Resolved, That, as the elected representatives of the people of Greater New York, we condemn the action of the Board of Education in excluding the study of the German language in our elementary public schools except as an elective

study during the last year, at the option of the Board of Superintendents and with power on their part to substitute any other study at any time.

Resolved, That as such change in the course of study was entirely arbitrary on the part of such Board, which cannot claim as an appointive body to represent the constituency of this great municipality, and as no request or suggestion for such change came from the parents of the pupils of our public schools, who are most directly interested and concerned in the matter, and as the advantages of a knowledge of German are recognized by every element in the community, we demand that the study of German be restored to the place it heretofore occupied among the studies pursued by the pupils of our elementary public schools.

Sec. 39. "All connections between lead pipes and between brass or copper pipes must be made by means of wiped solder joints, and all floor flanges of all sanitary fixtures and all connections between said fixtures and waste or soil pipes, where said connections are on outlet or sewer side of trap, shall be made without the use of red lead, putty, plaster, cement or any other similar substance."

The Plumbing Rules and Regulations for the Borough of Brooklyn are hereby amended by adding the following sections:

### PART XVI.

Sec. 161. Hereafter the gas piping and fixtures in all new buildings and all alterations and extensions made to the gas piping or fixtures in old buildings must be done in accordance with the following rules, which are made in accordance with the provisions of section 89 of the Building Code.

All stop pins to keys or cocks shall be screwed into place.

Sec. 181. After all piping is fitted and fastened and all outlets capped up, there must be applied by the plumber, in the presence of an Inspector of the Bureau of Buildings, a test with air to a pressure equal to a column of mercury 6 inches in height, and the same to stand for five minutes; only mercury gauge shall be used. On the Inspector's report of this test as above, a final approval card in duplicate will be issued by the Superintendent of Buildings.

Such modification shall be endorsed upon the permit over the signature of the Superintendent of Buildings.

In regard to the opening of the streets, information of which is requested, I beg to state that Underhill avenue, from Atlantic avenue to Flatbush avenue, was confirmed in opening on November 17, 1856.

Douglass street (now St. John's place) was opened 70 feet wide between Vanderbilt avenue and Nostrand avenue, date of confirmation being January 21, 1856. The street is now shown 100 feet wide on the Assessor's map, and I presume this street was a part of the territory acquired by the Park Department, the whole territory being known as the "East Side Park lands," and probably their powers were broad enough to enable them to change the width of streets, etc. The lands were afterwards disposed of. The widening seems to be addition of 15 feet to the width on each side, but I find no record showing that the City acquired the additional width.

Before this work can be authorized it will be necessary that a modification of the drainage plan in the vicinity be adopted. The preparation of said plan is now in an advanced stage of completion, and will be forwarded to you as soon as completed.

Grand avenue has been eliminated from the Commissioner's map south of Park place. Said avenue was an outlet street for the sewers in the vicinity, hence the necessity for the change of plan I have above mentioned.

I have held this report awaiting said change of plan, but now forward same, as the maps are nearly completed.

Respectfully yours,

(Signed)

JOHN THATCHER,

## BOROUGH OF MANHATTAN.

At a meeting of the Board of Local Improvements of the Washington Heights District, held June 2, 1903, the following members were present: Aldermen Florence, Meyers, Klett and President Cantor.

Mr. Burdick, representing the Consolidated and Standard Gas Companies, appeared before the Board and urged that this improvement be not made, and presented a communication from Mr. Martin Fink, owner of the southeast corner of One Hundred and Thirty-second street and Twelfth avenue, protesting against this work. Mr. Burdick stated that the communication previously received from Mr. Charles T. Barney's secretary, urging the paving of this street, was not authorized by Mr. Barney.

Mr. E. H. K. Belcher, representing No. 18 Ferry street, was opposed to the proposition, as he did not think it practicable.

Charles A. Schieren, owner of property on Ferry street, spoke in favor of the improvement, and also the intended raising of the grades.

Mr. William Howard Hoople, owner of No. 50 Ferry street, was opposed to the widening, but admitted if done it would relieve the congestion in traffic.

Mr. Justice Buckley was opposed to the widening, but in favor of the regrading of the street.

William Borrows, lessee of No. 72 Cliff street, was opposed to the improvement.

The President presented a petition calling attention to the grade of Van Corlear place, East, about 175 feet west from the corner of Kingsbridge avenue, suggesting that "if this sudden change in grade were eased off by carrying the incline 75 feet further west, it would be a decided improvement."

As the Board was of the opinion that this change of grade could be effected without a change of the map of the city, the following resolution was adopted:

The matter of changing the name of Convent avenue was laid over, because of the absence of Alderman Florence.

The President presented the matter of paving Van Corlear place, from Kingsbridge avenue to Wicker place.

The Chief Engineer of Highways recommended that—because of the grade being 13.7 per cent. from Kingsbridge avenue for a distance of 175.3 feet south—granite block pavement be used on this portion of the roadway, and from that point southerly to Wicker place, telford macadam be laid.

On motion, resolution was adopted providing for the paving of roadway of Van Corlear place, from Kingsbridge avenue to a point 175.3 feet southerly, with granite blocks on concrete foundation. Estimated cost, \$1,050; assessed value of property affected, \$17,250.

**NOTICE IS HEREBY GIVEN THAT THE** Board of Estimate and Apportionment of The City of New York, deeming it for the public interest so to do, proposes to change the map or plan of The City of New York by

Changing the lines of White Plains road, between Morris Park avenue and West Farms road, and by laying out Unionport road, from White Plains road to West Farms road.

—in the Borough of The Bronx, City of New York, and that a meeting of said Board will be held in the Old Council Chamber (Room 16), City Hall, Borough of Manhattan, City of New York, on the 8th day of July, 1903, at 10.30 o'clock a. m., at which such proposed change will be considered by said Board, all of which is more particularly set forth and described in the following resolutions, adopted by the Board on the 12th day of June, 1903, notice of the adoption of which is hereby given, viz.:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442 of the Greater New York Charter, as amended, deeming it for the public interest so to do, proposes to change the map or plan of The City of New York by changing the lines of White Plains road, between Morris Park avenue and West Farms road, and by laying out Unionport road, from White Plains road to West Farms road, in the Borough of The Bronx, City of New York, more particularly described as follows:

This change consists in excluding from the land formerly required for White Plains road, the portions between White Plains road and Unionport road, as hereafter described, and also the portion lying northerly of Unionport road, as hereafter described, between West Farms road and White Plains road.

The change in lines of White Plains road consists in laying out White Plains road 100 feet in width from West Farms road to Unionport road, the northern line of the present road (to be parallel and 100 feet north of the southern line of White Plains road, as formerly laid out), and to extend from West Farms road to a point about 200 feet southeast of Jackson avenue, to extend thence northeasterly 11.809 feet parallel to Jackson avenue to the southern line of Unionport road as now in use.

The laying out of Unionport road consists in retaining the southern line of said road (as now laid out) from White Plains road to West Farms road, and in laying out the northern line of Unionport road 60 feet north and parallel to the western portion of said road, and extending said northern line in both directions and in a straight line from White Plains road to West Farms road.

This change discontinues and excludes from the former White Plains road a triangular plot between White Plains road, and also a strip of land about 55 feet in width and about 570 feet in length, lying north of Unionport road, from White Plains road to West Farms road, an area of about 21 city lots.

Resolved, That the President of the Borough of The Bronx cause to be prepared for submission to this Board three similar maps or plans for certification and filing in the manner required by law, showing as nearly as possible the nature and extent of the proposed changes and the location of the immediate adjacent or of intersecting open or established streets, roads, squares or places sufficient for the identification and location thereof.

Resolved, That this Board consider the proposed changes at a meeting of this Board, to be held in the Old Council Chamber (Room 16), City Hall, Borough of Manhattan, City of New York, on the 8th day of July, 1903, at 10.30 o'clock a. m.

Be it Ordained by the Board of Aldermen of The City of New York as follows:

Section 1. The Board of Aldermen of The City of New York hereby grants to the Erie Railroad Company, subject to the conditions and provisions hereinafter set forth, the franchise, right and privilege to construct and operate a double-track surface railroad, with a single switch connecting the two tracks, to be operated by steam locomotives or other motive power which may be lawfully employed, except horses or the overhead system of electricity across Thirteenth avenue and the marginal wharf or way extending from the westerly side of Thirteenth avenue to the waters of the Hudson river, between Twenty-seventh and Twenty-ninth streets, in the Borough of Manhattan, City, County and State of New York.

Sec. 2. The grant of this franchise is subject to the following conditions:

First—This ordinance as to the marginal wharf which extends from the westerly line of Thirteenth avenue to the waters of the Hudson river shall not be operative and no rights thereunder shall vest in the grantee, its successors or assigns until the Commissioner of Dock, under the provisions of section 819 of the Charter of The City of New York, shall approve by resolution, license or otherwise, the use of such marginal wharf by the grantee in the manner herein provided, or in such other manner as he may prescribe, not inconsistent with the terms of this ordinance.

Second—The said right, privilege and franchise to construct and operate such railroad shall be held and enjoyed by the grantee, its successors or assigns, for the term of twenty-five years from the date when this ordinance is signed by the Mayor, unless sooner terminated as hereinafter provided, with the privilege of renewal of the grant for a further period of twenty-five years, upon a fair revaluation of said right, privilege and franchise, but such renewal shall not provide for

any further renewal. Such revaluation shall be of the right, privilege and franchise to maintain and operate said railroad by itself, and is not to include any valuation derived from the ownership, operation or control of any other railroad by the grantee, its successors or assigns. It shall be made in the following manner:

One disinterested freeholder shall be chosen by the Board of Estimate and Apportionment or its successor in authority; one disinterested freeholder shall be chosen by the railroad company; these two shall choose a third disinterested freeholder, and the three so chosen shall act as appraisers and shall make the revaluation aforesaid. Such appraisers shall be chosen at least six months prior to the expiration of the grant, and their report shall be filed with the Comptroller or his successor in authority within three months after they are chosen. They shall act as appraisers and not as arbitrators. They may base their judgment upon their own experience, and upon such information as they may obtain by inquiries and investigations without the presence of either party. They shall have the right to examine the books of the railroad company. The valuation so ascertained, fixed and determined shall be conclusive upon both parties, but shall not in any event be less than the minimum amount fixed as the sum to be paid annually for the last five years of the original franchise.

Provided, however, and this grant is upon the express condition that the right, privilege and franchise conferred by this ordinance may be cancelled and annulled upon one year's notice in writing to the grantee, its successors or assigns, by the joint act of the Commissioner of Docks of The City of New York and of the Board of Estimate and Apportionment, or their respective successors in authority, and thereupon all the rights of the grantee, its successors or assigns in and upon the street and marginal wharf or way aforesaid shall cease, and the railroad and its structures thereon shall be forthwith removed and the pavement of the street or wharf restored under the same conditions and covenants as are contained in the following paragraph of this section, designated third:

Third—Upon the termination of such franchise, right or privilege, whether original or by way of renewal, the plant and property, with its appurtenances, of the Erie Railroad Company, its successors or assigns, in the street and upon the marginal wharf or way aforesaid shall be forthwith removed by the grantee, its successors or assigns, and the surface of the said street or marginal wharf or way upon which such railroad was laid shall be restored to a condition equal to that of the surrounding surface and pavement of such street and wharf. In default of the performance of this condition by the grantee, its successors or assigns, the proper legal authorities may cause such property and plant to be removed from the street and wharf aforesaid and the surface thereof to be restored in the manner above described at the expense of the grantee, its successors or assigns, and such expense shall be recovered by The City of New York by action or otherwise.

Fourth—The grantee, its successors or assigns shall pay for this franchise to The City of New York the following sums of money:

During the first term of five years the annual sum of \$675.

During the second term of five years the annual sum of \$700.

During the third term of five years the annual sum of \$725.

During the fourth term of five years the annual sum of \$750.

During the fifth term of five years the annual sum of \$800.

Such sums shall be paid into the Treasury of The City of New York on November 1 in each year.

Fifth—The rights and franchises granted hereby shall not be assigned either in whole or in part, or leased or sublet in any manner, nor shall title thereto, or right, interest or property therein pass to or vest in any other person or corporation whatsoever, either by the act of the Erie Railroad Company, its successors or assigns, or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations or otherwise, without the consent of The City of New York, acting by the Board of Estimate and Apportionment, or its successors in authority, evidenced by an instrument under seal, anything herein contained to the contrary thereof in any wise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents.

Sixth—The said railroad may be operated by locomotive steam power or by any other motive power which may be approved by the Board of Railroad Commissioners in accordance with the provisions of the Railroad Law, excepting overhead electrical power and horse power, provided, however, that the locomotive steam engines used shall be housed or boxed so as to conform to the type commonly known as the dummy engine.

The number of cars to be included in any train operated upon the railroad shall be limited to ten, and the speed of the engines and cars shall never exceed six miles per hour. No car or engine shall be permitted to remain stationary within the limits of Thirteenth avenue, or upon the marginal wharf or street at any time.

Seventh—The railroad constructed under this ordinance shall be maintained and operated solely for the purpose of the transportation of goods, wares and merchandise and for no other purpose, and especially for no purpose in connection with the passenger traffic as commonly understood.

Eighth—Such railroad shall be constructed and operated in the latest improved manner of street railroad construction and operation, and solely upon the terms and according to the lines and surveys and of the character of the rails and other parts of the construction approved by the Commissioner of Docks of The City of New York and the President of the Borough of Manhattan. Such railroad of the grantee, its successors or assigns shall be maintained in good condition throughout the term of this grant.

Ninth—Said railroad shall be constructed, maintained and operated subject to the supervision and control of all the authorities of The City of New York who have jurisdiction in such matters under the Charter of The City of New York, and especially shall in all respects be subject to the power and authority of the Commissioner of Docks to regulate and control the uses of the marginal wharf or way above described, and the transportation of property thereon.

Tenth—The grantee, its successors or assigns, shall at all times keep the street between the tracks, and for a distance of two feet beyond the rails on either side thereof, free and clear from ice and snow.

Eleventh—The grantee, its successors or assigns, shall keep in permanent repair the portion of the surface of the street and of the marginal wharf or way between its tracks, the rails of its tracks and two feet in width outside of its tracks, under the supervision of the proper local authorities, and whenever required by them to do so, and in such manner as they may prescribe. And The City of New York shall have the right to change the material or character of the pavement of the street and marginal wharf or way, and in that event the grantee, its successors or assigns shall be bound to replace such pavement in the manner directed by the proper City officer at its own expense, and the provision as to repairs herein contained shall apply to such renewed or altered pavement.

Twelfth—In case of any violation or breach or failure to comply with any of the provisions

herein contained, this grant may be forfeited and annulled by The City of New York by an action brought by the Corporation Counsel on ten days' notice to the grantee, its successors or assigns.

Sec. 3. This grant is upon the further and express condition that the provisions of the Railroad Law applicable thereto, and all laws or ordinances now in force or which may be adopted relating to surface railroads operating in The City of New York shall be strictly complied with.

Sec. 4. The grantee, its successors or assigns shall commence the construction of the railroad under this franchise and complete the same within six months from the date when it has obtained the necessary permits and resolutions of the City officials and Departments, and on or before January 1, 1904, otherwise this grant shall be forfeited forthwith and without any proceedings either at law or otherwise for that purpose, provided, however, that such time may be extended under and for causes specified in section 99 of the Railroad Law, by the Board of Estimate and Apportionment, for a period not exceeding six months.

Sec. 5. This grant is upon the express condition that the grantee, within thirty days after it has been duly authorized to construct or operate its railroad hereunder, and before anything is done in exercise of the rights conferred hereby, shall deposit with the Comptroller of The City of New York the sum of \$1,500, either in money or in securities, to be approved by him, which shall be security for the performance of the terms and conditions of this grant, especially those which relate to the payment of the annual charge for the franchise, the repairs of the street pavement and the removal of snow and ice, and the quality of construction of the railroad. In case of default in the performance by said company of such terms and conditions, The City of New York shall have the right to cause the work to be done and the materials to be furnished for the performance thereof after due notice, and shall collect the reasonable cost thereof from the said fund without legal proceedings, or after default in the payment of the annual charges, shall collect the same with interest from such fund after ten days' notice in writing to the said company.

In case of any drafts so made upon this security fund, the said company shall, upon thirty days' notice in writing, pay to the Comptroller of The City of New York a sum of money sufficient to restore the said fund to the original amount of fifteen hundred dollars, and in default thereof the grant hereby made may be canceled and annulled at the option of the Comptroller of The City of New York, acting on behalf of said City. No action or proceeding or rights under the provisions of this section shall affect any other legal rights, remedies or causes of action belonging to The City of New York.

Sec. 6. This grant shall not become operative until said railroad company shall duly execute, under its corporate seal, an instrument in writing wherein said company shall promise, covenant and agree on its part and behalf to conform to and abide by and perform all the terms and conditions and requirements in this ordinance fixed and contained, and file the same in the office of the Comptroller of The City of New York within thirty days after the signing of this ordinance by the Mayor.

Sec. 7. This ordinance shall take effect immediately.

#### PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

##### NOTICE TO CONTRACTORS.

##### GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, the names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the signature in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be included in the envelope containing the bid or estimate, but should be either included in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
