BOROUGH OF BROOKLYN.

Report of the President of the Borough of Brooklyn for the Quarter Ending September 30, 1904.

The City of New York,
Office of the President of the Borough of Brooklyn,
Brooklyn, October 24, 1904.

Hon. GEORGE B. McCLELLAN, Mayor, The City of New York:

Dear Sir—The President of the Borough directs me to forward to you herewith his report for the quarter ending September 30, 1904.

Yours respectfully,

JOHN A. HEFFERNAN, Secretary, Borough of Brooklyn.

October 24, 1904.

To the Hon. GEORGE B. McCLELLAN, Mayor:

Dear Sir—In accordance with section 1544 of the Charter of the City, I forward to you the following report of the work of the office of the President of the Borough of Brooklyn for the quarter which closed on September 30, 1904. It is a record in detail of three months of the progress of the borough on the material side. The startling figures of the Bureau of Buildings indicate the great strides Brooklyn is making as a centre of population and industry—the remarkable development of its wide suburban areas, where comfortable homes and modern streets are taking the place of scattered haystacks and winding country lanes. The detailed report of the Commissioner of Public Works shows what the City Government is doing to meet the requirements for convenience and health of the borough's rapidly growing population.

There has been endeavor in both the Bureau of Buildings and the office of the Commissioner of Public Works to do the City's work with industry and economy. The former, an office purely of supervision and record, has handled the greatly increased business of this year upon an appropriation based upon the business of last year, and has done its work so well that no single life has been lost as a result of laxity on its part. The latter, the executive division of the borough government, makes the gratifying showing of a large increase in the amount of work done and a decrease in the amount of money expended.

It is pleasing to be able to report to you that paving conditions in the borough are improving. There are still too many of our streets paved with cobble, but their mileage is being steadily diminished, and this quarter has seen it for the first time in the borough's history take third place in point of magnitude in the list of paved streets, asphalt and granite now taking precedence in the order named. The Hon. J. C. Brackenridge, Commissioner of Public Works, reports to me that although labor conditions caused a practical cessation of highway work during the important month of July, the paving record for the quarter is unprecedented, 26.80 miles having been repaved—90 per cent. of it with asphalt. This brings the total of paving work in the nine months ending September 30 up to 39.15 miles, which is an increase over the grand total for 1903. The mileage of paved streets in the borough is now 608.15, as against a mileage of 593.22 on December 31, 1903, while the cobble stone mileage has been reduced from 153.95 on December 31, 1903, to 131.23 on September 30. That the highway improvements will not lag in the future is indicated by the fact that during the quarter the Bureau of Highways had registered by the Comptroller 69 contracts covering paving work, the aggregate cost of which is \$902,858.79.

All this paving work will be done at a cost which should be gratifying to the taxpayers. The encouragement of competition and the rejection of bids considered excessive and the readvertisement of contracts has resulted in the lowest bids on asphalt work in the City's history. A square yard of asphalt with its concrete foundation costs the City this year \$1.46. The minimum price was \$1.82 in 1903; the average price \$2.05½.

Paving work upon 54 streets was completed during the quarter, and work was in progress upon 151 streets. The City's repair gangs, working upon streets upon which the contractors' guarantees had expired, covered a mileage of 6.8 per cent. greater than that covered last year, and at an expense \$31,820 less.

It is regrettable that travel in the streets must meet with more or less hindrance because of the numerous subsurface improvements now being made. Much of the inconvenience which the public suffers in this regard is unavoidable, but considerable of it, I am compelled to say, is due to the disregard of public convenience shown by contractors. Over those contractors who are paving or constructing sewers, I have direct control, and I have sought by careful supervision to have their work done with as little encumbrance of the highways as possible. Over the contractors engaged in laying water mains, however, I have no effective control, and they have conducted their work in a way which has given considerable offense. This has been the more unfortunate because of the extent of their operations in the borough. I have several times had to direct complaints on this score addressed to me, to the Department of Water Supply, Gas and Electricity.

The Topographical Bureau, which is a subdivision of the Bureau of Highways, has done commendable work during the quarter. By reason of the foresight of Commissioner Brackenridge and the intelligent industry of the Topographical Bureau, I was enabled to furnish the Corporation Counsel with a draft map of the approach to the new Manhattan Bridge in little more than two months after receiving his request for it on July 28. This large map will enable the Commissioners of Estimate and Assessment to proceed without delay in acquiring the property needed for this important improvement, known popularly as the "Flatbush Avenue Extension."

The torrential rains of recent years have made the sewer problem a serious one in the borough. It is encouraging, therefore, to learn that the sewer construction work of the quarter was 51 per cent. greater than of the corresponding quarter last year. More than twenty-three miles of sewers were constructed during the nine months ending September 30, which exceeds the construction work of all of last year by a fraction more than three miles. The Bay Ridge tunnel sewer has been practically completed, and work is progressing rapidly on the Coney Island sewers, the construction of which will remove one threat of pestilence from the whole City. Plans are being made for relief sewers to carry off the storm floods, and this work will be made more easy by the expenditure of \$100,000 appropriated by the Board of Estimate and Apportionment for the purpose of cleaning out many sewers which have been clogged up for years.

I would respectfully call your attention to the action of the Commissioner of Public Works, described in detail in his report, whereby it has been possible to break the power of the sewer pipe combination and save to taxpayers on assessments for local improvements thousands if not millions of dollars. The specifications heretofore had restricted sewer contractors to the use of vitrified earthenware pipe, with the result that the price ran from \$1.04 on 12-inch pipe, in 1900, to \$2.19, in 1903, an increase of more than 100 per cent. What this means can be understood when it is known that the Sewer Bureau has now under contract work the cost of which is \$5,531,807.

The Commissioner of Public Works has had tests made on cement pipe, has found it as strong and as durable as the vitrified pipe, and has had the specifications changed so as to let in competition. He has also provided for the use of steel reinforced concrete in place of bricks in trunk sewers, which will reduce the cost of such sewers very materially without in any way impairing the efficiency of the sewer service.

The Bureau of Sewers, during the quarter, had 13 contracts registered by the Comptroller, which will involve an expenditure of \$125,459.79.

The Bureau of Public Buildings and Offices, during the quarter, had registered 9 contracts, the expenditure upon which will be \$169,249.42. The Bureau reports the Hall of Records work all but complete, the new Gates Avenue Court-house completed and the Montrose Avenue Interior Bath opened to the public. During the summer it maintained, at a cost of \$8,045, five river baths, to which there were 757,872 admittances. The cost of each admittance, therefore, was a fraction more than one cent.

The Superintendent of Buildings granted during the quarter permits for the construction of 1,424 new buildings, the estimated cost of which is \$11,354,995. Within the three months 1,334 buildings were commenced and 501 completed, while 7,745 were reported in course of construction. The increase in the number of permits for new buildings and otherwise, over the corresponding quarter last year, was 1,509, and the increase in estimated cost \$5,829,285.

The Commissioner of Public Works forwarded to the Comptroller for payment during the quarter vouchers amounting to \$2,237,870.35. Of this amount \$1,907,020.88 was chargeable to the bond issues and assessment funds. The charge against the appropriation for 1904 was \$330,849.47, which left a balance of \$312,673.06. The Bureau of Buildings reports a balance of \$43,442.16, which leaves on hand of the \$1,409,435.25 appropriated for the President of the Borough of Brooklyn for 1904, a balance of \$356,115.22.

All of which is respectfully submitted.

MARTIN W. LITTLETON, President of the Borough of Brooklyn.

The City of New York,
Office of the President of the Borough of Brooklyn,
Brooklyn, October 21, 1904.

Hon. MARTIN W. LITTLETON, President of the Borough:

Dear Sir—During the quarter ending September 30, 1904, 244 petitions for local improvements of various kinds were received in the office and were forwarded to the Engineers of the Bureau of Highways or the Bureau of Sewers for reports. Ten meetings of Local Boards were held and 151 resolutions adopted at these meetings.

In detail the meetings held during the quarter were as follows:

District.	Petitions Received.	Meetings Held.	Resolutions Adopted.
Williamsburg	11	2	9
Bedford	3	1	1
Red Hook	12	1	3
Prospect Heights	8	1	6

PETER J. COLLINS, Superintendent of Buildings.

James J. Byrne, Chief Clerk.

October 17, 1904.

Hon. MARTIN W. LITTLETON, President of the Borough of Brooklyn:

Dear Sir—I beg to transmit herewith the reports from the constituent Bureaus of your Public Works Department for the quarter ending September 30, 1904. I am glad to state that efficient results have been produced by the active manner in which the various classes of work under the jurisdiction of the several bureaus have been prosecuted. Before entering into consideration of the appended reports, I beg to respectfully draw to your attention an action taken by this Department that should result in financial benefit to a very large portion of the property owners of Brooklyn.

Upon assuming office it was found that there was no real competition in the furnishing of sewer pipe, inasmuch as only one kind of material, vitrified earthenware pipe, was permitted under the then existing specifications. There being no competition, the prices bid for doing City work were higher than if a sewer pipe equal in all respects to vitrified earthenware pipe would be permitted under the specifications.

As an example of the conditions found, I would state that in 1900 the price of 12-inch vitrified earthenware pipe was \$1.04; in 1901, \$1.32; in 1902, \$1.50, and in 1903, \$2.19, an increase of over one hundred per cent. in three years. Tests were therefore made under my direction on cement pipe with the following results:

1. It was found that the crushing strength of the cement pipe exceeded that of the vitrified earthenware pipe by nearly one hundred per cent.

2. The cement pipe being constructed with a flat base, it could be used in sewer construction without a concrete foundation where the bottom of the trench was of suitable material, thus saving to the abutting property owners the cost of installing the foundation necessary in laying vitrified pipe amounting to 35 cents for 12-inch pipe, 43 cents for 15-inch pipe, 50 cents for 18-inch pipe, 60 cents for 24-inch pipe, with concrete at \$5 per cubic yard, in addition to the saving in the cost of the pipe itself.

3. The manufacture of cement pipe can be conducted by anyone—the field is open—so that in addition to the competition between cement and vitrified earthenware, further competition will result between the several manufacturers of cement pipe, and it may be predicted that sewer pipe will be reduced to a minimum cost.

Considering these advantages and the fact that concrete construction for all classes of work is past the experimental stage, the sewer pipe specifications were so modified as to permit of the use of cement pipe as well as vitrified earthenware, and the difference in cost is a direct saving to the taxpayers.

I would also state that with the present and what promises to be the future condition of the brick market, brick sewer construction will be seriously hampered and the cost thereof much increased, if not made prohibitive. I have, therefore, directed that all future sewer plans be prepared in such a manner that the sewers provided for thereby may be of concrete reinforced with steel where necessary. The possibility of constructing concrete sewers with unskilled labor, and thus be free from strikes and other holdups, so that the City's work may proceed steadily and uninterruptedly, as well as keeping the work independent of a possible brick famine with its accompanying prohibitive prices, will permit the construction of sewers and securing of the relief they afford with dispatch and at a saving to the people of the city.

Assistant Commissioner.

During the last quarter 91 contracts were registered, amounting to \$1,197,568, described as follows:

69—Bureau of Highways	\$902,858 79
13—Bureau of Sewers	125,459 79
9—Bureau of Public Buildings and Offices.....	169,249 42

The individual contracts showing streets, dates of receiving proposals and costs, together with the style of the improvement, appears in the Assistant Commissioner's report.

The improved condition of our highways is indicated by the reduced number of complaints received by the Bureau of Incumbrances and Permits and the smaller number of obstructions it has been necessary to have removed. The report attached shows a total of 555 obstructions removed during the quarter just ended.

Bureau of Highways.

It must not be forgotten that the enforcement of the Labor Law prior to the decision by Mr. Justice White interfered seriously with the progress of the repaving work. During nearly the entire month of July (constituting one-third of the most important quarter of the year, when viewed from the standpoint of actual results), the work on many of the contracts was practically at a standstill as a result of said enforcement of the Labor Law. Nevertheless, the completed repaved mileage during the first three quarters is more than the repaved mileage of the same period last year, and establishes a new record for such work in this borough.

The elimination of cobble from the paved streets is steadily progressing, and for the first time the mileage of cobble pavement is reduced sufficiently to place it third in the list of the paved streets of the borough.

For the last quarter, the total repaved mileage is as follows:

Asphalt	18.82
Granite	3.89
Macadam	3.94
Medina	0.15
	26.80

For the nine months of 1904 the total is as follows:

Asphalt	26.93
Granite	6.55
Macadam	5.40
Medina	0.18
Belgian	0.59

The following table of mileage of all pavement shows the progress of the work this year:

	January 1, 1904.		October 1, 1904.
Asphalt, miles	166.19	Asphalt, miles	193.12
Cobble, miles	153.95	Granite, miles	138.14
Granite, miles	132.13	Cobble, miles	131.23
Macadam, miles	88.78	Macadam, miles	94.18
Belgian, miles	43.02	Belgian, miles	42.18
Brick, miles	4.93	Brick, miles	4.89
Medina, miles	2.16	Medina, miles	2.35
Trap rock, miles	1.24	Trap rock, miles	1.14
Wood, miles	0.82	Wood, miles	0.82
	593.22		608.15

The installation of improved pavement of various kinds and the elimination of cobble, etc., is shown in the following table:

	Increase.	Decrease.
Asphalt	26.93
Granite	6.01
Cobble	22.72
Macadam	5.40
Belgian	0.84
Brick	0.04
Medina	0.19

We have been able by encouraging competition and by the rejection of bids received that were considered excessive and re-advertising the work, to reach a record mark in the price of asphalt, so that the taxpayers will receive asphalt pavement, including concrete foundation, for \$1.46 per square yard. Consider in this connection that the minimum price for the same work during 1903 was \$1.82 per square yard and the average price for 1903 was \$2.05½ per square yard.

The report of the Chief Engineer of Highways shows that work has been in progress during the last quarter on 151 streets and that work has been completed on 54 streets.

In the repair division considerable attention has been given the suburban districts where the greatly increased population and the greatly increased use of the highways, which automobilizing and driving has brought about, warranted the expending of special efforts.

It is worthy of remark that with the amount of asphalt repairs that have been made to bring the asphalt pavements, where the guarantee has expired, to a safe and smooth condition, the amount of money thus spent is \$31,840 less than that expended last year, and the mileage to be taken care of is increased 6.8 per cent. The repairs yet to be done will probably be made for about \$10,000. This saving is due both to the lower price bid and to economies practiced in the carrying out of the contract.

In the Chemical and Physical Testing Laboratory, 465 samples of hydraulic cements have been tested, as well as 301 samples of asphalt mixtures and 30 miscellaneous samples. Such a branch is absolutely indispensable in modern practice and the beneficial results are in daily evidence. Samples are taken directly from the work, and such action prohibits and prevents the use of inferior material.

The Topographical Bureau have devoted great time and energy to the important work of determining and preserving street lines, especially where the monuments marking such street lines have been disturbed either by contractors carrying out city improvements or by individuals carrying out private enterprises. This involves considerable research, computations and survey work. Other routine work has steadily progressed as outlined in the Chief Engineer's report and consists of the preparation of rule maps for land to be taken in street opening proceedings and for closing streets, etc., technical descriptions, draft, benefit and damage maps, final draft damage maps, certificates of dedication, reports on changes of grades, etc., all as set forth in the attached report.

In the preparation of rule maps and technical descriptions, draft damage and final benefit maps for use in the condemnation and opening of streets, the map showing the approach to the Manhattan Bridge, extending from Nassau street to the intersection of Flatbush avenue and Fulton street, has been given preference on account of the importance of the project it is to be used in connection with. Such draft damage map has been completed.

In summarizing it may be said that the Repair Division, the Testing Laboratory, the Topographical Bureau, etc., has each contributed its important part to assist in the effective and economical operations of the Bureau of Highways.

Bureau of Sewers.

The sewer work of the borough has progressed very rapidly during the quarter just ended and the figures submitted by the Superintendent of Sewers, and shown in detail in the report of the Chief Engineer of the Sewer Bureau, attached to the Superintendent's report, indicate an unprecedented activity in this branch of the City's work. An idea of the magnitude of the work completed may be secured by considering that during the third quarter of this year the completed work exceeds the work completed during the same quarter last year by over 51 per cent. The sewers constructed include nearly all sizes, from 12 inches in diameter to 15 feet.

The total value of the work in various stages of completion in the Bureau of Sewers at the end of the third quarter of this year is \$5,531,807, which exceeds the total value of all the work supervised for the year 1903 by \$52,000. The completion of 23,277 miles of sewers during the last nine months exceeds the length of sewers constructed during the entire year of 1903 by 3,202 miles, or over 15 per cent. excess in nine months this year over twelve months last year.

The Bay Ridge Tunnel Sewer, which is one of the largest pieces of work under construction in the Bureau of Sewers, is practically completed, only minor details being necessary to close said contract.

The Sixtieth street sewer, the Nineteenth avenue sewer, the Foster avenue sewer, with tributary mains, will in all probability be completed during the ensuing quarter, and thus permit Brooklyn to avail itself of the advantages of four contracts costing approximately \$1,800,000.

The progress made and the work remaining to be done on the other tunnel sewers, such as the Ninety-second street sewer, Avenue G sewer, Brooklyn avenue sewer, the sewer through the northern portion of Dyker Beach Park, as well as the sewers in the various walks adjacent to and crossing the Bowery, in Coney Island, are progressing towards completion. The last mentioned piece of work, namely, the Coney Island sewers, though comparatively small in cost, is a most desirable improvement, and serves a section of the city hitherto dependent only upon cesspools or some unsatisfactory substitute for same. The importance of proper drainage facilities for a section patronized as is Coney Island during four months of the year needs no comment.

The important matter of relief sewers for the flooded districts of the borough has been given unremitting attention, both because of the personal discomfort to the people in the section affected, and because of the financial loss sustained by the City as the result of suits brought against the City for damage sustained during and subsequent to a period of heavy rainfall. It is not necessary here to review the individual constructions tending to this general relief. The Chief Engineer of Sewers' report mentions them individually. The \$100,000 received for the purpose of cleaning the sewers whose efficiency is now so materially reduced on account of the presence of silt and deposit will in all probability be expended during the coming year, and the benefit to be derived from restoring these sewers to their normal capacity will act to a considerable extent as a preventative to future damages from overflowing sewers.

The tables attached to the reports of the Superintendent of Sewers and the Chief Engineer of Highways indicate in a concise manner the status of the work of both bureaus.

Bureau of Public Buildings and Offices.

The report of the Superintendent of Public Buildings and Offices describes in detail the work carried on under the jurisdiction of his Bureau. The necessary work of a maintenance character, as well as such as was desirable in the way of arrangement of the offices of the borough officials and employees, for the convenience of such officers or the better accommodation of those having occasion to use the various offices for the transaction of the business of the borough, were carried on. All is set forth in attached report.

The work of altering and remodeling the Hall of Records is 95 per cent. completed. What comprises this work is clearly enough understood, or is available in previous report, not to necessitate a reiteration of it here.

The improvements in the Kings County Jail, to which matter so much attention was devoted last year, and in the early part of this year, is being prosecuted as actively as labor conditions will permit. Contractor Fay's work is well under way.

The privileges of the five free floating baths were availed of by 757,872 persons. The cost of maintaining these baths for the summer was \$8,045, so that the cost per person was slightly over 1 cent.

The Gates Avenue Court-house is practically completed and the formal opening is scheduled for October 15.

The Montrose Avenue Bath was opened on September 26, and adds another model structure of this class to the two already in operation. There is an average daily attendance of 2,033 persons at this bath. The two other public baths under construction on Huron street and on Duffield street are progressing steadily—the former being more than one-half completed.

General Bookkeeper.

The report of the General Bookkeeper of the Department is attached hereto, setting forth the financial transactions of the various Bureaus for the quarter ending September 30, 1904.

Respectfully submitted,

J. C. BRACKENRIDGE, Commissioner.

OFFICES OF THE PRESIDENT OF THE BOROUGH OF BROOKLYN.

October 10, 1904.

Report of the financial transactions of the several bureaus comprising the Public Works of the Borough of Brooklyn for the quarter ending September 30, 1904.

GENERAL ADMINISTRATION.

	Appropriation, 1904.	Comptroller's Balance, July 1.	Vouchers to Comptroller for Payment.	Outstanding Liabilities.	Balance Available.
Salaries	\$52,550 00	\$24,895 36
By Transfer	5,000 00	5,000 00
	\$57,550 00	\$29,895 36	\$14,354 94	\$15,540 42
Supplies and Contingencies.....	2,500 00	1,661 75	579 85	1,081 90

Supplies ordered by General Administration during quarter:

Carriage hire	\$12 00
Daily newspapers	9 50
Indexing	172 50
Postage stamps	44 00
Printed and stamped envelopes.....	228 50
Rubber stamps	4 05
Searching titles	250 00
Typewriting services	92 22
Water, Clynta table	6 00
	\$818 27

TOPOGRAPHICAL BUREAU.

	Appropriation, 1904.	Comptroller's Balance, July 1.	Vouchers to Comptroller for Payment.	Outstanding Liabilities.	Balance Available.
Salaries and Supplies.....	\$53,944 00	\$28,307 43	\$12,836 47	\$460 00	\$15,010 96

Supplies ordered by Topographical Bureau during quarter:

Black prints	\$40 00
Car-fare tickets	180 00
Repair tape lines	100 00
	\$320 00

BUREAU OF HIGHWAYS.

	Appropriation, 1904.	Comptroller's Balance, July 1.	Vouchers to Comptroller for Payment.	Outstanding Liabilities.	Balance Available.
Salaries	\$68,350 00	\$35,747 62
To Transfer	2,000 00	2,000 00
	\$66,350 00	\$33,747 62	\$16,223 37	\$17,524 25
Labor, Maintenance and Supplies..	422,944 25	306,745 57	122,331 59	\$94,766 93	89,647 05
Supplies and Contingencies.....	1,500 00	1,354 45	57 25	276 00	1,021 20

Bond and Special Accounts.

	Authorized, 1904.	Contract Liability.	Available.	Vouchers to Comptroller for Payment.
Repaving Streets, sections 48 and 169, chapter 466, Laws 1901.....	\$1,200,000 00	\$772,430 00	\$411,990 53	\$712,422 41
Salaries	15,579 47

	Amount Authorized.	Vouchers to Comptroller.	Available.
Erecting, Maintaining and Illuminating 250 Street Sign Boxes	\$18,000 00	\$690 73
Revenue Bond Fund for Removing Ashes from former Prospect avenue	2,500 00	1,171 17	\$1,328 83
Grading, Curbing and Paving Bedford avenue, from Eastern parkway to Flatbush avenue.....	60,000 00	9,761 00	\$5,124 90
Street Improvement Fund.....	487,248 12
	Amount Received.		
Restoring and Repairing, Special Fund.....	\$14,623 43	16,191 31

Supplies ordered by Bureau of Highways during the quarter:

Auto car runabout	\$900 00
Binder	856 34
Binding	10 00
Blue-print paper	47 00
Car-fare books	95 00
Coal	57 00
Glass and enamel signs	245 00
Harness	70 00
Horsekeep	425 00
Horseshoeing	380 50
Lumber	496 51
Office supplies	3 50
Pocket rules	30 00
Rebuilding basins	150 00
Rent of yard	162 50
Repairing tools, etc.	800 00
Repairing wagons	184 15
Repaving openings	311 34
Stamped envelopes	60 00
Tar kettle (use of)	60 00
Telephone coupons	299 52
Typewriter supplies	3 50
Veterinary services	60 00
	\$5,712 86

Contracts Entered into by the Bureau of Highways During the Quarter.
Chargeable to Appropriation, "Labor, Maintenance and Supplies."

Contractor.	Nature of Work.	Amount.
M. H. Phillips.....	350,000 pounds paving pitch.....	\$3,045 00
Frederick W. H. Nelson.....	150 tons best anthracite coal.....	855 00
John C. Orr	19,200 feet, board measure, lumber.....	691 20
Peter F. Lyman.....	3,900 feet bluestone curbstone.....	2,656 73
Peter F. Lyman.....	16,000 square feet bluestone flagstone.....	2,880 00
J. J. Dalton.....	388 cubic yards paving gravel.....	1,629 60
Wm. A. Engeman	756 square feet granite bridge stone.....	628 03
	Total.....	\$12,385 56

Chargeable to "Repaving Streets, Sections 47 and 169, Chapter 466, Laws 1901":

Contractor.	Nature of Work.	Amount.
Cunningham & Kearns.....	Repaving with granite blocks, Nostrand ave- nue, from Eastern Parkway to Malbone street	\$21,945 50
Cunningham & Kearns.....	Repaving with granite blocks, Scholes street, from Bushwick avenue to Waterbury street	9,514 85
Cunningham & Kearns.....	Repaving with granite blocks, Prospect street, from Washington street to Bridge street..	13,036 00
Uvalde Asphalt Paving Company.....	Repaving with asphalt, Tompkins avenue, from Madison to Kosciuszko street.....	8,918 50
Uvalde Asphalt Paving Company.....	Repaving with asphalt, Ridgewood avenue, from Cleveland street 100 feet west of Dresden street	21,606 20
Uvalde Asphalt Paving Company.....	Repaving with asphalt, Eckford street, from Driggs avenue to Greenpoint avenue.....	20,463 50
Uvalde Asphalt Paving Company.....	Repaving with asphalt, Marcy avenue, from Macon street to Putnam avenue.....	7,537 00
United States Wood Preserving Com- pany	Repaving with wood blocks, Sumner avenue, from Gates avenue to Lafayette avenue..	10,687 00

Contractor.	Nature of Work.	Amount.
United States Wood Preserving Com- pany	Repaving with wood blocks, Van Buren street, from Tompkins avenue to Stuyvesant ave- nue	44,175 50
United States Wood Preserving Com- pany	Repaving with wood blocks, Seventh avenue, from Fourteenth street to Twentieth street	23,787 00
Cranford Company	Repaving with asphalt, Ocean place, from Her- kimer street 285 feet south, and Gunther place, from Herkimer street 290 feet south	5,126 20

Cranford Company	Repaving with asphalt, Lawton street, from Broadway to Bushwick avenue.....	3,995 50
Cranford Company	Repaving with asphalt, Truxton street, from Fulton street to 190 feet east.....	7,589 30
Cranford Company	Repaving with asphalt, Howard avenue, from Madison street to Fulton street.....	28,965 80
Cranford Company	Repaving with asphalt, St. Marks avenue, from old City line to East New York avenue...	4,506 00
M. F. Hickey.....	Repaving with medina sandstone, Fifteenth street, from Hamilton to Sixth avenue...	25,610 00
Brooklyn Alcatraz Asphalt Company..	Repaving with asphalt, Bergen street, from Smith street to Fourth avenue.....	28,295 00
Kelly Asphalt Block Company.....	Repaving with asphalt block, Eighteenth street, from Third avenue to Sixth avenue.....	24,143 10
Brooklyn Alcatraz Asphalt Company..	Repaving with asphalt, Carroll street, from Van Brunt to Henry street.....	12,001 00
Brooklyn Alcatraz Asphalt Company..	Repaving with asphalt, Lorraine street, from Columbia street to Otsego street.....	5,544 00
E. Bermudez Asphalt Paving Company.	Repaving with asphalt, Putnam avenue, from Reid avenue to Broadway.....	24,900 00
Interstate Paving Company.....	Repaving with asphalt, Flatbush avenue, from Twenty-ninth Ward line to Nostrand ave- nue	24,954 50
Hastings Pavement Company.....	Repaving with asphalt, Franklin avenue, from Twenty-ninth Ward line to Nostrand ave- nue	25,491 80
Uvalde Asphalt Paving Company.....	Repaving with asphalt, Atlantic avenue, from East New York avenue to Atkins avenue.	66,983 30
George F. Farrell	Repaving with medina sandstone, Thirty-sixth street, from Third avenue to Fifth avenue	18,213 10
George F. Farrell	Repaving with medina sandstone, Irving street, and Sedgwick street, from Van Brunt street to Columbia street.....	16,846 50
George F. Farrell	Repaving with granite-block pavement, Central avenue, from Palmetto street to Chauncey street	37,005 30
George F. Farrell	Repaving with granite-block pavement, Cooper street, from Broadway to Hamburg avenue	17,489 30
John O'Grady	Repaving with medina sandstone, Rutledge street, from Harrison avenue to Broadway	7,707 70
Continental Asphalt Paving Company.	Repaving with asphalt block, Fifteenth street, from Third avenue to Sixth avenue.....	23,854 50
	Total.....	\$610,917 75

Chargeable to "Regulating, Grading, Curbing and Laying Sidewalks on Bedford Avenue, from Eastern Parkway to Flatbush Avenue."

Contractor.	Nature of Work.	Amount.
Walter L. Castle.....	Regulating, grading, curbing and laying side- walks on Bedford avenue, from Eastern parkway to Flatbush avenue.....	\$51,403 10

Chargeable to "Street Improvement Fund."

Contractor.	Nature of Work.	Amount.
Uvalde Asphalt Paving Company.....	Regulating, grading and paving with asphalt, East Seventh street, from Reeve place to Ocean parkway	\$7,841 74
Robertson & Gerehart.....	Regulating, grading and curbing Seventy-fifth street, from Second avenue to Shore road	9,960 15
T. J. O'Connor.....	Regulating, grading and curbing Eighty-fourth street, from Third avenue to Fourth ave- nue	2,972 87
Cranford Company.....	Regulating, grading and paving with asphalt, Avenue G, from Ocean avenue to Flatbush avenue	23,295 69
Cawnitz, Albert	Regulating, grading and curbing, Rochester avenue, from St. Marks to East New York avenue	17,584 36
Daniel Douglass	Regulating, grading and curbing, Douglass street, from Plaza street to Underhill ave- nue	43,102 74
James P. Graham.....	Regulating and paving with macadam pave- ment, Flatbush avenue, from Nostrand avenue to Avenue N.....	41,850 90
John Hanna	Regulating, grading and curbing, Sherlock place, from Herkimer street to Atlantic avenue	917 79
Hastings Pavement Company.....	Regulating, grading and paving with asphalt block, Seventy-second street, from Second avenue to Third avenue.....	11,147 13
Daniel Douglass	Regulating, grading, curbing and laying side- walks, Pine street, from Fulton street to Ridgewood avenue	3,765 91
Walter L. Castle.....	Regulating, grading, curbing, guttering and laying sidewalk, East Seventeenth street, from Albemarle road to Beverley road....	3,323 79
Ficklen & Stobaugh.....	Constructing cement sidewalks, north side De- graw street, etc., etc., etc.....	3,216 45
Ficklen & Stobaugh.....	Constructing cement sidewalks, west side Un- derhill avenue, from Park place to Sterling place	1,457 00
Ficklen & Stobaugh.....	Constructing cement sidewalk, northwest side Palmetto street, between Hamburg and Knickerbocker avenues	2,224 25
Ficklen & Stobaugh.....	Constructing cement sidewalks, north side Shep- herd avenue, between Ridgewood and Arlington avenues	1,542 25
Ficklen & Stobaugh.....	Constructing cement sidewalks, west side Ralph avenue, between Gates avenue and Monroe street	914 50
Ficklen & Stobaugh.....	Constructing cement sidewalks, east side Un- derhill avenue, between Degraw street and Eastern parkway	1,666 25
Bedford Construction Company	Regulating, grading and curbing East Thirty- fifth street, from Glenwood avenue to Ave- nue H	943 01
Bedford Construction Company	Regulating, grading, curbing, guttering and laying sidewalks, Kenmore place, from Farragut road to Avenue A.....	1,120 03
Bedford Construction Company	Regulating, grading, curbing, guttering and laying sidewalks on Greenwood avenue, from Coney Island avenue to Gravesend avenue	9,177 20
Bedford Construction Company	Regulating, grading, curbing and laying side- walks, Hemlock street, from Fulton street to Atlantic avenue.....	2,238 28
Behan & Cavanaugh.....	Regulating, grading and curbing, Sixteenth avenue, from Main street to Gravesend Bay	12,811 10
Behan & Cavanaugh.....	Regulating and grading Vandam street, from Meeker avenue to Bridgewater street...	4,583 40
Ficklen & Stobaugh.....	Regulating, curbing and laying sidewalks, Seventy-third street, between Fourteenth avenue and Fifteenth avenue.....	3,712 42
T. J. O'Connor.....	Constructing cement sidewalks on south side Vanderbilt street, between Coney Island avenue and Sherman street.....	3,300 72
Daniel Douglass	Regulating, grading, curbing and laying side- walks, Ashford street, from Glenmore ave- nue to Pitkin avenue.....	1,746 56

Contractor.	Nature of Work.	Amount.
Daniel Douglass	Regulating, grading and curbing Dean street, from Rochester avenue to Utica avenue..	1,895 66
Vofrie & O'Hearn.....	Regulating and grading Sixty-second street, from Third avenue to Fifth avenue.....	5,144 40
James Riley	Grading lots on Forty-second street, south side, between Fourth avenue and Fifth avenue	959 01
John Schneider	Constructing cement sidewalks, both sides, Second avenue, from Sixty-sixth street to Shore road	9,506 00
Bedford Construction Company.....	Regulating, grading and curbing, Christopher avenue, from Riverdale avenue to New Lots road	13,956 94
Bedford Construction Company.....	Regulating, grading, curbing and laying sidewalks, Clarendon road, from Flatbush avenue to East Thirty-second street.....	14,381 90
Bedford Construction Company.....	Constructing cement sidewalk, Stone avenue, west side, between Belmont avenue and Sutter avenue	3,160 41
Bedford Construction Company.....	Constructing cement sidewalks, Stone avenue, east side, between Eastern parkway and Dean street	1,767 00
Bedford Construction Company.....	Grading lots west side Utica avenue, between Bergen street and St. Marks avenue.....	510 15
Bedford Construction Company.....	Constructing cement sidewalks, west side, Seventh avenue, between Twentieth street and Twenty-first street	1,375 45

WILLIAM CHAMBERS, General Bookkeeper.

Office of the Assistant Commissioner of Public Works,
Borough of Brooklyn, Room 15, Municipal Building,
October 5, 1904.

Hon. J. C. BRACKENRIDGE, Commissioner of Public Works, Borough of Brooklyn:
Dear Sir—I have the honor to transmit herewith my quarterly report for the third quarter of 1904, which relates almost exclusively to the subject of contracts. During the past quarter 91 contracts were entered into by the President of the Borough of Brooklyn, representing an estimated cost of \$1,197,588.10.

	Contracts.	Estimated Cost.
Bureau of Highways	69	\$902,878 89
Bureau of Sewers	13	125,459 79
Bureau of Public Buildings and Offices	9	169,249 42
Total	91	\$1,197,588 10

In addition to the contracts enumerated above, there are 60 for various highway and sewer improvements and 1 for supplies pending and unregistered. As these latter contracts are in an advanced stage and will be registered in the very near future, I do not deem it necessary to go into detail regarding the same in this report, but will cover them fully in the next quarterly report.

With reference to work done in the Bureau of Incumbrances and Permits, I beg to refer you to report submitted to you under separate cover.

For information in detail as to the work done in this office, I respectfully refer you to statements hereto attached, which cover the ground more fully.

Respectfully,

JAMES S. REGAN,

Assistant Commissioner of Public Works, Borough of Brooklyn.

THE FOLLOWING IS A LIST OF SEALED BIDS OR ESTIMATES OPENED BY THE PRESIDENT OF THE BOROUGH OF BROOKLYN, FROM JULY 1 TO SEPTEMBER 30, 1904.

\$73,489 40

Repaving with Granite on Concrete.

1. Scholes street, from Bushwick avenue to Waterbury street.....	\$9,520 50
2. Prospect street, from Washington to Bridge street.....	13,036 00
3. Nostrand avenue, from Eastern parkway to Malbone street.....	21,945 50
4. Lorraine street, from Columbia street to Otsego street.....	5,544 00
5. Cooper street, from Broadway to Hamburg avenue.....	17,489 30
6. Central avenue, from Palmetto street to Chauncey street.....	37,005 30

\$104,540 50

Repaving with Medina Sandstone on Concrete.

1. Fifteenth street, from Hamilton avenue to Sixth avenue.....	\$25,610 00
2. Thirty-sixth street, from Third avenue to Fifth avenue.....	18,213 10
3. Rutledge street, from Harrison avenue to Broadway.....	7,707 70
4. Irving and Sedgwick streets, from Van Brunt street to Columbia street.....	16,846 50

\$68,377 30

Repaving with Wood Blocks on Concrete.

1. Van Buren street, from Tompkins to Stuyvesant avenues.....	\$44,175 50
2. Sumner avenue, from Gates avenue to Lafayette avenue.....	10,687 00
3. Seventh avenue, from Fourteenth street to Twentieth street.....	23,787 00

\$78,649 50

Repairing with Macadam.

1. Hendrix street, from Vienna street to Sewage Purification Works....	\$3,528 00
--	------------

Paving with Asphalt on Concrete.

1. East Seventh street, from Reeve place to Ocean parkway.....	\$7,841 74
2. Avenue G, from Ocean avenue to Flatbush avenue.....	23,295 69

\$31,137 43

Paving with Asphalt Blocks on Concrete.

1. Seventy-second street, from Second avenue to Third avenue.....	\$11,147 13
---	-------------

Paving with Macadam Pavement.

1. Flatbush avenue, from Nostrand avenue to Avenue N.....	\$41,850 90
---	-------------

Regulating, Grading, etc.

1. Bedford avenue, from Eastern parkway to Flatbush avenue.....	\$51,403 10
2. Sherlock place, from Herkimer street to Atlantic avenue.....	899 10
3. Eighty-fourth street, from Third avenue to Fourth avenue.....	2,972 87
4. Seventy-fifth street, from Second avenue to Shore road.....	9,960 15
5. Douglass street, from Plaza street to Underhill avenue.....	43,102 74
6. Rochester avenue, from St. Mark's to East New York avenue.....	17,584 36
7. Pine street, from Fulton street to Ridgewood avenue.....	3,765 91
8. Hemlock street, from Fulton street to Atlantic avenue.....	2,238 28
9. Kenmore place, from Farragut road to Avenue G.....	1,120 03
10. East Thirty-fifth street, from Glenwood road to Avenue H.....	943 01
11. Greenwood avenue, from Coney Island avenue to Gravesend avenue...	9,177 20
12. Sixteenth avenue, from Main street to Gravesend Bay.....	12,811 10
13. Vandam street, from Meeker avenue to Bridgewater street.....	4,583 70
14. East Seventeenth street, from Albemarle road to Beverly road.....	3,323 79
15. Seventy-third street, from Fourteenth avenue to Fifteenth avenue.....	3,712 42
16. Sixty-second street, from Third avenue to Fifth avenue.....	5,144 40
17. Ashford street, from Glenmore avenue to Pitkin avenue.....	1,746 96
18. Dean street, from Rochester avenue to Utica avenue.....	1,895 60

\$176,384 78

Cement Concrete Sidewalks.

1. West side Shepherd avenue, between Ridgewood and Arlington avenues, etc.....	\$1,542 25
2. North side Degraw street, from Albany avenue and Troy avenue, etc..	3,216 45
3. East side Underhill avenue, between Degraw street and Eastern parkway, etc.....	1,666 25
4. West side Underhill avenue, between Park place and Sterling place, etc.	1,457 00

Respectfully submitted,

JAMES S. REGAN,

Assistant Commissioner of Public Works, Borough of Brooklyn.
Chas. J. Cassidy, Superintendent of Incumbrances.

QUARTERLY REPORT OF THE CHIEF ENGINEER, BUREAU OF HIGHWAYS, BOROUGH OF BROOKLYN, NEW YORK CITY, FOR THE THREE MONTHS ENDING SEPTEMBER 30, 1904.

City of New York—Borough of Brooklyn,
Office of Commissioner of Public Works—Bureau of Highways,
Chief Engineer's Office—Municipal Building, October 1, 1904.

J. C. BRACKENRIDGE, Esq., Commissioner of Public Works, Borough of Brooklyn:

Dear Sir—I submit herewith a report of the operations of this Bureau for the quarter ending September 30, 1904:

On account of the complications arising from the enforcement of the Labor Law, as much work was not completed during the quarter as otherwise would have been, as several contractors were doing but very little during the month of July. In the quarter, however, there were a total of 26.80 miles of pavements laid, as follows:

Asphalt	18.82
Granite	3.89
Macadam	3.94
Medina sandstone	0.15
Total	26.80

During the quarter in 1903 there were laid 28.27 miles. During the first three quarters of 1903 there were laid 38.45 miles, and during the same time for this year there have been laid 39.15 miles, or 0.7 of a mile more than last year. This is more than has ever been laid during the same length of time. I think this result is very gratifying, as the allotment for repaving this year was \$1,200,000, as against \$3,200,000 for 1903. The work of this year leaves the present mileage of pavements in the borough as follows:

Asphalt	193.12
Granite	138.14
Cobble	131.23
Belgian	42.18
Macadam	94.18
Brick	4.89
Trap block	1.24
Medina sandstone	2.35
Wood	0.82
Total	608.15

It will be noticed from the preceding table how rapidly the cobblestone pavement is decreasing, as for the first time in the history of the borough it stands now in the third place in quantity, and has decreased more than 14 miles during the last quarter. This is especially gratifying, as in a few years at this rate this class of pavement will entirely disappear.

I attach hereto a table which shows the streets upon which work has been going on during the quarter, there being 151 streets in all, of which 54 have been completed.

During the quarter contracts have been registered from the different funds, as follows:

Repaving Bond Fund	\$610,924 20
Street Improvement Fund	223,438 56
Labor, Maintenance and Supplies	17,113 03
Opening, Extending and Improving Bedford Avenue	51,493 10

Total

I also give in detail the streets for which these contracts have been registered:

	Repaving Bond Fund.	Street Improvement Fund.	Labor, Maintenance and Supplies.	Opening, Extending and Improving Bedford Avenue.

Total 265,652

Number of linear feet of cement curb constructed by private contract..... 11,590

House Numbers.

During the quarter 727 house numbers have been given out.

STATEMENT OF CONDITION OF PUBLIC CONTRACTS ON OCTOBER 1, 1904.

Contracts for Cement Sidewalks on Various Streets.

No. 50. North side Bergen street, between Rockaway and Stone avenues, etc., T. F. Timoney.
No. 60. East side Watkins street, between Sutter and Blake avenues, etc., Ficklen & Stobaugh.
No. 61. East side Glendale place, between Decatur and Fulton streets, etc., Ficklen & Stobaugh.
No. 62. West side Diamond street, between Nassau and Norman avenues, etc., Ficklen & Stobaugh.
No. 63. South side Forty-first street, between Third and Fourth avenues, etc., T. F. Timoney.
No. 66. Southeast side Flushing avenue, between Knickerbocker avenue and Melrose street, etc., M. Meagher.
No. 71. Northwest side Hart street, between Hamburg and Knickerbocker avenues, etc., A. Nosworthy.
No. 72. South side Bainbridge street, between Hopkinson and Rockaway avenues, T. J. O'Connor.
No. 74. South side Eighty-second street, between Eleventh and Twelfth avenues, etc., W. L. Castle.

All begun last quarter ending June 30, and finished this quarter.

Number of square feet this quarter..... 16,672

Begun and Finished This Quarter.

	Square feet.
No. 69. North side Thirty-third street, between Fourth and Fifth avenues, etc., M. Meagher.....	6,172
No. 77. West side Grand avenue, between Park and Myrtle avenues, etc., Ficklen & Stobaugh.....	6,385
No. 78. West side Wyona street, between Belmont and Sutter avenues, etc., T. J. O'Connor.....	4,583

Contracts Now in Progress.

No. 51. North side Watkins street, between Riverdale and Newport avenues, T. F. Timoney, number of square feet now laid.....	20,525
No. 81. East side Underhill avenue, between Degraw street and Eastern parkway, etc., Ficklen & Stobaugh, now laid.....	8,820

Total for all this quarter, June-October..... 63,427

Other Contracts That Will Be Under Way Soon—Awarded, Registered and Notified to Start.

No. 80. West side Underhill avenue, between Park and Sterling places, etc., Ficklen & Stobaugh.
No. 79. North side Degraw street, between Albany and Troy avenues, etc., Ficklen & Stobaugh.
No. 82. West side Ralph avenue, between Gates avenue and Monroe street, etc., Ficklen & Stobaugh.
No. 83. West side Shepherd avenue, between Ridgewood and Arlington avenues, etc., Ficklen & Stobaugh.
No. 84. Northwest side Palmetto street, between Hamburg and Knickerbocker avenues, etc., Ficklen & Stobaugh.
No. 85. South side Vanderbilt street, between Coney Island avenue and Prospect avenue, etc., T. J. O'Connor.

Awarded but Not Registered.

East side Stone avenue, between Eastern parkway and Dean street, etc.
West side Stone avenue, between Belmont and Sutter avenues, etc.
West side avenue U, between Gravesend avenue and Lake street, etc.
West side Seventh avenue, between Twentieth and Twenty-first streets, etc.

CORPORATION WORK.

Total Number of Openings Made to Repair All Mains (Except Water Mains and Sewers) and to Insert Service Connections.

In asphalt pavements	374
In granite pavements.....	1,707
In belgian pavements	222
In cobble pavements	9,144
In macadam pavements	63
In brick pavements	17
In sidewalks	123
No pavement	327

Work Done by the Brooklyn Heights Railroad Company under Permit from This Department.

Linear feet single track railroad relaid with 94-pound girder rail.....	2,100
Number of connecting curves and crossings renewed.....	21
Number new connecting curves and crossings renewed.....	16
Square yards granite pavement laid on concrete.....	31,472
Square yards of belgian pavement.....	371
Square yards cobble pavement.....	224
Total square yards pavement laid.....	32,067

Work Done by the Brooklyn Heights Railroad Company (Electrical Department) Under Permit from This Department.

Total number feet of subway laid.....	22,387
Total number feet of single duct laid.....	300,359
Square yards cobble relaid.....	1,152

Work Done by the Coney Island and Brooklyn Railroad Company Under Permit from This Department.

Linear feet track relaid (single) with 94-pound girder rail.....	8,014
Number curves and crossings renewed.....	3
Square yards granite pavement laid on concrete foundation.....	7,014
Square yards Belgian pavement relaid	472
Square yards cobble pavement relaid	224

Work Done by the Coney Island and Brooklyn Railroad Company Under Permit from This Department.

Total number feet of subway laid	2,227
Total number feet of single duct laid	17,816
Square yards asphalt laid	371
Square yards belgian pavement laid.....	110

Work Done by the New York and New Jersey Telephone Company Under Permit from This Department.

Total number feet subway laid	14,414
Total number feet single duct laid	57,975
Square yards asphalt pavement laid	404
Square yards granite pavement laid.....	1,603
Square yards cobble pavement laid	395

Work Done by the Edison Electric Illuminating Company Under Permit from This Department.

Total number feet subway laid	11,408
Total number feet single duct laid	45,635
Total number feet pipe subway laid	24,173
Square yards asphalt pavement laid	82
Square yards granite on concrete	192
Square yards granite on sand	3,069
Square yards belgian.....	388
Square yards cobble	425
Square yards medina sandstone on concrete.....	42

Work Done by the Brooklyn Union Gas Company Under Permit from This Department.

Total number feet gas main laid.....	16,489
Total number feet gas main removed.....	276
Square yards cobble pavement relaid.....	2,974
Square yards belgian pavement relaid.....	173

Work Done by the Brooklyn Borough Gas Company Under Permit from This Department.

Total number of feet of main laid.....	3,251
--	-------

Work Done by the Kings County Gas Company Under Permit from This Department.

Total number of feet of main laid	4,676
Total number of feet of main removed	24

Repair Division.

Our work this quarter has not been altogether the same as it was in 1903, and so a direct comparison cannot be made for the two years, although it is certain from the figures stated that the work done has not been far from the same amount.

The amount of money spent for wages during 1903 was \$93,060.77. The amount spent for wages in 1904 is \$98,755.42.

There has been laid about 2,500 square feet less of stone pavement than in 1903, but the amount of work done in the suburbs has been largely increased.

It is not apparent from the figures that much more has been done in the way of macadam repairs than in 1903. As a matter of fact, however, there has, because in this quarter in 1903 the whole of Ocean avenue was repaired in a very cheap way, and a large yardage was covered for a small amount. The macadam repairs during the last quarter have been of a very substantial nature, and nearly all the intended macadam repairs have been completed. Eighteenth avenue is only partially repaired, and for about three-quarters of a mile Kings highway is not yet paved. With these two exceptions, the macadam repairs have been completed. Of course, after these two streets are completed there will still be many small repairs that should be made, and many connection openings that should be repaved, so that the steam rollers should be busy until the end of the season.

On Hudson avenue the curb is all set, nearly all the cobblestone pavement removed, and about one-half of the grading finished. The concrete foundation will be begun some time during the coming week. The granite blocks are nearly all delivered on the street, so that this piece of work can be completed without trouble if nothing unforeseen happens.

There has been spent for asphalt repairs during the quarter..... \$14,192 30
During the corresponding quarter of 1903 there was spent..... 28,088 00

Or..... \$13,895 70

—more than in 1904.

Up to October 1, 1903, there were spent..... \$75,373 95
During the same time in 1904 there has been spent..... 43,533 85

Or..... \$31,840 10

—less than in 1903.

The asphalt repairs at present are in very good repair. Repairs have been made on the oldest and poorest ones three times during the season, and there are no pavements now that may be said to be in bad condition. In some places a few holes may be found, but they are being rapidly repaired, and not more than \$10,000 should be spent during the remainder of the season.

The following streets have been repaved with granite on a sand foundation during the quarter, the old cobblestone pavements being removed:

Pacific street, between Utica avenue and Rochester avenue;
King street, between Conover street and Ferris street;
President street, between Nevins street and Third avenue;
Kent street, between West street and the East river;
Plaza, at Jamaica avenue and Broadway.

The average force employed on repairs to street pavements is as follows:

	Foremen.	Mechanics.	Laborers.	Teams.	Horses and Carts.	Horses and Wagons.
July, 1904.....	16	51	95	14	26	19
July, 1903.....	17	54	155	25	29	17
August, 1904	17	54	99	16	30	22
August, 1903	18	46	149	22	24	15
September, 1904	16	53	106	22	33	25
September, 1903	15	42	132	26	18	12

The work done by this force consisted in taking up, repairing and relaying the following number of square yards of pavement:

	1904.	1903.
Cobblestone pavement.....	35,876	23,219
Granite pavement.....	25,643	48,204
Belgian pavement.....	14,661	7,689

	1904.	1903.
Wooden block pavement.....
Brick pavement.....	578	28
Total number of square yards.....	76,758	79,140
Linear feet of curb dressed and pointed.....	4,131	9,870
Linear feet of curb reset.....	8,684	11,581
Linear feet of gutter relaid.....	2,080	1,061
Square feet of bridge-stone relaid.....	7,438	7,913
Square feet of flagging relaid.....	65,847	9,466
Square feet of cement sidewalks repaired.....	2,019
Cubic yards of dirt hauled and used for filling.....	6,455	4,174
Cubic yards of rubbish hauled to dump.....	5,662	15,003
Cubic yards of sand hauled and used.....	3,220	6,315
Cubic yards of cobblestone hauled and used.....	1,185	808
Granite blocks hauled and used.....	37,078	44,989
Vitrified bricks hauled and used.....	2,250	30
Building blocks hauled and used.....	30,705	6,183
Cubic yards of stone crushed.....	3,135
Square yards of concrete laid.....	460	19,997
Cost of tools and repairing same, estimated.....	\$885 56	\$875 15

Number of Openings for Connections Received.

	Water and Sewer. 1904.	1903.	Miscellaneous.	Gas. 1904.	1903.	Electric. 1904.	1903.
July	915	657	35	268	573	139	190
August	870	647	47	342	568	58	77
September	912	752	69	317	618	51	120
	2,697	2,066	151	927	1,759	248	387

Number of Connections Repaired.

	Water and Sewer. 1904.	1903.	Gas. 1904.	1903.
July	595	522	103	98
August	493	621	93	79
September	477	374	87	123
	1,565	1,517	283	300

The number of connections received includes openings in every kind of pavement; the number repaired includes only water and sewer openings in cobble, brick, granite and belgian block pavements, and gas openings in granite, belgian block and brick pavements.

	Complaints Received. 1904.	1903.	Defects Remedied. 1904.	1903.
Departments of Police and Fire.....	949	642	888	692

Citizens	244	194	155	191
	1,287	997	1,183	1,087

Work Done on Macadam and Unimproved Streets.

The force employed averages as follows:

	Foremen.	Rollers.	Mechanics.	Laborers.	Horses and Wagons.	Horses and Carts.	Teams.	Sprinklers.
July, 1904	9	3	2	63	7	16	20	8
July, 1903	8	1	2	62	5	17	11	9
August, 1904	9	3	2	68	7	18	19	8
August, 1903	6	2	2	38	4	14	9	9
September, 1904	9	3	2	62	8	20	16	9
September, 1903	6	2	2	25	3	12	6	9

	1904.	1903.
Square yards of macadam roadways repaired and laid.....	63,163	65,803
Miles of macadam roadways cleaned.....	34.25	14.80
Miles of dirt roadways repaired.....	20.00	4.90
Miles of gutters made and cleaned.....	83.75	37.00
Wooden culverts repaired.....	3
Cesspools cleaned.....	5
Cubic yards of dirt hauled and used for filling.....	8,961	3,702
Cubic yards of rubbish hauled to dump.....	9,901	5,049
Cubic yards of broken stone used.....	7,389	2,192
Cubic yards of screenings.....	2,821	2,734

Repairs have been made to the following macadam pavements:

Kings Highway, between Flatbush avenue and Church avenue (new work).
Eighteenth avenue, between Eighty-sixth street and Cropsey avenue.
Sixtieth street, between Fourth avenue and Sixth avenue.
Seventy-ninth street, between Seventh avenue and Eighteenth avenue.

Shore road, between Emmons avenue and Manhattan Beach Railroad.
 Neptune avenue, between Brighton Beach Railroad and Ocean parkway.
 Warehouse avenue, west of Fort Hamilton avenue.
 Emmons avenue, between Brighton Beach Railroad and Shore road.
 Harway avenue and Cropsey avenue, between Bay Forty-eighth street and Twenty-second avenue.
 Bay Twenty-second street, between Eighty-sixth street and Cropsey avenue.
 Eighteenth avenue, between Forty-ninth street and Fifty-second street.

Work of Chemical and Physical Testing Laboratory.

A summary of the number of samples examined is as follows:

Hydraulic cements	465
Asphalt mixtures	301
Miscellaneous samples	30
Total	796

The number of separate tensile tests made during the quarter was 5,681. These tests have shown the several brands of cement in current use to exceed the specification requirements with a large margin of safety. The tests have also shown the cement sampled, to be uniform and of high sand-carrying capacity, the qualities denoting the highest excellence. Tests of asphalt mixtures have been carried on from day to day, samples of the material being taken directly from the street, as it is being laid, and carried to the laboratory. Wherever any discrepancy has occurred, the plant from which the asphalt was sent out has been promptly inspected, the cause of the discrepancy located, and the necessary correction made. Experience has shown that in many cases, when the manufacture of the mixture has been interrupted for any reason, considerable asphaltic cement clings to the sides of the asphalt bucket when the contents is dumped into the mixer after long standing, and no allowance is made for the error in weight thus introduced. The only remedy for this is to require the asphalt cement bucket to be inverted and allowed to drain when the operation of mixing is delayed. The general run of the material laid has been fully up to its high standard.

TOPOGRAPHICAL BUREAU.

With the many street improvements that are now in progress the work of the determination and preservation of street lines has been considerably increased. Of stones that were at one time put into the ground to fix the lines of the street, many have been either removed, deeply buried under a new street or building, or disturbed in their position in making improvements; unfortunately many of the stones still existing are disturbed before this office received any notice of the impending danger. Since these stones fix the lines of lots and house fronts on streets, their preservation is undoubtedly very important. In this line of work much more time than was available could have been used to good advantage.

To fix the new lines of Malbone street, considerable time was spent in the determination of street lines about the old city line of Brooklyn, between Rogers avenue and Utica avenue. Preliminary work is well under way for a modification of the map along the water-front of the City, by extending street lines from their present terminations to the official bulkhead-line.

But few new street openings were initiated. Considerable time was needed for making investigations and reports for legal status of streets and for certificates of dedication. Over all other street opening work, preference was given to the Draft Damage Map of the street as an approach to the Manhattan Bridge, extending from Nassau street to the intersection of Flatbush avenue and Fulton street.

As far as time permitted the usual records of topographical work were kept up. The total number of employees is thirty-nine (39). A vacancy caused by the transfer to another Department of a Transitman and Computer, has not yet been filled.

Work completed for the three (3) months ending September 30, 1904.

A statement giving in detail the work completed for this quarter is inclosed herewith. This statement takes no notice of the work started or such as has not yet been completed.

A great deal of the general routine work of the office cannot well be included in this statement of work completed. This routine work comprises the following: The care and preservation of monument stones, keeping of all records pertaining to this and other branches of topographical work, accumulation of records now missing, investigations for reports, replying to numerous applications for information, etc. All this routine work has taken a large amount of time, yet it is not included in this report.

The work accomplished comes under four divisions and is as follows:

1. To retain, determine and fix on the ground the lines of the existing street system, and to fix the new street lines as they are adopted.

This work includes the proper preservation and replacing of all monument stones, and the placing of new monument stones in position wherever they are needed. It necessitates the surveying and computation of traverse lines for the determination of block distances and angles—the determination of standards of measurement—and the compilation and care of monument records and maps.

A—Field Work.

Accurate traverses have been carefully run as follows:

- (a) For the determination of street lines.
 1. Park place, Utica avenue, Eastern parkway and Rogers avenue.
 - (b) For the determination of street lines and property lines.
 1. Kings Highway, from Coney Island avenue to Twenty-first avenue.
 2. East New York avenue, Rockaway avenue, Hunterfly road and Bristol street.
- Precise survey lines have been run for the determination of the following streets: Carroll street, Malbone street, East New York avenue, Bedford avenue, Gardner avenue, Lombardy street, Ocean avenue, Ocean parkway and Rockaway avenue.

Monument Stones Fixing Streets.

Fifty-two monuments were accurately referenced and ten monuments were tested. The party engaged in this work looked for 116 monuments and found 42 monuments. 69 monuments shown on the map of the city cannot be found any longer. 35 monuments were raised and 11 lowered. 12 iron monument covers were used.

B—Office Work.

The determination of the new lines of Malbone street, and the lines of the other streets about the former city line of Brooklyn, between Rogers avenue and Utica avenue, was progressed as much as possible. New survey lines of traverses were plotted as far as time permitted. Considerable time was used in the collection and compilation of maps and private surveys bearing on the work.

2. Maps affecting changes in the established street system of the City.

This division includes all work affecting changes in lines of existing streets, parks, closing and laying out streets, and changes in the established elevation of streets. It necessitates the preparation of maps for adoption and filing and miscellaneous maps.

A—Field Work.

This comprises the following:

- (a) Surveys for changes in lines of streets.
 1. Sackett street, from Rockaway avenue to Bristol street.
 - (b) Surveys for changes in elevations of streets.
- No surveys of this kind were requested of this Bureau, and none were made by it.

B—Office Work.

Maps were completed as follows:

I.—Maps forwarded for adoption.

(a) Maps affecting changes in lines of streets, closing and laying out streets, and public parks.

1. Closing Clinton street, from Vernon avenue to Canarsie avenue.
2. Laying out Lincoln avenue from Atlantic avenue to Jamaica avenue.

(b) Maps affecting changes of the established elevation of streets. No maps of this kind were requested of this Bureau, and none were made by it.

II.—Maps forwarded for filing.

(a) Maps affecting changes in lines of streets, closing and laying out of streets.

1. Laying out as an approach to the bridge over Prospect avenue on the line of Seeley street.
 2. Closing and discontinuing Eighth street, from Gowanus canal to Second avenue.
- (b) Maps affecting changes of the established elevation of streets.
1. Logan street, from Fulton street to Dinsmore place.
 2. Vanderbilt street, from Coney Island avenue to Prospect avenue, and Sherman street, from Reeve place to Seeley street.

Miscellaneous Maps.

1. Copy of map or plan showing the closing and striking from the map of the City, the following:

- East Third street, from Avenue Y to Ocean parkway.
 - East fourth street, from Avenue X to Avenue Z.
 - East Fifth street, from Avenue Z to a point 200 feet north of Avenue X.
 - East Sixth street, from Avenue Y to Ocean parkway.
- Locating and laying out the following:
- Boulevard court, from East Fourth street to Ocean parkway.
 - Ocean and Parkway courts, from East Third street to Hubbard street.
 - Manhattan and Brighton courts, from East Second street to East Sixth street.
2. Copy of alternate map or plan showing proposed location and laying out of New-kirk avenue, from Flatbush avenue to Ocean parkway.
3. Sketch of map number 41 of the draft damage map of Public Park bounded by Fulton street, Chauncey street, Lewis avenue and Stuyvesant avenue.
4. Sketch of Malbone street, from Old City line of Brooklyn to New York avenue.
5. Sketch showing the following:
- Rose place, from Broadway to Bushwick avenue.
 - Cactus place, from Broadway to Bushwick avenue.
 - Dahlia place, from Broadway to Bushwick avenue.
3. To make surveys, searches, technical descriptions and maps for the Commissioners of Estimate and Assessment, in the matter of opening streets, public places, parks, etc.

This includes a number of maps of different kinds, that are used in condemnation proceedings in the Bureau of Street Openings of the Corporation Counsel's Office.

A—Field Work.

The field work consists of surveys by field parties for the maps, as given below. Another item of field work consisted, as heretofore, of the inspection of every street when the draft damage map is completed and just before it is delivered.

The necessary surveys were made for the maps noted below, as completed. Besides these the following surveys were also made:

1. Additional for West Thirteenth street.
2. East Thirty-first street, from Church avenue to Flatlands avenue.
3. Sixtieth street, from the Bulkhead line to Third avenue.

B—Office Work.

This comprises:

- (a) Rule maps in triplicate and technical descriptions of land to be taken in street opening proceedings.
- (b) Draft damage maps, which give dimensions of every plot of land to be taken, encroachments on the streets, property owners, and any information of service to the Commissioners.
- (c) Draft benefit maps showing every lot included within the limits of the assessments for the opening and giving dimensions, and block and lot and numbers.
- (d) Final damage maps in duplicate, and final benefit maps in triplicate.
- (e) Rule maps and technical descriptions for closing avenues and streets.
- (f) Profile surveys made in connection with street openings.
- (g) Inspection and testimony.
- (h) Amendments and additions to street opening maps.

A—Rule Maps and Technical Descriptions.

These maps are made in triplicate and have technical descriptions showing the land taken in street opening proceedings. They are used by the Corporation Counsel in his application to the Supreme Court for the appointment of Commissioners for Estimate and Assessment in the matter of acquiring title to streets.

	Feet.
1. Union street, from Bedford avenue to Rogers avenue	545
2. President street, from Bedford avenue to Rogers avenue	610
	<hr/> 1,155

Total—2 streets, comprising 8 maps and covering 1,155 feet.

B—Draft Damage Maps.

These maps are used by the Commissioners of Estimate and Assessment to determine the amount of award for land and buildings taken in the opening of the street. The maps give every plot taken in street opening proceedings, together with its dimensions, encroachments on the street, names of property owners, and all other information obtainable that tends to prove any title or easement to the street that has been acquired by the City.

1. Street as an approach to the Manhattan Bridge, extending from Nassau street to the intersection of Flatbush avenue and Fulton street.

This street is 120 feet wide and crosses the street system of the locality diagonally. The street covers a total length of 3,628 feet and comprises within it a total area of 435,331.80 square feet, or 174.133 City lots.

Note—As already noted above, this draft damage map was given precedence over all other street opening work. As the completion of this map necessitated a large amount of detail work and investigation, it was possible to complete but little other street opening work during this quarter.

(c) Draft Benefit Maps.

These maps show the limits of assessment for opening a street, and give block numbers and block dimensions. Within the limits of assessment is shown every lot with its number, dimensions, property-owner, etc. The maps are used by the Commissioners of Estimate and Assessment to determine the amount of assessment to be paid on every lot. These maps are compiled in a large measure from the maps of the Department of Taxes and Assessment, but additions and corrections are made as may be found necessary.

	Plots.
1. West Third street, from Sheepshead Bay road to Canal avenue	79
2. Sherman street, from the southerly side of Reeve place (formerly Adams street) to the line dividing the land formerly of the Windsor Terrace Land Association, from the land late of Thomas Murphy	158
3. Malta street, from New Lots road to Vienna avenue	133
4. Railroad avenue, from Atlantic avenue to Fairfield avenue	256
5. Dumont avenue, from East Ninety-eighth street to New Lots avenue	708
6. East Thirty-seventh street, from Canarsie lane to Paerdegat avenue	175
7. Public place bounded by Myrtle avenue, Knickerbocker avenue and Bleecker street	266
8. Beverley road, from Bedford avenue to East Thirty-first street	211
	<hr/> 1,986

Total, eight streets comprising eight maps.

(d) Final Damage and Final Benefit Maps.

The final damage maps are made in duplicate and the final benefit maps in triplicate. These are the last maps made for a street opening proceeding. They are copies of the draft damage and draft benefit maps with the addition of any modifications that may have been decided upon by the Commissioners after their public hearings. The maps are kept in book form, bound, with the Commissioners' report which is placed on file at the confirmation of a street opening proceeding.

	Sheets.
1. Beverley road, from Bedford avenue to East Thirty-first street.....	16
2. Railroad avenue, from Atlantic avenue to Fairfield avenue.....	40
Total: 2 streets comprising.....	56

(e) Rule Maps and Technical Descriptions for Closing Avenues and Streets.
No rule maps of this nature were requested by the Corporation Counsel's office.

(f) Profiles Made in Connection with Street Openings.

Profile maps were made from surveys. They are used as an aid in the determination of awards to be paid property-owners affected by the opening of streets.

1. Gatling place, from Ninetieth street to Ninety-second street.

(g) Inspection and Testimony.

Whenever a draft damage map of a street was completed it was taken on the ground and the existing conditions were carefully inspected and compared with the map. In no case was it found necessary for this Bureau to give testimony at sessions of Street Opening Commissioners.

(h) Amendments and Additions to Street Opening Maps.

As circumstances required it, amendments and additions were made to street opening maps that were previously forwarded. The work usually consisted in adding new subdivisions to draft maps and to final maps, or in large sketches or other new information to the maps. This work was given the preference over all other work in the office.

The work covered the following streets:

1. Draft Damage Maps.

1. Railroad avenue, from Atlantic avenue to Fairfield avenue.
2. Jefferson street, from Irving avenue to Cypress avenue.

2. Final Damage and Benefit Maps.

No changes on maps of this nature were requested.

4. To keep a record of everything pertaining to the items of topographical work. The record kept of all current work includes besides the usual records of letters sent and received, one copy of every map forwarded from the office. One of the three certified copies of official maps adopted by resolution of the Board of Estimate and Apportionment is also now kept on file in this office in accordance with the provisions of the Charter.

The usual records have been kept of the monuments fixing street lines. In these records are shown all monuments found, and new monuments set, also the amount that monuments were moved in horizontal position or in elevation to accommodate improvements.

As heretofore, the records of the Bureau have served a useful purpose in furnishing information to other Departments of the City, and to numerous requests from other people.

Summary of Work for the Three (3) Months ending September 30, 1904:

1. Determination of street opening lines:

No special requests were made, except as they were involved in other items of work. The results of the work were embodied in the maps for adoption and for filing, and in street opening maps.

2. Maps for adoption and filing and miscellaneous maps.

Number of requests pending July 1, 1904.....	5
New requests to September 30, 1904.....	21
Total requests complied with.....	11

This makes a total of 11 items, comprising 34 maps.

3. Street opening work.

The requests that are here included come from the Corporation Counsel's office, and are for rule maps and technical descriptions, draft damage maps, draft benefit maps, final damage and benefit maps, profile maps and amendments and changes to street opening maps.

Requests pending July 1, 1904.....	11
Additional requests received to September 30, 1904.....	34
Requests complied with to September 30, 1904.....	17

This comprises a total of 17 items, covering a total of 30 maps.

In addition to these the final damage and benefit maps cover 56 sheets.

Reports.

To attend to the work of the three (3) months required the giving of a large amount of oral information, and the writing of reports and letters, as follows:

1. *Report on conditions of streets in relation to opening proceedings or improvements	33
2. Certificates of dedication furnished for streets.....	43
3. Reports accompanying street opening maps.....	10
4. Reports on change of lines, laying out, closing, etc., and change of grades....	14
5. Miscellaneous reports	81
Total.....	181

*Reports on condition of streets were made on petition received by the Local Board and for the use of other Departments.

Streets for which certificates of dedication have been furnished:

These are certificates as to the dedication to public use of streets for which surface or sub-surface improvements are contemplated. In conjunction with affidavits of property-owners or users of streets, these certificates tend to prove that the public has an easement to the use of the street, and thus street opening proceedings preliminary to needed improvements are avoided. These certificates are used in conjunction with resolutions for improvements adopted by the Local Boards, and are passed on by the Board of Estimate and Apportionment.

1. Ovington avenue, between Third avenue and Stewart avenue.
2. Catharine street, between Devoe street and Metropolitan avenue.
3. Ovington avenue, between Sixth avenue and Stewart avenue.
4. Ovington avenue, between Fifth avenue and Sixth avenue.
5. Crescent street, between Conduit avenue and Belmont avenue.
6. Barbey street, between Belmont avenue and Dumont avenue.
7. Chestnut street, between Liberty avenue and Belmont avenue.
8. Jerome street, between Glenmore avenue and a line about 125 feet north of Livonia avenue.
9. Ames street, between East New York avenue and Sutter avenue.
10. East Twenty-third street, between Avenue F and Avenue G.
11. Milford street, between Pitkin avenue and Belmont avenue.
12. Sheffield street, between Pitkin avenue and Belmont avenue.
13. Seventy-third street, between Twelfth avenue and Thirteenth avenue.
14. Seventy-first street, between Tenth avenue and Eleventh avenue.
15. New York avenue, between Flatbush Water Works and Farragut road.
16. Forty-second street, between New Utrecht avenue and a point about 400 feet east of Twelfth avenue.
17. Elton street, between Atlantic avenue and Blake avenue.
18. Bay Fourteenth street, between Eighty-sixth street and Benson avenue.
19. East Thirty-eighth street, between Avenue I and Avenue J.
20. India street, between Oakland street and Provost street.
21. Eighty-first street, between First avenue and Third avenue.

Total number of communications received.....	154
Total number of letters sent.....	181

On July 1, 1904, there was a total of 126 proceedings pending for acquiring title to streets. In the course of the three months seven proceedings were initiated, one proceeding discontinued, and for seven proceedings the reports of the Commissioners were confirmed. The total number of proceedings pending on September 30, 1904, is 125.

Respectfully,

GEO. W. TILLSON, Chief Engineer, Bureau of Highways.

Table Showing Work Completed and in Progress for the Quarter Ending September 30, 1904.

Kind of Improvement.	Total Amount of Pavement Square Yards.	Amount Laid Since Last Report Square Yards.	Total Amount Laid Square Yards.	Total Length Linear Feet.	Length Completed Linear Feet.	Grading Completed Cubic Yards.	Remarks.
Adams street, from Johnston street to Tillary street; Adams street, from Concord street to Sands street; Concord street, from Fulton street to Adams street; Concord street, from Pearl street to Jay street.....	Medina	3,480	1,816	In progress.
Ainslie street, from Marcy avenue to Bushwick avenue.....	Asphalt	11,775	11,775	11,775	3,566	3,566	Completed.

BUREAU OF SEWERS.

City of New York—Borough of Brooklyn,
Superintendent's Office,
Municipal Building, October 17, 1904.

Hon. JOHN C. BRACKENRIDGE, Commissioner of Public Works:

Dear Sir—I have the honor to submit a report of the transaction of business in that division of your Department of Public Works known as the Bureau of Sewers for that period between July 1 and September 30, inclusive, or for the third quarter of the year 1904.

Attached to my report you will find a report made to me by the Chief Engineer of Sewers in regard to the construction of new sewers and those advocated, giving details both as to expenditures upon contracts and as to the amount of work performed on said contracts, showing the streets where sewers were built, the sizes of said sewers and the proportionate amount of work performed on each contract.

You will also find a report from the Superintendent of Maintenance in regard to maintaining the sewerage system in this borough, giving details as to their cleaning as well as to the cleaning of basins. It will be noticed from this report that the record of the prior administration has not only been maintained, but that it has been exceeded. Your attention is drawn to this report for all details, as well as to the Chief Engineer's report, which I have spoken of before.

It will be found in the Chief Engineer's report that the record of the prior administration has been maintained and exceeded. This will be especially noted from the fact that more mileage of sewers have been completed during the three-quarters of this year than was completed during the entire year of 1903; that is, in the year 1903 the mileage of the system was increased by an addition of 20.075 miles; that in the three-quarters of this year the mileage of the system has been increased 23.277 miles.

Brick and pipe sewers, ranging in sizes from 15 feet in diameter to 12 inches in diameter, were constructed during the year 1903, and sewers ranging in the same sizes have been completed for the three-quarters of this year.

In the construction of sewers the value of the work at hand at the end of this, the third quarter, taking into consideration the preparation of plans and contracts in all stages to those which have been completed and to those in actual construction, is found to be \$5,531,807.04.

The value of work for the same period of the last administration, as contained in the third quarterly report of the year 1903 was \$5,176,680.88.

As the year 1903 was a record year of the prior administration, it will be seen that the work for the three-quarters of the year of the present administration has exceeded either of the two years gone by, considered separately. Notwithstanding that this is the case, no lagging will be permitted during the last quarter of this year which has now begun, and I depend upon the zeal of my forces in maintaining the record which has been obtained.

In the earlier part of this year, in February, an examination was made of the condition of the brick sewers throughout the borough, and from said examination I reported that at least \$100,000 should be secured to cleanse these sewers. It is a pleasure for me to state that bids for cleaning the sewers will be opened on the 19th inst., and immediately thereafter the successful contractor will be set to work to perform this most urgent and necessary work. I regret that we were unable to advertise before now, due to the decision of the Corporation Counsel as to whether the funds procured by the President of the Borough would be available or not. This having been decided, congratulations are extended to you and to the President of the Borough in your successful endeavors in procuring the money that was desired. The specifications for this work have been drawn upon a per cubic yard of material basis, removed from the sewers and measured in suitable receptacles, no flushing whatsoever to be allowed in removing the deposit now contained in the sewers.

As the Chief Engineer of Sewers has reviewed the work being performed in the engineering branch of this Bureau, I will refrain from mention thereof, but draw special attention to that which he has written.

I conclude this report, therefore, with a tabulated statement of the financial transactions for this division of your Department for the third quarter of the year 1904, which is herewith subtended, but before doing so I desire to express my sincere appreciation of the efforts and of the work performed by the employees under my direction.

Respectfully yours,

ARTHUR J. O'KEEFFE, Superintendent of Sewers.

OFFICE OF THE PRESIDENT OF THE BOROUGH OF BROOKLYN.

BUREAU OF SEWERS.

Bureau of Sewers—City of New York, Borough of Brooklyn,
Chief Engineer's Office,
Municipal Building, October 17, 1904.

Hon. ARTHUR J. O'KEEFFE, Superintendent of Sewers:

Dear Sir—I have the honor to submit a report of the conduct of business in the Engineering Division of the Bureau of Sewers for the third quarter of the year 1904.

I reported in the second quarterly report of this year that the mileage of sewers existing in the borough on the 1st day of July, 1904, the beginning of this quarter, was 715.968 miles.

This mileage has been increased during the quarter by the construction of the following lengths of sewers which are here tabulated:

	Feet.	Miles.
Pipe sewers, 9 inches to 24 inches, inclusive.....	38,587.5	7.308
Brick sewer, 30 inches to 180 inches, inclusive.....	17,435.3	3.302
Total	56,022.8	10.610
Adding the mileage as existed on June 30, 1904.....		715.968
Giving a total mileage of sewers in the streets of the borough at the end of this quarter of.....		726.578

I tabulate the number of receiving-basins built during the quarter in such manner as will show the total number now connected with the system:

Number of receiving-basins built during this quarter.....	190
Number of receiving-basins built on June 30, 1904.....	8,605
Number of receiving-basins built on September 30, 1904.....	8,795

I find that there has been constructed during the three-quarters of the year which have passed 23.277 miles.

This total mileage exceeds the construction during the entire year of 1903 by 3.202 miles, there having been constructed in said year 20.175 miles.

During the third quarter of the year 1903 there was constructed 6.998 miles.

Thus it will also be seen that we have exceeded the third quarter of 1903 by the construction of about 4 miles of sewers.

As said sewers during both comparative quarters of the two years range in size from 180 inches to 12 inches in diameter, it will be seen that constructions of like size and class are being compared.

At the end of the third quarter of the year 1903 the total value of the work in all stages from the preparation of plans to the completion of con-
tracts, was.....

\$5,176,680 88

The total value of work which has been supervised by this branch of your
Bureau at the end of the third quarter of this year is found to be...

5,531,807 04

The total value of the work supervised for the year 1903 was.....

5,479,833 46

Thus it is shown in this manner that the value of work cared for during the three-quarters of this year has exceeded the value of the work cared for for the entire year 1903.

As the year 1903 was a red letter year in the amount of work supervised, it will be seen that in the three quarters of this year said record has been surpassed.

I expect that when the full year's work has been completed the total mileage of sewers constructed will be equal to the second best record for mileage of sewers constructed that has been obtained in the Borough of Brooklyn or the old City of Brooklyn.

The record year for the mileage completed was in 1895, when 60 miles of sewers were laid in the streets of this borough. The value of the record length above indicated was about one-fourth of the value of the work now at hand, for the reason that said mileage was composed principally of pipe sewers, ranging in size from 12 to 24 inches. The sewers now being constructed are large mains, varying in size from 15 feet in diameter to 3 feet in diameter.

The importance, value and size of the sewers for the work supervised during the three quarters of this year establishes a record year in the connection of sewers in this borough without question.

I append to this report tabulated statements showing:

1st. Contracts which have been entered into during the quarter.

2d. Those which have been completed during the quarter and the accounts thereof closed in the Bureau.

3d. Uncompleted contracts, with the amount of work performed upon each, both in money and in linear feet constructed.

4th. Those contracts authorized for which bids have been received from contractors and are now in course of consummation, and for those contracts authorized for which surveys have been made and plans are in preparation—concluding said tabulated statements with a summary relating thereto.

In the table showing the linear feet constructed, you will find the sizes of the sewers completed and the streets through which sewers were built.

In regard to the sewers which are in course of construction, your attention is first called to the Bay Ridge tunnel sewer, which is now about completed, minor details being necessary to close said contract.

This most important construction, begun under the administration of Commissioner James Kane, and now about to be completed, has been spoken of from time to time in my quarterly and annual reports, showing the progress which has been made thereon. Its successful completion will fill a long desired want by many citizens of this borough. For brevity I refrain from further mention of this work, as it will be fully treated of in the annual report.

I mention that sewer in Sixtieth street, from Fourteenth avenue to Nineteenth avenue, and in Nineteenth avenue, from Fourteenth avenue to Fifty-seventh street, which will also be completed during the next quarter of this year, as well as the Nineteenth avenue sewer, from Fifty-seventh street to Bergen lane, to Foster avenue, to East Ninth street; also that contract in Foster avenue, from East Ninth street to Flatbush avenue, with its tributary mains, one being through East Fifteenth street, from Foster avenue to Caton avenue, etc., these three contracts also being in the last stages of completion which will obtain during the last quarter of this year.

The above four contracts will cost the City, in round numbers, \$1,800,000.

The tunnel sewer in Ninety-second street, from New York Bay to Eleventh avenue, progressed materially during the last quarter, to such extent that the tunnel sewer itself is now completed, and there remains to be built the supplemental sewers for house drainage, at an elevation much nearer the surface of the streets. This contract will cost, when completed, about \$635,000.

That sewer in Avenue G, from Coney Island avenue to Flatbush avenue, and extending through other streets and finally through Paerdegat avenue, to discharge into Paerdegat Basin at Flatlands avenue, also progressed to such extent that it will be completed during the next quarter. This contract will cost the City, in round numbers, about \$300,000.

That sewer in Brooklyn avenue, from Avenue H to Avenue J, etc., thence through Flatlands avenue, to discharge at the foot of same into Paerdegat Basin, has progressed nicely, but said sewer will not be completed until next year. Its estimated cost is \$323,383.25.

The alteration of sewers under the Atlantic avenue subway at Vanderbilt avenue, Carlton avenue, and near the Flatbush depot of the Long Island Railroad, has progressed rapidly, and I believe will be completed in the last quarter of this year. Much difficulty has ensued in progressing this contract to obtain minimum annoyance to householders, due to the extensive operation of the Atlantic avenue improvement, which is being cared for conjointly with the construction of our sewers, but I have, with the assistance of my Engineers, endeavored to ameliorate the conditions to such extent as has been possible under the conditions. This contract will cost the City some \$76,000 in round numbers.

The extension of the Ninety-second street tunnel sewer in a proposed street through the northern portion of Dyker Beach Park, from Fourteenth avenue to Eleventh avenue, estimated to cost \$115,912, is now about half completed, rapid progress having been made upon same during the quarter.

A still further extension of the Ninety-second street sewer, adjacent to and easterly of the one I have just above described, or in Fourteenth avenue, from the proposed street in the northern portion of Dyker Beach Park to Bath avenue, and in Bath avenue, from Fourteenth avenue to Twenty-first avenue, and in Twenty-first avenue, from Bath avenue to Benson avenue, is progressing nicely, but will not be completed this year. It is estimated that this sewer will cost the City \$208,628.90.

Sewers in the various walks adjacent to and crossing the Bowery, near Surf avenue, at Coney Island, are being rapidly pushed to completion, and it is expected that said sewers will be completed this year. The new pavements that have been laid in this vicinity, and the asphaltting of Surf avenue, with the construction of sewers of this contract, will place the old Coney Island upon a more slightly, beneficial and healthful condition than has existed for years past; in fact, the Coney Island of old will have been so completely changed that its memory only will exist hereafter.

Relief Sewers.

The final proceeding in obtaining the old Vandervoort avenue sewer and an easement through the land which it occupies having been concluded in the late summer by the payment of \$30,000 to the owners of said sewer, the contractor who obtained the work to construct about a 100-foot outlet length for said sewer, together with overflow connections, etc., was immediately set to work, and he has progressed same to such extent that in at least two weeks' time this important relief sewer, striven for for years, will be a reality.

The completion of the relief sewer extending from the Morgan avenue sewer to a basin of the Newtown Creek Canal, between Meadow and Stagg streets, will also be completed in about two weeks' time, securing to the City another very desirable overflow.

Both of these constructions will materially benefit the flooded districts of the Eighteenth Ward, but I believe that absolute relief will not be obtained until the large sewer advocated by this Bureau, to extend in St. Nicholas avenue, from Newtown Creek Canal to Myrtle avenue and up Myrtle avenue, is constructed. The drainage of 2,150 acres is conveyed into the City through Myrtle avenue, said avenue being in a valley of this acreage, down Palmetto street to one flooded district, and down Myrtle avenue to Knickerbocker avenue, another flooded district.

The territory of Queens immediately adjacent to our borough line is about finished in mapping, and as soon as said map is submitted to this Bureau immediate attention will be given to the proper devisement of a sewerage plan to interrupt this great surface drainage and to prevent same from entering our borough.

The relief sewers providing a larger outlet for the Greene avenue sewer, the first to extend in Fourth avenue from Butler street, tapping the Greene avenue sewer at this point, to Degraw street, and through Degraw street to the Gowanus canal, as well as that sewer extending from the head of the Gowanus canal, through Butler street, Nevins street, Baltic street, Third avenue, Dean street to Fourth avenue, tapping the Greene avenue sewer at this point, and then continued through Dean street to Flatbush avenue, have progressed materially during the third quarter of this year, but not to the extent that I had anticipated. Much delay has been occasioned by the subsurface constructions, such as large electric conduits, gas pipes and water mains, yet it is believed that both of these relief improvements will be completed this year. Evidence was given by the partial completion of the latter contract in regard to the alteration of the basin at the head of Gowanus canal to such extent during the rainy periods of the summer that it is believed that many of the flooded districts, such as around Bainbridge street and Saratoga avenue, Throop avenue and Halsey street, Troy avenue and Fulton street, will be greatly, if not absolutely, relieved when the relief measures for the enlargement of the Greene avenue sewer, which I have spoken of, are completed. It may be that the alteration and enlargement of several of the

sub-mains within those districts which had trouble during 1901 and 1903 may have to be somewhat enlarged. I have my forces at this time collecting data for a complete study of the entire sewerage system of the old City of Brooklyn, as such City existed prior to the annexation of the new wards. It is anticipated that several relief sewers will be recommended in construction when the sewerage system, as it exists, has been carefully studied from the results of this data collected.

The territories around Wallabout street and Marcy avenue, and in that vicinity, and around Navy street and Fort Edward place, and in that vicinity, are being studied as to relief measures to be adopted, data being secured for same from the field, and recommendations resulting from said study will be shortly forthcoming from this office.

Other locations in the borough, such as in the vicinity of Fourth avenue and Fifty-eighth street, are being looked into, and recommendations will be made for the improvement of the old sewerage system at this location, as well as others which have been noted.

The report of your Superintendent of Maintenance as to work which has been accomplished by the cleaning and repairing division of the Bureau clearly shows that very much has been done with the small amount of money allowed for this branch of the Bureau; in fact, it appears that the record of the former administration has been outdone.

It is a source of great pleasure to me to know that \$100,000 additional was obtained to clean the brick sewers of this borough, which are sadly in need of same. Although it was not decided until lately that the money appropriated would be available, and that bids from contractors have only been recently advertised for in the public press, much can be done this year to cleanse the sewers in the borough. At least an amount of from \$185,000 to \$200,000 a year should be set aside for the cleaning of the 726 miles of sewers which are contained within the streets of this borough.

For brevity, I will not mention the many contracts under our care, as such will be fully treated of in the annual report.

I desire to extend my sincere thanks and appreciation to the members of my corps, and to all employees of the Bureau, for their zealous and untiring efforts in performing the work which has been assigned to them. They certainly are to be congratulated in securing in three-quarters of a year a record which has been surpassed by no full year's amount of work performed heretofore in the Borough of Brooklyn or the old City of Brooklyn.

Yours respectfully,

HENRY R. ASSERSON, Chief Engineer of Sewers.

Statement of Contracts Entered Into During the Quarter Ending September 30, 1904.

Nature of Work.	Location.	Contractor.	Estimated Cost.
Sewers.....	Fifty-eighth street, from Tenth avenue to New Utrecht avenue, etc.....	P. J. Murray.....	\$24,400 00

*For plans—5 per cent. on contract for new work; 10 per cent. for old work.

Borough Hall.

The quarters of Assistant Superintendent of Buildings and the Building Inspectors on the top floor were thoroughly renovated during the quarter, and a private office was constructed for the Bureau's Plant Examiners; electric fans in the various offices throughout the building were repaired and placed in operation; lights of glass in most of the offices of the building were refastened; a considerable part of the plumbing work was overhauled; the brick work of all the boilers was thoroughly repaired; the flag poles on top of the structure were repaired and repainted, and the rooms of the Corporation Counsel were very much improved with new paint.

Municipal Building.

To better accommodate the rush of tax-payers in the offices on the first floor of this building, the standing desks were extended, new book racks built and new shelving installed; a new wire Cashier's cage was built in Rooms Nos. 2, 4, 6 and 8, and new signs to easily indicate the location of the various Clerks were conspicuously placed; a new store-room was built in Room No. 29 for the convenience of the Bureau of Public Buildings and Offices; the offices of the Superintendent of Repairs of the Department of Water Supply, Gas and Electricity were thoroughly renovated. The roof of the building was repaired, and the brick work of the boilers renovated.

Kings County Court-house.

At the request of the Justices of the Supreme and County Courts, and by an arrangement with Deputy Comptroller Stevenson, who agreed to provide a fund for the purpose, this Bureau, before the latter part of the quarter, greatly improved the surroundings of both those branches of the local Judiciary. New carpets and other floor coverings were laid in all of the rooms used in both Courts, at an expense of \$2,000. In addition, the sidewalls of the various rooms used by the County Court were painted and kalsomined, and the Supreme Court rooms were improved to suit the conveniences of the Justices; Under Sheriff Gray's offices, too, were repaired and improved generally; the plumbing and steam heating plants were thoroughly repaired, and the brick work of the boilers renovated.

Hall of Records.

The alterations and repairs to this building, on the original contract, are now about 95 per cent. completed; the painters have commenced their work on the third and fourth floors; the gas fixtures are on the premises ready to be put in place, and the only prevention to a permanent occupancy of these floors is the metallic furniture, which is expected to arrive within a couple of weeks. It is hoped, however, to occupy these two floors before the metal furniture arrives, so that the balance of the work can be completed promptly. The Surrogate's court room on the second floor is now nearing completion; the ornamental plastering is done; the cabinet work is on the premises and in course of erection; the stained glass is in, and one can now begin to see the outlines of what bids fair to be one of the finest court rooms in the borough; the balance of the work is all in hand and, if no strikes interfere, should be finished in a very few weeks. The removal of the entrance, under supplemental contract, has been started, and should be completed before cold weather.

Kings County Jail.

The contract with James Fay for installing new plumbing in this building is well under way. One or two labor strikes have operated somewhat to delay the contractor's work, but, in the main, good progress has been made on the contract. As occasion demanded, from time to time, the old plumbing in portions of the jail not affected by Mr. Fay's contract has been repaired.

Brooklyn Disciplinary Training School.

Since the 1st of July repairs aggregating over one thousand dollars have been made by this Bureau at the Brooklyn Disciplinary Training School; the plumbing in the brick building was overhauled; a new galvanized iron fan shaft was installed; the water pump was repaired, and the high board fence about the grounds, among other things, was given attention by this Bureau.

Free Floating Baths.

The five free floating baths of this borough, which had been in commission since the latter part of June, on September 26, after an exceptionally large season's attendance, were moved to their winter quarters at the foot of Thirtieth street, South Brooklyn. The cost of maintaining the five floating baths during the summer was \$8,045; the number of bathers accommodated were 757,872—547,188 males and 210,684 females. The baths were opened from June 23 to September 22, showing a pro rata cost of about .0106 cent per each person.

Magistrates and Municipal Courts.

These buildings, most of which are rented by the City, have received necessary attention as the occasion demanded.

Court of Special Sessions.

One or two minor repairs of insignificant cost were made to the furniture of this court's quarters in the Athenæum Building.

Wallabout Market—Administration Building.

Telephone service at a cost of \$66 per year to the City was installed in this building during the quarter, it having been found absolutely necessary that the Bureau should have means of quick communication with its employees engaged in cleaning the streets of the market. No repairs to the building were found necessary during the quarter.

Firemen's Hall.

This building, which is owned by the City, and used by a veteran firemen's association of the Eastern District, entailed no expense whatever on this Bureau during the quarter.

Gates Avenue Court.

This building is now well-nigh completed, and arrangements have been made to give possession to the two courts, which it is intended to accommodate, on October 15.

Interior Public Baths.

The Hicks street and Pitkin avenue buildings required considerable attention in the repairs relation during the quarter—mostly in connection with their plumbing and heating plants.

The Montrose avenue building was opened on September 26, and has since been accommodating on an average of 2,000 men, women and children daily.

The Huron street building is more than half completed; the front work has been finished; the boilers installed in the cellar; the vault work entirely completed; the heating and ventilating ducts installed; the fire-proofing well under way; the rough plumbing work done, and the indications are that the roof will be finished within two weeks. After the building has been inclosed, progress will be more rapid, as there will be no delay on account of the weather.

Duffield Street Bath—The work on this building during July, August and September was delayed considerably by reason of the unsettled state of labor. However, the structure has advanced fairly well, considering the drawbacks. Within a few weeks the building will be inclosed, and I anticipate that a better showing on this work will be made during the coming quarter.

Public Comfort Stations.

Since the first of July the six comfort stations of this borough have accommodated more than two million persons; men, women and children. Repairs to the plumbing and steam heating plants were made as occasion required.

OFFICES OF THE PRESIDENT OF THE BOROUGH OF BROOKLYN.

October 10, 1904.

Report of the financial transactions of the several bureaus comprising the Public Works of the Borough of Brooklyn, for the quarter ending September 30, 1904.

General Bookkeeper.

BOARD OF ARMORY COMMISSIONERS.

The City of New York, November 17, 1904.

A meeting of the Armory Board was held this day, at 2 o'clock P. M., at the office of the Mayor.

Present—The Mayor, the President of the Department of Taxes and Assessments, the President of the Board of Aldermen, Brigadier-General James McLeer and Brigadier-General George Moore Smith.

Printed copies of the minutes of the meeting held September 20, 1904, were presented by the Secretary and adopted.

A communication was received from the Secretary of the Commissioners of the Sinking Fund, of date October 24, 1904, transmitting a copy of a report by the Engineer of the Department of Finance, in relation to the installation of a proposed plant for supplying electricity in the Seventh Regiment Armory.

The Secretary also presented a communication of date November 5, 1904, from Clinton & Russell, architects, on the same subject. Which was referred to the Committee on Armories for Manhattan and The Bronx.

A communication was received from the Secretary of the Commissioners of the Sinking Fund, of date October 24, 1904, transmitting a certified copy of a resolution adopted by that body, at a meeting held October 21, 1904, concurring in the action of the Armory Board, by resolutions adopted September 29, 1904, accepting the bids of Thomas J. Buckley. Ordered filed.

The Secretary of the Armory Board reports the execution on November 7, 1904, of two contracts with Thomas J. Buckley, for alterations to armories, one for \$3,600 and the other for \$10,500.

A notice of violation from the Bureau of Buildings, of date October 17, 1904, in relation to the Sixty-ninth Regiment Armory, was received; and the Secretary of the Armory Board reports that these violations have been removed by the contractor. Ordered filed.

A communication from the Deputy Comptroller was received, dated October 14, 1904, notifying the Armory Board that \$25,000 was deposited in the City Treasury to its credit. Ordered filed.

A communication was received from Lord & Hewlett, architects for the Second Battalion Naval Militia Armory, relative to the appointment of special steel inspectors for the truss work. Which was referred to the Committee on Armories for Brooklyn and Queens.

A communication was received from Colonel John G. Eddy, commanding the Forty-seventh Regiment, N. G., N. Y., of date October 1, 1904, requesting a special appropriation of \$800, for the purpose of supplying rifle racks in the armory of that organization. Which was referred to the Committee on Armories for Brooklyn and Queens.

A communication, of date October 10, 1904, was received from A. B. Chamberlain, making application for the appointment of Consulting Engineers, in relation to the proposed Seventh Regiment lighting plant. Ordered filed.

A communication was received from W. F. Morris, Colonel of the Ninth Regiment, N. G., N. Y., of date October 21, 1904, in relation to coal delivered at the armory of his organization not complying with the specifications. Ordered filed.

The Secretary presents applications and affidavits for payments, on account of contracts for work done at various armories, with certificates of the architects and inspectors, as follows:

Kennedy & Son, of date October 6, 1904, on account of work done at Troop "C" Armory, \$20,098.25, and of date November 6, 1904, \$15,045, which, on the statement by the President of the Department of Taxes and Assessments that complaints had been received about the character of the work, were laid over for investigation.

The following applications for payments were also received, and resolutions offered by the Mayor for payment, namely:

The Fleischmann Realty and Construction Company, of date November 1, 1904, \$25,500, on account of their contract at the Seventy-first Regiment Armory, in the Borough of Manhattan.

Resolved, That the Comptroller be authorized to pay to the Fleischmann Realty and Construction Company, contractors, the sum of twenty-five thousand five hundred dollars (\$25,500), as per accompanying voucher, on account of their contract for the erection and completion of an armory building for the Seventy-first Regiment, N. G., N. Y., at Thirty-fourth street and Fourth avenue, in the Borough of Manhattan.

Which was adopted by the following vote:

Ayes—The Mayor, the President of the Department of Taxes and Assessments, the President of the Board of Aldermen, Brigadier-General James McLeer and Brigadier-General George Moore Smith.

The James D. Murphy Company, of date November 4, \$53,406.83, on account of their contract for the Sixty-ninth Regiment Armory, in the Borough of Manhattan.

Resolved, That the Comptroller be authorized to pay to the James D. Murphy Company, contractors, the sum of fifty-three thousand four hundred and six dollars and eighty-three cents (\$53,406.83), as per accompanying voucher, on account of their contract for the erection and completion of an armory for the Sixty-ninth Regiment, N. G., N. Y., at Lexington avenue, Twenty-fifth and Twenty-sixth street, in the Borough of Manhattan.

Which was adopted by the following vote:

Ayes—The Mayor, the President of the Department of Taxes and Assessments, the President of the Board of Aldermen, Brigadier-General James McLeer and Brigadier-General George Moore Smith.

To Hunt & Hunt, architects, on account of their contract for professional services in the preparation of plans and specifications and the supervision of the construction of an armory building for the Sixty-ninth Regiment, N. G., N. Y., in the Borough of Manhattan, \$1,335.17.

Resolved, That the Comptroller be authorized to pay to Messrs. Hunt & Hunt, architects, the sum of one thousand three hundred and thirty-five dollars and seventeen cents (\$1,335.17), as per accompanying voucher, on account of their contract for professional services required in the preparation of the plans and specifications and the supervision of the construction of an armory building for the Sixty-ninth Regiment, N. G., N. Y., in the Borough of Manhattan.

Which was adopted by the following vote:

Ayes—The Mayor, the President of the Department of Taxes and Assessments, the President of the Board of Aldermen, Brigadier-General James McLeer and Brigadier-General George Moore Smith.

To Pilcher, Thomas & Tachau, architects, for professional services in connection with Troop C Armory, in the Borough of Brooklyn, of date October 17, 1904, \$502.45; and November 7, 1904, \$376.13.

Which were laid over, because they were in connection with the work of Kennedy & Son, awaiting investigation. To Pilcher, Thomas & Tachau, architects, for professional services on account of extra work at Troop C Armory.

Resolved, That the Comptroller be authorized to pay to Messrs. Pilcher, Thomas & Tachau, architects, the sum of thirty-one dollars and eighty-eight cents (\$31.88), as per accompanying voucher, in full, for professional services in connection with extra excavation at Troop C Armory site, in the Borough of Brooklyn, under the contract of James Kennedy & Son, and that the Commissioners of the Sinking Fund be requested to concur therein.

Which was adopted by the following vote:

Ayes—The Mayor, the President of the Department of Taxes and Assessments, the President of the Board of Aldermen, Brigadier-General James McLeer and Brigadier-General George Moore Smith.

To Clinton & Russell, architects, of date October 18, 1904, on account of their contract for professional services in the preparation of plans and specifications and the supervision of the construction of an armory building for the Seventy-first Regiment, N. G., N. Y., in the Borough of Manhattan, \$9,350.

Resolved, That the Comptroller be authorized to pay to Messrs. Clinton & Russell, architects, the sum of nine thousand three hundred and fifty dollars (\$9,350), as per accompanying voucher, on account of their contract for the preparation of plans and specifications and the supervision of the erection of an armory building for the Seventy-first Regiment, N. G., N. Y., in the Borough of Manhattan.

Which was adopted by the following vote:

Ayes—The Mayor, the President of the Department of Taxes and Assessments, the President of the Board of Aldermen, Brigadier-General James McLeer and Brigadier-General George Moore Smith.

To Parfitt Brothers, architects, for professional services in connection with alterations to various armories, \$262.50.

Resolved, That the Armory Board does hereby approve the bill and expense of Parfitt Brothers, architects, amounting to the sum of two hundred and sixty-two dollars and fifty cents (\$262.50), on account, as per accompanying voucher, for professional services rendered in preparing plans and specifications for removal of violations on armories, together with the additional gates, lanterns and storm doors required on armories of Squadron A, Eighth, Twelfth, Fourteenth, Twenty-second and Twenty-third Regiments, and the Seventeenth Separate Company, and that the Commissioners of the Sinking Fund be requested to concur in the same.

Which was adopted by the following vote:

Ayes—The Mayor, the President of the Department of Taxes and Assessments, the President of the Board of Aldermen, Brigadier-General James McLeer and Brigadier-General George Moore Smith.

A communication was received from Messrs. Lord & Hewlett, architects of the armory building for the Second Battalion Naval Militia, in the Borough of Brooklyn, recommending: "To extend the spatter course of Medina stone now to the north of the entrance on the east front of the building to a similar distance to the south of the entrance at an expense not exceeding \$450."

The Secretary reports that this change has been duly authorized by the Board and is being made.

The Secretary made a report relative to the application of the commanding officer of the Fourteenth Regiment, N. G., N. Y., for additional galleries, etc., in the armory of that organization.

The President of the Board of Aldermen offered the following:

Resolved, That the additional gallery, alteration to the rooms, and the lighting system in the Fourteenth Regiment Armory, as recommended by the Committee, and as reported upon by the Secretary, be authorized; that the sum of eleven thousand five hundred dollars be appropriated therefor; that the Commissioners of the Sinking Fund be requested to concur therein and authorize the Comptroller to issue bonds for the payment thereof; and that the Secretary be directed to have the plans and specifications prepared and advertise for bids and proposals for the work.

Which was adopted by the following vote:

Ayes—The Mayor, the President of the Department of Taxes and Assessments, the President of the Board of Aldermen, Brigadier-General James McLeer and Brigadier-General George Moore Smith.

The Secretary presented a request to transfer the sum of \$3,360.62 from appropriations entitled: "Contingencies, Manhattan and The Bronx; Contingencies, Brooklyn and Queens, and Headquarters, Naval Militia, New York," to various armories.

The Mayor offered the following:

Resolved, That the Board of Estimate and Apportionment be requested to transfer the several sums hereinafter named, from the appropriations made to the Armory Board for the year 1904, entitled "Care and Maintenance of Armories, Repairs and Supplies."

From	
"Contingencies—Manhattan and The Bronx".....	\$2,713 09
"Contingencies—Brooklyn and Queens".....	496 45
"Headquarters—N. M., N. Y.".....	151 08
	<hr/>
	\$3,360 62

—the same being in excess of the amounts required for the purposes thereof, to the appropriations made to the said Board for the year 1904.

To	
Eighth Regiment	\$692 45
Ninth Regiment	220 45
Sixty-ninth Regiment	37 73
Squadron "A"	845 58
First Battery	700 00
Second Battery	15 92
First Battalion, N. M.	151 08
Headquarters, N. G., N. Y.	108 40
Thirteenth Regiment	283 05
Second Signal Corps.....	212 80
Supplies and Contingencies.....	92 56
	<hr/>
	\$3,360 62

—the amount of said appropriations being insufficient.

Which was adopted by the following vote:

Ayes—The Mayor, the President of the Department of Taxes and Assessments, the President of the Board of Aldermen, Brigadier-General James McLeer and Brigadier-General George Moore Smith.

A communication was received from Messrs. Lord & Hewlett, of date November 16, 1904, recommending the use of 3/4-inch tie rods in floor beams, in the armory of the Second Battalion Naval Militia, in place of 3/4-inch, as specified, and making an allowance therefor of \$30 from the contract price.

The Mayor offered the following:

Resolved, That in accordance with the proposal of the contractor, James McFerran, and the recommendations of the architects, Lord & Hewlett, the contract for the Second Battalion Naval Militia Armory be modified so as to specify five-eighths-inch tie rods for the floor beams, instead of three-fourths-inch, and that an allowance of thirty dollars (\$30) be allowed from the contract price therefor.

Which was adopted by the following vote:

Ayes—The Mayor, the President of the Department of Taxes and Assessments, the President of the Board of Aldermen, Brigadier-General James McLeer and Brigadier-General George Moore Smith.

The Secretary presented an application for payment to James McFerran, contractor for the Second Battalion Naval Militia Armory, \$36,934.20, which was certified by the architects, but which had not been certified by the Clerk of the Works.

On motion of the Mayor, it was laid over.

A motion to adjourn was adopted.

EUGENE A. FORNES, Secretary.

From Kings County Penitentiary—Prisoners to be discharged October 24 to 29, 1904: Men, 10; women, 3. On file.

From Kings County Penitentiary—Reports—Census, labor, etc., for week ending October 22, 1904. On file.

Communications Transmitted.

To President, Board of Aldermen:

Transmitting plans and specifications, agreement, consent of securities, etc., for changes desired in contract of Carlin & Co., for walls and gates at City Prison, and asking consent of the Board to such changes, which will be a saving to the City of \$654. Revision of plans calls for change in sentry house and lavatory, and in putting in new 15-ton scale instead of repairing old one.

Proposals Accepted.

Of M. J. Farrell, No. 102 East Twelfth street, to repair copper and slate roofs and leaders at City Prison, for \$240.

Of the Powers Regulator Company, No. 111 Fifth avenue, to overhaul and put in order the automatic temperature controlling system at City Prison, the same to be made "satisfactory and efficient in the highest degree," for \$256.

Appointed.

Orville R. Todd, Marine Engineer, on steamboats, at \$900 per annum, to date from October 26, 1904. Certified by Civil Service Commission on October 21, 1904.

Transferred and Salary Increased.

Edward W. Delaney, Keeper at Penitentiary, Blackwell's Island, at \$900, transferred to City Prison. Designated to act as Head Night Keeper, and salary increased to \$1,200 per annum. Action to date from November 1, 1904.

Reinstated.

John Bell, Clerk on steamboats (dismissed October 3, 1904, for absence without leave), reinstated in position at salary of \$120 per annum, to date from October 24, 1904.

FRANCIS J. LANTRY, Commissioner.

MUNICIPAL EXPLOSIVES COMMISSION.

Headquarters New York City Fire Department, }
September 30, 1904. }

Meeting of the Municipal Explosives Commission, held at the Headquarters of the New York City Fire Department, Friday, September 30, 1904.

Deputy Fire Commissioner Churchill in the chair.

Present—Commissioners Piser, Sherry and Montgomery.

Minutes of previous meetings read and approved.

Schedule for Painters' Supply Stores were taken up and laid over for further consideration.

Battalion Chief Beggins, head of the Bureau of Violations and Auxiliary Fire Appliances, and Inspector Murray, Chief of the Bureau of Combustibles, addressed the Commission, by request, on the conditions found in some of the wholesale drug houses in the City.

On motion, Inspector Murray and Battalion Chief Beggins were requested to confer and to advise the Commission as to what action, if any, they would recommend to the Commission.

The Chair thanked the Inspector of Combustibles and the head of the Bureau of Violations and Auxiliary Fire Appliances for calling the Commission's attention to the present conditions.

Commission adjourned to 9.30 A. M., Wednesday, October 5, 1904.

FRANZ S. WOLF, Secretary.

MUNICIPAL EXPLOSIVES COMMISSION.

Headquarters New York City Fire Department, }
October 5, 1904. }

Meeting of the Municipal Explosives Commission, held at the Headquarters of the New York City Fire Department, Wednesday, October 5, 1904.

Deputy Fire Commissioner Churchill in the chair.

Present—Commissioners Piser, Sherry and Montgomery.

Minutes of previous meeting read and approved.

The vote by which new section 23, part 1, Municipal Explosives Commission's Regulations, was passed August 23, 1904, was reconsidered.

On motion, the resolution was amended to read as follows:

Resolved, That Part 1 of the Municipal Explosives Commission's Regulations be amended by a new section, to be known as section 23, and to read as follows:

Section 23. All explosives, explosive compounds or mixtures of explosive articles, fireworks, fireworks composition, signal composition, signals, or any article, the use, sale or keeping of which within The City of New York is prohibited by these Regulations, shall be subject to seizure, and after seizure, shall, upon three (3) days' notice to the owner or claimant, be sold and the proceeds of such sale, after deducting all expenses, shall be forfeited and paid over to and for the use and benefit of the Relief Fund of the Fire Department of The City of New York; or all said articles shall be destroyed, if in the discretion of the Fire Commissioner the public interest or safety should so demand.

On motion of Commissioner Sherry, the resolution was passed as amended. Commissioners Sherry, Piser and Montgomery voting in the affirmative.

The use of anhydrous ammonia in refrigerating apparatus, particularly in hotels, was taken up for consideration.

Inspector Murray was asked to explain the practices of the Department relative to the handling of compressed gases.

Commission adjourned to 9.30 A. M., Monday, October 10, 1904.

FRANZ S. WOLF, Secretary.

BOARD OF ALDERMEN.

Public notice is hereby given that the Committee on Streets and Highways of the Board of Aldermen will hold a public hearing in the Aldermanic Chamber, City of New York, Borough of Manhattan, on Monday, November 21, 1904, at 2 o'clock P. M., on the following matter:

An Ordinance in relation to bicycle races and other contests of skill, speed or endurance in The City of New York.

All persons interested in the above matter are respectfully requested to attend.

P. J. SCULLY,
City Clerk and Clerk of the
Board of Aldermen.

CHANGES IN DEPARTMENTS.

BOARD OF EDUCATION.

November 17—At the meeting of the Executive Committee of the Board of Education, held on the 16th inst., action relative to appointments, salaries, etc., was taken as follows:

A leave of absence, without pay, for six months from November 16, 1904, was granted to Francis F. Underhill, Bookkeeper in the Bureau of Audit and Accounts.

The appointment of Joseph E. Savage, on May 18, 1904, as Examiner of Claims in the Bureau of Audit and Accounts, for a period of six months was made permanent.

The action by the Committee on Supplies, in accepting the resignation of Miss Elizabeth M. McLoughlin, Stenographer and Typewriter in the office of the Principal of the Girls' Technical High School, taking effect on the close of business on November 7, 1904, was approved.

The action of the Committee on Supplies, on November 14, 1904, in promoting Miss Ethel Gittoe, Stenographer and Typewriter, to the position made vacant by the resignation of Miss Elizabeth M. McLoughlin, and increasing her salary to \$750 per annum, taking effect November 15, 1904, subject to the Rules and Regulations of the Municipal Civil Service Commission, was approved and ratified.

The vacancy in the position of Stenographer and Typewriter in the office of the Deputy Superintendent of School Buildings, Brooklyn, caused by the transfer of Miss Ella A. Garland to the Law Department, was filled by the transfer of Miss May E. O'Leary from the Tenement House Commission, at a salary of \$750 per annum.

Felicia Cafferata, of No. 110 Washington place, Manhattan, was appointed to the position of Attendance Officer, at a salary of \$900 per annum, taking effect November 18, 1904.

The action of the Committee on Buildings in accepting the following resignations on the dates mentioned was approved:

Joseph T. Murphy, Draughtsman, November 1, 1904.

William V. Bunker, Architectural Draughtsman, October 23, 1904.

The action of the Committee on Buildings in making the following appointments, on the dates and at the rates of compensation indicated, was approved and ratified:

Julius Stoll, No. 59 West Ninety-eighth street, Architectural Draughtsman, November 7, 1904, \$25 per week.

W. E. H. Lucht, No. 157 East Seventy-seventh street, Architectural Draughtsman, November 2, 1904, \$18 per week.

John M. Baird, No. 541 West One Hundred and Twenty-fourth street, Architectural Draughtsman, November 7, 1904, \$25 per week.

Benjamin F. Brindley, Jr., Inspector of Masonry and Carpentry, November 14, 1904, \$27 per week.

The action of the Committee on Buildings in increasing the compensation of Albert E. W. Wyeth, in charge of the draughting room in the Bureau of Buildings, Brooklyn, from \$20 to \$30 per week, taking effect from November 1, 1904, was approved and ratified.

The action of the Committee on Special Schools in accepting the resignations of the following-named persons on the dates indicated, was approved:

Reuben Newman, Cutter, New York Truant School, November 1, 1904.

Lavina Powers, Cook, New York Truant School, November 8, 1904.

Mary Rhodes, Laundress at the New York Truant School, was transferred to the position of Cook, to fill the vacancy caused by the resignation of Lavina Powers.

The action of the Committee on Special Schools in assigning Mrs. Anna Mehl temporarily to duty as Cook in the Brooklyn Truant School on November 5, 6, 7, 8, 9, 10, 11, 12, 13, 1904, at the rate of \$1 per day, to fill the place of Mrs. Lizzie Mouhot, absent on account of illness, was approved and ratified.

The following-named persons, who have absented themselves from duty without leave for more than five days, were considered as having resigned, in accordance with subdivision 2 of Rule XIII. of the Municipal Civil Service Commission, which provides that absence without leave for a period of five days shall be construed as a resignation:

Bernard Marx, Cleaner, Morris High School.

Patrick Byrnes, Cleaner, Morris High School.

Edward F. Payne, Cleaner, Public School 188.

William L. Skidmore, Watchman at Public School 162, Manhattan, was suspended without pay and his position abolished as unnecessary, taking effect November 5, 1904.

The action of the Committee on Care of Buildings, in accepting the resignation of Catherine Fox, Cleaner in Public School 60, Queens, taking effect November 1, 1904, was approved.

The action of the Committee on Care of Buildings, in fixing the salary attached to the position of Janitor of new Public School 6, Richmond, at the rate of \$480 per annum, as of April 8, 1901, the date on which said school building was opened, was approved and ratified.

The action of the Committee on Care of Buildings, in assigning the following-named Janitors and Cleaner, temporarily, to the care of public schools, was approved and ratified, they to receive the salary of the position, less the rent allowance, in each case:

David H. Pierce (Janitor), to Public School 162, Manhattan, November 5, 1904.

William Lott (Janitor), to Public School 115, Annex, Brooklyn, April 1, 1904.

Frank P. Littell (Cleaner), to Public School 6, Richmond, November 1, 1904.

The action of the Committee on Care of Buildings, in increasing the salaries of the following-named Janitors to the amounts and on the dates indicated, on account of additional machinery and rent allowance, was approved and ratified:

John Doyle, Public School 118, Brooklyn, from \$2,198.40 to \$2,217.60, April 1, 1903; cause, extra gas pump.

John Reilly, Public School 56, Manhattan, from \$1,547 to \$1,911, July 1, 1904; cause, rent allowance.

Chas. E. Bedell, Public School 60, Brooklyn, from \$1,108.32 to \$1,287, February 15, 1904; cause, rent allowance.

The action of the Committee on Care of Buildings, in transferring the following-named Janitor and Cleaner to the schools indicated, taking effect November 1, 1904, was approved and ratified:

Charles Fehrentz (Janitor), from Public School 163, Manhattan, to Public School 141, Manhattan, salary \$1,586.

Frank P. Littell (Cleaner), from Public School 6, Richmond, to Public School 31 (new), Richmond, salary \$720.

The action of the Committee on Care of Buildings, in making the following appointments of Janitor, Stoker and Cleaners, was approved and ratified:

John J. Molloy (Janitor), to Recreation Pier, Manhattan, salary \$1,188, November 7, 1904.

Matthew Muldoon (Stoker), to Public School 17, Richmond, salary \$912.50, October 26, 1904.

John Rupp (Cleaner), to Public School 17, Richmond, salary \$480, November 1, 1904.

Daniel Donovan (Cleaner), to Public School 14, Richmond, salary \$480, November 14, 1904.

Edward F. Donohue (Cleaner), to Public School 1, Queens, salary \$480, November 3, 1904.

Loretta Blaney (Cleaner), to Public School 60, Queens, salary \$396, November 1, 1904.

Michael Manzelli (Cleaner), to Public School 83, Queens, salary \$480, October 24, 1904.

John O'Connor (Cleaner), Public School 188, Manhattan, salary \$40 per month, November 14, 1904.

Patrick Carroll (Cleaner), Public School 188, Manhattan, salary \$40 per month, November 15, 1904.

TWENTY-FOURTH WARD, SECTION 12.

NORWOOD AVENUE (DECATUR AVENUE)—REGULATING, GRADING, CURBING AND FLAGGING, from its present southerly terminus to Woodlawn road. Area of assessment: Both sides of Norwood avenue, extending northerly from Woodlawn road about 131 feet.

—that the same were confirmed by the Board of Revision of Assessments on November 17, 1904, and entered on November 17, 1904, in the Record of Titles of Assessments, kept in the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, in the Municipal Building, corner of One Hundred and Seventy-seventh street and Third avenue, Borough of The Bronx, between the hours of 9 A. M. and 2 P. M., and on Saturdays from 9 A. M. to 12 M., and all payments made thereon on or before January 16, 1905, will be exempt from interest, as above provided, and after that date will be subject to a charge of interest at the rate of seven per centum per annum from the date when the above assessments became liens to the date of payment.

Said section provides in part that "If any such assessment shall remain unpaid for the period of sixty days after the date of entry thereof in the said Record of Titles of Assessments, it shall be the duty of the officer authorized to collect and receive the amount of such assessment to charge, collect and receive interest thereon at the rate of seven per centum per annum, to be calculated to the date of payment from the date when such assessment became a lien, as provided by section 150 of this act."

Section 150 of this act provides * * * "An assessment shall become a lien upon the real estate affected thereby ten days after its entry in the said record."

The above assessments are payable to the Collector of Assessments and Arrears at the Bureau for the Collection of Assessments, and Arrears of Taxes and Assessments and of Water Rents, in the Municipal Building, corner of One Hundred and Seventy-seventh street and Third avenue, Borough of The Bronx, between the hours of 9 A. M. and 2 P. M., and on Saturdays from 9 A. M. to 12 M., and all payments made thereon on or before January 16, 1905, will be exempt from interest, as above provided, and after that date will be subject to a charge of interest at the rate of seven per centum per annum from the date when the above assessments became liens to the date of payment.

NOTICE TO PROPERTY-OWNERS.

IN PURSUANCE OF SECTION 1018 OF THE Greater New York Charter, the Comptroller of The City of New York hereby gives public notice to all persons, owners of property, affected by the following assessments for LOCAL IMPROVEMENTS in the BOROUGH OF MANHATTAN:

TWELFTH WARD, SECTION 7.

ONE HUNDRED AND FORTY-SECOND STREET—PAVING, from Lenox avenue to Seventh avenue. Area of assessment: Both sides of One Hundred and Forty-second street, from Lenox avenue to Seventh avenue, and to the extent of half the block at the intersecting and terminating streets.

—that the same were confirmed by the Board of Revision of Assessments on November 17, 1904, and entered on November 17, 1904, in the Record of Titles of Assessments, kept in the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, in the Municipal Building, corner of One Hundred and Seventy-seventh street and Third avenue, Borough of The Bronx, between the hours of 9 A. M. and 2 P. M., and on Saturdays from 9 A. M. to 12 M., and all payments made thereon on or before January 16, 1905, will be exempt from interest, as above provided, and after that date will be subject to a charge of interest at the rate of seven per centum per annum from the date when the above assessments became liens to the date of payment.

Said section provides in part that "If any such assessment shall remain unpaid for the period of sixty days after the date of entry thereof in the said Record of Titles of Assessments, it shall be the duty of the officer authorized to collect and receive the amount of such assessment to charge, collect and receive interest thereon at the rate of seven per centum per annum, to be calculated to the date of payment from the date when such assessment became a lien, as provided by section 150 of this act."

Section 150 of this act provides * * * "An assessment shall become a lien upon the real estate affected thereby ten days after its entry in the said record."

The above assessment is payable to the Collector of Assessments and Arrears, at the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, Room No. 85, No. 280 Broadway, Borough of Manhattan, between the hours of 9 A. M. and 2 P. M., and on Saturdays from 9 A. M. to 12 M., and all payments made thereon on or before January 16, 1905, will be exempt from interest, as above provided, and after that date will be subject to a charge of interest at the rate of seven per centum per annum from the date when the above assessment became a lien to the date of payment.

NOTICE TO PROPERTY-OWNERS.

IN PURSUANCE OF SECTION 1018 OF THE Greater New York Charter, the Comptroller of The City of New York hereby gives public notice to all persons, owners of property, affected by the following assessments for LOCAL IMPROVEMENTS in the BOROUGH OF BROOKLYN:

EIGHTH AND THIRTIETH WARD, SECTION 3.

FIFTY-THIRD STREET—REGULATING, GRADING, CURBING AND PAVING GUTTERS, between Seventh avenue and Eighth avenue. Area of assessment: Both sides of Fifty-third street, from Seventh avenue to Eighth avenue, and to the extent of half the block at the intersecting and terminating streets.

TWENTY-SIXTH WARD.

ASHFORD STREET—REGULATING AND PAVING SIDEWALK, CURBING AND LAYING CEMENT SIDEWALK, between Jamaica avenue and Arlington avenue. Area of assessment: Both sides of Ashford street, from Jamaica avenue to Arlington avenue, and to the extent of half the block at the intersecting and terminating streets.

—that the same were confirmed by the Board of Revision of Assessments on November 17, 1904, and entered on November 17, 1904, in the Record of Titles of Assessments, kept in the Bureau for the Collection of Assessments and Arrears of Taxes and of Water Rents, and unless the amount assessed for benefit on any person or property shall be paid within sixty days after the said date of entry of the assessments, interest will be collected thereon, as provided in section 1010 of said Greater New York Charter.

Said section provides in part that "If any such assessment shall remain unpaid for the period of sixty days after the date of entry thereof in the said Record of Titles of Assessments, it shall be the duty of the officer authorized to collect and receive the amount of such assessments to charge, collect and receive interest thereon at the rate of seven per centum per annum, to be calculated to the date of payment from the date when such assessments became liens, as provided in section 150 of this act."

Section 150 of this act provides * * * "An assessment shall become a lien upon the real estate affected thereby ten days after its entry in the said record."

The above assessments are payable to the Collector of Assessments and Arrears at the Bureau for the Collection of Assessments, and Arrears of Taxes and Assessments and of Water Rents, in the Municipal Building, Borough of Brooklyn, between the hours of 9 A. M. and 2 P. M., and on Saturdays from 9 A. M. to 12 M., and all payments made thereon on or before January 16, 1905, will be exempt from interest, as above provided, and after that date will be subject to a charge of interest at the rate of seven per centum per annum from the date when the above assessments became liens to the date of payment.

NOTICE TO PROPERTY-OWNERS.

IN PURSUANCE OF SECTION 1018 OF THE Greater New York Charter, the Comptroller of The City of New York hereby gives public notice to all persons, owners of property, affected by the following assessments for LOCAL IMPROVEMENTS in the BOROUGH OF BROOKLYN:

TWENTY-EIGHTH WARD.

ST. NICHOLAS AVENUE—REGULATING, GRADING AND PAVING, from Ralph street to the Queens County line, and SETTING AND RESETTING CURB, where not already done. Area of assessment: Both sides of St. Nicholas avenue, from Ralph street to the Queens County line, and to the extent of half the block at the intersecting and terminating streets on Block 108 in the Borough of Brooklyn, and in Second Ward, Borough of Queens, Block 37, Lots Nos. 19 to 35, inclusive.

TWENTY-NINTH WARD.

ALBANY AVENUE—REGULATING, GRADING, PAVING, SETTING CEMENT CURB, PAVING GUTTERS AND LAYING SIDEWALKS, between Lincoln road and Clarkson street. Area of assessment: Both sides of Albany avenue, from Lincoln road to Clarkson street, and to the extent of half the block at the intersecting and terminating streets.

—that the same were confirmed by the Board of Assessors on November 15, 1904, and entered on November 16, 1904, in the Record of Titles and Assessments, kept in the Bureau for the Collection of Assessments, and Arrears of Taxes and Assessments and of Water Rents, and unless the amount assessed for benefit on any person or property shall be paid within sixty days after the date of said entry of the assessments, interest will be collected thereon, as provided in section 1010 of said Greater New York Charter.

Said section provides in part that "If any such assessment shall remain unpaid for the period of sixty days after the date of entry thereof in the said Record of Titles of Assessments, it shall be the duty of the officer authorized to collect and receive the amount of such assessments to charge, collect and receive interest thereon at the rate of seven per centum per annum, to be calculated to the date of payment from the date when such assessments became liens, as provided by section 150 of this act."

Section 150 of this act provides * * * "An assessment shall become a lien upon the real estate affected thereby ten days after its entry in the said record."

The above assessments are payable to the Collector of Assessments and Arrears, at the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, in the Municipal Building, Borough of Brooklyn, between the hours of 9 A. M. and 2 P. M., and on Saturdays from 9 A. M. to 12 M., and all payments made thereon on or before January 16, 1905, will be exempt from interest, as above provided, and after that date will be subject to a charge of interest at the rate of seven per centum per annum from the date when the above assessments became liens to the date of payment.

NOTICE OF ASSESSMENTS FOR OPENING STREETS AND PARKS.

IN PURSUANCE OF SECTION 1005 OF THE Greater New York Charter, the Comptroller of The City of New York hereby gives public notice of the confirmation by the Supreme Court, and the entering in the Bureau for the Collection of Assessments and Arrears, of the assessment for OPENING AND ACQUIRING TITLE to the following-named street in the BOROUGH OF THE BRONX:

TWENTY-THIRD AND TWENTY-FOURTH WARD, SECTIONS 9 AND 11.

ORCHARD STREET (for East One Hundred and Sixty-ninth street)—OPENING, from Sedgwick avenue to Boscobel avenue. Confirmed August 25, 1904; entered November 11, 1904. Area of assessment includes all those lots, pieces or parcels of land situated, lying and being in The City of New York which taken together are bounded and described as follows, viz.: On the north by the southerly side of Commerce avenue, from a line drawn parallel to Sedgwick avenue distant 100 feet westerly from the westerly side thereof to the westerly side of Sedgwick avenue; thence along a straight line to the corner formed by the intersection of the easterly side of Lind avenue with the southerly side of East One Hundred and Seventieth street; thence by the northerly side of a line drawn parallel to Jerome avenue and distant 100 feet easterly from the easterly side thereof; on the south by the northerly and northeasterly side of East One Hundred and Sixty-seventh street from a line drawn parallel to Sedgwick avenue distant 100 feet westerly from the westerly side thereof to the northerly side of East One Hundred and Sixty-eighth street; thence along the northerly side of East One Hundred and Sixty-eighth street to Boscobel avenue; thence southerly along the easterly side of Boscobel avenue to the intersection of Boscobel avenue with Jerome avenue; thence by the northerly side of East One Hundred and Sixty-seventh street to a line drawn parallel to Jerome avenue and distant 100 feet easterly from the easterly side thereof; on the east by a line drawn parallel to Jerome avenue distant 100 feet easterly from the easterly side thereof from the northerly side of East One Hundred and Sixty-seventh street; and on the west by a line drawn parallel to Sedgwick avenue distant 100 feet westerly from the westerly side thereof from the northerly side of East One Hundred and Sixty-seventh street to the southerly side of Commerce avenue.

The above-entitled assessment was entered on the date hereinbefore given in the Record of Titles of Assessments, kept in the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents. Unless the amount assessed for benefit on any person or property shall be paid within sixty days after the date of said entry of the assessments, interest will be collected thereon as provided in section 1006 of the Greater New York Charter.

Said section provides that "If any such assessment shall remain unpaid for the period of sixty days after the date of entry thereof in the said Record of Titles of Assessments, it shall be the duty of the officer authorized to collect and receive the amount of such assessment to charge, collect and receive interest thereon at the rate of seven per centum per annum, to be calculated to the date of payment from the date when such assessment became a lien, as provided by section 150 of this act."

Section 150 of this act provides * * * "An assessment shall become a lien upon the real estate affected thereby ten days after its entry in the said record."

The above assessment is payable to the Collector of Assessments and Arrears, at the Bureau for the Collection of Assessments, and Arrears of Taxes and Assessments and of Water Rents, in the Municipal Building, corner of One Hundred and Seventy-seventh street and Third avenue, Borough of The Bronx, between the hours of 9 A. M. and 2 P. M., and on Saturdays from 9 A. M. to 12 M., and all payments made thereon on or before January 16, 1905, will be exempt from interest, as above provided, and after that date will be subject to a charge of interest at the rate of seven per centum per annum from the date when the above assessment became a lien to the date of payment.

EDWARD M. GROUT, Comptroller.
CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE, November 11, 1904. 1
n12,d6

NOTICE OF SALE OF LANDS AND TENEMENTS WITHIN THAT PART OF THE CITY OF NEW YORK KNOWN AS THE FIRST WARD OF THE BOROUGH OF QUEENS, FORMERLY KNOWN AS LONG ISLAND CITY FOR THE IMPROVEMENTS IN THE LAYING OUT OF GRAND AVENUE AND MAIN STREET

CITY OF NEW YORK, DEPARTMENT OF FINANCE,
OFFICE OF THE COMPTROLLER FOR THE COLLECTION OF ASSESSMENTS AND ARREARS, STEWART BUILDING,
No. 280 BROADWAY, BOROUGH OF MANHATTAN,
July 1, 1904.

Under the direction of EDWARD M. GROUT, Comptroller of the City of New York, the undersigned hereby gives public notice pursuant to the provisions of Chapter 514, Laws of 189, and of the Greater New York Charter, Chapter 466, Laws of 1901.

That the respective owners of the lands and tenements within that part of the City of New York known as the First Ward of the Borough of Queens, formerly known as Long Island City, on which the assessments levied to the local improvement known as the IMPROVEMENT OF GRAND AVENUE AND MAIN STREET (confirmed April 1, 1890, now remain unpaid, are required to pay the amount of the assessment so due and remaining unpaid, together with the interest thereon at the rate of ten per cent. per annum, and the charges of this notice and advertisement, to the Collector of Assessments and Arrears at his office in the Department of Finance, Hackett Building, Jackson Avenue and Fifth Street, Long Island City, Borough of Queens.

And if default shall be made in such payment, such lands and tenements will be sold at public auction at the office of the Collector of Assessments and Arrears as given herein in the Borough of Queens, in the City of New York, on Monday the 27th day of December 1904 at 1 o'clock P. M., for the lowest term of years for which any person shall offer to take the same, in consideration of advancing the amount of the assessment so due and unpaid and the interest and charges thereon, aforesaid, and all other costs and charges that may have a credit thereon; and such sale shall be continued from time to time until all the lands and tenements as advertised for sale shall be sold.

And notice is hereby further given that a detailed statement of the amount due and unpaid on each assessment, a description of the property, and the ownership of the property assessed, is published in a pamphlet and that copies of the pamphlet are deposited in the offices of the Collector of Assessments and Arrears in the Department of Finance, situated respectively in the Boroughs of Manhattan and Queens, and will be delivered to any person applying for the same.

EDWARD A. SLATTERY,
Collector of Assessments and Arrears.

This stock was duly authorized by the Greater New York Charter, as amended, and other acts of the Legislature of the State of New York, and by the Municipal bodies of The City of New York invested by law with the power to authorize the issue of such stock.

\$2,250,000.00 of Corporate Stock of The City of New York, for the Construction of the Rapid Transit Railroad, Principal payable November 1, 1954. Interest payable semi-annually on May 1 and November 1.

This stock was duly authorized by chapter 4 of the Laws of 1891, as amended, sections 45, 169 and 170 of the Greater New York Charter, as amended; chapter 7 of the Laws of 1900; and by the Board of Estimate and Apportionment of The City of New York.

The said stock is issued in accordance with the provisions of section 10 of article 8 of the Constitution of the State of New York, and is free and exempt from all taxation in the State of New York, except for State purposes, pursuant to the provisions of section 169 of the Greater New York Charter, as amended.

The principal of and interest on said stock are payable in gold coin of the United States of America, of the present standard of weight and fineness, pursuant to resolutions of the Commissioners of the Sinking Fund, adopted June 9, 1898.

CONDITIONS OF SALE.

As provided for by the Greater New York Charter.

1. Proposals containing conditions other than those herein set forth will not be received or considered.

2. No proposal for stock shall be accepted for less than the par value of the same.

3. Every bidder, as a condition precedent to the reception or consideration of his proposal, shall deposit with the Comptroller in money, or by a certified check drawn to the order of said Comptroller upon a solvent banking corporation, two per cent. of the par value of the stock bid for in said proposal.

No proposal will be received or considered which is not accompanied by such deposit.

All such deposits shall be returned by the Comptroller to the persons making the same within three days after the decision has been rendered as to who is or are the highest bidder or bidders, except the deposit made by the highest bidder or bidders.

4. If said highest bidder or bidders shall refuse or neglect, within five days after service of written notice of the award to him or them, to pay to the City Chamberlain the amount of the stock awarded to him or them at its par value, together with the premium thereon, less the amount deposited by him or them, the amount or amounts of deposit thus made shall be forfeited to and retained by said City as liquidated damages for such neglect or refusal, and shall thereafter be paid into the Sinking Fund of The City of New York for the Redemption of the City Debt.

5. Upon the payment into the City Treasury by the persons whose bids are accepted of the amounts due for the stock awarded to them respectively, certificates thereof shall be issued to them in such denominations as provided for by the Charter as they may desire.

6. It is required by the Charter of the City that "every bidder may be required to accept a portion of the whole amount of stock bid for by him at the same rate or proportional price as may be specified in his bid; and any bid which conflicts with this condition shall be rejected, provided, however, that any bidder offering to purchase all or any part of the bonds offered for sale at a price at par or higher may also offer to purchase all or none of said bonds at a different price, and if the Comptroller deems it to be in the interests of the City so to do, he may award the bonds to the bidder offering the highest price for all or none of said bonds; provided, however, that if the Comptroller deems it to be in the interests of the City so to do, he may reject all bids." Under this provision, the condition that the bidder will accept only the whole amount of stock bid for by him, and not any part thereof, cannot be inserted in any bids, except those for "all or none" offered by bidders who have also bid for "all or any part" of the stock offered for sale.

7. It is also provided by the Charter that these bonds, if issued in registered form, may be issued in denominations of ten dollars or any multiple thereof; and that "preference shall so far as practicable, and without pecuniary disadvantage to the City, be given to applicants for the smallest amounts and smallest denominations of said bonds in issuing the same."

8. Stock issued in coupon form can be converted at any time into Registered Stock, and Stock issued in Registered form can be converted at any time into Coupon Stock in denominations of \$1,000.

9. The proposals, together with the security deposits, should be inclosed in a sealed envelope, indorsed "Proposals for Bonds of The City of New York," and said envelope inclosed in another sealed envelope, addressed to the Comptroller of The City of New York.

EDWARD M. GROUT, Comptroller.

THE CITY OF NEW YORK,
DEPARTMENT OF FINANCE, COMPTROLLER'S OFFICE, November 10, 1904.

NOTICE TO PROPERTY-OWNERS.

PURSUANT TO THE PROVISIONS OF section 958 of the Greater New York Charter, the resolution of the Board of Revision of Assessments of December 31, 1903, and the opinion of the Corporation Counsel dated December 18, 1903, the Comptroller of The City of New York hereby gives public notice to all persons, owners of property affected by the assessment for "IMPROVEMENT OF JACKSON AVENUE," Long Island City (confirmed February 24, 1893), that he has authorized and directed the Collector of Assessments and Arrears to accept eighty-five per cent. (85%) of the principal of said assessment, without interest, if paid on or before November first, nineteen hundred and five.

SEALED BIDS OR ESTIMATES WILL BE RECEIVED BY THE COMMISSIONER OF STREET CLEANING, at the above office until 12 o'clock M., on

TUESDAY, NOVEMBER 22, 1904.

Borough of Brooklyn.

No. 1. FOR FURNISHING ALL THE LABOR AND MATERIALS REQUIRED TO CONSTRUCT A STABLE ON THE BLOCK BOUNDED BY FLUSHING AVENUE, GRAHAM STREET, KENT AVENUE AND LITTLE NASSAU STREET.

The time for the completion of the work and the full performance of the contract is by or before 208 days.

The amount of the security required is fifty per cent. of the amount of the bid.

No. 2. FOR FURNISHING ALL THE LABOR AND MATERIALS REQUIRED TO CONSTRUCT AND INSTALL HEATING AND VENTILATION IN THE ABOVE-MENTIONED STABLE BUILDING.

The time for the completion of the work and the full performance of the contract is by or before one hundred and eighty (180) days.

The amount of the security required is fifty per cent. of the amount of the bid.

No. 3. FOR FURNISHING ALL THE LABOR AND MATERIALS REQUIRED TO CONSTRUCT AND INSTALL PLUMBING AND GAS-FITTING IN THE ABOVE-MENTIONED STABLE BUILDING.

The time for the completion of the work and the full performance of the contract is one hundred and eighty (180) days.

The amount of the security required is fifty per cent. of the amount of the bid.

No. 4. FOR FURNISHING ALL THE LABOR AND MATERIALS REQUIRED TO CONSTRUCT AND INSTALL ELECTRIC WORK IN THE ABOVE-MENTIONED STABLE BUILDING.

The time for the completion of the work and the full performance of the contract is by or before one hundred and eighty (180) days.

The amount of the security required is fifty per cent. of the amount of the bid.

Bids for Contract No. 1 will be at a stated aggregate price, with increases or reductions for different items of the work, as specified in the form of bid or estimate prepared for the purpose.

Bids for each of the other above-mentioned contracts will be at a lump or aggregate sum each.

The bids will be compared and the contracts awarded to the lowest bidder for each contract.

The payments to be made by The City of New York for the performance of the above-

mentioned contracts will be made out of an issue of bonds, as provided by sections 48 and 546 of the Greater New York Charter, and as the amount so authorized is not to exceed \$370,000 bids cannot be considered which will involve an expenditure in the aggregate greater than the said sum of \$370,000.

Blank forms and further information may be obtained and the specifications, plans and drawings may be seen at the office of the Department of Street Cleaning, the Borough of Manhattan, Nos. 13-21 Park row.

JOHN McGAU WOODBURY,
Commissioner of Street Cleaning.

Dated OCTOBER 18, 1904. 028,022

JOHN F. AHEARN,
Borough President.

THE CITY OF NEW YORK, November 9, 1904. n9,21

See General Instructions to Bidders on the last page, last column, of the "City Record."

MUNICIPAL CIVIL SERVICE COMMISSION.

MUNICIPAL CIVIL SERVICE COMMISSION, No. 61 ELM STREET, CITY OF NEW YORK

PUBLIC NOTICE WILL BE GIVEN OF ALL competitive examinations two weeks in advance of the date upon which the receipt of applications for any scheduled examination will close. Applications will be received for only such examinations as are scheduled.

When an examination is advertised, a person desiring to compete in the same may obtain an application blank upon request made in writing, or by personal application at the office of the Commission.

All notices of examinations will be posted in the office of the Commission, City Hall, Municipal Building, Brooklyn, and advertised in the City Record for two weeks in advance of the date upon which the receipt of applications will close for any stated position.

Public notice will also be given by advertisement in most of the City papers.

Wherever an examination is of a technical character due notice is given by advertisement in the technical journals appertaining to the particular profession for which the examination is called.

Such notices will be sent to the daily papers as matters of news, and to the General Postoffice and stations thereof. The scope of the examination will be stated, but for more general information application should be made at the office of the Commission.

Unless otherwise specifically stated, the minimum age requirement for all positions is 21.

BIRD S. COLER,
President;

R. ROSS APPLETON,
ALFRED J. FALLEY,
Commissioners.

HENRY BRILLINGER,
Secretary.

DEPARTMENT OF EDUCATION, CORNER OF PARK AVENUE AND FIFTY-NINTH STREET, BOROUGH OF MANHATTAN, CITY OF NEW YORK.

SEALED BIDS OR ESTIMATES WILL BE RECEIVED by the Superintendent of School Supplies at the above office of the Department of Education until 3 o'clock P. M., on

TUESDAY, NOVEMBER 22, 1904.

FOR FURNISHING AND DELIVERING DIRECT TO EACH SCHOOL, SUPPLIES FOR USE OF NURSES, GENERAL APPARATUS AND SUPPLIES FOR THE DEPARTMENTS OF CHEMISTRY, PHYSICS, BIOLOGY, PHOTOGRAPHY, PHYSIOGRAPHY, BOTANICAL AND ZOOLOGICAL SUPPLIES TO THE DAY AND EVENING HIGH SCHOOLS, SUPPLIES FOR TRAINING SCHOOLS FOR TEACHERS, AND LANTERNS, GAS AND LIMES FOR THE BUREAU OF LECTURES.

The time for the delivery of the articles, materials and supplies and the performance of the contract is by or before December 31, 1905.

The amount of security required is fifty per cent. (50%) of the amount of the bid or estimate.

Bidders must enter their prices under the separate headings, and in estimating the amount of their bid upon which security will be required, said security must be based on the highest price quoted on each item.

The bidder will state the price of each item or article contained in the specifications or schedules herein contained or hereto annexed, per pound, dozen, gallon, yard or other unit of measure, by which the bids will be tested. Awards will be made to the lowest bidder on each item whose goods are the same or equal to the samples furnished for inspection or referred to by catalogue number. The said reference is made only as a means of briefly describing the articles called for.

Delivery will be required to be made at the time and in the manner and in such quantities as may be directed.

Blank forms and further information may be obtained at the office of the Superintendent of School Supplies, Board of Education, the Borough of Manhattan, southwest corner Park avenue and fifty-ninth street.

DEPARTMENT OF HEALTH.

DEPARTMENT OF HEALTH, CITY OF NEW YORK, SOUTHWEST CORNER FIFTY-FIFTH STREET AND SIXTH AVENUE, BOROUGH OF MANHATTAN, NEW YORK, November 12, 1904.

AT A MEETING OF THE BOARD OF Health of the Department of Health, held November 9, the following resolutions were adopted:

Resolved, That section 96 of the Sanitary Code be and is hereby amended so as to read as follows:

"Section 96—The owners, lessees, tenants, occupants and managers of every building, vessel or place in or upon which a locomotive or stationary engine, furnace or boilers are used shall cause all ashes, cinders, rubbish, dirt and refuse to be removed to some proper place, so that the same shall not accumulate; nor shall any person cause, suffer or allow smoke, cinders, dust, gas, steam or offensive or noxious odors to escape or be discharged from any such building, vessel or place to the detriment or annoyance of any person or persons not being therein or thereupon engaged."

Resolved, That section 54 of the Sanitary Code be and is hereby amended so as to read as follows:

"Section 54—Any milk found to be adulterated which has been brought into the City of New York or is held or offered for sale in said City may be seized and destroyed by any Inspector or other officer of this Department authorized to inspect milk."

A true copy:

EUGENE W. SCHEFFER,
Secretary.

BOARD OF ASSESSORS.

PUBLIC NOTICE IS HEREBY GIVEN TO THE owner or owners of all houses and lots, improved or unimproved lands affected thereby, that the following proposed assessments have been completed and are lodged in the office of the Board of Assessors for examination by all persons interested, viz.:

BOROUGH OF MANHATTAN.

List 8204, No. 1. Fencing vacant lots opposite Nos. 506 and 510 East Seventy-sixth Street.

List 8205, No. 2. Fencing vacant lots opposite Nos. 522 to 530 (inclusive) East Seventy-sixth Street.

List 8221, No. 3. Fencing vacant lots at Nos. 427 and 429 West Twenty-seventh Street.

The limits within which it is proposed to lay the said assessments include all the several houses and lots of ground, vacant lots, pieces and parcels of land situated on—

No. 1. South side of Seventy-sixth Street, between Avenue A and Exterior Street, on Block 1487, Lot Nos. 44, 45, 46.

No. 2. South side of Seventy-sixth Street, between Avenue A and Exterior Street, on Block 1487, Lots Nos. 34, 35, 36, 37, 38.

No. 3. North side of Twenty-seventh Street, between Ninth and Tenth Avenues, on Block 725, Lot No. 21.

All persons whose interests are affected by the above-named proposed assessments, and who are opposed to the same, or either of them, are requested to present their objections, in writing, to the Secretary of the Board of Assessors, No. 320 Broadway, New York, on or before December 20, 1904, at 1 P. M., at which time and place the said objections will be heard and testimony received in reference thereto.

ROBERT MUH,
ANTONIO ZUCCA,
CHARLES A. O'MALLEY,
Board of Assessors.

WILLIAM H. JASPER,
Secretary,
No. 320 Broadway.

DEPARTMENT OF DOCKS AND FERRIES, PIER "A," FOOT OF BATTERY PLACE, NORTH RIVER, BOROUGH OF MANHATTAN, THE CITY OF NEW YORK.

SALE OF FERRY FRANCHISE.

PETER F. MEYER, Auctioneer.

THE FRANCHISE OF FERRY, AS MORE particularly hereinafter described, will be offered for sale by the Commissioner of Docks at public auction to the highest bidder, at Pier "A," Battery place, at 12 o'clock noon on

WEDNESDAY, NOVEMBER 23, 1904.

for a term of ten years from May 1, 1904. To and from the foot of Broadway in the Borough of Brooklyn, The City of New York, across the waters of the East river or Sound, from and to the foot of East Twenty-third street, in the Borough of Manhattan, The City of New York, together with the wharf property belonging to The City of New York, assigned to be used in connection with and for the purposes of said ferry.

TERMS AND CONDITIONS OF SALE.

The lease will be sold subject to the approval of the terms thereof by the Commissioners of the Sinking Fund.

No bid will be received which shall be less than the upset price—namely, for the first term, five per cent. (5%) of the gross receipts of said ferry, to be not less than fifteen thousand dollars (\$15,000) per annum for the said franchise, together with the wharf property belonging to the City.

The purchaser will be required at the time of the sale to pay, in addition to the auctioneer's fee (viz. \$50), to the Department of Docks and Ferries, \$3,750 as security for the execution of the lease, which \$3,750 will be applied to the payment of the rent first accruing under the lease when executed, or will be forfeited to the Department if the purchaser refuses or neglects to execute the lease, with good and sufficient surety to be approved by the Commissioner of Docks within ten days after being notified that the lease is prepared and ready for execution at the office of the Department of Docks and Ferries, Pier "A," North river, foot of Battery place.

A surety or guaranty company, duly authorized by law to act as surety, to be approved by the Commissioner of Docks, will be required under the lease to enter into a bond or obligation jointly and severally with the lessee in the sum of double the annual rent, for the faithful performance of all the covenants and conditions of the lease.

The lease will contain the usual covenants and conditions, in conformity with the provisions of law and the ordinances of the Board of Aldermen relative to ferries, and shall provide that the lessees will maintain and operate the ferry during the whole term, and will provide ample accommodations in the way of safe and capacious boats and sufficiency of trips; that if at any time during the term hereof the Commissioner of Docks, or the person or persons then performing the duties now exercised by the Commissioner of Docks, shall be of the opinion that the boat or boats furnished by the party of the second part, or that the number of trips do not conform to the requirements of this lease, he may direct the party of the second part to make such improvements, construct such new boat or boats, or increase the number of trips as in his opinion the service demands; and in the event of the failure of the party of the second part to comply with such directions within a reasonable time, a commission shall be appointed, composed of the Mayor, the President of the Borough of Brooklyn and the Commissioner of Docks, on behalf of the City, and three other persons selected by the party of the second part, which commission shall be known as the Arbitration Commission, and in case of their failure to agree as to the improvements to be made in the service, they shall appoint a seventh person to act as umpire, and if they are unable to agree within five days upon such umpire, then, at the request of either of the parties hereto, he shall be appointed by the Presiding Justice of the Appellate Division of the Supreme Court of the State of New York, First Department, and the decision of four of said seven persons so selected shall be conclusive and binding upon both of the parties to this lease; also conditions that the lessees shall dredge the ferry slips, etc., as required by the Commissioner of Docks; that during the term of the lease they will erect and build, at their own expense, and will at all times well and sufficiently repair, maintain and keep in good order, all and singular the floats, racks, fenders, bridges and other fixtures of the landing places, and in the event of

any damage to the bulkheads or piers from collision by the ferryboats or otherwise, from any accident or negligence on their part, they will immediately repair and restore said wharf property to its previous condition free of cost to The City of New York; that if at any time during the term of the lease the Commissioner of Docks shall require any of the wharf property used for ferry purposes in order to proceed with the water front improvements in the vicinity of the ferry landings, the said lessee shall surrender and vacate the premises without any claim upon the city for any damages whatever, upon written notice being given to the lessees three months in advance of the intention of said Commissioner; the said notice shall, by terms of description, or by reference to the plans and specifications of the proposed work of improvement, specify the character of the alterations and improvements to be made in regard to said water front, affecting the property and rights hereby authorized to be demised, and upon receiving such notice the lessee may elect to terminate the lease of said ferry privilege or franchise by serving notice of such election upon the Commissioner of Docks within one month after receiving such notice from the Commissioner of Docks of his intention to improve the water front in the vicinity of the ferry landing; also that in case only a portion of said wharf property shall be required for the purposes aforesaid, then a reasonable reduction will be made from the rent reserved by said lease; that sworn returns of the amounts of ferry receipts shall be made to the Commissioner of Docks when required by said Commissioner, and that the books of accounts of the ferry shall be subject to the inspection of said Commissioner, or to any persons designated by him in writing.

The lease will contain a covenant providing that upon the expiration or sooner termination of the said term of ten years the lessee may, and upon demand in writing, by the Commissioner of Docks, or other proper officer or department of The City of New York thereto duly authorized, shall, at the cost and expense of the lessee, wholly with and at the utmost practicable speed, forthwith remove from the premises herebefore described, buildings, platforms, floats, bridges, ferry racks, piling and fixtures which shall have been erected or placed by the lessee, his successors or assigns, upon or within the limits of the wharf property leased, so that there shall be in the slip adjacent to the herebefore described wharf property used for the purposes of said ferry, and in every part thereof, from the bulkhead out, at least ten feet of water at mean low water.

The rates of ferriage and charges for vehicles and freight shall not exceed the rates now charged on the present ferry.

The lessees shall provide such lifeboats, floats, rafts and life-preservers as may be directed by the Commissioner of Docks.

The form of the lease which the purchaser shall be required to execute can be seen at the office of the Commissioner of Docks.

The right to reject all bids is reserved, if deemed by the Commissioner of Docks to be for the best interests of the City so to do.

By order of the Commissioner of Docks.
Approved by the Commissioners of the Sinking Fund October 21, 1904.

MAURICE FEATHERSON,
Commissioner of Docks.

Dated THE CITY OF NEW YORK, October 25, 1904. n11,23

See General Instructions to Bidders on the last page, last column, of the "City Record."

DEPARTMENT OF DOCKS AND FERRIES, PIER A NORTH RIVER, NEW YORK, MARCH 31, 1904.

THE COMMISSIONER HAS FIXED THE amounts of bonds required on contracts awarded by this Department, as follows:

On all contracts for supplies, 40 per cent. of the estimated cost.

On all contracts, other than contracts for supplies, where the estimated cost is not over \$200,000, 40 per cent. of the estimated cost.

On all contracts, other than contracts for supplies, where the estimated cost is over \$200,000, but not over \$1,000,000, 25 per cent. of the estimated cost.

On all contracts, other than contracts for supplies, where the estimated cost is over \$1,000,000, 20 per cent. of the estimated cost.

CHARLES J. COLLINS,
Secretary.

DEPARTMENT OF WATER SUPPLY, GAS AND ELECTRICITY.

New York, November 14, 1904.

"NOTICE OF SALE AT PUBLIC AUCTION."

ON THE 28TH DAY OF NOVEMBER, 1904, at 11 o'clock A. M., the Department of Water Supply, Gas and Electricity will sell at public auction to the highest bidder, by Joseph B. Day, Auctioneer, at the old engine-house at One Hundred and Forty-seventh street and Third avenue, Borough of The Bronx, about 2,500 square lanterns and Boulevard lanterns, lamp irons and frames.

TERMS OF SALE.

The upset price at which these materials will be sold will be 5 cents per lantern, and no bid below this price will be considered or accepted. Successful bidders must make cash payment in bankable funds at the time and place of sale. Bids will be received for one or more of the separate description of these materials; but no bid will be considered or accepted for less than 100 in each case.

As this building must be given up within ten days after sale, the purchaser or the purchasers must remove all materials from the building within ten days after the sale; otherwise, he or they will forfeit the money paid at the time of sale and the ownership thereof. The material will thereafter be resold for the benefit of the City.

The purchaser must take the lanterns, lamp irons and frames in the condition they are and remove same as directed by the officer in charge of the building. The purchaser will not be allowed to select material or remove same at will.

JOHN T. OAKLEY,
Commissioner, Department of Water Supply, Gas and Electricity.

DEPARTMENT OF WATER SUPPLY, GAS AND ELECTRICITY, ROOM 1536, NOS. 13-21 PARK ROW, BOROUGH OF MANHATTAN, THE CITY OF NEW YORK.

SEALED BIDS OR ESTIMATES WILL BE RECEIVED BY THE COMMISSIONER OF WATER SUPPLY, GAS AND ELECTRICITY AT THE ABOVE OFFICE UNTIL 2 O'CLOCK P. M., ON

WEDNESDAY, NOVEMBER 30, 1904.

Borough of Brooklyn.

No. 1. FOR REPAIRS AND ALTERATIONS TO COAL SHED, RIDGEWOOD PUMPING STATION, NORTH SIDE.

The time allowed for doing and completing the work will be sixty (60) working days.

The security required will be One Thousand Dollars (\$1,000).

No. 2. FOR PREPARING AND PAINTING FIRE HYDRANTS.

The time for delivery of the articles, materials and supplies and the performance of the contract is one hundred and twenty-five working days.

The amount of security shall be One Thousand Five Hundred Dollars (\$1,500).

The bidder will state the price of each item or article contained in the specifications or schedules herein contained or hereto annexed, per hydrant or other unit of measure by which the bids will be tested.

Delivery will be required to be made at the time and in the manner and in such quantities as may be directed.

Bids will be compared and the contract awarded at a lump or aggregate sum.

Blank forms may be obtained at the office of the Department of Water Supply, Gas and Electricity, the Borough of Manhattan, Nos. 13 to 21 Park row, and at Room 25, Municipal Building, Brooklyn.

DEPARTMENT OF WATER SUPPLY, GAS AND ELECTRICITY, ROOM 1536, NOS. 13-21 PARK ROW, BOROUGH OF MANHATTAN, THE CITY OF NEW YORK.

SEALED BIDS OR ESTIMATES WILL BE RECEIVED BY THE COMMISSIONER OF WATER SUPPLY, GAS AND ELECTRICITY AT THE ABOVE OFFICE UNTIL 2 O'CLOCK P. M., ON

WEDNESDAY, NOVEMBER 30, 1904.

Borough of Brooklyn.

FOR FURNISHING AND DELIVERING SEVEN HUNDRED (700) FOUR NOZZLE POST HYDRANTS AND FORTY (40) TWO NOZZLE FIRE-BOAT CONNECTION HYDRANTS FOR HIGH PRESSURE FIRE SERVICE MAINS.

The time allowed for doing and completing the above work will be two hundred and twenty (220) calendar days.

The security required will be Twenty-five Thousand Dollars (\$25,000).

Bidders must deliver a sample hydrant at the Ridgewood Pumping Station, corner Norwood and Atlantic avenues, Borough of Brooklyn, at or before the time set for the submission of their bid, and no bid will be considered where such sample hydrant has not been delivered. If there is any difference, except in the nozzles, between the four-nozzle hydrant and the two-nozzle fire-boat connection hydrant, a sample of each hydrant must be furnished. This hydrant will be considered as standard of workmanship and design, and the hydrants furnished under this contract must be in accordance with the sample submitted.

The sample hydrant or hydrants furnished by the successful bidder will be retained and paid for at the price specified under this contract, and all other hydrants will be returned after the award of the contract. These hydrants will be returned to the unsuccessful bidders at their own cost and expense.

Bidders will write out the total amount of their bids or estimates in addition to inserting the same in figures. All bids or estimates will be considered as informal which do not contain bids or estimates for all items for which bids or estimates are called.

The bidder will state the price of each item or article contained in the specifications or schedules herein contained or hereto annexed, per hydrant or other unit of measure, by which the bids will be tested.

Bids will be compared and the contract awarded at a lump or aggregate sum.

Blank forms may be obtained at the office of the Department of Water Supply, Gas and Electricity, the Borough of Manhattan, Nos. 13 to 21 Park row, and at the office of the Department for the Borough of Brooklyn, Room 25, Municipal Building, Brooklyn.

JOHN T. OAKLEY,
Commissioner.

AQUEDUCT COMMISSION.

AQUEDUCT COMMISSIONERS' OFFICE, ROOM 207, ST. WARD BUILDING, NO. 280 BROADWAY, NEW YORK, NOVEMBER 15, 1904.

SEALED BIDS OR PROPOSALS WILL BE RECEIVED BY THE AQUEDUCT COMMISSIONERS, AT THE ABOVE OFFICE, UNTIL 12 O'CLOCK NOON, ON

TUESDAY, DECEMBER 6, 1904.

FOR EXCAVATING AND LAYING WATER PIPES AND APPURTENANCES, TOGETHER WITH REFILLING OF TRENCHES, ETC., ALONG WEST SIDE OF JEROME AVENUE, IN CONNECTION WITH THE JEROME PARK RESERVOIR, OF THE NEW CROTON AQUEDUCT, IN THE TWENTY-FOURTH WARD, BOROUGH OF THE BRONX, OF THE CITY OF NEW YORK.

The security required will be Ten Thousand Dollars (\$10,000).

The contract will be required to be completed on or before January 2, 1905.

The following is a statement, based upon the estimate of the Engineer, of the quantities of the various classes of the work and of the nature and extent, as near as practicable, of the work required:

(a) 7,000 cubic yards of excavation.

(b) 350 cubic yards of concrete masonry, formed of six parts of broken stone or gravel, or a mixture of both, to one part of cement and three parts of sand, by volume.

(c) 100 tons of cast iron straight pipe, 48 inches in diameter, delivered on the work.

(d) 8 tons of special castings delivered on the work.

(e) 300 linear feet of 48-inch cast iron pipe to be taken up.

(f) 400 linear feet of 48-inch cast iron pipe to be laid.

The work is authorized by chapter 490, Laws of 1883 of the State of New York, and the amendments thereto.

No bid will be received or considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of ten (10) per centum of the amount of the security required for the faithful performance of the contract.

Blank forms and further information can be obtained upon application therefor at the office of the Aqueduct Commissioners, No. 280 Broadway, The City of New York.

WILLIAM H. TEN EVCK,
President.

FRANK H. WARDER,
Acting Secretary.

AQUEDUCT COMMISSIONERS' OFFICE, ROOM NO. 207, ST. WARD BUILDING, NO. 280 BROADWAY, NEW YORK, NOVEMBER 8, 1904.

SEALED BIDS OR PROPOSALS WILL BE RECEIVED BY THE AQUEDUCT COMMISSIONERS AT THE ABOVE OFFICE UNTIL 12 O'CLOCK NOON ON

TUESDAY, NOVEMBER 29, 1904.

FOR BUILDING A HIGHWAY BRIDGE SUPERSTRUCTURE, TWO HUNDRED FEET SPAN, ACROSS THE SPILLWAY OF THE NEW CROTON DAM, IN THE TOWN OF CORTLANDT, WESTCHESTER COUNTY, N. Y.

The security required will be Fifteen Thousand Dollars (\$15,000).

The bridge will be required to be finished and erected ready for use or traffic approximately by March 1, 1905.

The work to be done consists in furnishing, erecting and painting, complete and ready for travel, a highway bridge superstructure, 200 feet span, across the spillway of the new Croton Dam.

The work is authorized by chapter 490, Laws of 1883 of the State of New York, and the amendments thereto.

No bid will be received or considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of ten (10) per centum of the amount of the security required for the faithful performance of the contract.

Blank forms and further information may be obtained upon application therefor at the office of the Aqueduct Commissioners, No. 280 Broadway, The City of New York, where the plans may be seen.

COLLEGE OF THE CITY OF NEW YORK.

BOARD OF TRUSTEES OF THE COLLEGE OF THE CITY OF NEW YORK.

SEALED BIDS OR ESTIMATES WILL BE RECEIVED BY THE COMMITTEE ON BUILDINGS OF THE BOARD OF TRUSTEES OF THE COLLEGE OF THE CITY OF NEW YORK, AT THE OFFICE OF THE BOARD, BOROUGH OF MANHATTAN, IN THE CITY OF NEW YORK, UNTIL 12 O'CLOCK NOON ON

MONDAY NOVEMBER 28, 1904.

FOR HEATING AND VENTILATING WORK FOR THE BUILDINGS FOR THE COLLEGE OF THE CITY OF NEW YORK, TO BE ERECTED ON THE PLOTS OF GROUND LOCATED ON ST. NICHOLAS TERRACE, ONE HUNDRED AND FORTIETH STREET, AMSTERDAM AVENUE AND ONE HUNDRED AND THIRTY-EIGHTH STREET, BOROUGH OF MANHATTAN, THE CITY OF NEW YORK.

The amount of security required will be not less than Twenty-five Per Cent. (25%) of the amount of the bid or estimate.

The bids will be compared and the contract awarded at a lump or aggregate sum.

Bidders for this work must be engaged in and known to be well prepared to execute and carry out the same in accordance with the plans and specifications, and must produce proof satisfactory to the Committee that they possess the

necessary plant, tools, materials, etc., which will be required in the manufacture, construction and completion of the work.

For particulars as to the quantity and quality and of the nature and extent of the work required or of the materials to be furnished, bidders are referred to the printed specification and the plans. Bidders are cautioned to examine the specification for particulars of the articles, etc., required before making their estimate.

Bidders are requested to make their bid or estimate upon the blank form prepared for the purpose, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specification in the form approved by the Corporation Counsel, can be obtained upon written application therefor at the office of the architects, Messrs. George B. Post & Sons, No. 33 East Seventeenth street, Borough of Manhattan, The City of New York, where the plans and drawings which are made a part of the specification, can be seen between the hours of 10 A. M. and 4 P. M.; Saturdays 10 A. M. and 12 M.

The Board of Trustees reserves the right to reject all bids or estimates if they deem it to be for the interest of the City so to do.

SUPREME COURT.

SECOND DEPARTMENT.

In the matter of the application of The City of New York to acquire certain real estate upon AVENUE S, between East Fourteenth street and East Eighteenth street, in the Borough of Brooklyn, County of Kings, City of New York, for purposes of water supply.

NOTICE IS HEREBY GIVEN THAT AN application will be made to the Supreme Court of the State of New York at a Special Term thereof for the hearing of motions to be held in and for the County of Kings at the County Court-house, in the Borough of Brooklyn, in The City of New York, on the 28th day of December, 1904, at the opening of the court on that day, or as soon thereafter as counsel can be heard, for the appointment of Commissioners of Appraisal to ascertain and determine the compensation which ought justly to be made by The City of New York to the owners or persons interested in the real estate in the Borough of Brooklyn, County of Kings, City of New York, sought to be acquired herein for the purposes of maintaining, preserving and increasing the supply of pure and wholesome water for the use of The City of New York, and affected by this proceeding.

The boundaries of the real estate to be acquired or affected are as follows:

Beginning at a point at the northeast corner of Avenue S and East Fourteenth street, running thence north along the east line of East Fourteenth street 455 feet; running thence east parallel with Avenue S 335 feet to the west line of property of the Brooklyn Heights Railroad Company; running thence south along said line 455 feet to the north line of Avenue S; and running thence west along said line 335 feet to the place of beginning; and also

Beginning at a point where the east line of property of the Brooklyn Heights Railroad Company intersects the north line of Avenue S; running thence north along said line of property of the Brooklyn Heights Railroad Company 455 feet; running thence east parallel with Avenue S 575.1 feet to the west line of property of the Long Island Railroad Company; running thence south along said line 40.8 feet to the north line of land of the Gravesend Pumping Station owned by The City of New York; running thence southwest along said line 410.6 feet; running thence southeast and along the west line of the land of said Gravesend Pumping Station 298.4 feet to the north line of Avenue S; and running thence west along said line 291.5 feet to the place of beginning; and also

Beginning at a point where the west line of property of the Long Island Railroad Company intersects the north line of Avenue S; running thence north along said line of property of the Long Island Railroad Company 38.1 feet to the south line of land of the Gravesend Pumping Station, owned by The City of New York; running thence southwest along said line 111.4 feet to the north line of Avenue S; and running thence east along said line 104.6 feet to the place of beginning.

The said real estate is more particularly shown upon a "Map showing lands in The City of New York, Borough of Brooklyn, to be acquired for the purposes of maintaining, preserving and increasing the supply of pure and wholesome water for the use of The City of New York, Borough of Brooklyn," with a certificate of adoption thereof dated July 22, 1904, signed by George B. McClellan, as Mayor, and John T. Oakley, as Commissioner of Water Supply, Gas and Electricity, a copy of which said map was filed on said date in the office of the said Commissioner of Water Supply, Gas and Electricity, and a copy of which was filed on the 3d day of November, 1904, in the office of the Register of the County of Kings and numbered 1452.

The numbers of the parcels on said map designated to be taken in fee absolute are 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13 and 14.

Dated November 4, 1904.

JOHN J. DELANY,
Corporation Counsel,
Borough Hall, Brooklyn,
New York City,

SECOND DEPARTMENT.

In the matter of the application of The City of New York to ACQUIRE CERTAIN REAL ESTATE AT MASSAPEQUA, in the Towns of Hempstead and Oyster Bay, in the County of Nassau, for purposes of water supply.

NOTICE IS HEREBY GIVEN THAT AN application will be made to the Supreme Court of the State of New York, at a Special Term thereof for the hearing of motions, to be held in and for the County of Kings, at the County Court-house, in the Borough of Brooklyn, in The City of New York, on the 28th day of December, 1904, at the opening of the Court on that day, or as soon thereafter as counsel can be heard, for the appointment of Commissioners of Appraisal to ascertain and determine the compensation which ought justly to be made by The City of New York to the owners or persons interested in the real estate in the Towns of Hempstead and Oyster Bay, County of Nassau, sought to be acquired herein for the purpose of maintaining, preserving and increasing the supply of pure and wholesome water for the use of The City of New York, and affected by this proceeding.

The boundaries of the real estate to be acquired or affected are as follows:

Beginning at a point where the east line of Seaman's Neck road intersects the south line of property of the Long Island Railroad Company; running thence along said south line of property of the Long Island Railroad Company south 87 degrees 40 minutes east 1,336.4 feet; running thence along said last-mentioned line south 87 degrees 36 minutes 30 seconds east 310.7 feet; running thence south 22 degrees 22 minutes west 30 feet; running thence south 88 degrees 4 minutes east 148.2 feet; running thence south 1 degree 40 minutes west 102 feet; running thence south 88 degrees 49 minutes east 398.8 feet; running thence north 2 degrees 22 minutes 30 seconds east 93.5 feet to said south line of property of the Long Island Railroad Company; running thence south along said line 87 degrees 38 minutes east 489.6 feet to the east line of Washington avenue; running thence north along said line 6 degrees 46 minutes 36 seconds east

25.6 feet to said south line of property of the Long Island Railroad Company; running thence along said line south 87 degrees 34 minutes 30 seconds east 776.5 feet; running thence along said line south 87 degrees 53 minutes east 1,407.2 feet; running thence south 2 degrees 25 minutes 30 seconds west 69.8 feet; running thence south 87 degrees 34 minutes 30 seconds east 608.1 feet to the west line of South Oyster Bay road; running thence along said line north 5 degrees east 17.6 feet; running thence north 16 degrees 44 minutes east 55.58 feet to said south line of property of the said Long Island Railroad Company; running thence along said line south 87 degrees 18 minutes 30 seconds east 994.6 feet to the east line of Farmingdale road; running thence along said line south 26 degrees 31 minutes west 136.3 feet; running thence south 87 degrees 18 minutes east 876.8 feet to the west line of property of The City of New York; running thence along said line south 29 degrees 40 minutes west 224.4 feet; running thence north 87 degrees 18 minutes west 917.9 feet to the west line of Farmingdale road; running thence south 47 degrees 55 minutes west 46 feet; running thence north 80 degrees 19 minutes 30 seconds west 791.25 feet to the west line of South Oyster Bay road; running thence along said line south 5 degrees west 116.5 feet to the north line of Railroad avenue; running thence along said line north 85 degrees 57 minutes west 2,063.7 feet; running thence along said line north 80 degrees 24 minutes west 223.4 feet; running thence along said line north 88 degrees 47 minutes west 515.9 feet; running thence along said line north 88 degrees 34 minutes 30 seconds west 865.2 feet; running thence along said line north 88 degrees 43 minutes 30 seconds west 1,695.7 feet to the east line of Seaman's Neck road; running thence along said line north 14 degrees 25 minutes west 358.1 feet to the place of beginning; and also:

Beginning at a point where the east line of property now owned by The City of New York intersects the south line of property of the Long Island Railroad Company; running thence along said south line of property of the Long Island Railroad Company south 87 degrees 18 minutes 30 seconds east 850.2 feet; running thence along said last-mentioned line south 87 degrees 20 minutes 30 seconds east 779.1 feet; running thence along said line south 87 degrees 19 minutes 30 seconds east 2,338 feet; running thence along said line south 87 degrees 19 minutes east 2,315.2 feet; running thence along said line south 87 degrees 58 minutes east 1,983.4 feet to the west line of Carman's road; running thence along said line south 16 degrees 58 minutes west 51.7 feet; running thence along the south line of Railroad avenue south 87 degrees 58 minutes east 2,010.8 feet to the west line of Suffolk County road; running thence along said line south 27 minutes west 295.6 feet to the north line of Hallett street; running thence along said line north 87 degrees 36 minutes west 2,094.1 feet to the west line of Carman's road; running thence along said line south 16 degrees 27 minutes west 357.8 feet; running thence along said line south 7 degrees 35 minutes west 1,395.2 feet; running thence along said line south 4 degrees 36 minutes west 199.6 feet; running thence south along said line 9 degrees west 166 feet; running thence along said line south 17 degrees 2 minutes west 129.7 feet; running thence along said line south 30 degrees 45 minutes west 135 feet; running thence along said line south 17 degrees 43 minutes west 229.9 feet; running thence north 60 degrees 46 minutes west 567.2 feet; running thence north 11 degrees 54 minutes east 1,894.8 feet; running thence north 33 degrees 12 minutes east 664.5 feet; running thence north 87 degrees 58 minutes west 1,171 feet; running thence north 87 degrees 54 minutes 30 seconds west 1,262.2 feet; running thence north 87 degrees 19 minutes west 533.6 feet; running thence south 11 degrees 50 minutes west 814.6 feet; running thence south 7 degrees 5 minutes west 694.3 feet; running thence south 23 degrees 25 minutes west 1,341.2 feet; running thence south 17 degrees 6 minutes east 293.2 feet; running thence south 19 degrees 44 minutes west 1,146 feet to the north line of Merrick road; running thence along said line north 89 degrees 15 minutes west 459.8 feet; running thence north 5 degrees 21 minutes east 187 feet; running thence north 33 degrees 47 minutes east 272.9 feet; running thence north 21 degrees 54 minutes east 384.1 feet; running thence north 15 degrees 48 minutes east 784.8 feet; running thence south 73 degrees 37 minutes east 88.8 feet; running thence north 23 degrees 43 minutes east 1,208.0 feet; running thence north 6 degrees 58 minutes east 710.1 feet; running thence north 11 degrees 38 minutes east 784.7 feet; running thence north 87 degrees 19 minutes west 1,663.4 feet; running thence north 87 degrees 19 minutes 30 seconds west 2,410.1 feet to west line of Wurtemburg road; running thence north 87 degrees 19 minutes 30 seconds west 1,660.2 feet to the east line of land of The City of New York; running thence along said line north 39 degrees 48 minutes east 250.8 feet to the place of beginning.

Be the said several dimensions more or less.

The said real estate is more particularly shown upon a "Map showing lands in the Townships of Hempstead and Oyster Bay, Nassau County, New York, to be acquired for the purposes of maintaining, preserving and increasing the supply of pure and wholesome water for the use of The City of New York, Borough of Brooklyn," with a certificate of adoption thereof, dated September 7, 1904, signed by George B. McClellan, as Mayor, and John T. Oakley, as Commissioner of Water Supply, Gas and Electricity, a copy of which said map was filed on said date in the office of said Commissioner of Water Supply, Gas and Electricity, and a copy of which was filed on the 3d day of November, 1904, in the office of the Clerk of the County of Nassau and numbered 46.

The numbers of the parcels of said map designated to be taken in fee absolute are 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28 and 29, and the numbers of the parcels upon said map which are to be taken in fee subject to the use of the surface thereof as rights of way are A, B, C, D, E, F, G, H, I, J and K.

Dated November 4, 1904.

SECOND DEPARTMENT.

In the matter of the application of The City of New York, relative to acquiring title, wherever the same has not been heretofore acquired, to the lands and premises required for the opening and widening of WEST FARMS ROAD (although not yet named by proper authority, from Bronx River to Westchester Creek, in the Twenty-fourth Ward, Borough of The Bronx, City of New York.

PURSUANT TO THE STATUTES IN SUCH cases made and provided, notice is hereby given that an application will be made to the Supreme Court of the State of New York, Second Department, at a Special Term of said Court, to be held at the hearing of motions in the County Court-house, in the County of Westchester, in the Village of White Plains, on Saturday, the 3d day of December, 1904, at the opening of the Court on that day, or as soon thereafter as counsel can be heard thereon, for the appointment of Commissioners of Estimate and Assessment in the above-entitled matter. The nature and extent of the improvement hereby intended is the acquisition of title by The City of New York, for the use of the public, to all the lands and premises, with the buildings thereon and the appurtenances thereto belonging, required for the opening and widening of a certain street or avenue known as West Farms Road, from Bronx River to Westchester Creek, in the Twenty-fourth Ward, Borough of the Bronx, City of New York, being the following-described lots, piece or parcel of land, viz.:

Beginning at the intersection of the northeastern and southeastern lines of Westchester avenue:

1. Thence southwesterly along the southeasterly line of Westchester avenue for 133.098 feet;
2. Thence easterly deflecting 144 degrees 17 minutes 45 seconds to the left for 191.622 feet;
3. Thence southeasterly deflecting 47 degrees 50 seconds to the right for 303.814 feet;
4. Thence easterly deflecting 46 degrees 52 minutes 50 seconds to the left for 55.815 feet;
5. Thence northerly deflecting 82 degrees 8 minutes to the left for 100.713 feet;
6. Thence westerly deflecting 78 degrees 58 minutes 10 seconds to the left for 15.60 feet;
7. Thence westerly deflecting 9 degrees 19 minutes to the right for 161.451 feet;
8. Thence northwesterly deflecting 18 degrees 40 minutes to the right for 74.625 feet;
9. Thence northerly deflecting 50 degrees 16 minutes 10 seconds to the right for 30.442 feet;
10. Thence easterly deflecting 82 degrees 43 minutes to the right for 227.205 feet;
11. Thence northerly deflecting 82 degrees to the left for 100.983 feet;
12. Thence westerly deflecting 98 degrees to the left for 245.888 feet;
13. Thence northwesterly curving to the right on the arc of a circle of 344.657 feet radius and tangent to the preceding course for 300.536 feet;
14. Thence northwesterly on a line tangent to the preceding course for 249.585 feet;
15. Thence northwesterly deflecting 10 degrees 30 minutes 40 seconds to the right for 148.634 feet;
16. Thence northwesterly deflecting 12 degrees 4 minutes 30 seconds to the right for 100.036 feet;
17. Thence northwesterly deflecting 32 degrees 11 minutes 20 seconds to the left for 736.687 feet;
18. Thence northwesterly deflecting 10 degrees 24 minutes 40 seconds to the right for 165.672 feet;
19. Thence westerly curving to the left on the arc of a circle of 300 feet radius tangent to the preceding course for 248.026 feet;
20. Thence westerly on a line tangent to the preceding course for 4,622.612 feet;
21. Thence westerly deflecting 10 degrees 44 minutes 50 seconds to the left for 168.715 feet;
22. Thence westerly deflecting 4 degrees 3 minutes 20 seconds to the right for 296.695 feet;
23. Thence westerly deflecting 5 degrees 59 minutes 20 seconds to the left for 562.616 feet;
24. Thence northerly deflecting 84 degrees 10 minutes 10 seconds to the right for 23.786 feet;
25. Thence westerly deflecting 90 degrees to the left for 682.891 feet;
26. Thence westerly deflecting 30 degrees 54 minutes 40 seconds to the right for 2,448.642 feet;
27. Thence southerly deflecting 90 degrees to the left for 0.06 feet, to the northern line of the approach to the bridge over the Bronx river at Tremont avenue;

28. Thence easterly along the northern line of said approach 53.57 feet;
 29. Thence easterly still along said northern line for 58.04 feet;
 30. Thence easterly still along said northern line for 80 feet to the eastern line of said approach;
 31. Thence southerly along said eastern line for 66 feet to the northern line of Tremont avenue;
 32. Thence easterly along the northern line of Tremont avenue for 61.30 feet to the eastern line of Tremont avenue;
 33. Thence southerly along said eastern line for 28.37 feet;
 34. Thence easterly deflecting 111 degrees 51 minutes 20 seconds to the left for 1,916.838 feet;
 35. Thence southeasterly deflecting 45 degrees 17 minutes 30 seconds to the right for 163.101 feet;
 36. Thence easterly deflecting 76 degrees 20 minutes to the left for 622.513 feet;
 37. Thence easterly deflecting 5 degrees 57 minutes 40 seconds to the right for 875.240 feet;
 38. Thence easterly deflecting 5 degrees 59 minutes 20 seconds to the right for 555.616 feet;
 39. Thence easterly deflecting 6 degrees 41 minutes 30 seconds to the right for 4,514.360 feet;
 40. Thence easterly curving to the right on the arc of a circle of 200 feet radius tangent to the preceding course for 165.351 feet;
 41. Thence southeasterly on a line tangent to the preceding course for 174.782 feet;
 42. Thence southeasterly deflecting 10 degrees 24 minutes 40 seconds to the left for 574.430 feet;
 43. Thence southerly curving to the right on the arc of a circle of 350 feet radius tangent to the preceding course for 376.497 feet;
 44. Thence easterly on the prolongation of the radius of the preceding course drawn through its eastern extremity for 146.881 feet;
 45. Thence southeasterly deflecting 37 degrees 58 minutes 10 seconds to the right for 236.013 feet to the northwestern line of Westchester avenue;
 46. Thence northeasterly along last-mentioned line for 46.683 feet to the northeastern line of Westchester avenue.

West Farms road is shown on two maps; the first is entitled "Plan and profile showing the locating and laying out and the grades of West Farms road, from the New York, New Haven and Hartford Railroad to the Bronx river, Twenty-fourth Ward, Borough of The Bronx, City of New York, prepared by the Board of Public Improvements under authority of chapter 378 of the Laws of 1897," which map was filed in the office of the President of the Board of Public Improvements, in the office of the Register of the City and County of New York, on October 23, 1899, and in the office of the Counsel to the Corporation of The City of New York; the second map is entitled "Map or plan showing the locating and laying out and the grades of West Farms road, from the New York, New Haven and Hartford Railroad to the Westchester creek, and of a public place near junction of Westchester avenue, prepared by the President of the Borough of The Bronx, under authority of chapter 466 of the Laws of 1901," which map was filed in the office of the President of the Borough of The Bronx, in the office of the Register of the City and County of New York, and in the office of the Counsel to the Corporation of The City of New York, on or about June 17, 1904.

The land to be taken for West Farms road is located east of the Bronx river.
 Dated New York, November 17, 1904.

SECOND JUDICIAL DISTRICT.

In the matter of the application of The City of New York, acting by and through the Commissioner of Docks, relative to acquiring title in fee to certain lands, lands under water, wharf property and improvements thereon, and a perpetual easement or right of way for a viaduct 77 feet wide, with curved approaches at each end, in and over certain other lands, necessary for the improvement of the water front and harbor of The City of New York for ferry purposes, in the vicinity of SOUTH STREET, AT ST. GEORGE, in the Borough of Richmond, according to a certain plan heretofore adopted by the Commissioner of Docks and approved by the Commissioners of the Sinking Fund.

PURSUANT TO THE STATUTES IN SUCH cases made and provided, notice is hereby given that an application will be made to a Special Term of the Supreme Court of the State of New York in and for the Second Judicial District, to be held for the hearing of motions, at the Kings County Court-house, in the Borough of Brooklyn, in The City of New York, on the 29th day of November, 1904, at the opening of the Court on that day, or as soon thereafter as counsel can be heard thereon, for the appointment of Commissioners of Estimate and Assessment in the above-entitled matter.

The nature and extent of the improvement hereby intended is the acquisition of title in fee in the name of and for the benefit of The City of New York, to certain lands, lands under water, wharf property and improvements thereon, and a perpetual easement or right of way for a viaduct 77 feet wide, with curved approaches at each end, in and over certain other lands, necessary for the improvement of the water front and harbor of The City of New York for ferry purposes, in the vicinity of South street, at St. George, in the Borough of Richmond, in The City of New York, according to a certain plan adopted by the Commissioner of Docks on the 28th day of September, 1903, and approved by the Commissioners of the Sinking Fund on the 16th day of October, 1903, and which said lands, lands under water, and wharf property are situated in the Borough of Richmond, in The City of New York, and are bounded and described as follows:

PARCEL "A."

To be Acquired in Fee.

Beginning at a point in the bulkhead line established by the Secretary of War in 1889, where the centre line of South street intersects the same, and running thence westerly along the centre line of South street 546.91 feet to the southerly prolongation of the easterly line of Jay street.

Thence deflecting to the right through an angle of 69 degrees 39 minutes and 10 seconds, and running northwesterly along the easterly line of Jay street 634.57 feet to the easterly prolongation of the northerly line of DeKalb street.

Thence easterly along the easterly prolongation of the northerly line of DeKalb street 50 feet.

Thence southeasterly 581.65 feet along a line drawn parallel with and 50 feet easterly from the easterly line of Jay street to a line drawn paral-

lel with and distant 34 feet northerly from the northerly line of South street.

Thence deflecting to the left through an angle of 69 degrees 39 minutes 10 seconds, and running easterly 183.88 feet.

Thence deflecting to the left through an angle of 43 degrees 48 minutes 10 seconds, and running northeasterly 374.88 feet.

Thence deflecting to the left through an angle of 90 degrees, and running northwesterly 445 feet.

Thence deflecting to the right through an angle of 16 degrees 14 minutes, and running northwesterly 177 feet.

Thence deflecting to the right through an angle of 108 degrees 38 minutes, and running easterly 60 feet.

Thence deflecting to the left through an angle of 18 degrees 56 minutes, and running northwesterly 237 feet.

Thence deflecting to the left through an angle of 15 degrees 56 minutes, and running still northwesterly 35 feet.

Thence deflecting to the left through an angle of 64 degrees 22 minutes 35 seconds, and running northerly 119.28 feet to a point in the present bulkhead where a line drawn parallel with and 50 feet northerly from the northerly side of the present northerly pier at the St. George Ferry intersects the same.

Thence deflecting to the right through an angle of 80 degrees 0 minutes 37 seconds, and running northeasterly 482.25 feet to the pier-head line established by the Secretary of War in 1889.

Thence southeasterly along said pier-head line in the arc of a curve whose radius is 3,755.85 feet through an angle of 5 degrees 24 minutes 32 seconds for a distance of 354.56 feet to a point in said pier-head line where the last-mentioned curve compounds with a curve whose radius is 3,005.25 feet, and running still southeasterly and along said pier-head line in the arc of a curve whose radius is 3,005.25 feet through an angle of 13 degrees 33 minutes 11 seconds for a distance of 710.88 feet to a point of tangency in the said pier-head line.

Thence southerly and still along said pier-head line in a straight line 271.55 feet to the easterly prolongation of the centre line of South street.

Thence deflecting to the right through an angle of 96 degrees 18 minutes 28 seconds, and running westerly along the prolongation of the centre line of South street 550.89 feet to the point or place of beginning.

PARCEL "B."

Perpetual Easement or Right of Way to be Acquired.

Also a perpetual easement or right of way for a viaduct 77 feet wide, with curved approaches at each end, extending from the fourth course, hereinafter described in Parcel "A," northeasterly and at right angles with the seventh course, hereinafter described, the centre line of said right of way intersecting the said seventh course at a distance of 296 feet northerly from the southerly end thereof. The curved approaches at the easterly end of said easement intersecting the said seventh course at points in said course distant 240 and 352 feet respectively from the southerly end of said seventh course, measured northerly along said course, and the curved approaches at the westerly end of said easement being tangent to the fourth course, hereinafter described, at points distant 70 and 335 feet respectively from the southerly end of said fourth course, measured northerly along said course.

Said lands, lands under water and wharf property to be acquired in fee and said lands in and over which a perpetual easement or right of way for a viaduct is to be acquired are shown on a certain plan adopted by the Commissioner of Docks on the 28th day of September, 1903, and approved by the Commissioners of the Sinking Fund on the 16th day of October, 1903, and which said plan is on file in the office of the Department of Docks and Ferries of The City of New York.

Dated New York, November 15, 1904.
 JOHN J. DELANY,
 Corporation Counsel,

 Borough of Manhattan,
 City of New York.
 n16,d8

SECOND JUDICIAL DISTRICT.

In the matter of the application and petition of George B. McClellan, Edward M. Grout, Alexander E. Orr, Charles Stuart Smith, Morris K. Jesup, John H. Starin, Woodbury Langdon and John Claffin, constituting the Board of Rapid Transit Railroad Commissioners of The City of New York, for and on behalf of said City, for the appointment of Commissioners of Appraisal under chapter 4 of the Laws of 1891, and of the various statutes amendatory thereof and supplemental thereto relative to lands at JORALEMON AND FURMAN STREETS, in the Borough of Brooklyn, in The City of New York.

NOTICE IS HEREBY GIVEN THAT IT IS the intention of the Corporation Counsel of The City of New York to make application to the Supreme Court, at the Special Term for the hearing of motions, to be held at the County Court-house in the Borough of Brooklyn, on the 20th day of December, 1904, at the opening of the Court on that day, for the appointment of three disinterested freeholders, residents of The City of New York, as Commissioners of Appraisal, to ascertain and appraise the compensation to be made to the owners and all persons interested in the real property, rights, franchises, easements or privileges sought to be taken or affected in this proceeding.

The real property affected is located in the Borough of Brooklyn, and a fuller statement setting forth the location and boundaries of the several lots or parcels of property, and rights, franchises, easements or privileges sought to be taken or affected is annexed to similar maps thereof, adopted and approved by the Board of Rapid Transit Railroad Commissioners on the 16th day of June, 1904, and which said maps were filed, one in the office of the President of the Borough of Brooklyn on the 20th day of June, 1904; one in the office of the Register of the County of Kings on the 5th day of November, 1904, and one in the office of the Board of Rapid Transit Railroad Commissioners on the 20th day of June, 1904.

It is sought to be obtained in this proceeding a permanent and perpetual underground right, easement and right of way under the following-described premises: A permanent and perpetual underground right, easement and right of way for the construction, maintenance and operation in perpetuity of a rapid transit railroad in accordance with the routes and general plan prescribed by the Board of Rapid Transit Railroad Commissioners, by resolution adopted on the 25th day of January, 1901; approved by the Municipal Assembly of The City of New York on the 21st day of May, 1901; approved by the Mayor of The City of New York on the 1st day of June, 1901, and consented to by the Appellate Division of the Supreme Court in the Second Judicial Department by an order made and entered on or about the 25th day of January, 1902.

The said railroad in the part thereof shown upon the map is to consist of two lines or tracks

running parallel, or substantially so, and each of said tracks is inclosed in a tunnel whose outer surface is to be a cast-iron cylindrical tube of not more than sixteen feet and nine inches in diameter. The centres of said tubes shall not be more than twenty-eight feet apart. Each of the said tubes containing the said railway tracks shall be placed substantially equidistant from and parallel with a centre line described as follows:

Beginning at a point in Joralemon street, in the Borough of Brooklyn, City of New York, which point lies upon the westerly side of Furman street, distant about twenty-two feet southerly from the northwesterly corner of Joralemon and Furman streets; running thence in a westerly direction under Joralemon street and curving northerly along the circumference of a circle which has a radius of four thousand five hundred feet, and passing under certain land and under a certain bulkhead of the New York Dock Company, at or nearly opposite to the foot of Joralemon street; thence passing between Piers 17 and 18 of the said dock company, as the same now exist, and under certain land under water of the said company heretofore granted by the State of New York, to the northwesterly boundary of the said grant.

The said tubes shall be so constructed that the tops thereof at the westerly side or line of Furman street shall be not less than seventeen feet below the level of mean high water, or about thirty feet below the surface of said street; that the tops of said tubes at the existing bulkhead line shall be not less than twenty-seven feet below mean high water; and that at the northwesterly boundary of the said grant, the tops of the said tubes shall not be less than fifty-one feet below mean high water. Said right and easement shall include the right to maintain and operate a railroad perpetually and permanently through the said tubes, so to be constructed in accordance with the provisions of chapter 4 of the Laws of 1891 as amended, and the regulations and provisions for the operation of said railroad made pursuant thereto, and the right to enter upon the said premises so far as may be necessary for the construction, maintenance and operation of such railroad.

Dated New York, November 5, 1904.

SECOND DEPARTMENT.

In the matter of the application of The City of New York, relative to acquiring title, wherever the same has not been heretofore acquired, to the lands and premises required for the construction of a NEW BRIDGE OVER FLUSHING CREEK, between Jackson avenue, in the former Town of Newtown and Broadway, in the former Town of Flushing, in the Borough of Queens, City of New York.

PURSUANT TO THE STATUTES IN SUCH cases made and provided, notice is hereby given that an application will be made to the Supreme Court of the State of New York, Second Department, at a Special Term of said Court for the hearing of motions, to be held in the County Court-house, in the County of Westchester, in the Village of White Plains, on Saturday, the 3d day of December, 1904, at the opening of the Court on that day, or as soon thereafter as counsel can be heard thereon, for the appointment of Commissioners of Estimate and Appraisal in the above-entitled matter. The nature and extent of the improvement hereby intended is the acquisition of title by The City of New York, for the use of the public, to all the lands and premises, with the buildings thereon and the appurtenances thereto belonging, required for the construction of a new bridge over Flushing creek, between Jackson avenue, in the former Town of Newtown, and Broadway, in the former Town of Flushing, in the Borough of Queens, City of New York, being the following-described lots, pieces or parcels of land, viz.:

PARCEL "A."

Beginning at the intersection of the bulkhead line and the northerly line of Jackson avenue; thence one hundred and twenty-six feet (126') along said northerly line of Jackson avenue; thence northerly thirteen and twenty-eight hundredths feet (13.28'); thence westwardly one hundred and seventy feet (170') and thirty-five and thirteen hundredths feet (35.13') along the northerly line of Jackson avenue; thence easterly three hundred and twenty-seven and fourteen hundredths feet (327.14') to the bulkhead line; thence southerly along said bulkhead line thirty-four and sixteen hundredths feet (34.16') to the point of beginning.

PARCEL "B."

Beginning at a point in the southerly line of Jackson avenue distant forty-two and twenty hundredths feet (42.20') westerly from the bulkhead line; thence northerly thirty-seven hundredths feet (0.37'); thence westerly twenty-eight and ten hundredths feet (28.10'); thence southerly two and eighty hundredths feet (2.80'); thence easterly twenty-eight and twenty hundredths feet (28.20') to the point of beginning.

PARCEL "C."

Beginning at the intersection of the northerly line of Broadway and the bulkhead line; thence easterly one hundred and one and thirty hundredths feet (101.30'), thirty-one and fifteen hundredths feet (31.15') and forty-eight and forty-eight hundredths feet (48.48') along said northerly line of Broadway to the westerly line of Lawrence street; thence northerly fifteen and seven hundredths feet (15.07') along the westerly line of Lawrence street; thence westwardly two hundred and three and nineteen hundredths feet (203.19') to the bulkhead line; thence southeasterly twenty-five and three hundredths feet (25.03') and southerly thirty-four and seventy hundredths feet (34.70') along said bulkhead line to the point of beginning, as shown on a map entitled "Map of Property Required for the Construction of Flushing Bridge," Dated New York, Borough of Manhattan, on the 30th day of November, 1903, and filed in the office of the Commissioner of Bridges of The City of New York and in the office of the Clerk of the County of Queens on the 2d day of December, 1903.

Dated New York, November 17, 1904.
 JOHN J. DELANY,
 Corporation Counsel,

SECOND DEPARTMENT.

In the matter of the application of The City of New York, relative to acquiring title, wherever the same has not been heretofore acquired, to RICHARD STREET (although not yet named by proper authority), from the Bronx and Pelham parkway to Morris street, as shown on section 31 of the Final Maps, in the Twenty-fourth Ward, Borough of The Bronx, City of New York.

PURSUANT TO THE STATUTES IN SUCH cases made and provided, notice is hereby given that an application will be made to the Supreme Court of the State of New York, Second Department, at a Special Term of said Court, to be held for the hearing of motions, in the County Court-house, in the County of Westchester, in the Village of White Plains, on Saturday, the 3d day of December, 1904, at the opening of the Court on that day, or as soon thereafter as counsel can be heard thereon, for the appointment of Commissioners of Estimate and Assessment in the above-entitled matter. The nature and extent of the improvement hereby intended is the acquisition of title by The City of New York, for the use of the public, to all the lands and premises, with the buildings thereon and the appurtenances thereto belonging, required for the opening of a certain street or avenue known as Richard street, from the Bronx and Pelham parkway to Morris street, as shown on section 31 of the Final Maps, in the Twenty-fourth Ward, Borough of The Bronx, City of New York, being the following-described lots, pieces or parcels of land, viz.:

Beginning at a point in the southern side line of Morris street distant 221.56 feet westerly from the western side line of White Plains road:
 1st. Thence westerly along the southern side line of Morris street for 60.04 feet;
 2d. Thence southerly deflecting to the left 92 degrees 11 minutes for 57.63 feet;
 3d. Thence southerly deflecting to the right 1 degree 50 minutes 20 seconds for 60.02 feet;
 4th. Thence southerly deflecting to the right 20 minutes 40 seconds for 4,198.92 feet;
 5th. Thence northeasterly along the arc of a circle whose radius is 150 feet and forms an angle of 34 degrees 2 minutes 46 seconds with the southern prolongation of the previous course for 65.05 feet;
 6th. Thence northerly deflecting to the right from the prolongation of the radius of the previous course 9 degrees 11 minutes 56 seconds for 4,176.93 feet;
 7th. Thence northerly deflecting to the left 22 minutes 3 seconds for 60.02 feet;
 8th. Thence northerly for 555.84 feet to the point of beginning.

This street is shown on a map entitled Map or plan showing the locating and laying out and the grades of Richard street (Elliott avenue), from the Bronx and Pelham parkway to Morris street, in the Twenty-fourth Ward, Borough of The Bronx, City of New York, which map was filed in the office of the President of the Borough of The Bronx, and the office of the Corporation Counsel of The City of New York on or about the 27th day of May, 1904.

The land to be taken for Richard street is situated east of the Bronx river.

Dated New York, November 17, 1904.

SECOND DEPARTMENT.

In the matter of the application of The City of New York, relative to acquiring title, wherever the same has not been heretofore acquired, to TAYLOR STREET (although not yet named by proper authority), from Morris Park avenue to West Farms road, in the Twenty-fourth Ward, Borough of The Bronx, City of New York.

PURSUANT TO THE STATUTES IN SUCH cases made and provided, notice is hereby given that an application will be made to the Supreme Court of the State of New York, Second Department, at a Special Term of said Court, to be held in the County Court-house, in the County of Westchester, in the Village of White Plains, on Saturday, the 3d day of December, 1904, at the opening of the Court on that day, or as soon thereafter as counsel can be heard thereon, for the appointment of Commissioners of Estimate and Assessment in the above-entitled matter. The nature and extent of the improvement hereby intended is the acquisition of title by The City of New York, for the use of the public, to all the lands and premises, with the buildings thereon and the appurtenances thereto belonging, required for the opening of a certain street or avenue known as Taylor street, from Morris Park avenue to West Farms road, in the Twenty-fourth Ward, Borough of The Bronx, City of New York, being the following-described lots, piece or parcel of land, viz.:

Beginning at a point in the southern line of Morris Park avenue, as and now being legally opened, perpendicularly opposite a point in the northern side of said avenue, which point is 1,296.54 feet west of the western line of White Plains road:
 1st. Thence westerly along the southern line of said Morris Park avenue for 60 feet;
 2d. Thence southerly deflecting 90 degrees to the left for 1,249.882 feet;
 3d. Thence easterly deflecting 77 degrees 50 minutes 30 seconds to the left for 9.713 feet;
 4th. Thence southerly deflecting 90 degrees to the right for 81 feet;
 5th. Thence easterly deflecting 90 degrees to the left for 20 feet;
 6th. Thence northerly deflecting 90 degrees to the left for 81 feet;
 7th. Thence easterly deflecting 90 degrees to the right for 31.664 feet;

8th. Thence northerly for 1,262.809 feet to the point of beginning.

Taylor street is shown on a map entitled "Map or plan showing the locating and laying out of Taylor street, from Morris Park avenue to West Farms road, in the Twenty-fourth Ward, Borough of The Bronx, City of New York, prepared by the President of the Borough of The Bronx, under authority of chapter 466 of the Laws of 1901," filed in the office of the President of the Borough of The Bronx, in the office of the Counsel to the Corporation and in the office of the Register of the City and County of New York, on or about the 21st day of June, 1904.

The land to be taken for Taylor street is situated east of the Bronx river.

Dated New York, November 17, 1904.

SECOND DEPARTMENT.

In the matter of the application of The City of New York, relative to acquiring title to the lands, tenements and hereditaments required for the purpose of opening SEVENTY-SEVENTH STREET, from Shore road to Seventh avenue, in the Thirtieth Ward in the Borough of Brooklyn, in The City of New York, as the same has been heretofore laid out.

WE, THE UNDERSIGNED, COMMISSIONERS of Estimate and Assessment in the above entitled matter, hereby give notice to all persons inter-

ested in this proceeding, and to the owner or owners, occupant or occupants, of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That we have completed our amended supplemental estimate and assessment, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, and having objections thereto, do present their said objections in writing, duly verified, to us at our office in the office of the Law Department, No. 16 Montague street, in the Borough of Brooklyn, in The City of New York, on or before the 29th day of November, 1904, and that we, the said Commissioners, will hear parties so objecting, and for that purpose will be in attendance at our said office on the 1st day of December, 1904, at 2:30 o'clock P. M.

Second—That the abstract of our said amended supplemental estimate and assessment, together with our damage and benefit maps, and also all the affidavits, estimates, proofs and other documents used by us in making our report, have been deposited in the Bureau of Street Openings of the Law Department of The City of New York, in the Borough of Brooklyn, No. 16 Montague street, in the Borough of Brooklyn, in The City of New York, there to remain until the 10th day of December, 1904.

Third—That the limits of our assessment for benefit include all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of Brooklyn, in The City of New York, which, taken together, are bounded and described as follows, viz.: Beginning at a point on the easterly side of Shore road where the same is intersected by the centre line of the block between Seventy-seventh street and Seventy-ninth street; running thence easterly and along the centre line of the block between Seventy-seventh street and Seventy-ninth street to the westerly side of Narrows avenue; running thence northerly along the westerly side of Narrows avenue to a point which would be intersected by the prolongation of the centre line of the block between Seventy-seventh street and Seventy-eighth street; running thence easterly and along said centre line of the block between said Seventy-seventh street and Seventy-eighth street and its prolongation, to the westerly side of Seventh avenue; running thence northerly and along the westerly side of Seventh avenue to the centre line of the block between Seventy-seventh street and Seventy-sixth street; running thence westerly along the centre line of the blocks between Seventy-seventh street and Seventy-sixth street to the westerly side of Narrows avenue; running thence northerly along the westerly side of Narrows avenue to the centre line of the block between Seventy-seventh street and Seventy-fifth street; running thence westerly and along the centre line of the block between Seventy-seventh street and Seventy-fifth street to the easterly side of Shore road; running thence southerly and along the easterly side of Shore road to the point or place of beginning.

Fourth—That our report herein will be presented for confirmation to the Supreme Court of the State of New York, Second Department, at a Special Term thereof for the hearing of motions, to be held in the County Court-house, in the Borough of Brooklyn, in The City of New York, on the 30th day of December, 1904, at the opening of the Court on that day.

Dated BOROUGH OF BROOKLYN, THE CITY OF NEW YORK, November 10, 1904.

GEORGE S. BILLINGS, Chairman;
JAMES H. SCRIMGEOUR,
JOHN DONOVAN, Commissioners.

JAMES F. QUIGLEY, Clerk. n10,d28

SECOND DEPARTMENT.

In the matter of the application of The City of New York, relative to acquiring title to the lands, tenements and hereditaments, required for the purpose of opening SIXTH AVENUE, from Sixtieth street to Fort Hamilton avenue, in the Thirtieth Ward in the Borough of Brooklyn, in The City of New York, as the same has been heretofore laid out.

WE, THE UNDERSIGNED, COMMISSIONERS of Estimate and Assessment in the above entitled matter, hereby give notice to all persons interested in this proceeding, and to the owner or owners, occupant or occupants, of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That we have completed our estimate and assessment, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, and having objections thereto, do present their said objections in writing, duly verified, to us at our office in the office of the Law Department, No. 16 Montague street, in the Borough of Brooklyn, in The City of New York, on or before the 29th day of November, 1904, and that we, the said Commissioners, will hear parties so objecting, and for that purpose will be in attendance at our said office on the 1st day of December, 1904, at 3 o'clock P. M.

Second—That the abstract of our said estimate and assessment, together with our damage and benefit maps, and also all the affidavits, estimates, proofs and other documents used by us in making our report, have been deposited in the Bureau of Street Openings of the Law Department of The City of New York, in the Borough of Brooklyn, No. 16 Montague street, in the Borough of Brooklyn, in The City of New York, there to remain until the 10th day of December, 1904.

Third—That the limits of our assessment for benefit include all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of Brooklyn, in The City of New York, which, taken together, are bounded and described as follows, viz.: Beginning at a point on the southerly side of Sixtieth street where the same is intersected by the centre line of the block between Sixth avenue and Seventh avenue; running thence southerly and along the centre line of the blocks between Sixth avenue and Seventh avenue to a point about 40 feet southerly of the southerly side of Seventy-eighth street; running thence southerly along the centre line of the blocks between Sixth avenue and Fort Hamilton avenue to the northerly side of Eighty-first street; running thence easterly along the northerly side of Eighty-first street to the westerly side of Fort Hamilton avenue; running thence southerly and along the westerly side of Fort Hamilton avenue to the northerly side of Eighty-fourth street; running thence westerly and along the northerly side of Eighty-fourth street to the centre line of the block between Fifth avenue and Sixth avenue; running thence northerly and along the centre line of the blocks between Fifth avenue and Sixth avenue to the southerly side of Sixtieth street; running thence easterly along the southerly side of Sixtieth street to the point or place of beginning.

Fourth—That our report will be presented for confirmation to the Supreme Court of the State of New York, Second Department, at a Special Term thereof for the hearing of motions, to be held in the County Court-house, in the Borough of Brooklyn, in The City of New York, on the 30th day of December, 1904, at the opening of the Court on that day.

Dated BOROUGH OF BROOKLYN, THE CITY OF NEW YORK, November 10, 1904.

WALTER T. BENNETT,
WILLIAM H. GOOD,
Commissioners.

JAMES F. QUIGLEY, Clerk. n10,d28

SECOND DEPARTMENT.

In the matter of the application of The City of New York, relative to acquiring title to the lands, tenements and hereditaments required for the purpose of opening G TING PLACE, from Eighty-sixth street to Ninety-second street, in the Thirtieth Ward, in the Borough of Brooklyn, in The City of New York, as the same has been heretofore laid out.

WE, THE UNDERSIGNED COMMISSIONERS of Estimate and Assessment in the above entitled matter, hereby give notice to all persons interested in this proceeding, and to the owner or owners, occupant or occupants, of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That we have completed our amended supplemental estimate and assessment, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, and having objections thereto, do present their said objections in writing, duly verified, to us at our office in the office of the Law Department, No. 16 Montague street, in the Borough of Brooklyn, in The City of New York, on or before the 29th day of November, 1904, and that we, the said Commissioners, will hear parties so objecting, and for that purpose will be in attendance at our said office on the 1st day of December, 1904, at 3:30 o'clock P. M.

Second—That the abstract of our said amended supplemental estimate and assessment, together with our damage and benefit maps, and also all the affidavits, estimates, proofs and other documents used by us in making our report, have been deposited in the Bureau of Street Openings of the Law Department of The City of New York in the Borough of Brooklyn No. 16 Montague street, in the Borough of Brooklyn in The City of New York, there to remain until the 10th day of December, 1904.

Third—That the limits of our assessment for benefit include all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of Brooklyn, in The City of New York, which, taken together, are bounded and described as follows, viz.: Beginning at a point on the southerly side of Eighty-sixth street where the same is intersected by the centre line of the block between Gatling place and Dahlgren place; running thence southerly and along the centre line of the blocks between Gatling place and Dahlgren place to the northerly side of Ninety-second street; running thence westerly and along the northerly side of Ninety-second street to the centre line of the block between Gatling place and Fort Hamilton avenue; running thence northerly and along the centre line of the blocks between Gatling place and Fort Hamilton avenue to the southerly side of Eighty-sixth street; running thence easterly along the southerly side of Eighty-sixth street to the point or place of beginning.

Fourth—That our report herein will be presented for confirmation to the Supreme Court of the State of New York, Second Department at a Special Term thereof for the hearing of motions, to be held in the County Court-house, in the Borough of Brooklyn, in The City of New York, on the 30th day of December, 1904, at the opening of the Court on that day.

Dated BOROUGH OF BROOKLYN, THE CITY OF NEW YORK, November 10, 1904.

THEODORE B. GATES,
Chairman;
BERNARD L. MINTZ,
REUBEN L. HASKELL,
Commissioners.

JAMES F. QUIGLEY, Clerk. n10,d28

In the matter of the application of The City of New York, the successor of the Mayor, Aldermen and Commonalty of The City of New York, for the appointment of Commissioners of Assessment under chapter 339 of the Laws of 1892, an act entitled "An Act to regulate, improve and enlarge PARK AVENUE, above One Hundred and Sixth street, in The City of New York, and providing for the passage of the intersecting streets under the railroad structure of the New York and Harlem Railroad Company, and for the elevation of said railroad structure, and for changing the grade of said railroad, and for the construction of a new railroad bridge at an increased elevation over the Harlem river, and providing for all changes in any avenues, streets or railroads that may be necessary by reason of such change in structure and grade and increased elevation of bridge, and for other purposes," as amended by chapter 548 of the Laws of 1894, by chapter 594 of the Laws of 1896, and by chapter 613 of the Laws of 1898.

NOTICE IS HEREBY GIVEN THAT WE, the undersigned Commissioners of Assessment, appointed by the Supreme Court in the above entitled special proceeding, did deposit on the 26th day of October, 1904, pursuant to section 17 of chapter 339 of the Laws of 1892, a true copy or transcript of our report herein, in the office of the Comptroller of The City of New York, for the inspection of whomsoever it may concern; and that said report will be presented to the said Supreme Court on the first Monday of December, 1904.

Notice is hereby further given that the statute permits any person or persons whose rights may be affected by said report, and who may object to the same or any part thereof, to set forth their objections to the same in writing to the undersigned Commissioners within thirty days after the first publication of this notice, which publication took place on the 27th day of October, 1904.

Dated New York City, October 21, 1904.

EDWARD LAUTERBACH,
Chairman.
MORRIS GUGGENHEIM,
FRANK BULKLEY,
Commissioners.

HERMAN J. KATZ, Clerk. 027,d3

COUNTY OF QUEENS.

In the matter of acquiring title by The City of New York to certain lands and premises situated on the SOUTHERLY SIDE OF MAURICE AVENUE, between Columbia avenue and Carroll place, in the Borough of Queens, in The City of New York, duly selected as a site for school purposes, according to law.

NOTICE IS HEREBY GIVEN THAT IT IS the intention of the Corporation Counsel of The City of New York to make application to the Supreme Court, at Special Term for the hearing of motions, to be held at the County Court-house, in the Borough of Brooklyn, on the 29th day of November, 1904, at the opening of the Court on that day, for the appointment of three disinterested citizens, residents of the Borough of Queens, as Commissioners of Estimate and Appraisal, to ascertain and appraise the compensation to be made to the owners and all persons interested in the real property situated in the Borough of Queens, in The City of New York, bounded and described as follows:

Beginning at a point formed by the intersection of the southerly line of Maurice avenue with the easterly line of Columbia avenue, and running thence southerly along the easterly line of Columbia avenue ninety-seven (97) feet to the northerly line of lands of Public School 78; thence easterly along the northerly line of said

lands of Public School 78 twenty-five (25) feet to the westerly line of the lands of said Public School 78; thence northerly along the westerly line of the lands of said Public School 78 ninety-six (96) feet to the southerly line of Maurice avenue; thence westerly along the southerly line of Maurice avenue twenty-five (25) feet to the easterly line of Columbia avenue, the point or place of beginning; also

Beginning at a point formed by the intersection of the southerly line of Maurice avenue with the westerly line of Carroll place, and running thence southerly along the westerly line of Carroll place eighty-eight (88) feet to the northerly line of the lands of Public School 78; thence westerly along the northerly line of said Public School 78 twenty-five (25) feet to the easterly line of the lands of said Public School 78; thence northerly along the easterly line of the lands of said Public School 78 eighty-nine (89) feet to the southerly line of Maurice avenue; thence easterly along the southerly line of Maurice avenue twenty-five (25) feet to the westerly line of Carroll place, the point or place of beginning.

Dated New York, November 11, 1904.

SECOND DEPARTMENT.

In the matter of the application of The City of New York, relative to acquiring title to the lands, tenements and hereditaments required for the purpose of opening ENGERT AVENUE, from Giaman avenue to Manhattan avenue, in the Seventeenth Ward, in the Borough of Brooklyn, in The City of New York, as the same has been heretofore laid out.

NOTICE IS HEREBY GIVEN THAT THE BILL of costs, charges and expenses incurred by reason of the proceedings in the above entitled matter will be presented for taxation to one of the Justices of the Supreme Court of the State of New York, at a Special Term thereof, to be held for the hearing of motions, at the Kings County Court-house, in the Borough of Brooklyn, in The City of New York, on the 28th day of November, 1904, at 10:30 o'clock in the forenoon of that day, or as soon thereafter as counsel can be heard thereon; and that the said bill of costs, charges and expenses has been deposited in the office of the Clerk of the County of Kings, there to remain for and during the space of ten days, as required by the provisions of section 999 of title 4 of chapter 17, of chapter 378 of the Laws of 1897, as amended by chapter 466 of the Laws of 1901.

Dated BOROUGH OF BROOKLYN, NEW YORK, November 9, 1904.

JOHN T. BLADEN,
WM. W. CARNER,
GRANVILLE W. HARMAN,
Commissioners.

JAMES F. QUIGLEY, Clerk. n9,d19

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, the names of all persons interested with him herein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract or in the supplies, work or business to which it relates, or in any portion of its profits, thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
