Hon. PATRICK F. MCGOWAN, Chairman of the Board of Aldermen:

Dear Sir—I am instructed to thank you and the other members of the Board for their kind consideration in granting the increase passed by the Board of Estimate giving the Sweepers five dollars (\$5) per month additional salary, which I know will be appreciated and shown in the performance of their work.

Which was ordered on file.

No. 192.

Twenty-eighth Ward Board of Trade,  
Headquarters, No. 1612 Broadway,  
January 27, 1908.

Hon. PATRICK F. McGOWAN, President of the Board of Aldermen, New York City, N. Y.:

Dear Sir—Under the laws of the State of New York the Principals of Public Schools are obliged at frequent intervals to hold fire drills, and it is the practice in those which are well regulated to march the children clear of the building, marshaling them in squads in the vicinity of the school on the adjoining streets, so that in the event of an actual fire the children who have succeeded in making their escape will not block the egress of others, and it has been found that in some cases while these drills are in progress they are interfered with by reckless drivers, who, failing to appreciate the importance of the matter, proceed through the lines. In view of this it is recommended that the committee of the Board of Aldermen which now has in preparation traffic regulations for the government of drivers and others, prepare an ordinance which will provide a suitable penalty for driving through lines where these drills are in progress. A recent occurrence in this vicinity has just emphasized the necessity of this legislation in a forcible manner.

Very respectfully,

ALBERT FIRMIN, President.

Which was referred to the Committee on Streets, Highways and Sewers.

## COMMUNICATIONS FROM CITY, COUNTY AND BOROUGH OFFICERS.

The President laid before the Board the following communication from the Board of Estimate and Apportionment, transmitting resolutions:

No. 193.

Board of Estimate and Apportionment, City of New York,  
Office of the Secretary, No. 277 Broadway,  
February 10, 1908.

Hon. PATRICK F. McGOWAN, President, Board of Aldermen:

Dear Sir—I send you herewith certified copy of a resolution adopted by the Board of Estimate and Apportionment February 7, 1908, recommending to the Board of Aldermen the establishment of additional positions in the office of the Board of Aldermen and City Clerk, in order to comply with the requirements of chapter 742, Laws of 1907 (Marriage License Law), together with copy of report of the Select Committee, consisting of the Comptroller and President of the Board of Aldermen, to which, on January 10, 1908, was referred the request of the City Clerk for the establishment of said positions.

I also enclose form of resolution for adoption by the Board of Aldermen to indicate its concurrence therein.

Yours very truly,

JOSEPH HAAG, Secretary.

January 27, 1908.

To the Honorable the Board of Estimate and Apportionment:

Gentlemen—Transmitted herewith is a report of the Bureau of Municipal Investigation and Statistics of the Finance Department, dated January 23, 1908, relative to the request of the City Clerk for an addition to his clerical force of seven Clerks and one Italian and one Hebrew Interpreter, at \$1,200 each per annum, for New York County, and the same number for the County of Kings, which matter was referred to a Select Committee, consisting of the Comptroller and the President of the Board of Aldermen.

In view of the facts contained in said report the adoption of the resolution attached hereto is respectfully recommended.

Yours respectfully,

H. A. METZ, Comptroller,  
P. F. McGOWAN,  
President, Board of Aldermen,  
Select Committee.

January 23, 1908.

Hon. HERMAN A. METZ, Comptroller:

Sir—In the matter of a communication from the City Clerk, requesting an addition to his office force, which was referred by the Board of Estimate and Apportionment to a Select Committee consisting of the Comptroller and the President of the Board of Aldermen for consideration, and by you to the Bureau of Municipal Investigation and Statistics for examination, I beg to report as follows:

Chapter 742 of the Laws of 1907, entitled "An Act to amend the domestic relations law, by providing for marriage licenses," which became operative on January 1, 1908, provides, in part, as follows:

"Section 8. It shall be necessary for all persons intending to be married to obtain a marriage license from the town or city clerk of the town or city in which the woman to be married resides and to deliver said license to the clergyman or magistrate who is to officiate before the marriage can be performed. If the woman or both parties to be married are non-residents of the state such license shall be obtained from the clerk of the town or city in which the marriage is to be performed.

"Section 9. The town or city clerk of each and every town or city in this state is hereby empowered to issue marriage licenses to any parties applying for the same who may be entitled under the laws of this state to contract matrimony, authorizing the marriage of such parties \* \* \*. The license issued and the certificate duly signed by the person who shall have solemnized the marriage therein authorized shall be returned by him to the office of the town or city clerk who issued the same on or before the tenth day of the month next succeeding the date of the solemnizing of the marriage therein authorized.

"Section 10. It shall be the duty of the town or city clerk when an application for a marriage license is made to him to require each of the contracting parties to sign and verify a statement or affidavit before such clerk or one of his deputies, \* \* \*. The town or city clerk is hereby given full power and authority to administer oaths and may require the applicants to produce witnesses to identify them or either of them and may also examine under oath or otherwise other witnesses as to any material inquiry pertaining to the issuing of the license. If it appears from the affidavits and statements so taken, that the persons for whose marriage the license in question is demanded are legally competent to marry, the said clerk shall issue such license, \* \* \*. Before issuing any license herein provided for, the town or city clerk shall be entitled to a fee of one dollar, which sum shall be paid by the applicants before or at the time the license is issued; and all such fees so received by the clerks of cities shall be paid monthly to the treasurer of the city wherein such license is issued."

"Section 14. Each town and city clerk hereby empowered to issue marriage licenses shall keep a book in which he shall record and index all affidavits, statements, consents and licenses, together with the certificate attached showing the performance of the marriage ceremony, which book shall be kept and preserved as a part of the public records of his office. On or before the fifteenth day of each month the said town and city clerk shall file in the office of the county clerk of the county in which said town or city is situated the original of each affidavit, statement, consent, license and certificate, which have been filed with or made before him during the preceding month. He shall not be required to file any of said documents until the license is returned with the certificate showing that the marriage to which they refer has been actually performed."

This law has substantially increased the work of the City Clerk, and to provide for this increased work he asks for the following additional force for his main office in the Borough of Manhattan (New York County), and for the office of the Deputy in the Borough of Brooklyn (Kings County):

## Boroughs of Manhattan and The Bronx.

Three Clerks, preparing and examining applications, at \$1,200 each.....	\$3,600 00
Two Clerks, posting in record books from applications, at \$1,200 each....	2,400 00
One Clerk, indexing records.....	1,200 00
One Clerk, recording franchises (to take place of Clerk assigned in charge of marriage license bureau).....	1,200 00
One Italian Interpreter.....	1,200 00
One Hebrew Interpreter.....	1,200 00

## Borough of Brooklyn.

Three Clerks, preparing and examining applications, at \$1,200 each.....	3,600 00
Two Clerks, posting in record books from applications, at \$1,200 each....	2,400 00
One Clerk, indexing records.....	1,200 00
One Clerk, general office work.....	1,200 00
One Italian Interpreter.....	1,200 00
One Hebrew Interpreter.....	1,200 00

Total..... \$21,600 00

At present the work of preparing applications, issuing licenses, posting, etc., is being performed, as far as possible, by Clerks taken from their regular duties and assigned to this work, and although some progress has been made in the Borough of Manhattan in the matter of posting and indexing, nothing has been done in the Borough of Brooklyn in that portion of the work by reason of the fact that there are no Clerks available for the purpose. Up to January 21 the number of licenses issued in the main office of the City Clerk (includes the Boroughs of Manhattan and The Bronx) approximated 2,200, and in the Borough of Brooklyn, 800.

The time required for filling out the application and affidavit blank varies considerably, for the reason that from 70 to 80 per cent. of the applicants are foreign born, and as many of them have but little knowledge of English, the obtaining of correct answers to the necessary questions is, in many cases, difficult and tedious.

The number of registered marriages in 1907 in the Boroughs of Manhattan and The Bronx was about 34,500, and 11,500 in the Borough of Brooklyn, and it is estimated that there will be an increase during 1908 of about 15 per cent., an estimate which would seem to be reasonable, based upon the applications for licenses already made.

The law providing for the issuance of a license before the ceremony of marriage can be solemnized is a salutary one, and it is the opinion of your representative, formed through personal observation of the difficulties under which it is at present administered, that sufficient help should be employed to properly carry out its requirements. In considering the expense which will be incurred by the employment of additional help, it should be remembered that the increased cost will be more than offset by the revenue derived by the City through the payment into its treasury, under the provisions of the law, of the fee of \$1 exacted for each license granted, which will probably amount to \$50,000 during 1908.

I would respectfully recommend that the request of the City Clerk for additions to the force of his office be granted as follows:

## Boroughs of Manhattan and The Bronx (New York County).

Three Clerks, preparing and examining applications, at \$1,200 each.....	\$3,600 00
Two Clerks, posting in record books from applications, at \$1,200 each....	2,400 00
One Clerk, indexing records.....	1,200 00
One Italian Interpreter.....	1,200 00
One Hebrew Interpreter.....	1,200 00

Total..... \$9,600 00

## Borough of Brooklyn (Kings County).

Two Clerks, preparing and examining applications, at \$1,200 each.....	\$2,400 00
One Clerk, posting in record books from applications.....	1,200 00
One Clerk, indexing records.....	1,200 00
One Italian Interpreter.....	1,200 00
One Hebrew Interpreter.....	1,200 00

Total..... \$7,200 00

Total expense for Boroughs of Manhattan, The Bronx and Brooklyn, \$16,800 per annum.

Yours respectfully,

(Signed) CHAS. S. HERVEY,  
Supervising Statistician and Examiner.

Whereas, The Board of Estimate and Apportionment, at a meeting held February 7, 1908, adopted the following resolution:

Resolved, That for the purpose of complying with the requirements of chapter 742, Laws of 1907, the Board of Estimate and Apportionment, in accordance with the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen the establishment of the following additional positions in the office of the Board of Aldermen and City Clerk:

## Boroughs of Manhattan and The Bronx.

	Per Annum, Each.
3 Clerks, preparing and examining applications.....	\$1,200 00
2 Clerks, posting in record books from applications.....	1,200 00
1 Clerk, indexing records.....	1,200 00
1 Italian Interpreter.....	1,200 00
1 Hebrew Interpreter.....	1,200 00

## Borough of Brooklyn.

2 Clerks, preparing and examining applications.....	1,200 00
1 Clerk, posting in record books from applications.....	1,200 00
1 Clerk, indexing records.....	1,200 00
1 Italian Interpreter.....	1,200 00

No. 194.

Board of Estimate and Apportionment, City of New York,  
Office of the Secretary, No. 277 Broadway,  
February 10, 1908.

Hon. PATRICK F. McGOWAN, President, Board of Aldermen:

Dear Sir—I transmit herewith certified copy of a resolution adopted by the Board of Estimate and Apportionment February 7, 1908, recommending the establishment of additional positions in the office of the County Clerk, New York County, in order to carry out the requirements of chapter 742, Laws of 1907 (Marriage License Law), together with copy of report of the Select Committee, consisting of the Comptroller and the President, Board of Aldermen, relative thereto.

I also enclose form of resolution for adoption by the Board of Aldermen to indicate its concurrence therein.

Very truly yours,

JOSEPH HAAG, Secretary.

Department of Finance,  
January 27, 1908.

To the Honorable the Board of Estimate and Apportionment:

Gentlemen—Transmitted herewith is a report of the Bureau of Municipal Investigation and Statistics of the Finance Department, dated January 27, 1908, relative to

the request of the County Clerk of New York for an appropriation of \$6,000 to meet the salaries of five Clerks, which matter was referred to a Select Committee, consisting of the Comptroller and the President of the Board of Aldermen.

In view of the facts contained in said report the adoption of the resolution attached hereto is recommended.

Respectfully yours,  
H. A. METZ, Comptroller,  
P. F. McGOWAN,  
President, Board of Aldermen,  
Select Committee.  
January 27, 1908.

Hon. HERMAN A. METZ, Comptroller:

Sir—In the matter of a request of the Hon. Peter J. Dooling, County Clerk, New York County, for an appropriation of \$6,000 to provide for the salaries of additional Clerks in his office, which was referred by the Board of Estimate and Apportionment to a Select Committee, consisting of the Comptroller and the President of the Board of Aldermen, for consideration, and by you to the Bureau of Municipal Investigation and Statistics for examination, I beg to report as follows:

Under the provisions of chapter 742, Laws of 1907, which went into effect on January 1, 1908, marriages can only be solemnized after a license has been issued by a city or town clerk. These licenses, together with the certificate of marriage, are returned to the clerk by whom the license was issued, entered upon his records and the original application, affidavit, license and marriage certificate are filed monthly in the office of the clerk of the county in which is located the office of the city or town clerk granting the license. The duties of the county clerk are prescribed in section 15, as follows:

"Section 15. The county clerk of each county shall record and index in a book kept in his office for that purpose each statement, affidavit, consent and license, together with the certificate thereto attached, showing the performance of the marriage ceremony, filed in his office. During the first twenty days of the month of January, April, July and October of each year the county clerk shall transmit to the state department of health at Albany, New York, a copy of all affidavits, statements, consents and licenses with certificates attached filed in his office during the three months preceding the date of said report, also copies of all contracts of marriage made and recorded in his office during said period entered into in accordance with subdivision four of section six of this chapter, which said record shall be kept on file and properly indexed by the state department of health. The services rendered by the county clerk in carrying out the provisions of this act shall be a county charge, except in counties where the county clerk is a salaried officer, in which case they shall be a part of the duties of his office."

To meet the expense which will be incurred by the requirements of the section noted, the County Clerk asks for an appropriation of \$6,000 to provide salaries for the following additional employees in his office:

2 Clerks, posting in record books from applications and licenses; at \$1,200 each	\$2,400 00
1 Clerk, indexing records	1,200 00
2 Clerks, to make duplicate copies for State Department of Health, at \$1,200 each	2,400 00

Taking as a basis the licenses issued up to January 21 in the Boroughs of Manhattan and The Bronx (County of New York), numbering about 2,200, it would seem that the total number of licenses issued during the year will be from 38,000 to 40,000, for each of which a fee of \$1 will be paid into the City Treasury. The entering upon the records in the County Clerk's office of this large number of licenses, together with the other data required under the law, and the furnishing of copies of same to the State Department of Health, will considerably increase the work of that office—an increase which the present force of employees will be unable to meet.

I would respectfully recommend that the additional employees proposed by the County Clerk be allowed, as per resolution attached. As the funds available for the office of the County Clerk are not sufficient to meet the increased cost caused by the employment of this additional help, application will have to be made to the Board of Aldermen by the County Clerk for an issue of Special Revenue Bonds to provide means for the payment of their salaries.

Yours respectfully,  
(Signed) CHAS. S. HERVEY,  
Supervising Statistician and Examiner.

Whereas, The Board of Estimate and Apportionment at a meeting held February 7, 1908, adopted the following resolution:

Resolved, That for the purpose of complying with the requirements of chapter 742, Laws of 1907, the Board of Estimate and Apportionment, in accordance with the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen the establishment of the following additional positions in the County Clerk's office, County of New York:

2 Clerks, posting in record books from applications and licenses, each....	\$1,200 00
1 Clerk, indexing records	1,200 00
2 Clerks, to make duplicate copies for State Department of Health, each..	1,200 00

Resolved, That the Board of Aldermen hereby approves of and concurs in the above resolution and fixes the salaries of said positions as set forth therein.

The President laid before the Board the following communication from the President, Borough of Brooklyn:

No. 195.

The City of New York,  
Office of the President of the Borough of Brooklyn,  
Brooklyn, February 6, 1908.

To the Honorable Board of Aldermen, City Hall, Manhattan:

Gentlemen—I forward to you herewith a report addressed to the Superintendent of Highways on January 29 by John C. Sheridan, Chief Engineer of that Bureau. I approve of Mr. Sheridan's recommendation, and, therefore, request your Honorable Board to adopt a resolution authorizing an issue of Special Revenue Bonds to the amount of fifty-four thousand dollars (\$54,000), the proceeds to be used by the President of the Borough of Brooklyn for the purpose of paying Inspectors of Regulating, Grading and Paving in the Bureau of Highways.

Respectfully,  
BIRD S. COLER, President, Borough of Brooklyn.

January 29, 1908.

Hon. THOMAS R. FARRELL, Superintendent of Highways:

Dear Sir—A committee representing the Inspectors of Regulating, Grading and Paving employed in this Bureau have waited on me petitioning that the regular Inspectors employed be put on an annual salary instead of the present method of compensation, which is on the per diem basis.

This is a matter that I have carefully considered, not only at the present time, but for several years past, and I am heartily in favor of the change. To one familiar with the inspection service of the City the advantages resulting from having the regular Inspectors on a salary basis are obvious. The Inspectors in the performance of their duties on the various works and throughout the year, should be independent of any considerations other than the judgment of the question immediately in hand. Further, it is mighty poor compensation to have only the knowledge of duty well done to carry an Inspector and his family over the winter season.

Every year, under the present system, when the work shuts down it is necessary to lay off a considerable number of men, and this fate comes to a good and conscientious Inspector as often as to one who is not as capable, simply because of the utter lack of work. What surprises me most in the matter is that we are able to obtain as good a force of Inspectors as we have with these conditions existing. It is needless for me to mention the temptations that might beset an Inspector under these conditions.

I consider that it would be vastly to the interests of the City to put a certain number of men on a yearly salary, thus insuring the orderly and continuous conduct of the inspection service year in and year out by men, who, through length of service and experience are vastly more valuable than new men recently appointed, and on whom oftentimes we have to depend in matters of importance.

I would suggest that, say forty men be put on a salary basis at a compensation of \$1,350 per annum. These men would then be in the continuous employ of the Bureau, and at all times available, and is about the force that is necessary at all times. During the outdoor working season, of course, it would be necessary to obtain more men. These additional men could be taken from a Civil Service list on the per diem basis, and their services used as long as required and then returned to the list, as the need for them diminished or ceased. In order to carry out this idea it would first be necessary to obtain an additional appropriation from the Board of Estimate and Apportionment of \$54,000.

Speaking for the Inspectors, and also for what I consider the welfare of the Bureau, permit me to ask you to take this matter up with the Borough President and urge upon him the desirability of the change. The matter, as I understand it, has been taken up by the Inspectors in the other Boroughs, and is being presented to the respective Borough Presidents, and if anything is to come of it, I am sure that the Brooklyn men are as worthy of consideration as are the Inspection forces in any of the other Boroughs. It is my opinion, taken as a whole, that the Inspection force of this Bureau is conscientious, capable, and honest in the performance of their duties, and I would be more than pleased to have them obtain some material recognition, and adequate compensation for the performance of their duties.

Respectfully,  
JNO. C. SHERIDAN, Chief Engineer.

No. 196.

Department of Correction,  
Commissioner's Office, No. 148 East Twentieth Street,  
New York, February 7, 1908.

Hon. PATRICK F. McGOWAN, President, Board of Aldermen, New York City:

Dear Sir—I would respectfully ask that, pursuant to the provisions of section 188 of the Charter of The City of New York, your Honorable Board will request the Board of Estimate and Apportionment to authorize the issue of Special Revenue Bonds to the amount of two thousand five hundred and twelve dollars and fifty cents (\$2,512.50), in order that I may be enabled to carry out the provisions of the resolution of the Board of Estimate and Apportionment on January 10, 1908, which was concurred in by the Board of Aldermen, and signed by the Mayor on January 29, and which resolution fixed the wages of Stationary Engineers in the City Departments at the rate of \$4.50 per day.

Very respectfully yours,  
JOHN V. COGGEY, Commissioner.

The President laid before the Board the following communication from the Corporation Counsel:

No. 198.

City of New York,  
Law Department, Office of the Corporation Counsel,  
New York, February 11, 1908.

To the Board of Aldermen:

Gentlemen—I have received a certified copy of a resolution adopted by your Board on the 28th day of January, 1908, reading as follows:

"Resolved, That the Corporation Counsel be and he is hereby respectfully requested to advise this Board what steps, if any, are being taken by his office with reference to the unlawful encroachment by the New York Central and Hudson River Railroad Company on Eleventh and Twelfth avenues, Borough of Manhattan, and what steps, if any, are being taken to collect the overdue taxes due The City of New York by said corporation."

Complying with the request contained in said resolution, I beg to make the following report to you as to what has been done to terminate the use of the streets at grade by the New York Central and Hudson River Railroad Company for railroad purposes:

Chapter 109 of the Laws of 1906, entitled "An Act to terminate the use of streets, avenues and public places in The City of New York, in the Borough of Manhattan, by railroads operated by steam locomotive power at grade," became a law March 26, 1906.

In carrying out the duties imposed by this act, the Board of Rapid Transit Commissioners, and their various officers and agents, it was provided, were to have and enjoy all the powers then conferred on them by chapter 4 of the Laws of 1891, and all amendments thereto so far as applicable, together with all the powers which any board, commissioner or public officer then had to regulate the manner of exercise on, across, through or along such streets, avenues or public parks or places of any public franchise theretofore granted to any such steam railway company, including the right to regulate or require changes to be made for the public convenience or benefit in the use of such streets, avenues, public parks or places by such railroad company, and all other powers in that regard expressed or implied in any such franchise granted to any such railway company so operated or to operate a railroad thereon.

Sections 2 and 3 of this Act provided in detail for the giving of power to the said Board of Rapid Transit Commissioners to prepare a plan and make an agreement with such railroad for the construction by the said railroad, at its own cost, of a subway under the roadbed of the present tracks, and then in the event of the failure of the Board of Rapid Transit Commissioners and the said railroad company to arrive at an agreement or to enter into a contract for that purpose, it was provided as follows:

"Section 4. In case the board of rapid transit commissioners shall be unable within twelve months after this act takes effect to agree as herein provided with such railroad company upon a plan as contained in the preceding section and obtain the approval thereof of the board of estimate and apportionment, the said board of rapid transit commissioners shall thereupon condemn all and any rights, privileges and franchises of any such railway company or companies to operate by locomotives using steam or other power cars or trains for carrying freight and passengers at grade, on, across, through or along streets, avenues, public parks or places of The City of New York, Borough of Manhattan, and cause the tracks of such railroad or railroads to be removed therefrom. It shall cause to be prepared three similar maps or plans showing the streets, avenues, public parks and places on which any such railroad company now operates or has any franchise or right to operate such steam railway at grade in said city and borough, and showing the location thereon of the

tracks, if any, of such railway whose tracks or appurtenances or whose right to conduct such railway are to be so condemned as herein provided. Such maps or plans when adopted and approved by said board shall be disposed of in like manner as maps or plans of property to be condemned under the provisions of chapter four of the laws of eighteen hundred and ninety-one as amended; and the provisions of said chapter relative to the condemnation of property for public use, so far as the same may be applicable and not in conflict with the provisions of this act, shall apply to the proceedings to be had hereunder. Said board shall, after the filing of said maps or plans, direct the counsel to the corporation of the city of New York to take legal proceedings to acquire by condemnation all such valid or lawful franchises of any such company operating such railway in said city, and the tracks and appurtenances thereof in such public streets, avenues, public parks or places as shown in said map or plans. Said counsel to the corporation shall thereupon cause to be served on the president or other officer upon whom a summons against such corporation might be served in an action of the railway corporation or corporations whose franchise or right to operate such railway or railways is to be condemned, or whose tracks or property is to be affected by such proceeding, ten days prior to the date on which the same is made returnable, notice of an application for the appointment of commissioners for the condemnation of such franchise or franchises and of such tracks or appurtenances thereto, and shall accompany such notice with a copy of a petition signed by a majority of the members of said board and verified in the manner prescribed by law for the verification of pleadings, setting forth the action or determination theretofore taken or had by said board in respect to the franchises, rights, privileges or property to be acquired, and the filing of said maps or plans, and praying for the appointment of said commissioners of appraisal for the purpose of condemning, terminating and acquiring such franchises, rights, privileges and property therein specified. Said petition shall contain a general description of the franchises, grants, easements, tracks, properties or appurtenances sought to be acquired or extinguished, and such notice so served shall be sufficient notice to such corporation without publication thereof. Said application shall be made to the supreme court at a special term in the judicial district in which said city is situated. The provisions of chapter four of the laws of eighteen hundred and ninety-one as amended relative to the acquisition of property for public uses thereunder shall apply to such application and to the appointment, powers, procedure, compensation and report of the commissioners and other public officers acting for the purpose of such condemnation under this act. Said commissioners shall take testimony and shall make a report with all convenient speed, which report shall include, among other matters deemed to be relevant and proper in such report, a statement of the source, nature and extent of each franchise, privilege or right lawfully possessed by such railway company or companies as found by them and condemned and terminated in such proceeding, the value thereof, and, if more than one franchise, they shall state such values separately, a statement of the tracks, property and appurtenances so condemned and the value thereof. Such report shall fix the compensation, if any, which the commissioners find to be reasonable and proper to be made to such railway company or companies for such franchise so condemned or terminated and for the tracks, property and appurtenances thereto so taken and condemned. Notice of an application to confirm such report may be given by any party thereto by serving a copy of said report on the attorney or attorneys for the railroad corporation or corporations, or upon the counsel to the corporation, with notice that an application shall be made for such confirmation to the supreme court not less than ten days thereafter at a time and place therein provided, and no publication of notice or of the filing of such report will be required."

Under the act creating the Public Service Commission (chapter 429, Laws of 1907) all the power and authority vested in the Board of Rapid Transit Commissioners was transferred to such Public Service Commission.

On the 25th day of November, 1907, the Public Service Commission transmitted to me, as Corporation Counsel, copies of resolutions adopted on the 15th day of November, approving certain maps or plans filed with the Commission on the same date, and further directing me to take legal proceedings to condemn such rights as the railroad company had in the streets of the City, and transmitting, in addition to copies of said resolutions, two sets of said maps and plans and memoranda, as described and set forth in said resolutions. Such resolutions were in form as follows:

"Now, therefore, it is

"Resolved, That all of the said maps or plans, so made and prepared, and said memoranda be and the same are hereby approved and adopted; that a certificate of said approval and adoption and of the approval and adoption of said memoranda, be written upon said maps or plans, and signed by this Commission, and by a majority of the Commissioners, and that one thereof, including said memoranda, shall be filed in the office of the President of the Borough of Manhattan, there to remain as a public record; and it is further

"Resolved, That the other two of said maps and plans and memoranda be forthwith transmitted to the Counsel to the Corporation of The City of New York, with a copy of this resolution, and that he be and is hereby directed to take legal proceedings to condemn, terminate, extinguish or acquire the tracks of the New York Central and Hudson River Railroad Company indicated upon the maps designated: 'Maps, Series A, Sheets Nos. 1-14' and appurtenances, if any exist, to the said tracks, together with all valid or lawful rights, privileges, franchises, grants and easements, if any exist, of the New York Central and Hudson River Railroad Company to operate cars or trains at grade, on, across, through or along the streets, avenues, public parks or places of The City of New York shown on said maps designated 'Maps, Series A, Sheets Nos. 1-14,' and also all valid or lawful rights, if any exist, to operate cars or trains on any of the tracks, other than its own, on the said maps designated: 'Maps, Series A, Sheets Nos. 1-14'; and it is further

"Resolved, That the Counsel to the Corporation of The City of New York be and is hereby directed to take legal proceedings to condemn, terminate, extinguish or acquire all valid or lawful rights, privileges, franchises and grants, if any exist, to operate cars or trains at grade, on, across, through or along the sections of all the streets, avenues, public parks or places of The City of New York indicated upon the maps designated: 'Maps, Series B, Sheets Nos. 1-21,' together with all appurtenances thereto."

At a meeting of the Public Service Commission held on the 11th day of October, 1907, the said Commission had adopted another resolution requesting the City to terminate all rights to operate cars in the streets granted to the railroad company or to private individuals of a revocable nature.

The problem the City has to face in the proposed condemnation proceedings is one of great magnitude, and to protect the interests of the City properly it has been found necessary to make a most careful and exhaustive examination of everything in any way bearing on the situation. The Division of Franchises of the Board of Estimate and Apportionment has been assisting my Department in this work, and has already made two reports on the subject.

I am in a position to say that everything has been and is being done to advance the said proceeding, and within a very short time it will be possible to commence the action for the condemnation of the rights and franchises in question for the purpose of removing from the streets of the City in the locality referred to, of all tracks at grade.

Referring to the second paragraph of your communication in relation to "the complaints to the Board of Estimate during the whole of 1907" \* \* \* that the railroad has occupied 350 City lots for twenty years without payment of taxes or the agreed compensation, I beg to refer you to the resolutions of the Board of Estimate and Apportionment at its meeting of December 20, 1907, as follows, viz.:

"Resolved, That the New York Central and Hudson River Railroad Company be and it hereby is directed to make application to the Commissioners of the Sinking Fund within thirty (30) days after the date of the adoption of this resolution, for permission to use and occupy the discontinued and closed portions of the several streets and to the Commissioner of Docks and Ferries, within the same period, for permission to use and occupy the lands under water; and be it further

"Resolved, That the Comptroller be and he hereby is requested to appraise the value of the use and occupation by the railroad company of such lands and lands under water for the period of six (6) years, from January 1, 1902, to January 1, 1908, and immediately upon the determination and approval by him of such valuation, submit same to the Corporation Counsel, together with any data he may possess upon which such appraisal and valuation was based; and be it further

"Resolved, That the Corporation Counsel be and he hereby is requested to make formal demand forthwith upon the New York Central and Hudson River Railroad Company for the payments due for the past use and occupation of such lands and lands under water as may be justly and fairly due The City of New York for the six years

prior to the date of such formal demand, and for such sum as may be determined to be due the City, after the lands in question have been appraised and such appraisal approved by the Comptroller of The City of New York, and the result of such appraisal submitted to the Corporation Counsel; and be it further

"Resolved, That should the Railroad Company fail or neglect to make the payment deemed to be fairly and justly due as a result of the appraisal hereinabove mentioned within thirty (30) days after the date of the formal demand for such payment, the Corporation Counsel be and he hereby is requested to institute proceedings for the recovery of such moneys and to take whatever steps he may deem wise and expedient; and be it further

"Resolved, That the Secretary of this Board be and he hereby is directed to transmit copies of these resolutions and the report of the Chief Engineer, hereinbefore mentioned, to the Commissioners of the Sinking Fund and the Commissioner of Docks and Ferries for their information and guidance."

It is proper to add I am informally advised the appraisal directed by the Board of Estimate and Apportionment to be made by the Comptroller is in progress; and as soon as such appraisal has been completed, the requisite steps will be promptly taken by this office to enforce the mandate of the Board of Estimate and Apportionment.

Respectfully yours,

F. K. PENDLETON, Corporation Counsel.

#### REPORTS OF STANDING COMMITTEES.

##### Report of Committee on Affairs of Boroughs—

No. 169.

The Committee on Affairs of Boroughs to which was referred on February 4, 1908 (Minutes, page 947), the annexed resolution in favor of inviting the attention of the Police Commissioner to certain evils connected with moving picture shows, respectfully recommends that the said resolution be adopted.

Whereas, There has sprung up in almost every part of the City a system of common shows in which slot machines are used and moving pictures are displayed, and many of which might properly be termed common nuisances; and

Whereas, Most of these places are patronized by children of immature age who are taught things suggestive in their nature and are shown pictures of salacious character, thus tending to evil influences and depravity; and

Whereas, These places are apparently licensed and seem in many instances to be conducted by persons with a disregard for all morals and an insatiate greed for the nickels and pennies that flow into their coffers; and

Whereas, This condition of affairs shows an apparent lack of police supervision and should be checked, therefore

Resolved, That the attention of the Police Commissioner is respectfully directed thereto with the recommendation that he exercise in fullest measure the powers of his Department to the end that the intolerable nuisance be abated.

JAMES J. SMITH, MATTHEW J. CROWLEY, CHARLES P. COLE, TRISTAM B. JOHNSON, JAMES J. HINES, WILLIAM J. HEFFERNAN, ALEXANDER J. STORMONT, Committee on Affairs of Boroughs.

Under Rule 21, consideration of this report was deferred. Subsequently Alderman Velten moved the adoption of this report.

Which report was accepted and resolution adopted.

##### Reports of Committee on Finance—

No. 181.

The Committee on Finance to which was referred on February 4, 1908 (Minutes, page 953), the annexed resolution for \$40,000 Special Revenue Bonds for public bath in Avenue A, Borough of Manhattan, respectfully

#### REPORTS:

That, President Ahearn appeared before the Committee and stated that \$24,637.50 of the amount requested is for salaries and the balance for purchase of supplies for 1908. Mr. Ahearn stated that this appropriation had been asked for in the Budget, but was not allowed for the reason that the bath had not, at that time, been delivered to the City, which has since been done. The Committee recommends that the said resolution be adopted.

Resolved, That in pursuance of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment, is hereby requested to authorize the Comptroller to issue Special Revenue Bonds to the amount of forty thousand dollars (\$40,000), for the purpose of providing funds for the maintenance and operation of the new public bath at Twenty-third and Twenty-fourth streets and Avenue A, Borough of Manhattan, for the year 1908.

R. S. DOULL, JAMES W. REDMOND, JOHN J. COLLINS, FRANK L. DOWLING, WM. P. KENNEALLY, JOHN DIEMER, Committee on Finance.

Under Rule 21, consideration of this report was deferred. Subsequently Alderman Doull moved the adoption of this report.

The President put the question whether the Board would agree to accept such report and adopt said resolution.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Baldwin, Barton, Bent, Beyer, B. W. B. Brown, J. W. A letter was presented from the Chief Examiner, dated December 18, forwarding a report of Mr. Bonnett upon a communication of the Commissioner of Docks and Ferries, dated December 10, amending his original request for an examination for promotion from Marine Engineer to Mechanical Engineer by asking that the examination be held under the title of "Mechanical Engineer (Marine)," for the purpose of indicating more specifically the duties of the position to be filled. It appearing from the report of Examiner Bonnett that the title proposed, i. e., "Mechanical Engineer (Marine)," and the statement of duties submitted by the Commissioner seemed to cover the requirements with a sufficient degree of definiteness, on motion, it was

Resolved, That the Secretary be and he hereby is directed to proceed with an examination for promotion from Marine Engineer to Mechanical Engineer (Marine), in the Department of Docks and Ferries, in accordance with the provisions of Rule XV., clause 10.

A letter was presented from the Chief Examiner, dated December 10, forwarding a request from Miss Smith, Examiner, for instructions as to the necessity of rating "record" and "seniority" in cases of promotion from positions in Part I. to positions in Part II., and examinations for change of title within Part II.

On motion, it was

Resolved, That, in the rating of candidates for promotion (or change of title) from positions in the ungraded service to positions in the graded service, where no record of their comparative conduct, seniority or efficiency has been kept in their respective departments, the Chief Examiner is hereby directed to give such candidates merely a passing mark on that subject; and he it further

Resolved, That the records of candidates in an examination for change of title within a graded service shall be rated comparatively, the same as in a promotion examination in such service.

A report was presented from the Chief Payroll Clerk, dated December 19, with reference to the case of Alfred Griffin, who was dismissed from the position of Inspector in the Tenement House Department on January 23, 1907, for cause, and stating that the Commission was not officially notified of Mr. Griffin's dismissal until October 11, 1907. After considering all the facts in the case the Secretary was directed to remove the candidate's name from the "black list," and to admit him to any future examination in which he might desire to compete.

The Commission then considered the matter of placing the name of Frederick A. Lear upon the list for promotion to Assistant Foreman, Fire Department. It appeared that the candidate had been given a conditional notice for the mental examination (which he had succeeded in passing), subject to the decision of the Commission in the matter of his physical test, in which he had been rejected for defective vision. It appearing that the defect in the candidate's eyesight was not of a permanent nature, and in view of the fact that he would not have another opportunity to compete for promotion for at least four years, on motion, it was

Resolved, That the Secretary be and he hereby is directed to compute the final average of Frederick A. Lear, candidate for promotion to Assistant Foreman, Fire Department, and to place his name on the eligible list in the order determined by his percentage.

The President stated that he had directed that the name of Frederick W. Pearse, Inspector of Regulating, Grading and Paving, in the office of the President of the Borough of The Bronx, be stricken from the Civil Service roster, and that he had requested President Haffen to dismiss such employee instantly, in view of the fact that he (the President) was convinced that Pearse had been impersonated in the examination for Inspector of Regulating, Grading and Paving, and that he therefore had obtained his appointment through fraud. The action of the President was approved.

A letter was presented from the President of the Borough of Queens, dated December 24, requesting an amendment of the classification by including in the Exempt Class for his department the following titles:

Deputy Superintendent of Highways.  
Deputy Superintendent of Street Cleaning.  
Additional Chief Inspector of Buildings.

The Secretary was directed to advertise a public hearing on the proposed amendment, in accordance with Rule III., for Wednesday, January 8, at 10 o'clock in the forenoon.

A letter was presented from the Police Commissioner, dated December 26, stating that the dismissal of Charles J. Fahey from the position of Lieutenant in the Police Department on October 29, 1907, had been rescinded, and that Lieutenant Fahey had been reassigned to duty on December 24. The Secretary was directed to note the reassignment on the records of the office.

A letter was presented from the Secretary of the Board of Education, dated December 27, transmitting copy of a resolution of that Board, dated December 26, rescinding the dismissal of Thomas J. Fitch from the position of Sanitary Inspector in the Bureau of School Buildings, Borough of Manhattan, and reassigning him to duty to take effect December 16, 1907. The Secretary was directed to note the reassignment on the records of the office.

On motion, it was

Resolved, That, with the approval of the Mayor and the State Civil Service Commission, the limit of compensation fixed by Rule XII., clause 6, be and the same hereby is waived so far as it applies to the case of Dr. Claude H. Weir, who was excepted from examination on February 20, 1907, to be employed as physician to the inmates of the Manhattan and Brooklyn Truant Schools (Board of Education), and the total compensation for such services is hereby fixed at an amount not to exceed one thousand dollars (\$1,000).

A letter was presented from the President of the Borough of The Bronx, dated December 17, requesting that John J. Zeller be granted an examination to qualify him for promotion from Laborer to Telephone Switchboard Operator. The request was denied.

A letter was presented from the Police Commissioner, dated December 19, with reference to the case of Patrick Kellet, who had been certified to his department on December 13, 1907, for appointment as Patrolman. It appeared that although Kellet had made affidavit in his application that he never had been complained of, indicted for or convicted of any violation of law, he had admitted, when questioned by the Police Commissioner on December 17, 1907, that he had been arrested more than once for intoxication, and that he had once been convicted and sent to the Workhouse on such a charge.

On motion, it was

Resolved, That the Secretary be and he hereby is instructed to communicate with Patrick Kellet, of No. 817 Tenth avenue, Manhattan, and direct him to appear before the Municipal Civil Service Commission on Wednesday morning, January 8, to show cause why his name should not be stricken from the eligible list of Patrolman, under the provisions of Civil Service Rule VII., paragraph 14.

On motion, it was

Resolved, That the action of the President in authorizing the Comptroller to employ Mr. Walter N. Hadley, of No. 31 Hamilton avenue, New Brighton, S. I., for a temporary period, as Expert Searcher in the Bureau for the Collection of Assessments and Arrears (pursuant to the provisions of Rule XII., paragraph 6), in place of Mr. Bernard G. Barton, who resigned from that position on April 30, 1907, be and the same hereby is approved.

A letter was presented from the Secretary of the Department of Docks and Ferries, dated December 17, stating that the Commissioner had rescinded his action of November 19, 1907, in dismissing Lewis Steinert from the position of Stenographer and Typewriter, and had accepted his resignation, to take effect November 6, 1907. The Secretary was directed to note the fact on the records of the office.

On motion, it was

Resolved, That Mr. Emil Reichardt, of No. 186 Prospect Park West, Brooklyn, be and he hereby is excepted from examination, pursuant to the provisions of Rule XII., paragraph 6, to be employed from time to time in the Brooklyn Disciplinary Training School for Boys as Brass Band Instructor; provided that the total compensation for such services shall not exceed the sum of \$750.

On motion, it was

Resolved, That the emergency appointment of Patrick Kene, of No. 85 Concord street, Brooklyn, as Stationary Engineer, in the Brooklyn Disciplinary Training School for Boys, on December 20, 1907, be and the same hereby is approved, pursuant to the provisions of Rule XII., paragraph 4.

A letter was presented from the Commissioner of Parks, Borough of The Bronx, dated December 23, in reply to the Commissioner's request for a report on the protest of Messrs. Fetzter & Griffiss, attorneys, of No. 35 Wall street, New York City, against the dismissal of Achilles Versos from the position of Stone Mason in that department. The communication was ordered filed.

A communication was presented from Hon. C. G. Wahle, Acting President of the Board of City Magistrates, First Division, dated December 26, transmitting copy of a resolution adopted by that Board at a special meeting held on December 23, requesting the Civil Service Commission to place on a preferred list of Probation Officer the names of Mrs. Sarah Hirsandsky, Mrs. Mary A. Skelly and Mrs. Henrietta L. Smith, the Board being no longer able to avail itself of the services of said persons, in view of the fact that, pursuant to the opinion of Mr. Justice Giegerich in the matter of McCauley, the persons employed as Probation Officers in that Court prior to the holding of the examination by the Commission had been reinstated in their positions. After careful consideration of the matter it was

Resolved, That the Secretary be and he hereby is directed to restore the names of Mrs. Sarah Hirsandsky, Mrs. Mary A. Skelly and Mrs. Henrietta L. Smith to the eligible list of Probation Officer in the order of their original standing upon such list.

A letter was presented from the General Medical Superintendent of Bellevue and Allied Hospitals, dated December 21, stating that the probationary period of Miss Sarah Meyer, Junior Clerk, would expire on December 23, and that as her services had not been satisfactory they would be discontinued after that date, with the understanding that her name be restored to the eligible list from which it was selected. The Secretary was directed to communicate with Dr. Armstrong and state that the Commission would be without power to restore Miss Meyer's name to the eligible list of Junior Clerk unless it could be shown that she resigned before completing her period of probation.

A letter was presented from Deputy Comptroller McCooley, dated December 19, with reference to the case of Joseph Kurzman, who requested, under date of December 16, 1907, that the Commission amend its records to show that he resigned, instead of being dismissed, from the position of Temporary Clerk in the office of the Receiver of Taxes, as reported by that department. After due consideration of the matter the Secretary was directed to change the notation beside the candidate's name on the eligible list of Temporary Clerk from "dismissed for absence without leave" to "resigned."

The request of the Deputy Commissioner of Water Supply, Gas and Electricity, under date of December 23, that he be authorized to continue the services of Joseph

G. Woodlock, Temporary Clerk, until January 1, 1908, was granted, it appearing that he was performing the duties of the Permit Clerk in the Bureau of the Water Registrar, Borough of Brooklyn, during the illness of that Clerk.

A communication was presented from the Secretary of the Department of Health, dated December 20, transmitting a copy of resolution adopted by that Board at its meeting of December 18, rescinding the dismissal of Joseph E. The Secretary was directed to note the change on the records of the office.

A letter was presented from the Comptroller, dated December 23, requesting authority to employ an Automobile Engineman from the Parkway Garage Company from time to time, at a compensation of \$5 a day while employed, the total compensation for the year 1908 not to exceed \$750. The request was granted, and the Secretary was directed to certify the vouchers for such services, when presented, under the provisions of Rule XII., paragraph 6.

On motion, it was

Resolved, That the following resolution, adopted by the Commission on October 2, 1907:

A communication was presented from the Commissioner of Parks, Boroughs of Brooklyn and Queens, dated December 27, transmitting, for the approval of the Commission, a supplementary payroll for salary of Patrick Corrigan, Climber and Pruner in that department, from September 12 to October 14, amounting to \$67.50, and stating that the same had been prepared in accordance with a recommendation of the Bureau of Law and Adjustment of the Comptroller's office. The request was denied.

The request of William H. McCarthy, Jr., No. 9 Taylor street, West Brighton, N. Y., that he be permitted to correct the date of birth set forth in his application for Patrolman from July 7, 1884, to July 7, 1883, was granted, upon his affidavit to the effect that he was born in 1883, accompanied by a transcript from the records of the church in which he was baptized.

A letter was presented from Mr. F. J. Root, of No. 545 North Grove street, East Orange, N. J., requesting that the application of his son, Harold D. Root, for Junior Mechanical Draughtsman be accepted. The request was denied, for the reason that the candidate was not a resident of the State of New York.

The request of Alexander Smith, of No. 80 East Seventh street, New York City, that his application for Junior Mechanical Draughtsman be accepted was denied, for the reason that he was not a citizen of the United States.

The Secretary presented for the approval of the Commission the application of Frank Hester, of No. 67 Elmendorf street, Kingston, N. Y., for the position of Axeman, one of the candidate's vouchers being a non-resident of The City of New York. The application was accepted.

A letter was presented from the Secretary of the International Union of Steam Engineers, Local Union No. 20, dated December 24, requesting that a committee of that organization be granted a hearing by the Commission in the matter of promotion examinations to Stationary Engineer in the civil service of the City. The Secretary was directed to communicate with the union and designate Wednesday, January 8, for such hearing.

A letter was presented from Frank P. Moran, Foreman, Engine Company 117, Fire Department, dated December 23, requesting a special physical test to qualify him for admission to the examination for promotion to Battalion Chief, in view of the fact that owing to the delay in holding the mental examination he had become eligible to compete in same. The Secretary was directed to inform the candidate that as a number of others in the Department had become eligible for admission to the examination since the holding of the general physical test, a supplementary test would be held prior to the holding of the mental examination, in which they would all be given an opportunity to qualify.

Stated that when certified from the list of Rodman to the Aqueduct Commission at Croton Falls, N. Y., he was employed as an Inspector of Masonry in the Board of Water Supply, and declined on account of location, and also for the reason that he thought it a list for the latter Department exclusively. He also stated that he responded to notice of appointment as Inspector of Regulating, Grading and Paving and declined on account of "temporary inability."

The Commission then adjourned to meet Wednesday, January 8, 1908, at 10 o'clock in the forenoon.

## COMMISSIONERS OF THE SINKING FUND OF THE CITY OF NEW YORK.

*Proceedings of the Commissioners of the Sinking Fund, at a Meeting Held in Room 16, City Hall, at 11 O'Clock a. m., on Wednesday, February 5, 1908.*

Present at Roll Call—George B. McClellan, Mayor; N. Taylor Phillips, Deputy Comptroller; James J. Martin, Chamberlain, and Patrick F. McGowan, President, Board of Aldermen.

The Comptroller arrived later. See note.

The minutes of the meeting held January 22, 1908, were approved as printed.

The following communication was received from the Commissioner of Docks, relative to a lease of a dumping board privilege on the pier at the foot of West Thirtieth street, North River, Borough of Manhattan, to Albert H. Hastorf:

January 17, 1908.

Hon. GEORGE B. MCCLELLAN, Mayor and Chairman of the Commissioners of the Sinking Fund:

SIR—I beg to advise you that after advertisement in the CITY RECORD and various newspapers, sealed bids were received and opened by this Department on the 15th inst., for lease of a dumping board privilege at the inner end of the north side of the pier foot of West Thirtieth street, North River, Borough of Manhattan, the bids received being as follows:

	Per Annum.
T. A. S. Sheridan Company	\$2,700 00
O'Brien Brothers, Incorporated	7,150 00
Martin H. Healey	9,100 00
Albert H. Hastorf	9,235 00

After due consideration I am of the opinion that the interests of the City would be best served by the granting of a lease to Albert H. Hastorf, of No. 247 West One Hundred and Thirty-first street, Borough of Manhattan, the highest bidder, and I therefore recommend that a resolution be adopted by the Commissioners of the Sinking Fund, authorizing and approving of the execution of a lease to said Albert H. Hastorf, of the right to use and occupy the inshore or most easterly dump on the northerly side of the pier foot of West Thirtieth street, North River, Borough of Manhattan, together with the right to use the ramp or approach thereat, the lease to be for a term of five years beginning on a date ten days after approval by you, rental to be at the rate bid, \$9,235, per annum.

The dumping board referred to and now located on the pier is the property of the City. The lessee is to make all repairs to the dumping board, during the term of the lease, and is not in any way to interfere with the operation of the remaining

outshore dumps, on the northerly side of the pier, by the Department of Street Cleaning. All repairs to that portion of the ramp or approach, extending from the easterly end of the dump to the westerly end of the inshore dumping board, are to be made by the Department of Street Cleaning, but one-half of the cost thereof, as shown by the books and accounts of the Department of Street Cleaning, shall be borne by the lessee. The lessee is at all times to do such dredging, from time to time, during the term of the lease, as may be considered necessary and proper by the Commissioner of Docks, to a depth of at least 20 feet at mean low water, in the basin or slips or water adjacent at the northerly side of said pier, commencing at the bulkhead line and extending outshore to the westerly end of the inshore or most easterly dumping board.

The lease shall contain the usual terms, conditions and covenants at present embodied in leases of wharf property now used by this Department, and the lessee is to furnish a bond in double the amount of the annual rent for the faithful performance of the covenants and conditions of the lease.

Very respectfully, your obedient servant,

J. A. BENSEL, Commissioner.

In connection therewith the Deputy Comptroller presented the following report and offered the following resolution:

January 29, 1908.

The bid of Albert H. Hastorf, \$9,235, being the highest, in my opinion, this lease can properly be authorized as recommended by the Commissioner of Docks and Ferries.

CHANDLER WITHINGTON,  
Chief Engineer, Department of Finance.

Approved:

H. A. METZ, Comptroller.

Resolved, That the Commissioners of the Sinking Fund hereby approve of and consent to the execution, by the Commissioner of Docks, of a lease to Albert H. Hastorf, of the right to use and occupy the inshore or most easterly dump on the northerly side of the pier foot of West Thirtieth street, North River, Borough of Manhattan, together with the right to use the ramp or approach thereat, for a period of five years commencing February 15, 1907, at a rental at the rate of nine thousand two hundred and thirty-five dollars (\$9,235) per annum. The lessee to make all repairs to the dumping board, during the term of the lease, and is not in any way to interfere with the operation of the remaining outshore dumps, on the northerly side of the pier, by the Department of Street Cleaning. All repairs to that portion of the ramp or approach extending from the easterly end of the dump to the westerly end of the inshore dumping board, are to be made by the Department of Street Cleaning, but one-half of the cost thereof, as shown by the books and accounts of the Department of Street Cleaning, shall be borne by the lessee. The lessee is at all times to do such dredging, from time to time, during the term of the lease, as may be considered necessary and proper by the Commissioner of Docks, to a depth of at least 20 feet at mean low water, in the basin or slips or water adjacent at the northerly side of said pier, commencing at the bulkhead line and extending outshore to the westerly end of the inshore or most easterly dumping board. The lease shall contain the usual terms, conditions and covenants at present embodied in leases of wharf property now used by the Department of Docks and Ferries, and the lessee is to furnish a bond in double the amount of the annual rent for the faithful performance of the covenants and conditions of the lease, and as recommended by the Commissioner of Docks in communication dated January 17, 1908.

The report was accepted and the resolution unanimously adopted.

A communication was received from the Municipal Civil Service Commission, relative to a lease of rooms at No. 299 Broadway, Borough of Manhattan, being the rooms now occupied by the Commission, together with eight additional rooms.

On motion, the matter was referred to a Select Committee consisting of the President of the Board of Aldermen, the Comptroller and the Chamberlain.

The Deputy Comptroller presented the following report and offered the following resolutions relative to a lease of premises No. 186 Bedford avenue, Borough of Brooklyn, for the use of the Fourth District City Magistrate's Court:

January 31, 1908.

Hon. HERMAN A. METZ, Comptroller:

SIR—By an act of the Legislature, known as chapter 603 of the Laws of 1907, which became a law July 18, 1907, with the approval of the Governor, for the purpose of providing for the reorganization of the Municipal Courts in The City of New York, changes in the districts and in the practices therein, in the Clerks, to regulate the salaries of the Justices thereof, and there was an additional Justice provided for the Third District in the Borough of Brooklyn as now constituted, and by section 15 of said act the Commissioners of the Sinking Fund were required to provide, by purchase, lease or otherwise, quarters for the court in said district, and the Comptroller of said City, without the concurrence of any board, officer or authority, shall provide the necessary funds for the purposes aforesaid by the sale of Revenue Bonds of said City, to the end that the payment of the increased salaries and other expenses of said court may be fully provided for and equipped for full and effective operation on the 1st day of January, 1908.

The court house used by the Third District, Nos. 6 and 8 Lee avenue, Brooklyn, is a City-owned building. In this building is also the Fourth District Magistrate's Court. The building adjoins the police station on the corner, and is two stories and cellar in height. The Magistrate's Court uses the ground floor and the Municipal Court the second floor. It is the intention of the City to erect an additional story to this building as soon as funds can be appropriated therefor. This would, when completed, give the Magistrates their old quarters on the ground floor, and there will be sufficient space to house both parts of the Municipal Court for this district. Pending the time of the erection of the additional story, it is deemed for the best interests of the City that the Magistrates shall remove from the premises and permit the Municipal Court to occupy the Magistrate's present rooms.

After looking over the buildings in the vicinity the Magistrate was requested to select quarters which would be sufficient for his needs, and after a thorough canvass of the district the only place found available which could be utilized for a court without a great expense on the part of the City was the building located at No. 186 Bedford avenue, formerly occupied by the Seymour Club, situated on the west side of Bedford avenue, 40 feet south of North Seventh street, being four stories in height and nearly covering a lot 20 by 80 feet. The proposition made by the owner is to lease the premises to the City for a period of one year, with the privilege of renewal of from one to five years, at an annual rental of \$2,250, payable quarterly. He agrees to repaint where necessary and put the building in repair, and to furnish light, heat and janitor service, for the sum of \$2,250 per annum.

The rent being reasonable and just, I would respectfully recommend that the Commissioners of the Sinking Fund approve of the lease of the entire premises, with the exception of the top floor, in the building No. 186 Bedford avenue, near North Seventh street, Borough of Brooklyn, for a period of one year from the date of occupation, at an annual rental of \$2,250, payable quarterly, with the privilege of renewal for an additional period of from one to five years; the owner to furnish light, heat and janitor service; to repaint the interior where necessary; to put the interior and exterior of the building in repair, and to keep the exterior of the building in repair during the term of the lease. Lessor, P. H. McCarren.

I would further respectfully recommend that in accordance with the provisions of section 205 of the amended Greater New York Charter, that the Commissioners of the Sinking Fund designate that on and after the 15th day of February, 1908, said premises, No. 186 Bedford avenue, Borough of Brooklyn, shall be the place where the Fourth District Magistrate's Court shall be held.

Respectfully submitted for approval,

MORTIMER J. BROWN,  
Appraiser of Real Estate, Department of Finance.

Resolved, That the Corporation Counsel be and is hereby requested to prepare a lease to the City, from P. H. McCarren, of the building known as No. 186 Bedford avenue, Borough of Brooklyn, with the exception of the top floor, for the use of the Fourth District City Magistrate's Court, for a period of one year from the date of occupation, at an annual rental of two thousand two hundred and fifty dollars (\$2,250), payable quarterly, with the privilege of renewal for an additional period of from one to five years; the owner to furnish light, heat and janitor service, to repaint the interior where necessary, to put the interior and exterior of the building in repair and to keep the exterior of the building in repair during the term of the lease; and the Commissioners of the Sinking Fund deeming the said rent fair and reasonable and that it would be for the interests of the City that such lease be made, the Comptroller be and is hereby authorized and directed to execute the same when prepared and approved by the Corporation Counsel, as provided by sections 149 and 217 of the Greater New York Charter.

Resolved, That, pursuant to the provisions of section 205 of the amended Greater New York Charter, the Commissioners of the Sinking Fund hereby designate the premises known as No. 186 Bedford avenue, Borough of Brooklyn, as the place where the Fourth District City Magistrate's Court shall be held on and after February 15, 1908.

The report was accepted and the resolutions severally unanimously adopted.

The Deputy Comptroller presented the following report and offered the following resolution, relative to a renewal of the lease of premises corner of Third and Tremont avenues, Borough of The Bronx, occupied by the Board of Coroners:

January 22, 1908.

Hon. HERMAN A. METZ, Comptroller:

SIR—This office is in receipt of a communication from A. F. Schwannecke, Esq., one of the Coroners of the Borough of The Bronx, in the matter of the premises, Nos. 531 to 535 Tremont avenue, now occupied by the Coroners, the lease of which expires on the 30th day of April, next. The owner, John P. Friedhoff, in a communication, dated January 16, desires to know whether the City intends to renew the lease for another year on the same terms and conditions as are contained in the existing lease. Mr. Schwannecke desires that the lease be renewed, and the rent being the same as heretofore paid, I would respectfully recommend that the Commissioners of the Sinking Fund authorize a renewal of the lease of the first floor above the store floor in the building at the corner of Third and Tremont avenues, Borough of The Bronx, for a term of one year, from May 1, 1908, at an annual rental of \$2,000, payable quarterly, otherwise upon the same terms and conditions as contained in the existing lease. Lessor, John P. Friedhoff.

Respectfully submitted for approval.

MORTIMER J. BROWN,  
Appraiser of Real Estate, Department of Finance.

Approved:

H. A. METZ, Comptroller.

Resolved, That the Comptroller be and is hereby authorized and directed to execute a renewal of the lease to the City, of the first floor above the store floor in the building at the corner of Third and Tremont avenues, Borough of The Bronx, for use of the Board of Coroners, for a period of one year, from May 1, 1908, at an annual rental of two thousand dollars (\$2,000), payable quarterly, and upon the same terms and conditions as contained in the existing lease; lessor, John P. Friedhoff; the Commissioners of the Sinking Fund deeming the said rent fair and reasonable and that it would be for the interests of the City that such lease be made.

The report was accepted and the resolution unanimously adopted.

The Deputy Comptroller presented the following report and offered the following resolution, relative to an amendment to resolution, authorizing a lease of premises at No. 200 East Seventy-ninth street, Borough of Manhattan, for the use of the Department of Water Supply, Gas and Electricity (see Min., 1907, page 1324):

January 18, 1908.

Hon. HERMAN A. METZ, Comptroller:

SIR—The Commissioners of the Sinking Fund at a meeting held December 19, 1907, acting under a request of the Commissioner of the Department of Water Supply, Gas and Electricity, adopted a resolution authorizing a lease by the City from Emanuel S. Cahn, of the third floor of the premises No. 200 East Seventy-ninth street, Borough of Manhattan, for the use of said Department, for a period of one year from January 1, 1908, at an annual rental of \$600, payable quarterly, the lessor to furnish steam heat and hot water service.

It appears that the Department of Water Supply, Gas and Electricity was occupying rooms in the premises No. 231 East Seventy-ninth street, and they desired, instead of renewing this lease, to take the third floor in the premises No. 200 East Seventy-ninth street, and as the lease on No. 231 East Seventy-ninth street did not expire until January 1, 1908, the recommendation of the Commissioners was to make the new lease begin at the expiration of the old lease.

The Commissioner of the Department of Water Supply, Gas and Electricity now states that he went into possession of the new premises on October 18, 1907, for the reason that it would be impossible to remove the fixtures from the old Laboratory to the new one in a single day, and he therefore requests the Commissioners of the Sinking Fund to amend their resolution of December 18, 1907, by making the term of the lease one year from October 18, 1907.

I would therefore respectfully recommend that the Commissioners of the Sinking Fund amend their resolution by inserting the words "October 18, 1907," instead of "January 1, 1908."

Respectfully submitted for approval.

MORTIMER J. BROWN,  
Appraiser of Real Estate, Department of Finance.

Approved:

H. A. METZ, Comptroller.

Resolved, That the resolution adopted by this Board, at meeting held December 18, 1907, authorizing a lease of premises at No. 200 East Seventy-ninth street, Borough of Manhattan, for use of the Department of Water Supply, Gas and Electricity, for a period of one year from January 1, 1908, be and the same is hereby amended by substituting as the date of the commencement of the lease "October 18, 1907," in place of "January 1, 1908."

The report was accepted and the resolution unanimously adopted.

The following communication was received from the Examining Board of Plumbers, relative to a renewal of the lease of premises at No. 149 Church street, Borough of Manhattan:

January 10, 1908.

Commissioners of the Sinking Fund, No. 280 Broadway, City:

GENTLEMEN—The time having arrived for the renewal of the lease of the premises at present occupied by the Examining Board of Plumbers, Rooms Nos. 14, 15, and 16, on the third floor of the building No. 149 Church street, in the Borough of Manhattan, I would respectfully recommend that the lease be renewed for one year, or from May 1, 1908, to May 1, 1909, at the same rental, namely, \$960 per annum, with the understanding that the lessors, Messrs. Church, Warren & Co., shall incorporate in the lease, or make an agreement in writing, to the effect that all necessary improvements and repairs will be made.

Respectfully,

EXAMINING BOARD OF PLUMBERS,  
BARTHOLOMEW, F. DONOHUE, President.

In connection therewith the Deputy Comptroller presented the following report and offered the following resolution:

January 21, 1908.

The rent being the same as heretofore paid, I would respectfully recommend that the lease of Rooms Nos. 14, 15 and 16, on the third floor of the building No. 149 Church street, Borough of Manhattan, be and the same is hereby renewed for a period of one year from May 1, 1908, at an annual rental of \$960 per annum, and upon the same terms and conditions as contained in the existing lease. Lessors, Church, Warren & Co.

Respectfully submitted for approval,

MORTIMER J. BROWN,  
Appraiser of Real Estate, Department of Finance.

Approved:

H. A. METZ, Comptroller.

Resolved, That the Comptroller be and is hereby authorized and directed to execute a renewal of the lease to the City, of Rooms Nos. 14, 15 and 16, on the third floor of the building No. 149 Church street, Borough of Manhattan, for use of the Examining Board of Plumbers, for a period of one year from May 1, 1908, at an annual rental of nine hundred and sixty dollars (\$960), and on the same terms and conditions as contained in the existing lease; lessors, Church, Warren & Co.; the Commissioners of the Sinking Fund deeming the said rent fair and reasonable and that it would be for the interests of the City that such lease be made.

The report was accepted and the resolution unanimously adopted.

At this point the Comptroller arrived and thereafter participated in the proceedings.

The Comptroller presented the following report and offered the following resolution, relative to an amendment to resolution, authorizing a lease of premises at No. 31 Perry street, Borough of Manhattan, for the use of the Department of Water Supply, Gas and Electricity (see minutes, page ):

January 21, 1908.

Hon. HERMAN A. METZ, Comptroller:

SIR—The Commissioners of the Sinking Fund at a meeting held January 8, 1908, adopted a resolution authorizing a renewal of the lease of the third loft of the premises No. 31 Perry street, Borough of Manhattan, for the use of the Department of Water Supply, Gas and Electricity, for a period of one year from December 31, 1907, at an annual rental of \$900.

It appears that this lease should run from December 16, 1907, and I would therefore respectfully recommend that the Commissioners of the Sinking Fund amend their resolution of January 8, 1908, by inserting the words "December 16, 1907," instead of "December 31, 1907."

Respectfully submitted for approval,

MORTIMER J. BROWN,  
Appraiser of Real Estate, Department of Finance.

Approved:

H. A. METZ, Comptroller.

Resolved, That the resolution adopted by this Board at meeting held January 8, 1908, authorizing a renewal of the lease to the City, of premises at No. 31 Perry street, Borough of Manhattan, for use of the Department of Water Supply, Gas and Electricity, for a period of one year from December 31, 1907, at an annual rental of nine hundred dollars (\$900), be and the same is hereby amended by substituting "December 16, 1907," as the date of the commencement of the term, in place of "December 31, 1907."

The report was accepted and the resolution unanimously adopted.

The Comptroller presented the following report and offered the following resolution, relative to a sale at public auction of the interests of the City in the following property which it has by virtue of a lease from the Supervisor of the Town of New Utrecht to the City of Brooklyn:

"All that certain lot known as and by the number 6, in Block 1154, Ward 30, Borough of Brooklyn."

(Application of George S. O'Flynn.)

January 30, 1908.

Hon. HERMAN A. METZ, Comptroller:

SIR—Mr. George S. O'Flynn makes application to the Commissioners of the Sinking Fund for a release, stating that he is the owner of premises known as Lot No. 6 in Block 1154, Ward 30, former City of Brooklyn; that he became the owner of said premises on or about February 21, 1906; that prior thereto the premises were owned, with other parcels of land, by one Joshua C. Sanders; that the premises were sold on December 6, 1886, for the nonpayment of the assessment for the opening of Ninety-second street, said assessment number being 271 on the official map for the opening of said street; that the Town of New Utrecht became the purchaser of the same at the above sale; that leases or deeds of said premises were made to the Town of New Utrecht by virtue of said sale, by Cornelius Gurgueson, Supervisor of said town, and recorded in the Register's office in Liber 1715 of Conveyances, page 143, which leases or sales so recorded were to run for a period of one hundred years; that the Commissioners of the Sinking Fund at a meeting held December 21, 1904, acted upon a petition of Joshua C. Sanders for a release of a number of lots in Blocks 1139, 1140 and 1143; that the said Joshua C. Sanders failed to ask for a release of the said premises in Block 1154; that the petitioner took title to the premises subject to said assessment, and hence his application for a release of the City's interest.

I find on examination that the leases so registered became the property of the City of Brooklyn on the annexation of the Town of New Utrecht to said city; that the Commissioners of the Sinking Fund have authority by virtue of the provisions of section 205 of the Amended Greater New York Charter to dispose of these leases.

In accordance with this provision it becomes necessary for the Commissioners of the Sinking Fund to appraise the City's interest in and to the said lease for one hundred years. This might be determined by commencing an annual rental based upon the value of the property. It is my opinion that should the City receive the sums paid out by the former Town of New Utrecht, with interests on the same to date, together with a sum sufficient to pay for the expenses which have been incurred on account of this unpaid assessment and sale thereof, such as advertisement, drawing and recording the deed, and further expenses now incurred by the sale of this property, under the section above mentioned, that the interests of The City of New York

will be fully protected without hardship upon the owner of the property. This course has been pursued and adopted in previous cases that have been acted upon by the Commissioners of the Sinking Fund, and I would respectfully recommend that the Commissioners of the Sinking Fund authorize a sale at public auction of all the right, title and interest of The City of New York in and to the following described property, which it has by virtue of a lease from Cornelius Gurgueson, Supervisor of the Town of New Utrecht, to the City of Brooklyn, which lease, containing the property under discussion, together with other property, is recorded in the Register's office of the County of Kings, in Liber 1715 of Conveyances, page 143:

All that certain lot known as and by the number 6 in Block 1154, Ward 30, in the former City of Brooklyn, which was sold December 6, 1886, for one hundred years to the Town of New Utrecht, for the assessments for the opening of Ninety-second street, in the sum of \$31.50, together with interest thereon at the rate of 6 per cent. per annum, from December 6, 1886, amounting to \$40.18, making a total of \$71.69, and in addition thereto the purchaser to pay the auctioneer's fee and \$100 for the expense of examination, advertising, etc.

Respectfully submitted for approval,

MORTIMER J. BROWN,

Appraiser of Real Estate, Department of Finance.

The Comptroller presented the following statement and offered the following resolution relative to a refund to the United Heating Company of \$250, being amount of security deposit:

January 29, 1908.

Hon. HERMAN A. METZ, Comptroller:

SIR—On January 22, 1906, the United Heating Company deposited with the Comptroller the sum of two hundred and fifty dollars (\$250), as security deposit with their proposal for alterations of heating and ventilating apparatus of Public School 20, Borough of Queens. The Board of Education, on April 25, 1906, adopted resolutions declaring said contractors in default and their security deposit, in the sum of two hundred and fifty dollars (\$250), forfeited to The City of New York.

Pursuant to said resolution, the amount as above stated was deposited in the Sinking Fund for the Redemption of the City Debt, No. 1, June 25, 1906.

On January 22, 1908, the Board of Education, acting on advice of the Corporation Counsel, adopted a resolution (a copy of which is attached hereto) rescinding their action of April 25, 1906, and requesting that the amount of the security deposit mentioned be turned over to the trustees in bankruptcy of the said United Heating Company.

The resolution herewith is respectfully submitted for the favorable action of the Commissioners of the Sinking Fund.

Respectfully,  
F. W. SMITH,  
Chief Accountant and Bookkeeper.

To the Board of Education:

The Committee on Buildings respectfully reports that on January 24, 1906 (see Journal, page 135), the Board of Education awarded a contract for alterations of heating and ventilating apparatus of Public School 20, Borough of Queens, to the United Heating Company, in the sum of \$13,300. On this action these contractors were duly notified, and they were requested to present their sureties at the office of the Comptroller for qualification. Financial embarrassments necessitated the appointment of a receiver to administer this company's affairs, and said receiver refused to execute the contract or to accept any responsibility in connection therewith. The Board of Education thereupon, on April 25, 1906 (see Journal, pages 646-647), adopted resolutions declaring said contractors in default and their security deposit, in the sum of \$250, forfeited to The City of New York.

The sureties on the contract immediately served a notice on the Board of Education that they stood ready to carry out the work within three days, if permitted to execute the contract. The matter was submitted to the Corporation Counsel, and under date of May 10 a communication was received from Acting Corporation Counsel Sterling to the effect that the sureties on the bid of the United Heating Company had a legal right to execute the contract and to complete the work thereunder. The contract was thereupon executed by the sureties and all of the work satisfactorily performed.

At a meeting of your committee held on December 2, 1907, a communication was received from the counsel for the trustee in bankruptcy of the United Heating Company, requesting the co-operation of the committee towards securing the deposit which was declared forfeited, as above stated.

This request was submitted to the Corporation Counsel, and, under date of January 6, 1908, a communication was received from Acting Corporation Counsel Sterling reviewing the facts in the matter and then concluding as follows:

"Under the circumstances I advise that the \$250 be paid over to the trustee in bankruptcy."

The following resolution was submitted for adoption:

Resolved, That the first and second resolutions attached to the report of the Committee on Buildings adopted by the Board of Education on April 25, 1906, relative to declaring the United Heating Company in default on the work of alterations of the heating and ventilating apparatus of Public School 20, Borough of Queens, and directing that the security deposit of \$250 on their bid for said work be forfeited to The City of New York, be and the same are hereby rescinded; and be it further

Resolved, That, in accordance with the advice of the Acting Corporation Counsel, as above stated, the Comptroller be and he is hereby requested to turn over the security deposit mentioned in the foregoing resolution to the trustee in bankruptcy of the said United Heating Company.

Resolved, That a warrant payable from the Sinking Fund for the Redemption of the City Debt, No. 1, be drawn in favor of the Chamberlain, for the sum of two hundred and fifty dollars (\$250), to be deposited in the City Treasury to the credit of forfeited security deposits to refund the trustee in bankruptcy of the United Heating Company, through this account, this amount of security deposit forfeited in error.

Which resolution was unanimously adopted.

The Comptroller presented the following statement and offered the following resolution relative to a refund of Croton water rents, overpaid in error:

The following communication was received from the Department of Water Supply, Gas and Electricity, relative to a lease of premises corner of Westchester avenue and St. Peters avenue, Borough of The Bronx:

January 18, 1908.

N. TAYLOR PHILLIPS, Esq., Secretary to the Sinking Fund, No. 280 Broadway, City:

DEAR SIR—Under date of November 14, 1907, application was made for the lease of vacant property on Madison street in the Annexed District, Twenty-fourth Ward. An error was made in stating that the lease of the present quarters on Main street, now used as a repair yard, would expire on January 1. The City will continue to occupy its present quarters until March, the date of the expiration of the lease.

I learn that the Sinking Fund Commission have as yet not taken any action on the application submitted by my predecessor and call your attention to the fact that it will be necessary to secure quarters for the storage of pipes and other fittings, and that the location selected and described in the previous letters is suitable, and respectfully recommend that your Board authorize the lease of same as early as possible.

Respectfully,  
M. F. LOUGHMAN, Deputy Commissioner.

November 14, 1907.

N. TAYLOR PHILLIPS, Esq., Secretary, Sinking Fund Commission, No. 280 Broadway, City:

DEAR SIR—The property now occupied by this Department on Main street, Westchester Village, as a store yard, will be given up January 1, 1908, the owner refusing to renew this lease. The Department has, therefore, selected other quarters suitable for a pipe yard on the north side of Madison street, beginning 100 feet east of Second street, Westchester Village. The property is vacant and is of the following dimensions: 75 feet front by 100 feet in depth. It is proposed to lease same for a period of five (5) years at a monthly rental of \$40, payable in advance. Being unimproved property, there are no alterations or repairs to be made, no water charges, or no light or heat, or janitor service furnished. It is the most suitable location for a pipe yard in the Westchester District.

The appropriation against which the rental of these premises will be charged is entitled "Repairs and Renewals of Pipes, Stop-cocks, etc." I attach a drawing showing the location and dimensions of this property.

Very truly yours,  
(Signed) FRANK J. GOODWIN, Deputy Commissioner.

In connection therewith the Comptroller presented the following report and offered the following resolution:

January 29, 1908.

Hon. HERMAN A. METZ, Comptroller:

SIR—The Deputy Commissioner of the Department of Water Supply, Gas and Electricity, in a communication, states that the property now occupied by the Department on Main street, Westchester Village, as a store yard will be given up January 1, 1908, the owner refusing to renew this lease; that his Department selected other quarters suitable for a pipe yard, on the north side of Madison street, beginning 100 feet east of Second street, Westchester Village; that the property is vacant and is of the following dimensions: 75 feet front by 100 feet in depth; that it is proposed to lease the same for a period of five years, at a monthly rental of \$40, payable in advance. The property being unimproved, there are no alterations or repairs to be made, no water charges, no light, heat or janitor service furnished; that this is the most suitable location for a pipe yard in the Westchester District; that the appropriation against which the rental of these premises will be charged is entitled "Repairs and Renewals of Pipes, Stop-cocks, etc."

Under date of January 18, 1908, the Deputy Commissioner of the Department of Water Supply, Gas and Electricity writes to the Commissioners of the Sinking Fund, stating that in his former letter an error was made in saying that the lease of the present quarters on Main street, now used as a repair yard, would expire on January 1; that the City will continue to occupy its present quarters until March, the date of

the expiration of the lease; that he learns that the Commissioners of the Sinking Fund have not as yet taken any action on the application submitted by the Department of Water Supply, Gas and Electricity, and calls attention to the fact that it will be necessary to secure quarters for the storage of pipes and other fittings, and that the location selected and described in the previous letters is suitable, and respectfully recommends that the Board authorize the lease as early as possible.

Investigation of the condition of affairs in this vicinity and of the real estate desired by the Commissioner, brought out the fact that another piece of property in a better location, larger in area, with two buildings erected thereon, was much more advantageous for the City to lease than the plot proposed by the Department of Water Supply, Gas and Electricity. The new proposition was presented to the Department and was verbally approved.

Under the Department proposition, the City would lease three lots, 75 feet front for \$40 a month, or \$480 a year, and the City would undoubtedly spend money in erecting some kind of a building thereon, and probably within two or three years would need additional room.

The plot selected by this Department is located on Westchester avenue, at the corner of St. Peters or Union avenue, is 150 feet on Westchester avenue and 174 feet on St. Peters or Union avenue. There is erected thereon an old frame hotel building, containing fifteen rooms, also a stable large enough for six horses and four wagons. Westchester avenue is a wide, well-improved street and this plot being much larger and having the necessary buildings on it, is much cheaper in proportion at the price hereinafter named, than the property mentioned by the Commissioner.

I would respectfully recommend that the Commissioners of the Sinking Fund authorize a lease for a period of five years from March 1, 1908, at an annual rental of \$600, payable quarterly, and water rent and repairs, and complying with all the ordinances of The City of New York, for the premises on the northwesterly corner of Westchester avenue and St. Peters avenue (or Union avenue), being 150 feet on Westchester avenue and 174 feet on St. Peters avenue, in the Annexed District, Twenty-fourth Ward, for the use of the Department of Water Supply, Gas and Electricity. Lessor, Ferdinand C. Bamman, No. 432 West One Hundred and Fifty-fourth street, Manhattan.

Respectfully submitted for approval.

MORTIMER J. BROWN,

Appraiser of Real Estate, Department of Finance.

Approved:

H. A. METZ, Comptroller.

Resolved, That the Corporation Counsel be and is hereby requested to prepare a lease to the City, from Ferdinand C. Bamman, of premises on the northwesterly corner of Westchester avenue and St. Peters avenue (or Union avenue), being 150 feet on Westchester avenue and 174 feet on St. Peters avenue, in the Borough of The Bronx, for use of the Department of Water Supply, Gas and Electricity, for a period of five years, from March 1, 1908, at an annual rental of six hundred dollars (\$600), payable quarterly; the City to pay the water rent and repairs and comply with all the ordinances of The City of New York; and the Commissioners of the Sinking Fund deeming the said rent fair and reasonable and that it would be for the interests of the City that such lease be made, the Comptroller be and is hereby authorized and directed to execute the same when prepared and approved by the Corporation Counsel, as provided by section 149 and 217 of the Greater New York Charter.

The report was accepted and the resolution unanimously adopted.

A communication was received from the Corporation Counsel, relative to the action of the Board of Education, authorizing the Corporation Counsel to institute condemnation proceedings for the acquisition of title to lot on Whipple street, in the Borough of Brooklyn, and suggesting that if it should seem to the Commissioners of the Sinking Fund proper that the proceeding in question should be instituted, the resolution of January 8, 1908, requesting the Corporation Counsel not to begin any condemnation proceedings until instructed so to do by the Commissioners of the Sinking Fund be so amended as to except this proceeding therefrom.

Which was referred to the Comptroller.

The following was received from the Board of Education relative to a renewal of the lease of premises at No. 288 East Broadway, Borough of Manhattan:

To the Board of Education:

The Committee on Buildings respectfully reports that the lease of the premises at No. 288 East Broadway, Borough of Manhattan, occupied as an annex to Public School 147, will expire February 1, 1908; that the City Superintendent of Schools states that further occupancy of said premises will be necessary, and that the Department of Buildings certifies that the structural conditions thereat are satisfactory, while a satisfactory certificate from the Department of Health as to sanitary conditions has been promised.

The following resolution is submitted for adoption:

Resolved, That the Commissioners of the Sinking Fund be and they are hereby requested to approve of and consent to the execution by the Board of Education of a renewal of a lease to the City of the store floor of the premises No. 288 East Broadway, Borough of Manhattan, used as an annex to Public School 147, for a period of one year from February 1, 1908, at an annual rental of \$900, and on the same terms and conditions as contained in the existing lease; all of the foregoing to be subject to the approval of the Department of Health as to satisfactory sanitary conditions. Owner, A. E. Isaacs, No. 240 East Broadway, New York City.

A true copy of report and resolution adopted by the Board of Education on January 22, 1908.

A. EMERSON PALMER,

Secretary, Board of Education.

In connection therewith the Comptroller presented the following report and offered the following resolution.

February 3, 1908.

The rent being the same as heretofore paid, I would respectfully recommend that the Commissioners of the Sinking Fund approve of the renewal of the lease of premises No. 288 East Broadway, Borough of Manhattan, occupied as an annex to Public School 147, for a period of one year from February 1, 1908, at an annual rental of \$900, and on the same terms and conditions as contained in the existing lease. Lessor, A. E. Isaacs.

Respectfully submitted for approval,

MORTIMER J. BROWN,

Appraiser of Real Estate, Department of Finance.

Approved:

H. A. METZ, Comptroller.

Resolved, That the Commissioners of the Sinking Fund hereby approve of and consent to the execution by the Board of Education of a renewal of the lease to the City of premises at No. 288 East Broadway, Borough of Manhattan, used as an annex to Public School 147, for a period of one year from February 1, 1908, at an annual rental of nine hundred dollars (\$900), and upon the same terms and conditions as contained in the existing lease; lessor, A. E. Isaacs; the Commissioners of the Sinking Fund deeming the said rent fair and reasonable and that it would be for the interests of the City that such lease be made.

The report was accepted and the resolution unanimously adopted.

The Comptroller presented the following report and offered the following resolution relative to the occupation by the New York Telephone Company of premises leased by the City at No. 66 Lafayette street, Borough of Manhattan, for the use of the First District Municipal Court:

January 31, 1908.

Hon. HERMAN A. METZ, Comptroller:

SIR—The City has leases in various buildings in the Borough of Manhattan for Municipal Court purposes, and I was rather surprised upon an examination of affairs to find that the telephone company has possession of City property without paying rent therefor, utilizing it for public purposes and deriving an income therefrom, and the attention of the Secretary of the Board was called to the matter and the telephone company was notified to consult the Secretary of the Board. They were told at that time that unless the telephone company agreed to pay the same rate per square foot as the City paid for its space that they would not be permitted to occupy City property. Irrespective of this, they have occupied a room in the premises No. 66 Lafayette street, leased for the First District Municipal Court, which room was set apart as a consultation room for the Judges of the five Boroughs. The telephone company in the County Court House pays an annual rental of \$600, and I see no reason why the City should lease property and turn it over to the telephone company for such public uses as they may deem necessary and proper.

I would therefore respectfully recommend that the Commissioners of the Sinking Fund adopt a resolution directing the Secretary to notify the telephone company to make immediate application to the Commissioners of the Sinking Fund for a lease of the property, which is public property, they now occupy, and if within one month they fail to make application therefor that the Commissioners of the Sinking Fund adopt a resolution directing that they be ejected from the premises. The building No. 66 Lafayette street is a semi-public building, eight stories high, and there is plenty of space to be found which could be hired by the telephone company, and there is not a particle of excuse for them to occupy any part of the property without paying just compensation therefor.

Respectfully submitted for approval,

MORTIMER J. BROWN,

Appraiser of Real Estate, Department of Finance.

Approved:

H. A. METZ, Comptroller.

Resolved, That the Secretary be and is hereby directed to request the New York Telephone Company to make immediate application to the Commissioners of the Sinking Fund for a sublease of the property leased to the City and occupied by them at No. 66 Lafayette street, in the Borough of Manhattan, and in the event of such application not being received within one month after the date of this resolution to take whatever steps may be necessary to eject them from the premises.

The report was accepted and the resolution unanimously adopted.

Adjourned.

N. TAYLOR PHILLIPS, Secretary.

No. 291. Acquiring title to White Plains road, from West Farms road to the East River.

Adopted by Local Board on April 25, 1907.

Hon. LOUIS F. HAFEN, President, Borough of The Bronx:

Sir.—A resolution has been received providing for the acquisition of title to White Plains road, between West Farms road and the East River. I assume that it is the intention to include in this resolution the land lying between the present high water line and the bulkhead line.

If this is the case, would it not in your judgment be desirable to amend the resolution by the substitution of the bulkhead line of the East River as the southerly boundary, instead of the "East River?"

Respectfully, ARTHUR S. TUTTLE, Engineer in Charge.

## DEPARTMENT OF DOCKS AND FERRIES.

### FILLING PRIVILEGE.

OFFICE OF THE DEPARTMENT OF DOCKS AND FERRIES, PIER "A," FOOT OF BATTERY PLACE, NORTH RIVER, BOROUGH OF MANHATTAN, THE CITY OF NEW YORK.

**SEALED BIDS OR ESTIMATES WILL BE** received by the Commissioner of Docks at Pier "A," foot of Battery place, in the City of New York, until 12 o'clock noon on

**FRIDAY, FEBRUARY 21, 1908.**

**FOR THE RIGHT TO DUMP AND FILL IN** BEHIND THE BULKHEAD WALL RECENTLY BUILT OR TO BE BUILT ON THE EASTERLY PART OF THE FULTON SECTION, ON THE EAST RIVER, BOROUGH OF MANHATTAN.

### TERMS AND CONDITIONS OF SALE.

The work to be done is to fill in with suitable material, as hereinafter described, the area behind the new bulkhead wall extending from the line of the present filling about 18 feet west of the west line of Pier (new) No. 18, East River, easterly a distance of about 208 feet to the close row of piling located about 18 feet west of the westerly side line of Pier (new) No. 19, and extending also from the rear of the bulkhead wall, when it is completed, inshore a distance of from about 43 feet to 63 feet to the old crib bulkhead running along the southerly side of South street.

The exact limits of the basin to be filled under this agreement may be seen on a map at Pier "A," together with the soundings and other data used, the said map being a part of this agreement.

The filling will be brought to a grade level with the top of the coping of the bulkhead wall and will extend inshore on a regular grade to the level of the street adjacent.

It is estimated that the area outlining the above described limits will create a basin to be filled in, under this agreement, whose cubical contents in net void space is equal to about 5,000 cubic yards.

This estimate is arrived at by computing the net void space between the face of the old crib bulkhead, along the southerly side of South street, and the rear of the rip rap to be placed, in the rear of the bulkhead wall, either before commencement or during the progress of the work herein called for.

Bidders will state in writing a lump sum price, which they agree to pay for the privilege of filling in the void space behind the bulkhead wall, built or to be built, on the easterly part of the Fulton Section, as described above, and as appears in detail on the map at Pier "A," and which becomes a part of the contract or agreement.

In the estimated amount given, the amount in cubic yards is arrived at without placing any allowance for shrinkage, settlement, swelling of the material or penetration into the mud.

The Department is not bound in any way by such estimate, and bidders must satisfy themselves of the actual quantity required to fill in the above described area by examination of the premises or such other means as they may prefer, the intention of the Department being to fill in the whole of the said premises behind the bulkhead wall within the above described limits, and no allowance will be made to the purchaser from the purchase price on account of any discrepancy which may be found between the above estimated quantity and the actual amount of filling required. The purchaser will be required to place the filling in accordance with the following specifications:

All the filling shall, unless otherwise directed, be placed directly in the rear of the bulkhead wall and carried from the bulkhead wall toward the shore until the bank of same has been carried out at the finished grade for a distance of about 30 feet from the face of the bulkhead wall, at which time, if so directed by the Engineer, the filling shall be started at the bank and carried outshore toward the bulkhead wall.

All material must be dumped and filled in only in such manner, at such points and in such order of procedure and at such times and seasons as may, from time to time, be directed, and the work of filling in may be entirely suspended for such periods of time as may be directed by the Engineer. The purchaser shall have no claim for damage or for any allowance from the purchase money on account of such suspension of the work.

All directions must be given by the Engineer, and wherever the word Engineer is used in these specifications it refers to and designates the Engineer-in-Chief of the Department of Docks and Ferries, or such officer or employee as may be designated by him.

Rip rap stone coming directly on or against the bulkhead wall must be deposited carefully in such manner as will not injure the same.

All the filling, except as otherwise specified herein, shall be of ashes, cellar dirt, broken

stone, etc., entirely free from garbage or any organic matter objectionable in the opinion of the Engineer.

At any section of the bulkhead wall the filling shall be brought up level with the under side of the backing log of the bulkhead wall at such section, and no higher, unless otherwise directed.

The filling shall be commenced within five days after the date of the receipt of a notification from the Engineer that the work, or any part of it, is ready to be begun. The Department reserves the right of ordering the contractor to deposit not less than 100 cubic yards per day, as directed by the Engineer, and the whole amount of the filling called for to bring the above described basin up to grade, shall be completed within fifty (50) days from the date of the receipt of said notification. At the expiration of this time this agreement shall be considered closed unless a further extension of time shall be given by the Commissioner of Docks. If at any time during the progress of the work it shall be deemed necessary to order the suspension of the whole or any part of the filling, the time for completing said filling shall be extended as much as it may have been delayed by such suspension.

In case the purchaser at any time does not proceed with the work of filling in to the satisfaction of the Commissioner of Docks, the said Commissioner will at once terminate the privilege of filling in and proceed to have the remainder of the filling in done by other parties in such way and manner as he deems proper, and any loss which may result therefrom shall be charged against the principal and his surety.

The purchaser shall, during the work of filling in, and at all times until the completion thereof, take all necessary precautions and place proper guards for the prevention of accidents, and put up and maintain at night sufficient lights, and he shall indemnify and save harmless The City of New York from all damages and costs to which it may be put by reason of injury to the person or property of another resulting from negligence or carelessness in the performance of the work or guarding the same, to which the surety is also bound.

No bid or estimate will be considered unless accompanied by a certified check drawn to the order of the Commissioner of Docks, or money to the amount of twenty-five per centum of the amount of the bid, which amount shall be applied in the case of the successful bidder to the first one-quarter of the amount of the filling to be deposited; twenty-five per centum to be paid when the first one-quarter of filling has been completed; twenty-five per centum additional when one-half the filling has been completed, and the balance, twenty-five per centum, when three-quarters of said filling has been completed.

A surety or guarantee company, duly authorized by law to act as surety, to be approved by the Commissioner of Docks, will be required to enter into a bond or obligation jointly and severally with the purchaser, in the sum of double the amount of the purchase price as security for the satisfactory performance of said work, in accordance with the terms and conditions hereof.

Dated The City of New York, February 11, 1908.

Commissioner of Docks.

## PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

## NOTICE TO CONTRACTORS.

## GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
