PARKS AND RECREATION

■ JOINT PUBLIC HEARING

NOTICE OF A JOINT PUBLIC HEARING of the Franchise and Concession Review Committee and the New York City Department of Parks and Recreation to be held on Tuesday, November 12, 2013 at 22 Reade Street, Borough of Manhattan, commencing at 2:30 P.M. relative to:

INTENT TO AWARD as a concession a Sole Source License Agreement to Bike the Greenway LLC (“Bike and Roll”) whose address is 140 West 30th Street, Suite 5E, New York, 10001, the installation, operation and maintenance of a bike rental station at Battery Park, approximately across from 17 State Street, Manhattan. The Agreement will commence upon Notice to Proceed. Compensation to the City will be as follows: For each Operating Year, except Operating Year 1, compensation will be the greater of a \$17,000 minimum annual fee or 12.5% of Gross Receipts between \$100,000 and \$149,999, 13.50% of Gross Receipts between \$150,000 and \$199,999 and 14.50% of Gross Receipts equal to or above \$200,000. In Operating Year 1, which will only be a partial year, compensation will be the greater of \$7,083.00 or 12.5% of Gross Receipts between \$100,000 and \$149,999, 13.50% of Gross Receipts between \$150,000 and \$199,999 and 14.50% of Gross Receipts equal to or above \$200,000. PROCUREMENT

“Compete To Win” More Contracts!
Thanks to a new City initiative - “Compete to Win” - the NYC Department of Small Business Services offers a new set of FREE services to help create more opportunities for minority and women-owned businesses to compete, connect and grow their business with the City. With NYC Construction Loan, Technical Assistance, NYC Construction Mentorship, Bond Readiness, and NYC Teaming services, the City will be able to help even more small businesses than before.

- Win More Contracts at nyc.gov/competetowin

“The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City’s prestige as a global destination. The contracting opportunities for construction/construction services and construction-related services that appear in the individual agency listings below reflect that commitment to excellence.”

HHS ACCELERATOR

To respond to human services Requests for Proposals (RFPs) released Fall 2013 and later, vendors must first complete and submit an electronic prequalification application using the City's Health and Human Services (HHS) Accelerator System. The HHS Accelerator System is a web-based system maintained by the City of New York for use by its human services Agencies to manage procurement. To establish this, the City of New York is using the innovative procurement method, as permitted and in accordance with Section 3-12 of the Procurement Policy Board Rules of the City of New York ("PPB Rules"). The new process will remove redundancy by capturing information about boards, filings, policies, and general service experience centrally. As a result, specific proposals for funding will be more focused on program design, scope, and budget.

Important information about the new method

- Prequalification applications are required every three years
- Documents related to annual corporate filings must be submitted on an annual basis to remain eligible to compete
- Prequalification applications will be reviewed to validate compliance with corporate filings, organizational capacity, and relevant service experience
- Approved organizations will be eligible to compete and would submit electronic proposals through the system.

RFPs to be managed by HHS Accelerator are listed on the NYC Procurement Roadmap located at <http://www.nyc.gov/html/hhsaccelerator/html/roadmap/roadmap.shtml>. All current and prospective vendors should frequently review information listed on roadmap to take full advantage of upcoming opportunities for funding.

Participating NYC Agencies

HHS Accelerator, led by the Deputy Mayor for Health and Human Services, is governed by an Executive Steering Committee of Agency Heads who represent the following NYC Client and Community-based Services Agencies:

Administration for Children's Services (ACS)
Department for the Aging (DFTA)
Department of Corrections (DOC)
Department of Health and Mental Hygiene (DOHMH)
Department of Homeless Services (DHS)
Department of Probation (DOP)
Department of Small Business Services (SBS)
Department of Youth and Community Development (DYCD)
Housing and Preservation Department (HPD)
Human Resources Administration (HRA)
Office of the Criminal Justice Coordinator (CJC)
To sign up for training on the new system, and for additional information about HHS Accelerator, including background materials, user guides and video tutorials, please visit www.nyc.gov/hhsaccelerator.

AGENCY RULES

TAXI AND LIMOUSINE COMMISSION

NOTICE

Notice of Promulgation of Rules

NOTICE IS HEREBY GIVEN in accordance with section 1043(b) of the New York City Charter ("Charter") that the Taxi and Limousine Commission ("TLC") promulgates amendments to its rules for For-Hire Vehicles and certain other Licensees.

These rules are promulgated pursuant to sections 1043 and 2303 of the Charter and section 19-503 of the Administrative Code of the City of New York. The rule was not included in the Commission's regulatory agenda for this Fiscal Year.

These rules were published on September 11, 2013, for public comment in the City Record. On October 17, 2013 a public hearing was held by the TLC at its offices at 33 Beaver Street, 19th Floor, New York, New York, 10004 and the rules were adopted by the Commission at that public meeting. Pursuant to section 1043(e)(1)(c) of the Charter, these rules will go into effect 30 days following publication in the City Record.

Statement of Basis and Purpose of Rule

On December 23, 2011 Governor Cuomo signed into law chapter 602 of the Laws of 2011, and on February 17, 2012, signed into law chapter 9 of the Laws of 2012, which amended the previous statute. This legislation allows New York City to issue up to 18,000 transferable licenses to for-hire vehicles authorizing them to pick up passengers by street hail anywhere outside Manhattan (except for the airports) and in Manhattan north of West 110th Street and north of East 96th Street. Up to 6,000 of these licenses for Street Hail Liveries can be issued in the first year of the program. Twenty percent of these licenses will be set aside for wheelchair accessible vehicles (City subsidies for accessible vehicle purchase/upgrades will be available).

During early 2012, the New York City Taxi and Limousine Commission (TLC) adopted rules to implement this legislation, but they were subsequently stayed during the pendency of litigation, commenced in mid-2012, which challenged the legislation. Following the successful resolution of this litigation, and as it moves forward to implement the program set forth in the legislation and rules, the TLC is amending the rules to:

- Make clear that only Street Hail Liveries may be any shade of apple green so that the public is not confused about which vehicles can be legally hailed outside of central Manhattan.
- Mandate training in wheelchair passenger assistance for all new taxicab drivers, and remove the requirement that taxicab owners pay for such training. These measures will expand the pool of drivers trained and available to drive accessible vehicles.
- Increase Paratransit Base License periods to 3 years, so that Paratransit Bases with SHL Base Permits can have the same license terms as other SHL Bases. For-Hire Bases already enjoy three year terms, as do new SHL Bases. This change will make treatment of the Paratransit Bases, which may purchase SHL Base Permits, consistent with those of For-Hire Bases.

These rules are authorized by Section 2303 of the Charter and Section 19-503 of the Administrative Code of the City of New York.

New material is underlined.
[Deleted material is in brackets.]

Section 1. Subdivision (a) of section 53-07 of Title 35 of the Rules of the City of New York is amended to read as follows:

(a) Reserved [*Passenger Assistance Training*].

- (1) Taxicab Owner Must Pay for Training. The Taxicab Owner is responsible for paying any fees required to train each of Owner's Approved Drivers under Section 54-04(n) of these Rules.

§53-07(a)(1) Fine: \$50 Appearance: NOT Required]

§2. Paragraph (1) of subdivision (n) of section 54-04 of Title

35 of the Rules of the City of New York is amended, and a new paragraph (5) is added, to read as follows:

(1) *Training Must be Approved by Commission*. In order to become a driver of an Accessible Taxicab, a Driver, and on and after January 1, 2014, all new Applicants for a Taxicab Driver's License, must attend a Commission-approved training course regarding Wheelchair Passenger assistance.

(5) Beginning January 1, 2014, a new Applicant for a Taxicab Driver's License must present proof of completion or other evidence that he or she has completed the training with his or her application. Failure to provide such proof or other evidence will result in denial of the application.

§3. Subdivision (d) of section 59A-29 of Title 35 of the Rules of the City of New York is amended to read as follows:

(d) [*Taxicab Yellow*] Prohibited Colors for Vehicle Exteriors. No For-Hire Vehicle can be, in whole or in part, any shade of Taxicab Yellow, and no For-Hire Vehicle not licensed and Valid to operate as a Street Hail Livery can be, in whole or in part, any shade of Apple Green as authorized for use with a Street Hail Livery provided in Chapter 82 of these Rules.

§4. Subdivision (f)(3)(i) of section 59B-06 of Title 35 of the Rules of the City of New York is amended to read as follows:

(3) Upon issuance of a Street Hail Livery Base License:

(i) the underlying Base License or Paratransit Base License term will be pro-rated (and the License fee for that License will be pro-rated which means an additional fee will be charged) so that the Base License will expire on the same date that the Street Hail Livery Base License expires. *Example*. The underlying Base License expires on 6/15/14. A Street Hail Livery Base License is issued to the Base on 6/16/12 and will expire on 6/15/15. The underlying Base License will be extended for one year and an additional 1 year license fee of \$500 will be charged. The underlying Base License and the Street Hail Livery Base License will both expire on 6/15/15.

§5. Subdivisions (a) and (b) of section 60B-05 of Title 35 of the Rules of the City of New York is amended to read as follows:

- (a) *New Licenses*. The term of a new Base License is [two] three years.
- (b) *Renewals*. The renewal term of a Base License is [two] three years from the date on which the previous License expired.

§6. Section 82-52(a) of Title 35 of the Rules of the City of New York is amended to read as follows:

(a) [*Color*] Apple Green. The exterior of the vehicle must be painted [Street Hail Livery color designated] Apple Green (paint codes Dupont – GS028 or PPG – 502757 or similar), except for the trim. [See Section 82-33(j)] Samples of paint color and code are to be submitted to the Chair for approval if not those specified.

ADMINISTRATION FOR CHILDREN'S SERVICES

NOTICE

In advance of the release of a Request for Proposals (RFP), the New York City Administration for Children's Services (ACS) is posting a concept paper setting forth the services that potential, qualified vendors will be able to provide for Respite Care services to youth who have come into contact with, or are at risk of coming into contact with the juvenile justice system. Through the RFP, ACS seeks to develop a new program model that emphasizes the engagement of at-risk and vulnerable populations of youth within our continuum of care, and reinforces fundamental expectations of accountability for outcomes and child and family-centered practices.

The concept paper will be posted on the ACS website, <https://a068-aprodapp15.nyc.gov/rfponline/> under Business Opportunities - Concept Papers from November 2, 2013 to December 17, 2013. All comments in response to the concept paper should be in writing via e-mail to: respitecare@dfa.state.ny.us

Pursuant to City Environmental Quality Review (CEQR), Mayoral Executive Order No. 91 of 1977, CEQR Rules of Procedure of 1991 and the regulations of Article 8 of the

State Environmental Conservation Law, State Environmental Quality Review Act (SEQRA) as found in 6 NYCRR Part 617, a Final Environmental Impact Statement (FEIS) has been prepared for the action described below.

The Applicant, Forrest Lots, LLC, is requesting a zoning map amendment, a zoning text amendment, and changes to the city map (collectively, the "Proposed Action") affecting an approximately 6 block area within the Bushwick neighborhood of Brooklyn, Community District 4. The affected area is generally bounded by Flushing Avenue, Evergreen Avenue, Melrose Street, Stanwix Street, Forrest Street, Garden Street, and Beaver Street. The Proposed Action would rezone all or portions of Blocks 3137, 3138, 3139, 3140, 3141 and 3152. The affected area is currently zoned M1-1 and M3-1, light and heavy manufacturing districts, respectively. The proposed zoning map amendment would rezone the area M1-2, R6A and R7A with selected C2-4 commercial overlays. The proposed zoning text amendment would establish the Inclusionary Housing program within the proposed R6A and R7A districts within the rezoning area. The City Map change would establish the section of Stanwix Street from Montith Street to Forrest Street and the section of Noll Street between Evergreen Avenue and Stanwix Street as mapped streets.

The Proposed Action would facilitate a proposal by the Applicant to redevelop four sites with 54,182 square feet (sf) of local retail space and 977 dwelling units (DUs), of which 242 DUs would be affordable to low-to-moderate-income households, per the Inclusionary Housing regulations (47 units would be set aside for senior housing) by 2016. For environmental analysis purposes, the FEIS projects that on the Applicant's sites the Proposed Action would result in a net increase of 54,182 sf of local retail space and 977 dwelling units (DUs), of which 195 DUs would be affordable to low-to-moderate-income households, per the Inclusionary Housing regulations. In addition, the Proposed Action could facilitate new development on four sites not under the applicant's control. On these properties, the Proposed Action could result in a net increase of 99 DUs, of which 20 DUs would be affordable per the Inclusionary Housing regulations, and 20,013 sf of local retail. In total, the Proposed Action is expected to result in development on eight (8) sites generating a net increase of approximately 1,076 DUs, of which 215 would be considered affordable, and 74,194 sf of local retail.

The Proposed Action includes (E) designations (E-315) for hazardous materials, noise, and air quality. The (E) designation is a mechanism that ensures no significant adverse impacts would result from a proposed action because of steps that would be undertaken prior to the development of a rezoned site. The (E) designation would ensure that these identified sites would not be developed unless necessary remedial measures are implemented.

The FEIS identifies potential significant adverse impacts related to open space, community facilities (elementary schools) and transportation (traffic). Measures to mitigate the community facilities and open space impacts were explored and evaluated in between the Draft and EIS in consultation with the New York City School Construction Authority (SCA), the New York City Department of Education (DOE), the New York City Department of Parks (DPR) and the lead agency, DCP. The FEIS identifies measures that would fully mitigate impacts for community facilities and traffic and partially mitigate open space impacts. Absent the implementation of the measures identified in the FEIS, the Proposed Action could have an unmitigated significant adverse impact on elementary schools. While the identified impact to open space could be partially mitigated with the measures identified in the FEIS, it would still constitute an unavoidable significant adverse impact on open space resources. As the significant adverse impact on open space would not be fully mitigated, the Proposed Action would result in an unavoidable adverse impact on open space.

The FEIS evaluates three alternatives to the proposed action: a No Action Alternative, a Lower Density Alternative, and a No Impact Alternative.

Copies of the FEIS are available for public inspection at the office of the undersigned. The proposal involves actions by the City Planning Commission and Council of the City of New York pursuant to Uniform Land Use Review Procedures (ULURP). A public hearing on the Draft Environmental Impact Statement (DEIS) was held on September 11, 2013. Written comments on the DEIS were requested and were received by the Lead Agency until September 23, 2013. The FEIS incorporates responses to the public comments received on the DEIS and additional analysis conducted subsequent to the completion of the DEIS.

ADVISORY REPORTS

ISSUE DATE: 09/12/2013 **DOCKET#:** 14-8501 **SRA#:** SRA 14-8366

ADDRESS: CENTRAL PARK **BOROUGH:** MANHATTAN **BLOCK/LOT:** 1111/1

SCENIC LANDMARK

To the Mayor, the Council, and the Commissioner of the Department of Parks and Recreation

This report is issued pursuant to Sections 3020 and 854 (h) of the New York City Charter and Section 25-318 of the Administrative Code of the City of New York, which require a report from the Landmarks Preservation Commission for certain plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The Landmarks Preservation Commission has reviewed a proposal for stabilizing and anchoring sections at rocks, which are at risk of movement and detachment, at eight outcroppings of Manhattan and Hartland schist, located within various sections of the park, including installing un-tensioned anchors (dowels) and rock bolts at all eight outcroppings, installing grout injections at one outcropping, and installing galvanized steel netting at two sections of one outcropping, as well as planting vines to help conceal the proposed netting, removing a section of loose rocks at one outcropping, and providing a temporary protection enclosure for an existing sculpture ("Still Hunt") at one of the outcroppings while the stabilization work is underway, as described in written specifications, dated April 2013 and (received) September 11, 2013, and shown in marked photographs and drawings, titled "Parkwide Rock Outcrop Assessment," numbered 1 through 18 by the Commission staff, and dated received August 2013, all submitted by Marie Warsh, on behalf of the Central Park Conservancy, as components of the application.

In reviewing this proposal, the Commission notes that Central Park Scenic Landmark Designation Report describes the park as an English Romantic style public park designed in 1856 by Olmsted and Vaux. The Commission also notes that Advisory Staff Report 09-0834 (LPC 09-0559) was issued on June 13, 2008 for emergency stabilization work at the stone outcroppings at the walls of the 96th Street Transverse Roadway.

With regard to this proposal, the Commission finds that the work will address existing safety hazards, without eliminating any significant, protected features of the park; that the proposed installations will help stabilize the rocks, thereby helping to support their long term preservation in their historic locations; that the installations will be limited to the minimum amount and types necessary to stabilize and anchor the rocks; that all of the anchors and grout injections will be concealed from view; that the rock bolts will be concealed from view, if feasible, and, if visible, will be simply designed and small in relation to the outcroppings; that the netting will be simply designed and only be installed at one outcropping, with plantings used to help conceal its presence; that only a small section of loose rocks at the 97th Street Transverse Roadway will be removed; that the removal of limited portion of rocks from the roadway will not diminish the character of the roadway, which maintains a substantial amount of the naturalistic stone outcroppings; that the temporary protection enclosure will help protect the sculpture from damage and be removed after the completion of the stabilization and anchoring work; that none of the proposed work will detract from any significant landscape features or prominent vistas; and that the work will support the significant historic and naturalistic character of the Central Park Scenic Landmark.

This permit is issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered. The Commission reserves the right to amend or revoke this permit, upon written notice to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or disclosed during the review process.

All approved drawings are marked approved by the Commission with a perforated seal indicating the date of approval. The work is limited to what is contained in the perforated documents. Other work or amendments to this filing must be reviewed and approved separately. The applicant is hereby put on notice that performing or maintaining any work not explicitly authorized by this permit may make the applicant liable for criminal and/or civil penalties, including imprisonment and fines. This report constitutes the permit; a copy must be prominently displayed at the site while work is in progress. Please direct inquiries to Bernadette Artus.

This report is issued pursuant to Sections 3020 and 854 (h) of the New York City Charter and Section 25-318 of the Administrative Code of the City of New York, which require a report from the Landmarks Preservation Commission for certain plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The staff of the Landmarks Preservation Commission has reviewed a proposal for the removal and replacement of asphalt roofing and underlying decking; as shown and described in photographs and a letter, dated September 16, 2013, prepared by Angela M. DeLillo, P.E., NYC DEP.

With regard to this proposal, the Commission finds that the roof is leaking and in need of repair; that the removal of the existing asphalt roofing system will not cause the removal of significant architectural fabric; and that the proposed asphalt shingles will closely match the existing in terms of color and dimension, to mimic the appearance of slate. Based on these findings, the Commission has determined the work to be appropriate to the Central Park Scenic Landmark. The work, therefore, is approved.

This permit is issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered. The Commission reserves the right to amend or revoke this permit, upon written notice to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or disclosed during the review process.

The staff of the Landmarks Preservation Commission has reviewed a proposal for the removal and replacement of an access hatch and skylight at the roof, as shown and described in photographs and a letter, dated September 24, 2013, prepared by Angela M. DeLillo, P.E., NYC DEP.

With regard to this proposal, the Commission finds that the skylight and access hatch are severely deteriorated and in need of repair; that the removal of the existing skylight and hatch will not cause the removal of significant architectural fabric; and that the proposed work will help to maintain the structure in a sound watertight condition. Based on these findings, the Commission has determined the work to be appropriate to the Central Park Scenic Landmark. The work, therefore, is approved.

This permit is issued on the basis of the building and site conditions described in the application and disclosed during the review process. To the Mayor, the Council, and the Commissioner of the Department of Parks and Recreation

This report is issued pursuant to Sections 3020 and 854 (h) of the New York City Charter and Section 25-318 of the Administrative Code of the City of New York, which require a report from the Landmarks Preservation Commission for certain plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The Landmarks Preservation Commission has reviewed a proposal for interior alterations only throughout the building, including the demolition and construction of nonbearing partitions, as well as structural, mechanical, plumbing, electrical, and HVAC work, as shown on drawings T-002.00, T-003.00, DM-111.00, A-100.00, A-110.00 through A-113.00, A-120.00, A-121.00, A-122.00, A-130.00, A-140.00, A-210.00 through A-218.00, A-310.00, A-410.00, A-420.00, A-510.00 through A-513.00, A-520.00, A-521.00, A-522.00, A-600.00 through A-611.00, A-620.00 through A-626.00, A-630.00, A-631.00, A-632.00, A-640.00 through A-646.00, A-700.00 through A-704.00, A-710.00, A-800.00 through A-807.00, A-890.00, A-900.00, and A-901.00, dated (issued) April 3, 2013 and prepared by Richard H. Murray, PE, all submitted as components of the application.

The Commission also notes that exterior work at the building, previously approved by Binding Commission Report 12-2608 (LPC 12-8180), issued on June 4, 2012, Miscellaneous/Amendment 14-2286 (LPC 14-2375), issued on March 28, 2013, and Miscellaneous/Amendment 14-8099 (LPC 14-0575), issued on September 4, 2013, and exterior alterations to the surrounding parkland, previously reviewed under Advisory Commission Report 14-2285 (LPC 14-0345),

issued on March 28, 2013, are shown on the approved drawings; and that some of the windows and doors at the exterior facades of the building included on the proposed condition elevations, as documentation of existing conditions, do not exactly replicate the existing conditions or the approved replacement infill for these locations.

This permit is issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered. The Commission reserves the right to amend or revoke this permit, upon written notice to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or disclosed during the review process.

ADDRESS	BOROUGH:	BLOCK/LOT:
STUYVESANT SQUARE PARK	MANHATTAN	922/1

HISTORIC DISTRICT
STUYVESANT SQUARE

To the Mayor, the Council, and the Commissioner of the Department of Parks and Recreation

This report is issued pursuant to Sections 3020 and 854 (h) of the New York City Charter and Section 25-318 of the Administrative Code of the City of New York, which require a report from the Landmarks Preservation Commission for certain plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The Landmarks Preservation Commission has reviewed a proposal for work at the eastern half of Stuyvesant Square Park and the adjoining sidewalks, including temporarily removing and reinstalling the historic cast iron perimeter fencing in order to facilitate repairs and repainting of the fencing and to provide access for below grade work; repairing the fencing by selectively removing previous unsympathetic and failing repair installations, replacing missing and damaged elements with new cast iron replicas, reattaching displaced or disconnected elements, and selectively repairing damaged portions, utilizing patching compounds, welding, and the installation of concealed mechanical fasteners and supports; cleaning and refinishing the fencing, using abrasive methods for removals and primer and black paint for the refinishing; replacing existing granite bases, beneath the historic perimeter fencing, with new granite bases, with foundations extending beneath the frost line; replacing existing concrete curbing and paving, adjacent to the park side of the fencing and extending beneath portions of the fence, which are not continuous throughout the park, with a continuous bluestone curbing, set parallel and close to the fencing, serving to retain soil within the park and away from the fencing, and adjoining bluestone paving extending from the new curbing and under the fence panels to abut the sidewalk paving; replacing deteriorated bluestone paving at the Perlman Place sidewalk with new bluestone paving; replacing asphalt hex block pavers at the 15th and 17th Street sidewalks and poured asphalt paving at the 2nd Avenue sidewalk with bluestone paving, set on a bed of sand at Perlman Place and on a concrete base through the remainder of the sidewalks; slightly modifying the grade level of the sidewalk paving to improve drainage and comply with governmental regulations; adjusting existing utility appurtenance at the sidewalks to align with the surface of the adjoining paving as needed; replacing granite entrance thresholds and limited sections of asphalt paving, within the park, adjacent to the entrances, with new thresholds and paving, matching the existing in terms of materials and design and aligned with the replacement sidewalk paving; replacing sloped asphalt and concrete paving at existing pedestrian crossings at the sidewalks and a section of existing asphalt hex block paving at a new barrier free pedestrian crossing location at the corner of Perlman Place and 16th Street with new sloped and tinted concrete paving, featuring a textured surface ("detectable warning bumps") and finished to blend with color of the surrounding bluestone paving; resetting the existing granite curbing at Perlman Place to a level placement and replacing or modifying the granite curbing at the new barrier free pedestrian crossing, matching the level of the adjoining paving; replacing concrete curbing at the 15th and 17th Street sidewalks with granite curbing; replacing one existing bollard, near the Perlman Place park entrance, to a nearby location, improving barrier free access at the entrance; and below-grade plumbing work,

as described in written specifications, including a Conditions Assessment and Treatment Report, dated June 23, 2011 and supplemental written specifications, dated (received) May 24, 2013, August 9, 2013 and September 10, 2013, and shown in photographs; existing condition drawings, labeled B-1 through B-68 and dated June 2011; and drawings LS-101, L-101, L-102, L-103, L-201 through L-211, L-401 through L-405, L-501 through L-508, and L-601, dated March 18, 2013 and prepared by the New York City Department of Parks and Recreation, all submitted as components of the application.

In reviewing this application, the Commission notes that the Stuyvesant Square Historic District describes Stuyvesant Square Park as a public park, originally designed circa 1840s and redesigned in 1946; and that the style, scale, materials and details of the park are among the features that contribute to the special and historic character of the historic district. The Commission also notes that Commission Report (LPC 80-354) was issued on July 14, 1980 for the rehabilitation of Stuyvesant Square Park; that the interior of the park has been reconstructed within the last 25 years, using designs and materials that reflect its historic design and character; that Binding Staff Report 98-4311 (LPC 98-4023) was issued on February 23, 1998, approving the replacement of modern paving with bluestone paving at the park and adjoining sidewalks and the installation of a bollard and signage; that Staff Report 05-4489 (LPC 05-4144) was issued on December 27, 2004, approving the replacement and resetting of pavers at the eastern portion of the park; and that Staff Binding Report 11-6473 (LPC 11-6279) was issued on February 4, 2011, approving the replacement of paving at the western half of the park.

With regard to this proposal, the Commission finds that the work is restorative in nature and will address existing deteriorated; that the temporary removal of the fencing will help facilitate the restoration of this historic feature; that the fencing will be reinstalled to match its original placement; that the repair and cleaning methods for the fencing will help return the fencing closer to its historic appearance, without causing damage to the historic fabric; that the replacement of portions of the fencing is warranted by the deteriorated conditions of these elements; that the replacement fencing units will match the historic units in terms of placement, material, dimensions, design, profiles, and details; that the proposed paint finish will be in keeping with historic finishes at fencing of this type, style, and age and will match the finish of the fencing at the remainder of the park; that the above-grade portions of the granite bases will match the historic bases; that the replacement of the existing foundations with new foundations, extending below the frost line, will help maintain the stability of the fencing and protect it from future disrepair; that the proposed curbing, within the park, and adjoining paving will help prevent soil erosion from covering the bases of the fencing, thereby maintaining the historic appearance and above grade placement of the bases and protecting the bases from damage due to soil moisture; that the small size, simple design, and material of the proposed curbing, within the park, and the adjoining paving, will match existing conditions at the other half of the park and will help the installation remain a discreet presence, which will not detract from the appearance of the fencing or park; that the replacement of the existing bluestone paving is warranted by its deteriorated condition; that the replacement of the existing asphalt hex block paving, poured asphalt paving, and concrete curbing and paving will not eliminate any significant historic fabric from the site; that the proposed bluestone paving and granite thresholds will match the existing historic masonry in terms of materials, design, and configuration; that the new bluestone paving will only be installed over a concrete slab in locations at which motor vehicles will likely cross over the paving, warranting the need for additional support, and, at the remainder of the installation locations, will be installed on a bed of sand, with hand tight joints, in keeping with historic installation methods; that the regrading work will only feature slight adjustments to the grade level, which will address governmental regulations and drainage requirements; that the proposed pedestrian crossing location will be typical in size and placement and utilize materials and finishes which will help unify it with the surrounding paving; that the existing granite curbing will be retained and reinstalled in its existing locations, except at the new pedestrian crossing location, at which it will be installed in a typical lower placement; that the existing bollard is not an original feature of the park and the relocation of this small and simply designed element will not detract from any significant architectural or landscape features; and that the cumulative effect of the work will support the long term preservation of the fencing, park and sidewalks.

This permit is issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered. The Commission reserves the right to amend or revoke this permit, upon written notice to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or disclosed during the review process.

All approved drawings are marked approved by the Commission with a perforated seal indicating the date of approval. The work is limited to what is contained in the perforated documents. Other work or amendments to this filing must be reviewed and approved separately. The applicant is hereby put on notice that performing or maintaining any work not explicitly authorized by this permit may make the applicant liable for criminal and/or civil penalties, including imprisonment and fines. HISTORIC DISTRICT
 GOVERNOR'S ISLAND

To the Mayor, the Council, and the President, The Trust for Governor's Island

This report is issued pursuant to Sections 3020 and 854 (h) of the New York City Charter and Section 25-318 of the Administrative Code of the City of New York, which require a report from the Landmarks Preservation Commission for certain plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The Landmarks Preservation Commission has reviewed a proposal for the construction of a one-story shed building with a footprint of 10' by 12' adjacent to the existing communications tower and wood fence enclosure located at the south façade; as shown in existing condition photographs, documents titled "Governor's Island VTS Site Restoration," written statement dated August 9, 2013, prepared by William G. Smith II of the United States Coast Guard, and a written statement dated August 13, 2013, prepared by Claire Kelly of the Trust for Governor's Island.

In reviewing this proposal, the Commission notes that the Governor's Island Historic District designation report describes Building 400, Liggett Hall, as a neo-Georgian style barracks building designed by the office of McKim, Mead & White, and built in 1929-30, with a dormitory wing (Section O) added in 1967-68 designed by Roberts and Schaefer Co., Inc.; and that the building's style, scale, materials, and details are among the features that contribute to the special architectural and historic character of the Governor's Island Historic District.

With regard to this proposal, the Commission finds that the proposed shed structure is low scale, and will not obscure significant architectural features of the building; that the structure is largely blocked from view from Division Street behind the existing fence; and that the proposed building will be an unobtrusive presence within the setting. Based on these findings, the Commission determines the proposed work to be appropriate to the building and to the Governor's Island Historic District.

This permit is issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered. The Commission reserves the right to amend or revoke this permit, upon written notice to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or disclosed during the review process.

All approved drawings are marked approved by the Commission with a perforated seal indicating the date of approval.

The work is limited to what is contained in the perforated documents. Other work or amendments to this filing must be reviewed and approved separately.  GOVERNOR'S ISLAND

To the Mayor, the Council, and the President, The Trust for Governor's Island

This report is issued pursuant to Sections 3020 and 854 (h) of the New York City Charter and Section 25-318 of the Administrative Code of the City of New York, which require a report from the Landmarks Preservation Commission for certain plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The Landmarks Preservation Commission has reviewed a proposal for the temporary installation of five (5) speakers at the south façade associated with a sound art installation; four of the speakers will be clamped to the iron porch railings, and one speaker bolted to the mortar joints of the

Section O façade of the building; as shown in existing condition photographs, building plan, and a written statement dated August 12, 2013, prepared by Claire Kelly of the Trust for Governor's Island.

In reviewing this proposal, the Commission notes that the Governor's Island Historic District designation report describes Building 400, Liggett Hall, as a neo-Georgian style barracks building designed by the office of McKim, Mead & White, and built in 1929-30, with a dormitory wing (Section O) added in 1967-68 designed by Roberts and Schaefer Co., Inc.; and that the building's style, scale, materials, and details are among the features that contribute to the special architectural and historic character of the Governor's Island Historic District.

With regard to this proposal, the Commission finds in accordance with the Rules of the City of New York, Title 63, Section 2-18, that the temporary installation is defined as an installation for one calendar year, and renewed for two additional periods for a total of three years; that the installation will not cause damage to protected architectural features of the property; and that an acceptable plan and time scheduled for the dismantling of the property has been submitted to the Commission as a component of the application.

This permit is issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered. The Commission reserves the right to amend or revoke this permit, upon written notice to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or disclosed during the review process.

Begrish Hall at Bronx Community College
 INDIVIDUAL LANDMARK

To the Mayor, the Council, and the Vice President of Finance, Bronx Community College

This report is issued pursuant to Sections 3020 and 854 (h) of the New York City Charter and Section 25-318 of the Administrative Code of the City of New York, which require a report from the Landmarks Preservation Commission for certain plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The Landmarks Preservation Commission has reviewed a proposal for work at the primary entrance steps, including the removal and in-kind replacement of the granite treads and landing slab, and smooth finish stainless steel handrails; as shown in existing condition photographs and drawing A-001.00 dated August 12, 2013, prepared by Theodore G. Rieper, R.A., and submitted as components of the application.

In reviewing this proposal, the Commission notes that the designation report describes Begrish Hall at the Bronx Community College as a Brutalist style building designed by Marcel Breuer and Associates, and built in 1956-61.

With regard to this proposal, the Commission finds that the proposed work will maintain the buildings unique handrail design; that the historic size of the landing will be maintained, and that the slight widening of the treads 4" beyond the existing condition, will be not a perceptible change and will prevent breakage at the edge of the treads; and that the proposed work will enhance the special architectural and historic character of this Individual Landmark. The work, therefore, is approved.

This permit is issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered. The Commission reserves the right to amend or revoke this permit, upon written notice to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or disclosed during the review process.

The New York Public Library
 INTERIOR LANDMARK

To the Mayor, the Council, and the V.P. for Capital Planning & Construction, NYPL

This report is issued pursuant to Sections 3020 and 854 (h) of the New York City Charter and Section 25-318 of the Administrative Code of the City of New York, which require a report from the Landmarks Preservation Commission for certain plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The Landmarks Preservation Commission has reviewed a proposal for the temporary installation of fabric around the four middle columns and a vinyl banner sign tied to the columns and spanning between the center entryway fronting Fifth Avenue; installing two banners at the Commission approved locations on the masonry piers flanking the portico openings (LPC Docket 11-3303); installing portable monitors, moveable tables, portable signage and banner signs within Astor Hall and at the base of the staircases; installing two portable monitors, and directional signage within the McGraw Rotunda (third floor central hall); and that all of the installations will be installed on September 30, 2013 or a later date and all of the installations will be removed by October 8, 2013; as described and shown in a written description of the "NBC Education Nation" exhibit installations; color renderings; site plans and color renderings labeled Astor Hall, Astor Hall Staircases and McGraw Rotunda; all prepared by Production Glue, LLC, and submitted as components of the application.

In reviewing this proposal, the Commission notes that the New York Public Library is a Beaux-Arts civic structure designed by Carrere & Hastings and constructed in 1898-1911; and that the library's main lobby, north and south staircases and third-floor central hall comprise a designated New York City Interior Landmark.

With regard to this proposal, the Commission finds, in accordance with the provisions set forth in Title 63 of the Rules of the City of New York, Section 2-18, that the portable monitors, tables, coat check, signage and banners will be installed for a single period of sixty (60) days or less; that the temporary installations will not cause damage to significant protected architectural features on the exterior or interior of the property; that the proposed fabric on the columns, monitors, signage and banners will not penetrate any masonry surfaces, nor will the fabric discolor the underlying masonry; and that an acceptable plan and time schedule for the dismantling of the monitors, tables, coat check, signage and banners has been submitted to the Commission as a component of the application. Based on these findings, the Commission determined that the work is appropriate to this Interior Landmark and Individual Landmark. The work, therefore, is approved.

This permit is issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered. The Commission reserves the right to amend or revoke this permit, upon written notice to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or disclosed during the review process.

All approved drawings are marked approved by the Commission with a perforated seal indicating the date of approval. The work is limited to what is contained in the perforated documents. Other work or amendments to this filing must be reviewed and approved separately. The applicant is hereby put on notice that performing or maintaining any work not explicitly authorized by this permit may make the applicant liable for criminal and/or civil penalties, including imprisonment and fines. INDIVIDUAL LANDMARK

To the Mayor, the Council, and the Associate Commissioner, NYC DDC

This report is issued pursuant to Sections 3020 and 854 (h) of the New York City Charter and Section 25-318 of the Administrative Code of the City of New York, which require a report from the Landmarks Preservation Commission for certain plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The Landmarks Preservation Commission has reviewed a proposal for the restoration and rehabilitation of the subject premises, including removing paint and cleaning at the exterior facades, using chemical strippers, a restoration cleaner and low pressure water rinses; replacing missing, flawed and damaged sections of exterior stonework in-kind; temporarily removing and resetting the masonry at the parapets and the upper sections of exterior facades; repointing throughout the exterior facades; replacing the existing concrete roof in-kind; installing flashing at the interior of the parapet walls; re-opening brick and stucco sealed ventilation openings at the eastern and western facades; installing exterior metal grilles, and perforated metal screens behind the grilles, within the restored openings; removing the concrete-block infill from the eastern facade entrance opening; the installation of paired paneled metal doors within the masonry opening; repairing a section of an existing stucco patch at the northern facade to match the surrounding stucco material; and interior alterations, including temporarily removing and resetting displaced sections of the interior arch brickwork, disassembling and rebuilding sections of the masonry back-up walls and masonry infill above the interior arch, repointing, repairing cracked bricks, and replacing interior masonry in-kind, as needed, as shown in current condition photographs; written specifications; and drawings labeled GN-1 through GN-3, CN-1, R-1 through R-5, and A-1 through A-8, all dated August 15, 2013, prepared by Judith Saltzman, R.A., and submitted as components of the application.

In reviewing this proposal, the Commission notes that the building was constructed as a gatehouse for the High Bridge Aqueduct, built between 1838 and 1848.

With regard to this proposal, the Commission finds that the work is restorative in nature; that the paint removal and cleaning will return the natural color, texture and finish to the facades, while utilizing the gentlest methods available; that the reconstruction of the parapets and portions of the facades, replacement of masonry and installation of flashing will return the facades to sound condition and help insure the weatherproofing of the masonry; that the upper portions of the exterior facades and the parapets, including the coping, will be rebuilt to match the existing in terms of material, placement, size, dimensions, profiles and finishes; that any replacement stones will match the existing in terms of material, size, color, texture, coursing and finishes; that the repointing will be compatible with the historic masonry in terms of composition, and will match the original mortar in terms of color, texture, and tooling; that the ventilation openings will be restored to their historic condition; that the design, dimensions and placement of the proposed grilles and doors will match existing historic grilles and doors within another High Bridge Aqueduct gatehouse, matching this gatehouse in style and design; that the screens be obscured from view by the grilles and that the work will not alter or destroy significant features of the building. The work, therefore, is approved.

This approval is contingent upon the Commission's review and approval of a paint and mortar analysis, proposed mortar and exterior paint color samples, shop drawings of the proposed exterior stonework replacement and stone samples prior to the commencement of the related work. Please contact the Landmarks Preservation Commission staff when the samples are ready.

This permit is issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered. The Commission reserves the right to amend or revoke this permit, upon written notice to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or disclosed during the review process.

This report is issued pursuant to Sections 3020 and 854 (h) of the New York City Charter and Section 25-318 of the Administrative Code of the City of New York, which require a report from the Landmarks Preservation Commission for certain plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The Landmarks Preservation Commission has reviewed a proposal for the removal of window sash from three openings located at the second floor of the rear elevation; the installation of louvers within the openings and related mechanical and structural alterations at the basement level and first and second floors; as shown on drawings labeled T-001.00, G-001.00, G-101.00 through G-103.00, D-401.00 and D-402.00, all dated May 31, 2013, D-403.00, dated May 2, 2013, A-401.00, A-403.00, and A-501.00, all dated July 12, 2013, prepared by Anne Marie M. Edden, R.A., S-402.00 and SS-403.00 both dated May 31, 2013, S-501.00 and S-502.00, both dated July 12, 2013, prepared by Thorbjorn Hansson, P.E.

In reviewing this proposal, the Commission notes that the South Street Seaport Historic District designation report describes 2-12 Fulton Street (eastern Schermerhorn Row) are Georgian-Federal style counting-houses built in 1811; 14-18 Fulton Street (western Schermerhorn Row, aka 195 and 197 Front Street) are Georgian-Federal style counting-houses built in 1812; 159-163 John Street (aka 181-189 Front Street) as Greek Revival style counting-house built in 1835-36, with a sixth story added in 1917; 165 John Street (Codwise Row) as a Greek Revival style counting-house built in 1811; 167-171 John Street as brownstone counting-house built in 1850 with a cast iron storefront designed by Daniel D. Badger; and 191 and 193 Front Street as late 18th century buildings later altered in the 19th century. The Commission also notes that the Schermerhorn Row Block, an Individual Landmark, is comprised of 2-18 Fulton Street, 189-195 Front Street, 159-171 John Street and 91-92 South Street.

With regard to the proposal, the Commission finds, that the rear elevation is not visible from any public thoroughfare; that the proposed louver will be installed in an existing window opening; that the windows are not special windows (is a segmental or curved head window which does not possess any other characteristic of a special window); and that no significant architectural feature of the building will be affected by the installation of louvers.

This permit is issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered. The Commission reserves the right to amend or revoke this permit, upon written notice to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or disclosed during the review process.

TRIBECA WEST

To the Mayor, the Council, and the Captain, New York City Police Department

This report is issued pursuant to Sections 3020 and 854 (h) of the New York City Charter and Section 25-318 of the Administrative Code of the City of New York, which require a report from the Landmarks Preservation Commission for certain plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The Landmarks Preservation Commission has reviewed a proposal for work at the southern portion of the roof, including the installation of two (2) exhaust fans and one (1) condensing unit on dunnage, and associated ductwork; at the second floor of the secondary west elevation, the installation of one (1) metal door in a new masonry opening, and a stair

with railings and corrugated metal roof to access the alley; modifications to the existing service alley gate, including the removal of the solid metal paneling at the upper portion of the pickets; and interior alterations including changes to mechanical systems; as shown in existing condition photographs and drawings A-001-00 through A-005-00 dated April 23, 2013, prepared by Mike Farahani, P.E.

In reviewing this proposal, the Commission notes that the Tribeca West Historic District designation report describes 16 Ericsson Place, the First Police Precinct Station House, as a neo-Renaissance Revival style police station house and stable designed by Hoppin & Koen and built in 1912; and that the building's style, scale, materials and details are among the features that contribute to the special architectural and historic character of the Tribeca West Historic District.

With regard to this proposal, the Commission finds in accordance with the Rules of the City of New York, Title 63, Section 2-19, that the rooftop additions consist solely of mechanical equipment; that the installations do not result in damage to, or demolition or, a significant architectural feature of the roof of the structure; that the units will not be visible from a public thoroughfare; and that the work does not adversely affect significant architectural features of adjacent improvements. The Commission further finds that the proposed door and stair will not result in damage to significant architectural features of the west elevation; that the stair is proposed at the rear of the alley, at a great distance from the designed Ericsson Place façade; and that the proposed work is largely blocked from view by the alley gate. Based on these findings, the Commission determines the proposed work to be appropriate to the building and the Tribeca West Historic District. The work, therefore, is approved.

This permit is issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered. The Commission reserves the right to amend or revoke this permit, upon written notice to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or disclosed during the review process.

Block/Lot: 1111/1

Pursuant to Section 25-318 of the Administrative Code of the City of New York, the Landmarks Preservation Commission issued Binding Commission Report 12-2608 (LPC 12-8180) on June 4, 2012, approving a proposal to remove modern additions; construct a new one-story glass addition; modify masonry openings; replace infill, dormers, and roof tiles; create a covered exterior cellar entrance; install fencing, HVAC equipment, utilities related installations, paving, and curbing. Additionally, the Commission issued Miscellaneous/Amendment 14-2286 (LPC 14-0575) on March 28, 2013 to incorporate modifications to the proposal, including adding the installation of a canopy and light fixtures at the building, and Advisory Commission Report 14-2285 (LPC 14-0345) on March 28, 2013, supporting alterations to the site surrounding the building, including installing a bar, planters, fencing, bicycle racks, lighting poles and fixtures, and a stair, with cheek walls and railings; replacing paving; and modifying the existing landscaping.

Subsequently, on February 4, 2013, the Commission received a request to amend the approved work. The proposed amendment consists of replacing a louver, HVAC equipment, and other modern infill at three round-headed window openings at the second floor level of the eastern façade with louvers, instead of windows; omitting muntins at replacement windows at the north and south facades of the historic wings of the building; installing windows, instead of recessed brickwork, at existing masonry openings at the

existing curved addition at the northern portion of the building; increasing the area of reconstruction at the western facade of the building, matching the historic conditions; eliminating the proposed replacement of recessed brickwork with louvers at two locations at the central portion of the western facade; omitting the new roof and posts at an existing stairs, near the western side of the building; installing a heat trace system at the below-grade stairs, adjacent to the western side of the building; installing the new projecting through-the-wall exhaust fan at the southern façade, instead of the western facade; installing two exhaust fans at flat portions of the roofing and flue caps at the existing chimneys at the western portion of the building; replacing an existing sheet metal vent with a copper vent at the southern wing of the building, instead of removing the vent and replacing it with roofing to match the surrounding conditions; installing additional hose bibs at selective locations of plain masonry throughout the exterior facades; and increasing the footprint of the chiller and surrounding fencing near the southern side of the building, as described in written specifications, dated September 3, 2013 and September 4, 2013, and shown in photographs and drawings (pages) 1 through 10, dated revised September 4, 2013 and prepared by Swanke Hayden Connell Architects. Portions of this work, including the majority of the reconstruction of the portion of the western wall to be rebuilt, have already commenced.

Accordingly, the Commission reviewed the request and drawings and finds that the eastern facade historically featured replacement louvers as part of its early renovations as a restaurant, as documented by a circa 1940s photograph; that the louvers will be simply designed and mounted flush with its framing, which will be consistent with the design of the historic louvers and not draw undue attention to the installations; that the louvers will maintain a symmetrically organization and be largely concealed by the new addition, thereby further helping them remain a secondary element; that the existing windows, which were used as the basis of the previously proposed window configuration, with muntins, were not original to the building or part of a significant later alteration; that the proposed windows, without muntins, at the historic wings of the building will be in keeping with the style of the significant alterations to the building in the early 20th century; that the proposed windows at the curved addition will match windows, which were originally part of this addition, as documented by a historic condition drawing, in terms of placement, dimensions, materials, configuration, and details; that the proposed windows at the wings and curved addition will be harmonious with the fenestration pattern of the windows throughout the remainder of the building; that the additional reconstruction of the western wall was warranted by its deteriorated conditions; that the portion of the facade being rebuilt will be reconstructed to match its historic condition in terms of placement, dimensions, materials, profiles, details, textures, and finishes; that the elimination of the replacement of existing brickwork with louvers and the previously proposed roof and posts will not diminish any of the proposed restorative work or detract from a significant compositional element of the proposed alterations; that the elimination of the replacement of the brickwork will maintain more historic fabric at this facade; that the heat trace system will be concealed from view and its installation will not alter or eliminate any significant architectural features; that the through-the-wall exhaust vent will be relocated to a portion of the facade which is facing a service area and less visible from public areas of the park; that the installation of the additional exhaust fans and replacement of the existing vent on the roofs will not eliminate any significant historic fabric; that the fans will be installed in the least prominent locations and the vent will replace an existing vent, utilizing its existing roof penetration; that the fans, vent, and flue caps will be simply designed and typical in size, thereby helping them remain secondary elements; that the hose bibs will be small in size, discreet in placement, and installed at plain masonry; that the enlargement of the chiller and fencing will not overwhelm the building or conceal any significant architectural features and will be largely concealed from view from public areas of the park; and that the revised scope of work is in keeping with the intent of the original approval. Based on these findings, Binding Commission Report 12-2608 is hereby amended.

PLEASE NOTE: This Miscellaneous/Amendment is contingent upon the Commission's review and approval of signed and sealed final filing drawings; shop drawings of the replacement windows; and finish samples, all prior to the commencement of work. Once field samples are ready, promptly contact the Commission staff to schedule a site visit.

This amendment is issued on the basis of the building and the site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if actual building or site conditions vary or if original of historic building fabric is discovered. The Commission reserves the right to amend or revoke this report, upon written notice to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or during the review process.

All approved drawings are marked approved by the Commission with a perforated seal indicating the date of the approval. The approved work is limited to what is contained in the perforated documents. Other work to this filing must be reviewed and approved separately. The applicant is hereby put on notice that performing or maintaining any work not explicitly authorized by this report may make the applicant liable for criminal and/or civil penalties, including imprisonment and fines. This letter constitutes the report amendment; a copy must be prominently displayed at the site while work is in progress. Any additional work or further amendments must be reviewed and approved separately. Please direct inquiries regarding this property to Bernadette Artus, Landmarks Preservationist.

Re: **MISCELLANEOUS/AMENDMENTS**
 LPC - 14-8784
 MISC 14-8500
 PIER A
INDIVIDUAL LANDMARK
 Borough of Manhattan
 Block/Lot: 16/1

Pursuant to Sections 3020 and 854 (h) of the New York City Charter and Section 25-318 of the Administrative Code of the City of New York, which require a report from the Landmarks Preservation Commission for certain plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City, the Landmarks Preservation Commission issued Binding Commission Report 10-8663 on May 12, 2010, Miscellaneous/Amendments 12-1167 on June 2, 2011, Miscellaneous/Amendments 11-5954 on January 18, 2011, Miscellaneous/Amendments 12-5844 on October 20, 2011, and Miscellaneous/Amendments 13-0310 on March 27, 2012, approving repainting the exterior, the modification of window openings, raising the roof monitors, raising the roofline and replacing the copper roofing system, and the installation of mechanical louvers, all at the subject premises.

Subsequently, on August 26, 2013, the staff received a request to amend the scope of work approved under the original permit.

The proposed amendment consists of work at the north side of the Piershed building roof, including relocating one (1) of the previously approved mechanical bulkheads slightly to the west; and the construction of one (1) additional mechanical bulkhead to match the existing bulkheads, featuring a stack and exhaust fan that rises 5'3" above the bulkhead termination, all finished green (Benjamin Moore HC-136 "Waterbury Green"); and related interior alterations at the second and third floors, including changes to mechanical systems; as shown in a written statement dated August 22, 2013, prepared by Erin Rulli of Higgins Quasebarth & Partners, and drawings A-001.01, A-151.00, A-151.01, A-202.01, and A-202.00 dated March 30, 2012, prepared by Vincent J. Laino, R.A., and M-104.01 through M-106.01 dated August 12, 2013, prepared by Eric Steven Ettinger, P.E.

Accordingly, the staff reviewed this proposal, and finds that given the horizontal scale of the building, relocating one of the bulkheads and the construction of an additional bulkhead will not change the perception of the roofline; and that the proposed work is in keeping with the intent of the original approval. Based on these findings, the Commission determines the work to be appropriate to this Individual Landmark. The work, therefore, is approved, and Binding Commission Report 10-8663 is hereby amended to incorporate the above referenced change.

This amendment is being issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original building fabric is discovered. The Commission reserves the right to revoke this permit, upon written notice to the applicant, if the actual building conditions are materially different from those described in the application or disclosed during the review process.

All approved drawings are marked approved by the Commission with a perforated seal indicating the date of the approval. The approved work is limited to what is contained in the perforated documents. Other work or amendments to this filing must be reviewed and approved separately. The applicant is hereby put on notice that performing any work not explicitly authorized by this permit may make the applicant liable for criminal and/or civil penalties, including imprisonment and fines.  GOVERNOR'S ISLAND
 Borough of Manhattan
 Block/Lot: 10/1

Pursuant to Sections 3020 and 854 (h) of the New York City Charter and Section 25-318 of the Administrative Code of the City of New York, which require a report from the Landmarks Preservation Commission for certain plans for

the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City, the Landmarks Preservation Commission issued Binding Commission Report 12-9276 on February 21, 2012, approving a proposal to alter pathways, and install lighting, wayfinding signage, and park and landscape features, at the subject premises.

Subsequently, on September 13, 2013, the staff received a request to amend the scope of work approved under the original permit.

The proposed amendment consists of the installation details of the welcome wall signage ("Yankee Welcome Wall") measuring 24' in height at the rear of Building 330, featuring open painted aluminum letters, decorative posts, maps, and changeable banner locations. The welcome wall will be free-standing and braced against the brick façade of Building 330; as shown in a site plan, existing condition photographs, rendering, drawings 3 and 3g dated March 5, 2013, prepared by Design Communications Ltd., and a written statement dated August 20, 2013, prepared by Claire Kelly of the Trust for Governor's Island.

Accordingly, the staff reviewed the proposal, the found that the location, height, and general details of the welcome wall at Building 330 were set forth under the existing approval; that the proposed signage is evocative of the pier structure at the ferry docks; and that the proposed work is in keeping with the intent of the original approval. Based on these findings, the Commission determines the work to be appropriate to the building and to the Governor's Island Historic District. The work, therefore, is approved, and Binding Commission Report 12-9276 is hereby amended to incorporate the above referenced change.

This amendment is being issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original building fabric is discovered.  LPC - 14-6550
 MISC 14-8708
 443 GREENWICH STREET
HISTORIC DISTRICT
 TRIBECA NORTH
 Borough of Manhattan
 Block/Lot: 222/1

Pursuant to Section 25-306 of the Administrative Code of the City of New York, the Landmarks Preservation Commission issued Certificate of No Effect 14-1944 (LPC 13-6788) on March 19, 2013, approving a proposal for restorative work throughout the street, alley and courtyard facades, the vehicular passageways, and rooftop bulkheads, as well as creating a masonry opening and installing a louver at a secondary facade of the subject premises and incorporating the results of a shutter survey.

Subsequently, on July 1, 2013, the Commission received a request to amend the approved work. The proposed amendment consists of changing the shade of the proposed stucco at the brownstone to be resurfaced at the base of the ground floor of the street facades from a shade of brown, matching the shade of the underlying brownstone masonry, to a darker shade of brown, matching the coated finish of the existing historic brownstone at the capitals at the ground floor, and repointing throughout the street facades, instead of repointing selective locations, as well as incorporating detail drawings for the patching work, shop drawings for the cast iron cornices and lead caps, cleaning and finish samples for the shutters, and finish and mortar analyses, as described in written specifications, dated June 7, 2013, June 12, 2013, July 1, 2013, August 20, 2013, and August 22, 2013, and shown in current condition photographs; cornice drawings D.10 through D1.5, dated May 19, 2013 and prepared by Exhibitology; and a patching repair drawing and Lead T cap drawing, both titled drawing 1, dated June 5, 2013 and prepared by Preserv, all submitted by Jennifer Cappeto, on behalf of Higgins, Quasebarth, & Partners, LLC.

Additionally, samples for the pre-cast samples, bluestone & brick & stone patching and masonry pointing samples were approved by the Commission for the work approved by Certificate of No Effect 14-1944 on June 11, 2013 and June 21, 2013; and staff of the Commission conducted a site visit to review the cleaning and painting of the shutters and other work on September 9, 2013.

In reviewing this proposal, the Commission notes that the applicant has documented that test attempts for the removal of the existing coatings at the capitals have been unsuccessful and that the coating is believed to be a mineral stain, which has permanently bonded with the masonry.

Accordingly, the Commission reviewed the request and finds that the brownstone bases and capitals historically had matching finishes and are in seen in close proximity to each other; that the existing coating at the capitals cannot be removed without causing damage to the underlying masonry; that the proposed shade of brown will be in keeping with typical brownstone finishes at buildings of this age, style, and type and will help unify the base of the facades in keeping with the character of the building; that the repointing of the facades is warranted by the deteriorated condition of the existing mortar within the joints; that the proposed mortar will be compatible with the masonry in terms of composition and will match the historic mortar in terms of color, texture, and tooling; that the proposed patching method will utilize establish repair methods and help restore the masonry; that the dimensions, details, and profiles of the cornices, as shown in the shop drawings, will replicate these aspects of the historic cornices; that the placement, size, and simple design of the lead caps will be in keeping with typical installations of this type and will help protect the parapets from damage due to water infiltration; and that the revised scope of work is in keeping with the intent of the original approval. Based on these findings, Certificate of No Effect 14-1944 is hereby amended.

PLEASE NOTE: This permit is contingent on the work being performed when the temperature remains a constant 45 degrees Fahrenheit or above for a 72 hour period from the commencement of the work; and upon the use of hand tools only for the repointing work.

Please be advised that the owners of 443 Greenwich Street have committed themselves to maintaining the building in a sound, first-class condition in perpetuity as a condition of a restrictive declaration entered into pursuant to a previously approved modification of use or bulk. The restrictive declaration is binding on all heirs, assigns and subsequent owners of the building. The declaration requires the owner to hire a qualified preservation professional whose credentials are approved by the LPC to undertake comprehensive inspections every five years of the building's exterior and any portions of the interior which, if not properly maintained, would cause the building to deteriorate. The owner is legally required to expeditiously perform all work identified in the inspection as being necessary to maintain the building in a sound, first-class condition. The replacement of windows, including existing modern replacement windows, which was included in the work under Certificate of No Effect 08-1127 as a portion of the work to bring the building up to a sound, first class condition, is not included in this current permit.

Additionally, please be advised that Notice of Violation 06-0009, issued on September 16, 2005, for "installation of

windows at Vestry and Greenwich Street facades without permit(s)" remains in force and is not addressed by this permit. This permit is being issued in reliance upon the owner's demonstrated intention to perform work to correct the violation by July 1, 2014, as evidenced by the escrow agreement dated October 19, 2012, between SGN 443 Greenwich St, owner, and Kucker & Bruh, LLP, as escrow agent. Failure to resolve this matter may result in the issuance of a Notice of Violation (NOV) originating from the Environmental Control Board in accordance with Title 63 of the Rules of the City of New York, Section 7-02 (c). Second NOV's require a court appearance and a civil fine may be imposed.

This amendment is issued on the basis of the building and the site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if actual building or site conditions vary or if original of historic building fabric is discovered. The Commission reserves the right to amend or revoke this permit, upon written notice to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or during the review process.

All approved drawings are marked approved by the Commission with a perforated seal indicating the date of the approval. The approved work is limited to what is contained in the perforated documents. Other work to this filing must be reviewed and approved separately. The applicant is hereby put on notice that performing or maintaining any work not explicitly authorized by this permit may make the applicant liable for criminal and/or civil penalties, including imprisonment and fines. This letter constitutes the permit amendment; a copy must be prominently displayed at the site while work is in progress. Any additional work or further amendments must be reviewed and approved separately. Please direct inquiries regarding this property to Bernadette Artus, Landmarks Preservationist.

Pursuant to Sections 3020 and 854 (h) of the New York City Charter and Section 25-318 of the Administrative Code of the City of New York, which require a report from the Landmarks Preservation Commission for certain plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City, the Landmarks Preservation Commission issued Binding Commission Report 14-7443 (LPC 147035) on August 14, 2013, approving a proposal for alterations to the former diving pool at the subject premises.

Subsequently, on September 4, 2013, the staff received a request to amend the scope of work approved under the original permit.

The proposed amendment consists of modifying the approved fence height from three feet to four feet and modifying the double-leaf gates to single leaf gates; as shown and described in a transmittal dated September 4, 2013 and a drawing labeled L-605, dated August 29, 2013, prepared by Tim Rowe.

Accordingly, the staff reviewed the drawings and found that proposal previously approved by the Commission has been maintained. Based on these findings, the Commission determines the work to be appropriate to this Individual Landmark. The work, therefore, is approved, and Binding Commission Report 14-7443 is hereby amended.

This amendment is being issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original building fabric is discovered. The Commission reserves the right to revoke this permit, upon written notice to the applicant, if the actual building conditions are materially different from those described in the application or disclosed during the review process.

ADMINISTRATION FOR CHILDREN'S SERVICES

INTENT TO AWARD

Services (Other Than Human Services)

DAY CARE COUNCIL – Sole Source – Available only from a single source - PIN# 06814S0001 – DUE 11-04-13 AT 2:00 P.M. – The Administration for Children's Services (ACS) contracts with over 115 not-for-profit organizations to operate childcare programs and provide services in 290 locations throughout the five boroughs. These organizations are the employers of over 6000 child care professionals and support staff.

The Day Care Council of New York Inc. ("The Council") has been designated by the Child Care Not-for-Profit providers represented by District Council 1707/Local 205 of AFSCME and The Council of Supervisors and Administrators (CSA) to serve as their representative in all collective bargaining issues negotiations and agreements. Additionally, The Council provides all grievance-mediation services, recruitment and personnel assistance. Training and technical assistance is also provided to ensure consistency and efficiency throughout the childcare community.

ACS cannot perform these negotiations with the unions on behalf of the contracted agencies and their staffs, because ACS is not the employer. However, City funding is used to adjudicate any grievances, fund collective bargaining issues and other negotiations affecting contracts with our child care vendors. It is therefore, advantageous to the City to provide funding to The Council to advocate for ACS' not-for-profit agencies. Additionally, based upon correspondence from the City of New York's Office of Labor Relations (OLR) pertaining to lawsuits brought by unions against the City claiming the City was a "joint employer" with contract vendor agencies; the City prevailed in these cases because it was not a signatory to collective bargaining agreements between these unions and the vendor agencies and it did not directly provide wages or benefits to these employees. The Council's contract will eliminate the appearance that the City is a joint employer of the not-for-profit employees.

The Council's unique expertise, service and configuration are the primary basis for this sole source method determination. It conforms to the first condition for a sole source procurement, that there be only one source for the required service pursuant to Section 3-05 of the PPB rules.

Use the following address unless otherwise specified in notice, to secure, examine or submit bid/proposal documents, vendor pre-qualification and other forms; specifications/blueprints; other information; and for opening and reading of bids at date and time specified above. Administration for Children's Services, Office of Procurement, 150 William Street, 9th Floor, New York, NY 10038. Sherene Hassen (212) 341-3443; sherene.hassen@dfa.state.ny.us

READER'S GUIDE

The City Record (CR) is published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above \$100,000 for information technology and for construction and construction related services, above \$50,000 for other services, and above \$25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in The City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Monday through Friday from 9:00 A.M. to 5:00 P.M., except on legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptroller's Office at www.comptroller.nyc.gov, and click on Prevailing Wage Schedules to view rates.

CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION-RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately \$17 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. Registration for these lists is free of charge. To register for these lists, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application, which can be found online at www.nyc.gov/selltonyc. To request a paper copy of the application, or if you are uncertain whether you have already submitted an application, call the Vendor Enrollment Center at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services at 110 William Street, New York, NY 10038. Sessions are convened on the second Tuesday of each month from 10:00 A.M. to 12:00 P.M. For more information, and to register, call (212) 618-8845 or visit www.nyc.gov/html/sbs/nycbiz and click on Summary of Services, followed by Selling to Government.

PRE-QUALIFIED LISTS

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstances. When an agency decides to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the CR. Information and qualification questionnaires for inclusion on such lists may be obtained directly from the Agency Chief Contracting Officer at each agency (see Vendor Information Manual). A completed qualification questionnaire may be submitted to an Agency Chief Contracting Officer at any time, unless otherwise indicated, and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings (OATH). Section 3-10 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists. For information regarding specific pre-qualified lists, please visit www.nyc.gov/selltonyc.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board Rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, and the Housing Authority. Suppliers interested in applying for inclusion on bidders lists for Non-Mayoral entities should contact these entities directly at the addresses given in the Vendor Information Manual.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 9:30 A.M. to 5:00 P.M., except on legal holidays. For more information, contact the Mayor's Office of Contract Services at (212) 341-0933 or visit www.nyc.gov/mocs.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN-OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women-Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about this program, contact the Department of Small Business Services at (212) 513-6311 or visit www.nyc.gov/sbs and click on M/WBE Certification and Access.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City pays interest on all late invoices. However, there are certain types of payments that are not eligible for interest; these are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year: in January and in July.

HOW TO READ CR PROCUREMENT NOTICES

Procurement notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.

Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section.

At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified unless a different one is given in the individual notice. In that event, the directions in the individual notice should be followed.

The following is a SAMPLE notice and an explanation of the notice format used by the CR.
