 Attorney General Opinion and the 1979 Comptroller Opinion are similarly superseded; and

WHEREAS, the Appellant asserts that Grand Central is the only currently valid case regarding preemption in this context; and

WHEREAS, the Appellant asserts that neither Witherspoon's test nor the Monroe balancing test apply since the MTA is specifically exempted from zoning and the Monroe test is only triggered "in the absence of an expression of contrary legislative intent;" and

WHEREAS, the Appellant concludes that, in the alternate, if the test were applied, each Monroe factor favors continuation of the status quo and a determination that local laws and regulations should not be permitted to infringe on the statutory authority and mandate of the MTA; and

WHEREAS, the Appellant asserts that the Penny Port decision, after Monroe, does not mention Monroe because Penny Port found express preemption under MTA's enabling statute and therefore never got to the Monroe balancing test because that is the only way to reconcile Monroe; and

3. MTA has All of the Powers of the NYCTA, including the Power to Erect Advertising Signs

WHEREAS, the Appellant contends that the MTA, as the controlling entity of NYCTA, has very broad authority, greater than that granted to NYCTA, and therefore should, like the NYCTA, be exempt from the City's signage regulations; and

WHEREAS, the Appellant cites to NYCTA's rights to advertising signs as set forth at PAL § 1204(13a) (*General Powers of the NYCTA)*:

> Notwithstanding the provisions of section fourteen hundred twenty-three of the penal law or the provisions of any general, special or local law, code, or ordinance, rule or regulation to the contrary the authority may erect signs or other printed, painted or advertising matter on any property, including elevated structures, leased or operated by it or otherwise under its jurisdiction and control may rent, lease or otherwise sell the right to do so to any person, private or public; and

WHEREAS, the Appellant asserts that NYCTA's right to install advertising signs was added to its enabling statute at the request of the NYCTA, which, in 1959, was concerned that an interpretation of the State Penal Law would prohibit the use of its property for revenue-generating advertising signs; and

WHEREAS, the Appellant asserts that the legislative history provides evidence that this authority was added to clarify that NYCTA can have advertising signs on its property, not to grant to NYCTA a new right regarding advertising signs; and

WHEREAS, the Appellant states that given that MTA (i) was established to, inter alia, strengthen the financial condition of companies providing rail commuter transportation services, (ii) is an umbrella and parent organization that controls various rail transportation authorities, including NYCTA, a subsidiary of MTA and (iii) has broader authority than NYCTA, it is clear that the legislature's intent was to confer, and it is implausible to think that the legislature would not have conferred, upon MTA the right to advertising signs on its properties, the same right that it gave to NYCTA, an entity under the control of, and with less power and authority than, MTA; and

WHEREAS, the Appellant states that further support that MTA has broader authority than NYCTA is that NYCTA can perform only those functions that are "necessary or convenient" (PAL § 1204(14)); to carry out its purpose, while MTA can "do all things necessary, convenient *or desirable* to carry out its purpose" (PAL § 1266(8)); and

WHEREAS, the Appellant states that the reason why a specific provision relating to advertising signs is not found in MTA's enabling statute is because, by 1965, when MTA was created, it was established and commonly understood, that railroad properties can be used for advertising signs, exempt from local regulations; and

WHEREAS, the Appellant states that the City conceded in the Clear Channel litigation that it has no jurisdiction over signs on NYCTA properties; and

WHEREAS, finally, the Appellant states that DOB's position that it can regulate signs on MTA property, but not on NYCTA property, is irrational since, if MTA is deemed to not have the authority to erect advertising signs on its properties, which would be incorrect, MTA can, as the controlling authority of NYCTA, easily legalize all such signs on its properties through leases or other similar arrangements with NYCTA; and

B. Supplemental Arguments in Opposition to DOB's Enforcement

1. The Zoning Resolution Does Not Govern the Use or Development of Railroad Properties

WHEREAS, the Appellant asserts that the City lacks jurisdiction over all railroad properties; and

WHEREAS, the Appellant asserts that the City has stated that the Zoning Resolution "does not govern the use or development of the City's streets and sidewalks," and therefore, signage on or over streets are deemed exempt; the Appellant asserts that railroads are similar to streets in that they serve a similar purpose – the movement of people and goods; and

WHEREAS, the Appellant states that the Zoning Resolution recognizes the similarity between streets and railroad property, as evidenced in the Zoning Resolution's definition of "block," which is defined as a "tract of land bounded by streets, public parks, railroad rights-of-way …"; and

WHEREAS, the Appellant states that additionally, under the New York City Charter § 643(7), DOB lacks jurisdiction over "bridges, tunnels or subways or structures appurtenant thereto;" and

WHEREAS, the Appellant states that since railroads are functionally equivalent to subways and at least some of the Signs are located on railroad overpasses, a type of a

bridge, under the City Charter, DOB's jurisdiction does not extend to railroad properties and to structures appurtenant to railroad properties, such as the Signs; and

WHEREAS, accordingly, the Appellant concludes that the Zoning Resolution and the City Charter preclude DOB from exercising jurisdiction over railroad properties; and

2. DOB's Determination was Arbitrary and Capricious

WHEREAS, the Appellant asserts that DOB's notices of enforcement reflect a sudden change in the agency's position which is presumed to be arbitrary and capricious; and

WHEREAS, the Appellant asserts that for more than 30 years, DOB has taken the position that the City's signage laws and regulations give it no jurisdiction over advertising signs on railroad rights of way and DOB's consistent interpretation of its authority under the zoning laws not to extend to railroad rights of way is well documented; and

WHEREAS, the Appellant states that under the unreasonable departure doctrine, sudden changes in a government agency's position are presumed to be unlawful, which follows "from the policy considerations embodied in administrative law" by which sudden and unexplained changes in an agency's interpretation of laws it is charged with administering are presumed to be arbitrary and capricious; and

WHEREAS, the Appellant states that in Matter of Charles A. Field Delivery Services, 66 N.Y.2d 516, 518 (1985), the Court of Appeals reversed a decision of the Unemployment Insurance Appeal Board because of an unexplained inconsistency with prior decisions of the Board; and

WHEREAS, the Appellant also cites to Richardson v. N.Y. City Dep't of Soc. Svcs., 88 N.Y.2d 35, 40 (1996) in which the Court of Appeals rejected an agency's change in its interpretation of governing statute and implementing regulation as "arbitrary and capricious" where the new interpretation was "diametrically opposite" to the agency's longstanding interpretation of that same provision of law, and where the change was not supported by a "reasoned explanation on the part of the agency;" and

WHEREAS, the Appellant states that the principle underlying these decisions that an unexplained change in an agency's longstanding interpretation of law is presumed improper protects the reasonable expectations of regulated persons and institutions; and

3. DOB Engaged in a Rule Making without the Notice and Comment Procedures Required under the City Administrative Procedure Act (CAPA)

WHEREAS, the Appellant states that even if DOB's change in its interpretation of the signage regulations is found to be lawful, such change in interpretation would still be unlawful as it violates the CAPA; and

WHEREAS, specifically, the Appellant asserts that DOB's change in position regarding signs on railroad properties is tantamount to issuance of a new regulatory rule without the notice and comment procedures required under CAPA; and

WHEREAS, the Appellant states that such a change in regulatory requirements without following CAPA is unlawful; and

4. Many of the Signs are Legal Non-Conforming Uses

WHEREAS, the Appellant asserts that even if the Signs are not deemed to be exempt, many would qualify as legal non-conforming uses and, therefore, be permitted to continue; and

WHEREAS, the Appellant admits that it has not presented a case to establish that the signs are legal non-conforming uses, and that it no longer has much of the records and documentation that would establish many of the Signs as being legal non-conforming uses, but that many of the signs would be deemed legal pursuant to ZR §§ 52-11 and 52-61 related to the continuation of non-conforming uses; and

5. These Enforcement Actions Against the Signs Would Constitute a Regulatory Taking that Requires Just Compensation

WHEREAS, the Appellant asserts that DOB's actions would deprive the MTA of any viable use of its property interest and amount to a regulatory taking, which is a governmental regulation of the uses of a property to so excessive a degree that the regulation effectively amounts to a de facto exercise of the government's eminent domain power; and

WHEREAS, the Appellant states that if DOB is affirmed and the Appellant is compelled to remove the Signs, the Appellant will be entitled to just compensation in the amount of the fair market value of the Signs' location usages under state and federal laws; and

DOB'S POSITION

WHEREAS, DOB asserts that neither state statute nor case law preclude it from enforcing signage regulations against MTA based on the primary arguments that (1) the MTA enabling legislation has a limited meaning, which reflects that mere revenue generation is not a transportation purpose; (2) case law supports a narrower reading of the term "transportation purpose" than the one Appellant posits; and (3) the statute reflects that MTA and NYCTA have separate and unequal authority related to signage regulations; and

A. Signs on MTA Property are Subject to Signage Regulations

1. The Plain Meaning of PAL § 1266(8) Reflects that the City is not Preempted from Enforcing Signage Regulations

WHEREAS, DOB finds that PAL § 1266(8)'s meaning is clear and that "transportation purpose" is more limited than "railroad facilities" in Appellant's citation to PAL § 1261(13); and

WHEREAS, DOB states that the Appellant's claim that PAL § 1261(13) "recognizes that buildings, structures and areas, even if they are not devoted to any railroad

purpose other than the production of revenue, are railroad facilities and serve a transportation purpose" is erroneous; and

WHEREAS, DOB states that the Appellant conflates PAL § 1261(13)'s definition of "[r]ailroad facilities" with § 1266(8)'s statement that MTA's facilities will not be exempt from local regulation if they are "devoted to purposes other than *transportation or transit purposes*"; and

WHEREAS, DOB states that while revenue generation may constitute a "railroad purpose" under PAL § 1261(13)'s definition of "railroad facilities," this does not mean that it is a "transportation or transit purpose" under PAL § 1266(8); in this context (i.e., analysis of a railroad facility's actions), "transportation and transit purposes" is a subset of activities (i.e., those related to moving people from one place to another) that are performed by a railroad facility as part of a more general set of "railroad purpose[s]," which can include purposes not directly related to transportation, such as revenue raising for general operations; and

WHEREAS, DOB states that the legislature must have been aware of the difference in the terms used between PAL § 1261(13) and § 1266(8) because they are so close in the same statute; thus, it seems most reasonable that the legislature intended to use the term "transportation or transit purposes" in 1266(8) to distinguish the scope of local law exemption from the scope of the definition of "railroad facilities;" and

WHEREAS, DOB notes that case law provides that "[w]hen different terms are used in various parts of a statute or rule, it is reasonable to assume that a distinction between them is intended" (Albano v. Kirby, 36 N.Y.2d 526, (N.Y. 1975)); and

WHEREAS, DOB also notes that it is telling that Appellant's argument from PAL § 1261 did not inform the opinions of any of the authorities that have interpreted PAL § 1266(8) (e.g., Witherspoon, the 1982 Attorney General Opinion, and the 1979 Comptroller Opinion), including those that specifically considered the issue of local immunity for commercial advertising signs; and

2. The Principles Set forth in Case Law Support the City's Enforcement of Signage Regulations

WHEREAS, DOB cites to People v. Witherspoon, 52 Misc.2d 320 (N.Y.Dist.Ct. 1966), in which the court considered whether State immunity inured to the sublessee of land owned by the Metropolitan Commuter Transportation Authority (subsequently known as the MTA), which was being used for "commercial advertising signs" in violation of a local zoning ordinance (id., at 323); and

WHEREAS, DOB notes that in analyzing whether the Authority itself would be immune from a local regulation requiring permits for the signs in question, the Witherspoon court said it must look to the "function under study" to determine whether it was a governmental function, in which case "the immunity may be deemed to apply" or a proprietary function, in which case "the immunity may not apply" (id., at 321); and

WHEREAS, DOB notes that the court concluded:

> the use of the real property for the erection and maintenance of commercial advertising signs . . . has no direct bearing to the governmental function for which the . . . Authority was created. On the contrary, such use is merely *incidental* to the goal in chief – the continued operation of the formerly tottering railroads. To that extent the use of the land for that purpose is proprietary. The immunity, insofar as applicable, is a limited one. Witherspoon at 323 (holding that the Authority, and thus its sublessee, is subject to the signs regulation in the local zoning) (emphasis in original); and

WHEREAS, DOB finds that the issue and analysis of Witherspoon are directly analogous to the facts in this appeal, and so Witherspoon's ruling that MTA commercial signs are not eligible for local zoning exemption should apply to the Signs; and

WHEREAS, further, DOB cites to the 1982 Attorney General Opinion in which it considered whether "the Buildings Department of the City of New York may remove commercial billboards erected in violation of the City's zoning laws on ... property in the City owned by the [MTA]"; and

WHEREAS, in this opinion, the Attorney General wrote that Witherspoon is "precisely on point," and that it is:

> in accord with Public Authorities Law 1264 [which generally states that the purposes of MTA are to continue, develop and improve commuter transportation] *and 1266(8)*, which generally authorize local regulation of MTA property not used for transportation purposes, and [in accord] with the general rule in New York that a governmental body
>
> is entitled to immunity from local zoning regulations only where its use of the property in question is in furtherance of a governmental, rather than a proprietary function
>
> Id. at 3-4 (emphasis added); and

WHEREAS, DOB states that the Attorney General concluded that, "the construction and maintenance of commercial billboards on MTA property must be in compliance with the City's zoning ordinance" and "the City of New York may provide for the removal of commercial billboards erected in violation of its zoning law on property owned by MTA" (id.); and

WHEREAS, DOB states that the Appellant mistakenly argues that Witherspoon and the Attorney General's opinion are "erroneous or superseded" by Grand Central because Grand Central interpreted a different statute (i.e., PAL § 1275 rather than § 1266(8)), which applies to taxation rather than special powers of the authority, and which has different requirements for local law exemption; and

WHEREAS, DOB states that PAL § 1275 reads, in pertinent part, "property owned by the [MTA], property leased by the authority and used for transportation purposes,

and property used for transportation purposes by or for the benefit of the authority ... shall all be exempt from taxation....”; and

WHEREAS, DOB states that on its face, PAL § 1275 requires less of a connection between MTA-leased property and transportation purposes for tax exemption than § 1266(8) requires for local law exemption; by its terms, as long as a facility is used for transportation purposes, apparently, even incidentally, PAL § 1275 would exempt the property from taxation; and

WHEREAS, DOB states that in Grand Central, the Appellate Division upheld a lower court ruling that portions of Grand Central Station “used as food stores, drugstores, and other commercial enterprises, [] which cater to both commuters and passersby, are nonetheless used for transportation purposes,” and are thus exempt from tax regulation under PAL § 1275; the Appellate Division stated that “the commercial enterprises create revenue for the MTA and are incidental to transportation upon railroad facilities;” and

WHEREAS, DOB states that even if revenue generation by itself were considered incidental to transportation purposes and sufficient to qualify MTA for tax exemption under PAL § 1275, this tax exemption standard is different from PAL § 1266(8)’s exemption from local jurisdiction; PAL § 1266(8) excludes from local law exemption any facilities “devoted to purposes other than transportation or transit purposes;” and

WHEREAS, DOB states that assuming *arguendo*, that the Signs have an incidental transportation purpose, the Sign facilities, as commercial advertisements, are “devoted to purposes other than transportation or transit purposes” and are thus ineligible for exemption under 1266(8); and

WHEREAS, DOB asserts that the difference in scope between general local law exemption and tax exemption under PAL § 1275 was clearly considered by the Witherspoon court when it ruled that the signs were not eligible for general local zoning exemption, but that the fee charged for the required local signs permit “might be in contravention of *section 1275*” (52 Misc.2d at 596 (emphasis in original)); and

WHEREAS, DOB contends that it is also significant that the Grand Central court never said, as Appellant does, that the generation of revenue *itself* is a “transportation purpose” but rather, the fact that the stores at issue in Grand Central “cater to both commuters and passersby” was critical to the court’s ruling that the stores were “being used for transportation purposes” (70 A.D.2d at 613); and

WHEREAS, DOB notes that the Grand Central court even drew a distinction between mere revenue generation and activities catering to commuters when it said “the commercial enterprises create revenue for the MTA *and are incidental* to transportation upon railroad facilities” (emphasis added) (id. at 614) because the court did not say “the enterprises create revenue for the MTA *and are thus* incidental to transportation,” the court apparently believed that mere revenue generation – without a connection to the transportation station and passengers – would not even be “incidental to transportation;” and

WHEREAS, DOB asserts that the Signs at issue in this case have no connection to transportation purposes other than the revenue they generate for MTA; thus, the ruling of Grand Central, even if it were applicable to PAL § 1266(8), is not applicable to the facts at issue in this appeal, and it does not establish the Signs’ exemption from regulation under PAL § 1266(8); and

WHEREAS, DOB states that Witherspoon is the only case to consider the applicability of local zoning restrictions on MTA commercial advertising signs, and it even distinguished between general exemption and tax exemption under PAL § 1275, thus, Witherspoon is the best legal authority on this issue; and

WHEREAS, DOB disagrees with the Appellant’s position that since Monroe, courts no longer use the governmental versus proprietary interests test used by Witherspoon in determining a government’s obligation to comply with local regulations, therefore, Witherspoon “has effectively been overruled;” and

WHEREAS, DOB asserts that although courts since Monroe have used a different analysis to determine cases of local law application to government entities, Witherspoon’s holding, that MTA signs are subject to DOB’s jurisdiction has not been overruled; and

WHEREAS, DOB does not find any support for Appellant’s position that it is “illogical to conclude that a court would now reach the same conclusion as in Witherspoon that the MTA is subject to local zoning regulations” as it is not up to the Board to guess what a court would conclude when Witherspoon has already ruled on this issue and has not been overruled; and

WHEREAS, DOB states that case law (both older and newer), influential authorities, and common sense application of statutory language all support DOB’s jurisdiction over the MTA Signs; and

WHEREAS, DOB adds that other cases including NYC Transit Authority v. NYC Dep’t of Finance, NYLJ 18, August 7, 2002 (“NYC Transit Auth”) also dealt with statutes different from PAL 1266(8), with different exemption standards; and

WHEREAS, DOB states that despite Appellant’s discussion of how the Monroe court might analyze the facts in the appeals under a “balancing of public interests analysis,” court precedent more recent than Monroe has looked to the language of § 1266(8) to determine local law applicability; and

WHEREAS, specifically, in the case of Penny Port, decided 11 years after Monroe, the court did not use a balancing test to determine whether the steak house lessee of MTA was subject to City smoking regulations; rather, it looked to the language of § 1266(8) and ruled:

> there is no reason why the inquiry as to whether a restaurant or other commercial enterprise serves a purpose “incidental to transportation upon railroad facilities” should require an examination

into the nature of the exemption sought. The question can be answered solely by evaluating the establishment's integration into the railroad facility station and use by its passengers; and

WHEREAS, DOB states that the Appellant argues that the Penny Port court "did not apply the balancing test because it found express preemption in Section 1266(8);" however, this assertion is baseless because such reasoning was never stated in the Penny Port decision, neither did that court ever cite Monroe; and

WHEREAS, rather, DOB finds that following Penny Port's lead, the Board must look to PAL § 1266(8)'s terms and find that the Signs are "devoted to purposes other than transportation or transit purposes" and are thus subject to local regulation; DOB states that this interpretation of PAL § 1266(8) is supported by influential authorities; and

WHEREAS, DOB states that even if the Monroe balancing test were applied, DOB's authority to regulate the MTA Signs would be upheld; and

WHEREAS, DOB also finds that PAL § 1266(8) would be rendered meaningless if anything that generated revenue for MTA would be considered a transportation purpose, leaving MTA immune from any kind of revenue-generating activity no matter how unrelated to transportation purposes; and

WHEREAS, DOB rejects the Appellant's interpretation of § 1266(8) as broad by distinguishing NYC Transit Auth. in which the NYCTA and other authorities claimed that a building used by the authorities was completely exempt from taxation under PAL § 1275 even though 1.9 percent of the building's square footage was leased to "non-affiliated commercial enterprises;" and

WHEREAS, first, DOB notes as an initial matter, NYC Transit Auth., like Grand Central, does not involve PAL § 1266(8), and this statutory difference alone renders this case inapposite, just like Grand Central and, secondly, a critical requirement of the taxation exemption in NYC Transit Auth. is that "the major portion of the Building [must be] used by the Public Authorities themselves," which 98.1 percent of the building at issue in that case was; and

WHEREAS, DOB finds that, in contrast, the Signs are purely for commercial rather than transportation purposes and that NYC Transit Auth.'s decision was also influenced by the fact that "the subtenants provide services for the Authorities and their employees" (id.), something that the Signs do not do for MTA employees; and

WHEREAS, DOB also distinguishes Bush Terminal and Dorset which the Appellant cites for the proposition that "developments are immune from local zoning regulations even if such developments are unrelated to governmental purposes other than production of revenues;" and

WHEREAS, DOB finds that aside from the fact that Bush deals with statutes wholly separate from those at issue in the instant appeal, the Appellant ignores the Bush court's statement that the Port Authority's power to construct a terminal that has incidental storage space "might be transcended if, under cover of that power, the Port Authority assumed to construct an office or loft building intended primarily for revenue and only incidentally for terminal purposes" (id. at 316); and

WHEREAS, further, DOB notes that the Bush court went on to say "[p]roperty used primarily to obtain revenue or profit is not held for a public use and is not ordinarily immune from taxation" (id. at 321); and

WHEREAS, DOB notes that the MTA Signs are exclusively for revenue and not at all related to transportation; and

WHEREAS, DOB states that while the Appellant cites Crown Commc'n New York, Inc. v. Dep't of Transp. of State, 4 N.Y.3d 159, 168 N.E.2d 934 (2005), the Crown court specifically distinguished the proposed construction in its case (a telecommunications tower that would benefit public safety and environmental goals) with the case of Little Joseph Realty, Inc. v. Town of Babylon, 41 N.Y.2d 738 (1977), which "merely involve[d] the lease of government owned space to a private firm for the exclusive purpose of making a profit" (Crown, at 168); and

WHEREAS, thus, DOB finds that it was critical to the Crown court that the proposed land use serve a public interest that was not solely rental income from private businesses wholly unrelated to any further public purpose, but rather, that it was "an integral component of the State's plan of promoting public safety and reducing the proliferation of cellular towers, clearly salient public purposes;" and

WHEREAS, DOB finds that the facts of the instant appeal are also unlike facts that courts have found to pass the Monroe balancing analysis because such cases involved proposed land uses that had significant and direct benefit to the public such as Crown (construction of telecommunications antennae would promote "the State's public safety and environmental goals"); Monroe (finding that the expansion of an international airport serves "interstate and intrastate commerce goals [and] is in both the local and greater public interest"); and Town of Hempstead v. State of New York, 42 A.D.3d 527, 529-30 (2d Dep't 2007) (finding that constructing wireless communication equipment to close a "serious gap in wireless communication coverage" outweighed residents' complaints about the tower's visibility); and

3. There is a Distinction between MTA's and NYCTA's Authority as Related to Advertising Signs

WHEREAS, as to MTA's authority, DOB states that the Appellant erroneously argues that "if the legislature had intended the legislative grant of power to MTA regarding signage to be less than that granted to NYCTA, subsequent court decisions or advisory opinions ... (i.e., Witherspoon and 1982 Opinion) would have cited or referred to such ... to support the[ir] conclusions" however, there is no indication that the issue of NYCTA authority arose during Witherspoon and the Attorney General's consideration of these issues, nor is it relevant to their determination of 1266(8)'s application; and

WHEREAS, DOB finds that the Appellant's argument that the general description of MTA's authority contained in PAL § 1265(14) (*General powers of the authority*), which states that MTA may "do all things necessary, convenient or desirable to carry out its purposes and for the exercise of the powers granted in this title," conveys to MTA local exemption for the Signs because NYCTA, a subsidiary of MTA with a specific local law exemption for advertising signs, has an analogous general powers section that omits the word "desirable" from the description of NYCTA's powers, is unsupported; and

WHEREAS, DOB states that there is no indication in any relevant authority that the addition of the word "desirable" in MTA's enabling statute grants it a local law exemption for the Signs or that, as the Appellant argues, its exempt activities "do not have to have any real relationship to its purpose;" and

WHEREAS, thus, DOB states that the *General Powers* section's use of the general term "desirable" should not be read to overrule the specific limit on local law exemption provided in PAL § 1266(8)'s use of the term "transportation or transit purposes;" and

WHEREAS, lastly, DOB states that given the above-detailed interpretive history of MTA signs exemption by relevant authorities, Appellant's arguments that MTA, as the "parent of NYCTA," has a *greater* right to advertising signs than the NYCTA must fail; in contrast, State statutes specifically give that authority to NYCTA but not to MTA; and

WHEREAS, DOB concludes that NYCTA has been specifically delegated the authority to have advertising signs and MTA has not and that questions about the wisdom or consistency of these enactments are beyond the scope of this appeal; and

WHEREAS, DOB states that it is also not significant under the Monroe balancing test that potentially inconsistent local signage regulations may be imposed upon MTA in different jurisdictions and finds no support for the Appellant's position that "the Legislature could not and would not have intended for MTA to be subject to a multitude of different local signage regulations;" and

B. Supplemental Arguments Regarding DOB's Authority

1. The Zoning Resolution Governs the Use and Development of the Railroad Properties at Issue

WHEREAS, DOB states that Appellant's assertion that NYC Charter § 643 precludes DOB enforcement over all of the Signs, including MTA, Amtrak, and CSX, is incorrect; and

WHEREAS, DOB notes that NYC Charter § 643 says, in relevant part, "the jurisdiction of the department ... shall not extend to ... such other structures used in conjunction with or in furtherance of waterfront commerce or navigation or to bridges, tunnels or subways or structures appurtenant thereto;" and

WHEREAS, DOB asserts that railroads are distinct from subways, and if the legislature wanted to exclude railroads from DOB jurisdiction, it would have mentioned railroads along with subways in this section; and

WHEREAS, DOB asserts that railroads are not excluded from DOB jurisdiction based upon this Charter provision merely because subways are functionally similar to other kinds of railroads in some respects; and

WHEREAS, as to Appellant's assertion about railroad overpasses being the equivalent to bridges, DOB's records indicate that none of the Signs are located on bridges; if Appellant brings additional evidence that the Signs are, in fact, on bridges, DOBwill review those facts; and

WHEREAS, DOB states that the Zoning Resolution governs the use of railroad properties as long as the Signs are located within a lot of record that existed on December 15, 1961, and there is no subsequent development that relied on the lot being merged into a larger zoning lot, or subdivided into smaller zoning lots, then the Signs are located within a zoning lot and subject to zoning, regardless of whether they are located on streets or railroad rights-of-way; and

WHEREAS, DOB finds that the Appellant erroneously argues that the Zoning Resolution does not govern the use or development of railroad properties because "[r]ailroads are similar to streets and sidewalks," and streets are not subject to zoning; and

WHEREAS, DOB notes that the Appellant's submissions list blocks and lots of record for all Signs on MTA property except 40072502 (BSA Cal. No. 118-12-A) and DOB requires more information on its precise location to determine whether it is located within a lot of record existing on December 15, 1961 or otherwise within an un-subdivided tract of land that also is subject to zoning; and

2. DOB has Authority to Correct its Interpretation of the Laws at Issue

WHEREAS, DOB states that the Appellant argues that its actions must be overturned as an unreasonable departure from prior agency practices because "sudden and unexplained changes in an agency's interpretation of laws ... are presumed to be arbitrary and capricious;" and

WHEREAS, DOB states that it previously held the opinion that it did not have jurisdiction over commercial advertising signs on railroad property (see, e.g., 1980 memorandum from Buildings Deputy Commissioner, Irving E. Minkin, P.E.); and

WHEREAS, however, after conducting further legal research during the course of the litigation in Clear Channel Outdoor, Inc. v. City of New York, 608 F.Supp. 2d 477 (S.D.N.Y. 2009) aff'd, 594 F.3d 94 (2d Cir. 2010), DOB states that it came to the conclusion that revenue generated from advertising signs does not, by itself, have the requisite connection to transportation necessary to support a local law exemption for the Signs; and

WHEREAS, DOB states that it has explained its change in position on railroad zoning jurisdiction both before and during the pendency of these appeals, and the change in interpretation is well founded in case law and

statutory language including, Charles A. Field Delivery, which expressly supports administrative agencies' right to correct erroneous interpretations of law; and

WHEREAS, DOB states that, as required by Charles A. Field Delivery, it has given explicit and extensive treatment to the issue of its change in position on railroad jurisdiction during the proceedings of Clear Channel; in 2008, in connection with the litigation in Clear Channel, Phyllis Arnold, then the Deputy Commissioner for Legal Affairs and the Chief Code Counsel, wrote in an affirmation that "during my time as DOB's General Counsel I made the legal determination that, for the most part, DOB did not have the authority to enforce the arterial highway sign regulations against [MTA, Amtrak, and other governmental entities]" and that a 1980 memorandum by then DOB Deputy Commissioner Irving Minkin was likely "why historically DOB did not take enforcement against these entities;" and

WHEREAS, DOB notes that Ms. Arnold further wrote that she became aware, only after making a legal determination that DOB lacked authority to enforce the Zoning Resolution against MTA and Amtrak, that "the New York State Attorney General issued an opinion (the "Attorney General's Opinion") stating that the City did have the jurisdiction to require the removal of signs on railroad and Transit Authority property that had been erected in violation of the City's zoning laws" she also "c[a]me to the conclusion that revenue generated from advertising signs is not by itself transportation-related and thus [] DOB has the authority to enforce the arterial highway sign regulations against advertising signs ... owned or controlled by the MTA [as well as Port Authority and Amtrak];" and

3. DOB's Correction of Its Interpretation does not Require a Formal Rule

WHEREAS, DOB states that Appellant's argument that its change in the legal interpretations at issue is "tantamount to issuance of a new regulatory rule without the notice and comment procedures required under the CAPA" is unavailing as an interpretation of federal and State law in the application of the Zoning Resolution does not itself, require formal rule making; rather, "DOB [is] responsible for administering and enforcing the zoning resolution, and [its] interpretation must therefore be given great weight and judicial deference." Appelbaum v. Deutsch, 66 N.Y.2d 975 (1985); and

WHEREAS, secondly, DOB asserts that administrative agencies are "free, like courts, to correct a prior erroneous interpretation of the law," (Appelbaum, at 519) and DOB's change in interpretation merely corrects its prior incorrect interpretation (which was, itself, *not* a rule) in light of case law, influential opinions by State authorities, and statutory language; and

4. DOB Does Not Take a Position as to the Potential Legal Non-Conforming Status of the Signs

WHEREAS, DOB states that the Appellant has not pursued a claim that the Signs meet the requirements for a legal non-conforming use that may continue pursuant to ZR §§ 52-11 and 52-61 and, accordingly, such claims are not addressed within the subject appeal; and

5. DOB's Enforcement Against the Signs is not a Regulatory Taking

WHEREAS, DOB states that the Appellant has failed to prove its claim that DOB's interpretation is a regulatory taking because DOB's jurisdictional position in these matters stems from the language of the statutes granting and limiting the rights and immunities of MTA and Amtrak; and

WHEREAS, DOB states that its correct interpretation of these statutes allowing for enforcement based upon its interpretation cannot be considered a taking since MTA and Amtrak would not be entitled to the rights and immunities allegedly being taken; and

WHEREAS, however, DOB states that if these statutes create an unconstitutional takings action, any such claim must necessarily be directed against the state and federal statutes themselves, rather than DOB's enforcement of the statutes and such a claim is outside of the Board's jurisdiction; and

CONCLUSION

WHEREAS, the Board upholds DOB's rejection of the Signs' registration based on the following primary conclusions: (1) revenue generation alone is not a transportation purpose within the meaning of PAL § 1266(8); (2) the MTA and NYCTA may have different rights related to sign regulations; and (3) DOB is not estopped from correcting its practice of allowing the Signs; and

WHEREAS, first, the Board concludes that the generation of revenue is not a transportation or transit-related purpose as required by PAL § 1266(8); the Board finds that the Appellant has not provided support for its claim that the generation of revenue, without any accompanying service, is a transportation or transit-related purpose; and

WHEREAS, the Board finds that Grand Central and Penny Port recognize certain active commercial use located within Grand Central Station as serving a transportation purpose and that those enterprises are distinct from advertising signs, which are visible objects that do not offer any interaction or service to railroad passengers; and

WHEREAS, further, the Board notes that the court in Penny Port was careful not to give unlimited exemption over the entire station, in recognition that there may be some commercial enterprises that are not exempt; and

WHEREAS, the Board agrees with DOB that the same or similar terms may have different meaning in different contexts and therefore is not persuaded by the Appellant's assertion that transportation purpose means the same thing from a taxation versus a zoning perspective or that case law that analyzes provisions related to taxation is binding on case law that analyzes a use regulation; and

WHEREAS, the Board agrees with DOB that the definition of "railroad facility" (PAL § 1261(13)) does not inform the meaning of "transportation or transit purpose"

(PAL § 1266(8)) because the terms are starkly dissimilar in context and purpose and the Appellant erroneously conflates them in order to give broader meaning to transportation purpose, a connection the courts have not made; and

WHEREAS, the Board is not persuaded by the Appellant's assertions that the mere physical integration of the signs into the railroad facility reflects a transportation purpose as the courts have identified the actual use as a key factor in the transportation purpose analysis, rather than co-location or control; and

WHEREAS, similarly, the Board finds that the Appellant's assertion that the signs are for the benefit of passengers is very strained; the Board notes that the signs are for advertising and not for informational purposes and that many of the signs may not even be visible to train passengers as they are directed to the arterials; and

WHEREAS, the Board agrees with DOB that Witherspoon has not been overruled and notes that not even the Appellant asserts that Witherspoon has been explicitly overruled by Monroe or any other case; and

WHEREAS, the Board agrees with DOB that the Monroe balancing test is not necessary because the statute is clear that there is not preemption for non-transportation purposes, but that if the criteria were analyzed, it supports DOB's conclusions; and

WHEREAS, accordingly, the Board agrees with DOB that Witherspoon is the only case directly on point and it has not been overruled so, at the very least, is persuasive authority; and

WHEREAS, however, the Board concludes that even if Witherspoon were ignored, the Board does not find a basis for preemption, a conclusion informed by the statutory language and Penny Port and Grand Central; and

WHEREAS, specifically, the courts Penny Port and Grand Central note that revenue generation is incidental and the transportation purpose is the actual use (i.e. incidental commercial enterprises integrated into the station) and that the Appellant failed to show how the Signs are integrated or how they serve commuters; and

WHEREAS, the Board is not persuaded by the Appellant's assertion that because the MTA controls the NYCTA, it has broader power in all contexts; the Board finds that the power dynamic between a parent and subsidiary may vary depending on the entities and the weight given to the different entities can be different in different contexts; and

WHEREAS, the Board notes that NYCTA has explicit language allowing signs to be exempt and that the MTA has no such provision; and

WHEREAS, the Board does not find that these proceedings are the appropriate forum to question the wisdom of and establish the potentially intricate relationship between the NYCTA and the MTA; and

WHEREAS, accordingly, in the absence of explicit authority for MTA to have the ability to install advertising contrary to zoning regulations, the Board concludes that NYCTA and MTA have different rights; and

WHEREAS, the Board does not find that the fact that MTA is authorized to do all things "necessary, convenient or desirable" (PAL § 1265(14)) and NYCTA is authorized only to do all things "necessary or convenient" (PAL § 1204(17)) is persuasive that MTA has broader authority in the context of signs; and

WHEREAS, the Board finds that the Appellant failed to provide any legislative history to support its claim regarding MTA's absolute power; and

WHEREAS, the Board supports DOB's position that it erroneously exempted the Signs from zoning regulations and now seeks to correct its error for the reasons explained in Clear Channel; the Board finds that there is no support for the Appellant's claim that the right for the Signs continues because there was a longstanding arrangement for DOB not to enforce against the Signs, as DOB does not have the authority to make an arrangement contrary to zoning regulations; and

WHEREAS, the Board is not persuaded by the Appellant's position that no deference should be given to DOB's position since it was first articulated in the course of litigation; the Board finds that it is not relevant when DOB first articulated its position as long as that is the position it currently defends and substantiates; and

WHEREAS, the Board agrees with DOB that, as here, a correction of an erroneous interpretation is not within the scope of a rule, subject to CAPA requirements; and

WHEREAS, the Board disagrees with the Appellant that the application of zoning regulations constitutes a taking; the Board notes that the Appellant has the opportunity to establish the legality of its non-conforming Signs pursuant to ZR §§ 52-11 and 52-61, and maintain the Signs that meet those commonly-applied and upheld standards; and

WHEREAS, the Board notes that the City's right to eliminate non-conforming uses through zoning has been repeatedly upheld by the courts; specifically, the Board notes that the Court of Appeals has held that, "[b]ecause nonconforming uses are viewed as detrimental to zoning schemes, public policy favors their reasonable restriction and eventual elimination[,]" and "municipalities may adopt measures regulating nonconforming uses and may, in a reasonable fashion, eliminate them." 550 Halstead Corp. v. Zoning Bd. Of Appeals, 1 N.Y.3d 561, 562 (2003) and that DOB's recent enforcement furthers that goal in line with what zoning regulations contemplate; and

WHEREAS, therefore, the Board finds that DOB's enforcement against the Signs is warranted, and as such, DOB properly rejected the Appellants' registration of the Signs.

Therefore it is resolved that the subject appeal, seeking a reversal of the Final Determinations of the Department of Buildings, dated March 26, 2012 and May 10, 2012, is hereby denied.

Adopted by the Board of Standards and Appeals, January 29, 2013.

COMMUNITY BOARD #1/2/5Q and 4/8BX
ACTION OF THE BOARD – Appeal Denied.
THE VOTE TO GRANT –
Affirmative: 0
Negative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5
THE RESOLUTION –

WHEREAS, the subject appeal comes before the Board in response to 12 Notice of Sign Registration Rejection letters from the Bronx and Queens Borough Commissioners of the Department of Buildings ("DOB"), dated March 26, 2012, May 10, 2012, and August 8, 2012, denying registration for signs at the subject sites (the "Final Determination"), which read, in pertinent part:

> The Department of Buildings is in receipt of additional documentation submitted in response to the Deficiency Letter from the Signs Enforcement Unit and in connection with the application for registration of the above-referenced sign. Unfortunately, we find this documentation inadequate to support the registration of the sign and, as such, the sign is rejected from registration. This sign will be subject to enforcement action 30 days from the issuance of this letter; and

WHEREAS a public hearing was held on this application on October 17, 2012, after due notice by publication in *The City Record*, with a continued hearing on December 11, 2012, and then to decision on January 29, 2013; and

WHEREAS, the subject appeal concerns 12 signs located on property owned by CSX, within R4, R5, R7-1, M1-1, and M3-1 zoning districts (the "Signs"); and

WHEREAS, this appeal is part of a larger body of appeals brought by CBS, Lamar Advertising and Clear Channel, all outdoor advertising sign companies that are subject to registration requirements under Local Law 51 of 2005; and

WHEREAS, the Board notes that under Local Law 31 of 2005, the New York City Council enacted certain amendments to existing regulations governing outdoor advertising signs as a means for DOB to enforce the sign laws where signs had been erected and were being maintained without a valid permit; and

WHEREAS, pursuant to Article 502 (specifically, Building Code § 28-502.4), an outdoor advertising company is required to submit to DOB an inventory of all signs, sign structures and sign locations (i) within a distance of 900 linear feet (274 m) from and within view of an arterial highway; or (ii) within a distance of 200 linear feet [60.96 m] from and within view of a public park with an area of one-half acre (5,000 m) or more; and

WHEREAS, pursuant to the requirements of Article 502 and Rule 49 with respect to signs within 900 feet of arterial highways, each of the Appellants submitted an inventory of outdoor signs under its control and completed a Sign Registration Application for each sign and an OAC3 Outdoor Advertising Company Sign Profile; and

WHEREAS, DOB, by letters, dated March 26, 2012 and May 10, 2012 issued the determinations related to the Signs within CBS' inventory on CSX property, which form the basis of the appeal; and

WHEREAS, at the consent of the three Appellants – one representing signs operated by CBS, one representing signs operated by Clear Channel, and one representing signs operated by Lamar Advertising, the Board heard and reviewed a total of 38 appeal applications (for 38 permits and 38 rejection letters) on the same hearing calendar; on January 29, 2013, the Board rendered a decision related to the applicability of the Zoning Resolution on Metropolitan Transportation Authority (MTA) properties (BSA Cal. Nos. 117-12-A et al) (the "MTA Resolution"), Amtrak properties (BSA Cal. Nos. 130-12-A et al), and property formerly controlled by the Department of Ports and Trade (BSA Cal. Nos. 183-12-A through 185-12-A); and

WHEREAS, the companion decisions cover the 26 applications not addressed in this resolution which is solely for the 12 signs on CSX property; and

WHEREAS, only CBS has signs on the subject sites, so it is the only Appellant in the subject appeal associated with the rights of the Signs; and

WHEREAS, DOB appeared and made submissions in opposition to this appeal; and

WHEREAS, the Appeal arises from the Final Determinations for the Signs, for which DOB rejected Sign Registration based on the fact that the Signs do not comply with underlying zoning regulations and are not subject to any exemption; and

WHEREAS, in its initial submission, the Appellant

asserted general claims about DOB's enforcement of the signs on railroad property, but in subsequent submissions only pursued its defense of signs on Amtrak and MTA property; and

WHEREAS, accordingly, DOB only defended its position in support of enforcing against signs on railroad property, generally; and

WHEREAS, the Appellant's general arguments against DOB's enforcement of signs on railroad property are "Supplemental Arguments" in the MTA Resolution and are reiterated here; and

THE APPELLANT'S POSITION

WHEREAS, the Appellant asserts the following primary arguments in support of its position that DOB does not have the authority to enforce against the signs on CSX property: (1) zoning regulations do not apply on railroad properties; (2) DOB cannot reverse its position on enforcement without going through the rulemaking process; (3) many of the signs are legal non-conforming uses; and (4) enforcement against the signs constitutes a taking; and

1. The Zoning Resolution Does Not Govern the Use or Development of Railroad Properties

WHEREAS, the Appellant asserts that the City lacks jurisdiction over all railroad properties; and

WHEREAS, the Appellant asserts that the City has stated that the Zoning Resolution "does not govern the use or development of the City's streets and sidewalks," and therefore, signage on or over streets is deemed exempt; the Appellant asserts that railroads are similar to streets in that they serve a similar purpose – the movement of people and goods; and

WHEREAS, the Appellant states that the Zoning Resolution recognizes the similarity between streets and railroad property, as evidenced in the Zoning Resolution's definition of "block," which is defined as a "tract of land bounded by streets, public parks, railroad rights-of-way …"; and

WHEREAS, the Appellant states that additionally, under the New York City Charter § 643(7), DOB lacks jurisdiction over "bridges, tunnels or subways or structures appurtenant thereto;" and

WHEREAS, the Appellant states that since railroads are functionally equivalent to subways and at least some of the Signs are located on railroad overpasses, a type of a bridge, under the City Charter, DOB's jurisdiction does not extend to railroad properties and to structures appurtenant to railroad properties, such as the Signs; and

WHEREAS, accordingly, the Appellant concludes that the Zoning Resolution and the City Charter preclude DOB from exercising jurisdiction over railroad properties; and

2. DOB's Determination was Arbitrary and Capricious

WHEREAS, the Appellant asserts that DOB's notices of enforcement reflect a sudden change in the agency's position which is presumed to be arbitrary and capricious; and

WHEREAS, the Appellant asserts that for more than 30 years, DOB has taken the position that the City's signage laws and regulations give it no jurisdiction over advertising signs on railroad rights of way and DOB's consistent interpretation of its authority under the zoning laws not to extend to railroad rights of way is well documented; and

WHEREAS, the Appellant states that under the unreasonable departure doctrine, sudden changes in a government agency's position are presumed to be unlawful, which follows "from the policy considerations embodied in administrative law" by which sudden and unexplained changes in an agency's interpretation of laws it is charged with administering are presumed to be arbitrary and capricious; and

WHEREAS, the Appellant states that in Matter of Charles A. Field Delivery Services, 66 N.Y.2d 516, 518 (1985), the Court of Appeals reversed a decision of the Unemployment Insurance Appeal Board because of an unexplained inconsistency with prior decisions of the Board; and

WHEREAS, the Appellant also cites to Richardson v. N.Y. City Dep't of Soc. Svcs., 88 N.Y.2d 35, 40 (1996) in which the Court of Appeals rejected an agency's change in its interpretation of governing statute and implementing regulation as "arbitrary and capricious" where the new interpretation was "diametrically opposite" to the agency's longstanding interpretation of that same provision of law, and where the change was not supported by a "reasoned explanation on the part of the agency;" and

WHEREAS, the Appellant states that the principle underlying these decisions that an unexplained change in an agency's longstanding interpretation of law is presumed improper protects the reasonable expectations of regulated persons and institutions; and

3. DOB Engaged in a Rule Making without the Notice and Comment Procedures Required under the City Administrative Procedure Act (CAPA)

WHEREAS, the Appellant states that even if DOB's change in its interpretation of the signage regulations is found to be lawful, such change in interpretation would still be unlawful as it violates CAPA; and

WHEREAS, specifically, the Appellant asserts that DOB's change in position regarding signs on railroad properties is tantamount to issuance of a new regulatory rule without the notice and comment procedures required under CAPA; and

WHEREAS, the Appellant states that such a change in regulatory requirements without following CAPA is unlawful; and

4. Many of the Signs are Legal Non-Conforming Uses

WHEREAS, the Appellant asserts that even if the Signs are not deemed to be exempt, many would qualify as legal non-conforming uses and, therefore, be permitted to continue; and

WHEREAS, the Appellant states that it has not

presented a case to establish that the Signs are legal non-conforming uses, and that it no longer has much of the records and documentation that would establish the legal non-conforming uses, but that many of the signs would be deemed legal pursuant to ZR §§ 52-11 and 52-61; and

5. These Enforcement Actions Against the Signs Would Constitute a Regulatory Taking that Requires Just Compensation

WHEREAS, the Appellant asserts that DOB's actions would deprive CSX of any viable use of its property interest and amount to a regulatory taking, which is a governmental regulation of the uses of a property to so excessive a degree that the regulation effectively amounts to a de facto exercise of the government's eminent domain power; and

WHEREAS, the Appellant states that if DOB is affirmed and the Appellant is compelled to remove the Signs, the Appellant will be entitled to just compensation in the amount of the fair market value of the Signs' location usages under state and federal laws; and

DOB'S POSITION

WHEREAS, in support of is position that its enforcement is proper, DOB asserts that (1) the Zoning Resolution governs the use of the CSX properties; (2) DOB has the authority to correct its former erroneous position without going through a rulemaking; (3) the Appellant has not provided evidence to establish legal non-conforming use for any of the signs; and (4) enforcement against the signs does not constitute a regulatory taking; and

WHEREAS, DOB notes that the Appellant has not alleged that any State or Federal law exempts CSX, a private entity, from the City's jurisdiction and/or enforcement; and

1. The Zoning Resolution Governs the Use and Development of the Railroad Properties at Issue

WHEREAS, DOB states that Appellant's assertion that NYC Charter § 643 precludes DOB enforcement over all of the Signs, including MTA, Amtrak, and CSX, is incorrect; and

WHEREAS, DOB notes that NYC Charter § 643 says, in relevant part, "the jurisdiction of the department . . . shall not extend to . . . such other structures used in conjunction with or in furtherance of waterfront commerce or navigation or to bridges, tunnels or subways or structures appurtenant thereto;" and

WHEREAS, DOB asserts that railroads are distinct from subways, and if the legislature wanted to exclude railroads from DOB jurisdiction, it would have mentioned railroads along with subways in this section; and

WHEREAS, DOB asserts that railroads are not excluded from DOB jurisdiction based upon this Charter provision merely because subways are functionally similar to other kinds of railroads in some respects; and

WHEREAS, as to Appellant's assertion about railroad overpasses being the equivalent to bridges, DOB's records indicate that none of the Signs are located on bridges; if Appellant brings additional evidence that the Signs are, in fact, on bridges, DOB will review those facts; and

WHEREAS, DOB states that the Zoning Resolution governs the use of railroad properties as long as the Signs are located within a lot of record that existed on December 15, 1961, and there is no subsequent development that relied on the lot being merged into a larger zoning lot, or subdivided into smaller zoning lots, then the Signs are located within a zoning lot and subject to zoning, regardless of whether they are located on streets or railroad rights-of-way; and

WHEREAS, DOB finds that the Appellant erroneously argues that the Zoning Resolution does not govern the use or development of railroad properties because "[r]ailroads are similar to streets and sidewalks," and streets are not subject to zoning; and

WHEREAS, DOB notes that the Appellant's submissions list blocks and lots of record for all Signs except for two, neither of which is on CSX property; and

2. DOB has Authority to Correct its Interpretation of the Laws at Issue

WHEREAS, DOB states that the Appellant argues that its enforcement must be overturned as an unreasonable departure from prior agency practices because "sudden and unexplained changes in an agency's interpretation of laws . . . are presumed to be arbitrary and capricious;" and

WHEREAS, DOB states that it previously held the opinion that it did not have jurisdiction over commercial advertising signs on railroad property (see, e.g., 1980 memorandum from Buildings Deputy Commissioner, Irving E. Minkin, P.E.); and

WHEREAS, however, after conducting further legal research during the course of the litigation in Clear Channel Outdoor, Inc. v. City of New York, 608 F.Supp. 2d 477 (S.D.N.Y. 2009) aff'd, 594 F.3d 94 (2d Cir. 2010), DOB states that it came to the conclusion that revenue generated from advertising signs does not, by itself, have the requisite connection to transportation necessary to support a local law exemption for the Signs; and

WHEREAS, DOB states that it has explained its change in position on railroad zoning jurisdiction both before and during the pendency of these appeals, and the change in interpretation is well founded in case law and statutory language including, Charles A. Field Delivery, which expressly supports administrative agencies' right to correct erroneous interpretations of law; and

WHEREAS, DOB states that, as required by Charles A. Field Delivery, it has given explicit and extensive treatment to the issue of its change in position on railroad jurisdiction during the proceedings of Clear Channel; in 2008, in connection with the litigation in Clear Channel, Phyllis Arnold, then the Deputy Commissioner for Legal Affairs and the Chief Code Counsel, wrote in an affirmation that "during my time as DOB's General Counsel I made the legal determination that, for the most part, DOB did not have the authority to enforce the arterial highway sign regulations against [MTA, Amtrak, and other governmental entities]" and that a 1980 memorandum by then DOB Deputy Commissioner Irving Minkin was likely "why

historically DOB did not take enforcement against these entities;" and

WHEREAS, DOB notes that Ms. Arnold further wrote that she became aware, only after making a legal determination that DOB lacked authority to enforce the Zoning Resolution against MTA and Amtrak, that "the New York State Attorney General issued an opinion (the "Attorney General's Opinion") stating that the City did have the jurisdiction to require the removal of signs on railroad and Transit Authority property that had been erected in violation of the City's zoning laws" she also "c[a]me to the conclusion that revenue generated from advertising signs is not by itself transportation-related and thus . . . DOB has the authority to enforce the arterial highway sign regulations against advertising signs . . . owned or controlled by the MTA [as well as Port Authority and Amtrak];" and

3. DOB's Correction of Its Interpretation does not Require a Formal Rule

WHEREAS, DOB states that Appellant's argument that its change in the legal interpretations at issue is "tantamount to issuance of a new regulatory rule without the notice and comment procedures required under the CAPA" is unavailing as an interpretation of federal and State law in the application of the Zoning Resolution does not itself, require formal rule making; rather, "DOB [is] responsible for administering and enforcing the zoning resolution, and [its] interpretation must therefore be given great weight and judicial deference." Appelbaum v. Deutsch, 66 N.Y.2d 975 (1985); and

WHEREAS, secondly, DOB asserts that administrative agencies are "free, like courts, to correct a prior erroneous interpretation of the law," (Appelbaum, at 519) and DOB's change in interpretation merely corrects its prior incorrect interpretation (which was, itself, *not* a rule) in light of case law, influential opinions by State authorities, and statutory language; and

4. DOB Does Not Take a Position as to the Potential Legal Non-Conforming Status of the Signs

WHEREAS, DOB states that the Appellant has not pursued a claim that the Signs meet the requirements for a legal non-conforming use that may continue pursuant to ZR §§ 52-11 and 52-61 and, accordingly, such claims are not addressed within the subject appeal; and

5. DOB's Enforcement Against the Signs is not a Regulatory Taking

WHEREAS, DOB states that the Appellant has failed to prove its claim that DOB's interpretation is a regulatory taking; and

WHEREAS, DOB states that its correct interpretation of relevant statutes allowing for enforcement based upon its interpretation cannot be considered a taking since CSX would not be entitled to the rights allegedly being taken; and

WHEREAS, however, DOB states that if the zoning regulations create an unconstitutional takings action, any such claim must necessarily be directed against the relevant statutes themselves, rather than DOB's enforcement of the statutes and such a claim is outside of the Board's jurisdiction; and

CONCLUSION

WHEREAS, the Board upholds DOB's rejections of the Signs' registration and agrees that the signs on CSX property are subject to zoning regulations and DOB is not estopped from correcting its practice of allowing the signs; and

WHEREAS, the Board notes that the Appellant did not pursue any arguments specific to CSX and did not identify any claims against CSX throughout the hearing process; and

WHEREAS, the Board notes that the Appellant did not make any claims related to Federal or State statute and preemption for the CSX sites; and

WHEREAS, the Board supports DOB's position that it erroneously exempted the Signs from zoning regulations and now seeks to correct its error for the reasons explained in Clear Channel; the Board finds that there is no support for the Appellant's claim that the right for the Signs continues because there was a longstanding arrangement for DOB not to enforce against the Signs, as DOB does not have the authority to make an arrangement contrary to zoning regulations; and

WHEREAS, the Board is not persuaded by the Appellant's position that no deference should be given to DOB's position since it was first articulated in the course of litigation; the Board finds that it is not relevant when DOB first articulated its position as long as that is the position it currently defends and substantiates; and

WHEREAS, the Board notes that the Appellant has not asserted that DOB had a practice of non-enforcement against signs on CSX properties that was similar to its practice of non-enforcement against signs on MTA and Amtrak properties; and

WHEREAS, additionally, the Board notes that DOB did not acknowledge CSX properties specifically in the Clear Channel litigation; and

WHEREAS, the Board agrees with DOB that, as here, a correction of an erroneous interpretation is not within the scope of a rule, subject to CAPA requirements; and

WHEREAS, the Board disagrees with the Appellant that the application of zoning regulations constitutes a taking; the Board notes that the Appellant has the opportunity to establish the legality of its non-conforming Signs pursuant to ZR §§ 52-11 and 52-61, and maintain the Signs that meet those commonly-applied and upheld standards; and

WHEREAS, however, the Board agrees with DOB that any taking claim is more appropriate for another forum; and

WHEREAS, the Board notes that the City's right to eliminate non-conforming uses through zoning has been repeatedly upheld by the courts; specifically, the Board notes that the Court of Appeals has held that, "[b]ecause nonconforming uses are viewed as detrimental to zoning schemes, public policy favors their reasonable restriction and eventual elimination[,]" and "municipalities may adopt measures regulating nonconforming uses and may, in a

reasonable fashion, eliminate them." 550 Halstead Corp. v. Zoning Bd. Of Appeals, 1 N.Y.3d 561, 562 (2003) and that DOB's recent enforcement furthers that goal in line with what zoning regulations contemplate; and

WHEREAS, therefore, the Board finds that DOB's enforcement against the Signs is warranted, and as such, DOB properly rejected the Appellants' registration of the Signs.

Therefore it is resolved that the subject appeal, seeking a reversal of the Final Determinations of the Department of Buildings, dated March 26, 2012, May 10, 2012, and August 8, 2012, is hereby denied.

Adopted by the Board of Standards and Appeals, January 29, 2013.

ACTION OF THE BOARD – Appeal Granted.
THE VOTE TO GRANT –
Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5
Negative:.....0
THE RESOLUTION –

WHEREAS, the subject appeal comes before the Board in response to a total of ten Notice of Sign Registration Rejection letters from the Queens and Bronx Borough Commissioners of the Department of Buildings ("DOB"), dated March 26, 2012 and May 10, 2012, denying registration for signs at the subject sites (the "Final Determination"), which reads, in pertinent part:

> The Department of Buildings is in receipt of additional documentation submitted in response to the Deficiency Letter from the Signs Enforcement Unit and in connection with the application for registration of the above-referenced sign. Unfortunately, we find this documentation inadequate to support the registration of the sign and, as such, the sign is rejected from registration. This sign will be subject to enforcement action 30 days from the issuance of this letter; and

WHEREAS a public hearing was held on this application on October 17, 2012, after due notice by publication in *The City Record*, with a continued hearing on December 11, 2012, and then to decision on January 29, 2013; and

WHEREAS, the subject appeal concerns ten signs located on property owned by Amtrak, within C8-1, M1-2 (HP), M3-1, R3-2, and R7-1 zoning districts (the "Signs"); and

WHEREAS, this appeal is part of a larger body of appeals brought by CBS, Lamar Advertising and Clear Channel, all outdoor advertising sign companies that are subject to registration requirements under Local Law 51 of 2005; and

WHEREAS, the Board notes that under Local Law 31 of 2005, the New York City Council enacted certain amendments to existing regulations governing outdoor advertising signs as a means for DOB to enforce the sign laws where signs had been erected and were being maintained without a valid permit; and

WHEREAS, pursuant to Article 502 (specifically, Building Code § 28-502.4), an outdoor advertising company is required to submit to DOB an inventory of all signs, sign structures and sign locations (i) within a distance of 900 linear feet (274 m) from and within view of an arterial highway; or (ii) within a distance of 200 linear feet [60.96 m] from and within view of a public park with an area of one-half acre (5,000 m) or more; and

WHEREAS, pursuant to the requirements of Article 502 and Rule 49 with respect to signs within 900 feet of arterial highways, each of the Appellants submitted an inventory of outdoor signs under its control and completed a Sign Registration Application for each sign and an OAC3 Outdoor Advertising Company Sign Profile; and

WHEREAS, DOB, by letters, dated March 26, 2012 and May 10, 2012 issued the determinations related to the Signs within CBS' inventory on Amtrak property, which form the basis of the appeal; and

WHEREAS, the Appeal arises from the Final Determinations for ten signs, for which DOB rejected Sign Registration based on the fact that the Signs do not comply with underlying zoning regulations and are not subject to any exemption; and

WHEREAS, at the consent of the three Appellants – one representing signs operated by CBS, one representing signs operated by Clear Channel, and one representing signs operated by Lamar Advertising, the Board heard and reviewed a total of 38 appeal applications (for 38 permits and 38 rejection letters) on the same hearing calendar; on January 29, 2013, the Board rendered a decision related to the applicability of the Zoning Resolution on Metropolitan Transportation Authority (MTA) properties (BSA Cal. Nos. 117-12-A et al) (the "MTA Resolution"), CSX properties (BSA Cal. Nos. 119-12-A et al), and property formerly

controlled by the Department of Ports and Trade (BSA Cal. Nos. 183-12-A through 185-12-A); and

WHEREAS, the companion decisions cover the 28 applications not addressed in this resolution which is solely for the ten signs on Amtrak property; and

WHEREAS, only CBS represents sites on Amtrak property, so it is the only Appellant in the subject appeal associated with Amtrak's rights; and

WHEREAS, DOB appeared and made submissions in opposition to this appeal; and

THE APPELLANT'S POSITION

WHEREAS, the Appellant asserts the following primary arguments: (1) Amtrak is exempt from the City's signage regulations, pursuant to 49 U.S.C. § 24301(g) because such regulations would affect its routes, rates, and services; and (2) Amtrak is exempt from the City's signage regulations, pursuant to 49 U.S.C. § 24902(j) because the Signs are an improvement within the Northeast Corridor Improvement Project (NCIP) and Amtrak has received federal subsidies during relevant periods; and

I. The Signs are Exempt from Local Zoning Pursuant to 49 U.S.C. § 24301(g)

WHEREAS, 49 U.S.C. § 24301(g) *Amtrak/Status and applicable laws*) provides, in pertinent part:

> (g) Nonapplication of rate, route, and service laws.—A state or other law related to rates, routes, or services does not apply to Amtrak in connection with rail passenger transportation; and

WHEREAS, the Appellant asserts that Amtrak is exempt from the City's signage regulation as such regulations affect rates, routes, and services; and

WHEREAS, the Appellant asserts that every dollar of revenue lost from the Signs would be irreversible and irreplaceable to Amtrak, and such loss of revenue would have substantial, adverse impacts on Amtrak's rates, routes and services in that Amtrak would be forced to, among others things, (i) increase its rates, (ii) reduce the routes served, (iii) reduce spending on maintenance and repairs, and (iv) reduce railroad transportation and related services; and

WHEREAS, in support of this claim, the Appellant submitted an affidavit from the Amtrak Project Director in charge of Amtrak third-party advertising, which states that "[w]ithout the revenue Amtrak generates from its outdoor advertising, Amtrak likely would require an additional $4.2 million in government funding annually;" and

WHEREAS, the Appellant also cites to Nat'l Railroad Passenger Corp. v. Caln Township, CIV.A. 08-5398, 2010 WL 92518 (E.D. Pa. Jan. 8, 2010), in which the District Court analyzes 49 U.S.C. § 24301(g) and § 24902(j) in the context of a Pennsylvania township weed control ordinance applied to land "adjacent to the railroad roadbed" on part of an Amtrak route; the court concluded that Amtrak was exempt from the weed control ordinance pursuant to both sections; and

WHEREAS, the Appellant notes that the court in Caln stated that even a local regulation that indirectly impacts Amtrak's routes cannot be enforced against Amtrak under 49 U.S.C. § 24301(g); and

WHEREAS, specifically, the Appellant notes that the court in Caln considered whether a local weed ordinance was preempted under 49 U.S.C. 24301(g), which states, in relevant part, "[a] State or other law related to rates, routes, or service does not apply to Amtrak in connection with rail passenger transportation;" and

WHEREAS, the Appellant notes that the Caln court was guided by Supreme Court cases that interpreted different preemption statutes with similar language as § 24301(g), finding preemption where local laws had a "connection with or reference to a carrier's rates, routes or services" "even if its effect on rates, routes, or services was only indirect" but not where "the impact of the state law is too tenuous, remote, or peripheral to have pre-emptive effect" (id. at 3); and

WHEREAS, the Appellant finds Caln to be on point in that it concerned a local law that was deemed to relate to Amtrak's rates, routes, or services and was thus not enforceable, even if such effects are indirect, except where the effects are tenuous, remote, or peripheral; and

WHEREAS, the Appellant states that the "relate to" language means any law that has a "connection with or reference to" rates, routes, or services (Caln at 3, citing Morales v. Trans World Airlines, Inc., 504 U.S. 374, 384 (1992)); and

WHEREAS, the Appellant rebuts DOB's argument that the enforcement of the City's signage regulations against Amtrak would have only a very tenuous, remote and peripheral effect on rates, routes and services; and

WHEREAS, the Appellant asserts that in the subject case, under the broad interpretation given to this statute, the City's signage regulations negatively impact Amtrak's routes and services in that such regulation will reduce Amtrak's revenues and ultimately result in Amtrak's greater reliance on government subsidies and/or increases to Amtrak's fares; and

WHEREAS, the Appellant asserts that this impact is not "tenuous, remote or peripheral;" rather, Amtrak would be directly burdened with a reduction in revenues, significantly impacting Amtrak's operations and would be forced to increase its reliance and dependence on federal governmental subsidies, directly against Congress' intent and goals for Amtrak; and

WHEREAS, the Appellant contends that the City's attempt to regulate signage on Amtrak properties would directly contradict and contravene Congress' statutory directive for Amtrak to minimize its reliance on government subsidies through the use of its facilities and agreements with the private sector; and

WHEREAS, the Appellant asserts that there is no meaningful distinction between expenditures required to comply with local regulations that put a drain on resources and local regulations that prohibit revenue generation - both set Amtrak back to a position of further deficit; and

WHEREAS, the Appellant asserts that DOB's conclusion that the Appellant or Amtrak is unsure of the effects of the City's prohibition of advertising signs on Amtrak properties or that such effects are speculative is not reasonable and the City's signage regulations have a direct and significant effect on rates, routes and services; and

II. The Signs are Exempt from Local Zoning Pursuant to 49 U.S.C. § 24902(j)

WHEREAS, 49 U.S.C. § 24902(j) (*Amtrak/Goals and Requirements/NCIP*) provides, in pertinent part:

> (j) Applicable procedures.—No State or local building, zoning, subdivision, or similar or related law . . . shall apply in connection with the construction, ownership, use, operation, financing, leasing, conveying . . . of (i) any improvement undertaken by or for the benefit of Amtrak as part of, or in furtherance of, the Northeast Corridor Improvement Project . . . or chapter 241, 243, or 247 of this title or (ii) any land . . . on which such improvement is located and adjoining, surrounding or any related land . . . This subsection shall not apply to any improvement or related land unless Amtrak receives a Federal operating subsidy in the fiscal year in which Amtrak commits to or initiates such improvement; and

WHEREAS, the Appellant asserts that the City's signage regulations cannot be enforced against Amtrak under 49 U.S.C. § 24902(j) as no State or local building, zoning, subdivision, or similar or related to law is to apply in connection with the "construction, ownership, use, operation, … leasing, conveying" of an improvement taken for the benefit of Amtrak and any land on which such improvement is located and adjoining, surrounding, and related land; and

WHEREAS, the Appellant notes that in order to satisfy § 24902(j)'s exemption, the Signs must satisfy two requirements of the provision: (1) they must be an improvement undertaken for the benefit of Amtrak, or land on which such improvement is located, in furtherance of the NCIP or other specified general Amtrak goals; and (2) Amtrak must receive a federal operating subsidy for the year in which Amtrak commits to or initiates such improvement; and

WHEREAS, the Appellant asserts that despite the plain language of this exemption statute, DOB would like the Board to agree that the "Signs cannot be considered an improvement for the benefit of NCIP because they have no direct bearing to NCIP's core transportation purpose;" and

WHEREAS, the Appellant asserts that DOB does not cite any authority that requires that a beneficial improvement have a direct bearing to Amtrak's core transportation purpose and that DOB ignores the fact that such laws do not apply to any land on which such an improvement is located and to any adjoining, surrounding, and related land; and

WHEREAS, the Appellant asserts that the Amtrak properties are clearly within the scope of § 24902(j) and contends that DOB mistakenly states and suggests that "train transportation" is the purpose, as Amtrak's actual purpose is to provide "efficient and effective" railroad transportation (49 U.S.C. § 24101(b)); and

WHEREAS, the Appellant states that under DOB's reading of § 24902(j), anything that does not have a direct bearing to Amtrak's core transportation purpose would be subject to the City's signage and other building or zoning regulations; and

WHEREAS, the Appellant asserts that § 24902(j) does not mention transportation purpose anywhere and only states that the improvement be undertaken by or for the benefit of Amtrak as part of, or in furtherance of, NCIP or other sections of the U.S. rail program for passenger transportation, including those under Chapters 241, 243 and 247 of Title 49; and

WHEREAS, in support of the assertion that § 24902(j) has broad applicability, the Appellant notes that the cited Chapter 241 of Title 49 is a general section under Part C, Passenger Transportation, of the U.S. Rail Programs that includes, among other things, Amtrak's missions and goals; Chapter 243 is the Amtrak authorizing statute; and Chapter 247 relates to the Amtrak route system; and

WHEREAS, the Appellant asserts that the exemption under § 24902(j) is a broad one, as recognized by the court in Caln; and

WHEREAS, the Appellant notes that in Caln, the court held that the governing weed control ordinance was inapplicable to Amtrak properties under § 24902(j), which broadly covers not only land within the railroad roadbeds, but also covers surrounding or related land; and

WHEREAS, the Appellant asserts that the use of Amtrak railroad properties for signage is an improvement undertaken for the benefit of Amtrak as part of, and in furtherance of, the NCIP in that it provides revenues necessary for the NCIP; and

WHEREAS, the Appellant asserts that it is apparent that the improvement need not be undertaken pursuant to or have any nexus to NCIP, but that it be undertaken by or for the benefit of Amtrak pursuant to various federal passenger rail transportation programs, including, but not limited to, NCIP; and

WHEREAS, the Appellant states that DOB's narrow reading is contrary to the broad exemption provided by § 24902(j); and

WHEREAS, as to the subsidy, the Appellant represents that Amtrak received federal subsidies that satisfy the exemption requirement; and

WHEREAS, the Appellant asserts that Amtrak has never been profitable and has always relied on and received federal subsidies; and

WHEREAS, further, the Appellant asserts that the Signs on Amtrak properties were erected at various times in the past during which time the DOB has held such signs to be exempt from the City's signage regulations, thus the only relevant period for Amtrak's receipt of federal subsidies should be the year in which DOB arbitrarily changed its mind and started to claim that such signs are subject to its jurisdiction (*i.e.*, 2012); and

WHEREAS, in support of this assertion, the Appellant submitted a February 3, 2012 News Release by Amtrak, which reflects that the federal government appropriated $466 million in federal operating subsidy in fiscal year 2012, and for fiscal year 2013, Amtrak requested $450 million in federal operating support; and

WHEREAS, the Appellant asserts that Amtrak subsidy dollars are allocated on a project by project basis, rather than on a program by program basis, pursuant to an annual grant agreement; therefore, specific information relating to the actual allocation to or use of such funds pursuant to the NCIP is not readily available and extremely difficult to obtain but Amtrak informed the Appellant that a great

percentage of the federal grant money is used or allocated to NCIP and is available on a piecemeal basis; and

WHEREAS, the Appellant asserts that for example, during the fiscal year 2011, as of September 30, 2011, Amtrak had spent 38 percent of approximately $1.3 billion authorized under the American Recovery and Reinvestment Act of 2009 on NCIP and that similar allocations have been and are made every fiscal year; and

WHEREAS, the Appellant asserts that contrary to DOB's assertion, there is no requirement that the government subsidy be used for, dedicated to, allocated or otherwise have any relationship to the NCIP; instead, the Appellant asserts that what is required by the plain language of § 24902(j) is that Amtrak receive such subsidies; and

WHEREAS, the Appellant notes that it has provided clear evidence demonstrating that Amtrak has received government subsidies every year since its creation and that, therefore, the exemption applies; and

WHEREAS, as far as subsidies, the Appellant believes that (i) DOB should not require it to produce evidence that Amtrak received government subsidies for the last several decades, a period during which the DOB held Amtrak properties to be exempt from the City's signage regulations, and (ii) that because of such determination, evidence of such subsidies for such period are not relevant; however, the Appellant provided documentation from the Federal Railroad Administration and Amtrak's Annual Report for Fiscal Year 2011, which demonstrates that Amtrak has relied on and received federal subsidies since its creation; and

WHEREAS, the Appellant asserts that by creating the NCIP, Congress found that it is a "valuable resource of the United States," (49 U.S.C. § 24101(a)(7)) and gave Amtrak the goals to "minimize Government subsidies by encouraging State, regional and local governments and the private sector, separately or in combination, to share the cost of … operating the facilities," and to "maximize the use of its resources, including the most cost-efficient use of … facilities and real property" (49 U.S.C. §§ 24101(c)(2) and (c)(12)); and

WHEREAS, the Appellant asserts that Amtrak was encouraged and directed to "make agreements with the private sector and undertake initiatives … designed to maximize its revenues and minimize Government subsidies" (49 U.S.C. § 24101(d)); and

WHEREAS, the Appellant asserts that in order to comply with such federal statutory directives, Amtrak adopted a business plan that extracts financial value and generates income from its real estate and other assets and that such revenues support Amtrak's core business and contribute towards the intercity passenger rail operations that serve New York City and other cities and reduce "Amtrak's reliance on government funding;" and

WHEREAS, the Appellant asserts that its business plan specifically directs the development of advertising on Amtrak properties; and

WHEREAS, the Appellant asserts that Amtrak has not historically had a self-supporting operation (*i.e.*, Amtrak has not been able to generate revenues sufficient to cover all of its costs and expenses), and all revenues generated through third-party advertising on Amtrak properties go toward reducing Amtrak's reliance on government subsidies; and

WHEREAS, the Appellant notes that no other jurisdiction has ever attempted to "impose local controls over advertising on Amtrak property," and asserts that this is further evidence that any such attempt would be in contravention of Amtrak's federal authorizing statute; and

WHEREAS, the Appellant concludes that the application of the City's signage regulations to NCIP, a program that the Amtrak railways in the City are under, would be contrary to the NCIP statute and Congress' intent; and

DOB'S POSITION

WHEREAS, in support of its position that the Signs on Amtrak property are not exempt from zoning regulations, DOB asserts that: (1) 49 U.S.C. § 24301(g) does not exempt the Signs because Appellant has failed to establish that such regulation would affect its routes, rates, and services; and (2) 49 U.S.C. § 24902(j) does not exempt the Signs because they do not serve a transportation purpose and the Appellant has not established the requisite federal subsidies during relevant periods; and

I. The Amtrak Signs are not Eligible for Exemption from Local Zoning under 49 U.S.C. § 24301(g)

WHEREAS, DOB distinguishes Caln from the subject case and finds that it does not support the Appellant's conclusion; and

WHEREAS, DOB states that following the noted interpretive background, the Caln court found that the vegetation ordinance under consideration was "related to Amtrak routes" and not "tenuous, remote or peripheral" because "Amtrak would be burdened with using its limited workforce and funds on continuously maintaining the property in Caln Township to ensure it is 'free from weed or plant growth in excess of [eight inches];' this drain on resources was deemed to have a significant impact on other operations on the Keystone Route" (id. at 4 (alteration in original)); and

WHEREAS, DOB notes that the potential for other vegetation ordinances with varying height limits being enforced against Amtrak all along its route was disfavored and thus the court found the ordinance at issue "preempted by 24301(g)" (id. at 4); and

WHEREAS, DOB finds that the Caln case is distinguishable from the subject case in that zoning enforcement against the Signs would have only a very tenuous, remote, and peripheral effect on rates, routes, and services, if any effect at all; and

WHEREAS, DOB states that the Appellant claims that "the City's signage regulations negatively impact Amtrak's routes and services in that such regulation will reduce Amtrak's revenues and ultimately result in Amtrak's greater reliance on government subsidies *and/or* increases to Amtrak's fares" but never describes what effect, if any, there will be on rates, routes, and services except to state what the loss of revenue would be; and

WHEREAS, DOB asserts that Appellant's use of "and/or" language in describing the regulations' alleged effect on rates implies that Appellant does not know if there will be *any* effect on rates, nor does Appellant describe what

the effect, if any, will be; and

WHEREAS, DOB states that it is also unclear how this speculative effect on fares supports Appellant's claim of an effect on "routes and services;" on this subject, Appellant's affidavit from the Amtrak Project Director in charge of Amtrak third-party advertising states only that "[w]ithout the revenue Amtrak generates from its outdoor advertising, Amtrak likely would require an additional $4.2 million in government funding annually;" and

WHEREAS, DOB notes that Amtrak's Project Director does not say that losing the advertising revenue would have any effect on routes, rates, or services at all; thus, in contrast to the facts of Caln, the claimed impact of the City's zoning on Amtrak's routes, rates and services in this appeal is tenuous, remote, and peripheral and Amtrak is not, therefore, exempt from local regulation by § 24301(g); and

II. The Amtrak Signs are not eligible for Exemption from Local Zoning under 49 U.S.C. § 24902(j)

WHEREAS, DOB states that this claim of exemption fails for the same reason as Appellant's arguments in the MTA context (see BSA Cal. No. 117-12-A et al); the Signs cannot be considered an improvement for the benefit of the NCIP because they have no direct bearing to NCIP's core transportation purpose; and

WHEREAS, firstly, as stated in Appellants' submissions, the goal in chief of Amtrak and the NCIP's enabling statutes is to provide train transportation; DOB cites to the Appellant's statement that "Amtrak was created ... [to provide] passenger railway services throughout the country"; and

WHEREAS, although, as Appellant has documented, Amtrak also has goals to "minimize Government subsidies" and to "maximize the use of its resources" (49 U.S.C. § 2410(c)1(12)), these goals are only indirectly related to its goal in chief of providing railway transportation; and

WHEREAS, DOB asserts that as with Appellant's arguments in the MTA context, Appellant's arguments under § 24902(j) fail because the Signs have no direct bearing to its core purpose; as Witherspoon decided:

> the use of the real property for the erection and maintenance of commercial advertising signs [] has no direct bearing to the governmental function for which [the authority] was created. On the contrary, such use is merely *incidental* to the goal in chief – the continued operation of the formerly tottering railroads. To that extent the use of the land for that purpose is proprietary. The immunity, insofar as applicable, is a limited one.

52 Misc.2d at 323 (emphasis in original); and

WHEREAS, DOB asserts that the Signs on Amtrak property are no more entitled to exemption from local regulation than the Signs on MTA property; and

WHEREAS, further, DOB states that the Caln court's examination of 49 U.S.C. § 24902(j) in the context of the local weeding ordinance shows that § 24902(j) does not exempt the Amtrak Signs from zoning in this appeal; and

WHEREAS, DOB states that in Caln, the court found that Amtrak was exempt from the local law under this section because Amtrak had shown that the rail lines in the township were an improvement for the benefit of the NCIP (id. at 4) and once that fact was established, it follows from the statute that land surrounding the tracks covered by the weeding ordinance was also exempt; and

WHEREAS, DOB contrasts Caln with the subject case in which Appellant argues that "[t]he use of Amtrak railroad properties for signage is an improvement undertaken for the benefit of Amtrak as part of, and in furtherance of, the NCIP in that it provides revenues necessary for the NCIP"; and

WHEREAS, DOB asserts that the Appellant has failed to address a critical exception to this immunity section, which reads, in relevant part, "[t]his subsection shall not apply to any improvement or related land unless Amtrak receives a Federal operating subsidy in the fiscal year in which Amtrak commits to or initiates such improvement;" and

WHEREAS, DOB asserts that the Appellant has not documented that Amtrak received a federal operating subsidy in the fiscal year in which Amtrak committed to or initiated each of the Signs at issue, and thus it has not documented that the Amtrak Signs are eligible for § 24902(j)'s exemption even if the Signs were an NCIP improvement; and

WHEREAS, DOB asserts that exemption is not appropriate in the absence of evidence of a subsidy in the fiscal year in which Amtrak committed to or initiated the Sign "improvement;" and

WHEREAS, DOB asserts that although the Appellant contends that Amtrak received a federal operating subsidy in the fiscal year in which it committed to the Signs, the Appellant has not provided
clear evidence demonstrating that Amtrak has received government subsidies every year since its creation; and has still not documented when Amtrak committed to or initiated each of the Amtrak Signs (or if it did so at all); and

WHEREAS, DOB asserts that until the Appellant can establish that it overcomes the exception to § 24902(j)'s local law exemption, it is not entitled to such exemption; and

SUPPLEMENTAL ARGUMENTS

WHEREAS, the Board notes that the Appellant made several supplemental arguments in the context of the larger appeal, which are addressed in full, with DOB's responses, in the MTA Resolution; and

WHEREAS, the Board notes that it was not persuaded by any of the Appellant's supplemental arguments common to all of the appeals related to signs on railroad property and, thus, declines to address the arguments here; the MTA Resolution includes the complete discussion of the arguments and the Board adopts the same rejection of all of the Appellant's supplemental arguments; and

CONCLUSION

WHEREAS, based upon its review of the record, the Board disagrees with the Appellant that 49 U.S.C. § 24301(g) affords Amtrak exemption from the City's signage regulations but agrees with the Appellant that 49 U.S.C. § 24902(j) affords it exemption; and

WHEREAS, as to 49 U.S.C. § 24301(g), the Board is not persuaded that the City's sign regulations are the kind of regulations that affect rates, routes, and services; and

WHEREAS, the Board agrees with DOB that the Appellant has failed to establish a connection between the

regulations and Amtrak's rates, routes, and services and does not find that, by the clear language, zoning is the kind of law contemplated by § 24301(g); and

WHEREAS, however, the Board agrees with the Appellant that signs on Amtrak properties are exempt from the sign regulations in the Zoning Resolution in accordance with 49 U.S.C. § 24902(j); and

WHEREAS, as to 49 U.S.C. § 24902(j), the Board notes that there are two requisite conditions for the Signs: (1) that they must be an improvement undertaken for the benefit of Amtrak, or land on which such improvement is located, in furtherance of the NCIP or other specified general Amtrak goals; and (2) Amtrak must receive a federal operating subsidy for the year in which Amtrak commits to or initiates such improvement; and

WHEREAS, as to the first, the Board agrees with the Appellant that the language is clear and that the Signs fall within the plain meaning of the broad term "improvement;" and

WHEREAS, as to the subsidy requirement, similarly, the Board finds that the language is clear and that it reflects simply Amtrak as a whole must have received a federal operating subsidy for the year in which it committed to or initiated the Signs; and

WHEREAS, the Board agrees with the Appellant that the meaning of subsidy also lacks specificity and accepts Appellant's evidence that Amtrak has received a subsidy for every year of its existence and, thus, would have received a subsidy for the year it committed to the Signs; and

WHEREAS, the Board disagrees with DOB's finding that § 24902(j) requires that the subsidy be clearly linked to the NCIP as § 24902(j) also allows for the improvement to be associated with Amtrak's broader goals for passenger transportation, in the alternate; and

WHEREAS, however, even if there were a requirement that the improvement and the subsidy be related to the NCIP, it is reasonable to conclude that the Signs on land that is part of Amtrak's Northeast Corridor system are improvements that benefit the NCIP and that they were committed to or initiated by subsidy dedicated to the NCIP, given Amtrak's history of receiving federal subsidies; and

WHEREAS, the Board agrees with the Appellant that Caln supports the conclusion that § 24902(j) exempts the subject Signs from the City's signage regulations; and

WHEREAS, the Board finds that DOB's invocation of concepts and terminology from the MTA cases are misplaced for the following reasons: (1) the language of § 24902(j) is clear, and (2) as argued in the MTA appeal, terminology may have different meaning in different contexts/statutes and there is no reason to infer that "transportation purpose" in the MTA context was intended, in the absence of it actually being stated in the text; and

WHEREAS, accordingly, the Board finds that there is no basis to insert the concept of "transportation purpose" from the State's MTA enabling statute into § 24902(j); and

Therefore it is resolved that the subject appeal, seeking a reversal of the Final Determinations of the Department of Buildings, dated March 26, 2012 and May 10, 2012, is hereby granted.

Adopted by the Board of Standards and Appeals, January 29, 2013.

205-12-A

APPLICANT – Fried Frank by Richard G. Leland, Esq., for Van Wagner Communication LLC.

OWNER OF PREMISES – Borden Realty Corporation.

SUBJECT – Application June 29, 2012 – Appeal challenging the Department of Buildings' determination that a sign is not entitled to non-conforming use status as an advertising sign. R7-2 /C2-4 (HRW) Zoning District.

PREMISES AFFECTED – 355 Major Deegan Expressway, bounded by Exterior Street, Major Deegan Expressway to the east, Harlem River to the west, north of the Madison Avenue Bridge, Block 2349, Lot 46, Borough of Bronx.

COMMUNITY BOARD #1BX

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5

Negative:.....0

THE RESOLUTION –

WHEREAS, the subject appeal comes before the Board in response to a Notice of Sign Registration Rejection letter from the Manhattan Borough Commissioner of the Department of Buildings ("DOB"), dated May 30, 2012, denying registration for a sign at the subject site (the "Final Determination"), which reads, in pertinent part:

> The Department of Buildings is in receipt of additional documentation submitted in response to the Deficiency Letter from the Signs Enforcement Unit and in connection with the application for registration of the above-referenced sign. Unfortunately, we find this documentation inadequate to support the registration of the sign and as such, the sign is rejected from registration. We note that there is no proof of second roof sign structure except for undated and incomplete rider to lease agreement. This sign will be subject to enforcement action 30 days from the issuance of this letter; and

WHEREAS a public hearing was held on this application on December 4, 2012, after due notice by publication in *The City Record*, and then to decision on January 29, 2013; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson and Commissioner Ottley-Brown; and

WHEREAS, the subject site is bounded by Exterior Street, a service road adjacent to the Major Deegan Expressway, to the east, and the Harlem River to the west, within a C2-4 (R7-2) zoning district; and

WHEREAS, the site is occupied by a two-story warehouse building (the "Building") with two advertising signs, with dimensions of 19'-6" by 48'-0" (936 sq. ft.) each, mounted on a single rooftop sign structure with two

identical interconnected sections, with one portion of the structure facing southeast and one portion of the structure facing northeast (the "Sign Structure"); and

WHEREAS, the southeast-facing sign was accepted for registration by DOB on March 4, 2011 (the "Registered Sign"), while the northeast-facing was rejected from registration by DOB (the "Subject Sign"); and

WHEREAS, the Appellant states that when the signs were installed the site was within an M1-2 zoning district which was rezoned to an M2-1 zoning district in 1988; pursuant to a 2009 rezoning, the site is now zoned C2-4 (R7-2); and

WHEREAS, the Subject Sign is located approximately 45'-7" from the Major Deegan Expressway, a designated arterial highway pursuant to Zoning Resolution Appendix H; and

WHEREAS, this appeal is brought on behalf of the lessee of the Sign Structure (the "Appellant"); and

WHEREAS, DOB appeared and made submissions in opposition to this appeal; and

REGISTRATION REQUIREMENT

WHEREAS, the Appellant identifies the relevant statutory requirements related to sign registration in effect since 2005; and

WHEREAS, the Appellant states that under Local Law 31 of 2005, the New York City Council enacted certain amendments to existing regulations governing outdoor advertising signs; and

WHEREAS, the amendments are codified under Articles 501, 502, and 503 of the 2008 Building Code and were enacted to provide DOB with a means of enforcing the sign laws where signs had been erected and were being maintained without a valid permit; and

WHEREAS, pursuant to Article 502 (specifically, Building Code § 28-502.4), an outdoor advertising company is required to submit to DOB an inventory of:

> all signs, sign structures and sign locations located (i) within a distance of 900 linear feet (274 m) from and within view of an arterial highway; or (ii) within a distance of 200 linear feet [60.96 m] from and within view of a public park with an area of ½ acre (5000 m) or more; and

WHEREAS, further, Local Law 31 authorized the Commissioner of DOB to promulgate rules establishing permitting requirements for certain signs; the DOB rules, enacted under Rule 49, provide specific procedures for registration of advertising signs; Rule 49-15(5) reads in pertinent part:

> Each sign shall be identified as either "advertising" or "non-advertising." To the extent a sign is a non-conforming sign, it must further be identified as "non-conforming advertising" or "non-conforming non-advertising." A sign identified as "non-conforming advertising" or "non-conforming non-advertising" shall be submitted to the Department for confirmation of its non-conforming status, pursuant to section 49-16 of this chapter; and

WHEREAS, subchapter B of Rule 49 (Registration of Outdoor Advertising Companies), (specifically, Rule 49-15(d)(15)(b)), sets forth the acceptable forms of evidence to establish the size and the existence of a non-conforming sign on the relevant date set forth in the Zoning Resolution; and

WHEREAS, the Appellant asserts that the acceptable forms of evidence set forth at Rule 49 are, in pertinent, part as follows:

> Acceptable evidence may include permits, sign-offs of applications after completion, photographs and leases demonstrating that the non-conforming use existed prior to the relevant date; and

WHEREAS, the Appellant notes that affidavits are also listed as an acceptable form of evidence; and

REGISTRATION PROCESS

WHEREAS, the Appellant states that on September 1, 2009, pursuant to the requirements of Article 502 and Rule 49, it submitted a Sign Registration Application for the Subject Sign and completed an OAC3 Outdoor Advertising Company Sign Profile, attaching the following documentation: (1) a diagram of the Subject Sign; (2) photographs of the Subject Sign; and (3) an affidavit from Richard Theryoung, a retired president of the sign company, attesting that the Subject Sign operated as an advertising sign at the time he began his employment in December 1979 (the "Theryoung Affidavit"); and

WHEREAS, the Appellant states that it submitted the same evidence in connection with the Subject Sign as it did for the Registered Sign, except that the application for the Registered Sign also included a DOB application submitted on November 30, 1979 with respect to that sign; and

WHEREAS, by letter dated March 4, 2011, DOB issued a Sign Identification Number to the Registered Sign but did not issue any comment regarding the Subject Sign; and

WHEREAS, on October 3, 2011, DOB issued a Notice of Sign Registration Deficiency, stating that it is unable to accept the Subject Sign for registration due to "Failure to provide proof of legal establishment;" and

WHEREAS, by letter dated December 14, 2011, the Appellant submitted to DOB a response letter which included evidence of the establishment of the Subject Sign (together with the Registered Sign) as of 1963; and

WHEREAS, by letter, dated May 10, 2012, DOB issued the determination which forms the basis of the appeal, stating that "the sign is rejected from registration;" and

RELEVANT STATUTORY PROVISIONS

> ZR § 12-10 *Definitions*
> Sign
> A "sign" is any writing (including letter, word, or numeral), pictorial representation (including illustration or decoration), emblem (including device, symbol, or trademark), flag, (including banner or
> pennant), or any other figure of similar character,

that:

(a) Is a structure or any part thereof, or is attached to, painted on, or in any other manner represented on a #building or other structure#;

(b) Is used to announce, direct attention to, or advertise; and

(c) Is visible from outside a #building#. A #sign# shall include writing, representation or other figures of similar character, within a #building#, only when illuminated and located in a window…

* * *

Sign, advertising

An "advertising sign" is a #sign# that directs attention to a business, profession, commodity, service or entertainment conducted, sold, or offered elsewhere than upon the same #zoning lot# and is not #accessory# to a #use# located on the #zoning lot#.

* * *

Non-conforming, or non-conformity

A "non-conforming" #use# is any lawful #use#, whether of a #building or other structure# or of a #zoning lot#, which does not conform to any one or more of the applicable #use# regulations of the district in which it is located, either on December 15, 1961 or as a result of any subsequent amendment thereto. . .

* * *

ZR § 42-55

Additional Regulations for Signs Near Certain Parks and Designated Arterial Highways

M1 M2 M3

In all districts, as indicated, the provisions of paragraphs (a), (b) and (c), or paragraph (d), of this Section, shall apply for #signs# near designated arterial highways or certain #public parks#.

(a) Within 200 feet of an arterial highway or a #public park# with an area of one-half acre or more, #signs# that are within view of such arterial highway or #public park# shall be subject to the following provisions:

  (1) no permitted #sign# shall exceed 500 square feet of #surface area#; and

  (2) no #advertising sign# shall be allowed; nor shall an existing #advertising sign# be structurally altered, relocated or reconstructed.

(b) Beyond 200 feet from such arterial highway or #public park#, the #surface area# of such #signs# may be increased one square foot for each linear foot such sign is located from the arterial highway or #public park#.

(c) The more restrictive of the following shall apply:

  (1) any #advertising sign# erected, structurally altered, relocated or reconstructed prior to June 1, 1968, within 660 feet of the nearest edge of the right-of-way of an arterial highway, whose message is visible from such arterial highway, shall have legal #non-conforming use# status pursuant to Section 52-83 (Non-Conforming Advertising Signs), to the extent of its size existing on May 31, 1968; or

  (2) any #advertising sign# erected, structurally altered, relocated or reconstructed between June 1, 1968, and November 1, 1979, within 660 feet of the nearest edge of the right-of-way of an arterial highway, whose message is visible from such arterial highway, and whose size does not exceed 1,200 square feet in #surface area# on its face, 30 feet in height and 60 feet in length, shall have legal #non-conforming use# status pursuant to Section 52-83, to the extent of its size existing on November 1, 1979. All #advertising signs# not in conformance with the standards set forth herein shall terminate.

* * *

ZR § 52-11 *Continuation of Non-Conforming Uses*

General Provisions

A #non-conforming use# may be continued, except as otherwise provided in this Chapter; and

* * *

ZR § 52-61 *Discontinuance*

General Provisions

If, for a continuous period of two years, either the #nonconforming use# of #land with minor improvements# is discontinued, or the active operation of substantially all the #non-conforming uses# in any #building or other structure# is discontinued, such land or #building or other structure# shall thereafter be used only for a conforming #use#. Intent to resume active operations shall not affect the foregoing . . . ; and

* * *

ZR § 52-83

Non-Conforming Advertising Signs

In all Manufacturing Districts, or in C1, C2, C4, C5-4, C6, C7 or C8 Districts, except as otherwise provided in Section…42-55, any non-conforming advertising sign except a flashing sign may be structurally altered, reconstructed, or replaced in the same location and position, provided that such structural alteration, reconstruction or replacement does not result in:

(a) The creation of a new non-conformity or an increase in the degree of non-conformity of such sign;
(b) An increase in the surface area of the sign; or
(c) An increase in the degree of illumination of such sign; and

* * *

Building Code § 28-502.4 – Reporting Requirement

An outdoor advertising company shall provide the department with a list with the location of signs, sign structures and sign locations under the control of such outdoor advertising company in accordance with the following provisions:

(1) The list shall include all signs, sign structures and sign locations located (i) within a distance of 900 linear feet (274 m) from and within view of an arterial highway; or (ii) within a distance of 200 linear feet (60 960 mm) from and within view of a public park with an area of ½ acre (5000 m) or more…

* * *

RCNY § 49-15 – Sign Inventory to be Submitted with Registration Application

…(d)(5) Each sign shall be identified as either "advertising" or "non-advertising." To the extent a sign is a non-conforming sign, it must further be identified as "non-conforming advertising" or "non-conforming non-advertising." A sign identified as "non-conforming advertising" or "non-conforming non-advertising" shall be submitted to the Department for confirmation of its non-conforming status, pursuant to section 49-16 of this chapter.

* * *

RCNY § 49-16 – Non-conforming Signs

(a) With respect to each sign identified in the sign inventory as non-conforming, the registered architect or professional engineer shall request confirmation of its non-conforming status from the Department based on evidence submitted in the registration application. The Department shall review the evidence submitted and accept or deny the request within a reasonable period of time. A sign that has been identified as non-conforming on the initial registration application may remain erected unless and until the Department has issued a determination that it is not non-conforming…

* * *

RCNY § 49-43 – Advertising Signs

Absent evidence that revenue from the sign is clearly incidental to the revenue generated from the use on the zoning lot to which it directs attention, the following signs are deemed to be advertising signs for the purposes of compliance with the Zoning Resolution:

(a) Signs that direct attention to a business on the zoning lot that is primarily operating a storage or warehouse use for business activities conducted off the zoning lot, and that storage or warehouse use occupies less than the full building on the zoning lot; or
(b) All signs, other than non-commercial, larger than 200 square feet, unless it is apparent from the copy and/or depictions on the sign that it is used to direct the attention of vehicular and pedestrian traffic to the business on the zoning lot; and

THE APPELLANT'S POSITION

WHEREAS, the Appellant contends that the Final Determination should be reversed because (1) the Subject Sign was established as an advertising sign prior to November 1, 19791, as required under ZR § 42-55, and may therefore be maintained as a legal non-conforming advertising sign pursuant to ZR § 52-11, and (2) the Subject Sign has operated as an advertising sign with no discontinuance of two years or more since its establishment; and

Establishment Prior to November 1, 1979

WHEREAS, as to the establishment of the Subject Sign prior to November 1, 1979, the Appellant contends that the Subject Sign has been continuously maintained at the site in conjunction with the Registered Sign since at least 1963, when the Sign Structure was constructed for the two signs; and

WHEREAS, in support of its assertion that the Subject Sign was established prior to November 1, 1979, the Appellant relies on: (1) a lease agreement between Allied Outdoor Advertising, Inc. ("Allied"), and the then property owner dated September 25, 1963, for use of the Sign Structure at the site, to expire on November 30, 1966, with an option to extend to November 30, 1969 (the "1963 Lease"); (2) an affidavit from licensed Master Sign Hanger Robert Roniger dated June 29, 2012, stating that the structure supporting the Subject Sign and the Registered Sign was constructed in the 1960s as a unified structure with two sign faces on a single pedestal (the "Roniger Affidavit"); (3) a lease agreement between Allied and Metropolitan Roofing Supplies Company ("Metropolitan") dated April 8, 1969 for use of the sign structure at the site, to expire on November 30, 1979 (the "1969 Lease"); (4) a letter dated December 5, 1969 from Metropolitan to Allied proposing a rider to adjust the rent of the signs following the enlargement of the two signs at the site (the "1969 Letter Agreement"); (5) a rider to the 1969 Lease extending the lease term to December 1, 1984 and granting permission to extend the width of the two signs by eight feet each (the "1969 Lease Rider"); (6) the Theryoung Affidavit, which states that the Subject Sign has operated as an advertising sign since at least December 1979; (7) an aerial

1 DOB acknowledges that the surface area of the Subject Sign does not exceed 1,200 sq. ft. on its face, 30 feet in height, or 60 feet in length, and therefore the Subject Sign may have legal non-conforming status if erected prior to November 1, 1979 pursuant to ZR § 32-662.

photograph dated January 3, 1980, taken from the rear of the Sign Structure, showing the Subject Sign and the Registered Sign mounted on the same structure (the "1980 Photograph"); and (8) aerial photographs dated August 10, 1983 which reflect that the Subject Sign and the Registered Sign were displaying advertising copy for Marlboro Lights on that date (the "1983 Photographs"); and

WHEREAS, the Appellant states that the 1963 Lease reflects that Allied leased a *de minimus* amount of space in the building to support the sign structure, "together with a steel sign structure erected on the roof of said premises"; however the Appellant asserts that there is no indication that Allied ever maintained an office at the site or used the Subject Sign to advertise for Allied; and

WHEREAS, the Appellant argues that the 1969 Lease Rider clearly shows that the rooftop sign structure supported two distinct signs at that time, as the 1969 Lease Rider granted Allied the right "to extend *both* signs 8 ft." (emphasis added); and

WHEREAS, accordingly, the Appellant argues that as early as 1969 the documents specifically reference two signs at the site, and in rejecting the Subject Sign while accepting the Registered Sign, DOB ignored the record before it, which demonstrates that the Subject Sign was established along with the Registered Sign for advertising use prior to November 1, 1979; and

WHEREAS, in response to DOB's claim that evidence of the establishment of the Subject Sign prior to November 1, 1979 is limited to an "undated and incomplete rider," the Appellant asserts that while the date of execution of the rider to the 1969 Lease is unavailable, it is the date of the 1969 Lease (April 8, 1969), and not the rider, that is relevant, and the 1969 Rider references two signs that are covered by the 1969 Lease; and

WHERES, the Appellant argues that the 1969 Letter Agreement, signed by the same signatories as the 1969 Lease Rider, also references two signs and therefore provides further corroboration that the 1969 Lease covers two signs; and

WHEREAS, the Appellant asserts that, taken together, the 1969 Lease, the 1969 Lease Rider and the 1969 Letter Agreement establish that two advertising signs were existing at the site in 1969, a decade before the November 1, 1979 date by which the Subject Sign needed to have been established to be considered a legal non-conforming use pursuant to ZR § 42-55(c)(2); and

WHEREAS, the Appellant states that to further support the contemporaneous establishment of the Subject Sign with the Registered Sign, the Appellant consulted a sign construction expert (and an employee of a subsidiary of Appellant), Robert Roniger, who is one of approximately twenty licensed Master Sign Hangers in the City of New York, and has worked as a sign hanger in the City of New York for over thirty years; and

WHEREAS, the Roniger Affidavit identifies the Sign Structure supporting the Registered Sign and the Subject Sign as a stick-figure angle-iron type structure, which is a type of sign structure predominantly utilized in the 1950s and 1960s, and states that after the 1960s the design of sign structures changed to a tubular design or I-beam construction; the Roniger Affidavit further states that the use of square head bolts and the condition and wear of the structure also point to its construction in the 1960s, as beginning in the 1970s installers and fabricators switched from square head to hex head bolts; and

WHEREAS, the Roniger Affidavit concludes that the Sign Structure was designed and constructed as a single interconnected structure with two sign faces in the 1960s; and

WHEREAS, the Board notes that Mr. Roniger also provided oral testimony at hearing in support of the statements made in his affidavit; and

WHEREAS, the Appellant notes that the same stick figure angle iron sign structure constructed in the 1960s continues to support both the Subject Sign and the Registered Sign today, and represents that a review of the photographs included with the Roniger Affidavit makes clear even to the layperson that the Sign Structure was constructed as a single unit; and

WHEREAS, the Appellant notes that the Theryoung Affidavit states that Allied had been operating two advertising signs at the time he began his employment in December 1979, and that at that time the two advertising signs were not then newly built; and

WHEREAS, the Appellant asserts that the 1980 Photograph clearly depicts two signs on the Sign Structure, and that the photograph, taken only two days and two months after November 1, 1979, corroborates the claim in the Theryoung Affidavit that the Subject Sign and the Registered Sign existed on the relevant date for legal establishment; and

WHEREAS, the Appellant states that during that same time period, on November 30, 1979, an application for what appears to be only the southeastern-facing Registered Sign only was submitted to DOB in order to legalize the already-existing Registered Sign; and

WHEREAS, the Appellant represents that despite its best efforts, it was unable to locate a similar application for the Subject Sign, but that nonetheless, all the evidence, including the 1980 Photograph, points to the existence of both signs simultaneously since the 1963 Lease; and

WHEREAS, the Appellant contends that there is no indication in the available records that the Registered Sign ever existed independently of the Subject Sign, but that consistent with the Roniger Affidavit, and per the 1979 DOB application, the earliest permit for the Registered Sign appears to have been issued in 1962 when the structure supporting both the Registered Sign and the Subject Sign was originally constructed; and

WHEREAS, the Appellant asserts that DOB accepted the Registered Sign based solely on the submission of the 1979 DOB application and rejected the Subject Sign for lacking the same documentation; however, as the 1980 Photograph shows, the Subject Sign and the Registered Sign were existing as part of a single structure while the 1979

DOB application for the Registered Sign was pending; and

WHEREAS, while it was unable to locate a parallel application for the Subject Sign, the Appellant argues that the absence of this piece of evidence alone cannot cancel out the documentation provided, including leases and photographs, which clearly establish that the Subject Sign was erected upon the same structure as the Registered Sign well before November 1, 1979, and by rejecting the Subject Sign because a similar piece of documentation is not available, DOB impermissibly interpreted the standard set forth in Rule 49 to require that a particular form of evidence be submitted for the Subject Sign to be accepted for registration; accordingly, DOB's rejection of the Subject Sign is arbitrary and unreasonable; and

WHEREAS, the Appellant argues that Rule 49 provides that a range of evidence may be used to establish the legal non-conforming status of a given sign, and notes that Rule 49-15(d)(15)(b) sets for the relevant evidentiary standard as follows:

> Acceptable evidence may include permits, sign-offs of applications after completion, photographs and leases demonstrating that the non-conforming use existed prior to the relevant date. Affidavits, Department cashier's receipts and permit applications, without other supporting documentation, are not sufficient to establish the non-conforming status of a sign. [emphasis added]; and

WHEREAS, the Appellant asserts that, per Rule 49, it has provided ample evidence for the Board to conclude that the Subject Sign existed on the Sign Structure leased to and used by advertising companies since prior to November 1, 1979, including: (1) the leases which reference a single integrated sign structure supporting the Subject Sign and the Registered Sign; (2) the 1969 Lease Rider referring to the extension of *both* signs; and (3) photographs showing advertising copy from the 1980s; and

WHEREAS, the Appellant further asserts that affidavits that are supported by documentary evidence are also acceptable forms of evidence under Rule 49, and that the Roniger Affidavit corroborates the leases and photographs referencing a single sign structure; and

WHEREAS, the Appellant argues that because the Roniger Affidavit is supported by the leases and photographs and because it logically flows that the a two-faced sign structure was not constructed to display advertising signage on only one of its faces, it must be concluded that the Subject Sign existed along with the Registered Sign throughout its history; and

WHEREAS, the Appellant concludes that all the evidence taken together meets the requirements of Rule 49 and indicates that the Subject Sign was established as an advertising sign prior to November 1, 1979; and

Continuous Use

WHEREAS, the Appellant asserts that the Subject Sign has been continuously used to display advertising copy since November 1, 1979, without any two-year interruption during that period; and

WHEREAS, in support of the continuous use of the Subject Sign as an advertising sign since November 1, 1979, the Appellant has submitted the following evidence: (1) the 1969 Lease Rider extending the lease term to December 1, 1984; (2) the 1980 Photograph; (2) aerial photographs dated August 10, 1983 showing advertising copy for Marlboro Lights on the Subject Sign and Registered Sign; (3) an aerial photograph dated July 17, 1985 showing the Subject Sign and the Registered Sign mounted on the same sign structure; (4) a lease agreement for the entire site between New York City Industrial Development Agency and Borden Realty Corp. dated September 1, 1991 and expiring September 13, 2001, recognizing Allied's existing lease and its right to sublease the sign structure for advertising use; (5) an assignment of the advertising signage sublease from Metropolitan to Borax Paper Products, Inc., dated September 13, 1991; (6) a lease dated November 18, 1992 between then property owner Borax Paper Products, Inc., and Allied for approximately 300 sq. ft. on the roof of the building, to expire on November 30, 2004; (7) a lease dated February 24, 2000 between the property owner and the Appellant referencing the double-faced sign structure, commencing November 30, 2004; (8) a photograph of the Registered Sign and Subject Sign with a Clear Channel logo from approximately 2003; (9) a photograph of the Subject Sign depicting advertising copy, dated January 2005; (10) a photograph of the Subject Sign depicting advertising copy, dated March 2006; (11) a photograph of the Subject Sign depicting advertising copy, dated August 2007; (12) a photograph of the Subject Sign depicting advertising copy, dated May 2008; (13) the Sign Registration Application, including photographs of the Subject Sign; (14) a photograph of the Subject Sign depicting advertising copy, dated May 2010; (15) a photograph of the Subject Sign depicting advertising copy, dated November 2011; and (16) a photograph of the Subject Sign depicting advertising copy, dated June 2012; and

DOB'S POSITION

WHEREAS, DOB asserts that the Appellant has not submitted sufficient evidence to meet the criteria set forth in RCNY § 49-15(d)(5) that a non-conforming northeast-facing sign existed at the site prior to November 1, 1979; and

WHEREAS, DOB states that ZR § 42-55(c)(2) confers non-conforming use status to any advertising sign erected, structurally altered, relocated or reconstructed prior to November 1, 1979, and that according to Rule 49, acceptable evidence that a non-conforming sign existed and the size of the sign that existed as of the relevant date set forth in the Zoning Resolution to establish its lawful status includes "permits, sign-offs of applications after completion, photographs and leases demonstrating the non-conforming use existed prior to the relevant date" and that "affidavits, Department cashier's receipts and permit applications without other supporting documentation, are not sufficient to establish the non-conforming status of a sign"; and

WHEREAS, DOB argues that the 1963 Lease, which

references a "steel sign structure erected on the roof" describes a single sign and it is unclear whether the referenced sign is the Registered Sign or the Subject Sign at the site; and

WHEREAS, DOB further argues that the 1963 Lease does not provide the dimensions or surface area of the sign, and it does not describe the use of the sign as an advertising sign; and

WHEREAS, DOB asserts that if there were two signs existing at the site at this time, the 1963 Lease should refer to both signs, or the Appellant should provide DOB with a second lease for the Subject Sign for the relevant time period; and

WHEREAS, DOB notes that the Appellant concedes that the Sign Structure displayed an accessory sign in 1963 promoting the landlord's roofing supply business at the site, and argues that the Appellant has not provided evidence of the date the Subject Sign was allegedly changed to an advertising use; and

WHEREAS, DOB contends that paragraph 2 of the 1963 Lease provides that "Tenant agrees to restore the sign to its present condition advertising Metropolitan Roofing Supplies Co. Inc. and its product" and the 1969 Lease between Metropolitan and Allied identifies Metropolitan as the landlord, which suggests that the Subject Sign's use was accessory to a roofing supply business at the site; and

WHEREAS, DOB argues that the 1969 Lease does not support the claim that the Subject Sign existed at the site, as the lease describes only one sign and provides that the landlord will not permit "any other sign structure to be erected upon the said roof during the period of this lease" and that this provision does not apply to "the sign on the rear wall of the premises nor the sign called for in paragraph "6" which advertises the products of the Metropolitan Roofing Supplies Co., Inc."; DOB asserts that this language indicates that there were only two signs at the site, a wall sign and the accessory sign that is the subject of the leases, and therefore instead of showing that the Subject Sign existed at the site, the leases provide more support for a presumption that the accessory sign described in the leases is the Registered Sign that was legalized as an advertising sign by the 1979 permit; and

WHEREAS, DOB asserts that the 1969 Letter Agreement also does not demonstrate that the Subject Sign existed, and argues that by changing paragraph 6 to grant a right to extend the "height and/or width of the existing sign (8' long x 4' high on one side of face and 5' long by 4' high on the other side of face)," this document appears to allow the lessee to convert the single sign to a double-faced sign, and the Appellant offers no evidence that the lessee exercised the right to install two sign faces; and

WHEREAS, as to the 1969 Lease Rider which refers to a right to increase the size of two signs at the site, DOB notes that it is an undated document and the Appellant offers no evidence that the right to reconstruct the sign as a double faced sign structure or to change the size of any sign at the site was exercised by the lessee; and

WHEREAS, DOB notes that neither the 1969 Letter Agreement nor the 1969 Lease Rider provide the sign's dimensions or mention that it was used for advertising; and

WHEREAS, DOB argues that a permit for the Registered Sign does not prove that the Subject Sign is an advertising sign erected, altered, relocated or reconstructed at the premises prior to November 1, 1979, and there is no reason both signs would not have received a permit in 1979 if both signs were eligible to be legalized per ZR § 42-55; and

WHEREAS, DOB asserts that the Roniger Affidavit, which states that the sign structure is a single integrated structure designed for two signs and installed in the 1960s, is insufficient to demonstrate that the Subject Sign is an advertising sign erected, altered, relocated or reconstructed at the premises prior to November 1, 1979, and in the event that such a structure was installed in the 1960s, the structure is not proof that an advertising sign was displayed prior to November 1, 1979; and

WHEREAS, DOB further asserts that the Roniger Affidavit was submitted without acceptable supporting documentation per Rule 49-15(d)(5) and does not demonstrate that a non-conforming sign existed at the site; and

WHEREAS, based upon the above, DOB concludes that the Appellant has not submitted sufficient evidence to prove that the Subject Sign was established as an advertising sign at the site prior to November 1, 1979; and

WHEREAS, the Board notes that DOB has not provided any testimony in response to the Appellant's claim that the use of the Subject Sign as an advertising sign has been continuous since November 1, 1979, without any two-year interruption; and

CONCLUSION

WHEREAS, the Board agrees with the Appellant that the Subject Sign was established prior to November 1, 1979; and

WHEREAS, specifically, the Board finds that the totality of the evidence, including the 1963 Lease, the 1969 Lease, the 1969 Lease Rider, the 1969 Letter Agreement, the Roniger Affidavit, the Theryoung Affidavit, the 1980 Photograph, and the 1983 Photographs are sufficient to establish that a northeast-facing advertising sign was maintained on the Sign Structure prior to November 1, 1979; and

WHEREAS, at the outset, the Board notes that it finds the Roniger Affidavit, in addition to the testimony provided by licensed Master Sign Hanger Robert Roniger at hearing, compelling to establish that the sign structure located on the roof of the subject building was constructed in the 1960s as a unified structure with two identical interconnected sections, with one portion of the structure facing southeast and one portion of the structure facing northeast; and

WHEREAS, the Board agrees with DOB that the Roniger Affidavit, in and of itself, is insufficient to demonstrate that the Subject Sign existed as an advertising sign prior to November 1, 1979, however, the Board considers it to be relevant evidence that the Sign Structure existed as a single interconnected two-faced structure at the site prior to November 1, 1979; and

WHEREAS, contrary to DOB's position that the Roniger Affidavit was submitted without acceptable supporting documentation per Rule 49-15(d)(5), the Board finds that in the instant case the photographs submitted with the Roniger Affidavit, in addition to the other evidence submitted by the Appellant, is sufficient supporting documentation for the purpose of establishing that the Sign Structure has existed at the site in its current form since the 1960s; and

WHEREAS, because the Board is convinced that the Sign Structure existed at the site since the 1960s, the Board finds that the references in both the 1963 Lease and 1969 Lease to a "steel sign structure erected on the roof" of the building refer to the Sign Structure which still exists on the roof of the building; and

WHEREAS, as to DOB's argument that the 1963 Lease and 1969 Lease describe only one sign and therefore provide more support for the position that only the Registered Sign existed at this time, the Board considers the reference to a single sign in the leases to be more indicative of a lack of clarity in regards to the proper way to reference the signs attached to the interconnected two-faced structure, such that the signs on the Sign Structure may have alternately been referred to as one sign or two signs in much the same way as the Board has seen historical references to double-sided signs alternately referred to as one sign or two signs; and

WHEREAS, the Board disagrees with DOB's position that the language in the 1963 Lease requiring the tenant to "restore the sign to its present condition advertising Metropolitan…" in the event it does not exercise the option to extend, and the fact that the 1969 Lease identifies Metropolitan as the landlord suggests that the sign's use was accessory to a roofing supply business at the site; rather, the Board considers the language in the 1963 Lease to suggest that Allied, an advertising company, intended to replace the accessory signage on the Sign Structure with advertising signage, and that the purpose of the lease provision in question was to require that Allied remove its advertising signage and re-install the accessory signage only in the event that it did not exercise the option to extend the lease; and

WHEREAS, the Board considers it unlikely that Allied, as an advertising company, would enter into the 1963 Lease and the 1969 Lease, which extended the lease for an additional ten years until November 30, 1979, solely to maintain the accessory signage that had previously been located on the Sign Structure; rather, the Board finds that a reasonable inference can be made that Allied entered into the leases in furtherance of its business as an advertising company, and as such replaced the accessory signage with advertising signage; and

WHEREAS, the Board agrees with the Appellant that the language in the 1969 Letter Agreement granting a right to extend the "height and/or width of the existing sign (8' long x 4' high on one side of face and 5' long by 4' high on other side of face)" indicates that there were two signs on the Sign Structure at the time and that the 1969 Letter Agreement authorized the tenant to extend each of the signs; and

WHEREAS, the Board further agrees with the Appellant that the 1969 Lease Rider, which granted Allied the right to "extend both signs 8 ft. and cut face of bottom of both signs 2 ½ ft" further indicates that two signs were maintained on the Sign Structure during the course of the 1969 Lease; and

WHEREAS, as to the fact that the 1969 Lease Rider is undated, the Board agrees with the Appellant that, because the 1969 Lease Rider refers back to the 1969 Lease, the relevant date is that of the 1969 Lease, and the Board notes that the 1969 Lease Rider would not be able to confer a right to extend both signs unless both signs already existed at the time of the 1969 Lease; and

WHEREAS, the Board considers it logical that Allied, as an advertising company leasing a sign structure with two faces, would place advertising copy on both the northeast-facing portion of the Sign Structure and the southeast-facing portion of the Sign Structure, rather than making use of only half of the Sign Structure; and

WHEREAS, the Board agrees with the Appellant that the 1980 Photograph provides further evidence that the Subject Sign existed at the site prior to November 1, 1979; and

WHEREAS, the Board finds that, although the 1980 Photograph was taken two months and two days after November 1, 1979, it clearly shows a northeast facing sign on the Sign Structure in addition to the Registered Sign, and considers the fact that the photograph was taken so shortly after the relevant date serves to corroborate the other evidence submitted by the Appellant regarding the existence of the Sign Structure and the Subject Sign at the site prior to November 1, 1979; and

WHEREAS, the Board notes that the 1980 Photograph shows the rear of the Sign Structure, and therefore it does not explicitly reflect that advertising copy was maintained on the Subject Sign at the time; however, the Board finds the fact that the Sign Structure was leased by an advertising company for more than 16 years prior to the date of the photograph, in combination with the 1983 Photographs which clearly show advertising copy on the Subject Sign to be convincing evidence that advertising copy was maintained on the Subject Sign prior to November 1, 1979; and

WHEREAS, while the Board does not consider any one piece of evidence submitted by the Appellant to be sufficient, standing alone, to demonstrate the establishment of the Subject Sign, it finds the totality of the evidence provided, when considered in the aggregate, to be sufficient for the Board to make a reasonable inference that the Subject Sign existed as an advertising sign prior to November 1, 1979; and

WHEREAS, as to the dimensions of the Subject Sign, the Board finds the existing dimensions of 19'-6" high by 48'-0" wide to be appropriate, based on (1) the Theryoung Affidavit, which states that the Subject Sign had those approximate dimensions as of December 1979, (2) the 1980 Photograph, which shows the Subject Sign occupying the entire width and the majority of the height of the northeast-facing portion of the Sign Structure, and which shows that the Subject Sign had approximately the same dimensions as the

Registered Sign, (3) the fact that the dimensions of the northeast-facing portion of the Sign Structure are 32'-6" high by 48'-0" wide, and (4) the fact that the DOB application to legalize the Registered Sign, approved on March 24, 1980, lists the dimensions of the Registered Sign as 20'-0" high by 50'-0" wide; and

WHEREAS, as noted above, DOB did not provide any testimony contesting the Appellant's position that the Subject Sign has been continuously maintained as an advertising sign since November 1, 1979; and

WHEREAS, the Board finds the evidence submitted by the Appellant sufficient to establish the continued existence of the Subject Sign as an advertising sign since November 1, 1979 without any two-year interruption, such that the Subject Sign is entitled to legal non-conforming status pursuant to ZR § 52-11; and

WHEREAS, accordingly, the Board finds that the Appellant has established the existence of the Subject Sign as an advertising sign prior to November 1, 1979 and its continuous use as an advertising sign since that date.

Therefore it is resolved that the subject appeal, seeking a reversal of the Final Determination of the Department of Buildings, dated May 30, 2012, is hereby granted.

Adopted by the Board of Standards and Appeals, January 29, 2013.

208-12-A, 216-12-A thru 232-12-A

APPLICANT – Rothkrug Rothkrug & Spector, LLP, for 647-649 Washington Avenue, LLC, owner.

SUBJECT – Application July 2, 2012 – Proposed construction of eighteen (18) single family homes that do not front on a legally mapped street, contrary to General City Law Section 36. R3A Zoning District.

PREMISES AFFECTED – 17, 19, 21, 23, 25, 27, 29, 31, 33, 35, 37, 39, 41, 43, 45, 47 and 49 McGee Lane, north side of McGee Lane, east of Harbor Road and West of Union Avenue, Block 01226, Lots 123, 122, 121, 120, 119, 118, 117, 116, 115, 114, 113, 112, 111, 110, 109, 108, 107 and 106, Borough of Staten Island.

COMMUNITY BOARD #1SI

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez ….....5

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Staten Island Borough Commissioner, dated May 31, 2012, acting on Department of Buildings Application Nos. 520099312, 520099321, 520099330, 520099349, 520099358, 520099367, 520099376, 520099385, 520099394, 520099401, 520099410, 520099429, 520099438, 520099447, 520099456, 5200099465, 520099474, and 520099483, reads in pertinent part:

The street giving access to proposed building is not duly placed on the official map of the city of New York, Therefore:

A) No Certificate of Occupancy can be issued pursuant to Article 3, Section 36 of General City Law.

B) Proposed construction does not have at least 8% of the total perimeter of building fronting directly upon a legally mapped street or frontage space contrary to Section BC501.3.1 of the NYC Building Code; and

WHEREAS, this is an application under General City Law ("GCL") § 36, to permit the construction of eighteen two-story one-family homes with accessory off-street parking for two vehicles; and

WHEREAS, the proposed homes are part of a larger residential development which front on mapped streets (Harbor Road, Leyden Avenue, and Union Avenue), which do not require GCL relief from the Board; and

WHEREAS, a public hearing was held on this application on January 15, 2013, after due notice by publication in *The City Record*, and then to decision on January 29, 2013; and

WHEREAS, the subject block (Block 1226) was the subject of a private rezoning application to change the former M1-1 zoning district to the current R3A zoning district, which was approved by the City Council on May 11, 2011; and

WHEREAS, the subject site is located east of Harbor Road, north of Leyden Avenue, and west of Union Avenue, within an R3A zoning district; and

WHEREAS, by letter dated November 27, 2012, the Fire Department states that it has reviewed the proposal and has no objection as long as the following conditions are met: (1) interconnected smoke alarms are installed in compliance with NYC Building Code Section 907.2.10; (2) hydrants are located within 250 feet of the entrance to each home and the hydrants have eight-inch or greater water mains; (3) the height of the homes do not exceed 35 feet above grade plane; (4) No Parking signs are maintained at the entrance and along one side of the fire access road (McGee Lane) where is parking is prohibited; and (5) the No Parking signs have a minimum dimension of 12 inches wide by 18 inches high and have red letters on a white reflective background; and

WHEREAS, in response, the applicant submitted a revised site plan noting the conditions requested by the Fire Department; and

WHEREAS, accordingly, the Board has determined that the applicant has submitted adequate evidence to warrant this approval under certain conditions.

Therefore it is Resolved that the decision of the Staten Island Borough Commissioner, dated May 31, 2012, acting on Department of Buildings Application Nos. 520099312, 520099321, 520099330, 520099349, 520099358, 520099367, 520099376, 520099385, 520099394, 520099401, 520099410, 520099429, 520099438, 520099447, 520099456, 5200099465, 520099474, and 520099483, is modified by the

power vested in the Board by Section 36 of the General City Law, and that this appeal is granted, limited to the decision noted above; *on condition* that construction shall substantially conform to the drawing filed with the application marked "Received December 18, 2012"–(1) sheet; that the proposal shall comply with all applicable zoning district requirements; and that all other applicable laws, rules, and regulations shall be complied with; and *on further condition*:

THAT (1) the applicant will install interconnected smoke alarms in compliance with NYC Building Code Section 907.2.10; (2) hydrants will be located within 250 feet of the entrance to each home and the hydrants will have eight-inch or greater water mains; (3) the height of the homes will not exceed 35 feet above grade plane; (4) "No Parking" signs will be maintained at the entrance and along one side of the fire access road (McGee Lane) where is parking is prohibited and the signs will have a minimum dimension of 12 inches wide by 18 inches high and have red letters on a white reflective background, in accordance with the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT DOB will review the proposed plans to ensure compliance with all relevant provisions of the Zoning Resolution;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted;

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals January 29, 2013.

287-12-A

APPLICANT – Zygmunt Staszewski, for Breezy Point Cooperative Inc., owner; Brian Rudolph, lessee.

SUBJECT – Application October 5, 2012 – Proposed enlargement of existing building located partially within the bed of a mapped street, contrary to General City Law Section 35, and upgrade of an existing private disposal system, contrary to the Department of Building policy. R4 zoning district.

PREMISES AFFECTED – 165 Reid Avenue, east side of Beach 201 Street, 335' north of Breezy Point Boulevard, Block 16350, Lot 400, Borough of Queens.

COMMUNITY BOARD #14Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Queens Borough Commissioner, dated September 21,

2012, acting on Department of Buildings Application No. 420618139, reads in pertinent part:

For Board of Standards and Appeals Only

A1- The proposed enlargement is on a site where the building and lot are located partially in the bed of a mapped street therefore no permit or Certificate of Occupancy can be issued as per Article 3, Section 35 of the General City Law.

A2- The proposed upgrade of the private disposal is contrary to the Department of Buildings policy; and

WHEREAS, a public hearing was held on this application on January 29, 2013, after due notice by publication in the *City Record*, and then to decision January 29, 2013; and

WHEREAS, by letter dated November 12, 2012 the Fire Department states that it has reviewed the subject proposal and states that as the enlargement is more than 125 percent of the existing square footage, the Fire Department requires that the entire building be fully sprinklered; and

WHEREAS, in response to the Fire Department's request the applicant has provided a revised site plan indicating that the building will be fully sprinklered and smoke alarms will be interconnected to the existing hard-wired electrical system; and

WHEREAS, by letter dated January 22, 2013, the Fire Department states that it has reviewed the submission and has no further objections; and

WHEREAS, by letter dated October 25, 2012, the Department of Environmental Protection states that it has no objection to the subject proposal; and

WHEREAS, by letter dated January 28 , 2012, the Department of Transportation ("DOT") states that it has no objection to the subject proposal; and

WHEREAS, DOT states that the subject lot is not currently included in the agency's Capital Improvement Program; and

WHEREAS, accordingly, the Board has determined that the applicant has submitted adequate evidence to warrant this approval under certain conditions.

Therefore it is Resolved that the decision of the Queens Borough Commissioner, dated September 21, 2012, acting on Department of Buildings Application No. 420618139, is modified by the power vested in the Board by Section 35 of the General City Law, and that this appeal is granted, limited to the decision noted above; *on condition* that construction shall substantially conform to the drawing filed with the application marked "Received December 19, 2012 "-one (1) sheet; that the proposal shall comply with all applicable zoning district requirements; and that all other applicable laws, rules, and regulations shall be complied with; and *on further condition*:

THAT this approval is limited to the relief granted by

the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT DOB will review the proposed plans to ensure compliance with all relevant provisions of the Zoning Resolution;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted;

THAT the home will be fully sprinklered and will be provided with interconnected smoke alarms in accordance with the BSA-approved plans;

THAT the Department of Buildings must ensure compliance with all other applicable
provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, January 29, 2013.

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated April 6, 2012, acting on Department of Buildings Application No. 320230567, reads in pertinent part:

> [R]eduction in the number of off street parking spaces…requires a special permit from the Board of Standards and Appeals, pursuant to section ZR 73-44; and

WHEREAS, this is an application under ZR §§ 73-44 and 73-03, to permit, partially within a C4-2 zoning district and partially within a C4-2A zoning district, a reduction in the required number of accessory parking spaces for an office building from 331 to 240, contrary to ZR § 36-21; and

WHEREAS, a public hearing was held on this application on October 16, 2012, after due notice by publication in The City Record, with continued hearings on December 4, 2012 and January 8, 2012, and then to decision on January 29, 2013; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 4, Brooklyn, recommends approval of this application; and

WHEREAS, New York City Council Member Sara M. Gonzalez provided testimony in support of this application; and

WHEREAS, the applicant's initial application requested a reduction in the required number of accessory parking spaces from 331 to 221 spaces, to be provided at the subject site and at three separate off-site locations; and

WHEREAS, in response to concerns raised by the Board, the applicant revised its application to provide a total of 240 accessory parking spaces, to be provided at the

subject site and at two off-site locations; and

WHEREAS, the subject site is located on the northeast corner of 7th Avenue and 64th Street, partially within a C4-2 zoning district and partially within a C4-2A zoning district; and

WHEREAS, the site has approximately 476 feet of frontage along 64th Street, 180 feet of frontage along 7th Avenue, and a total lot area of 86,680 sq. ft.; and

WHEREAS, the zoning lot is comprised of two tax lots (Lots 150 and 165), with a four-story building on Lot 150 (recently enlarged from two stories) and a three-story building located on Lot 165 (the "Buildings"), with a total floor area for both buildings on the zoning lot of 205,808 sq. ft. (2.4 FAR); the maximum permitted floor area is 258,000 sq. ft. (3.0 FAR); and

WHEREAS, the applicant notes that the Buildings were originally constructed prior to December 15, 1961, with a total pre-1961 zoning floor area of 73,344 sq. ft. for both buildings; and

WHEREAS, the applicant notes that the only parking spaces required for the Buildings is for developments or enlargements after December 15, 1961, and since 73,344 sq. ft. of the Buildings' floor area existed prior to December 15, 1961, only 132,464 sq. ft. of the Buildings' floor area is subject to the parking requirements of the Zoning Resolution; and

WHEREAS, the applicant states that the Buildings are currently occupied by office space throughout, with a 138-space parking garage in the cellar of the building on Lot 165, and a 17-space parking garage on a portion of the first floor of the building on Lot 150; and

WHEREAS, pursuant to ZR § 73-44, the Board may, in the subject C4-2 and C4-2A zoning districts, grant a special permit that would allow a reduction in the number of accessory off-street parking spaces required under the applicable Zoning Resolution provision, for ambulatory diagnostic or treatment facilities and the noted Use Group 6 office use in the parking category B1; in the subject zoning districts, the Board may reduce the required parking from one space per 400 sq. ft. of floor area to one space per 600 sq. ft. of floor area; and

WHEREAS, pursuant to ZR § 36-21 the total number of required parking spaces for the current and proposed uses at the site is 331; and

WHEREAS, the applicant represents that the proposed use of the site does not require 331 accessory parking spaces; and

WHEREAS, in addition to the 155 accessory parking spaces provided within the Buildings, the applicant proposes to provide an additional 85 parking spaces at two off-site locations, for a total of 240 accessory parking spaces; and

WHEREAS, specifically, the applicant states that 63 accessory spaces will be provided at 6208 8th Avenue (Block 5794, Lot 75), and 22 accessory spaces will be provided at 720 64th Street (Block 5821, Lot 13); and

WHEREAS, the applicant represents that the proposed 240 parking spaces are sufficient to accommodate the parking demand generated by the use of the site; and

WHEREAS, the applicant notes that the proposed total of 240 accessory parking spaces would provide 19 more spaces than the minimum of 221 required under the special permit; and

WHEREAS, ZR § 73-44 requires that the Board must determine that the ambulatory diagnostic or treatment facility and Use Group 6 use in the B1 parking category are contemplated in good faith; and

WHEREAS, the applicant notes that the existing tenants at the Buildings are all Use Group 6 professional offices and the recently completed enlargement to the building on Lot 150 will facilitate expanded floor area available to the existing tenants or comparable tenants; and

WHEREAS, in addition, the applicant states that any Certificate of Occupancy for the building will state that no subsequent Certificate of Occupancy may be issued if the use is changed to a use listed in parking category B unless additional accessory off-street parking spaces sufficient to meet such requirements are provided on the site or within the permitted off-street radius; and

WHEREAS, the Board finds that the applicant has submitted sufficient evidence of good faith in maintaining the noted uses at the site; and

WHEREAS, while ZR § 73-44 allows the Board to reduce the required accessory parking, the Board requested an analysis about the impact that such a reduction might have on the community in terms of available on-street parking; and

WHEREAS, in response, the applicant states that the site is well served by mass transit, as it is on the same block as the entrance to the MTA N Subway Line, and City buses running along 8th Avenue and 65th Street, one block away from the site, are utilized by a significant number of employees and visitors to the site; and

WHEREAS, the applicant represents that the demand for on-site parking at the Buildings is further diminished by the fact that a number of employees and visitors to the site live close enough to walk, and visitors are often dropped off/picked up, such that they do not require a space when they come to the site; and

WHEREAS, the applicant submitted a parking demand and capacity analysis report which states that only approximately 50 percent of the Buildings' current employees travel by private auto or park on-site, and the Buildings' current occupants do not fully utilize the on-site parking that is available, as utilization of the Buildings' parking facilities is 81 percent, with 126 of 155 spaces occupied; and

WHEREAS, the applicant also submitted an on-street parking survey which reflects that between 11:00 a.m. and 2:00 p.m. approximately 21 legal spaces out of approximately 359 spaces, or six percent, were available in the immediate vicinity of the site; and

WHEREAS, based upon the above, the Board agrees that the accessory parking space needs can be accommodated even with the parking reduction; and

WHEREAS, accordingly, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-44 and 73-03; and

WHEREAS, the project is classified as an unlisted action pursuant to 6 NYCRR, Part 617.4; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 12BSA124K, dated April 17, 2012; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration under 6 NYCRR Part 617 and §6-07(b) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-44 and 73-03 to permit, partially within a C4-2 zoning district and partially within a C4-2A zoning district, a reduction in the required number of accessory parking spaces for an office building from 331 to 240, contrary to ZR § 36-21; on condition that all work shall substantially conform to drawings as they apply to the objections above noted filed with this application marked "Received January 24, 2013" – twenty (20) sheets, and on further condition:

THAT there shall be no change in the operation of the site without prior review and approval by the Board;

THAT a minimum of 240 parking spaces will be provided, with 155 parking spaces located in the Buildings, 63 parking spaces located at 6208 8th Avenue (Block 5794, Lot 75), and 22 parking spaces located at 720 64th Street (Block 5821, Lot 13);

THAT no certificate of occupancy may be issued if the use is changed to a use listed in parking category B unless additional accessory off-street parking spaces sufficient to meet such requirements are provided on the site or within the permitted off-street radius;

THAT the above conditions shall appear on the Certificate of Occupancy;

THAT the layout and design of the accessory parking lot shall be as reviewed and approved by the Department of Buildings;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all of applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, January 29, 2013.

***CORRECTION**

This resolution adopted on December 4, 2012, under Calendar No. 143-07-BZ and printed in Volume 97, Bulletin No. 50, is hereby corrected to read as follows:

143-07-BZ

APPLICANT – Fredrick A. Becker, for Chabad House of Canarsie, Inc., owner.

SUBJECT – Application July 16, 2012 – Extension of Time to complete construction of an approved variance (§72-21) to permit the construction of a three-story and cellar synagogue, which expired on July 22, 2012. R2 zoning district.

PREMISES AFFECTED – 6404 Strickland Avenue, northeast corner of Strickland Avenue and East 64th Street, Block 8633, Lot 1, Borough of Brooklyn.

COMMUNITY BOARD #18BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a reopening and an extension of time to complete construction of a previously granted variance to permit the construction of a three-story and cellar synagogue with accessory religious-based preschool, which expired on July 22, 2012; and

WHEREAS, a public hearing was held on this application on October 23, 2012, after due notice by publication in *The City Record*, and then to decision on December 4, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan and Commissioner Ottley-Brown; and

WHEREAS, the subject site is located on the northeast corner of Strickland Avenue and East 64th Street, within an R2 zoning district; and

WHEREAS, on July 22, 2008, under the subject calendar number, the Board granted a variance to permit the proposed construction of a three-story and cellar synagogue with accessory religious-based preschool, contrary to the underlying zoning district regulations for front and side yards, floor area and floor area ratio, front wall height, sky exposure plane, and parking; and

WHEREAS, substantial construction was to be completed by July 22, 2012, in accordance with ZR § 72-23; and

WHEREAS, the applicant states that due to financing delays, additional time is necessary to complete the project; thus, the applicant now requests an extension of time to complete construction; and

WHEREAS, the applicant represents that the owner is now prepared to proceed with construction; and

WHEREAS, based upon its review of the record, the Board finds that the requested extension of time to complete construction is appropriate with certain conditions as set forth below.

Therefore it is Resolved that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated July 22, 2008, so that as amended this portion of the resolution shall read: "to grant an extension of the time to complete construction for a term of four years, to expire on December 4, 2016; *on condition*:

THAT substantial construction will be completed by December 4, 2016;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted."

(DOB Application No. 302279488)

Adopted by the Board of Standards and Appeals, December 4, 2012.

***The resolution has been revised to correct the Public Hearing date on the 2nd WHEREAS, and the location on 4th WHEREAS. Corrected in Bulletin Nos. 4-5, Vol. 98, dated February 7, 2013.**

Jeff Mulligan, Executive Director

MINUTES

REGULAR MEETING
TUESDAY MORNING, FEBRUARY 5, 2013
10:00 A.M.

Present: Chair Srinivasan, Vice-Chair Collins, Commissioner Hinkson and Commissioner Montanez.
Absent: Commissioner Ottley-Brown.

SPECIAL ORDER CALENDAR

39-65-BZ
APPLICANT – Eric Palatnik, P.C., for SunCo. Inc. (R & M), owners.
SUBJECT – Application March 13, 2012 – Amendment of a previously-approved variance (§72-01) to convert repair bays to an accessory convenience store at a gasoline service station (*Sunoco*); Extension of Time to obtain a Certificate of Occupancy, which expired on January 11, 2000; and Waiver of the Rules. C3 zoning district.
PREMISES AFFECTED – 2701-2711 Knapp Street and 3124-3146 Voohries Avenue, Block 8839, Lot 1, Borough of Brooklyn.
COMMUNITY BOARD #15BK
ACTION OF THE BOARD – Application granted on condition.
THE VOTE TO GRANT –
Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Hinkson and Commissioner Montanez 4
Negative:.....0
Absent: Commissioner Ottley-Brown.....1
THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure, a reopening, an extension of time to obtain a certificate of occupancy, and an amendment to permit certain modifications to the site; and

WHEREAS, a public hearing was held on this application on July 17, 2012, after due notice by publication in *The City Record*, with continued hearings on October 30, 2012 and January 8, 2013, and then to decision on February 5, 2013; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 15, Brooklyn, recommends approval of this application; and

WHEREAS, the site is located on the southeast corner of Knapp Street and Voorhies Avenue, within a C3 zoning district; and

WHEREAS, the Board has exercised jurisdiction over the subject site since March 16, 1965 when, under the subject calendar number, the Board granted a variance to permit the construction of an automotive service station with accessory uses including the storage of boats and public parking; and

WHEREAS, subsequently, the grant has been amended by the Board at various times; and

WHEREAS, most recently, on August 11, 1998, the Board granted an extension of time to obtain a certificate of occupancy, which expired on August 11, 1999; and

WHEREAS, the applicant now seeks an additional extension of time to obtain a certificate of occupancy; and

WHEREAS, the applicant also requests an amendment to eliminate the automotive repair service use and convert the automotive repair bays to an accessory convenience store; and

WHEREAS, the Board notes that Technical Policy and Procedure Notice (TPPN) # 10/99, provides that a retail convenience store located on the same zoning lot as a gasoline service station will be deemed accessory if: (i) the accessory convenience store is contained within a completely enclosed building; and (ii) the accessory convenience store has a maximum retail selling space of 2,500 sq. ft. or 25 percent of the zoning lot area, whichever is less; and

WHEREAS, the applicant represents that the proposed convenience store is located within an enclosed building and has a retail selling space of less than 2,500 sq. ft. or 25 percent of the zoning lot area; and

WHEREAS, at hearing the Board directed the applicant to provide landscaping on the site as shown in the previously-approved plans; and

WHEREAS, in response, the applicant submitted revised plans reflecting that the existing landscaping will be trimmed and manicured and 4'-0" evergreen shrubs will be planted; and

WHEREAS, based upon its review of the record, the Board finds the amendment to the approved plans is appropriate with certain conditions as set forth below.

Therefore it is Resolved that the Board of Standards and Appeals *amends* the resolution, dated March 16, 1965, so that as amended this portion of the resolution shall read: "to grant an extension of time to obtain a certificate of occupancy for one year from the date of this grant, to expire on February 5, 2014, and to permit the noted site modifications; *on condition* that all work shall substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked 'Received January 22, 2013'–(6) sheets; and *on further condition:*

THAT all signage will comply with C3 zoning district regulations;

THAT landscaping will be provided and maintained in accordance with the BSA-approved plans;

THAT the above conditions will appear on the certificate of occupancy;

THAT a new certificate of occupancy will be obtained by February 5, 2014;

THAT all conditions from the prior resolution not specifically waived by the Board remain in effect;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed

DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted."
(DOB Application No. 320359465)

Adopted by the Board of Standards and Appeals February 5, 2013.

85-91-BZ
APPLICANT – Carl A. Sulfaro, Esq. for Lada Limited Liability Company, owner; Bayside Veterinary Center, lessee.
SUBJECT – Application August 20, 2012 – Extension of Term (§11-411) of a previously granted variance for a veterinarian's office, accessory dog kennels and a caretaker's apartment which expired on July 21, 2012; amendment to permit a change to the hours of operation and accessory signage. R3-1 zoning district.
PREMISES AFFECTED – 204-18 46th Avenue, south side of 46th Avenue 142.91' east of 204th Street. Block 7304, Lot 17, Borough of Queens.
COMMUNITY BOARD #11Q
ACTION OF THE BOARD – Application granted on condition.
THE VOTE TO GRANT –
Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Hinkson and Commissioner Montanez.....4
Negative:.....0
Absent: Commissioner Ottley-Brown.....1
THE RESOLUTION –

WHEREAS, this is an application for a reopening, an extension of term for the continued use of the site as a veterinarian's office (Use Group 6) with accessory kennels and a caretaker's apartment (Use Group 16), which expired on July 21, 2012, and an amendment to permit certain modifications to the site; and

WHEREAS, a public hearing was held on this application on November 20, 2012, after due notice by publication in *The City Record*, with a continued hearing on January 8, 2013, and then to decision on February 5, 2013; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 11, Queens, recommends approval of this application, with the condition that the term be limited to five years; and

WHEREAS, the site is located on the south side of 46th Avenue between 204th Street and the Clearview Expressway Service Road, within an R3-1 zoning district; and

WHEREAS, the site has 80 feet of frontage on 46th Avenue, a depth of 100 feet, and a total lot area of 8,000 sq. ft.; and

WHEREAS, the site is occupied by a two-story building with veterinarian's office (Use Group 6) at the first floor, an accessory caretaker's apartment at the second floor, and accessory kennels in a separate building; and

WHEREAS, the Board has exercised jurisdiction over the subject site since June 22, 1954 when, under BSA Cal. No. 698-53-BZ, the Board granted a variance to permit the maintenance of dog kennels, the practice of veterinary medicine, a caretakers apartment, and an accessory garage in a residential district, for a term of ten years; and

WHEREAS, subsequently, the grant was amended and the term extended by the Board at various times; and

WHEREAS, on July 21, 1992, the Board granted the re-establishment of the lapsed variance, to permit a veterinarian's office (Use Group 6) and accessory dog kennels with a caretaker's apartment (Use Group 16), and a proposed structural alteration to the interior of the buildings, for a term of ten years; and

WHEREAS, a condition of the grant was that adjoining Lot 14 not be used in conjunction with the uses on the site; and

WHEREAS, most recently, on June 15, 2004, the Board granted an extension of term for ten years from the expiration of the prior grant, to expire on July 21, 2012; and

WHEREAS, the applicant now requests an additional ten-year extension of term; and

WHEREAS, pursuant to ZR § 11-411, the Board may permit an extension of term; and

WHEREAS, the applicant also requests an amendment to permit: (1) a non-illuminated sign to be erected at the property solely identifying the name "Bayside Veterinary Center"; (2) an extension of the hours of operation; and (3) the use of a small portion of Lot 14 for the maneuvering of customer vehicles; and

WHEREAS, as to the hours of operation, the applicant states that the existing hours are: Monday through Friday, from 9:00 a.m. to 7:00 p.m.; Saturday, from 9:00 a.m. to 12:00 p.m.; and closed on Sundays; and

WHEREAS, the applicant requests that the hours be extended on Saturdays to 9:00 a.m. to 7:00 p.m., since many local pet owners have limited time during the week to visit the site and the demand for veterinary services is increased on Saturdays; and

WHEREAS, as to the parking, the applicant states that the site provides on-site parking for five customer vehicles; on the east side of the office building there are two parking spaces, and the remaining three spaces are provided on the west side of the office building; and

WHEREAS, the applicant states that in order to access the most westerly parking space, it is necessary for a vehicle to cross part of vacant Lot 14 and for a small portion of the parked vehicle to remain on part of Lot 14; and

WHEREAS, the applicant further states that, in compliance with the prior resolution, the greater part of Lot 14 has been completely fenced and remains vacant, but the applicant requests that parking of customer cars partially on the open part of Lot 14 closest to 46th Avenue be permitted

in order to accommodate the parking on the westerly side of the office building; and

WHEREAS, pursuant to ZR § 11-412, the Board may grant a request for changes to the site; and

WHEREAS, based upon the above, the Board finds that the requested extension of term and amendments are appropriate with certain conditions as set forth below.

Therefore it is Resolved that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated July 21, 1992, so that as amended this portion of the resolution shall read: "to extend the term for ten years from the expiration of the prior grant, to expire on July 21, 2022, and to permit the noted modifications to the site; *on condition* that all use and operations shall substantially conform to plans filed with this application marked Received 'August 20, 2012'-(5) sheets and 'December 18, 2012'-(1) sheet; and *on further condition*:

THAT the term of the grant will expire on July 21, 2022;

THAT signage will comply with the BSA-approved plans;

THAT the hours of operation will be: Monday through Saturday, from 9:00 a.m. to 7:00 p.m.; and closed Sundays;

THAT a portion of adjoining Lot 14 may be used for the maneuvering and parking of customer cars, as illustrated on the BSA-approved plans;

THAT the above condition will be reflected on the certificate of occupancy;

THAT all conditions from the prior resolution not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted."
(DOB Application No. 401718539)

APPEALS CALENDAR

97-12-A & 98-12-A
APPLICANT – Fried Frank by Richard G. Leland, Esq., for Van Wagner Communications, LLC.
OWNER OF PREMISES - 620 Properties Associates, LLC.
SUBJECT – Application April 11, 2012 – Appeal challenging Department of Buildings' determination regarding right to maintain existing advertising sign in manufacturing district. M1-5/CL zoning district.
PREMISES AFFECTED – 620 12th Avenue, between 47th and 48th Streets, Block 1095, Lot 11, Borough of Manhattan.
COMMUNITY BOARD #4M
ACTION OF THE BOARD – Appeal Denied.
THE VOTE TO GRANT –
Affirmative: 0
Negative: Chair Srinivasan, Vice Chair Collins, Commissioner Hinkson and Commissioner Montanez 4
Absent: Commissioner Ottley-Brown.....1
THE RESOLUTION –

WHEREAS, the subject appeal comes before the Board in response to two Notice of Sign Registration Rejection letters from the Borough Commissioner of the Department of Buildings ("DOB"), dated March 12, 2012, denying registration for two signs at the subject site (the "Final Determinations"), which read, in pertinent part:

> The Department of Buildings is in receipt of additional documentation submitted in response to the Deficiency Letter from the Signs Enforcement Unit and in connection with the application for registration of the above-referenced sign. Unfortunately, we find this documentation inadequate to support the registration of the sign and as such, the sign is rejected from registration. The photos do not support proof of advertising sign use during relevant legal establishment periods. This sign will be subject to enforcement action 30 days from the issuance of this letter; and

WHEREAS a public hearing was held on this application on December 4, 2012, after due notice by publication in *The City Record*, and then to decision on February 5, 2013; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan and Commissioner Hinkson; and

WHEREAS, the subject site is located on the east side of 12th Avenue, between West 47th Street and West 48th Street, in an M2-4 zoning district within the Special Clinton District; and

WHEREAS, the site is occupied by a four-story building and rooftop sign structure with two advertising signs; one at the northern portion of the roof, facing northwest, and one at the southern portion of the roof, facing southwest (the "Signs"); and

WHEREAS, the Signs have dimensions of 14'-0" high by 48'-0" wide (672 sq. ft.) each and are located approximately 25 feet from the West Side Highway, a designated arterial highway pursuant to Zoning Resolution Appendix H; and

WHEREAS, pursuant to ZR § 42-55, advertising signs are not permitted within 200 feet of an arterial highway, except that advertising signs erected prior to June 1, 1968 are considered legal non-conforming uses; and

WHEREAS, this appeal is brought on behalf of the lessee of the sign structure (the "Appellant"); and

WHEREAS, the Appellant seeks a reversal of DOB's rejection of its sign registration based on its contention that there was a permissible discontinuance of the Signs during the period from 1973 to 1989 due to the closure of the West Side Highway, and that the Signs have otherwise been used continuously for advertising purposes without any discontinuance of more than two years since their establishment prior to June 1, 1968; and

WHEREAS, DOB appeared and made submissions in opposition to this appeal; and

REGISTRATION REQUIREMENT

WHEREAS, the Appellant identifies the relevant statutory requirements related to sign registration in effect since 2005; and

WHEREAS, the Appellant states that under Local Law 31 of 2005, the New York City Council enacted certain amendments to existing regulations governing outdoor advertising signs; and

WHEREAS, the amendments are codified under Articles 501, 502, and 503 of the 2008 Building Code and were enacted to provide DOB with a means of enforcing the sign laws where signs had been erected and were being maintained without a valid permit; and

WHEREAS, pursuant to Article 502 (specifically,

Building Code § 28-502.4), an outdoor advertising company is required to submit to DOB an inventory of:

> all signs, sign structures and sign locations located (i) within a distance of 900 linear feet (274 m) from and within view of an arterial highway; or (ii) within a distance of 200 linear feet [60.96 m] from and within view of a public park with an area of ½ acre (5000 m) or more; and

WHEREAS, further, Local Law 31 authorized the Commissioner of DOB to promulgate rules establishing permitting requirements for certain signs; the DOB rules, enacted under Rule 49, provide specific procedures for registration of advertising signs; Rule 49-15(5) reads in pertinent part:

> Each sign shall be identified as either "advertising" or "non-advertising." To the extent a sign is a non-conforming sign, it must further be identified as "non-conforming advertising" or "non-conforming non-advertising." A sign identified as "non-conforming advertising" or "non-conforming non-advertising" shall be submitted to the Department for confirmation of its non-conforming status, pursuant to section 49-16 of this chapter; and

WHEREAS, subchapter B of Rule 49 (Registration of Outdoor Advertising Companies), (specifically, Rule 49-15(d)(15)(b)), sets forth the acceptable forms of evidence to establish the size and the existence of a non-conforming sign on the relevant date set forth in the Zoning Resolution; and

WHEREAS, the Appellant asserts that the acceptable forms of evidence set forth at Rule 49 are, in pertinent part as follows:

> Acceptable evidence may include permits, sign-offs of applications after completion, photographs and leases demonstrating that the non-conforming use existed prior to the relevant date; and

WHEREAS, the Appellant notes that affidavits are also listed as an acceptable form of evidence; and

WHEREAS, the Appellant cites to a guidance document provided by DOB, which sets forth the instructions for filing under Rule 49 and asserts that any one of the following documents would be acceptable evidence for sign registration pursuant to Rule 49: (1) DOB –issued permit for sign erection; (2) DOB-approved application for sign erection; (3) DOB dockets/permit book indicating sign permit approval; and (4) publicly catalogued photograph from a source such as NYC Department of Finance, New York Public Library, Office of Metropolitan History, or New York State Archives; and

REGISTRATION PROCESS

WHEREAS, the Appellant states that on September 1, 2009, pursuant to the requirements of Article 502 and Rule 49, it submitted an inventory of outdoor signs under its control and Sign Registration Applications for the Signs and completed OAC3 Outdoor Advertising Company Sign Profiles, attaching the following documentation: (1) diagrams of the Signs; (2) photographs of the Signs; and (3) 1947 DOB permits for each of the Signs; and

WHEREAS, on October 3, 2011, DOB issued two Notices of Sign Registration Deficiency, stating that it is unable to accept the Signs for registration due to "Failure to provide proof of legal establishment – permit and historical photos do not state advertising use;" and

WHEREAS, by letter dated January 12, 2012, the Appellant submitted a response to DOB, providing additional evidence, including photographs and leases, regarding the legal establishment of the Signs; and

WHEREAS, by letter dated February 9, 2012, the Appellant submitted additional materials in response to DOB's request that the Appellant provide additional evidence as to the subject building's use prior to 1979; and

WHEREAS, by letter, dated March 12, 2012, DOB issued the determinations which form the basis of the appeal, stating that it found the "documentation inadequate to support the registration and as such the sign is rejected from registration;" and

RELEVANT STATUTORY PROVISIONS

> ZR § 42-55
> Additional Regulations for Signs Near Certain Parks and Designated Arterial Highways
> M1 M2 M3
> In all districts, as indicated, the provisions of paragraphs (a), (b) and (c), or paragraph (d), of this Section, shall apply for #signs# near designated arterial highways or certain #public parks#.
>
> (a) Within 200 feet of an arterial highway or a #public park# with an area of one-half acre or more, #signs# that are within view of such arterial highway or #public park# shall be subject to the following provisions:
> (1) no permitted #sign# shall exceed 500 square feet of #surface area#; and
> (2) no #advertising sign# shall be allowed; nor shall an existing #advertising sign# be structurally altered, relocated or reconstructed.
>
> (b) Beyond 200 feet from such arterial highway or #public park#, the #surface area# of such #signs# may be increased one square foot for each linear foot such sign is located from the arterial highway or #public park#.
>
> (c) The more restrictive of the following shall apply:
> (1) any #advertising sign# erected, structurally altered, relocated or reconstructed prior to June 1, 1968, within 660 feet of the nearest edge of the right-of-way of an arterial highway, whose message is visible from such arterial highway, shall have legal #non-conforming use# status pursuant to Section 52-83 (Non-Conforming

Advertising Signs), to the extent of its size existing on May 31, 1968; or

(2) any #advertising sign# erected, structurally altered, relocated or reconstructed between June 1, 1968, and November 1, 1979, within 660 feet of the nearest edge of the right-of-way of an arterial highway, whose message is visible from such arterial highway, and whose size does not exceed 1,200 square feet in #surface area# on its face, 30 feet in height and 60 feet in length, shall have legal #non-conforming use# status pursuant to Section 52-83, to the extent of its size existing on November 1, 1979. All #advertising signs# not in conformance with the standards set forth herein shall terminate.

* * *

ZR § 42-58
Signs Erected Prior to December 13, 2000
M1 M2 M3
In all districts, as indicated, a #sign# erected prior to December 13, 2000, shall have #non-conforming use# status pursuant to Sections 52-82 (Non-Conforming Signs Other Than Advertising Signs) or 52-83 (Non-Conforming Advertising Signs) with respect to the extent of the degree of #non-conformity# of such #sign# as of such date with the provisions of Sections 42-52, 42-53 and 42-54, where such #sign# shall have been issued a permit by the Department of Buildings on or before such date.

* * *

ZR § 52-11 *Continuation of Non-Conforming Uses*
General Provisions
A #non-conforming use# may be continued, except as otherwise provided in this Chapter.

* * *

ZR § 52-61 *Discontinuance*
General Provisions
If, for a continuous period of two years, either the #nonconforming use# of #land with minor improvements# is discontinued, or the active operation of substantially all the #non-conforming uses# in any #building or other structure# is discontinued, such land or #building or other structure# shall thereafter be used only for a conforming #use#. Intent to resume active operations shall not affect the foregoing.
The provisions of this Section shall not apply where such discontinuance of active operations is directly caused by war, strikes or other labor difficulties, a governmental program of materials rationing, or the construction of a duly authorized improvement project by a governmental body or a public utility company. . .

* * *

ZR § 52-83
Non-Conforming Advertising Signs
In all Manufacturing Districts, or in C1, C2, C4, C5-4, C6, C7 or C8 Districts, except as otherwise provided in Section…42-55, any non-conforming advertising sign except a flashing sign may be structurally altered, reconstructed, or replaced in the same location and position, provided that such structural alteration, reconstruction or replacement does not result in:

(a) The creation of a new non-conformity or an increase in the degree of non-conformity of such sign;
(b) An increase in the surface area of the sign; or
(c) An increase in the degree of illumination of such sign.

* * *

Building Code § 28-502.4 – Reporting Requirement
An outdoor advertising company shall provide the department with a list with the location of signs, sign structures and sign locations under the control of such outdoor advertising company in accordance with the following provisions:

(1) The list shall include all signs, sign structures and sign locations located (i) within a distance of 900 linear feet (274 m) from and within view of an arterial highway; or (ii) within a distance of 200 linear feet (60 960 mm) from and within view of a public park with an area of ½ acre (5000 m) or more…

* * *

RCNY § 49-15 – Sign Inventory to be Submitted with Registration Application
…(d)(5) Each sign shall be identified as either "advertising" or "non-advertising." To the extent a sign is a non-conforming sign, it must further be identified as "non-conforming advertising" or "non-conforming non-advertising." A sign identified as "non-conforming advertising" or "non-conforming non-advertising" shall be submitted to the Department for confirmation of its non-conforming status, pursuant to section 49-16 of this chapter.

* * *

RCNY § 49-16 – Non-conforming Signs

(a) With respect to each sign identified in the sign inventory as non-conforming, the registered architect or professional engineer shall request confirmation of its non-conforming status from the Department based on evidence submitted in the registration application. The Department shall review the evidence submitted and accept or deny the request within a reasonable period of time. A sign that has been identified as non-conforming on the initial registration application may remain

erected unless and until the Department has issued a determination that it is not non-conforming…

* * *

RCNY § 49-43 – Advertising Signs

Absent evidence that revenue from the sign is clearly incidental to the revenue generated from the use on the zoning lot to which it directs attention, the following signs are deemed to be advertising signs for the purposes of compliance with the Zoning Resolution:

(a) Signs that direct attention to a business on the zoning lot that is primarily operating a storage or warehouse use for business activities conducted off the zoning lot, and that storage or warehouse use occupies less than the full building on the zoning lot; or

(b) All signs, other than non-commercial, larger than 200 square feet, unless it is apparent from the copy and/or depictions on the sign that it is used to direct the attention of vehicular and pedestrian traffic to the business on the zoning lot; and

THE APPELLANT'S POSITION

WHEREAS, the Appellant contends that the Final Determinations should be reversed because there was a permissible discontinuance of the Signs during the period from 1973 to 1989 due to the extraordinary circumstance of the collapse and reconstruction of the West Side Highway, and because the Signs have otherwise been used continuously for advertising purposes without any discontinuance of more than two years since their establishment prior to June 1, 1968; and

WHEREAS, specifically, the Appellant asserts that it has provided evidence that the Signs have been in continuous use as advertising signs since prior to June 1, 1968, without any interruption of two years or more, with the exception of the period when the West Side Highway was under construction; and

WHEREAS, the Appellant notes that ZR § 52-61, which requires that a non-conforming use be continued without any interruption of two years or more to maintain its status as a non-conforming use, also contemplates that under certain exceptional circumstances, discontinuance of a non-conforming use for a period exceeding two years does not divest a property owner of its right to maintain the non-conforming use; and

WHEREAS, specifically, the Appellant states that ZR § 52-61 states that where the construction of a duly authorized improvement project by a governmental body or a public utility company directly prevents the property owner from continuing a non-conforming use, the non-conforming use may not be deemed to have been "discontinued" within the meaning of the Zoning Resolution; and

WHEREAS, the Appellant states that in December 1973, the elevated West Side Highway collapsed, which led to a governmental determination that it was no longer safe to operate any portion of the elevated highway and that it needed to be closed and dismantled; and

WHEREAS, the Appellant represents that the means for reconstructing the highway was subject to extensive controversy and debate, as well as extensive preparations and safety measures that were put into place before active dismantling could begin, and the construction of the new highway at grade required the closure and dismantling of the existing elevated highway; therefore the physical act of closing the elevated highway was the commencement of "construction" for the purposes of ZR § 52-61 and the re-opening of the West Side Highway to traffic in late 1989 or early 1990 marked the completion of such "construction"; and

WHEREAS, the Appellant contends that the reconstruction of the West Side Highway was a duly authorized improvement project by a governmental body that rendered the Signs unusable, and therefore the two-year discontinuance period was tolled pursuant to ZR § 52-61 from the collapse of the West Side Highway in 1973 to the end of construction in approximately 1989; and

WHEREAS, therefore, the Appellant argues that the Department of Finance photograph dated between 1982 and 1987 (the "1982 – 1987 DOF Photograph") and the photograph from the 1980s showing the West Side Highway closed near the site (the "1980s Photograph"), both of which indicate an absence of advertising copy on the building's rooftop sign structures, do not serve as evidence of the Signs' discontinuance because any photo that shows temporary discontinuance during the period from 1973 to 1989 is irrelevant in determining the non-conforming use status of the Signs and should be disregarded; and

WHEREAS, the Appellant asserts that a reasonable reading of the phrase "directly caused by" in ZR § 52-61 encompasses the instant situation and that ZR § 52-61 does not require a physical occupation of the zoning lot by the listed activities; and

WHEREAS, the Appellant argues that two of the listed factors under ZR § 52-61, "war" and "materials rationing", would not need to be located on the zoning lot, but rather would create general conditions under which a given use could not be continued, and there is no basis in the zoning text for setting a different locational standard for a duly authorized improvement project (such as the highway reconstruction) if the effect of rendering the use unfeasible is the same; and

WHEREAS, the Appellant contends that the closure of the elevated highway rendered the active operation of the Signs impossible; and

WHEREAS, the Appellant asserts that the Signs, located on the roof of the subject building, at a height of over 80 feet, were displayed to traffic on the elevated West Side Highway and were rented by outdoor advertising companies for this purpose, and with the elevated highway adjacent to the building closed, there were no longer any "customers" to view the signs and therefore no outdoor

advertising company would lease the Signs to keep them in active operation; the Appellant argues that this is precisely the effect of a governmental action that ZR § 52-61 was enacted to provide protection against; and

WHEREAS, the Appellant submitted an affidavit from Yale Citrin, a principal of the subject building owner, who also testified at hearing, stating that no outdoor advertising companies would place copy on the Signs during the time between the closure of the elevated highway in 1974 and the reopening of the highway in 1989 and that the closure of the elevated highway was the direct cause of this inability to continue active operation of the Signs; and

WHEREAS, the Appellant contends that in order to continue the active operation of the Signs during the closure of the elevated highway, the owner would have had to pay an outdoor advertising company to post and maintain advertising signs; and

WHEREAS, in response to DOB's argument that that outdoor advertising companies would not negotiate contracts with advertisers simply because "the signs would be less profitable" misconstrues the reality, as indicated in the testimony and affidavit of Mr. Citrin, that advertising use of the Signs was entirely infeasible at any price during the closure, dismantling and reconstruction of the highway; and

WHEREAS, the Appellant argues that judicial precedent supports protection of property rights through a broad reading of ZR § 52-61, and that in 149 Fifth Avenue Corp. v. James Chin et al., 305 A.D. 2d 194, 759 N.Y.S.2d 455 (1st Dept, 2003), the Court interpreted ZR § 52-61 consistent with the Appellant's position in this matter; and

WHEREAS, the Appellant states that in 149 Fifth Avenue Corp. the work which caused a discontinuance of active operations of an advertising sign was repair of the building's façade, which work was performed by the building owner and the façade inspection and repair were required by a law that was applicable to all properties six stories in height or greater; and

WHEREAS, the Appellant notes that the Supreme Court reversed the Board's denial of protection under ZR § 52-61, and the Appellate Division affirmed the decision, finding that a contrary reading of the Zoning Resolution "would raise a most serious question as to whether the Zoning Resolution purports to authorize an unconstitutional taking." Id at 456; and

WHEREAS, the Appellant asserts that, similarly, in the subject case, interpreting ZR § 52-61 to find that the Signs had been discontinued for more than two years during the time of the collapse, dismantling, and reconstruction of the highway would be an unconstitutional taking; and

WHEREAS, the Appellant contends that the instant appeal is more directly within the plain meaning of ZR § 52-61 than 149 Fifth Avenue Corp., in that the latter case involved an interruption of the use caused by legally mandated work performed by the property owner himself, while in the subject case the massive undertaking that was the closure and deconstruction of the elevated West Side Highway during the 1970s and 1980s much more clearly fits within the meaning of "duly authorized improvement project by a governmental body"; and

WHEREAS, the Appellant argues that despite the fact that in 149 Fifth Avenue Corp. the property owner himself had control over the timing of the repairs and thus the length of the interruption of the non-conforming use, the Court interpreted ZR § 52-61 to strongly favor the maintenance of property rights; and

WHEREAS, the Appellant asserts that ZR § 52-61 protects property rights where the continuance of a use would be infeasible for reasons outside the property owner's control, especially when the cause of the hardship is the government's own action, and to read ZR § 52-61 to require property owners to maintain a non-conforming use by operating at a loss because of factors completely outside their control would be an absurd result; and

DOB'S POSITION

WHEREAS, DOB asserts that even if the Signs were established as non-conforming advertising signs, such non-conforming uses would be required to terminate per ZR § 52-61, which requires a non-conforming use to terminate if for a continuous period of two years active operation of substantially all of the non-conforming use is discontinued; and

WHEREAS, DOB notes that the Appellant acknowledged that the Signs were not used from 1973 through 1989 while the West Side Highway was closed to traffic and undergoing repair, and identified the 1982-1987 DOF Photograph and the 1980s Photograph as representative of site conditions during the 16-year period when no advertising signs were displayed (the 1982-1987 DOF Photograph does not clearly show advertising signs and the 1980s Photograph shows two empty sign structures); and

WHEREAS, DOB asserts that the Appellant is incorrect that ZR § 52-61 does not apply during the time the advertising signs were not displayed, and notes that the statute does not apply where discontinuance of active operations is "directly caused by war, strikes or other labor difficulties, a governmental program of materials rationing, or the construction of a duly authorized improvement project by a governmental body or a public utility company"; and

WHEREAS, DOB argues that, since these forces must be the *direct cause* of the discontinuance, the discontinuance must result from their occurrence alone and without the intervention of another force operating from an independent source; and

WHEREAS, DOB notes that the Appellant acknowledges that the Signs were not used during this period only because the owner was unable to lease the Signs to major outdoor advertising sign companies, who in turn would not negotiate contracts with advertisers during the closure of the West Side Highway to traffic when the signs would be less profitable; therefore, although the closure of the highway was an influential factor in the Signs' disuse, the lack of a market for advertising signs in this location was the direct cause of the discontinuance, and the Zoning

Resolution makes no allowance for discontinuance due to the absence of public demand for a non-conforming use; and

WHEREAS, DOB argues that repair work on the West Side Highway did not directly prevent use of the Signs, and based on the photographs submitted by the Appellant, the building and the sign structures remained intact during construction work on the West Side Highway, and therefore there is no basis for the claim that the highway repair work directly interfered with the Signs' use; and

WHEREAS, DOB contends that presumably the signs were not used at this time only because they would be enjoyed by a smaller audience during the closure of the West Side Highway to traffic; and

WHEREAS, DOB asserts that the exceptions to ZR § 52-61 must be read narrowly, as forces that make it impossible to continue the non-conforming use, in order to be consistent with its general purpose of restricting further investment in incompatible non-conforming uses by preventing reactivation after a significant period of inactivity; and

WHEREAS, DOB asserts that the concept of tolling ZR § 52-61 where the non-conforming advertising sign use is impossible to continue is reflected in 149 Fifth Avenue Corp., where the sign painted on a building façade needed to be removed in order to perform legally required façade inspection and repairs; and

WHEREAS, DOB argues that unlike the sign use that the Court did not deem "discontinued" within the meaning of ZR § 52-61 in 149 Fifth Avenue Corp., here the interruption in use of the Signs was not "compelled by legally mandated, duly permitted and diligently completed repairs"; and

WHEREAS, DOB asserts that in the subject case, the use did not stop due to the owner's temporary need to remove the signs to perform required repairs to the building on which the signs were located, rather, it is reasonable to assume that the use was discontinued merely because of reduced viewership; accordingly, neither the text nor 149 Fifth Avenue Corp. support the Appellant's claim that ZR § 52-61 would not operate to terminate non-conforming sign uses at the site; and

WHEREAS, accordingly, DOB concludes that the Signs were discontinued for more than two years and the non-conforming use must be terminated pursuant to ZR § 52-61; and

CONCLUSION

WHEREAS, the Board agrees with DOB that, because the use of the Signs was discontinued for more than two years during the period the West Side Highway was closed, even if the Signs were established as non-conforming advertising signs, such use was required to terminate per ZR § 52-61; and

WHEREAS, the Board finds that the 1982-1987 DOF Photograph and the 1980s Photograph indicate that the Signs were not displaying advertising copy at the time the photographs were taken, and the Board notes that the Appellant has not contested that the Signs were discontinued for more than two years between the period from 1973 to 1989; and

WHEREAS, the Board disagrees with the Appellant's assertion that the two-year discontinuance period was tolled pursuant to ZR § 52-61 from the date of the collapse of the West Side Highway in 1973 to the end of construction in approximately 1989; and

WHEREAS, specifically, the Board notes the ZR § 52-61 requirement that a non-conforming use must be terminated if the use has been discontinued for more than two years is subject only to the following limited exceptions:

> where such discontinuance of active operations is *directly caused* by war, strikes or other labor difficulties, a governmental program of materials rationing, or *the construction of a duly authorized improvement project by a governmental body* or a public utility company. . . (emphasis added); and

WHEREAS, the Board agrees with DOB that in order to be exempt from the discontinuance provision of ZR § 52-61, the "construction of a duly authorized improvement project by a governmental body" must have been the *direct* cause of the discontinuance of the Signs, without the intervention of another force operating from an independent source; and

WHEREAS, the Board disagrees with the Appellant's contention that the collapse, dismantling, and reconstruction of the West Side Highway rendered the active operation of the Signs impossible; and

WHEREAS, the Board acknowledges that the closure of the highway influenced the Appellant's decision to discontinue the use of the Signs, however the Board finds that such closure did not *directly cause* the discontinuance of the Signs but rather created a market condition in which the Appellant may have been unable to lease the Signs and made the decision to discontinue their use; and

WHEREAS, the Board agrees with DOB that the lack of a market for advertising signs in this location was the direct cause of the discontinuance, and the Zoning Resolution makes no allowance for discontinuance due to the absence of public demand for a non-conforming use; and

WHEREAS, the Board notes that the closure of the highway did not require that the Appellant remove the advertising copy that was purportedly on the sign structures prior to the collapse of the highway; and

WHEREAS, the Board agrees with DOB that based on the photographs submitted by the Appellant, the building and the sign structures remained intact and accessible during construction work on the West Side Highway, and therefore there is no basis for the claim that the highway repair work *directly* interfered with the Signs' use; and

WHEREAS, the Board further agrees with DOB that the exceptions to ZR § 52-61 should be read narrowly, in order to be consistent with its general purpose of restricting further investment in incompatible non-conforming uses by preventing reactivation after a significant period of inactivity; and

WHEREAS, the Board notes that, during the period

from approximately 1973 to 1989, the highway (1) collapsed, (2) was closed, (3) was dismantled, and (4) was reconstructed, and the Appellant acknowledges that a significant amount of time passed between the closure of the highway due to its collapse and the commencement of the dismantling and reconstruction of the highway; and

WHEREAS, the Board disagrees with the Appellant that the collapse of the highway and its subsequent closure, in and of themselves, should be considered the commencement of "the construction of a duly authorized improvement project by a governmental body"; similarly, the Board finds that the collapse and closure of the highway is not covered by any of the other exceptions to ZR § 52-61, which are limited to "war, strikes or other labor difficulties, [and] a governmental program of materials rationing"; and

WHEREAS, the Board finds that even assuming it was convinced that the dismantling and reconstruction of the highway constituted "the construction of a duly authorized improvement project by a governmental body," the Appellant has provided no evidence that the Signs were in use as advertising signs during the period between the collapse of the highway and the actual commencement of the dismantling and reconstruction of said highway; and

WHEREAS, the Board disagrees with the Appellant that in 149 Fifth Avenue Corp. the Court interpreted ZR § 52-61 consistent with the Appellant's position in the subject case; and

WHEREAS, the Board finds the facts of 149 Fifth Avenue Corp., where the non-conforming advertising sign was removed in order to make legally mandated building façade inspections and repairs, to be distinguishable from the subject case where the closure of the West Side Highway merely created an adverse market condition for the use of the advertising signs but did not make it physically impossible to continue their use; and

WHEREAS, the Board disagrees with the Appellant's argument that the subject case is more directly within the plain meaning of ZR § 52-61 than 149 Fifth Avenue Corp. because the closure and reconstruction of the West Side Highway more clearly fits within the meaning of "duly authorized improvement project by a governmental body" than the need for legally mandated repair work performed by the property owner himself; and

WHEREAS, specifically, the Board finds that even assuming that the closure of the West Side Highway is more representative of a "duly authorized improvement project by a governmental body," the critical distinction between the cases is that in 149 Fifth Avenue Corp. the discontinuance was "directly caused" by the legally mandated repair work in that the owner was physically unable to both do the repair work and continue the non-conforming use of the sign, while the discontinuance of the Signs at the site was not "directly caused" by the closure of the highway but was the result of the owner's business decision based on the inability to find a market for the Signs; and

WHEREAS, the Board disagrees with the Appellant that the application of ZR § 52-61 in the subject case constitutes a taking, and notes that the City's right to eliminate non-conforming uses through zoning has been repeatedly upheld by the courts; specifically, the Board notes that the Court of Appeals has held that, "[b]ecause nonconforming uses are viewed as detrimental to zoning schemes, public policy favors their reasonable restriction and eventual elimination[,]" and "municipalities may adopt measures regulating nonconforming uses and may, in a reasonable fashion, eliminate them." 550 Halstead Corp. v. Zoning Bd. Of Appeals, 1 N.Y.3d 561, 562 (2003) and that DOB's recent enforcement furthers that goal in line with what zoning regulations contemplate; and

WHEREAS, accordingly, the Board agrees with DOB that neither the text nor 149 Fifth Avenue Corp. support the Appellant's claim that ZR § 52-61 should be tolled for the approximately 16-year period between 1973 and 1989; and

WHEREAS, the Board notes that the Appellant made supplemental arguments regarding the establishment of the Signs prior to June 1, 1968 and the continuous use of the Signs from that date until 2012; however, the Board does not find it necessary to make a determination on these issues given its conclusion that the Sign was admittedly discontinued for more than two years during the period that the West Side Highway was closed and that the discontinuance was not tolled pursuant to ZR § 52-61; and

WHEREAS, the Board notes that the Appellant has enjoyed the benefit of the Signs for more than 20 years after the reopening of the West Side Highway, and any advertising sign at the site should have been terminated prior to that time due to the discontinuance of the advertising use of the Signs for more than two years during the time between the collapse of the highway and its reconstruction; and

WHEREAS, therefore, the Board finds that DOB properly rejected the Appellant's registration of the Signs.

Therefore it is resolved that the subject appeal, seeking a reversal of the Final Determinations of the Department of Buildings, dated March 12, 2012, is hereby denied.

Adopted by the Board of Standards and Appeals, February 5, 2013.

162-12-A

APPLICANT – Davidoff Hutcher & Citron, LLP, for CBS Outdoor, Inc.

OWNER OF PREMISES: Winston Network, Inc.

SUBJECT – Application May 31, 2012 – Appeal from Department of Buildings' determination that sign is not entitled to continue non-conforming use status as advertising sign, pursuant to Z.R.§52-731. R4 zoning district.

PREMISES AFFECTED – 49-21 Astoria Boulevard North, northwest corner of Astoria Boulevard North and Hazen Street, Block 1000, Lot 19, Borough of Queens.

COMMUNITY BOARD #1Q

ACTION OF THE BOARD – Appeal Denied.

THE VOTE TO GRANT –

Affirmative: 0

Negative: Chair Srinivasan, Vice Chair Collins, Commissioner Hinkson and Commissioner Montanez 4
Absent: Commissioner Ottley-Brown.....1
THE RESOLUTION –

WHEREAS, the subject appeal comes before the Board in response to a Notice of Sign Registration Rejection letter from the Queens Borough Commissioner of the Department of Buildings ("DOB"), dated May 1, 2012, denying Application No. 40015701 from registration for a sign at the subject site (the "Final Determination"), which reads, in pertinent part:

> The Department of Buildings is in receipt of additional documentation submitted in response to the Deficiency Letter from the Signs Enforcement Unit and in connection with the application for registration of the above-referenced sign. Unfortunately, we find this documentation inadequate to support the registration of the sign and as such, the sign is rejected from registration. This sign will be subject to enforcement action 30 days from the issuance of this letter; and

WHEREAS a public hearing was held on this application on December 11, 2012, after due notice by publication in *The City Record*, and then to decision on February 5, 2013; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by Chair Srinivasan; and

WHEREAS, the subject site is located at the northwest corner of Astoria Boulevard North and Hazen Street, in an R4 zoning district; and

WHEREAS, the site is occupied by an advertising sign with dimensions of 14'-0" high by 48'-0" wide (672 sq. ft.) located on a ground structure (the "Sign"); and

WHEREAS, the Sign is located approximately 84 feet from and within view of the Grand Central Parkway, a designated arterial highway pursuant to Zoning Resolution Appendix H; and

WHEREAS, this appeal is brought on behalf of the owner of the Sign (the "Appellant"); and

WHEREAS, the Appellant seeks a reversal of DOB's rejection of its sign registration based on its assertion that (1) ZR § 52-731 has no application to lawful, non-conforming uses that predate its adoption; and (2) the application of ZR § 52-731 would result in an unconstitutional taking of property; and

WHEREAS, DOB appeared and made submissions in opposition to this appeal; and

REGISTRATION REQUIREMENT

WHEREAS, under Local Law 31 of 2005, the New York City Council enacted certain amendments to existing regulations governing outdoor advertising signs; and

WHEREAS, the amendments are codified under Articles 501, 502, and 503 of the 2008 Building Code and were enacted to provide DOB with a means of enforcing the sign laws where signs had been erected and were being maintained without a valid permit; and

WHEREAS, pursuant to Article 502 (specifically, Building Code § 28-502.4), an outdoor advertising company is required to submit to DOB an inventory of:

> all signs, sign structures and sign locations located (i) within a distance of 900 linear feet (274 m) from and within view of an arterial highway; or (ii) within a distance of 200 linear feet [60.96 m] from and within view of a public park with an area of ½ acre (5000 m) or more; and

WHEREAS, further, Local Law 31 authorized the Commissioner of DOB to promulgate rules establishing permitting requirements for certain signs; the DOB rules, enacted under Rule 49, provide specific procedures for registration of advertising signs; Rule 49-15(5) reads in pertinent part:

> Each sign shall be identified as either "advertising" or "non-advertising." To the extent a sign is a non-conforming sign, it must further be identified as "non-conforming advertising" or "non-conforming non-advertising." A sign identified as "non-conforming advertising" or "non-conforming non-advertising" shall be submitted to the Department for confirmation of its non-conforming status, pursuant to section 49-16 of this chapter; and

WHEREAS, subchapter B of Rule 49 (Registration of Outdoor Advertising Companies), (specifically, Rule 49-15(d)(15)(b)), sets forth the acceptable forms of evidence to establish the size and the existence of a non-conforming sign on the relevant date set forth in the Zoning Resolution; and

WHEREAS, the acceptable forms of evidence set forth at Rule 49 are, in pertinent part as follows:

> Acceptable evidence may include permits, sign-offs of applications after completion, photographs and leases demonstrating that the non-conforming use existed prior to the relevant date; and

WHEREAS, affidavits are also listed as an acceptable form of evidence; and

WHEREAS, a guidance document provided by DOB sets forth the instructions for filing under Rule 49 and asserts that any one of the following documents would be acceptable evidence for sign registration pursuant to Rule 49: (1) DOB –issued permit for sign erection; (2) DOB-approved application for sign erection; (3) DOB dockets/permit book indicating sign permit approval; and (4) publicly catalogued photograph from a source such as NYC Department of Finance, New York Public Library, Office of Metropolitan History, or New York State Archives; and

REGISTRATION PROCESS

WHEREAS, the parties agree that prior to September 27, 2011, the Appellant submitted a Sign Registration Application for the Sign; and

WHEREAS, on September 27, 2011, DOB notified the Appellant that its Sign Registration Application failed to establish any basis for the sign to remain, and requested proof that the Sign complied with ZR § 52-731; and

WHEREAS, on February 28, 2012, the Appellant responded that the Sign was a legal non-conforming use

which pre-dated the adoption of ZR § 52-731 and therefore it was not applicable to the Sign; and

WHEREAS, by letter dated May 1, 2012, DOB issued the determination which forms the basis of the appeal, stating that it found the "documentation inadequate to support the registration and as such the sign is rejected from registration;" and

RELEVANT STATUTORY PROVISIONS

ZR § 52-11

General Provisions

A #non-conforming use# may be continued, except as otherwise provided in this Chapter.

* * *

ZR § 52-731

Advertising signs

In all #Residence Districts#, a #non-conforming advertising sign# may be continued for ten years after December 15, 1961, or such later date that such #sign# becomes #non-conforming#, providing that after the expiration of that period such #non-conforming advertising sign# shall terminate.

* * *

Building Code § 28-502.4 – Reporting Requirement

An outdoor advertising company shall provide the department with a list with the location of signs, sign structures and sign locations under the control of such outdoor advertising company in accordance with the following provisions:

(1) The list shall include all signs, sign structures and sign locations located (i) within a distance of 900 linear feet (274 m) from and within view of an arterial highway; or (ii) within a distance of 200 linear feet (60 960 mm) from and within view of a public park with an area of ½ acre (5000 m) or more…

* * *

RCNY § 49-15 – Sign Inventory to be Submitted with Registration Application

…(d)(5) Each sign shall be identified as either "advertising" or "non-advertising." To the extent a sign is a non-conforming sign, it must further be identified as "non-conforming advertising" or "non-conforming non-advertising." A sign identified as "non-conforming advertising" or "non-conforming non-advertising" shall be submitted to the Department for confirmation of its non-conforming status, pursuant to section 49-16 of this chapter.

* * *

RCNY § 49-16 – Non-conforming Signs

(a) With respect to each sign identified in the sign inventory as non-conforming, the registered architect or professional engineer shall request confirmation of its non-conforming status from the Department based on evidence submitted in the registration application. The Department shall review the evidence submitted and accept or deny the request within a reasonable period of time. A sign that has been identified as non-conforming on the initial registration application may remain erected unless and until the Department has issued a determination that it is not non-conforming…

* * *

RCNY § 49-43 – Advertising Signs

Absent evidence that revenue from the sign is clearly incidental to the revenue generated from the use on the zoning lot to which it directs attention, the following signs are deemed to be advertising signs for the purposes of compliance with the Zoning Resolution:

(a) Signs that direct attention to a business on the zoning lot that is primarily operating a storage or warehouse use for business activities conducted off the zoning lot, and that storage or warehouse use occupies less than the full building on the zoning lot; or

(b) All signs, other than non-commercial, larger than 200 square feet, unless it is apparent from the copy and/or depictions on the sign that it is used to direct the attention of vehicular and pedestrian traffic to the business on the zoning lot; and

THE APPELLANT'S POSITION

WHEREAS, the Appellant contends that the Final Determination should be reversed because (1) ZR § 52-731 has no application to lawful, non-conforming uses that predate its adoption; and (2) the application of ZR § 52-731 would result in an unconstitutional taking of property; and

1. Legal Precedent Supports the Continuation of Pre-Existing Non-Conforming Uses

WHEREAS, the Appellant asserts that the Signs were lawfully established prior to the adoption of ZR § 52-731, and therefore such section does not apply to the Signs; and

WHEREAS, the Appellant notes that a permit for the Signs was issued by DOB in 1937; and

WHEREAS, the Appellant cites to Toys-R-Us v. Silva, 89 N.Y.2d 411, 421 (1996) for the principle that "zoning restrictions, being in derogation of common law property rights, [are] strictly construed and any ambiguity [is] resolved in favor of the property owner"; and

WHEREAS, the Appellant asserts that the Zoning Resolution protects the continued use of non-conforming signs since "[i]t is the law of this state that non-conforming uses or structures, in existence when a zoning ordinance is enacted, are, as a general rule, constitutionally protected and will be permitted to continue, notwithstanding contrary provisions of the [zoning] ordinance." Costa v. Callahan, 41 A.D. 3d 1111, 1113 (3d Dept. 2007), citing Matter of Rudolf Steiner Fellowship Found v. DeLuccia, 90 N.Y.2d 453, 463 (1997); and

WHEREAS, the Appellant argues that statutes are to be construed prospectively and not retrospectively unless

otherwise provided (See In re Town of Islip v. Caviglia, 73 N.Y.2d 544, 560-61 (1989)), and that unlike the statute at issue in Caviglia, the Appellant asserts that ZR § 52-731 is not content-neutral since it is exclusively directed to advertising signs and not any other manner of signs, and, accordingly, the general rule of prospective construction of statutes should apply; and

WHEREAS, the Appellant claims that the subject case is distinguishable from the authorities previously relied upon by the Board in upholding the applicability of ZR § 52-731; and

WHEREAS, specifically, the Appellant asserts that (1) in 550 Halstead Corp. v. Zoning Bd. of Appeals, 1 N.Y.3d 561, 562 (2003) the non-conforming use was expanded and extended contrary to the local ordinance, whereas in this case the use as advertising signs pursuant to permits has remained constant, and (2) in Off Shore Restaurant Corp. v. Linden, 30 N.Y.2d 160 (1972), there was a clear change in use from a delicatessen to a cocktail lounge, thus requiring compliance with the municipal off-street parking requirement; and

WHEREAS, accordingly, the Appellant contends that since the statute at issue was adopted in 1963, after the non-conforming use status of the Sign, permitted in 1937, was established, it cannot be applied with respect to the Sign; and

2. DOB's Enforcement of the Sign would be an Unconstitutional Taking

WHEREAS, the Appellant asserts that the application of ZR § 52-731 would result in an unconstitutional taking of property in violation of the Fifth Amendment; and

WHEREAS, the Appellant contends that amortization provisions, such as the one set forth in ZR § 52-731, do not provide just compensation for the taking of a lawful advertising sign use consistent with the taking clause of the Fifth Amendment, which states: "…nor shall private property be taken for public use without just compensation;" and

WHEREAS, the Appellant argues that the Federal Highway Administration ("FHWA") has provided clear guidance on this issue, and has expressly determined that the removal of legal advertising signs (such as those at issue on these appeals) located on federal roads or controlled highways pursuant to the Highway Beautification Act, 23 U.S.C. 131, requires the payment of just compensation to the owner of such advertising signs; and

WHEREAS, the Appellant asserts that Congress has repeatedly rejected the amortization of lawful advertising sign uses and amended the Highway Beautification Act in 1978 to clarify that "just compensation shall be paid upon the removal" of such advertising signs; and

WHEREAS, the Appellant further asserts that, as recently as 2006, FHWA confirmed as part of a national assessment of advertising sign control programs that amortization of sign uses is no longer an issue because of the settled principle that cash compensation must be paid in connection with such takings, and that in response to efforts by those seeking the removal of non-conforming advertising signs, FHWA noted: "some continue to advocate amortization as a means to accomplish this, but widespread use of this approach was effectively prohibited by Federal legislation;" and

WHEREAS, the Appellant argues that DOB is relying on a statute that merely provided the owners and operators of lawfully established signs a period of years to continue such operations, without regard for any cash compensation for such takings; and

WHEREAS, accordingly, the Appellant asserts that ZR § 52-731 is inconsistent with Federal guidance on this issue and, if applied as DOB intends, will impose a significant deprivation of the Appellant's constitutional rights; and

DOB'S POSITION

WHEREAS, DOB asserts that zoning regulations prohibit the Sign in the subject R4 zoning district, as set forth at ZR § 22-30, which does not include advertising signs among the permitted uses; and

WHEREAS, DOB states that non-conforming advertising signs are permitted in residential zoning districts only when they comply with Chapter 2 of Article 5 of the Zoning Resolution; and

WHEREAS, specifically, DOB cites to ZR § 52-11, which states that "a non-conforming use may be continued, except as otherwise provided in this Chapter;" and

WHEREAS, DOB continues by citing ZR § 52-731, which expressly provided a limitation on the use of non-conforming advertising signs in residential zoning districts; the original text states that:

> [i]n all Residence Districts, a non-conforming advertising sign may be continued for eight years after the effective date of this resolution or such later date that such sign becomes non-conforming, provided that after the expiration of that period such non-conforming advertising sign shall terminate; and

WHEREAS, DOB notes that on August 22, 1963, the original ZR § 52-731 was amended to allow a ten-year, rather than an eight-year, amortization period; the 1963 version of the text, allowing for a ten-year amortization period remains in effect today; and

WHEREAS, DOB states that in order to maintain the Sign, the Appellant must demonstrate that: (1) the Sign is non-conforming (a lawful pre-existing non-conforming use, as defined at ZR § 12-10) and (2) it has been less than ten years since the Sign became non-conforming; and

WHEREAS, DOB asserts that the Appellant has failed to provide adequate evidence to demonstrate that the advertising sign has ever been "non-conforming" in the sense that it was lawfully established per ZR § 12-10 as "[a]ny lawful use…which does not conform to any one or more of the applicable use regulations of the district in which it is located, either on December 15, 1961 or as a result of any subsequent amendment thereto;" and

WHEREAS, DOB states that the lawful use must have been established on December 15, 1961 or at the time of a

relevant zoning amendment; and

WHEREAS, DOB notes that the Appellant has submitted proof of a permit issued by DOB in 1937 for a sign structure and states that if it were to assume that the sign existed lawfully on December 15, 1961, based on the 1937 permit, on December 15, 1961, it would have become "non-conforming;" and

WHEREAS, DOB states that even if the Sign existed lawfully on December 15, 1961, such a sign would have become non-conforming on that date when the site was zoned R4 and the 1963/current version of ZR § 52-731 requires that the Sign be removed within ten years of it becoming non-conforming, which was on December 15, 1971; and

WHEREAS, accordingly, DOB asserts that its rejection of the sign registration is appropriate because the Sign does not comply with ZR § 52-731; and

CONCLUSION

WHEREAS, the Board agrees with DOB that the language of ZR § 52-731 is clear and requires that because any advertising sign at the site became a non-conforming use on December 15, 1961 when it was mapped to be within an R4 zoning district, such use should have been terminated by December 15, 1971; and

WHEREAS, as to the Appellant's assertion that DOB has improperly changed its position on the legality of the signs, the Board supports DOB's position that it may correct the erroneous issuance of its permits; and

WHEREAS, further, the Board notes that the presence of a permit does not render a use lawful, when the permit was issued erroneously; and

WHEREAS, the Board declines to take a position on the fairness of DOB's rejection of the registration after erroneously issuing a permit in 1937, but it does note that the Appellant has enjoyed the benefit of the Sign for more than 40 years past the December 15, 1971 date when any sign at the site should have been terminated; and

WHEREAS, the Board agrees with DOB that even if the Appellant were to establish that the Sign was lawfully non-conforming at relevant dates, the question is moot since even a lawfully non-conforming sign would have to have been terminated on or before December 15, 1971; and

WHEREAS, accordingly, the Board finds that the advertising sign use should have been terminated on or before December 15, 1971, pursuant to ZR § 52-731; and

WHEREAS, the Board notes that the ZR § 12-10 definition of non-conforming use and ZR § 52-731 contemplate prospective enforcement in that uses that were rendered non-conforming on December 15, 1961 (like the subject Sign) were able to remain for ten years so long as they were lawful on December 15, 1961 (per ZR § 12-10); and

WHEREAS, the Board notes that the adoption of the 1961 Zoning Resolution did not prohibit the continuance of non-conforming uses, but rather newly non-conforming uses were able to exist in derogation of the Zoning Resolution, but only for a specified period; and

WHEREAS, as to the applicability of statutes adopted after a use has been established, the Board notes that per the Court of Appeals, municipalities may adopt laws regarding previously existing nonconforming uses. 550 Halstead Corp., 1 N.Y.3d at 562; Matter of Toys "R" Us v Silva, 89 N.Y.2d 411, 417, (1996); and

WHEREAS, specifically, the Board notes that the Court of Appeals has held that, "[b]ecause nonconforming uses are viewed as detrimental to zoning schemes, public policy favors their reasonable restriction and eventual elimination[,]" and "municipalities may adopt measures regulating nonconforming uses and may, in a reasonable fashion, eliminate them." 550 Halstead Corp., 1 N.Y.3d at 562; and

WHEREAS, further, the Board notes that in Off Shore Restaurant Corp., the Court stated, "the courts do not hesitate to give effect to restrictions on non-conforming uses . . . It is because these restrictions flow from a strong policy favoring the eventual elimination of nonconforming uses" 30 N.Y.2d at 164; and

WHEREAS, the Board finds that, despite the Appellant's attempt to distinguish the facts of 550 Halstead Corp. and Off Shore Restaurant Corp. from those of the subject case, the cited cases are relevant with regard to the above-mentioned holdings pertaining to the regulation of non-conforming uses; and

WHEREAS, the Board notes that ZR § 52-731 is not contrary to ZR § 52-11, which states that "a nonconforming use may be continued, except as otherwise provided in [Chapter 2]" because the Board notes that non-conforming uses are protected by Article V, but, as anticipated at ZR § 52-11, there are limiting conditions; and

WHEREAS, the Board finds that the Appellant has failed to provide evidence that its purported satisfaction of the Sign Registration requirement supersedes the clear, undisputed text of the Zoning Resolution; and

WHEREAS, as to the Appellant's assertion that the application of ZR § 52-731 would amount to a regulatory taking, the Board disagrees with the Appellant that the application of zoning regulations constitutes a taking; however, the Board finds that to the extent ZR § 52-731 does constitute an unconstitutional takings action, any such claim is properly directed against the statute itself, rather than DOB's enforcement of the statute, and such a claim is more appropriately addressed in a different forum; and

WHEREAS, the Board disagrees with the Appellant's reliance on the Federal Highway Beautification Act, which regulates advertising signs located within 660 feet of federal roads or controlled highways, and distinguishes that statute from ZR § 52-731, which prohibits advertising signs in residential districts regardless of the proximity of such signs to an arterial or highway; and

WHEREAS, the Board notes that the purpose of ZR § 52-731, to eliminate prior non-conforming advertising signs from residential districts in which such commercial uses are incompatible, has no relationship to the stated purpose for the Federal Highway Beautification Act's regulation of

advertising signs, which is "to protect the public investment in such highways, to promote the safety and recreational value of public travel, and to preserve natural beauty"; thus, the Board finds the Appellant's reliance on the Federal Highway Beautification Act to be misguided; and

WHEREAS, the Board further notes that the Appellant has provided no evidence that the Federal Highway Beautification Act should apply to the regulation of the Sign, where DOB's enforcement results from the location of the Sign in a residential district and not its proximity to any federal roads or controlled highways; and

WHEREAS, as noted above, in addition to the ten-year amortization period provided under ZR § 52-731, the Appellant has enjoyed the benefit of the Sign for more than 40 years past the December 15, 1971 date when any sign at the site should have been terminated; and

WHEREAS, accordingly, the Board finds that DOB properly rejected the Sign from registration.

Therefore it is resolved that the subject appeal, seeking a reversal of the Final Determination of the Department of Buildings, dated May 1, 2012, is hereby denied.

Adopted by the Board of Standards and Appeals, February 5, 2013.

167-12-A

APPLICANT – Davidoff Hutcher & Citron, LLP, for Lamar Advertising of Penn LLC.

OWNER OF PREMISES: Flash Inn Inc. c/o Danny Miranda

SUBJECT – Application June 7, 2012 – Appeal from Department of Buildings' determination that sign is not entitled to continued non-conforming use status as advertising sign, pursuant to Z.R. §52-731. R7-2 zoning district.

PREMISES AFFECTED – 101-07 Macombs Place, northwest corner of Macombs Place and West 154th Street, Block 2040, Lot 23, Borough of Manhattan.

COMMUNITY BOARD #10M

ACTION OF THE BOARD – Appeal Denied.

THE VOTE TO GRANT –

Affirmative: 0

Negative: Chair Srinivasan, Vice Chair Collins, Commissioner Hinkson and Commissioner Montanez 4

Absent: Commissioner Ottley-Brown.....1

THE RESOLUTION –

WHEREAS, the subject appeal comes before the Board in response to a Notice of Sign Registration Rejection letter from the Manhattan Borough Commissioner of the Department of Buildings ("DOB"), dated May 9, 2012, denying Application No. 10032201 from registration for a sign at the subject site (the "Final Determination"), which reads, in pertinent part:

> The Department of Buildings is in receipt of additional documentation submitted in response to the Deficiency Letter from the Signs Enforcement Unit and in connection with the application for registration of the above-referenced sign. Unfortunately, we find this documentation inadequate to support the registration of the sign and as such, the sign is rejected from registration. This sign will be subject to enforcement action 30 days from the issuance of this letter; and

WHEREAS a public hearing was held on this application on December 11, 2012, after due notice by publication in *The City Record*, and then to decision on February 5, 2013; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by Chair Srinivasan; and

WHEREAS, the subject site is located at the northwest corner of Macombs Place and West 154th Street, in an R7-2 zoning district; and

WHEREAS, the site is occupied by a building with a rooftop sign structure supporting an advertising sign with dimensions of 20'-0" high by 48'-0" wide (960 sq. ft.) (the "Sign"); and

WHEREAS, the Sign is located approximately 200 feet from and within view of the Harlem River Drive, a designated arterial highway pursuant to Zoning Resolution Appendix H; and

WHEREAS, this appeal is brought on behalf of the owner of the Sign (the "Appellant"); and

WHEREAS, the Appellant seeks a reversal of DOB's rejection of its sign registration based on its assertion that (1) ZR § 52-731 has no application to lawful, non-conforming uses that predate its adoption; and (2) the application of ZR § 52-731 would result in an unconstitutional taking of property; and

WHEREAS, DOB appeared and made submissions in opposition to this appeal; and

REGISTRATION REQUIREMENT

WHEREAS, under Local Law 31 of 2005, the New York City Council enacted certain amendments to existing regulations governing outdoor advertising signs; and

WHEREAS, the amendments are codified under Articles 501, 502, and 503 of the 2008 Building Code and were enacted to provide DOB with a means of enforcing the sign laws where signs had been erected and were being maintained without a valid permit; and

WHEREAS, pursuant to Article 502 (specifically, Building Code § 28-502.4), an outdoor advertising company is required to submit to DOB an inventory of:

> all signs, sign structures and sign locations located (i) within a distance of 900 linear feet (274 m) from and within view of an arterial highway; or (ii) within a distance of 200 linear feet [60.96 m] from and within view of a public park with an area of ½ acre (5000 m) or more; and

WHEREAS, further, Local Law 31 authorized the Commissioner of DOB to promulgate rules establishing permitting requirements for certain signs; the DOB rules, enacted under Rule 49, provide specific procedures for registration of advertising signs; Rule 49-15(5) reads in

pertinent part:

> Each sign shall be identified as either "advertising" or "non-advertising." To the extent a sign is a non-conforming sign, it must further be identified as "non-conforming advertising" or "non-conforming non-advertising." A sign identified as "non-conforming advertising" or "non-conforming non-advertising" shall be submitted to the Department for confirmation of its non-conforming status, pursuant to section 49-16 of this chapter; and

WHEREAS, subchapter B of Rule 49 (Registration of Outdoor Advertising Companies), (specifically, Rule 49-15(d)(15)(b)), sets forth the acceptable forms of evidence to establish the size and the existence of a non-conforming sign on the relevant date set forth in the Zoning Resolution; and

WHEREAS, the acceptable forms of evidence set forth at Rule 49 are, in pertinent part as follows:

> Acceptable evidence may include permits, sign-offs of applications after completion, photographs and leases demonstrating that the non-conforming use existed prior to the relevant date; and

WHEREAS, affidavits are also listed as an acceptable form of evidence; and

WHEREAS, a guidance document provided by DOB sets forth the instructions for filing under Rule 49 and asserts that any one of the following documents would be acceptable evidence for sign registration pursuant to Rule 49: (1) DOB –issued permit for sign erection; (2) DOB-approved application for sign erection; (3) DOB dockets/permit book indicating sign permit approval; and (4) publicly catalogued photograph from a source such as NYC Department of Finance, New York Public Library, Office of Metropolitan History, or New York State Archives; and

REGISTRATION PROCESS

WHEREAS, the parties agree that prior to September 29, 2011, the Appellant submitted a Sign Registration Application for the Sign; and

WHEREAS, on September 29, 2011, DOB notified the Appellant that its Sign Registration Application failed to establish any basis for the sign to remain, and requested proof that the Sign complied with ZR § 52-731; and

WHEREAS, on February 29, 2012, the Appellant responded that the Sign was a legal non-conforming use which pre-dated the adoption of ZR § 52-731 and therefore it was not applicable to the Sign; and

WHEREAS, by letter dated May 9, 2012, DOB issued the determination which forms the basis of the appeal, stating that it found the "documentation inadequate to support the registration and as such the sign is rejected from registration;" and

THE APPELLANT'S POSITION

WHEREAS, the Appellant contends that the Final Determination should be reversed because (1) ZR § 52-731 has no application to lawful, non-conforming uses that predate its adoption; and (2) the application of ZR § 52-731 would result in an unconstitutional taking of property; and

1. Legal Precedent Supports the Continuation of Pre-Existing Non-Conforming Uses

WHEREAS, the Appellant asserts that the Signs were lawfully established prior to the adoption of ZR § 52-731, and therefore such section does not apply to the Signs; and

WHEREAS, the Appellant notes that a permit for the Signs was issued by DOB in 1937; and

WHEREAS, the Appellant cites to Toys-R-Us v. Silva, 89 N.Y.2d 411, 421 (1996) for the principle that "zoning restrictions, being in derogation of common law property rights, [are] strictly construed and any ambiguity [is] resolved in favor of the property owner"; and

WHEREAS, the Appellant asserts that the Zoning Resolution protects the continued use of non-conforming signs since "[i]t is the law of this state that non-conforming uses or structures, in existence when a zoning ordinance is enacted, are, as a general rule, constitutionally protected and will be permitted to continue, notwithstanding contrary provisions of the [zoning] ordinance." Costa v. Callahan, 41 A.D. 3d 1111, 1113 (3d Dept. 2007), citing Matter of Rudolf Steiner Fellowship Found v. DeLuccia, 90 N.Y.2d 453, 463 (1997); and

WHEREAS, the Appellant argues that statutes are to be construed prospectively and not retrospectively unless otherwise provided (See In re Town of Islip v. Caviglia, 73 N.Y.2d 544, 560-61 (1989)), and that unlike the statute at issue in Caviglia, the Appellant asserts that ZR § 52-731 is not content-neutral since it is exclusively directed to advertising signs and not any other manner of signs, and, accordingly, the general rule of prospective construction of statutes should apply; and

WHEREAS, the Appellant claims that the subject case is distinguishable from the authorities previously relied upon by the Board in upholding the applicability of ZR § 52-731; and

WHEREAS, specifically, the Appellant asserts that (1) in 550 Halstead Corp. v. Zoning Bd. of Appeals, 1 N.Y.3d 561, 562 (2003) the non-conforming use was expanded and extended contrary to the local ordinance, whereas in this case the use as advertising signs pursuant to permits has remained constant, and (2) in Off Shore Restaurant Corp. v. Linden, 30 N.Y.2d 160 (1972), there was a clear change in use from a delicatessen to a cocktail lounge, thus requiring compliance with the municipal off-street parking requirement; and

WHEREAS, accordingly, the Appellant contends that since the statute at issue was adopted in 1963, after the non-conforming use status of the Sign, permitted in 1937, was established, it cannot be applied with respect to the Sign; and

2. DOB's Enforcement of the Sign would be an Unconstitutional Taking

WHEREAS, the Appellant asserts that the application of ZR § 52-731 would result in an unconstitutional taking of property in violation of the Fifth Amendment; and

WHEREAS, the Appellant contends that amortization provisions, such as the one set forth in ZR § 52-731, do not provide just compensation for the taking of a lawful advertising sign use consistent with the taking clause of the Fifth Amendment, which states: "…nor shall private property be taken for public use without just compensation;" and

WHEREAS, the Appellant argues that the Federal Highway Administration ("FHWA") has provided clear guidance on this issue, and has expressly determined that the removal of legal advertising signs (such as those at issue on these appeals) located on federal roads or controlled highways pursuant to the Highway Beautification Act, 23 U.S.C. 131, requires the payment of just compensation to the owner of such advertising signs; and

WHEREAS, the Appellant asserts that Congress has repeatedly rejected the amortization of lawful advertising sign uses and amended the Highway Beautification Act in 1978 to clarify that "just compensation shall be paid upon the removal" of such advertising signs; and

WHEREAS, the Appellant further asserts that, as recently as 2006, FHWA confirmed as part of a national assessment of advertising sign control programs that amortization of sign uses is no longer an issue because of the settled principle that cash compensation must be paid in connection with such takings, and that in response to efforts by those seeking the removal of non-conforming advertising signs, FHWA noted: "some continue to advocate amortization as a means to accomplish this, but widespread use of this approach was effectively prohibited by Federal legislation;" and

WHEREAS, the Appellant argues that DOB is relying on a statute that merely provided the owners and operators of lawfully established signs a period of years to continue such operations, without regard for any cash compensation for such takings; and

WHEREAS, accordingly, the Appellant asserts that ZR § 52-731 is inconsistent with Federal guidance on this issue and, if applied as DOB intends, will impose a significant deprivation of the Appellant's constitutional rights; and

DOB'S POSITION

WHEREAS, DOB asserts that zoning regulations prohibit the Sign in the subject R7-2 zoning district, as set forth at ZR § 22-30, which does not include advertising signs among the permitted uses; and

WHEREAS, DOB states that non-conforming advertising signs are permitted in residential zoning districts only when they comply with Chapter 2 of Article 5 of the Zoning Resolution; and

WHEREAS, specifically, DOB cites to ZR § 52-11, which states that "a non-conforming use may be continued, except as otherwise provided in this Chapter;" and

WHEREAS, DOB continues by citing ZR § 52-731, which expressly provided a limitation on the use of non-conforming advertising signs in residential zoning districts; the original text states that:

> [i]n all Residence Districts, a non-conforming advertising sign may be continued for eight years after the effective date of this resolution or such later date that such sign becomes non-conforming, provided that after the expiration of that period such non-conforming advertising sign shall terminate; and

WHEREAS, DOB notes that on August 22, 1963, the original ZR § 52-731 was amended to allow a ten-year, rather than an eight-year, amortization period; the 1963 version of the text, allowing for a ten-year amortization period remains in effect today; and

WHEREAS, DOB states that in order to maintain the Sign, the Appellant must demonstrate that: (1) the Sign is non-conforming (a lawful pre-existing non-conforming use, as defined at ZR § 12-10) and (2) it has been less than ten years since the Sign became non-conforming; and

WHEREAS, DOB asserts that the Appellant has failed to provide adequate evidence to demonstrate that the advertising sign has ever been "non-conforming" in the sense that it was lawfully established per ZR § 12-10 as "[a]ny lawful use…which does not conform to any one or more of the applicable use regulations of the district in which it is located, either on December 15, 1961 or as a result of any subsequent amendment thereto;" and

WHEREAS, DOB states that the lawful use must have been established on December 15, 1961 or at the time of a relevant zoning amendment; and

WHEREAS, DOB notes that the Appellant has submitted proof of a permit issued by DOB in 1937 for a sign structure and states that if it were to assume that the sign existed lawfully on December 15, 1961, based on the 1937 permit, on December 15, 1961, it would have become "non-conforming;" and

WHEREAS, DOB states that even if the Sign existed lawfully on December 15, 1961, such a sign would have become non-conforming on that date when the site was zoned R7-2 and the 1963/current version of ZR § 52-731 requires that the Sign be removed within ten years of it becoming non-conforming, which was on December 15, 1971; and

WHEREAS, accordingly, DOB asserts that its rejection of the sign registration is appropriate because the Sign does not comply with ZR § 52-731; and

CONCLUSION

WHEREAS, the Board agrees with DOB that the language of ZR § 52-731 is clear and requires that because any advertising sign at the site became a non-conforming use on December 15, 1961 when it was mapped to be within an R7-2 zoning district, such use should have been terminated by December 15, 1971; and

WHEREAS, as to the Appellant's assertion that DOB has improperly changed its position on the legality of the signs, the Board supports DOB's position that it may correct the erroneous issuance of its permits; and

WHEREAS, further, the Board notes that the presence of a permit does not render a use lawful, when the permit was issued erroneously; and

WHEREAS, the Board declines to take a position on the fairness of DOB's rejection of the registration after erroneously issuing a permit in 1937, but it does note that the Appellant has enjoyed the benefit of the Sign for more than 40 years past the December 15, 1971 date when any sign at the site should have been terminated; and

WHEREAS, the Board agrees with DOB that even if the Appellant were to establish that the Sign was lawfully non-conforming at relevant dates, the question is moot since even a lawfully non-conforming sign would have to have been terminated on or before December 15, 1971; and

WHEREAS, accordingly, the Board finds that the advertising sign use should have been terminated on or before December 15, 1971, pursuant to ZR § 52-731; and

WHEREAS, the Board notes that the ZR § 12-10 definition of non-conforming use and ZR § 52-731 contemplate prospective enforcement in that uses that were rendered non-conforming on December 15, 1961 (like the subject Sign) were able to remain for ten years so long as they were lawful on December 15, 1961 (per ZR § 12-10); and

WHEREAS, the Board notes that the adoption of the 1961 Zoning Resolution did not prohibit the continuance of non-conforming uses, but rather newly non-conforming uses were able to exist in derogation of the Zoning Resolution, but only for a specified period; and

WHEREAS, as to the applicability of statutes adopted after a use has been established, the Board notes that per the Court of Appeals, municipalities may adopt laws regarding previously existing nonconforming uses. 550 Halstead Corp., 1 N.Y.3d at 562; Matter of Toys "R" Us v Silva, 89 N.Y.2d 411, 417, (1996); and

WHEREAS, specifically, the Board notes that the Court of Appeals has held that, "[b]ecause nonconforming uses are viewed as detrimental to zoning schemes, public policy favors their reasonable restriction and eventual

elimination[,]" and "municipalities may adopt measures regulating nonconforming uses and may, in a reasonable fashion, eliminate them." 550 Halstead Corp., 1 N.Y.3d at 562; and

WHEREAS, further, the Board notes that in Off Shore Restaurant Corp., the Court stated, "the courts do not hesitate to give effect to restrictions on non-conforming uses . . . It is because these restrictions flow from a strong policy favoring the eventual elimination of nonconforming uses" 30 N.Y.2d at 164; and

WHEREAS, the Board finds that, despite the Appellant's attempt to distinguish the facts of 550 Halstead Corp. and Off Shore Restaurant Corp. from those of the subject case, the cited cases are relevant with regard to the above-mentioned holdings pertaining to the regulation of non-conforming uses; and

WHEREAS, the Board notes that ZR § 52-731 is not contrary to ZR § 52-11, which states that "a nonconforming use may be continued, except as otherwise provided in [Chapter 2]" because the Board notes that non-conforming uses are protected by Article V, but, as anticipated at ZR § 52-11, there are limiting conditions; and

WHEREAS, the Board finds that the Appellant has failed to provide evidence that its purported satisfaction of the Sign Registration requirement supersedes the clear, undisputed text of the Zoning Resolution; and

WHEREAS, as to the Appellant's assertion that the application of ZR § 52-731 would amount to a regulatory taking, the Board disagrees with the Appellant that the application of zoning regulations constitutes a taking; however, the Board finds that to the extent ZR § 52-731 does constitute an unconstitutional takings action, any such claim is properly directed against the statute itself, rather than DOB's enforcement of the statute, and such a claim is more appropriately addressed in a different forum; and

WHEREAS, the Board disagrees with the Appellant's reliance on the Federal Highway Beautification Act, which regulates advertising signs located within 660 feet of federal roads or controlled highways, and distinguishes that statute from ZR § 52-731, which prohibits advertising signs in residential districts regardless of the proximity of such signs to an arterial or highway; and

WHEREAS, the Board notes that the purpose of ZR § 52-731, to eliminate prior non-conforming advertising signs from residential districts in which such commercial uses are incompatible, has no relationship to the stated purpose for the Federal Highway Beautification Act's regulation of advertising signs, which is "to protect the public investment in such highways, to promote the safety and recreational value of public travel, and to preserve natural beauty"; thus, the Board finds the Appellant's reliance on the Federal Highway Beautification Act to be misguided; and

WHEREAS, the Board further notes that the Appellant has provided no evidence that the Federal Highway Beautification Act should apply to the regulation of the Sign, where DOB's enforcement results from the location of the Sign in a residential districts and not its proximity to any federal roads or controlled highways; and

WHEREAS, as noted above, in addition to the ten-year amortization period provided under ZR § 52-731, the Appellant has enjoyed the benefit of the Sign for more than 40 years past the December 15, 1971 date when any sign at the site should have been terminated; and

WHEREAS, accordingly, the Board finds that DOB properly rejected the Sign from registration.

Therefore it is resolved that the subject appeal, seeking a reversal of the Final Determination of the Department of Buildings, dated May 9, 2012, is hereby denied.

Adopted by the Board of Standards and Appeals, February 5, 2013.

169-12-A & 170-12-A

APPLICANT – Davidoff Hutcher & Citron LLP, for Lamar Advertising of Penn LLC.

OWNER OF PREMISES – 26-28 Market Street, Inc.

SUBJECT – Application June 7, 2012 – Appeal from Department of Buildings' determination that signs are not entitled to continued non-conforming use status as advertising signs, pursuant to Z.R. §52-731. R7-2 zoning district.

PREMISES AFFECTED – 24-28 Market Street, southeast intersection of Market Street and Henry Street, Block 275, Lot 20, Borough of Manhattan.

COMMUNITY BOARD #3M

ACTION OF THE BOARD – Appeal Denied.

THE VOTE TO GRANT –

Affirmative: 0

Negative: Chair Srinivasan, Vice Chair Collins, Commissioner Hinkson and Commissioner Montanez 4

Absent: Commissioner Ottley-Brown.....1

THE RESOLUTION –

WHEREAS, the subject appeal comes before the Board in response to Notice of Sign Registration Rejection letters from the Manhattan Borough Commissioner of the Department of Buildings ("DOB"), dated May 9, 2012, denying Application Nos. 10039802 and 10039701 from registration for two signs at the subject site (the "Final Determinations"), which read, in pertinent part:

> The Department of Buildings is in receipt of additional documentation submitted in response to the Deficiency Letter from the Signs Enforcement Unit and in connection with the application for registration of the above-referenced sign. Unfortunately, we find this documentation inadequate to support the registration of the sign and as such, the sign is rejected from registration. This sign will be subject to enforcement action 30 days from the issuance of this letter; and

WHEREAS a public hearing was held on this application on December 11, 2012, after due notice by publication in *The City Record*, and then to decision on February 5, 2013; and

WHEREAS, the premises and surrounding area had a

site and neighborhood examination by Chair Srinivasan; and

WHEREAS, the subject site is located at the southeast corner of Market Street and Henry Street, in an R7-2 zoning district; and

WHEREAS, the site was previously within a C8-4 zoning district which was rezoned to the current R7-2 zoning district pursuant to a rezoning on August 20, 1981; and

WHEREAS, the site is occupied by a building with a rooftop sign structure supporting two advertising signs with dimensions of 14'-0" high by 48'-0" wide (672 sq. ft.) each; one sign faces southeast, and one sign faces northwest (the "Signs"); and

WHEREAS, the Signs are located approximately 27 feet from and within view of the Manhattan Bridge and approach, a designated arterial highway pursuant to Zoning Resolution Appendix H; and

WHEREAS, this appeal is brought on behalf of the owner of the Sign (the "Appellant"); and

WHEREAS, the Appellant seeks a reversal of DOB's rejection of its sign registrations based on its assertion that (1) ZR § 52-731 has no application to lawful, non-conforming uses that predate its adoption; and (2) the application of ZR § 52-731 would result in an unconstitutional taking of property; and

WHEREAS, DOB appeared and made submissions in opposition to this appeal; and

REGISTRATION REQUIREMENT

WHEREAS, under Local Law 31 of 2005, the New York City Council enacted certain amendments to existing regulations governing outdoor advertising signs; and

WHEREAS, the amendments are codified under Articles 501, 502, and 503 of the 2008 Building Code and were enacted to provide DOB with a means of enforcing the sign laws where signs had been erected and were being maintained without a valid permit; and

WHEREAS, pursuant to Article 502 (specifically, Building Code § 28-502.4), an outdoor advertising company is required to submit to DOB an inventory of:

> all signs, sign structures and sign locations located (i) within a distance of 900 linear feet (274 m) from and within view of an arterial highway; or (ii) within a distance of 200 linear feet [60.96 m] from and within view of a public park with an area of ½ acre (5000 m) or more; and

WHEREAS, further, Local Law 31 authorized the Commissioner of DOB to promulgate rules establishing permitting requirements for certain signs; the DOB rules, enacted under Rule 49, provide specific procedures for registration of advertising signs; Rule 49-15(5) reads in pertinent part:

> Each sign shall be identified as either "advertising" or "non-advertising." To the extent a sign is a non-conforming sign, it must further be identified as "non-conforming advertising" or "non-conforming non-advertising." A sign identified as "non-conforming advertising" or "non-conforming non-advertising" shall be submitted to the Department for confirmation of its non-conforming status, pursuant to section 49-16 of this chapter; and

WHEREAS, subchapter B of Rule 49 (Registration of Outdoor Advertising Companies), (specifically, Rule 49-15(d)(15)(b)), sets forth the acceptable forms of evidence to establish the size and the existence of a non-conforming sign on the relevant date set forth in the Zoning Resolution; and

WHEREAS, the acceptable forms of evidence set forth at Rule 49 are, in pertinent part as follows:

> Acceptable evidence may include permits, sign-offs of applications after completion, photographs and leases demonstrating that the non-conforming use existed prior to the relevant date; and

WHEREAS, affidavits are also listed as an acceptable form of evidence; and

WHEREAS, a guidance document provided by DOB sets forth the instructions for filing under Rule 49 and asserts that any one of the following documents would be acceptable evidence for sign registration pursuant to Rule 49: (1) DOB –issued permit for sign erection; (2) DOB-approved application for sign erection; (3) DOB dockets/permit book indicating sign permit approval; and (4) publicly catalogued photograph from a source such as NYC Department of Finance, New York Public Library, Office of Metropolitan History, or New York State Archives; and

REGISTRATION PROCESS

WHEREAS, the parties agree that prior to September 29, 2011, the Appellant submitted Sign Registration Applications for the Signs; and

WHEREAS, on September 29, 2011, DOB notified the Appellant that its Sign Registration Applications failed to establish any basis for the sign to remain, and requested proof that the Signs complied with ZR § 52-731; and

WHEREAS, on February 29, 2012, the Appellant responded that the Signs were legal non-conforming uses which pre-dated the adoption of ZR § 52-731 and therefore it was not applicable to the Signs; and

WHEREAS, by letter dated May 9, 2012, DOB issued the determination which forms the basis of the appeal, stating that it found the "documentation inadequate to support the registration and as such the sign is rejected from registration;" and

RELEVANT STATUTORY PROVISIONS

> ZR § 52-11
> General Provisions
> A #non-conforming use# may be continued, except as otherwise provided in this Chapter.
> * * *
> ZR § 52-731
> Advertising signs
> In all #Residence Districts#, a #non-conforming advertising sign# may be continued for ten years after December 15, 1961, or such later date that such #sign# becomes #non-conforming#,

providing that after the expiration of that period such #non-conforming advertising sign# shall terminate.

* * *

Building Code § 28-502.4 – Reporting Requirement

An outdoor advertising company shall provide the department with a list with the location of signs, sign structures and sign locations under the control of such outdoor advertising company in accordance with the following provisions:

(1) The list shall include all signs, sign structures and sign locations located (i) within a distance of 900 linear feet (274 m) from and within view of an arterial highway; or (ii) within a distance of 200 linear feet (60 960 mm) from and within view of a public park with an area of ½ acre (5000 m) or more…

* * *

RCNY § 49-15 – Sign Inventory to be Submitted with Registration Application

…(d)(5) Each sign shall be identified as either "advertising" or "non-advertising." To the extent a sign is a non-conforming sign, it must further be identified as "non-conforming advertising" or "non-conforming non-advertising." A sign identified as "non-conforming advertising" or "non-conforming non-advertising" shall be submitted to the Department for confirmation of its non-conforming status, pursuant to section 49-16 of this chapter.

* * *

RCNY § 49-16 – Non-conforming Signs

(a) With respect to each sign identified in the sign inventory as non-conforming, the registered architect or professional engineer shall request confirmation of its non-conforming status from the Department based on evidence submitted in the registration application. The Department shall review the evidence submitted and accept or deny the request within a reasonable period of time. A sign that has been identified as non-conforming on the initial registration application may remain erected unless and until the Department has issued a determination that it is not non-conforming…

* * *

RCNY § 49-43 – Advertising Signs

Absent evidence that revenue from the sign is clearly incidental to the revenue generated from the use on the zoning lot to which it directs attention, the following signs are deemed to be advertising signs for the purposes of compliance with the Zoning Resolution:

(a) Signs that direct attention to a business on the zoning lot that is primarily operating a storage or warehouse use for business activities conducted off the zoning lot, and that storage or warehouse use occupies less than the full building on the zoning lot; or

(b) All signs, other than non-commercial, larger than 200 square feet, unless it is apparent from the copy and/or depictions on the sign that it is used to direct the attention of vehicular and pedestrian traffic to the business on the zoning lot; and

THE APPELLANT'S POSITION

WHEREAS, the Appellant contends that the Final Determinations should be reversed because (1) ZR § 52-731 has no application to lawful, non-conforming uses that predate its adoption; and (2) the application of ZR § 52-731 would result in an unconstitutional taking of property; and

1. Legal Precedent Supports the Continuation of Pre-Existing Non-Conforming Uses

WHEREAS, the Appellant asserts that the Signs were lawfully established prior to the adoption of ZR §52-731, and therefore such section does not apply to the Signs; and

WHEREAS, the Appellant notes that a permit for the Signs was issued by DOB in 1934; and

WHEREAS, the Appellant cites to Toys-R-Us v. Silva, 89 N.Y.2d 411, 421 (1996) for the principle that "zoning restrictions, being in derogation of common law property rights, [are] strictly construed and any ambiguity [is] resolved in favor of the property owner"; and

WHEREAS, the Appellant asserts that the Zoning Resolution protects the continued use of non-conforming signs since "[i]t is the law of this state that non-conforming uses or structures, in existence when a zoning ordinance is enacted, are, as a general rule, constitutionally protected and will be permitted to continue, notwithstanding contrary provisions of the [zoning] ordinance." Costa v. Callahan, 41 A.D. 3d 1111, 1113 (3d Dept. 2007), citing Matter of Rudolf Steiner Fellowship Found v. DeLuccia, 90 N.Y.2d 453, 463 (1997); and

WHEREAS, the Appellant argues that statutes are to be construed prospectively and not retrospectively unless otherwise provided (See In re Town of Islip v. Caviglia, 73 N.Y.2d 544, 560-61 (1989)), and that unlike the statute at issue in Caviglia, the Appellant asserts that ZR § 52-731 is not content-neutral since it is exclusively directed to advertising signs and not any other manner of signs, and, accordingly, the general rule of prospective construction of statutes should apply; and

WHEREAS, the Appellant claims that the subject case is distinguishable from the authorities previously relied upon by the Board in upholding the applicability of ZR § 52-731; and

WHEREAS, specifically, the Appellant asserts that (1) in 550 Halstead Corp. v. Zoning Bd. of Appeals, 1 N.Y.3d 561, 562 (2003) the non-conforming use was expanded and extended contrary to the local ordinance, whereas in this case the use as advertising signs pursuant to permits has remained constant, and (2) in Off Shore Restaurant Corp. v. Linden, 30 N.Y.2d 160 (1972), there was a clear change in use from a delicatessen to a cocktail lounge, thus requiring

compliance with the municipal off-street parking requirement; and

WHEREAS, accordingly, the Appellant contends that since the statute at issue was adopted in 1963, after the non-conforming use status of the Signs, permitted in 1934, were established, it cannot be applied with respect to the Signs; and

2. DOB's Enforcement of the Signs would be an Unconstitutional Taking

WHEREAS, the Appellant asserts that the application of ZR § 52-731 would result in an unconstitutional taking of property in violation of the Fifth Amendment; and

WHEREAS, the Appellant contends that amortization provisions, such as the one set forth in ZR § 52-731, do not provide just compensation for the taking of a lawful advertising sign use consistent with the taking clause of the Fifth Amendment, which states: "…nor shall private property be taken for public use without just compensation;" and

WHEREAS, the Appellant argues that the Federal Highway Administration ("FHWA") has provided clear guidance on this issue, and has expressly determined that the removal of legal advertising signs (such as those at issue on these appeals) located on federal roads or controlled highways pursuant to the Highway Beautification Act, 23 U.S.C. 131, requires the payment of just compensation to the owner of such advertising signs; and

WHEREAS, the Appellant asserts that Congress has repeatedly rejected the amortization of lawful advertising sign uses and amended the Highway Beautification Act in 1978 to clarify that "just compensation shall be paid upon the removal" of such advertising signs; and

WHEREAS, the Appellant further asserts that, as recently as 2006, FHWA confirmed as part of a national assessment of advertising sign control programs that amortization of sign uses is no longer an issue because of the settled principle that cash compensation must be paid in connection with such takings, and that in response to efforts by those seeking the removal of non-conforming advertising signs, FHWA noted: "some continue to advocate amortization as a means to accomplish this, but widespread use of this approach was effectively prohibited by Federal legislation;" and

WHEREAS, the Appellant argues that DOB is relying on a statute that merely provided the owners and operators of lawfully established signs a period of years to continue such operations, without regard for any cash compensation for such takings; and

WHEREAS, accordingly, the Appellant asserts that ZR § 52-731 is inconsistent with Federal guidance on this issue and, if applied as DOB intends, will impose a significant deprivation of the Appellant's constitutional rights; and

DOB'S POSITION

WHEREAS, DOB asserts that zoning regulations prohibit the Signs in the subject R7-2 zoning district, as set forth at ZR § 22-30, which does not include advertising signs among the permitted uses; and

WHEREAS, DOB states that non-conforming advertising signs are permitted in residential zoning districts only when they comply with Chapter 2 of Article 5 of the Zoning Resolution; and

WHEREAS, specifically, DOB cites to ZR § 52-11, which states that "a non-conforming use may be continued, except as otherwise provided in this Chapter;" and

WHEREAS, DOB continues by citing ZR § 52-731, which expressly provided a limitation on the use of non-conforming advertising signs in residential zoning districts; the original text states that:

> [i]n all Residence Districts, a non-conforming advertising sign may be continued for eight years after the effective date of this resolution or such later date that such sign becomes non-conforming, provided that after the expiration of that period such non-conforming advertising sign shall terminate; and

WHEREAS, DOB notes that on August 22, 1963, the original ZR § 52-731 was amended to allow a ten-year, rather than an eight-year, amortization period; the 1963 version of the text, allowing for a ten-year amortization period remains in effect today; and

WHEREAS, DOB states that in order to maintain the Signs, the Appellant must demonstrate that: (1) the Signs are non-conforming (a lawful pre-existing non-conforming use, as defined at ZR § 12-10) and (2) it has been less than ten years since the Signs became non-conforming; and

WHEREAS, DOB states that the lawful use must have been established on December 15, 1961 or at the time of a relevant zoning amendment; and

WHEREAS, DOB notes that the Appellant has submitted proof of a permit issued by DOB in 1933 for a roof sign structure and for electric sign permits issued by DOB in 1979, two years prior to the date the site was rezoned from C8-4 to R7-2; and

WHEREAS, DOB asserts that even assuming that the Signs existed lawfully on August 20, 1981, they became "non-conforming" on that date since the site was rezoned to R7-2; therefore, on August 20, 1981, the ten-year amortization period set forth in ZR § 52-731 began to run and the Signs were required to be removed no later than August 20, 1991; and

WHEREAS, accordingly, DOB asserts that its rejection of the sign registrations are appropriate because the Signs do not comply with ZR § 52-731; and

CONCLUSION

WHEREAS, the Board agrees with DOB that the language of ZR § 52-731 is clear and requires that because any advertising sign at the site became a non-conforming use on August 20, 1981 when it was mapped to be within an R7-2 zoning district, such use should have been terminated by August 20, 1991; and

WHEREAS, the Board agrees with DOB that even if the Appellant were to establish that the Signs were lawfully non-conforming at the relevant dates, the question is moot since even a lawfully non-conforming sign would have to have been

terminated on or before August 20, 1991; and

WHEREAS, accordingly, the Board finds that the advertising sign use should have been terminated on or before August 20, 1991, pursuant to ZR § 52-731; and

WHEREAS, the Board notes that the ZR § 12-10 definition of non-conforming use and ZR § 52-731 contemplate prospective enforcement in that uses that were rendered non-conforming on December 15, 1961 (like the subject Sign) were able to remain for ten years so long as they were lawful on December 15, 1961 (per ZR § 12-10); and

WHEREAS, the Board notes that the adoption of the 1961 Zoning Resolution did not prohibit the continuance of non-conforming uses, but rather newly non-conforming uses were able to exist in derogation of the Zoning Resolution, but only for a specified period; and

WHEREAS, as to the applicability of statutes adopted after a use has been established, the Board notes that per the Court of Appeals, municipalities may adopt laws regarding previously existing nonconforming uses. 550 Halstead Corp., 1 N.Y.3d at 562; Matter of Toys "R" Us v Silva, 89 N.Y.2d 411, 417, (1996); and

WHEREAS, specifically, the Board notes that the Court of Appeals has held that, "[b]ecause nonconforming uses are viewed as detrimental to zoning schemes, public policy favors their reasonable restriction and eventual elimination[,]" and "municipalities may adopt measures regulating nonconforming uses and may, in a reasonable fashion, eliminate them." 550 Halstead Corp., 1 N.Y.3d at 562; and

WHEREAS, further, the Board notes that in Off Shore Restaurant Corp., the Court stated, "the courts do not hesitate to give effect to restrictions on non-conforming uses . . . It is because these restrictions flow from a strong policy favoring the eventual elimination of nonconforming uses" 30 N.Y.2d at 164; and

WHEREAS, the Board finds that, despite the Appellant's attempt to distinguish the facts of 550 Halstead Corp. and Off Shore Restaurant Corp. from those of the subject case, the cited cases are relevant with regard to the above-mentioned holdings pertaining to the regulation of non-conforming uses; and

WHEREAS, the Board notes that ZR § 52-731 is not contrary to ZR § 52-11, which states that "a nonconforming use may be continued, except as otherwise provided in [Chapter 2]" because the Board notes that non-conforming uses are protected by Article V, but, as anticipated at ZR § 52-11, there are limiting conditions; and

WHEREAS, the Board finds that the Appellant has failed to provide evidence that its purported satisfaction of the Sign Registration requirement supersedes the clear, undisputed text of the Zoning Resolution; and

WHEREAS, as to the Appellant's assertion that the application of ZR § 52-731 would amount to a regulatory taking, the Board disagrees with the Appellant that the application of zoning regulations constitutes a taking; however, the Board finds that to the extent ZR § 52-731 does constitute an unconstitutional takings action, any such claim is properly directed against the statute itself, rather than DOB's enforcement of the statute, and such a claim is more appropriately addressed in a different forum; and

WHEREAS, the Board disagrees with the Appellant's reliance on the Federal Highway Beautification Act, which regulates advertising signs located within 660 feet of federal roads or controlled highways, and distinguishes that statute from ZR § 52-731, which prohibits advertising signs in residential districts regardless of the proximity of such signs to an arterial or highway; and

WHEREAS, the Board notes that the purpose of ZR § 52-731, to eliminate prior non-conforming advertising signs from residential districts in which such commercial uses are incompatible, has no relationship to the stated purpose for the Federal Highway Beautification Act's regulation of advertising signs, which is "to protect the public investment in such highways, to promote the safety and recreational value of public travel, and to preserve natural beauty"; thus, the Board finds the Appellant's reliance on the Federal Highway Beautification Act to be misguided; and

WHEREAS, the Board further notes that the Appellant has provided no evidence that the Federal Highway Beautification Act should apply to the regulation of the Signs, where DOB's enforcement results from the location of the Signs in a residential districts and not their proximity to any federal roads or controlled highways; and

WHEREAS, the Board notes that in addition to the ten-year amortization period provided under ZR § 52-731, the Appellant has enjoyed the benefit of the Signs for more than 20 years past the August 20, 1991 date when any sign at the site should have been terminated; and

WHEREAS, accordingly, the Board finds that DOB properly rejected the Signs from registration.

Therefore it is resolved that the subject appeal, seeking a reversal of the Final Determinations of the Department of Buildings, dated May 9, 2012, is hereby denied.

Adopted by the Board of Standards and Appeals, February 5, 2013.

THE RESOLUTION –

WHEREAS, the decision of the Queens Borough Commissioner, dated November 15, 2012, and acting on Department of Buildings Application No. 4809110 reads, in pertinent part:

1. Proposed floor area ratio exceeds maximum permitted under ZR Section 23-141; and
2. Proposed side yard does not comply with ZR Section 23-461; and
3. Proposal does not comply with parking requirements under ZR Section 25-22; and

WHEREAS, this is an application under ZR § 72-21, to permit, within an R3-2 zoning district, the construction of a new single-family semi-detached home that exceeds the permitted floor area and floor area ratio ("FAR") and does not provide the required side yards or parking, contrary to ZR §§ 23-141, 23-461, and 25-22; and

WHEREAS, a public hearing was held on this application on July 10, 2012, after due notice by publication in *The City Record*, with continued hearings on August 14, 2012, September 11, 2012, October 23, 2012, November 27, 2012, and January 8, 2013, and then to decision on February 5, 2013; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and

Commissioner Ottley-Brown; and

WHEREAS, Community Board 3, Queens, recommends approval of this application; and

WHEREAS, the adjacent neighbor to the north, represented by counsel, provided oral and written testimony raising concerns with the improper grading and drainage problems on the subject site and the poor condition of the site, and requesting that the proposed home align with the adjacent home to avoid negative impacts on the neighbor's light and air; and

WHEREAS, the site is located on the east side of 95th Street between 24th Avenue and 25th Avenue; and

WHEREAS, the site has a width of approximately 19'-6", a depth of 95'-0", a total lot area of approximately 1,847 sq. ft., and is located within an R3-2 zoning district; and

WHEREAS, the site is currently vacant but was previously occupied by a semi-detached house, which the applicant states is believed to have been destroyed by a fire; and

WHEREAS, the applicant proposes to construct a two-story single-family semi-detached home with the following parameters: a floor area of 1,263 sq. ft. (0.68 FAR) (0.50 FAR is the maximum permitted); a side yard with a width of 5'-0" along the southern lot line (a minimum side yard width of 8'-0" is required for semi-detached homes); and no parking spaces (a minimum of one parking space is required); and

WHEREAS, the applicant initially proposed to construct a home with a parking space located in the front yard, which resulted in the proposed home not being aligned with the adjacent home to the north; and

WHEREAS, at the direction of the Board, and in response to concerns raised by the adjacent neighbor, the applicant revised its proposal to align the proposed home with the adjacent home to the north; and

WHEREAS, because the proposed home does not comply with the underlying R3-2 district regulations, a variance is requested; and

WHEREAS, the applicant states that the following are unique physical conditions, which create practical difficulties and unnecessary hardship in developing the subject site in compliance with underlying zoning regulations: the site's narrow width; and

WHEREAS, the applicant states that the lot has a width of approximately 19'-6"; and

WHEREAS, the applicant states that providing a complying side yard of 8'-0" would result in a 11'-6" wide home, with even narrower interior dimensions given the widths of the walls, which would not be viable; and

WHEREAS, the applicant further states that, given the size of the lot, the maximum FAR of 0.50 would result in a single-family home with 920 sq. ft. of floor area, and small, inefficient floor plates of 460 sq. ft.; and

WHEREAS, therefore, the applicant requires a side yard waiver to allow for a new home with a width of 14'-6" and a floor area waiver to allow for a home with a floor area of 1,263 sq. ft. (0.68 FAR), to provide a floor plate that results in a habitable home; and

WHEREAS, the applicant states that due to the narrow width of the lot it cannot provide an accessory parking space in what would normally be a side lot ribbon; and

WHEREAS, as to the uniqueness of the lot, the applicant states that the site is the narrowest tax lot on either side of 95th Street between 24th Avenue and 25th Avenue, where all other parcels are 20 feet or wider; and

WHEREAS, the applicant represents that the typical separation between the other semi-detached homes in the surrounding area is 8'-0", often shared between the two adjacent parcels, while the subject site will have a proposed separation between homes of approximately 14'-5" because the adjacent detached home has a side yard/driveway ribbon with a width of 9'-8"; and

WHEREAS, the applicant also provided an analysis of lots within 400 feet of the site with a width of 20'-0" or less, which reflects that of the 124 lots within 400 feet, 47 have a width of 20'-0" or less; and

WHEREAS, the lot study provided by the applicant further shows that the FARs of the homes with a width of 20'-0" or less range from 1.62 to 0.46, and the 40 of these lots (or 82 percent) are improved with residential buildings that have FARs greater than 0.68; and

WHEREAS, the applicant concludes that the requested waivers of floor area, FAR and side yard requirements are necessary to develop the site with a habitable home; and

WHEREAS, based upon the above, the Board finds that the cited unique physical conditions create practical difficulties in developing the site in strict compliance with the applicable zoning regulations; and

WHEREAS, the Board has determined that because of the subject lot's unique physical conditions, there is no reasonable possibility that compliance with applicable zoning regulations will result in a habitable home; and

WHEREAS, the applicant represents that the proposed variance will not negatively affect the character of the neighborhood, or impact adjacent uses; and

WHEREAS, the applicant notes that the proposed bulk is compatible with nearby residential development and that the height complies with zoning regulations; and

WHEREAS, the applicant submitted a 400-ft. radius diagram which reflects that the surrounding area is characterized by single-family detached and semi-detached homes; and

WHEREAS, the applicant states that the proposed variance only seeks to (1) permit a modest increase in the building's bulk (0.18 FAR), (2) allow a slight reduction in the required side yard from 8'-0" to 5'-0", and (3) waive the one required parking space; and

WHEREAS, the applicant notes that the adjacent building to the south of the site has a side yard of 9'-8", which when combined with the proposed side yard of 5'-0" creates 14'-8" of separation between buildings which exceeds the typical amount of separation between homes on the subject block; and

WHEREAS, as noted above, the lot study submitted by the applicant reflects that of the approximately 47 lots with

widths of less than 20'-0" in the surrounding area, 40 of these lots (or 82 percent) are improved with residential buildings that have FARs greater than 0.68; and

WHEREAS, the applicant notes that most homes along 95th Street, including the subject site, have a pre-existing chain linked fence, extending the actual front yards approximately 5'-5" into the mapped street; however, the proposed home will not utilize the 5'-5" of mapped street for any zoning calculation purposes, and the home will comply with the front yard requirements as per the dimensions of the deeded lot, exclusive of the mapped street section; and

WHEREAS, as noted above, at the direction of the Board and in response to the concerns raised by the adjacent neighbor, the applicant revised the proposal to align the proposed home with the adjacent home to avoid negative impacts on the adjacent neighbor's light and air; and

WHEREAS, in response to the concerns raised by the adjacent neighbor regarding the drainage problems at the site, the applicant submitted a letter from the architect stating that the rainwater runoff at the site will be directed to the drywell to be located in the rear yard of the site, that minimal water will find its way between the homes, and that the applicant is prepared to implement a water diversion system to guide any such rainwater runoff between the homes to the rear yard drywell; and

WHEREAS, the applicant also provided photographs reflecting that the site has been cleaned of all debris and excessive growth; and

WHEREAS, the applicant states that the proposed home will align with the adjacent houses and the height of the home has been reduced to align with the future adjacent house; and

WHEREAS, therefore, the Board finds that this action will neither alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Board finds that the hardship herein was not created by the owner or a predecessor in title, but is a result of the historic lot dimensions; and

WHEREAS, the applicant notes that the proposed home complies with all requirements of the underlying R3-2 zoning district, with the exception of FAR, side yard, and parking; and

WHEREAS, accordingly, the Board finds that this proposal is the minimum necessary to afford the owner relief; and

WHEREAS, thus, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21.

Therefore it is Resolved that the Board of Standards and Appeals issues a Type II Declaration under 6 NYCRR Part 617.5 and 617.13, §§ 5-02(a), 5-02(b)(2), and 6-15 of the Rules of Procedure for City Environmental Quality Review, and makes the required findings under ZR § 72-21 to permit, within an R3-2 zoning district, the construction of a new single-family semi-detached home that exceeds the permitted FAR and does not provide the required side yards or parking, contrary to ZR §§ 23-141, 23-461, and 25-22; *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received January 24, 2013"–(7) sheets; and *on further condition*:

THAT the parameters of the proposed building shall be as follows: a maximum floor area of 1,263 sq. ft. (0.68 FAR); a side yard of with a minimum width of 5'-0" along the southern lot line; a front yard with a depth of 15'-0"; a rear yard with a depth of 35'-11 3/8"; a total height of 26'-6", and no parking spaces, as per the BSA-approved plans; THAT there shall be no habitable room in the cellar;

THAT this approval is limited to the relief granted by the Board, in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted;

THAT significant construction shall proceed in accordance with ZR § 72-23;

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, February 5, 2013.

CEQR #12-BSA-068M

APPLICANT – Greenberg Traurig, LLP by Deirdre A. Carson, Esq., for 100 Varick Realty, LLC, AND 66 Watts Realty LLC, owners.

SUBJECT – Application January 19, 2012 – Variance (§72-21) for a new residential building with ground floor retail, contrary to use (§42-10) and height and setback (§§43-43 & 44-43) regulations.

PREMISES AFFECTED – 100 Varick Street, east side of Varick Street, between Broome and Watts Streets, Block 477, Lot 35, 42, 44 & 76, Borough of Manhattan.

COMMUNITY BOARD #2M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Hinkson and Commissioner Montanez 4
Negative:.....0
Absent: Commissioner Ottley-Brown.....1

THE RESOLUTION –

WHEREAS, the decision of the Manhattan Borough Commissioner, dated January 5, 2012, acting on Department of Buildings Application No. 120084719, reads, in pertinent part:

1. ZR 42-10 – Proposed residential use within manufacturing (M1-6) zoning district is not permitted.
2. ZR 43-43 – Proposed building does not comply with front wall heights and setback

requirements, hence is not permitted.

3. ZR 44- – Proposed curb cut is located within 50 feet of the intersection of two streets, hence is not permitted; and

WHEREAS, this is an application under ZR § 72-21, to permit, on a site within an M1-6 zoning district, a 13-story residential building, with 96 dwelling units, commercial use on the first floor, and a curb cut within 50 feet of the intersection, which is contrary to ZR §§ 42-10, 43-43, and 44-582; and

WHEREAS, a public hearing was held on this application on June 19, 2012, after due notice by publication in the *City Record*, with continued hearings on August 7, 2012, September 11, 2012, and October 30, 2012, and then to decision on February 5, 2013; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 2, Manhattan, recommends disapproval of the initial iteration of this application with the suggestion that the development of the site be addressed after the pending the Department of City Planning's Hudson Square Rezoning is finalized and that any plans substantively comply with the new zoning; and

WHEREAS, The Door Youth Development Services submitted testimony in opposition to the proposal, citing concerns about (1) the placement of the curb cut, (2) poor site maintenance, and (3) a decision before the Rezoning being premature; and

WHEREAS, the neighbor at 64 Watts Street provided written and oral testimony in opposition to the proposal, citing concerns about whether (1) the hardship had been established and all premium costs are justified, (2) the site conditions are unique, (3) a lesser variance (7.2 FAR) would be sufficient to overcome any hardship, (4) the scale of the proposal is compatible with neighborhood character, and (5) sufficient measures will be performed during and after construction to protect the adjacent building; and

WHEREAS, the subject premises is located on the east side of Varick Street between Watt and Broome streets, across the street from the Hudson Tunnel entry plaza, and is comprised of four tax lots - Lots 35, 42 (1999 acquisitions), 44, and 76 (2006 and 2007 acquisitions); the assembled site has frontage of 171.41 feet along Varick Street, 56'-3 ¾" along Broome Street and 55 feet along Watts Street, with a total lot area of 9,576 sq. ft.; and

WHEREAS, under the prior application, the site is the subject of a prior variance, dated August 8, 2006, under BSA Cal. No. 151-05-BZ for an eight-story building with 7.97 FAR and a height of 78'-9"; and

WHEREAS, the site before the Board was only lots 35 and 42 and was subject to a private agreement, with 125 Varick Street (and another nearby property) which restricted the building height to 80 feet above the level of the sidewalk of Varick Street (the "Height Limitation Agreement"); and

WHEREAS, the applicant states that subsequent to the Board's 2006 grant, it reached an agreement with its neighbors to eliminate the height agreement and, separately, purchased Lots 44 and 76; and

WHEREAS, the applicant then applied to DOB in 2009 and was approved to construct a hotel at the site as-of-right, but determined that such a proposal was not economically feasible; and

WHEREAS, the current application began with the applicant proposing a 14-story building with a total floor area of 95,760 sq. ft. (10 FAR) including residential 9.19 FAR, with a base that fully occupied the lot and would have risen without setback to the roof over the twelfth floor, at an elevation of 145 feet; it would then have set back 12 feet on Watts Street and 13 feet on Broome Street at that level and would have achieved a partial setback along the Varick Street frontage of 8 feet; the top two floors of the building would have achieved the final building height of 169 feet; the original proposal penetrated the sky exposure plane and encroached on the required setback at 85 feet on all three street frontages; and it included parking on a portion of the first floor (and a curbcut within 50 feet of an intersection, which was non-compliant with ZR § 44-43); and

WHEREAS, the applicant also originally sought in a companion application (BSA Cal. No. 110-12A) pursuant to Multiple Dwelling Law (MDL) § 310(2)(c) to permit certain rooms in dwelling units in the new building to obtain their light and air from windows that do not face upon a legal yard, court or area above a setback on the same zoning lot, contrary to MDL §§ 26(7)(a) and 30(2); and

WHEREAS, during the public hearing process, in response to comments received from the Board indicating that it would not support a new residential building with a total 10 FAR the applicant redesigned the proposed building to reduce its proposed FAR and to reorganize the configuration of the building; as modified, the proposal reflects 13 stories in a total height of 154 feet, with 96 dwelling units ranging in size from 530 sq. ft. to 1,030 sq. ft.; and two retail stores on the ground floor; and

WHEREAS, at the Board's direction, the applicant redesigned the building to comply with MDL requirements and ultimately withdrew the companion MDL application; and

WHEREAS, the new building has a total floor area of 76,608 sq. ft. with a resulting FAR of 8, of which 4,600 sq. ft. will be commercial (0.48 FAR) and 72,008 sq. ft. (7.52 FAR) will be residential; and

WHEREAS, the revised proposal provides a 17-ft. wide outer court along the Watts Street frontage, running north/south a distance of approximately 116 feet; the building rises without setback to the roof over the eleventh floor, at an elevation of 132 feet along both the Varick Street and Broome Street frontages; the building provides setbacks of 15 feet from the street line on each of Watts and Broome Streets and seven feet from the street line along the Varick Street frontage; the new building penetrates the existing sky exposure plane and encroaches on the required setback at 85 feet on all three street frontages; and

WHEREAS, the applicant now seeks relief in the form of a use and several bulk variances pursuant to ZR § 72-21 to permit: (1) residential use in the building, which is contrary to ZR §§ 42-11, 42-12 and 42-13; (2) encroachment on the setback that would ordinarily be required at 85'-0" and penetration of the sky exposure plane, contrary to ZR § 43-43; and (3) a curb cut that is within 50 feet of the corner of the intersection of Broome and Varick Streets, contrary to ZR § 44-582 for the proposed loading berth, rather than for parking; and

WHEREAS, accordingly, the owner now seeks a use variance from the Board, which would permit the construction of the proposed residential building; and

WHEREAS, the applicant states that the following are unique physical conditions which create an unnecessary hardship in developing the site in conformance with applicable regulations: (1) the size and shape of the site and the presence of an alley easement along the eastern lot line; (2) poor soil conditions, a high water table, and the existence of rubble stone foundations on the adjacent property; (3) the presence of the Seventh Avenue subway along the Varick Street frontage; and (4) the testing and potential remediation of a buried gasoline tank; and

WHEREAS, as to the site's size and shape, the applicant states that the dimensions are 171 feet by 55 feet, with an alley easement along the eastern lot line which constrain as of right construction; and

WHEREAS, the applicant states that the presence of the historic alley, entered from Watts Street and wrapped around behind the four remaining three-story buildings fronting on Watts and terminating at a point inside the site, distorts what would otherwise have been a nearly rectangular lot; and

WHEREAS, the applicant states that the alley projects a distance of approximately 7'-6" into the interior of the lot at the rear and that it does not appear from the available records that the alley is owned by any one property owner on the block and, barring litigation to quiet title, must be maintained for the use of all property owners whose land touches the alley; and

WHEREAS, the applicant states that these conditions only allow for a single-loaded corridor (resulting in an inefficient floor plate) and a building aspect ratio in excess of 3 (creating significant engineering difficulties for shear wall design); and

WHEREAS, further, the applicant states that the narrowness of the site and the existence of the notch along the eastern property line, along with the subsurface conditions which the engineers for the project are required to manage (including the adjacency of the subway and rubble wall foundation) and the high building aspect ratio collectively result in significant inefficiencies in the building layout and in significant premium costs for the design and construction of foundations and superstructure; and

WHEREAS, the applicant asserts that it analyzed two options when considering constructing a complying hotel: the first was a standard complying scenario setting back above the sixth story and the second was a tower, as reflected in the conforming and complying scenario plans; in both scenarios, in order to achieve the most efficient possible layout, taking into account the presence of the notch, the elevators for the building were placed along the eastern property line; and

WHEREAS, as to the subsurface conditions, the applicant states that its engineers confronted several hardship conditions: (1) the geotechnical engineer discovered an unstable layer of peat located 17 feet to 21 feet below curb level, which led the structural engineers, to recommend drilled piles to support the structure, in order to reach stable bedrock; and (2) due to the presence of the subway tunnel along Varick Street, standard driven piles would not be viable; accordingly, a system of drilled piles, taken to bedrock at 100 feet, was initially considered but ultimately deemed cost prohibitive; and

WHEREAS, the applicant states that rather than using driven piles, the engineers designed a fully excavated foundation that required removal of the peat layer in its entirety and creation of a new stable substrata with three to four feet of crushed rock, compacted to achieve sufficient bearing capacity; the applicant states that this design necessitated excavation to a depth that was five feet greater than the depth that would have been required to accommodate a standard cellar and the four feet thick concrete mat slab that the engineers designed as the foundation alterative; and

WHEREAS, the applicant asserts that the deep excavation would be complicated by placement of the building's elevators along the eastern property line; the applicant states that the condition of the foundation of at least one of the adjacent properties is poor, because its foundations are not deep and one of the buildings has a rubble stone foundation (64 Watts Street); and

WHEREAS, the applicant asserts that special foundational requirements are necessary to protect the adjacent property on the east from the deep excavation, consisting of a secant wall system, which will act as a retaining wall at the site; and

WHEREAS, the applicant asserts that as excavation proceeds, the secant wall supports will require modification, soil compaction grouting will also be required, and in order to maneuver in the narrow site, portions of the secant wall will have to be removed as the foundation progresses, which increases the time required to pour the foundation, the number of steps in construction of each phase and, consequently, the foundation cost; and

WHEREAS, the applicant asserts that all of these elements impose a cost premium on the construction of the foundation; and

WHEREAS, further, the applicant asserts that the high water table complicates foundation construction as it is above the peat layer and at the level of the mat slab; and

WHEREAS, the applicant asserts that the high water table precludes the use of standard underpinning of the adjacent rubble wall foundation and necessitates the secant

wall system; and that dewatering operations will also be required during excavation and foundation construction, all of which must meet the MTA's specifications; and

WHEREAS, the applicant asserts that the presence of water complicates the construction of the temporary shoring and permanent support for the adjacent building; the finished basement will require permanent drainage and waterproofing to maintain a water free environment for the life of the building, and that these factors add more premium to the cost of foundation construction; and

WHEREAS, the applicant asserts that the building aspect ratio also imposes significant additional costs as a complying building on the site is a taller building, resulting in a building aspect ratio of more than 3.8; and

WHEREAS, the applicant asserts that a building designed to comply with setback requirements would present significant problems for shear and wind loads, adding to both engineering and superstructure costs; the original tower design had two shear walls built into it: one at the elevator core and a second at the eastern wall, along the building's single corridor; and

WHEREAS, the applicant asserts that building a shorter building, in the form proposed, allows a single exterior wall to function as the shear wall for wind loading purposes; and

WHEREAS, further, the applicant asserts that if a building were to conform to required setbacks and the sky exposure plane along Varick Street, the resulting width of the building would produce a floor plate that is 40 feet deep at the point of initial setback, with additional setbacks required at the top of the building to comply with the sky exposure plane; and

WHEREAS, the applicant asserts that simultaneously, the building would be pinched in the middle by the seven-ft. incursion of the notch representing the vestigial remainder of the alley; and

WHEREAS, accordingly, the applicant asserts that the site's conditions mandate that the building have a single-loaded corridor (which is necessary even with the relief requested on this application), resulting in an inefficient floor layout; and

WHEREAS, the applicant asserts that a complying building would have a net useable to gross floor area ratio of 72.19 percent with a loss factor of nearly 28 percent while the proposed building would have a net useable to gross floor area ratio of 83 percent, reducing the loss factor to 17 percent; and

WHEREAS, the applicant asserts that the proposed building reduces premium costs, by reducing the height, the location and size of setbacks, and increasing the size of upper floors for a more efficient floor layout; and

WHEREAS, the applicant performed an analysis of the area in order to evaluate the uniqueness of its site conditions and identified all sites that would be considered soft sites for future development (including potential assemblages) in the study area, as well as sites of recent construction within the past 30 years that are within or at the edge of the 400-ft. radius of the site; and

WHEREAS, the applicant assert that its study reflects that only the subject site was burdened by the combination of factors that give rise to the owner's claim of uniqueness in this case; none of the buildings within the radius and constructed within the past 30 years shared all of these factors; for example, the Trump Soho site, at 246 Spring Street, is outside the historic marshland shown on the Viele Map; the Hampton Hotel at 52 Watts Street is not irregular and has a building aspect ratio of only 2.5; the building at 57 Watts Street is on a large lot with a 25-story tower completed in 1992, that shares the characteristics of the site, except irregularity, but has a building aspect ratio of only 2.23; 80 Varick Street was a building constructed in the 1920's but converted to residential use pursuant to a variance granted in 1978; and 66 Charlton, at the northern edge of the Study Area, shares none of the characteristics with the site; and

WHEREAS, the applicant asserts that, similarly, none of the potential development and assemblage sites in the study area have the same combination of former marshland subsurface adjacencies with the subway on one side and a fragile rubble wall on the other, a high building aspect ratio and an irregular lot; and

WHEREAS, the applicant asserts that with respect to the request for waiver to the regulations prohibiting curb cuts within 50 feet of a corner, the owner has no option to provide an alternative, given the shallow depth from Varick Streeet; and

WHEREAS, the applicant represents that DOB approved the curbcut associated with the as-of-right hotel project, under its authority and that it could seek DOB's authority to do so for the proposed residential building, but has included the waiver request as part of the variance application; and

WHEREAS, finally, the applicant asserts that there is likely but unknown mitigation associated with the underground storage tanks that have never been removed and may have been affected by the high water table; no record exists that these tanks, installed long before either the state or federal government imposed any significant regulation on underground storage tanks, were ever closed or removed when the site was redeveloped (without a basement or cellar) in the early 1960's; and

WHEREAS, the applicant states that the environmental consultant estimates that remediation costs associated with these tanks could run from as low as $50,000 to study and remove (if there have been no leaks) to $1,000,000, if the tanks leaked into the water table and the plume migrated off-site; and

WHEREAS, the Board does not view the foundation conditions on the adjacent site to be a unique condition and it cannot credit the supposition that there is contamination at the site, without any evidence; and

WHEREAS, however, the Board does view the configuration of the site, the subsurface conditions (including high water table), and the presence of the subway as legitimate

unique physical conditions, in the aggregate; and

WHEREAS, based upon its review of the submitted radius diagram and its site and neighborhood inspection, the Board observes that the conditions in the aggregate are relatively unique within the area; and

WHEREAS, based upon the above, the Board finds that the site conditions create unnecessary hardship and practical difficulty in developing the site in conformance with the applicable zoning regulations; and

WHEREAS, the applicant initially submitted a feasibility study analyzing: (1) an as-of-right hotel, (2) a complying residential scenario, and (3) the original proposal for a 10 FAR residential building; and

WHEREAS, the applicant determined that only the original proposal for a 10 FAR residential building would realize a reasonable rate of return; and

WHEREAS, the applicant asserts that although all of its proposed scenarios assumed that the Height Limitation Agreement had been extinguished, none included the actual cost paid to other parties to extinguish the agreement; and

WHEREAS, at hearing, the Board directed the applicant to analyze an 8.0 FAR and 7.52 FAR lesser variance alternative for a residential building; and

WHEREAS, after revising its methodology, at the Board's direction, to consider a comparison of capitalized net operating income to development costs, rather than a return on equity, the feasibility study reflected that the proposed 8.0 FAR alternative would realize a reasonable rate of return, but the 7.52 FAR alternative would not; and

WHEREAS, based upon its review of the subsequent submissions, the Board has determined that because of the site's unique physical conditions, there is no reasonable possibility that development in strict conformance with applicable zoning requirements will provide a reasonable return; and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare; and

WHEREAS, the applicant states that the immediate area surrounding the site contains significant residential use, notwithstanding the manufacturing zoning classification; and

WHEREAS, the applicant specifically cites to lots on the subject block occupied by residential use, as well as residential uses on Blocks 491 and 578, located to the north and west of the site; and

WHEREAS, in support of the above statements, the applicant submitted a land use map, showing the various uses in the immediate vicinity of the site; and

WHEREAS, as to the subject site, itself, the applicant states that two of the lots incorporated in the zoning lot were historically used primarily for residential use, with only ground floor commercial use; and

WHEREAS, the applicant asserts that many of the buildings on Varick Street and in the vicinity of the New Building are substantial in size, including 75 Varick Street, southwest of the New Building, at 20 stories, to Trump Soho at the north end of the study area, with 42 stories; and

WHEREAS, the applicant asserts that the existing built fabric of the neighborhood is dense, consistent with its 10 FAR and printing house history; and

WHEREAS, the applicant asserts that on the subject block, there is an 18-story hotel, completed in 2008, and in the block immediately south of the site is a 23-story commercial building that was constructed between 1989 and 1992; and

WHEREAS, the applicant asserts that the mixed character and dense bulk of the surrounding area are recognized in the proposed Rezoning; and

WHEREAS, the applicant notes that the Rezoning proposes to permit residential use throughout the rezoning area, which will reach from Canal Street to West Houston Street, Avenue of the Americas to the east side of Greenwich Street, and that most of the Rezoning area will be zoned to permit an FAR of 10 for non-residential uses and 9 (bonusable to 12 for inclusionary housing) for residential use; and

WHEREAS, the applicant notes that, under the Rezoning, the anticipated maximum building height will be 320 feet with base heights of between 125 and 150 feet on wide streets and 60 and 125 feet on narrow streets more than 100 feet from a wide street; the required setback distance above the base height would be 10 feet on a wide street and 15 feet on a narrow street; and

WHEREAS, the applicant notes that a subdistrict has been proposed to maintain the smaller buildings in the area, but asserts that the purpose of the subdistrict is to address preserving the existing smaller scale buildings and not limiting the height for vacant sites, like the subject one; and

WHEREAS, the applicant states that it is expected that the Rezoning, which was certified into ULURP in August 2012, is expected to become final before the end of March 2013, and the revised form of the application, without the downzoning subdistrict component, which the Community Board rejected, will be approved; and

WHEREAS, the applicant asserts that the proposal is mostly consistent with the proposed Rezoning regulations, although it is of lesser bulk and does not maintain the street wall along Watts Street due to structural requirements; and

WHEREAS, the applicant asserts that the curb cut is necessary, even without parking at the site, in order to accommodate drop offs and loading and unloading to the site given the heavily-trafficked area, where such required vehicle access would otherwise be infeasible and onstreet drop off would hinder the flow of traffic; and

WHEREAS, the applicant asserts that its proposed construction plan reflects a sensitivity to the conditions on adjacent sites; and

WHEREAS, the Board agrees that the area is best characterized as mixed-use, and that the proposed residential use is compatible with the character of the community and the proposed Rezoning; and

WHEREAS, the Board finds that the proposal, with the

noted setbacks, FAR reduction, and first floor commercial use are compatible with the neighborhood context and result in a use and building form that is consistent with the proposed rezoning; and

WHEREAS, the Board finds that the hardship herein was not created by the owner or a predecessor in title; and

WHEREAS, as noted above, the applicant originally proposed a 14-story, 10 FAR building with 95,760 sq. ft. of floor area and parking on the first floor; and

WHEREAS, the Board expressed its dissatisfaction with this proposal at the first hearing, given that it reflected a degree of relief not consonant with the amount of hardship on the site; and

WHEREAS, as noted above, the Board recognized that the 8 FAR scheme was compatible with the context of the neighborhood; and

WHEREAS, the Board has reviewed the revised feasibility analysis and agrees that the 8.0 FAR scenario represents the degree of relief necessary to overcome the site's inherent hardship; and

WHEREAS, accordingly, the Board finds that this proposal is the minimum necessary to afford the owner relief; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board conducted an environmental review of the proposed action and documented relevant information about the project in the Final Environmental Assessment Statement ("EAS") CEQR No. 12BSA068M, dated January 30, 2013; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, the New York City Landmarks Preservation Commission ("LPC") reviewed the project for potential archaeological impacts and requested that an archaeological documentary study (Phase IA) be submitted for review and approval; and

WHEREAS, based on LPC's review and approval of the Phase IA Report, a Phase IB Archaeological Field Investigation Report was requested; and

WHEREAS, based on LPC's review of the Phase IB Archaeological Field Investigation Report, the proposed project is not anticipated to result in significant archaeological impacts; and

WHEREAS, the New York City Department of Environmental Protection's (DEP) Bureau of Environmental Planning and Analysis reviewed the project for potential hazardous materials, air quality and noise impacts; and

WHEREAS, DEP reviewed and accepted the January 2013 Remedial Action Work Plan and site-specific Construction Health and Safety Plan; and

WHEREAS, DEP requested that a Remedial Closure Report be submitted to DEP for review and approval upon completion of the proposed project; and

WHEREAS, DEP reviewed the applicant's November 2012 stationary source air quality screening analysis and determined that the proposed project is not anticipated to result in significant stationary source air quality impacts; and

WHEREAS, DEP reviewed the results of noise monitoring and determined that a minimum of 35 dBA window-wall noise attenuation and an alternate means of ventilation should be provided in the proposed building's residential units in order to achieve an interior noise level of 45 dBA; and

WHEREAS, DEP determined that, with these noise measures, the proposed project is not anticipated to result in significant noise impacts; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved that the Board of Standards and Appeals issues a Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 and grants a variance to permit, on a site within an M1-6 zoning district, a 13-story residential building, with 96 dwelling units, commercial use on the first floor, and a curb cut within 50 feet of the intersection, which is contrary to ZR § 42-10, 43-43, and 44-582, *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received January 10, 2013" – twelve (12) sheets; and *on further condition*:

THAT the bulk parameters of the proposed building shall be as follows: a total floor area of 76,608 sq. ft., a total FAR of 8 (residential FAR of 7.52 and commercial FAR of 0.48), 13 stories, 154'-0" building height, 96 residential units, and setbacks, all as illustrated on the BSA-approved plans;

THAT all residential units shall comply with all Multiple Dwelling Law requirements as to provision of light and air;

THAT DOB shall not issue a Certificate of Occupancy until the applicant has provided it with DEP's approval of the Remedial Closure Report;

THAT the sound attenuation measures in the proposed building will be maintained as reflected on the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, February 5, 2013.

CEQR #12-BSA-133M
APPLICANT – Goldman Harris LLC, for Roseland/Stempel 21st Street, owner; TriCera Revolution, Inc., lessee.
SUBJECT – Application May 9, 2012 – Special Permit (§73-36) to permit a physical culture establishment (*Flywheel Sports*). C6-4A zoning district.
PREMISES AFFECTED – 39 West 21st Street, north side of West 21st Street, between 5th and 6th Avenues. Block 823, Lot 17. Borough of Manhattan.
COMMUNITY BOARD #5M
ACTION OF THE BOARD – Application granted on condition.
THE VOTE TO GRANT –
Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Hinkson and Commissioner Montanez 4
Negative:.....0
Absent: Commissioner Ottley-Brown.....1
THE RESOLUTION –

WHEREAS, the decision of the Manhattan Borough Commissioner, dated May 8, 2012, acting on Department of Buildings Application No. 104339182, reads in pertinent part:

> Proposed change of use to a physical culture establishment, as defined by ZR 12-10, is contrary to ZR 32-10 and must be referred to the Board of Standards and Appeals for approval pursuant to ZR 73-36; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site located in a C6-4A zoning district within the Ladies' Mile Historic District, the operation of a physical culture establishment (PCE) on a portion of the ground floor of a 15-story residential building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on October 23, 2012, after due notice by publication in *The City Record*, with a continued hearing on December 4, 2012, and then to decision on February 5, 2013; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 5, Manhattan, submitted a letter stating it has no objection to this application; and

WHEREAS, the subject site is located on the north side of West 21st Street between Fifth and Sixth Avenues, in a C6-4A zoning district within the Ladies' Mile Historic District; and

WHEREAS, the site has 99'-4" feet of frontage on West 21st Street, a depth of 197'-9", and a total lot area of 12,117 sq. ft.; and

WHEREAS, the site is occupied by a 15-story residential building; and

WHEREAS, the proposed PCE will occupy 5,820 sq. ft. of floor area on a portion of the ground floor; and

WHEREAS, the PCE will be operated as Flywheel Sports; and

WHEREAS, the applicant represents that the services at the PCE include facilities for instruction and programs for physical improvement; and

WHEREAS, the hours of operation for the proposed PCE will be: Monday through Sunday, from 6:00 a.m. to 9:30 p.m.; and

WHEREAS, the applicant submitted a Certificate of No Effect from the Landmarks Preservation Commission (LPC), dated January 17, 2013, approving the proposed signage and other modifications under its jurisdiction; and

WHEREAS, accordingly, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the Board notes that the PCE has been in operation since February 2010, without a special permit; and

WHEREAS, accordingly, the Board has determined that the term of the grant will be reduced for the period of time equivalent to the period between February 2010 and the date of this grant; and

WHEREAS, the project is classified as a Type I action pursuant to 6 NYCRR Part 617.4; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental

Assessment Statement, CEQR No.12BSA133M, dated May 9, 2012; and

WHEREAS, the EAS documents that the operation of the PCE would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved that the Board of Standards and Appeals issues a Type I Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to permit, on a site located within a C6-4A zoning district and the Ladies' Mile Historic District, the operation of a physical culture establishment on a portion of the ground floor of a 15-story residential building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked "Received January 22, 2013"- Three (3) sheets and *on further condition*:

THAT the term of this grant will expire on February 1, 2020;

THAT there will be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT all massages must be performed by New York State licensed massage therapists;

THAT the hours of operation will be limited to Monday through Sunday, from 6:00 a.m. to 9:30 p.m.;

THAT soundproofing will be installed and maintained as reflected on the BSA-approved plans;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT Local Law 58/87 compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT substantial construction will be completed in accordance with ZR § 73-70;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, February 5, 2013.

275-12-BZ
CEQR #13-BSA-030K
APPLICANT – Law Office of Fredrick A. Becker, for Fayge Hirsch and Abraham Hirsch, owners.
SUBJECT – Application September 6, 2012 – Special Permit (§73-622) for the enlargement of an existing single family residence, contrary to floor area and open space (§23-141), and side yard (§23-461) regulations. R2 zoning district.
PREMISES AFFECTED – 2122 Avenue N, southwest corner of Avenue N and East 22nd Street, Block 7675, Lot 61, Borough of Brooklyn.
COMMUNITY BOARD #14BK
ACTION OF THE BOARD – Application granted on condition.
THE VOTE TO GRANT –
Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Hinkson and Commissioner Montanez 4
Negative:.....0
Absent: Commissioner Ottley-Brown.....1
THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated August 11, 2012, acting on Department of Buildings Application No. 320493131, reads in pertinent part:

1. Creates non-compliance with respect to floor area by exceeding the allowable floor area ratio and is contrary to Section 23-141 of the Zoning Resolution.
2. Creates non-compliance with respect to the open space ratio and is contrary to Section 23-141 of the Zoning Resolution.
3. Creates non-compliance with respect to the side yards by not meeting the minimum requirements of Section 23-461 of the Zoning Resolution; and

WHEREAS, this is an application under ZR §§ 73-622 and 73-03, to permit, in an R2 zoning district, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for floor area ratio ("FAR"), open space ratio, and side yards, contrary to ZR §§ 23-141 and 23-461; and

WHEREAS, a public hearing was held on this application on December 11, 2012, after due notice by publication in *The City Record*, with a continued hearing on January 15, 2013, and then to decision on February 5, 2013; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 14, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the southwest corner of Avenue N and East 22nd Street, within an R2 zoning district; and

WHEREAS, the subject site has a total lot area of 6,000 sq. ft., and is occupied by a single-family home with a floor area of 3,106 sq. ft. (0.52 FAR); and

WHEREAS, the premises is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant seeks an increase in the floor area from 3,106 sq. ft. (0.52 FAR) to 5,129 sq. ft. (0.85 FAR); the maximum permitted floor area is 3,000 sq. ft. (0.50 FAR); and

WHEREAS, the applicant proposes to provide an open space ratio of 65 percent (150 percent is the minimum required); and

WHEREAS, the applicant proposes to provide a side yard with a width of 11'-0" along the southern lot line and a side yard with a width of 5'-0" along the western lot line (two side yards with widths of 20'-0" and 5'-0", respectively, are required); and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood, and will not impair the future use or development of the surrounding area; and

WHEREAS, based upon its review of the record, the Board finds that the proposed enlargement will neither alter the essential character of the surrounding neighborhood, nor impair the future use and development of the surrounding area; and

WHEREAS, the Board finds that the proposed project will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under ZR §§ 73-622 and 73-03.

Therefore it is resolved, that the Board of Standards and Appeals issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR §§ 73-622 and 73-03, to permit, in an R2 zoning district, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for FAR, open space ratio, and side yards, contrary to ZR §§ 23-141 and 23-461; *on condition* that all work shall substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked "Received January 22, 2012"-(11) sheets; and *on further condition*:

THAT the following will be the bulk parameters of the building: a maximum floor area of 5,129 sq. ft. (0.85 FAR); a minimum open space ratio of 65 percent; a side yard along the southern lot line with a minimum width of 11'-0" and a side yard along the western lot line with a minimum width of 5'-0", as illustrated on the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s) only; no approval has been given by the Board as to the use and layout of the cellar;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted;

THAT substantial construction be completed in accordance with ZR § 73-70; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, February 5, 2013.

***CORRECTION**

This resolution adopted on January 8, 2013, under Calendar No. 156-12-BZ and printed in Volume 98, Bulletin Nos. 1-2, is hereby corrected to read as follows:

156-12-BZ
CEQR #12-BSA-137K
APPLICANT – Sheldon Lobel, for Prospect Equities Operating, LLC, owner.
SUBJECT – Application May 17, 2012 – Variance (§72-21) to permit construction of a mixed-use residential building with ground floor commercial use, contrary to minimum inner court dimensions (§23-851). C1-4/R7A zoning district.
PREMISES AFFECTED – 816 Washington Avenue, southwest corner of Washington Avenue and St. John's Place, Block 1176, Lot 90, Borough of Brooklyn.
COMMUNITY BOARD #8BK
ACTION OF THE BOARD – Application granted on condition.
THE VOTE TO GRANT –
Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5
Negative:.....0
THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated April 17, 2012, acting on Department of Buildings Application No. 320373742, reads in pertinent part:

> Proposed inner court for the residential portion of proposed 'mixed building' does not comply with minimum required dimensions; contrary to ZR 23-851; and

WHEREAS, this is an application under ZR § 72-21, to permit, on a site within an C1-4 (R7A) zoning district, a five-story mixed-use commercial/residential building with UG 6 on the ground floor and eight affordable housing units, which does not comply with the requirements for inner courts, contrary to ZR § 23-851; and

WHEREAS, a public hearing was held on this application on November 27, 2012, after due notice by publication in the *City Record*, and then to decision on January 8, 2013; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by Commissioner Montanez; and

WHEREAS, Community Board 8, Brooklyn, recommends approval of this application; and

WHEREAS, Councilmember Letitia James submitted a letter in support of the application; and

WHEREAS, the subject premises is a corner lot bounded by Washington Avenue to the east and St. John's Place to the north, within an C1-4 (R7A) zoning district; and

WHEREAS, the site is irregular in shape with approximately 22'-6" of frontage on Washington Avenue and 87'-10" of frontage on St. John's Place, with a total lot area of 3,972 sq. ft.; and

WHEREAS, the site is currently vacant, as a fire in June 2011 destroyed the mixed-use four-story building previously on the site; and

WHEREAS, the applicant proposes to construct a five-story and cellar mixed-use building, with Use Group 6 commercial use on the first floor and Use Group 2 affordable housing units on the second through fifth floors; and

WHEREAS, the proposed building will measure approximately 15,700 sq. ft. in floor area, with an FAR of 3.95 (the zoning district permits 15,888 sq. ft. and a maximum allowable FAR of 4.0), and will contain a total of eight residential units; and

WHEREAS, however, ZR § 23-851 requires a minimum inner court dimension of 30 feet and a minimum area of 1,200 sq. ft.; and

WHEREAS, the applicant proposes an inner court with dimensions of 23'-10" by 19'-5½" and 730 sq. ft. of area, a reduction of 7'-0" and approximately 10'-0" in dimensions, and 472 sq. ft. of area; and

WHEREAS, the applicant asserts that the irregular shape of the lot and the history of the site contribute to the unique physical condition, which creates an unnecessary hardship in developing the site in compliance with applicable regulations; and

WHEREAS, the applicant states that the site has an irregular trapezoid shape, with a depth ranging from 22'-6" along Washington Avenue to 63'-3" at the rear of the site; and

WHEREAS, the applicant's land use map reflects that due to the angle at which Washington Avenue intersects St. John's Place and other parallel streets within the 400-ft. radius, there are approximately seven sites within the area that are of similar shape and size, but only the subject site is vacant; and

WHEREAS, as to the history of the site, in June 2008, the applicant purchased the mixed-use four-story building on the site in foreclosure as part of the Department of Housing Preservation and Development's (HPD) Third Party Transfer Program; and

WHEREAS, the applicant states that the program requires developers to temporarily relocate existing tenants while the building is being rehabilitated and reinstall the tenants in units of the same size once the restoration of the building is complete; and

WHEREAS, further, the applicant states that the owner entered into a regulatory agreement with the City of New York which requires compliance with certain restrictions for a 30-year period, including mandated residential rent levels and minimum household sizes; and

WHEREAS, the applicant submitted a letter from HPD reflecting that it supports the proposal and has given the applicant a low-interest rate loan through the Third Party Transfer Program, which dictates unit sizes and number of dwelling units for each proposed project; and

WHEREAS, the applicant states that the former building was occupied by three four-bedroom units with floor areas of 1,223 sq. ft. each and three three-bedroom units with floor

area of 1,007 sq. ft. each; and

WHEREAS, the proposed building will have four four-bedroom units with floor area of 1,286 sq. ft. each and four three-bedroom units with floor area of 1,040 sq. ft. each; and

WHEREAS, the applicant's analysis reflects that the complying building can accommodate units with 998 sq. ft. and 1,185 sq. ft., which can accommodate two and three bedrooms, respectively, rather than three and four bedrooms in the former building; and

WHEREAS, accordingly, the applicant states that a fully complying building would only accommodate smaller units with fewer bedrooms or fewer units and would not satisfy the requirement to replace the former units; and

WHEREAS, the applicant notes that a complying building may be able to accommodate more units, but they would not be able to replace the existing ones without creating duplexes which are impractical and inefficient for such a small building due to the introduction of individual circulation space; and

WHEREAS, the applicant states that to reflect the conditions of the prior building on the site, to be re-occupied by former tenants, the proposal includes four three-bedroom units and four four-bedroom units, similar in size to the prior units; and

WHEREAS, the applicant represents that due to the irregular shape of the lot and the court requirements, no complying building can be accommodated that would meet both inner court and HPD requirements regarding restoration of former tenants to dwelling units with identical room counts; and

WHEREAS, further, the applicant provided an analysis of a similar sized lot that is regular and rectangular in shape that showed that a conforming building accommodates and satisfies all HPD requirements regarding restoration of former tenants to dwelling units with former sizes and room counts; and

WHEREAS, the applicant states that the analysis confirms that the irregular shape of the site, which is a unique condition, creates a hardship for a conforming proposal to comply with zoning regulations and meet the programmatic needs established by HPD; and

WHEREAS, the applicant represents that the proposed inner court dimensions are the minimum needed to create units that meet HPD requirements; and

WHEREAS, the Board notes that the floor plate is dictated by the prior conditions and irregular lot and, thus there is little flexibility in satisfying the required quantity and size of units, but that because additional floor area was available, it allowed for another floor in the same footprint as the required floors; and

WHEREAS, further, the Board notes that it is not feasible to create duplex units to replace existing single floor units in such a small building; and

WHEREAS, the Board agrees that the unique shape, and history of the building on the site, with related HPD requirements, creates practical difficulties and unnecessary hardship in developing the site in compliance with the applicable zoning regulations; and

WHEREAS, the applicant submitted a feasibility study analyzing (1) an as-of-right scenario with mixed-use and a complying inner court; (2) an as-of-right scenario with mixed-use and a side yard with a width of eight feet; (3) an as-of-right scenario with an outer court; and (4) the proposed scenario; and

WHEREAS, the study concluded that the only scenario which would result in a reasonable return is the proposed; and

WHEREAS, based upon its review of the applicant's submissions, the Board has determined that because of the subject lot's unique physical conditions and history, there is no reasonable possibility that development in strict compliance with applicable zoning requirements will provide a reasonable return; and

WHEREAS, the applicant represents that the proposed variance will not negatively affect the character of the neighborhood, nor impact adjacent uses; and

WHEREAS, the applicant states that the court is not required on the ground floor, which will be occupied by commercial use, thus, the waiver only applies to floors two through five; and

WHEREAS, the applicant states that on both the Washington Avenue and St. John's Place sides of the building, a fully complying court would result in the building abutting the adjacent buildings for a greater depth than they do in the proposed scenario; and

WHEREAS, the applicant notes that the new building will replace the former building, which was constructed in approximately 1920 and did not provide a complying inner court, or required egress or fire safety measures; and

WHEREAS, accordingly, the applicant asserts that the proposed building will comply with all egress and fire safety requirements and will therefore provide increased safety to residents of the building as well as adjacent buildings; and

WHEREAS, the applicant represents that the impacts of the proposed waiver of inner court regulations on adjacent properties will be negligible when compared to available as-of-right scenarios; and

WHEREAS, based upon the above, the Board finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the applicant represents that the hardship was not created by the owner or a predecessor in title, but that the irregular shape of the lot is a historic condition; and

WHEREAS, based on the above, the Board agrees that the hardship herein was not created by the owner or a predecessor in title; and

WHEREAS, the applicant states that the proposal complies with all bulk regulations except inner court dimensions and that it is the minimum variance needed to allow for a reasonable and productive use of the site; and

WHEREAS, thus, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as an Unlisted action pursuant to Section 617 of 6NYCRR; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 12BSA137K, dated May 17, 2012; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21, to permit, on a site within an C1-4 (R7A) zoning district, a five-story mixed-use commercial/residential building with UG 6 on the ground floor and eight affordable housing units, which does not comply with the requirements for inner courts, contrary to ZR § 23-851; *on condition* that any and all work will substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received January 3, 2013"– eleven (11) sheets; and *on further condition*:

THAT the parameters of the building will be: five stories, a total height of 52'-1/2" without bulkhead, a total floor area of 15,700 sq. ft. (3.95 FAR), an inner court with the minimum dimensions of 23'-10" by 19'-5½", and a lot coverage of 79 percent, as illustrated on the Board-approved plans;

THAT the internal floor layouts on each floor of the proposed building will be as reviewed and approved by DOB;

THAT this approval is limited to the relief granted by the Board, in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted;

THAT substantial construction will proceed in accordance with ZR § 72-23; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, January 8, 2013.

***The resolution has been amended. Corrected in Bulletin No. 6, Vol. 98, dated February 13, 2013.**

SUBJECT – Application December 17, 2012 – Special Permit (§73-19) to permit a Use Group 3 school to occupy an existing building contrary to §42-00 of the zoning resolution. M1-2 zoning district.
PREMISES AFFECTED – 403 Concord Avenue, southwest corner of the intersection formed by Concord Avenue and East 144th Street, Block 2573, Lot 87, Borough of Bronx.
COMMUNITY BOARD #1BX

Jeff Mulligan, Executive Director

MINUTES

REGULAR MEETING
TUESDAY MORNING, FEBRUARY 12, 2013
10:00 A.M.

Present: Chair Srinivasan, Vice-Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez.

SPECIAL ORDER CALENDAR

173-99-BZ
APPLICANT – Gerald J. Caliendo, R.A., AIA, for LaGuardia Center, owner; LaGuardia Fitness Center LLC, Matrix Fitness Club, lessee.
SUBJECT – Application July 9, 2012 – Extension of Term of a previously granted Special Permit (§73-36) for the continued operation of a Physical Culture Establishment (*Matrix Fitness Club*) which expired on March 6, 2011; Amendment for an increase in floor area at the cellar level; waiver of the Rules. M-1 zoning district.
PREMISES AFFECTED – 43-60 Ditmars Boulevard, southeast side of Ditmars Boulevard on the corner formed by Ditmars Boulevard and 43rd Avenue, Block 782, Lot 1, Borough of Queens.
COMMUNITY BOARD #1Q
ACTION OF THE BOARD – Application granted on condition.
THE VOTE TO GRANT –
Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5
Negative:.....0
THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure, a reopening, an extension of term of a previously granted special permit for a physical culture establishment (PCE), which expired on March 6, 2011, and an amendment to expand the PCE use at the cellar level; and

WHEREAS, a public hearing was held on this application on September 25, 2012, after due notice by publication in *The City Record*, with continued hearings on October 23, 2012, November 20, 2012 and January 15, 2013, and then to decision on February 12, 2013; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 1, Queens, recommends approval of this application; and

WHEREAS, the site is located on the southeast corner of Ditmars Boulevard and 43rd Street, within an M1-1 zoning district; and

WHEREAS, the zoning lot has a total area of approximately 110,000 sq. ft. and is occupied by a shopping mall; and

WHEREAS, the PCE occupies approximately 17,960 sq. ft. of floor space located in the cellar of a portion of the 60,666 sq. ft. commercial building on the site; and

WHEREAS, the Board has exercised jurisdiction over the subject site since March 6, 2001 when, under the subject calendar number, the Board granted a special permit for the establishment of a PCE in the subject building for a term of ten years, to expire on March 6, 2011; and

WHEREAS, the applicant now seeks to extend the term of the special permit for an additional ten years; and

WHEREAS, the applicant also requests an amendment to permit a 2,635.72 sq. ft. expansion of the PCE at the cellar level, from a total of 17,960 sq. ft. of floor space to a total of 20,595.72 sq. ft. of floor space; and

WHEREAS, at hearing, the Board raised concerns about the impact of the proposed expansion of the PCE on the parking spaces at the cellar level of the subject building; and

WHEREAS, in response, the applicant states that while the certificate of occupancy and approved plans indicate that there is accessory parking for 150 spaces on the site (84 spaces on the first floor and 66 spaces at the cellar level), the applicant states that the parking layout was never constructed pursuant to the proposed plans and the actual existing parking layout consists of a total of 136 parking spaces (84 spaces on the first floor and 52 spaces at the cellar level); and

WHEREAS, the applicant further states that the proposed expansion of the PCE floor space at the cellar will not affect the existing parking layout or the existing number of parking spaces; and

WHEREAS, additionally, the applicant represents that the parking provided at the site is not required parking, and therefore complies with the Zoning Resolution, because the original manufacturing building at the site was constructed prior to 1961, and pursuant to ZR § 44-21 there is no parking required for conversions that do not increase the floor area of the building; and

WHEREAS, based upon its review of the record, the Board finds the requested extension of term and amendment are appropriate with certain conditions as set forth below.

Therefore it is Resolved that the Board of Standards and Appeals *waives* the Rules of Practice and Procedure, *reopens* and *amends* the resolution, as adopted on March 6, 2001, so that as amended this portion of the resolution shall read: "to extend the term for a period of ten years from March 6, 2011, to expire on March 6, 2021, and to permit the noted modifications to the site; *on condition* that all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked 'Received July 9, 2012'-(3) sheets and 'January 7, 2013'-(1) sheet; and *on further condition*:

THAT the term of this grant will expire on March 6, 2021;

THAT there will be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT the above conditions will appear on the

certificate of occupancy;

THAT a new certificate of occupancy will be obtained by February 12, 2014;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted."

(DOB Application No. 400913302)

Adopted by the Board of Standards and Appeals, February 12, 2013.

189-03-BZ

APPLICANT – Eric Palatnik, P.C., for 830 East 233rd Street Corp., owner.

SUBJECT – Application November 21, 2011 – Extension of Term of a previously granted special permit (§73-211) for the continued operation of an automotive service station (*Shell*) with an accessory convenience store (UG 16B) which expires on October 21, 2013; Extension of Time to obtain a Certificate of Occupancy which expired on October 21, 2008; Waiver of the Rules. C2-2/R-5 zoning district.

PREMISES AFFECTED – 836 East 233rd Street, southeast corner of East 233rd Street and Bussing Avenue, Block 4857, Lot 44, 41, Borough of Bronx.

COMMUNITY BOARD #12BX

ACTION OF THE BOARD – Laid over to March 12, 2013, at 10 A.M., for deferred decision.

551-37-BZ

APPLICANT – Eric Palatnik, P.C., for Manocher M. Mehrfar, owner.

SUBJECT – Application October 12, 2012 – Extension of Term (§11-411) of approved variance for the continued operation of an automobile repair shop (*Red's Auto Repair*) which expired on July 15, 2012; Waiver of the Rules. R1-2 zoning district.

PREMISES AFFECTED – 233-02 Northern Boulevard, between 234th and 233rd Street, Block 8166, Lot 20, Borough of Queens.

COMMUNITY BOARD #11Q

ACTION OF THE BOARD – Laid over to March 19, 2013, at 10 A.M., for continued hearing.

68-91-BZ

APPLICANT – Sheldon Lobel, P.C., for Cumberland Farms, Inc., owner.

SUBJECT – Application August 24, 2012 – Extension of Term (§11-411) of an approved variance which permitted the operation of an automotive service station (UG 16B) with accessory uses, which expired on May 19, 2012; Amendment §11-412) to permit the legalization of certain minor interior partition changes and a request to permit automotive repair services on Sundays; Waiver of the Rules. R5D/C1-2 & R2A zoning district.

PREMISES AFFECTED – 223-15 Union Turnpike, northwest corner of Springfield Boulevard and Union Turnpike, Block 7780, Lot 1, Borough of Queens.

APPEALS CALENDAR

145-12-A
APPLICANT – Law Offices of Marvin Mitzner LLC, for 339 W 29th LLC, owners.
SUBJECT – Application May 3, 2012 – Appeal challenging the determination of the Department of Buildings requiring the owner to obtain approval from the Landmarks Preservation Commission, prior to reinstatement and amendments of the permits. R8B zoning district.
PREMISES A.FFECTED – 339 West 29th Street, north side of West 29th Street between Eighth and Ninth Avenues, Block 753, Lot 16, Borough of Manhattan.
COMMUNITY BOARD #4M
ACTION OF THE BOARD – Appeal Denied.
THE VOTE TO GRANT –
Affirmative: 0
Negative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5
THE RESOLUTION –

WHEREAS, this appeal comes before the Board in response to a determination, dated April 3, 2012, signed by the Borough Commissioner of the Department of Buildings (DOB) with respect to DOB Application No. 103907337 (the "Final Determination"); and

WHEREAS, the Final Determination states, in pertinent part:

> Because the permit has already been revoked pursuant to the letter dated December 22, 2010, any reinstatement and amendment must comply with all current laws, including the requirement to obtain Landmarks Preservation Commission approval; and

WHEREAS, a public hearing was held on this appeal on September 25, 2012, after due notice by publication in *The City Record*, with a continued hearing on November 20, 2012, and then to decision on February 12, 2013; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, State Assembly Member Richard Gottfried, State Senator Tom Duane, New York City Council Speaker Christine Quinn, and Manhattan Borough President Scott Stringer provided testimony or made submissions in opposition to the appeal asserting that the permit was invalid, and that the construction was performed illegally and in bad faith; specifically, the officials assert that the permits were obtained, in part, based on inaccurate self-certified plans and that they were properly revoked and work continued despite violations and stop-work orders prior to Landmarks Preservation Commission (LPC) historic district designation; and

WHEREAS, the Historic Districts Council, the Society for Architecture of the City, the West 29th Street Block Association, several historians, and other community members provided written and oral testimony in opposition to the appeal, citing primary concerns about the historic significance of the building; and

WHEREAS, Friends of the Hopper-Gibbons Underground Railroad and Lamartine Place Historic District provided written and oral testimony raising primary concerns that: (1) the building is subject to the jurisdiction of the LPC because the 2005 permit is not valid; (2) the permit cannot be cured; and (3) the Appellant does not have any vested rights to continue construction because it has misrepresented the amount of work performed; and

WHEREAS, DOB and the Appellant have been represented by counsel throughout this appeal; and

WHEREAS, the Appellant filed a companion Multiple Dwelling Law (MDL) waiver application under BSA Cal. No. 144-12-A, which is scheduled for decision April 23, 2013, pending LPC approval; and

WHEREAS, the site is located on the north side of West 29th Street, between Eighth Avenue and Ninth Avenue, within an R8B zoning district within the Lamartine Place Historic District; and

WHEREAS, the site has been occupied by a four-story and basement converted dwelling with ten units (two per floor); and

WHEREAS, the Appellant's proposal reflects the enlargement of the building to include extensions at the third and fourth floors, and a new fifth floor; an earlier iteration of the plans reflected a partial sixth floor (penthouse), which is no longer proposed; and

WHEREAS, the construction has been partially completed; and

WHEREAS, the enlargement required several waivers of MDL regulations; and

Procedural History

WHEREAS, in June 2004, the Appellant filed plans at DOB to vertically and horizontally enlarge the building – to horizontally enlarge the third and fourth floors and to construct a fifth floor and partial sixth floor; and

WHEREAS, on March 25, 2005, DOB issued a permit pursuant to the Professional Certification process; and

WHEREAS, the Appellant asserts that the alterations have not been completed but that the structural work for the horizontal and vertical enlargements was largely completed by 2006; the Appellant states that no structural work has been performed since 2009; and

WHEREAS, on May 29, 2007, DOB granted approval for plans that reflect MDL measures and include the partial sixth floor (which was later subject to an objection for failure to comply with the "Sliver Law" at ZR § 23-692); and

WHEREAS, on October 21, 2008, DOB issued a letter of intent to revoke because several outstanding objections had not been resolved; and

WHEREAS, on November 25, 2008, the Board decided companion appeals, pursuant to BSA Cal. Nos. 81-08-A and 82-08-A, which concluded that the Board, not DOB, has jurisdiction to waive requirements of the MDL (the "MDL Appeal"); and

WHEREAS, on March 11, 2009, DOB approved plans

for an enlargement with a fifth floor, but without the partial sixth floor; this proposal also requires MDL waivers; and

WHEREAS, on March 13, 2009, DOB issued a bulletin related to MDL issues, in light of the MDL Appeal; and

WHEREAS, on May 27, 2009, DOB issued a letter of intent to revoke based on MDL non-compliance; and

WHEREAS, on July 23, 2009, DOB revoked the permit based on MDL non-compliance; and

WHEREAS, on October 13, 2009, the LPC designated the site and the area surrounding the site as the Lamartine Place Historic District; and

WHEREAS, on March 24, 2010, DOB approved revised plans, which address the MDL issues, but did not issue the permit; and

WHEREAS, on April 6, 2010, DOB rescinded its permit revocation; DOB later stated the rescission of the revocation was erroneous as the basis for the rescission was an application for a post approval amendment to remove the fifth floor and partial sixth floor, which was never issued and does not reflect the current proposal; and

WHEREAS, on December 22, 2010, DOB revoked the permit based on MDL non-compliance; and

WHEREAS, on May 30, 2011, DOB audited the permit and issued objections including those related to MDL non-compliance, the requirement for obtaining LPC approval, and Sliver Law non-compliance; and

WHEREAS, on April 3, 2012, DOB reissued the May 2011 objections which form the basis of the appeal; and

WHEREAS, additionally, throughout the DOB review process, DOB issued a series of violations including those related to construction safety, construction contrary to plan, and work without a permit; and

The Landmarks Law

> Administrative Code § 25-305(b)(1) Landmarks Preservation and Historic Districts - Regulation of construction, reconstruction, alterations and demolition
>
> Except in the case of any improvement mentioned in subdivision a of section 25-318 of this chapter and except in the case of a city-aided project, no application shall be approved and no permit or amended permit for the construction, reconstruction, alteration or demolition of any improvement located or to be located on a landmark site or in an historic district or containing an interior landmark shall be issued by the department of buildings . . . until the commission shall have issued either a certificate of no effect on protected architectural features, a certificate of appropriateness or a notice to proceed pursuant to the provisions of this chapter as an authorization for such work; and

The Appellant's Position

WHEREAS, the Appellant appeals DOB's decision that the permit was improperly revoked because LPC approval is not required and requests that the Board direct reinstatement of the 2005 permit, last renewed on April 30, 2009, based upon plans approved on March 11, 2009, which allowed for the enlargement of the building; and

WHEREAS, the Appellant's primary arguments are that (1) because the permit was issued prior to LPC's designation of the Lamartine Place Historic District, the proposal is not subject to LPC approval; (2) DOB improperly revoked the permit in 2009 and in 2010; (3) the absence of MDL waivers is a curable error that does not impair the permit's validity; (4) DOB and, in the alternate, the Board can reinstate the permit not subject to LPC approval; and (5) the amount of construction performed and expenditures satisfies the criteria for common law vested rights and allows for the continuation of construction; and

- LPC Approval is Not Required and DOB Improperly Revoked the Permit

WHEREAS, the Appellant asserts that LPC approval is not required because the permit was issued in 2005, before the LPC designation; and

WHEREAS, the Appellant asserts that the Landmarks Law is clear and that the issuance of a permit prior to landmark designation is the only requirement for exempting a site, that is later designated by LPC, from LPC review; and

WHEREAS, the Appellant asserts that the undisputed fact that its permit was first issued in 2005, prior to the October 13, 2009 date that the designation of the Lamartine Place Historic District was finalized, is controlling and satisfies the Landmarks Law exemption; and

WHEREAS, the Appellant asserts that LPC did not designate the historic district until October 13, 2009, four and one-half years after the issuance of the permit; and

WHEREAS, the Appellant asserts that, per the Administrative Code (AC), even if the permit had been issued one day prior to LPC designation, that would be sufficient to exempt the project from LPC jurisdiction; and

WHEREAS, the Appellant asserts that permit issuance prior to LPC designation alone establishes the right to continue construction without LPC review, and the amount of work performed is irrelevant; and

WHEREAS, further, the Appellant asserts that DOB improperly revoked the permit on July 23, 2009 for failure to obtain MDL approval and on December 22, 2010 for failure to obtain LPC approval in accordance with AC § 25-305(b)(1) because (1) it had other remedies than revocation and (2) the permit was issued in 2005, before the LPC designation; and

WHEREAS, the Appellant asserts that the permit revocation was an abuse of discretion and DOB could have issued a Stop Work Order rather than a revocation; and

- Permit Validity and Reinstatement

WHEREAS, the Appellant asserts that the permit was valid as it can be corrected consistent with prior examples of permits being corrected; and

WHEREAS, the Appellant contends that DOB has been inconsistent with regard to its position on what is a correctable error in the context of permit validity and that DOB, within the scope of its powers and consistent with its prior positions, may deem the permit cured by the Board's

grant of waivers under MDL § 310, and allow for its reinstatement; and

WHEREAS, the Appellant asserts that the failure to obtain MDL waivers from the Board prior to permit issuance is a correctable error and that permit issuance prior to designation establishes the right to continue without LPC review, even if no work is performed pursuant to the permit; and

WHEREAS, the Appellant asserts that DOB took a different position about permit validity and correctable errors in BSA Cal. No. 125-11-A ("East 6th Street"), a common law vesting case for a site that had been the subject of an earlier MDL waiver case (under BSA Cal. No. 217-09-A); and

WHEREAS, specifically, the Appellant cites to a DOB letter associated with East 6th Street in which DOB said that "such reinstatement would not present a correctable error issue for DOB as long as the Board also granted the applicant vested rights under the old R7-2 zoning"; and

WHEREAS, the Appellant asserts that DOB's analysis in East 6th Street is applicable here in that if the Board were to approve the companion MDL § 310 application, the error of the permit would be correctable; and

WHEREAS, the Appellant asserts that the intervening rezoning at issue in East 6th Street is analogous to the intervening LPC designation here in that both are changes in law that can be resolved subsequent to a retroactive MDL approval; and

WHEREAS, the Appellant asserts that the infirmity caused by DOB's prior policy of granting MDL waivers is correctable by application to the Board pursuant to MDL § 310, which the Appellant is pursuing by companion application (BSA Cal. No. 144-12-A); and

WHEREAS, the Appellant cites to the Board's decision in East 6th Street for the point that it was "within DOB's and the Board's authority to determine that the corrected permit is valid;" and

WHEREAS, the Appellant also cites to the Board's decisions in two vested rights cases, which went on to litigation – BSA Cal. No. 85-06-BZY/Menachem Realty v. Srinivasan, Index No. 9054/07 (2d Dept. 2009) and BSA Cal. No. 17-05-A/GRA V v. Srinivasan, 12 N.Y.3d 863 (2009); and

WHEREAS, the Appellant asserts that in Menachem, the court reversed the Board's decision, which had supported DOB's determination that certain permit errors were not correctable and in GRA, the Board accepted DOB's position that plans can be amended to correct zoning defects after zoning changes; and

WHEREAS, the Appellant asserts that DOB may reinstate the revoked permit and that, in the alternate, the Board may reinstate the permit *nunc pro tunc*, without requiring LPC approval; and

WHEREAS, the Appellant asserts that DOB's position that reinstatement of the permit, after a successful MDL waiver application before the Board still triggers LPC review is erroneous; and

WHEREAS, the Appellant states that DOB's position is not supported by the AC, is contrary to fundamental fairness, and inconsistent with the litigation associated with 515 East 5th Street v. Board of Standards and Appeals, Index No. 117203/08; and

WHEREAS, the Appellant asserts that the Board's position is that if an MDL application is granted, the original permit is "reinstated" and a new permit is neither requested nor necessary; and

WHEREAS, specifically, the Appellant cites to the City's answer in East 5th Street, which stated that:

> Pursuant to MDL § 310 Petitioners [site owners] may appeal this determination [to issue objections relating to the MDL] to the BSA and seek a hardship waiver from the BSA that would allow them to use the fire safety mechanisms they have installed or plan to install. If the BSA grants the hardship waivers, Petitioners' permits may be reinstated, their construction will be deemed lawful, and the instant proceeding will be deemed moot; and

WHEREAS, the Appellant concludes that once the MDL waivers are granted, the permit will become valid and DOB and the Board can both reinstate without the requirement for LPC review; and

WHEREAS, further, the Appellant asserts that Charter § 666(7) gives the Board authority to modify the application "of the strict letter of the law, so that the spirit of the law shall be observed" and to do "substantial justice" and, thus, the Board can direct the reinstatement; and

- A Common Law Vested Right to Continue Construction

WHEREAS, the Appellant asserts that the permit should be reinstated under the theory of substantial justice and the common law doctrine of vested rights; and

WHEREAS, the Appellant cites to the criteria set forth in New York State case law that the Board has followed in common law vested rights cases: (1) substantial construction has been completed; (2) substantial expenditures have been made; and (3) serious loss to the owner would result under the new requirements; and

WHEREAS, the Appellant submitted an analysis and evidence in support of its claim that the amount of construction it completed satisfies the three elements of the common law vested rights analysis including a description of the amount of work performed, expenditures, and the loss that would be incurred to remove the enlargement to the building; and

WHEREAS, finally, the Appellant asserts that the vested rights doctrine applies to sites subject to landmark designation, and cites to the Court of Appeals for the 9th Circuit's decision in R.C. Hedreen Co. v. the City of Seattle, 74 F.3d 1246 (1996) for the point that the vested rights doctrine applies in the landmark designation context; and

The Department of Buildings' Position

WHEREAS, DOB asserts that (1) reinstatement of the permit is subject to LPC approval because the permit, issued

prior to LPC designation, was invalid; (2) it appropriately exercised its authority by revoking the permit; and (3) it does not have the authority to reinstate the permit without LPC approval; and

- The Requirement for LPC Approval

WHEREAS, DOB finds that because the permit was invalid, LPC approval is required; and

WHEREAS, DOB asserts that it has not been inconsistent or arbitrary and capricious as to what constitutes a correctable error; and

WHEREAS, as to the Appellant's assertion that DOB's actions are inconsistent with the prior decision in East 6th Street, DOB notes that as in the subject case, it issued a vertical extension permit for East 6th Street despite MDL violations; and

WHEREAS, DOB states that shortly before the Board directed the revocation of the East 6th Street permit for MDL noncompliance, a rezoning occurred that further prohibited the enlargements that were the subject of the revoked permits; and

WHEREAS, DOB notes that the Appellant for East 6th Street then successfully obtained an MDL waiver under MDL § 310 from the Board, which allowed part of the extension to be built (BSA Cal. No. 217-09-A) and then sought relief again (BSA Cal. No. 125-11-A) to secure the common law vested right to complete construction under the revoked permit (as amended by BSA's decision in BSA Cal. No. 217-09-A) under the old zoning regulations; and

WHEREAS, DOB states that during the proceedings of the East 6th Street common law vested rights application, it informed the Board that:

> if this Board directs DOB to reinstate permit 104744877 with the plans and MDL waiver previously approved in BSA Cal. No. # 217-09-A, such reinstatement would not present a correctable error issue for DOB as long as this Board also granted the applicant vested rights under the old R7-2 zoning
> (DOB January 10, 2012 submission in Cal. No. 125-11-A)(emphasis added); and

WHEREAS, DOB asserts that the quoted language is consistent with DOB's position in the subject case and that without a ruling in BSA Cal. No. 125-11-A granting vested rights to continue construction under old zoning, the Appellant in that case was in a position analogous to Appellant in this case (i.e., having a permit revoked for MDL errors with a subsequent change in law); and

WHEREAS, DOB states that in both cases, the MDL error would not be deemed correctable, and new construction would have to comply with current law (i.e., new zoning in 125-11-A and LPC designation in the instant case); however, as per the above BSA Cal. No. 125-11-A quote, if the Board granted vested rights under old zoning (which it ultimately did), then the Appellant was restored to a position before the change in law, thus making the MDL error correctable; DOB made an analogous statement in its September 11, 2012 submission in this case, saying:

> If, however, the Board finds good faith reliance and reverses [rather than simply reinstating] the permit revocation, then LPC approval would be necessary only to the extent that a new Post Approval Amendment ("PAA") needs to be filed to address deviations from the last approved PAA prior to LPC designation; and

WHEREAS, accordingly, DOB concludes that it has not been inconsistent regarding its policies of correctable and non-correctable errors in the above-referenced cases; and

WHEREAS, DOB states that if the Board finds good faith reliance and reverses the permit revocation, then LPC approval would be necessary only to the extent that a new PAA needs to be filed to address deviations from the last approved PAA prior to LPC designation; and

WHEREAS, therefore, in determining whether to grant the MDL waiver and to rescind the permit revocation, DOB respectfully requests that the Board review the plans submitted in connection with the PAA issued on or about March 11, 2009, the last approved PAA prior to LPC designation as any deviations from these previously approved plans will require a new PAA and the requisite LPC approval prior to DOB's renewal of the permit; and

- DOB Properly Revoked the Approval at Issue

WHEREAS, DOB asserts that it properly revoked the approval because it was, undisputedly, not in compliance with the MDL; and

WHEREAS, DOB states that there was ample notice to the Appellant of the MDL deficiency before the revocation took place; and

WHEREAS, specifically, DOB asserts that the Appellant was on notice that DOB improperly waived the MDL as a necessary precondition to the approval as of November 25, 2008, when the Board decided the MDL Appeal, finding that DOB did not have the authority to so waive the MDL; and

WHEREAS, DOB notes that more than six months after the Board's decisions on appeal, the Appellant had not addressed the MDL violations, and, thus, DOB issued objections and an intent to revoke letter dated May 27, 2009 (the "May Intent Letter") and the Appellant had still failed to remedy the MDL objections for an additional two months when DOB finally revoked the approval and permit on July 23, 2009 (the "July Revocation"); and

WHEREAS, DOB states that even after the revocation, the Appellant could have obtained the MDL waiver and reinstated the permit without being affected by any change in law, as the district in which the premises is located was not designated by LPC until October 13, 2009; and

WHEREAS, DOB states that, however, the Appellant did not even get plans approved to remedy the MDL issues until about March 24, 2010 (and the PAA based on these plans was never issued), 16 months after the MDL Appeal was decided, and approximately ten months after the notice of intent to revoke; and

WHEREAS, DOB asserts its position that it has the

authority to revoke approval of construction documents that it issued in error; and

WHEREAS, DOB cites to AC § 28-104.2.10, which provides, in relevant part:

> Revocation of approval. The commissioner may, on notice to the applicant, revoke the approval of construction documents for failure to comply with the provisions of this code *or other applicable laws or rules …; or whenever an approval has been issued in error and conditions are such that approval should not have been issued.* Such notice shall inform the applicant of the reasons for the proposed revocation and that the applicant has the right to present to the commissioner or his or her representative within 10 business days of personal service or 15 calendar days of the posting of service by mail, information as to why the approval should not be revoked. (emphasis added); and

WHEREAS, DOB also states that it is undisputed that it issued the approval in error and that significantly more notice was provided to Appellant between the May Intent Letter and the July Revocation than was required by Code; and

WHEREAS, DOB states that it is under no obligation to refrain from revoking the Approval for more than 15 days after the notification required by Code and that because it waited approximately two months after this notification (and about eight months after the MDL Appeal) to revoke the Approval, DOB's revocation in this case was clearly proper; and

- Buildings May not Reinstate the Revoked Permit

WHEREAS, DOB asserts that because: (1) it properly revoked the approval because of MDL violations; and (2) the building was subsequently designated to be within a historic district subject to LPC's jurisdiction, it may not properly reinstate the approval and permit (either on equitable grounds or otherwise) without LPC approval; and

WHEREAS, DOB asserts that as of October 13, 2009, LPC designated the historic district, and thus, any new permit, or change from an existing permit, would require LPC approval (see AC § 25-305(b)(1)); and

WHEREAS, DOB states that it cannot "reinstate" the permit in the sense of the term used in AC § 28-105.9 as such reinstatement triggers compliance with all laws at the time application for reinstatement is made; and

WHEREAS, DOB asserts that, with respect to the job at the subject premises, this means that the Appellant would need to obtain LPC approval for all construction, including the extension on the third and fourth floors and the addition of the fifth floor; and

WHEREAS, accordingly, DOB asserts that because the approval had been properly revoked, DOB could not reinstate and allow the Appellant to avoid the construction regulations imposed by its new designation within a historic district; and

WHEREAS, DOB states that while DOB allows correction of minor construction document deficiencies after a change in applicable law (e.g., LPC designation), such correction is only allowed *before* permit revocation, or when the permit revocation was in error; and

WHEREAS, DOB states that furthermore, and as explained at the hearing on these matters, its position is that failure to obtain a discretionary approval from another agency as a necessary precondition to a permit (e.g., the Board's MDL waiver) is considered a major deficiency and renders the permit invalid and such deficiency cannot be corrected without compliance with the new law; and

WHEREAS, DOB states that it does not have the authority to change its position on revocation in this case by considering factors of equity, such as its original erroneous waiver of the MDL; and

WHEREAS, DOB asserts that an exclusive list of the Commissioner of Buildings' powers and duties is set forth in NYC Charter § 645(b), and while this list covers such technical matters as the examination of plans, issuance of certificates of occupancy, and enforcement of construction laws, it does not grant the Commissioner equitable powers; and

WHEREAS, finally, DOB states that in the exercise of its technical power under the Charter, it properly revoked the Approval, and it has no powers to reinstate after a change in law, either on equitable grounds or otherwise; and

Conclusion

WHEREAS, the Board upholds DOB's determination for the following primary reasons (1) the AC requires LPC approval for reinstated permits; (2) the AC supports DOB's decision to revoke the permit; (3) there is no basis for DOB or the Board to reinstate the permit without LPC approval; and (4) a vested rights analysis is not applicable; and

WHEREAS, the Board finds that the language of AC § 25-305(b)(1), which states that LPC approval is required for a proposal on a site within LPC jurisdiction prior to DOB's issuance of a permit, is clear and unambiguous; and

WHEREAS, the Board also agrees with DOB that the AC requires a revoked permit to follow the code and laws at the time of reinstatement and, therefore, the permit is subject to LPC approval prior to reissuance; and

WHEREAS, in the context of a case subject to the Landmarks Law, the Board concludes that there is no basis for it to direct DOB to reinstate the permit, contrary to the AC, after a potential approval of MDL waivers; and

WHEREAS, the Board states that although the basis for DOB to revoke the permits is not the issue on appeal, if it were, the basis for the revocation is clear in that DOB issued its notice of intent to revoke in July 2009, the Board rendered its decision in the MDL Appeal in November 2008, and DOB issued its MDL bulletin in March 2009; and

WHEREAS, accordingly, the Board notes that the Appellant had time to pursue an MDL waiver, prior to the revocation, and failed to do so; and

WHEREAS, the Board notes that, instead, the Appellant pursued an MDL cure and received approval and a rescission

of the revocation based on MDL reliant drawings in February and April 2010, but still did not pursue the MDL waiver or correct any illegalities on the site based on the permit, and thus the permit was again revoked in December 2010; and

WHEREAS, the Board agrees with DOB that the permit was properly revoked in December 2010 (one and one-half years prior to the filing of this appeal) and therefore the appeal of the revocation is untimely; however even if the permit revocation is considered, the basis for such revocation is grounded in law since the MDL waiver was erroneous, and therefore the permit was not valid when issued; and

WHEREAS, the Board does not take a position regarding DOB's policy on what is a correctable error; however, it notes that the Appellant has not established that precedent requires that it correct the failure to secure the required MDL waiver on equitable grounds; and

WHEREAS, the Board also accepts DOB's assertion that cures to permits that require discretionary actions are not considered correctable unless the agency correcting them instructs DOB to reinstate the permit, which the Board finds to be consistent with DOB's position in East 6th Street; and

WHEREAS, the Board distinguishes the facts in Menachem and GRA, which both involved vested rights in a zoning context; and

WHEREAS, the Board accepts DOB's position that certain errors in certain contexts are not correctable, such as in BSA Cal. No. 121-10-A (25-50 Francis Lewis Boulevard), in which it upheld DOB's determination that the sequencing of permits including demolition was not a correctable error; and

WHEREAS, the Board also notes that the Appellant has not cited any cases that involve the requirement of sequencing or another agency's discretionary approval to discredit DOB; and

WHEREAS, although the Board does not find that the vested rights criteria applies to the subject case, it does note that a valid permit prior to the rezoning date is a threshold element for a vesting application, similar to the requirement that a valid permit be issued prior to landmark designation; and

WHEREAS, the Board cites to the Zoning Resolution and case law for the prerequisite of a valid permit: "[t]he provisions of this Section shall apply to minor developments, major developments or other construction authorized by building permits lawfully issued before the effective date of an applicable amendment of this Resolution" (ZR § 11-33) and New York State courts which repeat that vested rights can only be obtained where there is reliance on a valid permit (See Perrotta v. Department of Buildings, 107 A.D.2d 320, 325 (N.Y. App. Div. 1st Dept. 1985); Village of Asharoken v. Pitassy, 119 A.D.2d 404, 417 (N.Y. App. Div. 2nd Dept. 1986); and Natchev v. Klein, 41 N.Y.2d 834, 834 (1977)); and

WHEREAS, the Board notes that in Perrotta, DOB erroneously issued a permit due to its own initial failure to notice that a builder's plans did not comply with zoning regulations, and the court agreed with DOB that the permit was not valid and stated that "[a] determination as to whether [a] petitioner had vested rights under [its] building permit must, of necessity, involve an examination of the validity of the permit, as well as compliance with technical provisions of the Zoning Resolution, and this is clearly an appropriate inquiry for agency expertise" (107 A.D.2d at 324); and

WHEREAS, the Board notes that the courts have upheld agencies' determinations regarding permit validity on the principle that they were reasonable and based on substantial evidence, without evaluating the criteria for assessing permit validity; and

WHEREAS, the Board notes that only Menachem questions DOB's and the Board's conclusion on permit validity as DOB ultimately conceded in GRA that minor zoning non-compliance was curable; Menachem, similarly involved minor non-compliance not associated with the rezoning (the absence of a ramp and tree pits); and

WHEREAS, the Board distinguishes the MDL Appeal as a case where the Board actually directed DOB to revoke the permit, which is not the case here (the Board also notes that in the MDL Appeal, the permit had actually lapsed by operation of law prior to the Board's decision and, thus, the revocation took place after the rezoning); and

WHEREAS, the Board notes that in the MDL Appeal, the revocation was by the Board in the context of an interpretive appeal, rather than by DOB during the course of remedying its error; and

WHEREAS, the Board finds that the only relevant questions are those associated with whether the permit was issued prior to the historic district designation and the Board agrees with DOB that permit issuance must mean issuance of a *valid* permit; and

WHEREAS, the Board accepts DOB's determination that the permit is not valid since it was issued absent the Board's MDL waivers and thus was MDL non-compliant; and

WHEREAS, further, the Board notes that there was not a permit in place at the time of the historic district designation; and

WHEREAS, the Board agrees with DOB that the Appellant misreads the Board's answer in the East 5th Street litigation to say that once an MDL is granted, such permit will become valid; and

WHEREAS, the Board finds that the Appellant's arguments regarding vesting are misplaced as there is not any precedent, which extends the vesting doctrine to landmarking as neither the Zoning Resolution nor New York State case law have set forth findings for allowing a property owner to establish a vested right to continue construction on a site not affected by a zoning change but, rather affected by an LPC designation; and

WHEREAS, the Board distinguishes zoning changes and LPC designation in that in the rezoning context, the work being performed would not be allowed under the new zoning scheme, whereas the proposal and work in the landmark context may ultimately be allowed, but is just subject to LPC review and approval so the standard may be different; and

WHEREAS, the Board finds that the Appellant's

reliance on the Seattle case Hedreen is misplaced in that it involved a moratorium on landmarking a historic theater to allow for construction, was decided against the developer who sought to extend the moratorium on landmarking, and did not involve New York State laws or statutes; further, against the Appellant's case, the court actually said: "Hedreen asks us to broaden the scope of the vesting doctrine to cover the proceedings and designating ordinances authorized by the landmarks ordinance. The Washington Supreme Court has recently expressed its unwillingness to expand the doctrine, which is one of the most protective of developers' rights in the country. [Erickson, 872 P.2d at 1096-97] We too are unwilling to expand it and we decline Hedreen's invitation"; and

WHEREAS, the Board notes that the AC clarifies that a continued right to construct on a site affected by an LPC designation is achieved by establishing the issuance of the permit prior to designation and not through the showing of work done and expenditures as in a rezoning action; and

WHEREAS, accordingly, the Board finds that the Appellant's analysis regarding work performed and expenditures is irrelevant in the context of seeking exemption from LPC review post-designation; and

WHEREAS, the Board concludes that, contrary the Appellant's contention, questions of fairness are beyond the scope of its administrative appeals and that, instead, it relies on the text of the AC; and

WHEREAS, accordingly, the Board has not considered questions of fairness; and

WHEREAS, as to the Board's Charter authority regarding hardship, the Board does not find that LPC review and approval constitutes a hardship to be remedied by its general Charter authority; the Board asserts that the Appellant has the ability to obtain approval from LPC; further, the Board cannot make the finding that the spirit of the law is preserved and substantial justice is done; and

WHEREAS, the Board finds that if it were to instruct DOB to reinstate the permit, it would be tantamount to waiving the AC related to permit reinstatement under current law and the basis would be in equity; and

WHEREAS, the Board finds that the Appellant has mischaracterized the Board's statements in the East 5th Street litigation and that the meaning of the Board's statement was that there would be a potential for reinstatement after an MDL approval, not that a reinstatement was guaranteed or even warranted; and

WHEREAS, based on the above, the Board agrees with DOB that LPC approval is required and the permit should not be reinstated without it.

Therefore it is Resolved that the instant appeal, seeking a reversal of the Final Determination, dated April 3, 2012, determining that *inter alia* LPC approval is required, is hereby denied.

Adopted by the Board of Standards and Appeals, February 12, 2013.

ACTION OF THE BOARD – Application granted on condition.
THE VOTE TO GRANT –
Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5
Negative:.....0
THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated January 15, 2012, acting on Department of Buildings Application No. 320396308, reads in pertinent part:

Proposed floor area ratio is contrary to ZR 23-141(a); and

WHEREAS, this is an application under ZR §§ 73-622 and 73-03, to permit, within an R3-1 zoning district, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for floor area ratio ("FAR"), contrary to ZR § 23-141; and

WHEREAS, a public hearing was held on this application on July 17, 2012, after due notice by publication in *The City Record*, with continued hearings on August 21, 2012, September 25, 2012, October 30, 2012 and January 29, 2013, and then to decision on February 12, 2013; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 15, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the northwest corner of Girard Street and Oriental Boulevard, within an R3-1 zoning district; and

WHEREAS, the subject site has a total lot area of 10,800 sq. ft., and is occupied by a single-family home with a floor area of 2,978 sq. ft. (0.28 FAR); and

WHEREAS, the premises is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant seeks an increase in the floor area from 2,978 sq. ft. (0.28 FAR) to 9,388 sq. ft. (0.86 FAR); the maximum permitted floor area is 5,400 sq. ft. (0.50 FAR); and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood, and will not impair the future use or development of the surrounding area; and

WHEREAS, at hearing, the Board questioned which portions of the original home were being retained, and whether the proposed home fits within the permitted building envelope in the underlying R3-1 zoning district; and

WHEREAS, in response, the applicant submitted revised plans which reflect that portions of the floors and walls at the cellar, first, and second floors of the home will remain; and

WHEREAS, the applicant represents that the revised plans reflect a complying building envelope, and provided a Zoning Resolution Determination form that it submitted to DOB to request confirmation that the proposed roof design complies with the permitted building envelope, pursuant to ZR § 23-631; and

WHEREAS, based upon its review of the record, the Board finds that the proposed enlargement will neither alter the essential character of the surrounding neighborhood, nor impair the future use and development of the surrounding area; and

WHEREAS, the Board finds that the proposed project will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under ZR §§ 73-622 and 73-03.

Therefore it is resolved, that the Board of Standards and Appeals issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR §§ 73-622 and 73-03, to permit, in an R3-1 zoning district, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for floor area ratio, contrary to ZR § 23-141; *on condition* that all work shall substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked "Received January 15, 2013"-(13) sheets; and *on further condition*:

THAT the following will be the bulk parameters of the

building: a maximum floor area of 9,388 sq. ft. (0.86 FAR), as illustrated on the BSA-approved plans;

THAT the envelope of the building will be reviewed by DOB for compliance with the underlying R3-1 district regulations;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s) only; no approval has been given by the Board as to the use and layout of the cellar;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted;

THAT substantial construction be completed in accordance with ZR § 73-70; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, February 12, 2013.

261-12-BZ
CEQR #13-BSA-027M
APPLICANT – Sheldon Lobel, P.C., for One York Property, LLC, owner; Barry's Bootcamp Tribeca LLC, lessee.
SUBJECT – Application August 31, 2012 – Special Permit (§73-36) for the operation of a physical culture establishment (*Barry's Bootcamp*) on the first and cellar floors of existing building. C6-2A (TMU) zoning district.
PREMISES AFFECTED – 1 York Street, south side of Laight Street between Avenue of Americas, St. John's and York Streets, Block 212, Lot 7503, Borough of Manhattan.
COMMUNITY BOARD #1M
ACTION OF THE BOARD – Application granted on condition.
THE VOTE TO GRANT –
Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5
Negative:.....0
THE RESOLUTION –

WHEREAS, the decision of the Manhattan Borough Commissioner, dated August 27, 2012, acting on Department of Buildings Application No. 104220683, reads in pertinent part:

> The proposed Physical Culture Establishment is not permitted, as of right, in a C6-2A zoning district, per ZR 32-10 and, therefore, requires a special permit for the Board of Standards and Appeals per ZR 73-36; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site located within a C6-2A zoning district and the Special Tribeca Mixed-Use District, the operation of a physical culture establishment (PCE) on the cellar and first floor of a twelve-story mixed-use building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on January 8, 2013, after due notice by publication in *The City Record*, and then to decision on February 12, 2013; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Montanez, Commissioner Hinkson and Commissioner Ottley-Brown; and

WHEREAS, Community Board 1, Manhattan, recommends approval of this application; and

WHEREAS, the subject site is located on the south side of Laight Street between Avenue of the Americas, St. John's Lane and York Street, in a C6-2A zoning district within the Special Tribeca Mixed-Use District; and

WHEREAS, the site has 184 feet of frontage on Avenue of the Americas, 100 feet of frontage on York Street, 66 feet of frontage on Laight Street, and a total lot area of 15,354 sq. ft.; and

WHEREAS, the site is occupied by a twelve-story mixed-use building; and

WHEREAS, the proposed PCE will occupy 2,197 sq. ft. of floor area on the first floor, with an additional 980 sq. ft. of floor space at the cellar; and

WHEREAS, the PCE will be operated as Barry's Bootcamp; and

WHEREAS, the applicant represents that the services at the PCE include facilities for instruction and programs for physical improvement; and

WHEREAS, the hours of operation for the proposed PCE will be seven days a week from 5:00 am to 11:00 pm; and

WHEREAS, accordingly, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as a Unlisted action pursuant to 6 NYCRR Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant

information about the project in the Final Environmental Assessment Statement, CEQR No.13BSA027M, dated August 31, 2012; and

WHEREAS, the EAS documents that the operation of the PCE would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to permit, on a site located within a C6-2A zoning district and the Special Tribeca Mixed-Use District, the operation of a physical culture establishment (PCE) on the cellar and first floor of a twelve-story mixed-use building contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked "Received February 7, 2013" - Four (4) sheets and *on further condition*:

THAT the term of this grant will expire on February 12, 2023;

THAT there will be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT all massages must be performed by New York State licensed massage therapists;

THAT the hours of operation for the proposed PCE will be seven days a week from 5:00 a.m. to 11:00 p.m.;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT Local Law 58/87 compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT substantial construction will be completed in accordance with ZR § 73-70;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, February 12, 2013.

CEQR #13-BSA-042M
APPLICANT – Rothkrug Rothkrug & Spector, LLP for 301-303 West 125, LLC, owner; Blink 125th Street Inc., lessee.
SUBJECT – Application October 9, 2012 – Special permit (§73-36) to allow a physical culture establishment (*Blink*) within proposed commercial building. C4-4D zoning district.
PREMISES AFFECTED – 301 West 125th Street, northwest corner of intersection of West 125th Street and Frederick Douglas Boulevard, Block 1952, Lot 29, Borough of Manhattan.
COMMUNITY BOARD #10M
ACTION OF THE BOARD – Application granted on condition.
THE VOTE TO GRANT –
Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5
Negative:.....0
THE RESOLUTION –

WHEREAS, the decision of the Manhattan Borough Commissioner, dated October 2, 2012, acting on Department of Buildings Application No. 120616057, reads in pertinent part:

> Proposed change of use to a physical culture establishment, as defined by ZR 12-10, is contrary to ZR 32-10 and must be referred to the Board of Standards and Appeals for approval pursuant to ZR 73-36; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site located in a C4-4D zoning district within the Special 125th Street District, the operation of a physical culture establishment (PCE) at the cellar floor and mezzanine level with a first floor lobby shared entrance area, in a four-story commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on January 5, 2013, after due notice by publication in *The City Record*, and then to decision on February 12, 2013; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson and Commissioner Ottley-Brown; and

WHEREAS, Community Board 10, Manhattan, recommends approval of this application; and

WHEREAS, the subject site is located on the

northwest corner of West 125th Street and Frederick Douglass Boulevard, in a C4-4D zoning district within the Special 125th Street District; and

WHEREAS, the site is occupied by a partially constructed four-story commercial building; and

WHEREAS, the proposed PCE will occupy 1,581.12 sq. ft. of floor area on the first floor for an entrance and lobby and 1,195.22 sq. ft. of floor area at the mezzanine for storage, with an additional 16,021 sq. ft. of floor space at the cellar; and

WHEREAS, the site has 100 feet of frontage on West 125th Street, 199.83 feet of frontage on Frederick Douglass Boulevard, and 100 feet of frontage on West 126th Street, and a total lot area of 19,983 sq. ft.; and

WHEREAS, the PCE will be operated as Blink Fitness; and

WHEREAS, the applicant represents that the services at the PCE include facilities for instruction and programs for physical improvement; and

WHEREAS, the hours of operation for the proposed PCE will be Monday through Saturday, from 5:30 a.m. to 11:00 p.m. and Sunday, from 7:00 a.m. to 9:00 p.m.; and

WHEREAS, accordingly, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as a Unlisted action pursuant to 6 NYCRR Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement, CEQR No.13BSA042M, dated October 5, 2012; and

WHEREAS, the EAS documents that the operation of the PCE would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to permit, on a site located in a C4-4D zoning district within the Special 125th Street District, the operation of a PCE at the cellar floor and mezzanine level, with a shared first floor lobby entrance area in a four-story commercial building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked "Received February 7, 2013" - Seven (7) sheets and *on further condition*:

THAT the term of this grant will expire on February 12, 2023;

THAT there will be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT all massages must be performed by New York State licensed massage therapists;

THAT the hours of operation for the proposed PCE will be Monday through Saturday, from 5:30 a.m. to 11:00 p.m. and Sunday, from 7:00 a.m. to 9:00 p.m.; and

THAT the above conditions will appear on the Certificate of Occupancy;

THAT Local Law 58/87 compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT substantial construction will be completed in accordance with ZR § 73-70;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, February 12, 2013.

Jeff Mulligan, Executive Director

REGULAR MEETING
TUESDAY MORNING, FEBRUARY 26, 2013
10:00 A.M.

Present: Chair Srinivasan, Vice-Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez.

SPECIAL ORDER CALENDAR

20-08-BZ
APPLICANT – Law Office of Fredrick A. Becker, for Wegweiser & Ehrlich LLC, owners.
SUBJECT – Application January 3, 2013 – Extension of Time to Complete Construction of approved Special Permit (§75-53) for the vertical enlargement to an existing warehouse (UG17) which expired on January 13, 2013. C6-2A zoning district.
PREMISES AFFECTED – 53-55 Beach Street, north side of Beach Street between Greenwich Street and Collister Street, Block 214, Lot 1, Borough of Manhattan.
COMMUNITY BOARD #1M
ACTION OF THE BOARD – Application granted on condition.
THE VOTE TO GRANT –
Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5
Negative:.....0
THE RESOLUTION –

WHEREAS, this is an application for a reopening and an extension of time to complete construction of a previously granted special permit to permit the vertical enlargement of an existing warehouse building, which expired on January 13, 2013; and

WHEREAS, a public hearing was held on this application on January 29, 2013, after due notice by publication in *The City Record*, with a continued hearing on February 5, 2013 and then to decision on February 26, 2013; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commissioner Hinkson, and Commissioner Ottley-Brown; and

WHEREAS, the subject site is located on the northwest corner of Beach Street and Collister Street in a C6-2A zoning district within the Special Tribeca Mixed Use District and the Tribeca West Historic District; and

WHEREAS, the Board has exercised jurisdiction over the subject site since May 6, 2003, when, under BSA Cal. No. 359-02-BZ, the Board granted a variance authorizing the ground floor and cellar of the building to be occupied by a Use Group 3 pre-school; and

WHEREAS, the variance was subsequently amended on two occasions to allow the pre-school use on the second and third floors; and

WHEREAS, on January 13, 2009, under the subject calendar number, the Board granted a special permit under ZR § 73-53 to allow the proposed enlargement of the Use Group 16 warehouse (which was erroneously identified as Use Group 17 in the original application); and

WHEREAS, substantial construction was to be completed by January 13, 2013, in accordance with ZR § 73-70; and

WHEREAS, the applicant notes that since the 2009 approval, the area around the site has been rezoned from an M1-5 zoning district to a C6-2A zoning district; and

WHEREAS, the applicant states that due to financing delays, additional time is necessary to complete the project; thus, the applicant now requests an extension of time to complete construction; and

WHEREAS, the applicant represents that the owner is now prepared to proceed with construction; and

WHEREAS, based upon its review of the record, the Board finds that the requested extension of time to complete construction is appropriate with certain conditions as set forth below.

Therefore it is Resolved that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated January 13, 2009, so that as amended this portion of the resolution shall read: "to grant an extension of the time to complete construction for a term of four years, to expire on January 13, 2017; *on condition*:

THAT construction will be completed by January 13, 2017;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted."
(DOB Application No. 104415571)

Adopted by the Board of Standards and Appeals, February 26, 2013.

135-46-BZ
APPLICANT – Eric Palatnik, P.C., for Arielle A. Jewels, Inc., owner.
SUBJECT – Application March 30, 2012 – Extension of Term (§11-411) of approved variance which permitted an automotive service station (UG 16B) with accessory uses, which expired on January 29, 2012, and an amendment (§11-413) to convert the use to auto laundry (UG 16B) hand car wash; waiver for the Rules. R4 zoning district.
PREMISES AFFECTED – 3802 Avenue U, southeast corner of East 38th Street, between Ryder Avenue and East 38th Street, Block 8555, Lot 37, Borough of Brooklyn.

COMMUNITY BOARD #18BK

ACTION OF THE BOARD – Laid over to March 19, 2013, at 10 A.M., for adjourned hearing.

410-68-BZ

APPLICANT – Eric Palatnik, P.C., for Alessandro Bartellino, owner.

SUBJECT – Application May 22, 2012 – Extension of Term (§11-411) of approved variance which permitted the operation of (UG16B) automotive service station (*Citgo*) with accessory uses, which expired on November 26, 2008; Extension of Time to obtain a Certificate of Occupancy which expired on January 11, 2008; Waiver of the Rules. R3-2 zoning district.

AFFECTED PREMISES – 85-05 Astoria Boulevard, east corner of 85th Street. Block 1097, Lot 1. Borough of Queens.

COMMUNITY BOARD #3Q

APPLICANT – Davidoff Malito & Hutcher LLP, for Lamar Advertising of Penn LLC.

OWNER OF PREMISES – Kehley Holding Corp.

SUBJECT – Application April 18, 2012 – Appeal challenging Department of Buildings' determination that signs are not entitled to non-conforming use status as accessory business or non-commercial signs, pursuant to Z.R.§§42-58 and 52-61.

PREMISES AFFECTED – 46-12 Third Avenue, between 46th and 47th Streets, Block 185, Lot 25, Borough of

Brooklyn.
COMMUNITY BOARD #7BK
ACTION OF THE BOARD – Appeal Denied.
Affirmative: 0
Negative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez ……...5
THE RESOLUTION –

WHEREAS, the subject appeal comes before the Board in response to two Notice of Sign Registration Rejection letters from the Brooklyn Borough Commissioner of the Department of Buildings ("DOB"), dated April 4, 2012, denying registration for signs at the subject site (the "Final Determination"), which read, in pertinent part:

> The Department of Buildings is in receipt of additional documentation submitted in response to the Deficiency Letter from the Signs Enforcement Unit and in connection with the application for registration of the above-referenced sign. Unfortunately, we find this documentation inadequate to support the registration of the sign and, as such, the sign is rejected from registration. This sign will be subject to enforcement action 30 days from the issuance of this letter; and

WHEREAS a public hearing was held on this application on December 4, 2012, after due notice by publication in *The City Record*, and then to decision on February 26, 2013; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, and Commissioner Montanez; and

WHEREAS, the subject appeal concerns two signs located on the west side of Third Avenue between 46th Street and 47th Street, within an M1-2D zoning district (the "Signs"); and

WHEREAS, this appeal concerns a site under the control of Lamar Advertising, an outdoor advertising company that is subject to registration requirements under Local Law 31 of 2005; and

WHEREAS, the Board notes that under Local Law 31 of 2005, the New York City Council enacted certain amendments to existing regulations governing outdoor advertising signs as a means for DOB to enforce the sign laws where signs had been erected and were being maintained without a valid permit; and

WHEREAS, pursuant to Article 502 (specifically, Building Code § 28-502.4), an outdoor advertising company is required to submit to DOB an inventory of all signs, sign structures and sign locations (i) within a distance of 900 linear feet (274 m) from and within view of an arterial highway; or (ii) within a distance of 200 linear feet (60.96 m) from and within view of a public park with an area of one-half acre (5,000 m) or more; and

WHEREAS, pursuant to the requirements of Article 502 and Rule 49 with respect to signs within 900 feet of arterial highways, the Appellant submitted an inventory of outdoor signs under its control and completed a Sign Registration Application for each sign and an OAC3 Outdoor Advertising Company Sign Profile; and

WHEREAS, DOB, by letters, dated April 4, 2012 issued the determination related to the Signs within Lamar's inventory, two of which form the basis of the appeal; and

WHEREAS, DOB appeared and made submissions in opposition to this appeal; and

BACKGROUND

WHEREAS, the Appellant has submitted a permit dated September 1, 1998 for each of the two subject signs, which reflects the following conditions of the sign and its location: (1) non-illuminated accessory business sign on ground structure, (2) with text reading: Yale Equipment, (3) with a surface area of 1,200 sq. ft., and (4) within 200 feet of an arterial highway; and

WHEREAS, the Appellant concedes that despite obtaining a permit for an accessory business sign, it maintained advertising signs at the site prior to and continuously from before December 13, 2000; and

WHEREAS, per ZR § 21-B (superseded by ZR §§ 42-53 and 42-55), advertising signs were not permitted within 200 feet of an arterial highway since 1940; and

WHEREAS, on February 27, 2001, the Zoning Resolution was amended and Local Law 14 was enacted to regulate the large number of illegal signs; and

WHEREAS, as adopted on February 27, 2001, ZR § 42-55 (Additional Regulations for Signs Near Certain Parks and Designated Arterial Highways) (a)(1) limits the size of non-advertising signage, within 200 feet of an arterial to a surface area of 500 sq. ft. and (a)(2) prohibits any advertising signs within 200 feet of an arterial; and

WHEREAS, as adopted on February 27, 2001, ZR § 42-58 (Signs Erected Prior to December 13, 2000) allows certain signs installed by December 13, 2000 to be grandfathered as "non-conforming" signs to the extent of the non-conformance on that date; and

WHEREAS, pursuant to current zoning regulations, only signs not used for advertising (such as an accessory or non-commercial sign) would be permitted within 200 feet of an arterial and only up to a size of 500 sq. ft., unless the conditions set forth at ZR § 42-58 are met to allow for a larger sign; and

WHEREAS, in 2002, DOB began enforcing against the Signs; and

WHEREAS, thereafter, the Appellant and other OACs commenced the Clear Channel Outdoor, Inc. v. City of New York (608 F. Supp 2d 477 [SDNY 2009], aff'd 594 Fed 94) litigation, contesting the constitutionality of the City's signage regulations and enforcement as related to signs throughout the City, including the subject Signs; and

WHEREAS, during the course of the litigation, three letters were introduced, which will be discussed in more detail below: (1) an April 17, 2002 DOB letter (the "April 2002 Letter"), (2) an October 17, 2006 letter agreement between the parties (the "October 2006 Letter"), and (3) an April 6, 2009 letter agreement between the parties (the "April 2009 Letter") (together, "the Letters"); and

WHEREAS, the Appellant and DOB describe additional history, set forth below, in the context of their arguments; and

WHEREAS, on March 31, 2009 the District Court upheld the City's regulations and on February 3, 2010 the Second Circuit affirmed; and

WHEREAS, by letter dated August 17, 2011, the Appellant sought to register its outdoor advertising inventory, including the Signs; and

WHEREAS, by letters dated April 4, 2012, DOB issued the determinations which form the basis of the appeal, stating that it found the "documentation inadequate to support the registration and, as such, the sign is rejected from registration;" and

RELEVANT STATUTORY PROVISIONS

ZR § 12-10

Non-conforming, or non-conformity

A "non-conforming" #use# is any lawful #use#, whether of a #building or other structure# or of a #zoning lot#, which does not conform to any one or more of the applicable #use# regulations of the district in which it is located, either on December 15, 1961 or as a result of any subsequent amendment thereto. . .

* * *

ZR § 42-58

Signs Erected Prior to December 13, 2000

M1 M2 M3

In all districts, as indicated, a #sign# erected prior to December 13, 2000, shall have #non-conforming use# status pursuant to Sections 52-82 (Non-Conforming Signs Other Than Advertising Signs) or 52-83 (Non-Conforming Advertising Signs) with respect to the extent of the degree of #non-conformity# of such #sign# as of such date with the provisions of Sections 42-52, 42-53 and 42-54, where such #sign# shall have been issued a permit by the Department of Buildings on or before such date. In all such districts, as indicated, a #sign# other than an #advertising sign# erected prior to December 13, 2000, shall also have #non-conforming use# status pursuant to Section 52-82 with respect to the degree of #non-conformity# of such #sign# as of such date with the provisions of Section 42-55, paragraphs (a)(1) and (b), where such #sign# shall have been issued a permit by the Department of Buildings on or before such date. Nothing herein shall be construed to confer #non-conforming use# status upon any #advertising sign# located within 200 feet of an arterial highway or of a #public park# with an area of one-half acre or more, and within view of such arterial highway or #public park#, or where such #advertising sign# is located at a distance from an arterial highway or #public park# with an area of one-half acre or more which is greater in linear feet than there are square feet of #surface area# on the face of such #sign#, contrary to the requirements of Section 42-55, paragraph (b). The #non-conforming use# status of signs subject to Section 42-55, paragraphs (c)(1), (c)(2) and (d), shall remain unaffected by this provision. . .

* * *

ZR § 52-61

General Provisions

If, for a continuous period of two years, either the #nonconforming use# of #land with minor improvements# is discontinued, or the active operation of substantially all the #non-conforming uses# in any #building or other structure# is discontinued, such land or #building or other structure# shall thereafter be used only for a conforming #use#. Intent to resume active operations shall not affect the foregoing . . . ; and

THE APPELLANT'S POSITION

WHEREAS, the Appellant identifies the issue on appeal as whether the Letters tolled ZR § 52-61's two-year limit on discontinuance of the non-conforming accessory sign use and whether the right to maintain non-conforming accessory signs was lost as a result of a discontinuance of their use for more than two consecutive years after the adoption of ZR § 42-58 on February 27, 2001; and

WHEREAS, the Appellant states that DOB introduced another argument which is beyond the scope of a stipulation between the parties regarding the issue on appeal, but if it is considered, it should be rejected; the Appellant contends DOB is incorrect that there is a requirement that non-conforming status can only be established if the Signs were legal on December 13, 2000; and

Effect of the Letters on ZR § 52-61's Two-Year Discontinuance Provision

WHEREAS, the Appellant asserts that the Letters should be read to toll ZR § 52-61's two-year discontinuance provision for "non-conforming use" and that there has not been a two-year discontinuance of the relevant sign types within the relevant periods; and

WHEREAS, first, the Appellant represents that there has never been a two-year discontinuance of advertising message from before May 1999 until approximately March 22, 2010; and

WHEREAS, now, the Appellant asserts that there has not been a two-year discontinuance in the non-commercial signs since March 22, 2010, so the non-conforming size and height existing on December 13, 2000 can continue pursuant to ZR § 42-48; and

WHEREAS, the Appellant asserts that Local Law 14, enacted on February 27, 2001, in tandem with the non-conforming use provisions of ZR § 42-48, allows an option to maintain the advertising copy under the voluntary compliance program until the signs are removed during the three-year takedown period; and

WHEREAS, the Appellant notes that the City began enforcement against the Signs in 2002, which the Appellant

found to be inconsistent with the allowance for three years to remove the signs pursuant to Local Law 14's voluntary compliance plan; and

WHEREAS, the Appellant asserts that in response to its concerns about the 2002 enforcement, DOB issued the April 2002 Letter, in which it agreed that the Zoning Resolution provisions prohibiting advertising signs would not be enforced; and

WHEREAS, the April 2002 Letter reads in pertinent part:

> At this time, the Department does not intend to issue further violations for similar signs unless the sign and/or sign structure is in a hazardous condition. However, please note that once a voluntary compliance plan is filed and a sign that the Department concludes is unlawful is not included in such compliance plan, it will be subject to appropriate enforcement action by the Department; and

WHEREAS, the Appellant asserts that advertising could be maintained on the Signs until a voluntary compliance plan was filed which included the Signs, in order to protect their value for ultimate inclusion in the voluntary compliance plan; and

WHEREAS, the Appellant asserts that the April 2002 Letter effectively terminated the running of the two-year period commencing on February 27, 2001, during which the Signs would have had to display accessory business or non-commercial copy to avoid discontinuance of their non-conforming use at their original size and height, since they were entitled to display advertising copy per the April 2002 Letter; and

WHEREAS, the Appellant asserts that the initial two-year period that would have commenced on February 27, 2001 was terminated on April 17, 2002 through the April 2002 Letter; and

WHEREAS, the Appellant asserts that per the April 2002 Letter, a new two-year period would not have commenced until a compliance plan is in effect and a sign is not protected by the plan; and

WHEREAS, the Appellant asserts that the intent of the April 2002 Letter was to preserve the value of signs as advertising signs and relies on a March 22, 2002 letter to then-DOB Commissioner Patricia Lancaster in support of the claim that there was a mutual intent to preserve maximum rights for the sign companies; and

WHEREAS, the Appellant asserts that on April 12, 2005, an amendment in Local Law 31 eliminated the voluntary compliance plan provisions of Local Law 14; and

WHEREAS, the Appellant asserts that a new two-year period within which accessory business or non-commercial copy would have to be displayed on the Signs in order for non-conforming status use to continue would be April 12, 2005; and

WHEREAS, the Appellant notes that DOB did not, however, begin enforcement against the Signs until after it adopted Rule 49 on July 19, 2006, which allowed for implementation of Local Law 14, as amended by Local Law 31; and

WHEREAS, the Appellant states that, on October 17, 2006, by agreement in the Clear Channel litigation, the City agreed to stay the enforcement of the Zoning Resolution and Administrative Code, which otherwise prohibited the maintenance of advertising on the Signs (the October 2006 Letter); and

WHEREAS, the October 2006 Letter states in pertinent part:

> We . . . want to confirm that [the stay] will cover (i) the portion of New York City's Zoning Resolution §§ 42-55 and 32-662 concerning the placement of outdoor advertising signs along the City's arterial highways and parks, (ii) the City of New York Local Laws 14 of 2001 and 31 of 2005 in their entirety (except, solely with respect to nonarterial signs, the provisions of Admin. Code §§ 26-127.3, 26-259, 26-262, and 27-177 [only with respect to new signs], shall not be stayed), and (iii) the entirety of the Department of Buildings ("DOB") Rule 49 (except, solely with respect to nonarterial signs . . .(collectively referred to in this letter as the "Regulations").
>
> * * *
>
> Other than as set forth above, enforcement of the Regulations shall be stayed industry-wide until ten (10) days after a decision by the Southern District on the preliminary injunction motions . . . The stay will not extend to any proceedings, pending or otherwise, based on provisions of law other than the Regulations, nor to any proceeding to enforce the requirement to register by November 27 as set forth above; and

WHEREAS, the Appellant asserts that assuming a new two-year period commenced for a second time on April 12, 2005, it terminated on October 17, 2006 (approximately 18 months later); and

WHEREAS, the Appellant notes that the District Court rendered a decision on March 31, 2009 and that, in light of the fact that an appeal was taken to the Second Circuit Court of Appeals, it entered another agreement, the April 2009 Letter, with the City to further extend the period in which enforcement activity was suspended until 15 days after a decision on the appeal; and

WHEREAS, the April 2009 Letter states in pertinent part:

> This letter is to confirm that [during any proceedings in the Second Circuit] the City will not enforce the provisions of New York City Zoning Resolution Sections 42-55 and 32-662 as to any signs that existed along an arterial highway prior to the commencement of this litigation on October 6, 2006, or enforce any provisions of City of New York Local Laws 14 of 2002 and 31 of 2005 that authorize the issuance of violations . . . for violating Sections 42-55 and 32-622 of the

Zoning Resolution; and

WHEREAS, the Appellant asserts that ZR § 52-61 was not included in any of the Letters because they dealt solely with advertising signs to which a stay of ZR § 52-61 was irrelevant since ZR § 52-61 would never apply to the use of signs for advertising purposes; and

WHEREAS, the Appellant notes that the Second Circuit's decision to uphold the District Court's decision in the City's favor was rendered on February 3, 2010 and, by further agreement, enforcement was suspended until March 22, 2010 when outdoor advertising companies were required to submit certifications as to those arterial highway signs for which they seek to claim non-conforming status; and

WHEREAS, accordingly, the Appellant asserts that March 22, 2010 is the relevant date for commencing the two-year period within which the display of accessory business or non-commercial messages was required in order for the non-conforming use status of the signs as accessory business or non-commercial signs at the dimensions existing on December 13, 2000 to be maintained; and

WHEREAS, the Appellant asserts that the Signs have displayed non-commercial messages since sometime before March 22, 2010 and, thus, have retained their status as non-conforming accessory business or non-commercial signs at the dimension and height on December 13, 2000; and

The Applicability of ZR § 42-58

WHEREAS, the Appellant asserts that DOB has exceeded the parameters of the appeal stipulation by pursuing arguments related to the requirements of establishing a non-conforming use pursuant to ZR § 42-58; and

WHEREAS, however, the Appellant addresses DOB's assertion that the sign must have been established as a non-advertising sign prior to December 13, 2000 in order to meet the requirements for a non-conforming use pursuant to ZR § 42-58; and

WHEREAS, in response to DOB's secondary argument, the Appellant states that DOB contemplated the conversion of the Signs from illegal advertising signs to accessory or non-commercial signs and such conversion is allowed by the text of ZR § 42-58 even when no legal use was established by December 13, 2000; and

WHEREAS, the Appellant asserts that ZR § 42-58 does not include a lawful establishment requirement and that having a sign, alone, of any kind, by December 13, 2000 satisfies the text; and

WHEREAS, the Appellant asserts that ZR § 42-58, which was adopted on February 27, 2001, conferred non-conforming use status to signs with permits for accessory business use issued prior to that date so that signs could be converted from advertising to accessory business or non-commercial copy at their size and height existing on December 13, 2000; and

WHEREAS, the Appellant asserts that the February 27, 2001 date of adoption is the first day on which a two-year period of discontinuance would have begun to run at the end of which the non-conforming use status would have been lost should advertising copy not have been replaced with accessory business or non-commercial copy; and

WHEREAS, the Appellant notes that the Signs were (1) installed prior to December 13, 2000, pursuant to DOB permits; (2) the dimensions of each sign is 20 feet vertically and 60 feet horizontally for a total surface area of 1,200 sq. ft.; and (3) parties agree that although the permit for the sign stated accessory/business sign, the copy for the signs was for advertising from before December 13, 2000 (approximately May 1999) until March 22, 2010; and

WHEREAS, the Appellant asserts that even though the Signs were installed impermissibly as advertising signs, because the signs were installed prior to December 13, 2000, they are eligible for the non-conforming use status set forth at ZR § 42-58 for the size of 1,200 sq. ft. as opposed to the 500 sq. ft. that would be permitted under current regulations; and

WHEREAS, the Appellant asserts that the use of the word "also" in ZR § 42-58 between the requirement for sign installation prior to December 13, 2000 and the conferring of "non-conforming use" status clearly conveys the intention that where a sign was permitted and in existence on December 13, 2000 it would have non-conforming use status as an accessory business sign or non-commercial sign if it carried such messages after that date; and

WHEREAS, the Appellant states that ZR § 42-48 would not have been necessary if accessory or non-commercial copy would have had to have been on the signs on December 13, 2000; and

WHEREAS, further, the Appellant asserts that DOB has changed its position on the ability to convert from an advertising sign to an accessory sign and that the doctrine of judicial estoppel precludes it from doing so; and

WHEREAS, the Appellant quotes to a reply memorandum of law from the Clear Channel litigation dated July 28, 2008, in which the City stated:

> Thus, to the extent that plaintiffs and other OACs have been continuously using their arterial signs as advertising signs in the six years since the 2001 zoning amendments, plaintiffs and other OACs have lost the right to rely on their previously issued permits to revert to non-advertising copy. In order to maintain signs with non-commercial or accessory copy along the arterial highways plaintiffs will have to re-apply for new sign permits and will be limited to displaying signs of no more than 500 square feet in size; and

WHEREAS, the Appellant notes that in its memorandum, the City did not mention the lawful establishment requirement; and

WHEREAS, the Appellant also asserts that when a non-conforming right is granted by statute, as is the case here, and as is the case when advertising signs existing in 1979 were accorded non-conforming use status, it is not necessary that a legal use be in existence when such status is conferred; and

WHEREAS, in the alternate, the Appellant asserts that

non-conforming use status should be granted because the conversion to accessory business or non-commercial copy was not required until March 22, 2010; and

WHEREAS, the Appellant asserts that no date by which accessory business or non-commercial copy was required to be posted on signs accorded non-conforming use status was provided in ZR § 42-58; and

WHEREAS, the Appellant asserts that the operative date for the commencement of ZR 52-61's two-year maximum discontinuance is March 22, 2010 and that that was the first day on which OACs were required to elect to install accessory business or non-commercial copy on arterial highway signs and claim their certified non-conforming use status; and

Estoppel Against the City

WHEREAS, the Appellant asserts that although as a general rule estoppel or laches cannot be used as a defense to City actions and is only allowed in the rarest circumstances, the City is estopped from enforcing its zoning regulations related to the Signs; and

WHEREAS, the Appellant states that two New York State court decisions – Town of Hempstead v. DeMasco, 2007 WL 4471362 (Sup. Ct. 2007), aff'd, 62 A.D.3d 692 (2d Dept. 2009) and Inner Force Econ. Dev. Corp. v. Dep't of Educ. Of the City of New York, 36 Misc.3d 758, 559 (Sup. Ct. 2012) – to support its conclusion that the City should be estopped; and

WHEREAS, the Appellant notes that in DeMasco, the Town sought to enforce its zoning ordinance against a metal salvage business which had existed for many years prior to a zoning change, and the Appellate Division affirmed that the Town was equitably estopped in part because it continued business with the junkyard and "gave an imprimatur to the businesses' continued operation"; and

WHEREAS, the Appellant notes that in Inner Force in which one City agency acknowledged receipt of a claim while another branch did not, the petitioner had been left with the understanding that it was proceeding properly and rested on its rights, thus, the court held that equitable estoppel may be used against the City "where the governmental subdivision acts or comports itself wrongfully or negligently, inducing reliance by a party who is entitled to rely and who changes his positions to his detriment or prejudice;" and

WHEREAS, the Appellant also asserts that it is an unreasonable departure for the City to now require that accessory or non-commercial copy have been installed during the stay in order to preserve non-conforming rights, when it did not earlier articulate that requirement; and

DOB'S POSITION

WHEREAS, in support of its position that the Board deny the appeal, DOB asserts that: (1) the letter agreements between the parties during litigation were limited to delaying enforcement against the advertising signs pursuant to ZR § 42-55 (and other specifically noted provisions) and did not toll the two-year discontinuation period set forth at ZR § 52-61 and (2) the Signs were not lawful on December 13, 2000 and thus, they failed to satisfy the requirements of ZR § 42-58; and

The Effect of the Letters on ZR § 52-61's Two-Year Discontinuance Period

WHEREAS, as to the Appellant's tolling arguments, DOB states that the Signs were authorized by permits issued on September 1, 1998 for non-illuminated accessory business signs each having a surface area of 1,200 sq. ft. and that as of February 27, 2001, the Zoning Resolution prohibited non-advertising signs larger than 500 sq. ft. of surface area, and signs entitled to non-conforming use status as of December 13, 2000 could continue subject to regulations governing non-conforming uses; and

WHEREAS, DOB states that, assuming for the purpose of this appeal that these signs were entitled to non-conforming use status, industry-wide stays of enforcement agreed to in litigation cannot be relied upon as a basis for resuming non-conforming accessory sign uses after a two-year period of discontinuance; and

WHEREAS, specifically, DOB rejects the Appellant's assertion that ZR § 52-61 continued to impose a two-year limitation on a discontinuance of the non-conforming non-advertising sign uses during the period that the City agreed to stay enforcement of ZR § 42-55 against the signs; and

WHEREAS, DOB notes that ZR § 52-61 states that if, for a continuous period of two years, active operation of substantially all of the non-conforming use is discontinued, the use must terminate; and

WHEREAS, DOB rejects the Appellant's claim that the Letters tolled ZR § 52-61's discontinuance period against the Signs; the April 2002 Letter stated that at that time DOB did not intend to issue violations against advertising signs; and the October 2006 and April 2009 letters stipulated to a stay during litigation proceedings challenging ZR § 42-55 and ZR § 36-662 as unconstitutional restrictions on commercial speech and none of these documents either expressly or impliedly provide that the DOB would toll ZR § 52-61; and

WHEREAS, DOB asserts that the owners of the subject signs could have no reasonable expectation of benefitting from the start of a new two-year discontinuance period once the stay was lifted; and

WHEREAS, rather, DOB asserts that during the time the City agreed to stay enforcement of ZR § 42-55, it could not enforce ZR § 42-55 to prohibit the advertising sign use even though the accessory sign use was discontinued for a continuous period of two years; and

WHEREAS, DOB contends that enforcement of ZR § 42-55 was *stayed* during the periods of time covered by the above-referenced letters, but the two-year discontinuance period of ZR § 52-61 was not *tolled* and continued to run; and

WHEREAS, DOB states that, therefore, when the last stay was lifted upon the conclusion of the Clear Channel litigation in 2010, DOB could immediately enforce ZR § 42-55 and the owner could not claim to have an additional two years following the conclusion of the litigation to resume the

non-advertising sign use since the two-year discontinuance period had already elapsed; and

WHEREAS, DOB asserts that the stay merely served as a temporary windfall by shielding the signs from violations under ZR § 42-55 but it did not stop the discontinuance clock under ZR § 52-61 and that during the time the stay of enforcement was in effect, the owner of the Signs assumed the risk of losing non-conforming use status under ZR § 42-58; and

WHEREAS, DOB notes that the Appellant asserts that the City's agreements tolled ZR § 52-61 for the duration of the stay of enforcement even though ZR § 52-61 is not explicitly mentioned in the Letters; and

WHEREAS, DOB rejects the Appellant's explanation that ZR § 52-61 was not referenced in the Letters because the stays dealt solely with advertising signs that are not entitled to non-conforming status and ZR § 52-61 was irrelevant to those signs regardless of the outcome of the litigation; and

WHEREAS, finally, DOB asserts that the Appellant's tolling arguments reveal the understanding that the stays and litigation concerned the lawfulness of the Zoning Resolution regulations with respect to advertising signs, not accessory signs and since regulations governing accessory signs were not in controversy, the Appellant had no reasonable expectation that the stay in connection with the litigation would preserve a right to an accessory sign; and

The Applicability of ZR § 42-58

WHEREAS, DOB states that ZR § 42-58 confers non-conforming status to a non-advertising sign erected prior to December 13, 2000 with respect to the extent of the degree of non-conformity of such sign as of such date with the provisions of ZR §§ 42-52, 42-53, 42-54 and 42-55(a)(1) and (b) where such sign has been issued a permit on or before December 13, 2000; and

WHEREAS, DOB states that the question of whether the applications to register these Signs actually included evidence per 1 RCNY § 49-15 (Sign inventory to be submitted with registration application) that non-conforming signs existed, and the size of the signs that existed, as of the relevant date set forth in ZR § 42-58 is moot because such non-conforming uses are required to cease under ZR § 52-61 but if the Board should not consider this issue moot, it requests the opportunity to address this issue at such time; and

WHEREAS, DOB states that the issue is whether it correctly determined that the Signs are not entitled to claim non-conforming accessory use status pursuant to ZR § 42-58 because the signs were advertising signs on December 13, 2000, the relevant date for establishing a non-conforming accessory sign use; and

WHEREAS, DOB states that to the extent the Board finds that the signs became non-conforming accessory signs on December 13, 2000, the non-conforming uses were discontinued for more than two years while the signs were used to display advertising copy and the uses must terminate per ZR § 52-61 (General Provisions, Discontinuance); and

WHEREAS, DOB states that since ZR § 42-58 confers non-conforming status on a sign "with respect to the degree of non-conformity of such sign as of December 13, 2000 and where such sign shall have been issued a permit on or before such date," the provision requires that the sign exist lawfully on December 13, 2000 in accordance with a permit received prior to December 13, 2000 and with the Zoning Resolution before the new regulations governing size, illumination, projection, height and use took effect on February 27, 2001; and

WHEREAS, DOB states that only a sign that is lawfully erected prior to December 13, 2000 and existing on that date in accordance with its permit has non-conforming status as to its surface area, illumination, projection, height and use as either a non-conforming sign other than an advertising sign or a non-conforming advertising sign; and

WHEREAS, DOB states that contrary to the Appellant's claim, a sign that was used in violation of its permit and the Zoning Resolution on December 13, 2000 is not entitled to non-conforming use status under ZR § 42-58; and

WHEREAS, further, DOB asserts that ZR § 42-58's phrase, "with respect to the degree of non-conformity of such sign as of December 13, 2000," makes clear that a sign must be non-conforming on December 13, 2000 in order for the sign's non-conformity as to ZR §§ 42-52, 42-53, 52-54 and 42-55 (a) (1) and (b) to be established; and

WHEREAS, DOB states that a non-conforming use is defined in ZR § 12-10 as "any lawful use… which does not conform to any one or more of the applicable use regulations of the district in which it is located," but that a sign used contrary to permit and contrary to the Zoning Resolution on December 13, 2000 does not have any degree of non-conformity because it is not a lawful use on that date; and

WHEREAS, accordingly, DOB states that the advertising signs displayed on December 13, 2000 were not lawful and therefore were not non-conforming signs on that date as is required by ZR § 42-58; and

WHEREAS, DOB states that as of June 28, 1940, advertising signs were prohibited within 200 feet of an arterial highway (see ZR § 21-B, superseded by ZR § 42-53 and ZR § 42-55), so no advertising sign was allowed at the premises on December 13, 2000; and

WHEREAS, further, DOB states that the ZR § 12-10 definition states that an "advertising sign" "is not accessory to a use located on the zoning lot;" and

WHEREAS, DOB states that both Signs were authorized by permits issued on September 1, 1998 for non-illuminated accessory signs each having a surface area of 1,200 sq. ft. and that according to the Appellant's affidavit by Frank Nataro, the chief operating officer of the former owner of the Signs, the Signs were being used for advertising on December 13, 2000; and

WHEREAS, DOB states that the affidavit is supported by outdoor advertising display contracts, including an agreement to advertise an AT&T Wireless product in November and December 2000; and

WHEREAS, therefore, DOB states that since the Signs were used for advertising contrary to their permits and the Zoning Resolution, the signs were unlawful and not non-conforming on December 13, 2000 and any claim for non-conforming status under ZR § 42-58 must fail; and

WHEREAS, DOB asserts that the statute would not make sense if, as the Appellant contends, it grants non-conforming use status to a sign for a different use than the use authorized by the permit; and

WHEREAS, specifically, DOB states that the repeated phrase "such sign" in ZR § 42-58 makes clear that the same sign for which non-conforming use status is sought must have a permit issued prior to December 13, 2000 and that permitted sign's degree of non-conformity on December 13, 2000 establishes its non-conformity with ZR §§ 42-52, 42-53, 42-54 and 42-55 (a) (1) and (b); and

WHEREAS, DOB states that it is clear that the Appellant held permits for accessory signs issued prior to December 13, 2000; however, the Appellant concedes that on December 13, 2000 different signs used for unlawful advertising were on display; and

WHEREAS, DOB states that given that the permitted accessory signs were not the same as the ones on display on December 13, 2000, the accessory signs are not entitled to non-conforming use status; and

WHEREAS, DOB distinguishes ZR § 42-58 from ZR § 42-55(c), in that the former does not grant non-conforming use status to unlawful sign use; and

WHEREAS, DOB acknowledges that, in contrast, ZR § 42-55(c) confers non-conforming use status on a sign in existence on a specified date, regardless of whether the sign is authorized by a permit or was used consistently with its permit on such date; and

WHEREAS, DOB notes that the purpose of ZR § 42-55(c) is to allow unlawful advertising signs to be legalized, thus, the text merely requires that the sign exist as of a specified date and 1 RCNY § 49-15(d)(15) accepts, but does not require, permits as evidence that a non-conforming advertising use existed on the relevant date; under ZR § 42-55(c), a permit for an accessory sign may be submitted as evidence of a non-conforming advertising sign on the relevant date provided sufficient proof demonstrates that the sign was used, albeit contrary to the accessory sign permit, for advertising; and

WHEREAS, DOB asserts that there would be no reason for ZR § 42-58 to require a permit issued for a sign erected prior to December 13, 2000 if the sign could have been used in violation of its permit on that date and still be entitled to lawful non-conforming use status; and

WHEREAS, DOB asserts that since ZR § 42-58 requires an accessory sign to be lawfully non-conforming on December 13, 2000 to obtain the benefits of being treated as a non-conforming accessory sign pursuant to ZR § 52-82 with respect to ZR §§ 42-52, 42-53, 52-54 and 42-55 (a) (1) and (b), there is no support in the text for Appellant's argument that accessory or non-commercial copy was not required to be posted on the signs until March 20, 2010 when Local Law 14's New York City Construction Code amendments were enacted; and

WHEREAS, DOB states that any sign that was used for advertising on December 13, 2000 was unlawful and cannot meet the definition of a "non-conforming" use and that there is no need for the statute to provide a date by which to post accessory or non-commercial copy because the right to do so is already determined by the degree of non-conformance of the sign on December 13, 2000 and the two-year discontinuance period of ZR § 52-61; and

WHEREAS, DOB states that the Zoning Resolution does not grant a right to be non-conforming as to size, illumination, projection, height and use for a sign used contrary to its permit on December 13, 2000; rather, the right to be non-conforming pursuant to ZR § 42-58 is determined by the sign's lawful permitted use on December 13, 2000; and

WHEREAS, DOB states that its position that ZR § 42-58 confers non-conforming use status on a sign used on December 13, 2000 consistent with the permit and with the Zoning Resolution does not contradict the City's prior statements; and

WHEREAS, DOB states that the Appellant references certain statements made in the litigation Clear Channel Outdoor, Inc. v. City of New York, 608 F. Supp. 2d 477 [SDNY 2009], aff'd 594 F3d 94, which do not support the claim that a sign is entitled to non-conforming use status where the sign existing on December 13, 2000 was being unlawfully used contrary to its permit and the Zoning Resolution; and

WHEREAS, specifically, DOB asserts that the City's statements referenced in the Appellant's letter merely explain that a sign that is lawfully established as a non-conforming accessory sign loses its right to return to its non-conforming use after such sign is used as an advertising sign for more than two years and that a sign that was never lawfully non-conforming has no non-conforming use to reactivate; and

WHEREAS, DOB states that to the extent the Signs were non-conforming accessory signs, ZR § 52-61 imposes a two-year limitation on a discontinuance of the non-conforming sign uses notwithstanding the City's agreements to stay enforcement of ZR § 42-55 against all signs during litigation proceedings challenging ZR § 42-55 and ZR § 36-662 as unconstitutional restrictions on commercial speech; and

CONCLUSION

WHEREAS, the Board agrees with DOB that there is no basis in the Letters, the Zoning Resolution, or the Administrative Code to allow for the Signs to remain as accessory or non-commercial signs at their existing parameters of 1,200 sq. ft.; and

WHEREAS, the Board's primary points are that (1) the Appellant has not provided any support for its assertion that the Letters staying enforcement of ZR § 42-55 also delayed the starting point for the two-year discontinuance provision at ZR § 52-61 and (2) the Board agrees with DOB that legal

establishment of an accessory or non-commercial sign use on December 13, 2000 is a requirement for ZR § 42-58 to allow for the 1,200 sq. ft. signs to remain; and

WHEREAS, the Board finds that the Appellant fails on both of its arguments and DOB has basis to reject the Signs for either discontinuing the accessory use for a period of greater than two years or for failing to be lawfully established on December 13, 2000; and

WHEREAS, however, if the Board considers the Letters, the Board is unconvinced that the stay was to be read broadly due to the precision of the defined term "Regulations," regulations which were not to be enforced, which establishes a finite universe to be temporarily suspended that does not include ZR § 52-61 or the ZR § 12-10 definition of non-conforming use; and

WHEREAS, the Board is not compelled by the Appellant's arguments that ZR § 52-61 was left out of the Letters for a purpose or that silence on it suggests it was intended not to be included; and

WHEREAS, the Board notes that the citywide sign enforcement and associated litigation involved many different situations, kinds of signs, and zoning districts, and among all the relevant and applicable provisions of the Zoning Resolution, the Letters only identified ZR §§ 42-55 and 36-622 as not being enforced; and

WHEREAS, the Board finds that the identification of just two sections necessarily limited what could have been a much broader and uncertain landscape given the multitude of signs and other applicable provisions, which may or may not have seemed relevant at the time the Letters were drafted; and

WHEREAS, the Board recognizes that the purpose of a stay, like that set forth in the Letters, preserves the status quo; it does not allow for the commonly understood and enforced non-conforming use provisions of the Zoning Resolution to be rewritten; and

WHEREAS, accordingly, the Board finds that there is not any basis for the two-year discontinuation period to begin on March 22, 2010, rather than the February 27, 2001 date of the text amendment; and

WHEREAS, putting aside the question of legal establishment, the Board concludes that because there was not any implicit or explicit directive to toll the two-year discontinuance period, and the ability to install accessory or non-commercial signs with surface area in excess of 500 sq. ft. was extinguished on February 27, 2003, two years subsequent to the date of the text change; and

WHEREAS, the Board agrees with DOB that the Appellant made the choice to continue the advertising use through March 22, 2010 rather than endeavor to resume its now non-conforming accessory or non-commercial use in 2001, 2002, or 2003; and

WHEREAS, although the Board has not read or considered the terms of the parties' stipulation about the scope of the appeal and acknowledges that the Appellant has contested that DOB's arguments about the ZR § 42-58 requirements are beyond the scope, it concludes that because the Appellant and DOB both pursued the discussion of ZR § 42-58 and legal establishment, that it will also address the issue; and

WHEREAS, further, the Board finds that it is not possible to consider the requirements of ZR § 52-61 in a vacuum without incorporating the provisions of ZR § 42-58 and the ZR § 12-10 definition of non-conforming use; and

WHEREAS, first, the Board finds that the Appellant's reliance on (and declaration that) the Signs have existed without interruption as advertising signs from prior to December 13, 2000 to approximately March 22, 2010 makes any consideration under ZR § 52-61 a nonstarter because it fails the ZR § 12-10 requirement that the non-conforming use be lawfully established; and

WHEREAS, the Board finds that ZR § 42-58 must be read to require that the non-conforming use be *lawfully* established by December 13, 2000, and that a lawful use must comply with bulk and use parameters, which could have included a surface area of 1,200 sq. ft. but was limited to accessory or non-commercial use; and

WHEREAS, the Board notes that there is not any dispute that on December 13, 2000, the use was not legal; and

WHEREAS, the Board agrees with DOB that ZR § 42-58, which relies on the defined term "non-conforming use," does not include an exception to the ZR § 12-10 requirement for lawful establishment; and

WHEREAS, the Board does not find that ZR § 42-58 contemplates conferring non-conforming rights that were never established; and

WHEREAS, the Board finds that certain of the Appellant's arguments including those related to the continuity of the advertising use without any two-year interruption are misplaced and confuse the issue about what non-conforming use ZR § 42-58 protects; and

WHEREAS, the Board notes that the Appellant chose to continue the advertising signs, which were safe from enforcement during the stays, at the detriment of preserving the right to an accessory or non-commercial sign under pre-February 27, 2001 parameters; and

WHEREAS, the Board agrees with DOB that ZR § 42-58, unlike ZR § 42-55, relies on the lawful establishment of the non-conforming use; and

WHEREAS, further, the Board notes that advertising signs had been illegal at the site within 200 feet of the arterial since 1940, whereas other sign provisions had more contemporary rezoning dates; and

WHEREAS, the Board notes that ZR § 52-61 does not address the notion of a time period to revert to a secondary non-conforming use (re: an accessory or non-commercial sign with dimensions in excess of zoning) and there is nothing about converting from one never legal use to another which was legal at the time of permitting but only installed for a brief period; and

WHEREAS, the Board finds that the Appellant distorts the non-conforming use provisions by asserting that advertising signs preserve the right of accessory use signs at a

certain size and other physical parameters as there is not any connection between the non-conformance of the advertising signs which relate to content and the physical parameters of signs with restricted (accessory/non-commercial) content; and

WHEREAS, accordingly the Board finds that the deciding factor is the Signs' content as accessory signs are permitted even today, at smaller dimension; and

WHEREAS, finally, the Board notes that the Appellant has enjoyed the benefit of the Signs, which were never legal and were installed contrary to permit, for more than ten years; and

WHEREAS, lastly, the Board is not persuaded by the Appellant's invocation of the equitable estoppel doctrine or reversal of position; and

WHEREAS, the Board distinguishes the Appellant's case law on the matter of equitable estoppel on the primary basis that in DeMasco the City actually maintained a business relationship with the junkyard on which the junkyard relied as an indication that its rights were preserved and in Inner Force, the City made a specific procedural decision on which the petitioner relied; and

WHEREAS, the Board does not find that DOB's lack of enforcement or participation in the Letters has any relationship to the cases; and

WHEREAS, the Board also does not find that DOB has reversed its position, as the Appellant suggests; and

WHEREAS, in fact, the Board finds that the Appellant's statements about DOB's position actually reflect that DOB has maintained its position about requiring lawful establishment and that nothing was introduced into the record to support a claim that a conversion back to accessory/non-commercial use within two years of the end of the stay had ever been contemplated; and

WHEREAS, the Board finds that the absence of stating a requirement to conform to certain zoning requirements does not lead to a change in position once those requirements are articulated; and

WHEREAS, accordingly, the Board finds that both of the Appellant's arguments fail and DOB properly rejected the Signs from registration.

Therefore it is resolved that the subject appeal, seeking a reversal of the Final Determinations of the Department of Buildings, dated April 4, 2012, is hereby denied.

Adopted by the Board of Standards and Appeals, February 26, 2013.

THE RESOLUTION –

WHEREAS, the decision of the Manhattan Borough Commissioner, dated February 15, 2012, acting on Department of Buildings Application No. 120960291, reads in pertinent part:

> Proposed work to create a new use –UG#6 below the floor level of second floor level in Zoning M1-5B is not permitted as per ZR 42-14/2b. Provide approval from BSA as per ZR 42-31; and

WHEREAS, this is an application under ZR § 72-21, to permit within an M1-5B zoning district, the conversion of a portion of the first floor of an existing two-story building to a Use Group 6 use (including eating and drinking establishment), contrary to ZR § 42-14; and

WHEREAS, a public hearing was held on this application on August 7, 2012, after due notice by publication in the *City Record*, with continued hearings on September 25, 2012, November 20, 2012, and January 29, 2013, and then to decision on February 26, 2013; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 2, Manhattan, recommends disapproval of this application; and

WHEREAS, New York State Assembly Member Deborah J. Glick provided testimony in opposition to this application; and

WHEREAS, the owners of the adjacent building at 57 Crosby Street and the building at 55 Crosby Street, represented by counsel, provided written and oral testimony in opposition to the application; and

WHEREAS, a representative of the Friends of Petrosino Square, and other community members, also provided testimony in opposition to this application; and

WHEREAS, collectively, the parties who provided testimony in opposition to this application are known as the "Opposition"; and

WHEREAS, the Opposition raises the following primary concerns: (1) the intended size and scale of the combined restaurant is out of context with the surrounding area and would have a negative impact on the surrounding neighborhood; (2) the proposed expansion is not in the public interest; (3) the proposal will have detrimental impacts on traffic; (4) the proposal will exacerbate the negative impacts of the existing restaurant's ventilation system on the adjacent buildings and worsen the existing rodent problem near the site; (5) the claimed hardships are self-created due to the existence of the Joint Living-Work Quarters for Artists ("JLWQA") use in the rear portion of the building; and (6) a special permit from the City Planning Commission, pursuant to ZR § 74-781, rather than a variance, is the appropriate form of relief; and

WHEREAS, the subject site is located on the west side of Lafayette Street, between Broome Street and Spring Street, within an M1-5B zoning district; and

WHEREAS, the site has 25.59 feet of frontage on Lafayette Street, a depth of 100 feet, and a lot area of approximately 2,529 sq. ft.; and

WHEREAS, the site is occupied by a two-story building, with a total floor area of 4,344 sq. ft. (1.72 FAR); and

WHEREAS, the applicant states that the building is divided midway through the cellar, first, and second floors by a solid concrete masonry wall that divides the building into two portions (front and rear); and

WHEREAS, the applicant represents that the front portion of the building is currently vacant, though the front portion of the ground floor has been used for Use Group 6 retail uses for the past 15 years; the rear portion of the building is occupied by JLWQA use; and

WHEREAS, the applicant notes that in 1999 an easement was granted by the owner of Block 482, Lot 9, the adjacent property to the rear of the site, to permit ingress and egress by JLWQA tenants from the rear portion of the site to Crosby Street; and

WHEREAS, the applicant currently operates the restaurant located at 218 Lafayette Street (Block 482, Lot 27) on the first floor of the adjacent two-story building, and proposes to expand the existing restaurant into the cellar, ground floor, and second floor of the front portion of the subject building; and

WHEREAS, specifically, the applicant proposes to convert a total of 2,286 sq. ft. (0.53 FAR) of floor area of the subject building (1,265 sq. ft. on the first floor and 1,021 sq. ft. on the second floor), and an additional 985 sq. ft. of floor space at the cellar to a Use Group 6 eating and drinking establishment in conjunction with the existing restaurant at the adjacent 218 Lafayette Street; and

WHEREAS, the applicant notes that the second floor of the building is permitted to convert to restaurant use as-of-right, and therefore the proposed variance is only for the approximately 2,250 sq. ft. of floor space located at the front portion of the first floor and cellar of the subject building; and

WHEREAS, the rear portion of the cellar, first floor,

and second floor will remain as JLWQA space; and

WHEREAS, because the proposed Use Group 6 use is not permitted below the second floor in the subject M1-5B zoning district, the requested waiver is necessary; and

WHEREAS, the applicant states that the following are unique physical conditions, which create practical difficulties and unnecessary hardship in developing the subject site in conformance with underlying district regulations: (1) the underbuilt nature of the existing building; (2) the obsolescence of the existing building for manufacturing use; and (3) the effective shallowness of the lot; and

WHEREAS, as to the underbuilt nature of the existing building, the applicant states that the subject building is one of the smallest buildings in the surrounding area; and

WHEREAS, the applicant submitted an area study of the blocks within an 800-ft. radius of the site which reflects that the subject building has the ninth smallest floor area and the eighth smallest FAR of the more than 130 lots within the study area; and

WHEREAS, the applicant represents that this small building condition presents difficulties to the owner, as a lack of available space limits the ability to generate income for the site, and the building is dwarfed by much larger buildings in the immediate area; and

WHEREAS, the area study submitted by the applicant further reflects that the subject building is also one of only 13 properties within the 800-ft. radius area improved with a building of two stories or less, and the applicant states that this condition creates practical difficulties for the owner as there are only two floors from which to generate income; and

WHEREAS, the applicant represents that the unique small floor area, underbuilt FAR and two-story condition at the building do not support the use of the ground floor for a conforming use, resulting in difficulties in generating a reasonable return absent the requested variance; and

WHEREAS, the applicant states that the presence of JLWQA space in the subject building creates an additional hardship in that the existing two-story building cannot be enlarged despite the permitted maximum 5.0 FAR because, pursuant to ZR § 43-17 (Special Provisions for Joint Living-Work Quarters for Artists in M1-5A and M1-5B Districts), "no *building* containing *joint living-work quarters for artists* shall be *enlarged*"; and

WHEREAS, the applicant states that of the 12 other small buildings in the area study, the subject building is the only site that contains JLWQA use and is therefore unable to enlarge; and

WHEREAS, the applicant further states that the building is obsolete for manufacturing uses due to the limited space available to install any equipment to accommodate such conforming use; and

WHEREAS, specifically, the applicant states that any manufacturing or wholesale tenant would have operational problems including (1) no loading docks; (2) an extremely small floorplate and (3) the lack of an elevator to move product between the ground and cellar floors; and

WHEREAS, the applicant represents that these factors, among others, have contributed to the historic inability to maintain a continued M1-5B conforming use on the ground floor of the building; and

WHEREAS, the applicant represents that the site suffers from an additional hardship due to the effective shallowness and undersized nature of the lot; and

WHEREAS, specifically, the applicant states that although the subject lot is 100 feet deep, the existing building is divided midway on the cellar, first, and second floors by a demising wall that effectively cuts the building in half; and

WHEREAS, the applicant further states that this feature results in effective lot dimensions for the non-JLWQA front portion of approximately 50 feet deep by 25 feet wide, or 1,250 sq. ft., and this effective floorplate of 50 feet deep makes the site one of the shallowest in the surrounding area; and

WHEREAS, the applicant represents that the shallow floorplate, which is part of a condition dating back 30 years in a building that is close to 100 years old, is a unique condition that gives rise to significant difficulties in using the space for an as-of-right use; and

WHEREAS, the Board disagrees with the applicant's arguments regarding the effective shallowness of the lot, as it considers the demising wall that divides the building in half to be a self-created hardship for which the applicant is not entitled to relief; and

WHEREAS, however, the Board finds that the other unique physical conditions cited by the applicant, specifically the underbuilt nature of the existing building and its obsolescence for manufacturing use, when considered in the aggregate, create practical difficulties and unnecessary hardship in developing the site in conformance with the applicable zoning regulations; and

WHEREAS, as to the financial feasibility of the site, the applicant submitted a feasibility study analyzing the following scenarios: (1) an as-of-right scenario with ground floor warehouse/storage use; (2) an as-of-right scenario with ground floor business service use; (3) an as-of-right scenario with JLWQA use; and (4) the proposed scenario; and

WHEREAS, the applicant asserts that the three as of right scenarios would result in a negative rate of return and that the proposed use is the minimum necessary to achieve a reasonable return; and

WHEREAS, the Board directed the applicant to provide an analysis of a "stand-alone" restaurant at the site, without reference to the existing restaurant at 218 Lafayette Street, as well as an analysis of retail use of the site; and

WHEREAS, in response, the applicant provided a letter from its financial analyst stating that use of the building for a stand-alone restaurant or retail as opposed to an expansion of the existing restaurant at 218 Lafayette Street should not affect the financial feasibility of the project; thus, a stand-alone restaurant or retail use would realize a reasonable return; and

WHEREAS, at the Board's direction, the applicant also provided analyses of alternative variance scenarios, including:

(1) an enlarged five-story building with Use Group 7 use on the ground floor and Use Group 6 use above, which would be permitted as of right except for the need to waive ZR § 43-17 to permit enlargement of a JLWQA building; and (2) an enlarged seven-story building containing solely Use Group 17 JLWQA use, which would require a waiver of ZR § 43-17 to permit enlargement of a JLWQA building and ZR § 42-14 to permit new JLWQA use; and

WHEREAS, the applicant asserts that neither of the alternative variance scenarios would realize a reasonable return; and

WHEREAS, the Opposition submitted a letter from a real estate broker stating that a lesser variance for conventional retail use in the subject building would result in a rental value of $90 per sq. ft., which would provide a reasonable return; and

WHEREAS, in response, the applicant submitted a letter from its financial analyst which states that the Opposition's estimate that conventional retail use could garner a rental value of $90 per sq. ft. is unsupported, but that even if that $90 per sq. ft. price for conventional retail space claimed by the Opposition is substituted for the $105 per sq. ft. rent currently assumed by the applicant's analysis, then the project would not be economically feasible, as the capitalized value would be eight percent less than the project development cost; and

WHEREAS, based upon its review of the applicant's submissions, the Board has determined that because of the subject lot's unique physical conditions, there is no reasonable possibility that development in strict conformance with applicable zoning requirements will provide a reasonable return; and

WHEREAS, the applicant represents that the proposed variance will not negatively affect the character of the neighborhood, nor impact adjacent uses; and

WHEREAS, the applicant notes that many of the buildings in the immediate vicinity are used for Use Group 6 purposes on the first floor with residential or loft space above; and

WHEREAS, the applicant states that the immediately surrounding neighborhood maintains a distinctly commercial character, and the ground floors of all but one of the lots on the blockfront on which the site is located, Lafayette Street between Spring Street and Broome Street, are occupied by Use Group 6 uses; and

WHEREAS, the applicant further states that this portion of Lafayette Street is particularly characterized by ground floor restaurant use; there are six restaurants, together with a large bank, a large furniture store, and a lingerie boutique; and

WHEREAS, the applicant notes that Use Group 6 use, including an eating and drinking establishment, is permitted as of right on the building's second floor; and

WHEREAS, further, the applicant notes that the existing two-story building will remain and that it will not be enlarged and no bulk waivers are sought; and

WHEREAS, the Opposition argues that the proposed expansion of the restaurant at 218 Lafayette Street to the subject building would create a large restaurant that does not fit within context of community, and that the smaller restaurants which currently exist in the neighborhood do not result in the traffic, safety, noise, and congestion issues that larger restaurants will inevitably bring to the area, and the applicant has not presented any adequate plan for handling the increase in traffic, congestion, and noise that a larger restaurant would bring to the community; and

WHEREAS, in response, the applicant states that the character of the surrounding area is primarily Use Group 6 on the ground floor, and the character of this particular blockfront is primarily restaurant use, and while many of the eating and drinking establishments in the area are smaller, the proposed restaurant here will by no means be the "mega" restaurant alleged by the Opposition, but will instead be comparable in square footage and/or number of patrons to other neighborhood restaurants, including Balthazar and Spring Natural; and

WHEREAS, in light of the concerns raised by the Opposition regarding the expansion of the existing restaurant at 218 Lafayette Street to the subject building, and the fact that the applicant's financial analysis indicates that a smaller, stand-alone restaurant would realize a reasonable return on the site, the Board finds it appropriate to limit any Use Group 6 eating and drinking establishment on the site to the confines of the subject building and not permit any connection to or expansion of the existing restaurant at 218 Lafayette Street and the subject site; and

WHEREAS, the Opposition asserts that the existing restaurant at 218 Lafayette Street emits foul odors that negatively impact the surrounding neighbors and has created a rodent problem at the rear of the restaurant, and that expanding the restaurant use to the subject building would exacerbate these conditions; and

WHEREAS, in response, the applicant submitted a letter from the project architect stating that the ventilation system at the existing restaurant has recently been upgraded and now exhaust toward Lafayette Street in an effort to reduce any impact on the rear neighbors and the proposed ventilation at the subject building would be located toward the front half of the building; and

WHEREAS, as to the alleged rodent problem, the applicant states to the extent such a problem exists it is not related to the existing restaurant at 218 Lafayette Street, which does not have access to the rear of the building, does not store garbage receptacles at the rear of the building, received an "A" grade from the Department of Health, and has never been issued a violation for anything involving vermin; and

WHEREAS, in response to the concerns raised by the Opposition that the proposal would have a detrimental impact on traffic in the surrounding area, the applicant submitted a letter from an environmental consultant noting that the vast majority of the patrons of the existing restaurant arrive by foot or mass transit, and not by car, and the applicant notes that an as-of-right commercial or manufacturing use would generate delivery and/or patron traffic that would similarly affect the

surrounding neighborhood; and

WHEREAS, as to concerns regarding pedestrian traffic, the applicant states that the photographs submitted by the Opposition showing busy sidewalks in the Petrosino Square area all show establishments with sidewalk cafes and outdoor seating, which the existing restaurant does not currently maintain and is not proposed at the site, and the applicant notes that none of the submitted photographs are of the outside of the existing restaurant; and

WHEREAS, based upon the above, the Board finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Opposition asserts that the alleged hardship is self-created due to the existence of the JLWQA use in the rear portion of the building; and

WHEREAS, in response, the applicant states that the unnecessary hardship encountered by a strict application of the zoning regulations to the site was not caused by the owner of the site nor a predecessor in interest, but is inherent in the (1) underdeveloped nature of the building, (2) existing building conditions, including (a) small floorplates, (b) the lack of a loading dock, and (c) the lack of elevators, and (3) use regulations which prohibit enlargement of the Building (with the exception of mezzanines within JLWQA units); and

WHEREAS, as noted above, the Board finds that the hardship alleged by the applicant with regard to the demising wall that creates a shallow lot condition in the building is a self-created hardship; however, the Board finds the remaining hardships cited by the applicant were not created by the owner or a predecessor in title, but are due to the unique conditions of the site; and

WHEREAS, the Board finds that the hardship herein was not created by the owner or a predecessor in title, but is due to the unique conditions of the site; and

WHEREAS, the applicant asserts that the proposal for Use Group 6 use represents the minimum variance needed to allow for a reasonable and productive use of the site; and

WHEREAS, the Opposition asserts that restricted Use Group 6 use, which would exclude an eating and drinking establishment would represent a lesser variance yet still be feasible; and

WHEREAS, as noted above, the Board finds it appropriate to limit any Use Group 6 eating and drinking establishment use of the site to the subject building and not permit any connection to the existing eating and drinking establishment at 218 Lafayette Street; and

WHEREAS, further, the Board notes that in cases where it restricted all eating and drinking use, the buildings were substantially larger and more fully developed and primarily with new residential use that it deemed to provide the required economic relief; the Board finds such cases to be distinguishable and directs its inquiry to the specific conditions of the subject site; and

WHEREAS, accordingly, the Board finds that the proposal, for the re-use of an existing building where the proposed use is permitted as of right on the second floor, without any enlargement of the building envelope, is the minimum necessary to afford relief, based on the analysis of the site and the economic feasibility; and

WHEREAS, the Opposition raised a supplemental argument that the applicant is required to seek a special permit from the City Planning Commission in lieu of a variance; and

WHEREAS, the Board finds that the variance process, with its five required findings, actually reflects the breadth of analysis that the Opposition seeks and that the Opposition's arguments that the special permit should be sought first are actually incompatible with the arguments that they request that the highest threshold be set for granting relief to allow the proposed Use Group 6 use throughout the building; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as an Unlisted Action pursuant to Section 617.4 of 6NYCRR; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 12BSA093M, dated March 16, 2012; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved that the Board of Standards and Appeals issues a Negative Declaration, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21, to permit, within an M1-5B zoning district, the conversion of a portion of the first floor and cellar of an existing two-story building to a Use Group 6 use (including eating and drinking establishment); *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received February 25, 2013"– seven (7) sheets; and *on*

further condition:

THAT the term of this grant will expire on February 26, 2023;

THAT the use will be limited to Use Group 6 on the ground floor and cellar levels (with 1,265 sq. ft. of Use Group 6 floor area at the first floor and 985 sq. ft. of Use Group 6 floor space at the cellar), as shown in the BSA-approved plans;

THAT if the use of the ground floor and cellar is as a Use Group 6 eating and drinking establishment, the following conditions will apply: (1) the maximum seating capacity, including any accessory bar seating, will be limited to a maximum of 45 patrons on the first floor and 40 patrons on the second floor; (2) the closing time will be no later than 11:00 p.m., Sunday through Thursday, and 12:00 a.m., Friday and Saturday; (3) there will be no live music or DJs; (4) there will be no outdoor space for eating and drinking; and (5) there will be no interior connection between the eating and drinking establishment and the adjacent buildings, except for emergency ingress/egress in the cellar as reflected on the BSA-approved plans;

THAT the operation of the site will be in compliance with Noise Code regulations;

THAT any rooftop mechanical and ventilation equipment related to the Use Group 6 uses will be directed away from adjoining residential buildings;

THAT the above conditions will be noted on the Certificate of Occupancy;

THAT the internal floor layouts on each floor will be as reviewed and approved by DOB;

THAT this approval is limited to the relief granted by the Board, in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, February 26, 2013.

75-12-BZ
CEQR #12-BSA-106M

APPLICANT – Sheldon Lobel, P.C., for 547 Broadway Realty, Inc. c/o Andrews Building Corporation, owner.

SUBJECT – Application March 30, 2012 – Variance (§72-21) to permit the legalization of retail use (UG 6) on the first floor and expand the use into the cellar and sub-cellar, contrary to use regulations (§42-14 (D)(2)(b)). M1-5B zoning district.

PREMISES AFFECTED – 547 Broadway, between Prince Street and Spring Street, Block 498, Lot 15, Borough of Manhattan.

COMMUNITY BOARD #2M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Manhattan Borough Commissioner, dated February 29, 2012, acting on Department of Buildings Application No. 120991150, reads in pertinent part:

> Proposed works to create a new use – UG#6 below the floor level of second floor level in Zoning M1-5B is not permitted as per ZR 42-12/2b. Provide approval from BSA as per ZR 42-12; and

WHEREAS, this is an application under ZR § 72-21, to permit, in an M1-5B zoning district within the SoHo-Cast Iron Historic District, the legalization of the first floor of an existing six-story building to a commercial retail use (UG 6) with expansion into the cellar and accessory retail use in the subcellar, contrary to ZR § 42-14(d)(2)(b); and

WHEREAS, a public hearing was held on this application on December 4, 2012, after due notice by publication in the *City Record*, with a continued hearing on January 15, 2013, and then to decision on February 26, 2013; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 2, Manhattan, recommends approval of this application, with the condition that an eating and drinking establishment not be permitted; and

WHEREAS, the subject site is a through lot with frontage on Broadway and Mercer Street, between Prince Street and Spring Street, in an M1-5B zoning district within the SoHo-Cast Iron Historic District; and

WHEREAS, the site has 25 feet of frontage on Broadway and Mercer Street, a depth of 200.25 feet, and a lot area of 5,006.25 sq. ft.; and

WHEREAS, the site is currently occupied by a 26,058

sq. ft. (5.2 FAR) building with a five-story portion on Mercer Street and a six-story portion on Broadway, with ground floor retail use, commercial use on the second floor, and Joint Live Work Quarters for Artists ("JLWQA") units on the third through sixth floors; and

WHEREAS, on April 12, 1988, under BSA Cal. No. 1081-85-ALC, the Board granted an authorization pursuant to ZR § 72-30 to exclude floor area from the relocation incentive contribution relating to the building's change of use from commercial/manufacturing to JLWQA use on the third through sixth floors; and

WHEREAS, the applicant now seeks to legalize the 4,832 sq. ft. of retail floor area on the first floor, and to expand the retail use to 10,266 sq. ft. of floor space at the cellar and sub-cellar; and

WHEREAS, because Use Group 6 retail is not permitted below the second floor in the subject M1-5B zoning district, the applicant seeks a use variance; and

WHEREAS, the applicant states that the following are unique physical conditions, which create practical difficulties and unnecessary hardship in developing the subject site in conformance with underlying district regulations: (1) the narrowness of the lot; and (2) the obsolescence of the existing building for manufacturing use; and

WHEREAS, as to the narrow width, the applicant states that the building has a width of 25'-0", which results in narrow floor plates that are ill-suited for manufacturing use or other conforming uses; and

WHEREAS, further, the applicant represents that the building has a light well which is along one lot line and measures 5'-10" by 29'-10", reducing the effective interior width of the building to 15'-5" at its narrowest point, which exacerbates the hardship by further limiting the floor plates for a conforming use; and

WHEREAS, the applicant represents that the configuration on the subject site is unique in the surrounding area; and

WHEREAS, the applicant provided a study which indicated that out of 500 lots on blocks zoned M1-5B or M1-5A within 1,000 feet of the site, there are only 182 lots that are 25'-0" or less in width; of these 182 lots, 75 lots have an effective width of less than 25'-0", and only five of these lots have conforming uses on the ground floor; and

WHEREAS, further, of these 75 lots, only six contain buildings with light wells other than the subject site; and only one building containing a light well is occupied by a conforming use (JLWQA) on the ground floor; and

WHEREAS, the applicant concludes that the lack of conforming uses occupying buildings with narrow widths reinforces the fact that such narrow widths are unable to reasonably accommodate conforming uses; and

WHEREAS, as to the obsolescence of the building, the applicant identifies the following conditions: (a) the absence of a loading dock and the inability to install a loading dock, (b) limited street access at the site, (c) severely limited space to install any equipment to accommodate light manufacturing uses and (d) the lack of a working freight elevator; and

WHEREAS, the applicant states that other narrow properties within 400 feet of the site may have similar characteristics, however, none are occupied by a conforming use; and

WHEREAS, the applicant states that, further, the ground floor tenant is severely limited in its access to the building since the upper floor JLWQA tenants have street access through both Broadway and Mercer Street; and

WHEREAS, based on the above arguments and analyses, the Board agrees that the unique physical conditions cited above, when considered in the aggregate, create practical difficulties and unnecessary hardship in developing the site in conformance with the applicable zoning regulations; and

WHEREAS, the applicant submitted a feasibility study analyzing the following scenarios: (1) conforming use at the first floor and cellar; and (2) the proposed ground floor and cellar retail use; and

WHEREAS, the study concluded that the conforming scenario would not result in a reasonable return, but that the proposal would realize a reasonable return; and

WHEREAS, the applicant represents that the first floor and the cellar were listed with a real estate broker for a period of 120 days, however the broker was unable to secure a tenant to occupy the space for light manufacturing use; and

WHEREAS, based upon its review of the applicant's submissions, the Board has determined that because of the subject lot's unique physical conditions, there is no reasonable possibility that development in strict compliance with applicable zoning requirements will provide a reasonable return; and

WHEREAS, the applicant represents that the proposed variance will not negatively affect the character of the neighborhood, nor impact adjacent uses; and

WHEREAS, the applicant notes that many of the buildings in the immediate vicinity contain ground floor retail uses with residential space above, particularly along both Broadway, a major retail street, and along Mercer Street between Prince and Spring Streets; and

WHEREAS, further, the applicant represents that the proposal will not affect the historical integrity of the property; and

WHEREAS, the applicant submitted a Certificate of No Effect from LPC, approving the proposal on February 13, 2013; and

WHEREAS, in response to the concerns raised by the Community Board, the applicant has agreed to not allow any eating or drinking establishments to occupy the ground floor space; and

WHEREAS, based upon the above, the Board finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Board finds that the hardship herein was not created by the owner or a predecessor in title; and

WHEREAS, the applicant represents that the proposal represents the minimum variance needed to allow for a

reasonable and productive use of the site; and

WHEREAS, the applicant notes that there is no proposed increase in the bulk of the building; and

WHEREAS, accordingly, the Board finds that this proposal is the minimum necessary to afford relief; and

WHEREAS, thus, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as a Type I action pursuant to 6 NYCRR, Sections 617.6(h) and 617.2(h) of 6 NYCRR; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 12BSA106M, dated October 3, 2012; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 to permit, in an M1-5B zoning district within the SoHo-Cast Iron Historic District, the legalization of the first floor of an existing building to a commercial retail use (UG 6) with expansion into the cellar and accessory retail use in the sub-cellar, contrary to ZR § 42-14(d)(2)(b); *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received February 7, 2013"– seven (7) sheets; and *on further condition*:

THAT no eating and drinking establishment will be permitted on the site;

THAT this approval is limited to the relief granted by the Board, in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT substantial construction shall be completed pursuant to ZR § 72-23;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, February 26, 2013.

159-12-BZ
CEQR #12-BSA-138Q

APPLICANT – Eric Palatnik, P.C., for Joseph L. Musso, owner.

SUBJECT – Application May 22, 2012 – Variance (§72-21) to allow for the enlargement of a Use Group 4 medical office building, contrary to rear yard requirements (§24-36). R3-2 zoning district.

PREMISES AFFECTED – 94-07 156th Avenue, between Cross Bay Boulevard and Killarney Street, Block 11588, Lot 67, 69, Borough of Queens.

COMMUNITY BOARD #10Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5
Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Queens Borough Commissioner, dated May 4, 2012, acting on Department of Buildings Application No. 420294568, reads in pertinent part:

Second floor extension in rear yard is contrary to ZR 24-36; and

WHEREAS, this is an application under ZR § 72-21, to permit, on a site within an R3-2 zoning district, the proposed extension of the existing second floor of the subject building, which does not comply with zoning regulations for the minimum required rear yard, contrary to ZR § 24-36; and

WHEREAS, a public hearing was held on this application on November 20, 2012, after due notice by publication in the *City Record*, with a continued hearing on January 29, 2013, and then to decision on February 26, 2013; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 10, Queens, recommends approval of this application; and

WHEREAS, New York State Senator Joseph P. Addabbo, Jr., and New York State Assembly Member Phillip Goldfeder provided written testimony in support of this application; and

WHEREAS, the subject site is located on the north side of 156th Avenue, between Killarney Street and Cross Bay

Boulevard, within an R3-2 zoning district; and

WHEREAS, the subject lot has approximately 51.5 feet of frontage on 156th Avenue, a depth ranging from 96 feet to 108 feet, and a total lot area of 5,215 sq. ft.; and

WHEREAS, the site is occupied by a two-story medical office building (Use Group 4) with a floor area of 3,881 sq. ft. (0.75 FAR); and

WHEREAS, the applicant states that the subject building was originally constructed as a two-story multi-family home, and in 2006 an as-of-right addition was constructed at the rear of the building, including the construction of a new foundation system for the rear enlargement (the "2006 Enlargement"), and the building was converted to medical office use; and

WHEREAS, the applicant notes that the first floor of the building is constructed to the rear lot line, but the second floor of the building is currently situated at the front of the building and does not extend to the rear lot line; and

WHEREAS, the applicant now proposes to enlarge the building by extending the second story to the rear lot line, directly above the existing first floor; and

WHEREAS, the proposed building will have the following complying parameters: 4,948 sq. ft. of floor area (0.95 FAR); a lot coverage of 47 percent; a total height of 19'-8"; a side yard with a width of 8'-0" along the eastern lot line; a side yard with a width of 7'-6" along the western lot line; and a front yard with a depth of approximately 26'-0"; and

WHEREAS, however, the applicant proposes to provide a rear yard with a depth of 1'-10" (the minimum required rear yard is 30'-0"); and

WHEREAS, the applicant states that the following are unique physical conditions which create an unnecessary hardship in developing the site in compliance with applicable regulations: (1) the poor sub-surface soil conditions at the site; (2) the high water table at the site; and (3) the existing building structure; and

WHEREAS, the applicant submitted a report from an engineer stating that soil borings at the site reflect that (1) the site has poor soil conditions with a fill layer that is approximately 9'-0" thick, (2) the fill layer is underlain by loose to moderately dense sandy soil, and (3) natural groundwater was encountered at a depth of approximately 6'-11" below existing grade; and

WHEREAS, the applicant states that the subject site is also underbuilt for community facility use and any enlargement of the building must be constructed above grade because the existing building on the site in conjunction with the poor soil conditions and high water table preclude the applicant from enlarging the building below grade; and

WHEREAS, the applicant further represents that the existing building structure, which was originally constructed as a wood-frame home, impedes the viability of a complying enlargement of the building; and

WHEREAS, specifically, the applicant analyzed an as-of-right scenario consisting of a 1,160 sq. ft. addition above the second floor level at the front of the building; and

WHEREAS, the applicant also submitted an engineer's report which states that the foundation for the existing two-story building cannot support the additional third floor loads, and new foundation elements would be required to support the addition; and

WHEREAS, however, the engineer's report notes that the proposed enlargement, consisting of the extension of the existing second story of the building to the rear lot line, directly above the existing first floor, can be supported by the new foundation system that was constructed for the rear portion of the building in association with the 2006 Enlargement, and therefore the proposed addition would only require the construction of a new floor level and roof using engineered wood joists; and

WHEREAS, the applicant notes that while a new foundation system capable of accommodating an additional story was constructed at the rear of the building in association with the 2006 Enlargement, the front of the building maintains the prior foundation system which is not capable of accommodating a third story without the addition of new foundation elements; and

WHEREAS, the applicant states that these foundation elements include the installation of new helical piles and pile caps, a steel frame, and metal floor joists that support a concrete slab; and

WHEREAS, the applicant further states that the as-of-right addition of a third story at the front of the building would also be too heavy for the existing framing to support, and new structural framing would have to be installed to accommodate the addition; and

WHEREAS, the engineer's report provided a cost estimate for the aforementioned premium costs associated with the as-of-right scenario, which indicates that the construction of a third floor at the front of the building will result in approximately $215,400 in additional costs as compared to the proposed enlargement, due to the additional foundation, framing, and elevator costs associated with the work; and

WHEREAS, accordingly, the Board finds that the aforementioned unique physical conditions, when considered in the aggregate, create unnecessary hardship and practical difficulty in developing the site in compliance with the applicable zoning regulations; and

WHEREAS, the applicant provided a financial analysis for (1) the existing medical office building without any enlargement; (2) an as-of-right enlargement to the medical office building, consisting of a 1,160 sq. ft. third floor addition at the front of the building; and (3) the proposed 1,067 sq. ft. enlargement of the medical office building consisting of an extension of the second floor to the rear lot line; and

WHEREAS, the applicant concluded that the existing and as-of-right scenarios would not result in a reasonable return due to the unique physical conditions of the site, but that the proposed building would realize a reasonable return and has submitted evidence in support of that assertion; and

WHEREAS, based upon its review of the applicant's submissions, the Board has determined that because of the subject lot's unique physical conditions, there is no reasonable

possibility that development in strict compliance with applicable zoning requirements will provide a reasonable return; and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare; and

WHEREAS, the applicant states that the area to the east and south of the site is comprised primarily of two-story one- and two-family homes, with a few multiple dwellings and community facilities interspersed; and

WHEREAS, the applicant submitted an analysis of the surrounding neighborhood character which notes that, with the exception of the four-story building located adjacent to the west of the site, no other building in the study area exceeds two stories in height, and the effect of extending the bulk of the second floor, which will not increase the existing height of the building, would be minimal; and

WHEREAS, the neighborhood analysis submitted by the applicant states that the neighborhood character in the study area is mainly perceived from the street, and because the proposed second floor extension will not be clearly visible from the street it will not have a negative impact on the neighborhood character; and

WHEREAS, the neighborhood analysis further states that the consistent form of the neighborhood is two-story buildings without setbacks, and therefore, the second floor extension will arguably result in a building that is more consistent with the neighborhood character than the existing building; and

WHEREAS, the neighborhood analysis indicates that the proposed second floor extension will have no meaningful impact on the four-story building to the north and west of the site that is additionally buffered from the site by a parking lot, and will similarly not impact the neighboring properties to the east and northeast, as the footprint of the building is aligned with adjacent lot to the rear for just three feet at the very rear of the adjacent lot and will not result in the loss of light and air or in the crowding of the buildings; and

WHEREAS, the analysis submitted by the applicant concludes that the proposed second floor extension is more consistent with the surrounding neighborhood character, which includes a very uniform building height of two stories, than the as-of-right addition of a third story at the front of the building; and

WHEREAS, the applicant notes that the proposed extension of the community facility use at the second floor would be allowed as a permitted obstruction in the rear yard up to a height of one-story or 23'-0"; thus, the proposed extension, with a height of approximately 19'-8", is within the permitted rear yard obstruction height of 23'-0" and is only non-complying because it is two stories; and

WHEREAS, based upon the above, the Board finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Board finds that the hardship herein was not created by the owner or a predecessor in title, but is the result of the site's unique subsurface soil conditions; and

WHEREAS, the Board finds that this proposal is the minimum necessary to afford the owner relief; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

Therefore it is Resolved that the Board of Standards and Appeals issues a Type II Declaration under 6 NYCRR Part 617.5 and 617.13, §§ 5-02(a), 5-02(b)(2), and 6-15 of the Rules of Procedure for City Environmental Quality Review, and makes the required findings under ZR § 72-21 to permit, on a site within an R3-2 zoning district, the proposed horizontal enlargement to the existing second floor of the subject building, which does not comply with zoning regulations for the minimum required rear yard, contrary to ZR § 24-36, *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received February 14, 2013"- eleven (11) sheets; and *on further condition*:

THAT the following shall be the bulk parameters of the building: 4,948 sq. ft. of floor area (0.95 FAR); a total height of 19'-8"; and minimum rear yard depth of 1'-10", as illustrated on the BSA-approved plans;

THAT no mechanical equipment will be located within 30'-0" of the rear lot line;

THAT there will be no entrance or exit at the rear of the building;

THAT construction shall proceed in accordance with ZR § 72-23;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, February 26, 2013.

234-12-BZ
CEQR #13-BSA-006X
APPLICANT – Rothkrug Rothkrug & Spector LLP, for 1776 Eastchester Realty LLC, owner; LA Fitness, lessee.
SUBJECT – Application July 20, 2012 – Special Permit (§73-36) to allow a physical culture establishment (*LA Fitness*). M1-1 zoning district.
PREMISES AFFECTED – 1776 Eastchester Road, east of Basset Avenue, west of Marconi Street, 385' north of intersection of Basset Avenue and Eastchester Street, Block 4226, Lot 16, Borough of Bronx.
COMMUNITY BOARD #11BX
ACTION OF THE BOARD – Application granted on condition.
THE VOTE TO GRANT –
Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5
Negative:.....0
THE RESOLUTION –

WHEREAS, the decision of the Bronx Borough Commissioner, dated October 19, 2012, acting on Department of Buildings Application No. 2201787, reads in pertinent part:

> Proposed PCE in a M1-1 zoning district in contrary to Section 42-10 ZR and requires a special permit from the BSA pursuant to 73-36 ZR; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site located in an M1-1 zoning district, the operation of a physical culture establishment (PCE) on the first and second floors of a proposed seven-story enlargement to an existing two-story building, contrary to ZR § 42-10; and

WHEREAS, the site is located within a larger zoning lot to be occupied by the Hutchinson Metro Center, a 42-acre campus with hotel and office space, and related uses located off the Hutchinson River Parkway in the Pelham Bay section of the Bronx; and

WHEREAS, a public hearing was held on this application on January 29, 2013, after due notice by publication in *The City Record*, and then to decision on February 26, 2013; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Montanez, Commissioner Hinkson and Commissioner Ottley-Brown; and

WHEREAS, Community Board 11, Bronx, recommends approval of this application; and

WHEREAS, the subject site is a through lot located east of Basset Avenue, west of Marconi Street, approximately 385 feet north of the intersection of Basset Avenue and Eastchester Road; and

WHEREAS, the site is occupied by an existing two-story building which is proposed to be enlarged to a seven-story commercial building; and

WHEREAS, the proposed PCE will occupy 44,273 sq. ft. of floor area, including 29,873 sq. ft. on the first floor for a front desk, retail sales area, circuit equipment, free weights, pool, locker rooms, and a children's area, and 14,400 sq. ft. on the second floor for a spinning area, aerobics studio, cardio equipment, and a personal training area; and

WHEREAS, the PCE will be operated as L.A. Fitness; and

WHEREAS, the applicant represents that the services at the PCE include facilities for instruction and programs for physical improvement; and

WHEREAS, the applicant requests the Board to permit the PCE to operate 24 hours a day, seven days a week; and

WHEREAS, in support of such hours, the applicant represents that the PCE is within a larger office complex located within a manufacturing district where residential uses are prohibited, and will cater primarily to business and institutions located within the development and in the surrounding area; and

WHEREAS, further, the applicant represents that many of the potential patrons work in facilities that have 24-hour operations including medical facilities and multiple hospitals located in the immediate area (including Bronx Psychiatric Center, Jacobi Medical Center, Einstein College of Medicine and Calvary Hospital; and

WHEREAS, the applicant provided a map showing the proximity of the surrounding institutions; and

WHEREAS, based on the above, the Board agrees that in this instance, a 24-hour operation for the proposed PCE is appropriate; and

WHEREAS, accordingly, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as a Unlisted action pursuant to 6 NYCRR Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement, CEQR No.13BSA006X, dated July 19, 2012; and

WHEREAS, the EAS documents that the operation of

the PCE would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to permit, on a site in an M1-1 zoning district, the operation of a physical culture establishment on the first and second floors of a proposed seven-story enlargement to an existing two-story building, contrary to ZR § 42-10; *on condition* that all work shall substantially conform to drawings filed with this application marked "Received February 20, 2013" – Eight (8) sheets and *on further condition*:

THAT the term of this grant will expire on February 26, 2023;

THAT there will be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT all massages must be performed by New York State licensed massage therapists;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT Local Law 58/87 compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT substantial construction will be completed in accordance with ZR § 73-70;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, February 26, 2013.

35-11-BZ
APPLICANT – The Law Office of Fredrick A. Becker, for Congregation Othel, owners.
SUBJECT – Application March 31, 2011 – Variance (§72-21) to allow for the enlargement of an existing synagogue (*Congregation Ohel*), contrary to floor area, lot coverage (§24-11), front yard (§24-34), side yard (§24-35), rear yard (§24-36) and parking (§25-31). R2A zoning district.
PREMISES AFFECTED – 226-10 Francis Lewis Boulevard, 1,105' west of Francis Lewis Boulevard, Block 12825, Lot 149, Borough of Queens.

THE RESOLUTION:

WHEREAS, the decision of the Manhattan Borough Commissioner, dated May 31, 2012, acting on Department of Buildings Application No. 121048801 reads, in pertinent part:

> ZR 109-121 – The existing floor area exceeds the 4.8 permitted by this section within Preservation Area A.
> ZR 109-122 – The proposed enlargement exceeds lot coverage permitted by this section.
> 1. ZR 54-31 – In a C6-2G Zoning District within Preservation Area A the existing bulk and lot coverage are non-complying, therefore the proposed enlargement increases the non-compliance and is not permitted; and

WHEREAS, this is an application for a variance pursuant to ZR § 72-21 to permit, on a site in a C6-2G zoning district within the Special Little Italy District (LI) Area A the enlargement of an existing nine-story community facility building (Use Group 4), which does not comply with the underlying zoning district regulations for floor area and lot coverage and increases the degree of non-complying floor area and lot coverage conditions, contrary to ZR §§ 109-121, 109-122, and 54-31; and

WHEREAS, a public hearing was held on this application on December 4, 2012, after due notice by publication in *The City Record*, and then to decision on January 8, 2013; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson and Commissioner Ottley-Brown; and

WHEREAS, Community Board 2, Manhattan, recommends approval of the application; and

WHEREAS, the applicant submitted approximately 70 letters in support of the application from community members and businesses in the area; and

WHEREAS, this application is being brought on behalf of Oversea Chinese Mission ("OCM"), a non-profit religious entity; and

WHEREAS, the subject site is located on the southwest corner of Hester Street and Elizabeth Street, within a C6-2G zoning district within the Special Little Italy District (LI) Area A; and

WHEREAS, the subject site has a width ranging from 54'-7" to 55'-1", a depth of 99'-10", and a lot area of 5,473 sq. ft.; and

WHEREAS, the subject site is currently occupied by a pre-existing non-complying nine-story building built in 1912, which was used as a school when OCM purchased it in 1966 and is now occupied by OCM for its house of worship and ancillary uses; and

WHEREAS, the cellar and first floor are built full to the lot lines and floors two through eight are built full with the exception of a light well located along the western lot line measuring approximately three feet by 40 feet for a total of approximately 320 sq. ft. per floor; the ninth floor is a partial floor along the north half of the building; and

WHEREAS, the applicant proposes to undertake a full renovation of the building to accommodate its growing needs and to enlarge the building by filling in the light well on floors two through eight; and

WHEREAS, the applicant states that the existing building has the following non-complying parameters: a total floor area of 43,650 sq. ft. (8.39 FAR) (which exceeds the maximum permitted 26,270 sq. ft. and 4.8 FAR for community facility use); a total lot coverage of 95 percent (which exceeds the maximum permitted 70 percent); and a height of 126'-6" (which exceeds the maximum permitted height of 75'-0"); and

WHEREAS, the applicant proposes to enlarge the building to the following parameters: a floor area of 45,959 sq. ft. (8.5 FAR); and a lot coverage of 100 percent; and

WHEREAS, the applicant notes that the enlargement increases the degree of non-compliance of the floor area and lot coverage, but does not affect any other bulk parameters; and

WHEREAS, the proposal provides for the following uses: (1) a multipurpose room/chapel at the first floor; (2) the main sanctuary on the second floor; (3) a multipurpose room/chapel and a nursery on the third floor; (4) a children's library and classrooms on the fourth floor; (5) classrooms, a computer lab, and a youth worship room on the fifth floor; (6) classrooms, offices, and a conference room on the sixth floor; (7) classrooms on the seventh floor; (8) classrooms and two accessory apartments on the eighth floor; and (9) classrooms and a rooftop terrace on the ninth floor; and

WHEREAS, the applicant states that due to the

building's non-complying bulk, without a variance, no enlargement of the building envelope would be allowed; and

WHEREAS, the applicant states that the following are the primary programmatic needs of OCM which necessitate the requested variances: (1) to increase the seating capacity of the sanctuary space; (2) to provide additional classroom space; (3) to provide improved and increased ADA-compliant facilities; (4) to provide additional office and support space; (5) to provide additional mechanical space without disrupting floor plans; and (6) to improve the efficiency of the building, its security, access, and circulation; and

WHEREAS, the applicant states that the congregation's size has grown consistently and continues to grow, but the building has never undergone any significant renovations and thus, some worship services overflow into different floors due to high attendance and members must participate remotely via audiovisual equipment; and

WHEREAS, the applicant states that the number of existing classrooms limits the number of fellowship activities that can be offered, particularly on Friday evenings and Sunday afternoons; and

WHEREAS, the applicant states that OCM has had to rent auditorium, gymnasium, and classroom space from a nearby public school to accommodate its programmatic needs; and

WHEREAS, the applicant states that the proposed floor area and lot coverage waivers will allow OCM to increase its floor area while allowing for more program space, improved interior layouts and circulation, and ADA-compliant restrooms and elevator; and

WHEREAS, the applicant represents that OCM also requires additional and improved space for its many community-based programs including language classes and activities for children; and

WHEREAS, the applicant provided a chart which analyzes the existing, as-of-right, and proposed conditions, which includes that (1) the existing sanctuary space accommodates 704 occupants, the as-of-right would accommodate 966, and the proposed will accommodate 1,018; and (2) the existing number of classrooms is 23, the as-of-right would accommodate 24, and the proposed reflects 28; and

WHEREAS, further, the chart reflects that the current building does not provide central HVAC or sprinklers, there are not any Code- or ADA-compliant restrooms, and that the existing stair tower is exposed to the elements; and

WHEREAS, the proposal reflects adding HVAC and sprinklers, providing complying restrooms, and enclosing the stair tower to enhance comfort and promote building-wide vertical circulation; and

WHEREAS, as to the existing conditions, the applicant notes that the building is nearly 100 years old and was formerly occupied by a school with many small offices and classrooms; and

WHEREAS, the applicant asserts that the pre-existing non-complying conditions of the 1912 building cannot accommodate modern use and the programmatic needs of OCM including large assembly areas, useful classroom configurations, required mechanicals, and circulation space; and

WHEREAS, the Board acknowledges that OCM, as a religious institution, is entitled to significant deference under the law of the State of New York as to zoning and as to its ability to rely upon programmatic needs in support of the subject variance application; and

WHEREAS, specifically, as held in Westchester Reform Temple v. Brown, 22 NY2d 488 (1968), a religious institution's application is to be permitted unless it can be shown to have an adverse effect upon the health, safety, or welfare of the community, and general concerns about traffic and disruption of the residential character of a neighborhood are insufficient grounds for the denial of an application; and

WHEREAS, based upon the above, the Board finds that the programmatic needs of OCM coupled with the constraints of the existing buildings create unnecessary hardship and practical difficulty in developing the site in compliance with the applicable zoning regulations; and

WHEREAS, the applicant need not address ZR § 72-21(b) since OCM is a not-for-profit organization and the proposed development will be in furtherance of its not-for-profit mission; and

WHEREAS, the applicant represents that the proposed enlargement will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare; and

WHEREAS, the applicant states that that the proposed use is permitted in the subject zoning district; and

WHEREAS, the applicant notes that OCM has occupied the building for more than 50 years and, thus, its use is established in the community and will not change; and

WHEREAS, the applicant states that the existing light well to be enclosed cannot be viewed from three sides of the building, including both street frontages; and

WHEREAS, the applicant states that no other changes are proposed to the envelope of the existing nine-story building and that the pre-existing non-complying height will not change; and

WHEREAS, as to bulk, the applicant submitted a 400-ft. radius diagram which reflects that the area is developed primarily with mixed-use commercial/residential buildings and multiple dwellings between five and seven stories; and

WHEREAS, the applicant asserts that the enlargement will not have a negative impact on the light and air accessed by the adjacent seven-story commercial building or eight-story apartment building; and

WHEREAS, the applicant performed a shadow study which reflects that the incremental increase in shadows associated with the enlargement is negligible; and

WHEREAS, with regard to noise, the applicant states that the new windows proposed for the enlargement will be inoperable on the first through third floors, which will be occupied by large assembly spaces, and will only be

operable on the fourth through eighth floors; additionally, the wall construction and new windows will have higher STC ratings than the existing wall and windows, and provide a greater level of noise attenuation; and

WHEREAS, accordingly, the Board finds that this action will neither alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the applicant states that the hardship was not self-created and that no development that would meet the programmatic needs of OCM could occur in its existing building; and

WHEREAS, accordingly, the Board finds that the hardship herein was not created by the owner or a predecessor in title; and

WHEREAS, the applicant notes that the application reflects an increase in the total floor area of only approximately 2,300 sq. ft. (a five percent increase over the existing floor area) and an increase in lot coverage of approximately five percent; and

WHEREAS, the applicant notes that the building envelope will be unchanged except for the enclosure of the existing light well; otherwise, the renovation is within the envelope of the building; and

WHEREAS, accordingly, the Board finds the requested waivers to be the minimum necessary to afford OCM the relief needed to meet its programmatic needs; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No.12BSA148M, dated June 26, 2012; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 and grants a variance to permit, on a site in a C6-2G zoning district within the Special Little Italy District (LI) Area A, the enlargement of an existing nine-story community facility building (Use Group 4), which does not comply with the underlying zoning district regulations for floor area and lot coverage and increases the degree of non-complying floor area and lot coverage conditions, contrary to ZR §§ 109-121, 109-122, and 54-31; *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received December 21, 2012" – Thirteen (13) sheets, and *on further condition*:

THAT the building parameters will include: a maximum floor area of 45,959 sq. ft. (8.5 FAR); and a maximum height of 126'-6", as illustrated on the BSA-approved plans;

THAT any change in control or ownership of the building will require the prior approval of the Board;

THAT the use will be limited to a house of worship (Use Group 4);

THAT no commercial catering will take place onsite;

THAT the above conditions will be listed on the certificate of occupancy;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT construction shall proceed in accordance with ZR § 72-23;

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, January 8, 2013.

***The resolution has been amended. Corrected in Bulletin Nos. 8-9, Vol. 98, dated February 26, 2013.**

THE VOTE TO GRANT –
Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5
Negative:.....0
THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated May 3, 2012, acting on Department of Buildings Application No. 301856631, reads in pertinent part:

> Proposed Physical Culture Establishment is not permitted in C8-2 zoning district. This use is contrary to Section 32-10 of the New York City Zoning Resolution and requires a special permit from the Board of Standards and Appeals; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site located in a C8-2 zoning district, the operation of a physical culture establishment (PCE) at the cellar, first, and second floors of a two-story commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on February 5, 2013, after due notice by publication in *The City Record*, and then to decision on March 5, 2013; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by Commissioner Montanez; and

WHEREAS, Community Board 16, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the corner of East 98th Street and Ralph Avenue, in a C8-2 zoning district; and

WHEREAS, the site is occupied by a two-story commercial building; and

WHEREAS, the proposed PCE will occupy a total of 10,010 sq. ft. of floor area with 2,089 sq. ft. on the first floor and 7,921 sq. ft. on the second floor and an additional 1,380 sq. ft. of space in the cellar; and

WHEREAS, the site has 192.95 feet of frontage on East 98th Street, 168.3 feet of frontage on Ralph Avenue, and a total lot area of 7,929 sq. ft.; and

WHEREAS, the PCE will be operated as Retro Fitness; and

WHEREAS, the applicant represents that the services at the PCE include facilities for instruction and programs for physical improvement; and

WHEREAS, the hours of operation for the proposed PCE will be Monday through Friday, from 5:00 a.m. to 11:00 p.m. and Saturday/Sunday, from 7:00 a.m. to 7:00 p.m.; and

WHEREAS, the applicant states that since the PCE will be located on the second floor of a free-standing commercial building, it will be completely isolated from any nearby residential uses which are quite distant from the subject building; and

WHEREAS, accordingly, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement, CEQR No.12BSA140K, dated May 18, 2012; and

WHEREAS, the EAS documents that the operation of the PCE would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to permit, on a site located in a C8-2 zoning district, the operation of a physical culture establishment at the cellar, first, and second floors of a two-story commercial building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked "Received December 18, 2012" - Three (3) sheets and *on further condition*:

THAT the term of this grant will expire on March 5, 2023;

THAT there will be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT all massages must be performed by New York State licensed massage therapists;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT Local Law 58/87 compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT substantial construction will be completed in accordance with ZR § 73-70;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, March 5, 2013.

241-12-BZ
CEQR # 13-BSA-013M

APPLICANT – Greenberg Traurig, LLP by Deidre A. Carson, Esq., for 8-12 Development Partners, owners; 10-12 Bond Street, lessee.

SUBJECT – Application August 2, 2012 – Variance (§72-21) to permit the construction of a new mixed residential and retail building, contrary to use regulations (§42-10 and 42-14D(2)(b)). M1-5B zoning district.

PREMISES AFFECTED – 8-12 Bond Street aka 358-364 Lafayette Street, northwest corner of the intersection of Bond and Lafayette Streets, Block 530, Lot 62, Borough of

Manhattan.

THE RESOLUTION –

WHEREAS, the decision of the Manhattan Borough Commissioner, dated July 11, 2012, acting on Department of Buildings Application No. 121183316, reads in pertinent part:

> Proposed UG 6 below the floor level of the second story is not permitted; contrary to ZR 42-14D(2)(b)
> Proposed UG 2 is not permitted; contrary to ZR 42-10; and

WHEREAS, this is an application under ZR §72-21, to permit, in an M1-5B zoning district within the NoHo Historic District, the construction of a seven-story (including penthouse) mixed-use residential/commercial building with 11 dwelling units and retail use below the level of the second floor, contrary to ZR §§ 42-14 and 42-10; and

WHEREAS, a public hearing was held on this application on October 30, 2012, after due notice by publication in the *City Record*, with a continued hearing on December 11, 2012, and then to decision on March 5, 2013; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 2, Manhattan, recommends approval of the application, with the following conditions: (1) commercial use not be permitted above the ground floor or in the proposed open courts or rear yard; (2) an eating and drinking establishment not be permitted; and (3) the proposed accessory garage not be permitted; and

WHEREAS, a representative of the NoHo-Bowery Stakeholders, Inc., provided testimony in support of the application; and

WHEREAS, the site is located on the northwest corner of the intersection of Bond Street and Lafayette Street, in an M1-5B zoning district within the NoHo Historic District; and

WHEREAS, the site has 60'-3½" of frontage along Bond Street, 100'-6¼" of frontage along Lafayette Street, and a total lot area of 6,471 sq. ft.; and

WHEREAS, on February 9, 2010, under BSA Cal. No. 195-07-BZ, the Board granted a variance to permit the construction of a seven-story 50-room hotel building with hotel and retail uses below the level of the second floor; and

WHEREAS, the applicant represents that the prior owner was unable to develop the hotel building, in part due to additional hardship costs that were not discovered at the time of the previous grant and which made the use of the site for a hotel building unviable; and

WHEREAS, the site is currently occupied by a two-story and mezzanine building, a one-story structure formerly used as an automotive service station, an open parking lot, and an advertising sign, all of which will be demolished or replaced; and

WHEREAS, the proposed seven-story (including penthouse) building will have a total floor area of 32,227 sq. ft. (4.98 FAR), with 29,459 sq. ft. (4.55 FAR) of residential floor area and 2,768 sq. ft. (0.43 FAR) of commercial floor area on the first floor, an additional 5,910 sq. ft. of floor space in the cellar, a wall height of 76'-0", and a total height of 84'-9"; and

WHEREAS, the proposal provides for the following uses: (1) retail space, an accessory fitness center, accessory residential storage, and mechanical use at the cellar level; (2) retail space, residential space, a residential lobby, an open court, and an accessory garage for one vehicle at the first floor; and (3) residential units at the second through seventh floors; and

WHEREAS, because general residential use is not permitted as-of-right in the subject M1-5B zoning district and retail use is not permitted below the level of the second floor, the subject use variance is requested; and

WHEREAS, the applicant states that the following are unique physical conditions which create an unnecessary hardship in developing the site in conformance with applicable regulations: (1) the combined effect of the site's adjacency to an existing 30-inch gas main, the Lexington Avenue subway line, and adjacent buildings; (2) the site's unusual depth to bedrock; and (3) the historic use of the site as an automotive service station, which has resulted in soil contamination; and

WHEREAS, the applicant submitted a letter from a geotechnical engineering consultant which states that a settlement analysis was performed based on a review of collected boring data and that the predicted settlements for the proposed building would be "unacceptable for the 30-inch gas main and subway structure located beneath Lafayette Street"; and

WHEREAS, the applicant states that based on the settlement analysis, the foundation for the proposed building has been designed for caisson support with piles drilled to bedrock, as driven piles are not permitted under applicable New York City Transit Authority ("NYCTA") regulations due to the adjacent subway line; and

WHEREAS, the applicant represents that collectively, the location of the 30-inch gas main and subway structure result in additional construction costs of $748,816, which includes special monitoring and inspection costs required under NYCTA regulations; and

WHEREAS, the applicant further represents that an additional $238,218 of construction costs is attributable to the cost of underpinning the adjacent buildings, which have unusual foundation conditions; and

WHEREAS, the applicant notes that in the variance approved under BSA Cal. No. 195-07-BZ, it proposed a hotel building with two cellar levels excavated to a depth of 20 feet (as opposed to the current proposal for a one-cellar building) in order to provide a sound subsurface base for a mat

foundation, due to the presence of uncontrolled fill and loose sand throughout much of the site and the efficiency gains associated with locating certain accessory hotel uses below grade; and

WHEREAS, the applicant represents that for the proposed mixed-use residential/commercial building there are few uses that can be located below grade, reducing the efficiencies gained from the additional excavation, and that employing a caisson support system allows the owner to avoid any of the extra bracing and shoring costs that would have been associated with deeper excavation; and

WHEREAS, at hearing the Board asked the applicant to compare the costs associated with building a foundation for the two-cellar alternative that was proposed for the hotel building with the currently proposed one-cellar building; and

WHEREAS, in response, the applicant submitted a cost schedule which shows that the two-cellar alternative would be approximately $364,181 more costly to construct; and

WHEREAS, the applicant notes that the project engineer also does not recommend the two-cellar alternative from a safety point of view because of the adjacency to the subway and gas line and the relative amount of settlement that it would produce; and

WHEREAS, the Board also requested that the applicant provide a comparison between the cost to build the proposed foundation with the cost of a "normal" foundation if the site was not encumbered with the aforementioned physical conditions; and

WHEREAS, in response, the applicant submitted a comparison prepared by its construction consultant which reflects that a standard foundation for a building of this type and size without the special conditions would be built on spread footings and the difference between the proposed foundation and the spread footing foundation is approximately $1,510,663; and

WHEREAS, as to the depth of the bedrock on the site, the applicant submitted another letter from the geotechnical consultant stating that the bedrock in the area surrounding the site is typically 50 to 60 feet below grade, while the boring logs show that the depth to bedrock for the subject site is between 80 and 90 feet below street grade, approximately 30 feet below the local bedrock elevation; and

WHEREAS, the applicant represents that the unusual depth of bedrock results in additional construction costs of $895,482; and

WHEREAS, as to the soil contamination, the applicant represents that remedial work will be required due to the industrial character of the historic uses on the lot, which included processes and businesses that used lead, mercury, and petroleum products; and

WHEREAS, the applicant states that three underground storage tanks associated with the former automotive service station located on the site were legally closed in 2006, and that the results of testing that was performed at that time confirmed the presence of elevated mercury and semi-volatile organic compound levels in the soil on the site; and

WHEREAS, the applicant submitted an environmental report and cost estimates documenting the expected testing and remediation of the soil, including the removal and disposal of one underground storage tank and the removal and disposal of soil (assuming it is substantially contaminated), and the potential inclusion of a vapor barrier and ventilation system, due to its historic use as an automotive service station; and

WHEREAS, based upon the above, the Board finds that the aforementioned unique physical conditions, when considered in the aggregate, create unnecessary hardship and practical difficulty in developing the site in conformance with the applicable zoning regulations; and

WHEREAS, the applicant submitted a feasibility study that analyzed: (1) a lesser variance seven-story 50-room hotel as approved in the prior variance, but without a sub-cellar; and (2) the proposed residential building with ground floor retail use; and

WHEREAS, the Board notes that conforming hotel and office scenarios were previously analyzed under BSA Cal. No. 195-07-BZ and it was determined that they would not realize a reasonable return; and

WHEREAS, accordingly, the applicant concludes that the conforming and lesser variance scenarios would not result in a reasonable return, due to the unique physical conditions of the site and the resulting premium construction costs, but that the proposed hotel building would realize a reasonable return and has submitted evidence in support of that assertion; and

WHEREAS, based upon its review of the applicant's submissions, the Board has determined that because of the subject site's unique physical conditions, there is no reasonable possibility that development in strict conformance with applicable zoning requirements will provide a reasonable return; and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare; and

WHEREAS, as to bulk, the applicant notes that the proposed 4.98 FAR complies with the maximum 5.0 FAR permitted for an as-of-right hotel building in the subject zoning district, and that no bulk waivers are requested; and

WHEREAS, the applicant represents that the immediate area is a mix of residential and commercial uses; and

WHEREAS, specifically, the applicant states that the immediate adjacent uses are largely comprised of ground floor and cellar retail uses with residential uses above; and

WHEREAS, in support of the above statements, the applicant submitted a 400-ft. radius diagram, showing the various uses in the immediate vicinity of the site; and

WHEREAS, as to the Community Board's requested conditions, the applicant is not proposing any commercial uses above the level of the second floor or in the open courts or rear yard, and has agreed that an eating and drinking establishment will not be permitted in the commercial space; and

WHEREAS, as to the Community Board's request that the curb cut and accessory parking garage be removed, the applicant seeks to maintain the proposed curb cut and accessory garage and notes that the proposed curb cut already exists as the current use of the site is as an open parking lot, and that four other curb cuts are being eliminated on the site; and

WHEREAS, the applicant notes that the proposed accessory garage is small and accommodates only one vehicle, and represents that the space would not be viable as additional retail space; and

WHEREAS, the applicant represents that the proposal will not affect the historical integrity of the property; and

WHEREAS, the applicant submitted a Certificate of Appropriateness from the Landmarks Preservation Commission (LPC), dated February 12, 2013; and

WHEREAS, accordingly, the Board finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Board finds that the hardship herein was not created by the owner or a predecessor in title, but is the result of the site's unique subsurface soil conditions; and

WHEREAS, the Board finds that this proposal is the minimum necessary to compensate for the additional construction costs associated with the uniqueness of the site and to afford the owner relief; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as a Type I action pursuant to 6 NYCRR, Part 617.4; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 13BSA013M dated January 3, 2013; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, the New York City Department of Environmental Protection's (DEP) Bureau of Environmental Planning and Analysis reviewed the project for potential hazardous materials, air quality and noise impacts; and

WHEREAS, DEP reviewed and accepted the July 2012 Remedial Action Plan site-specific Construction Health and Safety Plan; and

WHEREAS, DEP requested that a Remedial Closure Report be submitted to DEP for review and approval upon completion of the proposed project; and

WHEREAS, DEP reviewed the applicant's stationary source air quality screening analysis and determined that the proposed project is not anticipated to result in significant stationary source air quality impacts; and

WHEREAS, DEP reviewed the results of noise monitoring and determined that a minimum of 31 dBA window-wall noise attenuation is required for both the windows and the walls of the proposed building and an alternate means of ventilation should be provided in order to achieve an interior noise level of 45 dBA; and

WHEREAS, DEP determined that, with these noise measures, the proposed project is not anticipated to result in significant noise impacts; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved that the Board of Standards and Appeals issues a Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 and grants a variance, to permit, in an M1-5B zoning district within the NoHo Historic District, the construction of a seven-story (including penthouse) mixed-use residential/commercial building with 11 dwelling units and retail use below the level of the second floor, contrary to ZR §§ 42-14 and 42-10, *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received December 21, 2012" – nineteen (19) sheets; and *on further condition*:

THAT the following will be the bulk parameters of the proposed building: seven stories; a maximum total floor area of 32,227 sq. ft. (4.98 FAR); a maximum residential floor area of 29,459 sq. ft. (4.55 FAR); a maximum commercial floor area of 2,768 sq. ft. (0.43 FAR); a wall height of 76'-0"; and a total height of 84'-9", as illustrated on the BSA-approved plans;

THAT no eating and drinking establishment (Use Group 6 or Use Group 12) will be permitted on the site;

THAT DOB will not issue a Certificate of Occupancy until the applicant has provided it with DEP's approval of the Remedial Closure Report; and

THAT the proposed building's windows and walls will have a noise attenuation rating of 31 dBA OITC and that an alternate means of ventilation will be provided throughout the building;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted;

THAT construction will proceed in accordance with ZR § 72-23; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, March 5, 2013.

257-12-BZ

APPLICANT – Law Office of Fredrick A. Becker, for Birta Hanono and Elie Hanono, owners.

SUBJECT – Application August 29, 2012 – Special Permit (§73-622) for the enlargement of an existing single family home, contrary to floor area, open space and lot coverage (§23-141); side yard (§23-461) and less than the required rear yard (§23-47). R4 (OP) zoning district.

PREMISES AFFECTED – 2359 East 5th Street, east side of East 5th Street between Avenue W and Angela Drive, Block 7181, Lot 44, Borough of Brooklyn.

COMMUNITY BOARD #15BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated August 1, 2012, acting on Department of Buildings Application No. 320500757, reads in pertinent part:

> Proposed enlargement of the existing one-family residence in an R4 zoning district:
>
> 1. Creates non-compliance with respect to the rear yard by not meeting the minimum requirements of Section 23-47 of the Zoning Resolution.
> 2. Creates non-compliance with respect to the side yards by not meeting the minimum requirements of Section 23-461 of the Zoning Resolution.
> 3. Creates non-compliance with respect to the floor area by exceeding the allowable floor area ratio and is contrary to Section 23-141 of the Zoning Resolution.
> 4. Creates non-compliance with respect to the lot coverage and is contrary to Section 23-141 of the Zoning Resolution.
> 5. Creates non-compliance with respect to the open space and is contrary to Section 23-141 of the Zoning Resolution; and

WHEREAS, this is an application under ZR §§73-622 and 73-03, to permit, within an R4 zoning district within the Special Ocean Parkway District (OP), the proposed enlargement of a single-family home, which does not comply with the zoning requirements for floor area ratio ("FAR"), open space, lot coverage, rear yard, and side yard contrary to ZR §§ 23-141, 23-461, and 23-47; and

WHEREAS, a public hearing was held on this application on January 15, 2013, after due notice by publication in *The City Record*, with a continued hearing on February 5, 2013, and then to decision on March 5, 2013; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 15, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the east side of East 5th Street, between Avenue W and Angela Drive, within an R4 zoning district within the Special Ocean Parkway District (OP); and

WHEREAS, the subject site has a total lot area of 3,200 sq. ft., and is occupied by a single-family home with a floor area of 2,877 sq. ft. (0.90 FAR); and

WHEREAS, the premises is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant seeks an increase in the floor area from 2,877 sq. ft. (0.90 FAR) to 4,174 sq. ft. (1.30 FAR); the maximum permitted floor area is 2,400 sq. ft. (0.75 FAR); and

WHEREAS, the applicant proposes an open space of 1,667 sq. ft.; the minimum required open space is 1,760 sq. ft.; and

WHEREAS, the applicant proposes a lot coverage of 48 percent; the maximum permitted lot coverage is 45 percent; and

WHEREAS, the applicant proposes to maintain the pre-existing non-complying rear yard with a depth of 14'-10 ¼"; the minimum required rear yard depth is 30 feet; and

WHEREAS, the applicant proposes to maintain the pre-existing non-complying side yard with a width of 2'-4 ½" and to provide a second side yard with a width of 8'-7 ¾"; side yards with a minimum width of 5'-0" each are required; and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood, and will not impair the future use or development of the surrounding area; and

WHEREAS, based upon its review of the record, the Board finds that the proposed enlargement will neither alter the essential character of the surrounding neighborhood, nor impair the future use and development of the surrounding area; and

WHEREAS, the Board finds that the proposed project will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions

and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under ZR §§ 73-622 and 73-03.

Therefore it is resolved, that the Board of Standards and Appeals issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR §§ 73-622 and 73-03, to permit, within an R4 zoning district within the Special Ocean Parkway District, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for floor area ratio, open space, lot coverage, rear yard, and side yard contrary to ZR §§ 23-141, 23-461, and 23-47; *on condition* that all work shall substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked "Received August 29, 2012"-(6) sheets and "December 20, 2012"-(5) sheets; and *on further condition*:

THAT the following will be the bulk parameters of the building: a maximum floor area of 4,174 sq. ft. (1.30 FAR), a minimum open space of 1,667 sq. ft., a maximum lot coverage of 48 percent, a rear yard with a minimum depth of 14'-10 ¼", and side yards with minimum widths of 2'-4 ½" and 8'-7 ¾", as illustrated on the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s) only; no approval has been given by the Board as to the use and layout of the cellar;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted;

THAT substantial construction be completed in accordance with ZR § 73-70; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, March 5, 2013.

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated August 21, 2012, acting on Department of Buildings Application No. 320519426, reads in pertinent part:

> Proposed plans are contrary to ZR 23-141(a) in that the proposed building exceeds the maximum permitted floor area ratio of .50.
> Proposed plans are contrary to ZR 23-141 in that the proposed open space ratio is less than the minimum required open space ratio of 150.
> Proposed plans are contrary to ZR 23-47 in that the proposed rear yard is less than the minimum required rear yard of 30 feet.
> Proposed plans are contrary to ZR 23-461(a) in that the proposed side yard straight-line extension is less than the 5 foot minimum side yard permitted; and

WHEREAS, this is an application under ZR §§ 73-622 and 73-03, to permit, within an R2 zoning district, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for floor area ratio ("FAR"), open space ratio, rear yard, and side yard contrary to ZR §§ 23-141, 23-461, and 23-47; and

WHEREAS, a public hearing was held on this application on January 8, 2013, after due notice by publication in *The City Record*, with a continued hearing on February 5, 2013, and then to decision on March 5, 2013; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Montanez and Commissioner Ottley-Brown; and

WHEREAS, Community Board 14, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the east side of East 28th Street, between Avenue M and Avenue L, within an R2 zoning district; and

WHEREAS, the subject site has a total lot area of 3,900 sq. ft., and is occupied by a single-family home with a floor area of 2,348.66 sq. ft. (0.60 FAR); and

WHEREAS, the premises is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant seeks an increase in the floor area from 2,348.66 sq. ft. (0.60 FAR) to 3,919.48 sq. ft. (1.01 FAR); the maximum permitted floor area is 1,950 sq. ft. (0.50 FAR); and

WHEREAS, the applicant proposes an open space ratio of 53 percent; the minimum required open space ratio

is 150 percent; and

WHEREAS, the applicant proposes a rear yard with a depth of 20 feet; the minimum required rear yard depth is 30 feet; and

WHEREAS, the applicant proposes to maintain the pre-existing non-complying side yard with a width of 2'-10" and to provide a second side yard with a width of 8'-4"; side yards with a minimum width of 5'-0" each are required; and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood, and will not impair the future use or development of the surrounding area; and

WHEREAS, based upon its review of the record, the Board finds that the proposed enlargement will neither alter the essential character of the surrounding neighborhood, nor impair the future use and development of the surrounding area; and

WHEREAS, the Board finds that the proposed project will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under ZR §§ 73-622 and 73-03.

Therefore it is resolved, that the Board of Standards and Appeals issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR §§ 73-622 and 73-03, to permit, within an R2 zoning district, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for floor area ratio, open space ratio, rear yard, and side yard contrary to ZR §§ 23-141, 23-461, and 23-47; *on condition* that all work shall substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked "Received September 21, 2013"-(6) sheets and "February 20, 2013"-(6) sheets; and *on further condition*:

THAT the following will be the bulk parameters of the building: a maximum floor area of 3,919.48 sq. ft. (1.01 FAR), a minimum open space ratio of 53 percent, a rear yard with a minimum depth of 20 feet, and side yards with minimum widths of 2'-10" and 8'-4", as illustrated on the BSA-approved plans;

THAT the floor area in the attic will be limited to 339.7 sq. ft., as illustrated on the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s) only; no approval has been given by the Board as to the use and layout of the cellar;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted;

THAT substantial construction be completed in accordance with ZR § 73-70; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, March 5, 2013.

APPLICANT – Rothkrug Rothkrug & Spector, LLP, for 2374 Concourse Associates LLC, owner; Blink 2374 Grand Concourse Inc., lessee.

SUBJECT – Application October 16, 2012 – Special Permit (§73-36) to allow a physical culture establishment (*Blink Fitness*) within existing building. C4-4 zoning district.

PREMISES AFFECTED – 2374 Grand Concourse, northeast corner of intersection of Grand Concourse and East 184th Street, Block 3152, Lot 36, Borough of Bronx.

COMMUNITY BOARD #5BX

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5
Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Bronx Borough Commissioner, dated October 10, 2012, acting on Department of Buildings Application No. 220229429, reads in pertinent part:

> Proposed Physical Culture Establishment in a C4-4(C) district is contrary to 32-10 ZR and requires a special permit from the BSA pursuant to Section 73-36 ZR; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site located in a C4-4 zoning district within the Special Grand Concourse Preservation District (C), the operation of a physical culture establishment (PCE) at the first through third floors of a three-story commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on February 5, 2013, after due notice by publication in *The City Record*, and then to decision on March 5, 2013; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson and Commissioner Ottley-Brown; and

WHEREAS, Community Board 5, Bronx, recommends approval of this application; and

WHEREAS, the subject site is located at the northeast

corner of East 184th Street and the Grand Concourse, in a C4-4 zoning district within the Special Grand Concourse Preservation District (C); and

WHEREAS, the site is occupied by a three-story commercial building; and

WHEREAS, the proposed PCE will occupy a total of 14,190 sq. ft. of floor area with 3,180 sq. ft. on the first floor, 9,860 sq. ft. on the second floor, and 1,150 sq. ft. on the third floor; and

WHEREAS, the site has 130.88 feet of frontage on the Grand Concourse, 78.39 feet of frontage on East 184th Street, and 140.1 feet of frontage on Ryer Avenue, and a total lot area of 10,032 sq. ft.; and

WHEREAS, the PCE will be operated as Blink Fitness; and

WHEREAS, the applicant represents that the services at the PCE include facilities for instruction and programs for physical improvement; and

WHEREAS, the hours of operation for the proposed PCE will be Monday through Saturday, from 5:30 a.m. to 11:00 p.m. and Sunday, from 7:00 a.m. to 9:00 p.m.; and

WHEREAS, the applicant notes that the other uses in the building are all commercial; and

WHEREAS, the applicant states that although the site is located within the Special Grand Concourse Preservation District, pursuant to ZR § 122-80, the regulations of the special district do not apply to C4-4 districts within its boundaries; and

WHEREAS, accordingly, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as a Unlisted action pursuant to 6 NYCRR Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement, CEQR No.13BSA046X, dated October 15, 2012; and

WHEREAS, the EAS documents that the operation of the PCE would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to permit, on a site located in a C4-4 zoning district within the Special Grand Concourse Preservation District (C), the operation of a physical culture establishment at the first and first through third floors of a three-story commercial building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked "Received February 20, 2013" - Four (4) sheets and *on further condition*:

THAT the term of this grant will expire on March 5, 2023;

THAT there will be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT all massages must be performed by New York State licensed massage therapists;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT Local Law 58/87 compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT substantial construction will be completed in accordance with ZR § 73-70;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals,

March 5, 2013.

306-12-BZ
CEQR #13-BSA-052R
APPLICANT – Eric Palatnik, P.C., for Vincent Passarelli, owner; 2 Roars Restored Inc aka La Vida Massage, lessee.
SUBJECT – Application November 5, 2012 – Special Permit (§73-36) to allow a physical culture establishment (*La Vida Massage*). M1-1 zoning district.
PREMISES AFFECTED – 2955 Veterans Road West, Cross Streets Tyrellan Avenue and W Shore Expressway, Block 7511, Lot 1, Borough of Staten Island.
COMMUNITY BOARD #3SI
ACTION OF THE BOARD – Application granted on condition.
THE VOTE TO GRANT –
Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5
Negative:.....0
THE RESOLUTION –

WHEREAS, the decision of the Staten Island Borough Commissioner, dated October 4, 2012, acting on Department of Buildings Application No. 520111209, reads in pertinent part:

> Proposed change of use from existing office (use group 6 per CO# 500834500F) to . . . a Physical Culture Establishment (Massage La Vida N.Y.) requires a special permit from the Board of Standards and Appeals pursuant to ZR 73-36 ; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site located in an M1-1 zoning district within the Special South Richmond Development District (SRD), the operation of a physical culture establishment (PCE) on a portion of the second floor of a two-story commercial building, contrary to ZR § 42-10; and

WHEREAS, a public hearing was held on this application on February 12, 2013, after due notice by publication in *The City Record*, and then to decision on March 5, 2013; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by Commissioner Montanez; and

WHEREAS, Community Board 3, Staten Island, recommends approval of this application; and

WHEREAS, the subject site is located on the south side of Veterans Road West between West Shore Parkway and Tyrellan Avenue, within an M1-1 zoning district within the Special South Richmond Development District (SRD); and

WHEREAS, the site is occupied by a two-story commercial building; and

WHEREAS, the site has a total lot area of 335,780 sq. ft.; and

WHEREAS, on August 18, 2009, the Board approved a special permit for a PCE on another portion of the second floor of the building pursuant to BSA Cal. No. 288-08-BZ for a martial arts studio (Costanzo's Martial Arts) that continues to operate; and

WHEREAS, the proposed PCE will occupy a total of 2,699 sq. ft. of floor area on the second floor; and

WHEREAS, the proposed PCE will be operated as La Vida Massage; and

WHEREAS, the applicant represents that the services at the PCE include facilities for physical improvement; and

WHEREAS, the hours of operation for the proposed PCE will be Monday through Saturday, from 9:00 a.m. to 9:00 p.m. and Sunday, from 9:00 a.m. to 7:00 p.m.; and

WHEREAS, accordingly, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement, CEQR No.13BSA052R, dated November 5, 2012; and

WHEREAS, the EAS documents that the operation of the PCE would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to permit, on a site located in an M1-1 zoning district within the Special South Richmond Development District (SRD), the operation of a physical culture establishment on a portion of the second floor of a two-story commercial building, contrary to ZR § 42-10; *on condition* that all work shall substantially conform to drawings filed with this application marked "Received January 29, 2013" - Three (3) sheets and *on further condition*:

THAT the term of this grant will expire on March 5, 2023;

THAT there will be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT all massages must be performed by New York State licensed massage therapists;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT Local Law 58/87 compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT substantial construction will be completed in accordance with ZR § 73-70;

MINUTES

REGULAR MEETING
TUESDAY MORNING, MARCH 12, 2013
10:00 A.M.

Present: Chair Srinivasan, Vice-Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez.

SPECIAL ORDER CALENDAR

68-91-BZ
APPLICANT – Sheldon Lobel, P.C., for Cumberland Farms, Inc., owner.
SUBJECT – Application August 24, 2012 – Extension of Term (§11-411) of an approved variance which permitted the operation of an automotive service station (UG 16B) with accessory uses, which expired on May 19, 2012; Amendment §11-412) to permit the legalization of certain minor interior partition changes and a request to permit automotive repair services on Sundays; Waiver of the Rules. R5D/C1-2 & R2A zoning district.
PREMISES AFFECTED – 223-15 Union Turnpike, northwest corner of Springfield Boulevard and Union Turnpike, Block 7780, Lot 1, Borough of Queens.
COMMUNITY BOARD #11Q
ACTION OF THE BOARD – Application granted on condition.
THE VOTE TO GRANT –
Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5
Negative:.....0
THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure, a reopening, an extension of term, and an extension of time to obtain a certificate of occupancy for an automotive service station (UG 16B); and

WHEREAS, a public hearing was held on this application on October 30, 2012, after due notice by publication in *The City Record*, with continued hearings on January 8, 2013 and February 12, 2013, and then to decision on March 12, 2013; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 11, Queens, recommends approval of this application; and

WHEREAS, the site is on the northwest corner of Springfield Boulevard and Union Turnpike, partially within a C1-2 (R5D) zoning district and partially within an R2A zoning district; and

WHEREAS, the Board has exercised jurisdiction over the subject site since January 13, 1942 when, under BSA Cal. No. 150-41-BZ, the Board granted a variance to permit the construction of a gasoline service station (and a single-family residence), for a term of ten years; and

WHEREAS, subsequently, the grant was amended and the term extended at various times, until its expiration on November 5, 1985; and

WHEREAS, on May 19, 1992, under the subject calendar number, the Board granted an application under ZR § 11-411 to re-establish the expired variance for a gasoline service station, for a term of ten years, which was renewed for another ten-year term that expired on May 19, 2012; and

WHEREAS, the applicant now seeks an additional extension of the term, an approval of certain changes to the site, and authorization to open on Sundays; and

WHEREAS, pursuant to ZR § 11-411, the Board may permit an extension of term; and

WHEREAS, pursuant to ZR § 11-412, the Board may permit amendments to the prior approval; and

WHEREAS, the applicant states that it has made certain minor changes to the site, including partition and layout changes to the interior of the accessory convenience store and relocation of the exterior door; and

WHEREAS, at hearing, the Board raised concerns about excessive signage at the site, which was not reflected on the previously-approved plans, and questioned whether the signage on the site was in compliance with C1 district regulations; and

WHEREAS, additionally, the Board directed the applicant to improve the appearance of the garbage enclosure; and

WHEREAS, the applicant submitted photographs reflecting that the signage that exceeded the C1 surface area regulations has been removed, and states that the site will comply with C1 district signage regulations; and

WHEREAS, the applicant also submitted photographs which reflect that the appearance of the garbage enclosure and the rear of the site have been improved; and

WHEREAS, the applicant also seeks to legalize the addition of Sunday hours of operation, from 8:00 a.m. to 4:00 p.m. prior to issuing its recommendation to approve the hours; and

WHEREAS, the applicant asserts that its facility services a religious community that does not drive on Saturday, but seek its services on Sundays; and

WHEREAS, based upon its review of the record, the Board finds that the requested extension of term and extension of time are appropriate with certain conditions as set forth below.

Therefore it is Resolved that the Board of Standards and Appeals *waives* the Rules of Practice and Procedure, *reopens*, and *amends* the resolution, dated May 19, 1992, so that as amended this portion of the resolution shall read: "to extend the term for a period of ten years from May 19, 2012, to expire on May 19, 2022; *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked 'Received February 26, 2013'- (5) sheets; and *on further condition*:

THAT the term of this grant will expire on May 19, 2022;

THAT the signage on the site will comply with C1 district regulations;

THAT the hours of operation will be limited to Monday through Saturday, 7:00 a.m. to 7:00 p.m. and Sunday, 8:00 a.m. to 4:00 p.m.;

THAT the above conditions will appear on the certificate of occupancy;

THAT a new certificate of occupancy will be obtained by March 12, 2014;

THAT all conditions from the prior resolution not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted."
(DOB App. Nos. 401393835 & 401393648)

Adopted by the Board of Standards and Appeals, March 12, 2013.

141-06-BZ

APPLICANT – Eric Palatnik, P.C., for Congregation Tefiloh Ledovid, owner.

SUBJECT – Application August 7, 2012 – Extension of Time to complete construction of a previously approved variance (§72-21) permitting the construction of a three-story synagogue (*Congregation Tefiloh Ledovid*) which expired on June 19, 2011; Waiver of the Rules. R5 zoning district.

PREMISES AFFECTED – 2084 60th Street, corner of 21st Avenue and 60th Street, Block 5521, Lot 42, Borough of Brooklyn.

COMMUNITY BOARD #12BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a reopening and an extension of time to complete construction of a previously granted variance to permit the construction of a synagogue; and

WHEREAS, a public hearing was held on this application on October 16, 2012, after due notice by publication in *The City Record*, with continued hearings on November 20, 2012, January 15, 2013 and February 12, 2013, and then to decision on March 12, 2013; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, certain neighbors provided testimony in opposition to the proposal, citing concerns about the poor maintenance of the site, delay in construction, and damage to adjacent properties; and

WHEREAS, the Board has exercised jurisdiction over the subject site since June 19, 2007, when, under the subject calendar number, the Board granted a variance authorizing the proposed three-story Use Group 4 synagogue, which does not comply with floor area, FAR, lot coverage, front yards, side yards, and parking requirements for community facilities, contrary to ZR §§ 24-11, 24-34, 24-35, and 24-31; and

WHEREAS, substantial construction was to be completed by June 19, 2011, in accordance with ZR § 72-23; and

WHEREAS, on October 3, 2008, the Board approved certain minor amendments to the plans, by letter; and

WHEREAS, the subject premises is located on the southwest corner of 21st Avenue and 60th Street, within an R5 zoning district within the Special Borough Park District; and

WHEREAS, during the hearing process, based on its own observations and the concerns raised by the neighbors, the Board directed the applicant to (1) remove debris from the site, (2) ensure the safety of the site including the sidewalk and fencing, and (3) resolve all outstanding DOB violations; and

WHEREAS, in response, the applicant (1) removed debris and other unsightly conditions at the site, (2) secured the site, and (3) provided a response regarding the violations, which reflects that there are four outstanding violations including two related to the plans, one related to monitoring adjacent buildings, and one related to inspections; and

WHEREAS, as to the violations, the applicant represents that two can only be resolved after the Board grants the requested extension and the other two are being resolved expeditiously; and

WHEREAS, due to the nature of the violations, the Board determined that the applicant must resolve all violations before resuming construction at the site; and

WHEREAS, as to the neighbors' concerns about property damage, the Board notes that any agreement between the parties related to damage is beyond the purview of the Board and is more appropriate for another forum; and

WHEREAS, however, the Board urges the applicant to communicate with the neighbors and adequately respond to their concerns; and

WHEREAS, the Board finds it appropriate for the applicant to provide a contact person to the neighbors so that they may reach them if issues arise; and

WHEREAS, the Board also urges the applicant to expeditiously resume and complete construction and to complete construction within the new four-year term; and

WHEREAS, the applicant states that due to financing delays, additional time is necessary to complete the project; thus, the applicant now requests an extension of time to complete construction; and

WHEREAS, the applicant represents that the owner is now prepared to proceed with construction; and

WHEREAS, based upon its review of the record, the Board finds that the requested extension of time to complete construction is appropriate with certain conditions as set forth below.

Therefore it is Resolved that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated June 19, 2007, so that as amended this portion of the resolution shall read: "to grant an extension of the time to complete construction for a term of four years, to expire on March 12, 2017; *on condition*:

THAT construction will be completed by March 12, 2017;

THAT the property owner provides a contact number and contact person to the neighbors;

THAT all DOB violations must be resolved prior to the reissuance of the permit and resumption of construction;

THAT the site be maintained free of debris;

THAT the security of the site be maintained;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted."

(DOB Application No. 302159571)

Adopted by the Board of Standards and Appeals, March 12, 2013.

APPLICANT – Law Office of Fredrick A. Becker, for Harran Holding Corp., owner; Moksha Yoga NYC LLC, lessee.
SUBJECT – Application January 3, 2012 – Special Permit (§73-36) for the operation of a physical culture establishment (*Moksha Yoga*) on the second floor of a six-story commercial building. C4-5 zoning district.
PREMISES AFFECTED – 434 6th Avenue, southeast corner of 6th Avenue and West 10th Street, Block 573, Lot 6, Borough of Manhattan.
COMMUNITY BOARD #2M
ACTION OF THE BOARD – Application granted on condition.
THE VOTE TO GRANT –
Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5
Negative:.....0
THE RESOLUTION –

WHEREAS, the decision of the Manhattan Borough Commissioner, dated December 9, 2011, acting on Department of Buildings Application No. 121181130, reads in pertinent part:

> The proposed "Physical Culture or Health Establishment" (PCE) on the second floor of the subject building, is contrary to ZR 32-31, is contrary to ZR 32-31 and requires a BSA special permit pursuant to ZR 73-36; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site located within a C4-5 (Special Limited Commercial District (LC)) zoning district and the Greenwich Village Historic District, the operation of a physical culture establishment (PCE) on the second floor of a six-story commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on January 8, 2013, after due notice by publication in *The City Record*, with a continued hearing on February 12, 2013, and then to decision on March 12, 2013; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 2, Manhattan, recommends approval of this application; and

WHEREAS, the subject site is located on the southeast corner of Avenue of the Americas and West 10th Street, within a C4-5 (LC) zoning district and the Greenwich Village Historic District; and

WHEREAS, the site is occupied by a six-story commercial building; and

WHEREAS, the site has 65.12 feet of frontage on

Avenue of the Americas, 78.08 feet of frontage on West 10th Street, and a total lot area of 5,102 sq. ft.; and

WHEREAS, the PCE occupies 4,725 sq. ft. of floor area on the second floor; and

WHEREAS, the PCE is operated as Moksha Yoga; and

WHEREAS, the applicant represents that the services at the PCE include facilities for instruction and programs for physical improvement; and

WHEREAS, the hours of operation for the PCE are: Monday through Friday, from 7:00 a.m. to 10:00 p.m. and Saturday and Sunday, from 10:00 a.m. to 8:00 p.m.; and

WHEREAS, the applicant submitted a Certificate of No Effect (CNE No. 12- 2522) from the Landmarks Preservation Commission (LPC) dated July 13, 2011, approving the interior alterations in the subject PCE space; and

WHEREAS, the applicant submitted a Certificate of No Effect (CNE No. 12-7056) from LPC dated November 30, 2011, approving the exterior alterations in the subject building; and

WHEREAS, accordingly, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the Board notes that the PCE has been in operation since approximately January 15, 2012, without a special permit; and

WHEREAS, accordingly, the Board has determined that the term of the grant will be reduced for the period of time between January 15, 2012 and the date of this grant; and

WHEREAS, the project is classified as a Type I action pursuant to 6 NYCRR Part 617.4; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement, CEQR No.12BSA057M, dated December 16, 2011; and

WHEREAS, the EAS documents that the operation of the PCE would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved that the Board of Standards and Appeals issues a Type I Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to permit, on a site located within a C4-5 (LC) zoning district and the Greenwich Village Historic District, the operation of a physical culture establishment on the second floor of a six-story commercial building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked "Received March 6, 2013" - Two (2) sheets and *on further condition*:

THAT the term of this grant will expire on January 15, 2022;

THAT there will be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT all massages must be performed by New York State licensed massage therapists;

THAT the hours of operation will be limited to Monday through Friday, from 7:00 a.m. to 10:00 p.m. and Saturday and Sunday, from 10:00 a.m. to 8:00 p.m.;

THAT all modifications to the interior and the exterior will be in accordance with the Landmarks Preservation Commission's Certificates of No Effect;

THAT any modifications will be subject to Landmarks Preservation Commission approval;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT Local Law 58/87 compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT substantial construction will be completed in accordance with ZR § 73-70;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, March 12, 2013.

55-12-BZ

APPLICANT – Eric Palatnik, P.C., for Kollel L'Horoah, owner.

SUBJECT – Application March 13, 2012 – Special Permit (§73-19) to permit the legalization of an existing Use Group 3 religious-based, non-profit school (*Kollel L'Horoah*), contrary to use regulations (§42-00). M1-2 zoning district.

PREMISES AFFECTED – 762 Wythe Avenue, corner of Penn Street, Wythe Avenue and Rutledge Street, Block 2216, Lot 19, Borough of Brooklyn.

COMMUNITY BOARD #1BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated February 29, 2012, acting on Department of Buildings Application No. 310126155 reads in pertinent part:

> Proposed Use Group 3 use is not permitted as of right within manufacturing zoning districts, and is contrary to ZR Section 42-00 and therefore requires a special permit from the NYC BSA pursuant to ZR Section 73-19; and

WHEREAS, this is an application under ZR §§ 73-19 and 73-03 to permit, on a site within an M1-2 zoning district, the legalization of a six-story yeshiva (Use Group 3), contrary to ZR § 42-00; and

WHEREAS, a public hearing was held on this application on November 15, 2012, after due notice by publication in the *City Record*, with continued hearings on January 8, 2013 and February 12, 2013, and then to decision on March 12, 2013; and

WHEREAS, the site and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 1, Brooklyn, recommends approval of this application; and

WHEREAS, the application is brought on behalf of the Central United Talmudical Association (the "Yeshiva"); and

WHEREAS, the site is located on the west side of Wythe Avenue, between Penn Street and Rutledge Street, within an M1-2 zoning district; and

WHEREAS, the site has 200 feet of frontage on Wythe Avenue, 125 feet of frontage on Penn Street, 125 feet of frontage on Rutledge Street, and a lot area of 25,000 sq. ft.; and

WHEREAS, the subject building is six stories with a floor area of approximately 119,997.4 sq. ft. (4.80 FAR), and was formerly occupied by a factory; and

WHEREAS, the applicant represents that the Yeshiva meets the requirements of the special permit authorized by ZR § 73-19 for permitting a school in an M1 zoning district; and

WHEREAS, ZR § 73-19 (a) requires an applicant to demonstrate the inability to obtain a site for the development of a school within the neighborhood to be served and with a size sufficient to meet the programmatic needs of the school within a district where the school is permitted as-of-right; and

WHEREAS, the applicant states that the school serves an estimated 1,920 students from pre-nursery through ninth grade; and

WHEREAS, the Yeshiva's program includes 86 classrooms, 142 teachers, and 26 support staff positions; and

WHEREAS, the applicant states that the Yeshiva's program requires a minimum lot area of 20,000-25,000 sq. ft. and a building with a floor area of approximately 120,000 sq. ft. with an additional 20,000 sq. ft. of space in the cellar; and

WHEREAS, accordingly, the applicant searched for two years in South Williamsburg in R6 or equivalent zoning districts, which would allow for an FAR of 4.80 and accommodate the programmatic needs; and

WHEREAS, the applicant represents that it specifically evaluated the feasibility of 11 sites that were either vacant or under-developed within the catchment area of the school, and which could potentially be redeveloped for a school that could accommodate the projected enrollment; and

WHEREAS, the applicant submitted a chart identifying the sites (on Bedford Avenue, Flushing Avenue, Myrtle Avenue, Park Avenue, Willoughby Avenue, and Skillman Street) and summarizing the insufficiencies; and

WHEREAS, the applicant states that, of the 11 sites it evaluated, only two had lot area greater than 20,000 sq. ft. (one was a vacant lot which has since been developed by HPD and one is a banquet hall parking lot not available for sale); six of the smaller sites are in the process or have recently been developed for residential use; and the remaining three are used as parking and a gas station and are not available for sale; and

WHEREAS, the applicant submitted a letter from a real estate broker stating that the Yeshiva sought an existing building for immediate occupancy, but also considered vacant lots, which were not available due to an active residential market that resulted in residential development on the vacant lots; and

WHEREAS, further, the applicant submitted communication between its representation, City Councilperson Letitia James, and the Department of Education (DOE), seeking space to lease in DOE buildings;

the applicant represents that no available DOE space was identified; and

WHEREAS, the applicant maintains that the results of the site search reflects that there is no practical possibility of obtaining a site of adequate size in a nearby zoning district where a school would be permitted as-of-right; and

WHEREAS, accordingly, the Board finds that the requirements of ZR § 73-19 (a) are met; and

WHEREAS, ZR § 73-19 (b) requires an applicant to demonstrate that the proposed school is located no more than 400 feet from the boundary of a district in which such a school is permitted as-of-right; and

WHEREAS, the applicant submitted a radius diagram which reflects that directly across Wythe Avenue there is an R6 zoning district and directly across Rutledge Street there is an R7-1 zoning district, and therefore the site is within 400 feet of at least two zoning districts where the proposed use would be permitted as-of-right; and

WHEREAS, therefore, the Board finds that the requirements of ZR § 73-19 (b) are met; and

WHEREAS, ZR § 73-19 (c) requires an applicant to demonstrate how it will achieve adequate separation from noise, traffic and other adverse effects of the surrounding non-residential district; and

WHEREAS, the applicant states that adequate separation from noise, traffic and other adverse effects of the surrounding M1-2 zoning district will be provided through the building's 12-inch thick exterior masonry with four-inch wood stud interior walls and double-paned glass windows; and

WHEREAS, the noise analysis submitted by the applicant indicates that the existing windows comply with the required noise attenuation and no additional mitigation measures are recommended; and

WHEREAS, the Board finds that the exterior wall and window construction of the building and the adjacency of residential zoning districts with residential uses directly across Wythe Avenue and Rutledge Street will adequately separate the Yeshiva from noise, traffic and other adverse effects of any of the uses within the surrounding M1-2 zoning district; thus, the Board finds that the requirements of ZR § 73-19 (c) are met; and

WHEREAS, ZR § 73-19 (d) requires an applicant to demonstrate how the movement of traffic through the street on which the school will be located can be controlled so as to protect children traveling to and from the school; and

WHEREAS, the applicant states that approximately 1,800 students arrive by bus, and that the school operates approximately 15 buses; and

WHEREAS, the applicant further states that the buses arrive between 7:40 a.m. and 10:00 a.m., and that their arrival is spread out so that the buses arrive at the school in a staggered manner with a maximum of six buses parked in front of the school at one time; and

WHEREAS, the applicant further states that there are two teachers/monitors on each bus with young children and constant radio contact between the bus and a monitor at the school who is solely responsible for buses and stands in front of the school; there are also two monitors on the street in front of the school at the time of arrival and departure; and

WHEREAS, the applicant states that the students are also dismissed in a staggered manner from 2:30 p.m. for the youngest to 6:00 p.m. for the oldest; and

WHEREAS, the Yeshiva confirms that its 15 buses make a total of 35 runs each day at designated times; and

WHEREAS, the applicant states that when buses are not in use, they are parked nearby at 671 Myrtle Avenue and 41 South 11th Street, off street; and

WHEREAS, the applicant states that the street system has significant capacity to enable the buses to access the school without disruption; and

WHEREAS, the Department of Transportation submitted a letter stating that it does not object to the proposed legalization of the school from a traffic safety perspective; and

WHEREAS, the Board finds that the above-mentioned measures maintain safe conditions for children going to and from the School; and

WHEREAS, therefore, the Board finds that the requirements of ZR § 73-19 (d) are met; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-19; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, the proposed project will not interfere with any pending public improvement project; and

WHEREAS, the Board notes that the Fire Department has inspected the site on numerous occasions and that its only violation is that the operating Interior Fire Alarm and full Sprinkler Systems require application and approval by DOB; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR §73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) 12BSA088K, dated March 2012; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and

Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, the New York City Department of Environmental Protection's (DEP) Bureau of Environmental Planning and Analysis reviewed the project for potential hazardous materials, air quality and noise impacts; and

WHEREAS, DEP reviewed and accepted the October 2012 Construction Health and Safety Plan; and

WHEREAS, DEP requested that a Remedial Closure Report be submitted to DEP for review and approval upon completion of the proposed project; and

WHEREAS, DEP reviewed the applicant's May 15, 2012 stationary source air quality screening analysis and determined that the proposed project is not anticipated to result in significant stationary source air quality impacts; and

WHEREAS, DEP reviewed the applicant's October 2012 noise analysis and concurs with the conclusions regarding the required sound attenuation levels and measures; and

WHEREAS, DEP determined that, with these noise measures, the proposed project is not anticipated to result in significant noise impacts; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved that the Board of Standards and Appeals issues a Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-19 and 73-03 and grants a special permit, to allow the legalization of a six-story yeshiva (Use Group 3), on a site within an M1-2 zoning district; *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received March 7, 2013" - Eleven (11) sheets; and *on further condition*:

THAT a certificate of occupancy will be obtained by March 12, 2015;

THAT DOB will not issue a Certificate of Occupancy until the applicant has provided it with DEP's approval of the Remedial Closure Report;

THAT the sound attenuation measures in the proposed building will be maintained as reflected on the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, March 12, 2013.

82-12-BZ

APPLICANT – Law Office of Fredrick A. Becker, for Miriam Benabu, owner.

SUBJECT – Application April 5, 2012 – Special Permit (§73-622) for the enlargement of an existing single family semi-detached home, contrary to floor area, open space and lot coverage (§23-141); side yards (§23-461); perimeter wall height (§23-631) and less than the required rear yard (§23-47). R3-2 zoning district.

PREMISES AFFECTED – 2011 East 22nd Street, between Avenue S and Avenue T, Block 7301, Lot 55, Borough of Brooklyn.

COMMUNITY BOARD #15BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5

Negative.....0

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated March 7, 2012, acting on Department of Buildings Application No. 320431387, reads in pertinent part:

1. Proposed plans are contrary to ZR 23-141 in that the proposed floor area ratio exceeds the maximum permitted.
2. Proposed plans are contrary to ZR 23-141 in that the proposed open space is less than the minimum required.
3. Proposed plans are contrary to ZR 23-141 in that the proposed lot coverage exceeds the maximum permitted.
4. Proposed plans are contrary to ZR 23-631 in that the proposed perimeter wall height exceeds the maximum permitted.
5. Proposed plans are contrary to ZR 23-461 in that the proposed side yard is less than the minimum required.
6. Proposed plans are contrary to ZR 23-47 in that the proposed rear yard is less than the minimum required; and

WHEREAS, this is an application under ZR §§ 73-622 and 73-03, to permit, within an R3-2 zoning district, the proposed enlargement of a semi-detached single-family home, which does not comply with the zoning requirements for floor area ratio ("FAR"), open space, lot coverage, perimeter wall height, rear yard, and side yard contrary to ZR §§ 23-141, 23-461, 23-47, and 23-631; and

WHEREAS, a public hearing was held on this application on September 11, 2012, after due notice by publication in *The City Record*, with continued hearings on October 23, 2012, November 20, 2013, January 8, 2013, and February 12, 2013, and then to decision on March 12, 2013; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 15, Brooklyn, recommends disapproval of this application; and

WHEREAS, an adjacent neighbor provided testimony in opposition to the application; and

WHEREAS, the subject site is located on the east side of East 22nd Street, between Avenue S and Avenue T, within an R3-2 zoning district; and

WHEREAS, the subject site has a total lot area of 2,000 sq. ft., and is occupied by a semi-detached single-family home with a floor area of 1,584.24 sq. ft. (0.79 FAR); and

WHEREAS, the premises is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant seeks an increase in the floor area from 1,584.24 sq. ft. (0.79 FAR) to 2,125.32 sq. ft. (1.07 FAR); the maximum permitted floor area is 1,200 sq. ft. (0.60 FAR); and

WHEREAS, the applicant proposes an open space ratio of 53 percent; the minimum required open space ratio is 65 percent; and

WHEREAS, the applicant proposes a lot coverage of 47 percent; a maximum lot coverage of 35 percent is permitted; and

WHEREAS, the applicant proposes to maintain the existing non-complying perimeter wall height of 21'-7 9/16"; the maximum permitted perimeter wall height is 21'-0"; and

WHEREAS, the applicant proposes a rear yard with a depth of 20 feet; the minimum required rear yard depth is 30 feet; and

WHEREAS, the applicant proposes to maintain the pre-existing non-complying side yard with a width of 6'-9 ½"; a side yard with a minimum width of 8'-0" is required; and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood, and will not impair the future use or development of the surrounding area; and

WHEREAS, the Board notes that the applicant initially proposed an FAR of 1.13, which it directed the applicant to reduce to be more compatible with the neighborhood context; and

WHEREAS, in response, the applicant reduced the amount of floor area and the FAR to the current proposal of 1.07; and

WHEREAS, the Board notes that ZR § 73-622(3) allows the Board to waive the perimeter wall height only in instances where the proposed perimeter wall height is equal to or less than the height of the adjacent building's noncomplying perimeter wall facing the street; and

WHEREAS, the applicant represents that the proposed perimeter wall height is equal to the pre-existing perimeter wall height and lower than the perimeter wall of the adjacent semi-detached home to the north; and

WHEREAS, the applicant submitted a survey to establish the perimeter wall heights, which reflects that the building and the adjacent semi-detached home, constructed as one building have a consistent perimeter wall height; and

WHEREAS, as to the FAR, at the Board's request, the applicant provided an analysis indicating that several homes in the surrounding area have higher FAR's than what is permitted; specifically, six homes range from 1.01 to 1.2 FAR, and thus 1.07 is compatible with the surrounding character; and

WHEREAS, further, the Board notes that the enlargement is completely at the rear of the home and that the front profile mirrors the adjacent semi-detached home; and

WHEREAS, at the Board's direction, the applicant revised the massing at the rear of the home to be more compatible with the adjacent home; and

WHEREAS, based upon its review of the record, the Board finds that the proposed enlargement will neither alter the essential character of the surrounding neighborhood, nor impair the future use and development of the surrounding area; and

WHEREAS, the Board finds that the proposed project will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under ZR §§ 73-622 and 73-03.

Therefore it is resolved, that the Board of Standards and Appeals issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR §§ 73-622 and 73-03, to permit, within an R3-2 zoning district, the proposed enlargement of a semi-detached single-family home, which does not comply with the zoning requirements for floor area ratio, open space, lot coverage, perimeter wall height, rear yard, and side yard contrary to ZR §§ 23-141, 23-461, 23-47, and 23-631; *on condition* that all work shall substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked "Received January 31, 2013"-(6) sheets; and *on further condition*:

THAT the following will be the bulk parameters of the building: a maximum floor area of 2,125.32 sq. ft. (1.07

FAR), a minimum open space ratio of 53 percent, a maximum lot coverage of 47 percent; a maximum perimeter wall height of 21'-7 9/16"; a rear yard with a minimum depth of 20 feet; and a side yard with a minimum width of 6'-9 ½", as illustrated on the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s) only; no approval has been given by the Board as to the use and layout of the cellar;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted;

THAT substantial construction be completed in accordance with ZR § 73-70; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, March 12, 2013.

106-12-BZ

APPLICANT – Eric Palatnik, P.C., for Edgar Soto, owner; Autozone, Inc., lessee.

SUBJECT – Application April 17, 2012 – Special Permit (§73-50) to permit the development of a new one-story retail store (UG 6), contrary to rear yard regulations (§33-292). C8-3 zoning district.

PREMISES AFFECTED – 2102 Jerome Avenue between East Burnside Avenue and East 181st Street, Block 3179, Lot 20, Borough of Bronx.

COMMUNITY BOARD #5BX

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Bronx Borough Superintendent, dated March 20, 2012, acting on Department of Buildings Application No. 220174004, reads in pertinent part:

> Rear yard in conjunction with one story new building is contrary to ZR 33-292 and therefore must be referred to the Board of Standards and Appeals; and

WHEREAS, this is an application under ZR §§ 73-50 and 73-03, to permit, on a site in a C8-3 zoning district abutting an R8 zoning district, the construction of a one-story commercial building which encroaches on a required 30-foot open area, contrary to ZR § 33-292; and

WHEREAS a public hearing was held on this application on November 27, 2012 after due notice by publication in *The City Record*, with continued hearings on January 29, 2013 and February 26, 2013, and then to decision on March 12, 2013; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 5, Bronx, recommends approval of this application; and

WHEREAS, the site is an interior lot located on the east side of Jerome Avenue with 150 feet of frontage on Jerome Avenue and a depth of 100 feet, and a total lot area of 15,000 sq. ft.; and

WHEREAS, the subject site is vacant and currently used for off-street parking; and

WHEREAS, the subject site is located within a C8-3 zoning district that abuts an R8 zoning district to its rear; and

WHEREAS, pursuant to ZR § 33-292, an open area at curb level with a minimum depth of 30 feet is required on a zoning lot within a C8 district with a rear lot line that abuts the rear lot line of a zoning lot in a residential district; and

WHEREAS, the applicant proposes to construct a new one-story, 7,622 sq. ft. commercial building which will contain automobile parts and accessories (Autozone) that sets back 9'-3" from the rear lot line for a width of 63'-3", and a 17 space open parking lot; and

WHEREAS, the first floor encroaches within 20'-9" of the required 30 foot open area up to a height of 18'-8" to the roof and 24'-10" to the parapet wall, contrary to ZR § 33-292; and

WHEREAS, under ZR § 73-50, the Board may grant a waiver of the open area requirements set forth in ZR § 33-29 in appropriate cases; and

WHEREAS, the uses adjacent to the property's rear lot line are an outdoor basketball court and a six-story apartment building; and

WHEREAS, the proposed commercial building will be adjacent to the open basketball court, while the proposed 17 space parking lot will be adjacent to the six-story residential building; and

WHEREAS, the applicant submitted a letter from the NYC Department of Parks and Recreation stating that the adjacent basketball court will remain as dedicated parkland for the foreseeable future; and

WHEREAS, the original proposal was for a building that encroached within the full depth of the open area to a height of 32'-8"; and

WHEREAS, the Board raised concerns regarding the proposed 32'-8" total height of the rear portion of the building and questioned whether the height of the parapet wall could be reduced; and

WHEREAS, in response, the applicant reduced the height of the parapet wall, thereby reducing the total height of the building to 24'-10"; and

WHEREAS, the applicant represents that the proposed height of 24'-10" is within what is typically seen for a one-

story rear yard encroachment, which allows a building height of 23'-0" and a 3'-6" to 4'-0" parapet wall for a total height of up to 27'-0"; and

WHEREAS, the Board raised concerns regarding the location of the building on the zoning lot in regards to the amount of open space at the rear property line; and

WHEREAS, in response, the applicant shifted the building closer to the front lot line thereby providing a 9'-3" open area at the rear lot line; and

WHEREAS, the Board raised concerns regarding lack of any landscaping on the site; and

WHEREAS, in response, the applicant provided revised plans showing ground cover and trees along the perimeter of the site; and

WHEREAS, the Board finds that the proposed development is appropriate because: (1) the building provides a 9'-3" open area at the rear lot line; (2) the height is limited to 24'-10" including the parapet wall; (3) the portion of the building that encroaches into the open area is adjacent primarily to the park and does not face the residential buildings to the rear; and (4) the use is fully enclosed and the site is buffered by landscaping; and

WHEREAS, therefore, the Board finds that the waiver to the required open area will not have an adverse affect on the surrounding area; and

WHEREAS, therefore the Board has determined that the application meets the requirements of ZR §73-03(a) in that the disadvantages to the community at large are outweighed by the advantages derived from such special permit; and that the adverse effect, if any, will be minimized by appropriate conditions; and

WHEREAS, the proposed project will not interfere with any pending public improvement project and therefore satisfies the requirements of ZR §73-03(b); and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under ZR §§73-50 and 73-03.

Therefore it is Resolved that the Board of Standards and Appeals issues a Type II Declaration under 6 NYCRR Part 617.5 and 617.13, §§ 5-02(a), 5-02(b)(2), and 6-15 of the Rules of Procedure for City Environmental Quality Review, and makes the required findings under ZR §§ 73-50 and 73-03, to permit, on a lot within a C8-3 zoning district abutting an R8 zoning district, the construction of a one-story commercial building which encroaches on a required 30-foot open area required by ZR § 33-292, *on condition* that all work shall substantially conform to drawings as they apply to the objection above-noted, filed with this application marked "Received March 6, 2013" – seven (7) sheets; and *on further condition*;

THAT the height of the building within the required open area will be limited to a height of 18'-8" to the roof and 24'-10" to the parapet wall;

THAT the building will encroach 20'-9" within the 30 foot open area and the remaining 9'-3" will be landscaped;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT all landscaping will be maintained and replaced if necessary;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted;

THAT substantial construction be completed in accordance with ZR § 73-70; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, March 12, 2013.

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated June 8, 2012, acting on Department of Buildings Application No. 320443748, reads in pertinent part:

1. Objection #3 ZR 23-141b – Proposed lot coverage is contrary to Max LC of 35 for this zoning distr.
2. Objection #4 ZR 23-46 – Proposed rear yard is contrary to min 30 ft required.
3. Objection #4 ZR 23-141b – Proposed FAR is contrary to max of .5 for this zoning district; and

WHEREAS, this is an application under ZR §§ 73-622 and 73-03, to permit, within an R3-1 zoning district, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for floor area ratio ("FAR"), rear yard, and lot coverage contrary to ZR §§ 23-141 and 23-46; and

WHEREAS, a public hearing was held on this application on February 12, 2013, after due notice by publication in *The City Record*, and then to decision on

March 12, 2013; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by Commissioner Montanez; and

WHEREAS, Community Board 15, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on Girard Street, between Hampton Avenue and Oriental Boulevard, within an R3-1 zoning district; and

WHEREAS, the subject site has a total lot area of 3,120 sq. ft., and is occupied by a single-family home with a floor area of 1,311 sq. ft. (0.42 FAR); and

WHEREAS, the premises is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant seeks an increase in the floor area from 1,311 sq. ft. (0.42 FAR) to 2,319 sq. ft. (1.74 FAR); the maximum permitted floor area is 1,560 sq. ft. (0.50 FAR); and

WHEREAS, the applicant proposes a lot coverage of 44 percent; the maximum permitted lot coverage is 35 percent; and

WHEREAS, the applicant proposes a rear yard with a depth of 28'-2"; the minimum required rear yard depth is 30 feet; and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood, and will not impair the future use or development of the surrounding area; and

WHEREAS, based upon its review of the record, the Board finds that the proposed enlargement will neither alter the essential character of the surrounding neighborhood, nor impair the future use and development of the surrounding area; and

WHEREAS, the Board finds that the proposed project will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under ZR §§ 73-622 and 73-03.

Therefore it is resolved, that the Board of Standards and Appeals issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR §§ 73-622 and 73-03, to permit, within an R3-1 zoning district, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for floor area ratio, rear yard, and lot coverage contrary to ZR §§ 23-141 and 23-46; *on condition* that all work shall substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked "Received September 14, 2012"-(12) sheets; and *on further condition*:

THAT the following will be the bulk parameters of the building: a maximum floor area of 2,319 sq. ft. (0.74 FAR), a maximum lot coverage of 44 percent, and a rear yard with a minimum depth of 28'-2", as illustrated on the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s) only; no approval has been given by the Board as to the use and layout of the cellar;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted;

THAT substantial construction be completed in accordance with ZR § 73-70; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

CEQR #13-BSA-040M

APPLICANT – Sheldon Lobel, P.C., for Pigranel Management Corp., owner; Narita Bodywork, Inc., lessee.

SUBJECT – Application October 3, 2012 – Special Permit (§73-36) to allow a physical culture establishment (*Narita Bodyworks*) on the 4th floor of existing building. M1-6 zoning district.

PREMISES AFFECTED – 54 West 39th Street, south side of West 39th Street, between Fifth Avenue and Avenue of the Americas, Block 840, Lot 78, Borough of Manhattan.

COMMUNITY BOARD #5M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Manhattan Borough Commissioner, dated September 5, 2012, acting on Department of Buildings Application No. 121142655, reads in pertinent part:

> Physical Culture Establishment is not permitted as of right in zoning M1-6 district and is contrary to ZR 42-10. Approval from BSA and must be referred to the Board of Standards and Appeals for approval pursuant to ZR 73-36; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site located within an M1-6 zoning district, the operation of a physical culture

establishment (PCE) on the fourth floor in a sixteen-story commercial building, contrary to ZR § 42-10; and

WHEREAS, a public hearing was held on this application on January 29, 2013, after due notice by publication in *The City Record*, and then to decision on March 5, 2013; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 5, Manhattan, recommends disapproval of this application; and

WHEREAS, the subject site is located on the south of West 39th Street between Fifth Avenue and Avenue of the Americas, within an M1-6 zoning district; and

WHEREAS, the site has 35feet of frontage on West 39th Street, a maximum lot depth of 98.75 feet, and a total lot area of 3,456 sq. ft.; and

WHEREAS, the site is occupied by a 16-story commercial building; and

WHEREAS, the proposed PCE will occupy 3,080 sq. ft. of floor area on the fourth floor and will provide various therapeutic and relaxation services such as massages, facials, waxing, and body treatments; it will include eight massage therapy treatment rooms, four rooms for skin care treatments, a reception area, laundry room, and showers within certain treatment rooms; and

WHEREAS, the PCE will be operated as Narita Bodywork; and

WHEREAS, the applicant represents that the services at the PCE include facilities for instruction and programs for physical improvement; and

WHEREAS, the hours of operation for the proposed PCE will be: 24 hours a day, 7 days a week; and

WHEREAS, in response to concerns raised by the Community Board regarding the proposed 24-hour operation, the applicant asserts that the Board has granted several PCE special permits in the surrounding manufacturing area with 24-hour operation; and

WHEREAS, further, the applicant notes that the surrounding area is a high-density commercial district bordering the Special Midtown District and is characterized predominantly by commercial uses, and that the subject building only contains commercial uses; and

WHEREAS, the applicant also represents that the proposed operation is intended to open 10:00 am to 2:00 am daily, however they would prefer the flexibility to increase the hours, should there be demand for 24-hour service; and

WHEREAS, the applicant states and the Board agrees that if the applicant elects to extend the PCE's hours to a 24-hours/day, it will not adversely affect the surrounding uses; and

WHEREAS, accordingly, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as a Unlisted action pursuant to 6 NYCRR Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement, CEQR No.13BSA040M, dated October 1, 2012; and

WHEREAS, the EAS documents that the operation of the PCE would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to permit, on a site located within a M1-6 zoning district, the operation of a physical culture establishment on the fourth floor in a sixteen-story commercial building, contrary to ZR § 42-10; *on condition* that all work shall substantially conform to drawings filed with this application marked "Received March 5, 2013" - Three (3) sheets and *on further condition*:

THAT the term of this grant will expire on February 26, 2023;

THAT there will be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT all massages must be performed by New York State licensed massage therapists;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT Local Law 58/87 compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT substantial construction will be completed in accordance with ZR § 73-70;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, March 12, 2013.

16-12-BZ

APPLICANT – Eric Palatnik, P.C., for Congregation Adas Yereim, owner.

SUBJECT – Application January 23, 2012 – Special Permit (§73-19) to allow for a school (*Congregation Adas Yereim*) contrary to use regulations (§42-00). M1-2 zoning district.

PREMISES AFFECTED – 184 Nostrand Avenue, northwest corner of Nostrand Avenue and Willoughby Avenue, Block 1753, Lot 42, 43, Borough of Brooklyn.

COMMUNITY BOARD #4BK

ACTION OF THE BOARD – Laid over to April 23, 2013, at 10 A.M., for adjourned hearing.

195-12-BZ

APPLICANT – The Law Offices of Eduardo J. Diaz, for Garmac Properties LLC, owner.

SUBJECT – Application June 15, 2012 – Re-instatement (§11-411) of a previously approved variance which allowed a two-story office building (UG6) and four parking spaces, which expired on May 13, 2000. Waiver of the Rules. R4 zoning district.

SPECIAL ORDER CALENDAR

374-04-BZ
APPLICANT – Greenberg Traurig, LLP by Deirdre A. Carson, Esq., owner.
SUBJECT – Application December 5, 2012 – Extension of Time to complete construction of a previously-granted Variance (§72-21) for the development of a seven-story residential building with ground floor commercial space, which expired on October 18, 2009; Amendment to approved plans; and waiver of the Rules. C6-2A zoning district/SLMD.
PREMISES AFFECTED – 246 Front Street, fronting on Front and Water Streets, 126' north of intersection of Peck Slip and Front Street, Block 107, Lot 34, Borough of Manhattan.
COMMUNITY BOARD #1M
ACTION OF THE BOARD – Application granted on condition.
THE VOTE TO GRANT –
Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5
Negative:.....0
THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure, an extension of time to complete construction and obtain a certificate of occupancy in accordance with a variance, which expired on October 18, 2009, and an amendment to the prior approval; and

WHEREAS, a public hearing was held on this application on February 26, 2013, after due notice by publication in *The City Record*, and then to decision on March 19, 2013; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson and Commissioner Ottley-Brown; and

WHEREAS, Community Board 1, Manhattan, recommends approval of this application; and

WHEREAS, the site is located on in the midblock of the block bounded by Front Street, Peck Slip, Water Street and Dover Street in a C6-2A zoning district within the South Street Seaport Historic District and Extension and the South Street Seaport Subdistrict of the Special Lower Manhattan District; and

WHEREAS, the Board has exercised jurisdiction over the subject site since October 18, 2005 when, under the subject calendar number, the Board granted a variance for the development of a mixed-use building with residential use and ground floor retail, rising to seven stories on Front Street and five stories on Water Street, which does not comply with certain bulk regulations set forth at ZR §§ 23-32, 23-145, 23-533, 23-692, 23-711 and 28-32, to expire on October 18, 2009; and

WHEREAS, under the original grant, the applicant represented that the proposed mixed building would contain 11,158 sq. ft. of total floor area (total FAR of 5.25), 9,571 sq. ft. of which would be residential floor area (FAR of 4.54), and 1,587 sq. ft. of which would be commercial floor area (FAR of .71); and

WHEREAS, the amended plans for the mixed building indicate that it will contain 10,782 sq. ft. of total floor area (total FAR of 4.99), 9,734 sq. ft. of which will be residential floor area (FAR of 4.28) and 1,048 sq. ft. of which will be commercial floor area (FAR of .71); and

WHEREAS, the applicant seeks to extend the time to complete construction and obtain a certificate of occupancy in accordance with the variance for an additional four years; and

WHEREAS, the applicant also requests an amendment to permit: elimination of the excavated cellar on the Front Street side of the building; reconfiguration of what will now be a ground floor residential lobby with accessory storage on the Water Street side of the building; reconfiguration of the building entrance lobby and the elevator vestibule on all floors on the Front Street side; redesign of the apartments on the Water Street side as a single family dwelling; addition of an internal convenience stair between the sixth and seventh floors on the Front Street side of the building to create a duplex; and a reconfiguration of the rooftop bulkheads for stairs, elevator and mechanicals; a three-inch increase of the height of the setback above the sixth story; a change in the number of dwelling units from nine to six; and removal of recreation space from the rooftop of the Front Street building segment; and

WHEREAS, the Department of Buildings has reviewed the amended plans and clarified that such plans do not comply with: ZR §§ 23-32, 23-532, 23-47, 23-692, 23-711 and 23-145; and

WHEREAS, the Board has determined that the amended plans result in the same, or a lesser degree of non-compliance with the Zoning Resolution than was previously proposed and approved; and

WHEREAS, the applicant has submitted a Status Update Letter from the Landmarks Preservation Commission ("LPC"), which indicates that on October 16, 2012, LPC voted to approve the amended plans on condition that the applicant work with LPC staff to improve the detailing and articulation of the Water Street façade and obtain a Certificate of Appropriateness for such design; and

WHEREAS, based upon its review of the record, the Board finds the requested waiver, extension of time, and amendment are appropriate with certain conditions as set forth below.

Therefore it is Resolved that the Board of Standards and

Appeals *waives* the Rules of Practice and Procedure, *reopens* and *amends* the resolution, as adopted on October 18, 2009, so that as amended this portion of the resolution shall read: "to extend the time to complete construction for a period of four years from March 19, 2013, to expire on March 19, 2017, and to permit the noted modifications to the site; *on condition* that all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked 'Received March 14, 2013'- (14) sheets; and *on further condition*:

THAT construction will be completed by March 19, 2017;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT the number of dwelling units, floor area and FAR for the proposed mixed building will be in accordance with the terms of this grant;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted."

(DOB Application No. 121324487)

Adopted by the Board of Standards and Appeals, March 19, 2013.

551-37-BZ

APPLICANT – Eric Palatnik, P.C., for Manocher M. Mehrfar, owner.

SUBJECT – Application October 12, 2012 – Extension of Term (§11-411) of approved variance for the continued operation of an automobile repair shop (*Red's Auto Repair*) which expired on July 15, 2012; Waiver of the Rules. R1-2 zoning district.

ACTION OF THE BOARD – Application granted.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application under ZR § 11-332, to permit an extension of time to complete construction and obtain a certificate of occupancy for a minor development currently under construction at the subject site; and

WHEREAS, a public hearing was held on this application on February 26, 2013, after due notice by publication in *The City Record*, and then to decision on March 19, 2013; and

WHEREAS, the site was inspected by Commissioner Hinkson; and

WHEREAS, the subject site is located on the west side of Beach 93rd Street, approximately 211 feet south of Holland Avenue in Rockaway Beach, in an R5A zoning district; and

WHEREAS, the site has 175 feet of frontage along Beach 93rd Street, 157.13 feet of frontage along Beach 94th Street, 107.01 feet of frontage along Shore Front Boulevard, and a total lot area of 18,488 sq. ft.; and

WHEREAS, the site is proposed to be developed with a six-story residential building with 57 dwelling units and 36 accessory parking spaces (the "Building"); and

WHEREAS, the Building complies with the parameters of the former R6 zoning district; and

WHEREAS, on January 8, 2007, New Building Permit No. 402483013-01-NB (hereinafter, the "New Building Permit") was issued by the Department of Buildings ("DOB") permitting construction of the Building; and

WHEREAS, however, on August 14, 2008 (hereinafter, the "Enactment Date"), the City Council voted to adopt the Rockaway Neighborhoods Rezoning, which rezoned the site

from R6 to R5A; and

WHEREAS, accordingly, the Building, being neither a one- or two-family detached residence, nor having a floor to area ratio of 1.10 or less, nor a maximum height of 35 feet or less, does not comply with the current zoning; and

WHEREAS, as of the Enactment Date, the applicant had obtained permits for the development and had completed 100 percent of its foundations, such that the right to continue construction was vested pursuant to ZR § 11-331, which allows DOB to determine that construction may continue under such circumstances; and

WHEREAS, however, only two years are allowed for completion of construction and to obtain a certificate of occupancy; and

WHEREAS, in the two years subsequent to the Enactment Date, construction was not completed and a certificate of occupancy was not issued; and

WHEREAS, accordingly, an application was filed with the Board for an extension of time to complete construction and obtain a certificate of occupancy; and

WHEREAS, on October 19, 2010, the Board granted a two-year extension of time to complete construction and obtain a certificate of occupancy under the subject calendar number; and

WHEREAS, accordingly, the applicant had until October 19, 2012 to complete construction and obtain a certificate of occupancy; and

WHEREAS, because the two-year time limit has expired and construction is still ongoing, the applicant seeks relief pursuant to ZR § 11-30 *et seq.*, which sets forth the regulations that apply to a reinstatement of a permit that lapses due to a zoning change; and

WHEREAS, first, the Board notes that ZR § 11-31(c)(1) defines construction such as the proposed development, which involves the construction of a single building which is non-complying under an amendment to the Zoning Resolution, as a "minor development"; and

WHEREAS, for a "minor development," an extension of time to complete construction, previously authorized under a grant for an extension made pursuant to ZR § 11-331, may be granted by the Board pursuant to ZR § 11-332; and

WHEREAS, ZR § 11-332 reads, in pertinent part: "[I]n the event that construction permitted in Section 11-331 (Right to construct if foundations completed) has not been completed and a certificate of occupancy including a temporary certificate of occupancy, issued therefore within two years after the effective date of any applicable amendment . . . the building permit shall automatically lapse and the right to continue construction shall terminate. An application to renew the building permit may be made to the Board of Standards and Appeals not more than 30 days after the lapse of such building permit. The Board may renew such building permit for two terms of not more than two years each for a minor development . . . In granting such an extension, the Board shall find that substantial construction has been completed and substantial expenditures made, subsequent to the granting of the permit, for work required by any applicable law for the use or development of the property pursuant to the permit."; and

WHEREAS, as a threshold issue, the Board must determine that proper permits were issued, since ZR § 11-31(a) requires: "[F]or the purposes of Section 11-33, relating to Building Permits Issued Before Effective Date of Amendment to this Resolution, the following terms and general provisions shall apply: (a) A lawfully issued building permit shall be a building permit which is based on an approved application showing complete plans and specifications, authorizes the entire construction and not merely a part thereof, and is issued prior to any applicable amendment to this Resolution. In case of dispute as to whether an application includes "complete plans and specifications" as required in this Section, the Commissioner of Buildings shall determine whether such requirement has been met."; and

WHEREAS, the Board notes that the subject site was initially vested by DOB in 2008, granted an extension of time to complete construction and obtain a certificate of occupancy by the Board in 2010, and now seeks an additional extension under ZR § 11-332; and

WHEREAS, the applicant represents that all of the relevant DOB permits were lawfully issued to the owner of the subject premises; and

WHEREAS, by letter dated August 17, 2010, DOB stated that the New Building Permit was lawfully issued, authorizing construction of the proposed Building prior to the Enactment Date; and

WHEREAS, the Board has reviewed the record and agrees that the Permit was lawfully issued to the owner of the subject premises prior to the Enactment Date and was timely renewed until the expiration of the two-year term for construction; and

WHEREAS, turning to the substantive findings of ZR § 11-332, the Board notes that there is no fixed standard in an application made under this provision as to what constitutes substantial construction or substantial expenditure in the context of new development; and

WHEREAS, the Board also observes that the work to be measured under ZR § 11-332 must be performed after the issuance of the permit; and

WHEREAS, similarly, the expenditures to be assessed under ZR § 11-332 are those incurred after the permit is issued; and

WHEREAS, accordingly, as is reflected below, the Board only considered post-permit work and expenditures, as submitted by the applicant, and directed the applicant to exclude pre-permit expenditures; and

WHEREAS, the Board further notes that any work performed after the two-year time limit to complete construction and obtain a certificate of occupancy cannot be considered for vesting purposes; accordingly, only the work performed as of October 19, 2012 has been considered; and

WHEREAS, the applicant states that work on the Building subsequent to the issuance of the permits includes: 100 percent of the excavation; 100 percent of the foundation (including the installation of over 300 driven piles); and the installation of a complex drainage system; and

WHEREAS, in support of this statement, the applicant has submitted the following: a breakdown of the construction costs by line item; a foundation survey; copies of cancelled checks; invoices; and photographs of the site; and

WHEREAS, the Board has reviewed all documentation and agrees that it establishes that the aforementioned work was completed subsequent to the issuance of the valid permits; and

WHEREAS, as to costs, the applicant represents that the total expenditure paid for the development is $3,011,614 (including $1,474,974 in hard costs), or 17 percent, out of the $17,610,614 cost to complete; and

WHEREAS, as noted, the applicant has submitted invoices and copies of cancelled checks; and

WHEREAS, the applicant contends that this percentage constitutes a substantial expenditure sufficient to satisfy the finding in ZR § 11-332; and

WHEREAS, based upon its review of all the submitted evidence, the Board finds that substantial construction was completed and that substantial expenditures were made since the issuance of the permits; and

WHEREAS, therefore, the Board finds that the applicant has adequately satisfied all the requirements of ZR § 11-332, and that the owner is entitled to the requested reinstatement of the New Building Permit, and all other permits necessary to complete the proposed development; and

WHEREAS, accordingly, the Board, through this resolution, grants the owner of the site a two-year extension of time to complete construction, pursuant to ZR § 11-332.

Therefore it is Resolved that this application made pursuant to ZR § 11-332 to renew New Building Permit No. 402483013-01-NB, as well as all related permits for various work types, either already issued or necessary to complete construction, is granted, and the Board hereby extends the time to complete the proposed development and obtain a certificate of occupancy for one term of two years from the date of this resolution, to expire on March 19, 2015.

Adopted by the Board of Standards and Appeals, March 19, 2013.

201-10-BZY

APPLICANT – Kramer Levin Naftalis & Frankel, for 180 Orchard LLC., owner.

SUBJECT – Application January 18, 2013 – Extension of time to complete construction (§11-332) for an additional two years for a minor development, which will expire on March 15, 2013. C4-4A zoning district.

PREMISES AFFECTED – 180 Orchard Street, Orchard Street to Ludlow Street, Block 412, Lot 5, Borough of Manhattan.

COMMUNITY BOARD #3M

ACTION OF THE BOARD – Application granted.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application under ZR § 11-332, to permit an extension of time to complete construction and obtain a certificate of occupancy for a minor development currently under construction at the subject site; and

WHEREAS, a public hearing was held on this application on February 26, 2013, after due notice by publication in *The City Record*, and then to decision on March 19, 2013; and

WHEREAS, the site was inspected by Chair Srinivasan, Vice Chair Collins, Commissioner Hinkson, Commissioner Ottley-Brown, and Commissioner Montanez; and

WHEREAS, the subject site is an L-shaped through lot with frontage on Orchard Street and Ludlow Street, between Houston Street and Stanton Street, within a C4-4A zoning district; and

WHEREAS, the subject site has 128'-3" of frontage along Orchard Street, 50'-1" of frontage along Ludlow Street, a depth ranging from 87'-10" to 175'-8", and a total lot area of 41,501 sq. ft.; and

WHEREAS, the site is proposed to be developed with a 24-story building containing approximately 246 hotel rooms, community facility uses, retail stores on the lower levels and an accessory underground parking garage (the "Building"); and

WHEREAS, the Building is proposed to have a total floor area of 154,519.6 sq. ft.; and

WHEREAS, the applicant states that the owner will be filing an application with the City Planning Commission ("CPC") requesting a special permit pursuant to ZR § 13-561 to expand the size of the underground accessory parking garage at the site; and

WHEREAS, the applicant represents that the proposed CPC special permit for the garage has no effect on the subject proposal and that the plans for the garage, as approved by the Department of Buildings ("DOB"), have not changed; and

WHEREAS, the development complies with the former C6-1 zoning district parameters; and

WHEREAS, on November 23, 2005, New Building Permit No. 104297850-01-NB (hereinafter, the "Permit") was issued by the DOB permitting construction of the Building; and

WHEREAS, however, on November 19, 2008 (hereinafter, the "Enactment Date"), the City Council voted to adopt the East Village/Lower East Side Rezoning, which rezoned the site from C6-1 to C4-4A; and

WHEREAS, accordingly, the Building does not comply with the current zoning with respect to floor area ratio, building height and street wall location; and

WHEREAS, as of the Enactment Date, the applicant had obtained permits for the development and had completed 100 percent of its foundations, such that the right to continue construction was vested pursuant to ZR § 11-331, which allows DOB to determine that construction may continue

under such circumstances; and

WHEREAS, however, only two years are allowed for completion of construction and to obtain a certificate of occupancy; and

WHEREAS, in the two years subsequent to the Enactment Date, construction was not completed and a certificate of occupancy was not issued; and

WHEREAS, accordingly, an application was filed with the Board for an extension of time to complete construction and obtain a certificate of occupancy; and

WHEREAS, on March 15, 2011, the Board granted a two-year extension of time to complete construction and obtain a certificate of occupancy under the subject calendar number; and

WHEREAS, accordingly, the applicant had until March 15, 2013 to complete construction and obtain a certificate of occupancy; and

WHEREAS, because the two-year time limit has expired and construction is still ongoing, the applicant seeks relief pursuant to ZR § 11-30 *et seq.*, which sets forth the regulations that apply to a reinstatement of a permit that lapses due to a zoning change; and

WHEREAS, first, the Board notes that ZR § 11-31(c)(1) defines construction such as the proposed development, which involves the construction of a single building which is non-complying under an amendment to the Zoning Resolution, as a "minor development"; and

WHEREAS, for a "minor development," an extension of time to complete construction, previously authorized under a grant for an extension made pursuant to ZR § 11-331, may be granted by the Board pursuant to ZR § 11-332; and

WHEREAS, ZR § 11-332 reads, in pertinent part: "[I]n the event that construction permitted in Section 11-331 (Right to construct if foundations completed) has not been completed and a certificate of occupancy including a temporary certificate of occupancy, issued therefore within two years after the effective date of any applicable amendment . . . the building permit shall automatically lapse and the right to continue construction shall terminate. An application to renew the building permit may be made to the Board of Standards and Appeals not more than 30 days after the lapse of such building permit. The Board may renew such building permit for two terms of not more than two years each for a minor development . . . In granting such an extension, the Board shall find that substantial construction has been completed and substantial expenditures made, subsequent to the granting of the permit, for work required by any applicable law for the use or development of the property pursuant to the permit."; and

WHEREAS, as a threshold issue, the Board must determine that proper permits were issued, since ZR § 11-31(a) requires: "[F]or the purposes of Section 11-33, relating to Building Permits Issued Before Effective Date of Amendment to this Resolution, the following terms and general provisions shall apply: (a) A lawfully issued building permit shall be a building permit which is based on an approved application showing complete plans and specifications, authorizes the entire construction and not merely a part thereof, and is issued prior to any applicable amendment to this Resolution. In case of dispute as to whether an application includes "complete plans and specifications" as required in this Section, the Commissioner of Buildings shall determine whether such requirement has been met."; and

WHEREAS, the Board notes that the subject site was initially vested by DOB in 2008, granted an extension of time to complete construction and obtain a certificate of occupancy by the Board in 2011, and now seeks an additional extension under ZR § 11-332; and

WHEREAS, the applicant represents that all of the relevant DOB permits were lawfully issued to the owner of the subject premises; and

WHEREAS, by letter dated February 1, 2011, DOB stated that the New Building Permit was lawfully issued, authorizing construction of the proposed Building prior to the Enactment Date; and

WHEREAS, the Board has reviewed the record and agrees that the Permit was lawfully issued to the owner of the subject premises prior to the Enactment Date and was timely renewed until the expiration of the two-year term for construction; and

WHEREAS, turning to the substantive findings of ZR § 11-332, the Board notes that there is no fixed standard in an application made under this provision as to what constitutes substantial construction or substantial expenditure in the context of new development; and

WHEREAS, the Board also observes that the work to be measured under ZR § 11-332 must be performed after the issuance of the permit; and

WHEREAS, similarly, the expenditures to be assessed under ZR § 11-332 are those incurred after the permit is issued; and

WHEREAS, accordingly, as is reflected below, the Board only considered post-permit work and expenditures, as submitted by the applicant, and directed the applicant to exclude pre-permit expenditures; and

WHEREAS, the Board further notes that any work performed after the two-year time limit to complete construction and obtain a certificate of occupancy cannot be considered for vesting purposes; accordingly, only the work performed as of November 19, 2010 has been considered; and

WHEREAS, the applicant states that work on the proposed development subsequent to the issuance of the original permit includes: 100 percent of the excavation, footings and foundation; 100 percent of the underground parking garage and cellar levels; and 100 percent of the first and second floor retail space; and

WHEREAS, the applicant states that work on the proposed development subsequent to the Board's March 15, 2011 extension of time to complete construction under the permit includes: installation of sprinklers in the sub-cellar, ground and second floors; installation of concrete and masonry block in the sub-cellar, cellar and ground floors, construction of columns throughout the cellar and sub-cellar; construction of additional support for columns below grade; installation of a new glass storefront; reconfiguration of

elevator and stair cores; and installation of roof protection on the adjacent properties; and

WHEREAS, additionally, the applicant has substantially revised the plans to comply with changes in applicable codes since 2005, including: the 2010 ADA Code; the life safety provisions of the 2008 NYC Construction Codes; and the NYC Energy Conservation Code; and

WHEREAS, in support of these statements, the applicant has submitted the following: a breakdown of the construction costs by line item; plans showing recent foundation, sub-cellar, cellar, ground, mezzanine and second-story work; copies of cancelled checks; invoices; photographs of the site; and court actions taken in furtherance of continuing construction; and

WHEREAS, the Board has reviewed all documentation and agrees that it establishes that the aforementioned work was completed subsequent to the issuance of the valid permits; and

WHEREAS, as to costs, the applicant represents that the total expenditure paid for the development is $25,205,136, or 36.5 percent, out of the $69,014,234 cost to complete; and

WHEREAS, further as to costs, the applicant represents of the $25,205,136 expended to date, $6,612,054 has been expended since the Board's March 15, 2011 extension of time to complete construction; and

WHEREAS, as noted, the applicant has submitted invoices and copies of cancelled checks; and

WHEREAS, the applicant contends that this percentage constitutes a substantial expenditure sufficient to satisfy the finding in ZR § 11-332; and

WHEREAS, based upon its review of all the submitted evidence, the Board finds that substantial construction was completed and that substantial expenditures were made since the issuance of the permits; and

WHEREAS, therefore, the Board finds that the applicant has adequately satisfied all the requirements of ZR § 11-332, and that the owner is entitled to the requested reinstatement of the New Building Permit, and all other permits necessary to complete the proposed development; and

WHEREAS, accordingly, the Board, through this resolution, grants the owner of the site a two-year extension of time to complete construction, pursuant to ZR § 11-332.

Therefore it is Resolved that this application made pursuant to ZR § 11-332 to renew New Building Permit No. 104297850-01-NB, as well as all related permits for various work types, either already issued or necessary to complete construction, is granted, and the Board hereby extends the time to complete the proposed development and obtain a certificate of occupancy for one term of two years from the date of this resolution, to expire on March 19, 2015.

Adopted by the Board of Standards and Appeals, March 19, 2013.

292-12-A

APPLICANT – Gary Lenhart, R.A., for The Breezy Point Cooperative, Inc., owner; Marie & Kenneth Fuchs, lessees.

SUBJECT – Application October 10, 2012 – Proposed reconstruction and enlargement of existing single-family dwelling located partially in the bed of a mapped street, contrary to Article 3, Section 35 of the General City Law; proposed upgrade of the existing private disposal system in the bed of the mapped street, contrary to Article 3, Section 35 of the General City Law. R4 zoning district.

PREMISES AFFECTED – 19 Marion Walk, east side of Marion Walk, 125' north of Breezy Point, Block 16350, Lot p/o400, Borough of Queens.

COMMUNITY BOARD #14Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Queens Borough Commissioner dated September 21, 2012 acting on Department of Buildings Application No. 420592102, reads in pertinent part:

A1- The existing building to be altered lies within the bed of a mapped street, contrary to General City Law Article 3, Section 35; and

A2- The proposed upgrade of the existing private disposal system in the bed of a mapped street is contrary to General City Law Article 3, Section 35; and

WHEREAS, a public hearing was held on this application on March 19, 2013, after due notice by publication in the *City Record*, and then to decision on the same date; and

WHEREAS, by letter dated October 18, 2012, the Fire Department states that it has reviewed the subject proposal and has no objections to the proposal; and

WHEREAS, by letter dated October 24, 2012, the Department of Environmental Protection states that it has no objections to the proposal; and

WHEREAS, by letter dated January 28, 2013, the Department of Transportation ("DOT") states that it has no objection to the subject proposal; and

WHEREAS, DOT states that the subject lot is not currently included in the agency's Capital Improvement Program; and

WHEREAS, accordingly, the Board has determined that the applicant has submitted adequate evidence to warrant this approval under certain conditions.

Therefore it is Resolved that the decision of the Queens Borough Commissioner, dated September 21, 2012 acting on Department of Buildings Application No. 420592102, is modified by the power vested in the Board by Section 35 of the General City Law, and that this appeal is granted, limited to the decision noted above; *on condition* that construction

shall substantially conform to the drawing filed with the application marked "Received October 10, 2012"-one (1) sheet; that the proposal shall comply with all applicable zoning district requirements; and that all other applicable laws, rules, and regulations shall be complied with; and *on further condition*:

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT DOB will review the proposed plans to ensure compliance with all relevant provisions of the Zoning Resolution;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted;

THAT the home shall be sprinklered in accordance with the BSA-approved plans; and

THAT the Department of Buildings must ensure compliance with all other applicable
provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, March 19, 2013.

APPLICANT – Gary Lenhart, for The Breezy Point Cooperative, Inc., owner; Anne McCoale, lessee.

SUBJECT – Application November 8, 2012 – Reconstruction and enlargement of existing single-family dwelling not fronting a mapped street, contrary to Article 3, section 36 of the General City law. The proposed upgrade of the existing non-conforming private disposal system located partially in the bed of the service road, contrary to building department policy. R4 zoning district.

PREMISES AFFECTED – 25 Olive Walk, Queens, east side of Olive Walk, 140' north of Breezy Point Boulevard, Block 16350, Lot 400, Borough of Queens.

COMMUNITY BOARD #14Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Queens Borough Commissioner dated November 1, 2012 acting on Department of Buildings Application No. 420629537, reads in pertinent part:

(A1) The street giving access to the existing building to be altered is not duly placed on the official map of the city of New York, therefore:

a) A Certificate of Occupancy may not be issued as per Article 3, Section 36 of the General City Law

b) The existing dwelling to be altered does not have at least 8% of total perimeter of the building fronting directly upon a legally mapped street or frontage space is contrary to Section 501.3.1 of the administrative code.

(A2) The proposed upgrade of the existing private disposal system in the bed of a the service lane is contrary to Department of Buildings policy; and

WHEREAS, a public hearing was held on this application on March 19, 2013, after due notice by publication in the *City Record*, and then to decision on the same date; and

WHEREAS, by letter dated February 22, 2013 the Fire Department states that it has reviewed the subject proposal and has no objections to the proposal; and

WHEREAS, accordingly, the Board has determined that the applicant has submitted adequate evidence to warrant this approval under certain conditions.

Therefore it is Resolved that the decision of the Queens Borough Commissioner, dated November 1, 2012 acting on Department of Buildings Application No. 420629537, is modified by the power vested in the Board by Section 36 of the General City Law, and that this appeal is granted, limited to the decision noted above; *on condition* that construction shall substantially conform to the drawing filed with the application marked "Received November 8, 2012 "-one (1) sheet; that the proposal shall comply with all applicable zoning district requirements; and that all other applicable laws, rules, and regulations shall be complied with; and *on further condition*:

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT DOB will review the proposed plans to ensure compliance with all relevant provisions of the Zoning Resolution;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted;

THAT the home shall be sprinklered in accordance with the BSA-approved plans; and

THAT the Department of Buildings must ensure compliance with all other applicable
provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

THE RESOLUTION –
WHEREAS, the decision of the Queens Borough Commissioner, dated July 5, 2012, acting on Department of Buildings Application No. 420581481, reads in pertinent part:

1. The existing/proposed illuminated advertising sign is not a permitted use in an R3X district, contrary to ZR 22-30 and 52-731.
2. The existing/proposed sign structure is not a permitted obstruction in the required yards in an R3X district, contrary to ZR 23-44, 23-45 and 23-46.
3. The area of the existing/proposed sign exceeds the maximum area of signs for non-residential buildings or other structures in an R3X district, contrary to ZR 22-321(b).
4. The existing/proposed sign structure 39'-1" in

height exceeds the maximum height of signs in an R3X district, contrary to ZR 22-342; and

WHEREAS, this is an application under ZR § 72-21, to permit, within an R3X zoning district, the legalization of an existing indirectly illuminated outdoor advertising sign, which does not conform to district use and bulk regulations, contrary to ZR §§ 22-30, 22-321, 22-342, 23-44, 23-45, 23-46, and 52-731; and

WHEREAS, a public hearing was held on this application on November 20, 2012, after due notice by publication in *The City Record*, continued hearings on January 29, 2013 and February 26, 2013, and then to decision on March 19, 2013; and

WHEREAS, the site and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 13, Queens, recommends approval of this application; and

WHEREAS, the subject site is located on the south side of South Conduit Avenue, between 247th Street and the intersection of 246th Street and 139th Avenue, within an R3X zoning district; and

WHEREAS, the site has approximately 76 feet of frontage on South Conduit Avenue, with side lot lines extending at 35- and 55-degree angles off of South Conduit Avenue, for a distance of 62.56 feet and 43.13 feet, respectively; the site has a total lot area of 1,350 sq. ft.; and

WHEREAS, the site is occupied by a 14'-0" by 48'-0" indirectly illuminated advertising sign on a structure with a height of 39'-1", facing northwest toward South Conduit Avenue at an angle of approximately 55 degrees off of the front lot line and sidewalk, running nearly parallel to the eastern side lot line of the site; and

WHEREAS, the applicant submitted evidence to support its assertion that the sign and sign structure have existed at the site since 1936; and

WHEREAS, the applicant also filed an appeal of DOB's Notice of Sign Registration Rejection under BSA Cal. No. 14-12-A; the appeal is pending while the applicant pursues the subject variance application; and

WHEREAS, because the sign is not permitted in the subject zoning district, the applicant seeks a variance to legalize it; and

WHERAS, the applicant now seeks: a waiver of ZR § 22-30 (Sign Regulations) and ZR § 52-731 (Advertising signs) to allow the continued use of the sign in an R3X residential zoning district in which advertising signs are not permitted as-of-right; a waiver of ZR § 23-44 (Permitted Obstructions in Required Yards or Rear Yard Equivalents), ZR § 23-45 (Minimum Required Front Yards), and ZR § 23-46 (Minimum Required Side Yards) to allow the existing sign to remain within the required front and side yards; and a waiver of ZR § 22-321(b) (Nameplates or identification signs) and ZR § 22-342 (Height of signs) to allow the existing sign to rise to a height of 39'-1" with a surface area of 672 sq. ft.; and

WHEREAS, the applicant states that the following are unique physical conditions which create unnecessary hardship and practical difficulties in developing the site with a conforming use: (1) the irregular shape and small shallow lot configuration that limits the size and layout of any permitted residential development; (2) the location on a heavily-trafficked road with many commercial uses; (3) the history of use of the site for non-residential use; and (4) its reliance in good faith on DOB's permit issuance; and

WHEREAS, the applicant asserts that the shape, small size, and orientation of the lot limit the potential use of the site and thus trigger the yard non-compliance; and

WHEREAS, as to the lot's shape and size, the applicant states that it has an unusually small lot area of 1,350 sq. ft. in a sharply angled triangular shape, with an extremely shallow depth of 28 feet; and

WHEREAS, the applicant submitted evidence to establish that the lot has been in its current configuration since prior to December 15, 1961 and that it is what remains of a much larger lot that was taken over to allow for the widening of South Conduit Avenue several decades before December 15, 1961; and

WHEREAS, as to uniqueness, the applicant states that the lot is the shallowest and has the least amount of lot area among all of the lots fronting on South Conduit Avenue between Brookeville Park and the boundary of the City of New York with Nassau County; and

WHEREAS, additionally, the applicant states that the site is the only triangular lot fronting on South Conduit Avenue in the vicinity; and

WHEREAS, the applicant notes that there is one other lot along the stretch of South Conduit Avenue that is nearly triangular in shape, however it is more than 70 percent larger than the site, with a lot area of approximately 2,300 sq. ft.; and

WHEREAS, the applicant states that there are no lots with residences fronting on South Conduit Avenue along an approximately one-half mile stretch of South Conduit Avenue; and

WHEREAS, the applicant states that the 1,350 sq. ft. lot area is well below the 3,325 sq. ft. minimum lot area required for residences in R3X districts, and is even significantly below the absolute minimum lot area – 1,700 sq. ft. – for non-contextual R3 districts; and

WHEREAS, the applicant asserts that residential development would only be permitted on the site pursuant to the special provision in ZR § 23-33 for development on existing small lots owned separately and individually from all other adjoining tracts of land on the date of establishment of the R3X district; and

WHEREAS, the applicant asserts that the unique site conditions constrain development that complies and conforms with zoning; and

WHEREAS, the applicant asserts that the residential building permitted at the site would consist of an extremely small, irregularly-shaped triangular building with narrow interior angles; and

WHEREAS, the applicant notes that the R3X zoning district regulations impose substantial yard and open space requirements; the amount of open space and lot coverage for residential uses on the site is governed by the yard requirements: the front yard must be at least 10 feet deep, but at least as deep as adjacent front yards, up to 20 feet deep (ZR § 23-45); also, there must be two side yards totaling at least 10 feet in width, with each side yard at least two feet wide, and at least eight feet of space between residential buildings (ZR § 23-461); and that the rear yard must be at least 10 feet deep (ZR § 23-52); and

WHEREAS, the applicant notes that for community facility buildings, front yards must be at least 15 feet in depth (ZR § 24-34), there must be two side yards, each at least eight feet in depth (ZR § 24-35), and there must be a rear yard at least 30 feet in depth (ZR § 24-36); and

WHEREAS, specifically, the applicant states that a complying residential building would consist of a small, irregularly-shaped triangular two-story residence with interior angles of 90, 55, and 35 degrees; the residence would have a maximum floor area of 673 sq. ft., with 400 sq. ft. on the first floor and 273 sq. ft. on the second floor; the longest dimension of the residence would be 40 feet along South Conduit Avenue, set back 10 feet from the street to accommodate a required front yard and the other sides of the residence would be approximately 23 feet and 33 feet; and

WHEREAS, further, the applicant states that a community facility building would be infeasible on the site, as the yard requirements would result in a small triangular building with a footprint of no more than approximately 48 square feet; and

WHEREAS, as to the location, the applicant states that South Conduit Avenue (also known as New York State Route 27, Sunrise Highway, and POW/MIA Memorial Highway) is an approximately 135-ft. wide seven-lane highway running east-west, where it abuts the site, and directly north of the highway are several Long Island Railroad ("LIRR") tracks connecting to the Rosedale LIRR station, which is approximately 1,000 feet from the site, near the intersection of South Conduit Avenue and Francis Lewis Boulevard; and

WHEREAS, the applicant asserts that the site's location on such a heavily-trafficked thoroughfare further diminishes its marketability for residential use; and

WHEREAS, as to the history of use, the applicant asserts that an advertising sign has been continuously maintained on the site since at least January 1936, as supported by affidavits and letters from 1939 and 1942 referencing advertising sign leases on the site, as well as advertising contracts from 1976 and 1977; and

WHEREAS, the applicant asserts that at the time the sign was installed, under the then-applicable 1916 Zoning Resolution, the site was mapped in a business district that permitted advertising signs, but was rezoned in 1961 to an R3-2 residence district; and

WHEREAS, the applicant notes that according to ZR § 52-731, "[i]n all Residence Districts, a non-conforming advertising sign may be continued for ten years after December 15, 1961, or such later date that such sign becomes non-conforming, providing that after the expiration of that period such non-conforming advertising sign shall terminate;" and

WHEREAS, however, the applicant notes that notwithstanding this provision of the Zoning Resolution, after the 1961 zoning change, DOB issued permits for the sign at least twice – in 1969 (Permit #1373/69) and in 1981 (Permit #1662/81); and

WHEREAS, the applicant asserts that the 1981 permit specifically notes that it is within a residential zoning district and the sign has existed to the present time in reliance on the 1981 permit; and

WHEREAS, accordingly, the applicant asserts that it relied in good faith on DOB's permit issuance in 1981 and made investments based on that permit, which was later deemed invalid; and

WHEREAS, the Board is not persuaded by the applicant's assertions that it relied in good faith on DOB's 1981 reissuance of the permit as the language of ZR § 52-731 is clear that there was a ten-year amortization period and the sign use should have ceased on December 15, 1971; and

WHEREAS, thus, the Board rejects that applicant's claim that its reliance constitutes a unique condition that creates practical difficulty or unnecessary hardship; and

WHEREAS, however, based upon the above, the Board finds that the triangular shape and small size of the site and its location on South Conduit Avenue together are unique conditions which creates unnecessary hardship and practical difficulty in developing the site in conformance and compliance with the applicable zoning regulations; and

WHEREAS, the applicant submitted a feasibility study which analyzed: (1) a conforming scenario of a fully compliant single-family home; (2) a non-conforming commercial scenario; (3) a lesser variance residential scenario with yard waivers; and (4) the proposed legalization of the sign; and

WHEREAS, the study concluded that neither the conforming nor lesser variance scenarios would result in a reasonable return, but that the proposed legalization would realize a reasonable return; and

WHEREAS, specifically, the applicant asserts that the as of right single-family home and the lesser variance single-family home alternative would be too constrained to offset the development costs associated with the project; and

WHEREAS, further, as to the lesser variance residential scenario, while a larger footprint for a home could be accommodated without the required yards, the open areas and yards as a result would be small and irregularly-shaped which diminishes the value of the site for a single-family use, and, coupled with the location on heavily-trafficked South Conduit Avenue, makes it infeasible; and

WHEREAS, similarly, the commercial use would not be viable without on site parking, which cannot be accommodated on the small site; and

WHEREAS, based upon the above, the Board has determined that because of the subject lot's unique physical conditions, there is no reasonable possibility that development in strict compliance with zoning will provide a reasonable return; and

WHEREAS, the applicant represents that the legalization of the 76-year-old sign will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare; and

WHEREAS, the applicant asserts that the Rosedale neighborhood is characterized by open and enclosed commercial uses, including a concentration of automotive-related uses, facing on South Conduit Avenue, with detached, single-family homes only in areas to the north and south of South Conduit Avenue; and

WHEREAS, the applicant asserts that the area to the north of South Conduit Avenue is zoned R3-2, which permits multi-family apartment houses; the area to the south of South Conduit Avenue (where the site is located) is zoned R3X, with C1-3 overlays mapped on the blocks to the east and west of the site, each within approximately 250 feet of the site and also fronting onto South Conduit Avenue; and

WHEREAS, as noted, the applicant states that there are not any residences fronting on South Conduit Avenue along the more than half-mile stretch of South Conduit Avenue where the site is located between Brookeville Park and the boundary of the City of New York with Nassau County; and

WHEREAS, the applicant states that the adjacent sites to the east and west along South Conduit Avenue are occupied by commercial uses, and are between the seven-lane thoroughfare and the residential uses located further into the blocks south of South Conduit Avenue; and

WHEREAS, the applicant states that the site directly to the west of the site on South Conduit Avenue is a gasoline service station with a convenience store and a sign approximately 20 feet in height and 15 sq. ft. in area displaying the name of the station and the price of gasoline (a pre-existing non-conforming use that has also been the subject of a Board variance); the applicant notes that on the back wall of the station's lot near the sign are banners advertising products sold at the service station; and

WHEREAS, the applicant states that continuing west, beyond a paved traffic island, is another gas station, also with a convenience store and a sign with a height of approximately 20 feet, a sign displaying the station's name and further there are a couple vacant lots and commercial buildings, and another gas station located across Francis Lewis Boulevard, near the Rosedale LIRR Station; and

WHEREAS, the applicant notes that to the east of the site on South Conduit Avenue, is a fence company and a two-story commercial building occupied by a fence distribution center with an open lot with stacks of fences, and an approximately 20-car open parking lot; and

WHEREAS, the applicant states that on the next block to the east, approximately 300 feet from the site, are additional commercial uses; and

WHEREAS, the applicant states that in the area, residences are generally set back from the thoroughfare by at least approximately 30 feet; additionally, the applicant notes that no residential uses face the sign or have view of the sign copy; and

WHEREAS, the applicant asserts that the sign is consistent with the commercial character of South Conduit Avenue and the site is maintained in better condition than a majority of the uses fronting on South Conduit Avenue; it is secured behind two fences and includes a number of plantings that shield it from pedestrians and cars traveling along South Conduit Avenue and shield the sign from view from most of the residences located to the south of the site; and

WHEREAS, the applicant notes that the side lot lines of the site abut the rear lot lines of the adjacent residential uses and, thus, because of the sign's orientation across South Conduit and away from the rear of the site, its copy is not visible from any residential uses; and

WHEREAS, at hearing the Board inquired about screening and the sign's potential impact on the neighborhood character and on light and air to adjacent residential uses and whether there were any measures to provide additional buffer to the residential uses; and

WHEREAS, the applicant notes that the residential uses sharing the rear and side lot lines with the subject property are set back significantly from the lot lines and are separated from the sign by approximately 40'-0" to 42'-3" to the south and more than 55'-0" to the west; and

WHEREAS, the applicant also added that, initially, there were more trees within the site but that the Community Board did not like the appearance of the trees and they were trimmed; and

WHEREAS, the Board directed the applicant to provide evergreen landscaping in the form of coniferous trees that have year-round foliage and to install a new fence to make the site more compatible to the adjacent uses; and

WHEREAS, further, the Board asked the applicant to consider reducing the height of the sign to 35 feet to be within the height limit of the zoning district; and

WHEREAS, the applicant agreed to provide a new fence and evergreens, however notes that reducing the height of the sign would cause the sign to be obstructed by other signs and street furniture, and therefore would diminish the sign's effectiveness and marketability; and

WHEREAS, in support, the applicant provided a visual analysis of the sign's height and the effect of a reduction of height to 35 feet, which reflects that due to several visual obstructions along South Conduit Avenue, the utility of the sign would be diminished if it were reduced from a height of 39'-1" to 35 feet; and

WHEREAS, the Board notes that, based on the visual analysis of a 35-ft. sign, the 4'-0" difference in height is not discernible from the proposed sign, and the landscaping and opaque fence will aid in further screening the rear of the sign from adjacent residential uses; and

WHEREAS, the Board inquired about the status of the fence samples from a nearby fence company located along the front of the site; and

WHEREAS, in response, the applicant stated that the fences are located beyond the property line on City property and that the owner of the site does not have any relationship with the fence company; and

WHEREAS, accordingly, the fence samples are not reflected on the site plan and are not incorporated into the subject variance application; and

WHEREAS, based upon the above, the Board finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the applicant notes that the unique size and shape of the lot are due to the historic widening of South Conduit Avenue, which significantly reduced the size of the pre-existing lot to incorporate it into the new seven-lane thoroughfare; and

WHEREAS, accordingly, the Board finds that the hardship herein was not created by the owner or a predecessor in title, but is the result of the site's unique physical conditions; and

WHEREAS, the applicant considered lesser variance alternatives including a square-shaped residential building with yard waivers, a 0.6 FAR, and a total of 810 sq. ft. of floor area; and

WHEREAS, the applicant states that in such a scenario, the longest dimension of the residence would be approximately 20 feet along South Conduit Avenue, set back four feet from the street to accommodate a minimal front yard space and the other sides of the residence would be between approximately 16 and 20 feet long which leads to difficulty entering and exiting the parking space along the fast-moving traffic along South Conduit Avenue; and

WHEREAS, at the Board's direction, the applicant also analyzed lesser variance alternatives of (1) a commercial use and (2) a sign with a height of 35 feet, which respects the zoning district's height limit; and

WHEREAS, the applicant concluded that (1) a commercial use with vehicular traffic could not be accommodated at the site and (2) a sign with a height of 35 feet would be obstructed at various angles and not be sufficiently marketable; and

WHEREAS, accordingly, the Board finds that this proposal is the minimum necessary to afford the owner relief; and

WHEREAS, based upon the above, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as an Unlisted Action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 13BSA005Q dated July 12, 2012; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration under 6 NYCRR Part 617 and §6-07(b) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR § 72-21 and grants a to permit, within an R3X zoning district, the legalization of an existing indirectly illuminated outdoor advertising sign, which does not conform to district use and bulk regulations, contrary to ZR §§ 22-30, 22-321, 22-342, 23-44, 23-45, 23-46, and 52-731; *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received March 4, 2013" – five (5) sheets; and *on further condition*:

THAT the following are the parameters of the sign: dimensions of 14'-0" by 48'-0", and a total height of the sign and sign structure of 39'-1", as indicated on the Board-approved plans;

THAT the above condition and the Board's approval be reflected on the permit;

THAT fencing and landscaping be installed by September 19, 2013, six months from the date of this grant, and maintained as indicated on the Board-approved plans;

THAT by September 19, 2013 the applicant will obtain all required approvals and permits from DOB;

THAT all lighting be directed away from adjacent residential uses;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, March 19, 2013.

Negative:.....0
THE RESOLUTION –

WHEREAS, the decision of the Bronx Borough Commissioner, dated November 28, 2012, acting on Department of Buildings Application No. 121415165, reads in pertinent part:

Proposed Physical Culture Establishment requires a special permit from the BSA per ZR 73-36; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site located in an M1-5B zoning district within the SoHo Cast Iron Historic District Extension, the operation of a physical culture establishment (PCE) in the cellar and first story of a seven-story building occupied by dwellings for Artists in Residence on the second through seventh stories, contrary to ZR § 42-10; and

WHEREAS, a public hearing was held on this application on February 26, 2013, after due notice by publication in The City Record, and then to decision on March 19, 2013; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Ottley-Brown, and Commissioner Montanez; and

WHEREAS, Community Board 2, Manhattan, recommends approval of this application; and

WHEREAS, the subject site is located on the east side of Crosby Street between Broome Street and Spring Street, in an M1-5B zoning district within the SoHo Cast Iron Historic District Extension); and

WHEREAS, the site is occupied by a seven-story building; and

WHEREAS, the proposed PCE will occupy a total of 2,135 sq. ft. of floor area with 2,135 sq. ft. of floor area on the first floor, and 1,122 sq. ft. of floor space in the cellar; and

WHEREAS, the site has 50.08 feet of frontage on Crosby Street, and a total lot area of 5,008 sq. ft.; and

WHEREAS, the PCE will be operated as Soul Cycle; and

WHEREAS, the applicant represents that the services at the PCE include facilities for instruction and programs for physical improvement; and

WHEREAS, the hours of operation for the proposed PCE will be Monday through Saturday, from 5:30 a.m. to 11:00 p.m. and Sunday, from 7:00 a.m. to 9:00 p.m.; and

WHEREAS, the applicant submitted a Certificate of No Effect from the Landmarks Preservation Commission (LPC), dated December 11, 2012, approving the proposed exterior alterations at the ground floor storefront and related signage under its jurisdiction; and

WHEREAS, accordingly, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as a Type I action pursuant to 6 NYCRR Part 617.4; and

WHEREAS, the Board has conducted an environmental

review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement, CEQR No.13BSA059M, dated November 28, 2012; and

WHEREAS, the EAS documents that the operation of the PCE would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved that the Board of Standards and Appeals issues a Type I Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to permit, on a site located in an M1-5B zoning district within the SoHo Cast Iron Historic District Extension, the operation of a physical culture establishment at the cellar and first stories of a seven-story building, contrary to ZR § 42-10; on condition that all work shall substantially conform to drawings filed with this application marked "Received March 6, 2013" – Four (4) sheets and on further condition:

THAT the term of this grant will expire on March 19, 2023;

THAT there will be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT all massages must be performed by New York State licensed massage therapists;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT Local Law 58/87 compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT substantial construction will be completed in accordance with ZR § 73-70;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, March 19, 2013.

CEQR # 13-BSA-060M
APPLICANT – Rothkrug Rothkrug & Spector, LLP, for West 116 Owners Realty LLC, owner; Blink 116th Street, Inc., lessee.
SUBJECT – Application December 6, 2012 – Special Permit (§73-36) to allow a physical culture establishment (*Blink Fitness*). C4-5X zoning district.
PREMISES AFFECTED – 23 West 116th Street, north side of West 116th Street, 450' east of intersection of Lenox Avenue and W. 116th Street, Lot 1600, Lot 20, Borough of Manhattan.
COMMUNITY BOARD #10M
ACTION OF THE BOARD – Application granted on condition.
THE VOTE TO GRANT –
Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5
Negative:.....0
THE RESOLUTION –

WHEREAS, the decision of the Manhattan Borough Commissioner, dated November 20, 2012, acting on Department of Buildings Application No. 121181746, reads in pertinent part:

> Proposed physical culture establishment is not permitted as of right in a C4-5X district as per ZR 32-10; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site located within a C4-5X zoning district the operation of a physical culture establishment (PCE) on the second floor of a six-story commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on February 26, 2013, after due notice by publication in *The City Record*, and then to decision on March 19, 2013; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson and Commissioner Ottley-Brown; and

WHEREAS, the subject site is located on the north side of West 116th Street, 450 feet east of the intersection of Lenox Avenue and West 116th Street, within a C4-5X zoning district; and

WHEREAS, the site is vacant but foundation work has commenced on a new mixed building that will measure nine stories in height on West 117th Street and twelve stories in height on West 116th Street; and

WHEREAS, the site has 150 feet of frontage on West 116th Street, 219.65 feet of frontage on West 117th Street, and a total lot area of 37,303 sq. ft.; and

WHEREAS, the PCE occupies 16,000 sq. ft. of floor area on the second floor; and

WHEREAS, the PCE is operated as Blink Fitness; and

WHEREAS, the applicant represents that the services at the PCE include facilities for instruction and programs for physical improvement; and

WHEREAS, the hours of operation for the PCE are: Monday through Saturday, from 5:30 a.m. to 11:00 p.m. and Sunday, from 7:00 a.m. to 9:00 p.m.; and

WHEREAS, accordingly, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as a Unlisted action pursuant to 6 NYCRR Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement, CEQR No.13BSA060M, dated December 4, 2012; and

WHEREAS, the EAS documents that the operation of the PCE would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to permit, on a site located within a C4-5X zoning district the operation of a physical culture establishment on the first story of a twelve-story mixed building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked "Received March 5, 2013" - Four (4) sheets and *on further condition*:

THAT the term of this grant will expire on March 19, 2023;

THAT there will be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT all massages must be performed by New York State licensed massage therapists;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT Local Law 58/87 compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT sound attenuation will be installed and maintained in accordance with the approved plans;

THAT substantial construction will be completed in accordance with ZR § 73-70;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, March 19, 2013.

56-12-BZ

APPLICANT – Eric Palatnik, P.C., for Alexander Grinberg, owner.

SUBJECT – Application March 13, 2012 – Special Permit (§73-622) for the enlargement of an existing single family home, contrary to floor area, lot coverage and open space (§23-141); side yard (§23-461); and rear yard (§23-47) regulations. R3-1 zoning district.

PREMISES AFFECTED – 168 Norfolk Street, between Shore Boulevard and Oriental Boulevard, Block 8756, Lot 25, Borough of Brooklyn.

COMMUNITY BOARD #4BK

ACTION OF THE BOARD – Laid over to April 16, 2013, at 10 A.M., for adjourned hearing.

153-12-BZ

APPLICANT – Harold Weinberg, for Ralph Bajone, owner.
SUBJECT – Application May 10, 2012 – Special Permit (§73-36) to legalize a physical culture establishment (*Fight Factory Gym*). M1-1/OP zoning district.
PREMISES AFFECTED – 23/34 Cobek Court, south side, 182.0' west of Shell Road, between Shell Road and West 3rd Street, Block 7212, Lot 59, Borough of Brooklyn.

COMMUNITY BOARD #13BK

THE VOTE TO CLOSE HEARING –
Affirmative: Chair Srinivasan, Vice Chair Collin, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez.....5
Negative:.....0

ACTION OF THE BOARD – Laid over to April 23, 2013, at 10 A.M., for decision, hearing closed.

199-12-BZ

APPLICANT – Sheldon Lobel, P.C., for Delta Holdings, LLC, owner.
SUBJECT – Application June 25, 2012 – Variance (§72-21) to construct a self-storage facility, contrary to maximum permitted floor area regulations. C8-1 and R6 zoning districts.
PREMISES AFFECTED – 1517 Bushwick Avenue, east side of Bushwick Avenue with frontage along Furman Avenue and Aberdeen Street, Block 3467, Lot 5, Borough of Brooklyn.

COMMUNITY BOARD #4BK

ACTION OF THE BOARD – Laid over to April 23, 2013, at 10 A.M., for adjourned hearing.

250-12-BZ

APPLICANT – Law Office of Fredrick A. Becker, for Carla Zeitouny and Raymond Zeitouny, owners.
SUBJECT – Application August 13, 2012 – Special Permit (§73-622) for the enlargement of an existing single family home, contrary to floor area, lot coverage and open space (§23-141); side yards (§23-461); less than the required rear yard (§23-47) and perimeter wall height (§23-631). R3-2 zoning district.
PREMISES AFFECTED – 2410 Avenue S, south side of Avenue S, between East 24th and Bedford Avenue, Block 7303, Lot 4, Borough of Brooklyn.

COMMUNITY BOARD #15BK

ACTION OF THE BOARD – Laid over to April 16, 2013, at 10 A.M., for continued hearing.

295-12-BZ

APPLICANT – Sheldon Lobel, P.C., for Laura Danoff and Scott Danoff, owners.
SUBJECT – Application October 15, 2012 – Variance (§72-21) to permit the expansion of a non-conforming Use Group 4 dentist's office, contrary to §52-22. R1-2 zoning district.
PREMISES AFFECTED – 49-33 Little Neck Parkway, Block 8263, Lot 110, Borough of Queens.

75-12-BZ
CEQR #12-BSA-106M
APPLICANT – Sheldon Lobel, P.C., for 547 Broadway Realty, Inc., owner.
SUBJECT – Application March 30, 2012 – Variance (§72-21) to permit the legalization of retail use (UG 6) on the first floor and expand the use into the cellar and sub-cellar, contrary to use regulations (§42-14 (D)(2)(b)). M1-5B zoning district.
PREMISES AFFECTED – 547 Broadway, between Prince Street and Spring Street, Block 498, Lot 15, Borough of Manhattan.
COMMUNITY BOARD #2M
ACTION OF THE BOARD – Application granted on condition.
THE VOTE TO GRANT –
Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5
Negative:.....0
THE RESOLUTION –

WHEREAS, the decision of the Manhattan Borough Commissioner, dated February 29, 2012, acting on Department of Buildings Application No. 120991150, reads in pertinent part:

> Proposed works to create a new use – UG#6 below the floor level of second floor level in Zoning M1-5B is not permitted as per ZR 42-12/2b. Provide approval from BSA as per ZR 42-31; and

WHEREAS, this is an application under ZR § 72-21, to permit, in an M1-5B zoning district within the SoHo-Cast Iron Historic District, the legalization of the first floor of an existing six-story building to a commercial retail use (UG 6) with expansion into the cellar and accessory retail use in the subcellar, contrary to ZR § 42-14(d)(2)(b); and

WHEREAS, a public hearing was held on this application on December 4, 2012, after due notice by publication in the *City Record*, with a continued hearing on January 15, 2013, and then to decision on February 26, 2013; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 2, Manhattan, recommends approval of this application, with the condition that an eating and drinking establishment not be permitted; and

WHEREAS, the subject site is a through lot with frontage on Broadway and Mercer Street, between Prince Street and Spring Street, in an M1-5B zoning district within the SoHo-Cast Iron Historic District; and

WHEREAS, the site has 25 feet of frontage on Broadway and Mercer Street, a depth of 200.25 feet, and a lot area of 5,006.25 sq. ft.; and

WHEREAS, the site is currently occupied by a 26,057 sq. ft. (5.2 FAR) building with a five-story portion on Mercer Street and a six-story portion on Broadway, with ground floor retail use, commercial use on the second floor, and Joint Live Work Quarters for Artists ("JLWQA") units on the third through sixth floors; and

WHEREAS, on April 12, 1988, under BSA Cal. No. 1081-85-ALC, the Board granted an authorization pursuant to ZR § 72-30 to exclude floor area from the relocation incentive contribution relating to the building's change of use from commercial/manufacturing to JLWQA use on the third through sixth floors; and

WHEREAS, the applicant now seeks to legalize the 4,832 sq. ft. of retail floor area on the first floor, and to expand the retail use to 10,266 sq. ft. of floor space at the cellar and sub-cellar; and

WHEREAS, because Use Group 6 retail is not permitted below the second floor in the subject M1-5B zoning district, the applicant seeks a use variance; and

WHEREAS, the applicant states that the following are unique physical conditions, which create practical difficulties and unnecessary hardship in developing the subject site in conformance with underlying district regulations: (1) the narrowness of the lot; and (2) the obsolescence of the existing building for manufacturing use; and

WHEREAS, as to the narrow width, the applicant states that the building has a width of 25'-0", which results in narrow floor plates that are ill-suited for manufacturing use or other conforming uses; and

WHEREAS, further, the applicant represents that the building has a light well which is along one lot line and measures 5'-10" by 29'-10", reducing the effective interior width of the building to 15'-5" at its narrowest point, which exacerbates the hardship by further limiting the floor plates for a conforming use; and

WHEREAS, the applicant represents that the configuration on the subject site is unique in the surrounding area; and

WHEREAS, the applicant provided a study which indicated that out of 500 lots on blocks zoned M1-5B or M1-5A within 1,000 feet of the site, there are only 182 lots that are 25'-0" or less in width; of these 182 lots, 75 lots have an effective width of less than 25'-0", and only five of these lots have conforming uses on the ground floor; and

WHEREAS, further, of these 75 lots, only six contain buildings with light wells other than the subject site; and only one building containing a light well is occupied by a conforming use (JLWQA) on the ground floor; and

WHEREAS, the applicant concludes that the lack of conforming uses occupying buildings with narrow widths reinforces the fact that such narrow widths are unable to

reasonably accommodate conforming uses; and WHEREAS, as to the obsolescence of the building, the applicant identifies the following conditions: (a) the absence of a loading dock and the inability to install a loading dock, (b) limited street access at the site, (c) severely limited space to install any equipment to accommodate light manufacturing uses and (d) the lack of a working freight elevator; and

WHEREAS, the applicant states that other narrow properties within 400 feet of the site may have similar characteristics, however, none are occupied by a conforming use; and

WHEREAS, the applicant states that, further, the ground floor tenant is severely limited in its access to the building since the upper floor JLWQA tenants have street access through both Broadway and Mercer Street; and

WHEREAS, based on the above arguments and analyses, the Board agrees that the unique physical conditions cited above, when considered in the aggregate, create practical difficulties and unnecessary hardship in developing the site in conformance with the applicable zoning regulations; and

WHEREAS, the applicant submitted a feasibility study analyzing the following scenarios: (1) conforming use at the first floor and cellar; and (2) the proposed ground floor and cellar retail use; and

WHEREAS, the study concluded that the conforming scenario would not result in a reasonable return, but that the proposal would realize a reasonable return; and

WHEREAS, the applicant represents that the first floor and the cellar were listed with a real estate broker for a period of 120 days, however the broker was unable to secure a tenant to occupy the space for light manufacturing use; and

WHEREAS, based upon its review of the applicant's submissions, the Board has determined that because of the subject lot's unique physical conditions, there is no reasonable possibility that development in strict compliance with applicable zoning requirements will provide a reasonable return; and

WHEREAS, the applicant represents that the proposed variance will not negatively affect the character of the neighborhood, nor impact adjacent uses; and

WHEREAS, the applicant notes that many of the buildings in the immediate vicinity contain ground floor retail uses with residential space above, particularly along both Broadway, a major retail street, and along Mercer Street between Prince and Spring Streets; and

WHEREAS, further, the applicant represents that the proposal will not affect the historical integrity of the property; and

WHEREAS, the applicant submitted a Certificate of No Effect from LPC, approving the proposal on February 13, 2013; and

WHEREAS, in response to the concerns raised by the Community Board, the applicant has agreed to not allow any eating or drinking establishments to occupy the ground floor space; and

WHEREAS, based upon the above, the Board finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Board finds that the hardship herein was not created by the owner or a predecessor in title; and

WHEREAS, the applicant represents that the proposal represents the minimum variance needed to allow for a reasonable and productive use of the site; and

WHEREAS, the applicant notes that there is no proposed increase in the bulk of the building; and

WHEREAS, accordingly, the Board finds that this proposal is the minimum necessary to afford relief; and

WHEREAS, thus, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as a Type I action pursuant to 6 NYCRR, Sections 617.6(h) and 617.2(h) of 6 NYCRR; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 12BSA106M, dated October 3, 2012; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 to permit, in an M1-5B zoning district within the SoHo-Cast Iron Historic District, the legalization of the first floor of an existing building to a commercial retail use (UG 6) with expansion into the cellar and accessory retail use in the sub-cellar, contrary to ZR § 42-14(d)(2)(b); *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received February 7, 2013"– seven (7) sheets; and *on further condition*:

THAT no eating and drinking establishment will be

permitted on the site;

THAT this approval is limited to the relief granted by the Board, in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT substantial construction shall be completed pursuant to ZR § 72-23;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, February 26, 2013.

***The resolution has been amended. Corrected in Bulletin No. 12, Vol. 98, dated March 27, 2013.**

APPLICANT – Troutman Sanders LLP, for Little Neck Commons LLC, owner; Bally's Total Fitness of Greater New York, lessee.
SUBJECT – Application December 13, 2012 – Extension of Term of a previously-granted Variance (§72-21) for the continued operation of a physical culture establishment (*Bally's Total Fitness*) which expired on January 18, 2013. C1-2/R3-2 zoning district.
PREMISES AFFECTED – 245-24 Horace Harding Expressway, Horace Harding Expressway, 140' west of Marathon Parkway, Block 8276, Lot 100, Borough of Queens.
COMMUNITY BOARD #11Q
ACTION OF THE BOARD – Application granted on condition.
THE VOTE TO GRANT –
Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5
Negative:.....0
THE RESOLUTION –

WHEREAS, this is an application for a re-opening and an extension of term for a physical culture establishment ("PCE"); and

WHEREAS, a public hearing was held on this application on March 5, 2013 after due notice by publication in *The City Record*, and then to decision on April 9, 2013; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by Commissioner Hinkson; and

WHEREAS, Community Board No. 11, Queens, recommends approval of this application; and

WHEREAS, the subject site is located on the south side of the Horace Harding Expressway, approximately 140 feet west of Marathon Parkway in a (C1-2) R3-2 zoning district; and

WHEREAS, the subject site is occupied by a one-story building; and

WHEREAS, the PCE at the building occupies a total of 26,989 sq. ft. of floor space in the ground (13,955 sq. ft.) and cellar (13,034 sq. ft.) levels, and is operated as Bally's; and

WHEREAS, on June 3, 1969, pursuant to BSA Cal. No.214-69-BZ, the Board granted a variance to allow a PCE in an existing shopping center within a C-12 zoning district for a term of ten years; and

WHEREAS, on January 18, 1983, the Board re-established a variance, under the subject calendar number, to permit, in a C1-2 zoning district, the enlargement and maintenance of an extension to an existing PCE, for a term of ten years; and

WHEREAS, the variance was extended and amended at various times; and

WHEREAS, on September 27, 2005, the variance was extended until January 18, 2013 with certain conditions, including signs shall be posted stating that all users of the PCE are entitled to two hours of free parking and cautioning the PCE members not to park illegally; and

WHEREAS, on May 31, 2006, the applicant received an amendment to the variance allowing certain alterations to the approved signage on the building façade; and

WHEREAS, the applicant proposes no change to the existing hours of operation or the area of the building currently occupied by the PCE; and

WHEREAS, accordingly, the Board finds that the requested extension of term is appropriate, with certain conditions as set forth below.

Therefore it is Resolved that the Board of Standards and Appeals reopens and amends the resolution adopted on January 18, 1983, amended through May 31, 2006, so that as amended this portion of the resolution shall read "to extend the term for ten years from January 18, 2013; *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked 'Received December 13, 2012'- (2) sheets and 'March 7, 2013'-(1) sheet ; and *on further condition*:

THAT the term of this grant will be for ten years, to expire on January 18, 2023;

THAT there will be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT all massages must be performed by New York State licensed massage therapists;

THAT the above conditions shall be listed on the certificate of occupancy;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted."

Adopted by the Board of Standards and Appeals, April 9, 2013.

189-03-BZ
APPLICANT – Eric Palatnik, P.C., for 830 East 233rd Street Corp., owner.
SUBJECT – Application November 21, 2011 – Extension of Term of a previously granted special permit (§73-211) for the continued operation of an automotive service station (*Shell*) with an accessory convenience store (UG 16B) which expires on October 21, 2013; Extension of Time to obtain a Certificate of Occupancy which expired on October 21, 2008; Waiver of the Rules. C2-2/R-5 zoning district.
PREMISES AFFECTED – 836 East 233rd Street, southeast corner of East 233rd Street and Bussing Avenue, Block 4857, Lot 44, 41, Borough of Bronx.
COMMUNITY BOARD #12BX
ACTION OF THE BOARD – Application granted on condition.
THE VOTE TO GRANT –
Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5
Negative:.....0
THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure, a reopening, an extension of term for an automotive service station, which will expire on October 21, 2013, and an extension of time to obtain a certificate of occupancy; and

WHEREAS, a public hearing was held on this application on August 21, 2012, after due notice by publication in *The City Record*, with continued hearings on October 16, 2012, November 20, 2012, January 8, 2013, February 12, 2013 and March 12, 2013, and then to decision on April 9, 2013; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commissioner Hinkson, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 12, Bronx, recommends approval of this application; and

WHEREAS, the site is located on the southeast corner of East 233rd Street and Bussing Avenue, within a C2-2 (R5) zoning district; and

WHEREAS, the site is currently occupied by an automotive service station; and

WHEREAS, the Board has exercised jurisdiction over the subject site since November 6, 1958 when, under BSA Cal. No. 292-58-BZ, the Board granted a variance to permit the extension of an existing gasoline service station on Lot 44; and

WHEREAS, on October 21, 2003, under BSA Cal. No. 189-03-BZ, the Board granted an application for a special permit under ZR § 73-211 to legalize the enlargement of the zoning lot to include Lot 41 for a term of ten years to expire on October 12, 2013; and

WHEREAS, the use of Lot 41 is limited to parking of vehicles awaiting storage; and

WHEREAS, on June 14, 2005, the Board granted an application to permit the enlargement and conversion of the existing service bays to an accessory convenience store; and

WHEREAS, most recently, on August 15, 2006, under the subject calendar number, the Board granted an application to extend the time to complete construction and obtain a certificate of occupancy which expired on October 21, 2008; and

WHEREAS, the applicant states that it does not plan to construct the accessory convenience store; and

WHEREAS, the applicant now seeks to extend the term; and

WHEREAS, the applicant also seeks an extension of time to obtain a certificate of occupancy; and

WHEREAS, at hearing, the Board directed the applicant to (1) verify that all signage complies with the prior approval and to remove any excessive signage and (2) install planters along the perimeter of Lot 41 adjacent to the site and at the Bussing Avenue frontage, as reflected on the approved plans; and

WHEREAS, in response, the applicant submitted a revised signage analysis and photographs reflecting that the planters have been installed; and

WHEREAS, based upon its review of the record, the Board finds that the requested extension of term and extension of time to obtain a certificate of occupancy are appropriate with certain conditions as set forth below.

Therefore it is Resolved that the Board of Standards and Appeals *waives* the Rules of Practice and Procedure, *reopens*, and *amends* the resolution, dated October 21, 2003, so that as amended this portion of the resolution shall read: "to extend the term for a period of 10 years from the date of this grant; *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked 'Received April 8, 2013'- (5) sheets; and *on further condition*:

THAT the term of this grant shall expire on April 9, 2023;

THAT all conditions from the prior resolution not specifically waived by the Board remain in effect;

THAT a certificate of occupancy be obtained by October 9, 2013;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted."
(DOB Application No. 200869916)

Adopted by the Board of Standards and Appeals, April 9, 2013.

78-08-BZ
APPLICANT – Stephen Grasso, Partners for Architecture, for South Bronx Charter School for International Cultures & The Arts, owners.
SUBJECT – Application February 12, 2013 – Extension of Time to Complete Construction of a previously granted Variance (§72-21) to construct a five-story charter elementary school (*The South Bronx Charter School for International Cultures and the Arts*), which expired on August 26, 2012; Waiver of the Rules. M1-2/R-6A, MX-1(Special Mixed Use) zoning district.
PREMISES AFFECTED – 611 East 133rd Street, bound by East 133rd Street and Cypress Place, Block 2546, Lot 27, Borough of Bronx.
COMMUNITY BOARD #1BX
ACTION OF THE BOARD – Application granted on condition.
THE VOTE TO GRANT –
Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5
Negative:.....0
THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure and an extension of time to complete construction in accordance with the conditions of a variance; and

WHEREAS, a public hearing was held on this application on March 19, 2013, after due notice by publication in *The City Record*, and then to decision on April 9, 2013; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan and Commissioner Ottley-Brown; and

WHEREAS, the site is located at the intersection of Bruckner Boulevard/Cypress Place and East 133rd Street within an MX-1 (M1-2/R6A) Special Mixed Use zoning district; and

WHEREAS, the Board has exercised jurisdiction over the subject site since August 26, 2008 when, under the subject calendar number, the Board granted a variance for construction of a five-story charter elementary school on a site within an MX-1 (M1-2/R6A) Special Mixed Use zoning district which does not comply with regulations for floor area, FAR, and setbacks, contrary to ZR §§ 24-11, 123-62 and 123-662; and

WHEREAS, a condition of the grant was that the construction be completed pursuant to ZR § 72-23, which requires substantial completion within four years, by August 26, 2012; and

WHEREAS, the applicant states that construction has been delayed due to financing constraints, but that it will resume in Spring 2013 with a scheduled completion date of August 2014; and

WHEREAS, the applicant now seeks to extend the time to complete construction in accordance with the variance for an additional four years; and

WHEREAS, based upon its review of the record, the Board finds the requested waiver and extension of time are appropriate with certain conditions as set forth below.

Therefore it is Resolved that the Board of Standards and Appeals *waives* the Rules of Practice and Procedure, *reopens* and *amends* the resolution, as adopted on August 26, 2008, so that as amended this portion of the resolution shall read: "to extend the time to complete construction for a period of four years from April 9, 2013, to expire on April 9, 2017; *on condition* that all work will substantially conform to the approved plans; and *on further condition*:

THAT substantial construction be completed by April 9, 2017;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted."
(DOB Application No. 210040784)

Adopted by the Board of Standards and Appeals, April 9, 2013.

THE RESOLUTION –

WHEREAS, the subject appeal comes before the Board in response to three Notice of Sign Registration Rejection letters from the Queens Borough Commissioner of the Department of Buildings ("DOB"), dated May 14, 2012, denying registration for the signs at the subject premises (the "Final Determinations"), which read, in pertinent part:

> The Department of Buildings is in receipt of additional documentation submitted in response to the Deficiency Letter from the Sign Enforcement Unit and in connection with the application for registration of the above-referenced sign. Unfortunately, we find this documentation inadequate to support the registration of the sign and as such, the sign is rejected from registration. 1998 Permit states not within 200 feet of arterial which is inaccurate. Even if signs were beyond 200 feet from arterial, surface area is excessive. This sign will be subject to enforcement action 30 days from the issuance of this letter; and

WHEREAS a public hearing was held on this application on February 5, 2012, after due notice by publication in *The City Record*, and then to decision on April 9, 2013; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson and Commissioner Montanez; and

WHEREAS, the subject premises ("the Premises") is located on the east side of 12th Street between 43rd Avenue and Queens Plaza South, and 343 feet from the Ed Koch Queensborough Bridge, in an M1-4 district; and

WHEREAS, the Premises is occupied with a six-story warehouse building; affixed to three walls of the building are illuminated advertising signs; and

WHEREAS, this appeal is brought on behalf of the lessee of the sign structures (the "Appellant"); and

WHEREAS, the Appellant states that the north wall sign measures 30 ft. by 90 ft. and has a surface area of 2,700 sq. ft., the east wall sign measures 30 ft. by 58 ft., 6 in. and has a surface area of 1,755 sq. ft., and the west wall sign measures 30 ft. by 74 ft. and has a surface area of 2,250 sq. ft. (collectively, "the Signs"); and

WHEREAS, on February 18, 1998, DOB issued Permit No. 400809434-01-SG for the installation of a sign at the north wall with a surface area of 2,700 sq. ft., and Permit No. 400809425-01-SG for the installation of a sign at the east wall with a surface area of 1,800 sq. ft.; on June 30, 1998, DOB issued Permit No. 400851690-01-SG for the installation of a sign at the west wall with a surface area of 2,250 sq. ft. (collectively, the three 1998 sign permits shall be hereafter referred to as "the Permits"); and

WHEREAS, the Appellant seeks a reversal of DOB's rejection of the registration of the Signs based on DOB's determination that the Appellant failed to provide evidence of the lawful establishment of the Signs in 1998; and

WHEREAS, DOB appeared and made submissions in opposition to this appeal; and

REGISTRATION REQUIREMENT

WHEREAS, the relevant statutory requirements related to sign registration have been in effect since 2005; and

WHEREAS, under Local Law 31 of 2005, the New York City Council enacted certain amendments to existing regulations governing outdoor advertising signs; and

WHEREAS, the amendments are codified under Articles 501, 502, and 503 of the 2008 Building Code and were enacted to provide DOB with a means of enforcing the sign laws where signs had been erected and were being maintained without a valid permit; and

WHEREAS, pursuant to Article 502 (specifically, Building Code § 28-502.4), an outdoor advertising company is required to submit to DOB an inventory of:

> all signs, sign structures and sign locations located (i) within a distance of 900 linear feet (274 m) from and within view of an arterial highway; or (ii) within a distance of 200 linear feet [60.96 m] from and within view of a public park with an area of ½ acre (5000 m) or more; and

WHEREAS, further, Local Law 31 authorized the Commissioner of DOB to promulgate rules establishing permitting requirements for certain signs; the DOB rules, enacted under Rule 49, provide specific procedures for registration of advertising signs; Rule 49-15(5) reads in pertinent part:

> Each sign shall be identified as either "advertising" or "non-advertising." To the extent a sign is a non-conforming sign, it must further be identified as "non-conforming advertising" or "non-conforming non-advertising." A sign

identified as "non-conforming advertising" or "non-conforming non-advertising" shall be submitted to the Department for confirmation of its non-conforming status, pursuant to section 49-16 of this chapter; and

WHEREAS, subchapter B of Rule 49 (Registration of Outdoor Advertising Companies), (specifically, Rule 49-15(d)(15)(b)), sets forth the acceptable forms of evidence to establish the size and the existence of a non-conforming sign on the relevant date set forth in the Zoning Resolution; and

WHEREAS, the acceptable forms of evidence set forth at Rule 49 are, in pertinent part as follows:

Acceptable evidence may include permits, sign-offs of applications after completion, photographs and leases demonstrating that the non-conforming use existed prior to the relevant date; and

WHEREAS, affidavits are also listed as an acceptable form of evidence; and

WHEREAS, a DOB guidance document sets forth the instructions for filing under Rule 49 and states that any one of the following documents would be acceptable evidence for sign registration pursuant to Rule 49: (1) DOB issued permit for sign erection; (2) DOB-approved application for sign erection; (3) DOB dockets/permit book indicating sign permit approval; and (4) publicly catalogued photograph from a source such as NYC Department of Finance, New York Public Library, Office of Metropolitan History, or New York State Archives; and

REGISTRATION PROCESS

WHEREAS, on September 1, 2009, pursuant to the requirements of Article 502 and Rule 49, the Appellant submitted an inventory of outdoor signs under its control and Sign Registration Applications for the Signs and completed an OAC3 Outdoor Advertising Company Sign Profile, attaching the following documentation: (1) a diagram of the Sign; (2) copies of the original Permits; and (3) four photographs; and

WHEREAS, on September 29, 2011, DOB issued Notices of Sign Registration Deficiency, stating, in pertinent part, that "[DOB is] unable to accept the sign for registration (due to) Failure to provide proof of legal establishment"; and

WHEREAS, by letter dated March 6, 2012, the Appellant submitted a response to DOB indicating that the Permits legally established the Signs; and

WHEREAS, accordingly, on May 14, 2012, DOB issued three Final Determinations, which indicated that the Signs were rejected for registration; and

RELEVANT STATUTORY PROVISIONS

ZR § 12-10 *Definitions*

Non-conforming, or non-conformity

A "non-conforming" #use# is any lawful #use#, whether of a #building or other structure# or of a #zoning lot#, which does not conform to any one or more of the applicable #use# regulations of the district in which it is located, either on December 15, 1961 or as a result of any subsequent amendment thereto. . .

* * *

ZR § 42-55

Additional Regulations for Signs Near Certain Parks and

Designated Arterial Highways

M1 M2 M3

In all districts, as indicated, the provisions of paragraphs (a), (b) and (c), or paragraph (d), of this Section, shall apply for #signs# near designated arterial highways or certain #public parks#.

(a) Within 200 feet of an arterial highway or a #public park# with an area of one-half acre or more, #signs# that are within view of such arterial highway or #public park# shall be subject to the following provisions:
  (1) no permitted #sign# shall exceed 500 square feet of #surface area#; and
  (2) no #advertising sign# shall be allowed; nor shall an existing #advertising sign# be structurally altered, relocated or reconstructed.

(b) Beyond 200 feet from such arterial highway or #public park#, the #surface area# of such #signs# may be increased one square foot for each linear foot such sign is located from the arterial highway or #public park#.

(c) The more restrictive of the following shall apply:
  (1) any #advertising sign# erected, structurally altered, relocated or reconstructed prior to June 1, 1968, within 660 feet of the nearest edge of the right-of-way of an arterial highway, whose message is visible from such arterial highway, shall have legal #non-conforming use# status pursuant to Section 52-83 (Non-Conforming Advertising Signs), to the extent of its size existing on May 31, 1968; or
  (2) any #advertising sign# erected, structurally altered, relocated or reconstructed between June 1, 1968, and November 1, 1979, within 660 feet of the nearest edge of the right-of-way of an arterial highway, whose message is visible from such arterial highway, and whose size does not exceed 1,200 square feet in #surface area# on its face, 30 feet in height and 60 feet in length, shall have legal #non-conforming use# status pursuant to Section 52-83, to the extent of its size existing on November 1, 1979. All #advertising signs# not in conformance with the standards set forth herein shall terminate.

* * *

ZR § 42-58

Signs Erected Prior to December 13, 2000
M1 M2 M3
In all districts, as indicated, a #sign# shall have #non-conforming use# status pursuant to Sections 52-82 (Non-Conforming Signs Other Than Advertising Signs) or 52-83 (Non-Conforming Advertising Signs) with respect to the extent of the degree of #non-conformity# of such #sign# as of such date with the provisions of Section 42-52, 42-53 and 42-54, where such #sign# shall have been issued a permit by the Department of Buildings on or before such date.

* * *

ZR § 52-11 *Continuation of Non-Conforming Uses*
General Provisions
A #non-conforming use# may be continued, except as otherwise provided in this Chapter; and

* * *

ZR § 52-61 *Discontinuance*
General Provisions
If, for a continuous period of two years, either the #nonconforming use# of #land with minor improvements# is discontinued, or the active operation of substantially all the #non-conforming uses# in any #building or other structure# is discontinued, such land or #building or other structure# shall thereafter be used only for a conforming #use#. Intent to resume active operations shall not affect the foregoing . . . ; and

* * *

Building Code § 28-502.4 – Reporting Requirement
An outdoor advertising company shall provide the department with a list with the location of signs, sign structures and sign locations under the control of such outdoor advertising company in accordance with the following provisions:

(1) The list shall include all signs, sign structures and sign locations located (i) within a distance of 900 linear feet (274 m) from and within view of an arterial highway; or (ii) within a distance of 200 linear feet (60 960 mm) from and within view of a public park with an area of ½ acre (5000 m) or more…

* * *

RCNY § 49-15 – Sign Inventory to be Submitted with Registration Application
…(d)(5) Each sign shall be identified as either "advertising" or "non-advertising." To the extent a sign is a non-conforming sign, it must further be identified as "non-conforming advertising" or "non-conforming non-advertising." A sign identified as "non-conforming advertising" or "non-conforming non-advertising" shall be submitted to the Department for confirmation of its non-conforming status, pursuant to section 49-16 of this chapter.

* * *

RCNY § 49-16 – Non-conforming Signs
(a) With respect to each sign identified in the sign inventory as non-conforming, the registered architect or professional engineer shall request confirmation of its non-conforming status from the Department based on evidence submitted in the registration application. The Department shall review the evidence submitted and accept or deny the request within a reasonable period of time. A sign that has been identified as non-conforming on the initial registration application may remain erected unless and until the Department has issued a determination that it is not non-conforming; and

THE APPELLANT'S POSITION

WHEREAS, the Appellant contends that the Final Determination should be reversed because: (1) the Signs were established pursuant to Permits and may be maintained as legal non-conforming uses; and (2) equitable estoppel prevents DOB from taking enforcement action against the Signs; and

The 1998 Permits

WHEREAS, the Appellant assert that the Signs were established in 1998 pursuant to the Permits as advertising signs in an M1-4 zoning district beyond 200 feet from an arterial highway according to Appendix H of the Zoning Resolution; and

WHEREAS, the Appellant asserts that the Permits "have remained in full force and effect since their issuance"; and

WHEREAS, the Appellant asserts that the Premises "has been used for the display of advertising signage without any discontinuance for a period of two or more years after December 2000"; and

WHEREAS, the Appellant asserts that, as such, the Signs are entitled to non-conforming use protection and DOB improperly rejected the registration of the Signs in its Final Determinations; and

Estoppel Against the City

WHEREAS, the Appellant asserts that under established principles of equity, DOB should be estopped from ordering the removal of the Signs; and

WHEREAS, the Appellant asserts that it has relied on the Permits for several years and made substantial investments relative to the continued operation of the Signs; and

WHEREAS, the Appellant contends that although as a general rule estoppel or laches cannot be used against a municipality enforcing its zoning law, New York courts have ruled that these doctrines are not foreclosed entirely and may be invoked as a rare exception; and

WHEREAS, the Appellant states that two New York State court decisions – Town of Hempstead v. DeMasco, 2007 WL 4471362 (Sup. Ct. 2007), aff'd, 62 A.D.3d 692 (2d Dept. 2009) and Inner Force Econ. Dev. Corp. v. Dep't of Educ. Of the City of New York, 36 Misc.3d 758, 559 (Sup. Ct. 2012) – to support its conclusion that the City should be estopped; and

WHEREAS, the Appellant notes that in DeMasco, the Town sought to enforce its zoning ordinance against a metal salvage business which had existed for many years prior to a zoning change, and the Appellate Division affirmed that the Town was equitably estopped in part because it continued business with the junkyard and "gave an imprimatur to the businesses' continued operation"; and

WHEREAS, the Appellant asserts that this appeal is similar to DeMasco, in that DOB "did not prohibit the [Appellant] from continuing to maintain its advertising signage during the period following the issuance of the Permit[s]" and that "by not enforcing against the signage [DOB] implicitly permitted its continued use"; and

WHEREAS, the Appellant notes that Inner Force involved an action against the New York City Department of Education in which a plaintiff filed its Notice of Claim with the Comptroller's Office instead of the Office of the Corporation Counsel, which should have received the claim instead, and the Comptroller's Office acknowledged the receipt of the Notice, informed the plaintiff that it was conducting an investigation and ultimately denied the claim based in part on the improper notice; and

WHEREAS, the Appellant notes that the Inner Force court found estoppel applicable to the conduct of the Comptroller's Office because the Comptroller's response to the plaintiff's erroneous notice wrongfully or negligently induced reliance by the plaintiff to its detriment to believe that its notice of claim was proper and that the proper party had been served; and

WHEREAS, the Appellant contends that this appeal is similar because "DOB clearly understood or should have understood that by not pursuing enforcement action against the maintenance of valuable advertising signage there was every reason for the [Appellant] to continue its operation"; and

WHEREAS, accordingly, the Appellant argues that DOB should be estopped from taking any enforcement action against the Signs and DOB's Final Determinations with respect to the Signs should be reversed; and

DOB'S POSITION

WHEREAS, DOB contends that: (1) the Permits for the Signs were issued contrary to ZR § 42-53 and cannot be relied upon to establish non-conforming uses pursuant to ZR § 42-58; and (2) the Signs were not entitled to non-conforming use protection under ZR § 42-55; and

WHEREAS, DOB contends that the Permits for the Signs were issued in error, in that the Permits failed to comply with ZR § 42-53—the pre-cursor to the current ZR § 42-55—which limits advertising signs in manufacturing districts beyond 200 feet from an arterial highway to a surface area equal to their distance from such highway; and

WHEREAS, DOB asserts that the Signs are 343 feet from an arterial highway (Ed Koch Queensborough Bridge) and within view of such highway; and

WHEREAS, DOB contends that, pursuant to the 1998 version of ZR § 42-53, advertising signs at the Premises were limited to 343 feet or less in surface area; and

WHEREAS, DOB asserts that the Permits—which purport to authorize the erection of signs measuring 2,700, 1,800, and 2,250 sq. ft. in surface area—were issued contrary to the Zoning Resolution and cannot be relied upon as establishing the Signs; and

WHEREAS, DOB notes that insofar as the Appellant relies on ZR § 42-58 as protecting the Signs, such reliance is misplaced, because ZR § 42-58 only applies where permits have been lawfully issued; and

WHEREAS, DOB notes that the Appellant has failed to submit credible evidence that any of the Signs is protected by ZR § 42-55(c)(1) by virtue of being in existence prior to June 1, 1968 or protected by ZR § 42-55(c)(2) by virtue of being in existence between June 1, 1968 and November 1, 1979 and being a certain size; and

WHEREAS, accordingly, DOB asserts that it properly issued its Final Determinations denying registration of the Signs; and

CONCLUSION

WHEREAS, the Board finds that (1) DOB properly denied the Sign registrations because the Appellant has not demonstrated that the Signs were lawfully established; and (2) DOB is not equitably estopped from correcting its erroneous issuance of the Permits; and

WHEREAS, the Board agrees with DOB that the Permits were issued in 1998 in violation of ZR § 42-53 in that the Permits authorized the construction of three wall signs measuring 2,700, 1,800, and 2,250 sq. ft. in surface area, respectively, at the Premises in excess of 343 feet of surface area and at a distance of 343 feet from and within view of the Ed Koch Queensborough Bridge, an arterial highway pursuant to Appendix H of the Zoning Resolution; and

WHEREAS, because the Permits failed to comply with ZR § 42-53, the Board concludes that the Permits were invalidly issued; and

WHEREAS, the Board finds that the Signs are not protected by ZR § 42-58, because that provision only protects signs erected pursuant to lawfully-issued permits; and

WHEREAS, thus, the Board finds that the Appellant cannot rely on the invalid Permits to establish the Signs as non-conforming; and

WHEREAS, the Board agrees with DOB that the Appellant has failed to demonstrate that any of the Signs existed prior to June 1, 1968 such that any of the Signs would be protected by ZR § 42-55(c)(1); and

WHEREAS, the Board agrees with DOB that the Appellant has failed to demonstrate that any of the Signs existed within the date and size limitations set forth in ZR § 42-55(c)(2) such that any of the Signs would be protected by that provision; and

WHERAS, the Board notes that even if the Permits had been validly issued in 1998 and the Signs had become non-conforming, the Appellant has failed to demonstrate with sufficient evidence that the Signs were not thereafter discontinued pursuant to ZR § 52-61; and

WHEREAS, the Board does not find the Appellant's arguments regarding equitable estoppel persuasive; and

WHEREAS, the Board distinguishes the Appellant's case law on the matter of equitable estoppel on the primary basis that in DeMasco the City actually maintained a business relationship with the junkyard on which the junkyard relied as an indication that its rights were preserved and in Inner Force, the City made a specific procedural decision that deprived the claimant of a right he might otherwise have had, if the City had not accepted his claim without notifying him of its defective notice; and

WHEREAS, the Board notes that the Court of Appeals has squarely held that DOB cannot be estopped from enforcing the Zoning Resolution where a permit was invalid when issued pursuant to Matter of Parkview Associates v. City of New York, 71 N.Y.2d 74 (1988); and

WHEREAS, the Board also notes that the Appellant has enjoyed approximately 15 years' worth of revenue from advertising signs that are five to eight times larger in surface area than what has ever been permitted by the Zoning Resolution at the Premises; and

WHEREAS, therefore, the Board finds that DOB's enforcement against the Signs is warranted, and as such, DOB properly rejected the Appellant's registration of the Signs.

Therefore it is Resolved that this appeal, challenging Final Determinations issued on May, 14, 2012, is denied.

Adopted by the Board of Standards and Appeals, April 9, 2013.

197-12-A

APPLICANT – Davidoff Hutcher & Citron LLP, for Interstate Outdoor Advertising.

OWNER OF PREMISES – Hamilton Plaza Associates.

SUBJECT – Application June 21, 2012 – Appeal from Department of Buildings' determination that a sign is not entitled to continued legal status as advertising sign. M1-2/M2-1 zoning district.

PREMISES AFFECTED – 1-37 12th Street, east of Gowanus Canal between 11th Street and 12th Street, Block 10007, Lot 172, Borough of Brooklyn.

COMMUNITY BOARD #7BK

ACTION OF THE BOARD – Appeals Denied.

THE VOTE TO GRANT –

Affirmative:.....0

Negative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5

THE RESOLUTION –

WHEREAS, the subject appeal comes before the Board in response to a Notice of Sign Registration Rejection letter from the Brooklyn Borough Commissioner of the Department of Buildings ("DOB"), dated May 25, 2012, denying registration for a sign at the subject premises (the "Final Determination"), which reads, in pertinent part:

> The Department of Buildings is in receipt of additional documentation submitted in response to the Deficiency Letter from the Sign Enforcement Unit and in support of the legal establishment of this sign. Unfortunately, we find this documentation inadequate to support the registration for advertising use. We note that the permit provided is for an accessory sign, and such, the sign is rejected from registration. This sign will be subject to enforcement action 30 days from the issuance of this letter; and

WHEREAS a public hearing was held on this application on February 5, 2013, after due notice by publication in *The City Record*, and then to decision on April 9, 2013; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by Commissioner Montanez; and

WHEREAS, the subject premises ("the Premises") is located on the north side of 12th Street between Hamilton Place and the Gowanus Canal, in an M1-2 zoning district; and

WHEREAS, the Premises is occupied by a five-story commercial building and, on the roof of the building, a south-facing advertising sign ("the Sign"); and

WHEREAS, this appeal is brought on behalf of the lessee of the sign structure (the "Appellant"); and

WHEREAS, the Appellant states that the Sign is a rectangular advertising sign measuring 24 feet in height by 75 feet in length for a surface area of 1,800 sq. ft. and located within 900 feet of the Gowanus Expressway; and

WHEREAS, on August 29, 1968, DOB issued a permit in connection with application BN 4655/68 for the construction of a "steel structure on roof as per plan filed herewith (Business Sign)" (the "Permit"); and

WHEREAS, DOB states that the Sign is located 550 feet from the Gowanus Expressway; and

WHEREAS, the Appellant seeks a reversal of DOB's rejection of the registration of the Sign based on DOB's determination that the Appellant failed to provide evidence of the establishment of an advertising sign; and

WHEREAS, DOB appeared and made submissions in opposition to this appeal; and

REGISTRATION REQUIREMENT

WHEREAS, the relevant statutory requirements related to sign registration have been in effect since 2005; and

WHEREAS, under Local Law 31 of 2005, the New York City Council enacted certain amendments to existing regulations governing outdoor advertising signs; and

WHEREAS, the amendments are codified under Articles 501, 502, and 503 of the 2008 Building Code and were enacted to provide DOB with a means of enforcing the sign laws where signs had been erected and were being maintained without a valid permit; and

WHEREAS, pursuant to Article 502 (specifically, Building Code § 28-502.4), an outdoor advertising company is required to submit to DOB an inventory of:

all signs, sign structures and sign locations located (i) within a distance of 900 linear feet (274 m) from and within view of an arterial highway; or (ii) within a distance of 200 linear feet [60.96 m] from and within view of a public park with an area of ½ acre (5000 m) or more; and

WHEREAS, further, Local Law 31 authorized the Commissioner of DOB to promulgate rules establishing permitting requirements for certain signs; the DOB rules, enacted under Rule 49, provide specific procedures for registration of advertising signs; Rule 49-15(5) reads in pertinent part:

Each sign shall be identified as either "advertising" or "non-advertising." To the extent a sign is a non-conforming sign, it must further be identified as "non-conforming advertising" or "non-conforming non-advertising." A sign identified as "non-conforming advertising" or "non-conforming non-advertising" shall be submitted to the Department for confirmation of its non-conforming status, pursuant to section 49-16 of this chapter; and

WHEREAS, subchapter B of Rule 49 (Registration of Outdoor Advertising Companies), (specifically, Rule 49-15(d)(15)(b)), sets forth the acceptable forms of evidence to establish the size and the existence of a non-conforming sign on the relevant date set forth in the Zoning Resolution; and

WHEREAS, the acceptable forms of evidence set forth at Rule 49 are, in pertinent part as follows:

Acceptable evidence may include permits, sign-offs of applications after completion, photographs and leases demonstrating that the non-conforming use existed prior to the relevant date; and

WHEREAS, affidavits are also listed as an acceptable form of evidence; and

WHEREAS, a DOB guidance document sets forth the instructions for filing under Rule 49 and states that any one of the following documents would be acceptable evidence for sign registration pursuant to Rule 49: (1) DOB issued permit for sign erection; (2) DOB-approved application for sign erection; (3) DOB dockets/permit book indicating sign permit approval; and (4) publicly catalogued photograph from a source such as NYC Department of Finance, New York Public Library, Office of Metropolitan History, or New York State Archives; and

REGISTRATION PROCESS

WHEREAS, on September 1, 2009, pursuant to the requirements of Article 502 and Rule 49, the Appellant submitted an inventory of outdoor signs under its control and a Sign Registration Application for the Sign and completed an OAC3 Outdoor Advertising Company Sign Profile, attaching one undated photograph and a copy of the Permit as evidence of establishment of the Sign; and

WHEREAS, on September 29, 2011, DOB issued a Notice of Sign Registration Deficiency, stating that "[DOB is] unable to accept the sign for registration (due to) "Failure to provide proof of legal establishment – 1972 BN 4655 for accessory sign"; and

WHEREAS, by letter dated February 29, 2012, the Appellant submitted a response to DOB, asserting that the Permit established the use in 1968 and that the applicable date for lawful establishment under the Zoning Resolution was actually October 31, 1979; and

WHEREAS, DOB determined that theFebruary 29, 2012 arguments lacked merit, and issued the Final Determination on May 25, 2012; and

RELEVANT STATUTORY PROVISIONS

ZR § 12-10 *Definitions*

Non-conforming, or non-conformity

A "non-conforming" #use# is any lawful #use#, whether of a #building or other structure# or of a #zoning lot#, which does not conform to any one or more of the applicable #use# regulations of the district in which it is located, either on December 15, 1961 or as a result of any subsequent amendment thereto. . .

* * *

ZR § 42-55

Additional Regulations for Signs Near Certain Parks and Designated Arterial Highways

M1 M2 M3

In all districts, as indicated, the provisions of paragraphs (a),

(b) and (c), or paragraph (d), of this Section, shall apply for #signs# near designated arterial highways or certain #public parks#.

(a) Within 200 feet of an arterial highway or a #public park# with an area of one-half acre or more, #signs# that are within view of such arterial highway or #public park# shall be subject to the following provisions:
  (1) no permitted #sign# shall exceed 500 square feet of #surface area#; and
  (2) no #advertising sign# shall be allowed; nor shall an existing #advertising sign# be structurally altered, relocated or reconstructed.

(b) Beyond 200 feet from such arterial highway or #public park#, the #surface area# of such #signs# may be increased one square foot for each linear foot such sign is located from the arterial highway or #public park#.

(c) The more restrictive of the following shall apply:
  (1) any #advertising sign# erected, structurally altered, relocated or reconstructed prior to June 1, 1968, within 660 feet of the nearest edge of the right-of-way of an arterial highway, whose message is visible from such arterial highway, shall have legal #non-conforming use# status pursuant to

Section 52-83 (Non-Conforming Advertising Signs), to the extent of its size existing on May 31, 1968; or

(2) any #advertising sign# erected, structurally altered, relocated or reconstructed between June 1, 1968, and November 1, 1979, within 660 feet of the nearest edge of the right-of-way of an arterial highway, whose message is visible from such arterial highway, and whose size does not exceed 1,200 square feet in #surface area# on its face, 30 feet in height and 60 feet in length, shall have legal #non-conforming use# status pursuant to Section 52-83, to the extent of its size existing on November 1, 1979. All #advertising signs# not in conformance with the standards set forth herein shall terminate.

* * *

ZR § 52-11 *Continuation of Non-Conforming Uses*
General Provisions
A #non-conforming use# may be continued, except as otherwise provided in this Chapter; and

* * *

ZR § 52-61 *Discontinuance*
General Provisions
If, for a continuous period of two years, either the #nonconforming use# of #land with minor improvements# is discontinued, or the active operation of substantially all the #non-conforming uses# in any #building or other structure# is discontinued, such land or #building or other structure# shall thereafter be used only for a conforming #use#. Intent to resume active operations shall not affect the foregoing . . . ; and

* * *

Building Code § 28-502.4 – Reporting Requirement
An outdoor advertising company shall provide the department with a list with the location of signs, sign structures and sign locations under the control of such outdoor advertising company in accordance with the following provisions:

(1) The list shall include all signs, sign structures and sign locations located (i) within a distance of 900 linear feet (274 m) from and within view of an arterial highway; or (ii) within a distance of 200 linear feet (60 960 mm) from and within view of a public park with an area of ½ acre (5000 m) or more…

* * *

RCNY § 49-15 – Sign Inventory to be Submitted with Registration Application
…(d)(5) Each sign shall be identified as either "advertising" or "non-advertising." To the extent a sign is a non-conforming sign, it must further be identified as "non-conforming advertising" or "non-conforming non-advertising." A sign identified as "non-conforming advertising" or "non-conforming non-advertising" shall be submitted to the Department for confirmation of its non-conforming status, pursuant to section 49-16 of this chapter.

* * *

RCNY § 49-16 – Non-conforming Signs
(a) With respect to each sign identified in the sign inventory as non-conforming, the registered architect or professional engineer shall request confirmation of its non-conforming status from the Department based on evidence submitted in the registration application. The Department shall review the evidence submitted and accept or deny the request within a reasonable period of time. A sign that has been identified as non-conforming on the initial registration application may remain erected unless and until the Department has issued a determination that it is not non-conforming; and

THE APPELLANT'S POSITION

WHEREAS, the Appellant contends that the Final Determination should be reversed because: (1) the Sign was established as an advertising sign prior to June 1, 1968 and may therefore be maintained as a legal non-conforming advertising sign; (2) the Sign has not been discontinued; and (3) equitable estoppel prevents DOB from taking enforcement action against the Sign; and

Lawful Establishment

WHEREAS, the Appellant contends that that the Sign was established prior to June 1, 1968 because the text of the Permit contains references to DOB applications from 1966; and

WHEREAS, the Appellant contends that such references are sufficient proof that the Sign existed as an advertising sign rather than a business sign prior to June 1, 1968; and

Continuous Use

WHEREAS, the Appellant asserts that the Sign has not been discontinued for a period of two or more years since establishment as a non-conforming use on June 1, 1968; and

WHEREAS, the Appellant contends that it has submitted sufficient evidence proving the requisite continuity in the form of DOB Buildings Information System printouts showing "numerous BN and electric sign applications" from 1965-1984 and one undated photograph; and

Estoppel Against the City

WHEREAS, the Appellant asserts that it has relied on the Permit for several years and made substantial investments relative to the continued operation of the Sign; and

WHEREAS, the Appellant asserts that under established principles of equity, DOB should be estopped from ordering the removal of the Sign; and

WHEREAS, the Appellant asserts that although as a general rule estoppel or laches cannot be used against a municipality enforcing its zoning law, New York courts have ruled that these doctrines are not foreclosed entirely and may be invoked as a rare exception; and

WHEREAS, the Appellant states that two New York State court decisions – Town of Hempstead v. DeMasco, 2007 WL 4471362 (Sup. Ct. 2007), aff'd, 62 A.D.3d 692 (2d Dept. 2009) and Inner Force Econ. Dev. Corp. v. Dep't of Educ. Of the City of New York, 36 Misc.3d 758, 559 (Sup. Ct. 2012) – to support its conclusion that the City should be estopped; and

WHEREAS, the Appellant notes that in DeMasco, the Town sought to enforce its zoning ordinance against a metal salvage business which had existed for many years prior to a zoning change, and the Appellate Division affirmed that the Town was equitably estopped in part because it continued business with the junkyard and "gave an imprimatur to the businesses' continued operation"; and

WHEREAS, the Appellant argues that this appeal is similar to DeMasco, in that DOB "did not prohibit the [Appellant] from continuing to maintain its advertising signage during the period following the issuance of the Permit[s]" and that "by not enforcing against the signage [DOB] implicitly permitted its continued use"; and

WHEREAS, the Appellant notes that Inner Force involved an action against the New York City Department of Education in which a plaintiff filed its Notice of Claim with the Comptroller's Office instead of the Office of the Corporation Counsel, which should have received the claim instead, and the Comptroller's Office acknowledged the receipt of the Notice, informed the plaintiff that it was conducting an investigation and ultimately denied the claim based in part on the improper notice; and

WHEREAS, the Appellant notes that the Inner Force court found estoppel applicable to the conduct of the Comptroller's Office because the Comptroller's response to the plaintiff's erroneous notice wrongfully or negligently induced reliance by the plaintiff to its detriment to believe that its notice of claim was proper and that the proper party had been served; and

WHEREAS, the Appellant contends that this appeal is similar because "DOB clearly understood or should have understood that by not pursuing enforcement action against the maintenance of valuable advertising signage there was every reason for the [Appellant] to continue its operation"; and

WHEREAS, accordingly, the Appellant argues that DOB should be estopped from taking any enforcement action against the Sign and DOB's Final Determination with respect to the Sign should be reversed; and

DOB'S POSITION

WHEREAS, DOB asserts that the Appellant has not submitted sufficient evidence to demonstrate that an advertising sign was established at the Premises; and

WHEREAS, DOB states that in order to show proof of establishment of an advertising sign under the non-conforming use provisions of ZR § 42-55, an applicant only needs to demonstrate that the advertising sign was constructed prior to June 1, 1968 or November 1, 1979 (depending on the size of the sign); and

WHEREAS, DOB explains that the Department does not require proof of an advertising sign permit under this Zoning Resolution section because the section was promulgated on February 21, 1980 to legalize, as non-conforming, certain advertising signs that were previously prohibited; and

WHEREAS, DOB asserts that there is insufficient evidence of the establishment of an advertising sign at the Premises; and

WHEREAS, DOB contends that the only evidence the Appellant has produced to demonstrate establishment of an advertising sign at the Premises is the Permit, which by its terms indicates that it is for a "business sign"; and

WHEREAS, however, DOB states that the designation of "business sign" on the Permit indicates that the Permit was for an "accessory sign" and not for an "advertising sign"; and

WHEREAS, consequently, DOB asserts that the Permit cannot be relied upon as evidence of the establishment of anything other than an accessory sign; and

WHEREAS, DOB notes that the Appellant has also not produced any evidence that the 1968 accessory sign was converted to an advertising sign; and

WHEREAS, DOB notes that if an advertising sign was in fact constructed at the Premises between June 1, 1968 and November 1, 1979, the advertising sign could only obtain non-conforming status under ZR § 42-55(c)(2) if the advertising sign did not exceed 1,200 sq. ft. in surface area because the Premises is within 900 feet of an arterial highway; and

WHEREAS, DOB notes that the Sign measures 1,800 sq. ft. in surface area; and

WHEREAS, thus, DOB asserts that the Appellant has not demonstrated the lawful establishment of an advertising sign; and

WHEREAS, accordingly, DOB asserts that it properly issued its Final Determination denying the registration of the Sign; and

CONCLUSION

WHEREAS, the Board finds that: (1) DOB properly denied the Sign registration because the Appellant has not met its burden of demonstrating that the Sign was established prior to June 1, 1968 or November 1, 1979 as an advertising sign; and (2) DOB is not equitably estopped from correcting its erroneous issuance of the Permit; and

WHEREAS, the Board finds that, in fact, there is no basis to conclude that an advertising sign was ever lawfully established at the Premises; and

WHEREAS, the Board agrees with DOB that the Permit is evidence of the establishment of an accessory sign rather than an advertising sign; and

WHEREAS, the Board notes that, historically, the Zoning Resolution defined a "business sign" as "an accessory sign which directs attention to a profession, business, commodity, service, or entertainment conducted, sold, or offered upon the same zoning lot"; and

WHEREAS, the Board finds that Permit authorized the construction of an accessory business sign rather than an

advertising sign because: (1) the "proposed work" noted on the Permit was the construction of a "business sign"; and (2) the two sketches included with the Permit contain a note stating that the sign is "For Business Conducted on the Premises"; and

WHEREAS, the Board finds that, contrary to the Appellant's assertions, the references to two 1966 alteration applications on the Permit are not relevant to the question of whether an advertising sign existed at the Premises prior to 1968; and

WHEREAS, thus, the Board finds that the Appellant's reliance on the Permit as evidence of the establishment of an advertising sign is misplaced; and

WHEREAS, the Board concludes that, since the Appellant has offered no other evidence regarding the establishment of an advertising sign pursuant to ZR § 42-55(c), an advertising sign has never been lawfully established at the Premises; and

WHEREAS, the Board does not find the Appellant's arguments regarding equitable estoppel persuasive; and

WHEREAS, the Board distinguishes the Appellant's case law on the matter of equitable estoppel on the primary basis that in DeMasco the City actually maintained a business relationship with the junkyard on which the junkyard relied as an indication that its rights were preserved and in Inner Force, the City made a specific procedural decision that deprived the claimant of a right he might otherwise have had, if the City had not accepted his claim without notifying him of its defective notice; and

WHEREAS, the Board finds the Appellant's assertions about reasonable reliance to be particularly dubious since it is unreasonable to rely on a "business sign" permit but maintain an "advertising sign"; and

WHEREAS, the Board notes that the Appellant, by its own admission, has enjoyed approximately 45 years' worth of revenue from an advertising sign that has never been permitted by the Zoning Resolution at the Premises; and

WHEREAS, therefore, the Board finds that DOB's enforcement against the Sign is warranted, and as such, DOB properly rejected the Appellant's registration of the Sign.

Therefore it is Resolved that this appeal, challenging a Final Determination issued on May, 25, 2012, is denied.

Adopted by the Board of Standards and Appeals, April 9, 2013.

203-12-A

APPLICANT – Davidoff Hutcher & Citron LLP, for CBS Outdoor, Inc.

OWNER OF PREMISES – Gemini 442 36th Street H LLC.

SUBJECT – Application June 28, 2013 – Appeal from Department of Buildings' determination that a sign is not entitled to continued legal status as advertising sign. C2-5 /HY zoning district.

PREMISES AFFECTED – 442 West 36th Street, east of southeast corner of 10th Avenue and 36th Street, Block 733, Lot 60, Borough of Manhattan.

COMMUNITY BOARD #4M

ACTION OF THE BOARD – Appeals Denied.

THE VOTE TO GRANT –

Affirmative:.....0

Negative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5

THE RESOLUTION –

WHEREAS, the subject appeal comes before the Board in response to a Notice of Sign Registration Rejection letter from the Manhattan Borough Commissioner of the Department of Buildings ("DOB"), dated May 30, 2012, denying registration for the sign at the subject premises (the "Final Determination"), which reads, in pertinent part:

> The Department of Buildings is in receipt of additional documentation submitted in response to the Deficiency Letter from the Sign Enforcement Unit and in connection with the application for registration of the above-referenced sign. Unfortunately, we find this documentation inadequate to support the registration of the sign and as such, the sign is rejected from registration. This sign will be subject to enforcement action 30 days from the issuance of this letter; and

WHEREAS a public hearing was held on this application on February 5, 2013, after due notice by publication in *The City Record*, and then to decision on April 9, 2013; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan and Commissioner Ottley-Brown; and

WHEREAS, the subject premises ("the Premises") is located on the south side of West 36th Street between Tenth Avenue and an exit roadway for the Lincoln Tunnel, in an R8A (C2-5) zoning district within the Special Hudson Yards District; and

WHEREAS, the site is occupied by a 14-story hotel building and, on the east wall of the building, an advertising sign ("the Sign"); and

WHEREAS, on May 8, 2001, DOB issued Permit No. 102955287-01-SG which authorized the installation of "a non-illuminated advertising wall flex sign"; and

WHEREAS, this appeal is brought on behalf of the lessee of the sign structure (the "Appellant"); and

WHEREAS, the Appellant states that the Sign is a rectangular advertising sign with a surface area of 2,100 sq. ft. and located within 900 feet of an arterial highway; and

WHEREAS, DOB states that the Sign is located 184.92 feet from the nearest boundary of an exit roadway for the Lincoln Tunnel and within view of such roadway; and

WHEREAS, the Appellant seeks a reversal of DOB's rejection of the registration of the Sign based on DOB's determination that the Appellant failed to provide evidence of the establishment of an advertising sign; and

WHEREAS, DOB appeared and made submissions in

opposition to this appeal; and

REGISTRATION REQUIREMENT

WHEREAS, the relevant statutory requirements related to sign registration have been in effect since 2005; and

WHEREAS, under Local Law 31 of 2005, the New York City Council enacted certain amendments to existing regulations governing outdoor advertising signs; and

WHEREAS, the amendments are codified under Articles 501, 502, and 503 of the 2008 Building Code and were enacted to provide DOB with a means of enforcing the sign laws where signs had been erected and were being maintained without a valid permit; and

WHEREAS, pursuant to Article 502 (specifically, Building Code § 28-502.4), an outdoor advertising company is required to submit to DOB an inventory of:

> all signs, sign structures and sign locations located (i) within a distance of 900 linear feet (274 m) from and within view of an arterial highway; or (ii) within a distance of 200 linear feet [60.96 m] from and within view of a public park with an area of ½ acre (5000 m) or more; and

WHEREAS, further, Local Law 31 authorized the Commissioner of DOB to promulgate rules establishing permitting requirements for certain signs; the DOB rules, enacted under Rule 49, provide specific procedures for registration of advertising signs; Rule 49-15(5) reads in pertinent part:

> Each sign shall be identified as either "advertising" or "non-advertising." To the extent a sign is a non-conforming sign, it must further be identified as "non-conforming advertising" or "non-conforming non-advertising." A sign identified as "non-conforming advertising" or "non-conforming non-advertising" shall be submitted to the Department for confirmation of its non-conforming status, pursuant to section 49-16 of this chapter; and

WHEREAS, subchapter B of Rule 49 (Registration of Outdoor Advertising Companies), (specifically, Rule 49-15(d)(15)(b)), sets forth the acceptable forms of evidence to establish the size and the existence of a non-conforming sign on the relevant date set forth in the Zoning Resolution; and

WHEREAS, the acceptable forms of evidence set forth at Rule 49 are, in pertinent part as follows:

> Acceptable evidence may include permits, sign-offs of applications after completion, photographs and leases demonstrating that the non-conforming use existed prior to the relevant date; and

WHEREAS, that affidavits are also listed as an acceptable form of evidence; and

WHEREAS, a DOB guidance document sets forth the instructions for filing under Rule 49 and states that any one of the following documents would be acceptable evidence for sign registration pursuant to Rule 49: (1) DOB issued permit for sign erection; (2) DOB-approved application for sign erection; (3) DOB dockets/permit book indicating sign permit approval; and (4) publicly catalogued photograph from a source such as NYC Department of Finance, New York Public Library, Office of Metropolitan History, or New York State Archives; and

REGISTRATION PROCESS

WHEREAS, on September 1, 2009, pursuant to the requirements of Article 502 and Rule 49, the Appellant submitted an inventory of outdoor signs under its control and a Sign Registration Application for the Sign and completed an OAC3 Outdoor Advertising Company Sign Profile, attaching the following documentation: (1) a diagram of the Sign; (2) DOB Buildings Information System printouts showing application data regarding the Permit; (3) copies of the original and subsequent issuance of the Permit; (4) an OASIS map of the Premises and surrounding area and (5) excerpts from a Sanborn map showing the Premises; and

WHEREAS, on February 22, 2010, the Appellant submitted an amended Sign Registration Application for the Sign; the amended application clarified the surface area of the Sign; and

WHEREAS, on September 27, 2011, DOB issued a Notice of Sign Registration Deficiency, stating that "[DOB is] unable to accept the sign for registration (due to) 'Failure to provide proof of legal establishment – 2003 Permit # 102955287-01 and other permits, for non-arterial sign'"; and

WHEREAS, by letter dated February 28, 2012, the Appellant submitted a response to DOB indicating that it had no further documentation to submit regarding the Sign; and

WHEREAS, accordingly, on May 25, 2012, DOB issued a Final Determination that the Sign was rejected for registration; and

RELEVANT STATUTORY PROVISIONS

> ZR § 12-10 *Definitions*
>
> Non-conforming, or non-conformity
>
> A "non-conforming" #use# is any lawful #use#, whether of a #building or other structure# or of a #zoning lot#, which does not conform to any one or more of the applicable #use# regulations of the district in which it is located, either on December 15, 1961 or as a result of any subsequent amendment thereto. . .
>
> * * *
>
> ZR § 42-55
>
> Additional Regulations for Signs Near Certain Parks and Designated Arterial Highways
>
> M1 M2 M3
>
> In all districts, as indicated, the provisions of paragraphs (a), (b) and (c), or paragraph (d), of this Section, shall apply for #signs# near designated arterial highways or certain #public parks#.
>
> (a) Within 200 feet of an arterial highway or a #public park# with an area of one-half acre or more, #signs# that are within view of such

arterial highway or #public park# shall be subject to the following provisions:

(1) no permitted #sign# shall exceed 500 square feet of #surface area#; and

(2) no #advertising sign# shall be allowed; nor shall an existing #advertising sign# be structurally altered, relocated or reconstructed.

(b) Beyond 200 feet from such arterial highway or #public park#, the #surface area# of such #signs# may be increased one square foot for each linear foot such sign is located from the arterial highway or #public park#.

(c) The more restrictive of the following shall apply:

(1) any #advertising sign# erected, structurally altered, relocated or reconstructed prior to June 1, 1968, within 660 feet of the nearest edge of the right-of-way of an arterial highway, whose message is visible from such arterial highway, shall have legal #non-conforming use# status pursuant to Section 52-83 (Non-Conforming Advertising Signs), to the extent of its size existing on May 31, 1968; or

(2) any #advertising sign# erected, structurally altered, relocated or reconstructed between June 1, 1968, and November 1, 1979, within 660 feet of the nearest edge of the right-of-way of an arterial highway, whose message is visible from such arterial highway, and whose size does not exceed 1,200 square feet in #surface area# on its face, 30 feet in height and 60 feet in length, shall have legal #non-conforming use# status pursuant to Section 52-83, to the extent of its size existing on November 1, 1979. All #advertising signs# not in conformance with the standards set forth herein shall terminate.

ZR § 52-83
Non-Conforming Advertising Signs
In all Manufacturing Districts, or in C1, C2, C4, C5-4, C6, C7 or C8 Districts, except as otherwise provided in Section…42-55, any non-conforming advertising sign except a flashing sign may be structurally altered, reconstructed, or replaced in the same location and position, provided that such structural alteration, reconstruction or replacement does not result in:

(a) The creation of a new non-conformity or an increase in the degree of non-conformity of such sign;

(b) An increase in the surface area of the sign; or

(c) An increase in the degree of illumination of such sign; and

* * *

Building Code § 28-502.4 – Reporting Requirement
An outdoor advertising company shall provide the department with a list with the location of signs, sign structures and sign locations under the control of such outdoor advertising company in accordance with the following provisions:

(1) The list shall include all signs, sign structures and sign locations located (i) within a distance of 900 linear feet (274 m) from and within view of an arterial highway; or (ii) within a distance of 200 linear feet (60 960 mm) from and within view of a public park with an area of ½ acre (5000 m) or more…

* * *

RCNY § 49-15 – Sign Inventory to be Submitted with Registration Application
…(d)(5) Each sign shall be identified as either "advertising" or "non-advertising." To the extent a sign is a non-conforming sign, it must further be identified as "non-conforming advertising" or "non-conforming non-advertising." A sign identified as "non-conforming advertising" or "non-conforming non-advertising" shall be submitted to the Department for confirmation of its non-conforming status, pursuant to section 49-16 of this chapter.

* * *

RCNY § 49-16 – Non-conforming Signs

(a) With respect to each sign identified in the sign inventory as non-conforming, the registered architect or professional engineer shall request confirmation of its non-conforming status from the Department based on evidence submitted in the registration application. The Department shall review the evidence submitted and accept or deny the request within a reasonable period of time. A sign that has been identified as non-conforming on the initial registration application may remain erected unless and until

the Department has issued a determination that it is not non-conforming; and

THE APPELLANT'S POSITION

WHEREAS, the Appellant contends that the Final Determination should be reversed because: (1) the Sign was established with a permit and became a non-conforming use when the Premises was rezoned; (2) the Sign has not been discontinued; and (3) equitable estoppel prevents DOB from taking enforcement action against the Sign; and

The 2001 Permit

WHEREAS, the Appellant asserts that it established the Sign when it obtained its Permit1 because, on the date of issuance, the Premises was located in an M1-5 zoning district and not within 200 feet of the nearest arterial highway (Lincoln Tunnel);

WHEREAS, although the Appellant does not dispute that the Sign is visible from an exit roadway of the Lincoln Tunnel, the Appellant maintains that because such roadway leads *from* the tunnel rather than *to* it, the roadway is not an "approach" as that term is defined in Rule 49 and referenced in Appendix H of the Zoning Resolution; and

WHEREAS, consequently, the Appellant contends that the Permit was properly issued and, as such, a sufficient basis for the lawful establishment of the Sign; and

WHEREAS, the Appellant contends that because the Sign was lawfully established, it became a non-conforming use when, on January 19, 2005, the zoning district for the Premises changed from M1-5 to (R8A) C2-5; and

Continuous Use

WHEREAS, as to the continuous use of the Sign, the Appellant relies on an October 26, 2000 lease agreement between the Appellant and the owner of the Premises providing for a ten-year term with two five-year renewal options; and

WHEREAS, the Appellant contends that the lease is sufficient evidence that the Sign has been in continuous use since its construction pursuant to the Permit; and

Estoppel Against the City

WHEREAS, the Appellant asserts that under established principles of equity, DOB should be estopped from ordering the removal of the Sign; and

WHEREAS, the Appellant asserts that it has relied on the Permit for years and made substantial investments relative to the continued operation of the Sign; and

WHEREAS, the Appellant contends that although as a general rule estoppel or laches cannot be used against a municipality enforcing its zoning law, New York courts have ruled that these doctrines are not foreclosed entirely and may be invoked as a rare exception; and

WHEREAS, the Appellant states that two New York State court decisions – Town of Hempstead v. DeMasco, 2007 WL 4471362 (Sup. Ct. 2007), aff'd, 62 A.D.3d 692 (2d Dept. 2009) and Inner Force Econ. Dev. Corp. v. Dep't of Educ. Of the City of New York, 36 Misc.3d 758, 559 (Sup. Ct. 2012) – to support its conclusion that the City should be estopped; and

WHEREAS, the Appellant notes that in DeMasco, the Town sought to enforce its zoning ordinance against a metal salvage business which had existed for many years prior to a zoning change, and the Appellate Division affirmed that the Town was equitably estopped in part because it continued business with the junkyard and "gave an imprimatur to the businesses' continued operation"; and

WHEREAS, the Appellant asserts that this appeal is similar to DeMasco, in that DOB "did not prohibit the [Appellant] from continuing to maintain its advertising signage during the period following the issuance of the Permit" and that "by not enforcing against the signage [DOB] implicitly permitted its continued use"; and

WHEREAS, the Appellant notes that Inner Force involved an action against the New York City Department of Education in which a plaintiff filed its Notice of Claim with the Comptroller's Office instead of the Office of the Corporation Counsel, which should have received the claim instead, and the Comptroller's Office acknowledged the receipt of the Notice, informed the plaintiff that it was conducting an investigation and ultimately denied the claim based in part on the improper notice; and

WHEREAS, the Appellant notes that the Inner Force court found estoppel applicable to the conduct of the Comptroller's Office because the Comptroller's response to the plaintiff's erroneous notice wrongfully or negligently induced reliance by the plaintiff to its detriment to believe that its notice of claim was proper and that the proper party had been served; and

WHEREAS, the Appellant contends that this appeal is similar because "DOB clearly understood or should have understood that by not pursuing enforcement action against the maintenance of valuable advertising signage there was every reason for the [Appellant] to continue its operation"; and

WHEREAS, accordingly, the Appellant asserts that DOB should be estopped from taking any enforcement action against the Sign and DOB's Final Determination with respect to the Sign should be reversed; and

DOB'S POSITION

WHEREAS, DOB asserts that: (1) the Sign was not lawfully established with the Permit because the Permit was issued in error; and (2) DOB cannot be equitably estopped from enforcing the Zoning Resolution where a permit was invalid when issued; and

The 2001 Permit

WHEREAS, DOB contends that the Permit for the Sign was issued in error on May 8, 2001, in that it failed to comply with ZR § 42-55(a), which prohibits advertising signs within 200 feet of an arterial highway and became effective on February 27, 2001; and

WHEREAS, DOB asserts that, according to a measurement made using Pictometry (computer software

1 The Appellant's written submissions indicate that the permit was first issued on January 16, 2003; however, according to DOB records, the permit was first issued on May 8, 2001.

that measures distances using geographic information systems), the Sign is 184.92 feet from the nearest boundary of an exit roadway from the Lincoln Tunnel and within view of such roadway; and

WHEREAS, DOB contends that roadways connecting the Lincoln Tunnel to and from the local street network are "approaches" according to Rule 49 and Appendix H of the Zoning Resolution; and

WHEREAS, DOB disagrees with the Appellant's distinction between, on the one hand, a roadway connecting the local street network *to* Lincoln Tunnel (which the Appellant considers an "approach" to an arterial highway, as that term is defined in Rule 49 and referenced in Appendix H of the Zoning Resolution), and, on the other hand, a roadway connecting the local street network *from* the Lincoln Tunnel (which the Appellant does not consider an "approach"); and

WHEREAS, DOB notes that in BSA Cal. No. 100-12-A, the Board agreed that an exit roadway from the Holland Tunnel constituted an "approach"; and

WHEREAS, accordingly, DOB contends that the Permit improperly authorized the construction of a Sign within 200 feet of an arterial highway contrary to ZR § 42-55(a); and

WHEREAS, DOB notes that even if the Board were to adopt the Appellant's position with respect to the term "approach," the Permit would still be contrary to ZR § 42-55(b), which provides in pertinent part that "beyond 200 feet from such arterial highway . . . the surface area of such sign may be increased one square foot for each linear foot such sign is located from the arterial highway," because the Permit purports to authorize the construction of a sign measuring 2,100 sq. ft. less than 2,100 linear feet from an arterial highway; and

WHEREAS, DOB asserts that because the Permit was issued contrary to the Zoning Resolution, it cannot be relied upon as establishing the Sign; and

Estoppel Against the City

WHEREAS, DOB states that it cannot be estopped from enforcing the Zoning Resolution where a permit was invalid when issued, citing Matter of Parkview Associates v. City of New York, 71 N.Y.2d 74 (1988); and

WHEREAS, DOB asserts that, consistent with Parkview Associates, to the extent that DOB erred in issuing the original Permit, it cannot be estopped from correcting that error now; and

WHEREAS, accordingly, DOB asserts that it properly issued its Final Determination denying the registration of the Sign; and

CONCLUSION

WHEREAS, the Board finds that: (1) DOB properly denied the Sign registration because the Appellant has not demonstrated that the Sign was lawfully established; and (2) DOB is not equitably estopped from correcting its erroneous issuance of the Permit; and

WHEREAS, the Board agrees with DOB that the Permit was issued on May 8, 2001 in violation of ZR § 42-55(a), in that it authorized the construction of a sign at the Premises within 200 feet of a roadway that constitutes an approach to the Lincoln Tunnel, which is an arterial highway pursuant to Appendix H of the Zoning Resolution, and within view of such roadway; and

WHEREAS, the Board is guided by its analysis of the term "approach" in BSA Cal. No. 100-12-A; specifically, the Board finds the Appellant's position that the definition of an "approach" under Rule 49 was meant to excluded exit roadways because the definition does not state "to or from" a bridge or tunnel to be misguided, and agrees with DOB that the definition does not state which direction the traffic needs to flow from the "roadway" in order to be an approach; and

WHEREAS, the Board finds that the Rule 49 definition of "approach" is clear and that the exit roadway to the Lincoln Tunnel meets the relevant criteria of the definition, in that it is a "roadway connecting the local street network to a bridge or tunnel and from which there is no entry or exit to such network"; and

WHEREAS, the Board notes that the Rule 49 definition of "approach" makes no distinction as to whether traffic is entering or exiting the tunnel via the roadway, and the Board does not find the Appellant's attempt to insert the direction of the traffic as an additional criteria in the definition to be compelling; and

WHEREAS, the Board concludes that the Premises and the Sign are within 200 feet of an arterial highway; and

WHEREAS, thus, the Board finds that the Permit was issued contrary to ZR § 42-55(a); and

WHEREAS, the Board agrees with DOB that the Permit was invalid when issued; and

WHEREAS, the Board notes even if the Board were to accept the Appellant's definition of "approach" (and therefore measure the distance to the nearest arterial highway approach connecting *to* the Lincoln Tunnel rather than *from* it), the Sign is within 900 feet of such approach; consequently, even under the Appellant's definition of approach, the Permit was issued contrary to ZR § 42-55(b)—which limits the surface area of an advertising sign in a manufacturing district beyond 200 feet of an arterial highway to its linear distance from such arterial highway—because the Permit purports to authorize a sign measuring 2,100 sq. ft. in surface area less than 2,100 linear feet from an arterial highway; and

WHERAS, the Board also notes that even if the Permit had been validly issued in 2001 and the Sign had become non-conforming, the Appellant has failed to demonstrate with sufficient evidence that the Sign was not thereafter discontinued pursuant to ZR § 52-61; and

WHEREAS, the Board does not find the Appellant's arguments regarding equitable estoppel persuasive; and

WHEREAS, the Board distinguishes the Appellant's case law on the matter of equitable estoppel on the primary basis that in DeMasco the City actually maintained a business relationship with the junkyard on which the junkyard relied as an indication that its rights were preserved and in Inner Force, the City made a specific procedural decision that deprived the claimant of a right he might otherwise have had, if the City

had not accepted his claim without notifying him of its defective notice; and

WHEREAS, the Board notes that the Court of Appeals has squarely held that DOB cannot be estopped from enforcing the Zoning Resolution where a permit was invalid when issued pursuant to Matter of Parkview Associates v. City of New York, 71 N.Y.2d 74 (1988); and

WHEREAS, the Board also notes that the Appellant, by its own admission, has enjoyed almost 12 years' worth of revenue from an advertising sign that has a surface area in excess of ten times what has ever been permitted by the Zoning Resolution at the Premises; and

WHEREAS, therefore, the Board finds that DOB's enforcement against the Sign is warranted, and as such, DOB properly rejected the Appellant's registration of the Sign.

Therefore it is Resolved that this appeal, challenging a Final Determination issued on May, 25, 2012, is denied.

Adopted by the Board of Standards and Appeals, April 9, 2013.

15-13-A thru 49-13-A

APPLICANT – Eric Palatnik, P.C., for Block 7094 Associates, LLC, owners.

SUBJECT – Application January 25, 2013 – Proposed construction of thirty-five (35) one and two-family dwellings that do not front on a legally mapped street, contrary to General City Law Section 36. R3-1(SRD) zoning district.

PREMISES AFFECTED –

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5

Negative:.....0

THE RESOLUTION –

WHEREAS, the decisions of the Staten Island Borough Commissioner, dated January 16, 2013, acting on Department of Buildings Application Nos. 520008759, 520008777, 520008795, 520008839, 520008820, 520008802, 520008811, 520008848, 520008857, 520008866, 520008900, 520008875, 520008884, 520008893, 520008991, 520009026, 520009035, 520009044, 520008928, 520009099, 520008982, 520008973, 520009124, 520009179, 520009188, 520009197, 520009204, 520009213, 520008964, 520008955, 520116785, 520009053, 520009062, 520009071, 520009080 read in pertinent part:

The street giving access to the proposed building is not duly placed on the official map of the City of New York therefore:

A) No Certificate of Occupancy can be issued pursuant to Article 3, Section 36 of General City Law.

B) Proposed construction does not have at least 8% of the total perimeter of Building fronting directly upon a legally mapped street or frontage space contrary to Section 502.1 of the 2008 NYC Building Code; and

WHEREAS, a public hearing was held on this application on March 12, 2013 after due notice by publication in the *City Record*, and then to decision on April 9, 2013; and

WHEREAS, this application seeks a waiver to construct sixteen (16) one-family homes and nineteen (19) two-family homes at Veterans Road East and Berkshire Lane within an R3-1 zoning district within the Special South Richmond District (SSRD) not fronting upon a mapped street, contrary to General City Law Section 36; and

WHEREAS, there are an additional four homes proposed which do not seek General City Law Section 36 relief and are not the subject of this application; and

WHEREAS, as part of the initial filing, the applicant provided a letter from the Fire Department, dated March 24, 2012, which recommends approval subject to the following conditions: (1) that there be no parking anytime on the side of the street and at the corners indicated by the cross hatching on the approved plans; (2) that no parking signs will be installed throughout the development as shown on the approved plans and will conform with Fire Code Section 503.7; (3) private hydrants will be installed as indicated on the approved plan and a private hydrant is required to be within 250 feet of the main front entrance of the homes; (4) that the installation of new fire service mains will conform to the requirements of Fire Code Section 508.2.1 and private fire service mains and appurtenances will be installed in accordance with NFPA 24 and the requirements of the NYC Department of Environmental Protection; (5) once the installation of private fire service mains are complete, the requirements of Fire Code Section 508.4 which requires that a flow test be conducted to verify that the private fire hydrant system delivers the flow test will be conducted to verify that the private fire hydrant system delivers the minimum design capacity required by Fire Code Section 508.3; (6) that all required fire protection systems be installed, including the private hydrant system and associated piping be maintained in good working order; and (7) that the approval and the conditions are appurtenant to the property, binding the property owner and any and all successors in interest including any homeowner condominium association; and

WHEREAS, in response, the applicant submitted plans reflecting the conditions in accordance with the Fire Department's request; and

WHEREAS, by letter dated March 7, 2013 the Fire Department states it has no objections and no further requirements regarding the proposed application ; and

WHEREAS, at hearing, the Board inquired about the access to Veterans Road East; and

WHEREAS, in response, the applicant stated that Veterans Road East will extend to Wirt Avenue and be a New York State roadway, and that construction on Veterans Road East is subject to New York State Department of Transportation approval; and

WHEREAS, the Board also notes that the approvals from the Department of City Planning (for subdivision, arterial streets, and school seats, the Department of Environmental Protection, and DOB for a Builders Pavement Plan have been received as part of the subject filing; and

WHEREAS, accordingly, the Board has determined that the applicant has submitted adequate evidence to warrant this approval under certain conditions.

Therefore it is Resolved that the decisions of the Staten Island Borough Commissioner, dated January 16, 2013 acting on Department of Buildings Application Nos. 520008759, 520008777, 520008795, 520008839, 520008820, 520008802, 520008811, 520008848, 520008857, 520008866, 520008900, 520008875, 520008884, 520008893, 520008991, 520009026, 520009035, 520009044, 520008928, 520009099, 520008982, 520008973, 520009124, 520009179, 520009188, 520009197, 520009204, 520009213, 520008964, 520008955, 520116785, 520009053, 520009062, 520009071, 520009080 are modified by the power vested in the Board by Section 36 of the General City Law, and that this appeal is granted, limited to the decision noted above; *on condition* that construction will substantially conform to the drawing filed with the application marked "Received February 21, 2013"- one (1) sheet; and *on further condition*:

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the site and roadway will conform with the BSA-approved plans;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted;

THAT the construction on Veterans Road East is subject to New York State Department of Transportation review and approval;

THAT any changes to the site plan, associated with the Department of City Planning approval process, are subject to review and approval from the Board; and

THAT the Department of Buildings must ensure compliance with all other applicable
provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals April 9, 2013.

10-10-A

APPLICANT – Law Office of Fredrick A. Becker, for Joseph Durzieh, owner.

SUBJECT – Application September 5, 2012 – Reopening for a court remand to review the validity of the permit at issue in a prior vested rights application.

PREMISES AFFECTED – 1882 East 12th Street, west side of East 12th Street approx. 75' north of Avenue S, Block 6817, Lot 41, Borough of Brooklyn.

COMMUNITY BOARD #15BK

ACTION OF THE BOARD – Laid over to May 21, 2013, at 10 A.M., for continued hearing.

119-11-A

APPLICANT – Bryan Cave LLP, for Kimball Group, LLC, owner.

SUBJECT – Application August 17, 2011 – Appeal seeking a determination that the owner has acquired a common law vested right to continue development commenced under prior zoning regulations in effect on July 14, 2005. R4 zoning district.

PREMISES AFFECTED – 2230-2234 Kimball Street, between Avenue U and Avenue V, Block 8556, Lot 55, Borough of Brooklyn.

COMMUNITY BOARD #18BK

ACTION OF THE BOARD – Off Calendar.

103-12-A

APPLICANT – Sheldon Lobel, P.C., for 74-47 Adelphi Realty LLC, owner.

SUBJECT – Application April 12, 2012 – Appeal seeking a common law vested right to continue development commenced under the prior R6 zoning district. R5B zoning district.

PREMISES AFFECTED – 74-76 Adelphi Street, west side of Adelphi Street, south of Park Avenue with frontage along Adelphi Street, block 2044, Lot 52, 53, Borough of Brooklyn.

THE RESOLUTION –
WHEREAS, the decision of the Brooklyn Borough Commissioner, dated June 8, 2012, acting on Department of Buildings Application No. 320443748, reads in pertinent part:

1. Proposed floor area ratio is contrary to ZR 23-141(a)

2. Proposed open space is contrary to ZR 23-141(a)
3. Proposed lot coverage is contrary to ZR 23-141(a)
4. Proposed side yards (exist. non-compliance) contrary to ZR 23-461(a)
5. Proposed rear yard is contrary to ZR 23-47
   Minimum required: 30'
   Proposed: 20'; and

WHEREAS, this is an application under ZR §§ 73-622 and 73-03, to permit, within an R4 zoning district, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for floor area ratio ("FAR"), open space, lot coverage, side yards and rear yard contrary to ZR §§ 23-141, 23-46, and 23-47; and

WHEREAS, a public hearing was held on this application on December 11, 2012, after due notice by publication in *The City Record*, with continued hearings on December 11, 2012, January 15, 2013, February 5, 2013 and March 5, 2013, and then to decision on April 9, 2013; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson, Commissioner Ottley-Brown and Commissioner Montanez; and

WHEREAS, Community Board 15, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the west side of East 12th Street, between Gilmore Court and Shore Parkway, within an R4 zoning district; and

WHEREAS, the subject site has a total lot area of 1,645 sq. ft., and is occupied by a single-family home with a floor area of 750.5 sq. ft. (0.45 FAR); and

WHEREAS, the premises is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant seeks an increase in the floor area from 750.5 sq. ft. (0.45 FAR) to 2,031 sq. ft. (1.23 FAR); the maximum permitted floor area is 1,485.5 sq. ft. (0.9 FAR); and

WHEREAS, the applicant proposes an open space ratio of 0.48; the minimum permitted open space ratio is 0.55; and

WHEREAS, the applicant proposes a lot coverage of 52 percent; the maximum permitted lot coverage is 45 percent; and

WHEREAS, the applicant proposes to enlarge the single existing side yard with a width of 5'-3"; the requirement is two side yards with a minimum total width of 13'-0" and a minimum width of 5'-0" each; and

WHEREAS, the applicant proposes a rear yard with a depth of 20 feet; the minimum required rear yard depth is 30 feet; and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood, and will not impair the future use or development of the surrounding area; and

WHEREAS, based upon its review of the record, the Board finds that the proposed enlargement will neither alter the essential character of the surrounding neighborhood, nor impair the future use and development of the surrounding area; and

WHEREAS, the Board finds that the proposed project will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under ZR §§ 73-622 and 73-03.

Therefore it is resolved, that the Board of Standards and Appeals issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR §§ 73-622 and 73-03, to permit, within an R4 zoning district, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for floor area ratio ("FAR"), open space, lot coverage, side yards and rear yard contrary to ZR §§ 23-141, 23-46, and 23-47; *on condition* that all work will substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked "Received January 4, 2013"-(10) sheets; and *on further condition*:

THAT the following will be the bulk parameters of the building: a maximum floor area of 2,031 sq. ft. (1.23 FAR), a maximum lot coverage of 52 percent, a minimum open space ratio of 0.47, one side yard measuring 5'-3", and a rear yard with a minimum depth of 20 feet, as illustrated on the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s) only; no approval has been given by the Board as to the use and layout of the cellar;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted;

THAT substantial construction be completed in accordance with ZR § 73-70; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 9, 2013.

THE RESOLUTION –

WHEREAS, the decision of the Manhattan Borough Commissioner, dated November 15, 2012, acting on Department of Buildings Application No. 104697507, reads in pertinent part:

Floor Area greater than allowed by Sec. 91-22;
and

WHEREAS, this is an application under ZR § 72-21, to permit, within a C6-4 zoning district within the Special Lower Manhattan District, the construction of a 34-story dormitory building (Use Group 3) which does not comply with zoning requirements related to floor area, contrary to ZR § 91-22; and

WHEREAS, a public hearing was held on this application on March 12, 2013 after due notice by publication in the *City Record*, and then to decision on April 9, 2013; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, and Commissioner Montanez; and

WHEREAS, Community Board 1, Manhattan, recommends approval of the application on condition that the developer minimizes construction impacts on the surrounding community and that Pace offers community members programs and services; and

WHEREAS, a member of the community from several blocks away provided testimony in opposition to this application, citing concerns about the new building blocking views; and

WHEREAS, the application is brought on behalf of Pace University ("Pace"), a not for profit educational institution; and

WHEREAS, the zoning lot (Tax Lots 1, 3, 37, and 38) (the "Zoning Lot") is located on the southeast corner of William Street and Beekman Street, within a C6-4 zoning district within the Special Lower Manhattan District; and

WHEREAS, the Zoning Lot has approximately 120.4 feet of frontage on Beekman Street, 102 feet of frontage on William Street, and a total lot area of 13,436.9 sq. ft.; and

WHEREAS, the proposed building will be constructed on the portion of the Zoning Lot consisting of Lots 1, 37, and 38 (the "Development Site"), which has 120.4 feet of frontage on Beekman Street, 49.3 feet of frontage on William Street, and 9,866.5 sq. ft. of lot area; and

WHEREAS, Lot 3 is occupied by a ten-story building constructed in approximately 1908 (the "Lot 3 Building") with commercial use on the ground floor and residential use on the upper floors; and

WHEREAS, in 1989, the Board authorized the exclusion from payment of the conversion contribution then required under ZR § 15-50 in connection with the conversion of 17,892 sq. ft. of floor area in the Lot 3 Building (BSA Calendar No. 735-89-ALC); the Lot 3 Building is under separate ownership and control and no changes to it are proposed; and

WHEREAS, the applicant states that the Development Site and Lot 3 were merged into a single zoning lot pursuant to a Declaration of Zoning Lot Restrictions and Zoning Lot Development and Easement Agreement (the "ZLDA") that were executed by the prior owners of the parcels and recorded in 2007; and

WHEREAS, the applicant states that it has submitted draft materials to the Department of City Planning to amend a pending application (No. N090178 ZCM) seeking a certification from the Chair of the City Planning Commission for a proposed public plaza (the "Public Plaza") and floor area bonus pursuant to ZR §§ 73-78 and 91-24; and

WHEREAS, the applicant proposes to construct a 34-story dormitory building with 146,963 sq. ft. of floor area (10.94 FAR) and to maintain the existing Lot 3 Building with 31,977 sq. ft. of floor area (2.38 FAR) for a total of 178,963 sq. ft. of floor area (13.3 FAR) across the Zoning Lot; and

WHEREAS, the applicant proposes to increase the permitted base floor area of 134,369 sq. ft. (10.0 FAR) across the site by (1) installing a 3,012 sq. ft. Public Plaza on the northeast corner of the Development Site pursuant to City Planning Commission approval that will generate 18,072 sq. ft. (1.34 FAR) of bonus floor area; and (2) obtaining a variance for the additional required 26,522 sq. ft. (1.97 FAR); and

WHEREAS, the applicant asserts that a maximum of 12.0 FAR is contemplated for the site (10.0 FAR base and 2.0 FAR bonus for plaza or inclusionary housing), but that it cannot accommodate the maximum size plaza, so it can only generate 1.34 FAR in bonus floor area, rather than 2.0 FAR; and

WHEREAS, the applicant represents that the proposal will comply with all relevant zoning provisions except total floor area and FAR; and

WHEREAS, the applicant states that the proposed building provides the following uses: (1) accessory spaces for student recreational facilities and meeting rooms, administrative office space, lobby space, a gym, a kitchen, a laundry room, a storage room, and utility rooms on the cellar

level, first and second floors; (2) an approximately 400 sq. ft. retail space (which is required for the Public Plaza) on the first floor; and (3) 760 beds in 381 units on the 3rd through 34th floors and one staff apartment on the 3rd floor; and

WHEREAS, the site will also include an approximately 3,012 sq. ft. Public Plaza at the corner of Beekman and William Streets, subject to City Planning Commission review; and

WHEREAS, because the proposed building does not comply with the underlying zoning district regulations, the subject variance is requested; and

WHEREAS, the applicant represents that the variance request is necessitated by unique conditions of the site that create a hardship, specifically: (1) the irregular shape of the Development Site; and (2) the easement benefitting the New York City Transit Authority (NYCTA) and the L-shaped turn of the subway directly beneath the Development Site; and

WHEREAS, the applicant also relies on Pace's primary programmatic needs of accommodating the increased number of out-of-state students and the high demand for dormitory beds in close proximity to Pace's facilities; and

WHEREAS, as to the irregular shape of the Development Site, which is roughly L-shaped and varies in depth (measured from Beekman Street) from 49.3 feet to 100.5 feet and in width from 66.5 feet to 120.4 feet; and

WHEREAS, as to the presence of the NYCTA transit easement, it precludes excavation and foundation work on a portion of the site, and therefore any substantial development, on approximately 22 percent of the buildable portion of the Development Site and the presence of the subway results in construction premiums related to foundation and excavation work of approximately 1.78 million dollars; and

WHEREAS, as to the uniqueness of this condition, the applicant states that there are no other development parcels in the C6-4 portion of the Special District or in other districts within a half- mile of the Development Site below which the subway turns as it does under the Development Site; and

WHEREAS, the applicant provided an area map, which reflects that within a half-mile of the site, the subway lines all run beneath the street beds except at the subject site where the 2/3 subway makes a turn at the corner of Beekman Street and William Street within the site, below grade; and

WHEREAS, the applicant asserts that the irregular shape of the Development Site and the presence of the transit easement result in an inefficient floor plate for the Proposed Building that reduces the number of beds that can be achieved; and

WHEREAS, the applicant states that these factors also limit the ability to maximize the area of the Public Plaza and, therefore, reduce the potential floor area bonus from 2.0 FAR to 1.34 FAR; and

WHEREAS, the applicant states that these conditions are illustrated by comparing the drawings and zoning calculations for the as-of-right scenario with the drawings and zoning calculations for the regularly-shaped scenario; and

WHEREAS, the applicant states that the building in the complying scenario would contain 120,464 sq. ft. of floor area and 624 beds on 28 floors, which amounts to approximately 193 sq. ft. of floor area per bed and that due to the shape of the Development Site, the maximum feasible area of the Public Plaza is 3,012 square feet, which generates a bonus of 18,072 square feet of floor area; and

WHEREAS, the applicant states that the regularly-shaped scenario assumes the same lot area for the Development Site (approximately 9,860 square feet) but with a rectangular shape: approximately 113.3 feet of frontage along Beekman Street and 87 feet of frontage along William Street and assumes the absence of the transit easement; and

WHEREAS, under the regularly-shaped scenario, the applicant states it would be possible to increase the area of the Public Plaza to 4,030 square feet, (with the inclusion of portion of the Lot 3's lot area) and generates 24,180 sq. ft. of bonus floor area (1.8 FAR), which is 6,168 sq. ft. more than under the complying alternative; such a scenario would also contain 126,572 sq. ft. of floor area and 755 beds on 34 floors, which amounts to approximately 168 sq. ft. per bed (a 15 percent increase in efficiency over the complying scenario; and

WHEREAS, the applicant states that in addition to reducing the efficiency of the building floor plates and limiting the size of the Public Plaza, the irregular shape of the Zoning Lot coupled with the presence of the transit easement also result in significant additional construction costs; and

WHEREAS, specifically, the applicant states that the estimated foundation and excavation costs would increase by $1,785,473, from $1,596,226 under the regularly-shaped scenario to $3,381,699 under the complying due primarily to the presence of the transit easement, an increase which includes the cost of additional piles and lagging necessitated by the presence of the subway, as well as special monitoring and inspection costs required under applicable NYCTA guidelines; and

WHEREAS, as to Pace's programmatic needs, it currently houses students in four buildings containing a total capacity of 1,900 beds and it has determined that it needs a minimum of 2,160 beds due to the increased number of applications from out-of-state students for Pace's general programs and, in particular, its Performing Arts Program; and

WHEREAS, the applicant submitted a letter from Pace, which describes that need and its exhaustive search for potential development sites in Lower Manhattan for a new dormitory to replace the leased 500-bed facility at 55 John Street; and

WHEREAS, the applicant also states that Pace has identified a number of factors including efficiency, student expectations, and industry standards, to help it establish standards regarding dormitory layouts, which it has applied to the design for the dormitory currently under construction at 180 Broadway as well as to the design for the proposed building; and

WHEREAS, the applicant states that Pace's goal is that the overwhelming majority of beds (83 percent) are within two-bed units and that in addition, each floor in the dormitory generally is permitted one one-bed unit (the majority of which

are reserved for resident advisors) and one three-bed unit and that each unit has a private bathroom with a shower, sink and toilet and is furnished with a single bed, desk/chair, and small bureau for each occupant as well as a small closet; and

WHEREAS, the applicant states that in order to accommodate these furnishings and provide a reasonable amount of circulation space, it has concluded that each unit contain approximately 100 net sq. ft. per bed; and

WHEREAS, the applicant asserts that the site's location within central proximity to the other Pace facilities made it an excellent choice to satisfy Pace's need for students to reside near the university's buildings; and

WHEREAS, the applicant states that due to the presence of the transit easement and the irregular shape of the Development Site, however, the maximum number of beds that could be provided in an as-of-right building on the Development Site, taking into account Pace's design standards, is 624, which is 136 few beds than is necessary to accommodate Pace's needs; and

WHEREAS, the applicant states that the variance allows for an additional 136 beds which otherwise could only be constructed if the Development Site were regularly shaped and not burdened by the transit easement; and

WHEREAS, the applicant represents that a complying building at the site would not provide an adequate amount of space for the current demand or for the anticipated growth; and

WHEREAS, based upon the above, the Board agrees that the cited unique conditions of the site and the programmatic needs are legitimate and have been documented with substantial evidence; and

WHEREAS, the Board acknowledges that Pace, as an educational institution, is entitled to significant deference under the law of the State of New York as to zoning and as to its ability to rely upon programmatic needs in support of the subject variance application; and

WHEREAS, specifically, as held in Cornell Univ. v. Bagnardi, 68 N.Y.2d 583 (1986), an educational institution's application is to be permitted unless it can be shown to have an adverse effect upon the health, safety, or welfare of the community, and general concerns about traffic, and disruption of the residential character of a neighborhood are insufficient grounds for the denial of an application; and

WHEREAS, based upon the above, the Board finds that the limitations of the existing site, when considered in conjunction with the programmatic needs of Pace, creates unnecessary hardship and practical difficulty in developing the site in compliance with the applicable zoning regulations; and

WHEREAS, the applicant need not address ZR § 72-21(b) since Pace is a not-for-profit organization and the proposal is in furtherance of its not-for-profit mission; and

WHEREAS, the applicant represents that the variance, if granted, will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare; and

WHEREAS, the applicant notes that the use of the site as a dormitory is permitted as-of-right in the subject zoning district; and

WHEREAS, the applicant states that the neighborhood surrounding the Zoning Lot is predominantly characterized by institutional, commercial, parking, and some residential uses; and

WHEREAS, the applicant states that in addition to the residential and ground floor retail use in the Lot 3 Building, uses on the block include a four-story public parking garage, a ten-story garage, a number of commercial buildings, ranging from four to 22 stories in height, with ground-floor retail and offices above and one seven-story building with ground floor retail and residential use above; the block also includes a 22-story building occupied by Pace; and

WHEREAS, the applicant notes that other nearby buildings include the eight-story New York Downtown Hospital, the 76-story mixed-use Frank Gehry building, and eight Pace buildings including the main building at One Pace Plaza, a 16-story building at 41 Park Row, a 22-story building, located at 163 William Street, a performing arts center at 140 William Street, and a 12-story building located at 156 William Street; and

WHEREAS, as to dormitory use, students currently occupy a portion of One Pace Plaza, a 12-story (200-bed) building located at 106 Fulton Street, and a 500-bed leased facility at 55 John Street; construction of a new 600-bed dormitory at 180 Broadway is nearing completion; and

WHEREAS, at hearing, the Board directed the applicant to submit an expanded analysis of the surrounding streetscape; and

WHEREAS, in response, the applicant analyzed the buildings along Beekman Street and William Street within an 800-ft. radius of the site; the analysis reflects that to the south, along William Street, there is one building with a height of 341 feet and another with a height of 468 feet and to the east there is a series of buildings with height of 272 feet; and

WHEREAS, the applicant asserts that the proposed bulk is compatible within this portion of the Special Lower Manhattan District, which allows for a maximum permitted base FAR of 10.0 for C6-4 districts, 15.0 for C5-5 districts, and 6.5 for R8 districts; and

WHEREAS, further, the applicant states that pursuant to ZR § 91-24, the basic maximum permitted floor area may be increased by 6 sq. ft. for every square foot of public plaza provided to a maximum FAR of 12.0 in C6-4 districts and by 10 sq. ft. for every square foot of public plaza to a maximum FAR of 18.0 in C5-5 districts and a 12.0 FAR may also be achieved in the C6-4 district by providing inclusionary housing pursuant to ZR § 23-90; and

WHEREAS, additionally, the applicant states that other than FAR, all bulk conditions, including the height of the proposed building, comply with the underlying district regulations and will fit within the character of the surrounding neighborhood; and

WHEREAS, accordingly, the Board finds that this action will neither alter the essential character of the surrounding neighborhood nor impair the use or

development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the applicant states that the hardship was not self-created and that no development in conformance with zoning would meet the programmatic needs of Pace at the site; and

WHEREAS, accordingly, the Board finds that the hardship herein was not created by the owner or a predecessor in title; and

WHEREAS, the Board finds the requested waivers to be the minimum necessary to meet the programmatic needs of Pace and to construct a building that is compatible with the character of the neighborhood; and

WHEREAS, in sum, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as a Type I action pursuant to Sections 617.6(h) and 617.2(h) of 6NYCRR; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 13BSA054M, dated November 19, 2012; and

WHEREAS, the EAS documents show that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved that the Board of Standards and Appeals issues a negative declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 and grants a variance to permit, within a C6-4 zoning district within the Special Lower Manhattan District, the construction of a 34-story dormitory building (Use Group 3) which does not comply with zoning requirements related to floor area, contrary to ZR § 91-22, *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received April 4, 2013" – seventeen (17) sheets; and *on further condition*:

THAT the following will be the bulk parameters of the site: a floor area of 146,986 sq. ft. (10.94 FAR) for the Pace building; a total floor area of 178,963 sq. ft. (13.3 FAR) across the site; and a total height of 339 feet; as reflected on the BSA-approved plans;

THAT the proposed floor area relies on (1) the Public Plaza certification from the City Planning Commission to allow a bonus of 18,072 sq. ft. (1.34 FAR) and (2) the Board's grant for 26,522 sq. ft. (1.97 FAR);

THAT in the absence of the Public Plaza certification from the City Planning Commission and the associated bonus of 18,072 sq. ft., the applicant must seek subsequent review and approval from the Board to increase the floor area from 128,914 sq. ft. to the 146,986 sq. ft. reflected on the Board-approved plans;

THAT any change in the use, occupancy, or operator of the dormitory requires review and approval by the Board;

THAT the conditions of the proposed Public Plaza are subject to review and approval by the City Planning Commission;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT substantial construction be completed in accordance with ZR §72-23;

THAT the approved plans be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 9, 2013.

42-10-BZ

APPLICANT – Sheldon Lobel, P.C., for 2170 Mill Avenue LLC, owner.

SUBJECT – Application March 29, 2010 – Variance (§72-21) to allow for a mixed use building, contrary to use (§22-10), floor area, lot coverage, open space (§23-141), maximum dwelling units (§23-22), and height (§23-631) regulations. R3-1/C2-2 zoning district.

***CORRECTION**

This resolution adopted on March 19, 2013, under Calendar No. 201-10-BZY and printed in Volume 98, Bulletin No. 12, is hereby corrected to read as follows:

201-10-BZY
APPLICANT – Kramer Levin Naftalis & Frankel, for 180 Orchard LLC., owner.
SUBJECT – Application January 18, 2013 – Extension of time to complete construction (§11-332) for an additional two years for a minor development, which will expire on March 15, 2013. C4-4A zoning district.
PREMISES AFFECTED – 180 Orchard Street, Orchard Street to Ludlow Street, Block 412, Lot 5, Borough of Manhattan.
COMMUNITY BOARD #3M
ACTION OF THE BOARD – Application granted.
THE VOTE TO GRANT –
Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5
Negative:.....0
THE RESOLUTION –

WHEREAS, this is an application under ZR § 11-332, to permit an extension of time to complete construction and obtain a certificate of occupancy for a minor development currently under construction at the subject site; and

WHEREAS, a public hearing was held on this application on February 26, 2013, after due notice by publication in *The City Record*, and then to decision on March 19, 2013; and

WHEREAS, the site was inspected by Chair Srinivasan, Vice Chair Collins, Commissioner Hinkson, Commissioner Ottley-Brown, and Commissioner Montanez; and

WHEREAS, the subject site is an L-shaped through lot with frontage on Orchard Street and Ludlow Street, between Houston Street and Stanton Street, within a C4-4A zoning district; and

WHEREAS, the subject site has 128'-3" of frontage along Orchard Street, 50'-1" of frontage along Ludlow Street, a depth ranging from 87'-10" to 175'-8", and a total lot area of 41,501 sq. ft.; and

WHEREAS, the site is proposed to be developed with a 24-story building containing approximately 246 hotel rooms, community facility uses, retail stores on the lower levels and an accessory underground parking garage (the "Building"); and

WHEREAS, the Building is proposed to have a total floor area of 154,519.6 sq. ft.; and

WHEREAS, the applicant states that the owner will be filing an application with the City Planning Commission ("CPC") requesting a special permit pursuant to ZR § 13-561 to expand the size of the underground accessory parking garage at the site; and

WHEREAS, the applicant represents that the proposed CPC special permit for the garage has no effect on the subject

proposal and that the plans for the garage, as approved by the Department of Buildings ("DOB"), have not changed; and

WHEREAS, the development complies with the former C6-1 zoning district parameters; and

WHEREAS, on November 23, 2005, New Building Permit No. 104297850-01-NB (hereinafter, the "Permit") was issued by the DOB permitting construction of the Building; and

WHEREAS, however, on November 19, 2008 (hereinafter, the "Enactment Date"), the City Council voted to adopt the East Village/Lower East Side Rezoning, which rezoned the site from C6-1 to C4-4A; and

WHEREAS, accordingly, the Building does not comply with the current zoning with respect to floor area ratio, building height and street wall location; and

WHEREAS, as of the Enactment Date, the applicant had obtained permits for the development and had completed 100 percent of its foundations, such that the right to continue construction was vested pursuant to ZR § 11-331, which allows DOB to determine that construction may continue under such circumstances; and

WHEREAS, however, only two years are allowed for completion of construction and to obtain a certificate of occupancy; and

WHEREAS, in the two years subsequent to the Enactment Date, construction was not completed and a certificate of occupancy was not issued; and

WHEREAS, accordingly, an application was filed with the Board for an extension of time to complete construction and obtain a certificate of occupancy; and

WHEREAS, on March 15, 2011, the Board granted a two-year extension of time to complete construction and obtain a certificate of occupancy under the subject calendar number; and

WHEREAS, accordingly, the applicant had until March 15, 2013 to complete construction and obtain a certificate of occupancy; and

WHEREAS, because the two-year time limit has expired and construction is still ongoing, the applicant seeks relief pursuant to ZR § 11-30 *et seq.*, which sets forth the regulations that apply to a reinstatement of a permit that lapses due to a zoning change; and

WHEREAS, first, the Board notes that ZR § 11-31(c)(1) defines construction such as the proposed development, which involves the construction of a single building which is non-complying under an amendment to the Zoning Resolution, as a "minor development"; and

WHEREAS, for a "minor development," an extension of time to complete construction, previously authorized under a grant for an extension made pursuant to ZR § 11-331, may be granted by the Board pursuant to ZR § 11-332; and

WHEREAS, ZR § 11-332 reads, in pertinent part: "[I]n the event that construction permitted in Section 11-331 (Right to construct if foundations completed) has not been completed and a certificate of occupancy including a temporary certificate of occupancy, issued therefore within two years after the effective date of any applicable amendment . . . the building permit shall automatically lapse and the right to continue construction shall terminate. An application to renew the building permit may be made to the Board of Standards and Appeals not more than 30 days after the lapse of such building permit. The Board may renew such building permit for two terms of not more than two years each for a minor development . . . In granting such an extension, the Board shall find that substantial construction has been completed and substantial expenditures made, subsequent to the granting of the permit, for work required by any applicable law for the use or development of the property pursuant to the permit."; and

WHEREAS, as a threshold issue, the Board must determine that proper permits were issued, since ZR § 11-31(a) requires: "[F]or the purposes of Section 11-33, relating to Building Permits Issued Before Effective Date of Amendment to this Resolution, the following terms and general provisions shall apply: (a) A lawfully issued building permit shall be a building permit which is based on an approved application showing complete plans and specifications, authorizes the entire construction and not merely a part thereof, and is issued prior to any applicable amendment to this Resolution. In case of dispute as to whether an application includes "complete plans and specifications" as required in this Section, the Commissioner of Buildings shall determine whether such requirement has been met."; and

WHEREAS, the Board notes that the subject site was initially vested by DOB in 2008, granted an extension of time to complete construction and obtain a certificate of occupancy by the Board in 2011, and now seeks an additional extension under ZR § 11-332; and

WHEREAS, the applicant represents that all of the relevant DOB permits were lawfully issued to the owner of the subject premises; and

WHEREAS, by letter dated February 1, 2011, DOB stated that the New Building Permit was lawfully issued, authorizing construction of the proposed Building prior to the Enactment Date; and

WHEREAS, the Board has reviewed the record and agrees that the Permit was lawfully issued to the owner of the subject premises prior to the Enactment Date and was timely renewed until the expiration of the two-year term for construction; and

WHEREAS, turning to the substantive findings of ZR § 11-332, the Board notes that there is no fixed standard in an application made under this provision as to what constitutes substantial construction or substantial expenditure in the context of new development; and

WHEREAS, the Board also observes that the work to be measured under ZR § 11-332 must be performed after the issuance of the permit; and

WHEREAS, similarly, the expenditures to be assessed under ZR § 11-332 are those incurred after the permit is issued; and

WHEREAS, accordingly, as is reflected below, the Board only considered post-permit work and expenditures, as submitted by the applicant, and directed the applicant to exclude pre-permit expenditures; and

WHEREAS, the Board further notes that any work performed after the two-year time limit to complete construction and obtain a certificate of occupancy cannot be considered for vesting purposes; accordingly, only the work performed as of November 19, 2010 has been considered; and

WHEREAS, the applicant states that work on the proposed development subsequent to the issuance of the original permit includes: 100 percent of the excavation, footings and foundation; 100 percent of the underground parking garage and cellar levels; and 100 percent of the first and second floor retail space; and

WHEREAS, the applicant states that work on the proposed development subsequent to the Board's March 15, 2011 extension of time to complete construction under the permit includes: installation of sprinklers in the sub-cellar, ground and second floors; installation of concrete and masonry block in the sub-cellar, cellar and ground floors, construction of columns throughout the cellar and sub-cellar; construction of additional support for columns below grade; installation of a new glass storefront; reconfiguration of elevator and stair cores; and installation of roof protection on the adjacent properties; and

WHEREAS, additionally, the applicant has substantially revised the plans to comply with changes in applicable codes since 2005, including: the 2010 ADA Code; the life safety provisions of the 2008 NYC Construction Codes; and the NYC Energy Conservation Code; and

WHEREAS, in support of these statements, the applicant has submitted the following: a breakdown of the construction costs by line item; plans showing recent foundation, sub-cellar, cellar, ground, mezzanine and second-story work; copies of cancelled checks; invoices; photographs of the site; and court actions taken in furtherance of continuing construction; and

WHEREAS, the Board has reviewed all documentation and agrees that it establishes that the aforementioned work was completed subsequent to the issuance of the valid permits; and

WHEREAS, as to costs, the applicant represents that the total expenditure paid for the development is $25,205,136, or 36.5 percent, out of the $69,014,234 cost to complete; and

WHEREAS, further as to costs, the applicant represents of the $25,205,136 expended to date, $6,612,054 has been expended since the Board's March 15, 2011 extension of time to complete construction; and

WHEREAS, as noted, the applicant has submitted invoices and copies of cancelled checks; and

WHEREAS, the applicant contends that this percentage constitutes a substantial expenditure sufficient to satisfy the finding in ZR § 11-332; and

WHEREAS, based upon its review of all the submitted evidence, the Board finds that substantial construction was completed and that substantial expenditures were made since the issuance of the permits; and

WHEREAS, therefore, the Board finds that the applicant has adequately satisfied all the requirements of ZR § 11-332, and that the owner is entitled to the requested reinstatement of the New Building Permit, and all other permits necessary to complete the proposed development; and

WHEREAS, accordingly, the Board, through this resolution, grants the owner of the site a two-year extension of time to complete construction, pursuant to ZR § 11-332.

Therefore it is Resolved that this application made pursuant to ZR § 11-332 to renew New Building Permit No. 104297850-01-NB, as well as all related permits for various work types, either already issued or necessary to complete construction, is granted, and the Board hereby extends the time to complete the proposed development and obtain a certificate of occupancy for one term of two years from the date of this resolution, to expire on March 19, 2015.

Adopted by the Board of Standards and Appeals, March 19, 2013.

***The resolution has been amended to correct part of the APPLICANT, clause and to change the filing date of the Application. Corrected in Bulletin Nos. 13-15, Vol. 98, dated April 17, 2013.**

MINUTES

REGULAR MEETING
TUESDAY MORNING, APRIL 16, 2013
10:00 A.M.

Present: Chair Srinivasan, Vice-Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez.

SPECIAL ORDER CALENDAR

390-61-BZ
APPLICANT – Peter Hirshman, for Rapid Park Industries, owner.
SUBJECT – Application January 5, 2013 – Extension of Time to obtain a Certificate of Occupancy of a previously approved variance permitting UG8 parking garage and an auto rental establishment (UG8) in the cellar level, which expired on December 13, 2012. R8B zoning district.
PREMISES AFFECTED – 148-150 East 33rd Street, southside of E. 33rd Street, 151.9' east of Lexington Avenue, Block 888, Lot 51, Borough of Manhattan.
COMMUNITY BOARD #6M
ACTION OF THE BOARD – Application granted on condition.
THE VOTE TO GRANT –
Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5
Negative:.....0
THE RESOLUTION –

WHEREAS, this is an application for a reopening and an extension of time to obtain a certificate of occupancy for a previously granted variance for a parking garage which expired on December 13, 2012; and

WHEREAS, a public hearing was held on this application on March 19, 2013, after due notice by publication in *The City Record*, and then to decision on April 16, 2013; and

WHEREAS, the building and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, and Commissioner Hinkson; and

WHEREAS, the site is located on the south side of East 33rd Street, approximately 151 feet east of Lexington Avenue; and

WHEREAS, the site is located in an R8B zoning district and is occupied with a four-story and cellar structure for use as a parking garage for not more than 149 cars; and

WHEREAS, the Board has exercised jurisdiction over the subject site since July 18, 1961, when, under the subject calendar number, the Board granted a variance for the construction of the parking garage for a term of 20 years; and

WHEREAS, subsequently, the grant has been amended and the term extended by the Board at various times; and

WHEREAS, on January 29, 2008, the term was extended for an additional ten years, to expire on March 3, 2018; and

WHEREAS, on December 13, 2011, the grant was amended to allow the conversion of the cellar level from a parking garage to an auto rental establishment; and

WHEREAS, one condition of the grant was that a new certificate of occupancy be obtained by December 13, 2012; and

WHEREAS, the applicant states that the work has been performed and inspected, but requests an additional 18 months to obtain the new certificate of occupancy; and

WHEREAS, the applicant confirmed that the roof stackers had been removed; and

WHEREAS, based upon its review of the record, the Board finds that the requested extension of time is appropriate with certain conditions as set forth below.

Therefore it is Resolved that the Board of Standards and Appeals *reopens* and *amends* the resolution, as adopted on July 18, 1961, and as subsequently extended and amended, so that as amended this portion of the resolution shall read: "to extend the time to obtain a certificate of occupancy for a period of 18 months from the date of this grant, *on condition* that the use and operation shall substantially conform to the previously approved drawings; and *on further condition*:

THAT a new certificate of occupancy be obtained by October 16, 2014;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted."
(N.B. 46-61)

Adopted by the Board of Standards and Appeals, April 16, 2013.

167-95-BZ
APPLICANT – Walter T. Gorman, P.E., for Springfield L. I. Cemetery Society, owners.
SUBJECT – Application September 21, 2012 – Extension of Term of a previously approved variance (§72-21) which permitted the maintenance and repairs of motor-operated cemetery equipment and accessory parking and storage of motor vehicles which expired on February 4, 2012; amendment to reduce the size of the area covered by the variance. R3A zoning district.
PREMISES AFFECTED – 121-20 Springfield Boulevard, west side of Springfield Boulevard, 166/15' south of 121st Avenue, Block 12695, Lot 1, Borough of Queens.
COMMUNITY BOARD #12Q
ACTION OF THE BOARD – Application granted on condition.
THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5
Negative:.....0
THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure, a reopening, and an extension of term for a variance to allow the repair and parking of cemetery equipment use to remain, which expired on February 4, 2012, and for an amendment to reduce the size of the site; and

WHEREAS, a public hearing was held on this application on February 5, 2013, after due notice by publication in *The City Record*, with a continued hearing on March 19, 2013, and then to decision on April 16, 2013; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, and Commissioner Montanez; and

WHEREAS, Community Board 12, Queens, recommends approval of this application; and

WHEREAS, the site is located on the west side of Springfield Boulevard, south of 121st Avenue, within an R3A zoning district; and

WHEREAS, the site is currently occupied by accessory uses to the Montefiore Cemetery; and

WHEREAS, the Board has exercised jurisdiction over the subject site since January 17, 1961 when, under BSA Cal. No. 416-60-BZ, the Board granted a variance to permit in a retail and residence use district, the construction of a one-story building to be used for the repair of motor operated cemetery equipment and a locker room for cemetery employees with the parking and storage of motor vehicles in an area partly within the retail district and partly in the residence district; and

WHEREAS, the grant was subsequently extended and amended at various times; and

WHEREAS, on February 4, 1997, under BSA Cal. No. 167-95-BZ, the Board granted an application to allow for the enlargement of the zoning lot to include Lot 15 and the continued use of Lot 21 and a substantial portion of Lot 1 (the remainder of Lot 1 became Lot 87) for the noted cemetery purposes; the grant was for a term of 15 years, to expire on February 4, 2012; and

WHEREAS, the applicant states that subsequent to the 1997 grant, it realized that its request for enlargement of the variance site was overly ambitious and the circumstances at the cemetery were changing; specifically, the number of visitors was diminishing and no additional parking space was required; and

WHEREAS, accordingly, the applicant seeks to reduce the area covered by the variance by eliminating Lots 15 and 21, and the majority of Lot 1 (tentative Lot 101); and

WHEREAS, the proposed change to the site reflects a reduction in the lot area from 122,219 sq. ft. to 36,602 sq. ft.; and

WHEREAS, the applicant seeks to revert the noted portions of the site to potential future conforming use; and

WHEREAS, the applicant also seeks a ten-year extension of term for the remaining site that still requires the use variance for the maintenance of cemetery vehicles; and

WHEREAS, at hearing, the Board directed the applicant to perform necessary measures to comply with the conditions of the approval including (1) paving the drywell area; (2) replacing or repairing sidewalk flags; and (3) installing fencing at the perimeter of the site; and

WHEREAS, the applicant states that it has cleaned up the site including removing graffiti and fixing signs, and provided a timetable for the remainder of the site work; and

WHEREAS, specifically, the applicant states that the drywell installation and paving, the fence installation, and flag repair and replacement will all be completed within 12 weeks from the date of this grant; and

WHEREAS, at the Board's direction, the applicant also tabulated the floor area and described the uses of the buildings at the site; and

WHEREAS, based upon its review of the record, the Board finds that the requested extension of term and amendment are appropriate with certain conditions as set forth below.

Therefore it is Resolved that the Board of Standards and Appeals *waives* the Rules of Practice and Procedure, *reopens*, and *amends* the resolution, dated February 4, 1997, so that as amended this portion of the resolution shall read: "to extend the term for a period of ten years from the expiration of the prior grant and to allow amendments as described; *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked 'Received December 7, 2012'-(2) sheets and 'March 25, 2013'-(1) sheet; and *on further condition*:

THAT the term of this grant will expire on February 4, 2022;

THAT the floor area of the buildings on the site will be limited to the existing 7,157 sq. ft.;

THAT all conditions from the prior resolutions not specifically waived by the Board remain in effect;

THAT the conditions above and the conditions from the prior resolutions will be noted on the certificate of occupancy;

THAT compliance with all conditions, namely drywell work and paving, fencing, and flag repair be completed by July 16, 2013;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted."
(DOB Application No. 420616630)

Adopted by the Board of Standards and Appeals, April 16, 2013.

18-02-BZ
APPLICANT – Rothkrug Rothkrug & Spector, LLP, for 8610 Flatlands Realty, LLC, owner.
SUBJECT – Application August 17, 2012 – Extension of Term (§11-411) of an approved variance for the continued operation of an automotive laundry (UG 16B) which expired on August 13, 2012. C2-3/R5D zoning district.
PREMISES AFFECTED – 8610 Flatlands Avenue, southwest corner of intersection of Flatlands Avenue and 87th Street, Block 8023, Lot 39, Borough of Brooklyn.
COMMUNITY BOARD #18BK
ACTION OF THE BOARD – Application granted on condition.
THE VOTE TO GRANT –
Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5
Negative:.....0
THE RESOLUTION –

WHEREAS, this is an application for an extension of term for an automotive laundry, which expired August 13, 2012; and

WHEREAS, a public hearing was held on this application on January 15, 2013, after due notice by publication in *The City Record*, with continued hearings on February 12, 2013 and March 3, 2013, and then to decision on April 16, 2013; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commissioner Hinkson, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 18, Brooklyn, recommends approval of this application; and

WHEREAS, the site is located on the southwest corner of Flatlands Avenue and East 87th Street, within a C2-3 (R5D) zoning district; and

WHEREAS, the site is currently occupied by an automotive laundry; and

WHEREAS, the Board has exercised jurisdiction over the subject site since February 19, 1957 when, under BSA Cal. No. 652-54-BZ, the Board granted an application pursuant to § 7e of the 1916 Zoning Resolution to permit in a residence district the change of occupancy from garage and dead storage to garage, storage of roofing materials and sheet metal shop; and

WHEREAS, on September 24, 1957, under BSA Cal. No. 652-54-BZ, the Board granted an application pursuant to §§ 7e, 7f, 7i, and 7h of the 1916 Zoning Resolution to permit in a business and residence district the construction and maintenance of a gasoline service station, lubritorium, minor auto repairs, storage, office and sales, parking, and storage of motor vehicles; on October 31, 1972, the term of the 1957 grant was extended for ten years; and

WHEREAS, on August 13, 2002, under the current calendar number (BSA Cal. No. 18-02-BZ), the Board granted an application to permit the change from gasoline service station, lubritorium and automotive repair facility to automotive laundry; the term of this grant was for ten years; and

WHEREAS, on August 13, 2012, the grant expired; and

WHEREAS, the applicant now seeks to extend the term; and

WHEREAS, at hearing, the Board directed the applicant to restore landscaping to the site, properly stripe the parking lot, and remove signage (banners) that did not comply with the Zoning Resolution; and

WHEREAS, in response, the applicant submitted photographs demonstrating compliance with the Board's directions; and

WHEREAS, based upon its review of the record, the Board finds that the requested extension of term is appropriate with certain conditions as set forth below.

Therefore it is Resolved that the Board of Standards and Appeals *reopens*, and *amends* the resolution, dated August 13, 2002, so that as amended this portion of the resolution shall read: "to extend the term for a period of 10 years from the date of this grant; *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked 'Received August 17, 2012'- (1) sheet and 'March 15, 2013'- (1) sheet; and *on further condition*:

THAT the term of this grant shall expire on August 13, 2022;

THAT all conditions from the prior resolution not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted."
(DOB Application No. 301230004)

Adopted by the Board of Standards and Appeals, April 16, 2013.

551-37-BZ
APPLICANT – Eric Palatnik, P.C., for Manocher M. Mehrfar, owner.
SUBJECT – Application October 12, 2012 – Extension of Term (§11-411) of approved variance for the continued operation of an automobile repair shop (*Red's Auto Repair*) which expired on July 15, 2012; Waiver of the Rules. R1-2 zoning district.
PREMISES AFFECTED – 233-02 Northern Boulevard, between 234th and 233rd Street, Block 8166, Lot 20, Borough of Queens.

THE RESOLUTION –

WHEREAS, the decision of the Manhattan Borough Commissioner, dated February 7, 2013, acting on Department of Buildings Application No. 121094289 reads, in pertinent part:

1) The existing building does not comply with MDL 26.5 which requires that every window shall open onto either:
   1- a lawful inner or outer court; [or]
   2- a side yard or rear yard with a depth of 30 feet in one direction. [MDL 26.5]
2) The existing courts do not comply with minimal dimensional requirements of MDL 26.7. [MDL 26.7]
3) The existing building does not comply with MDL 102.1 which requires that entrances to fire stairs be at least 15 feet apart. The entrances to the available stairs in the north portion of the building are less than 15 feet apart. [MDL 102.1]
4) The existing building does not comply with MDL 103.5 which prohibits egress from any dwelling unit from opening into any stair except through a vestibule or public hall. [MDL 103.5]
5) The proposed enlargement that increases the height to a height greater than 125 feet does not comply with MDL 102.2. [MDL 102.2]; and

WHEREAS, this is an application pursuant to Multiple Dwelling Law ("MDL") § 310, to vary the noted sections of the MDL in order to allow for the proposed renovation, enlargement of existing penthouses to create a 12th story, and construction of a partial 13th level (new penthouse), contrary to MDL §§ 26.5, 26.7, 102.1, 103.5, and 102.2; and

WHEREAS, a public hearing was held on this application on March 12, 2013, after due notice by publication in *The City Record*, and then to decision on April 16, 2013; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commissioner Hinkson, and Commissioner Ottley-Brown; and

WHEREAS, the subject site is located on the east side of Lexington Avenue for the entire block between East 88th Street and East 89th Street, within a C1-8X zoning district; and

WHEREAS, the site has 201.42 feet of frontage on Lexington Avenue, 100 feet of frontage on East 88th Street, 91.58 feet of frontage on East 89th Street, and a total lot area of 19,294 sq. ft.; and

WHEREAS, the site is occupied by an 11-story fireproof New Law Tenement building, with retail space on the first story and a total of 96 dwelling units on the second story and above; the building has 167,297 sq. ft. of existing floor area (FAR 8.67) and a building height of 113.73 feet; the applicant notes that the subject building was constructed between 1928 and 1929 in two stages, resulting in a north section and a south section sharing a common lobby but having separate elevator banks, public stairs and Certificates of Occupancy; and

WHEREAS, the applicant proposes to: (1) enlarge the existing penthouses to create a 12th story, and create two new penthouses at the 13th level, which will increase the floor area from 167,297 sq. ft. of existing floor area (FAR 8.67) to 172,347 sq. ft. (FAR 8.93) and the building height from 113.73 feet to 137.14 feet; (2) reduce the number of dwelling units from 96 to 76; and (3) combine the existing building

sections and obtain one Certificate of Occupancy for the entire building; and

WHEREAS, in addition, the applicant proposes to install new elevators, extend elevator service to the 12th story, install new sprinkler systems for the accessory residential spaces in the basement and the newly constructed areas on the 12th story and penthouses, enclose an existing open stairwell in the south portion of the building with a three-hour fire-rated partition and fireproof, self-closing doors, upgrade electric and HVAC services, and construct new common areas, including a roof terrace, club room, exercise room and children's play room; and

WHEREAS, the applicant notes that MDL § 211 prohibits the construction of a New Law Tenement beyond a height equal to one-and-one-half times the width of the street on which it fronts; and

WHEREAS, accordingly, the applicant states that the subject building would be limited not by the Zoning Resolution but by MDL § 211, to a maximum height of 112.5 feet, because Lexington Avenue measures 75 feet in width; and

WHEREAS, the applicant states that in order to accomplish the proposed height increase without triggering the height limitations per the MDL, it was necessary to reclassify the building from New Law Tenement to Hereafter Erected Class A Multiple Dwelling ("HAEA"), in accordance with DOB review; and

WHEREAS, the applicant states that as an HAEA, the maximum permitted height of the building is determined not by the MDL but by the applicable provisions of the Zoning Resolution; and

WHEREAS, the applicant states that the proposed enlargement is in compliance with the applicable provisions of the Zoning Resolution; however, as an HAEA, DOB determined that the building does not comply with MDL §§ 26.5, 26.7, 102.1, 103.5, and 102.2; thus, the proposed enlargement is not permitted unless the building is brought into compliance with these provisions or compliance is waived by the Board; and

WHEREAS, MDL § 26.5 requires that every required window open into either: (1) a lawful inner or outer court; or (2) a side or rear yard with a minimum width or depth of 30 feet in one direction; and

WHEREAS, MDL § 26.7 requires that an inner court have a minimum width of four inches per foot for each foot of height of such court, but in no event less than 15 feet in width at any point, and that the area of such inner court be twice the square of the width of the court dimension based on the height of such court, but in no event less than 350 square feet in area; however, the area of such court need not exceed 1,200 square feet provided that the minimum horizontal distance between any required window of a living room opening on an inner court is not less than 30 feet from any wall opposite such window; and

WHEREAS, MDL § 102.1 requires that entrances to fire-stairs be at least 15 feet distant from each other and from the entrance to every other fire-stair or fire-tower, except that the distance between two such entrances may be less if they are on opposite sides of an elevator vestibule or other public hall or are separated by an elevator shaft; and

WHEREAS, MDL § 103.5 requires that no means of egress from any apartment open into any stair, fire-stair or fire-tower required under the provisions of this section except through a vestibule or public hall; and

WHEREAS, MDL § 102.2 requires that, in a dwelling exceeding 125 feet in height, every required fire-stair be at least 3'-8" in clear width from the entrance story up to a floor level not more than 100 feet below the ceiling of the highest story, that above such level every fire-stair be at least 3'-0" in clear width, and that every stair landing at every floor level be at least 3'-8" in clear width in every direction; and

WHEREAS, because the applicant sought to reclassify the subject building as an HAEA, the DOB determined that it is subject to all provisions relating to an HAEA and, as such, fails to comply with the requirements of MDL §§ 26.5, 26.7, 102.1, 103.5, and 102.2; and

WHEREAS, pursuant to MDL § 310(2)(a), the Board has the authority to vary or modify certain provisions of the MDL for multiple dwellings that existed on July 1, 1948, provided that the Board determines that strict compliance with such provisions would cause practical difficulties or unnecessary hardships, and that the spirit and intent of the MDL are maintained, public health, safety and welfare are preserved, and substantial justice is done; and

WHEREAS, as noted above, the subject building was constructed between 1928 and 1929; therefore the building is subject to MDL § 310(2)(a); and

WHEREAS, specifically, MDL § 310(2)(a) empowers the Board to vary or modify provisions or requirements related to: (1) height and bulk; (2) required open spaces; (3) minimum dimensions of yards or courts; (4) means of egress; and (5) basements and cellars in tenements converted to dwellings; and

WHEREAS, the Board notes that each of the noted conditions fits within one of the sections of MDL § 310(2)(a) – required open spaces, bulk and means of egress – which the Board has the express authority to vary; therefore the Board has the power to vary or modify the subject provisions pursuant to MDL § 310(2)(a); and

WHEREAS, the applicant represents that practical difficulty and unnecessary hardship would result from strict compliance with each of the noted provisions of the MDL; and

WHEREAS, the applicant states that complying with the requirement for every required window to open into either a lawful inner or outer court or a side or rear yard with a minimum width or depth of 30 feet in one direction under MDL §§ 26.5 and 26.7 is impractical and logistically and structurally difficult; and

WHEREAS, the applicant states that the existing courts have the following dimensions: a center court with a width of 17'-2" and an area of 952.2 sq. ft.; a north court with a width of 17'-0" and an area of 518.4 sq. ft.; and a south court with a width of 17'-0" and an area of 580 sq. ft.; and

WHEREAS, the applicant represents that in order to comply with MDL §§ 26.5 and 26.7, the north and south courts would have to be eliminated and the center court would have to be expanded to a minimum of 34 feet wide and 2,312 sq. ft. in area; and

WHEREAS, the applicant states that where existing dwelling units have required windows opening upon the north and south courts, such units would have to be eliminated entirely or reconfigured to obtain the required light and ventilation from other windows; and

WHEREAS, the applicant states that where existing dwelling units are adjacent to the center court, such units would also have to be reconfigured; and

WHEREAS, the applicant represents that providing courts in compliance with MDL §§ 26.5 and 26.7 would require a substantial reconfiguration of at least 53 apartments at the rear of the subject building at all floor levels from the ground to the main roof; and

WHEREAS, further, the applicant states that providing courts in compliance with MDL §§ 26.5 and 26.7 would be so extensive structurally as to be effectively the same as constructing a new building; the applicant also notes that, because the building is occupied, virtually no portion of the court work could be done without relocating the existing tenants, at considerable expense; and

WHEREAS, the applicant represents that modifying the existing 11'-2" wide north fire stair to provide the required 15'-0" separation under MDL § 102.1 is impossible to satisfy without removing significant additional area from apartments in the north section of the subject building (to allow for the relocation of Stair E), and simultaneous reconfiguration of the "H"-line apartments on all stories; and

WHEREAS, the applicant further represents that, because the building is occupied, virtually no portion of the work necessary to create the required 15'-0" separation could be done without relocating the existing tenants, at considerable expense; and

WHEREAS, the applicant states that creating a vestibule or public hall to satisfy the requirements of MDL § 103.5 would necessitate the sealing or removal of five existing door openings upon stairs on every story; and

WHEREAS, the applicant represents that, because the building is occupied, the sealing and/or removal of doors on every floor would be significantly disruptive to the tenants; and

WHEREAS, finally, the applicant states that the required widening of stairs pursuant to MDL § 102.2 would necessitate the widening of existing 3'-3" wide stairs on the first through fourth stories by five inches and the widening of all existing 3'-3" wide stair landings by five inches; and

WHEREAS, the applicant represents that the stair widening work would reduce the rentable space on the affected stories, be enormously disruptive to the tenants, and, in the case of three of five stair systems, require structural modification due to the location of existing columns and mechanical shafts (resulting in some kind of adverse effect on every unit in the subject building); and

WHEREAS, the applicant also submitted a cost analysis from a real estate appraiser estimating that the cost of the fully-MDL compliant scenario for the subject building is $63,342,127, including the cost of relocating tenants; and

WHEREAS, the applicant represents that because the proposed enlargement is not permitted due to the window, court and stairway non-compliances, the MDL restriction creates practical difficulty and unnecessary hardship in that it prevents the site from utilizing the development potential afforded by the subject zoning district; and

WHEREAS, specifically, the applicant notes that that the zoning district allows an addition of approximately 10,000 sq. ft. of floor area to the subject lot; and

WHEREAS, based on the above discussion of the hardship, the Board agrees that the applicant has established a sufficient level of practical difficulty and unnecessary hardship in complying with the requirements of the MDL; and

WHEREAS, the applicant states that the requested variance of MDL §§ 26.5, 26.7, 102.1, 103.5, and 102.2 is consistent with the spirit and intent of the MDL, and will preserve public health, safety and welfare, and substantial justice; and

WHEREAS, specifically, the applicant states that the proposal includes numerous fire safety improvements to mitigate the existing fire infirmities inherent in a building completed in 1929; and

WHEREAS, the applicant notes that MDL § 2 ("Legislative Finding") provides that the intent of the law is to protect against dangers such as "overcrowding of multiple dwelling rooms, inadequate provision for light and air, and insufficient protection against the defective provision for escape from fire"; and

WHEREAS, the applicant states that the objections cited by DOB are all existing conditions in a legally occupied building, and the proposal to convert the existing tenement to an HAEA and increase the height to accommodate a new penthouse level effectively triggers the retrofitting of the entire building; and

WHEREAS, the applicant represents that the proposed construction promotes the intent of the law because the number of dwelling units—and hence, the occupant load upon the stairs for the building as a whole—is being reduced from 96 to 76, the newly constructed spaces will be compliant with current fire safety norms, and the proposal will provide a number of significant fire safety improvements; the applicant also notes that the subject building is unlike most tenements constructed at the time, in that it is of fireproof construction, has elevators, and provides significantly more light and ventilation and larger courts than most New Law Tenements; and

WHEREAS, specifically, the applicant proposes to provide the following fire safety improvements: (1) the enclosure of an existing open stairwell in the southern portion of the subject building, (2) construction of a three-hour fire-rated partition in the same stairwell, including the installation of fireproof, self-closing doors; and (3) a new sprinkler system for the accessory residential spaces in the cellar; and

WHEREAS, the applicant represents that the above-mentioned fire safety improvements provide a significant added level of fire protection beyond what presently exists in the subject building and improves the health, welfare, and safety of the building's occupants; and

WHEREAS, based on the above, the Board finds that the proposed variance to the requirements of MDL §§ 26.5, 26.7, 102.1, 103.5, and 102.2 will maintain the spirit and intent of the MDL, preserve public health, safety and welfare, and ensure that substantial justice is done; and

WHEREAS, accordingly, the Board finds that the Appellant has submitted adequate evidence in support of the findings required to be made under MDL § 310(2)(a) and that the requested variance of the requirements of MDL §§ 26.5, 26.7, 102.1, 103.5, and 102.2 is appropriate, with certain conditions set forth below.

Therefore it is Resolved, that the decision of the Manhattan Borough Commissioner, dated February 7, 2013, is modified and that this appeal is granted, limited to the decision noted above, on condition that construction shall substantially conform to the plans filed with the application marked, "Received April 15, 2013"- sixteen (16) sheets; and on further condition:

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed Department of Buildings objections related to the MDL;

THAT the existing open staircase in the southern portion of the subject building is enclosed, provided with a three-hour fire-rated partition, and provided with fireproof, self-closing doors;

THAT a new sprinkler system is installed in the accessory residential spaces in the cellar and in the enlarged portions of the buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 16, 2013.

493-73-A

APPLICANT – Sheldon Lobel, P.C., for 83rd Street Associates LLC, owner.

SUBJECT – Application October 4, 2012 – Extension of Term of an approved appeal to Multiple Dwelling Law Section 310 to permit a superintendent's apartment in the cellar, which expired on March 20, 2004, an amendment to eliminate the term, an extension of time to obtain a Certificate of Occupancy, and a waiver of the Rules. R10A /R8B Zoning District.

PREMISES AFFECTED – 328 West 83rd Street, West 83rd Street, approx. 81'-6" east of Riverside Drive, Block 1245, Lot 40, Borough of Manhattan.

APPLICANT – Troutman Sanders LLP, for Flatbush Delaware Holding LLC, owner; Bally's Total Fitness of Greater New York, lessee.
SUBJECT – Application November 20, 2012 – Special permit (§73-36) to allow the continued operation of the existing physical culture establishment (*Bally's Total Fitness*). C4-2/C4-4A zoning district.
PREMISES AFFECTED – 1009 Flatbush Avenue, block bounded by Flatbush Avenue, Albermarle Road, Bedford Avenue and Tilden Avenue, Block 5126, Lot 1, Borough of Brooklyn.
COMMUNITY BOARD #14BK
ACTION OF THE BOARD – Application granted on condition.
THE VOTE TO GRANT –
Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5
Negative:.....0
THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated January 8, 2013, acting on Department of Buildings Application No. 320693905, reads in pertinent part:

> The existing physical culture establishment (PCE) expired on September 14, 2009. Consequently, seek and obtain from the NYC Board of Standards and Appeals a new special permit, pursuant to Section 73-36 of the Zoning Resolution of the City of New York, to permit the continuation of the existing PCE at this site; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site partially located in a C4-2 zoning district and partially located in a C4-4A, the operation of a physical culture establishment ("PCE") on the first story, mezzanine, cellar and lower cellar of a one-story commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on March 5, 2013, after due notice by publication in *The City Record*, and then to decision on April 16, 2013; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by Commissioner Hinkson; and

WHEREAS, Community Board 14, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the southeast corner of the intersection of Flatbush Avenue and Tilden Avenue; and

WHEREAS, the site has 63 feet of frontage on Flatbush Avenue, 491.61 feet of frontage on Tilden Avenue, and a total lot area of 107,142 sq. ft.; and

WHEREAS, the site is occupied by a one-story commercial building with a mezzanine, a cellar and a sub-cellar and approximately 141,599 sq. ft. of floor area; and

WHEREAS, on September 14, 1999, the Board granted a special permit for the operation of a PCE at the subject site under BSA Cal. No. 48-99-BZ; this grant was for a term of ten years, and authorized the PCE to occupy 7,776 sq. ft. of floor area on the first story, 13,112 sq. ft. of floor space on the cellar level, 5,376 sq. ft. of floor area on the mezzanine level, and 4,704 sq. ft. of floor space on the lower cellar level, for a total of 30,968 sq. ft. of combined floor area and floor space; and

WHEREAS, on September 14, 2009, the prior grant expired; and

WHEREAS, accordingly, the applicant seeks a new special permit for the PCE;

WHEREAS, the applicant proposes certain changes which will result in 8,365 sq. ft. of floor area on the first story, 14,800 sq. ft. of floor space on the cellar level, 6,047 sq. ft. of floor area on the mezzanine level, and 6,464 sq. ft. of floor space on the lower cellar level, for a total of 35,676 sq. ft. of combined floor area and floor space; and

WHEREAS, the PCE will continue to be operated as Bally's; and

WHEREAS, the applicant represents that the services at the PCE include facilities for instruction and programs for physical improvement; and

WHEREAS, the hours of operation for the proposed PCE will be Monday through Thursday, from 6:00 a.m. to 11:00 p.m., Friday, from 6:00 a.m. to 10:00 p.m., Saturday, from 8:00 a.m. to 8:00 p.m., and Sunday, from 8:00 a.m. to 6:00 p.m.; and

WHEREAS, accordingly, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as a Unlisted action pursuant to 6 NYCRR Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement, CEQR No.13BSA055K, dated August

16, 2012; and

WHEREAS, the EAS documents that the operation of the PCE would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to permit, on a site partially located in a C4-2 zoning district and partially located in a C4-4A, the operation of a physical culture establishment ("PCE") in the first story, mezzanine, cellar and lower cellar of a one-story commercial building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked "Received February 8, 2013" – Five (5) sheets and *on further condition*:

THAT the term of this grant will expire on April 16, 2023;

THAT there will be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT all massages must be performed by New York State licensed massage therapists;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT Local Law 58/87 compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT substantial construction will be completed in accordance with ZR § 73-70;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 16, 2013.

THE RESOLUTION –

WHEREAS, the decision of the Manhattan Borough Commissioner, dated January 31, 2013, acting on Department of Buildings Application No. 121474984, reads in pertinent part:

> Continued use as a physical culture establishment beyond the . . . expiration of the special permit granted by the Board of Standards and Appeals . . . requires a renewal of the existing permit or the issuance of a new special permit . . . pursuant to ZR 73-36; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site located in a C6-4 zoning district within the Special Clinton District, the operation of a physical culture establishment ("PCE") on the ground floor and sub-cellars two and three of a 41-story residential and commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on March 5, 2013, after due notice by publication in *The City Record*, and then to decision on April 16, 2013; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan and Commissioner Montanez; and

WHEREAS, Community Board 4, Manhattan, recommends approval of this application; and

WHEREAS, the subject site is a 41-story residential and commercial building located within the World Wide Plaza development, which consists of 14 high- and low-rise residential and commercial buildings occupying the entire

block bounded by West 49th Street, Ninth Avenue, West 50th Street and Eighth Avenue; and

WHEREAS, the entire development contains approximately 626,494 sq. ft. of floor area; and

WHEREAS, on January 10, 1989, the Board granted a special permit for the operation of a PCE at the subject site under BSA Cal. No. 421-88-BZ; this grant was for a term of ten years, and authorized the construction of a PCE on sub-cellar levels two and three of the building; and

WHEREAS, on January 10, 1999, the prior grant expired; and

WHEREAS, accordingly, the applicant seeks a new special permit for the PCE; and

WHEREAS, the PCE occupies a total of 35,676 sq. ft. of floor space and is located on the ground floor and sub-cellars two and three; and

WHEREAS, the PCE will be operated as Bally's; and

WHEREAS, the applicant represents that the services at the PCE include facilities for instruction and programs for physical improvement, including a swimming pool; and

WHEREAS, the hours of operation for the PCE will be Monday through Friday, from 6:00 a.m. to 10:00 p.m., and Saturday and Sunday, from 8:00 a.m. to 9:00 p.m.; and

WHEREAS, accordingly, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as a Unlisted action pursuant to 6 NYCRR Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement, CEQR No.13BSA056M, dated August 16, 2012; and

WHEREAS, the EAS documents that the operation of the PCE would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to permit, on a site located in a C6-4 zoning district within the Special Clinton District, the operation of a physical culture establishment ("PCE") on the ground floor and sub-cellars two and three of a 41-story residential and commercial building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked "Received February 8, 2013" – Five (5) sheets and *on further condition*:

THAT the term of this grant will expire on April 16, 2023;

THAT there will be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT all massages must be performed by New York State licensed massage therapists;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT Local Law 58/87 compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT substantial construction will be completed in accordance with ZR § 73-70;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 16, 2013.

APPLICANT – Eric Palatnik, P.C. for Prince Plaza LLC, owner; L'Essence de Vie LLC d/b/a Orient Retreat, lessee.
SUBJECT – Application November 21, 2012 – Special Permit (§73-36) to allow a proposed physical culture establishment (*Orient Retreat*). C4-2 zoning district.
PREMISES AFFECTED – 37-20 Prince Street, west side of Prince Street between 37th Avenue and 39th Avenue, Block 4972, Lot 43, Borough of Queens.
COMMUNITY BOARD #7Q
ACTION OF THE BOARD – Application granted on condition.
THE VOTE TO GRANT –
Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5
Negative:.....0
THE RESOLUTION –

WHEREAS, the decision of the Queens Borough Commissioner, dated October 25, 2012, acting on Department of Buildings Application No. 420598062, reads in pertinent part:

> Proposed Physical Culture Establishment required to obtain special permit at BSA under ZR 73-36; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site located in a C4-2 zoning district, the operation of a physical culture establishment ("PCE") on the third story of a 15-story mixed residential and commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on March 12, 2013, after due notice by publication in *The City Record*, and then to decision on April 16, 2013; and

WHEREAS, Community Board 7, Queens, recommends approval of this application; and

WHEREAS, the subject site is located on the west side of Prince Street, between 37th Avenue and 39th Avenue; and

WHEREAS, the site has 142.68 feet of frontage on Prince Street, and a total lot area of 22,453 sq. ft.; and

WHEREAS, the site is occupied by a 14-story mixed residential and commercial building with 107,266 sq. ft. of floor area; and

WHEREAS, the proposed PCE will occupy 6,563.20 sq. ft. of floor area on the third story; and

WHEREAS, the PCE will be operated as Orient Retreat; and

WHEREAS, the applicant represents that the services at the PCE include facilities for instruction and programs for physical improvement; the PCE will specialize in therapeutic massage and body treatments; and

WHEREAS, the hours of operation for the proposed PCE will be Monday through Sunday, from 10:00 a.m. to 8:00 p.m.; and

WHEREAS, accordingly, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as a Unlisted action pursuant to 6 NYCRR Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement, CEQR No.13BSA058Q, dated November 21, 2012; and

WHEREAS, the EAS documents that the operation of the PCE would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to permit, on a site located in a C4-2 zoning district, the operation of a physical culture establishment ("PCE") on the third story of a 15-story mixed residential and commercial building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked "Received February 26, 2013" – Three (3) sheets and *on further condition*:

THAT the term of this grant will expire on April 16, 2023;

THAT there will be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT all massages must be performed by New York State licensed massage therapists;

THAT the hours of operation will be Monday through Sunday, from 10:00 a.m. to 8:00 p.m.;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT Local Law 58/87 compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT substantial construction will be completed in accordance with ZR § 73-70;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 16, 2013.

341-12-BZ
CEQR #13-BSA-069X

APPLICANT – Sheldon Lobel, P.C., for 403 Concord Avenue, Inc., owner.

SUBJECT – Application December 17, 2012 – Special Permit (§73-19) to permit a Use Group 3 school to occupy an existing building, contrary to use regulations (§42-00).

M1-2 zoning district.

PREMISES AFFECTED – 403 Concord Avenue, southwest corner of the intersection formed by Concord Avenue and East 144th Street, Block 2573, Lot 87, Borough of Bronx.

COMMUNITY BOARD #1BX

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Bronx Borough Commissioner, dated December 10, 2012, acting on Department of Buildings Application No. 220139918, reads in pertinent part:

Schools not permitted in M1 district. Provide special permit from Board of Standards and Appeals per Article VII, Chapter 3 prior to approval of this application; and

WHEREAS, this is an application under ZR §§ 73-19 and 73-03 to permit, on a site in an M1-2 zoning district, the conversion of an existing three-story manufacturing building to a Use Group 3 school, contrary to ZR § 42-10; and

WHEREAS, a public hearing was held on this application on March 5, 2013, after due notice by publication in the *City Record*, and then to decision on April 16, 2013; and

WHEREAS, the site and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 1, Bronx, recommends approval of this application; and

WHEREAS, the application is brought by the applicant on behalf of the Heketi Community Charter School (the "School"), a not-for-profit school; and

WHEREAS, the site is located on a corner lot bounded by East 144th Street to the north, and Concord Avenue to the east, in an M1-2 zoning district within the Port Morris Industrial Business Zone; and

WHEREAS, the site has a lot area of 10,000 sq. ft. and 100 feet of frontage on both East 144th Street and Concord Avenue; and

WHEREAS, the site is currently occupied by a three-story commercial and light manufacturing building with 28,551 sq. ft. of floor area (2.85 FAR); the first story is occupied by an electronic component distribution company and the second and third stories are vacant and were recently occupied by a woodworking company; and

WHEREAS, the applicant proposes to renovate all three stories of the existing building to allow a Use Group 3 school with 28,551 sq. ft. of floor area (2.85 FAR); and

WHEREAS, the applicant represents that the proposal meets the requirements of the special permit under ZR § 73-19 to permit a school in an M1-2 zoning district; and

WHEREAS, ZR § 73-19 (a) requires an applicant to demonstrate the inability to obtain a site for the development of a school within the neighborhood to be served and with a size sufficient to meet the programmatic needs of the school within a district where the school is permitted as-of-right; and

WHEREAS, the applicant states that the renovated building will serve an estimated 150 kindergarten and first grade students and approximately 13 employees in the School's inaugural year (2013-2014), with the intention of reaching full capacity by the 2016-2017 school year, at which point the School anticipates having approximately 305 students in kindergarten through fifth grade (depending on attrition) and approximately 30 employees; and

WHEREAS, the applicant states that the School's program requires a building with approximately 100 sq. ft. of space per student, and that the subject building is an ideal size (28,500 sq. ft.) and number of stories (three) to accommodate

the School's target size of approximately 300 students; and

WHEREAS, the applicant states that School's program includes an extended day and extended year program with data-driven instruction, a focus on literacy and support for English language learners, and heavy investment in social and emotional support for students and families; the applicant notes that the mission of the School is to prepare its students for New York City's most competitive high schools; and

WHEREAS, the applicant states that based on its program, the School requires 12 classrooms, four small group rooms, a performing arts room, a 3,500 sq. ft. multipurpose room, and administrative offices and bathrooms throughout the building; and

WHEREAS, the applicant represents that it conducted a 20-month search within Community School District 7 in the Mott Haven section of the South Bronx with the following site criteria: (1) the presence of a usable existing structure to minimize costs; (2) a minimum 10,000 sq. ft. footprint for efficient classroom layouts; (3) a minimum of 30,000 sq. ft. of floor area; and (4) proximity to recreation (parks, playgrounds, and athletic facilities) and transportation; and

WHEREAS, the applicant states that during its search, it evaluated the feasibility of four buildings within Community School District 7: 300 East 140th Street; 3118 Third Avenue; 521 Bergen Avenue; and 3144 Third Avenue, all four of which, the applicant notes, are on lots where Use Group 3 is permitted as-of-right; and

WHEREAS, the applicant represents that each building was unsuitable for the School, in that: the landlord for 300 East 140th Street would only entertain a short-term lease; 3118 Third Avenue, a vacant lot with ample space, required new construction, which the School cannot afford; 521 Bergen Avenue required extensive work (installation of egress stairs, elevators and new mechanical, plumbing, electrical, and fire protection systems, and a new roof) that could not be completed with the School's timeline for occupancy; and 3144 Third Avenue lacked the desired footprint (it is only 6,000 sq. ft.), required significant renovations, and is located eight blocks from the subway, which is not ideal for student access; and

WHEREAS, the applicant maintains that the site search establishes that there is no practical possibility of obtaining a site of adequate size in a nearby zoning district where a school would be permitted as-of-right; and

WHEREAS, therefore, the Board finds that the requirements of ZR § 73-19 (a) are met; and

WHEREAS, ZR § 73-19 (b) requires an applicant to demonstrate that the proposed school is located no more than 400 feet from the boundary of a district in which such a school is permitted as-of-right; and

WHEREAS, the applicant submitted a radius diagram which reflects that the subject site is located directly across from an R7-1 zoning district, less than 100 feet to the north, where the proposed use would be permitted as-of-right; and

WHEREAS, therefore, the Board finds that the requirements of ZR § 73-19 (b) are met; and

WHEREAS, ZR § 73-19 (c) requires an applicant to demonstrate how it will achieve adequate separation from noise, traffic and other adverse effects of the surrounding non-residential district; and

WHEREAS, the applicant states that an ambient noise survey was conducted at the site, which indicated that the predominant noise source in the area is vehicular traffic, which according to the survey conducted during peak, weekday travel periods, averaged between 65 and 70 dB(A), which is identified in the CEQR Technical Manual as marginally acceptable; therefore, the installation of sound-attenuating exterior wall and window construction is not required; and

WHEREAS, the applicant represents that the addition of floors, drop ceilings, furniture, window shades, and other interior renovations will further satisfy the requirement for a suitably quiet interior; and

WHEREAS, the Board finds that the conditions surrounding the site and the building's construction will adequately separate the proposed school from noise, traffic and other adverse effects of any of the uses within the surrounding M1-2 zoning district; thus, the Board finds that the requirements of ZR § 73-19 (c) are met; and

WHEREAS, ZR § 73-19 (d) requires an applicant to demonstrate how the movement of traffic through the street on which the school will be located can be controlled so as to protect children traveling to and from the school; and

WHEREAS, the applicant states that based on its consultant's transportation analysis, 60 percent of the School's students will walk to school, 5 percent will take the subway or city bus, 30 percent will take the school bus and 5 percent will be dropped off by private automobile during peak hours; the School's faculty and staff are excepted to arrive by either subway, city bus or private auto; and

WHEREAS, the applicant also states that the transportation analysis indicated that traffic volumes on East 144th Street and Concord Avenue are "very low," and that the intersection of these streets is controlled by stop signs; the analysis also indicated that a crosswalk is marked across Concord Avenue; and

WHEREAS, the Board referred the application to the School Safety Engineering Office of the Department of Transportation ("DOT"); and

WHEREAS, the applicant represents that, to the extent deemed appropriate by DOT, it will install additional signage, "School Crossing" pavement markings, and crossing guards in the vicinity; and

WHEREAS, by letter dated March 27, 2013, DOT states that it has no objection to the proposed construction and will, upon approval of the application, prepare a safe route to school map with signs and marking; and

WHEREAS, the Board finds that the above-mentioned measures will control traffic so as to protect children going to and from the proposed school; and

WHEREAS, therefore, the Board finds that the requirements of ZR § 73-19 (d) are met; and

WHEREAS, as to the site being within an Industrial Business Zone ("IBZ"), the applicant states that the proposed development will not negatively impact surrounding industrial uses or frustrate the policy goals of the IBZ; specifically, the School plans to maintain the existing manufacturing building envelope and perform interior renovations and minor façade work; as such, the building could fairly easily be returned to industrial use should the School decide to leave; the applicant further states that several industrial and manufacturing uses in the vicinity have submitted memoranda in support of the proposed school, including Miller Druck Specialty Construction, Inc. (located at 383 Concord Avenue) and I Move Green, LLC (located at 370 Concord Avenue); and

WHEREAS, the applicant notes that although the site is zoned M1-2, the surrounding area is primarily mixed-use, consisting of one- and two-family residences with limited local commercial and light manufacturing uses; that St. Mary's Park (which the School hopes to utilize) is located to the immediate west of the site; that other uses in the area include wholesale distribution and light fabrication uses, as well as two high schools (Samuel Gompers High School and Bronx School for Career Development) just one block north of the site; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-19; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, the proposed project will not interfere with any pending public improvement project; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board conducted an environmental review of the proposed action and documented relevant information about the project in the Final Environmental Assessment Statement ("EAS") CEQR No. 13BSA069X, dated April 10, 2013; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, the New York City Department of Environmental Protection's (DEP) Bureau of Environmental Planning and Analysis reviewed the project for potential hazardous materials, air quality and noise impacts; and

WHEREAS, DEP reviewed and accepted the April 2013 site-specific Construction Health and Safety Plan; and

WHEREAS, DEP requested that a Remedial Closure Report be submitted to DEP for review and approval upon completion of the proposed project; and

WHEREAS, DEP requested that at the completion of the proposed renovation work additional air sampling be required, and that an Investigative Protocol summarizing the proposed sampling activities should be submitted to DEP for review and approval; and

WHEREAS, DEP reviewed the applicant's February 2013 stationary source air quality screening analysis and determined that the proposed project is not anticipated to result in significant stationary source air quality impacts; and

WHEREAS, DEP reviewed the applicant's noise assessment and determined that the proposed project is not anticipated to result in significant noise impacts; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-19 and 73-03 and grants a special permit, to allow the proposed operation of a Use Group 3 school, on a site within an M1-2 zoning district; *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received April 11, 2013" – eleven (11) sheets and *on further condition*:

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the school be limited to 28,551 sq. ft. of floor area (2.85 FAR);

THAT any change in the use, occupancy, or operator of the school requires review and approval by the Board;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted;

THAT substantial construction be completed in accordance with ZR § 73-70;

THAT DOB shall not issue a Certificate of Occupancy until the applicant has provided it with DEP's approval of the Remedial Closure Report; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning

Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 16, 2013.

THE RESOLUTION –

WHEREAS, this is an application under ZR § 11-332, to permit an extension of time to complete construction and obtain a certificate of occupancy for a minor development currently under construction at the subject site; and

WHEREAS, a public hearing was held on this application on February 26, 2013, after due notice by publication in *The City Record*, and then to decision on March 19, 2013; and

WHEREAS, the site was inspected by Commissioner Hinkson; and

WHEREAS, the subject site is located on the west side of Beach 93rd Street, approximately 211 feet south of Holland Avenue in Rockaway Beach, in an R5A zoning district; and

WHEREAS, the site has 175 feet of frontage along Beach 93rd Street, 167.13 feet of frontage along Beach 94th Street, 107.51 feet of frontage along Shore Front Boulevard (CrossBay Boulevard), and a total lot area of 18,488 sq. ft.; and

WHEREAS, the site is proposed to be developed with a six-story residential building with 57 dwelling units and 36 accessory parking spaces (the "Building"); and

WHEREAS, the Building complies with the parameters of the former R6 zoning district; and

WHEREAS, on January 8, 2007, New Building Permit No. 402483013-01-NB (hereinafter, the "New Building Permit") was issued by the Department of Buildings ("DOB") permitting construction of the Building; and

WHEREAS, however, on August 14, 2008 (hereinafter, the "Enactment Date"), the City Council voted to adopt the Rockaway Neighborhoods Rezoning, which rezoned the site from R6 to R5A; and

WHEREAS, accordingly, the Building, being neither a one- or two-family detached residence, nor having a floor to area ratio of 1.10 or less, nor a maximum height of 35 feet or less, does not comply with the current zoning; and

WHEREAS, as of the Enactment Date, the applicant had obtained permits for the development and had completed 100 percent of its foundations, such that the right to continue construction was vested pursuant to ZR § 11-331, which allows DOB to determine that construction may continue under such circumstances; and

WHEREAS, however, only two years are allowed for completion of construction and to obtain a certificate of occupancy; and

WHEREAS, in the two years subsequent to the Enactment Date, construction was not completed and a certificate of occupancy was not issued; and

WHEREAS, accordingly, an application was filed with the Board for an extension of time to complete construction and obtain a certificate of occupancy; and

WHEREAS, on October 19, 2010, the Board granted a two-year extension of time to complete construction and obtain a certificate of occupancy under the subject calendar number; and

WHEREAS, accordingly, the applicant had until October 19, 2012 to complete construction and obtain a certificate of occupancy; and

WHEREAS, because the two-year time limit has expired and construction is still ongoing, the applicant seeks relief pursuant to ZR § 11-30 *et seq.*, which sets forth the regulations that apply to a reinstatement of a permit that lapses due to a zoning change; and

WHEREAS, first, the Board notes that ZR § 11-31(c)(1) defines construction such as the proposed development, which involves the construction of a single building which is non-complying under an amendment to the Zoning Resolution, as a "minor development"; and

WHEREAS, for a "minor development," an extension of time to complete construction, previously authorized under a grant for an extension made pursuant to ZR § 11-331, may be granted by the Board pursuant to ZR § 11-332; and

WHEREAS, ZR § 11-332 reads, in pertinent part: "[I]n the event that construction permitted in Section 11-331 (Right to construct if foundations completed) has not been completed and a certificate of occupancy including a temporary certificate of occupancy, issued therefore within two years after the effective date of any applicable amendment . . . the building permit shall automatically lapse and the right to continue construction shall terminate. An application to renew the building permit may be made to the Board of Standards and Appeals not more than 30 days after the lapse of such building permit. The Board may renew such building permit for two terms of not more than two years each for a minor development . . . In granting such an extension, the Board shall find that substantial construction has been completed and substantial expenditures made, subsequent to the granting of the permit, for work required by any applicable law for the use or development of the property pursuant to the permit."; and

WHEREAS, as a threshold issue, the Board must determine that proper permits were issued, since ZR § 11-31(a) requires: "[F]or the purposes of Section 11-33, relating to Building Permits Issued Before Effective Date of Amendment to this Resolution, the following terms
and general provisions shall apply: (a) A lawfully issued building permit shall be a building permit which is based on an approved application showing complete plans and specifications, authorizes the entire construction and not merely a part thereof, and is issued prior to any applicable amendment to this Resolution. In case of dispute as to whether an application includes "complete plans and specifications" as required in this Section, the Commissioner of Buildings shall determine whether such requirement has been met."; and

WHEREAS, the Board notes that the subject site was initially vested by DOB in 2008, granted an extension of time to complete construction and obtain a certificate of occupancy by the Board in 2010, and now seeks an additional extension under ZR § 11-332; and

WHEREAS, the applicant represents that all of the relevant DOB permits were lawfully issued to the owner of the subject premises; and

WHEREAS, by letter dated August 17, 2010, DOB stated that the New Building Permit was lawfully issued, authorizing construction of the proposed Building prior to the Enactment Date; and

WHEREAS, the Board has reviewed the record and agrees that the Permit was lawfully issued to the owner of the subject premises prior to the Enactment Date and was timely renewed until the expiration of the two-year term for construction; and

WHEREAS, turning to the substantive findings of ZR § 11-332, the Board notes that there is no fixed standard in an application made under this provision as to what constitutes substantial construction or substantial expenditure in the context of new development; and

WHEREAS, the Board also observes that the work to be measured under ZR § 11-332 must be performed after the issuance of the permit; and

WHEREAS, similarly, the expenditures to be assessed under ZR § 11-332 are those incurred after the permit is issued; and

WHEREAS, accordingly, as is reflected below, the Board only considered post-permit work and expenditures, as submitted by the applicant, and directed the applicant to exclude pre-permit expenditures; and

WHEREAS, the Board further notes that any work performed after the two-year time limit to complete construction and obtain a certificate of occupancy cannot be considered for vesting purposes; accordingly, only the work performed as of October 19, 2012 has been considered; and

WHEREAS, the applicant states that work on the Building subsequent to the issuance of the permits includes: 100 percent of the excavation; 100 percent of the foundation (including the installation of over 300 driven piles); and the installation of a complex drainage system; and

WHEREAS, in support of this statement, the applicant has submitted the following: a breakdown of the construction costs by line item; a foundation survey; copies of cancelled checks; invoices; and photographs of the site; and

WHEREAS, the Board has reviewed all documentation and agrees that it establishes that the aforementioned work was completed subsequent to the issuance of the valid permits; and

WHEREAS, as to costs, the applicant represents that the total expenditure paid for the development is $3,011,614 (including $1,474,974 in hard costs), or 17 percent, out of the $17,610,614 cost to complete; and

WHEREAS, as noted, the applicant has submitted invoices and copies of cancelled checks; and

WHEREAS, the applicant contends that this percentage constitutes a substantial expenditure sufficient to satisfy the finding in ZR § 11-332; and

WHEREAS, based upon its review of all the submitted evidence, the Board finds that substantial construction was completed and that substantial expenditures were made since the issuance of the permits; and

WHEREAS, therefore, the Board finds that the applicant has adequately satisfied all the requirements of ZR § 11-332, and that the owner is entitled to the requested reinstatement of the New Building Permit, and all other permits necessary to complete the proposed development; and

WHEREAS, accordingly, the Board, through this resolution, grants the owner of the site a two-year extension of time to complete construction, pursuant to ZR § 11-332.

Therefore it is Resolved that this application made pursuant to ZR § 11-332 to renew New Building Permit No. 402483013-01-NB, as well as all related permits for various work types, either already issued or necessary to complete construction, is granted, and the Board hereby extends the time to complete the proposed development and obtain a certificate of occupancy for one term of two years from the date of this resolution, to expire on March 19, 2015.

Adopted by the Board of Standards and Appeals, March 19, 2013.

***The resolution has been amended to correct part of the 5th WHEREAS. Corrected in Bulletin No. 16, Vol. 98, dated April 24, 2013.**

COMMUNITY BOARD #6M
ACTION OF THE BOARD – Application granted on condition.
THE VOTE TO GRANT –
Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5
Negative:….....0
THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure, a reopening, and an extension of term for a special permit to operate a physical culture establishment ("PCE"), which expired on January 31, 2009, for an additional term of ten years; and

WHEREAS, a public hearing was held on this application on March 5, 2013, after due notice by publication in *The City Record*, with a continued hearing on April 9, 2013, and then to decision on April 23, 2013; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commissioner Hinkson, Commissioner Ottley-Brown, and Commissioner Montanez; and

WHEREAS, the site is located on the east side of Lexington Avenue between East 49th Street and East 50th Street, within a C6-6 zoning district within the Special Midtown District; and

WHEREAS, the site is currently occupied by 15-story hotel; the PCE occupies 13,705 sq. ft. of floor area on the fourth floor of the hotel, and is operated as Bliss Spa; and

WHEREAS, the Board has exercised jurisdiction over the subject site since February 1, 2000, when, under the subject calendar number, the Board granted a special permit for the operation of a PCE; and

WHEREAS, by resolution dated September 14, 2004, under the subject calendar number, the PCE was expanded in size from the 8,000 sq. ft. permitted under the original grant to 21,000 sq. ft.; the applicant represents that the PCE has since been reduced in size and currently occupies, as noted above, 13,705 sq. ft. on the fourth floor; and

WHEREAS, based upon its review of the record, the Board finds that the requested extension of term and amendment are appropriate with certain conditions as set forth below.

Therefore it is Resolved that the Board of Standards and Appeals *waives* the Rules of Practice and Procedure, *reopens*, and *amends* the resolution, dated February 1, 2000, so that as amended this portion of the resolution shall read: "to extend the term for a period of ten years from the expiration of the prior grant and to allow amendments as described; *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked 'Received March 26, 2013- (1) sheet; and *on further condition*:

THAT the term of this grant will expire on January 31, 2019;

THAT all conditions from the prior resolutions not specifically waived by the Board remain in effect;

THAT the conditions above and the conditions from the prior resolutions will be noted on the certificate of occupancy;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted."

Adopted by the Board of Standards and Appeals, April

23, 2013.

211-00-BZ

APPLICANT – Sheldon Lobel, P.C., for Hoffman & Hoffman, LLC, owner.

SUBJECT – Application August 10, 2012 – Extension of Time to complete construction of a previously approved variance (§72-21) which permitted the legalization of residential units on the second through fourth floors of a mixed use (UG 17 & 2) four-story building, which expired on April 17, 2005; Amendment for minor modification to the approved plans; Waiver of the Rules. M1-2 zoning district.

PREMISES AFFECTED – 252 Norman Avenue, southeast corner of the intersection of Norman Avenue and Monitor Street, Block 2657, Lot 1, Borough Brooklyn.

COMMUNITY BOARD #1BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure, an extension of time to complete construction and obtain a certificate of occupancy in accordance with a variance, which expired on April 17, 2005, and an amendment to permit minor modifications to the prior approval; and

WHEREAS, a public hearing was held on this application on February 5, 2013, after due notice by publication in *The City Record*, with continued hearings on March 5, 2013, and April 9, 2013, and then to decision on April 23, 2013; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Ottley-Brown, and Commissioner Montanez; and

WHEREAS, Community Board 1, Brooklyn, recommends approval of this application; and

WHEREAS, the site is located on the south side of Norman Avenue, between Monitor Street and Kingsland Avenue, within an M1-2 zoning district; and

WHEREAS, the site is currently occupied by a four-story building with a furniture refinishing and repair center on the ground floor, and four dwelling units on each of the second through fourth floors, for a total of 12 dwelling units; and

WHEREAS, the Board has exercised jurisdiction over the subject site since April 17, 2001 when, under the subject calendar number, the Board granted a variance to legalize previously constructed residential units (Use Group 2) on the second through fourth floors; the conforming manufacturing use (Use Group 17) on the ground floor was permitted to remain; and

WHEREAS, as of April 17, 2005 substantial construction had not been completed; accordingly, on that date, per ZR § 72-23, the variance lapsed; and

WHEREAS, as to the proposed modifications to the variance, the applicant seeks to legalize the following as-built deviations from the prior approval: (1) the conversion of the former trash room and adjacent storage room to part of one residential unit; (2) the layout of the kitchens and bathrooms in each unit; (3) the creation of an electrical meter room on the ground floor; (4) the removal of the non-required elevator and conversion of the space to storage at each floor; and (5) the installation of hallway trash rooms at each floor; additionally, the plans have been amended to reflect the correct number of windows, which are original to the building; and

WHEREAS, at hearing, the Board directed the applicant to provide: (1) photographs of the sprinkler and fire alarm systems and the smoke detectors; and (2) a more detailed description of the nature of the manufacturing use at the ground floor, including an explanation of how the spray paint booth is vented and whether air quality has been sufficiently tested; and

WHEREAS, in response, the applicant provided: (1) evidence of the fire and life safety systems; and (2) a sufficiently detailed explanation of the nature of manufacturing use and its impacts on air quality; and

WHEREAS, the Board notes that the residents of the building were notified of this application and did not provide testimony; and

WHEREAS, based upon its review of the record, the Board finds that the requested extension of term and amendment are appropriate with certain conditions as set forth below.

Therefore it is Resolved that the Board of Standards and Appeals *waives* the Rules of Practice and Procedure, *reopens,* and *amends* the resolution, dated April 17, 2001, so that as amended this portion of the resolution shall read: "to extend the time to complete construction for a period of two years from April 23, 2013, to expire on April 23, 2015, and to permit the noted modifications to the site; on condition that all work will substantially conform to drawings as they apply to the objections above noted, filed with this application marked 'Received February 19, 2013- (12) sheets; and on further condition:

THAT construction will be completed and a certificate of occupancy obtained by April 23, 2015;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT the number of dwelling units, floor area and FAR for the proposed building will be in accordance with the terms of this grant;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other

relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted."

Adopted by the Board of Standards and Appeals, April 23, 2013.

853-53-BZ

APPLICANT – Carl A. Sulfaro, Esq., for Knapp, LLC, owner; Bolla Management Corp., owners.

SUBJECT – Application January 18, 2013 – Amendment (§11-412) to a previously-granted Automotive Service Station (*Mobil*) (UG 16B), with accessory uses, to enlarge the use and convert service bays to an accessory convenience store. C2-2/R3-2 zoning district.

PREMISES AFFECTED – 2402/16 Knapp Street, southwest corner of Avenue X, Block 7429, Lot 10, Borough of Brooklyn.

COMMUNITY BOARD #15BK

ACTION OF THE BOARD – Laid over to May 21, 2013, at 10 A.M., for continued hearing.

410-68-BZ

APPLICANT – Eric Palatnik, P.C., for Alessandro Bartellino, owner.

SUBJECT – Application May 22, 2012 – Extension of Term (§11-411) of approved variance which permitted the operation of (UG16B) automotive service station (*Citgo*) with accessory uses, which expired on November 26, 2008; Extension of Time to obtain a Certificate of Occupancy which expired on January 11, 2008; Waiver of the Rules. R3-2 zoning district.

AFFECTED PREMISES – 85-05 Astoria Boulevard, east corner of 85th Street. Block 1097, Lot 1. Borough of Queens.

COMMUNITY BOARD #3Q

ACTION OF THE BOARD – Laid over to May 21, 2013, at 10 A.M., for continued hearing.

718-68-BZ

APPLICANT – Sheldon Lobel, P.C., for Zinc Realty LLC, owner.

SUBJECT – Application May 31, 2011 – Amendment to a previously-granted Special Permit (§73-211) for an automotive service station. The amendment proposes additional fuel dispensing islands and conversion of existing service bays to an accessory convenience store. C2-2/R5 zoning district.

PREMISES AFFECTED – 71-08 Northern boulevard, South side of Northern Boulevard between 71st and 72nd Street, Block 1244, Lot 1, Borough of Queens.

COMMUNITY BOARD #3Q

THE VOTE TO CLOSE HEARING –

Affirmative: Chair Srinivasan, Vice Chair Collin, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez.....5

Negative:.....0

ACTION OF THE BOARD – Laid over to May 21, 2013, at 10 A.M., for decision, hearing closed.

103-91-BZ

APPLICANT – Davidoff Hutcher & Citron, LLP for 248-18 Sunrise LLC, owner.

SUBJECT – Application October 18, 2012 – Extension of term of approved variance permitting an auto laundry use (UG 16B); Amendment to permit changes to the layout and extend hours of operation. C2-1/R3-2 zoning district.

PREMISES AFFECTED – 248-18 Sunrise Highway, south side of Sunrise Highway, 103' east of the intersection of Hook Creek Boulevard, Block 13623, Lot 19, Borough of Queens.

COMMUNITY BOARD #13Q

ACTION OF THE BOARD – Laid over to May 14, 2013, at 10 A.M., for continued hearing.

292-01-BZ

APPLICANT – Law Office of Fredrick A. Becker, for Villa Mosconi Restaurant, owner.

SUBJECT – Application January 17, 2013 – Extension of Term of a previously-granted Variance (§72-21) which permitted the legalization of a new dining room and accessory storage for a UG6 eating and drinking establishment (*Villa Mosconi*), which expired on January 7, 2013. R7-2 zoning district.

PREMISES AFFECTED – 69/71 MacDougal Street, west side of MacDougal Street between Bleecker Street and West Houston Street, Block 526, Lot 33, 34, Borough of Manhattan.

COMMUNITY BOARD #2M

ACTION OF THE BOARD – Laid over to May 21, 2013, at 10 A.M., for continued hearing.

239-02-BZ

APPLICANT – Greenberg Traurig, LLP by Deirdre A. Carson, Esq., for Babbo Realty LLC, owner.

SUBJECT – Application November 9, 2012 – Extension of Term of a previously-granted Variance (§72-21) for the continued operation of a Use Group 6A eating and drinking establishment (*Babbo*) located at the cellar level, ground floor, and second floor of the subject premises, which expired on December 17, 2012. R7-2 zoning district.

PREMISES AFFECTED – 110 Waverly Place, south side of Waverly Place, between Sixth Avenue and Washington Square West/MacDougal Street, Block 552, Lot 53, Borough of Manhattan.

COMMUNITY BOARD #2M

ACTION OF THE BOARD – Laid over to June 11, 2013, at 10 A.M., for continued hearing.

197-08-BZ
APPLICANT – Stuart Klein, Esq., for Carroll Gardens Realty, LLC, owner.
SUBJECT – Application April 27, 2012 – Amendment to an approved variance (§72-21) to permit a four-story and penthouse residential building, contrary to floor area and open space (§23-141), units (§23-22), front yard (§23-45), side yard (§23-462), and height (§23-631). Amendment seeks to reduce the number of units and parking and increase the size of the rooftop mechanical equipment. R4 zoning district.
PREMISES AFFECTED – 341-349 Troy Avenue, aka 1515 Carroll Street, north east corner of Troy Avenue and Carroll Street, Block 1407, Lot 1, Borough of Brooklyn.
COMMUNITY BOARD #9BK
ACTION OF THE BOARD – Laid over to June 4, 2013, at 10 A.M., for adjourned hearing.

58-10-BZ
APPLICANT – Sheldon Lobel, P.C., for Eckford II Realty Corp., owner; Eckford II Realty Corp., lessee.
SUBJECT – Application March 18, 2013 – Extension of Time to obtain a Certificate of Occupancy for a previously-granted Special Permit (§73-36) for a physical culture establishment (*Quick Fitness*), which expired on February 14, 2013. M1-2/R6A zoning district.
PREMISES AFFECTED – 16 Eckford Street, east side of Eckford Street, between Engert Avenue and Newton Street, Block 2714, Lot 1, Borough of Brooklyn.

ACTION OF THE BOARD – Laid over to May 21, 2013, at 10 A.M., for decision, hearing closed.

APPEALS CALENDAR

297-12-A
APPLICANT – Law Office of Fredrick A. Becker, for 28-20Astoria Blvd LLC, owners.
SUBJECT – Application October 17, 2012 – Appeal seeking a determination that the owner of the premises has acquired a common law vested right to complete construction commenced under the prior R6 zoning district. R6-A/C1-1 zoning district.
PREMISES AFFECTED – 28-18/20 Astoria Boulevard, south side of Astoria Boulevard, approx. 53.87' west of 29th Street, Block 596, Lot 45, Borough of Queens.
COMMUNITY BOARD #1Q
ACTION OF THE BOARD – Application granted on condition.
THE VOTE TO GRANT –
Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5
Negative:.....0
THE RESOLUTION –

WHEREAS, this is an application requesting a Board determination that the owner of the premises has obtained the right to complete construction of a seven-story mixed residential and commercial building under the common law doctrine of vested rights; and

WHEREAS, a public hearing was held on this application on March 19, 2013, after due notice by publication in *The City Record*, and then to decision on April 23, 2013; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan and Commissioner Ottley-Brown; and

WHEREAS, Community Board 1, Queens, recommends approval of this application; and

WHEREAS, the site is located on the south side of Astoria Boulevard, between 28th Street and 29th Street; and

WHEREAS, the site has a lot area of 6,701 sq. ft. and 45.85 feet of frontage along Astoria Boulevard; and

WHEREAS, the applicant proposes to develop the site with a seven-story mixed residential and commercial building with an FAR of 3.0, and 28 dwelling units (the "Building"); and

WHEREAS, the subject site is currently located partially within an R6B zoning district and partially within an R6A (C1-3) zoning district, but was formerly located within an R6 (C1-2) zoning district; and

WHEREAS, the Building complies with the former R6 (C1-2) zoning district parameters; specifically with respect to floor area; and

WHEREAS, however, on May 25, 2010 (the "Enactment Date"), the City Council voted to adopt the Astoria Rezoning, which rezoned the site to partially R6B and partially R6A (C1-3), as noted above; and

WHEREAS, as a result of the rezoning, the Building does not comply with the district parameters regarding

maximum floor area; and

WHEREAS, a threshold matter for the vested rights analysis is that a permit be issued lawfully prior to the Enactment Date and that the work was performed pursuant to such lawful permit; and

WHEREAS, the applicant states that New Building Permit No. 402604669-01-NB (the "Permit") was issued to the owner by the Department of Buildings ("DOB") on February 13, 2008; and

WHEREAS, the applicant notes that ZR § 11-31(c)(1) classifies the construction authorized under the Permit as a "minor development"; and

WHEREAS, the applicant notes that, per ZR §§ 11-331 and 11-332, where all work on foundations for a minor development has been completed prior to the effective date of an applicable amendment to the Zoning Resolution, work may continue for two years, and if after two years, construction has not been completed and a certificate of occupancy has not been issued, the permit shall automatically lapse and the right to continue construction shall terminate; and

WHEREAS, the applicant states that, as of the Enactment Date, the entire foundation for the building was completed; and

WHEREAS, accordingly, the applicant states, DOB recognized the owner's right to continue construction under the Permit for two years until May 25, 2012, pursuant to ZR § 11-331; and

WHEREAS, however, as of May 25, 2012, construction was not complete and a certificate of occupancy had not been issued; therefore, on that date the Permit lapsed by operation of law; and

WHEREAS, by letter dated December 28, 2012, DOB confirmed that the Permit was lawfully issued; and

WHEREAS, the Board notes that when work proceeds under a valid permit, a common law vested right to continue construction after a change in zoning generally exists if: (1) the owner has undertaken substantial construction; (2) the owner has made substantial expenditures; and (3) serious loss will result if the owner is denied the right to proceed under the prior zoning; and

WHEREAS, specifically, as held in Putnam Armonk, Inc. v. Town of Southeast, 52 A.D.2d 10 (2d Dept. 1976), where a restrictive amendment to a zoning ordinance is enacted, the owner's rights under the prior ordinance are deemed vested "and will not be disturbed where enforcement [of new zoning requirements] would cause 'serious loss' to the owner," and "where substantial construction had been undertaken and substantial expenditures made prior to the effective date of the ordinance"; and

WHEREAS, however, notwithstanding this general framework, as discussed by the court in Kadin v. Bennett, 163 A.D.2d 308 (2d Dept. 1990) "there is no fixed formula which measures the content of all the circumstances whereby a party is said to possess 'a vested right'. Rather, it is a term which sums up a determination that the facts of the case render it inequitable that the State impede the individual from taking certain action"; and

WHEREAS, as to substantial construction, the applicant states that prior to May 25, 2010, the owner had completed the following work: demolition, excavation, footings and the entire foundation for the building, including foundation bracing and strapping, and underpinning existing foundations; since May 25, 2010, the applicant states that the entire structural steel framework for the building has been completed; and

WHEREAS, in support of this assertion, the applicant submitted the following evidence: invoices, concrete delivery slips, construction contracts, plans highlighting the work completed, and photographs of the site showing certain aspects of the completed work; and

WHEREAS, the Board has reviewed the representations as to the amount and type of work completed before and after the Enactment Date and the documentation submitted in support of these representations, and agrees that it establishes that substantial work was performed; and

WHEREAS, the Board concludes that, given the size of the site, and based upon a comparison of the type and amount of work completed in this case with the type and amount of work discussed by New York State courts, a significant amount of work was performed at the site during the relevant period; and

WHEREAS, as to expenditure, the Board notes that unlike an application for relief under ZR § 11-30 et seq., soft costs and irrevocable financial commitments can be considered in an application under the common law and accordingly, these costs are appropriately included in the applicant's analysis; and

WHEREAS, the applicant states that prior to the Enactment Date, the owner expended $1,539,000, including hard and soft costs and irrevocable commitments, out of $4,583,000 budgeted for the entire project; and

WHEREAS, the applicant states that since the Enactment Date, the owner has expended $148,285.45, including $31,823.54 in soft costs; and

WHEREAS, as proof of the expenditures, the applicant has submitted construction contracts, copies of cancelled checks, invoices, and accounting tables; and

WHEREAS, thus, the expenditures up to the Enactment Date represent approximately 30 percent of the projected total cost; and

WHEREAS, the Board considers the amount of expenditures significant, both for a project of this size, and when compared with the development costs; and

WHEREAS, again, the Board's consideration is guided by the percentages of expenditure cited by New York courts considering how much expenditure is needed to vest rights under a prior zoning regime; and

WHEREAS, as to serious loss, the Board examines not only whether certain improvements and expenditures could not be recouped under the new zoning, but also considerations such as the diminution in income that would occur if the new zoning were imposed and the reduction in value between the proposed building and the building

permitted under the new zoning; and

WHEREAS, the applicant states that if the owner is not permitted to vest under the former R6 (C1-2) zoning, the maximum permitted residential floor area ratio would decrease from the approved 3.0 FAR for the entire lot to 3.0 FAR for the R6A portion of the lot and 2.0 FAR for the R6B portion of the lot, representing a loss of 1,313 sq. ft. of buildable residential floor area in the building; the applicant also notes that while the maximum permitted commercial floor area ratio is the same (2.0 FAR) under the former and current zoning, the maximum permitted community facility floor area ratio has been decreased from 4.8 FAR for the entire lot to 3.0 FAR for the R6A portion of the lot and 2.0 FAR for the R6B portion of the lot; and

WHEREAS, the applicant further states that complying with the current zoning would result in a reduction of dwelling units from 28 to 24, and the elimination of the community facility and commercial spaces at the site; and

WHEREAS, the applicant represents that the 1,313 sq. ft. loss in residential floor area, the loss of four units, and the elimination of the community facility and commercial spaces in the building would reduce the annual rental income from approximately $884,500 to $576,000; in addition, such changes to the building decrease its market value from $10,614,000 to $6,912,000; and

WHEREAS, the applicant states these decreases in income and market value exceed 30 percent of the original projected income and market value, while the difference in construction costs between completing the building as originally designed and completing the building to comply with the current zoning is only three percent; as such, the applicant asserts, the owner faces a serious financial hardship if a vested right to complete construction is not recognized; and

WHEREAS, the Board agrees that the reduction in the floor area and dwelling units of the building results in a significant loss of income and market value, which constitutes a serious economic loss, and that the evidence submitted by the applicant supports this conclusion; the Board also notes that the owner would incur additional costs in redesigning the building to comply with the current zoning; and

WHEREAS, in sum, the Board has reviewed the representations as to the work performed and the expenditures made both before and after the Enactment Date, the representations regarding serious loss, and the supporting documentation for such representations, and agrees that the applicant has satisfactorily established that a vested right to complete construction of the building had accrued to the owner of the premises.

Therefore it is Resolved that this application made pursuant to the common law of vested rights requesting a reinstatement of Permit No. 402604669, as well as all related permits for various work types, either already issued or necessary to complete construction and obtain a certificate of occupancy, is granted for two years from the date of this grant.

Adopted by the Board of Standards and Appeals, April 23, 2013.

326-12-A thru 337-12-A

APPLICANT – Gibson Dunn, for Contest Promotions-NY LLC by Jessica Cohen

OWNER OF PREMISES: Lily Fong, Michael A. Maidman, Thomas Young, George Aryeh, Lily Fong,Vincent J. Ponte, Hung Ling Yung, David R. Acosta, James B. Luu, Fred G. Eng.

SUBJECT – Applications December 11, 2012 – Appeals challenging the Department of Buildings determination to revoke 12 permits previously issued permitting business accessory signs on the basis that they are appear to be advertising signs.

COMMUNITY BOARD #2/3/6/8/9/11M

ACTION OF THE BOARD – Appeals Denied.

THE VOTE TO GRANT –

Affirmative: 0

Negative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5

THE RESOLUTION –

WHEREAS, the subject appeals come before the Board in response to the determinations of the Manhattan Borough Commissioner of the Department of Buildings ("DOB"), dated November 14, 2012, to revoke Permit Nos. 120975454, 120993283, 120993363, 120993452, 120993327, 121037939, 120975427, 120993354, 120993345, 120853736, 120993318, and 120993130 for signs at the subject sites (the "Final Determinations"); and

WHEREAS, the Final Determinations read, in pertinent part:

> By letter dated September 12, 2012, the Department of Buildings (the "Department") notified you of its intent to revoke the approval and permit issued for work at the premises in connection with the application referenced above. As of this date, the Department has not received sufficient information to demonstrate that the approval and permit should not be revoked.
>
> Therefore, pursuant to Section 28-104.2.10 and 28-105.10 of the Administrative Code of the City of New York, the APPROVAL AND PERMIT ARE HEREBY REVOKED.
>
> In the event an order to stop work is not currently in effect, you are hereby ordered to STOP ALL WORK IMMEDIATELY AND MAKE THE SITE SAFE; and

WHEREAS, a public hearing was held on this application on March 5, 2013, after due notice by publication in *The City Record*, and then to decision on April 23, 2013; and

WHEREAS, the premises and surrounding areas had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, the 12 subject sites are occupied by (1) Newsstand Grocery (52 Canal Street, C6-2 zoning district), (2) formerly Hungarian Meat Market/now Elite Cleaners (1560 Second Avenue, C1-9 zoning district), (3) Triple A Diner (2061 Second Avenue, C1-5 zoning district), (4) Rims Tires and Hub Caps (2240 First Avenue, C1-5 zoning district), (5) Jimmy's House Vietnamese restaurant (160 East 25th Street, C2-8 zoning district), (6) Ellen's Deli & Grocery (289 Hudson Street, C6-2A zoning district), (7) M.A. Grocery (127 Ludlow Street, C4-4A zoning district), (8) Next Evolution Mixed Martial Arts Academy (1786 Third Avenue, C1-5 zoning district), (9) Cornerstone Café (17 Avenue B, C1-5 zoning district), (10) formerly Lighting Craftsman/now vacant (173 Bowery, C6-1 zoning district), (11) J.W. Market grocery store/deli (240 Sullivan Street, C1-5 zoning district), and (12) Dunkin Donuts-Baskin Robbins (361 First Avenue, C1-6A zoning district); and

WHEREAS, each site is also occupied by a sign with the surface area in the range of 80 to 250 sq. ft., which the applicant represents are complying parameters for accessory signs in the respective zoning districts (the "Signs"); and

WHEREAS, the Signs all include a narrow border at the top and bottom with the name and address of the respective business, a solicitation to enter the store to enter the sweepstakes, and arrows in the direction of the store; the main part of the Signs include multiple smaller posters (from three to 18) advertising items such as movies, television shows, music, and clothing stores; and

WHEREAS, accessory signs are permitted for the noted businesses, but advertising signs are not; and

WHEREAS, these appeals are brought on behalf of the lessee of the Signs, Contest Promotions Incorporated (the "Appellant," "Contest Promotions," or "CPI"); and

WHEREAS, the Appellant seeks a reversal of DOB's determinations that the Signs are advertising signs and therefore not permitted at the subject sites, based on the Appellant's contention that the Signs are accessory to the businesses at the sites; and

WHEREAS, DOB appeared and made submissions in opposition to this appeal; and

PROCEDURAL HISTORY

WHEREAS, on March 17, 2010, DOB and the Appellant met in response to Appellant's request to discuss its proposed advertising sign plan and how it believed its signs constituted accessory signs pursuant to the ZR § 12-10 definition of accessory; and

WHEREAS, on March 30, 2010, the Appellant wrote a follow up letter to DOB, which included a rendering of a typical sign with a picture of a large advertisement for Tropicana Orange Juice; at the top of the ad, it said "Roberto's Groceries" and then in smaller type "Enter our Sweepstakes Inside for a Chance to Win These Products;" and at the bottom of the sign in even smaller type "No purchase necessary. Void Where Prohibited. Open to legal residents of 50 U.S. and D.C. 18 and Over. See Store for Official Rules;" and

WHEREAS, on May 18, 2010, DOB responded to CPI's March 30, 2010 letter stating that it was DOB's position that CPI's proposed sign did not qualify as an accessory sign "simply because it depicts a product that is sold or may be won via a raffle contest, on the zoning lot;" the letter noted that the product displayed – orange juice – directed attention to a product that was sold in grocery stores throughout the City, and was not the principal use of the zoning lot and thus was an advertising sign and stated that "It is the Department's well-settled position that a sign may refer primarily to a product rather than the business itself, only where the business at the site is readily identifiable by the product."; and

WHEREAS, on June 30, 2010, CPI submitted another letter to DOB, with an image of an actual sign at 132 Eldridge Street and sought a final determination about whether the proposed signs qualify as accessory signs; and

WHEREAS, on July 28, 2010, DOB responded that "an accessory sign at a grocery store must direct attention to the name and/or purpose of such store and not to any product sold at the store" and that "a final determination for purposes of an appeal to the Board of Standards and Appeals (BSA) may only be issued in connection with a specific job application" and was directed to forward the request to the Borough Commissioner so that his determination could be appealed to the Board; and

WHEREAS, the Appellant filed eight of the 12 professionally-certified permit applications on March 1, 2012, two on February 10, 2012, and the others on October 13, 2011 and April 16, 2012, respectively; and

WHEREAS, on September 12, 2012, DOB issued letters of intent to revoke the permits; and

WHEREAS, on November 14, 2012, DOB revoked the permits; the permit revocations serve as the basis for the appeal; and

CONTEST PROMOTIONS LITIGATION

WHEREAS, on September 17, 2010, DOB filed a declaratory judgment action in New York State Supreme Court seeking a ruling that its two signs – its business model – constituted accessory signs, Contest Promotions-NY LLC v. New York City Department of Buildings et al, Index No. 112333/10 (Sup Ct NY Co) (Rakower J) ("CPI I"); and

WHEREAS, on October 15, 2010, after the submission of papers and hearing oral argument, the Court ruled in CPI's favor and on December 10, 2010 the Court entered a judgment finding that signs consistent with CPI's business model meet the definition of accessory use and it is unlawful for DOB to reject outright permit applications submitted for any signs consistent with CPI's business model; and

WHEREAS, DOB appealed the December 10, 2010 decision; and

WHEREAS, on March 6, 2012, the Appellate Division, First Department agreed with DOB's position and unanimously reversed Justice Rakower's decision, ruling that "failure to exhaust its administrative remedies precludes judicial review of its nonconstitutional claims" and barred the claim because sign permit applications that are disapproved should be appealed to the Board, Contest Promotions-NY LLC v. NYC DOB et al 93 AD3d 436 (1st Dept 2012); and

WHEREAS, the Appellant asserts that the Appellate Division's reversal is limited to the narrow issue of exhaustion but that Justice Rakower's decision still stands in every other way and that Justice Rakower's original decision upheld its model sign as an accessory sign and that any sign that is consistent with its model must be approved by DOB despite the ruling of the First Department; and

WHEREAS, the decision in CPI I includes the following:

> Judgment . . . declaring that signs consistent with petitioner's business model qualify as 'accessory' signs under New York City Zoning Resolution (ZR) §12-10 … unanimously reversed on the law, without costs, the judgment vacated, the petition denied, and the proceeding dismissed. Id.; and

WHEREAS, DOB's position is that no part of Justice Rakower's January 12, 2011 judgment or October 15, 2010 decision stands and there is no judicial determination that CPI's model signs are to be considered legal accessory signs; and

WHEREAS, DOB states that if the Appellate Division desired to uphold Justice Rakower's underlying legal interpretation, it would have stated so in its Decision and Order instead of making a blanket declaration of null and void; and

WHEREAS, secondly, DOB states that the Appellant is incorrect in its assertion that Justice Rakower finds that any sign that meets the "model" must be accepted as a legitimate accessory sign even where there has been no demonstration of the actual accessory nature of the sign; and

WHEREAS, DOB asserts that in CPI I, Justice Rakower specifically stated that the legality of each sign was to be determined by itself and that the signs must meet the three-prong test of the Zoning Resolution's accessory definition; and

WHEREAS, approximately one year after Justice Rakower's initial decision, but prior to the Appellate Division ruling declaring the initial decision null and void, Justice Rakower ruled on an Order to Show Cause Motion challenging DOB's issuance of advertising violations and permit revocations to signs following CPI's model, which CPI alleged DOB violated; Justice Rakower dismissed the motion; and

WHEREAS, on September 21, 2012, Contest Promotions-New York LLC v. NYC DOB et al Index Nos. 112333/10 and 103868/12 (Sup Ct NY Co) (Rakower J) (CPI II) CPI sought a declaration by the court that its signs qualified as accessory signs and asked that DOB be prohibited from rejecting applications for permits for signs that met its model; CPI also challenged four ECB Appeals Board determinations regarding DOB NOVs for four signs in Brooklyn; and

WHEREAS, initially, the ECB Administrative Law Justice had concluded that he was constrained to follow Justice Rakower's decision of October 15, 2010 in CPI I; however, after the First Department's decision in March 2012, the ECB Appeals Board, on August 30, 2012, upheld the DOB NOVs for these signs, finding them to be advertising; and

WHEREAS, on November 9, 2012, Justice Rakower issued a ruling in CPI II and found the ECB Appeals violations to be arbitrary and capricious; and

WHEREAS, the Appellant asserts that through the ruling in its favor in CPI II, the court approved the model sign; and

WHEREAS, DOB asserts that the court in CPI II was limited to the four ECB determinations and did not have broader application; and

WHEREAS, DOB has appealed the decision in CPI II to the Appellate Division, where it is pending; and

WHEREAS, DOB asserts that in Justice Rakower's final proceeding on the matter, on November 9, 2012, she evaluated four violations issued under ZR § 32-63, she determined that CPI signs at a pharmacy and a restaurant in Brooklyn were improperly sustained as advertising signs and, contrary to CPI's allegations, there is currently no judicial determination holding that CPI's business model is a valid accessory sign which the City is constrained to follow; and

WHEREAS, the Appellant and DOB contest the precedential value of the ongoing Contest Promotions litigation; and

WHEREAS, the Appellant relies heavily on the decisions by and record of Justice Rakower in CPI I and II and asserts that the prior determinations mandate the

Board's approval of the Signs; and

WHEREAS, DOB asserts that the Appellant mischaracterizes Justice Rakower's decisions; (1) first, the Appellant's assertion that the Appellate Division's decision has no impact on the Board's review of the Signs; (2) the assertion that Justice Rakower determined that CPI's model is a valid accessory sign, which would render the entire administrative process meaningless; and (3) that DOB is flouting Justice Rakower's rulings by issuing advertising sign violations and permit revocations for these purported accessory signs; and

RELEVANT STATUTORY PROVISIONS

ZR § 12-10 *Definitions*

Accessory use, or accessory (2/2/11)

An "accessory use":

(a) is a #use# conducted on the same #zoning lot# as the principal #use# to which it is related (whether located within the same or an #accessory building or other structure#, or as an #accessory use# of land), except that, where specifically provided in the applicable district regulations or elsewhere in this Resolution, #accessory# docks, off-street parking or off-street loading need not be located on the same #zoning lot#; and

(b) is a #use# which is clearly incidental to, and customarily found in connection with, such principal #use#; and

(c) is either in the same ownership as such principal #use#, or is operated and maintained on the same #zoning lot# substantially for the benefit or convenience of the owners, occupants, employees, customers, or visitors of the principal #use#.

When "accessory" is used in the text, it shall have the same meaning as #accessory use#.

* * *

Sign, advertising (4/8/98)

An "advertising sign" is a #sign# that directs attention to a business, profession, commodity, service or entertainment conducted, sold, or offered elsewhere than upon the same #zoning lot# and is not #accessory# to a #use# located on the #zoning lot#; and

THE APPELLANT'S POSITION

WHEREAS, the Appellant seeks for the Board to issue a ruling that makes clear that signs that meet Contest Promotions' business model—including the 12 at issue--are, in fact, "accessory" signs, providing legal clarity and binding precedent for both Contest Promotions and DOB going forward; and

WHEREAS, the Appellant contends that the Final Determinations should be reversed because (1) the Signs satisfy all three prongs of the ZR § 12-10 definition of accessory and (2) because they follow the model; and

WHEREAS, the Appellant asserts that DOB's interpretation is contrary to the plain language of the statutory text and is inconsistent with New York State case law as well as the decisions in CPI I and CPI II with respect to signs that it finds to be identical for all relevant purposes to the Signs at issue in this appeal; and

A. The Signs Relate to the Business on the Same Zoning Lot as the Principal Use

WHEREAS, as to the first prong of the accessory use analysis, the Appellant says that it applies because the requirement is only that an accessory sign be located on "the same zoning lot as the principal use" and the Signs plainly meet this requirement; and

WHEREAS, the Appellant states that DOB imports new requirements into this prong that are nowhere found in the text of the Zoning Resolution, stating that in order to qualify as an accessory sign, "the text of the ads . . . for movies, jeans, concerts, TV shows, a boutique etc." must be "directly related to the principal uses of the zoning lots in question;" and

WHEREAS, the Appellant states that the Zoning Resolution does not require that the "text of the ads" or the "products" relate to the principal use, only that the sign *itself* is located on the same zoning lot as the principal use establishment to which it directs attention; and

WHEREAS, further, the Appellant asserts that even if there were such a requirement, that requirement would be met by Contest Promotions signs because it is the sweepstakes contest itself that is the "product," and that product *is* available at each primary use establishment; and

WHEREAS, additionally, the Appellant asserts that there is no requirement under any prong that the sweepstakes must be the principal use of the zoning lot, and it does not argue that the principal use of the premises is as a "sweepstakes contest store;" rather, the principal uses are, uses like a household appliance store, an eating and drinking establishment, or a newsstand; and

WHEREAS, the Appellant states that the Signs are each related to these principal uses because they direct attention to a sweepstakes that can be entered at the principal use, and they include the name and address of the principal use, arrows pointing towards the principal use facility, and an exhortation to come inside to win prizes; and

B. The Signs are "Clearly Incidental to" and "Customarily Found in Connection with" the Small Businesses Contest Promotions Serves

WHEREAS, as to the second prong, the Appellant asserts that the Supreme Court found that the Contest Promotions model signs on which the Signs at issue here were based satisfy this standard and the Signs at issue here are identical to the model signs the Supreme Court found meet the definition of an "accessory sign" under the Zoning Resolution; and

WHEREAS, the Appellant asserts that the use is "incidental" where it is "subordinate" and has a "reasonable relationship" to the primary use, citing to Gray v. Ward, 74 Misc. 2d 50, 54–55, 343 N.Y.S.2d 749, 753 (Sup Ct Nassau Co 1973); and

WHEREAS, the Appellant asserts that the proper application of the Zoning Resolution results in a conclusion

that a modest sign, hung on the exterior wall of the building is "subordinate" to the primary use establishment itself and the subordinate nature of the Signs in relation to the primary use is ensured by the fact that the signs conform to the size and height regulations that are applicable in the underlying zoning district—namely, a maximum size of 150-200 sq. ft. *See* ZR §§ 32-642, 32-655; and

WHEREAS, the Appellant also references the Board's decision BSA Cal. No. 151-12-A (the "Ham Radio Case") in which the Board granted an appeal that concluded that a ham radio tower is accessory to the principal use of the residential building; and

WHEREAS, the Appellant cites to the Ham Radio Case for the conclusion that amateur radio towers are "customarily found" in connection with residences and are therefore an accessory use under the Zoning Resolution and that the Board considered evidence submitted of nine ham radio towers maintained throughout the City as "a representative sample" of the radio towers maintained throughout the City, and accepted this evidence as establishing that radio antennas are "customarily found" in connection with the primary use residences, in fulfillment of this second prong of the accessory use test; and

WHEREAS, the Appellant states that the Board noted that the relevant inquiry is not whether the use is a "common accessory use," but rather whether, "when amateur radio antennas are found, they are customarily found" in connection with the primary use; and

WHEREAS, the Appellant asserts that the Ham Radio Case clarified that the relevant inquiry in this case is not how common signs like the ones at issue are against the totality of possible accessory uses, but rather, whether, when signs that identify an establishment and direct potential customers inside using product images and sweepstakes prizes are found, they are customarily found in connection with the kinds of small storefront locations at issue here; and

WHEREAS, the Appellant states that there is a direct relationship between the Signs and the primary use on the zoning lot as the Signs prominently feature the name of the store, information about the sweepstakes located inside the store, and a depiction of the sweepstakes prize or related item and the Signs expressly direct onlookers to go into the store to enter the sweepstakes; and

WHEREAS, the Appellant asserts that there is not any "proportionality" test to measure the size of a sign against the primary use, only that there be a "reasonable relationship" to the primary use, as set forth in the Zoning Resolution and case law; and

WHEREAS, the Appellant asserts that where the Signs feature the name of the store, information about a sweepstakes located inside the store, a depiction of a sweepstakes prize, and direct onlookers to go inside there is far more than a "reasonable" relationship; and

WHEREAS, the Appellant rejects DOB's assertion that the proportionality between the copy that "directs attention to the business" and the copy that "directs attention to products sold" is not consistent with its prior decision on the Fresh Direct sign or in any relevant case law; and

WHEREAS, the Appellant asserts that even if DOB were correct, the sign space is "predominantly devoted to" promoting the primary use establishment, as the copy in the center of the signs "refers to products offered at the store—the sweepstakes;" and

WHEREAS, the Appellant adds that the Signs each include the address and phone number of the store and arrows that direct passersby to the store entrance; the Appellant states that by size, location, and design, the Signs direct and draw customers to the establishment, increasing foot traffic and visibility; and

WHEREAS, the Appellant states that the Supreme Court held twice, and the Board should find that signs such as the ones at issue here are "incidental to" the principal use under the Zoning Resolution and reinstate the Permits; and

WHEREAS, the Appellant states that it is equally clear that accessory signs containing the name of an establishment and directing potential customers into the establishment using product images and sweepstakes prizes, are "customarily" found "in connection with" such stores; and

WHEREAS, the Appellant asserts that Signs such as the ones used by businesses working with Contest Promotions can be found in every borough of the City in connection with small retailers such as the proprietors here, as the examples submitted with Contest Promotions' two Article 78 petitions—both historical and contemporary—reflect; and

WHEREAS, the Appellant distinguishes the case law on which DOB relies, finding that in Mazza v. Avena, Index No. 14304/97 (Sup Ct Queens Co 1998), the sign at issue was classified as an advertising sign rather than an accessory sign because of "the *size* of the sign, because the sign *does not promote business* for the store on the premises, does not direct attention to the premises, and the sign *faces only an arterial highway* and is *not visible to those in the immediate vicinity* of the premises." No. 14304/97 (Sup Ct Queens Co 1998), *aff'd*, 261 A.D.2d 546, 687 N.Y.S.2d 909 (2d Dept 1999) (emphases added) and in NYP Realty Corp. v. Chin, Index No. 119194/99 (Sup Ct NY Co 2000), the sign was more than 1,200 sq. ft., had "no direct connection to the subject premises," and did not "direct attention to a use on the subject lot;" and

WHEREAS, the Appellant states that its Signs are between 88 and 240 sq. ft. in surface area, explicitly promote and direct attention to the business, and are easily seen by passersby; and

WHEREAS, the Appellant cites to the examples it submitted in court of storefront sweepstakes and Lotto signs, as well as signs containing logos and name brands as a means of drawing customers into a store to support its assertion that the Signs are customarily found; and

WHEREAS, the Appellant states that for the Signs, the representative evidence submitted by Appellant and credited by the Supreme Court—as well as the notice taken of Lotto and other similar signs throughout the City—easily

establishes that signs displaying the name of a store along with images and/or contests that seek to drive customers into the store are "customarily found" in connection with such primary use establishments; and

WHEREAS, the Appellant distinguishes Fresh Direct in that the Signs are all similarly proximate to the sweepstakes located inside the site while Fresh Direct is an online retailer, and the Fresh Direct sign sits atop a distribution center, not a retail site and, thus, it cannot drive customers into the physical location on the zoning lot as Contest Promotions' signs do; and

WHEREAS, the Appellant states that DOB must rely on its determination that the Fresh Direct sign is accessory; and

WHEREAS, the Appellant states that if the Fresh Direct sign is an accessory sign even though it does not and cannot exhort the onlooker to go into the primary use establishment, even though no products or services are available to the general public at the primary use, and even though the only connection between the sign and the primary use is that the sign sometimes includes products that are sold by, or a logo of, the business that owns the primary use food processing plant, then Contest Promotions signs must be accessory signs too.

WHEREAS, the Appellant compares its signs to McDonald's promotional Monopoly sweepstakes and the Lotto and does not see any relevant distinction between those two kinds of campaigns and its own Signs; and

WHEREAS, the Appellant asserts that Lotto signs are not all within windows or otherwise exempt from signage regulations; and

WHEREAS, the Appellant offers 7-11 sweepstakes and instant win campaigns as other examples of such enterprises; in the contest, the winners received 7-11 products, which the Appellant says did not relate to the principal use of the establishment; and

WHEREAS, the Appellant cites to other examples retail stores in New York – Lacoste, Murray's Cheese, Modell's Sporting Goods, and 7-11, where customers have had a chance to win shopping sprees or other prizes related to the business hosting the prize, to support the assertion that the Signs are customarily found; and

C. The Signs Are Substantially for the Benefit of the Stores' Owners, Employees, Customers, and Visitors

WHEREAS, as to the third prong, the Appellant states that the Signs satisfy the requirement in that they are "operated and maintained on the same zoning lot substantially for the benefit or convenience of the owners, occupants, employees, customers, or visitors of the principal use;" and

WHEREAS, the Appellant asserts that its affidavits from business owners establish that the Signs are for the benefit of business owners, occupants, employees or customers; and

WHEREAS, the Appellant asserts that it is the Signs that must benefit the owners or their customers and not the movies, television shows, concerts or clothing being advertised; and

WHEREAS, the Appellant identifies the benefits as including driving customers into the store and for the customers winning prizes; and

WHEREAS, the Appellant states that it is not simply that the owners benefit through rental payments; and

WHEREAS, further, the Appellant asserts that there is no requirement under the Zoning Resolution that the business owner benefits equally to or more than the building owner; and

WHEREAS, the Appellant asserts that business owners benefit from increased visibility and foot traffic and from satisfied customers and they benefit from the remuneration received in exchange for hosting the contests; and

WHEREAS, the Appellant states that in reaching this conclusion in 2010, the Court credited the affidavit of a business owner who discussed "what the Contest Promotions sign has done for his business and how he sees the benefit is so substantial to him to have people brought into the store in this way;" and

WHEREAS, the Appellant asserts that definitive proof of these benefits is that business owners voluntarily enter into agreements with Contest Promotions to host such signs and sweepstakes and if these arrangements were not "substantially for" the store owners' and occupants' "benefit," they would not enter into them; and

WHEREAS, the Appellant concludes that the Signs, like the signs approved by Justice Rakower in CPI II, each mirror the Contest Promotions business model and plainly satisfy the Zoning Resolution's "accessory sign" definition; thus, DOB's determinations revoking these permits are arbitrary, capricious, and contrary to law, and must be reversed; and

DOB'S POSITION

WHEREAS, as to the classification of the Signs, DOB asserts that the ZR § 12-10 definitions of advertising sign and accessory use establish the necessary distinctions between the two classifications of signs; and

WHEREAS, first, DOB notes that all 12 permit applications were filed pursuant to AC § 28-104.2.1, meaning that DOB accepted the applications and issued permits based not on its own examinations of the applications, but rather on the job applicants' professional certification that the applications complied with all applicable laws; and

WHEREAS, DOB states that it revoked the 12 sign permits that had been issued through professional certification process 12 signs that were not accessory at the time of permit, and are not currently accessory to any principal use at the premises; and

WHEREAS, DOB asserts that the determination of whether each of these 12 signs is an accessory sign must be made on an individual basis because the definition of an "accessory use" requires a site-specific analysis; and

WHEREAS, specifically, DOB asserts that the facts

are different for each case, so it is necessary to review them individually; and

WHEREAS, DOB notes that an accessory sign must, (1) relate to a use conducted on the same zoning lot, (2) be clearly incidental to and customarily found in conjunction with the principal use of the zoning lot, and (3) be in the same ownership as the principal lot or maintained on the same zoning lot substantially for the benefit of the owner of the principal use; and

WHEREAS, DOB notes that the accessory sign definition is conjunctive and each of its three prongs must be independently satisfied for a sign to be considered an accessory sign; and

A. The Signs are not Related to the Principal Use on the Zoning Lots

WHEREAS, DOB asserts that the first prong of the Zoning Resolution's accessory use definition requires that the sign's copy be directly related to the principal use on the zoning lot; and

WHEREAS, DOB asserts that one of the locations - 173 Bowery - Manhattan, is associated with a business, the Lighting Craftsman, that was closed on May 4, 2012 just two weeks after the Appellant self-certified an application for an accessory sign and a second location – 1560 Second Avenue – was occupied by the Hungarian Meat Market which was destroyed by fire and is now occupied by Elite Cleaners; and

WHEREAS, accordingly, DOB asserts that it is impossible to have a contest take place at a store that has closed and that the Signs cannot meet the ZR § 12-10 "accessory use" definition if they do not relate to a use located on the zoning lot; and

WHEREAS, DOB notes that the other ten locations are occupied by (1) a martial arts academy, (2) a tire and hubcap store, (3) a Dunkin Donuts/Baskin Robbins, (4) three diner/cafes/restaurants – Triple A Diner, Jimmy's House (Vietnamese restaurant) and Cornerstone Café, and (5) four of the "mom and pop" newsstands or small groceries which the Appellant alleges are the stores it aims to help attract customers; and

WHEREAS, DOB states that at the time of the permit submissions, ten of the signs advertised movies – eight "Wrath of the Titans", one "The Thing" and one "Dark Shadows"; one ad is for "True Religion" brand jeans and another ad is for "Celine" a boutique on Madison Avenue; and

WHEREAS, DOB notes that, however, none of the locations feature movies; none of the ten signs that direct attention to movies could be considered an accessory sign; and likewise, the sign that directed attention to a boutique was at a newsstand and was not accessory to it, and the sign for jeans was not accessory to the grocery where it was displayed; and

WHEREAS, DOB cites to Operations Policy and Procedure Notice (OPPN) #10/99 of December 30, 1999 Sign Applications and Permits" states that in seeking a permit for an Accessory Sign "the applicant must establish the accessory relationship between the proposed sign and the use on the zoning lot on which the sign is being erected (the 'principal use'.)"; and

WHEREAS, DOB adds that pursuant to the OPPN, the documentation required is the "name of the owner of the principal use (i.e. the name of the business owner)" and a "lease demonstrating the amount of space leased at the zoning lot by the owner of the principal use and how the space is to be used" and the OPPN goes on to note that the "proposed sign is [must be] clearly incidental to the principal use;" and

WHEREAS, accordingly, DOB states that the OPPN is consistent with the Zoning Resolution requirement that an accessory sign have an accessory relationship with the principal use; and

WHEREAS, DOB asserts that the Signs do not have the required relationship with the principal use of the zoning lots because the products being advertised have no relationship to the principal use and the contest noted on the sign border is one of many products available on the particular zoning lot in question – it is not the principal use of the zoning lot; and

B. The Signs are not Clearly Incidental to and Customarily Found in Connection with the Uses on these Zoning Lots

WHEREAS, DOB asserts that the second prong of the Zoning Resolution's accessory sign definition requires that the sign be "clearly incidental to" and "customarily found in connection with" the principal use and the Signs fail to meet the requirement; and

WHEREAS, DOB asserts that the Signs are meant to, and do, primarily promote movies, TV shows, concerts, a boutique and jeans -- not the principal use of these zoning lots, such as a lighting store, a diner, martial arts academy, or a Dunkin Donuts; and

WHEREAS, DOB says that the purpose is apparent because the sign space is predominantly devoted to these products, while the copy concerning the various stores is not the central focus of the Signs and is less noticeable to a passerby; and

WHEREAS, DOB states that here, the principal use and over-all character of the properties in issue is that of various Use Group 6 uses; the accessory use in question – a sign for a contest – is not clearly incidental to and customarily found in connection with those uses; and

WHEREAS, DOB cites to Matter of 7-11 Tours v. BZA of Town of Smithtown 90 AD2d 486 (2d Dept 1982) in which the Court found that a travel agency was not customary nor incidental to the primary use of the premises as a motel; in so doing it set forth general definitions for "incidental" and "customary:"

> Incidental when used to define an accessory use, must also incorporate the concept of reasonable relationship with the primary use. It is not enough that the use be subordinate; it must also be attendant or concomitant. To ignore this latter aspect of 'incidental' would be to permit any use

which is not primary, no matter how unrelated it is to the primary use Id at 486; and

WHEREAS, DOB states that the Appellant ignores this latter aspect of the definition of "accessory" by insisting that the sweepstakes use is incidental even though it is completely unrelated to the primary use of the premises; and

WHEREAS, DOB cites to the 7-11 Tours court's definition of "customarily":

> Courts have often held that the use of the word 'customarily' places a duty on the board or court to determine whether it is usual to maintain the use in connection with the primary use … The use must be further scrutinized to determine whether it has commonly, habitually and by long practice been established as reasonably associated with the primary use. Id at 488; and

WHEREAS, DOB states that CPI alleges that its signage refers to products offered at the store – a sweepstakes, but it cannot be said that sweepstakes have commonly, habitually and by long practice been established as reasonably associated with any of the uses at issue in the matters before the Board--a Dunkin Donuts store, a martial arts academy, a lighting store, a meat market, a tire store, a diner or a Vietnamese restaurant; consequently, the sweepstakes signs in question are not accessory to the principal use of the zoning lots at issue; and

WHEREAS, additionally, DOB asserts that it is not customary for a true accessory sign to change its text as frequently as once a month; and

WHEREAS, DOB asserts that the fact that in CPI II Justice Rakower reversed the four ECB determinations on the issue of "clearly incidental to" and "customarily found in connection with" has no precedential effect herein, the City is appealing this ruling and it nevertheless remains the case that Justice Rakower was explicit in her decision that her ruling was narrowly limited to four ECB determinations at two locations in Brooklyn; and

WHEREAS, as far as the Lotto, DOB states that the Appellant makes much of the fact that there are newsstands and delis which have ads for Lotto in their windows; and

WHEREAS, DOB asserts that the distinctions between the Signs and Lotto signs are significant including that Lotto signs often appear in windows which is a specifically legislated exemption and, otherwise are non-commercial signs (because the State created the Lotto a revenue-generating enterprise to help fund educational purposes) entitled to greater First Amendment protection; on the contrary, Contest Promotions signs are never in the window and are commercial signs controlled by a private entity with advertising sign permits separate and apart from the advertising profits made at the sweepstakes locations; and

WHEREAS, further, DOB asserts that if Contest Promotions signs were truly similar to Lotto signs, the Contest Promotions logo of crossed and checkered flags would be used to announce a sweepstakes; instead, that logo is nowhere to be found on any CPI sign or location nor are the words "Contest Promotions" anywhere on the Signs before the Board; and

WHEREAS, DOB notes that the Appellant has not argued or offered evidence that Lotto or any other contests are commonly found or incidental to the eight zoning lots before the Board which are not convenience stores – such as a martial arts academy, a tire store, a Baskin Robbins, or a meat market other than to say that Lotto logos are ubiquitous; and

WHEREAS, DOB also distinguishes the Appellant's McDonald's Monopoly example as in those cases, the sign is not advertising the "Monopoly" board game, but a game that occurs in McDonald's and, in fact, McDonald's gives its customers a custom-tailored version of the game which results "mostly in food prizes" that can be used at the McDonald's where the Monopoly game piece is offered; and

WHEREAS, DOB asserts that it is common for convenience stores to have signs for products such as magazines and cigarettes in their store windows; however, these are not signs within the ZR §12-10 (c) definition of "sign": "A sign shall include writing, representation or other figures of similar character, within a building, only when illuminated and located in a window;" thus, any non-illuminated writing in a store window is not a sign under the Zoning Resolution; and

WHEREAS, DOB asserts that its position in the subject appeal is consistent with its position in Fresh Direct, which it distinguishes on its facts; and

WHEREAS, specifically, DOB states that the Fresh Direct sign is a non-conforming use located on the same zoning lot as Fresh Direct's food processing and supply plant; and

WHEREAS, DOB asserts that it is clear that the sign is accessory to a legitimate principal use, specifically a Use Group 17 food processing plant and that its permit application contains no references to off-premises products or services and does not offer a sweepstakes; and

WHEREAS, DOB cites to Fresh Direct's statements that "the entire surface area of the Sign has been devoted to copy and images relating to Fresh Direct, products available on the Premises, and public service announcements…the Sign has not been used to display copy and images relating to products which are not sold on the Premises;" and

C. CPI Does not Own the Zoning Lots and its Signs Are not Substantially for the Benefit or Convenience of Those Tied to the Principal Use of the Zoning Lot

WHEREAS, DOB notes that the third prong of the accessory sign definition requires that the Signs be in the same ownership or operated substantially for the benefit or convenience of owners, occupants, employees, customers or visitors of the principal use of the zoning lot; and

WHEREAS, first, DOB notes that the Signs are not under the same ownership or control as the zoning lots; the Signs are under the ownership and control of CPI; and

WHEREAS, DOB notes that instead of promoting a specific business or entertainment conducted on the zoning lot, the signs promote products available for purchase at

sites other than the zoning lot and there has been no demonstration that the movies, TV shows, concerts or jeans being advertised substantially benefit the owners of these establishments or their customers; and

WHEREAS, DOB notes that CPI has submitted affidavits from several business owners who concede that they benefit by being paid by CPI to display CPI's signs at their stores; DOB asserts that mere rental payment is not the type of "benefit" to the zoning lot contemplated by the ZR; and

WHEREAS, DOB asserts that the building owner, not the business owner/lessee disproportionately benefits from the contract with CPI and this makes sense since the sign is on the side of the building controlled by the building owner not the lessee; and

WHEREAS, DOB asserts that the building owners earn many times more income for the Signs than do the proprietors, some of whom do not receive any payment; and

D. The Signs Meet the Advertising Sign Definition

WHEREAS, DOB asserts that the Signs are not accessory and that the ZR § 12-10 defines an "advertising sign" as "a sign that directs attention to a business, profession, commodity, service or entertainment conducted, sold or offered elsewhere than upon the same zoning lot and is not accessory to a use located on the zoning lot;" and

WHEREAS, DOB states that consistent with the Appellant's model, each of the Signs, are large wall signs that direct attention to a product off the zoning lot; specifically, ten of the permits authorized signs that direct attention to a movie shown in theaters on other zoning lots, (including eight for the same movie "Wrath of the Titans"), one permit directs attention to "Tru Religion" brand jeans not even sold at the premises and one directs attention to a boutique located at a significant distance away on the Upper East Side; and

WHEREAS, DOB asserts that even if posters of the movies, or the particular brand of jeans, were sold at the on-site stores, the court in Mazza & Avena ruled that a sign that directs attention to one product within the store does not make the sign an accessory sign; and

WHEREAS, DOB asserts that not only does it offend the Zoning Resolution, but it offends common sense and logic to conclude that "Wrath of the Titans" signs are accessory to the noted businesses or that the Celine clothing sign, which specifically directs the passerby to a boutique by repeating the address "870 Madison Avenue" three times could also be accessory to any of the noted businesses; and

WHEREAS, DOB states that in contrast, examples of accessory signs include those on awnings located above the entrance to the premises for the convenience of those visiting the establishment; furthermore, the names of the businesses appear prominently on the signs in bright clear letters, with fonts, symbols and logos unique to type of business the accessory sign is referring to, not in miniscule, generic, faded, and dirty yellow font like the Appellant's signs and, they are not dominated by advertising posters for off-premises offerings like the Signs; and

WHEREAS, DOB concedes that a very small edge of the Signs indicates the principal use occupying the premises along with language of a purported "sweepstakes contest" offered there, the dominant portion of the sign is directing attention to a use off the zoning lot, which takes the Signs outside the realm of accessory signage and into the realm of advertising signage; and

WHEREAS, DOB concludes that, at best, the limited perimeter of the Signs is accessory to an accessory use on the zoning lot; and

SUPPLEMENTAL ARGUMENTS

WHEREAS, in addition to the effect of the CPI litigation on the subject appeal and the application of the accessory use definition, the Appellant and DOB present opposing positions on several other issues including primarily whether CPI is a legitimate business or a sham and whether its sweepstakes practices comply with New York State Law; and

WHEREAS, CPI presented evidence regarding its business practices including affidavits from representatives of the businesses and employees of CPI and accounting for the contests all of which DOB called into question; and

WHEREAS, the Board does not find it necessary to address the facts and evidence associated with CPI's business practices as those can be addressed in another forum and are not relevant to an analysis of the Signs' content and relationship with the associated businesses; and

CONCLUSION

WHEREAS, the Board agrees with DOB and finds that the Signs do not satisfy any of the three prongs set forth in the ZR § 12-10 definition of accessory use; and

WHEREAS, specifically, the Board finds that the Signs (1) are not related to the principal use on the zoning lots (ZR § 12-10(a)); (2) are not clearly incidental to and customarily found in connection with the principal uses (ZR § 12-10(b)); and (3) are not in the same ownership as or operated for the benefit or convenience of the owners, occupants, employees, customers, or visitors of the principal uses (ZR § 12-10(c)); and

WHEREAS, the Board finds that the Signs are not accessory signs; they are advertising signs and fit squarely into the ZR § 12-10 definition of an advertising sign that directs attention to a "business,…commodity, service or entertainment conducted, sold, or offered elsewhere" and "is not accessory to a use located on the zoning lot;" and

WHEREAS, as far as ZR § 12-10-(a), the Board finds that the Appellant's focus on the mere coexistence of the principal use and the sign on the same zoning lot is misplaced as the location on the same zoning lot is meaningless without the second requirement of the first prong that the uses be related; and

WHEREAS, the Board notes that accessory business signs are allowed in many more zoning districts than advertising signs and are subject to numerous restrictions; those restrictions include, significantly, the content, per the ZR § 12-10 definition; and

WHEREAS, the Board finds that an essential element of an accessory sign is that it is related to the principal use; in fact, the sign must be a part of the business and be indistinguishable from it; and

WHEREAS, the Board cites to Matter of 7-11 Tours Inc. v. Board of Zoning Appeals of the Town of Smithtown, 90 A.D.2d 486 (2d Dept 1982) citing Lawrence v. Zoning Bd. of Appeals of Town of North Branford, 158 Conn. 509, 512-513 (1969) for the principle that an accessory use must not be just subordinate to the primary use but also concomitant; and

WHEREAS, the Board finds that the cases Mazza and NYP Realty strongly support its conclusion that the Signs are advertising rather than accessory; specifically, in Mazza (the Newport case), the sign directed attention to a product (Newport cigarettes) generally sold throughout the City, even though the product was also sold at the business on the zoning lot, it was deemed to be advertising because the sign must be designed so that it is clear that it is "accessory" to and directing attention to the business on the zoning lot as opposed to the sale of the product generally; and

WHEREAS, the Board further notes that in its underlying review in Mazza, DOB considered a variety of factors in determining that the large Newport advertising sign was not accessory to the convenience store including that it was not satisfied that such a sign was "customarily found" in connection with a comparable type of retail store; additionally, the Board agreed with DOB's interpretation "that a sign may refer to a product rather than a business name, where the business at the site is readily identified by the product;" such a conclusion was not possible in the Newport example for a store which sold many products; and

WHEREAS, the Board finds the NYP Realty case to be directly on point as the New York Post sought to have the sign recognized as an accessory business sign since it referenced the newspaper which was published in the subject building but DOB determined that it was an advertising sign because the citation to the New York Post was not the focus of the sign; and

WHEREAS, the Board notes that in the New York Post example, the sign's primary purpose was to advertise the New York Life Company (and was not directly related to the principal newspaper business on the site), a business and product available elsewhere than the zoning lot and that the mention of the New York Post at the bottom of the sign did not suffice to extinguish the advertising nature of the sign, within the ZR § 12-10 definition; and

WHEREAS, the Board finds that proportionality is a relevant element in the analysis because the relationship between principal and accessory use is inherently about proportions in some form; and

WHEREAS, the Board notes that the NYP Realty court has recognized that proportionality is relevant in its holding that a mere writing of a business name or address is not sufficient; and

WHEREAS, the Board finds that the presence of the business' name on the Signs', if it serves any purpose at all, cannot alone tip the scale of the analysis to it being accessory; and

WHEREAS, as to ZR § 12-10(b), the Board again agrees with DOB that the Signs are not clearly incidental to or customarily found in connection with the principal uses; and

WHEREAS, the Board finds that the Appellant is disingenuous at best to say that a sign with posters for television programs, movies, other entertainment, and clothing companies are incidental to, customarily found in connection with, or have any other relationship to a martial arts studio, tire store, lighting store, or Vietnamese restaurant, most obviously, or even to small grocery stores/newsstands; and

WHEREAS, as to ZR § 12-10(c), the Board rejects the Appellant's broad reading of the concepts of ownership and benefit; and

WHEREAS, specifically, the Board finds that the Signs are not in the same ownership as the businesses and the Appellant has failed to demonstrate that they are for the benefit of any of the named parties at ZR § 12-10(c); and

WHEREAS, the Board finds that even if the Signs were related to the business, the Appellant is incorrect that a benefit to the building owner satisfies the condition because the building as a whole and the landlord have no connection to the business and are not part of the analysis for whether it is accessory; and

WHEREAS, further, the Board notes that the question is not whether the Signs are accessory to the building; the Appellant is unpersuasive to say that the sign must be on the same zoning lot as the business and related, incidental, and customarily found *with the business* and then to say that it does not have to benefit the business and can benefit some unknown independent building owner; all three prongs must be rooted in the same enterprise, either the building or the business; and

WHEREAS, the Board notes that the only affidavits are from representatives of the businesses, who are potentially biased since they have relationships with the building owners; affidavits from unbiased customers of the businesses about the function of the Signs might tell a different story; and

WHEREAS, the Board rejects the Appellant's analogy to Lotto signs and to other contests; and

WHEREAS, the Board finds that the Lotto signs reflect logos that in most cases do not even qualify as signs because they are within windows and, further, are non-commercial; and

WHEREAS, also, the Lotto signs do not depict other products or entertainment, therefore, they would not enter into the realm of being unrelated to the principal commercial use; and

WHEREAS, the Board notes that the Appellant's examples of store promotions (Lacoste, Murray's Cheese, Modell's Sporting Goods, McDonald's, and 7-11) involved prizes of store merchandise or other direct connections to the business' products so, again, there was a clear

relationship to the principal use; and

WHEREAS, the Board finds that the question is not whether the small business can advertise sweepstakes or businesses of any size can conduct or advertise their own prize offerings, but rather whether a sweepstakes company's advertisement of its prizes, completely unrelated to the host business, goes beyond being accessory and actually advertises those products independent from the host business or the participation in a sweepstakes; and

WHEREAS, the Board distinguishes the Ham Radio Case in that in the Ham Radio case, it recognized ham radio antennas may not be commonly found but, when they are found, they are consistent with the conditions of other ham radio antennas; and

WHEREAS, in contrast, the Board notes that even if sweepstakes contests like CPI's were customarily found at the subject businesses, the Signs – posters reflecting entertainment and clothing companies - are not consistent with accessory signs; and

WHEREAS, the Board also distinguishes the Fresh Direct sign which bears a clear relationship to the Fresh Direct warehouse on the zoning lot; and

WHEREAS, the Board agrees with DOB's characterization of the CPI I and II litigation and concludes that the Appellate Division vacated the CPI I decision and the CPI II decision had narrow applicability to the four signs at issue there; and

WHEREAS, additionally, the Board finds that there would be no utility in and it would be an inefficient use of judicial resources for the Appellate Division to require that the Appellant seek an appeal to the Board and then not allow the Board to exercise its expertise in reviewing a question of zoning interpretation by restricting it to the Supreme Court's recent holding on the matter; and

WHEREAS, finally, the Board does not find it necessary to consider whether CPI is a sham or to otherwise evaluate its business practices because the Appellant's arguments fail regardless of how genuine its business practices are; however, the Board agrees that DOB's inquiry casts certain doubts on the business; and

WHEREAS, therefore, the Board finds that DOB properly revoked the Signs' permits because they are advertising signs.

Therefore it is resolved that the subject appeals, seeking a reversal of the Final Determinations of the Department of Buildings, dated November 14, 2012, are hereby denied.

Adopted by the Board of Standards and Appeals, April 23, 2013.

ACTION OF THE BOARD – Application granted on condition.
THE VOTE TO GRANT –
Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5
Negative:.....0
THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated April 23, 2012, acting on Department of Buildings Application No. 320269482, reads in pertinent part:

> The use of the premises as a physical culture establishment (gymnasium) in an M1-1 district . . . requires a special permit from the Board of Standards and Appeals; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site located in an M1-1 zoning district within the Special Ocean Parkway District, the operation of a physical culture establishment ("PCE") on the first story and mezzanine level of a one-story manufacturing building, contrary to ZR § 42-10; and

WHEREAS, a public hearing was held on this application on February 12, 2013, after due notice by publication in *The City Record*, with a continued hearing March 19, 2013 on and then to decision on April 23, 2013; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson, Commissioner Ottley-Brown, and Commissioner Montanez; and

WHEREAS, Community Board 13, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is a one-story manufacturing building located on Cobek Court between Shell Road and West Third Street, with 118.92 feet of frontage on Cobek Court; and

WHEREAS, the subject site has 11,892 sq. ft. of lot area and the building has 13,401 sq. ft. of floor area (FAR 1.13) on the first story and mezzanine level; and

WHEREAS, the applicant notes that on February 23, 1966, under BSA Cal. No. 1041-65-BZ, the Board granted a special permit pursuant to ZR § 73-50, authorizing the construction of the building "encroaching on the required rear yard along the district boundary"; and

WHEREAS, the PCE will be operated as Fight Factory Gym; and

WHEREAS, the applicant represents that the services at the PCE include facilities for instruction and programs for physical improvement; and

WHEREAS, the hours of operation for the PCE will be Saturday and Sunday, from 7:00 a.m. to 10:00 p.m.; and

WHEREAS, accordingly, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the Board notes that the PCE has been in operation since December 2010, without a special permit; and

WHEREAS, accordingly, the Board has determined that the term of the grant shall be reduced for the period of time between December 2010 and the date of this grant; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement, CEQR No.12BSA135K, dated May 10, 2012; and

WHEREAS, the EAS documents that the operation of the PCE would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved that the Board of Standards and

Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to permit, on a site located in an M1-1 zoning district within the Special Ocean Parkway District, the operation of a physical culture establishment ("PCE") on the first story and mezzanine level of a one-story manufacturing building, contrary to ZR § 42-10; *on condition* that all work will substantially conform to drawings filed with this application marked "Received March 13, 2013" – Four (4) sheets and *on further condition*:

THAT the term of this grant will expire on December 1, 2020;

THAT there will be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT all massages must be performed by New York State licensed massage therapists;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT Local Law 58/87 compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT substantial construction will be completed in accordance with ZR § 73-70;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 23, 2013.

THE RESOLUTION –

WHEREAS, the decision of the Queens Borough Commissioner, dated August 13, 2012, acting on Department of Buildings Application No. 420463698, reads in pertinent part:

> No structural alterations (ZR 52-22) shall be made in a building or other structure substantially occupied by a non-conforming use (ZR 22-14), except to accommodate a conforming use. The degree of non-conformity on the zoning lot shall not be increased; and

WHEREAS, this is an application under ZR § 72-21, to permit the enlargement of an existing, non-conforming Use Group 4 dentist's office located within a one-story and cellar building in an R1-2 zoning district, contrary to ZR §§ 22-14 and 52-22; and

WHEREAS, a public hearing was held on this application on January 29, 2013, after due notice by publication in the *City Record*, with continued hearings on February 26, 2013, and March 19, 2013, and then to decision on April 23, 2013; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Ottley-Brown, and Commissioner Montanez; and

WHEREAS, Community Board 11, Queens, recommends approval of this application; and

WHEREAS, Councilmember Daniel J. Halloran, III (19th District, Queens), recommends approval of this application; and

WHEREAS, the Little Neck Pines Civic Association, Inc., a not-for-profit civic organization, recommends approval of this application; and

WHEREAS, the site is a rectangular interior lot located on the north side of Little Neck Parkway between Bates Road and Annadale Lane, within an R1-2 zoning district; and

WHEREAS, the site has 100 feet of frontage along Little Neck Parkway and a total lot area of 7,949 sq. ft.; and

WHEREAS, the site is currently occupied by a one-story dentist's office (Use Group 4) containing approximately 1,596 sq. ft. of floor area (0.20 FAR); the applicant notes that the maximum permitted community facility FAR in an R1-2 district is 3,975 sq. ft (0.50 FAR), per ZR § 24-111(a); and

WHEREAS, the applicant states that the building's existing side yards with widths of 8'-2" and 16'-6" comply with the requirements for community facilities in R1-2 districts (two 8'-0" side yards are required, per ZR § 24-35); that the front yard is complying for the portion of the lot in front of the dentist's office (21'-6") but non-complying for the portion of the lot in front of the garage (18'-5") (a 20'-0" front yard is required, per ZR § 24-35); that the rear yard is non-complying (27'-11") (a 30'-0" rear yard is required, per ZR § 24-36); and that the existing open space ratio of 369 percent is

complying (150 percent is required, per ZR § 23-141); and

WHEREAS, the applicant states that the subject building was originally constructed as a single-family dwelling with an accessory garage around 1950; that on January 13, 1993, it was converted to a dentist's office; and that, on September 9, 2004, the dentist's office became non-conforming due to an amendment to the Zoning Resolution that prohibited certain community facilities in R1 districts as-of-right; and

WHEREAS, the applicant proposes to: (1) demolish the existing garage; (2) extend the dentist's office into the area formerly occupied by the garage and into the existing concrete patio at the rear of the building; and (3) extend the cellar to match the footprint of the proposed first story; and

WHEREAS, the applicant represents that the proposal would increase the floor area of the building from 1,596 sq. ft. (0.20 FAR) to 2,171 sq. ft. (0.27 FAR), decrease the open space ratio from 369 percent to 255 percent, comply with side and front yard requirements, and maintain the degree of non-compliance with respect to the rear yard; however, the proposed demolition, reconstruction, and enlargement of this building is contrary to ZR § 52-22 (Structural Alterations), because, as noted above, the building is substantially occupied by a non-conforming use; accordingly, the applicant requests the subject variance; and

WHEREAS, the applicant represents that the following are unique physical conditions inherent to the subject building and zoning lot, which create practical difficulties and unnecessary hardship in developing the site in strict conformance with underlying zoning regulations: (1) the history of development at the site; (2) the underdevelopment of the site; and (3) the obsolescence of the building for its current lawful use; and

WHEREAS, as to the history of development at the site, the dentist's office use has existed at the site for the past 20 years and was conforming when commenced, but became non-conforming in 2004; accordingly, the building cannot be structurally altered or enlarged, which prohibits meaningful development of the lot and prevents the owner from modernizing his practice; and

WHEREAS, as to the underdeveloped nature of the site, the existing floor area of the building, 1,596 sq. ft. (0.20 FAR), is less than half of the 0.50 FAR permitted for community facilities that are allowed as-of-right in R1-2 districts; and

WHEREAS, the underdevelopment nature is distinctive in that, according to a study submitted by the applicant, there are four dentist's or doctor's offices along Little Neck Parkway with significantly greater FAR than the subject building's 0.20; these offices have FARs of 0.34, 0.39, 0.52 and 1.40; and

WHEREAS, in addition, the applicant represents that utilizing the building's existing floor area by converting the attached former garage in accordance with the certificate of occupancy to usable dental office space is not feasible; and

WHEREAS, specifically, such a conversion would require elevating the garage floor 4'-5" to match the floor of the office, elevating the garage roof plane three feet to provide adequate headroom, replacing the existing garage overhead door with a masonry wall, and installing insulation, HVAC and windows; such work would be cost prohibitive and only yield an additional 411 sq. ft. of floor area; and

WHEREAS, likewise, an as-of-right development on the underdeveloped site—either conversion and enlargement of the existing building or construction of a new residence—while resulting in a floor area of 3,638 sq. ft (0.46 FAR) would be infeasible due to the premium costs of demolition and construction associated with removing the existing legal community facility space, and/or reinforcing the existing structure; and

WHEREAS, as to the obsolescence of the building for its current lawful use, the one-story building is unsuitable to accommodate the large equipment required for a modern dental facility, which the applicant represents is necessary for the practice to remain attractive to current and prospective patients; and

WHEREAS, based upon the above, the Board finds that, in the aggregate, the noted conditions create unnecessary hardship and practical difficulty in developing the site in conformance with the applicable zoning regulations; and

WHEREAS, the applicant analyzed the feasibility of three conforming scenarios: (1) maintaining the building as-is; (2) converting the building to a one-family residence and enlarging it; and (3) converting the existing attached garage space to dental office use without any enlargement; and

WHEREAS, the applicant also considered whether a lesser variance was feasible; namely, the applicant examined a scenario in which the owner obtained a use variance and constructed a two-family residence on the site (the subject R1-2 district does not allow a two-family residence as-of-right); and

WHEREAS, the applicant represents that none of these four scenarios would provide a reasonable rate of return; and

WHEREAS, the applicant asserts that only the proposal results in an acceptable rate of return; and

WHEREAS, based upon the above, the Board has determined that because of the subject lot's unique physical conditions, there is no reasonable possibility that development in strict compliance with zoning will provide a reasonable return; and

WHEREAS, the applicant represents that the proposal will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare; and

WHEREAS, the applicant states that the dentist's office has existed in the neighborhood for the past 20 years, and that four non-conforming Use Group 4 facilities exist within a 600-foot radius of the subject lot; and

WHEREAS, as to bulk, the applicant states that the proposal is modest and well within the requirements for permitted community facilities in R1-2 district, in that: (1) the proposed increase in floor area from 1,596 sq. ft. (0.20 FAR) to 2,171 sq. ft. (0.27 FAR) results in an FAR that is

approximately half of the maximum FAR permitted in the district (0.50 FAR); (2) the proposed decrease in open space ratio from 369 percent to 255 percent, provides over 100 percent more open space than is required (150 percent); and (3) the proposed changes to the footprint of the building will maintain compliance with the side yard requirements, bring the lot into compliance with the front yard requirement, and maintain the existing non-complying rear yard; and

WHEREAS, the applicant notes that construction under the subject variance would leave the appearance of the building—i.e. its residential façade and building envelope, which are harmonious with the other buildings on the predominantly residential street—practically unchanged; and

WHEREAS, the applicant represents that, based on a study of existing patient patterns, even if the proposal resulted in a doubling of the number of patients in the practice, the maximum number of patients visiting the office at any given time would be only eight; and

WHEREAS, in addition, the applicant provided a parking survey, which indicated that there were always at least seven available parking spaces (with an average of 15 available) on the portion of Little Neck Parkway directly in front of the site during regular business hours; and

WHEREAS, the applicant also notes that the site fronts on Little Neck Parkway, a 80'-0" wide, busy thoroughfare that can reasonably accommodate any increase in vehicular and pedestrian traffic that would result from the proposal; and

WHEREAS, based upon the above, the Board finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the applicant states that the hardship was not created by the owner or a predecessor in title, but is the result of the use becoming non-conforming in 2004; and

WHEREAS, the Board finds that the hardship herein was not created by the owner or a predecessor in title, but is the result of the site's unique physical conditions; and

WHEREAS, the applicant states that the proposal is the minimum variance necessary to afford relief, in that it seeks to add only 575 sq. ft. (FAR 0.07), reduce the non-compliance of the front yard, and in all other respects comply with the bulk regulations applicable to community facilities that are allowed in R1-2 districts; and

WHEREAS, the Board finds that this proposal is the minimum necessary to afford the owner relief; and

WHEREAS, based upon the above, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as an Unlisted Action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 13BSA045Q dated December 21, 2012; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved that the Board of Standards and Appeals makes each and every one of the required findings under ZR § 72-21 and grants a variance, to permit the enlargement of an existing, non-conforming Use Group 4 dentist's office located within a one-story and cellar building in an R1-2 zoning district, contrary to ZR §§ 22-14 and 52-22; *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received March 26, 2013"– eight (8) sheets; and *on further condition;*

THAT the following shall be the bulk parameters of the building: 2,171 sq. ft. (0.27 FAR), a minimum rear yard depth of 27'-11", a minimum front yard depth of 20'-0", two side yards with a minimum width of 8'-0"; and a total height of 23'-0", as indicated on the BSA-approved plans;

THAT all signage at the site shall be in accordance with the BSA-approved plans;

THAT substantial construction shall be completed pursuant to ZR § 72-23;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 23, 2013.

CEQR #13-BSA-063M

APPLICANT – Sheldon Lobel, P.C., for 25 Broadway Office Properties, LLC, owner; 25 Broadway Fitness Group LLC, lessees.

SUBJECT – Application December 7, 2012 – Special Permit (§73-36) to allow a proposed physical culture establishment (*Planet Fitness*). C5-5LM zoning district.

PREMISES AFFECTED – 25 Broadway, southwest corner

of the intersection formed by Broadway and Morris Street, Block 13, Lot 27, Borough of Manhattan.

COMMUNITY BOARD #1M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Manhattan Borough Commissioner, dated November 13, 2012, acting on Department of Buildings Application No. 121414193, reads in pertinent part:

> Proposed change of use to a physical culture establishment . . . is contrary to ZR 32-10 and must be referred to the Board of Standards and Appeals for approval pursuant to ZR 73-36; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site located in a C5-5 zoning district within the Special Lower Manhattan District, the operation of a physical culture establishment ("PCE") in the sub-cellar, basement and first story of a 23-story mixed-use commercial and residential building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on March 12, 2013, after due notice by publication in *The City Record*, and then to decision on April 23, 2013; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Vice-Chair Collins, Commissioner Hinkson, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 1, Manhattan, recommends approval of the application; and

WHEREAS, the subject site is a 23-story mixed-use commercial and residential building located on Broadway between Morris Street and Battery Place, with 203 feet of frontage on Broadway, 248 feet of frontage on Morris Street, and 231 feet of frontage on Greenwich Street; and

WHEREAS, the subject site has 48,071 sq. ft. of lot area and the building has 809,100 sq. ft. of floor area; and

WHEREAS, the building, known as the Cunard Building, was constructed in 1921; the applicant notes that it was designated as an individual landmark by the Landmarks Preservation Commission ("LPC") in 1995; and

WHEREAS, the PCE is located in the sub-cellar, basement, and first story of the building, and occupies a total of 20,575 sq. ft. of floor space, with 10,105 sq. ft. of floor space in the sub-cellar, 10,055 sq. ft. of floor area in the basement, and 415 sq. ft. of floor area on the first story; and

WHEREAS, the PCE will be operated as Planet Fitness; and

WHEREAS, the applicant represents that the services at the PCE include facilities for instruction and programs for physical improvement; and

WHEREAS, the hours of operation for the PCE will be 24 hours per day, seven days per week; and

WHEREAS, the applicant submitted a Certificate of No Effect from LPC, dated September 6, 2012, approving the proposed interior alterations at the sub-cellar, basement and first story; in addition, on March 22, 2013, LPC issued a permit for the proposed signage at the site; and

WHEREAS, accordingly, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as a Type I action pursuant to 6 NYCRR Part 617.4; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement, CEQR No.13BSA063M, dated December 6, 2012; and

WHEREAS, the EAS documents that the operation of the PCE would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved that the Board of Standards and Appeals issues a Type I Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required

findings under ZR §§ 73-36 and 73-03 to permit, on a site located in a C5-5 zoning district within the Special Lower Manhattan District, the operation of a physical culture establishment ("PCE") in the sub-cellar, basement and first story of a 23-story mixed-use commercial and residential building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked "Received February 26, 2013" – Seven (7) sheets and "Received April 19, 2013" – One (1) sheet and *on further condition*:

THAT the term of this grant will expire on April 23, 2023;

THAT there will be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT all massages must be performed by New York State licensed massage therapists;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT Local Law 58/87 compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT substantial construction will be completed in accordance with ZR § 73-70;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 23, 2013.

CEQR #13-BSA-074M
APPLICANT – Sheldon Lobel, P.C., for Dryland Properties, LLC, owner; Reebok CrossFit 5th Avenue, L.P., lessee.
SUBJECT – Application January 7, 2013 – Special Permit (§73-36) to allow the operation of a physical culture establishment (*Reebok Crossfit*) at the cellar of an existing building. C5-3 zoning district.
PREMISES AFFECTED – 420 Fifth Avenue, aka 408 Fifth Avenue, between West 37th Street and West 38th Street, Block 839, Lot 7501, Borough of Manhattan.
COMMUNITY BOARD # 5M
ACTION OF THE BOARD – Application granted on condition.
THE VOTE TO GRANT –
Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5
Negative:.....0
THE RESOLUTION –

WHEREAS, the decision of the Manhattan Borough Commissioner, dated December 7, 2012, acting on Department of Buildings Application No. 121400876, reads in pertinent part:

> Proposed change of use to a physical culture establishment . . . is contrary to ZR 32-10 and must be referred to the Board of Standards and Appeals for approval pursuant to ZR 73-36; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site located in a C5-3 zoning district within the Special Midtown District, the operation of a physical culture establishment ("PCE") on the cellar level of a 30-story commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on March 19, 2013, after due notice by publication in *The City Record*, and then to decision on April 23, 2013; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Vice-Chair Collins, Commissioner Hinkson, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 5, Manhattan, has no objection to the approval of this application; and

WHEREAS, the subject site is a 30-story commercial retail and office building located on Fifth Avenue between West 37th Street and West 38th Street, with 197.5 feet of frontage on Fifth Avenue, 145 feet of frontage on West 37th Street and 145 feet of frontage on West 38th Street; and

WHEREAS, the subject site has 28,638 sq. ft. of lot area and the building has 686,415 sq. ft. of floor area; and

WHEREAS, the PCE is located in the cellar level and occupies a total of 9,173 sq. ft. of floor space; and

WHEREAS, the PCE will be operated as Reebok CrossFit; and

WHEREAS, the applicant represents that the services at the PCE include facilities for instruction and programs for physical improvement; and

WHEREAS, the hours of operation for the PCE will be Monday through Friday, from 5:00 a.m. to 9:00 p.m. and Saturday, from 9:00 a.m. to 12:00 p.m.; the PCE will be closed on Sunday; and

WHEREAS, accordingly, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, the Board also finds that the PCE use is consistent with the Special Midtown District purposes and provisions pursuant to ZR § 81-13, in that the PCE is: (1) located within an existing building's cellar; (2) accessed from Fifth Avenue by an existing stairwell; and (3) does not utilize any Fifth Avenue ground level retail space; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement, CEQR No.13BSA074M, dated March 5, 2013; and

WHEREAS, the EAS documents that the operation of the PCE would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to permit, on a site located in a C5-3 zoning district within the Special Midtown District, the operation of a physical culture establishment ("PCE") on the cellar level of a 30-story commercial building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked "Received March 7, 2013" – One (1) sheet and "Received April 10, 2013" – Three (3) sheets and *on further condition*:

THAT the term of this grant will expire on April 23, 2023;

THAT there will be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT all massages must be performed by New York State licensed massage therapists;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT Local Law 58/87 compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT substantial construction will be completed in accordance with ZR § 73-70;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 23, 2013.

CEQR #13-BSA-080K
APPLICANT – Law Office of Fredrick A. Becker, for Sharon Sofer and Daniel Sofer, owners.
SUBJECT – Application January 15, 2013 – Special Permit (§73-621) for the enlargement of a single-family home, contrary to floor area, open space and lot coverage (§23-141). R3-2 zoning district.
PREMISES AFFECTED – 1644 Madison Place, south side of Madison Place between Avenue P and Quentin Road, Block 7701, Lot 58, Borough of Brooklyn.
COMMUNITY BOARD #18BK
ACTION OF THE BOARD – Application granted on condition.
THE VOTE TO GRANT –
Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5
Negative:.....0
THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated December 14, 2012, acting on Department of Buildings Application No. 320583695, reads, in pertinent part:

1. Proposed plans are contrary to ZR 23-141 in that the proposed floor area ratio exceeds the maximum permitted;
2. Proposed plans are contrary to ZR 23-141 in that the proposed open space is less than the minimum required;
3. Proposed plans are contrary to ZR 23-141 in that the proposed lot coverage exceeds the

maximum permitted; and

WHEREAS, this is an application under ZR §§ 73-621 and 73-03, to permit, within an R3-2 zoning district, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for floor area, open space and lot coverage, contrary to ZR § 23-141; and

WHEREAS, a public hearing was held on this application on March 19, 2013, after due notice by publication in *The City Record*, and then to decision on April 23, 2013; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson, Commissioner Ottley-Brown, and Commissioner Montanez; and

WHEREAS, Community Board 18, Brooklyn, recommends approval of the application; and

WHEREAS, the subject site is located on the west side of Madison Place, between Avenue P and Quentin Road; and

WHEREAS, the subject site has a total lot area of 3,100 sq. ft., and is occupied by a single-family home with a floor area of approximately 1,437 sq. ft. (0.46 FAR); and

WHEREAS, the applicant proposes to vertically and horizontally enlarge the cellar, first and second stories at the rear of the building; and

WHEREAS, the applicant seeks an increase in the floor area from 1,437 sq. ft. (0.46 FAR), to 2,000 sq. ft. (0.65 FAR); the maximum floor area permitted is 1,860 sq. ft. (0.60 FAR); and

WHEREAS, the applicant represents that the proposed floor area exceeds the maximum permitted floor area by 8.33 percent; and

WHEREAS, the applicant seeks a decrease in the open space ratio from 73 percent to 62.4 percent; 65 percent is the minimum required; and

WHEREAS, the applicant represents that the proposed open space ratio is not less than 90 percent of the minimum required; and

WHEREAS, the applicant seeks an increase in lot coverage from 27 percent to 37.6 percent; 35 percent is the maximum permitted; and

WHEREAS, the applicant represents that the proposed lot coverage does not exceed 110 percent of the maximum permitted; and

WHEREAS, as a threshold matter, in R3-2 zoning districts, ZR § 73-621 is only available to enlarge homes that existed on June 30, 1989; and

WHEREAS, the applicant represents, and the Board accepts, that the building existed in its pre-enlarged state prior to June 30, 1989; and

WHEREAS, ZR § 73-621 permits the enlargement of a residential building such as the subject single-family home if the following requirements are met: (1) the proposed open space ratio is at least 90 percent of the required open space; (2) in districts where there are lot coverage limits, the proposed lot coverage does not exceed 110 percent of the maximum permitted; and (3) the proposed floor area ratio does not exceed 110 percent of the maximum permitted; and

WHEREAS, as to the open space, the applicant represents that the proposed reduction in the open space ratio results in an open space ratio that is 90 percent of the minimum required; and

WHEREAS, as to the lot coverage, the applicant represents that the proposed increase in lot coverage results in a lot coverage that does not exceed 110 percent of the maximum permitted; and

WHEREAS, as to the floor area ratio, the applicant represents that the proposed floor area is 108.33 percent of the maximum permitted; and

WHEREAS, accordingly, the Board has reviewed the proposal and determined that the proposed enlargement satisfies all of the relevant requirements of ZR § 73-621; and

WHEREAS, based upon its review of the record, the Board finds that the proposed enlargement will neither alter the essential character of the surrounding neighborhood, nor impair the future use and development of the surrounding area; and

WHEREAS, the Board finds that the proposed project will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under ZR §§ 73-621 and 73-03.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR §§ 73-622 and 73-03, to permit, within an R3-2 zoning district, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for floor area, open space and lot coverage, contrary to ZR § 23-141; *on condition* that all work shall substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked "Received January 14, 2013"–(9) sheets; and *on further condition*:

THAT the following shall be the bulk parameters of the building: a maximum floor area of 2,000 sq. ft. (0.65 FAR), a minimum open space ratio of 62.4 percent, and a maximum lot coverage of 37.6 percent, as illustrated on the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s) only; no approval has been given by the Board as to the use and layout of the cellar;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted;

THAT substantial construction be completed in accordance with ZR § 73-70; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 23, 2013.

Jeff Mulligan, Executive Director

MINUTES

REGULAR MEETING
TUESDAY MORNING, MAY 7, 2013
10:00 A.M.

Present: Chair Srinivasan, Vice-Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez.

SPECIAL ORDER CALENDAR

1073-62-BZ
APPLICANT – Peter Hirshman, for 305 East 40th Owner's Corporation, owner; Innovative Parking LLC, lessee.
SUBJECT – Application January 15, 2013 – Extension of Term of a previously approved variance (MDL Section 60 (1d)), permitting 108 tenant parking spaces for transient use within an accessory garage, which expires on March 5, 2013, C1-9/R10 zoning district.
PREMISES AFFECTED – 305 East 40th Street, northeast corner of East 40 Street and Second Avenue, Block 1333, Lot 1, Borough of Manhattan.
COMMUNITY BOARD #6M
ACTION OF THE BOARD – Application granted on condition.
THE VOTE TO GRANT –
Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5
Negative:.....0
THE RESOLUTION –

WHEREAS, this is an application for a reopening and an extension of the term for a previously granted variance for a transient parking garage, which expired on March 5, 2013; and

WHEREAS, a public hearing was held on this application on April 9, 2013, after due notice by publication in *The City Record*, and then to decision on May 7, 2013; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Vice-Chair Collins, Commissioner Hinkson, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 6, Manhattan, does not object to this application; and

WHEREAS, the subject site is located on the southeast corner of Second Avenue and East 40th Street, partially within an R10 zoning district and partially within a C1-9 zoning district; and

WHEREAS, the site is occupied by a 20-story and penthouse residential building;

WHEREAS, portions of the cellar and first floor are occupied by a 108-space accessory parking garage; and

WHEREAS, on March 5, 1963, under the subject calendar number, the Board granted a variance pursuant to Section 60(3) of the Multiple Dwelling Law ("MDL") to permit unused and surplus parking spaces to be used for transient parking for a term of 20 years; and

WHEREAS, most recently, on March 23, 2004, the Board granted a ten-year extension of term, which expired on March 5, 2013; and

WHEREAS, the applicant now requests an additional extension of term; and

WHEREAS, the applicant submitted a photograph of the sign posted onsite, which states building residents' right to recapture the surplus parking spaces; and

WHEREAS, based upon its review of the record, the Board finds that the requested extension of term is appropriate with certain conditions set forth below.

Therefore it is Resolved that the Board of Standards and Appeals *reopens* and *amends* the resolution having been adopted on March 5, 1963, so that, as amended, this portion of the resolution shall read: "to permit an extension of term for an additional 10 years from the expiration of the prior grant, to expire on March 5, 2023; *on condition* that the use and operation of the site shall substantially conform to the previously approved plans and that all work shall substantially conform to drawings filed with this application and marked 'Received January 15, 2013- (2) sheets; and *on further condition*:

THAT this term will expire on March 5, 2023;

THAT a sign stating that the spaces devoted to transient parking can be recaptured by residential tenants on 30 days' notice to the owner be located in a conspicuous place within the garage, permanently affixed to the wall;

THAT the above conditions and all relevant conditions from the prior resolutions will appear on the certificate of occupancy;

THAT the layout of the parking lot shall be as approved by the Department of Buildings;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted."
(DOB Application No. 103634658)

Adopted by the Board of Standards and Appeals, May 7, 2013.

1111-62-BZ
APPLICANT – Peter Hirshman, for 200 East Tenants Corporation, owner; MP 56 LLC, lessee.
SUBJECT – Application January 15, 2013 – Extension of Term of a previously approved variance (MDL Section 60 (3)) permitting the use of tenant parking spaces for transient use within an accessory garage, which expires on March 26, 2013. C6-6, C5-2 and C1-9 zoning district.
PREMISES AFFECTED – 201 East 56 Street, northeast corner of East 56 Street and Third Avenue, Block 1330, Lot

4, Borough of Manhattan.
COMMUNITY BOARD #6M
ACTION OF THE BOARD – Application granted on condition.
THE VOTE TO GRANT –
Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5
Negative:.....0
THE RESOLUTION –

WHEREAS, this is an application for a reopening and an extension of the term for a previously granted variance for a transient parking garage, which expired on March 26, 2013; and

THAT a sign stating that the spaces devoted to transient parking can be recaptured by residential tenants on 30 days' notice to the owner be located in a conspicuous place within the garage, permanently affixed to the wall;

THAT the above conditions and all relevant conditions from the prior resolutions will appear on the certificate of occupancy;

THAT the layout of the parking lot shall be as approved by the Department of Buildings;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted."
(DOB Application No. 103829699)

Adopted by the Board of Standards and Appeals, May 7, 2013.

11-80-BZ
APPLICANT – Richard Bass, Herrick, Feinstein, LLP, for West 28th Street Owners LLC.
SUBJECT – Application January 10, 2013 – Amendment of previously approved variance (§72-21) which allowed conversion of the third through seventh floor from commercial to residential use. Amendment would permit the additional conversion of the second floor from commercial to residential use. M1-6 zoning district.
PREMISES AFFECTED – 146 West 28th Street, south side of West 28th Street, between 6th and 7th Avenues, Block 803, Lot 65, Borough of Manhattan.
COMMUNITY BOARD #5M
ACTION OF THE BOARD – Application granted on condition.
THE VOTE TO GRANT –
Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 5
Negative:.....0
THE RESOLUTION –

WHEREAS, this is an application for a reopening and an amendment to a previously granted variance, which permitted residential use (Use Group 2) on the third through seventh stories of a seven-story building within a manufacturing district; and

WHEREAS, a public hearing was held on this application on March 19, 2013 after due notice by publication in the *City Record* with a continued hearing on April 16, 2013, and then to decision on May 7, 2013; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, the site is located on the south side of West 28th Street between Avenue of the Americas and Seventh Avenue, in an M1-6 zoning district; and

WHEREAS, the site is occupied by a seven-story commercial and residential building with ground floor retail use (Use Group 6), office use (Use Group 6) on the second story and residences (Use Group 2) on the third through seventh stories; and

WHEREAS, on July 8, 1980, under the subject calendar number, the Board granted a variance to permit residential use on the third through seventh stories in a manufacturing district, contrary to ZR § 42-00; and

WHEREAS, the applicant states that the building is in substantial compliance with all conditions of the prior grant except the second story residential use; and

WHEREAS, the applicant now requests an amendment to permit the conversion of the second story to residential use; the applicant notes that the second story has been occupied by residential use since 1980 and that the instant application would legalize the use; and

WHEREAS, the applicant states that the physical conditions of the building and neighborhood character that made residential use appropriate on the third through seventh stories remain today and apply with equal force with respect to the second story; and

WHEREAS, specifically, the applicant describes these conditions as: (1) narrow building floor plates that are too small and undesirable to accommodate the as-of-right commercial and manufacturing uses; (2) the small, awkward layout of the building's structural elements, stairs and elevators, which further reduce the amount of space for commercial or manufacturing uses; (3) the lack of interest in the space for commercial use and the general decline in the manufacturing sector; and (4) the increasingly mixed-use nature of the neighborhood, which includes many residential uses; and

WHEREAS, the applicant states that residential use is appropriate on the second story for the following reasons: (1) a commercial or manufacturing use on the second story would be incompatible with and detrimental to the residential use in the building; (2) the two small floor plates with approximately 1,600 sq. ft. each of usable space are not conducive to as-of-right uses; (3) there is no freight elevator; consequently, if a commercial or manufacturing use were to occupy the second floors, its occupants would be forced to share the entrances and elevators with the residents of the buildings; and (4) there is no loading dock, which is required for many as-of-right uses; and

WHEREAS, as to the requirement to share elevators, the applicant explored the feasibility of installing a dedicated elevator for the second story, and found that such an installation would eliminate valuable floor area on the ground floor and second and third stories, eliminate window display space at the ground floor (making the commercial space less attractive to potential tenants), impact the cellar and building utilities, and increase cost substantially; and

WHEREAS, as to the impact on the neighborhood character of authorizing the second story residential use, the applicant examined the surrounding area (the subject block and the block directly south) and identified 14 tax lots containing second floor residential use; and

WHEREAS, based upon the above, the Board has determined that the evidence in the record supports a grant of the requested amendment with the conditions listed below.

Therefore it is Resolved that the Board of Standards and Appeals reopens and amends the resolution, dated July 8, 1980, to permit residential use on the second story of the subject building; *on condition* that all work shall substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked 'Received April 30, 2013'- two (2) sheets; and *on further condition:*

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT the above conditions will be listed on the certificate of occupancy;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and
