Adopted by the Board of Aldermen, June 9, 1903.

No. 343.

Whereas, The Board of Rapid Transit Railroad Commissioners for The City of New York did on or about the 21st day of February, 1900, enter into a contract with John B. McDonald for the construction and operation of a rapid transit railroad in The City of New York, the Routes and General Plan of which were adopted by the said Board of Rapid Transit Railroad Commissioners by its resolution adopted on the 14th day of January and the 4th day of February, 1897, and later approved by the municipal authorities of The City of New York and by the Appellate Division of the Supreme Court for the First Judicial Department; and

Whereas, The said Board of Rapid Transit Railroad Commissioners for The City of New York did by resolution of April 16, 1903, modify and amend the said Routes and General Plan as follows:

Resolution of April 16, 1903.

Whereas, This Board did, on the 14th day of January, 1897, and the 4th day of February, 1897, adopt certain Routes and General Plan for a rapid transit railroad in The City of New York; and

Whereas, The said Routes and General Plan were afterwards duly approved by the municipal authorities of The City of New York, and were duly consented to by Commissioners appointed by the Appellate Division of the Supreme Court, which consent was duly confirmed by the said Appellate Division, in lieu of the consent of the owners of a majority in value of the property along the said routes; and

Whereas, Thereafter and on or about the 21st day of February, 1900, The City of New York did by this Board enter into a certain contract with John B. McDonald for the construction and operation of the said rapid transit railroad; and

Whereas, The said rapid transit railroad has been actually constructed with the tunnel under Park avenue, between the northerly line of Thirty-third street and the southerly line of Forty-second street, divided into an easterly tunnel section and a westerly tunnel section situated and built in the manner hereinafter set forth; and

Whereas, This Board has believed that such actual construction conformed with the said Routes and General Plan and has intended that it should so conform; and

Whereas, The excavation and the masonry work of the said easterly tunnel section have been completed and the preparation of the roadbed and the laying of the rails are the only work remaining to fit such easterly tunnel section for its final uses; and

Whereas, Certain property owners along Park avenue have questioned the validity of the location and construction of the said easterly tunnel section; now therefore it is

Resolved, That, subject to the consents and approvals to be first obtained, as in this resolution hereinafter mentioned, the said Routes and General Plan heretofore adopted by this Board be and they hereby are modified and amended by adding thereto the words following:

The foregoing Routes and General Plans, anything therein contained to the contrary notwithstanding, shall be deemed to provide for construction and operation of the said railroad along the portion of the route thereof under Park avenue, between Thirty-third street and Forty-second street, in manner following, to wit:

On the portion of the said route under Park avenue, between Thirty-third street and Forty-second street, the tunnel shall be constructed in two tunnel sections, a westerly tunnel section to contain the two westerly tracks, and an easterly tunnel section to contain the two easterly tracks; and such easterly tunnel section shall be constructed, maintained and operated in the same location as the easterly tunnel section, which was, prior to the first day of April, 1903, actually constructed under Park avenue, and was on that date located thereunder, that is to say, in manner substantially as follows: The said easterly tunnel section shall begin at the tunnel of the said railroad under Park avenue, containing four tracks, and as it exists without subdivision at a line drawn parallel with the centre line of Thirty-third street and one hundred (100) feet northerly therefrom, and shall be twenty-five (25) feet in width between the interior or finished surfaces of the walls of the said easterly tunnel section; and the centre line of the said easterly tunnel section shall run northerly from the said line parallel with and one hundred (100) feet northerly from the centre line of Thirty-third street, the said centre line of the said tunnel section coinciding at its beginning with the line midway between the easterly two of the said four tracks, and diverging therefrom at an acute angle therewith, so as to

be distant easterly from the centre line of the said avenue twenty-one and eight one-hundredths (21.08) feet or thereabouts at the centre line of Thirty-fourth street, and thence further diverging from the said centre line so as to be distant forty-seven and five-tenths (47.5) feet or thereabouts easterly from the centre line of the said avenue, at the centre line of Thirty-seventh street; thence running substantially parallel with the centre line of the said avenue to the centre line of Fortieth street; thence curving to the west so as to bring it thirty-nine and ninety-six one-hundredths (39.96) feet or thereabouts easterly from the centre line of the said avenue at the centre line of Forty-first street, and still curving to the west and intersecting the centre line of the said avenue at a point one hundred and twenty-nine (129) feet or thereabouts north of the centre line of Forty-first street, and thence running to and merging in the line midway between the two easterly tracks in the tunnel of the said railroad under Park avenue and Forty-second street, containing four tracks, but no part of the said easterly tunnel section to approach nearer to the easterly line of said avenue than six (6) feet.

The said location of the said easterly tunnel section is shown substantially upon the map or diagram hereto annexed. The right to construct, maintain and operate such easterly tunnel section as set forth in this amendment to the Routes and General Plan, shall be deemed to be in addition to and in no way to prejudice the rights originally accorded or provided by the said Routes and General Plan hereby modified and amended.

Resolved, That, whereas this Board has duly made the inquiries and investigations necessary or proper in the premises, and has determined that the modification and amendment aforesaid of the said Routes and General Plan is necessary for the interests of the public and of The City of New York and should be established as herein provided, this Board does hereby determine and establish the said modification and amendment subject to the consents and approvals to be first obtained as hereinafter mentioned; and it is further

Resolved, That the said modification and amendment of the Routes and General Plan shall take effect only upon and after the following consents thereto and approvals thereof shall be duly had, to wit:

I. The consent of the Board of Aldermen of The City of New York.

II. The consent of the Mayor of The City of New York.

III. The consent of the owners of a majority in value of the property along Park avenue, between a line drawn parallel to the centre line of Thirty-third street and distant one hundred (100) feet northerly therefrom and a line drawn parallel to the centre line of Forty-first street and distant one hundred and twenty-five (125) feet northerly therefrom, or if such consents cannot be obtained, then in lieu thereof the determination of three Commissioners to be appointed by the Appellate Division of the Supreme Court, duly confirmed by the said Appellate Division.

A true copy.

BION L. BURROWS, Secretary.

—and

Whereas, The said Board of Rapid Transit Railroad Commissioners did thereafter, on the 17th day of April, 1903, present to this Board a copy of said resolution of April 16, 1903, and the modification and amendment of the routes and general plan of the Rapid Transit Railroad, as therein set forth, and this Board having, by resolution duly adopted, fixed a day not less than one week nor more than ten days after the receipt of such plans and conclusions therein contained for the consideration thereof, and having duly considered the same,

Resolved, That the Board of Aldermen of The City of New York, by a vote of a majority of all the members of the said Board, does hereby approve the said modification and amendment of the routes and general plan and the plans and conclusions therein contained, and does consent to the construction and operation of the railway or railways in accordance with the modification and amendment of the routes and general plan, as set forth in the said resolution of April 16, 1903, and The City of New York does hereby approve such modification and amendment and such plans and conclusions, and consents to such construction and operation.

Adopted by the Board of Aldermen, June 2, 1903.

Correction on No. 261.

The resolution for regulating and grading, etc., Elsmere place, was correctly forwarded to the Board of Estimate and Apportionment, but through a typographical error the minutes of the Local Board of Morrisania, Twenty-fourth District, as

printed in the "City Record" of May 7, 1903, stated the limits of the improvement as being "Elmsmere place, from Prospect avenue to Daly avenue," instead of "Elmsmere place, from Prospect avenue to Southern Boulevard." With this correction the minutes of the Local Board of Morrisania, Twenty-fourth District, of April 30, 1903, were adopted as printed in the "City Record" of May 7, 1903.

New York, May 15, 1903.

Mr. HENRY A. GUMBLETON, Secretary, Local Boards, Twenty-fourth and Twenty-fifth Districts:

Dear Sir—Referring to your letter of April 2, addressed to Mr. Vanderbilt, containing a resolution asking this company to build an overhead foot bridge at East One Hundred and Seventy-fourth street and Park avenue, in the Borough of The Bronx, investigation shows that it is hardly the duty of the railroad company to incur this expense, but if you so desire, we are willing to consent to the erection of such a foot bridge by the City after plans have received the approval of the chief engineer of the railroad company.

Yours very truly,

W. J. WILGUS, Fifth Vice-President.

On motion, laid over; appellant directed to file plans.

Appeal No. 122 of 1903, New Building 220 of 1903, northeast corner Madison avenue and Forty-ninth street, Manhattan; George Hill, architect and appellant.

Whether or not the roof house is of such size as to warrant its being considered as a thirteenth story; the entire roof house occupies 53 per cent. of the area of the building; but of this amount a considerable percentage is employed for toilet rooms, halls, passages and storerooms, so that the living quarters are materially less than 50 per cent. of the area of the building.

It is represented that the following features are embodied in the plans, which are better than the law requires:

The roof house is built entirely with 12-inch exterior brick walls.

The servants' stairway is in an inclosed shaft the entire height of the building.

All elevator shafts are entirely inclosed throughout their entire height.

Double sets of fireproof doors are put in the hallway in such a way as to practically isolate the main stairs, practically dividing the building into three separate sections.

The building stands on a corner, and is provided with free light and air on three sides, two sides being served by the street and the other by means of a court 10 feet wide running from the street the full depth of the lot.

Concerning the pent house itself, the following is to be observed:

The roof of the pent house is 146 feet 8 inches above the curb. All of the surrounding walls are of brick, and will be carried up to their proper heights.

The construction of the pent house throughout will be absolutely fireproof, with kalamein doors, door frames, windows, window frames and trim.

The floors will be of cement.

The proper skylights will be provided, and no combustible of any sort will be employed in its construction.

The stand pipe will extend into the pent house, with hose connections.

Mr. George Hill appeared before the Board.

On motion, approved on condition that the machinery inclosure above the roof of the pent house shall terminate on the north side of the service elevator.

Appeal No. 123 of 1903, Fireproof Shutter Case 16 of 1903, Nos. 108 and 110 East One Hundred and Twenty-fifth street; J. M. Horton, appellant.

Mr. Horton appeared before the Board.

On motion, referred to Chief Purroy for examination and report with recommendation.

Appeal No. 124 of 1903, New Building 320 of 1903, Nos. 144 to 150 West Eighteenth street, Manhattan; Bernstein & Bernstein, architects and appellants.

To allow one of the interior continuous staircases in each building to be placed in rear of building.

Mr. M. Bernstein appeared before the Board.

On motion, laid over; appellant directed to amend plans.

Appeal No. 125 of 1903, Fireproof Shutter Case 17 of 1903, Nos. 2420 to 2426 First avenue, Manhattan; Maas, Blum & Co., appellants.

On motion, referred to Chief Purroy for examination and report with recommendation.

Adjourned.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable. Each bid or estimate shall contain the name and place of residence of the person making the same, the names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 430 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City or New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
