ACS Report on Government-Issued Personal Identification for Youth in Foster Care, 2019

In Calendar Year 2019 and ongoing, ACS has worked closely with our 26 provider agencies to provide direct training on Preparing Youth for Adulthood, which includes applying for essential vital documents such as a birth certificate, social security card, and state-issued identification card. ACS also continues to encourage the providers to work with youth to obtain the IDNYC and passports.

Data for 2019 indicates that the vast majority of youth discharged to Another Planned Permanent Living Arrangement (APPLA) obtained at least two forms of ID prior to leaving care. In calendar year 2019, ACS provided a series of trainings focused on permanency planning around youth transitioning out of foster care. Trainings addressed the need for procuring vital documents for youth in the early phase of transition planning with the youth.

ACS Division of Family Permanency Services continues to oversee a centralized Vital Records Unit that works with foster care agencies to obtain vital identification, birth and death certificates and social security cards for children and youth in foster care. The unit collaborates with external stakeholders, including foster care providers and NYC Department of Health and Mental Hygiene (NYC Health), and works directly with the Social Security Administration (SSA) to obtain social security cards for foster care youth. The Unit provides technical assistance to our providers and communicates with other city agencies to ensure that children and families have their vital documents. We continue to have a memorandum of understanding with NYC Health, which has helped to expedite the receipt of birth certificates for youth in foster care. These efforts have resulted in the implementation of a birth certificate request tracking system and the development of protocols that allow ACS to directly request copies of birth and death certificates. Our Vital Records Unit also assists with procurement of copies of birth and death certificates from other counties/states and foreign countries necessary to provide immigrant youth in care with immigration legal assistance.

Our APPLA Monitoring Unit (AMU) and Older Youth Conferencing Unit in the ACS Division of Family Permanency Services also work with provider agencies on a monthly basis to ensure that youth have secured these personal documents during both the completion of the Preparing Youth for Adulthood checklist and at the trial and final discharge Family Team Conferences. AMU also encourages provider agencies to utilize IDNYC to obtain government issued IDs for youth. The team meets with the providers quarterly to address concerns with completing the checklist and obtaining vital records. ACS also facilitates quarterly foster care directors meetings and will utilize this forum to reinforce provider's responsibilities in obtaining vital documents for youth as a component of their permanency planning with youth.
