In the event that the Chairperson shall, in his or her discretion, postpone the public sale, the Chairperson shall place notice of such postponement of the sale in the City Record for five (5) consecutive days beginning at least ten (10) days prior to the new deadline for bidding. The Chairperson may place such additional notices in the City Record or other publications, as the Chairperson deems advisable.

- (g) Separate public sales may be conducted for accessible medallions, alternative fuel medallions, unrestricted independent medallions, and unrestricted minifleet medallions.

§ 13-03 Sale by Sealed Bid.

- (a) A bidder shall submit a sealed bid no earlier than three (3) business days prior and no later than 5:00 p.m. on the date set by the Chairperson as the deadline for bidding. A bidder shall submit each sealed bid by hand delivery, either in person or by an agent at the place designated by the Chairperson. Bids shall be received between the hours of 9:00 a.m. and 5:00 p.m. Bids must be received by the Chairperson no later than 5:00 p.m. on the deadline date. A bidder must submit a bid on a form approved by the Chairperson, which is accompanied with the following: (i) a deposit of \$2,000 for each medallion for which a bidder submits a bid, in the form of a certified check, bank check, money order, or a check issued by a taxicab broker or taxicab agent licensed by the Commission pursuant to chapter 5 or chapter 12 of this title, respectively, payable to the "New York City Taxi and Limousine Commission"; and (ii) a letter of commitment for no less than eighty percent (80%) of the bid amount, issued by a bank or credit union licensed to do business in the State of New York or other lender licensed by the State of New York or the Federal Government.
- (b) Each bid must be submitted in the 9" x 12" sealed envelope supplied by the Chairperson on which the bidder shall indicate the following: (i) the bidder's name, address, phone number and date of sale, and (ii) whether the bid is for one or more lot(s) of minifleet medallions or for one lot of one independent medallion and (iii) whether the bid is for an unrestricted medallion lot, an alternative fuel medallion lot or an accessible medallion lot.
- (c) The minimum upset price for medallions to be sold shall be determined by the Chairperson. The Chairperson may establish different upset prices for accessible medallions, alternative fuel medallions, unrestricted independent medallions and unrestricted minifleet medallions. The minimum upset price shall be set by

publication in the City Record no less than ten (10) days prior to the deadline for submission of bids. Any bid received for less than the minimum upset price shall be rejected as non-responsive. The bidder shall not have an opportunity to correct the bid.

- (d) On a date set by the Chairperson, the bids shall be opened in public and the winning bids announced at the public sale. The winning bids shall be the highest bids that are complete in accordance with the provisions of subdivision (a) of this section, and are responsive as set forth in subdivision (c) of this section. The winning bidders shall be notified promptly by certified mail. Tie bids will be decided with a drawing which shall be held at the bid opening. Winning bids shall be published in the City Record and posted at the Commission's office and on the Commission's website.
- (e) Within thirty (30) days of the bid opening, each winning bidder shall file fingerprint records with the Chairperson (unless such records are already on file with the Chairperson and are less than six months old), and either (i) deposit \$25,000 in a certified check for each medallion covered by the winning bid, or (ii) schedule a closing with the Chairperson, for a date approved by the Chairperson.
- (f) The ten (10) highest non-winning bids for unrestricted independent medallion lots and the ten (10) highest non-winning bids for unrestricted minifleet medallion lots shall be notified of reserve status. Separately for accessible medallion lots and for alternative fuel medallion lots, the five (5) highest non-winning bids for alternative fuel medallion lots and the five (5) highest non-winning bids for accessible medallion lots shall also be notified of reserve status. Reserve status may be converted to a winning bid upon the failure of a winning bidder to comply with either subdivision (e) or subdivision (h) of this section. In the event that a reserve status is converted to a winning bid, the holder of such reserve status shall be so notified, and the date of notification shall be deemed to be the date of the bid opening for purposes of calculating such holder's deadlines pursuant to this chapter.
- (g) The rights of a winning bidder are not assignable prior to the close of sale, except that such rights may be assigned to a corporation by a winning bidder who is a shareholder of such corporation.

- (h) Each winning bidder must demonstrate compliance with all of the requirements applicable for issuance of a taxicab license, and must submit proof of purchase of a vehicle eligible for hack-up pursuant to section 3-03 or section 3-03.1 of this title, before a closing can be scheduled. All sales shall close no later than sixty (60) days after bid opening unless extended by the Chairperson for reasonable cause shown.
- (i) All deposits of winning bidders shall be credited toward the sale price or, in the event the winning bidder does not meet the qualifications for issuance of a taxicab license, refunded to the bidder. However, a winning bidder who fails to comply with the deadlines provided in subdivision (e) or subdivision (h) of this section shall forfeit deposits made pursuant to subdivision (a) of this section. The Chairperson will return deposits of non-winning bidders.
- (j) In addition to the amount bid, each winning bidder will be responsible on the transfer closing date for any applicable taxes or fees, provided however, there will not be any medallion transfer tax collected for this initial issuance of medallions. Each medallion license shall be issued for two (2) years and all the required inspection fees shall be collected at closing.
- (k) Each medallion sold pursuant to this chapter must be hacked up, as that term is used in section 3-01(a) of this title, no later than the fifth business day following the day of the closing on the sale of the medallion, unless extended by the Chairperson for reasonable cause shown.
- (l) Failure of a winning bidder to meet the deadlines provided in subdivision (e) or subdivision (h) of this section regarding a winning bid shall result in the disqualification of that bidder as to that winning bid and forfeiture of deposits made pursuant to subdivision (a) of this section.

§ 13-04 Classifications of Medallions

A medallion issued pursuant to this chapter as an accessible medallion, an alternative fuel medallion, an independent medallion, or a minifleet

medallion shall remain so classified despite any change in ownership of the medallion after its issuance.

So if I read this right, the Friedman group has to close on its second tier of bids, because its third tier would lose 24 medallions to Treskunov. Figuring forfeiture of \$2,000 per medallion (not per bid, right?) in the first tier of bids, the effective winning bid price was \$455,722 per medallion, yielding \$24,608,988. Not a bad day at all, and better than we thought we'd do.

Another bright side - Friedman's high bids, even though he walks away from them, stand as a statement to the industry, from the only current owner of accessible medallions, that accessible medallions are worth almost as much as unrestricted medallions.

Subject: Medallion Sale 2006 - Tentative Results and Analysis

All,

I wanted to provide a brief update on the outcome of today's accessible medallion auction. 210 bids were received (203 minifleet and 7 independent) for 545 medallions. There were 54 accessible medallions available.

The tentative winning bids were all at the same exact price of \$477,666.50 per medallion (\$955,333 for a lot of 2 minifleet medallions). The tentative winning bidders are Evgeny Freidman, Vladimir Basin, and Mamed Dzhaniyev. These bids were all submitted together by Mr. Basin so I think it's safe to assume that they all come from essentially the same source.

It is important to note that this trio of bidders appeared to adopt an interesting bidding strategy. They appeared to have "tiered" their bids into three distinct groups. Each group contained 27 bids, 9 bids from each of them. Each bid was for 1 lot of 2 minifleet medallions. So each tiered group included bids for 54 medallions. And every bid in each tiered group was for an identical price. The first group was for \$477,666.50 per medallion, the second group was for \$453,722 per medallion (\$907,444 for a lot of 2), and the third group was for \$416,277.50 per medallion (\$832,555 for a lot of 2). You can draw your own conclusions about which bids will be closed on.

Aside from this trio, the next highest group of bids came from a Yury Treskunov who bid between \$425,666.665 (\$851,333.33 for a lot of 2) and \$416,999.995 (\$833,999.99 for a lot of 2) for 24 medallions (12 bids of 2 lots each).

I've attached two reports for your perusal. The Winners report lists just the tentative winners. It has been posted to the website. The Bidders report lists all bids and the bid amounts, by per medallion bid.

Subject: auction issues

Two issues are raised by the results of the accessible medallion auction:

First, we are required to designate five bids as "reserve status." I take it we have a 54-way tie among the highest non-winning bids. The rules (13-03(d)) provide a mechanism for breaking ties among winning bids, but not among the highest non-winning bids. (In any event, the rules require that the tie-breaking drawing be held "at the bid opening.") We are obligated to notify the reserve status bidders, so we can't ignore this issue - but the rules state no deadline for that notification.

Second, the rules do not provide for replenishing the pool of reserve status bids. On the contrary, the fact that the rules state a specific number of bids to be placed on reserve status indicates an intention not to have an open-ended pool of reserve status bids. This means that Friedman's group can only walk away from five of their bids (10 medallions) - if they walk away from more than that, the reserve pool would be exhausted and the medallions would be unsold. Friedman presumably doesn't see it that way, and he might sue us again if we apply the five-bid limit. On the other hand, someone else might sue us if we don't apply the five-bid limit.

EXHIBIT 8

Statement of Basis and Purpose of Rules

The rules amend chapter 13 of the rules of the Taxi and Limousine Commission (“TLC”), governing the issuance and public sale of taxicab licenses, generally known as medallions. The changes are made generally to reflect experience gained with the auctions of taxicab licenses held in 2006 and to ensure that future auctions provide for full and fair competition among all bidders.

These amended rules would apply to an auction of one hundred fifty taxicab licenses authorized by chapter 535 of the laws of 2006 and section 19-532 of the New York City Administrative Code, an auction of unsold medallions remaining from the taxicab license auctions authorized by chapter 63 of the laws of 2003 and section 19-532 of the New York City Administrative Code, and any additional auctions that might be authorized in the future.

The amended rules include a number of technical and terminological amendments to existing rules, as well as the following substantive amendments:

- The amended rules eliminate provisions permitting a minifleet purchaser to purchase only one medallion to add to an existing minifleet; experience with prior auctions demonstrated that minifleet purchasers did not use that option.
- The rules would eliminate the ability of licensed taxicab brokers and their principals and employees to purchase medallions on their own behalf while advising potential purchasers at the auction. This change is made to reduce the possibility of collusion or other misuse of bid information.
- The rules provide anti-collusive bidding language and further restrict the ability of winning bidders who are also reserve bidders to default on winning bids in favor of their reserve bids. These changes are made to align practices more closely with those in place for the procurement process under the General Municipal Law and to assure that the auctions are open, fair and competitive.
- The rules permit the Chairperson to establish separate reserve classes (of at least 10 % of the number of medallions being sold in each class) for each type of medallion being sold. This change is done to permit the TLC to set reserve classes of a size that will help guarantee that all medallions will be sold in any auction.
- The rules provide that tie bids will be decided by drawing at the public bid opening, regardless whether the bidders choose to attend the opening. This provision is intended to eliminate an unnecessary delay in the auction process.
- The rules provide that a bidder’s failure to close within 30 days of notification of the winning bid will require submission of an additional deposit of \$25,000, and that failure to close on the bid within 60 days of the bid opening would result in a

disqualification of the winning bidder and forfeiture of the first deposit of \$2,000 per medallion. This provision is intended to ensure that winning bidders close on their bids promptly, and put their medallions into service promptly.

- The rules expressly provide that closing on a winning bid shall be scheduled only after the winning bidder demonstrates satisfaction with the requirements of medallion ownership and submits proof that the bidder has purchased a vehicle that is eligible for hack-up. This provision is intended to ensure that winning bidders promptly qualify to own medallions, and promptly put their medallions into service.
- The rules provide that bidders must be individual persons, to reflect experience in prior auctions, although bids will continue to be assignable to partnerships, corporations and limited liability companies in which a winning bidder is a partner, shareholder, or member. The TLC's experience in 2006 was that all bids were placed by individuals, but that many winning bids were closed upon by corporations, limited liability companies, or partnerships. Bidders typically do not organize entities to own medallions until they know that they are winning bidders.
- The rules clarify that new fingerprints must be obtained prior to closing from any winning bidder who does not have fingerprints in electronic format on file with the TLC. The prior rules specified that fingerprints had to be obtained within 30 days of the bid opening, but the experience of the 2006 auction indicated that the timing of the closing, rather than the bid opening, was a more important reference point for obtaining fingerprints.
- The rules clarify that the statutory ratio of independent medallions and minifleet medallions will be maintained as required by the Administrative Code.

- (f) [The ten (10) highest non-winning bids for unrestricted independent medallion lots, and the ten (10) highest non-winning bids for unrestricted minifleet medallion lots shall be notified of reserve status. Separately for accessible medallion lots and for alternative fuel medallion lots, the five (5) highest non-winning bids for alternative fuel medallion lots and the five (5) highest non-winning bids for accessible medallion lots shall also be notified of reserve status.] The Chairperson shall determine for each type of medallion being sold the number of the highest, non-winning bids for such type of medallion that will be accorded reserve status, provided that such number shall be not less than 10 per cent of the total number of medallions of that type being sold. The holders of the highest non-winning bids which are accorded reserve status shall be notified of such reserve status. Reserve status may be converted to a winning bid upon the failure of a winning bidder to comply with [either] subdivision (e) [or subdivision (h)] of this section. In the event that a reserve status is converted to a winning bid, the holder of such reserve status shall be so notified, and the date of notification shall be deemed to be the date of the bid opening for purposes of calculating such holder's deadlines pursuant to this chapter. If, for any type of medallion, there are a greater number of bids at the lowest bid price qualifying for reserve status than are established by the Chairperson pursuant to this subdivision, a drawing will be held to determine which of those tied bids will hold reserve status. Such drawing shall be held at the bid opening. Any bids otherwise qualifying for reserve status under this subdivision made by any bidder who was a winning bidder for any lot will be disqualified from reserve status upon such winning bidder's failure to comply with the requirements of subdivision (e) of this section.
- (g) The rights of a winning bidder are not assignable prior to the close of sale, except that such rights may be assigned to a corporation, limited liability company or partnership by a winning bidder who is a shareholder of such corporation, member of such limited liability company, or partner of such partnership. No winning bid may be assigned to any corporation, limited liability company or partnership the shareholders, members, or partners of which include any winning bidder for any lot who has failed to comply with the requirements of subdivision (e) of this section with respect to such lot.
- (h) Each winning bidder must demonstrate compliance with all of the requirements applicable for issuance and ownership of a taxicab license, including those contained in sections 1-02 and 1-03 of this title, must submit all documentation required by the Chairperson, must clear outstanding fines and penalties, and must submit proof of purchase of a vehicle eligible for hack-up [pursuant to section 3-03 or section 3-03.1 of this title] as required by subdivision (e) of this section, before a closing can be scheduled. Each winning bidder must also, prior to the closing, submit fingerprint records as directed by the Chairperson unless such bidder has electronic fingerprints already on file with the Commission. Each winning bidder of an independent medallion must demonstrate an ability to

comply with the owner-must drive service requirements of section 1-09 (b) of this title by holding or obtaining a taxicab driver's license issued under chapter 2 of this title or by providing as an owner of an entity to which such bid has been assigned a person who holds such a license.[All sales shall close no later than sixty (60) days after bid opening unless extended by the Chairperson for reasonable cause shown.]

- (i) All deposits of winning bidders shall be credited toward the sale price or, in the event the winning bidder does not meet the qualifications for issuance of a taxicab license, refunded to the bidder. However, a winning bidder who fails to comply with the deadlines provided in subdivision (e) [or subdivision (h)] of this section, including a winning bidder who does not attempt to meet the requirements of subdivision (h) of this section, shall forfeit deposits made pursuant to subdivision (a) of this section. The Chairperson will return deposits of non-winning and non-responsive bidders. Deposits submitted in respect of bids which achieve reserve status will be held until such bids are converted to winning bids, or until the sales of all lots of medallions of the type for which the bid was made have closed.
- (j) In addition to the amount bid, each winning bidder will be responsible on the transfer closing date for any applicable taxes or fees including two (2) years' worth of license and inspection fees as provided by sections 1-04 and 1-05 of this title, provided however, there will not be any medallion transfer tax collected for this initial issuance of medallions. Each medallion license shall be issued for two (2) years and all the required inspection fees shall be collected at closing.
- (k) Each medallion sold pursuant to this chapter must be hacked up, as that term is used in section 3-01(a) of this title, no later than the fifth business day following the day of the closing on the sale of the medallion, unless extended by the Chairperson for reasonable cause shown.
- (l) Failure of a winning bidder to meet the deadlines provided in subdivision (e) [or subdivision (h)] of this section regarding a winning bid shall result in the disqualification of that bidder as to that winning bid and forfeiture of deposits made pursuant to subdivision (a) of this section.
- (m) Any bid achieving reserve status made by a winning bidder for another bid for which such winning bidder who has failed to meet the requirements of subdivision (e) of this section with respect to such other bid shall be disqualified and the deposits made pursuant to subdivision (a) of this section with respect to such bid will be forfeited.
- (n) If any winning bidder who is a winning bidder in respect of multiple bids, including any bids assigned to an entity in which such bidder is an owner, partner, shareholder member, shall fail to meet the requirements of subdivision (e) of this section with respect to some but not all such bids, such bidder shall be disqualified first on the lowest such winning bid, and then in ascending order of

each of the next lowest winning bids. As to such disqualified bids, the deposits made pursuant to subdivision (a) of this section in respect of such bids shall be forfeited, as required in subdivision (l) of this section.

- (o) No bidder shall collude, consult, communicate or agree in any way with any other bidder or prospective bidder for the purpose of restricting competition or inducing any other prospective bidder to submit or not submit a bid for purpose of restricting competition. No bidder shall disclose any bid price either directly or indirectly to any other bidder. Violation of this subdivision or submission of a false certification under subdivision (a) of this section shall result in disqualification of all bids submitted by such bidder, in addition to any other penalties provided by law.
- (p) No taxicab broker may submit a bid to purchase any lot if such taxicab broker is acting as a taxicab broker for any bidder. For purposes of this subdivision, "taxicab broker" shall include any person or entity, whether or not licensed as a taxicab broker pursuant to chapter 5 of this title, that represents or advises any bidder or potential bidder in connection with an actual or potential bid, and any person or entity which is an owner, shareholder, partner, member or employee of such person or entity.
