ESTIMATES OF THE DEPARTMENTS, BOARD OF EDUCATION, JUDICIARY, AND OFFICERS OF THE CITY OF NEW YORK, INCLUDING VARIOUS CHARITABLE INSTITUTIONS, FOR THE YEAR 1890.

CITY DEPARTMENTS.

At a meeting of the Board of Estimate and Apportionment, created by chapter 335 of the Laws of 1873, held July 8, 1889, the following preamble and resolution were adopted, to wit:

Whereas, Section 189 of the New York City Consolidation Act of 1882 provides as follows:

"The Mayor, Comptroller, President of the Board of Aldermen and the President of the Department of Taxes and Assessments shall constitute the Board of Estimate and Apportionment."

"The said Board shall, annually, between the first day of August and the first day of November, meet and, by the affirmative vote of all the members, make a Provisional Estimate of the amounts required to pay the expenses of conducting the public business of the City and County of New York, and each department and branch thereof, and of the Board of Education, for the then next ensuing year.

"For the purpose of making said Provisional Estimate, the heads of Departments and the Board of Education shall, at least thirty days before the said Provisional Estimate is required to be made, as herein provided, send to the Board of Estimate and Apportionment an estimate in writing, herein called a Departmental Estimate, of the amount of expenditure, specifying in detail the objects thereof, required in their respective departments, including a statement of each of the salaries of their officers, clerks, employees and subordinates.

"The same statement as to salaries and expenditure shall be made by all other officers, persons and boards having power to fix or authorize them.

"A duplicate of these Departmental Estimates and statements shall be made at the same time to the Board of Aldermen."

"Resolved, That the Comptroller request the heads of all the Departments, and the officers of the City and County of New York, to send their Departmental Estimates for the year 1890, in conformity to the foregoing provisions of law, to the Board of Estimate and Apportionment, on or before September 1, 1889."

You are particularly requested to send your Departmental Estimate to the Board of Estimate and Apportionment on or before the 1st day of September, 1889.

The Departmental Estimate should state specifically the objects and purposes of all the appropriations required to pay the expenses of conducting the public business of your Department in and for the year 1890. The amount required should be specified for each item of expense, including the salaries paid all officers, clerks and subordinates employed in the Department, giving the names and official titles of the several persons receiving such salaries, respectively, in accordance with the above-cited provisions of law. Full explanations should accompany the estimates, stating the reasons for any increase or decrease in the amounts, as compared with the appropriations made for 1889.

You are particularly requested to refer in your estimates to the provision of law under which the amounts of salaries and appropriations of specific sums for special objects and purposes are authorized.

A separate comparative statement, in tabular form, showing, in one column, the amounts of all appropriations made to your Department for the year 1889, for different objects and purposes, with additions and deductions therefrom for any transfers which may have been made from one appropriation to another; and showing, in another column, the amounts of appropriations asked for in your Departmental Estimate, for the year 1890, is also required to be appended to said Departmental Estimate.

You are also requested to state the amount which may probably remain unexpended of any appropriations for 1889 at the end of the year.

Every item of expense not absolutely necessary for conducting the public business should be excluded, and every item included in the estimates should be reduced to the lowest amount of expenditure consistent with efficient service, in order to secure the utmost economy in the administration of city affairs, and make the burthen of taxation as light as possible; and your co-operation with the Board of Estimate and Apportionment in accomplishing these important objects is earnestly requested.

Respectfully,
THEO. W. MYERS, Comptroller.

THE JUDICIARY, ETC.

At a meeting of the Board of Estimate and Apportionment, created by chapter 335 of the Laws of 1873, held July 8, 1889, the following preamble and resolution were adopted, to wit:

Whereas, Section 189 of the New York City Consolidation Act of 1882 provides as follows:

"The Mayor, Comptroller, President of the Board of Aldermen and the President of the Department of Taxes and Assessments shall constitute the Board of Estimate and Apportionment."

"The said Board shall, annually, between the first day of August and the first day of November, meet and, by the affirmative vote of all the members, make a Provisional Estimate of the amounts

required to pay the expenses of conducting the public business of the City and County of New York, and each department and branch thereof, and of the Board of Education, for the then next ensuing year.

"For the purpose of making said Provisional Estimate, the heads of Departments and the Board of Education shall, at least thirty days before the said Provisional Estimate is required to be made, as herein provided, send to the Board of Estimate and Apportionment an estimate in writing, herein called a Departmental Estimate, of the amount of expenditure, specifying in detail the objects thereof, required in their respective departments, including a statement of each of the salaries of their officers, clerks, employees and subordinates.

"The same statement as to salaries and expenditure shall be made by all other officers, persons and boards having power to fix or authorize them.

"A duplicate of these Departmental Estimates and statements shall be made at the same time to the Board of Aldermen."

"Resolved, That the Comptroller requests the heads of all the Departments, and the officers of the City and County of New York, to send their Departmental Estimates for the year 1890, in conformity to the foregoing provisions of law, to the Board of Estimate and Apportionment on or before September 1, 1889."

In accordance with the foregoing resolution, I respectfully request you to prepare and send to the Board of Estimate and Apportionment, as soon as practicable, and before the 1st day of September, 1889, without fail, an estimate in detail of the amounts required to pay the expenses of conducting the business of your office, in and for the year 1890. The purpose and object of every appropriation should be stated, and the amounts of the salaries of all officers, clerks, employees and subordinates should be specified; also the names and official titles of the several persons receiving such salaries, respectively, in accordance with the above-cited provisions of law.

If the estimates for 1890 differ in amount from the appropriations for the year 1889, you are requested to explain the reason of any increase or decrease.

You are particularly requested to refer in your estimates to the provision of law under which the amounts of salaries and of appropriations of specific sums for special objects and purposes, if any, are authorized.

Every item of expense not absolutely necessary for conducting the public business should be excluded, and every item included in the estimates should be reduced to the lowest amount of expenditure consistent with efficient service, in order to secure the utmost economy in the administration of city affairs, and make the burthen of taxation as light as possible; and your co-operation with the Board of Estimate and Apportionment in accomplishing these important objects is earnestly requested.

Respectfully,
THEO. W. MYERS, Comptroller.

The Departmental Estimates for the year 1890 are as follows:

THE LEGISLATIVE DEPARTMENT.

OFFICE OF THE BOARD OF ALDERMEN, NO. 8 CITY HALL,
NEW YORK, August 20, 1889.

Hon. THEO. W. MYERS, Comptroller:

DEAR SIR—In reply to your circular letter of the 20th ultimo, requesting me to prepare and transmit to the Board of Estimate and Apportionment, on or before the first day of September, 1889, estimates, in writing, of the amounts required to pay the expenses of conducting the public business in this office, in and for the year 1890, together with other information, I have the honor to state that the salaries fixed by law are as follows:

President of the Board of Aldermen.....	\$3,000 00
Twenty-five members of the Board, other than the President, at \$2,000 each per annum.....	50,000 00

(Section 52, New York City Consolidation Act of 1882; chapter 74, Laws of 1884; chapter 292, Laws of 1887.)

By section 79 of the New York City Consolidation Act of 1882, the sum to be appropriated for salaries for clerks and other officers of the Board of Aldermen, including the Clerk, is limited to \$25,000. The Board of Estimate and Apportionment, last year, specified the officers and fixed their salaries at \$22,100, which will be ample for the ensuing year, and is as follows:

Clerk of the Board, and ex-officio Clerk of the Common Council.....	5,000 00
Deputy Clerk of the Board of Aldermen.....	2,500 00
Five Clerks, at \$1,200 each.....	6,000 00
Four Clerks, at \$1,000 each.....	4,000 00
Librarian for City Library.....	1,000 00
Sergeant-at-Arms, Board of Aldermen.....	900 00
Three Messengers, at \$900 each per annum.....	2,700 00
City Contingencies.....	1,500 00
Contingencies—Clerk of Common Council.....	200 00

Total for the year 1890..... \$76,800 00

—and is an exact duplicate, both as to the objects and the amounts of expenditures, asked for and allowed for the year 1889.

Until after the organization of the Board of Aldermen for the year 1890, and the appointment of its officers, their names and designations cannot be given.

As all the appropriations are made to pay fixed salaries, with the exception of the items of contingencies, it is more than probable they will be all expended. The balance unexpended from the appropriation for "Contingencies" cannot, with any degree of certainty, be estimated at this time.

Very respectfully,
FRANCIS J. TWOMEY, Clerk Common Council.

THE MAYORALTY.

THE FINANCE DEPARTMENT.

CITY OF NEW YORK—FINANCE DEPARTMENT,
COMPTROLLER'S OFFICE,
October 15, 1889.

To the Board of Estimate and Apportionment:

I have the honor to submit herewith the Departmental Estimate of the Finance Department for the year 1890, pursuant to the provisions of section 189 of the New York City Consolidation Act of 1882, in which is specified in detail the amount of all expenditures required by that department for said fiscal year, and the objects and purposes thereof, the amount of all salaries of officers, clerks and employees in the service of said department, including the compensation of temporary clerks required annually during the latter part of the year to perform additional clerical duties then required in the Bureau for the Collection of Taxes.

Statements in detail are also submitted of all the stocks and bonds of the City and County of New York and of the territory annexed from Westchester County, now constituting the Twenty-third and Twenty-fourth Wards, which will become due and payable in the said year 1890, from taxation and the Sinking Fund for the Redemption of the City Debt, and from collections of assessments, together with statements of interest becoming due thereon in said year, and estimates of the amounts required to be raised by tax for interest on Revenue Bonds to be issued in 1890, and other classes of stocks and bonds.

The principal of stocks and bonds payable in the year 1890 from taxation and from the Sinking Fund, as provided by sections 176 and 177 of the Consolidation Act, as shown by the statement thereof, amounting to the sum of \$4,298,000, and forming a portion of the Funded Debt, can be paid from the Sinking Fund for the Redemption of the City Debt, and need not be included by the Board of Estimate and Apportionment in the Final Estimate for 1890.

A statement shows that stocks for the sum of \$321,400 become due in 1890, which will be redeemed from the Sinking Fund for the Redemption of the City Debt, under section 177 of the Consolidation Act, which provides for the payment, from that fund, of certain "preferred stocks and bonds," originally payable by law from taxation.

Bonds issued for various purposes become due and payable in 1890 from taxation, which are to be provided for by the Board of Estimate and Apportionment, amount to the sum of \$134,587.41, as shown by a statement thereof.

Bonds amounting to \$2,600,000, payable from the collections of assessments for street improvements, become due and payable in 1890, which may be provided for, if the amount in the City Treasury derived from assessments should not be sufficient, by the issue of bonds for the amount required under the authority of section 150 of the Consolidation Act of 1882.

The sum of \$963,666.54 is estimated to be required and raised by tax in 1890, under the provisions of section 11 of the State Constitution, as amended in 1884, which provides for an amount to be raised annually, sufficient with the accumulation of interest thereon to redeem the stocks payable from taxation, issued after December 31, 1884, for the supply of water.

In my Departmental Estimate for 1889, I called attention to the rapidly augmenting burden imposed upon the taxpayers by the provision of section 192 of the Consolidation Act, requiring to be included in the annual estimate and raised by tax, a sum sufficient, with the accumulation of interest thereon, to meet and discharge the amount of bonds and stocks payable from taxation, pursuant to any statute authorizing the same, issued after June 3, 1878.

An act (chapter 178, Laws of 1889) was passed at the last session of the Legislature relieving the taxpayers of this burden, by providing for the redemption of said bonds and stocks from the Sinking Fund for the Redemption of the City Debt, and authorizing the Board of Estimate and Apportionment to "reconsider, revise and amend the Final Estimate for 1889," which was done at a meeting held on April 26 last, by striking out and deducting the sum of \$975,769.02, which was included therein to provide for installments required to be raised by tax in that year, to pay the bonds and stocks payable by law from taxation, issued after June 3, 1878, pursuant to section 192 of the Consolidation Act. The tax levy for 1889 was thereby reduced that amount, pursuant to a resolution adopted by the Commissioners of the Sinking Fund certifying to the Board of Estimate and Apportionment the amount to be deducted, as provided by said act.

Said act provided also for the payment from the Sinking Fund of interest accruing and to accrue upon bonds and stocks of the City and County of New York which were held and to be purchased for investment by the Commissioners of the Sinking Fund, which interest by law would otherwise be payable from taxation.

Under this provision of the said statute of 1889, the sum of \$1,617,915.54 was also deducted by the Board of Estimate and Apportionment, under the certified resolution of the Commissioners of the Sinking Fund, from the Final Estimate for 1889, for interest on bonds and stocks held for investment by the Commissioners of the Sinking Fund. The tax levy for 1889 was thus reduced to that amount.

There was also a further reduction under said act, of the sum of \$60,000, which was included in the Final Estimate for 1889, to provide for interest to accrue on bonds and stocks to be issued in that year, which the Commissioners of the Sinking Fund would probably take as an investment, making a total amount of \$2,653,684.56, which was stricken from the Final Estimate for 1889, under the act of 1889, and payment provided for from the Sinking Fund, as shown by the statement thereof.

The amount of the installment which, under the provisions of section 192 of the Consolidation Act, would be required to be included in the Final Estimate and raised by tax in 1890, to provide for the redemption of bonds and stocks issued after June 3, 1878, excepting those issued for the supply of water, is \$1,078,529.33.

Under the provisions of chapter 178 of the Laws of 1889, this amount will be set apart out of the surplus revenues and accumulations of the Sinking Fund for the Redemption of the City Debt, for the payment of such stocks and bonds at maturity, instead of raising the amount by tax in 1890.

The amount of interest on stocks and bonds now held by the Commissioners of the Sinking Fund, and which will be purchased for investment in 1890, as estimated, which under the statutes authorizing the issue of such stocks would have to be paid by tax in that year, is \$1,701,597.86. Under said act of 1889 this amount will be paid from the "Sinking Fund for the Payment of Interest on the City Debt," instead of being included in the Final Estimate and raised by tax in 1890.

As will be seen by the accompanying statement, the interest on the City Debt (including interest on the debt of the territory annexed from Westchester County), on bonds and stocks issued and outstanding September 1, 1889, exclusive of funded debt held for investment by the Commissioners of the Sinking Fund, amounts to the sum of \$4,922,746.69, which amount will be included in the Final Estimate and raised by tax in 1890.

The estimated amount of interest required to be raised by tax in 1890, on stocks and bonds to be issued after August 31, 1889, and in 1890, less such stocks and bonds which, as estimated, will be purchased by the Commissioners of the Sinking Fund, is \$214,807.50, as shown by the statement thereof.

The principal and interest of bonds issued by the towns of Morrisania and West Farms prior to annexation to the City of New York, which become due and payable from taxation in the year 1890, amount to the sum of \$72,840, as shown by the statements thereof for each town, which amount is included in other statements under the proper heads.

The quota of State tax of the City and County of New York to be raised by tax in 1890, including the tax for Common Schools in the State and expenses of the Shore Inspector, is \$5,698,248.89, being an increase of \$1,597,426.18 over the amount for the present year. This large increase of the State tax imposes a heavy burden upon the City of New York, which is all the more onerous on account of the increase in valuations upon which the State tax is assessed, as fixed by the State Board of Equalization over the amount of valuations fixed by the Commissioners of Taxes and Assessments, upon which the city tax is assessed. This injustice has been heretofore the subject of discussion and protest, which should be continued until it is corrected by a different system of equalization of valuations on which the State taxes are assessed.

The State equalization table of 1889 shows that the sum of \$195,456,013 was deducted from the valuations of some counties in the State and added to the valuations of others, of which amount the sum of \$119,425,063 was added to the valuation of real estate in the City of New York.

Statements are also submitted with the Departmental Estimate of the rents to be provided for in the year 1890, payable on leases to the City of premises for the use of various departments and public offices, the Civil and Police District Courts, armories and drill-rooms, together with estimates of miscellaneous expenses chargeable to the City Treasury and payable in said year, and on account of judgments obtained against the Corporation, necessary expenditures for real estate belonging to the City, the wages of Armorer, Janitors and Engineers for armories, etc., as provided by law.

Respectfully submitted,
THEO. W. MYERS, Comptroller.

The foregoing comprises the present force and salary paid in the Bureau of the Public Administrator, with the following changes:

- (1.) \$300 have been added to the salary of the Second Clerk, who is the Bookkeeper, and who, as I have indicated, is inadequately compensated.
- (2.) \$600 have been asked for, for salary of a Stenographer and Typewriter—the necessity for which will be personally explained by Mr. Lydecker if required.
- (3.) \$300 have been cut off from the appropriation for last year for contingencies, relying upon the provisions for a Stenographer and Typewriter, and should such appropriation not be made, this request must be modified.

This bureau now occupies a part of the record room of the Comptroller's office at sufferance, and the lack of accommodation afforded for filing the books and records is a cause of constant confusion and annoyance, and seriously hampers the discharge of the duties of the Attorney and Clerk. The one Clerk now given to this bureau, besides attending to his manifold duties as such, is compelled also to act as copyist and messenger, thus unavoidably delaying the discharge of one or the other of his duties. An additional Clerk to assist the present one should be furnished, as the death, resignation, removal or illness of the only present Clerk would seriously interfere with the work of this bureau for a considerable time. The existing arrearage of the business committed to this bureau is due to the illness and death of Mr. Comerford, the former Clerk, about one year ago.

It is proper that I should submit for the information of the Board the following facts relative to the different sums which I have asked shall be appropriated for the expenses of conducting the Law Department during the year 1890:

A. Salaries of Assistants, Clerks, Employees and Subordinates. \$100,000 00
 This increase of \$8,000 over the appropriation is due (1) to the increased force which I have been compelled to employ by reason of the fact that all work connected with the Department—excepting the conduct of suits against the City for large amounts, in which special counsel were, many years ago, retained in the conduct of them—has been done by the salaried force of the office.

I have discontinued as far as possible the practice of paying out retainers in ordinary actions against the municipality.

The best evidence that I can offer on this point is the fact that, while since the date of my appointment, I have paid out of the Contingent Counsel Fee Fund \$6,282.19, yet but \$250 of that sum was paid by me on cases arising since my appointment. The entire balance was paid out for services rendered upon retainers given before I was placed at the head of the Department; a considerable part was paid for balances claimed to be due, upon the termination of outstanding retainers and the retaking of control of the actions by this Department.

In addition I have caused all the work of procuring the condemnation of fourteen of the sites for school purposes out of the eighteen selected under chapter 136 of the Laws of 1888 to be done by the Law Department instead of continuing the practice of employing special counsel to represent the City. Of the eighteen sites selected the proceedings in four were conducted to a determination by special counsel not employed by me, and there was certified as compensation for the services rendered prior to the date when I took control, of the balance of the proceedings, the sum of \$5,200.

If the sum certified as compensation for the special counsel so employed, to wit, \$5,200, was reasonable in procuring the title to four pieces, then I may safely say that by adopting the practice of requiring my assistants to do the necessary work, on the remaining fourteen, at least \$15,000 has been saved to the City.

I annex hereto and mark "A," statement showing the different pieces of property acquired and the amount claimed and awarded. This work is now substantially completed.

By the enactment of chapter 343 of the Laws of 1889 it is provided as follows:
 "Sec. 6. Section eleven hundred and thirteen of said Code of Civil Procedure is hereby amended so as to read as follows:

"Sec. 1113. Upon receiving the return to the minute and certificate required by the provisions of section ten hundred and eighty-nine to be filed in the office of the commissioner of jurors, and the certificate required to be transmitted to said commissioner of jurors, as prescribed in section eleven hundred and eleven, said commissioner shall transmit a list of the delinquent jurors who have been returned as fined to the counsel to the corporation of said city, whose duty it shall be to apply forthwith to a judge of the court in which such fine shall have been imposed for an order directing each delinquent juror returned as having been fined in such court, to show cause before the judge by whom such fine was imposed, or such other judge as may be designated in such order should the judge by whom such fine was imposed have ceased to be a member of such court, or for any other reason shall be unable to hear such proceeding at a time and place to be named therein, why the payment of the fine should not be enforced. In case of the absence of such judge at the time and place mentioned in said order, the proceedings thereunder may be

conducted before such other judge of said court as may be then and there present. Said order shall be served upon the persons to whom the same is addressed, by delivering to each one personally, and leaving with him, a copy of the same. It shall be the duty of the commissioner of jurors to cause such orders to be served.

"Such service may be made by any person by whom a summons in a civil action in a court of record might be served who may be designated for the purpose by the commissioner of jurors, and proof of such service may be made by affidavit. The proofs of such service shall be transmitted to the counsel to the corporation. In case of failure to make such service it shall be the duty of the commissioner of jurors to transmit to the counsel to the corporation the affidavit of the person charged with the duty of making such service, setting forth the reasons for such failure and the efforts made to effect such service. As many delinquents may be included in one proceeding as the counsel to the corporation may determine, but the copy of the order required to be served upon each delinquent need not specify the names of other delinquents included in the same proceeding. If the delinquent attends, in obedience to said order to show cause, the judge before whom the same is heard, may, for good cause shown, remit such fine in whole or in part. If such fine is not remitted, or is remitted only in part, the judge shall order the said fine, or so much thereof as shall not have been remitted, as the case may be, to be enforced. If the delinquent shall fail to appear a like order shall be made for the enforcement of the fine upon due proof by affidavit of the service upon such delinquent of such order to show cause. In all cases in which a fine shall be ordered to be enforced in whole or in part, costs not exceeding ten dollars in each case shall be awarded against the delinquent, which shall be added to and form a part of the fine to be enforced. The order for the enforcement of a fine, in whole or in part, shall be conclusive with respect thereto. An appeal may be taken from any such order not made on default to the general term to which an appeal now lies from any order or judgment made or rendered in the court in which such fine is imposed. Such appeal shall be taken in the same time and in like manner as is now provided by law in relation to appeals from orders made in such court and shall be final."

The number of fines during the months of October, November, December, January and February, 1888, averaged three hundred and sixty each month.

It will be readily seen that to make out three hundred and sixty orders to show cause and copies thereof to serve and file in one month, and to conduct the proceedings in court looking to the enforcement of the fine and such subsequent action as may be rendered necessary by the decision of the Justice before whom the matter is heard, such as entry of order, appeal if taken, etc., will, with the keeping of a proper set of registers for these proceedings, require at least (1) an Assistant to devote all his time to the argument of the return to the orders to show cause and preparation of opposing affidavits, at a salary of \$3,000; (2) a Register Clerk at a salary of \$1,000; and (3) a competent Law Clerk to make out the orders in proper form at a salary of \$1,500.

The increased work cast upon the Law Department by this act would, I submit, be sufficient to warrant me in asking for the increase of \$8,000 were no other considerations advanced.

B. The item of General Contingencies is fixed at the sum allowed for 1889 and is about the sum needed to meet the expenditures properly chargeable to this appropriation.

C. The item of Contingent Counsel Fee is fixed at the sum allowed for 1889.

I annex hereto and mark "B," statement showing the very important actions in which the City is either plaintiff or defendant, where eminent lawyers are engaged as special counsel for the City.

There are also to be considered the suits against the City, growing out of the Aqueduct contracts, where large sums are involved and where at my suggestion the Aqueduct Commissioners have submitted a list of names of well-known lawyers, from which I have selected Mr. James C. Carter to act as special counsel for the City.

D. The item of Deficiency Contingent Counsel Fees is rendered necessary by the fact there is at the present time, bills rendered to August 1, 1889, in the suit of Campbell vs. The Mayor, amounting to \$9,690.36; there are other bills amounting to over \$2,500, and there is due in addition to above amounts more than sufficient to make up the sum I ask, namely, \$15,000.

I consider it but fair that the Board should allow me a sufficient sum to enable me to pay and discharge, before the beginning of the year 1890, all debts against the office standing at the date of my appointment or included in retainers theretofore given.

E. The sum of \$10,000 for procuring and presenting evidence as to the value of lands to be taken for small parks under the chapter 320, Laws of 1887, is rendered necessary by reason of the fact that, as will be seen from the statement annexed, marked "C," there is at the present time four parks laid out, the title to the property in all of which, particularly in the three lower parks, should be acquired as speedily as possible.

The proceedings for the acquisition of the lands included within the Corlears Hook Park are being now taken and similar proceedings will shortly be begun and prosecuted to a completion in the Mulberry Bend and East River Parks. The expense which this item of \$10,000 now asked is intended to principally cover is the procuring of expert testimony relative to the value of the land to be taken, and examinations relative to the bona fides of sales of the property, with a view of uncovering such sales as are known as "wash sales," which are, I regret, very common when the City is about to acquire property under condemnation proceedings. The object of the sale being to fix a price by an open sale which, if the sale were an honest one, would be controlling on the question of value.

F. The item of \$6,000 for Street Opening Proceedings is the same as the sum allowed for 1889.

In conclusion I beg to call the attention of the Board to the fact that I have asked for \$193,000 in all for this office, as against \$184,000 appropriated for its needs for 1889; that deducting from said sum of \$193,000 the sum of \$15,000 to cover the deficiency in the contingent counsel fee fund of 1889, it will be seen that with all the additional work, which I have in a measure detailed, the amount of my estimate is but \$178,000 for the expenses of the Corporation Counsel's Office for the year 1890, or \$8,000 less than was appropriated for 1889.

Respectfully,

WM. H. CLARK, Counsel to the Corporation.

"A."

MEMORANDUM IN RELATION TO SCHOOL SITES.

1. Northwest corner of Sixty-eighth street and Tenth avenue.
 The Commissioners awarded in this case \$70,000; valuation by City's experts, \$60,000; valuation by property-owners' experts, \$79,500. This report was approved by the Board of Education, and the property now belongs to the City.

2. Ninety-third street and Tenth avenue.
 In this case the Commissioners awarded \$79,000. The valuation placed upon the property by experts for the City was \$76,750, and by the property-owners' experts, \$80,500. This also was approved by the Board of Education, and order entered confirming the report.

3. Delancey and Ludlow streets.
 The Commissioners in this case awarded \$34,000, which was subsequently reduced to \$33,000, the experts for the property-owners valuing the premises at \$41,000, and the City's experts at \$28,500. The Board of Education approved the report, which was confirmed.

4. Norfolk and Hester streets.
 In this proceeding the Commissioners awarded \$17,000, which was within \$1,500 of the valuations placed upon the premises by experts for the City. The award was satisfactory to the Board of Education and the report confirmed.

5. South side of Thirty-eighth street, near Second avenue.
 In this matter the award of \$23,500 was acceptable to the Board of Education and the report confirmed. All the testimony in this case was taken while Mr. Berry represented this office.

6. Southeast corner of Hester and Chrystie streets.
 In this case the Commissioners awarded \$107,500. The valuation placed upon the premises by the City's experts was \$90,500, and that of the property-owners \$112,000.

The matter is now before the Court on a motion to have new Commissioners appointed and a rehearing on the ground that the award is excessive.

7. Fifty-first street and First avenue.
 The Commissioners in this case awarded the sum of \$43,000, the average valuation of the City's experts being \$37,000 and that of the property-owners' experts \$50,000. Now before Court on a motion to confirm award.

8. Washington, Albany and Carlisle streets.
 In this matter the Commissioners awarded \$183,400 in their preliminary report. The City has filed objections to the award, but the hearing of objections has not yet been had. It is the opinion of the Committee on Sites that these proceedings should be abandoned.

9. Forty-first street, between Seventh and Eighth avenues.

The Commissioners, in this case, awarded \$27,000, the average valuation of the property by the City's experts being \$14,000, while the experts for the property-owner valued it at \$20,000. The property-owner, however, claimed that she was entitled to receive a much larger sum by reason of the injury done to the remaining property owned by her, she owning a plot two hundred feet square.

The Board of Education decided to abandon this proceeding, and a motion to that effect will be made before the first Monday in October.

10. Broome and Ridge streets.
 The Commissioners awarded \$120,250, in their preliminary report, the valuation placed upon the property by the experts for the City being \$104,000, that by the experts for the property-owners, \$135,000. The City filed objections, additional testimony was taken, and, upon the rehearing, the Commissioners reduced their award by \$4,000.

The Board of Education will pass upon this proceeding at their next meeting.

11. Mulberry and Bayard streets. The amount awarded by the Commissioners was \$153,000; valuation by the experts for the City, \$120,000, property-owners' experts' valuation, \$181,000. Objections were filed, as directed, and testimony taken before the Commissioners, who reduced the award to \$143,000, making a reduction of \$10,000.

The Board of Education have not passed upon this award, which will be submitted at their next meeting.

12. Fourth street, near First avenue. The Commissioners have awarded \$76,130. The valuation placed upon the property by the experts for the City prior to filing the preliminary report was \$63,000.

The Board of Education failed to approve this site, and additional testimony was taken before the Commissioners. The case was prolonged, partly owing to one of the Commissioners being in Europe, but is now closed awaiting the decision of the Commissioners.

13. First and Second streets and First and Second avenues. In this case the Commissioners awarded \$31,750, the valuation of the City's experts being \$28,000. The owners of a small gore which was taken are negotiating with the Board of Education to have the gore excluded from the Commissioners' report, as the amount awarded for that piece is deemed excessive by the Board, while the property-owner thinks he should have received a larger amount.

14. One Hundred and Thirteenth street, near Third avenue. This proceeding appears to have been begun and a little testimony taken when the owner of the property petitioned the Board of Education to have the entire site abandoned.

The Board of Education has failed to take any definite action in the matter, but the Committee on Sites have signified their willingness to abandon the location, provided the property-owners will pay all expenses. The property-owner is temporarily insane, so nothing has been done in the matter.

15. North side of Seventy-fifth street, near Third avenue. The Commissioners awarded \$22,000, the valuation of the City's experts being \$21,000. The report was approved by the Board of Education and confirmed.

16. Fifty-first street, near Lexington avenue. The Commissioners have awarded \$24,500, the valuation placed by the City's experts being \$22,500, while that of the property-owners was \$29,000.

This matter has not yet been presented to the Board, but will be acted upon at their next meeting.

LAW DEPARTMENT, OFFICE OF THE COUNSEL TO THE CORPORATION, NEW YORK, October 1, 1889.

CHARLES V. ADEE, Esq.:

MY DEAR SIR—I send you herewith a statement which I have this day received from Mr. Frederic H. Betts, the Special Counsel in a number of suits against the City of New York growing out of patent claims. I desire to have it considered and presented to the Board at the time my Departmental Estimate is passed upon, and I will feel obliged to you if you will either annex it to my estimate or present it to the Board of Estimate and Apportionment with it.

Yours, truly,

WM. H. CLARK, Counsel to the Corporation.

To the Board of Assessment and Apportionment:

GENTLEMEN—At the suggestion of the Counsel to the Corporation, the Honorable William H. Clark, I appear before you to ask an appropriation to defray the expenses of certain special litigations in which the City of New York is involved, and which are of such a character as to necessarily require the expenditure of a larger amount than could be provided for by the ordinary annual appropriation for the expenses of special counsel to the City.

The cases to which I refer are all of them suits brought against the City of New York or its departments, or claims made against the City for infringement or alleged infringement of certain letters patent for inventions.

All the suits are pending in the Circuit Court of the United States for the Southern District of New York, that being the only court having cognizance of suits of that character.

The pending proceedings are as follows:

(1.) Suit in the name of Christopher C. Campbell against the City of New York, for infringement of a patent granted to James Knibbs for improvements in steam fire-engine (relief valve).

(2.) A suit in equity in the name of William A. Brickall against the City of New York, on patents for improvements in steam fire-engines (detachable heater for heating water in engine boilers).

(3.) A suit in the name of Dubois against the Cities of New York and Brooklyn, patent for improved method of constructing piers and foundations under water (alleged to have been infringed in the construction of the foundations of the towers of the Brooklyn Bridge).

(4.) A claim in the name of Robert Bragg against the City of New York, on patent for improved automatic device for releasing horses in engine-houses on sounding of an alarm gong.

All of these suits involve large claims. The claim in No. 1 amounts to about two million five hundred thousand dollars.

The claim in No. 2 amounts to several hundred thousand dollars.

The claims in Nos. 3 and 4 have not yet been formulated, the prayer for relief and claim of damages being general, but they are understood to involve large sums.

(5.) A claim by the Gamewell Fire Alarm Telegraph Company for infringement of a patent for a fire-alarm signal box, and one by one Camp for infringement by use of a pavement, all also pending.

The reasons why the expenses of these cases are necessarily large, and during their pendency require the expenditure of larger sums of money than would be estimated for in an average annual appropriation, are as follows:

All of the claims being for infringement of letters patent for invention, and involving special knowledge of patent law and special knowledge of mechanics, have been placed in the hands of counsel who make a specialty of conducting suits of that character.

As is well known, all great corporations who have patent litigation employ counsel skilled in patent law and patent practice in addition to their regular general counsel.

The costs of procedure in patent cases is necessarily expensive and protracted, owing to the method of proceeding adopted by the Circuit Courts sitting in equity for trial of such cases.

All testimony has to be taken out of court before Examiners appointed by the Court for that purpose, the witnesses have to be examined orally before such Examiners, and their testimony written down, word for word, as given, and subsequently printed for the use of the Court.

After the conclusion of the testimony the causes are heard by oral argument of counsel based on such printed record.

Such course of proceeding involves the protracted attendance of counsel before Examiners from day to day, often in distant places, involving great expenditure of time and the payment of large sums for expenses, including the fees of the Examiners and for the numerous attendances of witnesses.

We may mention, however, as indicating that the large expenses heretofore paid and now incurred have not been injudicious, that we have been retained by the successive Counsel of the Corporation to defend all the patent litigations against the City (thirteen in number) for about thirteen years last past, and during that period, and though claims amounting to several million dollars have been presented and prosecuted during that time and defended by us, the amount collected during said period has been only about \$5,000 as a result of our settlement of three different suits, involving large claims.

The proceedings in two of the above-named matters have been, during the present year, exceedingly onerous, protracted and expensive, as will be seen from a brief recital of the condition of the several cases.

It will be noted that all of the proceedings were commenced before, and many of them long before, the appointment of the present Corporation Counsel.

The testimony that was likely to be taken, or the amount of expenses which would be likely to be involved in making a defense to these cases, could not possibly have been estimated in advance with any degree of accuracy.

The nature and situation of the several cases at present is as follows:

I.—The suit of Christopher C. Campbell vs. The Mayor was commenced in November, 1877. I was retained therein as counsel for the City of New York by the then Corporation Counsel in December, 1877.

A large amount of testimony was taken in the case before Special Examiners appointed by the Court, beginning early in 1878 and ending in February, 1880.

The testimony for the complainant covered upwards of 930 printed pages, and that of the defendant 713 printed pages.

The cause was heard at the April Term, 1881, decreeing that the patent was valid and had been infringed by the City, and directing that an account of profits should be taken before a Master appointed for that purpose.

The accounting proceeded before the Master, who was to fix the amount of the complainant's claim, until the 9th day of April, 1888.

Upwards of thirty witnesses were examined by the complainants before the Master, many of them at great length, and a claim, based on their testimony, presented, amounting to upwards of two million five hundred thousand dollars.

At the date above mentioned, the complainant had still other witnesses to call in support of its claim, and had not closed its case.

The defendants had not yet commenced to examine witnesses on the question of the amount of recovery.

On the 23d day of April, 1888, our firm, acting on behalf of the City, procured an order staying the proceedings before the Master, and directing that the complainant show cause why the suit should not be reheard, on the ground that, since the decision sustaining the patent had been rendered in 1881, by the Circuit Court, that the Supreme Court of the United States had rendered certain decisions determining the law to be otherwise than it had been decided to be by the Circuit Court, and to be such as we had contended on the trial was its correct interpretation, and that, in view of the facts as proved prior to the trial by the witnesses who had been called, that the plaintiff's patent was invalid.

This application was resisted on elaborate papers by the complainants, but the Court, on the 23d day of May, 1888, granted the application for a new trial and reheard the cause; and after a careful review and reconsideration of all the testimony in the case, and after an elaborate argument by counsel for both parties, rendered a decision, on the 10th day of July, 1888, decreeing that the complainant's patent was void and directing that the bill of complaint be dismissed.

On the 20th day of July, 1888, the complainant petitioned the Court for leave to reopen the proofs and to take further proofs in regard to certain facts which the Court in its last decision had held to be sufficient, if true, to cause the dismissal of the bill.

The question in dispute, briefly stated, was whether certain steam fire engines manufactured, sold and delivered by the Amoskeag Manufacturing Company, of Manchester, N. H., were so constructed as to embody the invention in controversy.

The particular engines principally in question were known as the "Gov. Hill," delivered to the City of Concord, N. H., in 1862; the "Phoenix," delivered to the City of Hartford, Conn., in 1861; and the "Atlantic," delivered to the City of Lawrence, Mass., in April, 1862. (There are also two or three others.)

As counsel for the City, we vigorously oppose this motion, contending that it would be unjust to reopen the question of the truth of facts which occurred upwards of a quarter of a century previously, and that the investigation in regard to such facts would be protracted and costly, and hence ought not to be permitted to the complainant, or the expense imposed upon defendants after so long a lapse of time and after the previous trial.

Notwithstanding such opposition the Court granted the petition and allowed the complainants to introduce proof to disprove the allegations and former proofs that such engines were provided with the device in controversy and allowed the defendant (the City) to call witnesses to contradict any proofs on the part of the complainant and to further establish and fortify the facts in question if possible, and allowed the complainant thereafter a period within which to rebut any evidence that might be produced on behalf of the City.

It is this new proceeding and reopening of the case and the compelling of the defendant, notwithstanding our strenuous opposition, to contest over again by proof the issue as to the construction of those old engines, which has necessitated during the present year the expenditure of a very large amount of time and large sums of money in necessary expenses, which could not have been estimated for in advance.

All of the testimony had to be taken in the same way as for the original hearing of the case, before Special Examiners; had to be written out by them, word for word, and has to be subsequently printed for the use of the Court.

The Court appointed Special Examiners to take such testimony at Hartford, Conn., at Concord, N. H., and at Lawrence, Mass.

The complainant introduced proof of a number of witnesses, in the first instance, who denied that the said engines or any engine (other than one constructed at the suggestion of the patentee) had been provided with the device in controversy at the period stated, and particularly denied the either the "Gov. Hill," the "Phoenix," the "Atlantic," or any other engine, upon which we relied, were so provided.

It became incumbent upon the City in order to sustain its position, previously sustained by the Court, as above seen, to endeavor to put the question beyond the reach of further controversy, and we have accordingly endeavored to call all of the accessible living members of the fire companies who were familiar with those engines, and who had any recollection of the facts.

For this purpose we have examined fifteen witnesses at Hartford, nine witnesses at Concord, and eight witnesses at Manchester.

The taking of their testimony and the necessary preparation in finding them and ascertaining what facts they could prove, and finding and procuring books and papers to corroborate them as to dates and circumstances, has occupied nearly every working day in this year, from the 6th day of May to the present time.

One of the members of our firm has been almost continuously absent from home engaged in such proceedings, since the first day above mentioned.

The taking of testimony has now been substantially completed on the part of the City, only two, or possibly three witnesses remaining to be examined, but one of those witnesses being an extremely important one, it is likely that his cross-examination will be continued at some length.

After the conclusion of the evidence on behalf of the City to prove that the engines in question contained the device in controversy, it will be opened to the complainant to call witnesses to contradict such evidence as the City had adduced. We understand that it is the intention of the complainant to call a number of witnesses on this point, and it will be necessary to carefully cross-examine them if they give testimony conflicting with that adduced for the City.

About December, 1888, it was called to our attention by a former engineer in the United States Navy, that two steamers in the Navy, the "Powhatan" and the "Knoxville," had been furnished with the device in controversy attached to their engine-pumps, and it was subsequently ascertained, after careful investigation, that certain printed publications and drawings, published about 1859 or 1860, had an important bearing tending to prove this defense.

Inasmuch as the Court had at that time reopened the case for further proofs on the application of complainant, we petitioned the Court for leave to introduce this new evidence as a defense on behalf of the City.

On the 30th day of June, 1889, the Court granted this motion and allowed the City time within which to substantiate this defense.

A number of engineers who were familiar with the construction of the machinery of the "Knoxville" and the "Powhatan" were thereupon examined on behalf of the City, and were thereafter cross-examined at great length by complainant's counsel.

The taking of this evidence occupied from the 4th day of February until the 20th day of April, and constitutes a very important branch of the defense.

After the conclusion of the evidence the case will have to be reargued at length before the Court on printed evidence.

The record book will cover upwards of 2,000 printed pages.

The argument will require considerable time, both for preparation and for the actual hearing. The City has already incurred, in this suit and in one other, obligations for counsel fees and disbursements, which are unpaid, of upwards of \$15,000 (besides what has been paid), and the further conduct of the case will necessarily involve the expenditure of from \$5,000 to \$10,000 additional.

The bill of the Examiner of this Court for taking testimony in the City of New York, which is unpaid, amounts to \$809.40.

The bill of the Special Examiner for taking the testimony in Hartford, Conn., which is unpaid, amounts to \$924.60.

The bill of the Special Examiner for taking testimony at Concord, N. H., and Lawrence, Mass., which is unpaid, amounts to at least \$500. (The testimony not being quite finished the exact amount cannot be given.)

In addition to this, there are fees of a Mechanical Expert and Engineer unpaid amount to \$1,200.

We have personally made disbursements since those that have been paid amounting to nearly \$1,000.

II.—The suit of William A. Brickall vs. The City of New York was commenced in January, 1871.

My firm was retained on behalf of the City in February, 1871. Testimony was taken in the suit at considerable length, and the cause came on for hearing at the October Term, 1879, and was argued by counsel; and a decree was rendered sustaining the patent, and decreeing that the City had infringed, and ordering a reference to a Master.

The accounting proceeded before the master for some time, but the Master, Stephen D. Law, Esq., subsequently died without completing the testimony.

On the application of the complainant, on the 14th day of June, 1888, Mr. G. E. P. Howard was appointed master in place of Mr. Law, deceased.

No further proceedings have since been had, and all fees and expenses in that case incurred by the City up to the present time have been paid.

If the accounting should, however, be continued, it will be necessary to defend it.

III.—The suit of John Dubois against the cities of New York and Brooklyn was commenced on the 1st day of January, 1884.

An answer was interposed and testimony has been taken on behalf of the complainant, but the complainant has not as yet made out its prima facie case.

No proceedings have been had in this case since the 11th day of September, 1888.

All fees and expenses in defending this suit up to the present time have been paid.

If the suit should be continued, it would, however, be necessary to incur considerable expense.

IV.—The claim of Robert Bragg against the City of New York is awaiting the determination of a suit brought by the same patentee against the City of Terre Haute, Ind.

Under retainer from Corporation Counsel Beekman, our firm have assisted in the defense of the Terre Haute suit, on the ground that the same defense which was to be relied upon by the City of New York was involved in the Terre Haute suit, and that any adjudication against it in the Terre Haute suit would act disastrously to the defense to the City of New York.

No proceedings have been had since the 10th day of April, 1889.

We have charges in said proceeding amounting to \$1,125, which were included in our bill of May 1, 1889, which have not been paid.

Disbursements made by us in that connection have been paid.

V.—In addition to the above there are two other matters which are in our hands, in which we are defending the City against claims for infringement of patents, to wit, one suit by the Gamewell Fire-alarm Telegraph Company, and another proceeding by one Camp for a patented pavement.

In neither case have any proceedings been taken for a long time.

THE DEPARTMENT OF PUBLIC WORKS.

DEPARTMENT OF PUBLIC WORKS—COMMISSIONER'S OFFICE, }
No. 31 CHAMBERS STREET, }
NEW YORK, September 23, 1889.

Hon. HUGH J. GRANT, Mayor and Chairman, Board of Estimate and Apportionment:

SIR—In compliance with section 189 of the New York City Consolidation Act of 1882, I have the honor to present the following estimate of the amounts required to conduct the public business under the charge of this Department for the year 1890:

AQUEDUCT—REPAIRS, MAINTENANCE AND STRENGTHENING.

Final Estimate for 1889—	
General account	\$218,800 00
Salary account	27,166 00
Total	\$245,966 00
Departmental Estimate for 1890—	
General account	\$349,000 00
Salary account	27,000 00
Total	\$376,000 00

The work and expense to be provided for in this appropriation include the care, maintenance and repairs of the aqueduct, reservoirs, lakes, dams and other structures connected with the city's water supply; the operation of the high-service pumping works at High Bridge and at Ninety-eighth street; taxes on aqueduct and reservoir property in Westchester and Putnam Counties, and the strengthening of the weak portions of the aqueduct structure by the construction of additional retaining-walls and reinforcing the top arch. This latter work is of imperative necessity while the aqueduct is under the extreme pressure of carrying water to within a few inches of the inner top of the arch, in order to maintain a fair supply of water until the New Aqueduct is completed and brought into full use. In addition to these items, the estimate for 1890 provides for an expenditure of \$150,000 to continue and complete the excavation of the old reservoir in Central Park to the proper and even depth, and \$25,000 for connecting the new gate-house on the New Aqueduct at One Hundred and Thirty-fifth street, with the old Aqueduct and the aqueduct pipes on Tenth avenue, and removing the old gate-house and the waste-weir which now stand in the carriageway of Tenth avenue, at One Hundred and Thirty-fourth street and One Hundred and Forty-second street, respectively, which will become unnecessary when the new connections are made, and should be removed as a useless incumbrance on the avenue. The Departmental and Final Estimates for 1889 include \$30,000 for excavating in the old Central Park Reservoir. Deducting the additional \$120,000 for reservoir excavation, and the \$25,000 for new gate-house connections, and the removal of the old gate-house and waste-weir on Tenth avenue, from the above estimate for 1890, the amount of \$204,000 remains for the ordinary work of repairs, maintenance, strengthening and operation of high-service works, with \$30,000 included in the Final Estimate for 1889, for reservoir excavation, making the present estimate for 1890, \$14,800 less than the Departmental and Final Estimates for 1889.

The estimate for salary account provides for the present force and salaries, with the addition of one Engineman, whose services shall be required when the additional water supply is received through the New Aqueduct, as follows:

1 Assistant Engineer	\$3,000 00
1 Assistant Engineer	1,800 00
1 Leveler	1,200 00
1 Rodman	1,000 00
1 Keeper	1,400 00
1 Keeper	1,200 00
6 Keepers, \$1,000 each	6,000 00
2 Enginemen, \$1,500 each	3,000 00
2 Enginemen, \$1,200 each	2,400 00
3 Enginemen, \$1,000 each	3,000 00
1 Clerk	2,000 00
1 Messenger	1,000 00
Total	\$27,000 00

From the above it will be seen that notwithstanding the addition of one Engineman at \$1,200, the estimate for salary account for 1890 is \$166 less than the Departmental and Final Estimates for 1889.

BORING EXAMINATIONS FOR GRADING AND SEWER CONTRACTS.

Final Estimate for 1889	\$3,600 00
Departmental Estimate for 1890	3,600 00

This estimate is for the labor, tools, etc., required in making borings to arrive at closely approximate estimates of the relative quantities of rock and earth excavation for sewer contracts and contracts for regulating and grading streets, and thereby prevent loss to the City and the property-owners from unbalanced bids received at public lettings.

BOULEVARDS, ROADS AND AVENUES, MAINTENANCE OF.

Final Estimate for 1889—	
General account	\$100,000 00
Salary account	2,500 00
Total	\$102,500 00
Departmental Estimate for 1890—	
General account	\$100,000 00
Salary account	2,500 00
Total	\$102,500 00

The estimate for general account provides for the wages of the foremen, mechanics, laborers, teams and carts employed on general maintenance and repairs; the sprinkling of the roadways; the purchase of road material, including gravel, sand, broken stone, screenings, etc.; the care, repairs and renewal of sprinkling-wagons, trucks, carts, tools and utensils; the care and replanting of shade trees; rent of repair yard, and miscellaneous items, and for extra materials and road materials under contracts for re-surfacing portions of the roadways which have become too much deteriorated to be properly maintained by ordinary repairs. The rapid increase in buildings and population along and in the vicinity of these macadam roadways, and the corresponding increase in the weight and frequency of public travel over them, call for constant increase in labor and materials to keep them in fair condition.

It is my firm conviction that macadam pavements are not suitable for the character of the traffic on any city street. To maintain them in fair condition under such traffic is not only very expensive but in some respects practically impossible. In dry weather they create excessive dust, and in wet weather, or when they are abundantly sprinkled to keep down the dust, they are muddy. They are only suitable for the light traffic in exclusively suburban districts which, from the topography of the ground and other conditions, will always retain their suburban character. The present macadam pavements on the streets of this city should be replaced as rapidly as practicable with other more suitable pavements, but while the macadam roadways exist no effort should be spared to keep them in fair condition and relieve the public and the residents in their vicinity from the annoyance of excessive dust or excessive mud.

The estimate for salary account is for the salaries of—

1 Clerk	\$1,500 00
1 Rodman	1,000 00
Total	\$2,500 00

BRONX RIVER WORKS—MAINTENANCE AND REPAIRS.

Final Estimate for 1889—	
General account	\$24,350 00
Salary account	3,900 00
Total	\$28,250 00
Departmental Estimate for 1890—	
General account	\$27,000 00
Salary account	2,400 00
Total	\$29,400 00

The estimate for general account provides for the present force employed on the maintenance and repairs of the Bronx river conduit and reservoirs, materials, tools, etc., and taxes on property connected with the Bronx river water supply, with the addition of the services of three Watchmen and one Mason required on the Williamsbridge reservoir, which will be completed this year.

The estimate for salary account is for the salaries of two Keepers, at \$1,200 each.

The estimate also provides for the expense of purchasing the additional lamp-posts, lamps and street signs; rent of photometrical rooms, and the expense of examinations of gas and electric-lights; and pay-roll of lighters of public markets.

PUBLIC BUILDINGS—CONSTRUCTION AND REPAIRS.

Final Estimate for 1889, less transfers.....	\$103,875 00
Departmental Estimate for 1890.....	100,000 00

This estimate is for the general repairs and alterations in the various public buildings, markets, and armories, including mason work, carpenter work, plumbing, gas and steam fittings, heating apparatus, painting, roofing, iron work, etc. In addition to this special repairs and improvements are required in the New Court-house, including reconstruction of plumbing, new water-closets, soil pipes, ventilating pipes and sewer connections, and continuation of the work of reconstructing the steam apparatus for heating the building and operating the passenger elevator. The estimate shows a reduction of \$3,875 from the appropriation for 1889.

PUBLIC DRINKING-HYDRANTS.

Final Estimate for 1889—	
General account.....	\$6,000 00
Salary account.....	1,200 00
Total.....	\$7,200 00

Departmental Estimate for 1890—	
General account.....	\$5,000 00
Salary account.....	1,200 00
Total.....	\$6,200 00

The appropriation of \$6,000 for general account for 1889, will be entirely exhausted in the repairs and maintenance of the existing drinking-hydrants, and in purchasing and placing a portion of the additional hydrants ordered by the Common Council, there being now twenty-nine resolutions for such hydrants unexecuted. The estimate for 1890 contemplates an expenditure of about \$2,000 for repairs and maintenance, and \$3,000 for purchasing and placing additional drinking-hydrants.

The estimate for salary account is for—

1 Inspector on repairing and placing hydrants.....	\$1,200 00

REMOVING OBSTRUCTIONS IN STREETS AND AVENUES.

Final Estimate for 1889, with transfers—	
General account.....	\$43,771 04
Salary account.....	8,400 00
Total.....	\$52,171 04

Departmental Estimate for 1890—

General account.....	\$40,000 00
Salary account.....	7,800 00
Total.....	\$47,800 00

The Final Estimate for 1890 for general account was fixed at the amount of the Departmental Estimate—\$22,000, for the removal of ordinary obstructions, and, later was supplemented by transfers amounting to \$21,771.04 to meet the extra expenditure for removal of poles and electrical wires upon completion of electrical subways. The estimate for 1890 provides for the same amount, \$22,000, for the removal of ordinary obstructions, and \$18,000 for continuing the work of removing poles and electric wires.

In this connection I desire to state, that this Department finds it impossible, with the limited force at its disposal, to effectively prevent the replacing of incumbrances on the public thoroughfares. Complaints constantly reach the Department that removed incumbrances have been replaced almost immediately after removal, and unless the aid of the Police Force be given to prevent such violation of Corporation Ordinances, this Department can accomplish but little, as at present organized, to keep the streets and sidewalks free from obstructions.

The estimate for salary account provides for—

2 Inspectors, \$1,200 each.....	\$2,400 00
5 Inspectors, \$900 each.....	4,500 00
1 Keeper of Corporation Yard.....	900 00
Total.....	\$7,800 00

REPAIRING AND RENEWAL OF PIPES, STOP-COCKS, ETC.

Final Estimate for 1889.....	\$224,125 00
Departmental Estimate for 1890.....	222,475 00

This appropriation is for the maintenance and repairs of the entire system for distributing the City's water supply, which now embraces 645 miles of water-mains, with 6,634 stop-cocks and 8,263 fire-hydrants. The appropriation also includes provision for all expenditures, except salaries, incurred in the maintenance and operation of the water-meter system and other measures to detect and prevent waste of water. On the 30th of June there were 19,086 water-meters in use in buildings which, under the law, are subject to the compulsory use of meters, and the number is continually increased at the rate of from 1,500 to 1,800 additional meters per annum. A considerable number of water-meters have also been placed, at the expense of the City, in buildings which are not subject to the compulsory use of meters, and where waste of water is known or believed to exist, and means are required to extend the application of meters in such buildings. The Final Estimate for 1889, and the above Departmental Estimate for 1890, further include the necessary expenditure for continuing the work of replacing water-mains, stop-cocks, hydrants and house connections in the streets contiguous to the water-front, where the old mains and fixtures are so much worn by corrosion from contact with salt water as to be liable to leaks and breaks, which, in the present condition of the water supply, or under any circumstances, would result in incalculable injury to property and to the health and convenience of the public. It is expected that in the course of next year the distributing system will be under the additional pressure from the increased supply of water to be received through the New Aqueduct, and will then require increased care and attention to prevent leaks or breaks.

For the purpose of the regular repairs and maintenance of the distributing system, the city is divided into five districts, with a foreman and a gang of mechanics, laborers, wagons and carts in each district. In addition to the district gangs, a skilled force is employed in making taps in distributing mains for new house connections, and a similar force is employed in cutting off taps or house connections, where willful waste of water, through neglect to keep plumbing in proper repairs or from other causes, is persisted in.

The items included in the Departmental Estimate are: Wages of five district gangs, \$96,175; materials for ordinary repairs, including water-pipes, stop-cocks, fire-hydrants, etc., \$41,250; rent of repair shops, telephone service, etc., \$2,400; repairs to water-meters owned by the City, \$1,500; purchasing and placing additional water-meters in buildings not subject to compulsory use of meters, \$5,000; wages of tappers and cut-off gang, \$26,150; labor and materials to replace water-mains, connections and fixtures contiguous to the water-front, \$50,000.

SALARIES—ENGINEERS, CLERKS, INSPECTORS AND MEASURERS IN BUREAUX OF CHIEF ENGINEER AND WATER REGISTER.

Final Estimate for 1889.....	\$55,000 00
Departmental Estimate for 1890.....	52,000 00

This appropriation is for the salaries of the First Assistant Engineer in the Bureau of the Chief Engineer of the Croton Aqueduct, who has special charge of the distributing system; the clerks employed in keeping accounts of expenditures, charges for furnishing and setting meters and charges for water supplied through meters; the Inspectors on placing meters and taking readings of meter indices; the Inspectors employed in making house examinations to detect and prevent leaks and waste, and the Measurers who take measurements of new buildings and buildings which have been altered so as to establish their proper rating on the books of the Water Register. Although the work, especially in respect to water-meter accounts, continually increases with the extension of the water-meter system, the above estimate is \$8,000 less than the Departmental Estimate and \$3,000 less than the Final Estimate for 1889.

The following salaries are included in the estimate:

First Assistant Engineer.....	\$5,000 00
1 Clerk.....	2,000 00

Until the remaining cobble-stone pavements, and the old square block or Belgian pavements are entirely replaced by new and more substantial pavements, and while the pavements are liable to constant disturbance on account of the manifold structures on and under the surface of the streets, the means for keeping them in repairs cannot be reduced below this estimate without deterioration in the condition of the pavements. On July 1, 1889, the length and area of the different kinds of pavements to be kept in repair under the appropriation were as follows:

Kind of Pavement.	Square Yards	Miles.
Specification granite.....	1,980,564	89.39
Square block granite.....	673,402	25.89
Specification trap.....	1,235,982	66.47

The estimate for salary account is for the salaries of the General and Local Inspectors on the work, and for the supervision of all work done by private corporations and individuals in the public

streets, and the salaries of Clerks employed in keeping the accounts of pay-rolls and general expenditures, as follows:

1 General Inspector.....	\$2,750 00
1 Permanent Inspector, 313 days, at \$4 per day.....	1,252 00
7 Inspectors, 313 days, at \$3.50 per day each.....	7,668 50
2 Clerks, \$1,500 each.....	3,000 00

REPAVING STREETS AND AVENUES.

Final Estimate for 1889, with transfers—	
General account.....	\$344,714 35
Salary account.....	18,000 00
Total.....	\$362,714 35
Departmental Estimate for 1890—	
General account.....	\$487,000 00
Salary account.....	13,000 00
Total.....	\$500,000 00

The expenditure under this appropriation is limited by section 321 of the Consolidation Act to \$500,000 in any one year. The necessity for repavements calls for the expenditure of the entire amount, and for a number of years past the Departmental Estimates have been for the full amount. The increase of this estimate over the appropriation for 1889 is only an apparent and not an actual one. In making the Final Estimate for 1889, the Board of Estimate and Apportionment intended that the unexpended balance of over \$160,000 in the appropriation for 1888 be transferred to the appropriation for 1889, and such transfers, to the amount of \$131,114.35, were actually made. Subsequently the Comptroller objected to making payments from the appropriation for 1889 on the contract for repaving Hudson street, from Spring street to Fourteenth street, made in 1889, under a resolution of the Common Council approved at the close of the year 1888, and to meet the objection the sum of \$118,400 was retransferred to the appropriation for 1888. As the appropriation now stands it will not be sufficient to cover all the repavements authorized by resolution of the Common Council.

The estimate for salary account is for the salaries of two permanent or general Inspectors and the requisite number of local Inspectors on contract work while such works are actually in progress and shows a reduction of \$5,000 from the appropriation for 1889.

The salaries included in the estimate are—

2 Permanent Inspectors, \$1,500 each.....	\$3,000 00
Local Inspectors on contract work, at \$3.50 per day each, estimated amount.....	10,000 00
Total.....	\$13,000 00

Departmental Estimate for 1890—	
General account.....	\$175,000 00
Salary account.....	10,000 00
Total.....	\$185,000 00

This estimate is for the care, repairs and cleaning of the entire sewerage system, which now includes 431 miles of sewers, with 5,179 receiving-basins. It contemplates an expenditure of about \$75,000 for contract work for cleaning sewers, rebuilding and repairing and improving brick sewers, putting tile bottoms in brick sewers, repairing pipe sewers and rebuilding and extending trunk sewers, \$72,000 for wages of foremen, mechanics, laborers and carts employed on ordinary repairs, and \$28,000 for materials, including new manhole heads and covers, new basin-heads and covers, flushing-gates and appurtenances, brick, cement, sand, lumber, tools, etc.

The estimate for salary account is for the present force, viz.:

1 Sewer Permit Clerk.....	\$1,800 00
1 General Inspector of Sewers.....	2,000 00
5 Inspectors on Sewer Connections, at \$4 per day each.....	6,200 00

SEWERAGE SYSTEM—SALARIES.

Final Estimate for 1889.....	\$17,000 00
Departmental Estimate for 1890.....	8,600 00

The estimate is for the salaries of the force now employed and charged against this appropriation. The reduction of \$8,400, or nearly fifty per cent. from the Final Estimate and appropriation for 1889, has been effected by dispensing with the services of the Consulting Engineer on Sewerage, whose work has been completed, and by other reductions in the force. The salaries of the Engineer in Charge of Sewers and the Assistant Engineer, are charged, in part, to this appropriation, and in part to assessment work for new sewers, paid from "Local Improvement Fund."

The following salaries are included in the estimate:

Engineer in Charge of Sewers, half time.....	\$2,400 00
1 Assistant Engineer, part time.....	1,400 00
1 Clerk.....	1,500 00
2 Draughtsmen, \$1,200 each.....	2,400 00
1 Messenger.....	900 00
Total.....	\$8,600 00

STREET IMPROVEMENTS—FOR SURVEYING, MONUMENTING, ETC.

Final Estimate for 1889.....	\$2,000 00
Departmental Estimate for 1890.....	3,000 00

This amount is required to pay the expense of resetting and replacing monument-stones on the lines of the public streets, where the monuments have been broken or displaced, and in the allotment of house numbers on new streets, and on old streets where changes in the numbers are necessary.

With the introduction of electric-lights on the public streets, the street-signs on the gas lamp-posts are not plainly discernible, and some other method or system of street-signs, plainly visible to pedestrians, should be devised, for which an appropriation of at least \$10,000 should be made for next year. I submit this matter for the consideration of the Board of Estimate and Apportionment.

SUPPLIES FOR AND CLEANING PUBLIC OFFICES.

Departmental Estimate for 1890—	
General account.....	\$143,800 00
Salary account.....	18,920 00
Total.....	\$162,720 00

The appropriation for general account is for the wages of firemen and cleaners employed in all the public offices and courts under the care of the Department, and for fuel, steam-heating, furniture, carpets, window-awnings, ice, law books, and general office supplies for the various offices and courts. For a number of years past, the appropriations have been insufficient to meet the demands for office furniture and general supplies, and although they were supplemented each year by transfers from other appropriations, many requisitions for necessary furniture and supplies have remained unfilled and held over year after year. The same condition of affairs exists this year. A transfer of \$2,500 has already been made to the appropriation, and yet a very large number of requisitions remain unfilled, and further transfers are needed to meet them, even in part. Under these circumstances, and from careful consideration of the subject, I am fully convinced that the entire amount above estimated is required to meet the just and reasonable demands upon the appropriation. The fixed charges against the appropriation for wages of firemen and cleaners, cleaners' supplies, contracts for coal, wood and ice, and for steam-heating, winding and care of clocks, repairing, putting up and taking down stoves, and telephone service, amount to at least \$111,000, leaving only \$32,800 for new furniture, carpets, etc., repairs to furniture, window-awnings and general office supplies and law books. In the matter of window-awnings, the Department was unable this year to fill any requisitions or necessities for new awnings or repairs, in consequence of the inadequacy of the appropriation.

The estimate for salary account is for the salaries of the present force, viz.:

1 Clerk.....	\$1,800 00
1 Janitor.....	1,200 00
1 Janitor.....	1,100 00

Soon after entering upon the duties of this office, I came to the conclusion that, in a number of instances, the salaried force of the Department could be reduced without impairing its efficiency, and I proceeded to make reductions as I became familiarized with the details of the work and duties of the Department.

The addition of \$2,500 to the estimate for Free Floating Baths—Salaries, is for the necessary attendants for two new baths which will be put into use next year.

A tabular statement, showing the Final Estimate for 1889, and this Departmental Estimate for 1890, for each appropriation, is hereto appended.

THE DEPARTMENT OF PUBLIC PARKS.

CITY OF NEW YORK—DEPARTMENT OF PUBLIC PARKS, COMMISSIONERS' OFFICE, NOS. 49 AND 51 CHAMBERS STREET, September 24, 1889.

To the Honorable Board of Estimate and Apportionment:

GENTLEMEN—Pursuant to the provisions of section 189 of the Consolidation Act of 1882, and in compliance with the circular letter of the Comptroller dated July 20, 1889, I have the honor to submit the accompanying estimate of the amount of money required for the use of the Department of Public Parks for the year 1889, the same having been adopted by the Board of Parks as the "Departmental Estimate." I also transmit a list of employees.

In explanation of several of the items contained in the estimate I beg to state as follows: An additional amount is asked for "Salaries," and is necessitated by reason of the new and constantly increasing duties devolving upon the Department in connection with works of construction and maintenance, which require additions to the Engineering force, the service of an Architect, etc.

The amount asked for "Police Salaries" is \$365,675 as against \$260,525, allowed for the current year. A considerable portion of the increase is required for the care of the new parks north of the Harlem river, for which purpose it is estimated that the sum of \$69,510 will be needed. This will provide a force of 62 officers and men, which is considered necessary for the proper policing of the large extent of territory covered by the new parks.

The amount asked for "Police Supplies," \$50,000, is intended to provide for uniforms, horses for the mounted force (which it is proposed to materially increase), fitting up sub-stations in the new parks, forage, horseshoeing, etc.

In asking for the appropriation of \$500,000 for "Labor, Maintenance, etc.," it is held that a liberal view should be taken of appropriations in the interests of the parks, which are a feature of the city in which its citizens take great interest and pride. A liberal policy of appropriating money for parks will secure a more thorough and complete construction and maintenance, which can be readily kept up hereafter. This liberal policy of expenditure is urged more confidently for the reason that moderately increased liberality in appropriations in the past has secured results that at the present time can be readily seen.

A special appropriation of \$25,000 was allowed this Department for the current year for "Reconstruction of Tompkins Square." This work has been steadily progressed and the appropriation expended, but the work of reconstruction of that park is still incomplete, much remaining to be done in the renewal of walks, etc. To complete the work on Tompkins Square, and to reconstruct one or more of the other lower parks, the appropriation of \$100,000 is asked for.

For the Care and Maintenance of the New Parks north of Harlem river, the sum of \$50,000 is asked, being the same amount allowed for the present year. These parks will require considerable attention during the coming year. The roads and bridges require repairs, and a number of men will be needed to care for the woodlands, the preservation of which is very important to the future beauty of these parks.

Morningside Park will be essentially wholly constructed this year within the boundaries of the park proper, and it will, therefore, be necessary to appropriate a sum for its maintenance during the coming year. A large number of settees should be bought; there will be yearly flowers to set out and a great deal of watering to be done, on account of the dryness of the situation. This work of watering will necessitate the introduction of a system of pipes to convey the water into the parks from the outside. There are many other matters of detail that require to be done. An appropriation of \$20,000 is asked for the maintenance of this park.

In explanation of the increase in the amount asked for "Maintenance—Twenty-third and Twenty-fourth Wards," as compared with the appropriation for the present year, I would state that there are nearly ten miles of roads and avenues in these wards which should be macadamized during the year 1890. To do this work will require an expenditure of at least \$75,000 for broken stone and screening. The experience of the present year, with the many heavy rains, has proved the advantage of macadam roads, as much of the work done upon earth roads has been entirely destroyed. By reason of the increase of population, and the opening of the new race-course, the travel over the roads of the Annexed District has increased fully 100 per cent., and it is very essential that the great thoroughfares should be macadamized. There are also 133 miles of earth roads, 43 miles of macadam roads and 6 miles of paved streets to be repaired and maintained by the Department.

For Sewers and Drains, \$20,000 is asked, as against \$12,000 allowed for the present year. One very important item in connection with this work, proposed to be done during the coming year, is the cleaning of Brook avenue sewer its entire length, the cost of which is estimated at \$5,000. At the end of the year 1888 there were 3.24 miles of old sewers, 25.02 miles of new sewers, 4.62 miles of temporary drains, 1,862 manholes and 1,147 receiving-basins to be taken care of, but, owing to the small appropriation available it is impossible to keep same in good working order. The heavy rains have also caused considerable damage to a number of temporary drains. In addition there will be 2 1/2 miles of sewers, with manholes and basins now being built, which will also have to be kept clean and in repair.

It being considered necessary that the boundary lines of the Bronx Park, in Westchester County, the Bronx and Pelham Parkway and Pelham Park should be definitely located during the coming year, an appropriation of \$8,000 is asked for the purpose of locating and monumenting said lines. The maps filed with the report of the Commissioners appointed to acquire title to the lands for the new parks, show no monuments and but few marks fixed on the ground.

The amount asked for Surveys, Maps and Plans is \$40,500, an increase of \$8,500 over the appropriation for the present year. The work relating to street opening and drainage matters is of very great importance and is rapidly increasing. Proceedings are now pending to acquire title to streets and avenues, or parts thereof, in 98 cases, and the opening of streets, etc., has been petitioned for or is required for public improvements and for sewerage and drainage purposes in 32 cases. In addition to the various maps required for the foregoing work, numerous other maps, plans, diagrams, etc., are called for on various occasions. For these purposes, and for the work under the Topographical Engineer, the sum of \$22,500 is required, the remainder of the amount asked for, \$18,000, being for the Engineer of Construction, Twenty-third and Twenty-fourth Wards, and is required for preliminary surveys and plans of projected sewers, drains and other improvements, and for engineering, supervision and inspection in connection with the work of depressing the tracks of the New York and Harlem Railroad.

I also transmit herewith comparative statement, in tabular form, showing the appropriations made to this Department for the year 1889, and the amounts asked for in the Departmental Estimate for the year 1890.

It is impracticable to state at this time what balances, if any, may probably remain unexpended of the appropriations for the present year.

Very respectfully,
CHARLES DE F. BURNS, Secretary, D. P. P.

THE DEPARTMENT OF PUBLIC CHARITIES AND CORRECTION.

DEPARTMENT OF PUBLIC CHARITIES AND CORRECTION,
COMMISSIONERS' OFFICE, NO. 66 THIRD AVENUE,
NEW YORK, October 2, 1889.

Hon. HUGH J. GRANT, Mayor and Chairman, Board of Estimate and Apportionment, City of New York:

DEAR SIR—We respectfully submit to you our estimates for the "Construction of New Buildings," etc., for 1890, and ask your consideration of the following explanations:

BELLEVUE HOSPITAL.

This is the most important hospital in the country, and the Medical Board have unanimously requested us to insert in our estimates an amount sufficient for an amphitheatre and new roofs to main building. The Architects have prepared plans, which have been approved, and estimates secured, for which the sum of \$25,000 will be required.

The wards at present used for the treatment of alcoholic patients are situated in the basement of this hospital; they are entirely inadequate and unsuited for the purpose. During the past year there were admitted and treated in these wards 3,529 patients, and rooms barely large enough for one are constantly occupied by three. We propose to erect a pavilion for the special treatment of this unfortunate class, and shall require \$25,000 for the purpose.

Galvanized cornices, gutters, and repairs to roofs of balance of hospital, \$6,000.
New flooring, plumbing and other improvements in hospital require \$7,000.
The facilities for washing and performing the laundry work for this great institution are inadequate, and it will be necessary to spend \$3,000 for additional machines and machinery.
New flagging and curbing for the sidewalks of Twenty-sixth and Twenty-eighth streets and First avenue, and of the grounds within the enclosure, will cost \$3,000.

GOUVERNEUR HOSPITAL.

The hospital demands in this part of the city far exceed the accommodations of the present building, and the Architects estimate that for \$15,000 an important and necessary addition can be made.

ESSEX MARKET, OR THIRD DISTRICT PRISON.

Reconstruction of the plumbing, furnishing pumping engine, tank and water-closets will require \$7,000.

CHARITY HOSPITAL.

The advances in hospital treatment have been attributed largely to improved sanitary conditions. At Bellevue Hospital all the water-closets and bathing facilities have been removed from the wards to towers especially erected for this purpose, and we ask for \$17,000 to enable us to build two towers for this institution.

The chimney-stack is inadequate in size and unsafe, and \$2,500 will be required to rebuild it. To enable us to properly heat the pavilions, a new boiler is needed, and additional height to the chimney-stack of the laundry building, and this work has been estimated to cost \$3,250.
The Supervising Engineer reports that the boilers of the main building require resetting, and estimates cost at \$1,600.

The building occupied by the Nurses of the Female Training School requires repairs to plumbing, roofs, etc., which the Architects estimate will cost \$3,000.

The Maternity Pavilion, recently erected, requires to be heated by steam, the cost of which will be \$1,200.

The north and west sides of the main hospital being very much exposed to the cold winds of winter, the Medical Board have requested that the windows on these side be furnished with storm sashes, the cost of which will be \$1,600.

PENITENTIARY.

In the year 1884 Riker's Island was purchased, for the purpose of erecting a Penitentiary in place of the present one on Blackwell's Island, which is entirely inadequate to properly accommodate the increased number of prisoners, to say nothing of the objection of its close proximity to some of our most important charitable institutions.

We are always obliged to "double up," or put two prisoners in a cell, to which public opinion has always been opposed, and from those who devote their lives to reclaiming criminals, we are ever receiving protests. A large number of the prisoners are at present lodged in an open dormitory over one of the workshops, which is not only unsafe, but in every way unfit for such a purpose.

To enable us to build a wing as a part of the new Penitentiary on Riker's Island, and do other necessary preliminary work, \$100,000 will be required.

ALMSHOUSE.

This institution is still very much overcrowded, and to meet the existing necessities, one additional pavilion for males should be constructed, costing \$35,000.

The present two one-story frame pavilions, occupied by the incurables, male and female, are very old and in a dilapidated condition, and they should be at once replaced, for which we ask \$30,000.

The roofs of the two main Almshouse buildings require extensive repairs, and the walls should be thoroughly pointed. To do this \$3,500 will be required.

STOREHOUSE.

The present gas-plant was built to furnish light to about one-half the number of buildings now on Blackwell's Island, and is in very bad repair. To enable us to make the required additions and alterations, \$12,000 will be necessary.

The requirements of the Department have largely outgrown the capacity of the Storehouse, and necessary additions to it will cost \$10,000.

WORKHOUSE.

This extensive and very important institution requires new plumbing, flooring, ceilings and repairs to roofs. Careful estimates have been made, and for these improvements \$5,000 will be needed.

The demands upon the laundry and kitchen plant have increased to such an extent that we shall require an additional \$5,000 to enable us to meet them.

NEW YORK CITY ASYLUM FOR THE INSANE, BLACKWELL'S ISLAND.

The ten wooden pavilions now occupied by the female insane are in such a condition that, notwithstanding that we received an appropriation last year to enable us to repair them, the Architects report, after a most careful investigation, that the money would be wasted, if spent in that direction, and we now ask for an appropriation to enable us to erect two two-story brick pavilions, to take the place of four of the present ones. Estimated cost, \$70,000.

The easterly wards of the Retreat building require a renewal of the steam coils, radiators, etc. Estimated cost, \$2,000.

The Supervising Engineer reports that the boilers of the main building should be reset, the cost of which will be \$2,500.

The General Superintendent thinks it a matter of great importance that this institution should be connected by a system of electric call-bells to the various wards and buildings, which will cost \$2,500.

HOMOEOPATHIC HOSPITAL.

This large and important institution has had but little money expended upon it for many years, and repairs to plumbing, sewerage, and laundry and kitchen apparatus are very much needed. These improvements will cost \$10,000.

NEW YORK CITY ASYLUM FOR THE INSANE, WARD'S ISLAND.

The Supervising Engineer reports that the return piping and the ventilation of the asylum very much require remodeling, which will cost \$5,000.

The present ice-house is a very old frame building, which is entirely unfit for the purpose. A new one will cost \$2,000.

This asylum also needs a system of electric call-bells to connect its various wards and buildings. Cost, \$3,000.

The rent of the Ward's Island Emigration Building for the Insane, for the year 1890, will be \$5,000.

The number of horses and cows now necessary for this, one of the largest institutions in the world, far exceeds the capacity of the present stable. A sufficiently large one can be erected for \$8,000.

RANDALL'S ISLAND.

It is absolutely necessary that the South Hospital should be reconstructed in the same manner as the North Hospital, now under contract, to meet the sanitary requirements of the Board of Health, and for this purpose, and to improve the heating system, \$8,500 is required.

The present stable and buildings for horses, cows, pigs, wagons, etc., are of frame, very old, and in a dilapidated and unsanitary condition, and to replace them with suitable buildings we shall require \$5,000.

The Medical Board deem it most important, and this Board, after a careful investigation, concur, that a pavilion, particularly designed for the treatment of contagious diseases, should be at once constructed. For this an appropriation of \$12,000 is asked.

Passengers for this island, and freight received there, are exposed to the inclemency of the weather, there being no protection on the dock. We ask for the sum of \$1,500 to enable us to build a shed.

The present gas plant on this island was constructed at a time when the number of buildings requiring to be lighted was very much less than at present, and repairs and additions are indispensable and will cost \$4,500.

NEW YORK CITY ASYLUM FOR THE INSANE, HART'S ISLAND.

The very large increase in the census of these institutions make it imperative to have a good and sufficient supply of water. At present they depend upon cisterns and driven wells, the yield of which is unfit to drink and is destructive to our piping and boilers.

The New Rochelle Water Company have proposed to furnish the island with a good and abundant supply, and estimate the cost of laying pipes and making the necessary connections at a cost of about \$45,000, and will agree to furnish the amount of water required at the same price as paid by the citizens of that portion of Westchester County.

The United States Government, on David's Island, after expending a very large sum on an artesian well, have been obliged to abandon it, and are now supplied by the New Rochelle Water Company at the same price as proposed to this Department. The estimated cost per annum will be \$4,000.

To relieve the overcrowding on Blackwell's Island is still a matter of the greatest importance. The ever increasing number of the female insane makes it imperative that we should ask for an appropriation to enable us to erect a two-story building to accommodate 200 patients, which will cost \$62,000.

To enable us to discard the stoves with which three old pavilions are now heated, we would ask, for the purpose of supplying them with steam, the sum of \$6,000.

BRANCH WORKHOUSE, HART'S ISLAND.

The present building occupied by employees is entirely unfit for occupancy, and we have asked for the sum of \$3,000 to erect a more suitable one.

NEW YORK CITY ASYLUM FOR THE INSANE, LONG ISLAND.

The improvement of the farm at Central Islip, L. I., has been so satisfactory to this Board, and the work has received such hearty commendation from the State Board of Charities, and from others who have visited and inspected the place, that we have no hesitation in asking for \$250,000 additional, to enable us to carry out our plans to relieve overcrowding at the Ward's Island Asylum, and to provide out-door employment for those who appear to be proper cases to be benefited by this treatment. The work in progress, and already completed, has consumed the appropriation and transfer made for these improvements, and a visit by your Honorable Board to the site of our operations will do more to demonstrate our fidelity to the trust reposed in us by you and the taxpayers, than any descriptive statement that could be made here.

The Board of Apportionment, on the 26th of December of last year, unanimously passed a resolution, requesting the Counsel to the Corporation to prepare a bill to be presented to the Legislature then in session, authorizing the issue of bonds to the amount of \$1,000,000 for the further improvement of the farm, subject to the requisition of this Department, with the approval of your Board; but, for some reason, the Corporation Counsel failed to prepare and present the bill, as requested.

CENTRAL OFFICE.

To make the absolutely necessary repairs and alterations to this building, and to comply with the sanitary requirements of the Board of Health will require the sum of \$5,000.

It is a matter of so much importance, in view of the erection of buildings, with the necessary sewerage, etc., that the Department should have maps of all the islands, that we have secured estimates for the same, which can be furnished for the sum of \$1,000.

Very respectfully,
H. H. PORTER, President.

POLICE DEPARTMENT OF THE CITY OF NEW YORK,
BUREAU OF ELECTIONS, No. 300 MULBERRY STREET,
NEW YORK, August 28, 1889.

To the Board of Estimate and Apportionment:

GENTLEMEN—The amount required for election expenses for the year 1890 is \$233,557, an increase of \$39,857 over the amount required for the year 1889.

The reason for the increased amount required is as follows:

Chapter 348 of the Laws of 1889, passed at the last session of the Legislature, amending section 1854 of the New York City Consolidation Act, giving the Board of Police the power to divide annually such election districts as had a registration of four hundred voters at the last general registration.

In compliance therewith the Board of Police divided such districts, thereby making an additional 163 election districts to the 856 election districts already established, making a total of 1,019 election districts and requiring 652 additional Inspectors of Election, 326 additional Poll Clerks, 163 additional polling places, additional stationery, printing, maps, new ballot-boxes, etc.

Respectfully,
JOHN J. O'BRIEN, Chief of the Bureau of Elections.

THE DEPARTMENT OF STREET CLEANING.

DEPARTMENT OF STREET CLEANING—CITY OF NEW YORK,
Nos. 49 AND 51 CHAMBERS STREET,
NEW YORK, October 1, 1889.

To the Honorable the Board of Estimate and Apportionment:

GENTLEMEN—Pursuant to the provisions of section 189 of the New York City Consolidation Act of 1882, and in compliance with the request of the Comptroller, transmitted to me under date of July 20, 1889, I herewith forward for your consideration an estimate of the amount of expenditure required to conduct the public business under the charge of the Department of Street Cleaning for the year 1890, including a comparative statement in tabular form showing the amounts of all appropriations made to the Department of Street Cleaning for the year 1889, and the transfers affecting the same.

The estimate is prepared on the basis of cleaning the entire city by day's work.

The principal item of increase is for the purchase of additional plant, the reasons for which are fully set forth under "Extra Appropriation for Additional Plant." The increase in the other items is occasioned by the natural annual increase in the amount of work to be done, and by charging to other accounts the amount charged last year to "Contract Work."

The details of the Departmental Estimate, with explanatory remarks, are as follows:

DEPARTMENTAL ESTIMATE OF THE DEPARTMENT OF STREET CLEANING FOR THE YEAR 1890.

1888 (Contracts below Fourteenth street, for entire year).....	\$85,574 10
1889 (Contracts below Fourteenth street, for four months only).....	*107,000 00

Provision is made in this estimate for the employment of Foremen and Assistant Foremen throughout the city for the entire year. During the current year those south of Fourteenth street have been employed since May only. Provision is also made for the following additional force: One Foreman and one Assistant Foreman north of the Harlem river; one Dump Inspector and one Assistant Dump Inspector for new dumping-board to be erected on the North river; one Messenger at Stables, which position was rendered necessary by the enactment by Congress in June, 1888, of a law providing for the appointment of a Supervisor of the Harbor, from whom this Department is obliged to obtain permits daily for the movement of the tugs and scows.

SWEEPING THE STREETS.

Amount required (section 705, chapter 410, 1882).....	\$400,000 00
Labor (sweeping streets).....	\$300,000 00
Drivers of machines and water-carts.....	60,000 00

Total.....	\$400,000 00

Comparative Statement.

YEAR.	MILES OF STREETS SWEEPED ABOVE FOURTEENTH STREET.	COST OF SWEEPING PER MILE.	COST OF SWEEPING ABOVE FOURTEENTH STREET.

1886.....	13,404	9 38	125,729 76
1887.....	11,838	10 54	124,748 70
1888.....	19,870	8 64	171,706 24
1889.....	†35,000	8 56	†300,000 00

The comparative statement embraces the cost of sweeping in the territory cleaned by day's work only, for the past five (5) years. The entire city will be cleaned next year by day's work, and it is the intention to sweep all the paved streets an average of three (3) times per week. All the principal down-town thoroughfares will be cleaned daily, while, in the upper portion of the city two (2) sweepings per week will suffice. Fifty thousand (50,000) miles of sweeping will be required which, at \$8 per mile, the least sum that a street can be swept for, will cost the amount asked for in the estimate.

CARTING MATERIAL.

Amount required (section 705, chapter 410, 1882).....	\$550,000 00
As follows:	
Hired Cartmen with carts.....	\$450,000 00
Drivers of Department carts.....	50,000 00
Sundries—Repairs and Supplies.....	50,000 00
Total.....	\$550,000 00

Comparative Statement.

YEAR.	LOADS CARTED BY DAY'S WORK.	COST PER LOAD.	COST OF CARTING BY DAY'S WORK.
1885.....	665,822	\$0.456	\$305,062 84

1887.....	710,325	0.399	283,331 06
1888.....	810,339	0.421	340,771 51
1889†.....	1,127,000	0.410	460,000 00

The comparative statement shows the number of loads of ashes, garbage and street sweepings collected by the Department forces by day's work for five (5) years. It also shows the average cost per load, and the aggregate cost of carting the material from the streets to the various dumping places during the same period.

Next year the refuse of the entire city will be collected by day's work. It is estimated that it will amount to 1,340,000 loads, which at forty-one cents per load, the average price of carting for the current year, will cost in round numbers \$550,000, the sum asked for.

REMOVAL OF SNOW AND ICE.

Amount required (section 705, chapter 410, 1882).....	\$60,000 00
As follows:	
Laborers.....	\$35,000 00
Cartmen.....	25,000 00
Total.....	\$60,000 00

Comparative Statement.

YEAR.	SNOW-FALL, IN INCHES.	LOADS REMOVED BY CONTRACT.	LOADS REMOVED BY DAY'S WORK.	COST OF REMOVAL BY DAY'S WORK.
1885.....	27	12,059	14,983	\$12,240 46
1886.....	42	44,107	41,133	28,082 65
1887.....	36.4	17,035	18,689	15,077 70
1888.....	38.6	21,406	46,623	44,133 32
1889†.....	25	25,000	25,000 00

In the above comparative statement the cost of work by the Department represents about half the actual amount expended for the removal of snow and ice, as the contractors were obliged to employ their force in the removal of snow and ice, without extra charge, when not engaged in the regular work of street cleaning. The contracts having expired, the estimate provides for the entire work being done by the Department forces.

FINAL DISPOSITION OF MATERIAL.

Amount required (section 705, chapter 410, 1882).....	\$265,000 00
As follows:	
Wages of tug employees.....	\$17,000 00
Wages of scowmen.....	14,500 00
Unloading deck scows.....	40,000 00
Hired scows.....	90,000 00

Total.....	\$265,000 00

* Estimated for October, November and December.

† Estimated for three months.

Comparative Statement.

YEAR.	LOADS REMOVED ON BOATS.	COST OF FINAL DISPOSITION.
1885.....	1,154,981	\$204,372 19
1886.....	1,231,127	217,797 34
1887.....	1,264,307	216,955 33
1888.....	1,359,620	247,951 80
1889*.....	1,375,000	240,000 00

The amount required is the same as the amount asked for in last year's estimate. There will be the natural annual increase in the amount of material to be disposed of on boats, but the Department anticipates a slight reduction from the present prices in the cost of unloading scows at sea and of extra towing, etc. During January, February and March of the current year about \$20,000 was saved to the Department from these sources by the increased demand for material for filling in land behind bulkheads. The prices at present, however, are the same as in 1888.

NEW STOCK.

Amount required (section 705, chapter 410, 1882).....	\$25,000 00
As follows:	
Horses (to maintain efficiency of plant).....	\$10,000 00
Carts (to maintain efficiency of plant).....	5,000 00
Machine and water-carts (to maintain efficiency of plant).....	6,000 00
Two new dumping-boards.....	4,000 00
Total.....	\$25,000 00

Comparative Statement.

1885.....	\$6,372 50
1886.....	11,600 13
1887.....	1,536 72
1888.....	22,780 70
1889*.....	30,000 00

A larger sum must be expended to maintain the present standard and efficiency of the plant than was required for that purpose when the territory south of Fourteenth street was cleaned by contract.

Two new dumping-boards will be constructed, one at about Fifty-eighth street and North river and one at about Ninety-sixth street and East river.

The sum asked for is based upon the actual requirements of the Department.

RENTALS AND CONTINGENCIES.

Amount required (section 705, chapter 410, 1882).....	\$16,000 00
As follows:	
Rent of offices (lease, \$4,000; increase, \$1,000).....	\$5,000 00
Rent of stables (agreement).....	3,000 00
Telephone service (twenty-three instruments).....	3,000 00
Sundry contingencies.....	5,000 00
Total.....	\$16,000 00

Comparative Statement.

1885.....	\$0,037 46
1886.....	10,218 50
1887.....	13,654 13
1888.....	15,343 70
1889*.....	15,835 00

More office accommodation is necessary, and I desire \$1,000 increase in "Rentals" to secure additional rooms. The other amounts are required for existing agreements, except the last item, which includes the cost of gas at the Department stables, \$1,200; coupe service, \$1,200; District Messenger service, \$250; postage stamps, \$250; postal cards, \$100; repairs and supplies to furniture for office and stables, \$500; general disbursements for car-fares, etc., \$1,500.

EXTRA APPROPRIATION FOR ADDITIONAL PLANT.

Since the organization of the Department, in 1881, the appropriation allowed each year for the purchase of "New Stock" has been inconsiderable and used wholly in maintaining the efficiency of the plant. Nothing has been allowed for, or expended in, the purchase of additional plant. As a natural result, the Department has become yearly more dependent upon the persons from whom it hires, from day to day, the plant necessary to carry on its constantly increasing labors.

The Department is obliged to pay open market prices for horses, carts, tug-boats, scows and all other extra plant required. It often occurs when extra plant is most needed that it is only obtainable with the greatest difficulty, after much delay and at an increased price per day. This is usually the case with tug-boat and scow service.

The records for the past seven (7) years will show that immense sums of money have been expended in this service, and it is my opinion that a large saving could be effected, now that the rate of interest on city bonds is low, by the purchase of one tug-boat, some new scows and the erection of a Department stable, at a convenient location in Harlem, where fifty horses, twenty-five carts and fifteen machines could be properly cared for.

I request, therefore, an extra appropriation for the purchase of additional plant, as follows:

Tug-boat.....	\$25,000 00
New stable (with site).....	40,000 00
New scows.....	150,000 00
Total.....	\$215,000 00

NOTE—A transfer of about \$17,000 to the appropriation for "Administration" and of about \$10,000 to the appropriation for "Carting" will be necessary, but it is deemed advisable not to ask for such transfer until November, when the Department can better determine from which accounts the amount required shall be taken. The unexpended balances from the different appropriations will be inconsiderable.

The two Engineers are required to run the boilers, elevator and electric-lighting apparatus in the Headquarters building, and the Messenger is required in the office of the Board.

The Stenographer and Typewriter has demonstrated the value of his services to the Department, and the salary asked for is less than the average paid in other branches of the City Government for the same services.

9 Stokers, at \$2 per day.....	6,570 00
Total.....	\$1,362,467 00

For these pay-rolls \$1,324,467 was asked for the current year, and \$1,300,000 allowed.

The increase is for the following new organizations: Engine Company No. 56, Eighty-third street, near Ninth avenue (recently organized); new engine in West One Hundred and Thirteenth street, near Tenth avenue; the new floating engine company and a hook and ladder company in West Thirty-sixth street. These companies will be required for the coming year at an average cost of \$15,700 per company, or \$62,800 in the aggregate.

Bureau of Combustibles Pay-roll—	
Inspector of Combustibles.....(secs. 48, 427 and 428, chap. 410, 1882)	\$3,000 00

4 Oil Collectors, at \$900.....	3,600 00
2 Messengers, at \$1,000.....	2,000 00
Total.....	20,300 00

For the present year \$16,700 was asked in the Departmental Estimate and \$13,200 was allowed. The increase is for the following:

Inspector of Combustibles.....	\$500 00
2 Additional Clerks, at \$1,000.....	2,000 00
1 Clerk.....	200 00
2 Additional Surveyors, at \$1,200.....	2,400 00
2 Additional Messengers, at \$1,000 each.....	2,000 00
Total.....	\$7,100 00

The records of the Department show that since the reorganization of this Bureau, fourteen years ago, when the appropriation for it was fixed at \$12,200, its business has increased forty per centum, while the appropriation has been increased to \$13,200, or a little over eight per centum. During this year, at the instance of his Honor the Mayor, to more effectually prevent accidents resulting from the use of explosives in blasting, etc., stringent regulations governing the transportation, sale, storage and use of explosives, were adopted by the Fire Commissioners which, to make them effective, require an addition to

the force of the Bureau. This branch of its duties involves the serving of a large number of notices, for which the two new Messengers are mainly needed, and the two additional Surveyors and two additional Clerks are principally required for the same general purposes.

8 Clerks, at \$1,000 each... " " 8,000 00
6 Messengers, at \$900 each... " " 5,400 00

The amount asked for the current year was \$110,600, and the amount allowed was \$100,800. The additions required to the appropriations are one Inspector at \$2,000 and four Inspectors at \$1,100 each, \$4,400. The Inspector at a salary of \$2,000 is needed for purposes requiring a high order of technical knowledge and superior practical experience.

For 1 Assistant Batteryman... 1,100 00
For 1 Foreman of Linemen... 1,000 00
For 1 Extra Lineman... 900 00

All of this additional help is very much needed to maintain the efficiency of the fire-alarm service and to make such improvements therein as are constantly found necessary.

1 Painter, at \$3 per day... 936 00
3 Painters, at \$2.75 per day... 2,575 00

1 Janitor, at \$2.50 per day... 912 00
5 Drivers, at \$2.50 per day... 4,550 00

For the current year, \$65,510 were asked, and \$61,878 allowed. The increase now requested is made up as follows:

4 Machinists, at \$3 per day... \$3,744 00
1 Machinist's Helper and Messenger, at \$2.50 per day... 780 00
1 Wheelwright's Helper, at \$2.25 per day... 702 00
1 Harness Maker's Helper, at \$2.50 per day... 780 00
1 Hose Repairer, at \$3 per day... 925 00
Total... \$6,931 00

The increase, as will be seen, is in the mechanical force, the demands upon which to keep the apparatus of the Department in proper order are, year by year, increasing.

Hospital and Training Stables Pay-roll (secs. 48 and 428, chap. 410, 1882)—
Foreman... \$1,500 00
9 Stablemen, at \$2 per day... 6,570 00

For the current year \$5,150 was asked and allowed. The increase requested is represented by 4 Stablemen, at \$2 per day, being \$2,920 in the aggregate. This is rendered necessary by the occupation at the beginning of the coming year of the new Hospital and Training Stable in West Ninety-ninth street, which is now in course of erection and will give greater and better accommodations for the treatment of sick and injured horses, and in which it is also proposed to locate the Training Stables for new horses on probation.

Apparatus, Supplies, etc.—
Apparatus and repairs... (secs. 425 and 426, chap. 410, 1882) \$40,000 00

Contingencies—Bureau Inspection of
Buildings... (sec. 504, chap. 410, 1882) \$7,000 00

Telegraph supplies and repairs... (secs. 424, 425 and 426, chap. 410, 1882) 48,000 00
Repairs to fire steamers... 5,000 00

For these items \$340,000 were asked for the current year and \$335,000 were allowed. The increase is made up mainly by the item "Buildings and Repairs," and amounts to \$64,000. A thorough inspection of the buildings of the Department, with estimates in detail of the cost of the work required in each to put them in order, shows that this amount is necessary.

The Department is required to care for and keep in repair more than eighty buildings, and it has been found impossible, with the appropriation allowed for the purpose, to keep them in proper condition.

The remainder of the increase asked for is \$3,000 on the item "Telegraph Supplies and Repairs," which is required for the improvement of the fire-alarm system in the way of providing new outer boxes with keyless doors for the street alarm-boxes, etc.

For Placing and Connecting Fire-alarm Electrical Conductors Underground... 100,000 00

All the appropriations hitherto made for this purpose have been exhausted, the contract for \$50,000 for 1888 having been completed and the contract for the same amount for the current year being under way. The work accomplished thus far has mainly been the placing of conductors in the subways constructed on main routes as directed by the Board of Electrical Control, but to reach desired points not located upon these routes, subsidiary connections must be provided. Owing to the small amount allowed for this purpose for the last two years, being only one-half of the appropriation asked for, work of the character referred to could not be done; and to continue the placing of conductors in the main subways already provided, and to make the requisite subsidiary connections, which are absolutely necessary, the full amount asked for is needed.

For New Houses for Engine and Hook and Ladder Companies, etc... 100,000 00

For quarters for the following: Engine Company No. 7 and Hook and Ladder Company No. 1 and Water Tower No. 1, now located at the corner of Chambers and Centre streets (or in lieu thereof, Engine Company No. 29 and Hook and Ladder Company No. 10, corner of Fulton and Church streets), Engine Company No. 35, at No. 233 East One Hundred and Nineteenth street, Engine Company No. 41, at No. 501 North Third avenue, and for Engine Company No. 42, on Fulton avenue, between One Hundred and Sixty-seventh and One Hundred and Sixty-eighth streets.

The Department has been notified that the Commissioners designated by chapter 81 of 1889 have taken steps to erect a municipal building on that portion of the City Hall Park partly occupied by the present quarters of Engine Company No. 7 and Hook and Ladder Company No. 1. The location is deemed advantageous for fire apparatus, because it is quite central to a section of the city in which there are many fires and is on a corner, but if the new municipal building project is carried out, the removal of these organizations will be necessary and new locations and buildings will be required. In the event that this change should not be made, the substitution of the quarters of Engine Company No. 29 and Hook and Ladder Company No. 10, at Fulton and Church streets, is desired. The building at Fulton and Church streets is old and should be rebuilt to fit it for these important companies.

The house of Engine Company No. 35 was referred to in the estimate for the current year in these terms: "The condition is such that it must be rebuilt. To repair and alter it would be throwing money away. The house was built for the volunteer service thirty years ago."

The houses for Engine Companies Nos. 41 and 42 were built for the volunteer service of the towns of Mott Haven and Morrisania respectively, before their annexation to this city, and both are in a very bad and unsuitable condition for the service. The last-named house was also asked for in the estimate for the current year, in which it was described as follows:

"It is only two stories high and the walls of the second story, being only eight inches thick, will not bear the weight of an additional story. The building is very narrow, twenty feet, too small in every way for its present purposes. It has no cellar, the floor beams are rotting, and its condition generally is such that it would be unwise to expend money upon it for alterations to make it suitable and for repairs to make it habitable."

To Complete the New Floating Engine... 43,000 00

For this purpose \$75,000 were asked in the Departmental Estimate for this year and \$65,000 were allowed. This amount has been found to be entirely inadequate. Upon advertising for proposals the lowest bid that was obtained for building the boat entire, exclusive of the fire pumps (for which the lowest bid was \$22,000) was \$72,000, in all \$94,000, thus exceeding the appropriation by \$20,000, without allowing for the naval architect's commissions, which are chargeable to this appropriation. For building the hull of the boat the lowest bid, amounting to \$34,800, was accepted, and the contract awarded thereon. The engine and auxiliary machinery was subsequently awarded for \$24,832.50. The balance of the appropriation will therefore be about \$3,000.

On the basis of the estimates received, it is safe to say, that the boat cannot be completed for less than the amount above called for.

Total... \$2,360,492 50

The foregoing estimate, amounting to two million three hundred and sixty thousand four hundred and ninety-two dollars and fifty cents (\$2,360,492.50), is adopted as the sum of money which will be required for the expenses necessary to the administration and conduct of the Fire Department of the City of New York for the year 1890.

THE CITY RECORD.

OFFICE OF THE CITY RECORD,
NO. 2 CITY HALL,
NEW YORK, October 22, 1889.

Hon. THEO. W. MYERS, Comptroller:

SIR—At a meeting of the Board of City Record, held this day in the Mayor's office, the accompanying estimates of the appropriations needed for supplying the various city departments with "printing, stationery and blank books," and for the publication of the CITY RECORD in 1890, were presented by the Supervisor of the City Record. They were approved by the Mayor, Council to the Corporation and Commissioner of Public Works, and were ordered to be transmitted to you for submission to the Board of Estimate and Apportionment.

Yours, respectfully,

W. J. K. KENNY, Supervisor, City Record.

OFFICE OF THE CITY RECORD,
NO. 2 CITY HALL,
NEW YORK, October 21, 1889.

To the Hons. HUGH J. GRANT, Mayor; WILLIAM H. CLARK, Counsel to the Corporation, and THOMAS F. GILROY, Commissioner of Public Works:

GENTLEMEN—In a report dated October 2 and addressed to you, I stated that the largest appropriation in your charge—the appropriation for printing, stationery and blank books—would be more than sufficient for the purposes to which it was allotted. I estimated that \$134,000 would prove ample for the procurement of supplies up to January 1, 1890, and that there would be a surplus of \$26,000, applicable either to the payment of arrearages of past administrations, or to the procurement of supplies necessary to the departments at the opening of the approaching year. Of the arrearages about \$19,000 are now in suit. It seems, therefore, that this portion of the surplus might properly be expended at once in obtaining blank books—dockets, ledgers, etc.—and other articles, which must be on hand on January 2 next. In the past, orders for such articles were given out in the closing months of one year, but were not charged up until the appropriation for the succeeding year had become available. It might be better to start clear with the new year. Leaving that matter in abeyance, I present estimates for the expenditures of 1890 on the basis of a past experience and policy.

Two things make it possible for me to keep the estimate of the appropriation for the "Publication of the CITY RECORD"—which includes the Registry lists, prepared as supplements—below the sum allotted for that purpose for this year. One is the fact that arrearages will have been cleared away, practically, at the close of 1889, and the other that the Registry lists are not likely to be so large in 1890 as in 1888. The average cost of printing the lists in 1886, 1887 and 1888 was \$9,000. A careful survey of the work leads me to the belief that \$8,000 will be ample in 1890.

The average cost of printing the CITY RECORD in the past three years was \$54,986. Last year the cost was \$58,471. Up to October 1 of the current year \$43,500 had been spent. The average expenditure in the last quarters of the years 1886, 1887 and 1888 was \$14,800. As there is no apparent reason for a greater expenditure in the quarter now running, the cost of the CITY RECORD for 1889 may fairly be estimated at \$58,300, or about \$9,500 less than the estimate accepted as reasonable by your predecessors when they were making the present contract with the printer. But even this figure, \$58,300, may be reduced by recourse to an option given to the City by Mr. Brown. It appears, therefore, that the cost of publishing the CITY RECORD, with its supplementary Registry lists in 1890, will be \$66,300. To allow for contingencies, it seems to me better to ask the Board of Estimate and Apportionment for \$68,000, which is \$5,000 less than last year.

As for the appropriation to the account of "Printing, Stationery and Blank Books" it seems to me that \$155,000 would be a fair sum for 1890. The average appropriation since 1886 has been \$153,000. In 1886, 1887 and 1888 there was an average deficit of \$22,000. The large surplus of this year is due partly to the fact that the departments have been forced to use up their accumulations of stationery. They will need in 1890 perhaps ten per cent. more than they have had in 1889. Estimating the expenditure for this year at \$134,000 this would give \$147,400 as the appropriation for 1890. But to this should be added something, say five per cent., for contingencies, which would bring the appropriation up to \$154,770. It must be borne in mind also that there are arrearages of past years amounting to about \$9,000, not in suit, which must be paid by an appropriation should the litigation respecting the other arrearages prove adverse to the City. It seems proper that this sum should be added to the general appropriation for "Printing, Stationery and Blank Books," increasing it to \$164,000.

Respecting the appropriation for "Advertising" I can make no suggestion, as data are not at hand in this office. The appropriation for "Salaries and Contingencies" is a matter for your own consideration.

I append the estimates for 1890 as compared with the appropriations for 1889.

Yours, respectfully,

W. J. K. KENNY, Supervisor.

Final Estimate for 1889 (lump sum).....	\$25,000 00
Proposed Estimate for 1890.....	25,000 00

I find that it has been the practice of your Honorable Board to make the appropriation for this Bureau in a lump sum, and this seems very desirable, for the reason that about half the amount annually expended by us is made up of items which are liable to variation because of the uncertainty regarding the number and character of examinations necessary to be held and the amount of expert employment required to properly meet the demands of the service. I have, therefore, the honor to request that the appropriation be made in a lump sum as heretofore.

Very respectfully,
 G. K. ACKERMAN, Secretary and Executive Officer.

The People of the State of New York, represented in Senate and Assembly, do enact as follows :
 Section 1. Section one thousand seven hundred and sixty-eight of chapter four hundred and ten of the laws of one thousand eight hundred and eighty-two, entitled "An act to consolidate into one act and to declare the special and local laws affecting public interests in the city of New York," is hereby amended so as to read as follows :

1768. The board of coroners may appoint a clerk, who shall receive an annual salary of thirty-five hundred dollars per year, which shall be a county charge and payable as other county salaries are paid. The said board of coroners may also appoint, by a majority vote of said board, a skilled stenographer, who shall hold office during the pleasure of the board, and whose whole duty it shall be to take accurate and full stenographic minutes, and transcribe the same, of all proceedings and testimony taken before a jury in the coroners' court held by said coroners in the city and county of New York as may be directed by said board, and said stenographer shall receive a salary of twenty-five hundred dollars per annum and six cents per folio for all transcripts made for the use of the district attorney's office by direction of said board, and said salary and folio rate shall be provided for and paid to said stenographer in the same manner as the clerk of said board of coroners is paid.

THE COMMISSIONERS OF ACCOUNTS.

OFFICE OF THE COMMISSIONERS OF ACCOUNTS,
 ROOMS NOS. 114 AND 115, STEWART BUILDING, }
 NEW YORK, August 26, 1889.

To the Honorable the Board of Estimate and Apportionment :
 In conformity with the circular letter of the Comptroller of the date of July 20, 1889, we beg to submit as the amount necessary to conduct the office of Commissioners of Accounts during the year 1890 :
 For salaries of the two Commissioners, as fixed by chapter 516, Laws of 1884..... \$10,000 00
 For salaries of Assistants, and to pay contingencies and expenses necessary in the conduct of duties devolving on the Commissioners of Accounts..... 25,000 00
 \$35,000 00

This is the sum that was asked for by our predecessors, and in lieu of which they received \$27,500.
 The duties devolving upon and the work performed by us during the present year have required heavy expenditures that were not contemplated when the last estimate was submitted, and as a consequence we have been compelled to reduce our force to a minimum, as is shown by the list herewith submitted, rendering us unable to make examinations that we feel we are called upon to make, and demonstrates to us the necessity of the appropriation asked for.

Very respectfully,

 EDWARD P. BARKER, } Commissioners of Accounts.

FIFTH DISTRICT COURT.

DISTRICT COURT IN THE CITY OF NEW YORK
FOR THE FIFTH JUDICIAL DISTRICT,
No. 154 CLINTON STREET,
August 31, 1889.

To the Board of Estimate and Apportionment :

In compliance with the communication of the Comptroller requesting an estimate in detail of the amount required to pay the expenses of conducting the business of the Fifth District Court, for the year 1889, I submit the following as an estimate of the expenses required for the purposes referred to :

Salaries—	
Henry M. Goldfogle, Justice	\$6,000 00
John Duane, Jr., Clerk	3,000 00
James H. Shiels, Assistant Clerk	3,000 00
Arthur F. Ducret, Stenographer	2,000 00
Jacob Katz, Interpreter	1,200 00
Charles J. Newman, Janitor, etc.	900 00
James Laverty, Court Attendant	1,000 00
James McAlarney, Court Attendant	1,000 00
_____ , Court Attendant	1,000 00
Total salaries	\$19,100 00

These salaries are fixed by sections 1283, 1427, 1432, 1433, 1434 and 1435 of chapter 410 of the Laws of 1882.

In consequence of the large increase of business in the Court, and the frequent large attendance of persons, and the difficulty which two Court Attendants, however efficient, have experienced in discharging their duties during the sessions of the Court, I am of opinion that an additional Court Attendant is necessary (section 1432, chapter 410, Laws 1882). Your attention is respectfully called to a communication transmitted to your Board in 1888 (see page 253 of the printed estimates for the year 1889), showing the large attendance of persons in the Court and the volume of business transacted. Unwilling as I am to have the expenditures for the Court increased, I nevertheless deem it proper for the proper transaction of the business of the Court, the preservation of order and the efficient discharge of such duties as devolve upon Court officers that the appropriation asked for should be made.

Law books	\$200 00
-----------	----------

Occasion frequently arises in the course of a trial to refer to laws and authorities cited by counsel, and for this purpose these law books are required. To facilitate the proper disposition of causes such books should be supplied.

Furniture, shades, carpets and oil-cloths for the court-house, as altered and repaired..	\$750 00
------------------------------------------------------------------------------------------	----------

Work has been begun upon the present court-house, and in a few months the repairs and alterations will be completed. It will be necessary to have carpets and oil-cloths laid and certain new furniture and shades applied. For the purpose of estimation the sum above asked for is set down.

Respectfully submitted,
HENRY M. GOLDFOGLE, Justice.

SURROGATE'S COURT.

CHAMBERS OF THE SURROGATE, NEW YORK COUNTY, NEW YORK, September 3, 1889.

To the Honorable the Board of Estimate and Apportionment:

GENTLEMEN—I submit herewith an estimate of the amount of expenditure required by the Surrogate's Court and office for the ensuing year, 1890.

I also accompany it with a communication indicating such changes and additions in the amount of the appropriations I seek to have made for the coming year.

These changes affect my own salary, which has, by chapter 200 of the Laws of 1889, been raised from \$12,000 to \$15,000 a year, the salary of the Probate Clerk which it is intended to increase from \$1,500 to \$2,500 per annum, the compensation of two Messengers which I wish to fix at \$1,000 each instead of \$900 a year, the amount they are now respectively receiving, and the salaries of the four female Copyists who are now getting \$840 a year each. Their salaries in the estimates I have put at \$1,000 each. An addition of another Court Stenographer and of two Examiners of Records is sought to be made to my corps of Clerks.

I also make requisition for the appropriation of the sum of \$8,400 for salaries for the next year of the Clerks engaged in making transcripts and copies provided for by chapter 57 of the Laws of 1883. Since the submission last year of my estimates for the present year, an order has been made by a Justice of the Supreme Court authorizing the recopying of twenty-one other Libers of Wills. These with such of the libers as have been directed to be copied by like orders previously made will probably leave at the end of this year about twenty-five libers unfinished. To procure new libers for this new work an appropriation of \$630 will be required.

For contingencies an allowance of \$2,000 is asked. The respective sums a-asked for transcribing mutilated records and for contingencies are the same as were last appropriated by your Honorable Board for the purpose.

RASTUS S. RANSOM, Surrogate.

CHAMBERS OF THE SURROGATE, CITY AND COUNTY OF NEW YORK, NEW YORK, September 3, 1889.

To the Honorable the Board of Estimate and Apportionment:

GENTLEMEN—To meet the demand for a prompt determination of cases for the probate of wills, I found it necessary, on the 1st of April last, to appoint an additional Clerk, who is a Stenographer, for this Court.

The gentleman selected is Mr. George F. Flack, who came to me recommended in the highest terms, and I have found him competent and efficient in the discharge of his duties.

When I assumed the duties of Surrogate there were over sixty probate cases pending and undetermined. By the authority given by your Board in December last, for the appointment of an additional Stenographer, the trial of probate matters was hastened and the number of cases reduced at the beginning of this year; and by the appointment of Mr. Flack the trials have been further advanced, and the number of cases now pending has been reduced to thirteen in which the testimony is not closed.

In my communication in December I stated that I was compelled, by reason of the pressure of business, to assign to Mr. Underhill the taking of the testimony in very many probate cases, under authority granted by chapter 701 of the Laws of 1887, and for over a year past he has discharged that duty as Assistant to the Surrogate in a manner to my entire satisfaction.

The additional appropriation which has been made for Assistant Stenographers has been of the greatest benefit in advancing the settlement of estates. It is not often that a litigated probate case is not finally determined within three months after the filing of objections, and it not unfrequently happens that objections are filed and cases heard and concluded within a fortnight's time.

In view of the facts stated, I respectfully ask that provision be made by your Honorable Board for the compensation of Mr. Flack at the rate of eighteen hundred dollars (\$1,800) per year, from the 1st of April, 1889.

The Collateral Inheritance Tax Act became a law on the 30th day of June, 1885, and was amended on the 25th day of June, 1887.

By these acts additional duties were imposed on the Surrogate, but no provision was made for the necessary clerical help to properly carry the law into effect. When I took office in January, 1888, I found that it was absolutely necessary to have clerical assistance in carrying on the work. I therefore applied to your Honorable Board for a Clerk. Your Board granted my request and made a provisional appropriation of \$100 a month, from June 1, 1888.

The Clerk so appointed was charged with the responsible duty of keeping a correct account of all the estates subject to the collateral inheritance tax, and with apportioning the amount of tax due the State. The proper performance of this duty requires not only a knowledge of the law, but a vigilant, intelligent and conscientious application. The magnitude of the work is easily seen by the simple statement that the tax collected by me as Surrogate in the City of New York during the past year amounted to more than \$750,000, and my only help was from this Clerk.

Your Honorable Board made last year a temporary appropriation for the pay of the Collateral Tax Clerk of \$100 a month, but it was understood that such remuneration should be but temporary, in view of the fact that the amount was wholly out of proportion to the ability and responsibility requisite and exacted of the Clerk to be so appointed. Your Board failed to make provision for this Clerk last fall, holding that the State should assume the payment for services of which the State is the beneficiary. A presentation of the facts to the Legislature of the State resulted in the passage of a bill which appropriated from the tax collected in New York City the sum of \$2,400 as the annual remuneration of such Clerk. The payment, however, of this salary did not begin under the act until June, 1889, and the Clerk who has performed the duties of the office from January 1, when he ceased to receive any payment from the City, has received no compensation whatever for the work done by him, relying wholly upon the justice of your Honorable Board to recompense him.

The choice made by me in the selection of Mr. James J. Barton as the Collateral Inheritance Tax Clerk, has fully justified the confidence which I have placed in his ability and faithfulness. The work has been performed with great fidelity to the trust imposed, and it is just and right that he should be paid for his work done, from the 1st of January to the 1st of June, 1889.

The provision made by you last year of \$100 a month was certainly out of proportion to the services rendered, and as the Legislature has fixed the salary at \$2,400 a year, I would respectfully request your Honorable Body to appropriate from some unexpended balance the sum of \$2,400 for the salary of the Collateral Inheritance Tax Clerk for the year beginning on the 1st of June, 1888, to the 1st of June, 1889, or so much of that sum, namely, \$1,700, still fairly due to Mr. Barton, he having received the sum of \$700.

The Legislature having imposed these additional duties upon the Surrogate, I respectfully submit it became the duty of your Honorable Board under the Consolidation Act to provide him with the necessary clerical help to properly perform them.

I beg to call your attention to my communication of last year, as to an increase in the salaries of the female Clerks in my office. They each should be paid one thousand dollars a year.

I also beg to urge upon you the justice of my application in the same communication for an increase of the salary of the Assistant Probate Clerk, and of the two Messengers, who are now receiving \$900 a year each. A full description of the duties of the important office of Assistant Probate Clerk and of the importance of the female Clerks and of their faithfulness in their work was fully stated in my last year's communication.

The salaries of the two Messengers mentioned should be raised to \$1,000 each. Two Examiners to compare the record of wills and of other papers required by law to be recorded, at a salary of \$1,000 each, are necessary.

Provision was requested for this purpose in my said communication, to which I refer for an explanation of the necessity of these Clerks.

Through oversight I failed when I attended before the Board to specially call attention to the matter, and when the omission was discovered it was too late to rectify the mistake, as the estimates had been finally acted upon. I repeat my request in this respect.

The business of the Surrogate's Court is growing rapidly, and all persons employed there are compelled to work very hard and the character of the work is such that none but the most faithful and intelligent can be retained in place. I shall be very glad to have you verify the facts set forth in my letter of last year and in this; I shall also count it a privilege, if you so desire, to appear in person before you and answer any inquiries.

It is my desire to aid you in every possible way in an economical administration of the city government, having in mind, however, always the legitimate needs of our people, whose numbers are increasing many thousands every year.

I earnestly hope you will find it consistent with your duty to grant my requests.

Respectfully, yours,
RASTUS S. RANSOM, Surrogate.

By the existing provisions of law, the Supervisors of any county from which State pupils are admitted into the N. Y. Asylum for Idiots are required to raise the sum of (\$30) thirty dollars a year for each pupil so admitted.

SIR—In compliance with the requirements contained in the resolutions of the Board of Estimate and Apportionment embraced in your communication under date of July 20, 1889, duly received, the Managers of the New York Catholic Protectory hereby respectfully submit the following statement and requisition:

By section 1, chapter 428 of the Laws of 1867, the sum of one hundred and ten dollars (\$110) per capita on the average number of persons annually maintained in said institution was authorized and directed to be raised in the same manner and applied in the same way as is required by section 1, chapter 647 of the Laws of 1866.

Considering the provisions of said acts, and the number of children now in the institution there will be required for the year 1890, two hundred and sixty-four thousand dollars (\$264,000).

This requisition is based on an estimate of two thousand four hundred (2,400) children as the average number to be maintained during the year 1890.

The managers beg leave to assure you that they have carefully considered their estimate for 1890, and that any reduction of the sum therein asked for will be attended with serious inconvenience to the institution and render impossible the reception of all the children committed to its care by the magistrats of this city.

The following is a statement of the salaries paid: At the office and House of Reception, No. 415 Broome street, New York City—

Table listing salaries for various roles: Actuary (\$2,500 00), Bookkeeper (1,200 00), Chief of Bureau of Admissions and Discharges (1,500 00), Clerk (1,000 00), Visitor (850 00), Superintendent of the House of Reception (850 00), Physician of the House of Reception (1,200 00), etc.

Respectfully submitted, For the Board of Managers, HENRY L. HOGUET, President.

A bill of \$65 for services rendered by C. H. Williams in indexing the CITY RECORD and measuring the composition in that journal from September 13 to October 1, was also approved.

The Supervisor of the City Record informed the Board that, by its direction, he had requested the Clerk of the Court of General Sessions to see to it that all requisitions for blank books, stationery, etc., passed through his office.

On motion of the Mayor, the Supervisor was directed to write to Recorder Smyth informing him that requisitions for stationery, etc., came from various sources in the Court of General Sessions, causing much confusion as well as an unnecessary expenditure, pointing out that some responsible person should be charged with the care of such matters, and that the Clerk of the Court was the proper person, and stating that hereafter all requisitions must come through that officer, who, in his requisition for 1890, must include everything needed in the Court for that year.

The salary lists of the CITY RECORD were approved. On motion of Commissioner Gilroy, the Board decided that the bookbinders in the several departments who are paid out of the appropriation for "Printing, Stationery and Blank Books," should be placed under the supervision of the heads of those departments.

It was determined, by a concurrent vote of the Mayor, Counsel to the Corporation and the Commissioner of Public Works, to be for the best interests of the city that the Supervisor of the CITY RECORD should procure the supplies on the approved requisitions without contract.

The meeting then adjourned. W. J. K. KENNY, Secretary.

ROOM 127, STEWART BUILDING, NO. 280 BROADWAY, THIRD FLOOR, NEW YORK, June 1, 1889.

CLAIMS FOR EXEMPTION FROM JURY DUTY.

Those entitled to exemption are: Clergymen, lawyers, physicians, surgeons, surgeon-dentists, professors or teachers in a college, academy or public school, licensed pharmacists or druggists, actually engaged in their respective professions and not following any other calling; militiamen, policemen, and firemen; election officers, jury non-residents, and city employees, and United States employees; officers of vessels making regular trips; licensed pilots, actually following that calling; superintendents, conductors and engineers of a railroad company other than a street railroad company; telegraph operators actually doing duty as such; Grand, Sheriff's, and Civil Court jurors; stationary engineers; and persons physically incapable of performing jury duty by reason of severe sickness, deafness, or other physical disorder.

Those who have not answered as to their liability, or proved permanent exemption, will receive a "jury enrollment notice," requiring them to appear before me this year. Whether liable or not, such notices must be answered (in person, if possible), and at this office only, under severe penalties. If exempt, the party must bring proof of exemption; if liable, he must also answer in person, giving full and correct name, residence, etc., etc. No attention paid to letters. Persons "enrolled" as liable must serve when called or pay their fines. No mere excuse will be allowed or interference permitted. The fines, if unpaid, will be entered as judgments upon the property of the delinquents. All good citizens will aid the course of justice, and secure reliable and respectable juries, and equalize their duty by serving promptly when summoned, allowing their clerks or subordinates to serve, reporting to me any attempt at bribery or evasion, and suggesting names for enrollment. Persons between sixty and seventy years of age, summer absentees, persons temporarily ill, and United States jurors, are not exempt. Every man must attend to his own notice. It is a misdemeanor to give any jury paper to another to answer. It is also punishable by fine or imprisonment to give or receive any present or bribe, directly or indirectly, in relation to a jury service, or to withhold any paper or make any false statement and every case will be fully prosecuted.

The Department of Public Charities and Correction reserves the right to decline any and all bids or estimates if deemed to be for the public interest, and to accept any bid or estimate as a whole, or for any one or more articles included therein. No bid or estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The award of the contract will be made as soon as practicable after the opening of the bids.

Delivery of onions, apples and pork will be required to be made on Tuesday, November 25, 1889, before 9 o'clock A. M., and of poultry on Wednesday, November 27, 1889, before 7 o'clock A. M., all in accordance with specifications.

Any bidder for this contract must be known to be engaged in and well prepared for the business, and must have satisfactory testimonials to that effect, and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract by his or their bond, with two sufficient sureties, each in the penal amount of fifty (50) per cent. of the estimated amount of the contract.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same; the names of all persons interested with him or them therein; and if no other person be so interested, it shall distinctly state that fact; also that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud; and that no member of the Common Council, Head of a Department, Chief of a Bureau, Deputy thereof or Clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for its faithful performance, and that if he shall omit or refuse to execute the same, they shall pay to the Corporation any difference between the sum to which he would be entitled on its completion, and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety or otherwise; and that he has offered himself as a surety in good faith and with the intention to execute the bond required by section 12 of chapter 7 of the Revised Ordinances of the City of New York, if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of the security offered to be approved by the Comptroller of the City of New York.

No bid or estimate will be considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money, to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be enclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York, as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it, and as in default to the Corporation, and the contract will be readvertised and relet as provided by law.

Bidders will write out the amount of their estimates in addition to inserting the same in figures. Payment will be made by a requisition on the Comptroller, in accordance with the terms of the contract, or from time to time, as the Commissioners may determine.

Each estimate must contain the name and place of residence of the person making the same, the names of all persons interested with him therein, and if no other person be so interested, it shall distinctly state that fact. That it is made without any connection with any other person making an estimate for the same work, and is in all respects fair and without collusion or fraud.

Each estimate must be verified by the oath, in writing, of the party making the same, that the several matters therein stated are true, and must be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, to the effect that if the contract is awarded to the person making the estimate, they will, upon its being so awarded, become bound as his sureties for its faithful performance; and that if he shall refuse or neglect to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled upon its completion and that which the Corporation may be obliged to pay to the person to whom the contract shall be awarded at any subsequent letting; the amount to be calculated upon the estimated amount of the work by which the bids are tested.

The consent last above mentioned must be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of the contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety, or otherwise, and that he has offered himself as surety in good faith, with the intention to execute the bond required by law.

No estimate will be considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be included in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct.

THE COMMISSIONER OF PUBLIC WORKS RESERVES THE RIGHT TO REJECT ALL BIDS RECEIVED FOR ANY PARTICULAR WORK IF HE DEEMS IT FOR THE BEST INTERESTS OF THE CITY.

Blank forms of bid or estimate, the proper envelopes in which to inclose the same, the specifications and agreements, and any further information desired, can be obtained at Rooms 13 and 8, No. 31 Chambers street.

DEPARTMENT OF PUBLIC WORKS, COMMISSIONER'S OFFICE, NO. 31 CHAMBERS STREET, NEW YORK, August 14, 1889.

TO OWNERS OF LANDS ORIGINALLY ACQUIRED BY WATER GRANTS.

ATTENTION IS CALLED TO THE RECENT act of the Legislature (chapter 449, Laws of 1889), which provides that whenever any streets or avenues in the city, described in any grant of land under water, from the Mayor, Aldermen and Commonalty, containing covenants requiring the grantees and their successors to pave, repave, keep in repair or maintain such streets, shall be in need of repairs, pavement or repavement, the Common Council may, by ordinance, require the same to be paved, repaved or repaired, and the expense thereof to be assessed on the property benefited; and whenever the owner of a lot so assessed shall have paid the assessment levied for such paving, repaving or repairing, such payment shall release and discharge such owner from any and every covenant and obligation as to paving, repaving and repairing, contained in the water grant under which the premises are held, and no further assessment shall be imposed on such lot for paving, repaving or repairing such street or avenue, unless it shall be petitioned for by a majority of the owners of the property (who shall also be the owners of a majority of the property in frontage) on the line of the proposed improvement.

The act further provides that the owner of any such lot may notify the Commissioner of Public Works, in writing, specifying the ward number and street number of the lot, that he desires, for himself, his heirs and assigns, to be released from the obligation of such covenants, and elects and agrees that said lot shall be thereupon liable to be assessed as above provided, and thereupon the owner of such lot, his heirs and assigns shall thereupon be relieved from any obligation to pave, repair, uphold or maintain said street, and the lot in respect of which such notice was given shall be liable to assessment accordingly.

The Commissioner of Public Works desires to give the following explanation of the operation of this act: When notice, as above described, is given to the Commissioner of Public Works, the owner of the lot or lots therein described, and his heirs and assigns, are forever released from all obligation under the grant in respect to paving, repaving or repairing the street in front of or adjacent to said lot or lots, except one assessment for such paving, repaving or repairs, as the Common Council may, by ordinance, direct to be made thereafter.

No street or avenue within the limits of such grants can be paved, repaved or repaired until said work is authorized by ordinance of the Common Council, and when the owners of such lots desire their streets to be paved, repaved or repaired, they should state their desire and make their application to the Board of Aldermen and not to the Commissioner of Public Works, who has no authority in the matter until directed by ordinance of the Common Council to proceed with the pavement, repavement or repairs.

THOS. F. GILROY, Commissioner of Public Works.

By order, THOMAS F. GILROY, Commissioner of Public Works.

DEPARTMENT OF PUBLIC WORKS, COMMISSIONER'S OFFICE, NO. 31 CHAMBERS STREET, NEW YORK, June 1st, 1889.

NOTICE TO CROTON WATER CONSUMERS.

NUMEROUS APPLICATIONS HAVE BEEN made to this Department by citizens claiming reductions or rebates on bills for water supplied through meters, on the alleged ground of leakage caused by defective plumbing and worn-out service pipes, or by willful waste of water by tenants allowing the faucets to be turned on in full force in water-closets, sinks, etc., without the knowledge or consent of the owners of the premises.

The main object of the use of water-meters is to enable this Department to detect and check the useless and unwarrantable waste of an element so valuable and essential to the health and comfort of all the citizens, and this object can only be accomplished by enforcing payment for the water wasted.

Under the law all charges for water supplied through meters are a lien against the respective premises, and the law therefore holds the owner of the premises responsible for the amount of water used or wasted.

Notice is therefore given to all householders that, in all further applications for reduction of water rents, no allowance will be made on account of waste of water occurring through leaks, from defective service pipes or plumbing, or wasteful use of water by tenants or occupants of buildings, though such leakage or waste may have occurred without the knowledge or consent of the owners of the buildings.

House-owners are further notified that whenever their premises become vacant, and are likely to remain vacant, they must notify this Department in writing, and that unless this requirement is complied with no deductions in extra water rents will be allowed for any portion of one year.

THOMAS F. GILROY, Commissioner of Public Works.
