The Chairman then directed that the report of the Joint Committees on Finance be read.

To the Homorabic the Municipal Assembly:

The Committees on Finance of the Council and the Board of Aldermen, to whom were referred the assessment-rolls of the estates, real and personal, of The City of New York for the year 1900, together with a communication from the Comptroller of The City of New York, dated May 31, 1900, transmitting the Budget for the year 1900, accompanied by his certificate of the amounts of the appropriations authorized by law to be raised by tax in and for the year 1900, and an assimate of the revenues of the General Fund for the Reduction of Taxation during the current year, respectively which the following. fully submit the following

The total Budget for the year 1900 is mostly million seven bundred and seventy-eight thousand nine hundred and seventy-two dollars and forty-eight cents (500,778,972.48), which includes county charges and expenses for the four countes of New York, Kings, Queens and Richmond, aggregating sleven million five hundred and seventy-seven thousand two hundred and nine dollars and

mg eleven million five handred and accenty-seven thousand two hundred and nine dollars and twesty-two cents (\$11,577,209,22).

Sertion 902 at the Charter, referred to in the Compitudier's communication, directs that the amounts required for the payment of all county charges and expenses shall be levied and collected from the taxable property within each of said counties respectively, to the end that each of said counties shall altimately bear and pay all expenses necessary to be incurred for county as distinguished from city purpose. Compliance with this provision of law will, of course forever prevent an uniform tax rate from prevailing in The City of New York.

Amount to be Raised from City Purposes by One General Rais.

The following statement shows, therefore, the proportion of the budget which is to be raised by taxation at an uniform rate throughout the whole city:

10th budget \$90,778,972 if

Percentage to be added for deficiencies in collection.

Section 248 of the Greater New York Charter provides as follows:

"Section 248. It shall be the duty of the Municipal Assembly to include, in any and every ordinance or resolution passed by them imposing and levying taxes for any purpose or purposes authorized by law, such sum, in addition to the aggregate amount required for such purposes as they shall deem necessary, not exceeding three per centum of said aggregate amount, to provide for deficiencies in the actual product of the amount imposed and levied therefor."

Your Committees have conferred with the Department of Finance in regard to the amount that will be required to provide for and meet such deficiencies as may occur in the actual product of the taxes to be imposed and levied in and for the year 1900, and have concluded to recommend that two per centum (27) of the amounts to be collected by taxation be added to and included in the tax levy for this purpose, this being the same percentage adopted last year and almost exactly the figure which, having prevailed in The City of New York prior to consolidation for over twenty years, has been found by experience to offset with substantial accuracy the deficiencies in the product of the tax resulting from vacated and modified assessments, ancollectible personal taxes, etc., etc.

County Charges and Expenses: The Assessed Valuations,

The County charges and expenses included in the budget are as follows: \$8,391,332 16 2,613,663 46 436,039 58 136,174 02 New York County
Kings County
Queens County Queens County
Richmond County

It is to be noted that included in these amounts is the quota of State taxes due from each of the respective counties. Certain corporations which pay taxes directly to the State are exempt by law from local taxation for State purposes, so far as their assessment affects personal property. It is provided by section 202 of chapter gos of the Laws of 1896, as follows:

"Section 202. The personal property of every corporation, company, association or partnership taxable under this article, other than for an organization tax, shall be exempt from assessment and taxation upon its personal property for State purposes it all taxes due and payable under this article have been paid thereby."

The provision of law requires, there is special rate of tax to be imposed upon the personal estate of corporations which are not especial rate of tax to be imposed upon the personal estate of corporations which are not especial rate of tax to be imposed upon the personal estate of corporations which are not especial rate of tax to be imposed upon the personal estate of corporations which are not especial rate of tax to be imposed upon the personal estate of corporations which are not especial rate of tax to be imposed, differing from any less than the general rate for county is second from local taxation by chapter 398 of the Laws of 1887, but not exempt from taxation for State purposes. This makes it necessary to fix a rate of tax on the assessment of the institution (\$1,148,300) which will produce only its proportionate share of State toxes.

The assessment-rolls for the year, transmitted to the Manicipal Assembly on July 2, 1900, show the following valuation by notation:
