2 APPEARANCES: PANEL MEMBERS: Harry Szarpanski, Assistant Commissioner, Department of Sanitation Steven Lawitts, Deputy Commissioner, Department of Sanitation Sarah Dolinar, Department of Sanitation Daniel Harkins, HDR

PRECISE COURT REPORTING, A Spherion Agency (516) 747-9393 (718) 343-7227 (212) 581-2570

1 MR. SZARPANSKI: 2 We're going to get started. Good evening. My name is 3 4 Harry Szarpanski. I'm the Assistant 5 Commissioner for the Bureau of Long-term 6 Export with the New York City Department 7 of Sanitation. 8 I welcome the opportunity to appear before you tonight to let you know about 9 10 the comprehensive study on commercial waste management in the City of New 11 York. The study will be undertaken by 12 13 the Department with the assistance of our 14 solid waste management plan consultant, Henningson, Durham & Richardson, also 15 known as HDR. 16 I am joined by a representative of 17 HDR, Dan Harkins, as well as people from 18 the Department. We have Deputy 19 Commissioner for Administration Steve 20 21 Lawitts and Sarah Dolinar of my staff. 22 My comments tonight will be brief. The real focus of this public meeting is 23 your comments on commercial waste 24 25 management issues that affect your

2 communities.

1

3	In a nutshell, the commercial waste
4	study will move forward in the following
5	way. The Department, through HDR, will
6	develop a scope and conduct a study. The
7	broad outlines of the study are set forth
8	in the Administrative Code as it was
9	amended by Local Law 74 of 2000. If you
10	are not familiar with it, a copy of Local
11	Law 74 is available as a handout
12	tonight.
13	Also available tonight are copies
14	of a preliminary report, issued by the
15	Department in June of this year, which
16	contains the data necessary to perform
17	the analyses required in the commercial
18	waste study.
19	The commercial waste study will
20	perform the tasks outlined in Local Law
21	74, including analysis of the
22	effectiveness of procedures and criteria
23	for the issuance and/or renewal of
24	operating permits for putrescible and
25	non-putrescible solid waste transfer

PRECISE COURT REPORTING, A Spherion Agency (516) 747-9393 (718) 343-7227 (212) 581-2570

stations in minimizing potential adverse 2 environmental, economic and public health 3 4 impacts on the communities in which they 5 are located; the manner in which 6 regulations relating to transfer station 7 operations, private carter and long-haul 8 transport vehicles are enforced; the 9 means and potential effects of limiting 10 the number and capacity of transfer stations in the city; the size and type 11 of vehicles that should be authorized to 12 13 transport solid waste to or from transfer 14 stations and fuel-type requirements for such vehicles; whether transfer stations 15 and city-owned marine transfer stations 16 17 should receive and process both residential and commercial solid waste 18 19 and the options for transporting such solid waste to and from such transfer 20 21 stations, including an analysis of 22 potential adverse impacts; and potential 23 adverse impacts on communities in which large numbers of transfer stations are 24 25 located.

1 As part of the study, the 2 Department and the HDR team are required 3 4 to and will solicit and consider the 5 views of the elected officials, the 6 city-wide recycling advisory and borough 7 solid waste advisory boards and the 8 public, including residents of the 9 affected communities, environmental 10 advocacy organizations, transfer station operators, private carters, business 11 entities and academicians, and respond to 12 13 substantive issues raised. 14 To obtain these views, we have scheduled a public meeting in each 15 borough as well as a meeting with the 16 17 Citywide Recycling Advisory Board and the five borough Solid Waste Advisory 18 Boards. We will also reach out to the 19 20 other groups listed above. 21 We will conduct these outreach efforts between now and December 16. For 22 this reason, we ask that we receive all 23 written comments that you would like to 24 25 be considered as part of the scoping

         process on or before 5:00 p.m. on Monday,
         December 16.
 3
 4
               All written comments should be
 5
         mailed or faxed to me at 44 Beaver
 6
         Street, 12th floor, New York, New York
 7
         10004, and the fax number is
         212-269-0788. This contact information
 8
 9
         has been printed on the comment and
10
         question cards that are available here
11
         tonight.
               Based on all the comments received,
12
13
         HDR is expected to complete the draft
14
         scope for the study by the end of
         December. The draft scope will appear on
15
         Sanitation's web-site and a comment
16
17
         period will be established to obtain
         comments on the draft scope that will be
18
         considered before a final scope is posted
19
20
         on the web-site.
21
               The study itself and an
22
         accompanying report are expected to be
         completed in March of 2004 and issued to
23
24
         the Mayor and City Council. It's
25
         important to note that the commercial

1 waste study will be designed to meet a 2 number of planning goals. 3 4 The study will enable the city to 5 assess and plan for management of both the residential and commercial waste 6 7 streams and will assist the Department in 8 developing a new solid waste management 9 plan. Equally important will be the 10 recommendations developed in the report on ways to minimize the potential adverse 11 12 impacts on the city's residential and business communities and the 13 14 environment. 15 So we can hear everyone who wants to speak tonight -- well, we typically 16 17 would limit our comments to three minutes, but we will do away with that 18 19 restriction tonight. If you do not wish to speak but 20 21 would like to provide us with written 22 comments, please complete one of the 23 comment cards we have provided for your 24 use. 25 We have a stenographer keeping the

PRECISE COURT REPORTING, A Spherion Agency (516) 747-9393 (718) 343-7227 (212) 581-2570

1 record of the testimony, so please state 2 your name clearly. And if there are 3 4 elected officials, they will have an 5 opportunity to speak first. 6 So thank you for coming out 7 tonight. Our first speaker is Jeffrey 8 Markow. 9 SPEAKER: My name is Jeffrey 10 Markow, and I live on the South Shore of Staten Island. I am of the environmental 11 committee. Staten Islanders more than 12 13 any other residents in New York City are 14 cognizant of waste issues, and I think that even though this hearing was 15 communicated to community boards, people 16 17 didn't understand what this hearing was about, and that's probably why you don't 18 19 have more of a turnout. 20 We lived with waste for half a 21 century and all the debilitating aspects of having the world's largest garbage 22 23 dump in our backyard. 24 When it comes to siting transfer 25 stations, Staten Island has approximately

PRECISE COURT REPORTING, A Spherion Agency (516) 747-9393 (718) 343-7227 (212) 581-2570

1 2 3,000 acres of manufacturing zone property available, and that's a very 3 4 frightening prospect in that transfer 5 stations tend to be, need to be, from 6 what I read, in M zone locations. 7 Staten Island has a tremendous 8 number of residential developments now 9 being built in direct proximity to those 10 manufacturing zone areas and the Fresh Kills landfill, for that matter. 11 So any waste transfer facilities 12 13 that you site potentially could impact 14 residential neighborhoods as well, and I would ask, and I think the people of 15 Staten Island would ask that you be very, 16 17 very considerate of the burden that Staten Islanders have shouldered for the 18 past half century, really a 19 disproportionate burden to the remainder 20 21 of the city. 22 I'm pretty sure you heard something 23 very similar from the people in Brooklyn because they have more waste transfer 24 25 stations than anywhere in New York City.

PRECISE COURT REPORTING, A Spherion Agency (516) 747-9393 (718) 343-7227 (212) 581-2570

1 2 But in looking at our numbers, when you site these stations, they should be 3 4 in proportion to the amount of waste that 5 that borough generates or transfers. 6 Obviously we have some advantages that 7 the water access to the Fresh Kills 8 landfill, and that's probably a 9 mitigating factor as well, but be 10 considerate to Staten Island and insure that each of the boroughs do shoulder 11 their share of the burden. I think 12 13 that's really, really important. That's 14 all I can say. Thank you. 15 MR. SZARPANSKI: Thank you for your comment. We have a second speaker, 16 17 John DiFazio. How are you doing? I 18 SPEAKER: wasn't really planning on speaking 19 20 tonight, so I just put a few notes 21 together. My name is John DiFazio, and I 22 represent Fastech Industries. We operate 23 a sanding gravel business in an M-3 zoned property. We are a division of DiFazio 24 25 Construction, which is one of the largest

PRECISE COURT REPORTING, A Spherion Agency (516) 747-9393 (718) 343-7227 (212) 581-2570

1 municipal contractors here on Staten 2 Island. And as we know, Staten Island is 3 4 a growing borough. As far as infrastructure goes, the 5 6 budget with the Department of Design and 7 Construction, this year alone is over 8 \$120 million worth of work in the way of sewers, water mains and bridge repair and 9 10 so forth. Currently most of our material is 11 12 deposited at the Fresh Kills landfill as 13 fill material, and really my goal, the 14 gist of my speech here is really based on fill material. 15 When considering the needs of 16 17 Staten Island, please look toward the fact that right now almost all the city 18 19 projects dump their waste products at the landfill. Once the landfill has achieved 20 grading plan, there will be no further 21 room for this fill material. 22 23 Now, through the General Contracts Association, we continue to lobby DDC and 24 New York State DOT to allow more 25

PRECISE COURT REPORTING, A Spherion Agency (516) 747-9393 (718) 343-7227 (212) 581-2570

1 recycling materials into our projects, 2 recycled stone, recycled fill, so that 3 4 the turnaround of course would reduce the 5 amount of waste. 6 Currently Fastech Industries has 7 applied for a fill material permit. We 8 have been in the application process for 9 about two years, and we are currently put 10 on freeze. Right now all transfer sites are put on freeze for siting, which means 11 part of our application has been put on 12 13 hold. 14 Again, I just ask the board that when you consider the development of 15 Staten Island, consider that a huge 16 amount of the waste from construction 17 projects is being deposited at the 18 landfill, and if the landfill is close to 19 achieving the grading plan, the rise in 20 21 fill material is going to rise 22 exorbitantly. 23 Pretty much that's all the notes I 24 had time to put together. Thank you. 25 MR. SZARPANSKI: Thank you very

PRECISE COURT REPORTING, A Spherion Agency (516) 747-9393 (718) 343-7227 (212) 581-2570

much. Is there anybody else who wants to present any comments? Well, then I call this meeting to a close, bring this meeting to a close. (TIME NOTED: 7:40 P.M.)
