CHAS. A. O'MALLEY, Appraiser of Real Estate.

City of New York, Department of Finance, Comptroller's Office, October 31, 1913.

To the Honorable Board of Estimate and Apportionment, City of New York:

Gentlemen—Presented herewith is a summary statement showing the amounts required to be included in the 1914 Budget to provide for installments, interest on and redemption of the City debt, compared with the amounts appropriated for similar purposes in 1913.

The details of these estimates will hereafter be sent to your Board for publication in the minutes of a subsequent meeting as it is not practicable at this time to submit these figures in complete form.

The Comptroller is now making an examination of the sinking funds with the view of determining the exact status of each fund and for the further purpose of determining whether or not the several water sinking funds may now be amalgamated, as provided by the City Charter. In this event the distribution of the items supporting the appropriations for the funds last mentioned will be subject to some modification, without changing the aggregate amounts required for these purposes.

Respectfully, DOUGLAS MATHEWSON, Deputy and Acting Comptroller.

Estimate of Amounts Required to Be Appropriated to Pay Amortization Installments, Interest on and Redemption of the City Debt During 1914, *with Comparisons of the Amounts Provided for Similar Purposes During* 1913.

The Departmental Estimates for the Budget for the year 1914 are printed in Supplements to the CITY RECORD of September 12, 1913, September 20, 1913, October 3, 1913, October 10, 1913, October 17, 1913, October 22, 1913, November 7, 1913, November 15, 1913.

The Comptroller made the following statement:

The Budget for 1914 will be $192,995,551, or only $284,110 over the Budget of this year, this notwithstanding an increase of $3,000,000 in the appropriations allowed for the maintenance of the schools of the City. Although in previous years there have been very large increases in the Budgets, the extremely careful work that has been done in analyzing departmental expenditures and the policy inaugurated by Mayor Gaynor just before his death, of insisting upon his heads of departments making all possible reductions, accounts in part for the fact that this Budget represents the smallest increase of any Budget that has been adopted since consolidation.

Another and very important factor in the small increase of the Budget for 1914 is the perfecting of the financial system of the City, which has helped to large economies in the items which in previous years have caused large increases. It will be seen, therefore, that the four years of business administration are producing striking results in economy of government.

On the basis of the General Fund, which is estimated at $42,500,000 for the year 1914, and the probably assessed valuation for 1914, the indicated tax rate for the Borough of Manhattan will be 1.77 as against the rate of 1.81 for the present year.

The Comptroller presented the following:

BUDGET FOR 1914.

Resolved, That, pursuant to the provisions of section 226 of the Greater New York Charter, the Board of Estimate and Apportionment makes this, the Budget of The City of New York for the year one thousand nine hundred and fourteen, the total amount appropriated being:

One hundred and ninety-two million nine hundred and ninety-five thousand five hundred and fifty-one dollars and sixty-two cents ($192,995,551.62), divided as follows:

First—The amounts estimated to be required to pay the expenses of conducting the public business, to meet the debt charges of said *City of New York* for the year one thousand nine hundred and fourteen, and to meet a direct State tax levied upon the City for the year one thousand nine hundred and fourteen:

One hundred and eighty-three million three hundred and forty-five thousand three hundred and seventy dollars and ninety cents ($183,345,370.90).

Second--The amount estimated to be the *deficiency on January* 1, 1913, *in the product of taxes* theretofore levied, deemed to be uncollectible and not otherwise provided for, as required by chapter 209 of the Laws of 1906, being section 248 of the Greater New York Charter:

Two million five hundred thousand dollars ($2,500,000).

Third—The amounts estimated to be required to pay the assessments levied against the Boroughs of Manhattan and Brooklyn for the year one thousand nine hundred and fourteen:

Five hundred and twenty thousand and fifteen dollars and six cents ($520,015.06).

Fourth—The amounts estimated to be required to pay the charges and expenses of the *Counties of New York, Bronx, Kings, Queens and Richmond* for the year one thousand nine hundred and fourteen:

Six million six hundred and thirty thousand one hundred and sixty-five dollars and sixty-six cents ($6,630,165.66).

Resolved, That this, the Budget of The City of New York, as hereby made in pursuance of section 226 of the Greater New York Charter, shall be administered under the following terms and conditions:

First—

(a) That no transfers shall be made from appropriations or schedules of "Salaries Regular Employees," to any other appropriation or schedule than "Salaries Regular Employees."

(g) That no transfers shall be made from any of the appropriations made herein under any classification other than "Personal Service" to any appropriation classified as "Personal Service," except in cases where the title of appropriation specifically provides for transfers herein forbidden, or in cases where appropriations were made under the classification of "General Repairs," if, upon the written statement of the Department Head, the Board of Estimate and Apportionment finds that the repair work can be done more economically by departmental labor.

(h) That no transfers shall be made from any of the appropriations made herein under any classification where the title of the appropriation prohibits such transfer or when the appropriation is made conditional upon the purchase of some stated article or articles or for the payment of insurance or taxes, although otherwise the transfer might be proper under the Budget resolutions in the Budget for 1914.

Second—That no change shall be made by any Board or head of an Office, Bureau or Department in the City or County governments in the schedules of "Salaries Regular Employees"; "Salaries Temporary Employees"; "Wages Regular Employees"; "Wages Temporary Employees"; "Fees and Commissions," herein contained, except when authorized thereto by twelve (12) votes of the Board of Estimate and Apportionment, and that no requests for changes shall be considered except as follows:

(b) In the case of schedules or appropriations of "Wages Regular Employees," where the proposed change will not increase the amounts expendable in any week to more than the pro rata of the number of working days in such week to the total number of working days provided for such schedule line for the whole year.

Third—That in case of modifications of schedules or transfers within appropriations classified as "Personal Service," where one of the appropriations is a Tax Levy part appropriation, the full amount of cash necessary to pay the total salaries or wages of the incumbents transferred for the balance of the year 1914 shall be transferred to the appropriation to which the incumbents are transferred.

Fourth—

(a) That the heads of the several Boards, Offices, Bureaus and Departments of the City and County governments shall prepare their several payrolls for audit by the Department of Finance in accordance with the items of the aforesaid schedules, entitled "Salaries Regular Employees"; "Salaries Temporary Employees"; "Wages Regular Employees"; "Wages Temporary Employees"; "Fees and Commissions," or in case these items have been changed by twelve (12) votes of the Board of Estimate and Apportionment, in accordance with the items of the schedules as changed, *and that no payroll shall be passed by the Department of Finance unless the incumbents and the rate of individual compensation agree with such schedule lines* as originally adopted or as hereafter modified by the Board of Estimate and Apportionment.

(b) That each and every payroll shall be accompanied by a recapitulation showing the exact amount expended to and including said payroll for every item appearing on the schedules supporting any of the appropriations against which all or any part of the moneys involved in said payrolls is to be charged, and that this recapitulation shall contain the full schedule supporting any such appropriations or in case these schedules have been changed by twelve (12) votes of the Board of Estimate and Apportionment, the full schedules as changed.

(c) That each payroll of any Department, in addition to any other departmental number, shall be numbered during the year serially, beginning with number one for each specific account, and such payroll shall bear a certificate signed by a person cognizant of the fact, stating that the recapitulation attached thereto is the correct recapitulation for the payroll bearing said number.

(d) That in all instances where changes in schedule items have been made by twelve (12) votes of the Board of Estimate and Apportionment, all sums which have been expended against such schedule items as are changed shall be apportioned against the new lines in the same ratio as the new totals of the schedule items bear to the old totals.

(e) That on all payrolls against schedules entitled, "Salaries Regular Employees," and "Wages Regular Employees," there shall be set forth the monthly or weekly pro rata expenditures against such schedules, or in case the items on such schedules have been changed by twelve (12) votes of the Board of Estimate and Apportionment, the monthly or weekly pro rata expenditures against such schedules as changed.

(f) That there shall be affixed to all payrolls a certificate made by the person preparing such payroll to the effect that there is a time record on file in said Board, Office, Bureau or Department, certified by the person or persons having knowledge of the facts, showing the character of service and the exact time of employment of such person or persons, except heads of departments, and excepting bureau and division heads relieved by the head of their department from the duty of keeping such record on said payrolls, and that the distribution or division of the time of such person or persons as shown on such payrolls is in accordance with such time record.

—Be it further

Resolved, That wherever an appropriation under the classification of "Supplies," "Purchase of Equipment," "Materials," "Contract or Open Order Service," "Contingencies" or "Fixed Charges and Contributions" is supported by a schedule, all expenditures against such appropriation shall be made in accordance with such schedule *and no voucher shall be passed by the Department of Finance for a sum exceeding the amount shown in said schedule,* except when such schedule shall have been changed by twelve (12) votes of the Board of Estimate and Apportionment, and that the heads of the several Boards, Offices, Bureaus and Departments of the City and County Governments shall transmit to the Department of Finance on the first day of each month, or as soon thereafter as possible, a statement showing, firstly, the aggregate liabilities incurred against such schedules for which vouchers have been transmitted to the Department of Finance, and, secondly, all additional liabilities incurred against such schedules for which vouchers have not as yet been transmitted.

Preamble—

All appropriations made in this budget to charitable institutions are hereby declared to be subject to the following regulations:

1. The accounts and records of all such institutions shall be kept so as to show their receipts and expenditures pertaining to all institutional activities, and a record shall be maintained in which their expenses shall be recorded under the following classifications:

s. Expense for boarded-out children.

B. Expenses incurred in the maintenance of plant and equipment, as follows:
a. Repairs and renewals of plant and fixed equipment.
b. Repairs and renewals of furniture and movable equipment.
c. Interest on bonds and mortgages on corporate real estate, used exclusively for the charitable purposes of the institution, taxes and water rates, if any, thereon, fire insurance premiums on buildings on such real estate, together with their contents.

In all other respects such accounts and records shall be in the form required by the Comptroller of The City of New York, and as far as practicable, such accounts shall be kept on an income and expense basis.

2. All payments made to charitable institutions in pursuance of the said appropriations shall be used by such institutions only for expenses incurred by the institution for the care, support, maintenance and education of inmates duly committed by the courts or the Commissioner of Charities or accepted by said Commissioner as public charges, but they shall not include any expense for improvements or additions to plant or equipment, except as stated, or any payments on account of principal of mortgages. Expenses for education shall be taken to mean expenses incurred in providing suitable education for properly committed or accepted inmates, and shall include the salaries of instructors and expenses incurred for supplies for use in instruction.

3. All institutions receiving funds by appropriation from The City of New York and their books of record and account, so far as they relate to institutional activities, shall be open at reasonable times to the visitation, inspection and examination of the Board of Estimate and Apportionment, the Department of Finance and the Department of Public Charities, by their duly authorized Commissioners, officers or inspectors, excepting, however, that the accounts pertaining to the activities of any religious order which may be in charge of any such institution shall be segregated from the other accounts and shall not be subject to this regulation.

4. All such institutions shall prepare and file with the Department of Finance as of a date to be fixed by said department, a report of the condition of the institution and its operations during the previous fiscal year upon forms prescribed and furnished for the purpose under the provisions of these regulations by the Department of Finance.

5. Upon its appearing to the satisfaction of the Comptroller that it would be to the public interest to withhold payments out of any appropriation made to any charitable institution, he may, in his discretion, withhold the same, immediately giving written notice thereof to such institution and of his intention to apply to the Board of Estimate and Apportionment for authority to cease further payments. Upon the determination of said board that such payments shall terminate, the right of any such institution to receive payment from any such appropriations shall thereupon end.

6. The names and ages of inmates with a statement of the period for which payment is claimed must be placed on all bills rendered by such institutions for their care, support and maintenance prior to the presentation of such account for payment to the Department of Finance. The certificate of the Commissioner of Public Charities under regulation two hereof must also be attached to such bills. Except in emergency cases the Commissioner of Public Charities shall not accept as proper charges persons capable of paying for their own support or for whose care adequate provision can be made in the public hospitals. No case shall be regarded as an emergency case unless there shall have been made a certificate to that effect by a properly authorized and informed representative of the institution by which such case was received.

7. The City shall not be liable for any claim by any charitable institution which shall be in excess of the amount apportioned to such institution in this budget, notwithstanding the acceptance of the Commissioner of Public Charities of any per capita rates of payment that may have been fixed for various classes of inmates thereof.

8. No money shall be paid to any institution which
pays any salary to,
gives any consideration for services (financial or otherwise) by,
has any business dealing with, or
secures goods or merchandise (directly or indirectly) from
any officer or trustee or member of its board of managers, or where any such person otherwise receives any pecuniary profit from the operation of such institution.

9. Child-caring institutions not sending their inmates to the public schools, and not sharing in the corporate school fund, and not receiving teachers and school supplies from the Board of Education, but giving in their own buildings secular education to the children resident in the institution for five (5) hours daily for a period equal to the public school year, shall be paid a per capita of 7 cents per day for five (5) school days in the week, for each child of five years of age and over receiving such instruction except that for abnormal or atypical children a special rate in excess of this amount may be made by the Comptroller. Institutions receiving a per capita allowance for the education of their inmates shall be under the general supervision of the Board of Education, as required by the general conditions relating to institutions receiving corporate school money, provided in section 1154 of the Charter of The City of New York.

10. No dependent child under 16 years of age shall be accepted as a proper charge upon the City, and no money shall be paid for the care, support, maintenance or education of such child unless it shall have been lawfully committed to a suitable private charitable institution having its own plant and equipment for the proper protection and care of children and being under the supervision of the State Board of Charities and which has been placed in this budget by the Board of Estimate and Apportionment.

11. The Department of Health shall maintain in all child-caring institutions receiving funds by appropriation from The City of New York for each inmate accepted as a public charge under the rules of the State Board of Charities, and as herein provided, a complete physical and health record in which shall be recorded the name, age, sex, height and weight, time of admission, general physical condition, including the presence or absence of defects in eyesight, breathing, teeth or any organic defect, in a manner to conform as nearly as practicable with the records maintained by the Department of Health for children in the public schools in The City of New York. It shall also record the dietary actually employed in such institutions for the feeding of its inmates. Such statistics and records shall be made and revised by the Board of Health once in each six months.

12. Each institution shall give to the Comptroller on forms prescribed by him notice of the reception or discharge of any person for whose care City or county funds are to be received within twenty-four hours after his arrival at or discharge from the institution.

13. The rates of payments to private charitable institutions, unless otherwise specifically provided for, are fixed for the various classes of inmates as follows: Provided that where the Comptroller finds, after proper investigation, that any per capita rate hereinafter stated is too high, he is hereby authorized, on the approval of the Board of Estimate and Apportionment, to reduce such per capita rate for any or all institutions.

All appropriations made in this budget to charitable institutions are hereby declared to be subject to the following regulations:

B. Expenses incurred in the maintenance of plant and equipment, as follows:
   a. Repairs and renewals of plant and fixed equipment.
   b. Repairs and renewals of furniture and movable equipment.
   c. Interest on bonds and mortages on corporate real estate, used exclusively for the charitable purposes of the institution, taxes and water rates, if any, thereon, fire insurance premiums on buildings on such real estate, together with their contents.

In all other respects such accounts and records shall be in the form required by the Comptroller of The City of New York, and as far as practicable such accounts shall be kept on an income and expense basis.

2. All payments made to charitable institutions in pursuance of the said appropriations shall be used by such institutions only for expenses incurred by the institution for the care, support, maintenance and education of inmates duly committed by the courts or the Commissioner of Charities or accepted by said Commissioner as public charges, but they shall not include any expense for improvements or additions to plant or equipment, except as stated, or any payments on account of principal of mortgages. Expenses for education shall be taken to mean expenses incurred in providing suitable education for properly committed or accepted inmates, and shall include the salaries of instructors and expenses incurred for supplies for use in instruction.

3. All institutions receiving funds by appropriation from The City of New York and their books of record and account, so far as they relate to institutional activities, shall be open at reasonable times to the visitation, inspection and examination of the Board of Estimate and Apportionment, the Department of Finance and the Department of Public Charities, by their duly authorized Commissioners, officers or inspectors, excepting, however, that the accounts pertaining to the activities of any religious order which may be in charge of any such institution shall be segregated from the other accounts and shall not be subject to this regulation.

4. All such institutions shall prepare and file with the Department of Finance as of a date to be fixed by said department, a report of the conditions of the institution and its operations during the previous fiscal year upon forms prescribed and furnished for the purpose under the provisions of these regulations by the Department of Finance.

5. Upon its appearing to the satisfaction of the Comptroller that it would be to the public interest to withhold payments out of any appropriation made to any charitable institution, he may, in his discretion, withhold the same, immediately giving written notice thereof to such institution and of his intention to apply to the Board of Estimate and Apportionment for authority to cease further payments. Upon the determination of said board that such payments shall terminate, the right of any such institution to receive payment from any such appropriations shall thereupon end.

6. The names and ages of inmates with a statement of the period for which payment is claimed must be placed on all bills rendered by such institutions for their care, support and maintenance prior to the presentation of such account for payment to the Department of Finance. The certificate of the Commissioner of Public Charities under regulation two hereof must also be attached to such bills. Except in emergency cases the Commissioner of Public Charities shall not accept as proper charges persons capable of paying for their own support or for whose care adequate provision can be made in the public hospitals. No case shall be regarded as an emergency case unless there shall have been made a certificate to that effect by a properly authorized and informed representative of the institution by which such case was received.

7. The City shall not be liable for any claim by any charitable institution which shall be in excess of the amount apportioned to such institution in this budget, notwithstanding the acceptance of the Commissioner of Public Charities of any per capita rates of payment that may have been fixed for various classes of inmates thereof.

8. No money shall be paid to any institution which
   pays any salary to,
   gives any consideration for services (financial or otherwise) by,
   has any business dealing with, or
   secures goods or merchandise (directly or indirectly) from
any officer or trustee or member of its board of managers, or where any such person otherwise receives any pecuniary profit from the operation of such institution.

9. Child-caring institutions not sending their inmates to the public schools, and not sharing in the corporate school fund, and not receiving teachers and school supplies from the Board of Education, but giving in their own buildings secular education to the children resident in the institution for five (5) hours daily for a period equal to the public school year, shall be paid a per capita of 7 cents per day for five (5) school days in the week, for each child of five years of age and over receiving such instruction except that for abnormal or atypical children, a special rate in excess of this amount may be made by the Comptroller. Institutions receiving a per capita allowance for the education of their inmates shall be under the general supervision of the Board of Education, as required by the general conditions relating to institutions receiving corporate school money, provided in Section 1154 of the Charter of The City of New York.

10. No dependent child under 16 years of age shall be accepted as a proper charge upon the City, and no money shall be paid for the care, support, maintenance or education of such child unless it shall have been lawfully committed to a suitable private charitable institution having its own plant and equipment for the proper protection and care of children and being under the supervision of the State Board of Charities and which has been placed in this budget by the Board of Estimate and Apportionment.

11. The Department of Health shall maintain in all child-caring institutions receiving funds by appropriation from The City of New York for each inmate accepted as a public charge under the rules of the State Board of Charities, and as herein provided, a complete physical and health record in which shall be recorded the name, age, sex, height and weight, time of admission, general physical condition, including the presence or absence of defects in eyesight, breathing, teeth, or any organic defect, in a manner to conform as nearly as practicable with the records maintained by the Department of Health for children in the public Schools in The City of New York. It shall also record the dietary actually employed in such institutions for the feeding of its inmates. Such statistics and records shall be made and revised by the Board of Health once in each six months.

12. Each institution shall give to the Comptroller on forms prescribed by him, notice of the reception or discharge of any person for whose care city or county funds are to be received within twenty-four hours after his arrival at or discharge from the institution.

13. The rates of payments to private charitable institutions, unless otherwise specifically provided for, are fixed for the various classes of inmates as follows: Provided that where the Comptroller finds, after proper investigation, that any per capita rate hereinafter stated is too high, he is hereby authorized, on the approval of the Board of Estimate and Apportionment, to reduce such per capita rate for any or all institutions.

Bellevue and Allied Hospitals.

A meeting of the Board of Trustees of Bellevue and Allied Hospitals was held on October 6, 1913.

Present—Dr. Brannan, the President, in the chair; and Messrs. Farley, O'Keeffe, Paulding, Robbins, Sachs and Stern, Trustees. Excused—Mr. Drummond.

The minutes of the meeting of September 16 were approved.

Bills amounting to $85,313.72 were approved and forwarded to the Comptroller for payment.

Dr. George O'Hanlon, the General Medical Superintendent, reported as follows:

The daily average census at the various hospitals during the month of September, 1913, was as follows: Bellevue, 1,013; Gouverneur, 162; Harlem, 169, and Fordham, 160.

The following pupils have completed their course of training at the School for Midwives, and authority is asked for the granting of the usual diplomas: Agnes Jarchewski, Rose Moor, Honora Johnston and Amelia Blau.

Quantities of flowers were received for distribution throughout the hospital following the funeral services of Mayor Gaynor.

The following shows the number of typhoid cases in the various hospitals at the present time: Bellevue, 123; Gouverneur, 21; Harlem, 15 (1 suspected), and Fordham, 20 (1 suspected).

A request has been received from the Bellevue Hospital Alumni Society for permission to hold their next meeting at this hospital on November 5. Approval is requested.

Dr. Wheeler requests the appointment of Dr. August E. Kraft as Dental Interne at Bellevue Hospital, for one year.

Paul Meyer, Architectural Draftsman in this Department, requests a leave of absence for six months, beginning October 16.

Some weeks ago the Board authorized the procuring of a portable house for the Nurses at Fordham Hospital. It is now possible to secure a house immediately adjoining the grounds of the hospital for a period of three years, at an annual rental of $660. This house could be placed in good condition, and possession given at once. As additional accommodation is very much needed for the Nurses at this hospital, it would be desirable to secure the house as soon as possible.

An investigation of the delay in transferring the bodies of unkonwn and unclaimed persons from the Fordham Morgue seems to indicate that there are no definite rules regarding this matter. The instructions under which they seem to be working at the Fordham Morgue are verbal ones, and they are now in receipt of a request that the Morgue Keeper remove the clothing and care for the valuables of the unkonwn dead brought to the Morgue. This places great responsibility upon the hospital in cases over which it has absolutely no authority, and it would seem proper to secure, if possible, a definite understanding from the Commissioner of Charities, the Coroners and the Police Department, as to the part Fordham Hospital is to take in the care and disposition of the unclaimed and unknown dead brought to this Morgue.

It is necessary to buy for the use of Bellevue Hospital about eighty grate bars, the cost of which will exceed $1,000. Authority is requested to advertise for bids for this item.

The following transfers within the appropriations for 1913 are requested:

From 373, Wages, Regular Employees, Care of Buildings and Grounds, Bellevue Hospital, $24, to 376, Wages, Regular Employees, Care of Buildings and Grounds, Fordham Hospital, $24.

From 378, Wages, Temporary Employees, Care of Buildings and Grounds, Bellevue Hospital, $6; 380, Wages, Temporary Employees, Care of Buildings and Grounds, Harlem Hospital, $30, to 381, Wages, Temporary Employees, Care of Buildings and Grounds, Fordham Hospital, $36.

The schedules of the above appropriations should also be modified.

On separate motion, duly seconded and carried in each instance, action was taken upon the report of the General Medical Superintendent as follows:

It was resolved to award diplomas to the four pupils who have completed their course in the School for Midwives.

It was resolved to inform the Executive Committee of the Bellevue Hospital Medical Board that it is the wish of the Trustees to have the typhoid cases in as few wards as possible, and to request the Committee to devise a method whereby this may be accomplished.

The request of the Society of the Alumni of Bellevue Hospital to hold its next meeting at the hospital was approved.

Dr. August E. Kraft was appointed Dental Interne at Bellevue Hospital for a period of one year, beginning October 1, 1913.

The request of Paul Meyer, Architectural Draftsman, for a leave of absence for six months without salary, was approved.

It was resolved to request the Commissioners of the Sinking Fund to leave the property at 2541 Cambreling ave., Borough of The Bronx, in order to provide accommodation for additional Nurses at Fordham Hospital.

The General Medical Superintendent was instructed to confer with the Department of Charities, the Board of Coroners and the Police Department, in an effort to secure a definite arrangement for the care and transfer of the bodies of unknown and unclaimed persons at the Fordham Morgue.

It was resolved to authorize an advertisement for grate bars, bids to be opened on October 28.

It was resolved to request the Board of Estimate and Apportionment to approve of the transfers within the appropriations and the amendment of schedules, as recommended by the General Medical Superintendent.

Reports of Committees.

The Building Committee reported in regard to replacing the coal-buring equipment in the kitchens of pavilions I and K with gas-burning equipment. In accordance with the recommendation of the Building Committee and the Architects, it was

Resolved, In view of the great expense that would be incurred, to make no change in this equipment at the present time.

The Building Committee presented a report on the estimate of approximately $2,000 for enclosing the roof ward and balconies of Fordham Hospital with screens, and in accordance with their recommendation it was moved, seconded and carried to take no action on this subject at present.

The Building Committee reported on the subject of stretcher guards in pavilions I, K, L and M, that, as they had been completely installed in L and M, to make any change at the present time would involve considerable expense, but that they had not yet been placed in pavilions I and K. On the recommendation of the Building Committee, it was moved, seconded and carried to make no change in the stretcher guards in pavilions L and M, but to omit them in pavilions I and K and to furnish corner plates, provided it does not involve additional expense.

The Conference Committee of the First Division of Bellevue Hospital recommended the appointment of Dr. Edward J. May as Assistant Physician to Out-patients, tuberculosis service, to date from September 1. Dr. May was appointed accordingly.

The Special Committee, consisting of Dr. Brannan and Mr. Paulding, presented a communication received from the Corportation Counsel under date of September 16 in regard to the authority of the Trustees to approve of McKim, Mead & White's proposed plan, set forth in their letter of May 13, to pay the Contractors for pavilions L and M the cost of the flooring plus 15 per cent. profit. The Corporation Counsel recommended that the Trustees confer with the Contractors to determine their attitude in regard to article 444 of the contract, and the Chairman of the Building Committee reported that in accordance with this suggestion he had conferred with the Architects and was awaiting a reply.

The Chairman of the Building Committee reported on the plan of combining a Nurses' home and dispensary in the new building to be erected at Gouverneur Hospital, and stated that, after considering the communication from the State Charities Aid Association and conferring with Dr. S. S. Coldwater, the Department's Expert in Hospital Construction, the Committee recommended that, as there is but $200,000 available for this purpose, the building be used solely for a dispensary, but that walls of sufficient thickness be provided that, should it be found necessary, three additional floors could be added for the purpose of providing accommodation for Nurses. The Building Committee further recommended that provision be made for a day camp on the roof for tuberculosis patients, with a separate entrance leading to it. After consideration, on motion, duly seconded and carried, the report of the Building Committee was approved and its recommendations adopted, and it was

Resolved, To instruct the Architects accordingly.

Communications.

Letters were presented from Dr. S. S. Coldwater, Expert in Hospital Construction, relative to providing a ventilating system in the new out-patient building at Gouverneur Hospital.

Resolved, To instruct the Architects, McKim, Mead & White, to plan for the installation of an exhaust system of ventilation of ample capacity for the needs of the building.

A communication dated September 26 was presented from the Commissioners of Accounts, transmitting a copy of a report filed with the Mayor relative to the care and maintenance of indigent aliens free of charge, and recommending that the Trustees negotiate with the Federal authorities with a view of relieving The City of New York of a burden, in their opinion, chargeable to the Federal Government. This communication was referred to a special committee, composed of Mr. Paulding and the General Medical Superintendent, for investigation and report.

The minutes of the meeting of the Harlem Hospital Medical Board of September 30 were presented. In accordance with the recommendation of the Conference Committee, the place of Visiting Obstetrician to Harlem Hospital was created, and Dr. George L. Brodhead appointed to this position. The nomination of Dr. W. H. Bates as Assistant Physician to Out-patients was referred to the Conference Committee.

In accordance therewith, on motion, duly seconded and carried, it was

Resolved, To inform the General Medical Superintendent that the premiums of all bonded employees of this Department shall hereafter be paid by the City.

The President referred to a letter he had received from Dr. Charles L. Dana, outlining a plan for a neurological service at Bellevue Hospital. On motion, duly seconded and carried, it was

Resolved, To send a copy to each Trustee, and to take no action at this time.

A communication was presented from Dr. W. H. W. Knipe, Assistant Visiting Obstetrician to Gouverneur Hospital, requesting to be appointed Visiting Obstetrician in place of Dr. Brodhead.

Resolved, To promote Dr. Knipe to the place of Visiting Obstetrician, subject to the approval of the Conference Committee and the Medical Board of Gouverneur Hospital.

PUBLIC SERVICE COMMISSION.

Proposals.

INVITATION TO CONTRACTORS.

PART OF THE SEVENTH AVENUE-LEXINGTON AVENUE RAPID TRANSIT RAILROAD.

THE PUBLIC SERVICE COMMISSION FOR the First District (hereinafter called "the Commission") invites proposals to construct Section No. 2 of Routes 4 and 38, a part of the Seventh Avenue-Lexington Avenue Rapid Transit Railroad.

The points within The City of New York between which the said part is to run and the route or routes to be followed are briefly as follows:

Section No. 2. Beginning at a point under Greenwich st., in the Borough of Manhattan, near the intersection of West Broadway, about seventy (70) feet south of the southerly building line of Vesey st., and extending thence northerly under Greenwich st., West Broadway and Varick st. to a point about one hundred (100) feet south of the southerly building line of Beach st.

Also a branch to this line, beginning at a point under Park place, in the Borough of Manhattan, about one hundred and seventeen (117) feet east of the easterly line of West Broadway and curving thence northwesterly under Park place, private property and West Broadway to a connection with the main line.

The general plan of construction calls for a subsurface railroad having two and four tracks. The details of the construction of the railroad and appurtenances are more particularly indicated on the contract drawings.

Bidders will not be required to provide or lay tracks, ties or ballast, nor to do station finish work.

The work of construction under the contract will include the construction of all necessary sewers and connections along or off the route of the railroad; also the necessary support, maintenance, readjustment and reconstruction of vaults adjacent to buildings, pipes, tubes, conduits, subways or other subsurface structures; the support and care, including underpinning or the maintaining, protecting and securing where necessary of all buildings, monuments, surface and elevated railroads and other surface, subsurface and overhead structures of any kind, etc., affected by or interfered with during the construction of the work; also the restoration of the sidewalks and roadways.

The method of construction will be by trench excavation under cover, unless otherwise permitted by the Commission, as set forth in the form of contract.

Bidders must examine the form of contract and the specifications, maps and plans; must visit the location of the work and inform themselves of the present conditions along the line thereof and make their own estimates of the facilities and difficulties attending the execution of the proposed work.

A fuller description of the work to be done is set forth, and other requirements, provisions, details and specifications are stated in the printed form of contract and in the contract drawings therein referred to. Printed copies of the form of contract, bond and contractor's proposal may be had on application at the office of the Commission, No. 154 Nassau st., Borough of Manhattan, City of New York. The contract drawings may be inspected at the same office, and copies thereof may be purchased by prospective bidders on payment of five dollars ($5). The printed form of contract and the contract drawings are to be deemed a part of this invitation.

The City and the Interborough Rapid Transit Company will both be parties to the contract; the Interborough Rapid Transit Company being a party for the purpose of disbursing part of its contribution toward the cost of construction, as provided in the contract dated March 19, 1913, between The City of New York, acting by the Commission, and Interborough Rapid Transit Company for the equipment, maintenance and operation of additional rapid transit railroads. The liability of Interborough Rapid Transit Company under the contract for which bids are now invited will be limited to an amount equal to ninety-five (95) per centum of the aggregate sum arrived at by multiplying the estimated approximate quantities by the Unit Prices as contained in the Schedule of Unit Prices in the contractor's proposal. The contractor is to accept the obligation of the Interborough Rapid Transit Company to make payments to the amount and in the manner provided in the contract and is to agree not to look to the City, except to the extent that the amounts earned under the contract may exceed the amount for which the Interborough Rapid Transit Company is liable.

The Commission is informed by the Department of Docks and Ferries that docks and bulkheads along the East River or along the North River may be available for dumping purposes. Information in regard thereto may be obtained by any intending bidder upon inquiry at the office of the Department of Docks and Ferries, with whom all arrangements must be made with respect to utilizing such docks and bulkheads as may be available.

Partial payments to the Contractor will be made monthly as the work proceeds, as provided in the form of contract.

The Contractor will be required to complete the work as soon as practicable and within a period of thirty-six (36) months from the date of the delivery of the contract.

Sealed bids or proposals will be received at the office of the Commission at No. 154 Nassau street, Borough of Manhattan, City of New York, until the 2d day of December, 1913, at twelve fifteen (12.15) o'clock p. m., at which time, or at a later date to be fixed by the Commission, the proposals will be publicly opened.

Proposals must be in the form prescribed by the Commission, copies of which may be obtained at the office of the Commission.

A statement based upon estimate of the Engineer, of the quantities of the various classes of the work and of the nature and extent as near as practicable of the work required is to be found in the schedule forming a part of the form of contractor's proposal. The quantities given in such schedule are approximate only, being given as a basis for the uniform comparison of bids and no claim is to be made against the City on account of any excess or deficiency, absolute or relative, in the same, except as provided in the specifications and form of contract.

All proposals must, when submitted, be enclosed in a sealed envelope endorsed *"Proposal for Constructing Part of Rapid Transit Railroad —Routes Nos. 4 and 38. Section No. 2,"* and must be delivered to the Commission or its Secretary; and in the presence of the person submitting the proposal, it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received or deposited unless accompanied by a separate certified check drawn upon a national or state bank or trust company having its principal office in The City of New York satisfactory to the Commission and payable to the order of the Comptroller of The City of New York for the sum of fifteen thousand dollars ($15,000). Such check must not be enclosed in the envelope containing the proposal.

The unit prices must not be improperly balanced, and any bid which the Commission considers detrimental to the City's interests may be rejected.

No proposal, after it shall have been deposited with the Commission, will be allowed to be withdrawn for any reason whatever.

The award of the contract will be made by the Commission as soon as practicable after the opening of the proposals.

Bidders whose proposals are otherwise satisfactory, in case the sureties or securities named by them are not approved by the Commission, may substitute in their proposals the names of other sureties or securities approved by the Commission, but such substitution must be made within five (5) days after notice of disapproval, unless such period is extended by the Commission.

A bidder whose proposal shall be accepted shall, in person or by duly authorized representative, attend at the said office of the Commission within ten days after the delivery of a notice by the Commission that his proposal is accepted and that the contract is consented to by the Board of Estimate and Apportionment, and such bidder shall then deliver a contract in the form referred to, duly executed and with its execution duly proved.

At the time of the delivery of the contract, the Contractor will be required to furnish security to the City by giving a bond for seventy-five thousand dollars ($75,000). At the option of the successful bidder, cash or approved securities may be deposited instead of giving a bond. If securities are deposited in place of a bond under this contract, they must be of the character of securities in which savings banks may invest their funds and must be approved by the Commission.

The Contractor's bond must be in the form annexed to the form of contract.

In addition and as further security, fifteen (15) per centum of the amounts certified from time to time to be due to the Contractor will be deducted until the amounts so deducted and retained shall equal ten (10) per centum of the sum of the amounts resulting from the product of the estimated approximate quantities and the unit prices as contained in the schedule of unit prices in the contractor's proposal. Thereafter there shall be so deducted and retained for such purpose ten (10) per centum of the amounts certified from time to time to be due to the Contractor. The Contractor may from time to time withdraw portions of the amount so retained upon depositing in lieu thereof corporate stock of The City of New York equal in market value to the amount so withdrawn.

In case of failure or neglect to execute and deliver the contract or to execute and deliver the required bond or to make the required deposit, such bidder will, at the option of the Commission, be deemed either to have made the contract or to have abandoned the contract. In the latter case, the Commission will give notice thereof to such defaulting bidder, and the Commission may thereupon proceed to make another contract with such, if any, of the original bidders, as, in the opinion of the Commission, it will be to the best interests of the City to contract with, or may by new advertisement invite further proposals. The defaulting bidder shall thereupon be liable to the City for all loss and damage by it sustained, including the excess, if any, of the amount it shall pay any other contractor over the amount of the bid of such defaulting bidder.

If the Commission shall give notice to any bidder that his or its proposal is accepted and that the contract is consented to by the Board of Estimate and Apportionment and if the bidder shall fail within ten days thereafter or within such further period, if any, as may be prescribed by the Commission, to execute and deliver the contract and to execute and deliver the bond with sureties, or to make the required deposit, then the invitation to contractors and proposal accepted as aforesaid shall be a contract binding the bidder to pay to the City the damage by it sustained by reason of such failure, and in such case the bidder shall by the terms of the proposal, absolutely assign to the City the ownership of the check accompanying his or its proposal as a payment on account of such damages.

All such deposits made by bidders whose proposals shall not be accepted by the Commission will be returned to the person or persons making the same within five days after the contract shall be executed and delivered. The deposit of the successful bidder will be returned when the contract is executed and its provisions in respect of the bond or deposit are complied with.

The right to reject any and all bids is reserved.

NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of $50, the sum of $50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstance of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances, or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless, The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beamholes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a Department, chief of a Bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

No bid or estimate will be considered unless as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money or corporate stock or certificates of indebtedness of any nature issued by The City of New York, which the Comptroller shall approve as of equal value with the security required in the advertisement, to the amount of not less than three nor more than five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The amount shall be as specified in the proposals or instructions to bidders and shall not be in excess of 5 per cent.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately.

The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there
