IN THE MATTER OF an application submitted by the Department of Environmental Protection and the Department of Citywide Administrative Services, pursuant to Section 197-c of the New York City Charter, for site selection of properties located in Brooklyn, Community District 1 at 1 Kingsland Avenue (Block 2508, Lot 1), Scholes Street (Block 2962, Lot 1), and Varick Avenue (Block 2962, Lot 15); and in Queens, Community District 2 at 49 Street (Block 2575, Lot 26), Maspeth Avenue (Block 2575, Lot 140), Laurel Hill Blvd (Block 312, Lot 17), and 56 Road (Block 2552, Lot 75); and in Queens Community District 5 at 55-04 Maspeth Avenue (Block 2610, Lot 530) and Maspeth Avenue (Block 2610, Lot 550), for a combined sewer overflow (CSO) retention system.

NOTICE

On January 7, 2025, a public hearing is being held by the City Planning Commission (CPC), accessible in-person and remotely, in conjunction with the above ULURP hearing to receive comments related to a Draft Environmental Impact Statement (DEIS) concerning an application by The New York City Department of Environmental Protection (DEP) and the New York City Department of Citywide Administrative Services (DCAS) (the "Applicants"). The New York City Department of Environmental Protection (DEP) is the CEQR Lead Agency for the environmental review. The Applicants are seeking a series of land use actions including site selection of a capital project and acquisition of property as well as the acquisition of permanent surface and subterranean easements at several properties for long-term maintenance and security (the "Proposed Actions") in Brooklyn Community District 1 and Queens Community Districts 2 and 5. Construction and operation of a combined sewer overflow (CSO) tunnel and additional infrastructure to reduce the volume of CSO entering Newtown Creek, under the Newtown Creek CSO Storage Tunnel project constitutes the "Proposed Project". The Proposed Actions would facilitate the Proposed Project which may require property leasing during various stages of construction and includes the CSO tunnel along with diversion chambers, drop shafts, conveyance sewers, new outfalls, and odor control systems. The proposed CSO storage tunnel would be at a depth ranging from 80-130 feet below existing ground surface, and approximately 26 feet in diameter. The tunnel alignment would run from a site in Brooklyn (on the southern side of the Creek) near Whale Creek and the Newtown Creek WRRF, east under the Creek into the

Blissville neighborhood of Queens, continuing south and east along Review Avenue, underneath the Kosciusko Bridge toward the Maspeth section of Queens, then curving south and then west into Brooklyn. In addition to the tunnel, the Proposed Project would include a tunnel dewatering pump station (TDPS), diversion facilities at outfalls BB-026, NCQ-077, NCB-083, and NCB-015 to divert CSOs from the outfalls to the tunnel, and a new gravity diversion sewer to connect outfall BB-026 to the tunnel. Construction of the diversion facility at BB-026 would be facilitated by the acquisition of easements. Acquisition of the TDPS site would not be required since it is a City-owned property (currently being used by DSNY). In total, the Proposed Project would affect up to 99 properties: 9 properties are City-owned and require only site selection approval, and 90 properties are privately owned and require both site selection and acquisition approval. Of the up to 90 properties requiring both site selection and acquisition approval, 4 require fee simple acquisition (for the diversion facilities at NCQ-077, NCB-083, and NCB-015), up to 83 require subterranean easements along the proposed tunnel and gravity diversion sewer alignments (including one property that also requires both acquisition of a permanent surface easement and a temporary construction easement, and one property that also requires acquisition of a temporary construction easement), and 3 properties require both acquisition of permanent surface and temporary construction easements (but no subterranean easement). The fee simple acquisition, property leasing, and establishment of subterranean and surface easements would be facilitated by the proposed acquisition action under ULURP. The Build Year is 2040.

The Proposed Project may require several other actions, including approval by local entities such as the NYC Landmarks Preservation Commission (LPC), New York City Public Design Commission, New York City Department of Transportation (DOT) Office of Construction Mitigation and Coordination (OCMC); state entities such as the New York State Department of State (NYSDOS), New York State Office of General Services (NYSOGS), New York State Department of Environmental Conservation (NYSDEC), New York State Historic Preservation Office (SHPO), Metropolitan Transit Authority (MTA); and federal entities such as the U.S. Environmental Protection Agency (EPA), Coastal Zone Management Act, U.S. Army Corps of Engineers (USACE), United States Fish and Wildlife Service (USFWS) and National Marine Fisheries Service (NMFS), and the Advisory Council on Historic Preservation.

Written comments on the DEIS are requested and will be received and considered by the Lead Agency through 5:00 P.M. on Tuesday, January 20, 2026.

For instructions on how to submit comments and participate, both in-person and remotely, please refer to the instructions at the beginning of this agenda.

This hearing is being held pursuant to the State Environmental Quality Review Act (SEQRA) and City Environmental Quality Review (CEQR), CEQR No. 24DEP053Y.

PROCUREMENT

“Compete To Win” More Contracts!

Thanks to a new City initiative - “Compete To Win” - the NYC Department of Small Business Services offers a new set of FREE services to help create more opportunities for minority and Women-Owned Businesses to compete, connect and grow their business with the City. With NYC Construction Loan, Technical Assistance, NYC Construction Mentorship, Bond Readiness, and NYC Teaming services, the City will be able to help even more small businesses than before.

● **Win More Contracts, at nyc.gov/competetowin**

"The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed, to the City's prestige as a global destination. The contracting opportunities for construction/construction services and construction-related services that appear in the individual agency listings below reflect that commitment to excellence."

HHS ACCELERATOR PREQUALIFICATION

To respond to human services Requests for Proposals (RFPs), in accordance with Section 3-16 of the Procurement Policy Board Rules of the City of New York ("PPB Rules"), vendors must first complete and submit an electronic HHS Accelerator Prequalification Application using the City's PASSPort system. The PASSPort system is a web-based system maintained by the City of New York for use by its Mayoral Agencies to manage procurement. Important business information collected in the Prequalification Application is required every three years. Documents related to annual corporate filings must be submitted on an annual basis to remain eligible to compete. Prequalification applications will be reviewed to validate compliance with corporate filings and organizational capacity. Approved organizations will be eligible to compete and would submit electronic proposals through the PASSPort system. The PASSPort Public Portal, which lists all RFPs, including HHS RFPs that require HHS Accelerator Prequalification, may be viewed, at https://passport.cityofnewyork.us/page.aspx/en/rfp/request_browse_public.

All current and prospective vendors should frequently review information listed on roadmap to take full advantage of upcoming opportunities for funding. For additional information about HHS Accelerator Prequalification and PASSPort, including background materials, user guides and video tutorials, please visit <https://www.nyc.gov/site/mocs/hhsa/hhs-accelerator-guides.page>

EXECUTIVE ORDER No. 64

CARRIAGE HORSE INSPECTIONS AND EXAMINATIONS

December 31, 2025

WHEREAS, urban carriage horses face a range of health and welfare concerns due to the conditions of city life, including exposure to traffic fumes, noise, hard pavement, and extreme heat, which can in turn lead to chronic respiratory problems, joint damage, heat stress, and psychological distress; and

WHEREAS, there have also been multiple reported incidents in recent months and years of carriage horses apparently suffering, collapsing, and even dying on city streets, creating distress for the horses and their caregivers, as well as for the general public, regardless of the cause of such incidents; and

WHEREAS, horses working in the carriage industry are licensed and regulated by the Department of Health and Mental Hygiene (DOHMH); and

WHEREAS, section 17-330 of the Administrative Code outlines requirements for the licensing, operation, and maintenance of working horses in New York City, with the purpose of protecting the health, safety and well-being of such horses, sets forth provisions for inspections and examinations of horses and their facilities by DOHMH and its authorized representatives, and authorizes DOHMH to order a horse's removal from work when a horse is lame or suffers from a physical condition or illness making the horse unsuitable for work; and

WHEREAS, on September 17, 2025, I issued Executive Order No. 56, which, among other things, directed DOHMH to conduct inspections as necessary, consistent with applicable law, to ensure the health, safety and well-being of carriage horses in New York City; and

WHEREAS, DOHMH engaged a qualified independent equine veterinarian to conduct stable inspections initially focused upon the examination of multiple older carriage horses; and

WHEREAS, the veterinarian informed DOHMH that, in his professional experience, the most important part of the clinical examination is the locomotive examination, which includes viewing the horse at a trot, because trotting is part of the horse's work requirements, and is an integral part of the standard locomotive examination adopted by the American Association of Equine Practitioners (AAEP); and

WHEREAS, the veterinarian also informed DOHMH that, in his professional experience, the second most important factor for establishing a sound locomotive examination is to confirm through bloodwork that the horse being evaluated is not on any painkillers that would mask its unsoundness, and such bloodwork is commonly performed on working horses; and

WHEREAS, on December 8 and 9, 2025, the veterinarian conducted examinations of 12 carriage horses, constituting a sample of horses from all three stables housing these carriage horses, all of which are among the oldest working in the industry in this City, and was unable to obtain the cooperation necessary to conduct examinations of two additional carriage horses whose owners did not make their horses available for examination or failed to appear for the examination; and

WHEREAS, nearly all of the horses so examined exhibited physical conditions that could bear upon the evaluation of their soundness, including scarring and related physical traits observed and documented by the examining independent veterinarian; and

WHEREAS, the owners of the 12 carriage horses examined on December 8 and 9, 2025, each refused to permit the veterinarian engaged by DOHMH to examine the horses at a trot or to conduct bloodwork to identify medications that could mask unsoundness; and

WHEREAS, in order to have a fuller understanding of the health, safety and well-being of the horses working in the carriage horse industry, and particularly those older horses that had been the subject of his examinations, the veterinarian's expert opinion was that an examination that lacks a trotting evaluation and bloodwork analysis provides an incomplete understanding of the horse's soundness; and

NOW, THEREFORE, by the power vested in me as Mayor of the City of New York, it is hereby ordered:

Section 1. I direct DOHMH to notify all licensed horse owners, including the owners of the horses initially identified for the examinations conducted by DOHMH on December 8 and 9, 2025, examined at that time or not made available for examination despite being noticed for examination, that, consistent with subdivision m of section 17-330 of the Administrative Code, each carriage horse owner must permit a licensed equine veterinarian acting on behalf of DOHMH to conduct an examination to fully understand the physical condition of the horse, which shall include examination of each horse's gait at a trot, and bloodwork or such other elements as determined by DOHMH to be appropriate to assess the horse's suitability for work. DOHMH shall issue such notices by January 9, 2026, and owners shall respond to DOHMH by January 16, 2026, to coordinate such examinations in accordance with such notices and confirm they will make their horses available for such examinations, including trotting, and bloodwork or such other elements as determined by DOHMH to be appropriate. Such examinations will then be conducted in February 2026 or as soon thereafter as practicable. If any owners refuse or continue to refuse to permit such examinations, including trotting, and bloodwork or such other elements as determined by DOHMH to be appropriate, DOHMH shall make the determination as DOHMH deems warranted to suspend their licenses and implement individual removal orders, pursuant to Article 5 of the New York City Health Code and subdivision m of section 17-330 of the Administrative Code respectively, until such time as such owners permit such examinations or their disputes are resolved in administrative or judicial proceedings.

§ 2. I further direct DOHMH to review the results of the initial phase of the current inspection program and the examinations required pursuant to section 1 of this Order, and to determine any basis for individual removal orders it deems warranted, pursuant to subdivision m of section 17-330 of the Administrative Code.

§ 3. I further direct DOHMH to determine and then take any appropriate actions it deems warranted, including the promulgation of rules pursuant to subdivision a of section 17-330 of the Administrative Code, in order to codify a systematic, industry-wide inspection regime, with appropriate remedies for obstruction of inspections and findings

of mistreatment of horses, based on the precedent of the examinations conducted in December 2025 and pursuant to section 1 of this Order.

§ 4. This Order shall take effect immediately.

SCHOOL CONSTRUCTION AUTHORITY

■ NOTICE

NOTICE OF FILING

Pursuant to §1731 of the New York City School Construction Authority Act, notice has been filed for the proposed site selection of all or portions of Block 8411, Lot 1 and any other nearby sites for the construction of a new, approximately 676-seat high school facility with a D75 program in Brooklyn.

The proposed site is located at 7001 Avenue U. It's an entire block located on the northside of Avenue U, between East 70th Street and East 71st Street in the Bergen Beach neighborhood of Brooklyn. The site is currently vacant land and paved parking. The proposed site to be acquired by the New York City School Construction Authority, on behalf of the New York City Department of Education, is an approximately 29,300 square foot (.67 acre) lot.

The site plan and supplemental materials summarizing the proposed action are available at:

New York City School Construction Authority
25-01 Jackson Avenue
Long Island City, NY 11101
Attention: Kelly Murphy, Senior Director, Real Estate Services
Website: <http://www.nycsca.org/Community/New-School-Sites>

Comments on the proposed action are to be submitted to the New York City School Construction Authority at the above address or by email to sites@nycsca.org and will be accepted until February 25, 2026.
