four interior stairways, two properly enclosed with fireproof partitions; doors slide on the enclosed stairways and are self-closing; imperfect horizontal exit on 2d floor; building used as machine shop, southern section is three stories high measures 256 x 70 feet; northerly section five stories high, measures 213 x 70 feet, except at the extreme northerly end, 40 feet of which is six stories high. The center six-story section measures 70 by 86 feet and contains two fireproof enclosed stairways with sliding doors, doors provided with fusible links and are left open continuously; from the foot of fireproof enclosed stairways it is necessary to cross the first floor workroom for a distance of 70 feet to reach exterior of building; there is an unenclosed stairway in three-story section, and an unenclosed stairway in north six-story section; there is a passageway from six-story section at north and across roof to tower stair in center six-story section.

Recommendation: While occupancy be not materially increased, accept stairway in northerly six-story section without being enclosed fire-resisting; will accept sliding doors at openings on condition that said doors be left open at all times when building is open or any one at work therein; will grant exemption from providing fireproof passage from foot of center stairs to street if a free and clear passageway be maintained at all times from foot of each stairway to exit doors.

And it appearing that there are practical difficulties and unnecessary hardship in complying with the strict provisions of law and the rules and regulations of the Industrial Code on the premises noted herein, and that in granting the variations set forth the spirit of the law and of the Code will be observed and public safety secured; and

It further appearing that each of the appellants has been advised that he would be given an opportunity to appear and be heard by the Commission at this time and place if he so desired, and such of the appellants who appeared having been given a hearing, therefore

Be it resolved by the State Industrial Commission, That the appellant in each of the cases set forth herein be and he hereby is granted the variation called for in the recommendation covering his respective building, with the understanding that said variation be effective only so long as the conditions remain as of this date.

STATE OF NEW YORK, OFFICE OF THE STATE INDUSTRIAL COMMISSION, ss.:

I, WILLIAM S. COFFEY, Secretary of the State Industrial Commission of the State of New York, DO HEREBY CERTIFY that I have compared the foregoing copy of a resolution with the original thereof duly adopted by the State Industrial Commission on the 5th day of June, 1918, and duly filed in the office of said Commission, and that the same is a true and correct copy and transcript of said resolution and of the whole thereof.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the seal of the State Industrial Commission this 8th day of June, 1918.

W. S. COFFEY, Secretary.

(SEAL) j12

Whereas, the Division of Factory Inspection has submitted to this Commission appeals from orders issued by said Division against the premises noted below, the granting of which appeals would necessitate a variation of law; and

Water st., adjoining on the east. The exit to stairway into adjoining building is accepted in lieu of providing iron stairway from roof with balcony, as called for in variation heretofore granted. Order refers to last mentioned door.

There are two employees in cellar, who have the use of a fireproof enclosed stairway in southeast corner of building and this stairway in westerly end of building; 2d floor used to store flour; one man goes to 2d floor about five times each day long enough to empty flour into dough mixer feed; from 2d floor is fireproof stairway in northwest and southeast corners.

Exits: Two interior stairways, enclosed with fire-resisting partitions and extending to 3d floor, doors to which open outwardly and are self-closing; one interior iron stairway from 3d to 5th floors; exits remote; no safe egress from roof.

Recommendation: Accept present stairways as means of egress for first three floors; iron stairway as means of egress from 3d to 5th floors, and as second egress from upper floors, while conditions and occupancy remain unchanged, an iron ladder to be firmly secured to north wall on the outside thereof, leading from window on top floor to roof, which will give access to 3d floor and the two fireproof stairways; also an iron ladder from 4th floor, securely fastened inside of building at a point remote from interior stairway, giving access to fireproof stairways from 3d floor. When above exits have been provided, waive orders 12, 14, 15, 16 and 17.

12. Premises affected, Utica, 111-113 John st.; appellant, H. D. Pixley & Sons Co. Additional exit. Enclose stairway, fire-resisting. (Nov. 26, 1917.) 5-story building, non-fireproof; open lofts; no sprinkler; combustibles; no fire alarm. Occupancy, 38; above 1st floor, 35; above 2d floor, 31. Exits: One straight run stairway from 1st to 3d floor, entrance to which at 2d floor is barred; a return type stairway from store on ground floor to 5th floor, partly enclosed with wooden partitions; there was formerly a fire escape on the rear of the building, balconies of which were connected by stairways, but these stairways were removed and the balconies, which were of the party balcony type, were covered with metal on 3d and 4th floors, and the windows on the 3d and 4th floors in this building and the adjoining building made into a non-fireproof door, the well holes of the balconies covered over. Exits, remote: No egress from roof.

Recommendation: Enclose interior stairway, which extends from 1st to 5th floors, to be enclosed with fire-resisting partitions, as per Rule 504-e of the Industrial Code, said enclosure to be properly fire stopped between floors, all openings therein to be provided with self-closing fire doors, opening outwardly, so as not to obstruct the stairways. In view of the small occupancy of the 2d floor, accept as second means of exit therefrom the present interior stairway from 1st to 3d floor, provided the doorway leading to this stairway at the 2d floor is opened and an unobstructed passageway leading thereto maintained at all times. As second means of exit from 3d floor, accept the party balcony fire escape leading to adjoining building. As second means of exit from 4th floor, accept party balcony fire escape leading to adjoining building. As second means of exit from 5th floor, accept party balcony fire escape leading to adjoining building when the window on each side of the fire wall on the 5th floor has been made into a non-fireproof door, measuring at least 2 feet wide by 6 feet high. Acceptance of said balconies, conditioned on same being kept free and clear of ice and snow and to be accessible at all times to the employees in this building.

13. Premises affected, Utica; appellant, The Bossert Corporation. 1—Remove stationary metal bars and wire mesh that obstruct windows on 1-story building facing West ave., or so construct same as to be readily movable or removable. (Sept. 7, 1917.) Supervising Inspector reports as follows: Many windows on 1st floor of this factory have either bars or screens. This part of building faces directly on West ave. Floor space is 31,362 square feet. There are three exits from this building to Hickory st., three on West ave. and three on Linden st. I cannot see any condition in this factory that would make it necessary for employees to use these windows as a means of escape.

14. Premises affected, Mt. Vernon, 5-7 Prospect ave. (Washburn Realty Co., Ltd.); appellant, Automatic Sprinkler Co. of America. Requesting the acceptance of the installation of the Sypho-Chemical Sprinkler service in lieu of providing an approved fire alarm signal system, and enclosing the stairway with fire-resisting partitions. This is a 3-story building, now vacant, which it is proposed to lease for factory purposes. Only one means of exit is now provided, consisting of an interior unenclosed stairway. The architect for the owners advised me that plans for a second means of exit are being prepared. It is probable that more than 25 persons will be employed above the 2d floor and combustibles used.

Recommendation: Accept Sypho-Chemical Sprinkler installation.

15. Premises affected, Mt. Vernon, 13-15 Prospect ave. (Washburn Realty Co., Ltd.); appellant, Automatic Sprinkler Co. of America. Requesting the acceptance of the installation of a Sypho-Chemical Sprinkler system, in lieu of providing an approved fire alarm signal system, and enclosing stairway with partitions of fire-resisting material. Building is three stories high, 1st floor being used for mercantile purposes, 2d floor used for the manufacture of waists by the Victor Mfg. Co., who employ 42 females and 2 males, and the 3d floor is vacant, but will be occupied by the Victor Mfg. Co. with an approximate occupancy of 40. Present exits are one interior unenclosed stairway and a fire escape.

Recommendation: Accept installation of Sypho-Chemical Sprinkler system in lieu of fire alarm signal system and enclosure of stairway, fire-resisting.

And it appearing that there are practical difficulties and unnecessary hardship in complying with the strict provisions of law and the rules and regulations of the Industrial Code in the buildings noted above, and that, in granting said variations, the spirit of the law will be observed and public safety secured; and

It further appearing that each of the appellants herein has been notified that he would be

given an opportunity to appear and be heard at this time and place if he so desired, and such of the appellants who appeared having been heard by the Commission, therefore

Be it resolved by the State Industrial Commission, That each of the appellants herein be granted the variations noted in the recommendation given in each case, with the understanding that same be effective only so long as the conditions remain as of this date.

STATE OF NEW YORK, OFFICE OF THE STATE INDUSTRIAL COMMISSION, ss.:

COFFEY, Secretary of the State Industrial Commission of the State of New York, DO HEREBY CERTIFY that I have compared the foregoing copy of a resolution with the original thereof, duly adopted by the State Industrial Commission on the 29th day of May, 1918, and duly filed in the office of said Commission, and that the same is a true and correct copy and transcript of said resolution and of the whole thereof.

**NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.**

**TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.**

**THE BUILDINGS AND APPURTENANCES** thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 will be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstances of vacating the structures of their tenants will permit.

All the material of buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations, and the sidewalks and curb in front of said buildings, extending within the described area, shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from the demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the openings of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture

of ownership of such buildings, appurtenances or portions as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the date of possession, and the successful bidder will provide and furnish all materials or labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the Contractor.

No buildings, parts of buildings, fixtures or machinery sold for removal under these terms and conditions shall in any case be relocated or re-erected within the lines of any proposed street or other public improvement, and if any such buildings, parts of buildings, fixtures or machinery, etc., shall be relocated or re-erected within the lines of any proposed street or other public improvement, title thereto shall thereupon become vested in The City of New York and a resale at public or private sale may be made in the same manner as if no prior sale thereof had been made.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids, and be it further

Resolved, That while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

Bidders will write out the amount of their bids in addition to inserting the same in figures.

Bidders are requested to make their bids upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done or the supplies are to be furnished.
